(b) The department by rule shall prescribe the requirements
for a representative sample and for sample collection under this section.

This subsection does not prohibit the license holder from harvesting the plants immediately after the preharvest sample is collected.

(b) A license holder may not sell or use harvested plants before the results of a preharvest and, if applicable, postharvest
test performed on a sample representing the plants are received. If the test results are not received before the plants are harvested, the license holder shall dry and store the harvested plants until the results are received.

(c) A license holder may not commingle harvested plants represented by one sample with plants represented by another sample until the results of the tests are received.

(a) If the results of a preharvest or postharvest test performed on a sample show a delta-9 tetrahydrocannabinol concentration of not more than 0.3 percent on a dry weight basis, the license holder may sell or use the plants represented by the sample for any purpose allowed by law.

(b) If the results of a preharvest and, if applicable, postharvest test performed on a sample show a delta-9 tetrahydrocannabinol concentration of more than 0.3 percent on a dry weight basis:

(1) the license holder shall dispose of or destroy all plants represented by the sample:

(A) in the manner prescribed by federal law; or

(B) in a manner approved by the department that does not conflict with federal law; or

(A) trim the plants until the delta-9 tetrahydrocannabinol concentration of the plants is not more than 0.3 percent on a dry weight basis and dispose of the noncompliant parts of the plants in a manner approved by the department;

(B) process the plants into fiber with a delta-9
tetrahydrocannabinol concentration of not more than 0.3 percent on a dry weight basis and dispose of any remaining parts of the plants in a manner approved by the department; or
