(a) The commission shall protect all livestock, exotic livestock, domestic fowl, and exotic fowl from diseases the commission determines require control or eradication. The commission shall adopt and periodically update rules listing the

diseases that require control or eradication by the commission. Section 2001.0045, Government Code, does not apply to rules adopted under this subsection.

(b) The commission may act to eradicate or control any disease or agent of transmission for any disease that affects livestock, exotic livestock, domestic fowl, or exotic fowl, regardless of whether the disease is communicable, even if the agent of transmission is an animal species that is not subject to the jurisdiction of the commission. The commission may adopt any rules necessary to carry out the purposes of this subsection, including rules concerning testing, movement, inspection, and treatment.

(g) The commission's authority to control or eradicate an agent of transmission that is an animal species that is not subject to the jurisdiction of the commission is limited to instances when a disease that threatens livestock, exotic livestock, domestic fowl, or exotic fowl has been confirmed or is suspected to exist in that species and the commission determines that a serious threat to livestock, exotic livestock, domestic fowl, or exotic fowl exists. (p) When the judgment of the court becomes final, the court shall proceed under this subsection.
