In adopting the cycle, the board:

(1) is not required to review and adopt instructional materials for all grade levels in a single year; and

(2) shall give priority to instructional materials in the following subjects:

The board shall adopt rules to provide for a full and complete investigation of instructional materials for each subject in the foundation curriculum every eight years. The adoption of instructional materials for a subject in the foundation curriculum may be extended beyond the eight-year period only if the content of instructional materials for a subject is sufficiently current.
(c) The board shall adopt rules to provide for a full and complete investigation of instructional materials for each subject in the enrichment curriculum on a cycle the board considers appropriate.

(d) At least 12 months before the beginning of the school year for which instructional materials for a particular subject and grade level will be adopted under the review and adoption cycle, the board shall publish notice of the review and adoption cycle for those instructional materials. A request for production must allow submission of open education resource instructional materials that are available for use by the state without charge on the same basis as instructional materials offered for sale.

(d-1) A notice published under Subsection (d) must state that a publisher of adopted instructional materials for a grade level other than prekindergarten must submit an electronic sample of the instructional materials as required by Sections 31.027(a) and (b) and may not submit a print sample copy.

(e) The board shall designate a request for production of instructional materials in a subject area and grade level by the school year in which the instructional materials are intended to be made available in classrooms and not by the school year in which the board makes the request for production.

(f) The board shall amend any request for production issued for the purchase of instructional materials to conform to the instructional materials funding levels provided by the General Appropriations Act for the year of implementation.

(g) In reviewing and adopting instructional materials, the board shall consider a school district's need for technology as well as instructional materials and in any biennium may limit the adoption of instructional materials to provide sufficient resources to purchase technology resources, including digital curriculum.

(h) The board shall include information regarding open education resource instructional materials during the adoption cycle, including any cost savings associated with the adoption of open education resource instructional materials.

The rules must require:

(1) the publisher of the instructional material to pay a fee to the board to cover the cost of the midcycle review and adoption of the instructional material;

(2) the publisher of the instructional material to enter into a contract with the board concerning the instructional material for a term that ends at the same time as any contract entered into by the board for other instructional materials for the same subject and grade level; and

Sec. 31.104. DISTRIBUTION AND HANDLING. (a) The board of trustees of a school district or the governing body of an open-enrollment charter school may delegate to an employee the
authority to requisition, distribute, and manage the inventory of instructional materials in a manner consistent with this chapter and rules adopted under this chapter.

(b) A school district or open-enrollment charter school may order replacements for instructional materials that have been lost or damaged directly from the publisher of the instructional materials or any source for a printed copy of open education resource instructional material.

(c) Except as provided by Subsection (g), a student must return all instructional materials to the teacher at the end of the school year or when the student withdraws from school.

(d) Each student, or the student's parent or guardian, is responsible for all instructional materials and technological equipment not returned in an acceptable condition by the student. A student who fails to return in an acceptable condition all instructional materials and technological equipment forfeits the right to free instructional materials and technological equipment until all instructional materials and technological equipment previously issued but not returned in an acceptable condition are paid for by the student, parent, or guardian. As provided by policy of the board of trustees or governing body, a school district or open-enrollment charter school may waive or reduce the payment requirement if the student is from a low-income family. The district or school shall allow the student to use instructional materials and technological equipment at school during each school day. If instructional materials or technological equipment is not returned in an acceptable condition or paid for, the district or school may withhold the student's records. A district or school may not, under this subsection, prevent a student from graduating, participating in a graduation ceremony, or receiving a diploma. The commissioner by rule shall adopt criteria for determining whether instructional materials and technological equipment are returned in an acceptable condition.

(e) The board of trustees of a school district may not require an employee of the district who acts in good faith to pay for instructional materials or technological equipment that is damaged, stolen, misplaced, or not returned. A school district
employee may not waive this provision by contract or any other means, except that a district may enter into a written agreement with a school employee whereby the employee assumes financial responsibility for electronic instructional material or technological equipment usage off school property or outside of a school-sponsored event in consideration for the ability of the school employee to use the electronic instructional material or technological equipment for personal business. Such a written agreement shall be separate from the employee's contract of employment, if applicable, and shall clearly inform the employee of the amount of the financial responsibility and advise the employee to consider obtaining appropriate insurance. An employee may not be required to agree to such an agreement as a condition of employment.

(g) At the end of the school year for which open education resource instructional material that a school district or open-enrollment charter school does not intend to use for another student is distributed, the printed copy of the open education resource instructional material becomes the property of the student to whom it is distributed.

(h) This section does not apply to an electronic copy of open education resource instructional material.

(a) The board of trustees of a school district or governing body of an open-enrollment charter school may sell printed instructional materials on the date the instructional material is discontinued for use in the public schools by the State Board of Education or the commissioner. The board of trustees or governing body may also sell electronic instructional materials and technological equipment owned by the district or school. Any funds received by a district or school from a sale authorized by this subsection must be used to purchase instructional materials and technological equipment allowed under Section 31.0211.

(b) The board of trustees of a school district or governing body of an open-enrollment charter school shall determine how the district or school will dispose of discontinued printed instructional materials, electronic instructional materials, and technological equipment.

(c) The board of trustees of a school district or governing body of an open-enrollment charter school may dispose of printed instructional material before the date the instructional material is discontinued for use in the public schools by the State Board of Education if the board of trustees or governing body determines that the instructional material is not needed by the district or school and the board of trustees or governing body does not reasonably expect that the instructional material will be needed. A district or school must notify the commissioner of any instructional material the district or school disposes of under this subsection.
