These annual schedules shall include the complete list of all controlled substances from the previous schedules and modifications in the federal schedules of controlled substances as required by Subsection (g). Any further additions to and deletions from these schedules, any rescheduling of substances and any other modifications made by the commissioner to these schedules of controlled substances shall be made:

- (1) in accordance with Section 481.035;
- (2) in a manner consistent with this subchapter; and
- (3) with approval of the executive commissioner.

(b) Except for alterations in schedules required by Subsection (g), the commissioner may not make an alteration in a schedule unless the commissioner holds a public hearing on the matter in Austin and obtains approval from the executive commissioner.

(c) The commissioner may not:

- (1) add a substance to the schedules if the substance has been deleted from the schedules by the legislature;
- (2) delete a substance from the schedules if the substance has been added to the schedules by the legislature; or
- (3) reschedule a substance if the substance has been placed in a schedule by the legislature.

(d) In making a determination regarding a substance, the commissioner shall consider:

- (1) the actual or relative potential for its abuse;
- (2) the scientific evidence of its pharmacological effect, if known;
- (3) the state of current scientific knowledge regarding the substance;
- (4) the history and current pattern of its abuse;
- (5) the scope, duration, and significance of its abuse;
- (6) the risk to the public health;

(7) the potential of the substance to produce psychological or physiological dependence liability; and

(8) whether the substance is a controlled substance analogue, chemical precursor, or an immediate precursor of a substance controlled under this chapter.

(e) After considering the factors listed in Subsection (d), the commissioner shall make findings with respect to those factors. If the commissioner finds the substance has a potential for abuse, the executive commissioner shall adopt a rule controlling the substance.

(f) Repealed by Acts 2003, 78th Leg., ch. 1099, Sec. 17.

(g) Except as otherwise provided by this subsection, if a substance is designated, rescheduled, or deleted as a controlled substance under federal law and notice of that fact is given to the commissioner, the commissioner similarly shall control the substance under this chapter. After the expiration of a 30-day period beginning on the day after the date of publication in the Federal Register of a final order designating a substance as a controlled substance or rescheduling or deleting a substance, the commissioner similarly shall designate, reschedule, or delete the substance, unless the commissioner objects during the period. If the commissioner objects, the commissioner shall publish the reasons for the objection and give all interested parties an opportunity to be heard. At the conclusion of the hearing, the commissioner shall publish a decision, which is final unless altered by statute. On publication of an objection by the commissioner, control as to that particular substance under this chapter is stayed until the commissioner publishes the commissioner's decision.

(h) Not later than the 10th day after the date on which the commissioner designates, deletes, or reschedules a substance under Subsection (a), the commissioner shall give written notice of that action to the director and to each state licensing agency having jurisdiction over practitioners.

(1) has a high potential for abuse; and

(2) has no accepted medical use in treatment in the United States or lacks accepted safety for use in treatment under medical supervision.

(b) The commissioner shall place a substance in Schedule II if the commissioner finds that:

Sec. 481.0355. EMERGENCY SCHEDULING; LEGISLATIVE REPORT.

(a) Except as otherwise provided by Subsection (b) and subject to Subsection (c), the commissioner may emergency schedule a substance as a controlled substance if the commissioner determines the action is necessary to avoid an imminent hazard to the public safety.

(b) The commissioner may not emergency schedule a substance as a controlled substance under this section if:

(1) the substance is already scheduled;

(2) an exemption or approval is in effect for the substance under Section 505, Federal Food, Drug, and Cosmetic Act (21 U.S.C. Section 355); or

(3) the substance is an over-the-counter drug that qualifies for recognition as safe and effective under conditions established by federal regulations of the United States Food and Drug Administration governing over-the-counter drugs.

(c) Before emergency scheduling a substance as a controlled substance under this section, the commissioner shall consult with the Department of Public Safety and may emergency schedule the substance only in accordance with any recommendations provided by the department.

(d) In determining whether a substance poses an imminent hazard to the public safety, the commissioner shall consider:

(1) the scope, duration, symptoms, or significance of abuse;

(2) the degree of detriment that abuse of the

substance may cause;

(3) whether the substance has been temporarily scheduled under federal law; and

(4) whether the substance has been temporarily or permanently scheduled under the law of another state.

(e) If the commissioner emergency schedules a substance as a controlled substance under this section, an emergency exists for purposes of Section 481.036(c) and the action takes effect on the date the schedule is published in the Texas Register.

(f) Except as otherwise provided by Subsection (f-1), an emergency scheduling under this section expires on September 1 of each odd-numbered year for any scheduling that occurs before January 1 of that year.

(f-1) The commissioner may extend the emergency scheduling of a substance under this section not more than once and for a period not to exceed one year by publishing the extension in the Texas Register. If the commissioner extends the emergency scheduling of a substance, an emergency exists for purposes of Section 481.036(c) and the action takes effect on the date the extension is published in the Texas Register.

(g) The commissioner shall post notice about each emergency scheduling of a substance or each extension of an emergency scheduling of a substance under this section on the Internet website of the Department of State Health Services.

(h) Not later than December 1 of each even-numbered year, the commissioner shall submit a report about each emergency scheduling action taken under this section during the preceding two-year period to the governor, the lieutenant governor, the speaker of the house of representatives, and each legislative standing committee with primary jurisdiction over the department and each legislative standing committee with primary jurisdiction over criminal justice matters.

A practitioner may not be compelled in a state or local civil, criminal, administrative, legislative, or other proceeding

Sec. 481.071. MEDICAL PURPOSE REQUIRED BEFORE PRESCRIBING, DISPENSING, DELIVERING, OR ADMINISTERING CONTROLLED SUBSTANCE. (a) A practitioner defined by Section 481.002(39)(A) may not prescribe, dispense, deliver, or administer a controlled substance or cause a controlled substance to be administered under the practitioner's direction and supervision except for a valid medical purpose and in the course of medical practice.

(b) An anabolic steroid or human growth hormone listed in Schedule III may only be:

(1) dispensed, prescribed, delivered, or administered by a practitioner, as defined by Section 481.002(39)(A), for a valid medical purpose and in the course of professional practice; or

(2) dispensed or delivered by a pharmacist according to a prescription issued by a practitioner, as defined by Section 481.002(39)(A) or (C), for a valid medical purpose and in the course of professional practice.

(c) For the purposes of Subsection (b), bodybuilding, muscle enhancement, or increasing muscle bulk or strength through

the use of an anabolic steroid or human growth hormone listed in Schedule III by a person who is in good health is not a valid medical purpose.

Sec. 481.072. MEDICAL PURPOSE REQUIRED BEFORE DISTRIBUTING OR DISPENSING SCHEDULE V CONTROLLED SUBSTANCE. A person may not distribute or dispense a controlled substance listed in Schedule V except for a valid medical purpose.

Acts 1989, 71st Leg., ch. 678, Sec. 1, eff. Sept. 1, 1989.

Sec. 481.074. PRESCRIPTIONS. (a) A pharmacist may not:

(1) dispense or deliver a controlled substance or cause a controlled substance to be dispensed or delivered under the pharmacist's direction or supervision except under a valid prescription and in the course of professional practice;

(2) dispense a controlled substance if the pharmacist knows or should have known that the prescription was issued without a valid patient-practitioner relationship;

(3) fill a prescription that is not prepared or issued as prescribed by this chapter;

(4) permit or allow a person who is not a licensed pharmacist or pharmacist intern to dispense, distribute, or in any other manner deliver a controlled substance even if under the supervision of a pharmacist, except that after the pharmacist or pharmacist intern has fulfilled his professional and legal responsibilities, a nonpharmacist may complete the actual cash or credit transaction and delivery; or

(5) permit the delivery of a controlled substance to any person not known to the pharmacist, the pharmacist intern, or the person authorized by the pharmacist to deliver the controlled substance without first requiring identification of the person taking possession of the controlled substance, except as provided by Subsection (n).

(b) Except in an emergency as defined by board rule under

Subsection (b-1) or as otherwise provided by Section 481.075(j) or (m) or 481.0755, a person may not dispense or administer a controlled substance without an electronic prescription that meets the requirements of and is completed by the practitioner in accordance with Section 481.075.

(b-1) In an emergency as defined by board rule, a person may dispense or administer a controlled substance on the oral or telephonically communicated prescription of a practitioner. The person who administers or dispenses the substance shall:

(1) if the person is a prescribing practitioner or a pharmacist, promptly comply with Subsection (c); or

(2) if the person is not a prescribing practitioner or a pharmacist, promptly write the oral or telephonically communicated prescription and include in the written record of the prescription the name, address, and Federal Drug Enforcement Administration number issued for prescribing a controlled substance in this state of the prescribing practitioner, all information required to be provided by a practitioner under Section 481.075(e)(1), and all information required to be provided by a dispensing pharmacist under Section 481.075(e)(2).

(b-2) In an emergency described by Subsection (b-1), an agent designated in writing by a practitioner defined by Section 481.002(39)(A) may communicate a prescription by telephone. A practitioner who designates a different agent shall designate that agent in writing and maintain the designation in the same manner in which the practitioner initially designated an agent under this subsection. On the request of a pharmacist, a practitioner shall furnish a copy of the written designation. This subsection does not relieve a practitioner or the practitioner's designated agent from the requirement of Subchapter A, Chapter 562, Occupations Code. A practitioner is personally responsible for the actions of the designated agent in communicating a prescription to a pharmacist.

(c) Not later than the seventh day after the date a prescribing practitioner authorizes an emergency oral or telephonically communicated prescription, the prescribing practitioner shall cause an electronic prescription, completed in the manner required by Section 481.075, to be delivered to the

dispensing pharmacist at the pharmacy where the prescription was dispensed. On receipt of the electronic prescription, the pharmacist shall annotate the electronic prescription record with the original authorization and date of the emergency oral or telephonically communicated prescription.

(d) Except as specified in Subsections (e) and (f), the board, by rule and in consultation with the Texas Medical Board, shall establish the period after the date on which the prescription is issued that a person may fill a prescription for a controlled substance listed in Schedule II. A person may not refill a prescription for a substance listed in Schedule II.

(d-1) Notwithstanding Subsection (d), a prescribing practitioner may issue multiple prescriptions authorizing the patient to receive a total of up to a 90-day supply of a Schedule II controlled substance if:

(1) each separate prescription is issued for a legitimate medical purpose by a prescribing practitioner acting in the usual course of professional practice;

(2) the prescribing practitioner provides instructions on each prescription to be filled at a later date indicating the earliest date on which a pharmacy may fill each prescription;

(3) the prescribing practitioner concludes that providing the patient with multiple prescriptions in this manner does not create an undue risk of diversion or abuse; and

(4) the issuance of multiple prescriptions complies with other applicable state and federal laws.

(e) The partial filling of a prescription for a controlled substance listed in Schedule II is permissible in accordance with applicable federal law.

(f) A prescription for a Schedule II controlled substance for a patient in a long-term care facility (LTCF) or for a hospice patient with a medical diagnosis documenting a terminal illness may be filled in partial quantities to include individual dosage units. If there is any question about whether a hospice patient may be classified as having a terminal illness, the pharmacist must contact the practitioner before partially filling the

prescription. Both the pharmacist and the practitioner have a corresponding responsibility to assure that the controlled substance is for a terminally ill hospice patient. The pharmacist must record the prescription in the electronic prescription record and must indicate in the electronic prescription record whether the patient is a "terminally ill hospice patient" or an "LTCF patient." A prescription that is partially filled and does not contain the notation "terminally ill hospice patient" or "LTCF patient" is considered to have been filled in violation of this chapter. For each partial filling, the dispensing pharmacist shall record in the electronic prescription record the date of the partial filling, the quantity dispensed, the remaining quantity authorized to be dispensed, and the identification of the dispensing pharmacist. Before any subsequent partial filling, the pharmacist must determine that the additional partial filling is necessary. The total quantity of Schedule II controlled substances dispensed in all partial fillings may not exceed the total quantity prescribed. Schedule II prescriptions for patients in a long-term care facility or hospice patients with a medical diagnosis documenting a terminal illness are valid for a period not to exceed 60 days following the issue date unless sooner terminated by discontinuance of the medication.

(g) A person may not dispense a controlled substance in Schedule III or IV that is a prescription drug under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Section 301 et seq.) without a prescription of a practitioner defined by Section [481.002\(39\)\(A\)](#) or (D), except that the practitioner may dispense the substance directly to an ultimate user. A prescription for a controlled substance listed in Schedule III or IV may not be filled or refilled later than six months after the date on which the prescription is issued and may not be refilled more than five times, unless the prescription is renewed by the practitioner. A prescription under this subsection must comply with other applicable state and federal laws.

(h) A pharmacist may dispense a controlled substance listed in Schedule III, IV, or V under a prescription issued by a practitioner defined by Section [481.002\(39\)\(C\)](#) only if the

pharmacist determines that the prescription was issued for a valid medical purpose and in the course of professional practice. A prescription described by this subsection may not be filled or refilled later than six months after the date the prescription is issued and may not be refilled more than five times, unless the prescription is renewed by the practitioner.

(i) A person may not dispense a controlled substance listed in Schedule V and containing 200 milligrams or less of codeine, or any of its salts, per 100 milliliters or per 100 grams, or containing 100 milligrams or less of dihydrocodeine, or any of its salts, per 100 milliliters or per 100 grams, without the prescription of a practitioner defined by Section 481.002(39)(A), except that a practitioner may dispense the substance directly to an ultimate user. A prescription issued under this subsection may not be filled or refilled later than six months after the date the prescription is issued and may not be refilled more than five times, unless the prescription is renewed by the practitioner.

(j) A practitioner or institutional practitioner may not allow a patient, on the patient's release from the hospital, to possess a controlled substance prescribed by the practitioner unless:

(1) the substance was dispensed under a medication order while the patient was admitted to the hospital;

(2) the substance is in a properly labeled container;
and

(3) the patient possesses not more than a seven-day supply of the substance.

(k) A prescription for a controlled substance must show:

(1) the quantity of the substance prescribed:

(A) numerically, if the prescription is electronic; or

(B) if the prescription is communicated orally or telephonically, as transcribed by the receiving pharmacist;

(2) the date of issue;

(2-a) if the prescription is issued for a Schedule II controlled substance to be filled at a later date under Subsection (d-1), the earliest date on which a pharmacy may fill the

prescription;

(3) the name, address, and date of birth or age of the patient or, if the controlled substance is prescribed for an animal, the species of the animal and the name and address of its owner;

(4) the name and strength of the controlled substance prescribed;

(5) the directions for use of the controlled substance;

(6) the intended use of the substance prescribed unless the practitioner determines the furnishing of this information is not in the best interest of the patient; and

(7) the name, address, Federal Drug Enforcement Administration number, and telephone number of the practitioner at the practitioner's usual place of business.

(1) A pharmacist may exercise his professional judgment in refilling a prescription for a controlled substance in Schedule III, IV, or V without the authorization of the prescribing practitioner provided:

(1) failure to refill the prescription might result in an interruption of a therapeutic regimen or create patient suffering;

(2) either:

(A) a natural or manmade disaster has occurred which prohibits the pharmacist from being able to contact the practitioner; or

(B) the pharmacist is unable to contact the practitioner after reasonable effort;

(3) the quantity of prescription drug dispensed does not exceed a 72-hour supply;

(5) the pharmacist informs the practitioner of the emergency refill at the earliest reasonable time.

(1-1) Notwithstanding Subsection (1), in the event of a

natural or manmade disaster, a pharmacist may dispense not more than a 30-day supply of a prescription drug, other than a controlled substance listed in Schedule II, without the authorization of the prescribing practitioner if:

(1) failure to refill the prescription might result in an interruption of a therapeutic regimen or create patient suffering;

(2) the natural or manmade disaster prohibits the pharmacist from being able to contact the practitioner;

(3) the governor has declared a state of disaster under Chapter 418, Government Code; and

(4) the Texas State Board of Pharmacy, through its executive director, has notified pharmacies in this state that pharmacists may dispense up to a 30-day supply of a prescription drug.

(1-2) The prescribing practitioner is not liable for an act or omission by a pharmacist in dispensing a prescription drug under Subsection (1-1).

(m) A pharmacist may permit the delivery of a controlled substance by an authorized delivery person, by a person known to the pharmacist, a pharmacist intern, or the authorized delivery person, or by mail to the person or address of the person authorized by the prescription to receive the controlled substance. If a pharmacist permits delivery of a controlled substance under this subsection, the pharmacist shall retain in the records of the pharmacy for a period of not less than two years:

(1) the name of the authorized delivery person, if delivery is made by that person;

(2) the name of the person known to the pharmacist, a pharmacist intern, or the authorized delivery person if delivery is made by that person; or

(3) the mailing address to which delivery is made, if delivery is made by mail.

(n) A pharmacist may permit the delivery of a controlled substance to a person not known to the pharmacist, a pharmacist intern, or the authorized delivery person without first requiring the identification of the person to whom the controlled substance

If a pharmacist permits delivery of a controlled substance under this subsection, the pharmacist shall retain in the records of the pharmacy for a period of not less than two years all information relevant to the delivery known to the pharmacist, including the name, address, and date of birth or age of the person to whom the controlled substance is delivered.

(1) record or direct a designated agent to record in the electronic prescription each item of information required to be provided by the prescribing practitioner under Subsection (e)(1), unless the practitioner determines that:

(A) under rule adopted by the board for this purpose, it is unnecessary for the practitioner or the practitioner's agent to provide the patient identification number; or

(B) it is not in the best interest of the patient for the practitioner or practitioner's agent to provide information regarding the intended use of the controlled substance or the diagnosis for which it is prescribed; and

(2) electronically sign or validate the electronic prescription as authorized by federal law and transmit the prescription to the dispensing pharmacy.

(h) In the case of an emergency oral or telephonically communicated prescription described by Section 481.074(b-1), the prescribing practitioner shall give the dispensing pharmacy the information needed to complete the electronic prescription record.

(2) the prescription is issued by a prescribing practitioner in the other state in the ordinary course of practice; and

(3) the prescription is filled in compliance with a written plan providing the manner in which the pharmacy may fill a Schedule II prescription issued by a practitioner in another state that:

(B) is approved by the board.

(n) A person dispensing a Schedule II controlled substance under a prescription shall provide written notice, as defined by board rule adopted under Subsection (o), on the safe disposal of controlled substance prescription drugs, unless:

(o) The board shall adopt rules to prescribe the form of the written notice on the safe disposal of controlled substance prescription drugs required under Subsection (n). The notice must include information on locations at which Schedule II controlled substance prescription drugs are accepted for safe disposal. The

notice, in lieu of listing those locations, may provide the address of an Internet website specified by the board that provides a searchable database of locations at which Schedule II controlled substance prescription drugs are accepted for safe disposal.

Sec. 481.0755. WRITTEN, ORAL, AND TELEPHONICALLY

COMMUNICATED PRESCRIPTIONS. (a) Notwithstanding Sections [481.074](#) and [481.075](#), a prescription for a controlled substance is not required to be issued electronically and may be issued in writing if the prescription is issued:

- (1) by a veterinarian;
- (2) in circumstances in which electronic prescribing is not available due to temporary technological or electronic failure, as prescribed by board rule;
- (3) by a practitioner to be dispensed by a pharmacy located outside this state, as prescribed by board rule;
- (4) when the prescriber and dispenser are in the same location or under the same license;
- (5) in circumstances in which necessary elements are not supported by the most recently implemented national data standard that facilitates electronic prescribing;
- (6) for a drug for which the United States Food and Drug Administration requires additional information in the prescription that is not possible with electronic prescribing;
- (7) for a non-patient-specific prescription pursuant to a standing order, approved protocol for drug therapy, collaborative drug management, or comprehensive medication management, in response to a public health emergency or in other circumstances in which the practitioner may issue a non-patient-specific prescription;
- (8) for a drug under a research protocol;
- (9) by a practitioner who has received a waiver under Section [481.0756](#) from the requirement to use electronic prescribing;
- (10) under circumstances in which the practitioner has the present ability to submit an electronic prescription but reasonably determines that it would be impractical for the patient to obtain the drugs prescribed under the electronic prescription in a timely manner and that a delay would adversely impact the patient's medical condition; or
- (11) before January 1, 2021.

(b) A dispensing pharmacist who receives a controlled substance prescription in a manner other than electronically is not

required to verify that the prescription is exempt from the requirement that it be submitted electronically. The pharmacist may dispense a controlled substance pursuant to an otherwise valid written, oral, or telephonically communicated prescription consistent with the requirements of this subchapter.

(c) Except in an emergency, a practitioner must use a written prescription to submit a prescription described by Subsection (a). In an emergency, the practitioner may submit an oral or telephonically communicated prescription as authorized under Section [481.074\(b-1\)](#).

(d) A written prescription for a controlled substance other than a Schedule II controlled substance must include the information required under Section [481.074\(k\)](#) and the signature of the prescribing practitioner.

(e) A written prescription for a Schedule II controlled substance must be on an official prescription form and include the information required for an electronic prescription under Section [481.075\(e\)](#), the signature of the practitioner, and the signature of the dispensing pharmacist after the prescription is filled.

(f) The board by rule shall authorize a practitioner to determine whether it is necessary to obtain a particular patient identification number and to provide that number on the official prescription form.

(g) On request of a practitioner, the board shall issue official prescription forms to the practitioner for a fee covering the actual cost of printing, processing, and mailing the forms. Before mailing or otherwise delivering prescription forms to a practitioner, the board shall print on each form the number of the form and any other information the board determines is necessary.

(h) Each official prescription form must be sequentially numbered.

(i) A person may not obtain an official prescription form unless the person is a practitioner as defined by Section [481.002\(39\)\(A\)](#) or an institutional practitioner.

(j) Not more than one Schedule II prescription may be recorded on an official prescription form.

(k) Not later than the 30th day after the date a practitioner's Federal Drug Enforcement Administration number or license to practice has been denied, suspended, canceled, surrendered, or revoked, the practitioner shall return to the board all official prescription forms in the practitioner's possession that have not been used for prescriptions.

(1) Each prescribing practitioner:

(1) may use an official prescription form only to submit a prescription described by Subsection (a);

(2) shall date or sign an official prescription form only on the date the prescription is issued; and

(3) shall take reasonable precautionary measures to ensure that an official prescription form issued to the practitioner is not used by another person to violate this subchapter or a rule adopted under this subchapter.

(m) In the case of an emergency oral or telephonically communicated prescription described by Section [481.074\(b-1\)](#), the prescribing practitioner shall give the dispensing pharmacy the information needed to complete the official prescription form if the pharmacy is not required to use the electronic prescription record.

(n) Each dispensing pharmacist receiving an oral or telephonically communicated prescription under Subsection (m) shall:

(1) fill in on the official prescription form each item of information given orally to the dispensing pharmacy under Subsection (m) and the date the prescription is filled and fill in the dispensing pharmacist's signature;

(2) retain with the records of the pharmacy for at least two years:

(A) the official prescription form; and

(B) the name or other patient identification required by Section [481.074\(m\)](#) or (n); and

(3) send all required information, including any information required to complete an official prescription form, to the board by electronic transfer or another form approved by the board not later than the next business day after the date the

prescription is completely filled.

Sec. 481.0756. WAIVERS FROM ELECTRONIC PRESCRIBING.

(a) The appropriate regulatory agency that issued the license, certification, or registration to a prescriber is authorized to grant a prescriber a waiver from the electronic prescribing requirement under the provisions of this section.

(b) The board shall convene an interagency workgroup that includes representatives of each regulatory agency that issues a license, certification, or registration to a prescriber.

(c) The work group described by Subsection (b) shall establish recommendations and standards for circumstances in which a waiver from the electronic prescribing requirement is appropriate and a process under which a prescriber may request and receive a waiver.

(d) The board shall adopt rules establishing the eligibility for a waiver, including:

- (1) economic hardship;
- (2) technological limitations not reasonably within the control of the prescriber; or
- (3) other exceptional circumstances demonstrated by the prescriber.

(e) Each regulatory agency that issues a license, certification, or registration to a prescriber shall adopt rules for the granting of waivers consistent with the board rules adopted under Subsection (d).

(f) A waiver may be issued to a prescriber for a period of one year. A prescriber may reapply for a subsequent waiver not earlier than the 30th day before the date the waiver expires if the circumstances that necessitated the waiver continue.

(a-6) A patient, the patient's parent or legal guardian, if the patient is a minor, or the patient's legal guardian, if the

patient is an incapacitated person, as defined by Section [1002.017\(2\)](#), Estates Code, is entitled to a copy of the patient's prescription record as provided by Subsection (a)(9), including a list of persons who have accessed that record, if a completed patient data request form and any supporting documentation required by the board is submitted to the board. (c) The board by rule shall design and implement a system for submission of information to the board by electronic or other means and for retrieval of information submitted to the board under this section and Sections [481.074](#) and [481.075](#). The board shall use automated information security techniques and devices to preclude improper access to the information. The board shall submit the system design to the director and the Texas Medical Board for review and comment a reasonable time before implementation of the system and shall comply with the comments of those agencies unless it is unreasonable to do so.

However, the board may retain a patient identity that is necessary for use in a specific ongoing investigation conducted in accordance with this section until the 30th day after the end of the month in which the necessity for retention of the identity ends.

(f) If the board accesses information under Subsection (a)(2) relating to a person licensed or regulated by an agency listed in Subsection (a)(1), the board shall notify and cooperate with that agency regarding the disposition of the matter before taking action against the person, unless the board determines that notification is reasonably likely to interfere with an administrative or criminal investigation or prosecution.

Sec. 481.0761. RULES; AUTHORITY TO CONTRACT. (a) The board shall by rule establish and revise as necessary a standardized database format that may be used by a pharmacy to transmit the information required by Sections 481.074(q) and 481.075(i) to the board electronically or to deliver the information on storage media, including disks, tapes, and cassettes.

(b) The director shall consult with the Department of State Health Services, the Texas State Board of Pharmacy, and the Texas Medical Board and by rule may:

(1) remove a controlled substance listed in Schedules II through V from the official prescription program, if the director determines that the burden imposed by the program substantially outweighs the risk of diversion of the particular controlled substance; or

(2) return a substance previously removed from Schedules II through V to the official prescription program, if the director determines that the risk of diversion substantially outweighs the burden imposed by the program on the particular controlled substance.

(c) The board by rule may:

(1) establish a procedure for the issuance of multiple prescriptions of a Schedule II controlled substance under Section 481.074(d-1);

(2) remove from or return to the official prescription program any aspect of a practitioner's or pharmacist's hospital practice, including administering or dispensing;

(3) waive or delay any requirement relating to the time or manner of reporting;

(4) establish compatibility protocols for electronic data transfer hardware, software, or format, including any necessary modifications for participation in a database described by Section 481.076(j);

(5) establish a procedure to control the release of information under Sections 481.074, 481.075, and 481.076; and

(6) establish a minimum level of prescription activity below which a reporting activity may be modified or deleted.

(d) The board by rule shall authorize a practitioner to determine whether it is necessary to obtain a particular patient identification number and to provide that number in the electronic prescription record.

(e) In adopting a rule relating to the electronic transfer of information under this subchapter, the board shall consider the economic impact of the rule on practitioners and pharmacists and, to the extent permitted by law, act to minimize any negative economic impact, including the imposition of costs related to computer hardware or software or to the transfer of information.

(f) The board may authorize a contract between the board and another agency of this state or a private vendor as necessary to ensure the effective operation of the official prescription program.

(g) The board may adopt rules providing for a person authorized to access information under Section 481.076(a)(5) to be enrolled in electronic access to the information described by Section 481.076(a) at the time the person obtains or renews the person's applicable professional or occupational license or registration.

(h) The board, in consultation with the department and the regulatory agencies listed in Section 481.076(a)(1), shall identify prescribing practices that may be potentially harmful and patient prescription patterns that may suggest drug diversion or drug abuse. The board shall determine the conduct that constitutes a potentially harmful prescribing pattern or practice and develop indicators for levels of prescriber or patient activity that suggest a potentially harmful prescribing pattern or practice may be occurring or drug diversion or drug abuse may be occurring.

(i) The board, based on the indicators developed under Subsection (h), may send an electronic notification to a dispenser or prescriber if the information submitted under Section 481.074(q) or 481.075 indicates a potentially harmful prescribing pattern or

practice may be occurring or drug diversion or drug abuse may be occurring.

(j) The board by rule may develop guidelines identifying behavior suggesting a patient is obtaining controlled substances that indicate drug diversion or drug abuse is occurring. A pharmacist who observes behavior described by this subsection by a person who is to receive a controlled substance shall access the information under Section [481.076\(a\)\(5\)](#) regarding the patient for whom the substance is to be dispensed.

(k) The board by rule may develop guidelines identifying patterns that may indicate that a particular patient to whom a controlled substance is prescribed or dispensed is engaging in drug abuse or drug diversion. These guidelines may be based on the frequency of prescriptions issued to and filled by the patient, the types of controlled substances prescribed, and the number of prescribers who prescribe controlled substances to the patient. The board may, based on the guidelines developed under this subsection, send a prescriber or dispenser an electronic notification if there is reason to believe that a particular patient is engaging in drug abuse or drug diversion.

(b) A regulatory agency that issues a license, certification, or registration to a prescriber shall periodically access the information submitted to the board under Sections 481.074(q) and 481.075 to determine whether a prescriber is engaging in potentially harmful prescribing patterns or practices.

(c) If the board sends a prescriber an electronic notification authorized under Section 481.0761(i), the board shall immediately send an electronic notification to the appropriate regulatory agency.

(d) In determining whether a potentially harmful prescribing pattern or practice is occurring, the appropriate regulatory agency, at a minimum, shall consider:

(1) the number of times a prescriber prescribes opioids, benzodiazepines, barbiturates, or carisoprodol; and

(2) for prescriptions described by Subdivision (1), patterns of prescribing combinations of those drugs and other dangerous combinations of drugs identified by the board.

(e) If, during a periodic check under this section, the regulatory agency finds evidence that a prescriber may be engaging in potentially harmful prescribing patterns or practices, the regulatory agency may notify that prescriber.

(f) A regulatory agency may open a complaint against a prescriber if the agency finds evidence during a periodic check under this section that the prescriber is engaging in conduct that violates this subchapter or any other statute or rule.

(1) retain the property or plant for its official purposes, including use in the investigation of offenses under this code;

(1) employ a qualified individual to conduct

qualitative and quantitative analyses of the property or plant before and after their use in an investigation;

(2) maintain the property or plant in a secure storage area accessible only to the law enforcement agency head and the individual responsible for analyzing, preserving, and maintaining security over the property or plant; and

If the court determines that a person had lawful possession of and title to the controlled substance property or

plant before it was seized, the court shall order the controlled substance property or plant returned to the person, if the person so desires. The court may only order the destruction of a controlled substance property or plant that is not otherwise disposed of in the manner prescribed by Section [481.160](#).

(1) at least five random and representative samples are taken from the total amount of the property or plant and a sufficient quantity is preserved to provide for discovery by parties entitled to discovery;

(2) photographs are taken that reasonably depict the total amount of the property or plant; and

(3) the gross weight or liquid measure of the property or plant is determined, either by actually weighing or measuring the property or plant or by estimating its weight or measurement after making dimensional measurements of the total amount seized.

(b) If the property consists of a single container of liquid, taking and preserving one representative sample complies

with Subsection (a)(1).

(c) A representative sample, photograph, or record made under this section is admissible in civil or criminal proceedings in the same manner and to the same extent as if the total quantity of the suspected controlled substance property or plant was offered in evidence, regardless of whether the remainder of the property or plant has been destroyed. An inference or presumption of spoliation does not apply to a property or plant destroyed under this section.

(d) If hazardous waste, residuals, contaminated glassware, associated equipment, or by-products from illicit chemical laboratories or similar operations that create a health or environmental hazard or are not capable of being safely stored are forfeited, those items may be disposed of under Subsection (a) or may be seized and summarily forfeited and destroyed by a law enforcement agency without a court order before the disposition of a case arising out of the forfeiture if current environmental protection standards are followed.
