(1) in what respects the filing fails to meet those requirements;

(2) the date the filing is no longer in effect, which must be within a reasonable period that is not less than 60 days after the date the order is issued; and

The report must include an analysis of:

(1) the projected workers' compensation premium savings realized by employers as a result of the reforms;
(2) the impact of the reforms on:
(A) the percentage of employers who provide workers' compensation insurance coverage for their employees; and
(B) to the extent possible, economic development and job creation;
(3) the effects of the reforms on market competition and carrier financial solvency, including an analysis of how carrier loss ratios, combined ratios, and use of individual risk variations have changed since implementation of the reforms; and
(4) the extent of participation in workers' compensation health care networks by small and medium-sized employers.

(b) If the commissioner determines that workers' compensation rate filings or premium levels analyzed by the department do not appropriately reflect the savings associated with the reforms described by Subsection (a), the commissioner shall include in the report required under Subsection (a) any recommendations, including any recommended legislative changes,
necessary to identify the tools needed by the department to more effectively regulate workers' compensation rates.

(c) At the request of the department, each insurance company shall submit to the department all data and other information considered necessary by the commissioner to generate the report required under Subsection (a). (a) Regardless of a change in a policyholder's ownership, control, management, or operations, incurred claims experience must be used in future ratings to ensure that an employer does not evade an unfavorable or high-cost experience.

(b) On application by an affected party, the department may modify a rating under Subsection (a) on proof that a change in a policyholder's management or operations is clearly designed to result in a probable reduction of the insured's loss experience.

(c) The commissioner shall adopt rules necessary to implement this section.

The commissioner may consider other factors in determining whether a change in rates has impacted the premium charged to policyholders.

(d) The commissioner shall implement rules as necessary to mandate rate reductions or to modify the use of individual risk variations if the commissioner determines that the rates or premiums charged by insurance companies do not meet the rating standards as defined in this code.

(e) The commissioner shall adopt rules as necessary to mandate rate or premium reductions by insurance companies for the use of cost-containment strategies that result in savings to the workers' compensation system, including use of a workers' compensation health care network health care delivery system, as described by Chapter 1305.

The commissioner may reduce or eliminate reporting requirements for insurance companies whose workers' compensation insurance business falls below a specific minimum premium volume established by the commissioner by rule.
