TITLE 4. REGULATION OF SOLVENCY

SUBTITLE B. RESERVES AND INVESTMENTS

CHAPTER 425. RESERVES AND INVESTMENTS FOR LIFE INSURANCE

COMPANIES AND RELATED ENTITIES

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 425.001. SECURITIES IN AMOUNT OF RESERVES REQUIRED. The commissioner, after determining the amount of the reserves required on all of a life insurance company's policies in force, shall ensure that the company has at least that amount in securities of the class and character required by the law of this state, after all debts and claims against the company and the minimum capital required by Chapter [841](#) or [982](#), as applicable, have been provided for.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. [2017](#)), Sec. 1, eff. April 1, 2007.

Sec. 425.002. CERTAIN INSURERS: DEPOSIT OF SECURITIES, MONEY, OR PROPERTY IN AMOUNT OF LEGAL RESERVES. (a) Except as provided by Subsection (b), a life insurance company incorporated under the laws of this state may deposit with the department, for the common benefit of all the holders of the company's policies and annuity contracts and in an amount equal to the legal reserve on all the company's outstanding policies and contracts in force, securities of the character in which the law of this state permits the company to invest, or against which the law of this state permits the company to loan, the company's capital, surplus, or reserves.

(b) A life insurance company may not make a new deposit of securities after August 28, 1961, except to the extent expressly required by Section [425.003](#).

(c) For purposes of this section, securities may be physically delivered to the department without being accompanied by a written transfer of a lien securing the securities. A life insurance company may deposit registered or unregistered United

States government securities under this section.

(d) A life insurance company may deposit lawful money of the United States instead of all or part of the securities described by Subsection (a). A company may, for the purposes of the deposit described by Subsection (a), convey to the department in trust the real property in which any part of the company's reserve is lawfully invested. If the company conveys the property, the department shall hold the title to the property in trust until the company deposits with the department securities to take the place of the property, at which time the department shall reconvey the property to the company.

(e) The department may have any securities or real property appraised and valued before the securities or real property may be deposited with or conveyed to the department under this section. The life insurance company shall pay the reasonable expense of the appraisal or valuation.

(f) For purposes of state, county, and municipal taxation, the situs of the deposited securities is the municipality and county in which the life insurance company's charter requires the principal business office of the company making the deposit to be located.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.003. CERTAIN INSURERS: REQUIRED DEPOSITS OF SECURITIES; ADDITIONAL DEPOSITS AND WITHDRAWALS. (a) A life insurance company that, before August 28, 1961, issued or assumed the obligations of policies or annuity contracts that were registered as provided by Article 3.18, as that article existed before August 28, 1961, shall have on deposit with the department securities of the character described by Section 425.002 in an amount equal to or greater than the aggregate net value of the company's outstanding registered policies and annuity contracts in force.

(b) To comply with Subsection (a), a life insurance company shall periodically make additional deposits of securities in amounts of not less than \$5,000. A company whose deposits exceed

the aggregate net value of the company's outstanding registered policies and annuity contracts in force may periodically withdraw the excess in amounts of not less than \$5,000. A company may at any time withdraw any of the company's deposited securities by depositing in their place securities of equal value to the securities replaced and of a character authorized by this chapter.

(c) A life insurance company may at any time collect the interest, rents, and other income from the company's securities on deposit.

(d) The net value of each policy or annuity contract subject to this section is the policy's or contract's value according to the standard prescribed by state law when the first premium on the policy or contract is paid, minus the amount of any liens the life insurance company has against the policy or contract not to exceed the policy's or contract's value.

(e) The department shall hold a life insurance company's securities on deposit with the department under this section in trust for the benefit of all holders of the company's outstanding policies and annuity contracts that were registered as provided by Article 3.18, as that article existed before August 28, 1961.

(f) A life insurance company that has outstanding registered policies or annuity contracts in force may not reinsure all or any part of that outstanding business, other than in a company authorized to engage in business in this state.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. [2017](#)), Sec. 1, eff. April 1, 2007.

Sec. 425.004. RECORDS OF SECURITIES DEPOSITED WITH DEPARTMENT; REPORT OF VALUE. Each life insurance company that is required by Section [425.003](#) to have securities on deposit with the department shall:

(1) keep records of:

(A) all of the company's outstanding registered policies and annuity contracts in force; and

(B) the net value of those policies and contracts; and

(2) not later than the 15th day after the last day of

each calendar month, file with the department a report stating whether the value of the company's securities on deposit is equal to or greater than the aggregate net value of the company's registered policies and annuity contracts outstanding and in force at the end of the preceding calendar month.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.005. DEPARTMENT DUTIES REGARDING DEPOSITED SECURITIES; INSURANCE COMPANY ACCESS. (b) The life insurance company's officers may, in accordance with reasonable rules adopted by the commissioner, have access to the securities to detach interest coupons, credit payment, and exchange securities as provided by Section 425.003.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.006. ADDITIONAL RESERVES REQUIRED: SUBSTANDARD OR EXTRA HAZARDOUS POLICIES. (a) If a life insurance company engaged in business under the laws of this state has written or assumed risks that are substandard or extra hazardous and has charged more for the policies under which those risks are written or assumed than the company's published premium rates, the commissioner shall, in valuing those policies, compute and charge extra reserves on the policies as necessary because of the extra hazard assumed and the extra premium charged.

(b) If the commissioner determines, after notice and hearing, that a particular risk or class of risks is substandard or extra hazardous, a life insurance company may not, after the determination is made, write or assume the particular risk or class of risks unless the company charges an extra premium as necessary because of the extra hazard assumed.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff.

April 1, 2007.

Sec. 425.007. SUBSCRIPTION TO OR UNDERWRITING PURCHASE OR SALE OF SECURITIES OR PROPERTY PROHIBITED; CONTROL OF DISPOSITION OF PROPERTY. (a) A life insurance company organized under the laws of this state may not:

(4) enter into any agreement to withhold from sale any of the company's property.

(b) The disposition of the life insurance company's property must be at all times within the control of the company's board of directors.

(2) be in the form and contain the substance specified by commissioner rule and be acceptable to the commissioner.

(e) The commissioner may accept as an opinion required to be submitted under Subsection (b) by a foreign or alien company the opinion filed by that company with the insurance supervisory official of another state if the commissioner determines that the opinion filed in the other state reasonably meets the requirements applicable to a company domiciled in this state.

(f) Except as exempted by or as otherwise provided by commissioner rule, a life insurance company shall include in the opinion required by Subsection (b) an opinion that states whether the reserves and related actuarial items held in support of the policies and contracts specified by commissioner rule adequately provide for the company's obligations under the policies and contracts, including the benefits under and expenses associated with the policies and contracts.

(m) Disclosing information or providing a document to the commissioner under this section, or sharing information as authorized under this section, does not result in a waiver of any applicable privilege or claim of confidentiality that may apply to the document or information.

(n) A memorandum in support of the opinion, and any other material provided by the company to the commissioner in connection with the memorandum, may be subject to subpoena for the purpose of defending an action seeking damages from the actuary submitting the memorandum by reason of an action required by this section or rules adopted under this section.

(o) The memorandum or other material provided by the company to the commissioner in connection with the memorandum may otherwise be released by the commissioner with the written consent of the company, or to the Actuarial Board for Counseling and Discipline or its successor on receipt of a request stating that the memorandum or other material is required for the purpose of professional disciplinary proceedings and setting forth procedures satisfactory to the commissioner for preserving the confidentiality and privileged status of the memorandum or other material.

(p) The memorandum ceases to be confidential and privileged if:

(2) a modification of that table approved by the commissioner; or

(3) at the insurance company's option, a table or a modification of a table prescribed for an individual annuity or pure endowment contract by Subsection (e).

(g) For total and permanent disability benefits in or supplementary to an ordinary policy or contract, the applicable tables are:

(1) for a policy or contract issued on or after January 1, 1966:

(A) the tables of Period 2 disablement rates and the 1930 to 1950 termination rates of the 1952 Disability Study of the Society of Actuaries, with due regard to the type of benefit; or

(B) any table of disablement rates and termination rates adopted after 1980 by the National Association of Insurance Commissioners that are approved by commissioner rule for use in determining the minimum standard of valuation for a policy to which this subdivision applies;

(A) a table described by Subdivision (1); or

(B) at the insurance company's option, the Class (3) Disability Table (1926); or

(3) for a policy issued before January 1, 1961, the Class (3) Disability Table (1926).

(h) A table described by Subsection (g) must, for an active life, be combined with a mortality table permitted for computing the reserves for a life insurance policy.

(i) For accidental death benefits in or supplementary to a policy, the applicable table is:

(1) for a policy issued on or after January 1, 1966:

(A) the 1959 Accidental Death Benefits Table; or

(B) any accidental death benefits table adopted after 1980 by the National Association of Insurance Commissioners that is approved by commissioner rule for use in determining the minimum standard of valuation for a policy to which this subdivision applies;

(3) for a policy issued before January 1, 1961, the Inter-Company Double Indemnity Mortality Table.

(j) A table described by Subsection (i) must be combined with a mortality table permitted for computing the reserves for a life insurance policy.

(k) For group life insurance, life insurance issued on the substandard basis and other special benefits, the applicable table is a table approved by the commissioner.

(1)(1) Notwithstanding any other law, the minimum reserve requirements applicable to a credit life policy issued under Chapter 1153 before January 1, 2009, are met if, in the aggregate, the reserves are maintained at 100 percent of the 1980 Commissioner's Standard Ordinary Mortality Table, with interest that does not exceed 5.5 percent.

(2) For credit life policy reserves on contracts issued to be effective on or after January 1, 2009, the reserve requirements shall be based on minimum reserve standards established by the commissioner by rule. The commissioner shall adopt the rules based on either:

(A) the 2001 CSO Male Composite Ultimate Mortality Table for male and female insureds; or

(B) another CSO Mortality Table approved by the National Association of Insurance Commissioners on or after January 1, 2009, for use on credit life policy reserves.

(3) For a single premium credit accident and health contract issued on or after January 1, 2009, the reserve requirements shall be based on minimum reserve standards established by the commissioner by rule. The commissioner shall adopt the rules based on either:

(A) the 1985 Commissioners Individual Disability Table A (85CIDA); or

(B) another Commissioner's Disability Table

approved by the National Association of Insurance Commissioners on or after January 1, 2009, for use on credit accident and health policy reserves.

(4) For all credit insurance contracts, if the net premium refund liability exceeds the aggregate recorded contract reserve, the insurer shall establish an additional reserve liability that is equal to the excess of the net refund liability over the contract reserve recorded. The net refund liability may include consideration of commission, premium tax, and other expenses recoverable.

(5) In addition to the rules required to be adopted under this subsection, the commissioner may adopt other rules to implement this subsection.

(a) This section applies to an individual annuity or pure endowment contract issued on or after January 1, 1979, and an annuity or pure endowment purchased on or after January 1, 1979, under a group annuity or pure endowment contract. This section also applies to an annuity or pure endowment contract issued by an insurer after the date specified in a written notice:

(1) that was filed with the State Board of Insurance after June 14, 1973, but before January 1, 1979; and

(1) for an individual annuity or pure endowment contract issued before August 29, 1977, other than an individual single premium immediate annuity contract, four percent;

(2) for an individual single premium immediate annuity contract issued before August 29, 1977, six percent;

(3) for an individual annuity or pure endowment contract issued on or after August 29, 1977, other than an individual single premium immediate annuity contract or an individual single premium deferred annuity or pure endowment contract, 4-1/2 percent;

(4) for an individual single premium immediate annuity contract issued on or after August 29, 1977, 7-1/2 percent;

(7) for an annuity or pure endowment purchased on or after August 29, 1977, under a group annuity or pure endowment contract, 7-1/2 percent.

(c) For an individual annuity or pure endowment contract issued before August 29, 1977, the applicable table is:

(1) the 1971 Individual Annuity Mortality Table; or

(2) a modification of that table approved by the commissioner.

(d) For an individual annuity or pure endowment contract issued on or after August 29, 1977, including an individual single premium immediate annuity contract, the applicable table is:

(1) the 1971 Individual Annuity Mortality Table;

(3) a modification of one of those tables approved by the commissioner.

(e) For an annuity or pure endowment purchased before August 29, 1977, under a group annuity or pure endowment contract, the applicable table is:

(1) the 1971 Group Annuity Mortality Table; or

Sec. 425.060. APPLICABILITY OF CALENDAR YEAR STATUTORY VALUATION INTEREST RATES. The calendar year statutory valuation interest rates as defined by Sections [425.061](#), [425.062](#), and [425.063](#) are the interest rates used in determining the minimum standard for the valuation of:

(1) a life insurance policy to which Subchapter [B](#), Chapter [1105](#), applies;

(2) an individual annuity or pure endowment contract issued on or after January 1, 1982;

(3) an annuity or pure endowment purchased on or after January 1, 1982, under a group annuity or pure endowment contract; or

(4) the net increase, if any, in a calendar year after January 1, 1982, in amounts held under a guaranteed interest contract.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.061. COMPUTATION OF CALENDAR YEAR STATUTORY VALUATION INTEREST RATE: GENERAL RULE. (a) For purposes of Subsection (b):

(1) R_1 is the lesser of R or .09;

(2) R_2 is the greater of R or .09;

(3) R is the reference interest rate determined under Section 425.063; and

(4) W is the weighting factor determined under Section 425.062.

(b) The calendar year statutory valuation interest rate ("I") is determined as provided by this section, with the results rounded to the nearest one-quarter of one percent:

(1) for life insurance:

$$I = .03 + W(R_1 - .03) + (W/2)(R_2 - .09); \text{ and}$$

(2) for a single premium immediate annuity or annuity benefits involving life contingencies arising from another annuity with a cash settlement option or from a guaranteed interest contract with a cash settlement option, or for an annuity or guaranteed interest contract without a cash settlement option, or for an annuity or guaranteed interest contract with a cash settlement option that is valued on a change in fund basis:

$$I = .03 + W(R - .03).$$

(c) For an annuity or guaranteed interest contract with a cash settlement option that is valued on an issue year basis, other than an annuity or contract described by Subsection (b)(2):

(1) the formula prescribed by Subsection (b)(1)

applies to an annuity or guaranteed interest contract with a guarantee duration determined under Section 425.062(f) greater than 10 years; and

(2) the formula prescribed by Subsection (b)(2) applies to an annuity or guaranteed interest contract with a guarantee duration determined under Section 425.062(f) of 10 years or less.

(d) Notwithstanding Subsections (b) and (c), if the calendar year statutory valuation interest rate for a life insurance policy issued in a calendar year as determined under Subsection (b) or (c), as applicable, would differ from the corresponding actual rate for similar policies issued in the preceding calendar year by less than one-half of one percent, the calendar year statutory valuation interest rate for the policy is the corresponding actual rate for the preceding calendar year. For purposes of this subsection, the calendar year statutory valuation interest rate for a life insurance policy issued in a calendar year is determined for 1980 using the reference interest rate defined for 1979, and is determined for each subsequent calendar year regardless of whether Subchapter B, Chapter 1105, applies to the policy.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.062. WEIGHTING FACTORS. (a) This section prescribes the weighting factors referred to in the formulas prescribed by Section 425.061.

(b) The weighting factor for a life insurance policy is determined by the following table:

Guarantee Duration (Years)	Weighting Factor
10 or less	.50
More than 10, but not more than 20	.45
More than 20	.35

(c) For purposes of Subsection (b), the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to life insurance plans with premium rates or nonforfeiture

values, or both, that are guaranteed in the original policy.

(d) The weighting factor for a single premium immediate annuity or for annuity benefits involving life contingencies arising from another annuity with a cash settlement option or from a guaranteed interest contract with a cash settlement option is .80.

(e) The weighting factor for an annuity or a guaranteed interest contract, other than an annuity or contract to which Subsection (d) applies, is determined by the following tables:

(1) For an annuity or guaranteed interest contract that is valued on an issue year basis:

Guarantee Duration (Years)	Weighting Factor for Plan Type		
	A	B	C
5 or less:	.80	.60	.50
More than 5, but not more than 10:	.75	.60	.50
More than 10, but not more than 20:	.65	.50	.45
More than 20:	.45	.35	.35

(2) For an annuity or guaranteed interest contract that is valued on a change in fund basis, the factors prescribed by Subdivision (1) increased by:

Plan Type		
A	B	C
.15	.25	.05

(3) For an annuity or guaranteed interest contract that is valued on an issue year basis that does not guarantee interest on considerations received more than one year after issue or purchase, other than an annuity or contract that does not have a cash settlement option, or an annuity or guaranteed interest contract that is valued on a change in fund basis that does not guarantee interest rates on considerations received more than 12 months after the valuation date, the factors prescribed by Subdivision (1) or determined under Subdivision (2), as appropriate, increased by:

Plan Type		
A	B	C

(f) For purposes of Subsection (e):

(1) for an annuity or guaranteed interest contract with a cash settlement option, the guarantee duration is the number of years for which the contract guarantees interest rates greater than the calendar year statutory valuation interest rate for life insurance policies with guarantee duration greater than 20 years; and

(2) for an annuity or guaranteed interest contract without a cash settlement option, the guarantee duration is the number of years from the issue or purchase date to the date annuity benefits are scheduled to begin.

(g) For purposes of Subsection (e):

(1) a policy is a "Plan Type A" policy if:

(A) the policyholder may withdraw funds at any time, but only:

(i) with an adjustment to reflect changes in interest rates or asset values after the insurance company receives the funds;

(ii) without an adjustment described by Subparagraph (i), provided that the withdrawal is in installments over five years or more; or

(iii) as an immediate life annuity; or

(B) the policyholder is not permitted to withdraw funds at any time;

(2) a policy is a "Plan Type B" policy if:

(A) before the expiration of the interest rate guarantee:

(i) the policyholder may withdraw funds, but only:

(a) with an adjustment to reflect changes in interest rates or asset values after the insurance company receives the funds; or

(b) without an adjustment described by Subsubparagraph (a), provided that the withdrawal is in installments over five years or more; or

(ii) the policyholder is not permitted to

withdraw funds; and

(B) on the expiration of the interest rate guarantee, the policyholder may withdraw funds in a single sum or in installments over less than five years, without an adjustment described by Paragraph (A)(i); and

(3) a policy is a "Plan Type C" policy if the policyholder may withdraw funds before the expiration of the interest rate guarantee in a single sum or in installments over less than five years:

(A) without an adjustment to reflect changes in interest rates or asset values after the insurance company receives the funds; or

(B) subject only to a fixed surrender charge that is a percentage of the fund stipulated in the contract.

(h) An insurance company may elect to value an annuity or guaranteed interest contract with a cash settlement option on an issue year basis or on a change in fund basis. A company must value an annuity or guaranteed interest contract without a cash settlement option on an issue year basis.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.063. REFERENCE INTEREST RATE. (a) In this section, "Moody's Corporate Bond Yield Average" means the Moody's Corporate Bond Yield Average--Monthly Average Corporates, as published by Moody's Investors Service, Inc.

(b) Except as provided by Subsection (g), the reference interest rate for purposes of Section 425.061 is determined as provided by Subsections (c)-(f).

(c) The reference interest rate for a life insurance policy is the lesser of the average over a period of 36 months or the average over a period of 12 months, ending on June 30 of the calendar year preceding the year of issue, of the Moody's Corporate Bond Yield Average.

(d) The reference interest rate is the average over a period of 12 months, ending on June 30 of the calendar year of issue or year of purchase, of the Moody's Corporate Bond Yield Average for:

(1) a single premium immediate annuity or annuity benefits involving life contingencies arising from another annuity with a cash settlement option or from a guaranteed interest contract with a cash settlement option;

(2) an annuity or guaranteed interest contract with a cash settlement option, other than an annuity or contract described by Subdivision (1), that is valued on an issue year basis and has a guarantee duration as determined under Section 425.062(f) of 10 years or less; or

(3) an annuity or guaranteed interest contract without a cash settlement option.

(e) The reference interest rate is the lesser of the average over a period of 36 months or the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the Moody's Corporate Bond Yield Average for an annuity or guaranteed interest contract with a cash settlement option, other than an annuity or contract described by Subsection (d)(1), that is valued on an issue year basis and has a guarantee duration as determined under Section 425.062(f) greater than 10 years.

(f) The reference interest rate is the average over a period of 12 months, ending on June 30 of the calendar year of the change in the fund, of the Moody's Corporate Bond Yield Average, for an annuity or guaranteed interest contract with a cash settlement option, other than an annuity or contract described by Subsection (d)(1), that is valued on a change in fund basis.

(g) At least annually, the commissioner shall:

(1) determine whether the reference interest rates prescribed by Subsections (c), (d), (e), and (f) continue to be a reasonably accurate approximation of the average yield achieved from purchases in the United States in publicly quoted markets of investment grade fixed term and fixed interest corporate obligations for the periods referenced in Subsection (c), (d), (e), or (f), as applicable; and

(2) if the commissioner determines that a reference interest rate prescribed by Subsection (c), (d), (e), or (f) is not a reasonably accurate approximation of the average yield described by Subdivision (1), adopt rules in the manner prescribed by

Chapters 2001 and 2002, Government Code, to prescribe an alternative method of determining a reference interest rate, as appropriate, that is a reasonably accurate approximation of that average yield.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.064. COMMISSIONERS RESERVE VALUATION METHOD FOR LIFE INSURANCE AND ENDOWMENT BENEFITS. (a) Except as otherwise provided by Sections 425.065 and 425.068 and subject to Subsection (b), for the life insurance and endowment benefits of a policy that provides for a uniform amount of insurance and that requires the payment of uniform premiums, the reserve according to the commissioners reserve valuation method is the difference, if greater than zero, of the present value on the date of valuation of those future guaranteed benefits, minus the present value on that date of any future modified net premiums for a policy described by this subsection. The modified net premiums for a policy described by this subsection are a uniform percentage of the respective contract premiums for those benefits, so that the present value on the policy's issue date of all the modified net premiums is equal to the sum of:

(1) the present value on that date of those benefits; and

(2) the difference, if greater than zero, between:

(A) a net level annual premium equal to the present value on the policy's issue date of the benefits provided for after the first policy year, divided by the present value on the policy's issue date of an annuity of one per year, payable on the first policy anniversary and on each subsequent policy anniversary on which a premium becomes due; and

(B) a net one-year term premium for the benefits provided for in the first policy year.

(b) A net level annual premium under Subsection (a)(2)(A) may not exceed the net level annual premium on the 19-year premium whole life plan for insurance of the same amount at an age that is one year older than the age on the policy's issue date.

(c) This subsection applies only to a life insurance policy issued on or after January 1, 1985, for which the contract premium for the first policy year exceeds the contract premium for the second year, for which a comparable additional benefit is not provided in the first year for the excess premium, and that provides an endowment benefit, a cash surrender value, or a combination of an endowment benefit and cash surrender value, in an amount greater than the excess premium. For purposes of this subsection, the "assumed ending date" is the first policy anniversary on which the sum of any endowment benefit and any cash surrender value available on that date is greater than the excess premium. The reserve according to the commissioners reserve valuation method for a policy to which this subsection applies as of any policy anniversary occurring on or before the assumed ending date is, except as otherwise provided by Section [425.068](#), the greater of:

(1) the reserve as of the policy anniversary computed as prescribed by Subsection (a); or

(2) the reserve as of the policy anniversary computed as prescribed by Subsection (a) but with:

(A) the value prescribed by Subsection (a)(2)(A) reduced by 15 percent of the amount of the excess first-year premium;

(B) each present value of a benefit or premium determined without reference to a premium or benefit provided under the policy after the assumed ending date;

(C) the policy assumed to mature on the assumed ending date as an endowment; and

(D) the cash surrender value provided on the assumed ending date considered to be an endowment benefit.

(d) In making the comparison required by Subsection (c), the mortality tables and interest bases described by Sections [425.058](#), [425.061](#), [425.062](#), and [425.063](#) must be used.

(e) Reserves according to the commissioners reserve valuation method for the following policies, contracts, and benefits must be computed by a method consistent with the principles of this section:

(1) a life insurance policy that provides for a

varying amount of insurance or that requires the payment of varying premiums;

(2) a group annuity or pure endowment contract purchased under a retirement or deferred compensation plan established or maintained by an employer, including a partnership or sole proprietorship, by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408, Internal Revenue Code of 1986, and that section's subsequent amendments;

(3) disability or accidental death benefits in a policy or contract; and

(4) all other benefits, other than life insurance and endowment benefits in a life insurance policy or benefits provided by any other annuity or pure endowment contract.

Sec. 425.065. COMMISSIONERS ANNUITY RESERVE VALUATION METHOD FOR ANNUITY AND PURE ENDOWMENT BENEFITS. (a) This section applies to an annuity or pure endowment contract other than a group annuity or pure endowment contract purchased under a retirement or deferred compensation plan established or maintained by an employer, including a partnership or sole proprietorship, by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408, Internal Revenue Code of 1986, and that section's subsequent amendments.

(b) Reserves according to the commissioners annuity reserve method for benefits under an annuity or pure endowment contract, excluding any disability or accidental death benefits in the contract, are the greatest of the respective excesses of the present values on the valuation date of the future guaranteed benefits under the contract at the end of each respective contract year, including guaranteed nonforfeiture benefits, minus the

present value on the valuation date of any future valuation considerations derived from future gross considerations that are required by the contract terms and that become payable before the end of the respective contract year. The future guaranteed benefits must be determined by using the mortality table, if any, and the interest rate or rates specified in the contract for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the contract terms to determine nonforfeiture values.

Sec. 425.066. MINIMUM AGGREGATE RESERVES. (a) An insurance company's aggregate reserves for all life insurance policies, excluding disability or accidental death benefits, issued by the company on or after the date on which Chapter 1105 applies to policies issued by the company, as determined under Section 1105.002(a) or (b), may not be less than the aggregate reserves computed in accordance with the methods prescribed by Sections 425.064, 425.065, 425.068, and 425.069 and the mortality table or tables and interest rate or rates used in computing nonforfeiture benefits for those policies.

(b) The aggregate reserves of an insurance company to which this section applies for all policies, contracts, and benefits may not be less than the aggregate reserves determined to be necessary to issue a favorable opinion under Section 425.054.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.067. OPTIONAL RESERVE COMPUTATIONS. (a) Reserves for a policy or contract issued by a life insurance company before the date on which Chapter 1105 would apply to the policy or contract, as determined under Section 1105.002(a) or (b), may be computed, at the company's option, according to any standard that

produces greater aggregate reserves for all those policies and contracts than the minimum reserves required by the laws applicable to those policies and contracts immediately before that date.

(b) Reserves for any category, as established by the commissioner, of policies, contracts, or benefits issued by a life insurance company on or after the date on which Chapter 1105 applies to policies, contracts, or benefits issued by the company, as determined under Section 1105.002(a) or (b), may be computed, at the company's option, according to any standard that produces greater aggregate reserves for the category than the minimum aggregate reserves computed according to the standard provided by this subchapter, but the interest rate or rates used for those policies and contracts, other than annuity and pure endowment contracts, may not be higher than the corresponding interest rate or rates used in computing any nonforfeiture benefits provided in those policies or contracts.

(c) An insurance company that has adopted a standard of valuation that produces greater minimum aggregate reserves than the aggregate reserves computed according to the standard provided by this subchapter may, with the commissioner's approval, adopt any lower standard of valuation that produces aggregate reserves at least equal to the minimum aggregate reserves computed according to the standard provided by this subchapter.

(d) For purposes of this section, the holding of additional reserves previously determined to be necessary to issue a favorable opinion under Section 425.054 may not be considered to be the adoption of a higher standard of valuation.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.068. RESERVE COMPUTATION: GROSS PREMIUM CHARGED LESS THAN VALUATION NET PREMIUM. (a) If in a contract year the gross premium charged by a life insurance company on a policy or contract is less than the valuation net premium for the policy or contract computed by the method used in computing the reserve on the policy or contract but using the minimum valuation mortality standards and interest rate, the minimum reserve required for the

policy or contract is the greater of:

(1) the reserve computed according to the mortality table, interest rate, and method actually used for the policy or contract; or

(2) the reserve computed by the method actually used for the policy or contract but using the minimum valuation mortality standards and interest rate and replacing the valuation net premium with the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium.

(b) The minimum valuation mortality standards and interest rate under Subsection (a) are the standards and rate provided by Sections [425.058](#), [425.061](#), [425.062](#), and [425.063](#).

(c) This subsection applies only to a life insurance policy issued on or after January 1, 1985, for which the gross premium for the first policy year exceeds the gross premium for the second policy year, for which a comparable additional benefit is not provided in the first year for the excess premium, and that provides an endowment benefit, a cash surrender value, or a combination of an endowment benefit and cash surrender value, in an amount greater than the excess premium. For a policy to which this subsection applies, Subsections (a) and (b) shall be applied as if the method actually used in computing the reserve for the policy were the method described in Section [425.064](#), ignoring Section [425.064\(c\)](#). The minimum reserve at each policy anniversary is the greater of:

(1) the minimum reserve computed in accordance with Section [425.064](#), including Section [425.064\(c\)](#); or

(2) the minimum reserve computed in accordance with this section.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. [2017](#)), Sec. 1, eff. April 1, 2007.

Sec. 425.069. RESERVE COMPUTATION: INDETERMINATE PREMIUM PLANS AND CERTAIN OTHER PLANS. (a) For a life insurance plan that provides for future premium determination, the amounts of which are to be determined by the insurance company based on estimates of future experience, or a life insurance plan or annuity for which the

minimum reserves cannot be determined by the methods described by Sections [425.064](#), [425.065](#), and [425.068](#), the reserves held must:

(1) be appropriate in relation to the benefits and the pattern of premiums for the plan; and

(2) with respect to policies and contracts with significant tail risk, reflect conditions appropriately adverse to

The certification described by Subsection (b)(2) must be based on the

controls in place as of the end of the preceding calendar year.

(a) Subject to this section, an insurer may invest the insurer's capital, surplus, and contingency funds in a life income interest in a qualified irrevocable express testamentary trust.

(b) For purposes of this section, a trust is a qualified trust if:

(1) each fee simple recipient of any part of the corpus of the trust:

(A) is a public charity, church, educational institution, or scientific institution;

(B) is located in this state; and

(C) is recognized by the United States Internal Revenue Service as exempt from payment of income taxes;

(2) the corpus of the trust is wholly or partly composed of interests in real estate, stocks, bonds, debentures, and other securities of an aggregate total value of at least \$5 million; and

(3) the corpus of the trust produces annual income of at least \$100,000.

(c) An insurer's life income interest in a qualified trust may not exceed 10 percent of the insurer's admitted assets.

(3) a market for the sale of the interest exists; and

(4) the interest is supported by life insurance in:

(A) an amount not less than the admitted value of the interest; and

(B) a form approved by the commissioner.

(e) In valuing a life income interest in a qualified trust on the insurer's books, the insurer may value the interest only on the basis of the lesser of:

(1) the recognized market established in accordance with Subsection (d)(3); or

(2) the ratio that the fractional life income interest in the income of the trust bears to the total market value of the properties held by the trust that are of a type of property an insurer may lawfully acquire under the investment statutes of this state.

(b) The aggregate amount of an insurer's investments under this section may not exceed 10 percent of the insurer's capital, surplus, and contingency funds.

(c) The investment authorized by this section may be made by purchase of stock issued and outstanding or by subscription to and payment for the increase in the capital stock of the reinsurer.

(1) a solvent corporation that has not defaulted in

the payment of any debt during the five years preceding the investment; or

(2) a solvent corporation that has not been in existence for the five years preceding the investment, if:

(A) the corporation has succeeded to the business and assets and has assumed the liabilities of another corporation; and

(B) neither the successor corporation nor the corporation succeeded has defaulted in the payment of any debt during the five years preceding the investment.

(b) Subject to this section, an insurer may loan the insurer's capital, surplus, and contingency funds and take as collateral the bonds or notes of an educational or religious corporation that has provided for the payment of a sufficient amount of the first weekly or monthly revenues of the corporation to an interest and sinking fund account in a bank or trust company as an independent paying agent.

(c) The market value of the stock, bills of exchange, other commercial notes or bills, or securities must be at all times during the continuance of the loan at least 50 percent more than the amount loaned on the securities or obligations.

(d) An insurer may not take as collateral for any loan:

(1) the insurer's capital stock;

(2) the stock of a single corporation in an amount that exceeds 10 percent of the amount of the insurer's own capital, surplus, and contingency funds;

(3) the stock of a manufacturing corporation with a net worth of less than \$25,000;

(4) the stock of an oil corporation with a net worth of less than \$500,000; or

Sec. 425.225. INVESTMENT IN FOREIGN SECURITIES. (a) An insurer authorized to engage in business in a foreign country may

invest in securities of that country that are the same kind of securities as those in the United States in which an insurer is authorized by this subchapter to invest.

(b) The aggregate amount of an insurer's investments under this section may not exceed the amount of the insurer's reserves on the business in force in the foreign country.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.227. CERTAIN INVESTMENT POWERS NOT A RESTRICTION. The investment powers granted by Sections 425.207 and 425.208 may not be construed as restricting the powers granted by Sections 425.220 and 425.221.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.228. INVESTMENTS OF CEDING INSURER. (a) Subject to this section, if a domestic insurer assumes the business and takes over the assets of another domestic or a foreign insurer, all investments of the ceding insurer that were authorized, when made, by the laws of the state in which the ceding insurer was organized as proper securities for investment of the funds of an insurer and that are taken over by the assuming insurer are considered to be valid securities of the assuming insurer under the laws of this state.

(b) The commissioner must approve investments described by Subsection (a) and the terms on which those investments are taken over. The commissioner may require the assuming insurer to dispose of any of the investments on notice the commissioner considers reasonable.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.229. AUTHORIZED INVESTMENTS: REAL ESTATE FOR INSURER'S OFFICES. (a) Subject to this section, an insurer may secure, hold, and convey the following real property:

(1) one building site and office building for the insurer's accommodation in the transaction of the insurer's business and for lease;

(2) branch office buildings in this state and elsewhere within the United States in which the insurer is authorized to engage in business as necessary for the insurer's convenient accommodation in the transaction of the insurer's business and for lease; and

(3) parking facilities adjacent to or in the vicinity of each office building owned by the insurer as reasonably necessary for the insurer and the building tenants.

(b) An office building described by Subsection (a)(1) may be on ground on which the insurer owns a lease the term of which expires not sooner than the 50th anniversary of the date the insurer acquires the lease. The insurer must own, or be entitled to the use of, all the improvements on the leased ground. The value of the improvements must be at least equal to the value of the ground and at least 20 times the annual average ground rentals payable under the lease. The office building must have an annual average net rental of at least twice the annual ground rental. The insurer must be liable for and shall pay all state and local taxes imposed against the ground and improvements. For purposes of taxation, the ground and improvements are considered to be real property owned by the insurer. The commissioner must approve the acquisition of an office building on leased ground before the insurer makes the investment.

(c) The insurer must use at least 50 percent of the space in each branch office building under Subsection (a)(2) that is available for occupancy for business purposes for the transaction of the insurer's business and not for lease to others.

(d) An insurer may make an investment under Subsection

(a)(2) or (3) only in a municipality that has a population of 15,000 or more.

(e) An insurer may not make an investment under this section if, after making the investment, the insurer's aggregate investments under this section would exceed 33-1/3 percent of the insurer's admitted assets as of December 31 preceding the date of the investment, except that an insurer's aggregate investments under this section may be increased to an amount not to exceed 50 percent of the insurer's admitted assets if the commissioner approves the investment in advance, and the investment may be further increased if the additional increase is paid for only from surplus funds and is not included as an admitted asset of the insurer.

(f) The value of each investment under this section is subject to the approval of the commissioner. The commissioner may, at the time the investment is made or any time when an examination of the insurer is being made, have an investment under this section appraised by an appraiser appointed or approved by the commissioner. The insurer shall pay the reasonable expense of the appraisal. The expense of the appraisal is considered to be an expense of the examination of the insurer. An insurer may not make any increase in the valuation of real property described by Subsection (a) unless the increase in valuation is approved by the commissioner, subject to the conditions imposed by Subsection (e).
Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.230. AUTHORIZED INVESTMENTS: OIL, GAS, AND MINERALS. (a) In this section and Section 425.231:

(1) "Producing" means producing oil, gas, or other minerals in paying quantities. A well that has been shut in is considered to be producing oil, gas, or other minerals in paying quantities if shut-in royalties are being paid.

(2) "Production payment" means a right to oil, gas, or other minerals in place or as produced that entitles the owner of the right to a specified fraction of production until the owner receives a specified amount of money, or a specified number of units

of oil, gas, or other minerals.

(3) "Royalty" or "overriding royalty" means a right to oil, gas, and other minerals in place or as produced that entitles the owner of the right to a specified fraction of production without limitation to a specified amount of money or a specified number of units of oil, gas, or other minerals.

(b) Subject to this section, in addition to and without limitation on the purposes for which real property may be acquired, secured, held, or retained under Section [425.229](#) or [425.231](#), an insurer may secure, hold, retain, and convey production payments, producing royalties, and producing overriding royalties as an investment for the production of income.

(c) The aggregate amount of an insurer's investments under this section, plus the aggregate amount of the insurer's investments in home office and branch office properties under Section [425.229](#), may not exceed the total amount permitted by and is subject to all of the limitations imposed by Sections [425.229](#)(e) and (f). For purposes of this subsection, an investment in production payments, producing royalties, or producing overriding royalties is considered to be an investment in property described by Section [425.229](#).

(d) For the purposes of Section [425.229](#)(f), the commissioner may establish a value of a production payment, producing royalty, or producing overriding royalty as the maximum amount that the insurer purchasing the production payment, producing royalty, or producing overriding royalty could loan against a first lien on the production payment, producing royalty, or producing overriding royalty under Sections [425.214](#)(f)-(h).

(e) An insurer may not make an investment in production payments, producing royalties, or producing overriding royalties solely for the production of income if, after making the investment, the insurer's total investment at cost in the production payments, producing royalties, or producing overriding royalties would exceed 10 percent of the insurer's admitted assets as of December 31 preceding the date of the investment.

(f) If production in paying quantities from a royalty interest or overriding royalty interest held by an insurer ends,

the insurer shall sell and dispose of the royalty or overriding royalty not later than the second anniversary of the date the production ends, unless:

(1) production in paying quantities has resumed; or

(2) the insurer obtains from the commissioner a certificate stating that the insurer's interests will suffer materially by the forced sale of the interest.

(g) The commissioner shall state in a certificate under Subsection (f)(2) the amount of time by which the period for sale is extended under that subsection.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.231. AUTHORIZED INVESTMENTS: REAL PROPERTY ACQUIRED UNDER CERTAIN CIRCUMSTANCES. (a) Subject to this section, an insurer may secure, hold, and convey the following real property:

(1) real property acquired in good faith as security for a loan previously contracted or for money due;

(2) real property conveyed to the insurer to satisfy a debt previously contracted in the course of the insurer's dealings; and

(3) real property purchased at a sale under a judgment, court decree, or mortgage or other lien held by the insurer.

(b) An insurer shall sell and dispose of all property described by Subsection (a) that is not necessary for the insurer's accommodation in the convenient transaction of the insurer's business, other than an interest in minerals or royalties reserved on the sale of land acquired under Subsection (a) or an interest in producing royalties or producing overriding royalties otherwise acquired, not later than the fifth anniversary of:

(1) the date the insurer acquires title to the property; or

(2) the date the property ceases to be necessary for the accommodation of the insurer's business.

(c) An insurer may hold property acquired under Subsection

(a) for a period longer than that specified by Subsection (b) if the insurer obtains a certificate from the commissioner stating that the insurer's interests will suffer materially by the forced sale of the property. The commissioner shall state in the certificate the amount of time by which the period for sale is extended under this subsection.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.

Sec. 425.232. AUTHORIZED INVESTMENTS: IMPROVED INCOME-PRODUCING REAL PROPERTY. (a) In this section, "improved income-producing real property" includes all commercial and industrial real property, a substantial portion of which has been materially enhanced in value by the construction of durable, permanent-type buildings and other improvements costing an amount at least equal to the value of the real property, excluding the buildings and improvements, that is held or acquired by purchase, lease, or otherwise for the production of income. The term does not include agricultural, horticultural, farm and ranch, or residential property, or single or multiunit family dwelling property.

(b) Notwithstanding Sections 425.229, 425.230, and 425.231, subject to this section, a domestic insurer may:

(1) invest any of the insurer's funds and accumulations in improved income-producing real property or any interest in improved income-producing real property; and

(2) hold, improve, maintain, manage, lease, sell, or convey improved income-producing real property or an interest in improved income-producing real property.

(c) The aggregate amount of an insurer's investments in all income-producing real property, including improvements, may not exceed 15 percent of the insurer's admitted assets. The amount of an insurer's investment in a single piece of improved income-producing real property, including improvements, may not exceed five percent of the insurer's admitted assets. For purposes of this subsection, an insurer's admitted assets are determined from the insurer's annual statement as of the preceding December 31

and filed with the department as required by law. Section 425.229(f) applies to the value of any investment made under this section.

(d) The investment authority granted by this section is in addition to that granted by Sections 425.229, 425.230, and 425.231, except that an insurer may not make an investment in improved income-producing real property that, when added to the insurer's investments under Section 425.229, would exceed the limitations imposed by Section 425.229(e).

(e) This section does not permit an insurer to purchase undeveloped real property for the purpose of development or subdivision.

Added by Acts 2005, 79th Leg., Ch. 727 (H.B. 2017), Sec. 1, eff. April 1, 2007.
