(1) "Assessment" means the evaluation of an employer's workforce needs and requirements.

(A) provides for education, vocational education, rehabilitation, job training, or internship services or programs; and

(B) is exempt from the payment of federal income taxes under Section 501(a) of the Internal Revenue Code of 1986, and its subsequent amendments, by being listed as an exempt entity under Section 501(c)(3) of that code.

recommend to the legislature the waiver of any requirements set forth in Title 3, Education Code, as they may apply to public community and technical colleges, that impede the ability of such a college to develop in a timely manner customized training for demand occupations in particular industries, including statutes or regulations limiting costs that may be recovered by a public community or technical college from state funds.

(b) A public community or technical college or the Texas A&M Engineering Extension Service may recover customized assessment and training costs incurred by the institution if:

(1) there is an actual or projected labor shortage in the occupation in which training is provided that is not being met by an existing institution or program in the area; and

(1) developing customized training programs for businesses and trade unions; and

(2) sponsoring small and medium-sized business networks and consortiums.

(b-1) The commission by rule may establish and develop additional job incentive programs that use the skills development fund to create incentives for public community and technical colleges in partnership with one or more employers, including prospective employers who commit to establishing a place of business in this state, to provide workforce training in an effort to create and retain employment opportunities in this state. Under a program established under this subsection, the commission may commit money to a prospective employer described by this subsection contingent on the employer's establishment of a place of business in this state.

(b-2) In addition to the purposes described by Subsections (b) and (b-1), in each state fiscal biennium, an amount of money from the skills development fund not to exceed five percent of the amount of general revenue appropriated to the skills development fund for that biennium may be used as provided by this subsection. Funds available to the commission from other sources may also be used as provided by this subsection. Funds may be awarded under this subsection to a lower-division institution of higher education to be used under an agreement with a school district, or to a school district to be used under an agreement with a lower-division institution of higher education, to support courses offered for joint high school and college-level credit or offered under a college credit career or technical education program that leads to an industry-recognized license, credential, or certificate. workforce development board.

(c) Money from the skills development fund may not be used to pay the training costs and other related costs of an employer who relocates the employer's worksite from one location in this state to another in-state location.

(d) The executive director, or a person appointed by the executive director who is knowledgeable in the administration of grants, is responsible for the distribution of money from the skills development fund.

(e) It is the intent of the legislature that, to the greatest extent practicable, money from the skills development fund shall be spent in all areas of this state.

(1) are statewide in nature; or

(2) are not available from a local junior college district, a local technical college, or a consortium of junior college districts.

(g) This section does not prohibit the Texas A&M Engineering Extension Service from participating in a consortium of junior college districts or with a technical college that provides training under this chapter.
