(a) A nurse who, as a temporary agency nurse, faculty member, or similar staff member, practices nursing for an educational institution, health care facility, agency, or entity, or a person other than the person who employs or directly compensates the nurse is subject to peer review by both the employer and the other person.

(b) For the purposes of exchanging information, the peer review committee reviewing the nurse's conduct is considered to be established under the authority of both entities.

(c) The two entities may contract as to which entity will conduct peer review of the nurse.

Acts 1999, 76th Leg., ch. 388, Sec. 1, eff. Sept. 1, 1999.

Sec. 303.005. REQUEST FOR PEER REVIEW COMMITTEE DETERMINATION. (a) In this section, "duty to a patient" means conduct required by standards of practice or professional conduct adopted by the board for nurses. The term includes administrative decisions directly affecting a nurse's ability to comply with that duty.

(a-1) For purposes of this section, a nurse or nurse administrator acts in good faith in connection with a request made

or an action taken by the nurse or nurse administrator if there is a reasonable factual or legal basis for the request or action.

(b) If a person who is required to establish a nursing peer review committee under Section 303.0015 requests a nurse to engage in conduct that the nurse believes violates a nurse's duty to a patient, the nurse may request, on a form developed or approved by the board, a determination by a nursing peer review committee under this chapter of whether the conduct violates a nurse's duty to a patient.

(c) A nurse who in good faith requests a peer review determination under Subsection (b):

(1) may not be disciplined or discriminated against for making the request;

(2) may engage in the requested conduct pending the peer review;

(4) may not be disciplined by the board for engaging in that conduct while the peer review is pending.

(d) If a nurse requests a peer review determination under Subsection (b) and refuses to engage in the requested conduct pending the peer review, the determination of the peer review committee shall be considered in any decision by the nurse's employer to discipline the nurse for the refusal to engage in the requested conduct, but the determination is not binding if a nurse administrator believes in good faith that the peer review committee has incorrectly determined a nurse's duty. This subsection does not affect the protections provided by Subsection (c)(1) or Section 301.352.

(e) If the conduct for which the peer review is requested under Subsection (b) involves the medical reasonableness of a physician's order, the medical staff or medical director shall be requested to make a determination as to the medical reasonableness of the physician's order, and that determination is determinative of that issue.

(f) A nurse's rights under this section may not be nullified by a contract.

(g) An appropriate licensing agency may take action against a person who violates this section.

(h) A person may not suspend or terminate the employment of, or otherwise discipline or discriminate against, a nurse who in good faith requests a peer review determination under this section or a person who advises a nurse of the nurse's right to request a determination or of the procedures for requesting a determination. A violation of this subsection is subject to Section [301.413](#).

(1) is not subject to subpoena or discovery in any civil matter;

(2) is not admissible as evidence in a judicial or administrative proceeding; and

(3) may not be introduced into evidence in a nursing liability suit arising out of the provision of or a failure to provide nursing services.

(f) If a peer review committee determines that a nurse has not engaged in conduct required to be reported to the nurse's licensing board, a member of the peer review committee whose knowledge of the nurse's conduct was acquired only through the peer review may not report that nurse to the licensing board for that conduct. A committee member is not prohibited from reporting:

(1) the nurse, if the member has knowledge of the nurse's conduct independently of peer review; or

(2) the peer review committee to the licensing board, if the member believes the committee made its determination in bad faith.

(b) A record or determination of a patient safety committee, or a communication made to a patient safety committee, is not subject to subpoena or discovery and is not admissible in any civil or administrative proceeding, regardless of whether the

information has been provided to a nursing peer review committee. The privileges under this subsection may be waived only through a written waiver signed by the chair, vice chair, or secretary of the patient safety committee. This subsection does not affect the application of Section 303.007 to a nursing peer review committee.

(a) A nursing peer review committee, a person participating in peer review, or an organization named as a defendant in a civil action or subjected to other retaliatory action as a result of participation in peer review may file a counterclaim in a pending action or prove a cause of action in a subsequent suit to recover defense costs, including court costs, reasonable attorney's fees, and actual and punitive damages if the suit or retaliatory action is determined to be frivolous, unreasonable, without foundation, or taken in bad faith.

(b) A nursing peer review committee member or a person participating in peer review under this chapter named as a

defendant in a civil action or subjected to other retaliatory action as a result of participation in peer review may use information that is otherwise confidential under this chapter to defend the civil action or a civil action that alleges retaliation for the person's participation in peer review.

Sec. 303.011. EVALUATION BY COMMITTEE. (a) In evaluating a nurse's conduct, the nursing peer review committee shall review the evidence to determine the extent to which a deficiency in care by the nurse was the result of deficiencies in the nurse's judgment, knowledge, training, or skill rather than other factors beyond the nurse's control. A determination that a deficiency in care is attributable to a nurse must be based on the extent to which the nurse's conduct was the result of a deficiency in the nurse's judgment, knowledge, training, or skill.

(b) The nursing peer review committee shall report a deficiency in care that the committee determines was the result of a factor beyond the nurse's control to a patient safety committee for evaluation.
