Each attorney admitted to practice in this state and each attorney specially admitted by a court of this state for a particular proceeding is subject to the disciplinary and disability jurisdiction of the supreme court and the Commission for Lawyer Discipline, a committee of the state bar.

Sec. 81.072. GENERAL DISCIPLINARY AND DISABILITY PROCEDURES.
(a) In furtherance of the supreme court's powers to supervise the conduct of attorneys, the court shall establish disciplinary and disability procedures in addition to the procedures provided by this subchapter.

(b) The supreme court shall establish minimum standards and procedures for the attorney disciplinary and disability system. The standards and procedures for processing grievances against attorneys must provide for:

3. periodic preparation of abstracts of inquiries and complaints filed that, even if true, do or do not constitute misconduct;
4. an information file for each grievance filed;
5. a grievance tracking system to monitor processing of grievances by category, method of resolution, and length of time required for resolution;
6. notice by the state bar to the parties of a written grievance filed with the state bar that the state bar has the authority to resolve of the status of the grievance, at least quarterly and until final disposition, unless the notice would jeopardize an undercover investigation;

(e-1) All types of information, proceedings, hearing transcripts, and statements presented during the voluntary mediation and dispute resolution procedure established under Subsection (e) are confidential to the same extent the information, proceedings, transcripts, or statements would be confidential if presented to a panel of a district grievance committee.

(h) The state bar or a court may not require an attorney against whom a disciplinary action has been brought to disclose information protected by the attorney-client privilege if the client did not initiate the grievance that is the subject of the action.

(n) A member of a panel of a district grievance committee of the state bar may not be substituted with another member of the district grievance committee on the day of the hearing for which the panel was assigned without the approval of the complainant and the respondent in the grievance matter.

(o) Whenever a grievance is either dismissed as an inquiry or dismissed as a complaint in accordance with the Texas Rules of Disciplinary Procedure and that dismissal has become final, the respondent attorney may thereafter deny that a grievance was pursued and may file a motion with the tribunal seeking expunction of all records on the matter, other than statistical or identifying information maintained by the chief disciplinary counsel pertaining to the grievance.

(d) In an action to disbar any attorney for acts made the basis of a conviction for a felony involving moral turpitude or a misdemeanor involving theft, embezzlement, or fraudulent misappropriation of money or other property, the record of conviction is conclusive evidence of the guilt of the attorney for the crime of which he was convicted.

(e) Either the grievance committee for the bar district or the general counsel may seek enforcement of this section.

(f) This chapter does not prevent prosecution of an attorney in a disciplinary action after conviction for a criminal act based either on the weight of the conviction or on conduct by the attorney that led to the attorney's conviction.

(b) To be effective, a designation must include the name and address of the designee.

(c) As soon as practicable after a legislator takes the oath of office for the legislator's term, the legislator shall file a list of the legislator's designees who have accepted the designation, ranked in order of succession, together with the written acceptance of each designee, with the secretary of the senate or the chief clerk of the house of representatives, as applicable. That officer shall promptly deliver a certified copy of the list and of each acceptance to the secretary of state.

(c) The emergency interim successor shall exercise the powers and assume the duties of the legislator whom the individual succeeds, except that the successor may not designate emergency interim successors or make revisions to a designation.

(b) A quorum of a public body is a majority of the number of members fixed by statute.

Sec. 311.014. COMPUTATION OF TIME. (a) In computing a period of days, the first day is excluded and the last day is included.

SUBCHAPTER C. CONSTRUCTION OF STATUTES

Sec. 311.021. INTENTION IN ENACTMENT OF STATUTES. In enacting a statute, it is presumed that:

(1) compliance with the constitutions of this state and the United States is intended;
(2) the entire statute is intended to be effective;
(3) a just and reasonable result is intended;
(4) a result feasible of execution is intended; and
(5) public interest is favored over any private interest.

Sec. 311.022. PROSPECTIVE OPERATION OF STATUTES. A statute is presumed to be prospective in its operation unless expressly made retrospective.

Sec. 311.023. STATUTE CONSTRUCTION AIDS. In construing a statute, whether or not the statute is considered ambiguous on its face, a court may consider among other matters the:

(1) object sought to be attained;
(2) circumstances under which the statute was enacted;
(3) legislative history;
(4) common law or former statutory provisions, including laws on the same or similar subjects;
(5) consequences of a particular construction;
(6) administrative construction of the statute; and
(7) title (caption), preamble, and emergency provision.

Sec. 311.024. HEADINGS. The heading of a title, subtitle, chapter, subchapter, or section does not limit or expand the meaning of a statute.

Sec. 311.025. IRRECONCILABLE STATUTES AND AMENDMENTS. (a) Except as provided by Section 311.031(d), if statutes enacted at the same or different sessions of the legislature are irreconcilable, the statute latest in date of enactment prevails.

(b) Except as provided by Section 311.031(d), if amendments to the same statute are enacted at the same session of the legislature, one amendment without reference to another, the amendments shall be harmonized, if possible, so that effect may be given to each. If the amendments are irreconcilable, the latest in date of enactment prevails.

(c) In determining whether amendments are irreconcilable, text that is reenacted because of the requirement of Article III, Section
36, of the Texas Constitution is not considered to be irreconcilable with additions or omissions in the same text made by another amendment. Unless clearly indicated to the contrary, an amendment that reenacts text in compliance with that constitutional requirement does not indicate legislative intent that the reenacted text prevail over changes in the same text made by another amendment, regardless of the relative dates of enactment.

(d) In this section, the date of enactment is the date on which the last legislative vote is taken on the bill enacting the statute.

(e) If the journals or other legislative records fail to disclose which of two or more bills in conflict is latest in date of enactment, the date of enactment of the respective bills is considered to be, in order of priority:

(1) the date on which the last presiding officer signed the bill;

(2) the date on which the governor signed the bill; or

(3) the date on which the bill became law by operation of law.

Sec. 311.026. SPECIAL OR LOCAL PROVISION PREVAILS OVER GENERAL. (a) If a general provision conflicts with a special or local provision, the provisions shall be construed, if possible, so that effect is given to both.

(b) If the conflict between the general provision and the special or local provision is irreconcilable, the special or local provision prevails as an exception to the general provision, unless the general provision is the later enactment and the manifest intent is that the general provision prevail.

Sec. 311.027. STATUTORY REFERENCES. Unless expressly provided otherwise, a reference to any portion of a statute or rule applies to all reenactments, revisions, or amendments of the statute or rule.
Sec. 311.028.  UNIFORM CONSTRUCTION OF UNIFORM ACTS.  A uniform act included in a code shall be construed to effect its general purpose to make uniform the law of those states that enact it.

Sec. 311.029.  ENROLLED BILL CONTROLS.  If the language of the enrolled bill version of a statute conflicts with the language of any subsequent printing or reprinting of the statute, the language of the enrolled bill version controls.

Sec. 311.030.  REPEAL OF REPEALING STATUTE.  The repeal of a repealing statute does not revive the statute originally repealed nor impair the effect of any saving provision in it.

Sec. 311.031.  SAVING PROVISIONS.  (a) Except as provided by Subsection (b), the reenactment, revision, amendment, or repeal of a statute does not affect:

(1) the prior operation of the statute or any prior action taken under it;

(2) any validation, cure, right, privilege, obligation, or liability previously acquired, accrued, accorded, or incurred under it;

(3) any violation of the statute or any penalty, forfeiture, or punishment incurred under the statute before its amendment or repeal; or

(4) any investigation, proceeding, or remedy concerning any privilege, obligation, liability, penalty, forfeiture, or punishment; and the investigation, proceeding, or remedy may be instituted, continued, or enforced, and the penalty, forfeiture, or punishment
imposed, as if the statute had not been repealed or amended.

(b) If the penalty, forfeiture, or punishment for any offense is reduced by a reenactment, revision, or amendment of a statute, the penalty, forfeiture, or punishment, if not already imposed, shall be imposed according to the statute as amended.

(c) The repeal of a statute by a code does not affect an amendment, revision, or reenactment of the statute by the same legislature that enacted the code. The amendment, revision, or reenactment is preserved and given effect as part of the code provision that revised the statute so amended, revised, or reenacted.

(d) If any provision of a code conflicts with a statute enacted by the same legislature that enacted the code, the statute controls.

Sec. 311.032. SEVERABILITY OF STATUTES. (a) If any statute contains a provision for severability, that provision prevails in interpreting that statute.

(b) If any statute contains a provision for nonseverability, that provision prevails in interpreting that statute.

(c) In a statute that does not contain a provision for severability or nonseverability, if any provision of the statute or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the statute that can be given effect without the invalid provision or application, and to this end the provisions of the statute are severable.

Sec. 311.034. WAIVER OF SOVEREIGN IMMUNITY. In order to preserve the legislature's interest in managing state fiscal matters through the appropriations process, a statute shall not be construed as a waiver of sovereign immunity unless the waiver is effected by clear and unambiguous language. In a statute, the use of "person," as defined by Section 311.005 to include governmental entities, does not indicate legislative intent to waive sovereign immunity unless the context of the statute indicates no other reasonable construction. Statutory prerequisites to a suit, including the
provision of notice, are jurisdictional requirements in all suits against a governmental entity.

Added by Acts 2001, 77th Leg., ch. 1158, Sec. 8, eff. June 15, 2001. Amended by:

Acts 2005, 79th Leg., Ch. 1150 (H.B. 2988), Sec. 1, eff. September 1, 2005.

Sec. 311.035. CONSTRUCTION OF STATUTE OR RULE INVOLVING CRIMINAL OFFENSE OR PENALTY. (a) In this section, "actor" and "element of offense" have the meanings assigned by Section 1.07, Penal Code.

(b) Except as provided by Subsection (c), a statute or rule that creates or defines a criminal offense or penalty shall be construed in favor of the actor if any part of the statute or rule is ambiguous on its face or as applied to the case, including:

(1) an element of offense; or
(2) the penalty to be imposed.

(c) Subsection (b) does not apply to a criminal offense or penalty under the Penal Code or under the Texas Controlled Substances Act.

(d) The ambiguity of a part of a statute or rule to which this section applies is a matter of law to be resolved by the judge.

Added by Acts 2015, 84th Leg., R.S., Ch. 1251 (H.B. 1396), Sec. 4, eff. September 1, 2015.

Sec. 311.036. CONSTRUCTION OF ABORTION STATUTES. (a) A statute that regulates or prohibits abortion may not be construed to repeal any other statute that regulates or prohibits abortion, either wholly or partly, unless the repealing statute explicitly states that it is repealing the other statute.

(b) A statute may not be construed to restrict a political subdivision from regulating or prohibiting abortion in a manner that is at least as stringent as the laws of this state unless the statute explicitly states that political subdivisions are prohibited from regulating or prohibiting abortion in the manner described by the statute.

(c) Every statute that regulates or prohibits abortion is
severable in each of its applications to every person and circumstance. If any statute that regulates or prohibits abortion is found by any court to be unconstitutional, either on its face or as applied, then all applications of that statute that do not violate the United States Constitution and Texas Constitution shall be severed from the unconstitutional applications and shall remain enforceable, notwithstanding any other law, and the statute shall be interpreted as if containing language limiting the statute's application to the persons, group of persons, or circumstances for which the statute's application will not violate the United States Constitution and Texas Constitution.

Added by Acts 2021, 87th Leg., R.S., Ch. 62 (S.B. 8), Sec. 5, eff. September 1, 2021.

Sec. 312.012. GRAMMAR AND PUNCTUATION. (a) A grammatical error does not vitiate a law. If the sentence or clause is meaningless because of the grammatical error, words and clauses may be transposed to give the law meaning.

(b) Punctuation of a law does not control or affect legislative intent in enacting the law.

Sec. 312.013. SEVERABILITY OF STATUTES. (a) Unless expressly provided otherwise, if any provision of a statute or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the statute that can be given effect without the invalid provision or application, and to this end the provisions of the statute are severable.

(b) The notice must be published once not later than the 30th day before the date on which the intended law is introduced in the legislature.

(c) The notice is sufficient if it contains a statement of the general purpose and substance of the intended law and the name of the person paying for the publication. Publication of the particular form of the intended law or the terms used in the intended law is not required.

(d) If the intended law will affect more than one county, the person applying for passage of the law must publish notice in each county the law will affect.

(e) If a newspaper is not published in the county, the person applying for passage of the law must post the notice at the courthouse door and at five other public places in the immediate locality in the county the law will affect.

(f) The posted notice must accurately define the locality the law will affect.

(g) The notice must be posted for at least 30 days.

(a) If a resident of this state intends to apply for passage of a law that will primarily affect persons and will not directly affect a particular locality more than it will affect another, the person applying for passage must publish notice in a newspaper published in the county in which the person resides in the same manner as if the law will affect the locality.

(b) If the applicant is not a resident of this state, publication of notice in a newspaper published in Austin is sufficient.

Sec. 313.004. PROOF OF PUBLICATION OR POSTING. (a) If publication of notice in a newspaper is required by law, proof of publication shall be made by the affidavit of the publisher accompanied by a printed copy of the notice as published.

(b) Proof of posting may be made by the return of the sheriff or constable or by the affidavit of a credible person made on a copy of the posted notice showing the fact of the posting.

(c) The notice is sufficient if it contains a statement of the general purpose and substance of the intended law and the name of the person paying for the publication. Notice of the particular form of the intended law or the terms used in the intended law is not required.

(d) The person is not required to mail notice under Subsection (b) or (e) to a person who owns real property in the proposed district or in the area proposed to be added to a district if the property cannot be subject to an assessment by the district.

(e) After the introduction of a law in the legislature establishing or adding territory to a special district that incorporates a power from Chapter 375, Local Government Code, the person shall mail to each person who owns real property proposed to be included in a new district or to be added to an existing district a notice that the legislation has been introduced, including the applicable bill number. The notice, properly addressed with postage paid, must be deposited with the United States Postal Service not later than the 30th day after the date on which the intended law is introduced in the legislature. If the person has not mailed the notice required under this subsection on the 31st day after the date on which the intended law is introduced in the legislature, the person may cure the deficiency by immediately mailing the notice, but the person shall in no event mail the notice later than the date on which the intended law is reported out of committee in the chamber other than the chamber in which the intended law was introduced. If similar bills are filed in both chambers of the legislature, a person is only required to provide a single notice under this subsection not later than the 30th day after the date the first of the bills is filed.
(f) A landowner may waive any notice required under this section at any time.

The Legislative Budget Board shall establish a system of fiscal notes identifying the probable costs of each bill or resolution that authorizes or requires the expenditure or diversion of state funds for a purpose other than one provided for in the general appropriations bill.

Sec. 314.002. COST ESTIMATES. In preparing a fiscal note, the board shall project cost estimates for a five-year period that begins on the effective date of the bill or resolution and shall state whether or not costs or diversions will be involved after that period.

Sec. 314.003. ATTACHMENT TO BILL OR RESOLUTION. (a) If a fiscal note is required on a bill or resolution, it must be attached to the bill or resolution as provided by the rules of the appropriate house of the legislature.

(b) The fiscal note must be printed as part of the committee report of the bill or resolution and as part of all subsequent printings, as provided by the rules of the appropriate house of the legislature.
(c) The fiscal note must remain with the bill or resolution throughout the legislative process, including submission to the governor.

   (1) that raises or lowers the rate or amount of a tax or fee or proposes an amendment to the Texas Constitution that would raise or lower the rate or amount of a tax or fee; and
   (2) for which a fiscal note is prepared indicating a positive or negative impact on revenue of at least $75 million annually.
(b) The dynamic fiscal impact statement must, based on dynamic scoring principles, project for the five-year period beginning on the proposed effective date of the change in the rate or amount of the
tax or fee the estimated fiscal and economic impacts of raising or lowering the rate or amount of the tax or fee as proposed, including the impact on:

(1) tax or fee receipts; and
(2) the costs of the specific program, if any, that the tax or fee is designed to directly support.

(c) In this section, "dynamic scoring principles" means a method of estimating the pace of economic growth or the change in the aggregate level of economic output and incomes, in response to a change in the rate or amount of a tax or fee, that takes into consideration factors including:

(1) the direct impact on tax or fee receipts and, if the tax or fee is designed to directly support a specific program, on program costs;
(2) the effects on incentives to work, save, invest, and conduct economic affairs;
(3) the resulting change in the overall level of economic activity;
(4) the impact of the resulting higher or lower level of economic activity on tax or fee receipts and, if the tax or fee is designed to directly support a specific program, on program costs; and
(5) a calculation of the net impact of the legislation proposing the change on the unified budget.

(d) The dynamic fiscal impact statement must be attached to the bill or resolution immediately following the fiscal note attached under Section 314.003.

(e) On the fifth anniversary of the effective date of a bill that becomes law for which a dynamic fiscal impact statement was prepared under this section, the comptroller shall prepare and submit to the presiding officer of each house of the legislature a report that assesses the accuracy of the relevant fiscal note prepared for the bill and the accuracy of the relevant dynamic fiscal impact statement prepared for the bill.

CHAPTER 316. APPROPRIATIONS

SUBCHAPTER A. LIMIT ON GROWTH OF APPROPRIATIONS

Sec. 316.001. LIMIT. (a) For purposes of this subchapter, "consolidated general revenue appropriations" means appropriations from:

(1) the general revenue fund in the state treasury;

(2) a dedicated account in the general revenue fund in the state treasury; or

(3) a general revenue-related fund in the state treasury as identified in the biennial statement required of the comptroller under Section 49a, Article III, Texas Constitution.

(b) The rate of growth of appropriations in a state fiscal biennium from state tax revenues not dedicated by the constitution may not exceed the estimated rate of growth of the state's economy.

(c) The rate of growth of consolidated general revenue appropriations in a state fiscal biennium may not exceed the
estimated average biennial rate of growth of this state's population during the state fiscal biennium preceding the biennium for which appropriations are made and during the state fiscal biennium for which appropriations are made, adjusted by the estimated average biennial rate of monetary inflation in this state during the same period, as determined under Section 316.002.

(d) For purposes of this subchapter, the following appropriations must be excluded from computations used to determine whether appropriations exceed the amount authorized by Subsection (c):

(1) an appropriation for a purpose that provides tax relief; or

(2) an appropriation to pay costs associated with recovery from a disaster declared by the governor under Section 418.014.

(e) The Legislative Budget Board shall determine the rates described by Subsection (c) using the most recent information available from sources the board considers reliable, including the United States Bureau of Labor Statistics Consumer Price Index and the Texas Demographic Center.

Amended by:
Acts 2021, 87th Leg., R.S., Ch. 437 (S.B. 1336), Sec. 1, eff. September 1, 2021.

Sec. 316.002. DUTIES OF LEGISLATIVE BUDGET BOARD. (a) Before the Legislative Budget Board transmits the budget for the next state fiscal biennium as prescribed by Section 322.008(c), the board shall establish:

(1) the limit on the rate of growth of appropriations from state tax revenues not dedicated by the constitution for that state fiscal biennium, as compared to the previous state fiscal biennium, based on the estimated rate of growth of the state's economy from the current state fiscal biennium to the next state fiscal biennium; and

(2) the limit on the rate of growth of consolidated general revenue appropriations for that state fiscal biennium, as compared to the previous state fiscal biennium, by subtracting one from the product of:

(A) the sum of one and the estimated average biennial
rate of growth of this state's population during the state fiscal biennium preceding the biennium for which appropriations are made and during the state fiscal biennium for which appropriations are made; and

(B) the sum of one and the estimated average biennial rate of monetary inflation during the state fiscal biennium preceding the biennium for which appropriations are made and during the state fiscal biennium for which appropriations are made.

(b) Except as provided by Subsection (c), the board shall determine the estimated rate of growth of the state's economy for purposes of Subsection (a)(1) by dividing the estimated Texas total personal income for the next state fiscal biennium by the estimated Texas total personal income for the current state fiscal biennium. Using standard statistical methods, the board shall make the estimate by projecting through the biennium the estimated Texas total personal income reported by the United States Department of Commerce or its successor in function.

(c) If a more comprehensive definition of the rate of growth of the state's economy is developed and is approved by the committee established by Section 316.005, the board may use that definition in calculating the limit on the rate of growth of appropriations from state tax revenues not dedicated by the constitution under Subsection (a)(1).

(d) Except as provided by Subsection (e), the board shall determine for the next state fiscal biennium a limit on the amount of:

(1) appropriations from state tax revenues not dedicated by the constitution by multiplying the amount of appropriations from state tax revenues not dedicated by the constitution for the current state fiscal biennium by the sum of one and the limit on the rate of growth of appropriations from state tax revenues not dedicated by the constitution established by the board under Subsection (a)(1); and

(2) consolidated general revenue appropriations by multiplying the amount of consolidated general revenue appropriations for the current state fiscal biennium by the sum of one and the limit on the rate of growth of consolidated general revenue appropriations established by the board under Subsection (a)(2).

(e) If the rate determined under Subsection (a)(2) is a negative number, the amount of consolidated general revenue appropriations for the next state fiscal biennium may not exceed the
amount of consolidated general revenue appropriations in the current state fiscal biennium.

(f) To ensure compliance with this subchapter and Section 22, Article VIII, Texas Constitution, the Legislative Budget Board may not transmit in any form to the governor or the legislature the budget as prescribed by Section 322.008(c) or the general appropriations bill as prescribed by Section 322.008(d) until the board adopts:

(1) the limit on the rate of growth of appropriations from state tax revenues not dedicated by the constitution under Section 316.001(b); and

(2) the limit on the rate of growth of consolidated general revenue appropriations under Section 316.001(c).

(g) In the absence of an action by the Legislative Budget Board to adopt the limits as provided by this section:

(1) for purposes of Section 316.001(b):

(A) the estimated rate of growth of the state's economy from the current state fiscal biennium to the next state fiscal biennium shall be treated as if it were zero; and

(B) the amount of state tax revenues not dedicated by the constitution that could be appropriated within the limit established by the estimated rate of growth of the state's economy shall be the same as the amount of those appropriations for the current state fiscal biennium; and

(2) for purposes of Section 316.001(c):

(A) the estimated average biennial rates of growth of this state's population and of monetary inflation shall be treated as if they were zero; and

(B) the amount of consolidated general revenue appropriations that could be appropriated within the limit established by that subsection shall be the same as the amount of those appropriations for the current state fiscal biennium.

(b) Not later than the 10th day after the date on which the board submits the items, the committee shall meet and finally adopt the items, either as submitted by the board or as amended by the committee.

Sec. 316.006. LIMIT ON BUDGET RECOMMENDATIONS. Unless authorized by majority vote of the members of the board from each house, the Legislative Budget Board budget recommendations:
(1) relating to the proposed appropriations from state tax revenues not dedicated by the constitution may not exceed the limit on appropriations from those sources adopted by the committee under Section 316.005; and

Sec. 316.008. EFFECT OF LIMIT; ENFORCEMENT. (a) Unless the legislature adopts a resolution under Section 22, Article VIII, Texas Constitution, raising the proposed limit on appropriations from state tax revenues not dedicated by the constitution, the proposed limit is binding on the legislature with respect to all appropriations for the next state fiscal biennium made from those revenues. The proposed limit on consolidated general revenue appropriations is binding on the legislature with respect to all appropriations for the next state fiscal biennium made from those sources unless the legislature adopts a resolution raising the proposed limit that is approved by a record vote of three-fifths of the members of each house of the legislature. The resolution must find that an emergency exists, identify the
nature of the emergency, and specify the amount authorized. The excess amount authorized under this subsection may not exceed the amount specified in the resolution.

(b) The rules of the house of representatives and senate shall provide for enforcement of Subsection (a).

SUBCHAPTER D. APPROPRIATION OF UNOBLIGATED FUND BALANCES TO GENERAL REVENUE FUND

Sec. 316.031. LEGISLATIVE FINDING AND INTENT. (a) The legislature finds that, to ensure the efficient operation of state agencies and to provide for the necessary costs of state government operation, it is in the public interest to provide a means for periodic legislative review and control of unobligated cash balances and income held by state agencies in funds other than the general revenue fund.

(b) It is the intent of the legislature that:

(1) funds with an unobligated balance at the end of a fiscal year in excess of that amount necessary to fulfill an agency's statutory duties shall be identified within the General Appropriations Act by fund; and

Sec. 316.032. CONFLICTING LAWS SUSPENDED. (a) Any law that provides specific purposes for which a fund or revenue source may be used and expended and that restricts the use of revenues and balances is suspended to the extent that it conflicts with the provisions and intent of appropriations made under this subchapter in the General Appropriations Act.

(b) If the General Appropriations Act does not provide for the appropriation of unobligated fund balances to the general revenue fund, any transfer or appropriation of fund balances shall occur as specified by law.

Added by Acts 1987, 70th Leg., ch. 167, Sec. 2.06(a), eff. Sept. 1, 1987.

Sec. 316.033. FUNDS EXCLUDED. This subchapter applies to funds established by state law, but does not apply to any portion of a fund derived from constitutionally dedicated revenues or to funds or fund balances that are:

(1) dedicated by the Texas Constitution;
(2) held in trust or escrow for the benefit of any person or entity other than a state agency;
(3) pledged to the payment of bonds, notes, or other debts;
(4) derived from gifts, donations, or endowments made to state agencies or institutions of higher education;
(5) pledged to the capital trust fund to be used for construction; or
(6) maintained by institutions of higher education, including the Texas State Technical College System.

SUBCHAPTER E. ADJUSTMENT OF STATE FEES IN GENERAL APPROPRIATIONS ACT

Sec. 316.041. LEGISLATIVE FINDING AND INTENT. (a) The
The legislature finds that, to ensure the efficient operation of state agencies and institutions of higher education and to allow for the assessment of fees adequate to reimburse the state for the costs of state services and regulatory functions, it is in the public interest to provide for the adjustment of state fees by the legislature in the General Appropriations Act. It is the intent of the legislature that fees be adjusted biennially in the General Appropriations Act in a manner that provides for the recovery of any increased costs to the state resulting from the performance of services and functions for which a fee is levied. It is the intent of the legislature that, to the extent that senate and house rules allow, each substantive committee shall retain jurisdiction over any adjustment in fees as part of the appropriations process.

(b) Any increase in the amount of a fee made under this subchapter is for the purpose of recovering, on an annual basis, the costs to the state agency or institution of higher education increasing the fee. Where fee amounts are increased on a percentage basis, fee amounts may be rounded to the nearest whole dollar.

Added by Acts 1987, 70th Leg., ch. 167, Sec. 2.07(a), eff. Sept. 1, 1987.

Sec. 316.042. APPLICATION OF SUBCHAPTER. (a) This subchapter applies to all fees not set by the Texas Constitution, but does not apply to fees that are dedicated to pay bonded indebtedness.

(b) The General Appropriations Act may not specify the amount of a fee unless imposition of that fee is authorized by general law.

(c) This subchapter does not apply to tuition charged by institutions of higher education.

Added by Acts 1987, 70th Leg., ch. 167, Sec. 2.07(a), eff. Sept. 1, 1987.

Sec. 316.043. AMOUNT OF FEE. (a) The amount of a fee covered by this subchapter is the amount specified for that fee in the General Appropriations Act. Fee adjustments authorized through the General Appropriations Act are only for the purpose of offsetting inflation.

(b) A law that specifies the amount of a fee subject to this
subchapter is suspended to the extent that it conflicts with the amount of the fee specified in the General Appropriations Act.

(c) If the General Appropriations Act does not specify the amount of the fee, the fee is the amount specified by law.

(d) If a board of regents has the authority to establish a fee that falls within a statutory range, the amounts set under this subchapter constitute only the maximum amount for those fees.

Added by Acts 1987, 70th Leg., ch. 167, Sec. 2.07(a), eff. Sept. 1, 1987.

Sec. 316.044. Hearings on Fee Increases at Institutions of Higher Education. Fees at institutions of higher education may not be increased unless a public hearing is held on the increase.

Added by Acts 1987, 70th Leg., ch. 167, Sec. 2.07(a), eff. Sept. 1, 1987.

Sec. 316.045. Reduction in Certain Agency Fees. (a) Each state agency that sets the fees charged by that agency in amounts that are reasonable and necessary to cover the administrative costs of the agency shall review the amounts charged as fees on a biennial basis. The agency shall review the fees before the beginning of each state fiscal biennium and incorporate its recommendations based on that review in its budget request submitted to the Legislative Budget Board and the budget division of the governor's office.

(b) If the agency determines that the fees are set at a level that exceeds the administrative costs of the agency as of the date of the review, the agency shall reduce the amount of the affected fees to the appropriate level and shall charge the reduced fees during the subsequent biennium. Each agency shall give specific recognition to reductions in salary expenses resulting from statutorily directed employee attrition.

Added by Acts 1987, 70th Leg., ch. 167, Sec. 2.07(a), eff. Sept. 1, 1987.

SUBCHAPTER G. FISCAL YEAR
Sec. 316.071. FISCAL YEAR; APPROPRIATIONS. (a) The state fiscal year ends on August 31 of each year.

(b) Appropriations of state government shall conform to this fiscal year.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 14, eff. Sept. 1, 1993.

Sec. 316.072. REPORTS; CLOSURE OF ACCOUNTS. (a) All officers required by law to report annually or biennially to the legislature or governor shall close their accounts at the end of the fiscal year.

(b) As soon as practicable after the end of the fiscal year, the officers shall prepare and compile their respective reports.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 14, eff. Sept. 1, 1993.

SUBCHAPTER H. ALLOCATION OF TRANSFERS TO ECONOMIC STABILIZATION FUND AND STATE HIGHWAY FUND

Sec. 316.091. DEFINITION. In this subchapter, "fund" means the economic stabilization fund.

Added by Acts 2013, 83rd Leg., 3rd C.S., Ch. 1 (H.B. 1), Sec. 3, eff. November 22, 2013.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 2230, 88th Legislature, Regular Session, for amendments affecting the following section.

For expiration of this section, see Subsection (b).

Sec. 316.092. DETERMINATION OF THRESHOLD FOR CONSTITUTIONAL TRANSFER TO STATE HIGHWAY FUND. (a) For the purposes of adjusting the allocations of transfers in accordance with Section 49-g(c-2), Article III, Texas Constitution, and Section 316.093 for a state fiscal biennium, the comptroller shall determine and adopt for the state fiscal biennium an amount equal to seven percent of the certified general revenue-related appropriations made for that state fiscal biennium.

(b) This section expires December 31, 2034.
Sec. 316.093. ADJUSTMENT OF CONSTITUTIONAL ALLOCATIONS TO FUND AND STATE HIGHWAY FUND. (a) Before the comptroller makes transfers for a state fiscal year in accordance with Section 49-g(c), Article III, Texas Constitution, the comptroller shall determine whether the sum of the balance of the fund on the preceding August 31, any projected transfer to the fund under Section 49-g(b) of that article, and any projected transfer to the fund under Section 49-g(c) of that article in accordance with the allocations for the transfer as provided by Section 49-g(c-1) of that article is less than the amount determined under Section 316.092 for that state fiscal biennium.

(b) If the sum described by Subsection (a) is less than the amount determined under Section 316.092 for that state fiscal biennium, the comptroller shall reduce the allocation to the state highway fund provided by Section 49-g(c), Article III, Texas Constitution, and increase the allocation to the economic stabilization fund, in an equal amount, until the amount determined under Section 316.092 for that state fiscal biennium would be achieved by the transfer to the fund or the total amount of the sum described by Section 49-g(c), Article III, Texas Constitution, is allocated to the fund, whichever occurs first.

(c) For the purposes of Section 49-g(c-2), Article III, Texas Constitution, the comptroller shall adjust the allocation provided by Section 49-g(c-1) of that article of amounts to be transferred to the fund and to the state highway fund under Section 49-g(c) of that article in a state fiscal year beginning on or after September 1,
2035, so that the total of those amounts is transferred to the economic stabilization fund, except that the comptroller shall reduce a transfer made under this subsection as necessary to prevent the amount in the fund from exceeding the limit in effect for that biennium under Section 49-g(g) of that article.

(d) Subsections (a) and (b) and this subsection expire December 31, 2034.

Added by Acts 2013, 83rd Leg., 3rd C.S., Ch. 1 (H.B. 1), Sec. 3, eff. November 22, 2013.
Amended by:
  Acts 2019, 86th Leg., R.S., Ch. 1336 (S.B. 69), Sec. 2, eff. September 1, 2019.

Sec. 316.094. ALLOCATION OF CERTAIN AMOUNTS TRANSFERRED TO STATE HIGHWAY FUND. Amounts transferred to the state highway fund under Section 49-g(c), Article III, Texas Constitution, when appropriated, must be used and allocated throughout the state by the Texas Department of Transportation consistent with existing formulas adopted by the Texas Transportation Commission.

Added by Acts 2013, 83rd Leg., 3rd C.S., Ch. 1 (H.B. 1), Sec. 3, eff. November 22, 2013.

CHAPTER 317. STATE BUDGET EXECUTION

SUBCHAPTER A. REGULAR APPROPRIATIONS

Sec. 317.001. DEFINITIONS. In this subchapter:
(1) "Appropriation" means a grant of money made by the legislature for a purpose other than the payment of a judgment or a preexisting debt incurred by the state.
(2) "State agency" means a public entity in the executive, judicial, or legislative branch of state government eligible under law to receive an appropriation.

Sec. 317.002. TYPES OF PROPOSALS TO AFFECT APPROPRIATIONS. (a) The governor or Legislative Budget Board may propose that a state agency be prohibited from spending, obligating the expenditure of, or distributing part or all of an appropriation made to the agency unless the amount is reappropriated by the legislature or is released, or expenditures are approved, as provided in the proposal.

(b) After finding that an emergency exists, the governor or Legislative Budget Board may propose that the authority to spend, obligate the expenditure of, or distribute part or all of an appropriation made to a state agency:

(1) be transferred to another state agency to be used for a specified purpose; or

(2) be retained by the agency to which the appropriation was made but used for a purpose different from or additional to the purpose for which the appropriation was made.

(c) The governor or Legislative Budget Board may propose a change in the time that an appropriation is distributed or otherwise made available to a state agency, whether the time of distribution or availability is set by appropriations act or general law.

Sec. 317.003. TIME AND SCOPE OF PROPOSAL. (a) The governor or Legislative Budget Board may make a proposal at any time except during a regular or special session of the legislature. A proposal may apply to an appropriation that has been made for any specified fiscal year that has not ended at the time the proposal is made.

(b) Except as provided by Section 317.005(f), a proposal may provide for the withholding of appropriations made from funds dedicated by statute to a specific state agency or for a specific purpose and may provide for the transfer of appropriations made from statutorily dedicated funds to an agency or for a purpose not authorized by the statute. Funds dedicated by the Texas Constitution are subject to being withheld under this chapter but are not subject to transfer except to another state agency entitled to receive appropriations from the funds under the terms of the constitution. Federal funds appropriated by the legislature are subject to being
withheld under this chapter but may not be transferred except as permitted by federal law.

(c) The governor's authority to make proposals is independent of any authority to control expenditures of state agencies that is granted the governor under other law.

Sec. 317.004. PUBLICATION OF PROPOSAL. The entity making a proposal shall specify the details of the proposal, including, for a proposal made under Section 317.002(b), a statement describing the emergency. The entity making a proposal shall direct the secretary of state to publish each proposal, including any accompanying statements, in the Texas Register.

Sec. 317.005. ACTION ON PROPOSAL. (a) After a governor's proposal under this chapter is published in the Texas Register, the Legislative Budget Board may conduct a public hearing on the proposal. The board shall give notice of a hearing under this section in the manner provided by law for notice of regular meetings of the board. The board also shall provide notice by mail of its meetings to each member of the Legislature. The notice of the meeting must include a description of the nature of the proposal or order to be considered. If the agenda includes a public hearing on a proposal, the notice must so state.

After a hearing and at a meeting held not less than 10 days after the date notice of the meeting was given in the manner provided for regular board meetings, in response to a governor's proposal the board, subject to the restrictions provided by Subsection (e), may:

(1) ratify the proposal by adopting an order changing the relevant appropriation in the manner specified in the proposal;
(2) reject the proposal; or
(3) recommend changes in the proposal.
(b) In response to a proposal by the board, the governor may take any action specified by Subsection (a) for board action on a governor's proposal.

(c) A recommended change in a proposal may include recommendations for a change in:

1. the proposed amount of money withheld or transferred;
2. the proposed purpose for which the appropriation may be used;
3. the proposed period for which an appropriation may not be expended, obligated, or distributed;
4. the source or recipient of a proposed transfer; or
5. a proposed time of distribution or availability of the appropriation that is the subject of the proposal.

(d) If the governor or the board recommends a change in a proposal by the other entity, the recommending entity may adopt a contingent order changing the relevant appropriation in the manner specified in the recommendations.

(e) Neither the governor nor the board may adopt an order under this section:

1. expressly postponing the time, whether set by appropriations act or general law, that an appropriation is distributed or otherwise made available to a state agency, for a period that exceeds 180 days;
2. reducing or eliminating an appropriation for the salary of an elected state official or a member of a board or commission appointed by the governor; or
3. reducing or eliminating an appropriation to a state agency that receives appropriations under the article of the General Appropriations Act that makes appropriations to the legislative branch.

(f) The governor or board may adopt an order under this section withholding or transferring any portion of the total amount appropriated to finance the foundation school program for a fiscal year. The governor or board may not adopt such an order if it would result in an allocation of money between particular programs or statutory allotments under the foundation school program contrary to the statutory proration formula provided by Section 48.266(f), Education Code. The governor or board may transfer an amount to the total amount appropriated to finance the foundation school program for a fiscal year and may increase the basic allotment. The governor
or board may adjust allocations of amounts between particular programs or statutory allotments under the foundation school program only for the purpose of conforming the allocations to actual pupil enrollments or attendance.

    (g) The affirmative vote of a majority of the members of the board from each house is necessary for the adoption of an order by the board under this section.

    (h) If either the governor or the board adopts an order under this section, the entity adopting the order shall notify the proposing entity, the comptroller, and the affected state agencies. Unless the order is a contingent order, the entity adopting the order shall file a copy of the order with the secretary of state for publication in the Texas Register.

Amended by:
Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 3.072, eff. September 1, 2019.

Sec. 317.006. ACTION ON CONTINGENT ORDER. The governor or board shall approve or reject each contingent order adopted under Section 317.005(d) by the other entity. The governor or board shall notify the other entity, the comptroller, and the affected state agencies of the approval or rejection and shall direct the secretary of state to publish notice of the action in the Texas Register.

Sec. 317.007. EXPIRATION OF PROPOSAL OR CONTINGENT ORDER. A proposal made by the governor or board under this chapter expires if the other entity does not adopt an order ratifying or changing the
proposal before the 31st day after the date the proposal is published in the Texas Register. A contingent order adopted by the governor or board under this chapter expires if the other entity does not approve the order before the 31st day after the date the proposal on which the order is based is published in the Texas Register. A proposal or contingent order of either entity also expires if a regular or special session of the legislature begins before, respectively, the other entity has ratified the proposal or has approved the contingent order.

Sec. 317.008. EFFECTIVE AND EXPIRATION DATES OF ORDER. (a) An order adopted by the governor or the Legislative Budget Board under this chapter, other than a contingent order adopted under Section 317.005(d), takes effect on the date of adoption, unless the order specifies a later date. A contingent order adopted under Section 317.005(d) and approved under this chapter takes effect on the date of approval, unless the order specifies a later date.

(b) An order adopted under this chapter expires at the end of the fiscal year to which by its terms it applies, except that an order may specify an earlier expiration date or a later date that does not extend beyond the end of the biennium containing each fiscal year to which the order applies.

Sec. 317.009. ENFORCEMENT OF ORDER. During the period for which an order adopted under this chapter is effective, in regard to affected appropriations the comptroller may approve vouchers and may issue warrants only in accordance with the terms of the order.

Sec. 317.010. EFFECT ON UNEXPENDED BALANCES. Appropriations withheld under an order adopted and in effect under this chapter are not available for expenditure by a state agency in the second year of a biennium as unexpended balances from the preceding year's appropriation, unless the money is released as provided in the order, the order expires, or the money is reappropriated by the legislature.

Added by Acts 1987, 70th Leg., 2nd C.S., ch. 26, Sec. 1.

Sec. 317.011. SUPERSESSION OF ORDER. An unexpired order adopted under this chapter may be superseded by subsequent action of the governor and the Legislative Budget Board taken as provided by this chapter, by enactment of a law to the contrary by the legislature, or by adoption of a constitutional amendment having contradictory effect.

Added by Acts 1987, 70th Leg., 2nd C.S., ch. 26, Sec. 1.

SUBCHAPTER B. CONTINGENT APPROPRIATIONS FOR COMPUTER EQUIPMENT

Sec. 317.050. DEFINITIONS. In this subchapter:

(1) "Computer equipment" includes computers, telecommunications devices and systems, automated information systems, and the peripheral devices and hardware, software, and services that are necessary to the efficient installation and operation of that equipment.

(2) "Board" means the Legislative Budget Board.

Added by Acts 1989, 71st Leg., ch. 786, Sec. 4, eff. Sept. 1, 1989.

Sec. 317.051. AUTHORITY TO MAKE CONTINGENT APPROPRIATIONS. The legislature may appropriate money to a state agency on a contingency basis for the purpose of purchasing computer equipment. The only money that the legislature may appropriate under this subchapter consists of the proceeds from the issuance of obligations by the Texas Public Finance Authority.

Added by Acts 1989, 71st Leg., ch. 786, Sec. 4, eff. Sept. 1, 1989.
Sec. 317.052. EFFECTIVENESS OF A CONTINGENT APPROPRIATION. (a) Before a contingent appropriation for computer equipment may become effective, a state agency must submit an application to the board for review and approval. A state agency shall send a copy of the application to the governor and the comptroller. The board may determine the format and timing of and the method for submitting the application.

(b) After receiving an application, the board may hold a public hearing on the application.

(c) After the hearing, if any, the board shall determine whether the application shows to the satisfaction of the board that:

1. the necessity of the computer equipment was reasonably unforeseen when the current General Appropriations Act was being considered and passed, or that sufficient appropriations to purchase the equipment were inadvertently or erroneously omitted from that Act;

2. the applicant's current appropriations are inadequate or unavailable to purchase the equipment;

3. the applicant has obtained the approvals required by law; and

4. the applicant will not be required to make any payments during the current biennium on the interest and principal of the obligations issued by the Texas Public Finance Authority.

Added by Acts 1989, 71st Leg., ch. 786, Sec. 4, eff. Sept. 1, 1989.

Sec. 317.053. NOTIFICATION OF LEGISLATIVE BUDGET BOARD'S DECISION. (a) The board shall notify the comptroller, the governor, and the applying state agency in writing of the board's decision about an application.

(b) If the board approves the application, then the contingent appropriation becomes effective on the date that the comptroller receives the notification.

Added by Acts 1989, 71st Leg., ch. 786, Sec. 4, eff. Sept. 1, 1989.

CHAPTER 318. REVIEW OF REGULATORY PROGRAMS

Sec. 318.001. FINDINGS. The legislature finds that:

1. the interests of the residents of the state are served
by the regulation of certain professions and other occupations;

(2) state government actions have produced a substantial increase in the number of regulatory programs;

(3) the legislature should review proposed regulatory programs to better evaluate the need for the programs; and

(4) regulation should not be imposed on any profession or other occupation unless required for the protection of the health, safety, or welfare of the residents of the state.

Added by Acts 1989, 71st Leg., ch. 2, Sec. 9.01(a), eff. Aug. 28, 1989.

Sec. 318.002. CONSIDERATIONS. In evaluating whether a profession or other occupation should be regulated, the following factors should be considered:

(1) whether the unregulated practice of a profession or other occupation may significantly harm or endanger the public health, safety, or welfare and whether the potential for harm is easily recognizable and not remote or dependent on tenuous argument;

(2) whether the practice of a profession or other occupation requires specialized skill or training and whether the public clearly needs and will benefit by assurances of initial and continuing competence of practitioners of the profession or occupation;

(3) whether the regulation would have the effect of directly or indirectly increasing the cost of any goods or services and, if so, whether the increase would be more harmful to the public than the harm that might result from the absence of regulation;

(4) whether the regulatory process would significantly reduce competition in the field and, if so, whether the reduction would be more harmful to the public than the harm that might result from the absence of regulation; and

(5) whether the residents of the state are or may be effectively protected by other means.

Added by Acts 1989, 71st Leg., ch. 2, Sec. 9.01(a), eff. Aug. 28, 1989.

Sec. 318.003. FORMS OF REGULATION. (a) If the legislature
finds that it is necessary to impose regulation on a profession or other occupation not regulated before August 26, 1985, regulation should be implemented in the least restrictive manner available in the following order:

(1) implementation of a system of registration by which practitioners of the profession or occupation register with a designated state agency, but without the imposition of prequalifications or requirements for issuance of the registration other than payment of a fee, and grounds may be established for suspension or revocation of the registration or other discipline of the registrant;

(2) implementation of a system of licensure by which a practitioner receives recognition by the state that the practitioner has met predetermined qualifications, and persons not so licensed are prohibited from practicing the licensed profession or occupation, and grounds may be established for suspension or revocation of the license or other discipline of the licensee.

(b) Alternative methods of regulation should be implemented when necessary and appropriate in specific cases.

Added by Acts 1989, 71st Leg., ch. 2, Sec. 9.01(a), eff. Aug. 28, 1989.

CHAPTER 319. LEGISLATION REGARDING JUDICIAL SYSTEM
Sec. 319.021. IMPACT STATEMENT ON LEGISLATION IMPOSING COURT COSTS ON CRIMINAL DEFENDANTS. (a) This section applies only to a new court cost or fee that is remitted to the comptroller.

(b) The Legislative Budget Board shall prepare an impact statement for each resolution proposing a constitutional amendment or bill that proposes imposing a new court cost or fee on a person charged with a criminal offense or increasing the amount of an existing court cost or fee imposed on a person charged with a criminal offense, including a court cost or fee imposed on conviction or other disposition or postponed disposition of the criminal charge.

(c) The impact statement must show the total amount of court costs and fees that persons will be required to pay under the bill or resolution when considered together with all other applicable laws.

(d) The state auditor shall provide the Legislative Budget Board with the initial data needed to develop a mechanism that will
be used to produce the impact statements.

Sec. 320.001. DEFINITION. (c) The State Auditor may discharge any assistant auditors or stenographic or clerical personnel at any time for any reason satisfactory to the State Auditor and without a hearing.
(d) The State Auditor and staff are to be free from partisan politics, and the State Auditor is free to select the most efficient personnel available for each position in his office so that the State Auditor may render to the legislature the service the legislature has a right to expect. (c) In order to develop and evaluate legislative policy, the council is entitled to collect data from any state agency, including data that is confidential under state or federal law. In addition to other uses consistent with this section, the council may use data collected for the purpose of matching data from various agencies. Confidential data collected by the council does not lose its character as confidential information because of its collection by the council, and the providing of that data to the council does not constitute a release of the information by the state agency. For the limited purpose of collecting and matching data subject to 20 U.S.C. Section 1232g or other federal law governing education records, employees of the council are considered state school officials.

(d) The council is subject to any federal law governing the release of or providing access to any personally identifiable information to the same extent as the agency from which the data is collected. (e) In collecting personally identifiable information under this section, the council and the state agency from which the data is collected shall cooperate in the confidential handling of the data, such as the encoding, decoding, and reencoding of the information. Personally identifiable information may be used by the council solely for the purpose of statistical and policy analysis, including data matching, and must be destroyed immediately when no longer needed for that analysis.

Added by Acts 1999, 76th Leg., ch. 1585, Sec. 2, eff. June 20, 1999.

Sec. 323.020. CONTRACTS TO PERFORM STATISTICAL OR DEMOGRAPHIC ANALYSIS; CONFIDENTIALITY. (a) Subsections (c)-(g) do not apply in relation to a statistical or demographic analysis of information related to the redistricting process.

(b) At the request of a state agency, the council may determine whether and the extent to which council resources are available to
contract or otherwise agree with the agency to perform a statistical 
or demographic analysis of information for the agency or to assist 
the agency in performing the analysis. A reference in this section 
to performing an analysis includes assisting an agency to perform the 
analysis.

(c) Except as provided by this section, information that the 
council acquires or produces in relation to a statistical or 
demographic analysis performed under Subsection (b) is confidential 
and not public information subject to Chapter 552, including:

(1) any information that identifies or tends to identify an 
individual or other entity that submitted information or that was 
asked to submit information for the analysis;
(2) working drafts and working papers developed in 
performing the analysis;
(3) contracts and subcontracts entered into for purposes of 
performing the analysis;

specification programs, data use agreements, and data dictionaries 
acquired or used in performing the analysis.

(d) Without regard to whether the council collects information 
for purposes of performing a statistical or demographic analysis of 
information under Subsection (b) indirectly through the state agency 
or directly from another governmental or nongovernmental entity, an 
individual or other entity that voluntarily provides information to 
the state agency or to the council for purposes of the analysis does 
not waive any exception from required disclosure or any privilege not 
to disclose the information, and the character of the information as 
privileged or excepted from required disclosure is not affected by 
that action of the individual or other entity.

(e) A final report containing a statistical or demographic 
analysis of information performed under Subsection (b), a cover 
letter or cover memorandum for the final report, and an announcement 
that the final report is available are not confidential and are 
subject to required public disclosure under Chapter 552 except to the 
extent that the final report, cover letter or cover memorandum, or 
announcement contains information that identifies or tends to
identify an individual or entity other than information that names a staff member who performed work in relation to performing the analysis or that names government officials on a letterhead.

(f) Notwithstanding Subsection (c)(3), a contract or other agreement between the council and a state agency under Subsection (b) and the names of the staff members who perform work in relation to performing the analysis under the contract or agreement are not confidential. A contract or agreement between the council and a state agency under Subsection (b) is public information subject to Chapter 552.

(g) Information that an individual or other entity submits for the purpose of a statistical or demographic analysis of information performed by the council under Subsection (b) may not be used against the individual or other entity in a state agency enforcement proceeding. This subsection does not affect the ability of a state agency to obtain the information by other means and to use the information, if obtained by other means, in a state agency enforcement proceeding.

CHAPTER 325. SUNSET LAW

Sec. 325.001. SHORT TITLE. This chapter may be cited as the Texas Sunset Act.

Sec. 325.002. DEFINITIONS. In this chapter:
(1) "State agency" means an entity expressly made subject to this chapter.
(2) "Advisory committee" means a committee, council, commission, or other entity created under state law whose primary function is to advise a state agency.
(3) "Commission" means the Sunset Advisory Commission.

Sec. 325.003. SUNSET ADVISORY COMMISSION. (a) The Sunset Advisory Commission is a legislative agency that consists of five members of the senate and one public member appointed by the lieutenant governor and five members of the house of representatives and one public member appointed by the speaker of the house. The lieutenant governor and the speaker of the house may serve as one of the legislative appointees.

(a-1) A public member acts on behalf of the legislature when participating on the commission in furtherance of the legislature's
duty to provide oversight of executive branch agencies' implementation of legislative priorities.

(b) An individual is not eligible for appointment as a public member if the individual or the individual's spouse is:

1. regulated by a state agency that the commission will review during the term for which the individual would serve;
2. employed by, participates in the management of, or directly or indirectly has more than a 10 percent interest in a business entity or other organization regulated by a state agency the commission will review during the term for which the individual would serve; or
3. required to register as a lobbyist under Chapter 305 because of the person's activities for compensation on behalf of a profession or entity related to the operation of an agency under review.

(c) It is a ground for removal of a public member from the commission if the member does not have the qualifications required by Subsection (b) for appointment to the commission at the time of appointment or does not maintain the qualifications while serving on the commission. The validity of the commission's action is not affected by the fact that it was taken when a ground for removal of a public member from the commission existed.

(d) Legislative members serve four-year terms, with terms staggered so that the terms of as near to one-half of the legislative members appointed by the lieutenant governor as possible and the terms of as near to one-half of the legislative members appointed by the speaker as possible expire September 1 of each odd-numbered year. If the lieutenant governor or the speaker serves on the commission, service continues until resignation from the commission or until the individual ceases to hold the office. Public members serve two-year terms expiring September 1 of each odd-numbered year.

(e) Members other than the lieutenant governor and the speaker are subject to the following restrictions:

1. after a legislative member serves two terms on the commission or a public member serves three terms on the commission, the individual is not eligible for appointment to another term or part of a term;
2. a legislative member who serves a full term may not be appointed to an immediately succeeding term; and
3. a public member may not serve more than two consecutive
terms, and, for purposes of this prohibition, a member is considered to have served a term only if the member has served more than half of the term.

(e-1) If an individual serves for less than a full term, the term is not counted toward determining the individual's eligibility to serve on the commission under Subsection (e)(1) unless the individual was a member of the commission for each public hearing at which the state agencies being reviewed during the individual's term were discussed.

(f) The lieutenant governor and speaker shall make their appointments before September 1 of each odd-numbered year.

(g) If a legislative member ceases to be a member of the house from which he was appointed, the member vacates his membership on the commission.

(h) If a vacancy occurs, the appropriate appointing authority shall appoint a person to serve for the remainder of the unexpired term in the same manner as the original appointment.

(i) The commission shall have a chairman and vice-chairman as presiding officers. The chairmanship and vice-chairmanship must alternate every two years between the two membership groups appointed by the lieutenant governor and the speaker. The chairman and vice-chairman may not be from the same membership group. The lieutenant governor shall designate a presiding officer from his appointed membership group and the speaker shall designate the other presiding officer from his appointed membership group.

(j) Seven members of the commission constitute a quorum. A final action or recommendation may not be made unless approved by a record vote of a majority of members appointed by the lieutenant governor and the speaker of the house. All other actions by the commission shall be decided by a majority of the members present and voting.

(k) Each member of the commission is entitled to reimbursement for actual and necessary expenses incurred in performing commission duties. Each legislative member is entitled to reimbursement from the appropriate fund of the member's respective house. Each public member is entitled to reimbursement from funds appropriated to the commission.

(2) any other information that the agency considers appropriate or that is requested by the commission.

(b) The reports under Subsection (a) must be submitted in electronic format only. The commission shall prescribe the electronic format to be used.

(b) The written report prepared by the commission under Subsection (a)(3) is a public record.

(c) Work performed under this section by the state auditor is
subject to approval by the legislative audit committee for inclusion in the audit plan under Section 321.013(c).

(b) The commission may hold the public hearings after the review of the agency required by Section 325.008(a)(3) is complete and available to the public.

(c) Notwithstanding Subsection (a), the commission may not discuss in a public hearing the application to an agency of the criteria provided in Section 325.011(14). Sec. 325.0115. CRITERIA FOR REVIEW OF CERTAIN AGENCIES.  (a) In this section:

(1) "License" means a license, certificate, registration, permit, or other form of authorization required by law or a state agency rule that must be obtained by an individual to engage in a particular occupation or profession.

(2) "Public interest" means protection from a present and recognizable harm to public health, safety, or welfare. The term does not include speculative threats, or other non-demonstrable menaces to public health, safety, or welfare. For the purposes of this subdivision, the term "welfare" includes the financial health of the public when the absence of governmental regulation unreasonably increases risk and liability to broad classes of consumers.

(b) In an assessment of an agency that licenses an occupation or profession, the commission and its staff shall consider:

(1) whether the occupational licensing program:
   (A) serves a meaningful, defined public interest; and
   (B) provides the least restrictive form of regulation that will adequately protect the public interest;

(2) the extent to which the regulatory objective of the occupational licensing program may be achieved through market forces, private or industry certification and accreditation programs, or enforcement of other law;

(3) the extent to which licensing criteria, if applicable, ensure that applicants have occupational skill sets or competencies that correlate with a public interest and the impact that those criteria have on applicants, particularly those with moderate or low incomes, seeking to enter the occupation or profession; and

(4) the impact of the regulation, including the extent to which the program stimulates or restricts competition and affects consumer choice and the cost of services.

(c) As part of the commission's review of an agency that licenses an occupation or profession, the commission and its staff shall determine whether the governing body of the agency being reviewed has made an evaluation regarding the type of personal information of license holders that the agency should make available.
on the agency's Internet website based on the following factors:

1. the type of information the public needs to file a complaint with the agency;
2. the type of information the public needs to locate an existing or potential service provider;
3. the type of information the public needs to verify a license; and
4. whether making the information available on the agency's Internet website could subject a license holder to harassment, solicitation, or other nuisance.

(d) If the commission determines that the governing body of an agency has not completed the evaluation described by Subsection (c), the commission shall make a recommendation that the governing body of the agency perform such an evaluation.

1. make recommendations on the abolition, continuation, or reorganization of each affected state agency and its advisory committees and on the need for the performance of the functions of the agency and its advisory committees;
2. make recommendations on the consolidation, transfer, or reorganization of programs within state agencies not under review when the programs duplicate functions performed in agencies under review;
3. make recommendations to improve the operations of the agency, its policy body, and its advisory committees, including management recommendations that do not require a change in the agency's enabling statute; and
4. make recommendations on the continuation or abolition of each reporting requirement imposed on the agency by law.

(b) The commission shall include the estimated fiscal impact of its recommendations and may recommend appropriation levels for
certain programs to improve the operations of the state agency, to be forwarded to the Legislative Budget Board.

(c) The commission shall have drafts of legislation prepared to carry out the commission's recommendations under this section.

(d) After the legislature acts on the report under Section 325.010, the commission shall present to the state auditor the commission's recommendations that do not require a statutory change to be put into effect. Based on a risk assessment and subject to the legislative audit committee's approval of including the examination in the audit plan under Section 321.013, the state auditor may examine the recommendations and include as part of the next approved audit of the agency a report on whether the agency has implemented the recommendations and, if so, in what manner.

(b) The commission may only exempt agencies that have been inactive for a period of two years preceding the date the agency is scheduled for abolition, that have been rendered inactive by an action of the legislature, or that the commission determines are unable to participate in the review due to a declared disaster.

(c) The commission's action in exempting agencies under this section must be done by an affirmative record vote and must be decided by a majority of all members present and voting.

(b) A self-directed semi-independent agency shall pay the costs incurred by the commission in performing a review of the agency under this chapter. Sec. 325.013. ABOLITION OF ADVISORY COMMITTEES. An advisory committee, the primary function of which is to advise a particular state agency, is abolished on the date set for abolition of the agency unless the advisory committee is expressly continued by law.

Sec. 325.015. CONTINUATION BY LAW. (a) During the regular session immediately before the abolition of a state agency or an advisory committee that is subject to this chapter, the legislature by law may continue the agency or advisory committee for a period not to exceed 12 years.

(b) This chapter does not prohibit the legislature from:
(1) terminating a state agency or advisory committee subject to this chapter at a date earlier than that provided in this chapter; or
(2) considering any other legislation relative to a state agency or advisory committee subject to this chapter.

Sec. 325.017. PROCEDURE AFTER TERMINATION. (a) A state agency that is abolished in an odd-numbered year may continue in existence until September 1 of the following year to conclude its business.
Unless the law provides otherwise, abolishment does not reduce or otherwise limit the powers and authority of the state agency during the concluding year. A state agency is terminated and shall cease all activities at the expiration of the one-year period. Unless the law provides otherwise, all rules that have been adopted by the state agency expire at the expiration of the one-year period.

(b) Any unobligated and unexpended appropriations of an abolished agency or advisory committee lapse on September 1 of the even-numbered year after abolishment.

(c) Except as provided by Subsection (f) or as otherwise provided by law, all money in a dedicated fund of an abolished state agency or advisory committee on September 1 of the even-numbered year after abolishment is transferred to the General Revenue Fund. The part of the law dedicating the money to a specific fund of an abolished agency becomes void on September 1 of the even-numbered year after abolishment.

(d) Unless the law or a rider in the General Appropriations Act provides otherwise, an abolished state agency or advisory committee funded in the General Appropriations Act for both years of the biennium may not spend or obligate any of the money appropriated to it for the second year of the biennium.

(e) Unless the governor designates an appropriate state agency as prescribed by Subsection (f), property and records in the custody of an abolished state agency or advisory committee on September 1 of the even-numbered year after abolishment shall be transferred to the comptroller. If the governor designates an appropriate state agency, the property and records shall be transferred to the designated state agency.

(f) The legislature recognizes the state's continuing obligation to pay bonded indebtedness and all other obligations, including lease, contract, and other written obligations, incurred by a state agency abolished under this chapter, and this chapter does not impair or impede the payment of bonded indebtedness and all other obligations, including lease, contract, and other written obligations, in accordance with their terms. If an abolished state agency has outstanding bonded indebtedness or other outstanding obligations, including lease, contract, and other written obligations, the bonds and all other obligations, including lease, contract, and other written obligations, remain valid and enforceable in accordance with their terms and subject to all applicable terms.
and conditions of the laws and proceedings authorizing the bonds and all other obligations, including lease, contract, and other written obligations. The governor shall designate an appropriate state agency that shall continue to carry out all covenants contained in the bonds and in all other obligations, including lease, contract, and other written obligations, and the proceedings authorizing them, including the issuance of bonds, and the performance of all other obligations, including lease, contract, and other written obligations, to complete the construction of projects or the performance of other obligations, including lease, contract, and other written obligations. The designated state agency shall provide payment from the sources of payment of the bonds in accordance with the terms of the bonds and shall provide payment from the sources of payment of all other obligations, including lease, contract, and other written obligations, in accordance with their terms, whether from taxes, revenues, or otherwise, until the bonds and interest on the bonds are paid in full and all other obligations, including lease, contract, and other written obligations, are performed and paid in full. If the proceedings so provide, all funds established by laws or proceedings authorizing the bonds or authorizing other obligations, including lease, contract, and other written obligations, shall remain with the comptroller or the previously designated trustees. If the proceedings do not provide that the funds remain with the comptroller or the previously designated trustees, the funds shall be transferred to the designated state agency.

(g) Except as provided by Subsections (a), (e), and (f), all legal interests of a state agency abolished in an odd-numbered year are transferred to the comptroller on the date the state agency is terminated under Subsection (a).

(h) On the date a state agency that is abolished in an odd-numbered year is terminated under Subsection (a), the governor may designate another state agency to administer any law previously administered by the abolished state agency that remains in effect and a reference in any law to the abolished state agency means the designated state agency. The governor is not required to designate the same state agency under this subsection that is designated under Subsection (f).

Sec. 325.018. SUBPOENA POWER. (a) The commission may issue process to compel the attendance of witnesses and the production of books, records, papers, and other objects necessary or proper for the purposes of the commission proceedings. The process may be served on a witness at any place in this state.

(b) If a majority of the commission directs the issuance of a subpoena, the chairman shall issue the subpoena in the name of the commission.

(c) If the chairman is absent, the chairman's designee may issue a subpoena or other process in the same manner as the chairman.

(d) If necessary to obtain compliance with a subpoena or other process, the commission may issue attachments. The attachments may be addressed to and served by any peace officer in this state.

(e) Testimony taken under subpoena must be reduced to writing and given under oath subject to the penalties of perjury.

(f) A witness who attends a commission proceeding under process is entitled to the same mileage and per diem as a witness who appears before a grand jury in this state.

Sec. 325.019. ASSISTANCE OF AND ACCESS TO STATE AGENCIES. (a) The commission may request the assistance of state agencies and officers. When assistance is requested, a state agency or officer shall assist the commission.

(b) In carrying out its functions under this chapter, the commission or its designated staff member may attend any meetings and
proceedings of any state agency, including any meeting or proceeding of the governing body of the agency that is closed to the public, and may inspect the records, documents, and files of any state agency, including any record, document, or file that is:

(1) attorney work product;
(2) an attorney-client communication; or
(3) made privileged or confidential by law.

(c) It is the intent of the legislature to allow the commission and its designated staff members to have access to all meetings or proceedings of a state agency being reviewed by the commission under this chapter and to all records, documents, and files of that agency. To the extent that this section conflicts with other law that purports to limit the commission's access to meetings or proceedings or to records, documents, and files, this section controls. If federal law prohibits a state agency from disclosing information in a record, document, or file to the commission, including information in a record, document, or file created as a result of or considered during a meeting or proceeding, the state agency may redact the protected information from the record, document, or file.

(d) Communications, including conversations, correspondence, and electronic communications, between the commission or its staff and a state agency that relate to a request by the commission for assistance in conducting a review under this chapter are confidential. A state agency's internal communications related to a request for assistance by the commission are confidential, including any information prepared or maintained by the state agency at the request of the commission or its staff. With respect to a document, file, or other record prepared or maintained by the state agency that was created in the normal course of the agency's business and not at the request of the commission, the confidentiality created by this subsection applies only to information in the possession of the commission.

(a) A working paper, including all documentary or other information, prepared or maintained by the commission staff in performing its duties under this chapter or other law to conduct an evaluation and prepare a report is excepted from the public disclosure requirements of Section 552.021.

(b) A record held by another entity that is considered to be confidential by law and that the commission receives in connection with the performance of the commission's functions under this chapter or another law remains confidential and is excepted from the public disclosure requirements of Section 552.021.

(c) A state agency that provides the commission with access to a privileged or confidential communication, record, document, or file under Section 325.019 for purposes of a review under this chapter does not waive the attorney-client privilege, or any other privilege or confidentiality requirement protected or required by the Texas Constitution, common law, statutory law, or rules of evidence, procedure, or professional conduct, with respect to the communication, record, document, or file provided to the commission. For purposes of this subsection, a communication includes a discussion that occurs at a meeting or proceeding of the state agency that is closed to the public.

(d) The state agency may require the commission or the members of the commission's staff who view, handle, or are privy to information, or who attend a meeting that is not accessible to the public, to sign a confidentiality agreement that covers the information and requires that:

(1) the information not be disclosed outside the commission for purposes other than the purpose for which it was received;
(2) the information be labeled as confidential;
(3) the information be kept securely; and
(4) the number of copies made of the information or the notes taken from the information that implicate the confidential nature of the information be controlled, with all copies or notes that are not destroyed or returned to the governmental body remaining confidential and subject to the confidentiality agreement.

(e) A person who obtains access to confidential information in connection with the performance of the commission's duties under this chapter or another law commits an offense if the person knowingly:

(1) uses the confidential information for a purpose other

(2) permits inspection of the confidential information by a person who is not authorized to inspect the information; or

(3) discloses the confidential information to a person who is not authorized to receive the information.

2. the public can reasonably be expected to benefit from an assurance of initial and continuing professional skill sets or competencies; and
3. the public can be more effectively protected by means other than state regulation.

(f) The Texas growth fund and Texas growth fund II, created as provided by Section 70, Article XVI, Texas Constitution, shall provide the financial information listed in Subchapter B, Chapter 2101, to the comptroller once each year, not later than the date established by the comptroller.

The comptroller shall deliver a copy of each table prepared under this section to the governor, the lieutenant governor, the speaker of the house of representatives, each member of the legislature, and the Legislative Budget Board.

Sec. 403.014. REPORT ON EFFECT OF CERTAIN TAX PROVISIONS. (a) Before each regular session of the legislature, the comptroller shall report to the legislature and the governor on the effect, if it is possible to assess, of exemptions, discounts, exclusions, special valuations, special accounting treatments, special rates, and special methods of reporting relating to:

(1) sales, excise, and use tax under Chapter 151, Tax Code;
(2) franchise tax under Chapter 171, Tax Code;
(3) school district property taxes under Title 1, Tax Code;
(4) motor vehicle tax under Section 152.090; and
(5) any other tax generating more than five percent of state tax revenue in the prior fiscal year.

(a-1) In preparing the report under Subsection (a), if actual data is not available, the comptroller shall use available statistical data to estimate the effect of an exemption, discount, exclusion, special valuation, special accounting treatment, special rate, or special method of reporting relating to a tax. If the report states that the effect of a particular tax preference cannot be determined, the comptroller must include in the report a complete explanation of why the comptroller reached that conclusion.

(b) The report must include:

(1) an analysis of each special provision that reduces the amount of tax payable, to include an estimate of the loss of revenue for a six-year period including the current fiscal biennium and a citation of the statutory or legal authority for the provision; and
(2) for provisions reducing revenue by more than one percent of total revenue for a tax covered by this section:
   (A) the effect of each provision on the distribution of the tax burden by income class and industry or business class, as appropriate; and
   (B) the effect of each provision on total income by income class.

(c) The report may include:

(1) an assessment of the intended purpose of the provision and whether the provision is achieving that objective; and
(2) a recommendation for retaining, eliminating, or amending the provision.

(d) The report may be included in any other report made by the
comptroller.

(e) At the request of the chair of a committee of the senate or house of representatives to which has been referred a bill or resolution establishing, extending, or restricting an exemption, discount, exclusion, special valuation, special accounting treatment, special rate, or special method of reporting relating to any state tax, the Legislative Budget Board with the assistance, as requested, of the comptroller shall prepare a letter analysis of the effect on the state's tax revenues that would result from the passage of the bill or resolution. The letter analysis shall contain the same information as provided in Subsection (b), as appropriate.

(f) The comptroller and Legislative Budget Board may request from any state officer or agency information necessary to complete the report or letter analysis. Each state officer or agency shall cooperate with the comptroller and Legislative Budget Board in providing information or analysis for the report or letter analysis.

Sec. 403.0141. REPORT ON INCIDENCE OF TAX. (a) Before each regular session of the legislature, the comptroller shall report to the legislature and the governor on the overall incidence of the school district property tax and any state tax generating more than 2.5 percent of state tax revenue in the prior fiscal year. The analysis shall report on the distribution of the tax burden for the taxes included in the report.

(b) At the request of the chair of a committee of the senate or house of representatives to which has been referred a bill or resolution to change the tax system that would increase, decrease, or redistribute tax by more than $20 million, the Legislative Budget Board with the assistance, as requested, of the comptroller shall prepare an incidence impact analysis of the bill or resolution. The
analysis shall report on the incidence effects that would result if the bill or resolution were enacted.

(c) To the extent data is available, the incidence impact analysis under Subsections (a) and (b):

1. shall evaluate the tax burden:
   A. on the overall income distribution, using a systemwide incidence measure or other appropriate measures of equality and inequality; and
   B. on income classes, including, at a minimum, quintiles of the income distribution, on renters and homeowners, on industry or business classes, as appropriate, and on various types of business organizations;

2. may evaluate the tax burden:
   A. by other appropriate taxpayer characteristics, such as whether the taxpayer is a farmer, rancher, retired elderly, or resident or nonresident of the state; and
   B. by distribution of impact on consumers, labor, capital, and out-of-state persons and entities;

3. shall evaluate the effect of each tax on total income by income group; and

4. shall:
   A. use the broadest measure of economic income for which reliable data is available; and
   B. include a statement of the incidence assumptions that were used in making the analysis.

Sec. 403.0142. REPORT ON ORIGIN OF TAX REVENUE. (a) Before each regular session of the legislature, the comptroller shall report to the legislature and the governor on the amount of revenue remitted to the comptroller in each municipality and county for each tax collected by the comptroller if that information is available from tax returns. The report may be included in any other report made by the comptroller.

(b) The comptroller shall report the information under Subsection (a) as an aggregate total for each tax without disclosing
individual tax payments or taxpayers.

(c) The comptroller shall publish the report required under Subsection (a) on the comptroller's Internet website not later than the 20th day after the date the report is provided to the legislature and the governor.

Added by Acts 2011, 82nd Leg., R.S., Ch. 713 (H.B. 654), Sec. 1, eff. September 1, 2011.

Sec. 403.0143. REPORT ON USE OF GENERAL REVENUE-DEDICATED ACCOUNTS. After each regular session of the legislature, the comptroller shall issue a report that itemizes each general revenue-dedicated account and the estimated balance and revenue in each account that is considered available for the purposes of certification of appropriations as provided by Section 403.095. The comptroller shall publish the report on the comptroller's Internet website.

Added by Acts 2015, 84th Leg., R.S., Ch. 448 (H.B. 7), Sec. 12, eff. September 1, 2015.

Sec. 403.0145. PUBLICATION OF FEES SCHEDULE. As soon as practicable after the end of each state fiscal year, the comptroller shall publish online a schedule of all revenue to the state from fees authorized by statute. For each fee, the schedule must specify:

(1) the statutory authority for the fee;
(2) if the fee has been increased during the most recent legislative session, the amount of the increase;
(3) into which fund the fee revenue will be deposited; and
(4) the amount of the fee revenue that will be considered available for general governmental purposes and accordingly considered available for the purpose of certification under Section 403.121.

Added by Acts 2011, 82nd Leg., 1st C.S., Ch. 4 (S.B. 1), Sec. 34.04, eff. September 28, 2011.

(b) Not later than December 31 of each even-numbered year, the comptroller shall submit a report to the legislature that identifies for each state agency:

(1) each program the state agency is statutorily required to implement for which no appropriation was made for the preceding state fiscal year, along with a citation to the law imposing the requirement; and

(2) the amount and source of money the state agency spent, if any, to implement any portion of the program described by Subdivision (1) during the preceding state fiscal year.

(c) A state agency shall provide to the comptroller not later than September 30 of each even-numbered year information necessary for the comptroller to prepare the report required by this section. The comptroller may prescribe the form and content of the information a state agency must provide.

(1) establish and operate a central electronic computing and data processing center to:

(A) maintain the central accounting records of the state;

(B) prepare payrolls and other warrants;

(C) audit tax reports; and

(D) perform other accounting and data processing activities for which this equipment economically and practically may be used;

(2) prescribe and revise claim forms, registers, warrants, and other documents submitted in support of payroll or other claims or to support tax or other payments to the state, in order to provide
for the orderly and economical use of equipment under this section; and

(3) prescribe and revise procedures, techniques, and formats for electronic data transmission, in order to improve the flow of data between state agencies.

Sec. 403.016. ELECTRONIC FUNDS TRANSFER. (a) The comptroller shall establish and operate an electronic funds transfer system in accordance with this section. The comptroller may use the services of financial institutions, automated clearinghouses, and the federal government to establish and operate the system.

(b) The comptroller shall use the electronic funds transfer system to pay an employee's net state salary and travel expense reimbursements.

(c) The comptroller shall use the electronic funds transfer system to make:

(1) payments of more than $100 to annuitants by the Employees Retirement System of Texas, the Teacher Retirement System of Texas, or the Texas Emergency Services Retirement System under each system's administrative jurisdiction;

(2) recurring payments to municipalities, counties, political subdivisions, special districts, and other governmental entities of this state; and

(3) payments to vendors who choose to receive payment through the electronic funds transfer system rather than by warrant.

(d) If the comptroller is not required by this section to use the electronic funds transfer system to pay a person, the comptroller may use the system to pay the person on the person's request.

(e) Repealed by Acts 1997, 75th Leg., ch. 1035, Sec. 90(a), eff. June 19, 1997.

(f) Except as provided by Subsection (f-1) and subject to any limitation in rules adopted by the comptroller, an automated clearinghouse, or the federal government, the comptroller may use the electronic funds transfer system to deposit payments only to one or more accounts of a payee at one or more financial institutions, including credit unions.

(f-1) The comptroller may also use the electronic funds
transfer system to deposit the amount of an employee's payroll deduction made as authorized by law.

(f-2) A single electronic funds transfer may contain payments to multiple payees. Individual transfers or warrants are not required for each payee.

(g) When a law requires the comptroller to make a payment by warrant, the comptroller may instead make the payment through the electronic funds transfer system. The comptroller's use of the electronic funds transfer system or any other payment means does not create a right that would not have been created if a warrant had been issued.

(h) Notwithstanding any requirement in this section to make a payment through the electronic funds transfer system, the comptroller shall issue a warrant to pay a person if:

1. the person properly notifies the comptroller that:
   A. receiving the payment by electronic funds transfer would be impractical to the person;
   B. receiving the payment by electronic funds transfer would be more costly to the person than receiving the payment by warrant;
   C. the person is unable to establish a qualifying account at a financial institution to receive electronic funds transfers; or
   D. the person chooses to receive the payment by warrant;

2. the state agency on whose behalf the comptroller makes the payment properly notifies the comptroller that:
   A. making the payment by electronic funds transfer would be impractical to the agency; or
   B. making the payment by electronic funds transfer would be more costly to the agency than making the payment by warrant.

(i) Notwithstanding any requirement in this section to make a payment through the electronic funds transfer system, the comptroller may make a payment by warrant if the comptroller determines that:

1. using the electronic funds transfer system would be impractical to the state; or

2. the cost to the state of using the electronic funds transfer system would exceed the cost of issuing a warrant.

(j) The comptroller shall adopt rules to administer this
section, including rules relating to the notifications that may be provided to the comptroller under Subsection (h).

Sec. 403.0165. PAYROLL DEDUCTION FOR STATE EMPLOYEE ORGANIZATION. (a) An employee of a state agency may authorize a transfer each pay period from the employee's salary or wage payment for a membership fee in an eligible state employee organization. The authorization shall remain in effect until an employee authorizes a change in the authorization. Authorizations and changes in authorizations must be provided in accordance with rules adopted by the comptroller.

(b) The comptroller shall adopt rules for transfers by employees to a certified eligible state employee organization. The rules may authorize electronic transfers of amounts deducted from employees' salaries and wages under this section.

(c) Participation by employees of state agencies in the payroll deduction program authorized by this section is voluntary.

(d) To be certified by the comptroller, a state employee organization must have a current dues structure for state employees in place and operating in this state for a period of at least 18 months.

(e) Any organization requesting certification shall demonstrate that the fee structure proposed from state employees is equal to an
average of not less than one-half of the fees for that organization nationwide.

(f) An organization not previously certified may submit an application for certification as an eligible state employee organization to the comptroller at any time except during the period after June 2 and before September 1.

(g) The comptroller may approve an application under Subsection (f) if a state employee organization demonstrates to the satisfaction of the comptroller that it qualifies as an eligible state employee organization by providing the documentation required by this section and applicable rules adopted by the comptroller.

(h) The comptroller may charge an administrative fee to cover the costs incurred as a result of administering this section. The administrative fees charged by the comptroller shall be paid by each qualifying state employee organization on a pro rata basis to be determined by the comptroller. The comptroller by rule shall determine the most efficient and effective method of collecting the fees.

(i) The comptroller may adopt rules for the administration of this section.

(k) Any state employee organization that has a membership of at least 4,000 state employee members on April 1, 1991, shall be certified by the comptroller as an eligible state employee organization. Such an organization may not be required to meet any other eligibility requirements as set out in this section for certification, including requirements in the definition of eligible state employee organization under Subsection (l).

(l) In this section:

(1) "Eligible state employee organization" means a state employee organization with a membership of at least 4,000 state employees continuously for the 18 months preceding a request for certification from the comptroller that conducts activities on a statewide basis and that the comptroller has certified under this article.

(2) "State agency" means a department, commission, board, office, or any other state entity of state government.

Sec. 403.017. CUSTODY OF SECURITY FOR MONEY AND DEEDS. (a) A bond, note, or other security for money given to the state or an officer for the use of the state shall be deposited in the office of the comptroller.

(b) A deed conveying land or an interest in land to the state for highway purposes shall be deposited in the Austin office of the Texas Department of Transportation.

Sec. 403.018. ASSISTANCE IN RECONSTRUCTING DESTROYED RECORDS. The comptroller may assist any taxpayer in reconstructing and reccompiling business records that are damaged or destroyed by natural disaster.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 403.019. CONTRACTS TO COLLECT OUT-OF-STATE DEBTS. (a) The comptroller may contract with a person who is qualified in the business of debt collection to collect on behalf of this state a tax or other amount finally determined to be owed to this state by a person residing outside this state and not known by the agency referring the debt to have sufficient assets in this state to satisfy the debt if the comptroller determines that the collection service to be provided by the collector would be economical and in the best interest of the state. Subject to Subsection (c), a contract may permit or require the person to pursue a judicial action in a court outside this state to collect a tax or other amount owed. A contract may also apply to a tax or other amount owed by a person residing outside this state and not known by the agency referring the debt to have sufficient assets in this state to satisfy the debt to a political subdivision of this state, if the comptroller or another
state official is required by law to collect the tax or other amount owed for the political subdivision. No contract authorized under this section may exceed four years in length, except that such contract may provide for an extension for the sole purpose of concluding actions pending at the time of the termination of the contract. This restriction shall not be construed so as to prohibit a contractor from bidding on a subsequent contract.

(b) The comptroller must obtain services authorized by this section in the manner provided for the purchase of services by contract under Chapters 2155-2158. In addition to any other notice required by that Act for inviting bids, the comptroller shall solicit bids for a contract by publishing notice in the Texas Register.

(c) A contract under this section is not valid unless approved by the attorney general. The attorney general shall approve a contract if the attorney general determines that the contract complies with the requirements of this section and is in the best interest of the state. No judicial action by any person on behalf of the state under a contract authorized and approved by this section may be brought unless approved by the attorney general.

(d) A contract authorized by this section may provide for reasonable compensation for services provided under the contract, including compensation determined by the application of a specified percentage of the total amount collected, including penalties, interest, court costs, or attorney's fees. If the debt to be collected consists of unpaid taxes, including any penalties, interest, or costs incurred in connection with the taxes, for which tax enforcement funds are available, the comptroller shall pay the compensation for services provided under the contract from those funds.

(e) An amount collected under a contract authorized by this section shall be deposited in a suspense account established for that purpose in the state treasury. The comptroller shall pay any compensation provided by the contract that is not paid from other funds under Subsection (d) from the suspense account. After those amounts have been paid, the remainder shall be transferred to the fund or account to which the amount collected is required to be deposited. If the amount collected is not required to be deposited to a specific fund or account, the amount shall be transferred to the general revenue fund.

(f) The comptroller may provide for the imposition of a
collection fee not to exceed 15 percent of the amount owed in addition to the other amounts owed to this state to be collected under a contract authorized by this section. The person who owes the other amounts to be collected under the contract is liable for the collection fee. The collection fee may be collected under the contract in addition to the other amounts due. The amount of the collection fee is the amount provided by the contract, whether a specified amount or an amount contingent on the amount collected or other factor, for compensation of the person with whom the contract is made and any court costs or attorney's fees incurred in collecting the amount owed to this state.

(g) The comptroller shall require a person acting on behalf of the state under a contract authorized by this section to post a bond or other security in an amount the comptroller determines is sufficient to cover all revenue or other property of the state that is expected to come into the possession or control of the person in the course of providing the service.

(h) A person acting on behalf of the state under a contract authorized by this section does not exercise any of the sovereign power of this state, except that the person is an agent of this state for purposes of determining the priority of a claim that the person is attempting to collect under the contract with respect to the claims of other creditors.

(i) The comptroller may provide a person acting on behalf of the state under a contract authorized by this section with any confidential information in the custody of the comptroller relating to the debtor that is necessary to the collection of the claim and that the comptroller is not prohibited from sharing under an agreement with another state or the federal government. A person acting on behalf of the state under a contract authorized by this section, and each employee or agent of the person, is subject to all prohibitions against the disclosure of confidential information obtained from the state in connection with the contract that apply to the comptroller or an employee of the comptroller. A person acting on behalf of the state under a contract authorized by this section or an employee or agent of the person who discloses confidential information in violation of a prohibition made applicable to the person under this subsection is subject to the same sanctions and penalties that would apply to the comptroller or an employee of the comptroller for that disclosure.
(j) The comptroller shall require a person acting on behalf of the state under a contract authorized by this section to obtain and maintain insurance coverage adequate to provide reasonable coverage for damages negligently, recklessly, or intentionally caused by the person or the person's agent in the course of collecting a debt under the contract and to protect the state from any liability for those damages. This state is not liable for and may not indemnify a person acting on behalf of the state under a contract authorized by this section for damages negligently, recklessly, or intentionally caused by the person or the person's agent in the course of collecting a tax or other amount under the contract.

(k) In addition to any other reasons that may be provided in the contract, a contract authorized under this section may be terminated if a person acting on behalf of the state under such contract, or an employee or agent of the person, is found to be in violation of the federal Fair Debt Collection Practices Act, discloses confidential information to a person not authorized to receive it as provided in Subsection (i) of this section, or performs any act resulting in a final judgment for damages against this state.

(l) The execution of a contract under this section does not accelerate the imposition of any penalty imposed or to be imposed on the tax or other amount to be collected under the contract.

Sec. 403.0195. CONTRACTS FOR INFORMATION ABOUT PROPERTY RECOVERABLE BY THE STATE. (a) The comptroller may contract with a person for the receipt of information about a possible claim that the state may be entitled to pursue for the recovery of revenue or other property.

(b) In a contract under Subsection (a), the total consideration to be paid by the state:

(1) must be contingent on a recovery by the state;

(2) may not exceed five percent of the amount of the revenue or the value of the other property that the state recovers as a result of the pursuit of the claim about which the contracting person provided information; and
(3) may be limited by agreement not to exceed a specified, absolute dollar amount.

(c) Consideration may not be paid by the state under a contract executed under Subsection (a) if, at the time the contract is executed or within three months after the date of execution and by means other than disclosure under the contract, a state employee has knowledge of the claim disclosed under the contract or has knowledge of a cause of action different from that disclosed under the contract but entitling the state to recover the same revenue or other property. An affidavit by a state employee claiming that knowledge under those circumstances is prima facie evidence of the knowledge and circumstances.

(d) This section does not apply to or affect property that is recoverable by the state under Chapters 71 through 75, Property Code.

(e) If the state recovers property in connection with a contract executed under this section and payment of the contractual consideration is not prohibited by Subsection (c), an amount not to exceed five percent of the amount of revenue or proceeds from the sale of property recovered shall be deposited to the credit of the comptroller's operating fund for payment of the consideration. The balance of the revenue or proceeds from the sale of property recovered shall be deposited to the credit of the general revenue fund or to any special fund as required by law.

Sec. 403.021. ENCUMBRANCE REPORTS. (a) In this section, "state agency" has the meaning assigned by Section 403.013.

(b) A state agency that expends appropriated funds shall report into the uniform statewide accounting system all payables and binding encumbrances by appropriation account for the first three quarters of the current appropriation year within 30 days after the close of each quarter. A state agency shall report payables and binding encumbrances for all appropriation years annually to the comptroller and the Legislative Budget Board no later than October 30 of each year.

(c) Payables and binding encumbrances must be reported for all appropriations in the format that the comptroller prescribes.

(d) On November 1 of each fiscal year, the comptroller shall
lapse all unencumbered nonconstruction appropriation balances for all prior appropriation years based on the payables and binding encumbrances reported.

(e) If a state agency submits a valid claim against a prior year's appropriation 30 days or more after the reporting due date, the comptroller shall reinstate the agency's appropriations to the extent of the claim.

(f) If a state agency submits a claim that is legally payable against an appropriation for an earlier year and the balance of the appropriation is insufficient to pay the claim, then the comptroller may reopen the appropriation to pay the claim. A claim is legally payable from an appropriation only if the appropriation was encumbered to pay the claim before the expiration of the appropriation.

(2) contract with a person for the sale, lease, marketing, or other distribution of the comptroller's intellectual property;

(3) obtain under a contract described in Subdivision (2) a
royalty, license right, or other appropriate means of securing reasonable compensation for the development or purchase of the comptroller's intellectual property; and

(4) waive or reduce the amount of compensation secured by contract under Subdivision (3) if the comptroller determines that the waiver or reduction will:

(A) further a goal or mission of the comptroller; and

(B) result in a net benefit to the state.

(b) Intellectual property is excepted from required disclosure under Chapter 552:

(1) beginning on the date the comptroller decides to seek a patent, trademark, service mark, collective mark, certification mark, or other evidence of protection of exclusivity concerning the property; and

(2) ending on the date the comptroller receives a decision about the comptroller's application for a patent, trademark, service mark, collective mark, certification mark, or other evidence of protection of exclusivity concerning the property.

(c) Except as provided by Section 2054.115(c), money paid to the comptroller under this section shall be deposited to the credit of the general revenue fund.

(d) Notwithstanding any other law of this state, the comptroller may award to an employee of the comptroller who conceives, creates, discovers, invents, or develops intellectual property an appropriate amount of equity interest or participation in the research, development, licensing, or exploitation of that property.

(e) The comptroller shall establish intellectual property policies for the comptroller's office that include minimum standards for:

(1) the public disclosure or availability of products, technology, and scientific information, including inventions, discoveries, trade secrets, and computer software;

(2) review by the comptroller's office of products, technology, and scientific information, including consideration of ownership and appropriate legal protection;

SUBCHAPTER C. ACCOUNTING

Sec. 403.031. GENERAL ACCOUNTING DUTIES. (a) The comptroller shall maintain accounts and information as necessary to show the sources of state revenues and the purposes for which expenditures are made and shall provide proper accounting controls to protect state finances.

(b) The comptroller shall maintain a double entry system of bookkeeping.

(c) The comptroller, in consultation with the state auditor and the attorney general, may develop standards and criteria to account for or to reclassify receivables determined to be uncollectible. The standards and criteria developed by the comptroller must comply with
generally accepted accounting principles as prescribed or modified by the Governmental Accounting Standards Board or its successors and must provide proper accounting controls to protect state finances. The attorney general shall review and approve the standards and criteria for classification of receivables. Receivables may be reclassified as collectible or uncollectible on a case-by-case basis as determined or approved by the attorney general. The classification of receivables as uncollectible under this subsection does not constitute forgiveness of the debt, and any person indebted to the state remains subject to Section 403.055.

Sec. 403.032. LEDGERS. The comptroller shall collect and maintain the information that is necessary to produce:

(1) a state general ledger;
(2) a tax collectors' control ledger;

(8) a tax collectors' report register;
(9) an occupation tax register;
(10) a revenue analysis;
(11) an expense analysis; and
(12) other necessary supporting records or analyses.

Sec. 403.034. STATE GENERAL LEDGER. (a) The comptroller shall maintain information concerning all entries to the state general ledger. The ledger contains controlling and fund accounts, including:

The comptroller shall charge the state treasury with the totals of all deposits made into the state treasury and credit the state treasury with warrants paid, so that the state treasury balance in the comptroller's hands plus the balance in the state depositories equals the balance shown by the accounts.

(c) The comptroller shall keep accounts to show the amounts of outstanding warrants and shall credit the accounts with warrants issued and charge the accounts for warrants paid, so that the balances of the accounts represent the total amount of outstanding warrants.
warrants.

Sec. 403.035. SUSPENSE ACCOUNTS AND LEDGERS. (a) The comptroller may create and use suspense accounts and funds for the collection, allocation, and distribution of revenue, including the allocation of revenue required to be deposited to the credit of the available school fund.

(b) The comptroller shall keep a suspense ledger that states the accounts of the comptroller with respect to money and securities the comptroller holds in suspense, including money and securities deposited with the comptroller pending a determination of whether the deposits are for a state purpose. The comptroller shall acknowledge the receipt of the items held in suspense and post these items to the ledger. The ledger must also include accounts for all money and securities received by heads of agencies and deposited in suspense with the comptroller.

Sec. 403.036. APPROPRIATION LEDGERS. (a) The comptroller shall keep an account for each legislative appropriation and shall credit the account with the appropriation and charge the account with all warrants issued under the authority of the appropriation. Each account must show the law authorizing the appropriation.

(b) The comptroller shall credit the total of all appropriations to a control account. The comptroller shall charge the total of warrants issued to this account so that the balance represents the amount of unused appropriations. The comptroller shall balance the individual appropriation accounts against the control account.

(c) The head of each state agency or institution shall keep accounts of the appropriations as they apply to the agency or institution and shall balance the accounts against the similar
accounts kept by the comptroller.

Sec. 403.037. ALLOCATION OF CERTAIN SETTLEMENT MONEY AT DIRECTION OF ATTORNEY GENERAL. (a) The attorney general may certify to the comptroller and the Legislative Budget Board that money awarded to the state in settlement of a claim is money to be credited to the account for a particular appropriation under Section 403.036 if it is not clear under applicable law to which account the money should be credited.

(b) Except as provided by Subsection (c), the comptroller shall act in accordance with the certification received under Subsection (a):

(1) on the 31st day after the date the comptroller receives it; or

(2) on the day following the date the comptroller receives the written prior approval of the Legislative Budget Board to act in accordance with the certification.

(c) If, before the 31st day after the date the comptroller receives the certification under Subsection (a), the comptroller receives from the Legislative Budget Board a certification that the money is to be credited to a different account for a particular appropriation under Section 403.036 or that the money should not be credited to any account for a particular appropriation under Section 403.036, the comptroller shall act in accordance with the board's certification as soon as is practicable.

Sec. 403.038. REVENUE AND EXPENSE ANALYSIS RECORDS. (a) The comptroller shall maintain sufficient information for a revenue analysis record and shall enter in the record the distribution of revenues derived by the state from all sources and the amounts derived from each source. The comptroller shall post to the record the sources of revenue as represented by deposits.

(b) The comptroller shall maintain sufficient information for an expense analysis record and shall enter in the record the
distribution of the disbursements made from state funds, classified by agencies or institutions, objects of expenditure, or other criteria considered advisable.

Sec. 403.039. TEXAS IDENTIFICATION NUMBER SYSTEM. (a) The comptroller shall assign a Texas Identification Number to each person who supplies property or services to the state for compensation or reimbursement.

(b) The Texas Identification Number system shall be used by each state agency as the primary identification system for persons who supply property or services to the agency for compensation or reimbursement. The agency may assign secondary numbers if the secondary numbering system does not unnecessarily create duplication of data bases, efforts, or costs.

(c) All state agencies shall cooperate with the comptroller to convert existing relevant identification systems to the Texas Identification Number system. The comptroller may adopt rules governing the conversion to and the administration of the Texas Identification Number system, including rules on the procedure for applying for a number under the system.

(d) In this section, "state agency" means any department, commission, board, office, or other agency in the executive, legislative, or judicial branch of state government, including an institution of higher education.

SUBCHAPTER D. WARRANTS, RECEIPTS, AND REGISTERS
Sec. 403.052. INFORMATION CONCERNING DEPOSITS. (a) The comptroller shall promulgate rules and develop and implement procedures for the efficient deposit of money and securities received and held by the comptroller. The rules and procedures shall be
consistent with the requirements of the uniform statewide accounting system.

(b) The comptroller shall record and maintain adequate information concerning deposits into the state treasury. This deposit information shall consist of the records and data that the comptroller deems necessary.

Sec. 403.054. REPLACEMENT WARRANT. (a) Subject to Subsection (b), the comptroller may issue a replacement warrant in place of an original warrant drawn on the state treasury if the state agency on whose behalf the comptroller issued the original warrant notifies the comptroller that:

(1) the original warrant has been lost, destroyed, or stolen;

(2) the original warrant has not been received; or

(3) the payee's endorsement on the original warrant has been forged.

(b) The comptroller may not issue a replacement warrant if:

(1) the comptroller has paid the original warrant, unless the comptroller:

(A) has received a refund of the payment; or

(B) is satisfied that the state agency on whose behalf the comptroller issued the original warrant has taken reasonable steps to obtain a refund of the payment;

(2) the period during which the comptroller may pay the original warrant has expired under Section 404.046 or other applicable law;

(3) the payee of the replacement warrant is not the same as the payee of the original warrant; or

(4) the comptroller is prohibited by a payment law from issuing a warrant to the payee of the replacement warrant.

(c) A replacement warrant:

(1) must reflect the same fiscal year as the original warrant; and

(2) may not be paid by the comptroller unless presented for
payment to the comptroller or a financial institution before the expiration of two years after the close of the fiscal year in which the original warrant was issued.

(d) The comptroller may not pay an original warrant after the comptroller has issued a replacement warrant for the original warrant.

(e) If the comptroller determines that a replacement warrant was improperly issued or that the person to whom the replacement was issued was not its owner, the comptroller shall immediately demand return of the replacement or, if the replacement has been paid, the amount paid by the state. If this demand is not satisfied, the comptroller shall refer the matter to the attorney general for appropriate action.

(f) A person other than a law enforcement official that has possession of a lost or stolen warrant or a warrant on which the payee's endorsement has been forged shall, on request, immediately deliver the warrant to the comptroller or the state agency on whose behalf the comptroller issued the warrant. The agency or comptroller shall issue a receipt for the warrant.

(g) Failure to reimburse the state on demand as required by Subsection (e) constitutes a debt to the state and further payment to the person shall be held as provided by Section 403.055.

(h) The comptroller shall adopt rules and forms regarding the issuance of replacement warrants.

(i) In this section, "payment law" means:

(1) Section 403.055;
(2) Section 57.48, Education Code;
(3) Section 231.007, Family Code; or
(4) any similar law that prohibits the comptroller from issuing a warrant or initiating an electronic funds transfer to a person.

Sec. 403.055. PAYMENTS TO DEBTORS OR DELINQUENTS PROHIBITED. (a) Except as provided by this section, the comptroller, as a ministerial duty, may not issue a warrant or initiate an electronic funds transfer to a person who has been reported properly under Subsection (f).

(b) Except as provided by this section, the comptroller may not issue a warrant or initiate an electronic funds transfer to the assignee of a person who has been reported properly under Subsection (f) if the assignment became effective after the person became indebted to the state or incurred a tax delinquency.

(c) If this section prohibits the comptroller from issuing a warrant or initiating an electronic funds transfer to a person, the comptroller may issue a warrant or initiate an electronic funds transfer only as provided by this section to:

(1) the person's estate;
(2) the distributees of the person's estate; or
(3) the person's surviving spouse.

(d) This section does not prohibit the comptroller from issuing a warrant or initiating an electronic funds transfer to pay:

(1) the compensation of a state officer or employee; or
(2) the remuneration of an individual if the remuneration is being paid by a private person through a state agency.

(e) This section does not prohibit the comptroller from issuing a warrant or initiating an electronic funds transfer to a person reported properly under Subsection (f) or to the person's assignee if the state agency responsible for collecting the person's debt or tax delinquency subsequently and properly reports to the comptroller that:

(1) the person is complying with an installment payment agreement or similar agreement to pay or eliminate the debt or delinquency, unless the agency subsequently and properly reports to the comptroller that the person no longer is complying with the agreement;
(2) the person's debt or delinquency has been paid or otherwise eliminated; or
(3) the report of indebtedness or delinquency was prohibited by Subsection (g) or was otherwise erroneous.
Except as provided by Subsection (g), a state agency shall report to the comptroller each person who is indebted to the state or has a tax delinquency. The report must contain the information and be submitted in the manner and with the frequency required by the comptroller.

A state agency may not report a person under Subsection (f) unless the agency first provides the person with an opportunity to exercise any due process or other constitutional or statutory protection that must be accommodated before the agency or the state may begin a collection action or procedure. The comptroller may not investigate or determine whether a state agency has complied with this prohibition.

This section does not apply:

1. to the extent Section 57.48, Education Code, applies;

2. to the extent this section conflicts with Section 231.007, Family Code.

This section does not prohibit the comptroller from issuing a warrant or initiating an electronic funds transfer if:

1. the warrant or transfer would result in a payment being made in whole or in part with money paid to the state by the United States; and

2. the state agency that administers the money certifies to the comptroller that federal law:
   
   A. requires the payment to be made; or
   
   B. conditions the state's receipt of the money on the payment being made.

The comptroller may adopt rules and establish procedures to administer this section.

This section does not prohibit the comptroller from issuing a warrant or initiating an electronic funds transfer to a person, the person's assignee, the person's estate, the distributees of the person's estate, or the person's surviving spouse if each state agency that properly reported the person under Subsection (f) consents to issuance of the warrant or initiation of the transfer.

In this section:

1. "Compensation" means base salary or wages, longevity pay, hazardous duty pay, benefit replacement pay, or an emolument provided in lieu of base salary or wages.

2. "State agency" means a board, commission, council,
committee, department, office, agency, or other governmental entity in the executive, legislative, or judicial branch of state government. The term includes an institution of higher education as defined by Section 61.003, Education Code, other than a public junior or community college.

(3) "State officer or employee" means an officer or employee of a state agency.

(4) "Tax delinquency" means a delinquency in payment of:
   (A) a tax to the state; or
   (B) a tax that the comptroller administers or collects.

Sec. 403.0551. DEDUCTIONS FOR REPAYMENT OF CERTAIN DEBTS OR TAX DELINQUENCIES. (a) Except as provided by Subsections (b) and (d), the comptroller may deduct the amount of a person's indebtedness to the state or tax delinquency from any amount the state owes the person or the person's successor. The comptroller shall issue a warrant or initiate an electronic funds transfer to the person or successor for any remaining amount.

(b) Subsection (a) applies to a person or the person's successor only if:
   (1) the comptroller has provided notice to the person or successor that complies with Subsection (c);
   (2) Section 57.48, Education Code, or Section 403.055 prohibits the comptroller from issuing a warrant or initiating an electronic funds transfer to the person or successor; and
   (3) the comptroller is responsible under Section 404.046, 404.069, or 2103.003 for paying the amount owed by the state to the person or successor through the issuance of a warrant or initiation of an electronic funds transfer.

(c) The comptroller shall provide notice to a person or the
person's successor before deducting the amount of the person's indebtedness to the state or tax delinquency under Subsection (a). The notice must:

(1) be given in a manner reasonably calculated to give actual notice to the person or successor;

(2) state the:
   (A) amount of the indebtedness or the amount of the tax, penalties, interest, and costs due, as applicable; and
   (B) name of the indebted or delinquent person;

(3) specify the deadline for paying the amount due; and

(4) inform the person or successor that unless the amount due is paid before the deadline, the comptroller will deduct the amount of the indebtedness or delinquency from the amount the state owes the person or successor.

(d) This section does not authorize the comptroller to deduct the amount of a state employee's indebtedness to a state agency from any amount of compensation owed by the agency to the employee, the employee's successor, or the assignee of the employee or successor. In this subsection, "compensation" has the meaning assigned by Section 403.055 and "indebtedness," "state agency," "state employee," and "successor" have the meanings assigned by Section 666.001.

(e) The comptroller shall credit the appropriate fund or account for any amount deducted under this section if the comptroller is the custodian or trustee of that fund or account. The comptroller shall remit any amount deducted under this section to the custodian or trustee of the appropriate fund or account if the comptroller is not its custodian or trustee.

(f) The comptroller may determine the order that a person's multiple types of indebtedness to the state or tax delinquencies are deducted from the amount the state owes the person or the person's successor.

(g) The assignee of a person or the person's successor is considered to be a successor of the person for the purposes of this section, except that a deduction under this section from the amount owed to the assignee of a person or the person's successor may not be made if the assignment became effective before the person became indebted to the state or incurred the tax delinquency.

(h) The comptroller may adopt rules and establish procedures to administer this section.

(i) Except as provided by Subsection (d), in this section,
"successor" means a person's estate and the distributees of that estate.

Amended by:
Acts 2011, 82nd Leg., 1st C.S., Ch. 4 (S.B. 1), Sec. 16.01, eff. September 28, 2011.

Sec. 403.0552. PREPARATION AND RETENTION OF CERTAIN WARRANTS. (a) The comptroller may prepare and retain a warrant that Section 57.48, Education Code, Section 231.007, Family Code, or Section 403.055 prohibits the comptroller from issuing.

(b) Except as provided by this subsection, the comptroller may prepare a warrant to make a payment that Section 57.48, Education Code, Section 231.007, Family Code, or Section 403.055 prohibits the comptroller from initiating by electronic funds transfer. The comptroller shall prepare the warrant if the payment is overdue under Section 2251.021.

(c) If the comptroller prepares a warrant under Subsection (a) or (b), the comptroller shall:

(1) make the warrant payable to the person to whom the warrant may not be issued or an electronic funds transfer may not be initiated; and

(2) retain the warrant until the earliest of:

(A) the first day the warrant may no longer be paid by the comptroller under Section 404.046 or other applicable law;

(B) the date the comptroller deducts the amount of the person's indebtedness to the state or tax delinquency from the amount of the warrant under Section 403.0551 or other applicable law;

(C) the date the comptroller recovers the amount of the person's indebtedness to the state under Chapter 666; or

(D) the first day the comptroller is no longer prohibited from issuing the warrant or initiating an electronic funds transfer to that person.

(d) The comptroller may not cancel or destroy a warrant prepared under Subsection (a) or (b) unless the comptroller receives a request for the cancellation or destruction from the state agency that submitted the voucher requesting issuance of the warrant or
initiation of the electronic funds transfer and:
   (1) the agency informs the comptroller that the voucher was erroneous or was submitted erroneously;
   (2) the agency is the only state agency responsible for collecting the indebtedness or tax delinquency of the payee of the warrant; or
   (3) all state agencies that are responsible for collecting the indebtedness or tax delinquency of the payee of the warrant consent to the cancellation or destruction.

   (e) For purposes of Subsection (d)(1), a voucher is not erroneous and is not submitted erroneously merely because the comptroller is prohibited by Section 57.48, Education Code, Section 231.007, Family Code, or Section 403.055 from issuing a warrant or initiating an electronic funds transfer in accordance with the voucher.

Sec. 403.056. PREPARATION AND DELIVERY OF WARRANTS. (a) When a warrant is prepared, the comptroller shall record and maintain adequate information concerning the warrant. This information shall consist of the records and data that the comptroller deems necessary.

   (b) After the warrant has been prepared, it shall be delivered to the comptroller for the comptroller's authorization or signature as provided by law.

   (c) The comptroller shall deliver the warrant to the person entitled to receive it. The comptroller may require the person to give a receipt for the warrant. The comptroller may file that receipt in the comptroller's office.

   (d) A warrant prepared under this section is considered for all purposes to be issued on the due date of the claim.

   (e) Notwithstanding Subsection (c), the comptroller may deliver a warrant for payment of a bill for gas or water service provided to the state or a state agency directly to the utility that provided the service. The comptroller may adopt rules to carry out this subsection, consistent with Chapter 2251.

Sec. 403.057. SIGNATURE ON WARRANTS AFTER CHANGE IN OFFICE. If the comptroller ceases to hold or perform the duties of office, existing stocks of warrants bearing the person's printed name, signature, or facsimile signature may be used until they are exhausted, and the person succeeding to the office or the duties of the office shall have the warrants issued with:

1. the obsolete printed name, signature, or facsimile signature struck through;
2. the successor's printed name substituted for the obsolete printed name, signature, or facsimile signature; and
3. the inscription "Printed name authorized by law" near the successor's printed name.

Sec. 403.058. INFORMATION CONCERNING CANCELED WARRANTS. The comptroller shall record and maintain the information concerning canceled warrants that is necessary to enable an adequate audit to be performed.

Sec. 403.060. PRINTING AND ISSUANCE OF WARRANTS. (a) The comptroller may delegate to a person the authority to print warrants and deliver those warrants to the appropriate person. However, before a person may print and deliver a warrant, the comptroller must approve a voucher related to the warrant in accordance with Section 403.071.

(b) The comptroller:
(1) may print all warrants on a stock that is the same color and design;
(2) may make a warrant payable out of two or more state funds when not prohibited by law;
(3) shall number warrants in accordance with the requirements of the uniform statewide accounting system; and
(4) may combine on a single warrant the payments to a vendor or state employee by two or more state agencies when not prohibited by law.
(c) The comptroller shall promulgate rules for the effective and efficient administration of this section.

SUBCHAPTER E. CLAIMS

Sec. 403.071. CLAIMS AND AVAILABLE MONEY; OFFENSE. (a) A warrant may not be prepared unless a properly audited claim, verified as to correctness by the agency submitting the claim, is presented to the warrant clerk.

(b) A claim may not be paid from an appropriation unless the claim is presented to the comptroller for payment not later than two years after the end of the fiscal year for which the appropriation was made. However, a claim may be presented:

(1) not later than four years after the end of the fiscal year for which the appropriation from which the claim is to be paid was made if the appropriation relates to:
   (A) new construction contracts;
   (B) grants awarded under Chapter 391, Health and Safety Code;
   (C) repair and remodeling projects that exceed the amount of $20,000, including furniture and other equipment and architects' and engineering fees; and
   (D) other costs related to the contracts or projects; or

(2) not later than seven years after the end of the fiscal year for which the appropriation from which the claim is to be paid
(c) A claim not presented before the deadline provided by Subsection (b) may be presented to the legislature as other claims for which appropriations are not available.

(d) A warrant may not be drawn against an appropriation from a special fund or account unless the fund or account contains in the state treasury sufficient cash to pay the warrant. The comptroller may not release or deliver a warrant unless the appropriation against which the warrant is drawn has a balance sufficient to pay the warrant.

(e) As a claim is paid it shall be filed according to the method the comptroller finds most advisable. After two years after a claim is filed, it shall be removed from the files and stored as a record.

(f) A person commits an offense if the person knowingly makes a false certificate on a claim against the state for the purpose of authenticating a claim against the state. An offense under this section is punishable by imprisonment in the Texas Department of Criminal Justice for not less than two or more than five years.

(g) Notwithstanding Subsection (a), the comptroller may audit claims presented by the state agency after the comptroller prepares warrants or uses the electronic funds transfer system to pay the claims.

(h) The comptroller may establish requirements and adopt rules concerning the time that a state agency must retain documentation in its files to enable a postpayment audit. If a postpayment audit by the comptroller shows that a claim presented by a state agency was invalid, the comptroller may:

(1) implement procedures to ensure that similar invalid claims from the state agency are not paid in the future;

(2) report to the governor, the lieutenant governor, the speaker of the house of representatives, the state auditor, and the Legislative Budget Board the results of the audit;

(3) require the state agency to obtain a refund of the monies from the payee; and

(4) reduce the state agency's remaining appropriations by the amount of the claim.

(i) The comptroller may access the books, accounts, confidential or nonconfidential reports, vouchers, electronic data,
or other records or information of a state agency subject to a postpayment audit. If information may not be released under federal law, the comptroller may not access the information without approval of the appropriate federal agency.

(j) The comptroller shall use reasonable efforts to avoid hindering the daily operations of a state agency subject to a postpayment audit by coordinating requests for access to books, accounts, reports, vouchers, electronic data, or other records or information of the audited agency.

Sec. 403.072. PAYROLL CLAIMS. (a) A court, school, or other state agency may prepare and present a payroll claim to the comptroller before the end of the payroll period. The claim must be verified as to services performed during the payroll period before the date of the claim but need not be verified as to services to be performed during the payroll period after the date of the claim.

(b) The comptroller shall accept the claim when presented, prepare a warrant in payment of the claim before the date it becomes due and payable, and hold the warrant for delivery until it becomes due and payable. The warrant must be dated as of the due date of the claim and may not be delivered to the claimant until the due date.

(c) To allow such a warrant to be ready for delivery on the due date, the comptroller may adopt rules necessary to administer this section.
(d) In its rules adopted under this section, the comptroller may not require an institution of higher education, as defined by Section 61.003, Education Code, that processes its own payroll to submit payroll information to the comptroller relating to individual employees of the institution that is not required by the comptroller to make any distribution of state money to the institution to cover the institution's payroll.

Sec. 403.0721. NET COMPENSATION CALCULATION. The comptroller may adopt procedures and rules relating to the method used to calculate the net compensation of a state officer or employee.

Added by Acts 1993, 73rd Leg., ch. 449, Sec. 30, eff. Sept. 1, 1993.

Sec. 403.073. SPECIAL CLAIMS. A person holding a claim against the state for which a warrant has not been issued and for which the appropriation has been exhausted shall present the claim to the comptroller for the comptroller's consideration not later than 30 days before the meeting of each regular session of the legislature. The comptroller may not audit such a claim presented after this deadline until the comptroller has considered and passed on all claims presented before the deadline.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 403.074. MISCELLANEOUS CLAIMS. (a) The comptroller shall pay, from available funds appropriated for that purpose, miscellaneous claims for which an appropriation does not otherwise exist or for which the appropriation has lapsed. For the purpose of this section, "miscellaneous claims" does not include claims concerning warrants that have expired because they were not presented to the comptroller for payment within the time period specified in Section 210.012, Labor Code.

(b) Except as provided by Subsection (g), the comptroller may
not pay a miscellaneous claim unless the claim has been:

(1) verified and substantiated by an authorized employee of the state agency whose special fund or account is to be charged for the claim;

(2) verified by the attorney general as a legally enforceable obligation of the state; and

(3) certified by the claimant as due and unpaid.

(c) The comptroller shall keep a record of each transaction made under this section, showing:

(1) the amount of the claim paid;

(2) the identity of the claimant;

(3) the purpose of the claim; and

(4) the fund or account against which the claim is to be charged.

(d) Except as provided by Subsection (g), the comptroller may not pay under this section a single claim in excess of $50,000, or an aggregate of claims by a single claimant during a biennium in excess of $50,000. For the purposes of this subsection, all claims that were originally held by one person are considered held by a single claimant regardless of whether those claims were later transferred.

(e) Unless another law provides a period within which a particular claim must be made, a claim may not be made under this section after eight years from the date on which the claim arose. A claim arises on the day after the last day that payment was due on the original claim. A person who fails to make a claim within the period provided by law waives any right to a payment of the claim.

(f) This section does not apply to a claim for a refund of a tax or fee.

(g) The comptroller shall pay under this section any claim that satisfies the requirements of Subchapter B, Chapter 103, Civil Practice and Remedies Code, as provided by Section 103.151, Civil Practice and Remedies Code.

Sec. 403.075. DEFICIENCIES. (a) A person having the power to contract for supplies or pledge the credit of the state for a deficiency that may arise under the person's management or control shall, before the occurrence of a deficiency, make a sworn estimate of the amount necessary to cover a deficiency until the meeting of the next legislature. The person must make the estimate not later than the 30th day before the date the deficiency occurs and shall immediately submit the claim to the governor.

(b) The governor shall:
(1) carefully examine the claim;
(2) approve or disapprove it in whole or part;
(3) endorse the approval on the claim or the part approved;
(4) designate the amount and items approved and the items disapproved; and
(5) file the claim with the comptroller.

(c) The comptroller may draw a deficiency warrant for and may pay only the part of a claim approved and filed as provided by this section. If a sufficient deficiency appropriation exists to meet the claim, the comptroller shall draw a warrant and the claim shall be paid. If such an appropriation does not exist or is not sufficient to pay the claim, the comptroller shall issue a deficiency warrant and the claim may not be paid until the legislature provides for the payment.

(d) If injury or damage occurs to public property from a flood, storm, or unavoidable cause, an estimate may be filed under this section immediately. The estimate must be approved by the governor as provided by this section.

(e) The governor may not approve warrants under this section in an aggregate amount exceeding $200,000. A warrant approved above this amount is invalid and the comptroller may not redeem it.

(f) This section does not apply to fees and dues for which the state may be liable under general law.

Sec. 403.076. TAX REFUNDS. (a) The comptroller shall pay from available funds claims for refunds of state taxes for which a refund may not be claimed under Section 111.104, Tax Code.

(b) The comptroller shall keep records of each transaction made under this section, showing:

(1) the amount of the claim paid;
(2) the identity of the claimant;
(3) the purpose of the claim; and
(4) the fund or account against which the claim is to be charged.

(c) For a tax for which no other law provides a period within which a refund claim must be made, a refund claim may not be made after four years from the latest date on which the tax could be paid without the imposition of a penalty or interest. If the law does not provide for the imposition of a penalty or interest for a tax not paid within a specified period, a claim for a refund of the tax may not be made after four years from the date the return relating to the tax was due or, if applicable, a notice that the tax was due.

(d) A person who fails to make a tax refund claim within the period provided by this section or other law waives any right to a refund of the tax paid.

(e) The refund claim must be filed in writing with the agency that collects the tax for which the refund is claimed. The claim must state the amount of the refund claimed and be accompanied by evidence sufficient to establish the grounds for and the amount of the refund.

(f) If the refund is required by law to be made by an agency other than the agency that collects the tax for which the refund is claimed, the agency that collects the tax shall provide the agency making the refund with a copy of the refund claim and the accompanying evidence to establish the validity and amount of the refund. The agency responsible for making the refund may not make a refund without receiving that evidence.

(g) Before paying a refund under this section, the comptroller shall credit the amount due to the person claiming the refund against any other amount finally determined to be due to the state from the person according to information in the custody of the comptroller and shall refund the remainder.
(h) This section does not apply to taxes paid under protest.

(i) This section is not a waiver of sovereign immunity for a refund suit. A person claiming a refund may not seek or obtain judicial review of a determination by the agency with which a refund claim is filed or by the agency having the responsibility to make a refund relating to the refund claim unless the legislature by resolution grants permission for a person to seek judicial review of the determination.

Sec. 403.077. IMPROPER COLLECTIONS. (a) The comptroller may refund the amount of money collected or received by a state agency through mistake of fact or law and deposited in the state treasury, including money not due the state and money collected or received in excess of the amount required to be collected or received. The agency must make written request to the comptroller for the refund, showing the reason for and amount of the refund. At any time the comptroller may require further written evidence for the refund and may withhold payment until the comptroller is satisfied that the refund is justified.

(b) A warrant for the payment of the refund must be signed by the comptroller and shall be drawn against the fund or account into which the money was deposited. The refund shall be made from funds appropriated for that purpose.

(c) This section does not affect Subchapter C, Chapter 111, Tax Code, or any statute requiring payment of unrefundable fees.

(d) Unless another law provides a period within which a particular refund claim must be made, a refund claim may not be made under this section after four years from the latest date on which the amount collected or received by the state was due, if the amount was required to be paid on or before a particular date. If the amount was not required to be paid on or before a particular date, a refund claim may not be made after four years from the date the amount was collected or received. A person who fails to make a refund claim within the period provided by law waives any right to a refund of the amount paid.

(e) This section does not apply to a refund of a tax.
Sec. 403.078. FORM. All claims and accounts against the state shall be submitted on forms or according to the method and format that the comptroller prescribes. The claims and accounts shall be prepared to provide for entering on the claim or account, for use of the comptroller's office, the following:

1. authorization of the head of the office or other person responsible for the expenditure;
2. the appropriation against which the disbursement is to be charged;
3. information required by the comptroller's rules;
4. proof that the claim or account was presented to the state within the period of limitation provided by Section 16.051, Civil Practice and Remedies Code, or other applicable statute; and
5. other appropriate matters.

Sec. 403.079. USING SAMPLING TECHNIQUES TO AUDIT CLAIMS. (a) The comptroller may use generally recognized sampling techniques to audit claims against the state. Those techniques may be used only when the comptroller determines that they would be cost-effective and would promote greater efficiency in paying claims. The comptroller's proper use of sampling techniques satisfies the auditing requirements of Section 403.071.

(b) When the comptroller uses sampling techniques to audit claims from a state agency, the comptroller may project the results from the sample to similar types of unaudited claims from that agency. The comptroller may use that projection to estimate the amount of unaudited claims that were improperly paid. The comptroller may submit that estimate to the governor, state auditor, and the Legislative Budget Board.

SUBCHAPTER F. MANAGEMENT OF FUNDS IN TREASURY

Sec. 403.0915. DORMANT FUND OR ACCOUNT. At any time the comptroller, with notification to the state auditor, may transfer to the general revenue fund a balance in a dormant fund or account if the source of the fund or account is unknown or the purpose for which it was collected is moot. The legislature at any time after the transfer may appropriate the balance as a refund if the source and purpose of the fund or account become known and active.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 403.092. TEMPORARY TRANSFER OF SURPLUS AND OTHER CASH.
(a) To allow efficient management of the cash flow of the general revenue fund and to avoid a temporary cash deficiency in that fund, the comptroller may transfer available cash, except constitutionally dedicated revenues, between funds that are managed by or in the custody of the comptroller. As soon as practicable the comptroller shall return the available cash to the fund from which it was transferred. The comptroller shall preserve the equity of the fund from which the cash was transferred and shall allocate the earned interest as if the transfer had not been made.

(b) If the comptroller submits a statement under Article III, Section 49a, of the Texas Constitution when available cash transferred under Subsection (a) is in the general revenue fund, the comptroller shall indicate in that statement that the transferred available cash is in the general revenue fund, is a liability of that fund, and is not available for appropriation by the legislature except as necessary to return cash to the fund from which it was transferred as required by Subsection (a).

Text of subsec. (c) as added by Acts 1993, 73rd Leg., ch. 449, Sec. 31.

(c) The comptroller may temporarily transfer cash from the general revenue fund to a special fund in the state treasury or to an account in the general revenue fund if:

(1) the transfer contributes toward minimizing the state's
interest liability under the Cash Management Improvement Act of 1990 (31 U.S.C. Section 6501 et seq.) by delaying the receipt of federal money;

(2) the amount transferred does not exceed the amount necessary for the comptroller to process a payroll claim that a state agency submits before the end of the payroll period under Section 403.072;

(3) the comptroller determines before the transfer occurs that other money is not available to process the payroll claim;

(4) before the transfer occurs, the comptroller is notified by the state agency whose payroll claim will be processed that the federal government is legally required to provide by payday sufficient money to pay the claim;

(5) the transfer does not occur earlier than the 10th day before payday; and

(6) the amount transferred is returned to the general revenue fund as soon as possible after the federal money is received but not later than payday.

(c)(1) The comptroller may temporarily transfer cash from the general revenue fund to the petroleum storage tank remediation fund during the 1996-1997 biennium for the purpose of paying reimbursement claims against that fund that are filed with the Texas Natural Resource Conservation Commission on or before August 31, 1995, and for paying the necessary expenses associated with the administration of that fund. The amount of cash to be transferred shall not exceed $120 million. The transfer shall be made on September 1, 1995, or as soon as practicable thereafter.

(2) Notwithstanding other law, $80 million of the fees collected under Section 26.3574, Water Code, shall be deposited to the credit of the general revenue fund not later than August 31, 1996, and $40 million of those fees shall be deposited to the credit of that fund not later than May 31, 1997. The remaining fees collected under that section in excess of the amounts required by this subdivision to be deposited to the credit of the general revenue fund shall be deposited to the credit of the petroleum storage tank remediation fund.

(3) The amount transferred under Subdivision (1) is a receivable of the general revenue fund for the purpose of statements that the comptroller submits under Article III, Section 49a, of the Texas Constitution. The transferred amount is available for
appropriation by the legislature.

(4) This subsection expires on the latter of August 31, 1997, or the date of full repayment to the general revenue fund of the amount required under Subdivision (2).

(d) The amount transferred under Subsection (c) is a receivable of the general revenue fund for the purposes of statements that the comptroller submits under Article III, Section 49a, of the Texas Constitution. The transferred amount is available for appropriation by the legislature.

(e) The comptroller may adopt procedures and rules to administer Subsections (c) and (d).

Sec. 403.093. ALLOCATIONS FROM GENERAL REVENUE FUND. (a) Each month the comptroller shall withdraw from the general revenue fund authorized withdrawals and transfers.

(b) Repealed by Acts 1989, 71st Leg., ch. 4, Sec. 2.71(b), eff. Sept. 1, 1989.

(c) Each month the comptroller shall transfer from the general revenue fund to the state contribution account of the teacher retirement system trust fund the equal monthly payment provided by Section 825.404. If the appropriation provided by the legislature is different from the amount of state contributions required, the comptroller, after the end of the fiscal year, shall make adjustments in the teacher retirement fund and the general revenue fund so that the total transfers during the year equal the total amount of the state contribution required.

(d) The comptroller shall transfer from the general revenue fund to the foundation school fund an amount of money necessary to fund the foundation school program as provided by Chapter 48, Education Code. The comptroller shall make the transfers in installments as necessary to comply with Section 48.273, Education Code, and permit the Texas Education Agency, to the extent authorized
by the General Appropriations Act, to make temporary transfers from
the foundation school fund for payment of the instructional materials
and technology allotment under Section 31.0211, Education Code.
Unless an earlier date is necessary for purposes of temporary
transfers for payment of the instructional materials and technology
allotment, an installment must be made not earlier than two days
before the date an installment to school districts is required by
Section 48.273, Education Code, and must not exceed the amount
necessary for that payment and any temporary transfers for payment of
the instructional materials and technology allotment.

(e) Except as provided by Subsection (f), when state revenue is
allocated in proportional amounts to the available school fund and to
the general revenue fund, the comptroller shall deposit all revenue
to the credit of the general revenue fund and then, as a ministerial
duty on the 10th day of each month and on the last day of the fiscal
year, the comptroller shall transfer from the general revenue fund to
the available school fund an amount equal to the proper proportional
amount required by law to be allocated to the available school fund
from revenue received from the tax during the preceding month, or in
the case of the last month of the fiscal year, during the last month
of the fiscal year.

(f) All net revenue from taxes imposed by Chapter 154, Tax
Code, shall be deposited to the credit of the general revenue fund.
The comptroller, as a ministerial duty on the 10th day of each month
and on the last day of each fiscal year, shall transfer from the
general revenue fund to the proper funds and accounts the amounts
computed by the comptroller equal to the amounts required by that
chapter.

(g) If on the 10th day of a month the amount available for
transfer as provided by this section is insufficient, subsequent
credits to the general revenue fund shall be accumulated in an amount
sufficient to make the required transfer.

Sec. 403.095. USE OF DEDICATED REVENUE. (a) Revenue that has been set aside by law for a particular purpose or entity is available for that purpose or entity to the extent money is appropriated for that purpose or entity. Expenditures made in furtherance of the dedicated purpose or entity shall be made from money received from the dedicated revenue source to the extent those funds are appropriated.

(b) Notwithstanding any law dedicating or setting aside revenue for a particular purpose or entity, dedicated revenues that on August 31, 2023, are estimated to exceed the amount appropriated by the General Appropriations Act or other laws enacted by the 87th Legislature are available for general governmental purposes and are considered available for the purpose of certification under Section 403.121.

(c) The comptroller shall develop accounting and revenue estimating procedures so that each dedicated account maintained in the general revenue fund can be separately identified as to balances of cash and other assets and the amounts of revenues and expenditures and appropriations for each fiscal year.

(d) Following certification of the General Appropriations Act and other appropriations measures enacted by the 87th Legislature, the comptroller shall reduce each dedicated account as directed by the legislature by an amount that may not exceed the amount by which
estimated revenues and unobligated balances exceed appropriations. The reductions may be made in the amounts and at the times necessary for cash flow considerations to allow all the dedicated accounts to maintain adequate cash balances to transact routine business. The legislature may authorize, in the General Appropriations Act, the temporary delay of the excess balance reduction required under this subsection. This subsection does not apply to revenues or balances in:

(1) funds outside the treasury;
(2) trust funds, which for purposes of this section include funds that may or are required to be used in whole or in part for the acquisition, development, construction, or maintenance of state and local government infrastructures, recreational facilities, or natural resource conservation facilities;
(3) funds created by the constitution or a court; or
(4) funds for which separate accounting is required by federal law.

Notwithstanding any other law, all interest or other earnings that accrue on all revenue held in an account in the general revenue fund any part of which Section 403.095 makes available for certification under Section 403.121 are available for any general governmental purpose, and the comptroller shall deposit the interest and earnings to the credit of the general revenue fund. This section does not apply to:

(1) interest or earnings on revenue deposited in accordance with Section 51.008, Education Code;
(2) an account that accrues interest or other earnings on deposits of state or federal money the diversion of which is specifically excluded by federal law;
(3) the lifetime license endowment account;

Sec. 403.097. FUNDS EXPENDED IN PROPORTION TO METHOD OF FINANCING. (a) The comptroller may prescribe rules to ensure that, when it is necessary to preserve cash balances in the funds and accounts in the state treasury, appropriations are drawn from the treasury in proportion to the methods of financing specified in the Acts authorizing the appropriations.

(b) The rules may include procedures relating to the deposit of receipts and the issuance of warrants.

(c) This section does not affect other powers of the comptroller under this subchapter, Subchapter H of Chapter 404, or other law.

SUBCHAPTER G. FUNDS

Sec. 403.101. FLOOD AREA SCHOOL AND ROAD FUND. (a) The comptroller may receive and give a receipt for money due or payable under 33 U.S.C. Section 701c-3 (1986). The money shall be placed in a separate account called the flood area school and road fund to the credit of the comptroller. The money may not be part of the general funds of the state.

(b) Each person having the duty to collect school or road taxes for a school district, county, or other political subdivision all or part of which is within a flood control district or flood control area created or designated under law shall prepare and file with the comptroller a sworn report showing:

(1) the total number of acres acquired by the United States for flood control purposes within the boundaries of the school district, county, or other political subdivision; and

(2) the tax rate for each $100 of valuation for school and road purposes levied by the school district, county, or other political subdivision for the year in which the report is made.
(c) On or before September 15 of each year the comptroller shall pay to a school district, county, or other political subdivision the proportionate share of money in the flood area school and road fund that was produced by leases on land acquired by the United States for flood control purposes within the school district, county, or other political subdivision. The school district, county, or other political subdivision is entitled to a proportionate part of the money in the fund based on the ratio that the district's, county's, or subdivision's tax rate bears to the sum of the school tax rate and the road tax rate. The money may be used for the purposes permitted by federal law.

(d) If during a school year money distributable to a school district is in the flood area school and road fund, the comptroller, on application of a school district, may distribute the money on a date other than a date permitted by Subsection (c).

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 403.102. FEDERAL REVENUE SHARING TRUST FUND. (a) The federal revenue sharing trust fund exists to receive money authorized under the federal revenue sharing law (31 U.S.C. Section 6701 et seq. (1983)) and money earned by the use of that money. Expenditures from the fund must be authorized by the legislature. The comptroller shall administer the fund and may adopt rules providing for the availability of money for use among the entities funded from the fund. Costs related to salary and wages for employer contributions to the state retirement programs, to the Federal Old Age and Survivors Insurance Program (42 U.S.C. Section 401 et seq. (1983)), and for the unemployment benefit program computed at the maximum contributor rate shall be applied to salaries and wages paid from the fund and credited to the general revenue fund.

(b) To ensure that the state obtains full benefit of the federal revenue sharing trust fund, the comptroller may invest money in the fund that is determined to exceed cash requirements for current expenditures in:

(1) direct obligations of, or obligations the principal and interest of which are guaranteed by, the United States;

(2) direct obligations of or participation certificates guaranteed by the Federal Intermediate Credit Bank, Federal Land
Banks, Federal National Mortgage Association, Federal Home Loan Banks, or Banks for Cooperatives;

(3) savings and loan associations insured by the Federal Savings and Loan Insurance Corporation;

(4) certificates of deposit of a bank or trust company the deposits of which are fully secured by a pledge of securities listed in Subdivisions (1)-(3);

(5) other securities made eligible by law for this investment; or

(6) any combination of those investments.

Sec. 403.103. SCHOOL TAXING ABILITY PROTECTION FUND. The school taxing ability protection fund is a special fund in the state treasury. Money in the fund may be appropriated to finance formulas designed to protect school districts against estimated revenue losses resulting from implementation of Article VIII, Sections 1-b(c), 1-b(d), and 1-d-1, of the Texas Constitution and shall be allocated to school districts on the basis of formulas, conditions, and limitations prescribed by law.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 403.104. FEDERAL RESOURCE RECEIPTS DISTRIBUTION FUND. (a) The federal resource receipts distribution fund is a fund in the state treasury. Money received by the state under 30 U.S.C. Section 191 or 355 (1984) shall be deposited to the credit of the fund. The comptroller shall distribute money in the fund to each eligible county in the amount and manner and for the purposes provided by federal law and this section.

(b) A county is eligible to receive funds under this section if federal land for which the state receives a portion of the money from sales, bonuses, royalties, or rentals under 30 U.S.C. Section 191 or 355 (1984) is located in the county. An eligible county is entitled to receive from the fund all of the money paid to the state and deposited in the fund from all sales, bonuses, royalties, and rentals received from federal public land located in the county.

(c) Not later than the 10th day after the date that a county
receives a payment from the comptroller under this section the county shall distribute the payment as follows:

(1) 50 percent of the payment is available for distribution to the independent school districts located in whole or part in the county, with each school district receiving a proportionate share according to Subsection (d);

(3) 35 percent of the payment is available for the county to retain.

(d) The proportionate share of an independent school district is determined by multiplying the total amount of the payment available for distribution to school districts by the ratio that the average daily attendance for students who reside in the county and who attend that school district bears to the average daily attendance for all students who reside in the county and who attend any independent school district. However, if there are fewer than 10 independent school districts located in whole or part in the county and if an independent school district would receive under this formula less than 10 percent of the total payment available for distribution to independent school districts, the school district's share shall be increased to 10 percent of the total payment and the shares of the school districts that would receive more than 10 percent under the formula shall be reduced proportionately, but not to an amount less than 10 percent of the total payment. Each independent school district shall develop a reasonable method for determining the average daily attendance for students who reside in the county and who attend the school district.

(e) The proportionate share of a municipality is determined by multiplying the total payment available for distribution to municipalities by the ratio that the number of residents of that municipality who live in the county bears to the total number of residents of all municipalities who live in the county. The number of residents shall be determined according to the most recent federal census.

(h) The comptroller shall adopt rules necessary to implement the comptroller's duties under this section, including rules distinguishing the net earnings of the account that may be distributed under Subsection (f) from earnings used for investment expenses under Subsection (e) and from the money and assets that are the corpus of the account. A rule adopted by the comptroller under this subsection must be submitted to the advisory committee and may not become effective before the rule is approved by the advisory committee. If the advisory committee disapproves a proposed rule, the advisory committee shall provide the comptroller the specific reasons that the rule was disapproved.

Before transmitting the funds, the comptroller shall deduct two percent of each taxing unit's share as a charge by the state for its services under this section and deposit that amount into the state treasury to the credit of the comptroller's operating fund. Interest earned on all deposits made in the state treasury under this section shall be credited to the general revenue fund.

(d) The comptroller shall retain a portion of each eligible taxing unit's share of money held in trust under Subsection (a), not
to exceed five percent of the amount eligible to be transmitted to the taxing unit under Subsection (c). From the amounts retained, the comptroller may make refunds for overpayments of taxes computed using the single local use tax rate, make refunds to purchasers as provided by Section 151.0595(f), Tax Code, and redeem dishonored checks and drafts deposited under Subsection (a).

(e) The comptroller shall compute for each calendar month the percentage of the total sales and use tax allocations made pursuant to Title 3, Tax Code, including any local sales and use taxes governed by any provision of Title 3, Tax Code, to each eligible taxing unit. The comptroller shall determine each eligible taxing unit's share of the money held in trust from deposits under Subsection (a) for that month by applying the percentage computed under this subsection for the eligible taxing unit to the total amount held in trust from deposits for that month.

(f) The comptroller may combine an eligible taxing unit's share of the money held in trust under Subsection (a) with other money held for that taxing unit.

(g) The comptroller may adopt rules to administer this section.

Sec. 403.109. PROPERTY TAX RELIEF FUND. (a) The property tax relief fund is a special fund in the state treasury outside the general revenue fund. The fund is exempt from the application of Sections 403.095 and 404.071. Interest and income from the deposit and investment of money in the fund must be allocated monthly to the fund.

(b) Until the state fiscal year beginning after the first tax year in which the average school district maintenance and operations tax rate is not more than $1.00 per $100 of taxable value, money in the fund may be appropriated only for a purpose that will result in a reduction of school district maintenance and operations tax rates to rates that are less than the rates in effect for the 2005 tax year.

(c) Beginning in the state fiscal year that begins after the first tax year in which the average school district maintenance and operations tax rate is not more than $1.00 per $100 of taxable value,
any money remaining in the fund after a sufficient amount of money is appropriated in that state fiscal year to maintain an average school district maintenance and operations tax rate of $1.00 per $100 of taxable value may be appropriated only as follows:

(1) two-thirds of the money appropriated from the fund may be appropriated only for a purpose that will result in a further reduction of the average school district maintenance and operations tax rate; and

(2) one-third of the money appropriated from the fund may be appropriated only for the purpose of increasing the level of equalization of school district enrichment tax effort to the extent that limits reliance by school districts on local property tax effort and decreases the enrichment tax rates of districts.

(d) To the extent to which maintenance and operations tax rates are reduced using money appropriated from the fund, reductions must be carried out so as not to increase the disparity in revenue yield between districts of varying property wealth per weighted student.

Sec. 403.110. SUCCESS CONTRACT PAYMENTS TRUST FUND. (a) The success contract payments trust fund is established as a trust fund outside the state treasury with the comptroller as trustee.

(b) The trust fund is established to provide a fund from which the comptroller as trustee may make success contract payments due in accordance with the contract terms without the necessity of an appropriation for the contract payment.

(c) The trust fund consists of money gifted, granted, donated, or appropriated for deposit to the credit of the trust fund and any interest or other earnings attributable to the trust fund. The comptroller shall hold money credited to the trust fund for use only for payments due in accordance with success contract terms and expenses incurred in administering the trust fund or in administering the success contracts for which the trust fund is established. The balance of the trust fund may not exceed $50 million at any time. The comptroller may establish in the trust fund one or more accounts to administer money for a particular success contract for which money has been credited to the trust fund.
(d) Notwithstanding any other law, a state agency and the comptroller jointly may enter into a success contract with any person the terms of which must include:

1. that a majority of the contract payment is conditioned on the contractor meeting or exceeding certain specified performance measures toward the outcome of the contract's objectives;
2. a defined objective procedure by which an independent evaluator is to determine whether the specified performance measures have been met or exceeded; and
3. a schedule of the amounts and timing of payments to be earned by the contractor during each year or other specified period of the contract that indicates the payment amounts conditioned on meeting or exceeding the specified performance measures.

(e) A contract executed under this section is not enforceable until:

1. the state agency and the Legislative Budget Board certify that the proposed contract is expected to result in significant performance improvements and significant budgetary savings for the state agency or agencies party to the contract if the performance targets are achieved; and
2. a grantor or donor has gifted, granted, or donated, or the legislature has appropriated for deposit to the credit of the trust fund, contingent on the execution of the contract, an amount of money necessary to administer the contract and make all payments that may become due under the contract over the effective period of the contract.

(f) The comptroller shall make the contract payments for the success contracts only from the trust fund and only in accordance with the terms of the success contracts. The comptroller shall deposit to the credit of the trust fund any money the comptroller recovers from a contractor for overpayment or for a penalty or other amount recoverable under the terms of a success contract and shall hold the money in the trust fund in the same manner as the money held for payments for the success contract. To the extent that any money credited to the trust fund for a particular success contract remains unpaid at the time the particular contract expires or is terminated, as soon after the contract expiration as is practicable, the comptroller shall return the unpaid amount to the grantor, donor, or state treasury fund or account from which the money was gifted, granted, donated, or appropriated.
(g) Each state agency shall provide to each legislature not later than the first day of the regular legislative session a report that:

(1) provides details about the success in achieving the specified performance measures of each success contract the state agency has entered into under this section that has not expired or been terminated or that expired or was terminated since the date of the preceding report under this subsection; and

(2) provides details about proposed success contracts that the state agency has not executed at the time of the report.

(h) The comptroller may adopt rules as necessary to administer this section or success contracts entered into under this section, including joint rules adopted with other agencies that may be party to success contracts under this section.

(d) The bond itself, the opinion of the attorney general, and the record or other papers or documents relating to the bond need not be included in the register.

(e) When a bond is paid or redeemed, the proper officer or authority paying the bond shall notify the comptroller of the occurrence and date of the payment or redemption. All papers and documents relating to the bonds shall be filed and appropriately numbered.

(f) The comptroller may use electronic means, including the central electronic computing and data processing center established under Section 403.015, instead of books to register bonds.

Sec. 403.112. ACCOUNTS. (a) The comptroller shall keep an appropriate account for each state fund, showing a short description of the essential features of the fund and maintaining sufficient information to account for bonds and securities owned by the fund.

(b) The comptroller shall keep controlling or total accounts of the bonds or other securities, showing the total amount of bonds or other securities belonging to each fund.

(c) A controlling account shall be balanced monthly.

Sec. 403.113. CANCELLATION OF UNNEEDED BONDS. (a) The comptroller from time to time shall cancel by perforation all unneeded bonds of entities authorized by law to issue bonds to be registered in the comptroller's office and shall return them by express or freight mail to the issuer at the issuer's expense. The notice must be addressed according to the latest information available in the comptroller's office. If the comptroller becomes aware that the notice is undeliverable, the comptroller shall notify the county judge of the county in which the entity was situated in whole or part of the proposed cancellation. The notice to the county judge must be given not later than 30 days before the date the bonds are canceled and must indicate that the notice to the entity was undeliverable.

(c) Before the date fixed for the cancellation, the entity or county judge, on written notice and execution of a receipt in the form the comptroller prescribes, may repossess the bonds. Any shipping expense involved in the transaction shall be paid by the entity or the county whose county judge repossessed the bonds.

(d) An entity's registered or unregistered bonds that remain in the comptroller's office may be considered unneeded after five years after the date of the bonds.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 403.114. BOND CLERK. (a) The comptroller shall appoint a bond clerk. Before taking office the bond clerk shall take the official oath. The bond clerk serves at the pleasure of the comptroller.

(b) The bond clerk, under the comptroller's supervision, direction, and authority, shall perform all duties relating to the registration of bonds imposed on the comptroller by this chapter. The bond clerk may sign the comptroller's name to a certificate of registration of a bond that the bond clerk registers and that is required by law to be registered by the comptroller. In the absence of the bond clerk the chief clerk may perform the bond clerk's duties.

(c) The comptroller shall designate and appoint, from the employees of the comptroller's office, assistants to the bond clerk. The designation and appointment must be in writing, certified under
the seal of the comptroller, and filed with the bond clerk. The assistants, under the direction and authority of the comptroller, shall perform all duties relating to the registration of bonds imposed on the comptroller by this chapter. Each assistant may sign the comptroller's name to a certificate of registration of a bond that the assistant registers and that is required by law to be registered by the comptroller. The duties assigned by the comptroller to the assistants are in addition to other duties that may be assigned to the assistants.

**SUBCHAPTER I. REVENUE ESTIMATES**

Sec. 403.121. CONTENTS OF ESTIMATE. (a) In the statement required by Article III, Section 49a, of the Texas Constitution the comptroller shall list outstanding appropriations that may exist after the end of the current fiscal year but may not deduct them from the cash condition of the treasury or the anticipated revenues of the next biennium for the purpose of certification. The comptroller shall base the reports, estimates, and certifications of available funds on the actual or estimated cash condition of the treasury and shall consider outstanding and undisbursed appropriations at the end of each biennium as probable disbursements of the succeeding biennium in the same manner that earned but uncollected income of a current biennium is considered in probable receipts of the succeeding biennium. The comptroller shall consider as probable disbursements warrants that will be issued by the state before the end of the fiscal year.

(b) The comptroller shall include in the statement the detailed computations and all other pertinent information that the comptroller considered in arriving at the estimates of anticipated revenues.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

**SUBCHAPTER J. SUITS BY PERSONS OWING TAXES OR FEES**

Sec. 403.201. SUITS; JURISDICTION. The district courts of Travis County have exclusive, original jurisdiction of a suit brought under this chapter. This section prevails over Chapter 25 to the
extent of any conflict.

Sec. 403.202. PROTEST PAYMENT REQUIRED. (a) If a person who is required to pay to any department of the state government an occupation, excise, gross receipts, franchise, license, or privilege tax or fee, or another tax or amount imposed under Subtitle A, Title 4, Labor Code, contends that the tax or fee is unlawful or that the department may not legally demand or collect the tax or fee, the person shall pay the amount claimed by the state, and if the person intends to bring suit under this subchapter, the person must submit with the payment a protest.

(b) The protest must be in writing and must state fully and in detail each reason for recovering the payment.

(c) The protest payment must be made within the period set out in Section 403.076 or 403.077 for the filing of a refund claim.

Sec. 403.203. PROTEST PAYMENT SUIT AFTER PAYMENT UNDER PROTEST. (a) A person may bring suit against the state to recover an occupation, excise, gross receipts, franchise, license, or privilege tax or fee covered by this subchapter and required to be paid to the state if the person has first paid the tax under protest as required by Section 403.202.

(b) A suit under this section must be brought before the 91st day after the day the protest payment was made, or the suit is barred; provided that with respect to any tax or fee assessed annually but that is required to be paid in installments, the protest required by Section 403.202 may be filed with the final annual return and suit for the recovery for any such installment may be filed within 90 days after the final annual return is due.

(c) The state may bring a counterclaim in a suit brought under
this section if the counterclaim relates to taxes or fees imposed under the same statute and during the same period as the taxes or fees that are the subject of the suit and if the counterclaim is filed not later than the 30th day before the date set for trial on the merits of the suit. The state is not required to make an assessment of the taxes or fees subject to the counterclaim under any other statute, and the period of limitation applicable to an assessment of the taxes or fees does not apply to a counterclaim brought under this subsection.

Sec. 403.204. PROTEST PAYMENT SUIT: PARTIES; ISSUES. (a) A suit authorized by this subchapter must be brought against the public official charged with the duty of collecting the tax or fee, the comptroller, and the attorney general.

(b) The issues to be determined in the suit are limited to those arising from the reasons expressed in the written protest as originally filed.

(c) A copy of the written protest as originally filed must be attached to the original petition filed by the person paying the tax or fee with the court and to the copies of the original petition served on the comptroller, the attorney general, and the public official charged with the duty of collecting the tax or fee.

Sec. 403.205. TRIAL DE NOVO. The trial of the issues in a suit under this subchapter is de novo.

Sec. 403.206. CLASS ACTIONS. (a) In this section, a class action includes a suit brought under this subchapter by at least two
persons who have paid taxes or fees under protest as required by Section 403.202.

(b) In a class action, all taxpayers who are within the same class as the persons bringing the suit, who are represented in the class action, and who have paid taxes or fees under protest as required by Section 403.202 are not required to file separate suits but are entitled to and are governed by the decision rendered in the class action.

Sec. 403.207. ADDITIONAL PROTEST PAYMENTS BEFORE HEARING. (a) A petitioner shall pay additional taxes or fees when due under protest after the filing of a suit authorized by this subchapter and before the trial. The petitioner may amend the original petition to include all additional taxes or fees paid under protest before five days before the day the suit is set for a hearing or may elect to file a separate suit. The election does not prevent the court from exercising its power to consolidate or sever suits and claims under the Texas Rules of Civil Procedure.

(b) This section applies to additional taxes or fees paid under protest only if a written protest is filed with the additional taxes or fees and the protest states the same reason for contending the payment of taxes or fees that was stated in the original protest.

Sec. 403.208. PROTEST PAYMENTS DURING APPEAL. (a) If the state or the person who brought the suit appeals the judgment of a trial court in a suit authorized by this subchapter, the person who brought the suit shall continue to pay additional taxes or fees under protest as the taxes or fees become due during the appeal.

(b) Additional taxes or fees that are paid under protest during the appeal of the suit are governed by the outcome of the suit without the necessity of the person filing an additional suit for the additional taxes or fees.

Sec. 403.209. SUBMISSION OF PROTEST PAYMENTS TO COMPTROLLER.  
(a) An officer who receives payments of taxes or fees made under protest as required by Section 403.202 shall each day send to the comptroller the payments, a list of the persons making the payments, and a written statement that the payments were made under protest.  
(b) The comptroller shall deposit each payment made under protest in the General Revenue Fund or to the fund or funds to which the tax or fee is allocated by law.  
(c) The comptroller or the officer who receives a payment made under protest, if designated by the comptroller, shall maintain detailed records of the payment made under protest.  
(d) For purposes of a tax or fee paid under protest under this subchapter, the interest to be credited on the tax or fee is an amount equal to the amount of interest that would have been earned by the tax or fee if the tax or fee had been deposited into the suspense account of the comptroller.

Sec. 403.210. DISPOSITION OF PROTEST PAYMENTS BELONGING TO STATE.  If a suit authorized by this subchapter is not brought in the manner or within the time required or if the suit is properly filed and results in a final determination that a tax or fee payment or a portion of a tax or fee payment made under protest, including the amount of interest credited on the payment, belongs to the state, the state retains the proper amount of the tax or fee payment and the proportionate share of the interest earned.

Sec. 403.211. CREDIT OR REFUND.  (a) If a suit under this subchapter results in a final determination that all or part of the money paid under protest was unlawfully demanded by the public official and belongs to the payer, the comptroller, as soon as practicable on or after September 1 of the first year of the first state biennium that begins after the date of the final determination of the suit, shall credit the proper amount, with the interest
credited on that amount, against any other amount finally determined to be due to the state from the payer according to information in the custody of the comptroller and shall refund the remainder to the payer by the issuance of a refund warrant.

(b) A refund warrant shall be written and signed by the comptroller.

(c) The comptroller shall draw a refund warrant against the General Revenue Fund or other funds from which refund appropriations may be made, as the comptroller determines appropriate.

(d) The comptroller shall deliver each refund warrant issued to the person entitled to receive it.

Sec. 403.212. REQUIREMENTS BEFORE INJUNCTION. (a) An action for a restraining order or injunction that prohibits the assessment or collection of a state tax; license, registration, or filing fee; or statutory penalty assessed for the failure to pay the state tax or fee may not be brought against a state official or a representative of an official in this state unless the applicant for the order or injunction has first:

(1) filed with the attorney general not later than the fifth day before the date the action is filed a statement of the grounds on which the order or injunction is sought; and

(2) either:

(A) paid to the state official who collects the tax or fee all taxes, fees, and penalties then due by the applicant to the state; or

(B) filed with the state official who collects the tax or fee a good and sufficient bond to guarantee the payment of the taxes, fees, and penalties in an amount equal to twice the amount of the taxes, fees, and penalties then due and that may reasonably be expected to become due during the period the order or injunction is in effect.

(b) The amount and terms of the bond and the sureties on the bond authorized by Subsection (a)(2)(B) must be approved by and acceptable to the judge of the court granting the order or injunction.
and the attorney general.

(c) The application for the restraining order or injunction must state under the oath of the applicant or the agent or attorney of the applicant that:

(1) the statement required by Subsection (a)(1) has been filed as provided by that subsection; and

(2) the payment of taxes, fees, and penalties has been made as provided by Subsection (a)(2)(A) or a bond has been approved and filed as provided by Subsection (a)(2)(B) and Subsection (b).

(d) A state official who receives a payment or bond under Subsection (a)(2) shall deliver the payment or bond to the comptroller. The comptroller shall deposit a payment made under Subsection (a)(2)(A) to the credit of each fund to which the tax, fee, or penalty is allocated by law.

(e) Repealed by Acts 2021, 87th Leg., R.S., Ch. 331 (H.B. 2080), Sec. 11(1), eff. September 1, 2021.

Sec. 403.213. NATURE OF ACTION FOR INJUNCTION. (a) A court may not issue a restraining order or consider the issuance of an injunction that prohibits the assessment or collection of a tax, fee, or other amount covered by Section 403.212 unless the applicant for the order or injunction demonstrates that:

(1) irreparable injury will result to the applicant if the order or injunction is not granted;

(2) no other adequate remedy is available to the applicant; and

(3) the applicant has a reasonable possibility of prevailing on the merits of the claim.

(b) If the court issues a temporary or permanent injunction, the court shall determine whether the amount the assessment or collection of which the applicant seeks to prohibit is due and owing to the state by the applicant.
Sec. 403.214. COUNTERCLAIM. The state may bring a counterclaim in a suit for a temporary or permanent injunction brought under this subchapter if the counterclaim relates to taxes or fees imposed under the same statute and during the same period as the taxes or fees that are the subject of the suit and if the counterclaim is filed not later than the 30th day before the date set for trial on the merits of the application for a temporary or permanent injunction. The state is not required to make an assessment of the taxes or fees subject to the counterclaim under any other statute, and the period of limitation applicable to an assessment of the taxes or fees does not apply to a counterclaim brought under this section.

Sec. 403.215. RECORDS AFTER INJUNCTION. (a) After the granting of a restraining order or injunction under this subchapter, the applicant shall make and keep records of all taxes and fees accruing during the period that the order or injunction is effective. (b) The records are open for inspection by the attorney general and the state officer authorized to enforce the collection of the tax or fee to which the order or injunction applies during the period that the order or injunction is effective and for one year after the date that the order or injunction expires. (c) The records must be adequate to determine the amount of all affected taxes or fees accruing during the period that the order or injunction is effective.

Sec. 403.216. REPORTS AFTER INJUNCTION. (a) On the first Monday of each month during the period that an order or injunction granted under this subchapter is effective, the applicant shall make and file a report with the state officer authorized to enforce the collection of the tax or fee to which the order or injunction applies. (b) The report must include the following monthly information:
(1) the amount of the tax accruing;
(2) a description of the total purchases, receipts, sales, and dispositions of all commodities, products, materials, articles, items, services, and transactions on which the tax is levied or by which the tax or fee is measured;
(3) the name and address of each person to whom a commodity, product, material, or article is sold or distributed or for whom a service is performed;
(4) if the tax is imposed on or measured by the number or status of employees of the applicant, a complete record of the employees of the applicant and any related information that affects the amount of the tax; and
(5) if payment of the tax or fee is evidenced or measured by the sale or use of stamps or tickets, a complete record of all stamps or tickets used, sold, or handled.

(c) The report shall be made on a form prescribed by the state official with whom the report is required to be filed.

Sec. 403.217. ADDITIONAL PAYMENTS OR BOND. (a) If an applicant for an order or injunction granted under this subchapter has not filed a bond as required by Section 403.212(a)(2)(B), the applicant shall pay all taxes, fees, and penalties to which the order or injunction applies as those taxes, fees, and penalties accrue and before they become delinquent.

(b) If the attorney general determines that the amount of a bond filed under this subchapter is insufficient to cover double the amount of taxes, fees, and penalties accruing after the restraining order or injunction is granted, the attorney general shall demand that the applicant file an additional bond.

Sec. 403.218. DISMISSAL OF INJUNCTION. (a) The attorney general or the state official authorized to enforce the collection of a tax or fee to which an order or injunction under this subchapter applies may file in the court that has granted the order or injunction an affidavit stating that the applicant has failed to
comply with or has violated a provision of this subchapter.

(b) On the filing of an affidavit authorized by Subsection (a), the clerk of the court shall give notice to the applicant to appear before the court to show cause why the order or injunction should not be dismissed. The notice shall be served by the sheriff of the county where the applicant resides or by any other peace officer in the state.

(c) The date of the show-cause hearing, which shall be within five days of service of the notice or as soon as the court can hear it, shall be named in the notice.

(d) If the court finds that the applicant failed, at any time before the suit is finally disposed of by the court of last resort, to make and keep a record, file a report, file an additional bond on the demand of the attorney general, or pay additional taxes, fees, and penalties as required by this subchapter, the court shall dismiss the application and dissolve the order or injunction.

Sec. 403.219. FINAL DISMISSAL OR DISSOLUTION OF INJUNCTION.

(a) If a restraining order or injunction is finally dismissed or dissolved and a bond was filed, the comptroller shall make demand on the applicant and the applicant's sureties for the immediate payment of all taxes, fees, and penalties due the state.

(b) Taxes, fees, and penalties that are secured by a bond and remain unpaid after a demand for payment shall be recovered in a suit by the attorney general against the applicant and the applicant's sureties in a court of competent jurisdiction of Travis County or in any other court having jurisdiction of the suit.

Sec. 403.220. CREDIT OR REFUND. (a) If the final judgment in a suit under this subchapter maintains the right of the applicant for a temporary or permanent injunction to prevent the collection of the tax or fee, the comptroller shall credit the amount of the tax or fee, with the interest on that amount, against any other amount
finally determined to be due to the state from the applicant according to information in the custody of the comptroller and shall refund the remainder to the applicant. The credit or refund shall be made as soon as practicable on or after September 1 of the first year of the first state biennium that begins after the date of the final judgment.

(b) For purposes of this section, the interest to be paid on a refund of a tax or fee is an amount equal to the amount of interest that would have been earned by the tax or fee if the tax or fee had been paid into the suspense account of the comptroller.

Sec. 403.221. OTHER ACTIONS PROHIBITED. Except for a restraining order or injunction issued as provided by Section 403.212, a court may not issue a restraining order, injunction, declaratory judgment, writ of mandamus or prohibition, order requiring the payment of taxes or fees into the registry or custody of the court, or other similar legal or equitable relief against the state or a state agency relating to the applicability, assessment, collection, or constitutionality of a tax or fee covered by Section 403.212 or to the amount of the tax or fee due.

Sec. 403.222. APPLICABILITY. This subchapter does not apply to a suit under Chapter 112, Tax Code.

Sec. 403.245. ACCOUNTING FOR PETTY CASH ACCOUNT. (a) The creation of a petty cash account is not an expenditure of state money or a reduction of appropriation.

(b) The replenishment of a petty cash account is an expenditure from the corresponding fund and shall be drawn from the appropriation from which the expenditure would otherwise have been made.

Sec. 403.246. AMOUNT OF PETTY CASH ACCOUNT. (a) Unless the comptroller specifically directs otherwise under Section 403.249, the monetary limits in this section apply to petty cash accounts under this subchapter.

(b) A petty cash account established for changing currency may not exceed $500.

(c) A petty cash account established for making minor disbursements by the central office of a state agency may not exceed $1,000.

(d) A petty cash account established for making minor disbursements by offices other than the central office of a state agency may not exceed $500.

(e) A petty cash account established for advancing travel expense money to state officers and employees may not exceed one-twelfth of a state agency's expenditures for travel in the immediately preceding fiscal year.

(f) A petty cash account established for a purpose or a
Sec. 403.247. DUTIES OF STATE AGENCY. (a) A state agency may establish a petty cash account in a federally insured financial institution.

(b) Before a state agency may establish a petty cash account for a fiscal year:

(1) the head of the agency must determine that the account is necessary for the efficient operation of the agency and submit that determination to the comptroller;

(2) the agency must specify to the comptroller the purpose of the petty cash account;

(3) the agency must estimate the probable disbursements from the petty cash account during the fiscal year and submit that estimate to the comptroller;

(4) the agency must obtain a certification from the comptroller stating that the agency has a sufficient appropriation from the fund for the fiscal year to cover all probable disbursements during the fiscal year; and

(5) if the amount requested for the petty cash account would exceed the limits specified in Section 403.246, the agency must obtain the comptroller's approval of the amount.

(c) As soon as possible after the beginning of each fiscal year, a state agency shall provide to the comptroller an estimate of probable disbursements from each petty cash account during that fiscal year.

(d) A state agency may disburse money from a petty cash account only if the disbursement would be a proper expenditure from the corresponding fund if the fund itself, instead of the petty cash account, were being directly used to make the disbursement.

(e) Before a state agency may request the comptroller to replenish a petty cash account, the state agency shall submit the following documentation to the comptroller, in the content, method, and format required by the comptroller:

(1) the name of and a proper identification number for each
person who received a disbursement from the petty cash account;
(2) invoices or receipts from each person who received a disbursement from the petty cash account or canceled checks proving that total disbursements from the account equal the amount of the requested replenishment; and
(3) any other documentation that the comptroller considers necessary.

(f) Repealed by Acts 2003, 78th Leg., ch. 285, Sec. 31(11).

(g) A state agency shall ensure that all disbursements from a petty cash account comply with the purchasing laws and rules of the state and are supported by documentation that is sufficient to enable a complete audit.

(h) A state agency may keep currency in its offices for the purpose of making change, spot purchases, or any similar purpose or a combination of purposes as determined by the agency. The amount of currency kept in an office may not exceed $100 at any time unless the comptroller determines additional amounts are necessary for the efficient operation of the agency. The documentation that the agency would maintain if a disbursement were made from the petty cash account itself must be maintained for each disbursement from the currency kept in the office.

(i) A state agency shall reconcile and request a replenishment of its petty cash account as often as the comptroller requires.

Sec. 403.248. TRAVEL ADVANCES. (a) The comptroller shall adopt rules governing the use of petty cash accounts established under this subchapter for advancing travel expense money to state officers and employees.

(b) The rules must:
(1) prohibit the use of a petty cash account to advance more than projected travel expenses to a state officer or employee;
(2) prohibit a state agency from using a petty cash account to advance travel expense money to a prospective state officer or employee;
(3) require a final accounting after a state officer or
employee has incurred travel expenses; and

(4) prohibit a state agency from using a petty cash account for any purpose other than advancing travel expense money to a state officer or employee.

(c) In this section, "final accounting" means a reimbursement from or additional payment to a state officer or employee so that the net amount received by the officer or employee equals the actual travel expenses incurred by the officer or employee.

Sec. 403.249. DUTIES OF COMPTROLLER. (a) The comptroller shall notify the state auditor when a state agency requests a certification under Section 403.247(b) for a petty cash account.

(b) The comptroller shall use the agency's estimate of probable disbursements from the account during the fiscal year to determine whether the agency has a sufficient appropriation from the fund during the fiscal year to cover those disbursements. The comptroller shall notify the state agency of the determination.

(c) The comptroller may approve a state agency's written request to increase or decrease the petty cash accounts limitations specified in Section 403.246 if the comptroller determines that the increase or decrease is appropriate. The comptroller shall notify the state auditor of any increase or decrease of a petty cash account.

(d) When a state agency submits documentation to the comptroller as part of the procedure for replenishing a petty cash account, the comptroller shall treat the documentation as a proposed expenditure of appropriated funds.

(e) The comptroller shall follow the regular procedures used for auditing claims against the state.

(f) As soon as possible after the beginning of each fiscal year, the comptroller shall review:

(1) each petty cash account to ensure that the corresponding state agency has a sufficient appropriation from the fund to cover projected disbursements from the account during the following fiscal year; and
(2) each petty cash account for advancing travel expense
money to ensure that the current amount of the account complies with
the limits specified in Section 403.246.

(g) The comptroller shall send the results of the review
required by Subsection (f) to the state auditor.

(h) The comptroller may temporarily lapse a state agency's
unencumbered appropriations from the fund in an amount equal to the
shortage in its petty cash account if the state auditor certifies the
existence of that shortage to the comptroller.

(i) The comptroller shall reinstate the lapsed unencumbered
appropriations of a state agency if the state auditor certifies to
the comptroller that the agency has adopted procedures to prevent
similar shortages from occurring in the future.

(j) The comptroller, after consulting with the state auditor,
shall adopt necessary rules for the efficient administration of this
section.

Sec. 403.250. DUTIES OF STATE AUDITOR. The state auditor,
based on a risk assessment and subject to the legislative audit
committee's approval of including the audit in the audit plan under
Section 321.013, may audit state agencies for the proper use of petty
cash accounts and promptly report shortages, abuses, or unwarranted
uses of petty cash accounts to the legislature and the comptroller.

Amended by Acts 2003, 78th Leg., ch. 785, Sec. 11, eff. Sept. 1,
2003.

Sec. 403.251. ADDITIONAL DUTIES OF COMPTROLLER. The
comptroller shall treat documentation submitted by a state agency as
part of the procedure for replenishing a petty cash account as a
proposed expenditure of appropriated funds. The comptroller shall
follow its usual procedures for reviewing purchases. The comptroller
shall give the agency a written approval or disapproval of each
disbursement from the petty cash account.

The head of the agency to which the property is lent must execute a written receipt.

(e) A state agency shall conduct an annual physical inventory of all property in its possession. The comptroller may specify the date on which the inventory must be conducted.

(f) Not later than the date prescribed by the comptroller, the head of a state agency shall submit to the comptroller:

(2) a copy of the results of the inventory; and

(3) any other information concerning the inventory that the comptroller requires.

(g) At all times, the property records of a state agency must accurately reflect the property possessed by the agency. Property may
be deleted from the agency's records only in accordance with rules adopted by the comptroller.

(h) The state auditor, based on a risk assessment and subject to the legislative audit committee's approval of including the examination in the audit plan under Section 321.013, may periodically examine property records or inventory as necessary to determine if controls are adequate to safeguard state property.

1. agency property disappears, as a result of the failure of the head of an agency, property manager, or agency employee entrusted with the property to exercise reasonable care for its safekeeping;

2. agency property deteriorates as a result of the failure of the head of an agency, property manager, or agency employee entrusted with the property to exercise reasonable care to maintain and service the property; or

3. agency property is damaged or destroyed as a result of
Sec. 403.276. REPORTING TO COMPTROLLER AND ATTORNEY GENERAL.

SUBCHAPTER M. STUDY OF SCHOOL DISTRICT PROPERTY VALUES

Sec. 403.301. PURPOSE. It is the policy of this state to ensure equity among taxpayers in the burden of school district taxes and among school districts in the distribution of state financial aid for public education. The purpose of this subchapter is to promote that policy by providing for uniformity in local property appraisal practices and procedures and in the determination of property values for schools in order to distribute state funding equitably.

Sec. 403.3011. DEFINITIONS. In this subchapter:

(1) "Study" means a study conducted under Section 403.302.

(2) " Eligible school district" means a school district for which the comptroller has determined the following:

(A) in the most recent study, the local value is invalid under Section 403.302(c) and does not exceed the state value for the school district determined in the study;

(B) in the two studies preceding the most recent study, the school district's local value was valid under Section 403.302(c);
(C) in the most recent study, the aggregate local value of all of the categories of property sampled by the comptroller is not less than 90 percent of the lower limit of the margin of error as determined by the comptroller of the aggregate value as determined by the comptroller of all of the categories of property sampled by the comptroller; and

(D) the appraisal district that appraises property for the school district was in compliance with the scoring requirement of the comptroller's most recent review of the appraisal district conducted under Section 5.102, Tax Code.

(3) "Local value" means the market value of property in a school district as determined by the appraisal district that appraises property for the school district, less the total amounts and values listed in Section 403.302(d) as determined by that appraisal district.

(4) "State value" means the value of property in a school district as determined in a study.

Added by Acts 2003, 78th Leg., ch. 1183, Sec. 2, eff. June 20, 2003. Amended by:

Acts 2009, 81st Leg., R.S., Ch. 288 (H.B. 8), Sec. 1, eff. January 1, 2010.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4559, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 403.302. DETERMINATION OF SCHOOL DISTRICT PROPERTY VALUES.

(a) The comptroller shall conduct a study using comparable sales and generally accepted auditing and sampling techniques to determine the total taxable value of all property in each school district. The study shall determine the taxable value of all property and of each category of property in the district and the productivity value of all land that qualifies for appraisal on the basis of its productive capacity and for which the owner has applied for and received a productivity appraisal. The comptroller shall make appropriate adjustments in the study to account for actions taken under Chapter 49, Education Code.

(a-1) The comptroller shall conduct a study:
(1) at least every two years in each school district for which the most recent study resulted in a determination by the comptroller that the school district's local value was valid; and

(2) each year in a school district for which the most recent study resulted in a determination by the comptroller that the school district's local value was not valid.

(a-2) If in any year the comptroller does not conduct a study, the school district's local value for that year is considered to be valid.

(b) In conducting the study, the comptroller shall determine the taxable value of property in each school district:

(1) using, if appropriate, samples selected through generally accepted sampling techniques;

(2) according to generally accepted standard valuation, statistical compilation, and analysis techniques;

(3) ensuring that different levels of appraisal on sold and unsold property do not adversely affect the accuracy of the study; and

(4) ensuring that different levels of appraisal resulting from protests determined under Section 41.43, Tax Code, are appropriately adjusted in the study.

(c) If after conducting the study the comptroller determines that the local value for a school district is valid, the local value is presumed to represent taxable value for the school district. In the absence of that presumption, taxable value for a school district is the state value for the school district determined by the comptroller under Subsections (a) and (b) unless the local value exceeds the state value, in which case the taxable value for the school district is the district's local value. In determining whether the local value for a school district is valid, the comptroller shall use a margin of error that does not exceed five percent unless the comptroller determines that the size of the sample of properties necessary to make the determination makes the use of such a margin of error not feasible, in which case the comptroller may use a larger margin of error.

(c-1) This subsection applies only to a school district whose central administrative office is located in a county with a population of 9,000 or less and a total area of more than 6,000 square miles. If after conducting the study for a tax year the comptroller determines that the local value for a school district is
not valid, the comptroller shall adjust the taxable value determined under Subsections (a) and (b) as follows:

(1) for each category of property sampled and tested by the comptroller in the school district, the comptroller shall use the weighted mean appraisal ratio determined by the study, unless the ratio is more than four percentage points lower than the weighted mean appraisal ratio determined by the comptroller for that category of property in the immediately preceding study, in which case the comptroller shall use the weighted mean appraisal ratio determined in the immediately preceding study minus four percentage points;

(2) the comptroller shall use the category weighted mean appraisal ratios as adjusted under Subdivision (1) to establish a value estimate for each category of property sampled and tested by the comptroller in the school district; and

(3) the value estimates established under Subdivision (2), together with the local tax roll value for any categories not sampled and tested by the comptroller, less total deductions determined by the comptroller, determine the taxable value for the school district.

(d) For the purposes of this section, "taxable value" means the market value of all taxable property less:

(1) the total dollar amount of any residence homestead exemptions lawfully granted under Section 11.13(b) or (c), Tax Code, in the year that is the subject of the study for each school district;

(2) one-half of the total dollar amount of any residence homestead exemptions granted under Section 11.13(n), Tax Code, in the year that is the subject of the study for each school district;

(3) the total dollar amount of any exemptions granted before May 31, 1993, within a reinvestment zone under agreements authorized by Chapter 312, Tax Code;

(4) subject to Subsection (e), the total dollar amount of any captured appraised value of property that:

(A) is within a reinvestment zone created on or before May 31, 1999, or is proposed to be included within the boundaries of a reinvestment zone as the boundaries of the zone and the proposed portion of tax increment paid into the tax increment fund by a school district are described in a written notification provided by the municipality or the board of directors of the zone to the governing bodies of the other taxing units in the manner provided by former Section 311.003(e), Tax Code, before May 31, 1999, and within the
boundaries of the zone as those boundaries existed on September 1, 1999, including subsequent improvements to the property regardless of when made;

(B) generates taxes paid into a tax increment fund created under Chapter 311, Tax Code, under a reinvestment zone financing plan approved under Section 311.011(d), Tax Code, on or before September 1, 1999; and

(C) is eligible for tax increment financing under Chapter 311, Tax Code;

(5) the total dollar amount of any captured appraised value of property that:

(A) is within a reinvestment zone:
   (i) created on or before December 31, 2008, by a municipality with a population of less than 18,000; and
   (ii) the project plan for which includes the alteration, remodeling, repair, or reconstruction of a structure that is included on the National Register of Historic Places and requires that a portion of the tax increment of the zone be used for the improvement or construction of related facilities or for affordable housing;

(B) generates school district taxes that are paid into a tax increment fund created under Chapter 311, Tax Code; and

(C) is eligible for tax increment financing under Chapter 311, Tax Code;

(6) the total dollar amount of any exemptions granted under Section 11.251 or 11.253, Tax Code;

(7) the difference between the comptroller's estimate of the market value and the productivity value of land that qualifies for appraisal on the basis of its productive capacity, except that the productivity value estimated by the comptroller may not exceed the fair market value of the land;

(8) the portion of the appraised value of residence homesteads of individuals who receive a tax limitation under Section 11.26, Tax Code, on which school district taxes are not imposed in the year that is the subject of the study, calculated as if the residence homesteads were appraised at the full value required by law;

(9) a portion of the market value of property not otherwise fully taxable by the district at market value because of action required by statute or the constitution of this state, other than
Section 11.311, Tax Code, that, if the tax rate adopted by the district is applied to it, produces an amount equal to the difference between the tax that the district would have imposed on the property if the property were fully taxable at market value and the tax that the district is actually authorized to impose on the property, if this subsection does not otherwise require that portion to be deducted;

(10) the market value of all tangible personal property, other than manufactured homes, owned by a family or individual and not held or used for the production of income;

(11) the appraised value of property the collection of delinquent taxes on which is deferred under Section 33.06, Tax Code;

(12) the portion of the appraised value of property the collection of delinquent taxes on which is deferred under Section 33.065, Tax Code;

(13) the amount by which the market value of a residence homestead to which Section 23.23, Tax Code, applies exceeds the appraised value of that property as calculated under that section; and

(14) the total dollar amount of any exemptions granted under Section 11.35, Tax Code.

(d-1) For purposes of Subsection (d), a residence homestead that receives an exemption under Section 11.131, 11.133, or 11.134, Tax Code, in the year that is the subject of the study is not considered to be taxable property.

(e) The total dollar amount deducted in each year as required by Subsection (d)(4) in a reinvestment zone created after January 1, 1999, may not exceed the captured appraised value estimated for that year as required by Section 311.011(c)(8), Tax Code, in the reinvestment zone financing plan approved under Section 311.011(d), Tax Code, before September 1, 1999. The number of years for which the total dollar amount may be deducted under Subsection (d)(4) shall for any zone, including those created on or before January 1, 1999, be limited to the duration of the zone as specified as required by Section 311.011(c)(9), Tax Code, in the reinvestment zone financing plan approved under Section 311.011(d), Tax Code, before September 1, 1999. The total dollar amount deducted under Subsection (d)(4) for any zone, including those created on or before January 1, 1999, may not be increased by any reinvestment zone financing plan amendments that occur after August 31, 1999. The total dollar amount deducted
under Subsection (d)(4) for any zone, including those created on or before January 1, 1999, may not be increased by a change made after August 31, 1999, in the portion of the tax increment retained by the school district.

(e-1) This subsection applies only to a reinvestment zone created by a municipality that has a population of 70,000 or less and is located in a county in which all or part of a military installation is located. Notwithstanding Subsection (e), if on or after January 1, 2017, the municipality adopts an ordinance designating a termination date for the zone that is later than the termination date designated in the ordinance creating the zone, the number of years for which the total dollar amount may be deducted under Subsection (d)(4) is limited to the duration of the zone as determined under Section 311.017, Tax Code.

(f) The study shall determine the values as of January 1 of each year:

(1) for a school district in which a study was conducted according to the results of the study; and

(2) for a school district in which a study was not conducted according to the market value determined by the appraisal district that appraises property for the district, less the amounts specified by Subsection (d).

(g) The comptroller shall publish preliminary findings, listing values by district, before February 1 of the year following the year of the study. Preliminary findings shall be delivered to each school district and shall be certified to the commissioner of education.

(h) On request of the commissioner of education or a school district, the comptroller may audit the total taxable value of property in a school district and may revise the study findings. The request for audit is limited to corrections and changes in a school district's appraisal roll that occurred after preliminary certification of the study findings by the comptroller. Except as otherwise provided by this subsection, the request for audit must be filed with the comptroller not later than the third anniversary of the date of the final certification of the study findings. The request for audit may be filed not later than the first anniversary of the date the chief appraiser certifies a change to the appraisal roll if the chief appraiser corrects the appraisal roll under Section 25.25 or 42.41, Tax Code, and the change results in a material reduction in the total taxable value of property in the school
district. The comptroller shall certify the findings of the audit to
the commissioner of education.

(i) If the comptroller determines in the study that the market
value of property in a school district as determined by the appraisal
district that appraises property for the school district, less the
total of the amounts and values listed in Subsection (d) as
determined by that appraisal district, is valid, the comptroller, in
determining the taxable value of property in the school district
under Subsection (d), shall for purposes of Subsection (d)(13)
subtract from the market value as determined by the appraisal
district of residence homesteads to which Section 23.23, Tax Code,
applies the amount by which that amount exceeds the appraised value
of those properties as calculated by the appraisal district under
Section 23.23, Tax Code. If the comptroller determines in the study
that the market value of property in a school district as determined
by the appraisal district that appraises property for the school
district, less the total of the amounts and values listed in
Subsection (d) as determined by that appraisal district, is not
valid, the comptroller, in determining the taxable value of property
in the school district under Subsection (d), shall for purposes of
Subsection (d)(13) subtract from the market value as estimated by the
comptroller of residence homesteads to which Section 23.23, Tax Code,
applies the amount by which that amount exceeds the appraised value
of those properties as calculated by the appraisal district under
Section 23.23, Tax Code.

(j) The comptroller shall certify the final taxable value for
each school district, appropriately adjusted to give effect to
certain provisions of the Education Code related to school funding,
to the commissioner of education as provided by the terms of a
memorandum of understanding entered into between the comptroller, the
Legislative Budget Board, and the commissioner of education.

(j-1) In the final certification of the study under Subsection
(j), the comptroller shall separately identify the final taxable
value for each school district as adjusted to account for the
reduction of the amount of the limitation on tax increases provided
by Sections 11.26(a-4), (a-5), (a-6), (a-7), (a-8), (a-9), and (a-

not valid, the comptroller shall provide notice of the comptroller's determination to the board of directors of the appraisal district. The board of directors of the appraisal district shall hold a public meeting to discuss the receipt of notice under this subsection.

(k-1) If the comptroller determines in the final certification of the study that the school district's local value as determined by the appraisal district that appraises property for the school district is not valid for three consecutive years, the comptroller shall conduct an additional review of the appraisal district under Section 5.102, Tax Code, and provide recommendations to the appraisal district regarding appraisal standards, procedures, and methodologies. The comptroller may contract with a third party to assist the comptroller in conducting the additional review and providing the recommendations required under this subsection. If the appraisal district fails to comply with the recommendations provided under this subsection and the comptroller finds that the board of directors of the appraisal district failed to take remedial action reasonably designed to ensure substantial compliance with each recommendation before the first anniversary of the date the recommendations were made, the comptroller shall notify the Texas Department of Licensing and Regulation, or a successor to the department, which shall take action necessary to ensure that the recommendations are implemented as soon as practicable. Before February 1 of the year following the year in which the Texas Department of Licensing and Regulation, or a successor to the department, takes action under this subsection, the department, with the assistance of the comptroller, shall determine whether the recommendations have been substantially implemented and notify the chief appraiser and the board of directors of the appraisal district of the determination. If the department determines that the recommendations have not been substantially implemented, the board of directors of the appraisal district must, within three months of the determination, consider whether the failure to implement the recommendations was under the current chief appraiser's control and whether the chief appraiser is able to adequately perform the chief appraiser's duties.

(l) If after conducting the study for a year the comptroller determines that a school district is an eligible school district, for that year and the following year the taxable value for the school district is the district's local value.

(1) definitions of words related to property appraisal in the survey;

(2) instructions and examples regarding how to answer the questions in the survey;

(3) answers to frequently asked questions; and

(4) any other information the comptroller determines is necessary to assist individuals in completing the survey.

(c) At least once each year, the comptroller shall conduct an online or in-person informational session that is open to the public regarding how to complete the farm and ranch survey. The comptroller shall post a recording of the informational session on the comptroller's Internet website.

(d) At least once each year, the comptroller shall solicit comments from the public and the property tax administration advisory board for the purposes of:

Sec. 403.303. PROTEST. (a) A school district or a property owner whose property is included in the study under Section 403.302 and whose tax liability on the property is $100,000 or more may protest the comptroller's findings under Section 403.302(g) or (h) by filing a petition with the comptroller. The petition must be filed not later than the 40th day after the date on which the comptroller's findings are certified to the commissioner of education and must specify the grounds for objection and the value claimed to be correct by the school district or property owner.

(b) After receipt of a petition, the comptroller shall hold a hearing. The comptroller has the burden to prove the accuracy of the findings. Until a final decision is made by the comptroller, the taxable value of property in the district is determined, with respect to property subject to the protest, according to the value claimed by the school district or property owner, except that the value to be used while a final decision is pending may not be less than the appraisal roll value for the year of the study. If after a hearing the comptroller concludes that the findings should be changed, the comptroller shall order the appropriate changes and shall certify to the commissioner of education the changes in the values of the school district that brought the protest, the values of the school district named by the property owner who brought the protest, or, if the
comptroller by rule allows an appraisal district to bring a protest, the values of the school district named by the appraisal district that brought the protest. The comptroller may not order a change in the values of a school district as a result of a protest brought by another school district, a property owner in the other school district, or an appraisal district that appraises property for the other school district. The comptroller shall complete all protest hearings and certify all changes as necessary to comply with Chapter 48, Education Code. A hearing conducted under this subsection is not a contested case for purposes of Section 2001.003.

(c) The comptroller shall adopt procedural rules governing the conduct of protest hearings. The rules shall provide each protesting school district and property owner with the requirements for submitting a petition initiating a protest and shall provide each protesting school district and property owner with adequate notice of a hearing, an opportunity to present evidence and oral argument, and notice of the comptroller's decision on the hearing.

(d) A protesting school district may appeal a determination of a protest by the comptroller to a district court of Travis County by filing a petition with the court. An appeal must be filed not later than the 30th day after the date the school district receives notification of a final decision on a protest. Review is conducted by the court sitting without a jury. The court shall remand the determination to the comptroller if on the review the court discovers that substantial rights of the school district have been prejudiced, and that:

(1) the comptroller has acted arbitrarily and without regard to the facts; or

(2) the finding of the comptroller is not reasonably supported by substantial evidence introduced before the court.

(e) If, in a hearing under Subsection (b), the comptroller has not heard the case or read the record, the decision may not be made until a proposal for decision is served on each party and an opportunity to file exceptions is afforded to each party adversely affected. If exceptions are filed, an opportunity must be afforded to all other parties to file replies to the exceptions. The proposal for decision must contain a statement of the reasons for the proposed decision, prepared by the person who conducted the hearing or by a person who has read the record. The proposal for decision may be amended pursuant to the exceptions or replies submitted without again
being served on the parties. The parties by written stipulation may waive compliance with this subsection. The comptroller may adopt rules to implement this subsection.

(1) annually, not later than August 1 of each year; and

(2) not later than the 30th day after the date the financial institution is notified that the assigned rating has been changed.

(d) The comptroller may not select as a depository a regulated financial institution for which the entire institution has been assigned a rating below "outstanding record of meeting community credit needs" or "satisfactory record of meeting community credit needs" under 12 U.S.C. Section 2906. However, the comptroller shall
establish criteria to determine whether a financial institution doing business in this state and other states has a satisfactory record of meeting community credit needs in this state.

(e) On receipt of notice that the rating of a financial institution is changed to a rating below that required by this section, the comptroller shall take immediate action to transfer all state funds subject to the custody or control of the comptroller that are on deposit with the institution to a qualified financial institution.

(f) The depository contract between a regulated financial institution and the comptroller must authorize the withdrawal without penalty of the state funds subject to the custody or control of the comptroller that are on deposit with the institution if the rating of the institution is changed to a rating below that required by Subsection (d).

Sec. 404.022. APPLICATIONS. (a) The comptroller, not later than the first business day in June of each odd-numbered year, shall mail to each eligible institution a letter stating the conditions with which applicants for designation as a state depository must comply. The comptroller shall keep on file in the comptroller's office and make available for inspection by any person a list of institutions to which letters have been sent.

(b) The application for designation as a state depository must include a statement:

(1) of the amount of the applicant's paid capital stock and permanent surplus, if any;
(2) of the maximum amount of state time deposits the applicant will accept;
(3) of the applicant's condition according to the most
recent financial statement on the date the application is submitted; and

(4) that the books and accounts of the institution, if it is designated as a state depository, will be open at all times for inspection by the comptroller or a representative of the comptroller.

(c) An application shall be mailed to the comptroller at Austin and must be received before noon on the first business day of August of the year in which the letter is sent. An application received after that time may be considered at the option of the comptroller. The comptroller may charge a processing fee of $25 for each application and shall deposit the fees to the credit of the general revenue fund.

(d) On receipt of an application under this section, the comptroller shall endorse on the application the date of its receipt. The comptroller shall prepare a list of the names of the applicants and the amount for which each has applied.

(e) The comptroller may approve those applicants that are acceptable and may reject those whose management or condition, in the opinion of the comptroller, does not warrant the placing of state funds in their possession.

(f) The designation as a state depository is effective for a period of not more than two years.

(g) As soon as practicable after the comptroller has made its designations, the comptroller shall inform applicants whether they have been designated as state depositories.

(h) The comptroller may execute a simplified version of a depository agreement with an eligible institution desiring to hold state deposits that are fully insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund.

Sec. 404.0221. ELIGIBLE COLLATERAL. (a) In this section, "public agency" means a board, authority, agency, department, commission, political subdivision, municipal corporation, district, public corporation, body politic, instrumentality of this state, or any other type of political or governmental entity of this state.

(b) For the purposes of Section 404.022, collateral eligible to be pledged with the comptroller to secure state deposits includes:

(1) direct obligations of or obligations the principal and interest of which are guaranteed by the United States government;

(2) direct obligations of or obligations guaranteed by agencies or instrumentalities of the United States government, including letters of credit; and

(3) a general or special obligation issued by a public agency and approved by the attorney general that is payable from taxes, revenues, or both.

(c) If pledged collateral consists of securities with a declining principal balance, the market value of the collateral pledged may not be less than 125 percent of the amount of the state deposits to be secured.

(d) Eligible collateral includes only:

(1) a security with fixed, stated rates; or

(2) a letter of credit described by Subsection (b)(2) for a stated amount.

(e) A loss sustained by a depository that has secured its deposits by collateral may be enforced against the collateral.

(f) The comptroller may reject at any time collateral tendered by a state depository without assigning a reason for the rejection, and the comptroller's action is final and not subject to review.

(g) Collateral is not required for deposits to the extent that the deposits are insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund.

Sec. 404.023. DESIGNATION. The comptroller shall designate one or more state depository banks that have main offices or branches in centrally located cities in this state to be used for clearing checks.
and other obligations due the state.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 1246, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 404.024. AUTHORIZED INVESTMENTS. (a) The comptroller may determine and designate the amount of state funds to be deposited in time deposits in state depositories. The percentage of state funds to be deposited in state depositories shall be based on the interest rates available in competing investments, the demand for funds from Texas banks, and the state's liquidity requirements.

(b) Subject to Chapter 2270, state funds not deposited in state depositories shall be invested by the comptroller in:
   (1) direct security repurchase agreements;
   (2) reverse security repurchase agreements;
   (3) direct obligations of or obligations the principal and interest of which are guaranteed by the United States;
   (4) direct obligations of or obligations guaranteed by agencies or instrumentalities of the United States government;
   (5) bankers' acceptances that:
      (A) are eligible for purchase by the Federal Reserve System;
      (B) do not exceed 270 days to maturity; and
      (C) are issued by a bank whose other comparable short-term obligations are rated in the highest short-term rating category, within which there may be subcategories or gradations indicating relative standing, including such subcategories or gradations as "rating category" or "rated," by a nationally recognized statistical rating organization, as defined by 15 U.S.C. Section 78c;
   (6) commercial paper that:
      (A) does not exceed 270 days to maturity; and
      (B) except as provided by Subsection (i), is issued by an entity whose other comparable short-term obligations are rated in
the highest short-term rating category by a nationally recognized statistical rating organization;

(7) contracts written by the treasury in which the treasury grants the purchaser the right to purchase securities in the treasury's marketable securities portfolio at a specified price over a specified period and for which the treasury is paid a fee and specifically prohibits naked-option or uncovered option trading;

(8) direct obligations of or obligations guaranteed by the Inter-American Development Bank, the International Bank for Reconstruction and Development (the World Bank), the African Development Bank, the Asian Development Bank, and the International Finance Corporation that have received the highest long-term rating categories for debt obligations by a nationally recognized statistical rating organization;

(9) bonds issued, assumed, or guaranteed by the State of Israel;

(10) obligations of a state or an agency, county, city, or other political subdivision of a state;

(11) mutual funds secured by obligations that are described by Subdivisions (1) through (6) or by obligations consistent with Rule 2a-7 (17 C.F.R. Section 270.2a-7), promulgated by the Securities and Exchange Commission, including pooled funds:

(A) established by the Texas Treasury Safekeeping Trust Company;

(B) operated like a mutual fund; and

(C) with portfolios consisting only of dollar-denominated securities;

(12) foreign currency for the sole purpose of facilitating investment by state agencies that have the authority to invest in foreign securities;

(13) asset-backed securities, as defined by the Securities and Exchange Commission in Rule 2a-7 (17 C.F.R. Section 270.2a-7), that are rated at least A or its equivalent by a nationally recognized statistical rating organization and that have a weighted-average maturity of five years or less; and

(14) corporate debt obligations that are rated at least A or its equivalent by a nationally recognized statistical rating organization and mature in five years or less from the date on which the obligations were "acquired," as defined by the Securities and Exchange Commission in Rule 2a-7 (17 C.F.R. Section 270.2a-7).
(c) Investments in direct security repurchase agreements and reverse security repurchase agreements may be made with state or national banks doing business in this state or with primary dealers as approved by the Federal Reserve System. Notwithstanding any other law, the term of any reverse security repurchase agreement may not exceed 90 days after the date the reverse security repurchase agreement is delivered. Money received under the terms of a reverse security repurchase agreement may be used to acquire additional authorized investments, but the term of the authorized investments acquired must mature not later than the expiration date stated in the reverse security repurchase agreement.

(d) The comptroller may contract with a depository for the payment of interest on time or demand deposits at a rate not to exceed a rate that is lawful under an Act of Congress and rules and regulations of the board of governors of the Federal Reserve System, the board of directors of the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, and the Federal Home Loan Banking Board.

(e) The treasury may not purchase any of the following types of investments:

1. obligations the payment of which represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal;
2. obligations the payment of which represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest;
3. collateralized mortgage obligations that have a stated final maturity date of greater than 10 years; and
4. collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

(f) The comptroller by rule may define derivative investments other than those described by Subsection (e). The treasury may not purchase investments defined by rule adopted under this subsection in an amount that at the time of purchase will cause the aggregate value of the investments to exceed five percent of the treasury's total investments.

(g) To the extent practicable, the comptroller shall give first consideration to banks that maintain main offices or branch offices in this state when investing in direct security repurchase
agreements.

(h) The comptroller may not use state funds to invest in or purchase obligations of a private corporation or other private business entity doing business in Northern Ireland unless the corporation or other entity:

1. adheres to fair employment practices; and
2. does not discriminate on the basis of race, color, religion, sex, national origin, or disability.

(i) Notwithstanding Subsection (b)(6)(B), the comptroller may purchase commercial paper with a rating lower than the rating required by that paragraph to provide liquidity for commercial paper issued by the comptroller or an agency of the state.

(j) If the comptroller is required by law to invest funds other than as provided by this section, and if other law does not establish a conflicting standard governing that investment, the comptroller shall invest those funds under the restrictions and procedures for making the investments that persons of ordinary prudence, discretion, and intelligence, exercising the judgment and care under the prevailing circumstances, would follow in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital.

(k) The comptroller may contract with private professional investment managers to assist the comptroller in investing funds under the care, custody, and control of the comptroller.

(l) The comptroller may lend securities under procedures established by the comptroller. The procedures must be consistent with industry practice and must include a requirement to fully secure the loan with cash, obligations described by Subsections (b)(1)-(6), or a combination of cash and the described obligations. Notwithstanding any law to the contrary, cash may be reinvested in the items permitted under Subsection (b) or mutual funds, as defined by the Securities and Exchange Commission in Rule 2a-7 (17 C.F.R. Section 270.2a-7).

(m) In entering into a direct security repurchase agreement or a reverse security repurchase agreement, the comptroller may agree to accept cash on an overnight basis in lieu of the securities, obligations, or participation certificates identified in Section 404.001(3). Cash held by the state under this subsection is not a deposit of state or public funds for purposes of any statute,
including this subchapter or Subchapter D, that requires a deposit of state or public funds to be collateralized by eligible securities.

(n) Notwithstanding any other law to the contrary, any government investment pool created to function as a money market mutual fund and managed by the comptroller or the Texas Treasury Safekeeping Trust Company may invest the funds it receives in investments that are "eligibile securities," as defined by the Securities and Exchange Commission in Rule 2a-7 (17 C.F.R. Section 270.2a-7), if it maintains a dollar-weighted average portfolio maturity of 90 days or less, with the maturity of each portfolio security calculated in accordance with Rule 2a-7 (17 C.F.R. Section 270.2a-7), and meets the diversification requirements of Rule 2a-7.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 1246, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 404.0241. INVESTMENT OF CERTAIN ECONOMIC STABILIZATION
FUND BALANCES. (a) Subject to Subsection (b) and notwithstanding Section 404.024, for the purpose of investing the assets of the economic stabilization fund, the comptroller may acquire, exchange, sell, supervise, manage, or retain any kind of investment that a prudent investor exercising reasonable care, skill, and caution would acquire, exchange, sell, supervise, manage, or retain in light of the purposes, terms, distribution requirements, and other circumstances then prevailing for the fund, taking into consideration the investment of all the assets of the fund rather than a single investment.

(b) At least one-quarter of the economic stabilization fund balance must be invested in a manner that ensures the liquidity of that amount.

(b-1) Notwithstanding any other law, directly or indirectly through a separately managed account or other investment vehicle, the comptroller shall invest not more than $800 million of the economic stabilization fund balance to finance the default balance as defined by Section 39.602, Utilities Code, to be repaid by ERCOT market participants through default charges established by the Public Utility Commission of Texas. The interest rate charged in connection with the debt obligations must be calculated by adding the rate determined by the Municipal Market Data Municipal Electric Index, as published by Refinitiv TM3, based on the credit rating of the independent organization, as defined by Section 39.602, Utilities Code, plus 2.5 percent. The term of the debt obligations may not exceed 30 years.

(b-2) A person may not bring a civil action against this state, the Texas Treasury Safekeeping Trust Company, or an employee, independent contractor, or official of this state, including the comptroller, for any claim, including breach of fiduciary duty or violation of any constitutional, statutory, or regulatory requirement, in connection with any action, inaction, decision, divestment, investment, report, or other determination made or taken in connection with Subsections (b-1), (b-4), and (b-5).

(b-3) A person who brings an action described by Subsection (b-2) is liable to the defendant for the defendant's costs and attorney's fees resulting from the action.

(b-4) The comptroller shall manage the investments required by Subsection (b-1) as a separate investment portfolio. The comptroller shall provide separate accounting and reporting for the investments
in that portfolio. The comptroller shall credit to that portfolio all payments, distributions, interest, and other earnings on the investments in that portfolio.

(b-5) The comptroller has any power necessary to accomplish the purposes of managing and investing the assets of the portfolio described by Subsection (b-4). In managing the assets of that portfolio, through procedures and subject to restrictions the comptroller considers appropriate, the comptroller may acquire, sell, transfer, or otherwise assign the investments as appropriate, taking into consideration the purposes, terms, distribution requirements, and other circumstances of that portfolio then prevailing.

(c) The comptroller may pool assets of the economic stabilization fund with other state assets for purposes of investment under Section 404.024(b).

(d) The comptroller shall adjust the investment of economic stabilization fund money periodically as necessary to ensure that:

(1) at all times at least one-quarter of the balance of the economic stabilization fund is invested in a manner that ensures the liquidity of that amount; and

(2) the balance of the economic stabilization fund is sufficient to meet the cash flow requirements of the fund.

(e) The comptroller shall include the fair market value of the investments of the economic stabilization fund in calculating the amount in the fund for purposes of Section 49-g(g), Article III, Texas Constitution, and Section 316.093 of this code.

Sec. 404.0245. CRUDE OIL AND NATURAL GAS FUTURES CONTRACTS.
(a) In this section, "hedging" means the buying and selling of crude oil and natural gas commodity futures or options on crude oil and natural gas commodity futures as a protection against loss due to price fluctuations. Hedging at all times shall comply with Commodity
Futures Trading Commission regulations.

(b) Subject to the limitations of Subsection (c), the comptroller may determine and designate the amount of state funds that shall be invested by the comptroller in hedging transactions in crude oil and natural gas futures contracts and options on crude oil and natural gas futures contracts that are traded on an established exchange regulated by the Securities and Exchange Commission or the Commodity Futures Trading Commission.

(c) The principal amount of state funds invested and outstanding in hedging transactions on any one day may not exceed $500,000 with a maximum risk of loss of $5,000,000 in a biennium. The total principal amount of state funds that may be invested by the comptroller in hedging transactions during any one biennium may not exceed the amount of money credited to the unclaimed money fund for that biennium and attributable to the remittance of mineral proceeds under Chapter 75, Property Code. Any premium incurred in connection with hedging transactions may be paid only from funds appropriated for that purpose.

(d) The comptroller shall invest state funds in crude oil and natural gas futures contracts or options on crude oil and natural gas futures contracts under the restrictions and procedures for making investments that persons of ordinary prudence, discretion, and intelligence, exercising the judgment and care under the circumstances then prevailing, would follow in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital. The investments may be made only for hedging purposes.

(e), (f) Repealed by Acts 1995, 74th Leg., ch. 426, Sec. 32, eff. June 9, 1995.

Sec. 404.026. ELEEMOSYNARY FUNDS. The comptroller may invest the permanent funds of the Texas School for the Blind and Visually
Impaired, Texas School for the Deaf, Austin State Hospital, and Corsicana State Home and may invest other permanent funds, the investment of which is not otherwise provided for, that have $1,000 or more on deposit with the comptroller that are not invested. The comptroller shall invest the funds in the same classes of bonds as are authorized for investment of the permanent school fund.

Sec. 404.027. LIQUIDITY. (a) The comptroller may enter into credit agreements or other similar agreements to provide liquidity for obligations issued for governmental purposes by an agency of the state if the agreements do not conflict with the liquidity needs of the treasury. An agency may enter into a credit agreement with the comptroller on the issuance of obligations or at a later date as agreed to by the comptroller and the agency.

(b) The comptroller may charge reasonable costs to provide services under this section.

(c) In this section:

(1) "Credit agreement" has the meaning assigned by Section 1371.001.

(2) "Obligations" include commercial paper, variable rate demand obligations, and "public securities" as defined by Section 1201.002.

Sec. 404.028. INVESTMENT ADVISORY BOARD. (a) The comptroller shall establish an investment advisory board to advise the comptroller regarding investments that the comptroller makes under this subchapter or other law. For purposes of this section, the deposit of state funds in a state depository is not considered an investment.
(b) The comptroller shall appoint members to the advisory board who possess the expertise appropriate for advising the comptroller with regard to one or more types of investments that the comptroller may make.

(c) The comptroller shall determine the number of members of the advisory board. A member serves on the advisory board at the will of the comptroller.

(d) Chapter 2110 does not apply to the size, composition, or duration of the advisory board.

SUBCHAPTER D. COLLATERAL, DEPOSITS, AND WITHDRAWALS

Sec. 404.031. COLLATERAL REQUIREMENTS. (a) The comptroller may deposit state funds with a depository only if the depository has pledged with the comptroller eligible investment securities acceptable to the comptroller in an amount not less than the amount of deposits to be secured. The comptroller shall determine the market value of securities pledged to secure state funds for the purpose of determining the adequacy of the amount of collateral. The comptroller's valuation of the securities is final and not subject to review.

(b) If the market value of the securities pledged by a depository becomes less than the amount of funds on deposit in the depository, the comptroller shall require that additional collateral be pledged immediately or deposits reduced. If the collateral pledged by a state depository is in excess of the amount required by this chapter, the comptroller may permit the release of the excess collateral. If the balance of state funds in a state depository is increased, the depository shall increase the collateral for the deposits to the amount required by this chapter.

(c) A state depository may substitute one group of eligible securities for another group of securities pledged with the comptroller.

(d) Except as provided by Subsections (e) and (f), a state depository shall deposit any pledged securities with the comptroller. The comptroller shall give the depository a receipt for the securities and place them in the vaults of the treasury.

(e) Instead of depositing pledged securities with the

Statute text rendered on: 5/30/2023 - 1859 -
comptroller, a depository may deposit them with a custodian. The
custodian may be the (i) Texas Treasury Safekeeping Trust Company,
(ii) a state or national bank that has a capital stock and permanent
surplus of not less than $5 million, is a state depository, and has
been designated as a custodian by the comptroller, or (iii) a
financial institution authorized to exercise fiduciary powers that
has a capital stock and permanent surplus of not less than $5
million, has its main office, branch office, or a trust office in
this state, and has been designated as a custodian by the
comptroller. For purposes of this subsection, "financial
institution" has the meaning assigned by Section 201.101(1), Finance
Code. The comptroller may designate those custodial applicants that
are acceptable and may reject those whose management or condition, in
the opinion of the comptroller, do not warrant the placing of
securities pledged by state depositories. The comptroller may adopt
and enforce rules governing the designation and conduct of custodians
with respect to the acceptance and holding of securities pledged by
state depositories that the public interest requires and that are not
inconsistent with the law governing custodians as set forth in this
chapter. The state depository and the custodian of securities
pledged by that state depository may not be the same bank or be owned
by the same bank holding company. The securities shall be held in
trust by the custodian to secure funds deposited by the comptroller
in the state depository pledging the securities. On receipt of the
securities, the custodian shall immediately, by book entry or
otherwise, identify on its books and records the pledge of the
securities and shall promptly issue and deliver to the comptroller
controlled trust receipts for the securities pledged. The security
evidenced by the trust receipts is subject to inspection by the
comptroller at any time. The depository pledging the securities
shall pay the charges, if any, of the custodian bank for accepting
and holding the securities. The custodian, acting alone or through a
permitted institution, is for all purposes under state law and
notwithstanding Chapters 8 and 9, Business & Commerce Code, the
bailee or agent of the comptroller. The security interest arising
out of a pledge of securities to secure deposits of the state is
created, attaches, and is perfected for all purposes under state law
from the time the custodian identifies the pledge of the securities
on its books and records and issues the trust receipts. The security
interest remains perfected as of that time in the hands of all
subsequent custodians and permitted institutions.

(f) Instead of depositing pledged securities with the comptroller, a state depository may deposit pledged securities with a Federal Reserve Bank or a Federal Home Loan Bank. The securities shall be held by the bank to secure funds deposited by the comptroller in the state depository pledging the securities. When the pledged securities are deposited, the bank may apply book entry to the securities. The records of the bank shall at all times reflect the name of the state depository depositing the pledged securities, and the bank shall issue an advice of transaction to the comptroller and the state depository pledging the securities.

(g) In this section, "permitted institution" means a Federal Reserve Bank, a Federal Home Loan Bank, a "clearing corporation" as defined by Section 8.102, Business & Commerce Code, the Texas Treasury Safekeeping Trust Company, a state depository, and any state or nationally chartered bank or trust company that is controlled by a bank holding company that controls a state depository. Neither the state depository that pledges the securities nor any bank that is controlled by a bank holding company that controls that state depository may be the permitted institution with respect to the particular securities pledged by that state depository. A custodian holding in trust securities of a state depository under Subsections (e) and (f) may deposit the pledged securities with a permitted institution if the permitted institution is the third party to the transaction. The securities shall be held by the permitted institution to secure funds deposited by the comptroller in the state depository pledging the securities. On receipt of the securities, the permitted institution shall immediately issue to the custodian an advice of transaction or other document evidencing the deposit of the securities. When the pledged securities held by a custodian are deposited, the permitted institution may apply book entry procedures to the securities. The records of the permitted institution shall at all times reflect the name of the custodian depositing the pledged securities. The custodian shall immediately issue and deliver to the comptroller controlled trust receipts for the pledged securities. The trust receipts shall indicate that the custodian has deposited with the permitted institution the pledged securities held in trust for the state depository pledging the securities. A legal action or proceeding brought by or against the state, arising out of or in connection with the duties of the state depository, the custodian, or
other permitted institution under this subchapter must be brought and maintained in state district court in Travis County. In this section, "control" and "bank holding company" have the meanings assigned by Section 31.002(a), Finance Code.

(h) On request of the owner or owners, the comptroller or custodian bank may surrender interest coupons or other evidence of interest on securities deposited by state depositories, when the interest is due, if the securities are sufficient to meet the collateral requirements of the state.

(i) A state depository making deposits of securities with the comptroller may cause the securities to be endorsed or stamped, as it considers proper, to show that they are deposited as collateral and not transferable except as provided by this chapter.

(j) If a state depository fails to credit a deposit or part of a deposit made by the comptroller, the comptroller may immediately sell or otherwise convert the securities to money.

(k) Repealed by Acts 1997, 75th Leg., ch. 891, Sec. 3.22(3), eff. Sept. 1, 1997.

(b) The comptroller shall monitor the financial stability of state depositories in which state deposits are held and take
appropriate action to protect state funds.

(c) A state depository shall collect all checks, drafts, and demands for money deposited with it by the comptroller. If the depository uses due diligence, it is not liable for the collections until the proceeds of the collections are duly received by the depository bank. An expense incurred in collection that the depository is not permitted to pay by reason of an Act of Congress or a rule or regulation adopted under such an Act by the board of governors of the Federal Reserve System or the board of directors of the Federal Deposit Insurance Corporation shall be charged to and paid by the comptroller out of money appropriated by the legislature for that purpose.

(d) The comptroller shall keep sufficient money on deposit in demand deposit accounts in depositories designated by the comptroller as clearing institutions to meet all current claims on the state. Items received by the comptroller for collection shall be deposited with a clearing institution to be credited to the demand deposit account in the depository. Checks, drafts, or warrants drawn by the comptroller for the payment of obligations due by the state may be drawn on such an account in such a depository or on the demand deposit account in another state depository so that the checks, drafts, or warrants of the state may at all times pass current as cash.

Sec. 404.033. WITHDRAWALS AND REMITTANCES. (a) Funds on deposit with a depository are subject to withdrawal at any time by the comptroller, except funds designated as time deposits, which may be withdrawn in the manner agreed on in the contract under which the funds were deposited. The depository shall remit the withdrawal on demand and free of charge, except charges that the depository is not permitted to pay by reason of an Act of Congress or a rule or regulation adopted under such an Act by the board of governors of the Federal Reserve System or the board of directors of the Federal
Deposit Insurance Corporation.

(b) A remittance to the comptroller by a state depository or another person may be made by any method authorized by the comptroller, including cash, money order, or bank draft. The liability of the depository or other person making the remittance continues until the money is received by the comptroller. A depository that refuses to make a remittance required by this chapter forfeits its right to receive further deposits, on order of the comptroller. Sec. 404.046. PAYMENT FROM TREASURY. The comptroller shall pay warrants the comptroller draws on the treasury that are authorized by law. Except as provided by Section 403.0271, money may not be paid out of the treasury except on a warrant drawn or an electronic funds transfer initiated by the comptroller. A warrant may not be paid by the comptroller unless presented for payment to a financial institution or the comptroller before two years after the close of the fiscal year in which the warrant was issued. Claims for the payment of warrants presented after that time may be presented to the legislature for appropriations from which the claims may be paid.

Sec. 404.047. ACCOUNTS. The comptroller shall keep accounts of the receipt and expenditure of the money in the treasury and close the accounts on August 31 of each year. The comptroller shall keep proper records, distinguishing between the receipts and disbursements of each fiscal year.

In addition to the reports required by the constitution, the comptroller shall, as required by the governor, submit a statement of the balance of money remaining in the treasury and a summary of the receipts and disbursements recorded by the treasury. The comptroller may not keep or receive into the treasury money, or the representative of money, belonging to an individual except as provided by law. The comptroller may not appropriate to the comptroller's own use or lend, sell, or exchange money, or the representative of money, in the comptroller's custody or control.

Sec. 404.050. DELIVERY TO SUCCESSOR. The comptroller shall, at the close of the term of office, deliver into the possession of the successor comptroller the money, securities, and all other property of the state in the comptroller's possession and the books, vouchers, papers, evidences of property, and all other matters and things pertaining to the office.

Sec. 404.051. MONEY RETURNED TO COUNTY OR MUNICIPALITY. If money is in the treasury for the purpose of paying an obligation due from a county or municipality and the comptroller finds from certified copies of the records of the commissioners court or by other satisfactory evidence that the obligation is no longer outstanding against the county or municipality, the comptroller shall draw a warrant on the treasury in favor of the county or municipality for that amount of money and shall pay the money to the treasurer of the county or municipality for the benefit of its general fund.

Sec. 404.052. OBLIGATIONS OF MUNICIPALITIES, DISTRICTS, AND
POLITICAL SUBDIVISIONS. (a) A bond, warrant, or other evidence of indebtedness issued by a municipality, district, or political subdivision of this state and any interest, at the discretion of the municipality, district, or political subdivision may be payable at the office of the comptroller. The comptroller serves as ex officio treasurer and fiscal agent of the municipality, district, or political subdivision for the purposes of receiving funds for the payment of the obligation and interest, making payment of the obligation and interest, and for all other purposes designated by this chapter or necessary or incidental to the service.

(b) The comptroller shall deposit money received by the comptroller under this section and shall keep a separate account for each municipality, district, or political subdivision. The payment of interest and principal due on an obligation of the municipality, district, or political subdivision must be on deposit with the comptroller not later than five business days before the date of maturity. Any charges incurred for late receipt of funds shall be assessed to the municipality, district, or political subdivision. On receipt of those amounts by the comptroller, the comptroller shall issue a warrant for the payment of amounts due.

(c) On return of the obligation, the treasurer of the municipality, district, or political subdivision shall record the payment and cancellation.

(d) The comptroller shall collect for the use of the state from the municipality, district, or political subdivision a fee in an amount established by rule of the comptroller that is sufficient to pay the comptroller's cost of administration. The treasurer of the municipality, district, or political subdivision, at the time of the remittance for the payment of the maturing obligation or interest, shall remit the fee to the comptroller as ex officio treasurer of the municipality, district, or political subdivision. On receipt of the fee, the comptroller shall deposit it to the appropriate fund. The amount of the fees earned, or as much as necessary, is reserved to the comptroller to be used in the administration of this chapter. Any balance remaining at the end of a fiscal year is available for use in the next fiscal year.

(e) It is the general intent of this section to provide an inexpensive and feasible means for the payment of bonds and interest coupons issued by municipalities, districts, and political subdivisions in the state at the office of the comptroller, and this
section shall be broadly construed to carry out that intent. An official or a municipality, district, or political subdivision concerned with the administration of this section shall perform the acts and duties necessary or appropriate to facilitate and expedite the operation of this section to the end that bonds and interest may be promptly paid and the payment clearly evidenced and accounted for.

(f) The comptroller shall cancel and return to the municipality, district, or political subdivision depositing funds for the payment of interest coupons or the retirement of bonds the coupons and bonds that have matured or been retired by purchase, together with a statement of the account of the municipality, district, or subdivision showing the amounts received and placed to its credit, service charges, and amount of coupons or bonds retired. At the request of the municipality, district, or political subdivision, the comptroller shall remit to the municipality, district, or subdivision any balance remaining in custody of the comptroller for more than two years for which bonds or coupons have not been presented for payment. The municipality, district, or political subdivision shall pay these coupons or bonds when presented. A municipality, district, or political subdivision is entitled at any reasonable time to a statement of its account with the comptroller.

Sec. 404.054. DAILY TOTALS. The comptroller shall post the daily totals of deposits to the proper fund and control accounts in the general ledger. The comptroller shall keep a transit record, in which the comptroller shall record the essential details of cash, checks, money orders, drafts, or other items deposited or cashed each day, showing the items deposited in each depository bank or otherwise disposed of. The totals of deposits shall be charged to the accounts of the respective depositories on the books of the treasury. The comptroller shall keep a journal of all journal vouchers or other memoranda of transfers between funds or accounts. Postings shall be made from this journal to the proper accounts on the books of the treasury.
Sec. 404.055. TIME AND DEMAND DEPOSITS. The comptroller shall maintain records of the daily balances of and the interest income from funds deposited by the comptroller in time and demand deposit accounts in each bank acting as a state depository. (c) The comptroller shall keep detailed information concerning all canceled warrants.

Sec. 404.057. WARRANTS PAYABLE ACCOUNTS. (a) The comptroller shall keep warrants payable accounts for each fund.  
(b) To each account, the comptroller shall credit the daily totals of warrants issued and charged to each fund so that the balance of those accounts represents the aggregate amount of outstanding warrants.

Sec. 404.058. OUTSTANDING WARRANTS. (a) The comptroller shall compile information concerning outstanding warrants, which must be consistent with the requirements of the uniform statewide accounting system.

(b) The warrant number of an outstanding warrant is excepted from the requirements of Section 552.021 if the warrant is issued by the comptroller.

(c) A person who issues a warrant under Section 403.060(a) may disclose the warrant number of the warrant to a person other than the comptroller only if the comptroller has:

(1) informed the person that the warrant is not an outstanding warrant; or

(2) authorized or required the disclosure.

(d) In this section:

(1) "Outstanding warrant" means any warrant except a warrant that:

(A) has been paid by the comptroller;

(B) has been canceled; or

(C) may not be paid by the comptroller because it was not presented before the date determined under Section 404.046 or other applicable law.

(2) "Warrant number" means the number or other data element printed on a warrant that the comptroller uses to distinguish it from all other warrants that the comptroller may pay during the same period that the comptroller may pay the warrant under Section 404.046 or other applicable law.

Sec. 404.059. GENERAL LEDGER ACCOUNTS. The comptroller shall charge the daily totals of the warrants to the respective funds and control accounts in the general ledger to which they apply.

Sec. 404.060. PRIORITY OF WARRANTS. Warrants on the treasury shall be on an equal basis with each other, except that if a question arises concerning the priority of payment of the warrants the comptroller shall determine the priority of payment.

Sec. 404.062. UNDETERMINED REMITTANCES. (a) This subsection applies to money the status of which is undetermined or that is awaiting the time when it can be taken into the treasury. The money shall be placed with the comptroller and credited to the suspense account. The comptroller shall maintain information about the deposit of funds into the suspense account in accordance with Section 403.052.

(b) When the status of money placed in the suspense account is determined, the money shall be transferred from the suspense account by placing the portion of it belonging to the state in the appropriate fund in the treasury, and the part not belonging to the state shall be refunded. The refund shall be made either to the payor of the money or to the payor's estate, assignee, devisee, or other successor-in-interest.

(c) When a deposit is made, it and any refunds shall be entered in the suspense cash book, and the balance shall represent the aggregate of the items still in suspense. Warrants shall be used for making refunds. The warrants shall be charged against the suspense funds to which they apply.

Sec. 404.063. VIOLATION. A person who knowingly or wilfully violates this chapter commits an offense. An offense under this chapter is punishable by a fine of not less than $50 nor more than $500, by confinement in the county jail for not less than 30 days nor more than six months, or by both a fine and confinement.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 404.064. OFFICE FEES. The comptroller shall keep records of the fees earned by the comptroller under this chapter. Those fees shall be deposited to the appropriate fund in the treasury.

Sec. 404.065. CASH BALANCING. The comptroller shall keep records for the purpose of arriving at the daily cash balance. The daily totals of receipts and disbursements and the amount of cash on hand and in depository banks shall be recorded.

Sec. 404.066. LEDGER. (a) The general ledger kept by the comptroller shall contain accounts for each fund. Those accounts shall be credited with the existing balances and the daily totals of deposits. Warrants issued and electronic funds transfers shall be charged daily to the fund accounts.

(b) The ledger shall contain control accounts for cash, depository banks, bonds, interest, securities, warrants payable, and other necessary accounts. Postings shall be made to the ledger daily.

(c) The ledger shall be balanced daily.

(b) The comptroller shall keep appropriate ledger accounts that include a short description of each security held in safekeeping for certain investment agencies of the state.

(c) The comptroller shall keep controlling or total accounts of securities in the general ledger. Those accounts shall be kept with respect to the total amount of bonds or other securities belonging to each separate fund.

(d) Those controlling accounts shall be balanced monthly with the sum of the individual accounts for securities, which also shall be balanced monthly, and shall correspond to similar accounts kept by the comptroller.

Sec. 404.068. STATE REGULATORY AGENCIES SAFEKEEPING AND PLEDGED COLLATERAL. (a) The comptroller shall keep a suitable system in which shall be entered all securities deposited with the comptroller by state depositories and other state agencies. The comptroller shall enter in the system the authorizations to deposit or release the securities.

(b) The comptroller shall keep a securities ledger in which appropriate accounts for each custodial agency are kept. That ledger shall be balanced monthly against control accounts kept in the general ledger and against corresponding accounts kept by the comptroller.

Sec. 404.069. TRUST FUNDS. (a) All money and securities deposited with the comptroller in trust for any legal purpose may be received by the comptroller as provided by Section 403.052. The money or securities shall be held in trust by the comptroller in the same manner as the departmental suspense account. Except as provided by Section 403.0271, the money may be withdrawn only on a warrant drawn or an electronic funds transfer initiated by the comptroller. The securities may be withdrawn only by withdrawal authorization.

(b) Money received in trust or for any legal purpose that is placed in a suspense account or fund shall be handled by the comptroller in the same manner as items deposited in the departmental suspense account.

(c) Adequate registers, ledgers, and files shall be maintained by the comptroller to account for the receiving and disposing of trust and suspense money and securities. Those registers, ledgers, and files shall be known as the trust and suspense record.

Sec. 404.070. VALIDITY OF VOIDED WARRANTS. (a) A warrant issued by the comptroller in payment of refunds from a fund in the treasury becomes void unless presented to the comptroller for payment before two years after the end of the fiscal year in which the warrant was issued. The sum of money represented by a warrant voided under this section shall be transferred by the comptroller from the fund from which the warrant was originally issued to the general revenue fund. Claims for the payment of a voided warrant may be presented to the legislature for appropriation from which the warrant may be paid. This section does not affect the laws regulating the payment of other warrants issued by the comptroller.

(b) When a transfer of money under this section is made, the comptroller shall prepare a list of the outstanding warrants representing the transfer. The list must show the date of the
original warrant, the departmental suspense account against which the warrant was originally drawn, the original warrant number, and the amount of the original warrant. The list shall be maintained as a permanent record in the office of the comptroller.

Sec. 404.071. DISPOSITION OF INTEREST ON INVESTMENTS. (a) Interest received from investments of money in funds and accounts in the charge of the comptroller shall be allocated on a monthly basis as follows:

(1) the pro rata portion of the interest received due to each constitutional fund shall be credited to that fund;

(2) the pro rata portion of the interest received due to the game, fish, and water safety fund shall be credited to that fund; and

(3) the remainder of the interest received shall be credited to the general revenue fund.

(b) The legislature may appropriate a portion of the interest under Subsection (a) to the comptroller in the amount necessary to reimburse the comptroller for costs incurred in receiving, paying, accounting for, investing, and safekeeping money in those funds and accounts. Amounts appropriated for that purpose shall be deposited to the credit of the fund established for the deposit of commissions reserved to the comptroller under Section 404.052(d).

(c) If a deficit occurs in the general revenue fund, the comptroller may place with a designated depository bank an offsetting compensating balance in a special depository account known as a special demand account secured by general revenue warrants only.

(d) The comptroller is entitled to rely on the opinion and advice of the attorney general for the proper interpretation and application of this section.

(e) For each special fund or account that contains depository interest, the comptroller shall transfer from the fund or account to the general revenue fund an amount equal to the interest paid from the general revenue fund on behalf of the fund or account. In this
subsection:

(1) "Account" means a subdivision of a special fund or the general revenue fund.

(2) "Fund" and "special fund" have the meanings assigned by Section 403.001.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 404.092. DEFINITION. In this subchapter, "state agency" means an office, institution, or other agency that is in the executive branch of state government, has authority that is not limited to a geographical portion of the state, and was created by the constitution or a statute of this state, but does not include an institution of higher education as defined by Section 61.003, Education Code.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 2040, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 404.093. APPLICABILITY OF SUBCHAPTER; EXEMPTIONS. (a) This subchapter applies to a state agency only to the extent that it is not otherwise required to deposit funds in the treasury.

(b) This subchapter does not apply to:

(1) funds pledged to the payment of bonds, notes, or other debts if the funds are not otherwise required to be deposited in the treasury;
(2) funds held in trust or escrow for the benefit of a person or entity other than a state agency;
(3) funds set apart out of earnings derived from investment of funds held in trust for others, as administrative expenses of the trustee agency;
(4) funds, grants, donations, and proceeds from funds, grants, and donations, given in trust to the Texas State Library and Archives Commission for the establishment and maintenance of regional historical resource depositories and libraries in accordance with Section 441.154; or
(5) funds under the management of the secretary-treasurer of the Anatomical Board of the State of Texas, as provided by Section 691.008, Health and Safety Code.

Sec. 404.094. FUNDS TO BE DEPOSITED IN TREASURY. (a) Fees, fines, penalties, taxes, charges, gifts, grants, donations, and other funds collected or received by a state agency under law shall be deposited in the treasury, credited to a special fund or funds, and subject to appropriation only for the purposes for which they are otherwise authorized to be expended or disbursed. A deposit shall be made at the earliest possible time that the treasury can accept those funds, but not later than the third business day after the date of receipt. However, if an agency determines that for seasonal or other extraordinary reasons deposits cannot be made by the third business day after the date of receipt, the agency shall provide written notice of the determination to the state auditor and comptroller with an explanation of the circumstances that require the delay. If the state auditor finds that an agency has not complied with this subsection, the state auditor shall make an estimate of any resulting financial loss to the state, taking into consideration compliance costs that would have been additionally incurred by the agency, and report the amount on the state auditor's Internet website.

(b) Money that is required by this subchapter or by another law to be deposited in the treasury shall be deposited to the credit of the general revenue fund unless the money is expressly required to be
deposited to another fund, trust fund, or special account not in the general revenue fund. This subsection does not affect the authority of the comptroller to establish and use accounts necessary to manage and account for state revenues and expenditures.

(c) Money collected or received by a state agency by mistake of fact or law, including money that is not due the state and money collected and received in excess of the amount required to be collected or received, shall, if not refunded as permitted or required by law, be deposited in the treasury to the credit of the general revenue fund. This section does not apply to unrefunded motor fuel taxes or to other unrefunded money that is required by law to be deposited to the credit of another fund, trust fund, or account not in the general revenue fund.

(d) A state agency that receives money from securities transactions under applicable law, including Chapter 815 or 825, Government Code, Chapter 161, 162, or 164, Natural Resources Code, Chapter 43, Education Code, Section 94.016, Human Resources Code, and the Texas Statewide Emergency Services Retirement Act (Article 6243e.3, Vernon's Texas Civil Statutes), with the comptroller's approval may, as an alternative to the deposit of the funds as provided by Subsection (a), net funds received against purchases of securities occurring within one business day. Any proceeds received and available for reinvestment that are not reinvested within one business day of receipt shall be deposited in the state treasury as provided by Subsection (a). An agency authorized to net securities transactions under this section is subject to the accounting and reporting procedures established by the comptroller.

Amended by: Acts 2021, 87th Leg., R.S., Ch. 856 (S.B. 800), Sec. 5, eff. September 1, 2021.

Sec. 404.095. ELECTRONIC TRANSFER OF CERTAIN PAYMENTS. (a)
This section applies only to a state agency that during the preceding state fiscal year collected or received more than $50 million in fees, fines, penalties, taxes, charges, gifts, grants, donations, and other funds, excluding federal grants and interest and dividend income.

(b) If during the preceding state fiscal year a person paid a state agency a total of $500,000 or more in a category of payments and the agency reasonably anticipates that during the current state fiscal year the person will pay the agency $500,000 or more in a category of payments, the state agency shall require the person to transfer payment amounts due to the agency in that category, on or before the date the payment is due, by one of the means of electronic funds transfer approved by the comptroller. For the purposes of this section, each of the following is a separate category of payments to a state agency:

(1) fees;
(2) fines;
(3) civil penalties;
(4) taxes, with each type of tax specified by the comptroller being considered a separate category; and
(5) other payments to the state agency, excluding extraordinary payments such as gifts, grants, donations, interest and dividend income, and one time surcharges.

(c) A state agency by rule may require a person other than a person subject to Subsection (b) to transfer all payment amounts due in a category of payments to the agency on or before the date the payment is due by electronic funds transfer.

(d) A person's failure to transfer payment amounts by electronic funds transfer may result in the assessment of a penalty by the state agency in an amount equal to five percent of the payment amount.

(e) The comptroller shall adopt rules specifying approved means of electronic funds transfer and specifying the types of taxes constituting separate categories. A person's failure to comply with the rules may result in the assessment of a penalty by the state agency in an amount equal to five percent of the payment amount.

(f) To the extent of any conflict between this section and another law specifying the time or manner of making a payment to the agency, this section controls. This section does not affect a law specifying the time for the filing of a return or other report.
related to the payment.

(g) A state agency may not require payment by electronic funds transfer of a protested tax payment.

Sec. 404.096. RAPID DEPOSITS, TRANSACTIONS, AND TRANSFERS REQUIRED. According to a schedule established by the comptroller, the comptroller shall conduct a study of each state agency that collects or receives $50 million or more a year from all sources or processes 100,000 or more transactions a year of any kind to determine whether implementing a program for the rapid administration of deposits or transactions by the agency or for the rapid transfer of revenue or information to or from the state agency would result in a net savings of state revenue. The comptroller shall transfer surplus cash into the general revenue fund under Section 403.092, as is necessary to complete the transfers required by this section.

(b) Notwithstanding any other provision of law, depository interest in the tax and revenue anticipation note fund shall be credited to that fund. Depository interest shall be calculated and
credited to the fund monthly as if transfers to the general revenue
fund had not been made.

(c) On payment in full of all outstanding notes, all required
rebates to the federal government, and all costs of issuance of the
notes, the comptroller shall transfer to the general revenue fund any
amounts remaining in the tax and revenue anticipation note fund. To
the extent that the amounts credited to the tax and revenue
anticipation note fund are insufficient to pay the principal,
premium, if any, interest on the notes, and any required rebate to
the federal government when due, and any issuance costs related to
the notes, amounts in the general revenue fund are available for
appropriation by the legislature to make those payments. Amounts in
the tax and revenue anticipation note fund are available for
appropriation by the legislature to carry out the purposes of this
subchapter.

(d) Payment of the notes and performance of official duties
prescribed by the state constitution and by this subchapter may be

Sec. 411.0728. PROCEDURE FOR CERTAIN VICTIMS OF TRAFFICKING OF PERSONS OR COMPELLING PROSTITUTION. (a) This section applies only
to a person:

(1) who is convicted of or placed on deferred adjudication community supervision for an offense under:

(A) Section 481.120, Health and Safety Code, if the offense is punishable under Subsection (b)(1);

(B) Section 481.121, Health and Safety Code, if the offense is punishable under Subsection (b)(1);

(C) Section 31.03, Penal Code, if the offense is punishable under Subsection (e)(1) or (2); or

(D) Section 43.02, Penal Code; and

(2) who, if requested by the applicable law enforcement agency or prosecuting attorney to provide assistance in the investigation or prosecution of an offense under Section 20A.02, 20A.03, or 43.05, Penal Code, or a federal offense containing elements that are substantially similar to the elements of an offense under any of those sections:

(A) provided assistance in the investigation or prosecution of the offense; or

(B) did not provide assistance in the investigation or prosecution of the offense due to the person's age or a physical or mental disability resulting from being a victim of an offense described by this subdivision.

(b) Notwithstanding any other provision of this subchapter or Subchapter F, a person described by Subsection (a) who satisfies the requirements of Section 411.074(b) may petition the court that convicted the person or placed the person on deferred adjudication community supervision for an order of nondisclosure of criminal history record information under this section on the grounds that the person committed the offense solely as a victim of an offense described by this subdivision.

(b-1) A petition under Subsection (b) must:

(1) be in writing;

(2) allege specific facts that, if proved, would establish that the petitioner committed the offense described by Subsection (a)(1) solely as a victim of an offense under Section 20A.02, 20A.03, or 43.05, Penal Code; and

(3) assert that if the person has previously submitted a petition for an order of nondisclosure under this section, the person has not committed an offense described by Subsection (a)(1) on or after the date on which the person's first petition under this
section was submitted.

(b-2) On the filing of the petition under Subsection (b), the clerk of the court shall promptly serve a copy of the petition and any supporting document on the appropriate office of the attorney representing the state. Any response to the petition by the attorney representing the state must be filed not later than the 20th business day after the date of service under this subsection.

(b-3) A person convicted of or placed on deferred adjudication community supervision for more than one offense described by Subsection (a)(1) that the person committed solely as a victim of an offense under Section 20A.02, 20A.03, or 43.05, Penal Code, may file a petition for an order of nondisclosure of criminal history record information under this section with respect to each offense, and may request consolidation of those petitions, in a district court in the county where the person was most recently convicted or placed on deferred adjudication community supervision as described by this subsection. On receipt of a request for consolidation, the court shall consolidate the petitions and exercise jurisdiction over the petitions, regardless of the county in which the offenses described by Subsection (a)(1) occurred. For each offense that is the subject of a consolidated petition and that occurred in a county other than the county in which the court consolidating the petitions is located, the clerk of the court, in addition to the clerk's duties under Subsection (b-2), shall promptly serve a copy of the consolidated petition and any supporting document related to the applicable offense on the appropriate office of the attorney representing the state on behalf of the other county. Each attorney representing the state who receives a copy of a consolidated petition under this subsection may file a response to the petition in accordance with Subsection (b-2).

(b-4) A district court that consolidates petitions under Subsection (b-3) shall allow an attorney representing the state who receives a petition involving an offense that was committed outside the county in which the court is located to appear at any hearing regarding the consolidated petition by telephone or video conference call.

(c) After notice to the state and an opportunity for a hearing, the court having jurisdiction over the petition shall issue an order prohibiting criminal justice agencies from disclosing to the public criminal history record information related to the offense if the
court determines that:

(1) the person committed the offense described by Subsection (a)(1) solely as a victim of an offense under Section 20A.02, 20A.03, or 43.05, Penal Code;

(2) if applicable, the person did not commit another offense described by Subsection (a)(1) on or after the date on which the person's first petition for an order of nondisclosure under this section was submitted; and

(3) issuance of the order is in the best interest of justice.

(c-1) In determining whether a person committed an offense described by Subsection (a)(1) solely as a victim of an offense under Section 20A.02, 20A.03, or 43.05, Penal Code, the court may consider any order of nondisclosure previously granted to the person under this section.

(d) A person may petition the applicable court for an order of nondisclosure of criminal history record information under this section only on or after the first anniversary of the date the person:

(1) completed the sentence, including any term of confinement imposed and payment of all fines, costs, and restitution imposed; or

(A) is designated by a law of this state as a felony;

(B) contains all the elements of an offense designated by a law of this state as a felony; or

(C) is punishable by confinement for one year or more in a penitentiary; and

(2) a Class A misdemeanor if the offense is not a felony and confinement in a jail other than a state jail felony facility is affixed as a possible punishment.

(b-1) An offense is not considered a felony for purposes of Subsection (b) if, at the time of a person's application for a license to carry a handgun, the offense:

This subsection does not preclude the disqualification of an individual for being a chemically dependent person if other evidence exists to show that the person is a chemically dependent person.
(d) For purposes of Subsection (a)(7), a person is incapable of exercising sound judgment with respect to the proper use and storage of a handgun if the person:

(2) meets the other eligibility requirements of Subsection (a) except for the minimum age required by federal law to purchase a handgun.

(b-1) If the applicant submits with the completed application materials an application for a designation under Section 411.184, the department shall, without charging an additional fee, expedite the application. Not later than the 10th day after the receipt of the materials under this subsection, the department shall:

(1) issue the license with the designation; or

Sec. 411.180. NOTIFICATION OF DENIAL, REVOCATION, OR SUSPENSION OF LICENSE; REVIEW. (a) The department shall give written notice to each applicant for a handgun license of any denial, revocation, or suspension of that license. Not later than the 30th day after the notice is received by the applicant, according to the records of the department, the applicant or license holder may request a hearing on the denial, revocation, or suspension. The applicant must make a written request for a hearing addressed to the department at its Austin address. The request for hearing must reach the department in Austin prior to the 30th day after the date of receipt of the written notice. On receipt of a request for hearing from a license holder or applicant, the department shall promptly schedule a hearing in the appropriate justice court in the county of residence of the applicant or license holder. The justice court shall conduct a hearing to review the denial, revocation, or suspension of the license. In a proceeding under this section, a justice of the peace shall act as an administrative hearing officer. A hearing under this section is not subject to Chapter 2001 (Administrative Procedure Act). A district attorney or county attorney, the attorney general, or a designated member of the department may represent the department.

(b) The department, on receipt of a request for hearing, shall file the appropriate petition in the justice court selected for the hearing and send a copy of that petition to the applicant or license holder at the address contained in departmental records. A hearing under this section must be scheduled within 30 days of receipt of the request for a hearing. The hearing shall be held expeditiously but in no event more than 60 days after the date that the applicant or license holder requested the hearing. The date of the hearing may be reset on the motion of either party, by agreement of the parties, or by the court as necessary to accommodate the court's docket.
(c) The justice court shall determine if the denial, revocation, or suspension is supported by a preponderance of the evidence. Both the applicant or license holder and the department may present evidence. The court shall affirm the denial, revocation, or suspension if the court determines that denial, revocation, or suspension is supported by a preponderance of the evidence. If the court determines that the denial, revocation, or suspension is not supported by a preponderance of the evidence, the court shall order the department to immediately issue or return the license to the applicant or license holder.

(d) A proceeding under this section is subject to Chapter 105, Civil Practice and Remedies Code, relating to fees, expenses, and attorney's fees.

(e) A party adversely affected by the court's ruling following a hearing under this section may appeal the ruling by filing within 30 days after the ruling a petition in a county court at law in the county in which the applicant or license holder resides or, if there is no county court at law in the county, in the county court of the county. A person who appeals under this section must send by certified mail a copy of the person's petition, certified by the clerk of the court in which the petition is filed, to the appropriate division of the department at its Austin headquarters. The trial on appeal shall be a trial de novo without a jury. A district or county attorney or the attorney general may represent the department.

(f) A suspension of a license may not be probated.

(g) If an applicant or a license holder does not petition the justice court, a denial becomes final and a revocation or suspension takes effect on the 30th day after receipt of written notice.

(h) The department may use and introduce into evidence certified copies of governmental records to establish the existence of certain events that could result in the denial, revocation, or suspension of a license under this subchapter, including records regarding convictions, judicial findings regarding mental competency, judicial findings regarding chemical dependency, or other matters that may be established by governmental records that have been properly authenticated.

(i) This section does not apply to a suspension of a license under Section 85.022, Family Code, or Article 17.292, Code of Criminal Procedure.
Sec. 411.181. NOTICE OF CHANGE OF INFORMATION; DUPLICATE LICENSE. The duplicate license must provide for an expiration date, calculated in accordance with Section 411.183(a) or (b), as applicable, that takes into account the extension of the period for which the license holder may be lawfully present in the United States.

(b) If the name of the license holder is changed by marriage or otherwise, or if the person's status becomes inapplicable as described by Subsection (a), the person shall apply for a duplicate license. The duplicate license must reflect the person's current name, residence address, and status.

(c) If a license holder moves from the address stated on the license, the person shall apply for a duplicate license.

(d) The department shall charge a license holder a fee of $25 for a duplicate license.

(e) The department shall make the forms available on request.

(f) On request of a local law enforcement agency, the
department shall notify the agency of changes made under Subsection (a) by license holders who reside in the county in which the agency is located.

(g) If a license is lost, stolen, or destroyed, the license holder shall apply for a duplicate license not later than the 30th day after the date of the loss, theft, or destruction of the license.

(h) If a license holder is required under this section to apply for a duplicate license and the license expires not later than the 60th day after the date of the loss, theft, or destruction of the license, the applicant may renew the license with the modified information included on the new license. The applicant must pay only the nonrefundable renewal fee.

(i) A license holder whose application fee for a duplicate license under this section is dishonored or reversed may reapply for a duplicate license at any time, provided the application fee and a dishonored payment charge of $25 is paid by cashier's check or money order made payable to the "Texas Department of Public Safety."
