(2) Subsection (a)(2) is a minimum salary computed in the same manner as the minimum salary for certain school personnel under Section 21.402, Education Code; and

(3) Subsection (a)(3) is the minimum salary the member would have been entitled to if the member was subject to Section 21.402, Education Code.

(c) Monthly, employers shall:

(1) report to the retirement system in a form prescribed by the system a certification of the total amount of salary paid above the statutory minimum salary and the total amount of employer contributions due under this section for the payroll period; and
(2) retain information, as determined by the retirement system, sufficient to allow administration of this section, including information for each employee showing the applicable minimum salary as well as aggregate annual compensation.

(d) The employer must remit the amount required under this section to the executive director at the same time that the employer remits the member's contribution.

(e) Repealed by Acts 2021, 87th Leg., R.S., Ch. 141 (H.B. 1585), Sec. 20(2), eff. May 26, 2021.

(f) If the commissioner of education receives a certification from the retirement system regarding unpaid contributions, the commissioner shall direct the comptroller of public accounts to withhold the amount certified, plus interest computed at the rate and in the manner provided by Section 825.408, from the first state money payable to the employer. The amount withheld shall be deposited to the credit of the appropriate accounts of the retirement system.

(g) The board of trustees shall take this section into consideration in adopting the biennial estimate of the amount necessary to pay the state's contributions to the system.

(h) This section does not apply to state contributions for members employed by a school district in a school year if the district's no-new-revenue tax rate for maintenance and operation revenues for the tax year that ended in the preceding school year equals or exceeds 125 percent of the statewide average no-new-revenue tax rate for school district maintenance and operation revenues for that tax year. For a tax year, the statewide average no-new-revenue tax rate for school district maintenance and operation revenues is the tax rate that, if applied to the statewide total appraised value of taxable property for every school district in the state determined under Section 403.302, would produce an amount equal to the statewide total amount of maintenance and operation taxes imposed in the tax year for every school district in the state.

(i) Not later than the seventh day after the final date the comptroller certifies to the commissioner of education changes to the property value study conducted under Subchapter M, Chapter 403, the comptroller shall certify to the Teacher Retirement System of Texas:

(1) the no-new-revenue tax rate for school district maintenance and operation revenues for each school district in the state for the immediately preceding tax year; and

(2) the statewide average no-new-revenue tax rate for
school district maintenance and operation revenues for the immediately preceding tax year.

(b) When an employer receives money for state contributions from an application made in accordance with Subsection (a), the employer shall immediately send the money to the retirement system for deposit in the state contribution account.

(c) Monthly, employers shall:

(B) the source of the grant;

(C) the amount of the employee's salary paid from the grant;

(D) the amount of the money provided by the grant for state contributions for the employee; and

(E) any other information the retirement system determines is necessary to enforce this section.

(d) The retirement system may:

(1) require from employers reports of applications for money;

(2) require evidence that the applications include requests for funds available to pay state contributions to the retirement system for employees paid from the grant; and

(3) examine the records of any employer to determine compliance with this section and rules promulgated under it.

(e) A person commits an offense if the person is an administrator of an employer and knowingly fails to comply with this section.

(f) An offense under Subsection (e) is a Class C misdemeanor.

(g) An employer who fails to comply with this section may not, after the failure, apply for or spend any money from a federal or private grant. The retirement system shall report alleged noncompliance to the attorney general, the Legislative Budget Board, the comptroller of public accounts, and the governor. The attorney general shall bring a writ of mandamus against the employer to compel compliance with this section.

(C) any other information the retirement system determines is necessary to administer this section.

(d) A monthly report required under Subsection (c) shall be accompanied by payment of the amount certified under Subdivision (3) of that subsection.
(e) After the end of each fiscal year, the retirement system shall report to the comptroller of public accounts the name of any general academic teaching institution and any medical and dental unit delinquent in the reimbursement of contributions under this section for the preceding fiscal year and the amount by which each reported institution or unit is delinquent.

(f) Any portion of the reimbursement required under this section to be made for a fiscal year by a general academic teaching institution or a medical and dental unit that remains unpaid on the first day of the next fiscal year accrues interest, beginning on that day or the due date for the portion, whichever is later, at an annual rate, compounded monthly, equal to the rate established under Section 825.313(b)(1), plus two percent.

Sec. 825.4071. COLLECTION OF CONTRIBUTIONS FROM EMPLOYERS THAT ARE PUBLIC JUNIOR COLLEGES OR PUBLIC JUNIOR COLLEGE DISTRICTS. (a) This section applies to an employer that is a public junior college or a public junior college district.

(b) An employer described by Subsection (a) shall contribute monthly to the retirement system:

(1) an amount equal to the state contribution rate then in effect multiplied by 50 percent of the aggregate eligible creditable compensation of members who are qualifying employees under Section 825.404(a-1)(1) that the employer reports to the retirement system; and

(2) an amount equal to the state contribution rate then in
effect multiplied by 100 percent of the aggregate eligible creditable compensation of all other members under Section 825.404(a-1)(2) that the employer reports to the retirement system.

(c) The designated disbursing officer of each public junior college and each public junior college district shall:

(1) submit to the retirement system, at a time and in the manner prescribed by the retirement system, a monthly report containing a certification that includes:

(C) whether the member is a qualifying employee under Section 825.404(a-1)(1); and
(D) any other information the retirement system determines is necessary to administer this section.

(d) A monthly report required under Subsection (c) shall be accompanied by payment of the amount of employer contributions certified in Subsection (c)(1).

(e) Not later than the 90th day after the date each school year ends, the retirement system shall certify to the comptroller the names of any public junior colleges or public junior college districts that have failed to remit, within the period required by Section 825.408, all contributions required under this section for the school year and the amounts of the unpaid contributions.

(f) If the comptroller receives a certification under Subsection (e), the comptroller shall withhold the amount certified, plus interest computed at the rate and in the manner provided by Section 825.408, from the first state money payable to the public junior college or public junior college district. The amount withhold shall be deposited to the credit of the appropriate accounts of the retirement system.

(g) The retirement system shall deposit all money it receives under this section in the state contribution account.
Sec. 825.408. INTEREST ON CONTRIBUTIONS AND FEES; DEPOSITS IN TRUST. (a) Except as provided by Subsection (a-1), an employer that fails to remit, before the seventh day after the last day of a month, all member and employer deposits and documentation of the deposits required by this subchapter to be remitted by the employer for the month shall pay to the retirement system, in addition to the deposits, interest on the unpaid amounts at an annual rate compounded monthly and a late fee in an amount determined by the retirement system that is based on the size of the employer and may not exceed $1,000 for each business day after the deadline imposed by this subsection that the employer fails to submit the documentation of the deposits. The cumulative amount of late fees assessed against an employer under this subsection may not exceed $25,000 per reporting period. The rate of interest is the rate established under Section 825.313(b)(1), plus two percent. Interest and late fees required under this section are creditable to the interest account. On request, the retirement system may grant a waiver of the deadline imposed by this subsection based on an employer's financial or technological resources. The retirement system may establish a process for filing an appeal to reduce or waive a late fee imposed under this subsection.

(a-1) This subsection applies only to an employer who reports the employment of a retiree to the retirement system. Subject to Subsection (a-2), an employer that fails to remit, before the 11th day after the last day of a calendar month in which a retiree is employed, the employer deposits required by Section 825.4092(b), documentation of those deposits as required by this section, and the certified statement of employment required by Section 824.6022 shall pay to the retirement system, in addition to the deposits, interest on the unpaid amounts at the annual rate established under Subsection (a), compounded monthly, and a late fee in an amount determined by the retirement system for each business day after the deadline imposed by this subsection that the employer fails to file the documentation of the deposits and the certified statement of employment.

(a-2) If a retiree described by Subsection (a-1) performs work
in the month of August, the employer must remit the employer deposits, documentation of those deposits, and the certified statement of employment before the seventh day of September.

(b) An employer and its trustees or other governing body hold amounts due to the retirement system under this subtitle in trust for the retirement system and its members and may not divert the amounts to any other purpose.

Sec. 825.409. EMPLOYER PICKUP OF MEMBER CONTRIBUTIONS. (a) Each employer shall pick up the employee contribution required of each of its employees by Section 825.403 for all compensation earned after December 31, 1987. Employers shall pay to the retirement system the picked-up contributions from the same source of funds that is used in paying earnings to the employees. Such payments shall be in lieu of contributions by the employees. An employer shall pick up these contributions by a corresponding reduction in the cash salary of the employees, by an offset against a future salary increase, or by a combination of a salary reduction and offset against a future salary increase. Employees do not have the option of choosing to receive the contributed amounts directly instead of having them paid by the employer to the retirement system.

(b) Contributions picked up as provided by Subsection (a) shall be treated as employer contributions in determining tax treatment of the amounts under the United States Internal Revenue Code; however, each employer shall continue to withhold federal income taxes on these picked-up contributions until the Internal Revenue Service
determines or the federal courts rule that pursuant to Section 414(h) of the Internal Revenue Code of 1986 (26 U.S.C. Section 414) these picked-up contributions may not be included as gross income of the employee until such time as they are distributed or made available.

(c) Employee contributions picked up as provided by Subsection (a) shall be transmitted to the retirement system in the manner required by Section 825.403. Employee contributions picked up by an employer and credited to the employee's account shall be treated for all other purposes as if the amount were a part of the member's annual compensation and had been deducted pursuant to Section 825.403(a).

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4595, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 825.4092. EMPLOYER CONTRIBUTIONS FOR EMPLOYED RETIREES.
(a) This section applies to an employer who reports to the retirement system the employment of a retiree.

(b) Except as provided by Subsection (e), during each payroll period for which a retiree is reported, the employer shall contribute to the retirement system for each retiree reported an amount based on the retiree's salary equal to the sum of:

(1) the current contribution amount that would be contributed by the retiree if the retiree were an active, contributing member; and

(2) the current contribution amount authorized by the General Appropriations Act that the state would contribute for that retiree if the retiree were an active, contributing member.

(c) Except as provided by Subsection (e), each payroll period, for each retiree who is enrolled in the Texas Public School Employees Group Insurance Program under Chapter 1575, Insurance Code, the employer who reports the employment of a retiree shall contribute to the trust fund established under that chapter an amount established by the retirement system. In determining the amount to be
contributed by the employer under this subsection, the retirement system shall consider the amount a retiree is required to pay for the retiree and any enrolled dependents to participate in the group program and the cost of the retiree's and enrolled dependents' participation in the group program. If more than one employer reports the retiree to the retirement system during a month, the amount of the required payment shall be prorated among the employers.

(d) Contributions under this section are subject to the requirements of Section 825.408.

(e) The amounts required to be paid under Subsections (b) and (c) are not required to be paid by a reporting employer for a retiree who retired from the retirement system before September 1, 2005.

Text of subsection as added by Acts 2021, 87th Leg., R.S., Ch. 546 (S.B. 202), Sec. 1

(f) A reporting employer is ultimately responsible for payment of the amounts required to be contributed under Subsections (b) and (c). The employer may not directly or indirectly pass that cost on to the retiree through payroll deduction, by imposition of a fee, or by any other means designed to recover the cost.

Text of subsection as added by Acts 2021, 87th Leg., R.S., Ch. 511 (S.B. 288), Sec. 4

(f) Notwithstanding any other provision of this section, the amounts required to be paid under Subsections (b) and (c) are not required to be paid by a reporting employer for a retiree who retired from the retirement system on or after September 1, 2005, and is employed in a position described by Section 824.6021(a). This subsection expires February 1, 2025.

Sec. 825.410. PAYROLL DEDUCTIONS OR INSTALLMENT PAYMENTS FOR SPECIAL SERVICE CREDIT. (a) Payments to establish special service credit as authorized under this subtitle, other than service credit that may only be determined and paid for at the time of retirement such as unused leave as authorized by Section 823.403, may be made in a lump sum by a monthly payroll deduction in an amount not less than one-twelfth of the contribution required to establish at least one year of service credit, or in equal monthly installments over a period not to exceed the lesser of the number of years of credit to be purchased or 60 months. Installment and payroll deduction payments are due on the first day of each calendar month in the payment period. If an installment or payroll deduction payment is not made in full within 60 days after the due date, the retirement system may refund all installment or payroll deduction payments less fees paid on the lump sum due when installment or payroll deduction payments began. Partial payment of an installment or payroll deduction payment may be treated as nonpayment. A check returned for insufficient funds or a closed account shall be treated as nonpayment. When two or more consecutive monthly payments have a returned check, a refund may be made.

(b) Service credit shall be established pursuant to the following provisions:

(1) The retirement system shall credit a member's payments made under this section to a suspense account in the trust fund until the sum of the payments equals the amount required for one year of service credit, at which time the retirement system shall deposit the payments in the appropriate accounts in the trust fund and grant the applicable amount of service credit. No credit shall be established for service pursuant to Section 823.501 until a lump sum has been paid or all payroll deductions or installments have been completed.

(2) No credit shall be established for other service when the cost of establishing the service has been determined by using withdrawn service to be reinstated pursuant to Section 823.501 until a lump sum or all payroll deductions or installments for the withdrawn service have been paid.

(3) All other service shall be credited when sufficient payroll deductions or installments have been completed to satisfy the cost requirements for a year of service.

(c) All installment and payroll deduction payments must be made
on or before the service retirement date or the last day of the month in which the member's application for service retirement is submitted, whichever is later, or before the 31st day following the date on which the medical board certifies a member's disability. The installment payment method or payroll deduction method may not be used to establish service credit after retirement.

(d) If a member who has made at least one payroll deduction or installment payment and who is using the payroll deduction or installment method of payment dies before completing the payments, the retirement system may:

(1) return to the beneficiary determined under Sections 824.101 and 824.103 the payments less fees paid on the lump sum due when payments began and less payments which have resulted in credited service being established; or

(2) permit the beneficiary determined under Sections 824.101 and 824.103 to complete payment of the unpaid balance remaining at the time of the member's death.

(e) If the beneficiary requests a return of the installment or payroll deduction payments under Subsection (d)(1), the retirement system shall return the payments in a lump sum. No additional service credit shall be established that has not been established in compliance with this section. If service credit has been established by installment or payroll deduction payments, the retirement system shall not refund the payments, less any applicable fees, used to establish such credit unless a refund of total accumulated contributions is made to a member or beneficiary.

(f) If the beneficiary elects to complete the payments under Subsection (d)(2), the beneficiary shall make full payment in a lump sum of the unpaid balance before the issuance of any warrant to him in full or partial payment of death or survivor benefits.

(g) A member seeking to establish service credit by using the installment or payroll deduction payment method shall pay an additional fee of nine percent per annum calculated on a declining balance method on the lump sum due at the time the payment process begins. For purposes of this subsection, the installment or payroll deduction payment process begins on the first business day of the month in which the first payment becomes due. None of the additional fees shall be returned to the member or a beneficiary.

(h) The board of trustees has authority to adopt rules to implement this section, including rules establishing a minimum amount
for monthly installment or payroll deduction payments and rules establishing payment under Section 823.004(b).

(i) The actuary designated by the board of trustees shall, in investigating the experience of the members of the system, note any significant increase in the establishment of special service credit and determine the extent to which any increase has been caused by the installment or payroll deduction payment method. If the actuary certifies in writing to the retirement system that sound actuarial funding of the retirement system's benefits is endangered by continuation of the installment or payroll deduction payment method, the board of trustees may determine that the payment method will not be available, other than to those who are using the method at the time of the determination.

(j) Payments to establish service credit by a member who plans to retire in less than a year may be made by payroll deduction for a period determined by the retirement system.

(k) Each employer shall establish a payroll deduction plan to facilitate the payroll deductions authorized by this section and shall cooperate with the retirement system in implementing the payroll deduction method of payment for service credit.

SUBCHAPTER F. MISCELLANEOUS ADMINISTRATIVE PROCEDURES

Sec. 825.501. STATEMENT OF AMOUNT IN INDIVIDUAL ACCOUNTS. (a) No later than December 1 of each year, the board of trustees shall furnish to each member a statement of the amount credited to the member's individual account as of August 31 of the preceding fiscal year.

(b) In addition to the statement required by Subsection (a) of
this section, the board of trustees shall furnish, on written request, to a member of the retirement system a statement of the amount credited to the member's individual account. The board is not required to furnish more than four of these statements to each member a calendar year.

Sec. 825.502. PAYMENT OF CONTRIBUTIONS TO A MEMBER ABSENT FROM SERVICE. (a) If a demand for the accumulated contributions of a member with fewer than five years of service has not been made in accordance with Section 822.005 before the seventh anniversary of the member's last day of service, the retirement system shall return to the member or to the member's heirs all accumulated contributions of the member.

(b) If the member or the member's heirs cannot be found after complying with the policy adopted under Subsection (c), the member's accumulated contributions are forfeited to the retirement system. The retirement system shall credit the amount forfeited to the retired reserve account.

(c) The board of trustees shall adopt a policy requiring the retirement system to make all reasonable efforts to locate and notify a member or, if appropriate, the member's heirs of their entitlement to a return of accumulated contributions under this section. The policy must ensure that the:

(1) notice:

(A) provides information on how a member or the member's heirs, as appropriate, may withdraw the accumulated contributions, including information on how to effectuate a withdrawal through an election to receive a direct rollover of the contributions to an eligible retirement plan; and

(B) is initially sent to the member by certified mail, return receipt requested, at the last known address of the member according to the system's records; and

(2) procedure used to locate a member or the member's
heirs:

(A) requires, at a minimum, that the system conduct Internet searches to determine a current and accurate mailing address of the member or the member's heir and send a notice that complies with Subdivision (1) to the member or the member's heir, as applicable, by certified mail, return receipt requested; and

(B) employs a matrix based on defined factors for determining on a graduated scale the degree and type of additional effort required, and those efforts must include:

(i) contacting the member's designated beneficiary;
(ii) obtaining information from consumer reporting agencies; and
(iii) using commercial locating services.

Acts 2021, 87th Leg., R.S., Ch. 141 (H.B. 1585), Sec. 10, eff. May 26, 2021.

Sec. 825.503. REPRODUCTION AND PRESERVATION OF RECORDS. (a) The retirement system may photograph, microphotograph, or film, or use electronic storage for, all records pertaining to a member's individual file, accounting records, district report records, and investment records. The retirement system may receive any record or report on paper or film or in an electronic storage format.

(b) If a record is reproduced under Subsection (a), the retirement system may destroy or dispose of the original record if the system first:

(1) places the reproduction or electronic record in a file conveniently accessible to retirement system personnel; and

(2) provides for the preservation, examination, and use of the reproduction or stored electronic record.

(c) A photograph, microphotograph, film, or electronic record of a record received or reproduced under Subsection (a) is equivalent
to the original record for all purposes, including introduction as evidence in all courts and administrative agency proceedings. A duly certified or authenticated copy of such a photograph, microphotograph, film, or electronic record is admissible as evidence equally with the original photograph, microphotograph, film, or electronic record.

(d) The executive director or an authorized representative may certify the authenticity of a photograph, microphotograph, film, or electronic record of a record reproduced under this section and shall charge a fee for the certified photograph, microphotograph, film, or electronic record as provided by law.

(e) Certified records shall be furnished to any person who is authorized by law to receive them.

(f) In this section:

(1) "Electronic storage" means the maintenance of record data in the form of digital electronic signals on a computer hard disk, magnetic tape, optical disk, or similar medium readable by machine.

(2) "Electronic record" means any information that is recorded in a form for computer processing.

Sec. 825.504. EMPLOYER CERTIFICATION TO BOARD. (a) An employer annually shall certify to the board of trustees the beginning date of the contract of each member whose contract year begins after June 30 and continues after August 31 of the same calendar year.

(b) For school years after the 1994-1995 school year, an employer annually shall certify to the board of trustees the beginning date of an oral or written work agreement that begins after June 30 and continues after August 31 of the same calendar year.

(c) Each reporting district shall cooperate with the retirement system in ascertaining a member's annual earnings during any year. The board of trustees by rule may prescribe the form of and
procedures for filing certifications required by this section.

Sec. 825.505. AUDITS. For the purpose of determining the propriety of contributions or credits, the records of an employer concerning the employment and compensation of its personnel are subject to examination, in the offices of the employer during regular working hours, by representatives of the retirement system designated to conduct the examination.

Sec. 825.506. PLAN QUALIFICATION. (a) It is intended that the provisions of this subtitle be construed and administered in a manner that the retirement system's benefit plan will be considered a qualified plan under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401). Notwithstanding any other provision of this subtitle, benefits provided to a retiree, or based on the service of a member or retiree, may not exceed benefits permitted to be provided by a qualified plan by Section 415 of the Internal Revenue Code of 1986 (26 U.S.C. Section 415). The board of trustees may adopt rules that modify the plan to the extent necessary for the retirement system to be a qualified plan and shall adopt rules to ensure that benefits paid to a retiree, or to a beneficiary of a member or retiree, do not exceed the limits provided by Section 415 of the Internal Revenue Code of 1986 (26 U.S.C. Section 415). Rules adopted by the board of trustees are to be considered a part of the plan.

(b) In determining qualification status under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401), the retirement system's benefit plan shall be considered primary. An employer may not provide employee retirement or deferred benefits to the extent that, when considered together with the benefits
authorized by this subtitle as required by federal law, would result in the retirement system's plan failing to meet federal qualification standards as applied to public pension plans.

(c) It is intended that the retirement system administer the plan in a manner that satisfies the required minimum distribution provisions of Section 401(a)(9), Internal Revenue Code of 1986. The board of trustees may adopt rules to administer the distribution requirements, including distribution when a participant dies before the entire interest is distributed.

Sec. 825.507. RECORD CONFIDENTIALITY. (a) Records of a participant and information about the records of a participant that are in the custody of the retirement system or of an administrator, carrier, attorney, consultant, or governmental agency, including the comptroller, acting in cooperation with or on behalf of the retirement system are confidential and not subject to public disclosure. Because the records and information described by this section are exempt from the public access provisions of Chapter 552, the retirement system or an administering firm, carrier, attorney, consultant, or governmental agency, including the comptroller, acting in cooperation with or on behalf of the retirement system, is not required to accept or comply with a request for a record or information about a record or to seek an opinion from the attorney general, except as otherwise provided by this section.

(b) The retirement system may release records of a participant, or information about the records of a participant, including a participant to which Chapter 803 applies, to:

(1) the participant or the participant's attorney or guardian or another person who the executive director determines is acting on behalf of the participant;
(2) the executor or administrator of the deceased participant's estate, including information relating to the deceased participant's beneficiary, or if an executor or administrator of the deceased participant's estate has not been named, a person or entity who the executive director determines is acting in the interest of the deceased participant's estate, or an heir, legatee, or devisee of the deceased participant;

(3) a spouse or former spouse of the participant if the executive director determines that the information is relevant to the spouse's or former spouse's interest in member accounts, benefits, or other amounts payable by the retirement system;

(4) an administrator, carrier, consultant, attorney, or agent acting on behalf of the retirement system;

(5) a governmental entity, an employer, or the designated agent of an employer, only to the extent the retirement system needs to share the information to perform the purposes of the retirement system, as determined by the executive director;

(6) a person authorized by the participant in writing to receive the information;

(7) a federal, state, or local criminal law enforcement agency that requests a record for a law enforcement purpose;

(8) the attorney general to the extent necessary to enforce child support; or

(9) a party in response to a subpoena issued under applicable law if the executive director determines that the participant will have a reasonable opportunity to contest the subpoena.

(c) The records of a participant and information about the records remain confidential after release to a person as authorized by this section. This section does not prevent the retirement system or administering firm or carrier acting in cooperation with or on behalf of the retirement system from disclosing or confirming, on an individual basis, the status or identity of a participant as a member, former member, retiree, deceased member or retiree, beneficiary, or alternate payee of the retirement system.

(d) The executive director may designate other employees of the retirement system to make the necessary determinations under this section. A determination and disclosure under this section may be made without notice to the participant.

(e) The retirement system may make not more than two mailings a
year on behalf of a nonprofit association of active or retired school employees, for purposes of association membership and research only, to persons identified in information contained in records that are in the custody of the retirement system. The nonprofit association requesting a mailing shall pay the expenses of the mailing.

(f) This section does not authorize the retirement system to compile or disclose a list of participants' names, addresses, including e-mail addresses, or social security numbers unless the executive director determines that a compilation or disclosure is necessary to administer the retirement system.

(g) In this section, "participant" means a member, former member, retiree, annuitant, beneficiary, or alternate payee of the retirement system, or an employee or contractor of an employer covered by the retirement system for whom records were received by the retirement system for the purpose of administering the terms of the plan, including for audit or investigative purposes.

Sec. 825.508. POWERS OF ATTORNEY. (a) A person entitled to payment of an annuity or other benefits administered by the retirement system may direct the retirement system to treat as the authorized representative of the person concerning the disposition of the benefits an attorney-in-fact under a power of attorney that complies with Subsection (b).

(b) The system must honor a power of attorney executed in accordance with Subchapters A and B, Chapter 752, Estates Code.

Notwithstanding any law governing the retirement system that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the executive director or the executive director's designee, to have any portion of an eligible rollover distribution from the retirement system paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(b) An eligible rollover distribution under this section is any distribution of all or a portion of the balance to the credit of the distributee, other than:

(1) a distribution that is one of a series of substantially equal periodic payments made not less frequently than annually for:
   (A) the life or life expectancy of the distributee;
   (B) the joint lives or joint life expectancies of the distributee and the distributee's designated beneficiary; or

(2) a distribution to the extent the distribution is required under Section 401(a)(9), Internal Revenue Code of 1986; or

(3) the portion of a distribution that is not includable in gross income for federal income tax purposes.

(b-1) Notwithstanding Subsection (b)(3), with respect to a distribution made on or after January 1, 2002, an otherwise eligible portion of a rollover distribution that consists of after-tax employee contributions not includable in gross income is an eligible
rollover distribution for purposes of this section. The eligible portion may be transferred only:

(1) to an individual retirement account or annuity described by Section 408(a) or (b), Internal Revenue Code of 1986;
(2) to a qualified plan described by Section 403(a), Internal Revenue Code of 1986;
(3) for distributions occurring on or after January 1, 2007, to a qualified plan described by Section 401(a), Internal Revenue Code of 1986, if the plan agrees to separately account for:
   (A) the amounts transferred and the earnings on the amounts transferred; and
   (B) the portion of the distribution that is includable in gross income and the portion of the distribution that is not includable in gross income; or
(4) to an annuity contract described by Section 403(b), Internal Revenue Code of 1986, that agrees to separately account for amounts transferred and earnings on amounts transferred, including for the portion of the distribution that is includable in gross income and the portion of the distribution that is not includable in gross income.

(c) An eligible retirement plan under this section includes:
(1) an individual retirement account described by Section 408(a), Internal Revenue Code of 1986;
(2) an individual retirement annuity described by Section 408(b), Internal Revenue Code of 1986;
(3) an annuity plan described by Section 403(a), Internal Revenue Code of 1986;
(4) a qualified trust described by Section 401(a), Internal Revenue Code of 1986, that accepts the distributee's eligible rollover distribution;
(5) with respect to a distribution made on or after January 1, 2002, a plan eligible under Section 457(b), Internal Revenue Code of 1986, that is maintained by a state, a political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state that agrees to separately account for amounts transferred into the plan from the retirement system;
(6) with respect to a distribution made on or after January 1, 2002, an annuity contract described by Section 403(b), Internal Revenue Code of 1986; or
(7) with respect to a distribution made on or after January
a Roth IRA described by Section 408A, Internal Revenue Code of 1986.

(d) In this section:
(1) "Direct rollover" means a payment by the retirement system to the eligible retirement plan specified by a distributee.
(2) "Distributee" means a person who receives an eligible rollover distribution from the retirement system and includes an employee or former employee and, regarding the interest of an employee or former employee, the person's surviving spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined by Section 414(p), Internal Revenue Code of 1986. With respect to a distribution made on or after January 1, 2007, a distributee includes a beneficiary who:
(A) is a designated beneficiary, as defined by Section 401(a)(9)(E), Internal Revenue Code of 1986, of an employee or former employee; and
(B) is not the spouse, surviving spouse, or alternate payee of an employee or former employee.

(e) A direct trustee-to-trustee transfer on behalf of a distributee beneficiary who is not a spouse is an eligible rollover distribution. A distributee beneficiary who is not a spouse may roll over the distribution only to an individual retirement account or individual retirement annuity that:
(1) is established for the purpose of receiving the distribution; and
(2) is considered an inherited account or annuity to which Section 401(a)(9)(B), Internal Revenue Code of 1986, applies, except for Section 401(a)(9)(B)(iv).

(b) The retirement system shall make information available describing its procedures for complaint investigation and resolution.

records identifying members and specifying the types of positions
they hold as members. Employers shall provide to the retirement
system information specifying the type of position held by each
member as Administrative/Professional, Teacher/Full-Time Librarian,
Support, Bus Driver, or Peace Officer. Employers shall also provide

For each member identified as a Peace Officer, the records must
specify whether the member is an employee of an institution of higher
education or of a public school that is not an institution of higher
education. An employer shall provide the information required by

Sec. 825.516. NONPROFIT ASSOCIATION DUES. (a) A retiree who
is receiving an annuity from the retirement system may request the
system to withhold from the retiree's monthly annuity payment
membership dues for a nonprofit association of retired school
employees in this state, if the association is statewide and its
membership includes at least five percent of all retirees of the
retirement system. The request for withholding must be on a form
provided by the retirement system.

(b) After the retirement system receives a request authorized
by this section, the system may make the requested deductions until
the earlier of:

(1) the date the annuity is terminated; or

(2) the first payment of the annuity after the date the
system receives a written request signed by the retiree canceling the request for the withholding.

(c) The retirement system shall send all dues withheld under this section to the nonprofit association after each monthly payment of annuities.

Sec. 825.517. EXCESS BENEFIT ARRANGEMENT. (a) A separate, nonqualified, unfunded excess benefit arrangement is created outside the trust fund of the retirement system. This excess benefit arrangement shall be administered as a governmental excess benefit arrangement under Section 415(m) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415(m)). The purpose of the excess benefit arrangement is to pay to annuitants of the retirement system benefits otherwise payable by the retirement system that exceed the limitations on benefits imposed by Section 415(b)(1)(A) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415(b)(1)(A)).

(b) The board of trustees is responsible for the administration of this arrangement. Except as otherwise provided by this section, the board has the same rights, duties, and responsibilities concerning the excess benefit arrangement as it has to the trust fund.

(c) Benefits under this section are exempt from execution to the same extent as provided by Section 821.005. Contributions to this arrangement are not held in trust and may not be commingled with other funds of the retirement system.

(d) An annuitant is entitled to a monthly benefit under this section in an amount equal to the amount by which the benefit otherwise payable by the retirement system has been reduced by the limitation on benefits imposed by Section 415(b)(1)(A) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415(b)(1)(A)). The benefit payable by this arrangement is payable at the times and in the form that the benefit payable under the trust fund is paid.

(e) The benefit payable under this section shall be paid from state contributions that otherwise would be made to the trust fund under Section 825.404. In lieu of deposit in the state contribution
account, an amount determined by the retirement system to be necessary to pay benefits under this section shall be paid monthly to the credit of a dedicated account in the general revenue fund maintained only for the excess benefit arrangement. The account may include amounts needed to pay reasonable and necessary expenses of administering this arrangement. The monthly amount to be paid to the credit of the account shall be transferred to the account at least 15 days before the date of a monthly disbursement under this section.

(f) The board of trustees may adopt rules governing the excess benefit arrangement that are necessary for the efficient administration of the arrangement in compliance with Section 415(m) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415(m)).

Added by Acts 1997, 75th Leg., ch. 1416, Sec. 31, eff. Sept. 1, 1997.

Sec. 825.519. ELECTRONIC INFORMATION. (a) The retirement system may provide confidential information electronically to members or other participants or employers and receive information electronically from those persons, including by use of an electronic signature or certification in a form acceptable to the retirement system. An unintentional disclosure to, or unauthorized access by, a third party related to the transmission or receipt of information under this section is not a violation by the retirement system of any law, including a rule relating to the protection of confidential information.

(b) The retirement system may provide to a member or retiree any information that is required to be provided, distributed, or furnished under Section 802.106(a), (b), (d), or (e) by:

(1) sending the information to an e-mail address of the member or retiree furnished to the retirement system by an employer covered by the retirement system; or

(2) directing the member or retiree through a written notice or e-mail to an Internet website address to access the information.

(c) The retirement system may provide to an active member of the retirement system the information that is required to be provided under Section 802.106(c) by sending the information to an e-mail address specified by the member for the purpose of receiving confidential information.
Sec. 825.520. IMMUNITY FROM LIABILITY. The trustees, executive
director, and employees of the retirement system are not liable for
any action taken or omission made or suffered by them in good faith
in the performance of any duty in connection with any program or

adopting rules governing an appeal authorized by law or rule of a
determination or decision of the retirement system by the system's
staff, including a final administrative decision of the system, the
board of trustees shall ensure that rules establishing deadlines for
filing the appeal afford a member or retiree at least the same amount
of time to file the appeal as the retirement system has to issue the
determination or decision.

retirement system to:

CHAPTER 830. OPTIONAL RETIREMENT PROGRAM

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 830.001.  PURPOSE OF CHAPTER. The purpose of this chapter is to establish a complete retirement program for faculty members
employed in state-supported institutions of higher education as an incentive that will attract high quality faculties and thereby improve the level of education at state-supported colleges and universities.

Sec. 830.0011. DEFINITION. Notwithstanding Section 821.001, in this chapter "retirement system" means the Teacher Retirement System of Texas or the Employees Retirement System of Texas, as the context requires.

Sec. 830.002. OPTIONAL RETIREMENT PROGRAM. Section 403), as it existed on January 1, 1981, and for the purchase of fixed or variable retirement annuities that meet the requirements of that section and Section 401(g) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401).

(b) Participation in the optional retirement program is an alternative to active membership in the retirement system.

(c) The Texas Higher Education Coordinating Board shall develop policies, practices, and procedures as necessary in accordance with applicable statutes to provide greater uniformity in the administration of the retirement annuity insurance program available to employees of Texas state colleges and universities through the optional retirement program.

(b) If a governing board has more than one component institution, agency, or unit under its jurisdiction, the governing board may provide a separate optional retirement program for each component or may place two or more components under a single program.

(c) An institution of higher education may establish a governmental excess benefit arrangement as provided by Section 415(m) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415). The governing board of an institution of higher education may take any action necessary to establish and implement a governmental excess benefit arrangement authorized in accordance with this subsection.

If qualified to do business in this state, a life insurance or annuity company is exempt from the payment of franchise or premium taxes on annuity or group insurance policies issued under a benefit program authorized and at least partly paid for by the governing board of an institution of higher education or the Texas Education Agency.

Sec. 830.006. REPORTS FROM INSTITUTIONS. Sec. 834.103. OPTIONAL SERVICE RETIREMENT ANNUITY. (a) Instead of a service retirement annuity payable under Section 834.102, a retiring member may elect to receive an optional service retirement annuity, payable throughout the life of the retiree and actuarially reduced, under tables adopted by the board of trustees, from the annuity otherwise payable to its actuarial equivalent.

(b) Optional service retirement annuities available to a retiring member are those available to retiring members of the Employees Retirement System of Texas under Section 814.108(c).

(c) A person may apply for an optional service retirement annuity by filing an application for the annuity with the retirement system before the 31st day after the date of the person's retirement.

(d) If a person who is nominated by a retiree in the written designation under Subsection (b) predeceases the retiree, the reduced annuity of a retiree who has elected an optional lifetime retirement annuity under Section 814.108(c) shall be increased to the standard service retirement annuity that the retiree would otherwise be
entitled to receive if the retiree had not selected that annuity option. The standard service retirement annuity shall be adjusted as appropriate for:

(1) early retirement as permitted by law; and
(2) postretirement increases in retirement benefits authorized by law after the date of retirement.

(e) The increase in the annuity under Subsection (d) begins with the monthly payment made to the retiree for the month following the month in which the person nominated dies or the September 30, 1991, payment, whichever is later, and is payable to the retiree for the remainder of the retiree's life.

(f) The computation of an optional service retirement annuity must include the ages of the retiring member and the member's designated beneficiary at the time of the member's retirement.

**SUBCHAPTER D. DEATH BENEFITS**

Sec. 834.301. SELECTION OF DEATH BENEFIT PLAN BY MEMBER. (a) A member who has at least 10 years of service credit in the retirement system may select a death benefit plan for the payment, if the member dies before retirement, of a death benefit annuity to one or more persons designated by the member. Death benefit annuities available for selection by a member described in this subsection are the optional annuities provided by Sections 814.108(c)(1) and (c)(4).

(b) Section 814.301(b) applies to a death benefit plan selected by a member in applicable circumstances.

(c) The computation of a death benefit annuity must include the ages of the member and of the member's designated beneficiary at the time of the member's death.

(d) A member may select a death benefit plan by filing an application for a plan with the board of trustees on a form prescribed by the board. After selection, a death benefit plan may take effect at death unless the member amends the plan, selects a retirement annuity at the time of the member's retirement, or becomes
ineligible to select a plan.

(e) A death benefit annuity is payable beginning on the day after the date the member dies.

Sec. 834.302. SELECTION OF DEATH BENEFIT PLAN BY SURVIVOR OF MEMBER. (a) If a member eligible to select a death benefit plan under Section 834.301(a) dies without having made a selection or if a selection cannot be made effective, the member's designated beneficiary may select a plan in the same manner as if the member had made the selection. If there is no designated beneficiary, the personal representative of the decedent's estate may make the selection.

(b) If a person dies who meets the description in Section 814.302(b), the person's designated beneficiary or the guardian of surviving minor children may select a death benefit plan under that subsection.

Sec. 834.303. RETURN OF CONTRIBUTIONS. (a) Except as provided by Subsection (c), if a member dies before retirement, the amount of the member's contributions to the retirement system is payable as a lump-sum death benefit.

(b) The benefit provided by this section is payable to a person designated by the member in a signed document filed with the board of trustees. If a member does not designate a beneficiary, the benefit is payable to the member's estate.

(c) A death benefit may not be paid under this section if a death benefit annuity has been selected as provided by Section
Sec. 834.304. RETURN OF EXCESS CONTRIBUTIONS. (a) Except as provided by Subsection (c), if a person dies after retirement, a lump-sum death benefit is payable in an amount, if any, by which the retiree's contributions to the retirement system on the date of retirement exceed the amount of annuity payments made before the retiree's death.

(b) The benefit provided by this section is payable to the retiree's designated beneficiary. If a retiree dies without having designated a beneficiary, the benefit is payable to the person entitled to distribution of the decedent's estate, if that person or the personal representative of the decedent's estate claims the benefit before the second anniversary of the decedent's death.

(c) A death benefit may not be paid under this section if an optional retirement annuity has been selected as provided by Section 834.103.

Sec. 834.305. BENEFICIARY CAUSING DEATH OF MEMBER OR ANNUITANT. (a) Any benefits, funds, or account balances payable on the death of a member or annuitant may not be paid to a person convicted of or adjudicated as having caused that death but instead are payable as if the convicted person had predeceased the decedent.

(b) A person who becomes eligible under this section to select death or survivor benefits may select benefits as if the person were the designated beneficiary.

(c) The retirement system shall reduce any annuity computed in part on the age of the convicted or adjudicated person to a lump sum...
equal to the present value of the remainder of the annuity. The reduced amount is payable to a person entitled as provided by this section to receive the benefit.

(d) The retirement system is not required to change the recipient of any benefits, funds, or account balances under this section unless it receives actual notice of the conviction or adjudication of a beneficiary. However, the retirement system may delay payment of any benefits, funds, or account balances payable on the death of a member or annuitant pending the results of a criminal investigation or civil proceeding and other legal proceedings relating to the cause of death.

(e) For the purposes of this section, a person has been convicted of or adjudicated as having caused the death of a member or annuitant if the person:

   (1) pleads guilty or nolo contendere to, or is found guilty by a court or jury in a criminal proceeding of, causing the death of the member or annuitant, regardless of whether sentence is imposed or probated, and no appeal of the conviction is pending and the time provided for appeal has expired; or

   (2) is found liable by a court or jury in a civil proceeding for causing the death of the member or annuitant and no appeal of the judgment is pending and the time provided for appeal has expired.

(d) The payment for the establishment or reestablishment of service under Subsection (c) must be made in a lump sum and completed before the first payment of a death benefit annuity, but not later than the 60th day after the date the retirement system receives notice of the death.

(d) After a member makes the deposits required by this section, the retirement system shall grant the member one month of equivalent membership service credit for each month of credit approved.

(e) The retirement system shall deposit the amount of the actuarial present value of the service credit purchased in the member's individual account in the retirement system.

(f) The board of trustees may adopt rules to administer this section, including rules that impose restrictions on the application of this section as necessary to cost-effectively administer this section.

Sec. 839.103. OPTIONAL SERVICE RETIREMENT ANNUITY. (a) Instead of a service retirement annuity payable under Section 839.102, a retiring member may elect to receive one of the following optional service retirement annuities, actuarially reduced to an
actuarially equivalent value and consisting of:

(1) an annuity payable during the retiring member's life and continuing after death in the same amount, throughout the life of one person designated by the retiring member before retirement;

(2) an annuity payable during the retiring member's life and continuing after death in an amount equal to one-half of the amount payable during the retiring member's life, throughout the life of one person designated by the retiring member before retirement;

(3) an annuity payable for the greater of the rest of the retiring member's life or 60 months;

(4) an annuity payable for the greater of the rest of the retiring member's life or 120 months; or

(5) an annuity payable during the retiring member's life and continuing after death in an amount equal to three-fourths of the amount payable during the retiring member's life, throughout the life of one person designated by the retiring member before retirement.

(b) An annuity selected under Subsection (a)(3) or (a)(4) that is payable after the retiring member's death shall be paid to one or more persons designated by the retiring member before or after retirement or, if no person has been designated or all designees die before all payments are made, to the retiree's estate.

(c) A person may apply for an optional service retirement annuity by filing an application for the annuity with the retirement system before the date of the person's retirement.

(d) If a person who is nominated by a retiree in the written designation under Subsection (a) predeceases the retiree, the reduced annuity of a retiree who has elected an optional lifetime retirement annuity under Subsection (a) shall be increased to the standard service retirement annuity that the retiree would otherwise be entitled to receive if the retiree had not selected that annuity option. The standard service retirement annuity shall be adjusted as appropriate for:

(1) early retirement as permitted by law; and

(2) postretirement increases in retirement benefits authorized by law after the date of retirement.

(e) The increase in the annuity under Subsection (d) begins with the monthly payment made to the retiree for the month following the month in which the person nominated dies and is payable to the retiree for the remainder of the retiree's life.

(f) The computation of an optional service retirement annuity
payable throughout the life of a named individual must include the age of that individual.

(g) An optional service retirement annuity may not provide that more than 50 percent of the value of the annuity, as determined at the time of retirement, be used to provide a benefit to a person other than the person on whose service the annuity is based.

SUBCHAPTER C. DISABILITY RETIREMENT BENEFITS

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 1245, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 839.201. ELIGIBILITY FOR DISABILITY RETIREMENT ANNUITY.

(a) A member, other than a member who is eligible to receive a service retirement annuity under Section 839.101, is eligible, regardless of age, to retire from regular active service for disability and receive a disability retirement annuity if the member has at least seven years of service credit in the retirement system.

(b) A member otherwise eligible may not receive a disability retirement annuity if the member is an active judge, as defined by Section 74.041.

(c) A disability retirement annuity may be denied on the ground that a claimed physical incapacity is caused by or results from an intemperate use of alcohol or narcotic drugs.

Amended by:

Acts 2019, 86th Leg., R.S., Ch. 1121 (H.B. 2384), Sec. 29, eff.
Sec. 839.202. APPLICATION FOR DISABILITY RETIREMENT ANNUITY.
(a) A member may apply for a disability retirement annuity by:
(1) filing an application for retirement with the board of trustees; or
(2) having an application filed with the board of trustees by the member's spouse, employer, or legal representative.
(b) An application for a disability retirement annuity may not be made:
(1) after the earlier of:
(A) the date the retirement is to become effective; or
(B) the second anniversary of the date the member ceased making contributions to the retirement system; or
(2) earlier than the 90th day before the date the retirement is to become effective.
(c) An applicant for a disability retirement annuity must submit to a medical examination and provide other pertinent information as may be required by the retirement system.

Sec. 839.2025. DETERMINATION OF DISABILITY. (a) In determining whether a member is mentally or physically incapacitated for the further performance of regular judicial duties, the medical board designated under Section 840.202 may apply the standard prescribed by Section 814.203.
(b) A retiree who receives a disability retirement annuity under this subchapter is subject to Section 814.208 to the same extent as a disability retiree under that subchapter.

Added by Acts 2019, 86th Leg., R.S., Ch. 1121 (H.B. 2384), Sec. 31, eff. September 1, 2019.
Sec. 839.203. DISABILITY RETIREMENT ANNUITY. (a) Except as provided by Subsection (b) or (c), a disability retirement annuity is an amount computed as provided by Section 839.102.

(b) The amount of a disability retirement annuity is not reducible because of the age of the retiring member.

(c) Instead of a disability retirement annuity computed as provided by Section 839.102, a retiring member may elect to receive an optional disability retirement annuity payable as provided by Section 839.103.

(d) A disability retirement annuity is payable for the duration of the retiree's disability. If a retiree who has selected an optional disability retirement annuity dies while receiving the annuity, the annuity is payable throughout the life of the retiree's designated beneficiary or for a guaranteed period after the date of retirement, depending on the option selected.

SUBCHAPTER D. DEATH BENEFITS

Sec. 839.301. SELECTION OF DEATH BENEFIT PLAN BY MEMBER. (a) An eligible member may select a death benefit plan for the payment of a death benefit annuity, to be paid if the member dies before retirement. Except as provided by Subsections (c) and (d), a death benefit annuity is an amount computed, in the manner provided under Sections 839.102(a) and (b) for computation of a standard service retirement annuity, as if the member had retired on the date of death and payable, beginning on the day after the date of the member's death, in one of the following ways:

(1) throughout the life of one person designated by the member; or

(2) to one or more persons designated by the member, for a period of 120 months.

(b) A member eligible to select a death benefit plan is one who is a member and has at least 10 years of service credit in the retirement system.

(c) The retirement system shall, under tables adopted by the board of trustees as provided by Section 840.005, actuarially reduce
the amount of a death benefit annuity payable under this section for the difference between the member's age on the date of death and age 65, if the member dies before attaining that age.

(d) The computation of a death benefit annuity selected under Subsection (a)(1) must include the age of the designated recipient.

(e) A member may select a death benefit plan by filing an application for a plan with the board of trustees on a form prescribed by the board. After selection, a death benefit plan takes effect at death unless the member amends the plan, selects a retirement annuity at the time of retirement, or has chosen a plan that cannot take effect.

Sec. 839.302. SELECTION OF DEATH BENEFIT PLAN BY SURVIVOR OF MEMBER. If a member eligible to select a death benefit plan under Section 839.301 dies without having made a selection or if a plan selected cannot be made effective, the member's designated beneficiary may select a plan in the same manner as if the member had made the selection. If there is no designated beneficiary, the personal representative of the decedent's estate may make the selection.

Sec. 839.303. MEMBER DEATH BENEFITS GENERALLY. (a) Except as provided by Subsection (c), if a contributing member dies, a lump-sum death benefit is payable from the retirement system in an amount computed at the rate of five percent of the amount in the member's individual account at the time of death times the number of full years of service credit the member had at the time of death.
(b) The benefit provided by this section is payable to a person designated by the member in a signed document filed with the retirement system. If a member does not designate a beneficiary or if the beneficiary does not survive the member, the benefit is payable to the member's estate.

(c) A death benefit may not be paid under this section if, at the time of death, the member was eligible to select a death benefit annuity under Section 839.301.

Sec. 839.304. RETURN OF CONTRIBUTIONS. (a) Except as provided by Subsection (c), if a member dies before retirement, the amount of the member's accumulated contributions is payable as a lump-sum death benefit.

(b) The benefit provided by this section is payable to a person designated by the member in a signed document filed with the board of trustees. If a member does not designate a beneficiary, the benefit is payable to the member's estate.

(c) A death benefit may not be paid under this section if, at the time of death, the member was eligible to select a death benefit annuity under Section 839.301.

Sec. 839.305. RETURN OF EXCESS CONTRIBUTIONS. (a) Except as provided by Subsection (c), if a person dies after retirement, a lump-sum death benefit is payable in an amount, if any, by which the retiree's contributions to the retirement system on the date of retirement exceed the amount of annuity payments made before the retiree's death.

(b) The benefit provided by this section is payable to the retiree's designated beneficiary. If a retiree dies without having designated a beneficiary, the benefit is payable to the person entitled to distribution of the decedent's estate if that person or
the personal representative of the decedent's estate claims the benefit before the second anniversary of the decedent's death.

(c) A death benefit may not be paid under this section if an optional retirement annuity has been selected as provided by Section 839.103 or 839.203(c).

Sec. 839.306. BENEFICIARY CAUSING DEATH OF MEMBER OR ANNUITANT.

(a) Any benefits, funds, or account balances payable on the death of a member or annuitant may not be paid to a person convicted of or adjudicated as having caused that death but instead are payable as if the convicted person had predeceased the decedent.

(b) A person who becomes eligible under this section to select death or survivor benefits may select benefits as if the person were the designated beneficiary.

(c) The retirement system shall reduce any annuity computed in part on the age of the convicted or adjudicated person to a lump sum equal to the present value of the remainder of the annuity. The reduced amount is payable to a person entitled as provided by this section to receive the benefit.

(d) The retirement system is not required to change the recipient of any benefits, funds, or account balances under this section unless it receives actual notice of the conviction or adjudication of a beneficiary. However, the retirement system may delay payment of any benefits, funds, or account balances payable on the death of a member or annuitant pending the results of a criminal investigation or civil proceeding and other legal proceedings relating to the cause of death.

(e) For the purposes of this section, a person has been convicted of or adjudicated as having caused the death of a member or annuitant if the person:

(1) pleads guilty or nolo contendere to, or is found guilty by a court or jury in a criminal proceeding of, causing the death of the member or annuitant, regardless of whether sentence is imposed or probated, and no appeal of the conviction is pending and the time provided for appeal has expired; or
(2) is found liable by a court or jury in a civil proceeding for causing the death of the member or annuitant and no appeal of the judgment is pending and the time provided for appeal has expired.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1249 (S.B. 1664), Sec. 16, eff. September 1, 2011.

SUBCHAPTER E. INCREASES IN BENEFITS

Sec. 839.401. ANNUITY INCREASE AFTER DEATH OR RETIREMENT. (a) Except as provided by Subsections (b) and (e), on the first day of each fiscal year, the retirement system shall increase the amounts of annuities that are payable by the system to a retiree, to the survivor of a retiree, or to the survivor of a deceased member.

(b) The retirement system may not increase under this section the amount of an annuity unless the retirement or death on which the annuity is based occurred before the first day of the preceding fiscal year.

(c) The legislature may appropriate money from the general revenue fund to pay the costs of increasing the amounts of annuities under this section. On the first day of each fiscal year, the state comptroller of public accounts shall transfer to the retirement system any money appropriated for the fiscal year for the purpose of this section.

(d) If the amount of money appropriated for a fiscal year is insufficient to finance the rate of increase in annuities specified in the Act making the appropriation or if the Act fails to specify a rate of increase, the board of trustees shall set the rate as the rate that the amount of money appropriated will finance for the duration of the annuities payable to those persons entitled to receive an increase in annuities under this section.

(e) If an appropriation is not made for a fiscal year for the purpose of this section, the retirement system may not increase under this section the amount of annuities for that year.

At least once every four years, the board of trustees by rule shall adopt interest rates and mortality, service, and other tables the board considers necessary for the retirement system after considering the results of the actuary's investigation of the mortality, service, and compensation experience of the system's members and beneficiaries under Section 815.206.

Sec. 840.008. CORRECTION OF ERRORS. If an error in the records of the retirement system results in a person receiving more or less money than the person is entitled to receive under this subtitle, the retirement system shall correct the error and so far as practicable shall adjust future payments so that the actuarial equivalent of the benefit to which the person is entitled is paid.

SUBCHAPTER B. COLLECTION OF MEMBERSHIP FEES AND CONTRIBUTIONS; APPROPRIATIONS

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 1245, 88th Legislature, Regular Session, for amendments affecting the following section.

(e) The deductions required by this section shall be made even if the member's state compensation is reduced below the amount equal to the minimum compensation provided by law.

(f) By becoming a member of the retirement system, a member consents to the deductions required by this section. The payment of state compensation less those deductions is a complete release of all claims, except benefits provided by this subtitle, for services rendered by the member during the payment period.

(g) Except as provided by Section 840.1025, a member who accrues 20 years of service credit in the retirement system ceases making contributions under this section but is considered a contributing member for all other purposes under this subtitle.

(h) If a member has served at least 12 years on an appellate court and the sum of the member's age and amount of service credited in the retirement system equals or exceeds the number 70, the member ceases making contributions under this section. A member described by this subsection is considered a contributing member for all other purposes under this subtitle.
Sec. 840.1025. CONTRIBUTIONS AFTER 20 YEARS OF SERVICE CREDIT. (a) A judicial officer who is a member of the retirement system and who accrues 20 years of service credit in the retirement system may elect to make contributions for each subsequent year of service credit that the member accrues by filing an application with the retirement system.

Sec. 840.103. COLLECTION OF STATE CONTRIBUTIONS. (a) During each fiscal year, the state shall contribute to the retirement system an amount equal to a percentage of the aggregate state compensation of all contributing members of the retirement system for that year, as provided by Subsection (b)(1).

(b) Not later than December 31 of each even-numbered year, the retirement system shall certify to the Legislative Budget Board and to the budget division of the governor's office for review:

(1) an actuarial valuation of the retirement system to determine the percentage of annual payroll required from the state to finance fully the retirement system as provided by Section 840.106;

(2) an estimate of the amount necessary to pay the state's contribution under Subdivision (1) for the following biennium; and

(3) as a separate item, an estimate of the amount, in addition to anticipated receipts from membership fees, required to administer the retirement system for the following biennium.

(c) The amount certified under Subsection (b)(2) shall be included in the budget of the state that the governor submits to the legislature. The legislature may appropriate money to pay administrative costs of the retirement system.

(d) Before September 1 of each year, the retirement system
shall certify to the state comptroller of public accounts an estimate of the amount necessary to pay the state's contribution under Subsection (a) for the following fiscal year.

(e) All money allocated and appropriated by the state to the retirement system for benefits provided by the retirement system shall be paid, based on the annual estimate of the retirement system, in monthly installments to the retirement system. The money required for state contributions shall be from money appropriated to pay the compensation of the member for whose benefit the contribution or fee is paid. If the total of the estimated required payments is not equal to the total of the actual payments required for a fiscal year, the retirement system shall certify to the state comptroller of public accounts at the end of that year the amount required for necessary adjustments, and the comptroller shall make the required adjustments.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 1245, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 840.105. EMPLOYER PICKUP OF MEMBER CONTRIBUTIONS. (a) For all state compensation earned after December 31, 1989, by judicial officers who are members of the retirement system, the state shall pick up the member contributions required by Section 840.102. The state shall pay the picked-up contributions to the retirement system from the same source that is used in paying state compensation to the judicial officer members. These payments are in lieu of contributions by the members. The state shall pick up these contributions by a corresponding reduction in the cash salaries of the members, by an offset against a future salary increase, or by a combination of a salary reduction and offset against a future salary increase. Members do not have the option of choosing to receive the
contributed amounts directly instead of having them paid by the state to the retirement system.

(b) Contributions picked up as provided by Subsection (a) shall be treated as employer contributions in determining tax treatment of the amounts under the United States Internal Revenue Code; however, the state shall continue to withhold federal income taxes on these picked-up contributions until the Internal Revenue Service determines or the federal courts rule that pursuant to Section 414(h) of the Internal Revenue Code of 1986 (26 U.S.C. Section 414(h)) these picked-up contributions are not includable as gross income of the member until the time that they are distributed or made available.

(c) Member contributions picked up as provided by Subsection (a) shall be transmitted to the retirement system in the manner required by Section 840.102. Member contributions picked up by the state shall be credited to the members' individual accounts and treated for all other purposes as if the amounts were a part of the members' compensation and had been deducted as provided by Section 840.102.

Sec. 840.106. ACTION INCREASING AMORTIZATION PERIOD. (a) A rate of member or state contributions to or a rate of interest required for the establishment of credit in the retirement system may not be reduced or eliminated, a type of service may not be made creditable in the retirement system, a limit on the maximum permissible amount of a type of creditable service may not be removed or raised, a new monetary benefit payable by the retirement system may not be established, and the determination of the amount of a monetary benefit from the system may not be increased, if, as a result of the particular action, the time, as determined by an actuarial valuation, required to amortize the unfunded actuarial liabilities of the retirement system would be increased to a period that exceeds 30 years by one or more years.

(b) If the amortization period for the unfunded actuarial liabilities of the retirement system exceeds 30 years by one or more years at the time an action described by Subsection (a) is proposed,
the proposal may not be adopted if, as a result of the adoption, the amortization period would be increased, as determined by an actuarial valuation.

(2) an attorney in fact authorized to act on behalf of the
person by a written power of attorney that provides that the power is not revoked by disability of the person, except that an attorney in fact who is not the person's spouse may not select a benefit in which the attorney in fact or a direct ancestor or lineal descendant of the attorney in fact is a named beneficiary, unless the attorney in fact designates as the person's beneficiary:

(A) the same individuals, with the same share of the benefit that each would have received if the person had died immediately before the beneficiary designation by the attorney in fact; or

(B) all individuals who bear the same relationship to the attorney in fact, with the same share of the benefit that each would have received if the person had died intestate.

(b) If it is made to appear to the director by affidavit of a licensed physician that a person entitled to a benefit is not mentally capable of managing the person's own affairs, and if the director reasonably believes that the estate of the person is insufficient to justify the expense of establishing a guardianship, or continuing a guardianship after letters of guardianship have expired, then until current letters of guardianship are filed with the retirement system, the director may make payment of any annuity or other benefit:

(1) to the spouse of the person, as trustee for the person;

(2) to an individual or entity actually providing for the needs of and caring for the person, as trustee for the person; or

(2) a trust described by 42 U.S.C. Section 1396p(d)(4)(A), (B), or (C) that has been established to qualify the person for benefits or other assistance under a state or federal program or to
supplement the benefits or other assistance provided under the program.

(c-1) If the director reasonably believes that the individual or entity accepting benefits for the person has breached a fiduciary duty owed to the person or is failing to act in the interest of or for the benefit of the person and the person may suffer personal or financial harm as a result, the retirement system, on giving notice to the individual or entity receiving payments on behalf of the person, may cease making payments to the individual or entity. Thereafter, the system may make payment of any annuity or other benefit in a manner provided by Subsection (b). This subsection does not apply if a court of competent jurisdiction has appointed the individual or entity accepting benefits for the person.

(d) The director may require proof of facts used to establish a right under this section by evidence the director determines is satisfactory.

Acts 2017, 85th Leg., R.S., Ch. 324 (S.B. 1488), Sec. 22.042, eff. September 1, 2017.

divorce that awards a portion of a member's accrued benefit to a
former spouse of the member and that strictly follows the terms and
format of the model qualified domestic relations order, as well as
any other requirements, adopted by the board of trustees for this
purpose, the retirement system shall divide the accrued benefit into
two separate benefits that, in combination at the time of division,
are actuarially equivalent to the undivided accrued benefit.

(b) Following a division described by Subsection (a), the
portion of the accrued benefit awarded the alternate payee is
considered the alternate payee's sole and separate property in which
the member has no interest. The board of trustees by rule shall
define and specify the rights and responsibilities of the alternate
payee and the terms and features of the benefit awarded the alternate
payee under the order, but in no event may the alternate payee vest
in the accrued benefit before the member vests or attain greater
rights than are attained by the member or the member's beneficiary.

(c) Notwithstanding Section 804.101, the board of trustees by
rule may prescribe terms on which the interest awarded the alternate
payee under a qualified domestic relations order described by this
section may be transferred at the alternate payee's death.

(d) The board of trustees has sole authority and discretion to:

(1) specify the terms and format that are required for a
qualified domestic relations order to be acceptable for purposes of
Subsection (a);

(2) require strict compliance for qualification;

(3) specify the dates on which a distribution to an
alternate payee may or must begin; and

(4) establish rules for the administration of this section.

(e) This section applies to all domestic relations orders
described by this section that the retirement system first determines
to be qualified on or after September 1, 2009, and to those domestic
relations orders determined to be qualified before September 1, 2009,
that the system further determines can be construed to allow a
division described by this section without harm or injury to the
member's interest awarded under the original qualified order. The
actuarial equivalent value of the accrued benefit payable to an
alternate payee may not be greater than the actuarial equivalent
value of the accrued benefit as if there had been no division and the
accrued benefit had been payable to the member in the form of an
annuity.
Sec. 841.010. DISTRIBUTION REQUIREMENTS. (a) Notwithstanding any other provision of this subtitle, all distributions under this subtitle must be determined and made in accordance with Section 401(a)(9) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401) and the regulations adopted under that provision, including the minimum incidental death benefit distribution requirement of Section 401(a)(9)(G) of that code. The board of trustees may adopt rules relating to the selection, payment, and distribution of benefits to ensure compliance with federal statutes and regulations.

(b) The entire vested interest of a participant must be distributed or begin to be distributed not later than the required beginning date as determined in accordance with Section 401(a)(9) of the Internal Revenue Code of 1986 and the regulations adopted under that provision. If the participant dies after distribution of the participant's interest has begun, the remaining portion of the interest will continue to be distributed at least as rapidly as the method of distribution being used before the participant's death. If the participant dies before distribution of the participant's interest begins, distribution of the participant's entire interest must be made in a manner complying with Section 401(a)(9)(B) of the code.

Sec. 841.011. FULL VESTING OF ACCRUED BENEFITS AT TERMINATION. If the retirement system is terminated or if there is a complete discontinuance of contributions to the retirement system, each member will become fully vested in that member's accrued benefit to the extent funded as of the date of termination or contribution discontinuance.

SUBCHAPTER B. PENAL PROVISIONS

Sec. 841.101. OFFENSES; PENALTY. (a) A person commits an offense if the person knowingly makes a false statement in a report or application to the retirement system in an attempt to defraud the retirement system.

(b) A person commits an offense if the person knowingly makes a false certificate of an official report to the retirement system.

(c) A person commits an offense if the person knowingly fails to return money received from the retirement system to which the person is not entitled.

(d) An offense under this section is a misdemeanor punishable by a fine of not less than $100 nor more than $1,000, by confinement in jail for not less than 30 days nor more than one year, or both.

CHAPTER 842. MEMBERSHIP

SUBCHAPTER A. SUBDIVISION PARTICIPATION

Sec. 842.001. SUBDIVISION PARTICIPATION. (a) A subdivision, in the manner required for official actions of the subdivision, may elect to join the retirement system and be subject to the provisions of this subtitle.

(b) Repealed by Acts 2007, 80th Leg., R.S., Ch. 873, Sec. 92(1), eff. January 1, 2008.

(c) A political subdivision other than a county may participate in the retirement system only upon approval of the board of trustees of the system.

(d) Subject to the approval of the board of trustees, an elective subdivision under this section may begin participation in the retirement system on the date specified by the subdivision's governing body.

Sec. 842.002. RULES FOR PARTICIPATING SUBDIVISIONS. The board of trustees may adopt rules concerning:

(1) notices, information, and reports the board of trustees requires from a subdivision that elects to participate in the retirement system;

(2) the time that a subdivision that elects to participate in the retirement system may begin participation and the actions that subdivision may take in anticipation of board approval under Section 842.001; and

(3) the powers and duties of a participating subdivision to adopt orders or resolutions, make elections, and otherwise exercise decision-making authority concerning the rights and benefits of the members and annuitants under a plan adopted or assumed by the subdivision.

Sec. 842.004. OPTIONAL GROUP TERM LIFE PROGRAM. (a) A subdivision participating in the retirement system may elect to participate in the optional group term life program.

(b) A subdivision that elects to participate in the program may elect coverage providing postretirement death benefits in addition to coverage providing in-service death benefits.

(c) A subdivision that elects to participate in the program may begin participation on the first day of any month after the month
in which the subdivision gives notice of its election to the board of trustees.

(d) If before November 1 of any year a subdivision gives written notice of its intention to the retirement system, the subdivision may terminate coverage under and discontinue participation in the program. A termination under this subsection is effective on January 1 of the year following the year in which notice is given.

(e) If a subdivision has previously discontinued participation in the program, the board of trustees in its discretion may restrict the right of the subdivision to participate again.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 6, eff. January 1, 2008.

Sec. 842.007. SUBDIVISION NOT AGENT OF SYSTEM. Neither a subdivision that participates in the retirement system nor any employee or officer of a participating subdivision has authority to act as an agent of the retirement system. An action or inaction on the part of a participating subdivision or its employee or officer is not binding on the retirement system.

Added by Acts 1993, 73rd Leg., ch. 175, Sec. 2, eff. Jan. 1, 1994.

Sec. 842.0075. ASSUMPTION BY SUCCESSOR SUBDIVISION. (a) The governing body of a participating subdivision may, with the consent of the board of trustees and on terms approved by the board, assume the subdivision account and pension liabilities of a subdivision that no longer exists, is in the process of dissolution, is changing its operational form, or no longer has employees. The account and pension liabilities of a subdivision described by this subsection may not be assumed if the subdivision has executed a voluntary
termination agreement under Section 842.052 or if the board has specified a date under Section 842.053 for the involuntary termination of the subdivision's participation in the retirement system.

(b) Subject to any limitation set by the board of trustees, the governing body of the assuming subdivision may exercise any authority with respect to plan provisions applicable to members and annuitants of the subdivision plan being assumed that the governing body of that subdivision could have exercised.

(c) Except as otherwise provided by this section, all retirement plan provisions in effect on the assumption date remain in effect until changed by the governing body of the assuming subdivision.

(d) As of the assumption date, the account in the subdivision accumulation fund being assumed and the account of the assuming subdivision will be treated as one account for the purposes of receiving allocations under this subtitle and paying benefits accrued with respect to either subdivision.

(e) The retirement system is not liable to any person for any claim or loss of benefits resulting from the assumption by another participating subdivision of the account and pension liabilities of a subdivision described by Subsection (a).

(f) The board of trustees by rule may establish standards, definitions, and procedures it considers necessary to administer this section and shall take reasonable actions and exercise its discretion in a fair and equitable manner on a case-by-case basis to preserve accrued benefits.

Added by Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 5, eff. January 1, 2006.

Sec. 842.008. PARTIAL ASSUMPTION BY TRANSFEREE SUBDIVISION. If a function or activity previously performed by employees of a participating subdivision is transferred to or otherwise taken over by another participating subdivision and any of the employees performing the function or activity transfer to and become employees of the subdivision taking over the function or activity, with the consent of and on terms approved by the board of trustees, the pension liabilities accrued by the transferring employees for service
with the transferring subdivision, together with an appropriate portion of trust assets in the account of the transferring subdivision, may be treated as and considered to be a separate account and pension liabilities of the subdivision taking over the function or activity.

Added by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 7, eff. January 1, 2008.

SUBCHAPTER A-1. TERMINATION OF PARTICIPATION BY SUBDIVISIONS

Sec. 842.051. GENERAL PROVISIONS. (a) Notwithstanding any provision of this subchapter to the contrary, to the extent required by applicable provisions of the Internal Revenue Code of 1986, on termination of a subdivision's participation in the retirement system or on complete discontinuance of contributions, each member becomes fully vested in the member's accrued benefit with respect to the subdivision to the extent funded as of the date of termination or contribution discontinuance.

(b) The retirement system is not liable to any person for any claim or loss of benefits resulting from the termination of a subdivision's participation in the system or the failure of a subdivision to make required contributions or payments under a termination agreement.

(c) The board of trustees by rule may establish standards, definitions, and procedures it considers necessary to administer this subchapter and shall take reasonable actions and exercise its discretion in a fair and equitable manner on a case-by-case basis to preserve accrued benefits.

Added by Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 6, eff. January 1, 2006.

Sec. 842.052. VOLUNTARY TERMINATION OF PARTICIPATION. (a) With the consent of the board of trustees, a subdivision other than a county may voluntarily terminate its participation in the retirement system if the subdivision agrees to be contractually and legally bound, on terms approved by the board, to fund:

(1) all benefits accrued before the date specified in the termination agreement and payable on or after that date in accordance
with Subsection (e); and

(2) all supplemental annuities.

(b) Beginning with the date specified in the termination agreement, additional employee contributions or deposits may not be made to a member's account and additional service with the subdivision may not be credited to a member, except as authorized by the board. Except as otherwise provided by this section, all other retirement plan provisions then in effect remain in effect.

(c) Beginning with the date specified in the termination agreement, the subdivision's account in the subdivision accumulation fund ceases to receive allocations under this subtitle for any prior, current, or future plan year, except as authorized by the board.

(d) On full performance of the termination agreement, the subdivision is released from all liability for its accrued benefits and supplemental annuities. The retirement system shall make transfers from the subdivision's account to the appropriate funds within the system in amounts actuarially equivalent to the accrued benefits and supplemental annuities. The retirement system shall pay any amounts remaining in the subdivision's account after satisfaction of all the subdivision's pension liabilities to the subdivision or its governmental successor in interest in accordance with Section 845.317(b).

(e) On full performance of the termination agreement, each member who has not received a refund of accumulated contributions becomes fully vested in the member's accrued benefits with respect to the subdivision and is immediately eligible to retire with a service retirement annuity or to take a distribution of the accrued benefits in a lump sum, regardless of age, service, or employment.

(f) A member vested under Subsection (e) or Section 842.051(a) is an eligible member under Section 844.407. For the purpose of determining any death benefit payable under Section 844.402, the member's individual account consists only of the deposits and contributions made by the member and the accumulated interest attributable to those amounts.

Added by Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 6, eff. January 1, 2006.

Amended by:

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 8, eff. January 1, 2008.
Sec. 842.053. INVOLUNTARY TERMINATION OF PARTICIPATION.  (a) The board of trustees by order may terminate the participation of a subdivision other than a county if the board determines that:

(1) the subdivision has failed to perform in accordance with a termination agreement under Section 842.052;

(2) the subdivision has ceased to exist, is in the process of dissolving, or is changing its operational form;

(3) benefits accrued for service with the subdivision may be at risk of forfeiture;

(4) the retirement system no longer serves as an effective program for providing retirement, disability, and death benefits to the employees of the subdivision because of the action or inaction of the subdivision or because of a significant change in covered payroll, number of contributing members, workforce composition, general revenues, or other circumstances of the subdivision; or

(5) the continued participation of the subdivision is not in the best interest of the retirement system, the subdivision, the employees of the subdivision, or the other participating subdivisions.

(b) Beginning with a date specified by the board, additional employee deposits or contributions may not be made to a member's account with the subdivision and additional service with the subdivision may not be credited to a member, except as authorized by the board. Except as otherwise provided by this subchapter, all other retirement plan provisions then in effect remain in effect.

(c) Beginning with a date specified by the board, the subdivision's account in the subdivision accumulation fund ceases to receive allocations under this subtitle for any prior, current, or future plan year except as authorized by the board.

(d) Beginning with a date specified by the board, the retirement system shall value the accrued benefits and supplemental annuities with respect to the subdivision's participation as immediately payable under this subchapter. If the assets in the subdivision's account exceed the actuarial equivalent value of pension benefits, the subdivision is released from all liability with respect to the accrued benefits and supplemental annuities. The retirement system shall make transfers from the subdivision's account to the appropriate funds within the system in amounts actuarially
equivalent to all accrued benefits and supplemental annuities. The retirement system shall pay any amount remaining in the subdivision's account after satisfaction of all the subdivision's pension liabilities to the subdivision or its governmental successor in interest in accordance with Section 845.317(b).

(e) If the actuarial equivalent value of pension benefits exceeds the assets in the subdivision's account, the subdivision or its governmental successor in interest may make a contribution in any amount to the subdivision's account. The retirement system shall transfer the assets of the subdivision's account in the subdivision accumulation fund to appropriate funds within the system and allocate the assets as provided by Sections 842.054-842.057.

Sec. 842.054. CLASS A. In a case of involuntary termination under Section 842.053, the retirement system shall make a proportionate transfer to the individual account of each member of the subdivision eligible to retire based on the ratio that the member's current service credit bears to the total current service credit of the class. The transfer to a member's individual account may not exceed 100 percent of the member's current service credit.

Added by Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 6, eff. January 1, 2006.

Sec. 842.055. CLASS B. If any assets remain after the transfers are made under Section 842.054, the retirement system shall make a proportionate transfer to the individual account of each member of the subdivision not eligible to retire based on the ratio that the member's current service credit bears to the total current service credit of the class. The transfer to a member’s individual account may not exceed 100 percent of the member's current service credit.
Sec. 842.056. CLASS C. If any assets remain after the transfers are made under Sections 842.054 and 842.055, the retirement system shall make a transfer to the closed subdivision annuity reserve fund in an amount computed as necessary to fund the basic and supplemental annuities of the annuitants of the subdivision and a transfer to the individual account of each member of the class eligible to retire in an amount that equals the multiple matching credits and prior service credits of the member. If necessary, the retirement system shall proportionately reduce an individual's total credits or supplemental annuity, as applicable, based on the ratio that the individual's total actuarial equivalent of benefits described by this section bears to the aggregate total actuarial equivalent of all those benefits of the class.

   Acts 2015, 84th Leg., R.S., Ch. 303 (S.B. 463), Sec. 1, eff. June 1, 2015.

Sec. 842.057. CLASS D. If any assets remain after the transfers are made under Sections 842.054, 842.055, and 842.056, the retirement system shall make a proportionate transfer to the individual account of each member not eligible to retire based on the ratio that the sum of the member's multiple matching credits and prior service credits bears to the total multiple matching credits and prior service credits of the class. The transfer to a member's individual account may not exceed 100 percent of the member's multiple matching credits and prior service credits.

Added by Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 6, eff. January 1, 2006.

Sec. 842.058. BENEFITS. (a) After the transfers, allocations, and any necessary reductions described by Sections 842.054-842.057
have been made, each member who has not received a refund of accumulated contributions becomes fully vested in the member's accrued benefits with respect to the subdivision to the extent funded and is immediately eligible to retire with a service retirement annuity or to take a distribution of the accrued benefits in a lump sum, regardless of age, service, or employment.

(b) A member vested under this section or Section 842.051(a) is an eligible member under Section 844.407. For the purpose of determining any death benefit payable under Section 844.402, the member's individual account consists only of the deposits and contributions made by the member and the accumulated interest attributable to those amounts.

Added by Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 6, eff. January 1, 2006.

SUBCHAPTER B. MEMBERSHIP

Sec. 842.101. GENERAL MEMBERSHIP REQUIREMENT. (a) Except as otherwise provided by this subchapter, a person who is not a member becomes a member of the retirement system on the latest of:

(1) the date the subdivision's participation in the retirement system becomes effective, if the person is a subdivision employee on that date;

(2) the date the person becomes a subdivision employee; or

(3) January 1, 2006, if the person is an employee of a participating subdivision on that date and was previously excluded from retirement system membership.

(b) Except as otherwise provided by this subtitle or by rules adopted by the board of trustees, the rights and benefits of a member are determined separately with respect to each subdivision with which the member has credited service.

(c) If a person's status as a temporary employee ceases, and the person becomes an employee within the meaning of this subtitle, the subdivision shall certify the change to the retirement system, and the person becomes a member effective on the date of the certification, but without credit for the period during which the person was a temporary employee.

Sec. 842.104. COUNTY HOSPITAL EMPLOYEES. (a) If a county elects to participate in the retirement system, the commissioners court of the county may elect to deny membership to the employees of a county hospital governed by Chapter 263, Health and Safety Code.

(b) After making an election under this section, the commissioners court may at any time reverse its decision and require that county hospital employees become members on a date fixed by order of the commissioners court.

(c) If the commissioners court reverses an election under this section and requires the employees of a county hospital to become members of the retirement system, for the purposes of this subtitle the employees of the county hospital comprise a separate subdivision from other county employees.

(d) If on the effective date of participation in the retirement system a county is not operating a county hospital, the order or resolution of the commissioners court electing to participate in the system does not include employees of a hospital later established or operated by the county. The commissioners court may elect to have the employees of a hospital later established or operated by the county participate in the retirement system as a unit, which for purposes of this subtitle comprises a subdivision separate from other county employees.

(e) The commissioners court is the governing body of a county hospital for the purposes of this subtitle.

Sec. 842.105. STATUS AS AN EMPLOYEE. For the purposes of this subtitle, a person has the standing of an employee in a participating subdivision if the person is an employee, other than a temporary employee, of a community supervision and corrections department that has executed a contract with the participating subdivision under Section 76.006, Government Code.

Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 8, eff. January 1, 2006.

Sec. 842.106. MULTIPLE RETIREMENT SYSTEM MEMBERSHIP. A person who is a member of this retirement system and another state or local retirement system authorized under Section 67, Article XVI, Texas Constitution, may receive a benefit from this system only to the extent that the amount of the benefit is computed solely on the member's accumulated contributions and service credit in this system. Service credited by another retirement system may not be used to determine eligibility for a benefit in this retirement system except as provided by Chapter 803.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 11, eff. January 1, 2008.
Sec. 842.107. OPTIONAL MEMBERSHIP. (a) A subdivision may authorize to be a member of the retirement system a person who is accruing benefits in another statewide retirement system for service in an elected or appointed judicial or district office or as an employee of the state or a governmental unit of the state during the same period the person is receiving supplemental compensation from the subdivision. A person described by this subsection who is first included for optional membership after December 31, 2005, may not contribute to the employees saving fund or receive any service credit for any supplemental compensation received before the date the subdivision makes the person eligible to become a member.

(b) The board by rule may establish reasonable restrictions and limitations on the granting of membership and service credit under this section.

Acts 2005, 79th Leg., Ch. 506 (H.B. 633), Sec. 9, eff. January 1, 2006.

Sec. 842.108. WITHDRAWAL OF ACCUMULATED CONTRIBUTIONS. (a) A member who has separated from employment with a participating subdivision may submit an application to withdraw the member's accumulated contributions attributable to service with that subdivision. A withdrawal cancels the person's service credit attributable to service with that subdivision on the date the retirement system makes payment of any portion of the member's accumulated contributions.

(b) Except for a membership terminated under prior law or in accordance with Section 842.109(b), interest is computed on the balance in the member's individual account in the employees saving fund on January 1 of the year of withdrawal through the month before
the month in which the withdrawal occurs.

(c) If a person eligible to receive a withdrawal or another non-periodic distribution elects to have all or a portion of the distribution paid directly to an eligible retirement plan and specifies the plan to which the distribution is to be paid on forms approved by the board of trustees, the retirement system shall make the payment in the form of a direct trustee-to-trustee transfer but is under no obligation to determine whether the other plan in fact is an eligible retirement plan for that purpose.

(d) Notwithstanding Subsection (c), the board of trustees shall adopt rules to administer this section as necessary to maintain the retirement system as a qualified plan under Section 401(a) of the Internal Revenue Code of 1986. The rules may include the adoption of definitions and limitations relating to distributions, eligible recipients, and eligible retirement plans.

Sec. 842.109. TERMINATION OF MEMBERSHIP. (a) A person terminates membership in the retirement system by:

(1) retirement from all participating subdivisions with which the person has service credit; or

(2) withdrawal of all of the person's accumulated contributions.

(b) Unless terminated under Subsection (a), a person's membership in the retirement system terminates on the earlier of the
date of the person's death or the last day of the month ending before the person's required beginning date determined in accordance with Section 841.010.

(c) A member of the retirement system who leaves employment with a participating subdivision to perform and does perform qualified military service in the uniformed services, as that term is defined in the Uniformed Services Employment and Reemployment Rights Act of 1994 (38 U.S.C. Section 4301 et seq.), that meets the requirements of that Act is not absent from service and continues to accumulate credited service with that subdivision if:

(1) the person applies for reemployment with the same subdivision not later than the 90th day after the date the person is discharged from military service under honorable conditions or released from hospitalization continuing after being discharged under honorable conditions for a period of not more than two years; and

(2) the person is reemployed by the same participating subdivision.

Sec. 842.110. RESUMPTION OF SERVICE AFTER WITHDRAWAL OR RETIREMENT. (a) Except as provided by Subsection (b), a person who has withdrawn the person's accumulated contributions or who has retired from a participating subdivision with a service retirement annuity based on a bona fide termination of employment and with a
break in service of not less than one calendar month resumes membership in the retirement system without repayment of the amount distributed or cancellation of the person's annuity if the person becomes an employee of any participating subdivision.

(b) A person who resumes employment with the same subdivision from which the person was previously employed and does not meet the requirements of Subsection (a) is considered not to have been eligible for a withdrawal and not to have retired with respect to that subdivision. The person's membership will be restored, the person's service retirement annuity will be canceled, and the person must return any amounts distributed and payments received. Appropriate adjustments will be made for any amounts not returned.

(c) A membership established under the requirements of Subsection (a) is considered to be a new membership for the purposes of beneficiary determinations and benefit selections.

(d) After terminating employment with a participating subdivision, a member who has previously retired with a service retirement annuity under this subtitle and who meets the requirements of Subsection (a) is eligible to apply for and receive an additional standard or optional service retirement annuity or a refund of the member's accumulated contributions for service with the subdivision, without regard to any age or credited service requirement, except as provided by Subsection (f).

(e) On the death of a member who meets the requirement of Subsection (d), a person may apply for and receive an optional service retirement annuity or a refund of the decedent's accumulated contributions in the manner provided by Subsection (d), except as provided by Subsection (f).

(f) The waiver of an age or credited service requirement under this section does not apply to a person who becomes eligible to retire solely as a result of a subdivision's termination of participation under Subchapter A-1, Chapter 842.

Sec. 842.112. CORRECTION OF ERRORS. (a) The retirement system may correct an error caused by an act or omission of the retirement system by any appropriate means.

(b) If an act or omission of a participating subdivision causes a person to receive more or less credited service, service credit, or benefits than the person is entitled to receive, the correction of the error is the responsibility of the subdivision.

(c) An error caused by an act or omission of a participating subdivision may be corrected:

(1) by the subdivision on its own motion if approved by the retirement system and if satisfactory proof of the error is submitted to the retirement system; or

(2) through a judicial or quasi-judicial proceeding between the person and the participating subdivision resulting in a judgment, order, or settlement agreement that meets the requirements of Section 842.113.

(d) A person seeking the correction of an error relating to membership, rights, benefits, or benefit payments under the retirement system must timely provide to the appropriate subdivision or the retirement system written notice specifically describing the error. The written notice must be received before the first anniversary of the earlier of the date the person discovers the error or the date a reasonable, diligent person should have discovered the error.

(e) If the act of a third person causes the retirement system to make a payment of a survivor benefit or death benefit to someone other than the person entitled to the payment, the system shall, after receiving credible evidence of an erroneous payment, determine the beneficiary entitled to the benefit and, if necessary, adjust future payments to the extent practicable to ensure that the present
value of the remainder of the benefit will be paid to the person entitled to it.

(f) The retirement system is not liable to any person for any payments described by Subsection (e) made before the date the system receives credible evidence of an erroneous payment. Any payments made before that date are a complete discharge of the system's responsibility for those payments and benefits.

(f-1) If, pursuant to a valid application for a withdrawal or for retirement, the retirement system issues a check made payable to the applicant, properly addressed as directed on the application and sent by first-class mail, and the check is negotiated by any person, the system is not liable to any person with respect to the payment after the first anniversary of the date the check was mailed.

(f-2) If, pursuant to a valid application for a withdrawal or for retirement, the retirement system causes funds to be electronically transferred to the account specified on the application, the system is not liable to any person for that payment or any claim relating to the payment beginning on the date of the transfer.

(g) A recipient who receives a payment to which the recipient is not entitled holds the payment in constructive trust for the person entitled to the payment.

Sec. 842.113. JUDGMENTS, ORDERS, AND SETTLEMENT AGREEMENTS.

(a) If, as a result of a suit against a participating subdivision in a court of competent jurisdiction or as a result of a complaint or grievance against a participating subdivision filed with the United States Equal Employment Opportunity Commission, the civil rights
division of the Texas Workforce Commission, or a county civil service commission, a judgment or order is issued or a settlement agreement is executed, the terms of which require that a person's membership record be adjusted with respect to the person's account balance, service credit, or credited service, the retirement system shall make appropriate adjustments if:

(1) the judgment or order has become final and is no longer subject to appeal;
(2) a certified copy of the judgment, order, or settlement agreement accompanies the application; and
(3) the retirement system receives payment on behalf of the person in an amount equal to the contributions the person would have made to the system if the acts or omissions that resulted in the order, judgment, or settlement agreement requiring an adjustment to the person's membership record had not occurred or, if restoration of a refunded account is required, the system receives payment on behalf of the person in an amount equal to the amount withdrawn.

(b) The retirement system may not implement an order, judgment, or settlement agreement in a manner that would grant a person a status, right, or benefit not otherwise available under this subtitle.

(c) The retirement system may seek, or require the parties to seek, clarification or modification of any judgment or order, or may require the parties to provide a binding agreement as to the interpretation of any settlement if the director determines that the terms of the judgment, order, or agreement are unclear or cannot be feasibly implemented by the system.

Sec. 842.114. BURDEN OF PROOF. (a) A person disputing the validity of a form, application, or other document filed with the retirement system has the burden of proving the document to be false, fraudulent, or otherwise invalid.

(b) A person seeking a correction based on an error caused by an act or omission of the retirement system or a subdivision has the burden of proving the error and the act or omission causing the error.
(c) A person described by Subsection (a) or (b) has the burden of showing:

(1) reasonableness and diligence in discovering the invalidity or error; and

(2) timeliness in notifying the retirement system or the appropriate subdivision.

CHAPTER 843. CREDITABLE SERVICE
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 843.001. TYPES OF CREDITABLE SERVICE. The types of service creditable as credited service in the retirement system are prior service, current service, and optional service. A member may not be credited in this system with more than one month of credited service for a specific calendar month, regardless of the number of employers of the member, the positions held, or the types of service.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 15, eff. January 1, 2008.
Acts 2009, 81st Leg., R.S., Ch. 300 (H.B. 407), Sec. 7, eff. January 1, 2010.

Sec. 843.002. BENEFIT ELIGIBILITY AND AMOUNT. A member's eligibility to receive a benefit is based on the member's amount of credited service and attained age on the effective date of retirement. The monthly amount of a standard retirement annuity is based on the sum of the member's service credit and accumulated contributions and is computed using the member's attained age and the actuarial assumptions described by Section 841.001(1).

Sec. 843.003. AUTHORIZATION TO REEXISTABLISH SERVICE CREDIT PREVIOUSLY FORFEITED. (a) An eligible member who has withdrawn contributions from the retirement system may reestablish the forfeited service credit in the system if the current service on which the credit was based was performed for a participating subdivision the governing body of which by order authorizes reestablishment of the credit by eligible employee members of the subdivision.

(b) A member eligible to reestablish service credit under this section is one who is a member as an employee of the subdivision on the effective date of an order authorized by the subdivision under Subsection (a).

(c) A member eligible under this section may reestablish service credit by depositing with the retirement system in a lump sum the amount withdrawn from the system, plus a withdrawal charge computed at an annual rate of five percent from the date of withdrawal to the date of redeposit.

(d) Prior service credit forfeited because of a withdrawal of contributions may not be reestablished under this section.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 16, eff. January 1, 2008.

Sec. 843.0031. OPTION TO PAY LUMP-SUM AMOUNT. (a) Repealed by Acts 2009, 81st Leg., R.S., Ch. 300, Sec. 38(1), eff. January 1, 2010.

(b) A member who has withdrawn accumulated contributions from the retirement system and who subsequently resumes employment with a subdivision may at any time before retirement pay to the system a
lump sum in any amount that does not exceed the actuarial present value of the additional benefits that would have been attributable to the withdrawn contributions. Any amount paid under this subsection and interest accrued on the amount may not be considered in the computation of service credit.

(c) With respect to the account with the subdivision for which contributions had been withdrawn, after the date an amount is deposited under Subsection (b), the member is ineligible to reestablish any service credit with the subdivision that had been forfeited before the date of redeposit, even if the member would otherwise be eligible under an order adopted under Section 843.003.

Sec. 843.004. COMPOSITION OF SERVICE CREDIT. Service credit consists of allocated prior service credit, current service credit, and multiple matching credit as authorized by a participating subdivision.

SUBCHAPTER B. ESTABLISHMENT OF PRIOR SERVICE GENERALLY

Sec. 843.101. CREDITABLE PRIOR SERVICE. Prior service creditable in the retirement system is service performed as an employee of a participating subdivision before the date the subdivision's participation in the retirement system became effective.
Sec. 843.102. ELIGIBILITY FOR PRIOR SERVICE CREDIT. (a) A member is eligible to receive service credit in the retirement system for prior service if the member became a member as an employee of a subdivision:

(1) on the effective date of the subdivision's participation in the retirement system; or

(2) before the second anniversary of the effective date of its participation and continues as an employee of the subdivision for at least six months after reemployment.

(b) The board of trustees may adopt rules concerning eligibility for prior service credit under Subsection (a).

(c) A person who has withdrawn contributions from an account for service for a subdivision and who subsequently resumes employment with the subdivision is not eligible to receive service credit under this section for prior service for the subdivision.

Sec. 843.104. CERTIFICATION OF SERVICE AND AVERAGE COMPENSATION. (a) A member eligible to receive prior service credit may claim the credit by filing a detailed statement of the service with the subdivision for which the service was performed. After the statement is filed, the subdivision shall certify the amount of the member's prior service and the member's average prior service compensation.

(b) Repealed by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 17, eff. January 1, 2008.
(c) Repealed by Acts 2007, 80th Leg., R.S., Ch. 873, Sec. 92(6), eff. January 1, 2008.

(d) The board of trustees may adopt rules concerning certification of service and the definition and computation of average prior service compensation under this section.

Amended by:
   Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 18, eff. January 1, 2008.
   Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 92(6), eff. January 1, 2008.

Sec. 843.105. DETERMINATION OF MAXIMUM AND ALLOCATED PRIOR SERVICE CREDIT. (a) After receiving a certification of prior service and average prior service compensation under Section 843.104, the retirement system shall credit to the member the prior service certified and determine the member's maximum and allocated prior service credits.

(b) The maximum prior service credit is an amount equal to the accumulation at interest of a series of equal monthly amounts for the number of months of certified prior service. Each monthly amount equals twice the subdivision's initial deposit rate, times the member's average prior service compensation. Interest is allowed at the end of each 12-month period on an accumulated amount at the beginning of each period and is credited only for each whole 12-month period. The rate of interest allowed on a maximum prior service credit is three percent a year.

(c) Allocated prior service credit is a monetary credit granted by a subdivision to be computed at a member's retirement date and, together with any multiple matching credit, used in determining a member's supplemental annuity. The allocated prior service credit of a member is an amount equal to a percentage of the maximum prior service credit, increased from the subdivision's effective date of participation to the member's effective date of retirement at the applicable rate of interest provided under this subtitle or prior law for the period.
(d) The governing body of a subdivision may adopt a percentage to be used to determine allocated prior service credits. The rate may be limited to zero or any multiple of five percent.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 19, eff. January 1, 2008.

**SUBCHAPTER C. OPTIONAL PRIOR SERVICE**

Sec. 843.201. SERVICE CREDIT FOR CERTAIN PUBLIC EMPLOYMENT. In accordance with rules adopted by the board of trustees, the governing body of a participating subdivision by order may authorize the establishment of credited service and prior service credit in the retirement system for service performed in a public hospital, utility, or other public facility or governmental function during a time the facility was operated or function was performed by a unit of government other than the subdivision and before the date that the public hospital, utility, or other public facility or governmental function was taken over by the subdivision.

SUBCHAPTER E. ESTABLISHMENT OF CURRENT SERVICE

Sec. 843.401. CURRENT SERVICE GENERALLY. Current service is service performed by an employee of a participating subdivision while a member of the retirement system and credited as provided under this subtitle and in accordance with rules adopted by the board of trustees.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 21, eff. January 1, 2008.
Acts 2009, 81st Leg., R.S., Ch. 300 (H.B. 407), Sec. 12, eff. January 1, 2010.

Sec. 843.402. CURRENT SERVICE CREDIT AND MULTIPLE MATCHING CREDIT. (a) Current service credit is a monetary amount credited by a subdivision to be computed at a member's effective retirement date and used in determining the member's basic annuity. At the determination date, a member's current service credit is an amount equal to the sum of the employee contributions in the member's individual account and the interest accumulated on those contributions as provided by this subtitle.

(b) Multiple matching credit is a monetary amount credited by the governing body of a subdivision to be computed at a member's effective retirement date and, together with any prior service credit, used in determining a member's supplemental annuity. Multiple matching credit is an amount equal to a percentage of the sum of employee contributions in a member's individual account that were made for a particular calendar year and the interest accumulated on those contributions as provided under this subtitle. At the
determination date, the multiple matching credit of a member is equal to the sum of the multiple matching credit for all years of the person's membership.

(c) The percentage to be used in the computation of the multiple matching credit for a particular year is adopted by the governing body of a subdivision and applied in accordance with this subtitle.

Added by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 22, eff. January 1, 2008.

SUBCHAPTER F.  OPTIONAL CREDITED SERVICE

Sec. 843.501.  CREDITED SERVICE FOR LEGISLATIVE SERVICE.  A member may establish credited service in the retirement system for service performed as a member of the legislature.  A member claiming credited service for previous legislative service shall file with the retirement system a detailed statement of the service.

   Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 24, eff. January 1, 2008.

Sec. 843.502.  CREDITED SERVICE FOR QUALIFIED MILITARY SERVICE.

(a) In this section:

(1) "Qualified military service" means service in the uniformed services, as that term is defined in the Uniformed Services Employment and Reemployment Rights Act of 1994 (38 U.S.C. Section 4301 et seq.), that meets the requirements of that Act as it now exists or is amended as to the character of service performed.

(2) "USERRA" means the Uniformed Services Employment and Reemployment Rights Act of 1994 (38 U.S.C. Section 4301 et seq.).

(b) All members of the retirement system are entitled to be credited with service for qualified military service that is subject to USERRA.  Notwithstanding any provision of this subtitle to the
contrary, contributions, benefits, credited service, and service
credit for qualified military service will be provided in accordance
with USERRA and Section 414(u) of the Internal Revenue Code of 1986.
The board of trustees may adopt rules for the administration of this
section, including rules that modify the terms of this subtitle for
the purpose of compliance with the provisions of USERRA.

(c) An eligible member may establish credited service in the
retirement system for qualified active duty military service not
creditable under Subsection (b). Qualified military service includes
military service before becoming an employee of the subdivision. A
member eligible to establish credited service under this subsection
is one who is vested, based on credited service only in this system
and without regard to service that may be established under this
subsection, in a service retirement annuity that may begin at the
age of 60. An eligible member may establish not more than five years
of credited service under this subsection by filing an application
with the retirement system.

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 844.001. TYPES OF BENEFITS. (a) Pension benefits payable from the retirement plan and trust are:

(1) retirement annuities payable on service retirements;
(2) retirement annuities payable on disability retirements;
(3) survivor annuities payable on the deaths of members;
and
(4) refunds of accumulated contributions.

(b) Nonpension group term life coverage may be provided by an electing subdivision for its employees and retirees under the optional group term life program. The board of trustees shall administer the program, and insurance proceeds are payable from the optional group term life fund.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 27, eff. January 1, 2008.

Sec. 844.002. COMPOSITION OF RETIREMENT ANNUITY. (a) Each retirement annuity payable under this subtitle consists of a basic annuity and a supplemental annuity.

(b) A basic annuity is an amount payable from the subdivision accumulation fund and is actuarially determined from the sum of a member's:

(1) accumulated contributions; and
(2) current service credit.

(c) A supplemental annuity is an amount payable from the subdivision accumulation fund, subject to limitation under Section 844.008, and is actuarially determined from the sum of:

(1) a member's allocated prior service credit; and
(2) a member's multiple matching credit.

(d) Any increase in the annuity granted by a participating subdivision is payable from the subdivision accumulation fund as part of the supplemental annuity.

(e) A separate retirement annuity is payable with respect to
each subdivision from which a person retires under this subtitle or is considered to have retired.

Amended by:
Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 28, eff. January 1, 2008.

Sec. 844.003. EFFECTIVE DATE OF RETIREMENT. (a) Except as otherwise provided by this section, the effective date of a member's service retirement is the date the member designates at the time the member applies for retirement under Section 844.101, but the date must be the last day of a calendar month and may not precede the date the member terminates employment with the subdivision from which the member seeks to retire.

(b) If a member who is an eligible member under Section 844.407 dies before retirement, the member is considered to have retired on the last day of the month before the month in which death occurred.

(b-1) A vested member who has not retired before the member's required beginning date determined under Section 841.010 is considered to have retired on the last day of the month preceding the member's required beginning date.

(c) The effective date of a member's disability retirement is the date the member designates at the time the member applies for retirement under Section 844.301, but the date must be the last day of a calendar month and may not precede the later of the date the member became disabled or the date the member terminated employment with all participating subdivisions.

(d) A member who is eligible for service retirement and who...
terminates employment with a participating subdivision may apply for and receive a service retirement annuity based on service for that subdivision despite the fact that the member is or becomes an employee of another participating subdivision.

(e) Notwithstanding Subsections (a), (b), (b-1), (c), and (f), the effective retirement date of a member may not precede the first anniversary of the effective date of participation of the subdivision.

(f) The board of trustees by rule may authorize a retiring member to designate an effective service or disability retirement date that is not more than six months before the date the retirement system receives the retirement application. A rule adopted under this section may not suspend another requirement provided by this section for retirement.

Amended by:

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 29, eff. January 1, 2008.

Sec. 844.004. STANDARD RETIREMENT ANNUITY. (a) The standard retirement annuity payable under this subtitle is computed with an allowance for the possible payment of a benefit under Section 844.402 and is the actuarial equivalent of the sum of a member's:

(1) accumulated contributions;
(2) current service credit;
(3) allocated prior service credit; and
(4) multiple matching credit.

(b) A standard retirement annuity is payable throughout the life of a retiree.

Added by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 30, eff. January 1, 2008.

Sec. 844.0041. OPTIONAL RETIREMENT ANNUITIES. (a) Instead of the standard retirement annuity payable under Section 844.004, a retiring member may receive an optional retirement annuity under this section or an optional retirement annuity in another form authorized by the board of trustees.

(b) At a member's effective retirement date, an optional retirement annuity is actuarially equivalent to the standard retirement annuity to which the member is entitled.

(c) An optional retirement annuity under this section is:

(1) a retirement annuity that is payable monthly throughout the life of a retiree, and after the retiree's death, throughout the life of an individual designated by the retiree; or

(2) a monthly retirement annuity that is payable throughout the life of a retiree and, if the retiree dies before 180 monthly payments have been made, the remainder of the 180 monthly payments are payable to the retiree's beneficiary or, if a beneficiary does not exist, to the retiree's spouse or, if no surviving spouse exists, to the retiree's estate.

(d) The board of trustees by rule may authorize additional forms of optional retirement annuities, each of which must be actuarially equivalent to the standard retirement annuity to which the retiree is entitled as of the effective retirement date.

Added by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 30, eff. January 1, 2008.

Sec. 844.0042. AUTHORITY TO PAY BENEFITS UNDER ALTERNATE FORMS. (a) The board of trustees may authorize the payment of the benefit that is due a recipient to be made as a lump sum or in another alternate form that is actuarially equivalent to the benefit that
would otherwise be payable to the recipient at the time payments to the recipient would begin. An authorization under this subsection may be made as a policy of general application or may be made on a case-by-case basis considering the particular facts and circumstances.

(b) Payment to a retiree in a lump sum or other alternate form may not be made without the retiree's consent if the payment is to be sent to an address in the United States and the present value of the retiree's benefit exceeds a minimum amount set by the board of trustees. A retiree who receives payment in a lump sum or other alternate form under this section continues as a retiree for purposes of a benefit provided by the subdivision under the optional group term life program.

(c) Except as otherwise limited under Subsection (b), payment under this section is within the exclusive discretion of the board of trustees, and payment in a lump sum or other alternate form constitutes full satisfaction of the retirement benefit otherwise owed to the recipient.

(d) The board of trustees may adopt rules for the administration of this section, including rules for the payment of benefits internationally and for the verification of a continuing right to receive payments.

Added by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 30, eff. January 1, 2008.

Sec. 844.005. WHEN ANNUITY IS PAYABLE; CHANGES BEFORE FIRST PAYMENT. (a) A retiree may revoke an application for retirement, change the retiree's choice of retirement annuity payment plans, or change the designation of beneficiary after the retiree's effective date of retirement by filing written notice with the retirement system not later than the last day of the month a benefit payment is first made. After that day, a retiree may not revoke the application for retirement, change the annuity payment plan selected, or change the designated beneficiary except under Section 844.006.

(b) If an applicant for retirement dies on or before the last day that the application for retirement could have been revoked under Subsection (a), the decedent's application for retirement is considered canceled, except that the valid beneficiary designations
made in connection with the retirement application remain in effect. The beneficiary of a decedent who had been an eligible member under Section 844.407 may receive an annuity in accordance with that section.

(b-1) Under rules established by the board of trustees, the retirement system may cancel an application for retirement if the applicant fails to timely provide all information and forms necessary to put the retirement into effect.

(c) An annuity under this subtitle is payable to a retiree or beneficiary through the month in which the retiree or beneficiary dies. A continuation of an optional annuity begins with payment for the month following the month in which death occurs.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 31, eff. January 1, 2008.

Sec. 844.006. CHANGE OF BENEFICIARY OR DIVISION OF BENEFIT FOR CERTAIN PERSONS RECEIVING MONTHLY BENEFITS. (a) A retiree who is receiving payments under a retirement annuity computed on the life of the retiree only may revoke any existing selection and designation of beneficiary nominated to receive any payments that may become due under the annuity after the retiree's death and may select a new beneficiary to whom payments may be made.

(b) A person who, as beneficiary of a deceased retiree, is receiving monthly payments of any fixed-term annuity described by Subsection (a) may select and designate a person to whom shall be paid any monthly payments that may become due under the annuity after the death of the beneficiary making the designation. If a valid beneficiary designation is not on file with the retirement system, any monthly payments that become due after the death of the beneficiary are payable to the beneficiary's spouse or, if no surviving spouse exists, to the beneficiary's estate.

(c) A retiree who is receiving payments under a retirement
annuity computed on the joint lives of the retiree and the retiree's
designated beneficiary may revoke the designation of the beneficiary
to receive the annuity on the death of the retiree, if a court of
competent jurisdiction in a divorce proceeding involving the retiree
and beneficiary awards to the retiree the entire retirement benefit
earned by the retiree. The order awarding the retirement benefit may
be set forth in the divorce decree or in an order approving the terms
of a property settlement agreement incident to the divorce of the
retiree and beneficiary but must be dated on or after December 31,
1999. The revocation takes effect when the retirement system
receives it and cancels the optional annuity selection made by the
retiree. Beginning with the month following the month in which the
retirement system receives the notice of revocation, the retiree is
entitled to receive a standard retirement annuity in the same amount
that the retiree would receive for the same month if the retiree had
originally retired with a standard retirement annuity.

(d) The benefit payable to a retiree who is receiving payments
of a standard or optional retirement annuity may be divided by the
retirement system into two annuities in accordance with the terms of
a model qualified domestic relations order adopted by the board of
trustees by rule.

(e) The division of an annuity under Subsection (d) is
effective when the order is determined by the retirement system to be
a qualified domestic relations order, and the amount of each of the
two annuities shall be computed by the retirement system at that
time, based on tables that have been adopted by the retirement system
and in effect at that time, so that the two annuities are actuarially
equivalent at the time of division to the annuity being divided.

(f) The board of trustees has sole authority and discretion to
specify the terms and format that are required for a domestic
relations order to be acceptable for purposes of this section, to
require strict compliance for qualification, and to define the terms
and features of the benefit awarded an alternate payee under the
order. The board by rule may establish requirements for forms,
documentation, and procedures necessary or desirable for the
administration of this section.

Sec. 844.007. INTEREST CREDIT FOR OTHER THAN DECEMBER RETIREMENTS. A member who retires with an effective retirement date other than December 31 will be credited interest on the beginning balance in the member's individual account from January 1 of the year of retirement to the effective date of retirement.

Sec. 844.008. LIMITATION ON PAYMENT OF BENEFITS. (a) Notwithstanding any other provision of this subtitle, the benefit payable to a retiree of the retirement system may not exceed the maximum benefit permitted under Section 415(b) of the Internal Revenue Code of 1986 as adjusted in accordance with Section 415(d) of that code. Any adjustments are applicable to the postretirement benefits of retirees as well as to the benefits of retiring members. For the purpose of determining whether the benefit of a retiring member or retiree exceeds the limitations provided in this section, all defined benefit plans of the employer and of entities required to be aggregated with the employer for purposes of Section 415 of the Internal Revenue Code of 1986 are to be treated as one defined benefit plan for purposes of Section 415 of that code. The limitation year for determining maximum benefits is the calendar year.

(b) An employer may not provide employee retirement benefits under a defined benefit plan other than the retirement system to the...
extent that the provision of the benefits, when considered together with the benefits provided under the retirement system, would result in the failure of the retirement system to meet any of the limitation requirements of Section 415 of the Internal Revenue Code of 1986, and the benefits of the other plan will automatically be reduced, eliminated, or adjusted to the extent necessary to prevent the failure.

Sec. 844.009. PARTIAL LUMP-SUM DISTRIBUTION ON SERVICE RETIREMENT. (a) With the consent of the board of trustees, the governing body of a subdivision may authorize partial lump-sum distributions under this section.

(b) A member who is eligible and applies for service retirement may simultaneously apply for a partial lump-sum distribution under this section.

(c) The amount of a lump-sum distribution under this section may not exceed 100 percent of the total accumulated contributions in the member's individual account in the employees saving fund attributable to service with the subdivision for which the member has applied for retirement.

(d) Repealed by Acts 2007, 80th Leg., R.S., Ch. 873, Sec. 92(12), eff. January 1, 2008.

(e) For all purposes, the member's basic annuity is the annuity actuarially determined from the sum remaining under Section 844.002(b) after deducting the amount of the lump-sum distribution.

(f) The amount of a lump-sum distribution made under this section is considered to be an annuity payment for the purpose of determining whether the amount in the retiree's individual account in the employees saving fund available for distribution at the time of retirement exceeds the total amount of annuity payments made.

(g) Repealed by Acts 2007, 80th Leg., R.S., Ch. 873, Sec. 92(12), eff. January 1, 2008.
(h) No portion of a benefit awarded to an alternate payee under a qualified domestic relations order may be distributed in the form of a lump sum under this section, unless the member and the alternate payee agree in writing that the alternate payee will receive all or a portion of the lump-sum distribution payable under this section instead of or as part of the benefits awarded under the qualified domestic relations order.

Sec. 844.010. CERTAIN BENEFICIARY DESIGNATIONS. (a) A beneficiary designation that names a former spouse as beneficiary is invalid for purposes of this subtitle unless the designation:

(1) is made or confirmed in writing after the date of divorce; or

(2) was made by a retiree who, at the time of divorce, is receiving payments under an optional service or disability retirement with payments to continue to the beneficiary for the beneficiary's life.

(b) In addition to the authority provided by Section 804.051, the board of trustees may adopt rules to require consent of a member's spouse to:

(1) the member's designation of a beneficiary who is not the member's spouse;

(2) the member's selection of an optional form of retirement benefit; or

(3) the member's election of a withdrawal of contributions.

(c) A benefit payable under this subtitle is not subject to a will, other testamentary document, or the law of intestacy to the extent that the member, retiree, or other former member has a
different beneficiary under the retirement system than under the testamentary document or law of intestacy.

(d) The board of trustees may adopt rules concerning the designation, validity, cancellation, revocation, and eligibility of beneficiaries under this subtitle.

(1) is at least 60 years old and has at least 10 years of credited service in the retirement system;

(2) has at least 30 years of credited service in the retirement system; or

(3) has at least 10 years of credited service in the retirement system and the sum of the member's credited service and attained age equals or exceeds the number 80.

(b) A person who has retired under this section with a service
retirement annuity is eligible, without regard to any age or credited service requirement, to apply for and receive a service retirement annuity based on the member's accumulated contributions and service credit with any participating subdivision from which the person has terminated employment.

Sec. 844.1021. OPTIONAL ELIGIBILITY PROVISIONS FOR SERVICE RETIREMENT. (a) In accordance with this subtitle, a subdivision may adopt any optional service retirement eligibility provision described by this section or authorized by the board of trustees.

(b) A subdivision may not revoke its adoption of an optional service retirement eligibility provision described by this section. A subdivision may adopt an optional service retirement eligibility provision providing less restrictive eligibility requirements.

(c) An optional service retirement eligibility provision may provide that a member who has at least 10 years of credited service is eligible to apply for retirement if the member has attained age 60 or an age at which the sum of the member's credited service and attained age equals or exceeds the number 75.

Added by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 38, eff. January 1, 2008.

Sec. 844.1022. SPECIAL ELIGIBILITY PROVISIONS FOR SERVICE RETIREMENT. (a) Subject to the consent of the board of trustees and effective for the period and on terms that the board approves, a subdivision may adopt a special service retirement eligibility provision that relates to a singular, identifiable event or action particular to the subdivision and that applies only to its members who satisfy the specific terms of the special eligibility provision.

(b) A special service retirement eligibility provision must bear a rational relationship to the operation, management, and function of the subdivision.

(c) A special service retirement eligibility provision may not be adopted or implemented under this section in a manner that has the effect of establishing a separate, ongoing retirement program for a branch, department, division, employee occupational group, or other separately identifiable component of the subdivision.

Added by Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 38, eff. January 1, 2008.

SUBCHAPTER C. OPTIONAL RETIREMENT BENEFITS

Sec. 844.208. OPTIONAL INCREASE IN RETIREMENT ANNUITIES. (a) The governing body of a participating subdivision, from time to time but not more frequently than once in each 12-month period, may provide for increased annuities to be paid to retirees and beneficiaries of deceased retirees of the subdivision. An annuity increased under this section replaces any annuity or increased annuity previously granted to the same person.

(b) The amount of annuity increase under this section is...
computed as the sum of the basic and supplemental annuities on the
effective date of retirement of the person on whose service the
annuities are based and is computed as if the person had selected a
standard retirement annuity on the person's effective date of
retirement, multiplied by:

(1) the percentage change in the Consumer Price Index for
All Urban Consumers, published by the Bureau of Labor Statistics of
the United States Department of Labor, from December of the year
immediately preceding the effective date of the person's retirement
to the December that is 13 months before the month in which the
effective date of the order or resolution providing the increase
occurs; and

(2) a fraction, specified by the governing body in the
order or resolution, that is not less than 10 percent nor more than
100 percent and is a multiple of 10 percent.

(c) The effective date of an order or resolution under this
section is January 1 of the year that begins after the year in which
the governing body adopts and notifies the retirement system of the
order or resolution.

(d) An increase in an annuity that was reduced because of an
option selection or partial lump-sum distribution is reducible in the
same proportion and in the same manner that the original annuity was
reduced.

(e) If a computation under Subsection (b) does not result in an
increase in the amount of annuity, the amount of the annuity may not
be changed under this section.

(f) The amount by which an increase under this section exceeds
all previously granted increases to an annuitant is payable as a
supplemental annuity, is an obligation of the subdivision's account
in the subdivision accumulation fund, and is subject to reduction
under Section 845.307(c).

Sec. 844.209. ALTERNATIVE OPTIONAL INCREASE IN RETIREMENT ANNUITIES. (a) The governing body of a participating subdivision, from time to time but not more frequently than once in each 12-month period, may provide for increased annuities to be paid to retirees and beneficiaries of deceased retirees of the subdivision. The governing body of the subdivision may not elect an increase in retirement annuities under Section 844.208 and under this section in the same 12-month period.

(b) An increase under this section applies to all annuities for which the effective retirement date is at least twelve months before the effective date of the increase.

(c) The amount of annuity increase under this section is computed as the sum of the person's basic and supplemental annuities on the effective date of the increase multiplied by the integer percentage increase specified by the governing body for all annuitants in the order or resolution adopting the increase. The specified percentage increase may not exceed the percentage established by the board of trustees as the maximum allowable percentage increase.

(d) Except as provided by Subsection (g), the effective date of an order or resolution under this section is January 1 of the year that begins after the year in which the governing body adopts and notifies the retirement system of the order or resolution.

(e) An increase in an annuity that was reduced because of an option selection or partial lump-sum distribution is reducible in the same proportion and in the same manner that the original annuity was reduced.

(f) The amount of an increase under this section is payable as a supplemental annuity, is an obligation of the subdivision's account in the subdivision accumulation fund, and is subject to reduction under Section 845.307(c).

(g) Repealed by Acts 2007, 80th Leg., R.S., Ch. 873, Sec. 92(18), eff. January 1, 2008.

SUBCHAPTER D. DISABILITY RETIREMENT BENEFITS

Sec. 844.301. APPLICATION FOR DISABILITY RETIREMENT. (a) A member may apply for disability retirement by filing a valid application for retirement with the retirement system.

(b) An applicant must provide medical and other pertinent information for evaluation by the medical board and submit to medical examination as required by the medical board.

Sec. 844.3011. ANNUITY PAYABLE ON DISABILITY RETIREMENT. Except for eligibility requirements and as otherwise provided by this subtitle, a retirement annuity payable on the disability retirement of a member is equal in amount and equivalent in all respects under this subtitle to a retirement annuity payable on the service retirement of the member at the same age.
Sec. 844.302. ELIGIBILITY FOR DISABILITY RETIREMENT ANNUITY. (a) A member who is not vested for service retirement beginning on or before the date the member attains age 60 and who has applied for disability retirement is eligible to receive a disability retirement annuity if the member is the subject of a certification issued as provided by Section 844.303(b)(1).

(b) A member who is vested for service retirement based on service in this system alone beginning on or before the date the member attains age 60 and who has applied for disability retirement is eligible to receive a retirement annuity if the member is the subject of a certification issued as provided by Section 844.303(b)(2).

(c) If a member who has filed an application for disability retirement under this subchapter is eligible for service retirement, an evaluation by the medical board under Section 844.303 will not be made and the retirement system shall consider the retirement application as an application filed for service retirement.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 43, eff. January 1, 2008.

Sec. 844.303. CERTIFICATION OF DISABILITY. (a) Except as provided by Section 844.302(c) and Subsection (c) of this section, as soon as practicable after an application for disability retirement is filed, the medical board shall evaluate the medical and other pertinent information concerning the member's application.

(b) The medical board shall issue a certification of disability and submit it to the board of trustees, if the medical board finds:

(1) in the case of a member described by Section
844.302(a), that:

(A) the member is mentally or physically incapacitated for any gainful occupation;
(B) the incapacity is the direct result of injuries sustained during membership by external and violent means as a direct and proximate result of the performance of duty; and
(C) the incapacity is likely to be permanent; or

(2) in the case of a member described by Section 844.302(b), that:

(A) the member is mentally or physically incapacitated for any gainful occupation; and
(B) the incapacity is likely to be permanent.

(c) The board of trustees may establish a procedure for summary disposition of disability retirement applications without medical board review under facts and circumstances that the board has determined cause a review by the medical board to be unnecessary. The board may delegate to the director the authority and discretion to make determinations under the summary disposition procedure and, if appropriate, to issue a certification of disability described by Subsection (b) or refer the matter to the medical board. The director is not authorized under this section to make a finding that an applicant is not permanently incapacitated.

(d) The board of trustees may define terms and standards to be applied by the medical board in making its determinations and shall establish such other rules as the board considers necessary to administer this subchapter.

Sec. 844.3051. DISABILITY RETIREMENT CONSIDERED SERVICE RETIREMENT. (a) The retirement annuity of a disability retiree may
not be terminated under this subchapter after the earlier of:

1. the date a disability retiree attains age 60; or
2. the date the disability retiree would otherwise be eligible for service retirement under this subtitle.

(b) The disability retirement of a disability retiree described by Subsection (a) is considered for all purposes under this subtitle as a service retirement.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 45, eff. January 1, 2008.

Sec. 844.306. MEDICAL EXAMINATION OF DISABILITY RETIREE. (a) Until the date a disability retirement is considered a service retirement under Section 844.3051, once each year during the first five years after a person retires for disability, and once in each three-year period after that, the board of trustees may, in accordance with rules and procedures established by the board, require a disability retiree to undergo a medical examination and provide current medical and other information reaffirming the status of the retiree as disabled within the meaning of this subchapter.

(b) Repealed by Acts 2007, 80th Leg., R.S., Ch. 873, Sec. 92(24), eff. January 1, 2008.

(c) If a disability retiree refuses to submit to medical examination or fails to provide current medical or other information confirming the status of the retiree as disabled, the board of trustees may cancel the disability retirement and terminate the retirement annuity.

Sec. 844.307. CANCELLATION OF DISABILITY RETIREMENT. (a) If the medical board finds that a disability retiree has experienced medical improvement to the extent that the retiree is no longer mentally or physically incapacitated, it shall certify its findings and submit them to the board of trustees.

(b) In accordance with rules and procedures adopted by the board, the board of trustees may adopt the findings of the medical board and cancel the disability retirement and terminate annuity payments to the retiree.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 47, eff. January 1, 2008.

Sec. 844.309. ADJUSTMENTS AT ANNUITY TERMINATION. (a) If a disability retirement is canceled and the retirement annuity terminated under this subchapter, the person automatically resumes membership in the retirement system and the retirement system shall transfer from the subdivision accumulation fund and credit to the person's individual account in the employees saving fund an amount equal to the amount of accumulated contributions transferred to the subdivision accumulation fund at the time of retirement reduced by one percent for each year or part of a year during which disability annuity payments were made.

(b) If a person whose membership resumes under this section was receiving a supplemental annuity based in whole or in part on prior service credit, the retirement system shall restore to effect as the person's maximum prior service credit an amount equal to the person's maximum prior service credit at the time of disability retirement reduced by one percent for each year or part of a year during which disability annuity payments were made.

(c) A person who resumes membership under this section is entitled to restoration of credited service in the number of months accumulated and allowed before disability retirement.
(d) The board of trustees may adopt rules for the computation and transfer of amounts and credits for a membership resumed under this subchapter.

SUBCHAPTER E. DEATH BENEFITS

Sec. 844.401. RETURN OF ACCUMULATED CONTRIBUTIONS. (a) Except as provided by Subsection (c), if a member dies before retirement, a lump-sum death benefit is payable from the employees saving fund in the amount of:

(1) the decedent's accumulated contributions; plus
(2) interest computed on the decedent's accumulated contributions on January 1 of the year of death from the beginning of that year through the end of the month before the month in which death occurs.

(b) The benefit provided by this section is payable to the decedent's beneficiary or, if no surviving beneficiary exists, to the decedent's spouse or, if no surviving spouse exists, to the decedent's estate.

(c) A benefit is not payable under this section if an annuity based on the same service with the subdivision is payable under this subtitle.

Sec. 844.402. RETURN OF EXCESS CONTRIBUTIONS. (a) After the death of a member or former member and after the final payment has been made under any service, disability, or survivor annuity, a lump-sum death benefit is payable in an amount, if any, by which the amount in the person's individual account in the employees saving fund on which the annuity was computed exceeds the amount of annuity payments made.

(b) The benefit provided by this section is payable to the person entitled to receive the final monthly payment of the annuity. If that person is deceased, the benefit provided by this section is payable to the person's beneficiary or, if no surviving beneficiary exists, to the person's spouse or, if no surviving spouse exists, to the person's estate.

(c) The benefit provided by this section is payable from the subdivision accumulation fund.

(d) For plans terminated under Subchapter A-1, Chapter 842, the benefit provided by this section is payable from the closed subdivision annuity reserve fund.

Acts 2015, 84th Leg., R.S., Ch. 303 (S.B. 463), Sec. 4, eff. June 1, 2015.

Sec. 844.404. PERSON CAUSING DEATH OF MEMBER OR ANNUITANT. (a) A benefit, including any optional group term life benefit, payable on the death of a member or annuitant may not be paid to a person convicted of causing that death but instead is payable to a person who would be entitled under this subtitle to the benefit had the convicted person predeceased the decedent. If no person would be entitled to the benefit, the benefit is payable to the decedent's estate.

(b) The retirement system is not required to change the recipient of benefits under this section unless it receives actual notice of the conviction of a beneficiary. However, the retirement system may delay payment of a benefit payable on the death of a
member or annuitant pending the results of a criminal investigation and of legal proceedings relating to the cause of death.

(c) The retirement system is not liable for any benefit paid to a convicted person before the date the system receives actual notice of the conviction, and any payment made before that date is a complete discharge of the system's obligation with regard to that benefit payment. The convicted person holds all payments received in constructive trust for the rightful recipient.

(d) If an annuity is in pay status, the retirement system shall pay in a lump sum the actuarial equivalent of the remainder of any annuity or payments that would otherwise have been payable to the convicted person to the person entitled to the benefit under Subsection (a) or to the decedent's estate. The time of the actuarial equivalence is the earlier of the time the retirement system receives the notice of the conviction under Subsection (b) or the time the retirement system begins the delay in payment of a benefit under Subsection (b).

(e) For the purposes of this section, a person has been convicted of causing the death of a member or annuitant if the person:

(1) has pleaded guilty or nolo contendere to or has been found guilty by a court of competent jurisdiction of an offense at the trial of which it is established that the person's intentional, knowing, or reckless act or omission resulted in the death of a person who was a member or annuitant, regardless of whether sentence is imposed or probated; and

(2) has no appeal of the conviction pending and the time provided for appeal has expired.

Acts 2009, 81st Leg., R.S., Ch. 300 (H.B. 407), Sec. 21, eff. January 1, 2010.

Sec. 844.405. TRUST AS BENEFICIARY. (a) Except as limited by Subsection (b), a member or retiree may designate a trust as beneficiary for the payment of benefits from the retirement system or may designate multiple trusts as beneficiaries for the payment of benefits from the system in the same manner and with the same...
limitations that apply to the designation of multiple beneficiaries. If a trust is designated beneficiary, the beneficiary of the trust is considered the designated beneficiary for the purpose of determining eligibility for and the amount and duration of benefits. The trustee is entitled to exercise any rights granted a designated beneficiary to elect benefit options and name subsequent beneficiaries.

(b) Multiple trusts or a single trust having multiple beneficiaries may not receive benefits to which multiple designated beneficiaries are not eligible under this chapter.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 49, eff. January 1, 2008.

Sec. 844.406. SIMULTANEOUS DEATH OF MEMBER AND BENEFICIARY. When a member or retiree and the spouse or beneficiary of the member or retiree have died within a period of less than 120 hours of each other, the member or retiree is considered to have survived the spouse or beneficiary for the purpose of determining the rights to amounts payable under this subtitle on the death of the member or retiree.

Added by Acts 1995, 74th Leg., ch. 245, Sec. 24, eff. Sept. 1, 1995.

Sec. 844.407. SURVIVOR ANNUITY. (a) In this section "eligible member" means a member who has four or more years of credited service with one or more subdivisions that are participating in the retirement system.

(b) Instead of any other benefit allowed under this subtitle other than an optional group term life benefit, an annuity described by this section may be paid on the death of an eligible member who had not filed an application for retirement or whose application for retirement had been revoked or canceled under Section 844.005.

(c) An annuity under this section is payable to the valid beneficiary designated on the unrevoked form most recently executed by the member and filed with the system naming a beneficiary. If no valid beneficiary exists or if the member died without having designated a valid beneficiary, the annuity is payable to the
deceased member's surviving spouse or, if no surviving spouse exists, to the deceased member's estate.

(d) Any annuity payable under this section must be actuarially equivalent to the deceased member's benefit accrued under this subtitle determined as of the last day of the month preceding the month of the member's death. The annuity is payable in the form and manner authorized by the board of trustees.

(e) An annuity under this section is payable from the same accounts and is subject to the same conditions that are applicable to a service retirement benefit for the same member.

Sec. 844.408. NO SURVIVING SPOUSE, EXECUTOR, OR ADMINISTRATOR.
(a) In this section "heirs" has the meaning assigned by Chapter 22, Estates Code, except that the term excludes any person who has filed a proper disclaimer or renunciation with the retirement system.

(b) If the administrator of a deceased member's estate would be entitled to a refund or an annuity because of the death of the member, the heirs of the deceased member may apply for and receive
the benefit if:
   (1) no petition for the appointment of a personal representative of the member is pending or has been granted;
   (2) 30 days have elapsed since the date of death of the member;
   (3) the value of the entire assets of the member's probate estate, excluding homestead and exempt property, does not exceed $50,000; and
   (4) on file with the retirement system is a certified copy of a small estates affidavit that has been approved and filed in accordance with Chapter 205, Estates Code, or an original affidavit described by Subsection (c).

   (c) If no affidavit has been filed with the clerk of the court having jurisdiction and venue as provided by Chapter 205, Estates Code, the retirement system may accept instead an affidavit sworn to by two disinterested witnesses and by those heirs who have legal capacity and, if the facts warrant, by the natural guardian or next of kin of any minor or incompetent who is also an heir. The affidavit must include the names and addresses of the heirs and witnesses, establish the facts listed in Subsection (b), include a list of the assets and liabilities of the estate, show the facts that constitute the basis for the right of the heirs to receive the estate, and show the fractional interests of the heirs in the estate as a result of those facts.

   (d) If the retirement system, acting through the director or a person designated by the director, approves the affidavit, the heirs may make the election if each heir agrees to it.

Sec. 844.501. COVERAGE IN OPTIONAL GROUP TERM LIFE PROGRAM.
(a) An employee of a participating subdivision is included within the coverage of the optional group term life program on that day in the first month in which:
   (1) the employing subdivision is participating in the program for coverage of all members it employs;
   (2) the employee is a member of the retirement system; and
   (3) the employee is required to make a contribution to the retirement system.
(b) Once established, coverage of a person in the program continues until the last day of a month in which a requirement of Subsection (a) is not met.
(c) The optional group term life program constitutes "group term life insurance purchased for employees" as described by Section 79, Internal Revenue Code of 1986.

Amended by:
   Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 54, eff. January 1, 2008.

Sec. 844.502. EXTENDED OPTIONAL GROUP TERM LIFE COVERAGE. (a) A member included in the coverage of the optional group term life program who fails to earn compensation in a month for service to a subdivision participating in the program may be eligible to receive extended coverage in the program under this section.
(b) A member who dies within 24 months after the date the member last made a required contribution to the retirement system is considered to have received extended program coverage if the retirement system receives at its office after the member's death:
   (1) evidence that the retirement system considers satisfactory to establish that, as a result of illness or injury, the member was unable to engage in gainful employment throughout the
period beginning with the date of the last required contribution and ending on the date of death;

(2) a statement from the subdivision, on a form approved by the board of trustees, that the member was on leave of absence under the Family and Medical Leave Act of 1993 (Pub. L. 103-3) throughout the period beginning with the date of the last required contribution and ending on the date of death; or

(3) a statement from the subdivision, on a form approved by the board of trustees, that the member was on leave of absence under the Family and Medical Leave Act of 1993 (Pub. L. 103-3) during part of the period beginning with the date of the last required contribution and ending on the date of death, with evidence that the retirement system considers satisfactory to establish that, throughout the rest of the period, the member was unable to engage in gainful employment as a result of illness or injury.

(e), (f) Repealed by Acts 1999, 76th Leg., ch. 427, Sec. 64(16), eff. Dec. 31, 1999.

Sec. 844.503. MEMBER OPTIONAL GROUP TERM LIFE. (a) In this section, the terms "regular rate of pay," "hours worked," "salary basis," and "regular salary" have meanings that are consistent with the Fair Labor Standards Act of 1938 (29 U.S.C. Section 201 et seq.).

(b) If a person included in the coverage or extended coverage
of the optional group term life program dies, a lump-sum supplemental death benefit is payable from the optional group term life fund in an amount equal to the current annual compensation of the member at the time of death.

(c) The current annual compensation of a member who is not exempt from the minimum wage and maximum hour requirements of the Fair Labor Standards Act of 1938 (29 U.S.C. Section 201 et seq.) is computed by converting to an annual basis the regular rate of pay of the member for the most recent hour worked and proportionately reducing that annual basis if the member is not employed in a full-time position. The current annual compensation of a member who is exempt from those minimum wage and maximum hour requirements and who is paid on a salary basis is computed by converting to an annual basis the regular salary paid to the member for the most recent pay period of active employment.

(d) If a member, because of a change in employment, makes contributions to the retirement system during the same month as an employee of more than one subdivision participating in the optional group term life program, a death benefit is payable only on the basis of the member's most recent employment. If a member, because of simultaneous employment by more than one subdivision, makes contributions to the retirement system during the same month as an employee of more than one subdivision participating in the program, a death benefit is payable on the basis of the member's employment by each subdivision participating in the program.

(e) The board of trustees by rule may require such proof of compensation and periods of employment as it finds necessary.

Sec. 844.504. RETIREE OPTIONAL GROUP TERM LIFE BENEFIT. If a retiree dies who was receiving a retirement annuity based on service for a subdivision that has elected to provide, and continues to provide, postretirement optional group term life coverage, a lump-sum death benefit is payable from the optional group term life fund in the amount of $5,000.

Sec. 844.505. BENEFICIARY OF OPTIONAL GROUP TERM LIFE BENEFIT. (a) Unless a member has directed otherwise on a form prescribed by the board of trustees and filed with the retirement system:

(1) an optional group term life benefit under Section 844.503 is payable to the person entitled to receive the decedent's accumulated contributions, unless the decedent was an eligible member under Section 844.407, in which case the benefit is payable to the beneficiary designated by the decedent or, if no designation was made, to the person entitled under that section to receive a survivor annuity; and

(2) an optional group term life benefit under Section 844.504 is payable to a person entitled to receive any remaining payments of the decedent's annuity.

(b) If a person entitled under this section to receive an optional group term life benefit does not survive the member or retiree covered by the optional group term life program, the benefit is payable to the person to whom a benefit under Subchapter B or D is payable, or if no benefit is payable under those subchapters, to the person to whom a benefit under Subchapter E is or would be payable.

Sec. 844.601. PLAN FUNDING BY NON-ADOPTING COUNTY. (a) This section applies only to a county that began participation in the retirement system before January 1, 1992, and has not adopted the provisions of Subchapter H.

(b) Except as provided by Subsections (c) and (d), the county shall contribute to its account in the subdivision accumulation fund at the same rate of current service compensation as the employee contribution rate for the county.

(c) If in any year the retirement system's actuary determines that the contributions of the county to the subdivision accumulation fund under Subsection (b) will not finance the county's obligations to the fund within the closed or open amortization period recommended by the actuary and adopted by the board of trustees for all subdivisions, the governing body of the county shall adopt an order to reduce the amortization period to the maximum period established by the board. The actuary shall determine appropriate remedies for review and adoption by the county. An order adopted under this subsection must first be approved by the board of trustees and must require:

(1) a reduction in the employee contribution rate to a rate not less than four percent of current service compensation;
(2) additional employer contributions under a supplemental contribution rate as provided by Subsection (e);
(3) a reduction in the percentage for determining multiple matching credits in five percent increments for contributions made after the effective date of the reduction; or
(4) any combination of these actions.

(d) An order adopted under Subsection (c) takes effect on the first day of the calendar year that begins after the date the retirement system's actuary makes a determination described by Subsection (c).

(e) A supplemental contribution rate under this section is the
rate of contribution by the county to its account in the subdivision accumulation fund, in addition to the contributions required under Subsection (b), that the retirement system's actuary determines and certifies is required to amortize the obligations of the county to the subdivision accumulation fund within the established amortization period.

(f) A county that has not adopted the provisions of Subchapter H may not adopt additional options and may not increase service credits or benefits otherwise allowable under this subtitle except for an increase in the rate of employee contributions or an increase in the percentage of multiple matching credits to a rate or percentage that does not exceed the rate or percentage in effect on January 1, 2010.

SUBCHAPTER H. ANNUALLY DETERMINED CONTRIBUTION RATE PLAN

Sec. 844.701. APPLICABILITY.
Except for a county described by Section 844.601, this subchapter applies to each subdivision that participates in the retirement system.

Added by Acts 1991, 72nd Leg., ch. 460, Sec. 21, eff. Jan. 1, 1992. Amended by:

Acts 2009, 81st Leg., R.S., Ch. 300 (H.B. 407), Sec. 23, eff. January 1, 2010.

Sec. 844.702. MEMBER CONTRIBUTIONS. (a) The governing body of the subdivision may designate the rate of member contributions for employees of the subdivision to take effect beginning on the effective date of adoption of the plan provisions of this subchapter. The subdivision may elect a rate of four, five, six, or seven percent of the current service compensation of its employees. The governing body of the subdivision may thereafter increase or decrease the contribution rate to take effect on the next January 1 after the date of adoption of the increase or decrease, in accordance with the provisions of Sections 845.402(b) and (c).

(b) If necessary under Section 844.703(h), a subdivision's
member contribution rate may be reduced to one, two, three, four, five, or six percent of the current service compensation of its employees.

Sec. 844.703. SUBDIVISION CONTRIBUTIONS. (a) Each participating subdivision adopting the plan provisions of this subchapter shall pay to the subdivision accumulation fund as its normal contribution an amount equal to a percentage of the compensation of members employed by the subdivision for that month. The rate of contribution is the normal contribution rate determined annually by the actuary and approved by the board of trustees.

(b) Each subdivision adopting the plan provisions of this subchapter shall pay to the subdivision accumulation fund, as its prior service contribution, an amount equal to a percentage of the compensation of members employed by the subdivision for that month. The rate of contribution is the rate determined annually by the actuary and approved by the board of trustees as being the rate required to fund all unfunded obligations charged against the subdivision's account in the subdivision accumulation fund within the subdivision's amortization period without probable future depletion of that account or, if there are no unfunded obligations, the rate required to amortize any overfunded obligations within a period of 30 years.

(c) The combined rates of a subdivision's normal contributions and prior service contributions under this subchapter may not exceed 11 percent unless the governing body of the subdivision elects to waive this limitation. A waiver under this subsection becomes effective on January 1 of the year after the year in which it is adopted and remains effective until January 1 of the year following a repeal of the waiver by the subdivision's governing body.

(d) The actuary annually shall determine the subdivision normal contribution rate and the prior service contribution rate for subdivisions adopting the plan provisions of this subchapter from the most recent data available at the time of determination. Before
January 1 of each year, the board of trustees shall certify the rates of each subdivision that has adopted the plan provisions of this subchapter. If the combined rates of the subdivision's normal contributions and prior service contributions under this subchapter exceed the rate prescribed by Subsection (c), and if the governing body of the subdivision has not waived that maximum rate, the rate for prior service contributions must be reduced to the rate that equals the difference between the maximum rate prescribed by Subsection (c) and the normal contribution rate. The governing body may elect to contribute at a rate that is greater than the sum of the subdivision's normal contribution rate and prior service contribution rate as determined under Subsections (a) and (b). An elected rate may not exceed the maximum rate prescribed by Subsection (c), unless the governing body has elected to waive that maximum rate. An elected rate remains in effect for each subsequent calendar year until it is rescinded by the governing body. For years in which the sum of the rates determined under Subsections (a) and (b) exceeds the elected rate, the governing body must contribute the sum of the rates determined under Subsections (a) and (b). For years in which the elected rate exceeds the sum of the rates determined under Subsections (a) and (b), the prior service contribution rate is increased to the rate that equals the difference between the elected rate and the normal contribution rate prescribed by Subsection (a).

(e) In addition to the normal contributions and prior service contributions under this subchapter, the subdivision shall make the picked-up employee contributions provided by Section 845.403(i), and those contributions, along with optional group term life contributions, are not subject to the maximum subdivision contribution rates prescribed by Subsection (c).

(f) The prior service contribution rate prescribed by Subsection (b) must be based on an open or closed amortization period as recommended by the actuary and adopted by the board of trustees but may not exceed 30 years. The board of trustees may establish criteria for the circumstances under which a subdivision's amortization period, if closed, will be renewed, extended, or shortened.

(g) If the combined rates of the subdivision's normal contributions and prior service contributions under this subchapter exceed the maximum rate prescribed by Subsection (c) before the adjustment prescribed by Subsection (d), and if the governing body of
the subdivision has not waived that maximum rate, the actuary shall determine what lower percentage for determining multiple matching credits of future member contributions is necessary to make the combined rates of the subdivision not exceed the maximum rate prescribed by Subsection (c). The actuary shall give written notice of the determination to the director, who shall give written notice to the governing body of the subdivision. The lower percentage determined by the actuary and specified in the notice to the governing body becomes effective as to all members who perform current service for the affected subdivision on or after the first day of the first calendar year that begins after the date of the notice, unless before the effective date, the governing body of the subdivision adopts an order or resolution, approved by the board of trustees, authorizing a reduction in the percentage used in determining multiple matching credits in accordance with Section 844.704(a) or authorizing a reduction in the rate of member contributions in accordance with Section 844.702, or authorizing both a reduction in the percentage used in determining multiple matching credits and a reduction in the rate of member contributions.

(h) If the combined rates of the subdivision's normal contributions and prior service contributions under this subchapter exceed the maximum rate prescribed by Subsection (c), and if the governing body of the subdivision has not waived that maximum rate, and if all reductions under Subsection (g), in the opinion of the actuary, result in the combined rates of the subdivision remaining in excess of the maximum rate prescribed by Subsection (c), the retirement system shall reduce the rate of member contributions to a lower rate authorized by Section 844.702 that, in the opinion of the actuary, is required to produce a combined rate that does not exceed the rate prescribed by Subsection (c). At the time the actuary determines that the rate of employee contributions that was in existence before a reduction under this subsection no longer would result in a combined rate in excess of the maximum rate prescribed by Subsection (c), the retirement system shall reinstate the employee contribution to the rate that was in effect at the time of the reduction, unless the governing body of the subdivision has elected to change to some other rate authorized by Section 844.702(a). Any change under this section shall be made on January 1 of the year following the applicable determination by the actuary. During the time that the member contribution rate is reduced, the combined rates
of the subdivision's normal contributions and prior service contributions shall be equal to the maximum rate prescribed by Subsection 844.703(c).

(i) Notwithstanding any provision in this section to the contrary and if approved by the board of trustees, a participating subdivision that has experienced or is anticipating circumstances that cause employer contributions based on covered payroll to be an unreasonable method of funding shall contribute in an actuarially approved method that is reasonable to regularly and consistently fund all of its pension liabilities in the retirement system.

Sec. 844.704. BENEFITS. (a) The governing body of a subdivision shall select a percentage for determining multiple matching credits of zero or any percentage that is a multiple of five percent and that does not exceed 150 percent. The governing body may later increase the percentage used in determining multiple matching credits under Section 843.402 to any percentage that is a multiple of five percent and that does not exceed 150 percent, to take effect on the next January 1 after the date the increase is adopted. In its order or resolution, the governing body may provide that the increased percentage will be used in determining multiple matching credits only for employee contributions made after the effective date of the increase or that the increased percentage will be used both prospectively and retroactively in determining the multiple matching credits for all employee contributions not otherwise matched at a higher percentage. The governing body may thereafter reduce the percentage used in determining multiple matching credits for
contributions made after the effective date of the reduction to zero or any percentage that is a multiple of five percent, to take effect on the next January 1 after the date of the reduction.

(b) The governing body shall select a percentage for determining allocated prior service credits of zero or any percentage that is a multiple of five percent. The governing body may increase the percentage used in determining allocated prior service credits, to take effect on the next January 1 after the date of the increase. The percentage may not exceed one-half of the percentage that results from adding 200 percent to the lowest percentage for determining multiple matching credit currently applicable to any employee contribution with respect to the subdivision.

(c) The subdivision shall provide current service credits in accordance with Section 843.402.

(d) With the approval of the board of trustees, the governing body of a subdivision may adopt any benefit increase or additional benefit, option, right, or feature as authorized under this subtitle.

(e) The governing body may not adopt an increase or addition to the subdivision's plan if the adoption would result in the combined rates of the subdivision's normal contributions and prior service contributions for the first calendar year following the adoption exceeding the maximum rate prescribed by Section 844.703(c), unless a waiver under that section is in effect.

(f) Other than an order or resolution of initial participation in the retirement system and except as otherwise authorized by the board of trustees, an order or resolution under this section must be filed with the retirement system not later than December 15 of the year preceding the year in which it will take effect and may not take effect until the order or resolution is approved by the board of trustees as meeting the requirements of this section. An order or resolution adopted after participation begins may take effect only on January 1 of a year.

(b) Based on recommendations of the actuary, the board of trustees shall adopt rates and tables necessary to determine the supplemental death benefits contribution rates for each subdivision participating in the supplemental death benefits fund. The initial rates and tables become effective on the date that the fund and coverage become operative.

(c) On recommendation of the retirement system's actuary, the board of trustees by rule may adopt a mortality basis to be used in determining actuarial equivalents. A mortality basis adopted under this subsection may not be applied in a manner that would reduce a participant's monthly benefit that has accrued before the later of the date the mortality basis is adopted or the date the mortality basis is implemented.

The participating subdivision may pick up these contributions by a reduction in the cash salary of the employee or by an offset against a future salary increase or by a combination of a reduction in salary and offset against a future salary increase; unless it is otherwise determined by the governing body of the participating subdivision, the pick-up shall be accomplished by a corresponding reduction in the cash salary of the employee.

(j) Contributions picked up as provided by Subsection (i) shall be treated as employer contributions in determining tax treatment of the amounts under Section 414(h) of the United States Internal Revenue Code of 1986. Each employee contribution that is picked up shall be deposited as provided in Section 845.306 to the individual account of the member, on whose behalf the contribution is made, and shall be treated for all other purposes of this subtitle in the same manner as if the amount had been deducted from the compensation of and made by the employee pursuant to Sections 845.402 and this section.

Sec. 845.4031. CONTRIBUTIONS IN ANTICIPATION OF PARTICIPATION.
(a) After a subdivision has officially elected to join the retirement system and has specified the date for its participation to begin, and before the board of trustees has approved its

(b) The subdivision shall collect and segregate the amounts deducted from its employees' compensation and the contributions that the subdivision would be required to make under this subtitle if it were then participating.

(c) The period during which contributions may be deducted from an employee's compensation in anticipation of board approval of participation may not exceed six months and may not extend into a subsequent calendar year without consent of the board of trustees. During the period that board approval is pending, the subdivision may not participate in, and the subdivision's employees may not be covered by, the optional group term life program.

(d) On approval of participation, the subdivision shall immediately transfer to the retirement system, for credit to the appropriate funds within the system, the amounts collected and segregated under Subsection (b). If the subdivision previously elected to participate in the optional group term life program, participation in that program begins on the first day of the month following the month in which the board of trustees approves participation in the system.

(e) If the board of trustees disapproves the subdivision's participation in the retirement system, the subdivision shall pay all employee contributions collected and segregated in anticipation of board approval to the employees from whom the contributions were withheld.

Sec. 845.404. COLLECTION OF SUBDIVISION CONTRIBUTIONS. (a) Before the 16th day of each month, each participating subdivision shall pay or cause to be paid to the retirement system at the system's office:

(1) the member contributions, or "picked-up" member contributions, provided for by Sections 845.402 and 845.403, which

Statute text rendered on: 5/30/2023 - 5833 -
shall be deposited to the individual accounts of the members; and

(2) the contributions that a subdivision is required to make under this subtitle, which shall be deposited to the account of the subdivision in the subdivision accumulation fund.

(b) Unless otherwise provided for and paid by a subdivision, a subdivision shall pay its contributions to the retirement system from:

(1) the fund from which compensation is paid to members; or

(2) the general fund of the subdivision.

Sec. 845.405. ALTERNATIVE PERIODS FOR ADMINISTRATIVE COMPLIANCE. (a) Notwithstanding any other provision of this subtitle, the board of trustees may authorize a subdivision to remit to the retirement system contributions, deposits, and other payments on the basis of a period that is less than a month, including a weekly, biweekly, or other semimonthly period. A subdivision authorized to remit amounts more frequently than monthly shall make reports and filings and perform other actions accordingly, and the retirement system shall credit payments accordingly.

(b) The board of trustees may make an authorization under Subsection (a) by rule applicable to all subdivisions similarly situated or by order applicable to designated subdivisions. A rule adopted under this subsection is amendable or revocable in the manner provided for adoption, amendment, or repeal of rules generally. An order adopted under this subsection is revocable wholly or partly by subsequent board order.

(c) If the board of trustees adopts a rule or order under Subsection (b), the board shall also adopt rules, applicable to a subdivision electing or designated to take actions described by this section more frequently than monthly, to alter the periods required for submission of payments and reports, including the period when a
late penalty begins to accrue or is deducted from a subdivision's account in the subdivision accumulation fund, in a manner consistent with the periods provided by this subtitle.

(d) A participant may not receive less credited service, service credit, or benefits due to an authorization under this section than the participant would have received on a monthly basis.

Added by Acts 2009, 81st Leg., R.S., Ch. 300 (H.B. 407), Sec. 34, eff. January 1, 2010.

Sec. 845.406. OPTIONAL GROUP TERM LIFE PROGRAM. (a) In addition to other contributions to the retirement system required by this subtitle, each subdivision participating in the optional group term life program monthly shall pay to the optional group term life fund an amount equal to the rate of contribution computed in accordance with this section, multiplied by the total compensation for the month of the members employed by the subdivision.

(b) A limitation on subdivision contribution rates provided by this subtitle does not apply to the rate of the contribution to the optional group term life fund.

(c) At the time of each investigation of members' mortality and service experience required by Section 845.110, the actuary shall investigate the mortality experience of the members and eligible annuitants participating in the program. On the basis of the result of that investigation, the actuary shall recommend to the board of trustees rates and tables necessary to determine optional group term life program contribution rates. The rates and tables may provide for the anticipated mortality experience of the persons covered under the program and for a contingency reserve.

(d) Before a subdivision's participation date in the program and before January 1 of each subsequent year, the actuary shall compute, on the basis of rates and tables adopted by the board of trustees, the contribution rate of a subdivision participating in the program. The rate must be expressed as a percentage of the compensation of members employed by the subdivision. When the rate is approved by the board of trustees, the rate is effective for the calendar year for which it was approved.

(e) The board of trustees, in the exercise of its discretion to manage the assets of the retirement system, may lend money to the
optional group term life fund if the amount in the fund is insufficient to pay the benefits due. Any loan is an investment of the retirement system and must be repaid solely from future contributions to the fund and its share of trust earnings. The terms of the loan shall be set by the board of trustees, but the loan must bear a commercially reasonable interest rate. The board may adjust future contributions to the fund for purposes of repayment of the loan.

(f) To protect against adverse claim experience, the board of trustees may secure reinsurance from one or more stock insurance companies doing business in this state if the board determines that reinsurance is necessary. The retirement system shall pay the premiums for reinsurance from the optional group term life fund.

Amended by:
Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 87, eff. January 1, 2008.

Sec. 845.407. PENALTY FOR LATE CONTRIBUTIONS. (a) Except as provided by Subsections (c), (d), and (e), a participating subdivision that fails to provide the information required by Section 845.403 or to pay all contributions required by this subchapter to be made and remitted to the retirement system not later than the 15th day of the month in which they become due shall pay a penalty under this section. The penalty for a past-due monthly remission is equal to interest on the past-due amounts for each day past due at a nominal interest rate of 12 percent, plus a $500 administrative fee. If the penalty is not paid within three months after the date notice of the penalty has been sent to the subdivision, the retirement system shall deduct the penalty from the subdivision's account in the subdivision accumulation fund. The interest portion of the penalty shall be deposited by the retirement system in the distributable income account of the income fund. The administrative fee portion of the penalty shall be deposited by the retirement system in the
expense fund.

(b) Payments and required reports are considered to be made when received by the retirement system.

(c) A penalty will not be assessed under this section for a late payment or report made in a document sent to the correct address:

(1) by certified mail, return receipt requested, not later than the 10th day of the month in which the payment or report becomes due; or

(2) using a same-day or overnight delivery method, approved by the board of trustees, not later than the 14th day of the month in which the payment or report becomes due.

(d) If the retirement system does not receive a payment or report, a penalty will not be assessed under this section if the subdivision provides proof satisfactory to the system that the document containing the payment or report was sent in accordance with Subsection (c).

(e) The retirement system may extend the due date provided by this section if a subdivision applies for an extension before the due date and the director determines that good cause exists for the extension and that the need for the extension is not caused by neglect, indifference, or lack of diligence.

Acts 2009, 81st Leg., R.S., Ch. 300 (H.B. 407), Sec. 35, eff. January 1, 2010.

Sec. 845.408. ADDITIONAL OPTIONAL DEPOSITS BY SUBDIVISIONS. In addition to the deposits that a subdivision is required to make under this subtitle, the governing body of a participating subdivision may elect to deposit to the subdivision's account in the subdivision accumulation fund one or more lump-sum payments. Once a payment is deposited, it cannot be withdrawn from that fund by the subdivision.

Added by Acts 1999, 76th Leg., ch. 427, Sec. 61, eff. Dec. 31, 1999.
SUBCHAPTER F. MISCELLANEOUS ADMINISTRATIVE PROCEDURES

Sec. 845.501. STATEMENT OF AMOUNT IN ACCOUNT. (a) As soon as possible after the end of each calendar year, the board of trustees shall send to the governing body of each subdivision and to each requesting member an annual statement that contains the basic financial statements of the retirement system.

(b) The board of trustees shall furnish to a member, on written request, a statement of the amount credited to the member's individual account. During a calendar year, the board is not required to furnish to a member more than one statement requested under this subsection.

Sec. 845.502. INTEREST IN ASSETS. A particular person or subdivision has no right in a specific security or in an item of cash other than an undivided interest in the assets of the retirement system.

Sec. 845.503. AUTHORITY TO RECOUP OR MAKE ADJUSTMENTS FOR PAYMENTS MADE IN ERROR. (a) The retirement system may reduce future payments of benefits based on the account of a member, a retiree, or other former member to recoup an amount overpaid or otherwise paid in error to or on the behalf of a participant. If no future payments are due, the retirement system may recover the overpayment in any manner that is permitted for the collection of any other debt.

(b) The retirement system may not recover from a participant any overpayment made more than three years before the date the overpayment is discovered. This subsection does not apply to an overpayment a reasonable person should know the person is not entitled to receive.

(c) The retirement system may adjust amounts in a subdivision's
account in the subdivision accumulation fund to correct an error caused by an act or omission of the subdivision.

Amended by:
  Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 88, eff. January 1, 2008.
  Acts 2009, 81st Leg., R.S., Ch. 300 (H.B. 407), Sec. 36, eff. January 1, 2010.

Sec. 845.504. EXCESS BENEFIT PROGRAM. (a) If the board of trustees determines that it is in the interest of the retirement system and will benefit members and annuitants, the board by rule may establish an excess benefits program for the payment of benefits under Section 415(m) of the Internal Revenue Code of 1986, and its subsequent amendments, that would otherwise be barred by the limitation on benefits imposed by Section 415 of that code.

(b) Notwithstanding any other provision of this subtitle, the board of trustees by rule may provide for the transfer of contributions as part of the excess benefits program in a manner consistent with a governmental excess benefit arrangement.

Sec. 845.505. UNDISTRIBUTED BENEFITS. (a) If a person's membership in the retirement system has terminated and a valid application for a retirement annuity or a refund of accumulated contributions has not been filed with the retirement system, the retirement system shall mail the notice described by Subsection (b) to the most recent address of the former member as shown on system records and make reasonable efforts to locate any person entitled to apply for the benefit.

(b) A notice under this section must include the name of the former member, the name of each subdivision with which the former member has an individual account, a statement that no additional interest is credited after a membership has terminated, a statement that a benefit is payable, and a statement of the procedure for obtaining payment of that benefit.

(c) If a person files with the retirement system a valid
application for an annuity based on a membership that terminated under Section 842.109(b), the retirement system shall pay an annuity computed as of the former member's effective retirement date as determined under that section.

(d) An applicant who is a former member may select the standard retirement annuity or an optional retirement annuity under Section 844.0041(c) or (d). An applicant who is the surviving beneficiary or the personal representative of a deceased former member may select an annuity payable in a form authorized by the board of trustees under Section 844.407. All annuity payments that previously would have been paid if the annuity had begun on the effective retirement date will be paid to the applicant.

(e) If a person files with the retirement system a valid application for a refund of a former member's accumulated contributions or a valid application for a benefit payable under the optional group term life program, the retirement system shall pay to the applicant the portion of the former member's accumulated contributions or the portion of the optional group term life benefits to which the applicant is entitled.

(f) If a person eligible to receive a benefit fails to provide accurate and verifiable information regarding the identity, age, taxpayer identification number, or residential address of the person or the person's beneficiary, the retirement system may hold or delay payment of any benefit until the information is provided. If a person receiving an annuity fails to negotiate two or more annuity payments, fails to respond to a written request for information relevant to the annuitant's continuing right to receive benefits or relevant to the responsibility of the system to report accurately the distribution under federal or state law, fails to provide the system with an address for the delivery of a benefit that is safe and secure from loss, theft, or misdelivery, or fails in any other manner that interferes with or impedes the efficient administration of the system, the system may suspend and hold all benefit payments until the failure is corrected.

(f-1) If there is a continuation of an optional annuity, the retirement system shall pay to the person receiving the continuing annuity any amount held by the system to which the deceased person was entitled. If the annuity terminates with the death of the person, any amount held by the retirement system to which a deceased person was entitled is payable under rules and procedures adopted by
the board of trustees.

(g) If a benefit becomes payable as the result of the death of a person receiving an annuity, the retirement system shall mail a notice similar to the notice described by Subsection (b) to the most recent address of the decedent's beneficiary as shown on system records and make reasonable efforts to locate each person to whom the benefit is payable. After receipt of a valid application, the retirement system shall pay the applicant the benefit to which the applicant is entitled. All annuity payments that would previously have been paid if the annuity had begun on the date required under this subtitle will be paid to the applicant.

(h) A person entitled to a benefit under this section is solely responsible for a tax or penalty relating to the distribution of the benefit without regard to whether the person received notice from the retirement system.

(i) The board of trustees may adopt rules concerning the notice, distribution, management, transfer, and administration of unclaimed, held, delayed, and suspended benefits, the authority of an applicant to act as trustee of an absent beneficiary in the selection of a payment option or receipt of an absent beneficiary's benefit under this section, and the distribution of benefits to an alternate payee under a qualified domestic relations order with respect to a terminated membership.

Acts 2007, 80th Leg., R.S., Ch. 873 (H.B. 1587), Sec. 90, eff. January 1, 2008.

Sec. 845.506. APPEAL OF ADMINISTRATIVE DECISION. (a) A decision of the retirement system is final and conclusive unless an appeal is filed in writing with the system by regular mail or electronic filing, as that term is defined by Section 845.116(a)(1), not later than the 90th day after the earlier of the date the person subject to the decision receives notice of the decision by any means
or the date the system files notice of its decision with the person by regular mail or electronic means.

(b) A person may appeal a decision to the board of trustees if the person is aggrieved by a decision of the retirement system relating to the system or any program administered by the system under this subtitle:

1. denying or limiting membership, service credit, or eligibility for or the amount of benefits payable by the system; or
2. regarding to whom benefits should be paid under the system or program.

(c) The director or the director's designee may refer an appeal made under Subsection (a) to the State Office of Administrative Hearings for a hearing or employ, select, or contract for the services of an administrative law judge or hearing examiner not affiliated with the State Office of Administrative Hearings to conduct a hearing. This subsection prevails over any other law to the extent of any conflict.

(d) An appeal under this section is considered to be a contested case under Chapter 2001. The appellant in a contested case under this section has the burden of proof on all issues, including issues in the nature of an affirmative defense.

(e) The board of trustees may in its sole discretion make a final decision on a contested case under this section. Notwithstanding any other law, the board may in its sole discretion modify, refuse to accept, or delete any proposed finding of fact or conclusion of law contained in a proposal for decision submitted by an administrative law judge or other hearing examiner, or make alternative findings of fact and conclusions of law, in a proceeding considered to be a contested case under Chapter 2001. The board shall state in writing the specific reason for its determination and may adopt rules for the implementation of this subsection. The board may delegate its authority under this subsection to the director.

(f) Notwithstanding Subsections (d) and (e), the retirement system and a person aggrieved by a decision of the system may at any time informally negotiate an award of benefits. Negotiated benefits may not exceed the maximum benefits otherwise available or required by law.

(g) A final decision of the board of trustees in a contested case under this section is subject to judicial review under Chapter 2001. The standard of review is by substantial evidence. Venue of
the appeal is only in a district court in Travis County.

Sec. 845.507. QUALIFICATION. It is intended that this subtitle be construed and administered in a manner that the retirement system will be considered qualified under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401). The board of trustees may adopt rules that it determines necessary for the retirement system to be considered qualified. Rules adopted by the board of trustees relating to qualification issues are considered a part of the plan.

Sec. 852.005. STATUS AS A MUNICIPALITY. (a) For the purposes of this subtitle, the Texas Municipal Retirement System, the pension system provided under Article 6243a-1, Revised Statutes, and the Texas Municipal League, have the standing of municipalities.

(b) The standing of the pension system provided under Article 6243a-1, Revised Statutes, as a municipality under Subsection (a) applies only with respect to the system and the system's employees. Subsection (a) does not require or authorize:

(1) a person who is a member, pensioner, alternate payee, or other beneficiary of the pension system provided under Article 6243a-1, Revised Statutes, to participate in the Texas Municipal Retirement System; and

(2) the consolidation of both public retirement systems or the transfer of a fund or any plan created or maintained under former Article 6243a, Revised Statutes, or Article 6243a-1, Revised Statutes, to the Texas Municipal Retirement System.
(c) For the purposes of this subtitle, a fire or police department has the standing of a municipality if:

(1) the department:

(A) was created and is operating under an interlocal cooperation agreement that has existed at least 15 years and was executed by two or more municipalities located in a county with a population of at least 3.3 million;

(B) is supervised by an administrative agency appointed by the contracting municipalities; and

(C) provides common fire protection or law enforcement services to the contracting municipalities; and

(2) the governing body of each municipality that is a party to the agreement has voted by ordinance or resolution to accept responsibility, in a manner to be determined by the participating municipalities, for all payments required of and obligations incurred by the department under this subtitle in the event that the interlocal cooperation agreement is dissolved or expires; and

(3) all ordinances adopted by the participating municipalities with regard to the participation are approved by the board of trustees.

(d) The governing board of the supervising administrative agency by order may take an action for a department described by Subsection (c) that is required or authorized by this subtitle to be made by municipal ordinance.

(a) Except as provided by this section, a municipality may not terminate participation in the retirement system if the municipality has employees who are members of the system, but the municipality may elect to discontinue the participation in the system of persons employed or reemployed after the date of an election to discontinue.

(b) If before November 1 of any year a municipality gives written notice of its intention to the retirement system, the municipality may terminate coverage under, and discontinue participation in, the supplemental death benefits fund. A termination under this subsection is effective on January 1 of the year following the year in which notice is given.

(c) If a municipality participating in the retirement system has no employees who are members of the system and has no present or potential liabilities as a result of the participation of former employees, the municipality, on receiving a refund under Section 855.319, ceases participation in the system.

Sec. 852.007. MUNICIPALITY NOT AGENT OF SYSTEM. Neither a municipality that participates in the retirement system nor any employee or officer of a participating municipality has authority to act as an agent of the retirement system. An action of or inaction on the part of a participating municipality or its employee or officer is not binding on the retirement system.

SUBCHAPTER B. MEMBERSHIP

Sec. 852.101. GENERAL MEMBERSHIP REQUIREMENT. (a) Except as otherwise provided by this subchapter, a person who is not a member becomes a member of the retirement system if:

(1) on the date a municipal department's participation in the retirement system becomes effective, the person is an employee of the department;
(2) after August 31, 1987, the person becomes an employee of a participating department; or

(3) the person on August 31, 1987, is an employee of a participating department but is not a member because at the time of employment the person's age exceeded the maximum age for becoming a member.

(b) Any person to whom Subsection (a)(1) applies becomes a member of the retirement system on the date the department's participation becomes effective, and any person to whom Subsection (a)(2) applies becomes a member of the retirement system on the date the person is employed. A person to whom Subsection (a)(3) applies becomes a member of the retirement system on September 1, 1987.

(a) If on the effective date of participation of the employing department, a person had with a municipality an employment contract that is violated by the membership requirement of Section 852.101(a)(1), the person is not required, but may elect, to become a member of the retirement system.

(b) If a person who is qualified to make an election under this section has been notified that the municipality has elected to participate in the retirement system, or if the person makes contributions to the retirement system, the person is considered to have elected membership in the retirement system unless before the date the municipality's participation becomes effective the person files with the board of trustees written notice of an election not to become a member.

(c) A person who elects under this section not to become a member may never become a member of the retirement system.

Sec. 852.103. WITHDRAWAL OF CONTRIBUTIONS; ROLLOVER DISTRIBUTIONS. (a) A living person who is not an employee of a participating department and who has not retired may, after application, withdraw all of the accumulated contributions credited to the person's individual account, and the retirement system shall close the account.

(b) The retirement system shall, in accordance with Section 401(a)(31) of the Internal Revenue Code of 1986 and its subsequent amendments and related regulations, permit the distributee of an eligible rollover distribution to elect to have the distribution paid directly to an eligible retirement plan specified by the distributee in the form of a direct trustee-to-trustee transfer. The board of trustees may adopt rules to implement this subsection.

Sec. 852.104. TERMINATION OF MEMBERSHIP. (a) Except as otherwise provided by this section, a person terminates membership in the retirement system by:

(1) death;
(2) retirement;
(3) withdrawal of all of the person's contributions while the person is absent from service; or
(4) absence from service for more than 60 consecutive months.

(b) A member of the retirement system is not absent from service during periods of military or war-related service for which the member is allowed credited service under Section 853.501.

(c) If a member of the retirement system is an employee of a participating department of a municipality that, as provided by this subtitle, allows a person to terminate employment and remain eligible for retirement after accumulating a specified amount of credited
service, and if the person meets the requirement, the person may
terminate employment and is not subject to loss of membership because
of absence from service.

(d) Termination of membership in the retirement system
terminates membership in the supplemental disability benefits fund.

(e) A member of the retirement system is not absent from
service during any leave of absence granted by the employing
municipality under the Family and Medical Leave Act of 1993 (29
U.S.C. Section 2601 et seq.), and its subsequent amendments, to the

Sec. 852.105. OPTIONAL PRIOR SERVICE CREDITS. (a) The
governing body of a municipality that has an effective date of
participation in the retirement system before September 1, 1987, and
that allows service retirement of a member at age 60 or older with at
least 10 years of credited service may by ordinance allow prior
service credit for service performed for the municipality before
September 1, 1987, by any person who at the time of performing the
service was not a member because at the time of employment the
person's age exceeded the maximum age for becoming a member.

(b) A governing body may not adopt an ordinance under this
section unless the actuary first determines, on the basis of
mortality and other tables adopted by the board of trustees, that all
obligations of the municipality to the benefit accumulation fund,
including obligations proposed under the ordinance, can be funded by
the municipality within its maximum contribution rate and within its
amortization period.

Sec. 852.106. INELIGIBILITY FOR MEMBERSHIP; MULTIPLE RETIREMENT SYSTEM MEMBERSHIP. (a) Except as provided by this section, a person who is elected to public office is not an employee eligible for membership in the retirement system.

(b) A person may simultaneously receive credit or benefits for service performed during the same period in the retirement system and the federal program providing old age and survivors insurance.

(c) If a volunteer firefighter or an elected officer is employed by a participating municipality in another capacity that satisfies the definition of "employee" under this subtitle, the person may be a member of, and receive service credit in, the retirement system for service performed in the other capacity.

(d) If a person is elected to an office of a municipality that began participating in the retirement system after December 31, 1981, the person is required to become a member of the retirement system as of the date the person takes office or the effective date of participation, whichever is later. If a person is elected to an office of a municipality that has adopted an ordinance under Section 852.107, the person is required to become a member of the retirement system as of the date the person takes office or the effective date of the ordinance, whichever is later.

(e) A person may simultaneously be a member of this retirement system and another state or local retirement system authorized or established under Section 67, Article XVI, Texas Constitution. However, a person may receive a benefit from this system only to the extent that the amount of the benefit is computed solely with respect to the member's compensation and accumulated contributions as those terms are defined in this subtitle. Service credited with or allowed by another retirement system may not be counted for purposes of retirement eligibility in this retirement system except in accordance with the provisions of the proportionate retirement program described by Chapter 803.
Sec. 852.107. OPTIONAL MEMBERSHIP REQUIREMENT FOR ELECTED OFFICERS. (a) The governing body of a municipality that began participation in the retirement system before January 1, 1982, by ordinance may provide that persons who hold and are regularly engaged in the performance of duties of an elective office that normally requires actual performance of services in a participating department of the municipality for not less than 1,000 hours a year are employees required to become members of the retirement system.

(b) An ordinance under this section takes effect on the first day of any calendar month after adoption that is designated by the governing body adopting the ordinance.

(c) A person required to become a member under an ordinance adopted under this section becomes a member on the effective date of the ordinance or the date the person takes office, whichever is later, unless the date the person takes office is after the effective date of the ordinance and the person is then ineligible for membership under applicable age restrictions of this subtitle.

(d) A person who becomes a member as provided by this section is entitled to prior service credit as provided by Section 853.302.

Sec. 852.108. RESUMPTION OF SERVICE WITH SAME EMPLOYER BY RETIREE. (a) In this section and Sections 852.1085 and 852.109, a person's reemploying municipality is the municipality for which the person most recently performed creditable service before the person's retirement with respect to the person's particular individual account under this subtitle.

(b) Except as provided by Section 852.1085, a person who has retired with a service retirement benefit under this subtitle and
later becomes an employee of the person's reemploying municipality also becomes a member of the system on the date of employment, but credits and benefits allowable to the person under this subtitle are limited as provided by this section.

(b-1) Unless subject to Subsection (c), the retirement annuity of a person subject to this section is not suspended.

(c) If a person becomes an employee of the person's reemploying municipality at any time during the 12 consecutive months after the effective date of the person's last retirement from the reemploying municipality, the retirement system shall discontinue and suspend the full amount of the monthly payments of the service retirement annuity that is allowed because of the person's previous retirement from the reemploying municipality beginning with the month the retirement system determines that the person has again become an employee of the reemploying municipality. After the suspension and except as provided by Subsection (j), the retirement system may not make payments of the annuity for any month during which the person remains an employee of the reemploying municipality. The suspension of a benefit under this section does not suspend payment of a benefit to an alternate payee under a qualified domestic relations order.

(d) Member contributions under Section 855.402 shall be made on all compensation paid to the employee by the reemploying municipality at the same rate as is required of other employees of the department. The retirement system shall credit the contributions on receipt to the member's individual account and shall credit the account with interest annually at the same rate and manner as the accounts of other members are credited. The compensation paid to the employee by the reemploying municipality shall be included in computing the monthly contributions the municipality makes to the benefit accumulation fund.

(e) After termination of employment with the reemploying municipality and after filing of an application for resumption of retirement with the board of trustees, a person described by Subsection (c) is entitled to receive future payments of the suspended annuity, as provided by Subsection (f), and to the additional benefits as provided by Subsections (g), (h), (i), and (j).

(f) Monthly payments of an annuity suspended under Subsection (c) shall resume effective beginning with the month following the month in which employment is terminated with the reemploying
municipality, without change in the amount except for any increase allowed under Section 854.203 or the duration of or another condition pertaining to the suspended benefit. Except as provided by Subsection (j), payment of the resumed benefit may not be made for any month during which the payment was suspended under this section.

(g) If a person with credited service under this section dies before a payment under Subsection (i) is made, the person's beneficiary, or if there is no beneficiary surviving, the executor or administrator of the person's estate, may elect payment as provided by Section 854.105.

(h) The additional service retirement benefit allowable to a person to whom this section applies is, at the option of that person, either:

(1) a refund of accumulated contributions made since reemployment plus any accrued interest on the accumulated contributions allowed by the retirement system; or

(2) a benefit consisting of:

(A) a basic annuity actuarially determined from the sum of the member's contributions made and accumulated since the date the person last became a member, together with interest accumulated on that amount since the person last became a member and an amount from the benefit accumulation fund equal to the amount of the member's contributions credited to the member's individual account since the person last became a member together with interest accrued on that amount since the person last became a member; or

(B) a greater amount authorized by the municipality under Section 855.501.

(i) The additional benefit described by Subsection (h)(2) is payable as a standard service retirement benefit or, at the election of the member, any optional benefit authorized under this subtitle that is the actuarial equivalent of the standard retirement benefit. The first benefit payment date under this subsection is the later of the end of the month following the last month of employment or the end of the month following the month in which the person files an application for payment. The first payment may not be made if the person has resumed employment with the reemploying municipality in a position that would make the person an employee.

(j) Subject to Subsection (m), a person who resumed employment with the person's reemploying municipality before September 1, 2021, shall receive a lump-sum payment in an amount equal to the sum of the
service retirement annuity payments the person would have received had the person's annuity payments not been discontinued and suspended under this section as it existed on the date the person resumed employment with the reemploying municipality, if the person:

(1) initially retired based on a bona fide termination of employment; and

(2) resumed employment with the person's reemploying municipality at least eight years after the effective date of the person's retirement.

(k) If the annuity payments of a person who resumed employment with the person's reemploying municipality before September 1, 2021, were discontinued and suspended under this section as it existed on the date the person resumed employment with the reemploying municipality and the person has not terminated employment with the reemploying municipality, then on filing of a written application with the retirement system, the retirement system shall, subject to Subsection (l), resume making the annuity payments to the person, provided:

(1) the person's retirement that preceded the resumption of employment was based on a bona fide termination of employment; and

(2) the person did not become an employee of the person's reemploying municipality at any time during the 12 consecutive months after the effective date of the person's retirement described by Subdivision (1).

(l) Monthly payments of an annuity resumed under Subsection (k) shall resume effective beginning with the month following the month in which the written application is approved by the retirement system, without change in the amount except for any increase allowed under Section 854.203 or the duration of or another condition pertaining to the suspended benefit. Except as provided by Subsection (j), payment of the resumed benefit may not be made for any month during which the payment was suspended under this section as it existed on the date the person resumed employment with the reemploying municipality.

(m) At the time a person resumes receiving payment of an annuity under Subsection (k), the retirement system shall pay the person any lump-sum payment owed to the person under Subsection (j).

(n) The board of trustees may adopt rules to implement this section.

Sec. 852.1085. RESUMPTION OF SERVICE WITH SAME EMPLOYER BY CERTAIN RETIREEES. Notwithstanding Section 852.108, a person who retired because the department in the municipality in which the person worked was privatized and who later resumes employment in the same department or a successor department in the person's reemploying municipality again becomes a member of the retirement system and the person's retirement annuity is not suspended in the same manner provided by Section 852.109 for a person who resumes employment with a different municipality.

Added by Acts 2007, 80th Leg., R.S., Ch. 1099 (H.B. 3392), Sec. 2, eff. June 15, 2007.

Sec. 852.109. RESUMPTION OF SERVICE WITH DIFFERENT EMPLOYER BY RETIREE. (a) If a person becomes an employee of a municipality after the effective date of the person's retirement from a participating municipality, and the municipality is not the person's reemploying municipality, the person again becomes a member of the
retirement system, and the person's retirement annuity is not suspended.

(b) Member contributions under Section 855.402 shall be made on all compensation paid to the employee by the municipality at the same rate as is required of other employees of the department. The retirement system shall credit the contributions on receipt to the member's individual account and shall credit the account with interest at the same rate and in the same manner as the accounts of other members are credited. The compensation paid to the employee by the municipality shall be included in computing the monthly contributions the municipality makes to the benefit accumulation fund.

(c) If a person with credited service under this section dies before a payment under Subsection (e) is made, the person's beneficiary, or if there is no beneficiary surviving, the executor or administrator of the person's estate, may elect payment as provided by Section 854.105.

(d) The additional service retirement benefit allowable to a person to whom this section applies is, at the option of that person, either:

(1) a refund of accumulated contributions made since reemployment plus any accrued interest on the accumulated contributions allowed by the retirement system; or

(2) a benefit consisting of:

(A) a basic annuity actuarially determined from the sum of the member's contributions made and accumulated since the date the person last became a member together with interest accrued on that amount since the person last became a member and an amount from the benefit accumulation fund equal to the amount of the member's contributions credited to the member's individual account since the person last became a member together with interest accrued on that amount since the person last became a member; or

(B) a greater amount authorized by the municipality under Section 855.501.

(e) The additional benefit described by Subsection (d)(2) is payable as a standard service retirement benefit or, at the election of the member, any optional benefit authorized under this subtitle that is the actuarial equivalent of the standard retirement benefit. The first benefit payment date under this subsection is the later of the end of the month following the last month of employment or the
end of the month following the month in which the person files an application for payment. The first payment may not be made if the person has resumed employment that would result in suspension of a benefit.

(f) If a person became an employee of a municipality other than the person's reemploying municipality after the effective date of the person's retirement from a participating municipality, and the person's service retirement annuity was suspended under Section 852.108 as it existed at the time of reemployment, the person may, on written application to the retirement system, resume receiving the suspended annuity.

Sec. 852.110. CORRECTION OF ERRORS. (a) The retirement system, under rules adopted by the board of trustees, shall correct an error in current service performed, or current service credit that should have been received, not more than four years before the date an application for the correction, on a form approved by the board of trustees, is received by the retirement system.

(b) The retirement system shall correct an error in prior service credit if the retirement system receives the person's written application for the correction not later than the fourth anniversary of the later of the date the municipality began participation in, or the person first became a member of, the retirement system.

Sec. 853.001. TYPES OF CREDITABLE SERVICE. The types of service creditable as credited service in the retirement system are
prior service and current service.

Sec. 853.0015. EXCLUDED PRIOR SERVICE CREDIT. If a member is entitled to receive excluded prior service credit under this chapter, the excluded prior service credit certified to the member:

(2) may not be used to determine eligibility for or computation of updated service credits.

Sec. 853.003. BUY BACK OF CREDITED SERVICE PREVIOUSLY CANCELED. (a) An eligible member who has withdrawn contributions and canceled credited service in the retirement system may reestablish the canceled credit in the system if the governing body of the municipality that currently employs the member by ordinance authorizes reestablishment of the credit by eligible employee members.

(b) A member eligible to reestablish credit under this section is one who has, since resuming membership, at least 24 consecutive months of credited service as an employee of the municipality for which the ordinance was adopted.

(c) A member may reestablish credit by depositing with the retirement system in a lump sum the amount withdrawn from the system,
plus a withdrawal charge computed at an annual rate of five percent from the date of withdrawal to the date of redeposit.

(d) Credit reestablished under this section is treated as if all service on which the credit is based were performed for the municipality authorizing the reestablishment.

(e) A governing body may not adopt an ordinance under Subsection (a) unless the actuary first determines that all obligations charged against the municipality's account in the benefit accumulation fund, including the obligations proposed in the ordinance, can be funded by the municipality within its maximum contribution rate and within its amortization period.

SUBCHAPTER B. ESTABLISHMENT OF PRIOR SERVICE

Sec. 853.101. CREDITABLE PRIOR SERVICE. Prior service creditable in the retirement system is:

(1) service performed as an employee of a participating department of a municipality before the date the department's participation in the retirement system became effective;

(2) for a person who becomes a member of the retirement system under Section 852.105, service performed as an employee of a participating department during a time the person was ineligible for
membership because of age; or

(3) for a person entitled to prior service credit under Section 853.102(a)(3), service for which current service credit has not been granted that was performed as an employee of a participating department during a time the person was ineligible to participate because of age.

Sec. 853.102. ELIGIBILITY FOR PRIOR SERVICE. (a) A member is eligible to receive credit in the retirement system for prior service if the member:

(1) became a member as an employee of a department of a municipality on the effective date of the department's participation in the retirement system;

(2) became a member as an employee of a department of a municipality before the fifth anniversary of the effective date of the department's participation and continued as an employee of a participating department of the municipality for at least five consecutive years after reemployment; or

(3) became a member September 1, 1987, by virtue of Sections 852.101(a)(3) and (b) and has service before that date with a municipality that has adopted the provisions of Section 852.105.

(b) The board of trustees may adopt rules concerning eligibility for prior service under this section.

Sec. 853.103. STATEMENT OF PRIOR SERVICE. A member may claim credit for prior service by filing a detailed statement of the
service with the city clerk or city secretary of the municipality for which the service was performed.

Sec. 853.104. CERTIFICATION OF SERVICE AND AVERAGE COMPENSATION. (a) As soon as practicable after a member files a statement of prior service under Section 853.103, the municipality that employs the person who receives the statement shall verify the prior service claimed and certify to the board of trustees the amount of service approved and the member's average prior service compensation.

(b) The average prior service compensation of a member is computed as the average monthly compensation for service performed for a participating department of the municipality:

(1) for the 36 months immediately preceding the effective date of the department's participation in the retirement system; or

(2) if the member did not perform service in each of the 36 months immediately preceding participation, for the number of months of service within the 36-month period.

(c) The board of trustees may adopt rules concerning verification and certification of service and compensation under this section.

Sec. 853.105. DETERMINATION OF PRIOR SERVICE CREDIT. (a) After receiving a certification of prior service and average prior service compensation under Section 853.104, the retirement system shall determine the member's prior service credit.

(b) Repealed by Acts 2019, 86th Leg., R.S., Ch. 991 (S.B. 1337), Sec. 28, eff. January 1, 2020.

(c) The prior service credit is an amount computed as a percentage determined as provided by Subsection (d) or, if
applicable, Subsection (d-1), times a base credit equal to the accumulation at three percent interest of a series of monthly amounts for the number of months of approved prior service, times the sum of:

(1) the rate of contributions required of employees of the municipality for current service; plus

(2) the rate described in Subdivision (1) times the municipal current service matching ratio.

(d) The governing body of a municipality shall determine in the ordinance providing for participation the percentage to be applied against the base credit in computing a prior service credit under Subsection (c). Except as provided by Subsection (d-1), the percentage adopted may be any multiple of 10 percent that does not exceed 100 percent of the base credit, with 10 percent being the minimum percentage a municipality may adopt. A governing body may not adopt a percentage under this subsection until the actuary first determines, and the retirement system concurs in the determination, that the municipality is able to fund, before the 30th anniversary of the effective date of its participation in the retirement system, all prior service obligations that the municipality proposes to assume under this section.

(d-1) The governing body of a municipality shall adopt, by ordinance, a zero percent prior service credit if, before joining the retirement system, the municipality provided retirement benefits to its employees that were funded partly or wholly by the municipality. Prior service credit adopted under this subsection is excluded prior service credit.

(e) The prior service credit of a person who becomes a member of the retirement system under Section 852.105 or who is entitled to prior service credit under Section 853.102(a)(3) is computed on the percentage of the base prior service credit that was most recently used by the person's employing municipality in computing prior or updated service credits for current employees.

(f) Interest on a prior service credit is earned for each whole calendar year beginning on the effective date of membership and ending on the effective date of retirement. If a person retires under this subtitle on a date other than December 31, interest on a prior service credit is earned for the partial year in which the retirement occurs, prorated from January 1 of the year in which the retirement occurs to the effective date of retirement.
Sec. 853.106. PRIOR SERVICE CERTIFICATE. (a) After determining a member's prior service credit under Section 853.105, the retirement system shall issue to the member a prior service certificate stating:

(1) the number of months of prior service credited;
(2) the average prior service compensation; and
(3) the prior service credit.

(b) As long as a person remains a member, the person's prior service certificate is, for purposes of retirement, conclusive evidence of the information it contains, except that a member or participating municipality may request that the retirement system correct an error in the prior service certificate in accordance with Section 852.110.

Sec. 853.107. VOID PRIOR SERVICE CERTIFICATE. (a) When a person's membership in the retirement system is terminated, any prior service certificate issued to the person becomes void.

(b) A person whose membership has terminated and who subsequently resumes membership in the retirement system is not
entitled to credit for prior service.

SUBCHAPTER C. ESTABLISHMENT OF CURRENT SERVICE

Sec. 853.201. CREDITABLE CURRENT SERVICE. Service performed as an employee member of a participating department of a municipality is credited in the retirement system for each month for which the required contributions are made by the member.

SUBCHAPTER D. OPTIONAL SERVICE

Sec. 853.301. SERVICE FOR CERTAIN PUBLIC FACILITIES. (a) The governing body of a participating municipality by ordinance may authorize the granting of prior service credit in the retirement system for service performed in a public hospital, utility, or other public facility currently operated by the municipality, during a time the facility was operated by a unit of government other than the municipality and before:

(1) the effective date of the municipality's participation in the retirement system, if the facility was acquired by the municipality before that date; or

(2) the date of acquisition of the facility, if the facility was acquired after the effective date of the municipality's participation in the retirement system.

(b) A member eligible to receive credit under this section after an ordinance is adopted under Subsection (a) is one who was employed by the municipality at a public facility:

(1) on the effective date of the municipality's participation, for service under Subsection (a)(1); or

(2) on the date of acquisition of the facility, for service under Subsection (a)(2).

(c) All credit authorized by a municipality under this section is treated as if it were performed for the municipality.
Sec. 853.302. SERVICE FOR ELECTED OFFICERS. An elected officer who becomes a member of the retirement system on the effective date of an ordinance adopted under Section 852.107 is entitled to prior service credit computed as provided by Section 853.105, except that if the employing municipality has granted updated service credits, the percentage to be used in computing a prior service credit under this section is the percentage of the base updated service credit that was most recently used by the municipality in computing updated service credits.

Sec. 853.303. PRIOR SERVICE CREDIT FOR SERVICE FOR NONPARTICIPATING DEPARTMENT. (a) The governing body of a participating municipality by ordinance may authorize the granting of prior service credit in the retirement system to an employee who is a member of the retirement system and who became a member as an employee of a participating department of the municipality, for service performed, before the person's date of membership, as an employee of a department of the same municipality that was not participating in the retirement system at the time of the service but later became a participating department.

(a-1) This subsection applies to a participating municipality that is required to adopt a zero percent prior service credit under Section 853.105(d-1). If the governing body of a participating municipality subject to this subsection authorizes the granting of prior service credit to an employee under Subsection (a), the employee is only entitled to receive excluded prior service credit.

(a-2) This subsection applies to a participating municipality that, before having a department of the municipality begin participating in the retirement system, provided other retirement
benefits to its employees in that department funded partly or wholly by the municipality. If, on or after January 1, 2020, the governing body of a participating municipality subject to this subsection authorizes the granting of prior service credit to an employee under Subsection (a), the employee is only entitled to receive excluded prior service credit.

(a-3) This subsection applies to a participating municipality that elected to discontinue the participation in the retirement system of persons employed or reemployed after the date of an election to discontinue under Section 852.006(a), provided other retirement benefits to those persons funded partly or wholly by the municipality, and subsequently elects, by ordinance, to have those persons resume participating in the retirement system as employees. If, on or after January 1, 2020, the governing body of a participating municipality subject to this subsection authorizes prior service credit under Subsection (a) to an employee described by this subsection, the employee is only entitled to excluded prior service credit.

(b) A member may claim prior service credit under this section by filing, not later than one year after the effective date of the ordinance authorizing the credit, a detailed statement of the service with the clerk or secretary of the municipality.

(c) As soon as practicable after a member has filed a statement of prior service under this section, the municipality shall verify the prior service claimed and certify to the retirement system the creditable prior service approved and the average monthly compensation paid to the member during the period of the service.

(d) After receiving a certification of prior service and average monthly compensation under this section, the retirement system shall:

(1) determine the prior service credit allowable to the member in the manner provided by Section 853.105; and

(2) issue to the member a prior service certificate as provided by Section 853.106.

Sec. 853.304. PRIOR SERVICE CREDIT FOR PROBATIONARY EMPLOYMENT.

(a) The governing body of a participating municipality which prior to September 1, 1989, engaged persons beginning work with the municipality on a probationary basis for a specified period and consequently did not enroll the person as a member of the system until the probationary period expired may by ordinance allow prior service credit for service performed during the period of probationary employment (not exceeding six months) with the municipality.

(b) After the retirement system receives a copy of a municipality's ordinance described by Subsection (a), the retirement system shall furnish to the municipality a report containing the names of employees who, according to the retirement system's records, are eligible to receive prior service credit for probationary employment.

(c) As soon as practicable after the municipality receives a report under Subsection (b), the municipality shall verify the information in the report and certify to the retirement system the number of months of probationary employment to which each employee listed on the report appears to be entitled and the average monthly compensation paid to the member during the period of probationary employment.

(d) The certification by the municipality must be received by the retirement system not later than the first anniversary of the effective date of the ordinance allowing the credit. After receiving the certification from the municipality described by Subsection (c), the board of trustees shall determine the prior service credit allowable to the member in the manner provided in Section 853.105.

Sec. 853.305. CREDIT FOR SERVICE WITH NONPARTICIPATING MUNICIPALITY, AIRPORT AUTHORITY, OR COUNCIL OF GOVERNMENTS, OR CERTAIN SERVICE PREVIOUSLY CANCELED. (a) The governing body of a
participating municipality by ordinance may authorize the granting of restricted prior service credit to an employee who is a member of the retirement system for service previously performed:

(1) as a full-time, paid employee of the United States, of any public authority or agency created by the United States, of any state or territory of the United States, of any political subdivision of any state of the United States, of any public agency or authority created by a state or territory of the United States, or of an institution of higher education at which the person is commissioned as a campus security personnel employee under Section 51.212, Education Code, and for which service the person has not otherwise received credited service in this system, including combined service credit under Chapter 803; or

(2) as an employee of the state or any branch, agency, or subdivision of the state for which the person received credited service under the Employees Retirement System of Texas, the Teacher Retirement System of Texas, the Judicial Retirement System of Texas Plan One, the Judicial Retirement System of Texas Plan Two, the Texas County and District Retirement System, or this retirement system, and the credit for which was canceled because of withdrawal of contributions and has not been reinstated.

(b) Restricted prior service credit may be used only to satisfy length-of-service requirements for retirement eligibility, has no monetary value in computing the annuity payments allowable to the member, and may not be used in other computations, including computation of updated service credits.

(c) A member seeking to establish restricted prior service credit under Subsection (a)(1) must obtain from the official custodian of personnel records of the entity for which the previous service was performed a detailed statement of the service, verified by that official, and file the statement with the clerk or secretary of the participating municipality by which the member is employed. A member seeking to establish restricted prior service credit under Subsection (a)(2) must obtain from the public retirement system in which the canceled service was credited a detailed statement of the service, verified by an official of that retirement system, and file that statement with the clerk or secretary of the participating municipality by which the member is employed.

(d) As soon as practicable after the member has filed the verified statement, the clerk or secretary of the participating

municipality authorizing the credit shall examine the statement. If satisfied that the claim is correct, the clerk or secretary shall endorse the statement as approved, file the original in the appropriate files of the granting municipality, and prepare and transmit to the director of the retirement system a certified copy of the approved claim.

(e) On receipt of a certified copy of an approved claim, the retirement system, if satisfied that credit for service claimed under Subsection (a)(1) has not previously been granted the member, or that credit claimed under Subsection (a)(2) previously existed but has been canceled and not reinstated, shall enter the credit in the member's records.

(f) In this section, "full-time, paid employee" has the meaning assigned "employee" by Section 851.001, except that the services do not have to be performed for a municipality.

(g) An ordinance adopted under this section applies to the granting of restricted prior service credit to a member who is or has been an employee of the authorizing municipality at any time on or after the effective date of the ordinance.

**SUBCHAPTER E. OPTIONAL INCREASES IN SERVICE CREDITS**

Sec. 853.401. ORDINANCE AUTHORIZING UPDATED SERVICE CREDITS.

(a) Except as provided by Subsection (b) and Section 853.0015, the governing body of a participating municipality by ordinance may authorize the crediting in the retirement system of updated service credits for service performed for the municipality by members. Beginning January 1, 2022, a member must be a contributing employee of the municipality on the date prescribed by Section 853.402(e) to be eligible to receive an updated service credit authorized under this section. An updated service credit authorized under this section replaces any updated service credit or prior service credit previously authorized for part of the same service.
(b) A municipality may not authorize updated service credits for members who had less than 36 months of credited service on the date prescribed by Section 853.402(e).

(c) In adopting an ordinance under this section, a governing body shall specify the percentage of base updated service credits to be used in computing updated service credits for employees of the municipality and shall specify the date the updated service credits will take effect. The percentage adopted may be 50 percent, 75 percent, or 100 percent of a base updated service credit. The effective date must be January 1 of a year specified by the governing body. If the governing body of a municipality has specified a different percentage in an ordinance adopted under Section 853.404(a) and in effect on December 31, 1999, the percentage used in computing updated service credits for employees of that municipality remains in effect until changed or discontinued under Section 853.404.

(d) A governing body that adopts an ordinance under this section shall send it to the retirement system, and the system must receive it before the effective date of the updated service credits authorized in the ordinance.

Acts 2019, 86th Leg., R.S., Ch. 991 (S.B. 1337), Sec. 8, eff. January 1, 2020.

Sec. 853.402. DETERMINATION OF UPDATED SERVICE CREDITS. (a) If a governing body sends the retirement system an ordinance adopted under Section 853.401, the retirement system shall determine for each affected member the average updated service compensation, base updated service credit, and updated service credit.

(a-1) The board of trustees by rule may limit the increase in a member's average updated service compensation from year to year.

(b) The average updated service compensation of a member is
computed as the monthly average compensation:

(1) for the 36 months immediately preceding the date prescribed by Subsection (e); or

(2) if the member did not perform service in each of the 36 months described in Subdivision (1) or did not perform any service within the 36-month period, for the most recent 36 months before the date prescribed by Subsection (e) in which the member performed service.

(c) The base updated service credit of a member is an amount computed as the number 1.03, times the difference by which the amount computed under Subdivision (1) exceeds the amount computed under Subdivision (2), where:

(1) "(1)" is an amount equal to the accumulation at three percent interest of a series of monthly amounts for the number of months of credited service on the date prescribed by Subsection (e), each amount of which equals the member's average updated service compensation, times the sum of:

(A) the rate of contributions required of the member for current service; plus

(B) the member's contribution rate, times the municipal current service ratio in effect on the effective date of the ordinance adopted under Section 853.401; and where

(2) "(2)" is an amount equal to the sum of:

(A) the amount credited to the member's individual account on the date prescribed by Subsection (e), subject to a 1 to 1 matching ratio, times 2; plus

(B) the amount credited to the member's individual account, subject to a 1.5 to 1 matching ratio, times 2.5; plus

(C) the amount credited to the member's individual account, subject to a 2 to 1 matching ratio, times 3.

(d) The updated service credit of a member is an amount equal to the greatest of the following:

(1) the percentage determined under Section 853.401(c), times the member's base updated service credit; or

(2) any updated service credit previously authorized by the municipality and in effect for the member, accumulated at interest as provided by Subsection (f) from the date it took effect to the date prescribed by Subsection (e); or

(3) prior service credit previously authorized by the municipality and in effect for the member, accumulated at interest as
provided by Subsection (f) from the date the credit took effect to
the date prescribed by Subsection (e).

(e) The date used in computing updated service compensation and
updated service credits under this section is January 1 of the year
immediately preceding the January 1 on which the updated service
credits will take effect.

(f) Interest on an updated service credit is earned for each
whole calendar year beginning on the date the updated service credit
takes effect and ending on the effective date of retirement. If a
person retires under this subtitle on a date other than December 31,
interest on an updated service credit is earned for the partial year
in which the retirement occurs, prorated from January 1 of the year
in which the retirement occurs to the effective date of retirement.

(g) The retirement system may recalculate updated service
credit for purposes of determining a member's retirement annuity if:

(1) the member reestablishes credited service in accordance
with Section 853.003 and retires in the same calendar year; and

(2) any municipality for which the member performed
creditable service adopts an ordinance authorizing updated service
credits under Section 853.401, 853.404, or 853.601 with an effective
date of January 1 of the same calendar year.

obligations charged against the municipality's account in the

INCREASES. (a) The governing body of a participating municipality
that adopts an ordinance authorizing the crediting in the retirement
system of updated service credits under Sections 853.401, 853.402,
and 853.403, to be effective January 1 of a designated year, may
further provide in the ordinance that updated service credits will be
credited effective January 1 of each year following the designated
year, using the same percentage of the base updated service credit
specified in the ordinance in computing updated service credits for
each future year, until changed or discontinued as provided by this
section.

(b) The governing body of a participating municipality that adopts an ordinance under Section 853.601, authorizing the crediting of updated service credits for transferred service effective January 1 of a designated year, may further provide in the ordinance that updated service credits will be credited effective January 1 of each year following the designated year, using the same percentage of the base updated service credit specified in the ordinance in computing updated service credits for each future year, until changed or discontinued as provided by this section.

(c) The governing body of a participating municipality that adopts an ordinance under Section 854.203 providing for increased annuities effective January 1 of a designated year may further provide in the ordinance that increases in annuities will be credited effective January 1 of each year following the designated year based on recomputations made as provided by Section 854.203(b)(1) for each year following the initial computation, and using the fraction specified in the ordinance as required under Section 854.203(b)(2) in the recomputations.

(d) Except as provided by Subsection (e), an ordinance under this section continues in effect for each year that the actuary determines that all obligations charged against the municipality's account in the benefit accumulation fund, including the obligations to become effective the next January 1, can be funded by the municipality within its maximum contribution rate and within its amortization period as in effect on the next January 1. An ordinance under this section will cease to be in effect for future years if the actuary cannot make that determination, but shall again take effect for future years beginning January 1 of the first year after the actuary can make that determination.

(e) An ordinance under this section ceases to be in effect for future years if the municipality:

(1) adopts a new ordinance under this section;

(2) adopts a new matching ratio for matching a member's future contributions and earnings on those contributions at the time of retirement under Section 855.501;

(3) adopts a new rate of member contributions under Section 855.401; or

(4) adopts an ordinance stating that the ordinance in effect under this section will cease to be in effect for future
SUBCHAPTER F. MILITARY SERVICE

Sec. 853.501. MILITARY SERVICE BY MEMBER. (a) A member of the retirement system is allowed credited service as provided in this subchapter if at any time the person:

(1) leaves employment with a participating municipality to perform and performs active duty service in the armed forces or the armed forces reserves of the United States or their auxiliaries, provided that:

(A) the person makes application for reemployment with the same municipality within 90 days after the person is released from active duty or discharged from such military service or from hospitalization continuing after discharge for a period of not more than one year; and

(B) the person is reemployed by the same participating municipality; or

(2) is conscripted and leaves employment with a participating municipality to perform and performs war-related service during a state of war or during a conflict between the armed forces of the United States and the armed forces of a foreign country, provided that the person is reemployed by the same municipality within 90 days after the end of such service.

(b) Credit for service under this section may only be used as set forth in Section 853.505.

Sec. 853.502. OTHER MILITARY SERVICE CREDIT. (a) The governing body of a participating municipality by ordinance may
authorize eligible members in its employment to establish credit in the retirement system for active military service performed as a member of the armed forces or armed forces reserves of the United States or their auxiliaries, for which service the members do not receive credit under Section 853.501.

(b) A member eligible to establish credit for military service creditable as provided by this section is one who is an employee of a municipality that has adopted an ordinance under this section and who:

(1) was an employee of a participating municipality immediately prior to the military service, but terminated employment with the municipality and membership in the retirement system during the period of service, and applied for reemployment with the municipality not later than the 90th day after the date the person was released from active duty or discharged or from hospitalization continuing after discharge for a period of not more than one year, and was reemployed by that municipality; or

(2) has at least five years of credited service in the retirement system and has been an employee of one or more participating municipalities for at least five years.

established under laws of this state.

Sec. 853.504.  ESTABLISHMENT OF MILITARY SERVICE CREDIT.  (a) An eligible member may establish credit under Section 853.501 by filing written application therefor with the retirement system, accompanied by satisfactory evidence of the member's military service.

(b) An eligible member seeking military service credit under Section 853.502 must file with the retirement system a written application for the credit, together with satisfactory evidence of the member's military service.

(c) No person may obtain credit under this subchapter for more than 60 months of military service.

Sec. 853.505.  USE OF MILITARY SERVICE CREDIT.  (a) The retirement system shall use military service credit established under this subchapter in determining length-of-service requirements for benefits.

(b) Except as provided by Section 853.506, military service credit allowed under Section 853.501 shall have no monetary value in calculating the annuity payments allowable to the member and shall not be used in other computations, including computation of updated service credits or prior service credits.

(c) When a person who has military service credit under Section 853.502 retires and has paid for military service credit under former law, the retirement system shall compute an amount equal to the sum of any accumulated amount paid by the person for the military service
credit under former law, plus an equal amount multiplied by the municipality's current service matching percent in effect on the date the member applied for the military service credit. The retirement system shall use the sum derived from that computation to make annuity payments to the person that are computed in the same manner as is the person's current service annuity, but the military service credit and the sum may not be used in other computations, including computations of updated service credits or prior service credits.

SUBCHAPTER G. OPTIONAL UPDATED SERVICE CREDIT FOR TRANSFERRED SERVICE

Sec. 853.601. ORDINANCE AUTHORIZING UPDATED SERVICE CREDIT FOR TRANSFERRED SERVICE. (a) The governing body of a participating municipality in ordinances authorizing updated service credits under Section 853.401 may provide that those members who are eligible for such credits on the basis of service with the granting municipality, who have unforfeited credit for prior service or current service with
another participating municipality or municipalities by reason of previous employment, and who are contributing members on the date prescribed by Section 853.402(e), shall be credited in the retirement system with updated service credit calculated in the manner prescribed by Sections 853.401 and 853.402, except that in determining the base updated service credit of the member under Section 853.402(c)(1), all unforfeited credited service performed by the member by reason of previous employment in other participating municipalities prior to the date prescribed by Section 853.402(e) shall be treated as if performed in the service of the municipality adopting the ordinance, and that amount shall be reduced by an amount equal to the sum of:

1. 2 times the amount credited to the member's individual account on the date prescribed in Section 853.402(e), which any participating municipality has undertaken to match on a 1 to 1 ratio; plus

2. 2.5 times the amount credited to the member's individual account, subject to a 1.5 to 1 matching ratio by any participating municipality; plus

(1) service retirement benefits;
(2) disability retirement benefits; and
(3) death benefits.

Sec. 854.002. COMPOSITION OF RETIREMENT ANNUITY. (a) Each retirement annuity payable under this subtitle consists of a prior service annuity and a current service annuity.

(b) A prior service annuity is actuarially determined from any updated service credit or any prior service, special prior service, or antecedent service credit in effect for a member on the date of retirement, plus accumulated interest.

(c) A current service annuity is actuarially determined on the date of a member's retirement from the sum of:

(1) the amount credited to the member's individual account; and

(2) an additional amount from the benefit accumulation fund equal to the amount in the member's individual account or a greater amount authorized by a participating municipality under Section 855.501.

(d) Notwithstanding any other provision of this subtitle, instead of an annuity, a person will receive from the retirement system a single payment equal to the sum of the following if on the date of that person's retirement that sum is $10,000 or less:

(1) any updated service credit or any prior service, special prior service, or antecedent service credit for that person on the date of retirement, plus accumulated interest;
(2) the amount credited to the person's individual account; and

Sec. 854.003. EFFECTIVE DATE OF RETIREMENT. (a) Except as provided by Subsections (b) and (d), the effective date of a member's service retirement is the date the member designates at the time the member applies for retirement under Section 854.101, but the date must be the last day of a calendar month and may not precede the date the member terminates employment with all participating municipalities.

(b) If a member dies before retirement and an annuity becomes payable under Section 854.105, the member is considered to have retired on the last day of the month immediately preceding the month in which death occurred, except as provided by Subsection (e).

(c) Except as provided by Subsections (b) and (d), the effective date of a member's disability retirement is the date designated on the application for retirement filed by or for the member as provided by Section 854.301, but the date must be the last day of a calendar month and may not precede the date the member terminates employment with all participating municipalities.

(d) Notwithstanding any other provision of this subtitle, each distribution of a benefit under this subtitle must be determined and made in accordance with Section 401(a)(9) of the Internal Revenue Code of 1986, and its subsequent amendments, including the minimum

incidental death benefit requirements of Section 401(a)(9)(G) of that code. The board of trustees may adopt rules it determines necessary to comply with the distribution requirements, including rules under which a person is considered to have retired as a result of those requirements.

(e) If the person who is eligible to receive an annuity under Subsection (b) is the member's surviving spouse, the person may elect, by notifying the retirement system not later than the 180th day after the date of the member's death, to leave the member's accumulated contributions on deposit with the retirement system until the date the member would have been eligible for service retirement. If a surviving spouse makes an election under this subsection, the deceased member is considered to have retired on the last day of the month in which the member would have attained an age for service retirement eligibility. An election under this subsection is revocable before the payment of the first annuity payment by filing a written application approved by the board of trustees to receive the member's accumulated contributions.

Sec. 854.004. WHEN ANNUITY IS PAYABLE; CHANGES BEFORE FIRST PAYMENT. (a) A retiree may change the retiree's choice of retirement annuity payment plans or the designation of beneficiary after the retiree's effective date of retirement by filing written notice with the board of trustees before the later of the date on which the retirement system makes the first payment or the date the first annuity payment becomes due. After the first payment has been made by the retirement system or has become due, a retiree may not change the annuity payment plan selected and may not change the designated beneficiary except under Section 854.006.

(b) For purposes of this section, the term "makes payment" includes the depositing in the mail of a payment or the crediting of
an account with payment through electronic funds transfer.

(c) An annuity under this subtitle is payable for a period beginning on the last day of the first month following the month in which retirement occurs and ending, except as otherwise provided by this subtitle, on the last day of the month in which death occurs.

Sec. 854.005. REDUCTION OF ANNUITY PAYMENTS ON REQUEST. (a) An annuitant by written request may authorize the retirement system to cease the annuitant's monthly payment or reduce the annuitant's monthly payment to an amount specified in the request. In writing, the annuitant may subsequently request the retirement system to reinitiate or increase the annuitant's monthly payment at or to any specified amount that does not exceed the amount originally payable.

(b) If the retirement system receives a request under Subsection (a), the director may cause the monthly annuity payment of the requesting annuitant to be reduced or increased as specified in the request.

(c) Any amounts by which an annuity is reduced under this section are forfeited to the retirement system and are not recoverable by any person.

Sec. 854.006. CHANGE OF BENEFICIARY OR DIVISION OF BENEFIT FOR CERTAIN PERSONS RECEIVING MONTHLY BENEFITS. (a) A retiree who is receiving payments of an annuity for the retiree's life but with payments to continue if the retiree dies until a determined number of payments have been made may, with the consent of the retiree's spouse if there is one, revoke any existing selection and designation of
beneficiary nominated to receive any monthly payments that may become
due under the annuity after the retiree's death and may select a new
beneficiary to whom the monthly payments are to be made.

(b) A person who, as beneficiary of a deceased retiree, is
receiving monthly payments of any fixed-term annuity described by
Subsection (a) may select and designate a person to whom will be paid
any monthly payments that may be due under the annuity after the
death of the beneficiary making the designation.

(c) Any selection and designation of beneficiary under
Subsection (a) or (b) must be in writing, on forms prescribed by the
board of trustees, and will become effective on filing with the
director.

(d) If a qualified domestic relations order, as that term is
defined by Section 804.001, so provides, the benefit payable to a
retiree who is receiving payments of an annuity for the retiree's
life with payments to continue after the retiree's death until the
death of another person under Section 854.104(c)(1), (2), or (5) may
be divided by the retirement system into two annuities if:

1. the person who was designated to receive the continued
   payment after the retiree's death is the same person as the alternate
   payee;

2. the domestic relations order specifies that one of the
two annuities is payable over the remaining life of the retiree, with
no payments to be made under that annuity after the death of the
retiree;

3. the domestic relations order specifies that the annuity
   payable to the alternate payee is payable over the remaining life of
   that person, with no payments to be made under that annuity after the
death of the alternate payee named in the order; and

4. the domestic relations order specifies that the portion
   of the benefit payable to the alternate payee is stated as a fixed
   percentage of the present benefit payable to the retiree, which
   percentage may not exceed 50 percent of a benefit provided under
   Section 854.104(c)(2) and may not exceed 75 percent of a benefit
   provided under Section 854.104(c)(5).

(e) The division of an annuity under Subsection (d) is
effective when the order is determined by the retirement system to be
a qualified domestic relations order, and the amount of each of the
two annuities shall be computed by the retirement system at that
time, based on tables that have been adopted by the retirement system
and in effect at that time, so that the two annuities are actuarially equivalent at the time of division to the annuity being divided.

(f) If a divorce decree or a qualified domestic relations order, as that term is defined by Section 804.001, so provides, the benefit payable to a retiree who is receiving payments of an annuity for the retiree's life with payments to continue after the retiree's death until the death of another person under Section 854.104(c)(1), (2), or (5), 854.305(c), or 854.410(c) may be increased to the amount that would have been payable if the retiree had selected an annuity payable only during the retiree's lifetime if:

1. the proceeding in which the decree or order is entered terminates the marriage between the retiree and the person who was designated to receive the continued payment after the retiree's death;

2. the decree or order awards the retiree all benefits resulting from the retiree's participation in the retirement system; and

3. the decree or order is signed after December 31, 1999.

(g) A decree or order under Subsection (f) applies only to annuity payments made after the date the retirement system receives and approves the decree or order as complying with Subsection (f).

Acts 2019, 86th Leg., R.S., Ch. 991 (S.B. 1337), Sec. 11, eff. January 1, 2020.

Sec. 854.007. LIMITATION ON PAYMENT OF BENEFITS. If the amount of a benefit payment under this subtitle would exceed the limitations provided by Section 415, Internal Revenue Code of 1986, and its subsequent amendments, and the regulations adopted under that section, the retirement system shall reduce the amount of the benefit to comply with that section.

Added by Acts 1993, 73rd Leg., ch. 57, Sec. 12, eff. Jan. 1, 1994. Amended by Acts 1995, 74th Leg., ch. 514, Sec. 12 to 14, eff. Sept. 1, 1995; Acts 1997, 75th Leg., ch. 76, Sec. 7, eff. Sept. 1, 1997;
Sec. 854.008. PARTIAL LUMP-SUM DISTRIBUTION ON RETIREMENT. (a) A member who is eligible for service retirement and who terminates employment with all participating municipalities may apply for a partial lump-sum distribution under this section. The board of trustees may adopt rules to allow the beneficiary of a deceased member who at the time of death was eligible for service retirement but had not retired to make the same election that the member could have made under this section at the time of retirement.

(b) The amount of a lump-sum distribution under this section may not exceed three-fourths of the total contributions and accumulated interest in the member's individual account at the time of the member's retirement.

(c) Subject to the limitation in Subsection (b), the member may elect to have the lump-sum distribution be equal to the monthly annuity payments, excluding any distributive benefit payments, that the member would have received if the member had selected the standard service retirement annuity described in Section 854.103 over a period of:

(1) 12 months after the effective date of the member's retirement;

(2) 24 months after the effective date of the member's retirement; or

(3) 36 months after the effective date of the member's retirement.

(d) The lump-sum distribution will be made as a single payment, payable at the same time as the first monthly annuity payment that is paid to the member.

(e) The amount of the lump-sum distribution will be deducted from the sum used in computing the member's current service annuity under Section 854.002(c). If a payment is made under Section 854.502, the amount of the lump-sum distribution will be considered to be included in the payments made by reason of the annuity.

(f) If a benefit payable under this section is subject to a domestic relations order that the retirement system determines is qualified under Section 804.003, the alternate payee under that order may elect to receive a partial lump-sum distribution under Subsection (g).
(g) The partial lump-sum distribution under Subsection (f) shall be paid as a single payment, payable at the same time as the first monthly annuity payment paid to the alternate payee, and shall be deducted from the sum used in computing the alternate payee's annuity. The amount of the lump-sum distribution shall be equal to the monthly payments, excluding any distributive benefit payments that the alternate payee would otherwise have received, during the:

(1) 12 months after the effective date of the member's retirement;

(2) 24 months after the effective date of the member's retirement; or

(3) 36 months after the effective date of the member's retirement.

SUBCHAPTER B. SERVICE RETIREMENT BENEFITS

Sec. 854.101. APPLICATION FOR SERVICE RETIREMENT. A member may apply for service retirement by filing a retirement application with the board of trustees not later than the date specified by the member for retirement or, if the member has not previously selected an optional service retirement annuity under Section 854.105, not earlier than the 90th day before that date.

Sec. 854.102. ELIGIBILITY FOR SERVICE RETIREMENT ANNUITY. (a) A member is eligible to retire and receive a service retirement annuity, if the member:

(1) is at least 60 years old and has at least 15 years of
credited service in the retirement system; or

(2) has at least 28 years of credited service in the retirement system.

(b) A member is eligible to retire and receive a service retirement annuity, if the member is at least 50 years old and has at least 25 years of credited service in the retirement system performed for one or more municipalities that:

(1) have effective dates of participation in the retirement system after May 28, 1969; or
(2) have adopted a like provision under Section 854.201 or 854.202.

(c) A member is eligible to retire and receive a service retirement annuity, if the member is at least 60 years old and has at least 10 years of credited service in the retirement system performed for one or more municipalities that either have an effective date of participation in the retirement system after August 26, 1979, or have adopted a like provision under Section 854.202.

(d) A member employed by a municipality having an effective date of participation in the retirement system after May 28, 1969, may terminate employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age provided by law for service retirement of employees of the municipality, if the member has at least 20 years of credited service performed for one or more municipalities that are either subject to this subsection or have adopted a like provision under Section 854.201(c).

(e) A member employed by a municipality having an effective date of participation in the retirement system after August 26, 1979, may terminate employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age and service requirement, if the member has at least 10 years of credited service performed for one or more municipalities that are either subject to this subsection or have adopted a like provision under Section 854.202.

(f) A member is eligible to retire and receive a service retirement annuity if the member has at least 25 years of credited service in the retirement system performed for one or more municipalities that have participation dates after September 1, 1987, or that have adopted a like provision under Section 854.202(f).

(g) A member is eligible to retire and receive a service
retirement annuity if the member has at least 20 years of credited service in the retirement system performed for one or more municipalities that have adopted a like provision under Section 854.202(g).

(h) A member is eligible to retire and receive a service retirement annuity if the member is at least 60 years old and has at least five years of credited service in the retirement system that is performed for one or more municipalities to which the five-year vesting provision under Section 854.205 applies.

Sec. 854.103. STANDARD SERVICE RETIREMENT ANNUITY. (a) The standard service retirement annuity payable under this subtitle is the sum of a member's prior service annuity and current service annuity.

(b) A standard service retirement annuity is payable throughout the life of a retiree.

Sec. 854.104. OPTIONAL SERVICE RETIREMENT ANNUITY. (a) Instead of the standard service retirement annuity payable under Section 854.103, a retiring member may elect to receive an optional service retirement annuity under this section.

(b) An optional service retirement annuity is payable throughout the life of the retiree and is actuarially adjusted from the standard service retirement annuity to its actuarial equivalent.
under the option selected under Subsection (c).

(c) An eligible person may select an optional annuity that provides that:

1. after the retiree's death, the reduced annuity is payable throughout the life of a person designated by the retiree;
2. after the retiree's death, one-half of the reduced annuity is payable throughout the life of a person designated by the retiree;
3. if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate;
4. if the retiree dies before 180 monthly annuity payments have been made, the remainder of the 180 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate;
5. after the retiree's death, three-fourths of the reduced annuity is payable throughout the life of a person designated by the retiree; or
6. if the retiree dies before 60 monthly payments have been made, the remainder of the 60 payments are payable to the retiree's beneficiary or, if one does not exist, to the retiree's estate.

(d) An option under Subsection (c) applies to both prior and current service annuities, except that prior service annuities are subject to reduction under Section 855.308(f).

(e) To select an optional service retirement annuity, a member or retiree must make the selection and designate a beneficiary on a form prescribed by and filed with the board of trustees before the 31st day after the effective date of retirement.

(f) Notwithstanding any other provision of this subtitle, each distribution to any person or estate under this subtitle must be made in accordance with Section 401(a)(9) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401(a)(9)).

(g) If a person who retires after August 31, 1997, elects a reduced retirement annuity that is payable until the death of the last to die of the retiree and a person designated under Subsection (e), and if the retiree survives the other person, the monthly payments to the retiree will be increased to the amounts that would have been payable if the retiree at the time of retirement had
elected to receive an annuity payable only during the retiree's life, and adjustments had been made for any applicable postretirement increases in that benefit. The increased benefit becomes payable the month after the month in which the person designated under Subsection (e) dies and continues until the retiree dies.

(h) Subsection (i) applies only to a person who retired before September 1, 1997, and who elected, at retirement, to receive a reduced annuity that is payable until the death of the last to die of the retiree and a person designated as a beneficiary under Subsection (e).

(i) If both the retiree and the beneficiary described in Subsection (h) are alive, they may jointly elect in the manner provided by Subsection (j) to modify the annuity being received. An annuity modified under this subsection:

(1) begins with the first payment after one calendar month has passed since the date the form under Subsection (j) is filed, with the amount of the monthly payments, while the beneficiary is alive, being the actuarial equivalent of the previous annuity; and

(2) increases to the amount of the standard service retirement annuity that the retiree would otherwise be entitled to receive if the retiree had not selected the optional annuity with adjustments made for any postretirement increase in that benefit and becomes payable the month following the month in which the beneficiary dies and continues until the retiree dies.

(j) To make the election under Subsection (i), the retiree and beneficiary must execute and acknowledge, as provided by this subsection, a form stating that they are requesting a modification under Subsection (i) and that they understand that the modified annuity will be smaller than the standard service annuity while they are both living and if the beneficiary survives the member. The acknowledgment must be on a form prescribed by the board of trustees and be made before a notary public or other officer authorized to take acknowledgments. The retiree and beneficiary must file the executed form with the retirement system before January 1, 2003.

Sec. 854.105. SELECTION OF OPTIONAL SERVICE RETIREMENT ANNUITY. (a) A vested member may, while continuing to perform service for a participating municipality or after terminating all service, file with the board of trustees, on a form prescribed by the board, a selection of an optional service retirement annuity available under Section 854.104 and a designation of beneficiary or a designation of beneficiary without selecting a retirement option. An annuity selected as provided by this section is payable on the member's death before retirement.

(b) A member may change a selection of an optional annuity or a designation of beneficiary at any time before the member's retirement or death in the same manner that the original selection or designation was made.

(c) If a member eligible under this section to select an optional service retirement annuity dies before retirement without having made a selection, the beneficiary designated under Subsection (a) may select an optional annuity in the same manner as if the member had made the selection, subject only to the requirements of the Internal Revenue Code of 1986, and its subsequent amendments, as to the length of time over which the payments can be made.

(d) If a beneficiary has not been designated under Subsection (a), the member's surviving spouse may elect to receive a refund of the member's accumulated contributions or an optional annuity in the same manner as if the member had made the selection.

(e) If a beneficiary has not been designated under Subsection (a) and no surviving spouse exists, the member's surviving children jointly may elect to receive:
   (1) a refund of the member's accumulated contributions; or
   (2) an optional annuity in the same manner as if the member had made the selection, subject only to the requirements of the Internal Revenue Code of 1986, and its subsequent amendments, as to the length of time over which the payments can be made.

(f) If there is no surviving spouse or surviving child and no beneficiary designated under Subsection (a) exists, the last person designated by the member as a beneficiary on a form filed with the retirement system may elect to receive:
   (1) a refund of the member's accumulated contributions; or
(2) an optional annuity in the same manner as if the member had made the selection, subject only to the requirements of the Internal Revenue Code of 1986, and its subsequent amendments, as to the length of time over which the payments can be made.

(g) If there is not a person who is eligible to make a selection under Subsections (c)-(f), the executor or administrator of the member's estate may elect:

(1) for an estate beneficiary to receive the optional annuity under Section 854.104(c)(4), in which case the member will be considered to have retired on the last day of the month immediately preceding the month in which death occurred; or

(2) for the estate to receive a refund of the member's accumulated contributions under Section 854.501, in which case the member will be considered to have been a contributing member at the time of death.

Sec. 854.106. NO SURVIVING SPOUSE, EXECUTOR, OR ADMINISTRATOR.
(a) If a surviving spouse, or the executor or administrator of a member's estate, would be entitled to make an election under Section 854.105 because of the death of the member, the heirs of the deceased member may make that election if:

(1) no surviving spouse exists;
(2) no petition for the appointment of a personal representative of the member is pending or has been granted;
(3) 30 days have elapsed since the death of the member;
(4) the value of the entire assets of the member's estate, excluding homestead and exempt property, does not exceed $50,000;
(5) there are not more than three heirs; and
(6) on file with the retirement system is a certified copy of a small estates affidavit that has been approved and filed in accordance with Chapter 205, Estates Code, or an original affidavit as described by Subsection (b).

(b) If no affidavit has been filed with the clerk of the court having jurisdiction and venue as provided by Chapter 205, Estates
Code, the retirement system may accept instead an affidavit sworn to by two disinterested witnesses, by the heirs who have legal capacity, and, if the facts warrant, by the natural guardian or next of kin of any minor or incompetent who is also an heir. The affidavit shall include the names and addresses of the heirs and witnesses, establish the facts listed in Subsection (a), include a list of the assets and liabilities of the estate, show the facts that constitute the basis for the right of the heirs to receive the estate, and show the fractional interests of the heirs in the estate as a result of those facts.

(c) If the retirement system, acting through the director or a person designated by the director, approves the affidavit, the heirs can make the election if each heir agrees to the election.

(d) In this section, "heirs" has the meaning assigned by Chapter 22, Estates Code, except that the term excludes any persons who have filed with the retirement system a proper disclaimer or renunciation.

Added by Acts 1995, 74th Leg., ch. 514, Sec. 15, eff. Sept. 1, 1995.
Amended by:
Acts 2017, 85th Leg., R.S., Ch. 324 (S.B. 1488), Sec. 22.044, eff. September 1, 2017.

Sec. 854.107. DESIGNATION OF BENEFICIARY AFTER RETIREMENT UNDER STRAIGHT LIFE OR GUARANTEED TERM ANNUITY. (a) This section applies only to a retiree who marries after the date of the person's retirement and who at the time of retirement selected either:

(1) a service or disability retirement annuity that would be payable throughout the retiree's life and would not be paid after the retiree's death, except as provided by Section 854.502; or

(2) a service or disability retirement annuity that would be payable throughout the retiree's life and, if the retiree dies before 60, 120, or 180 monthly annuity payments, as appropriate, have been made, would be payable for the remainder of those months.

(b) A retiree described under Subsection (a) may replace the annuity by selecting an optional retirement annuity under Section 854.104(c)(1), (2), or (5) and by designating the person's spouse as beneficiary in the same manner as an annuity selection and
designation of beneficiary may be made before retirement.

(c) The selection under Subsection (b) must be filed with the retirement system before the first anniversary of the date of the marriage unless the postretirement marriage occurred before January 1, 2002, in which case the selection must be filed with the retirement system before January 1, 2003.

(d) A person may make a postretirement designation of a beneficiary under this section only once.

(e) The retirement system shall adjust the monthly payments of the annuity under the option selected to an actuarial equivalent amount of the annuity being paid immediately before the change in benefit option and beneficiary selection.

(f) The selection of an optional annuity and designation of a beneficiary under this section is not effective if the retiree or beneficiary dies before the date the change is to take effect.

Added by Acts 2001, 77th Leg., ch. 121, Sec. 18, eff. Jan. 1, 2002.

Sec. 854.108. DESIGNATION OF BENEFICIARY AFTER RETIREMENT UNDER JOINT AND SURVIVOR ANNUITY. (a) This section applies only to a retiree who:

(1) at the time of retirement selected an optional annuity providing that, after the retiree's death, payments would be made to a beneficiary throughout the remaining life of the beneficiary and the beneficiary predeceases the retiree;
(2) marries after the date of the person's retirement; and
(3) has not previously replaced an annuity under this section.

(b) A retiree described by Subsection (a) may replace an annuity by selecting an optional annuity under Section 854.104(c)(1), (2), or (5) and designating the person's spouse as beneficiary in the same manner as an annuity selection and designation of beneficiary may be made before retirement.

(c) The selection under Subsection (b) must be filed with the retirement system before the first anniversary of the date of the marriage unless the postretirement marriage occurred before January 1, 2002, in which case the selection must be filed with the retirement system before January 1, 2003.

(d) The retirement system shall adjust the monthly payments of
the annuity under the option selected to an actuarial equivalent amount of the annuity being paid immediately before the change in benefit option and beneficiary selection.

(e) The selection of an optional annuity and designation of a beneficiary under this section is not effective if the retiree or beneficiary dies before the date the change is to take effect.

Added by Acts 2001, 77th Leg., ch. 121, Sec. 18, eff. Jan. 1, 2002.

SUBCHAPTER C. OPTIONAL SERVICE RETIREMENT BENEFITS

Sec. 854.201. OPTIONAL SERVICE RETIREMENT ELIGIBILITY. (a) The governing body of a municipality having an effective date of participation in the retirement system before May 29, 1969, by ordinance may authorize eligibility for a service retirement annuity as provided by this section.

(b) The governing body may authorize a member who is an employee of the municipality to be eligible for service retirement who is at least 50 years old and has at least 25 years of credited service performed for one or more municipalities that either have authorized eligibility under this section or are subject to Section 854.102(d), or to terminate employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age provided by law for service retirement of employees of the municipality, if the member has at least 20 years of credited service performed for one or more municipalities that either have authorized eligibility under this section or are subject to Section 854.102(d).

(c) A governing body may not adopt an ordinance under this section unless the actuary first determines that all obligations charged against the municipality's account in the benefit accumulation fund, including the obligations proposed in the ordinance, can be funded by the municipality within its maximum contribution rate and within its amortization period.

Sec. 854.202. ADDITIONAL OPTIONAL SERVICE RETIREMENT ELIGIBILITY. (a) The governing body of a municipality that has an effective date of participation in the retirement system after December 31, 1975, or that has previously authorized updated service credits, by ordinance may authorize eligibility for a service retirement annuity as provided by this section for a member who is or was an employee of any participating department of the municipality.

(b) The governing body may authorize a member to retire and receive a service retirement annuity, if the member:

(1) is at least 50 years old and has at least 25 years of credited service performed for one or more municipalities that have authorized eligibility under this subdivision; or

(2) is at least 60 years old and has at least 10 years of credited service performed for one or more municipalities that either have authorized eligibility under this subdivision or have a participation date in the retirement system after August 26, 1979.

(c) The governing body may authorize a member who is or was an employee of the municipality to terminate employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age and service requirement, if the member has at least 10 years of credited service performed for one or more municipalities that either have authorized eligibility under this subsection or are subject to Section 854.102(e).

(d) An ordinance adopted under this section must also include the provisions specified in Section 852.105. A governing body may not adopt an ordinance under this section unless the actuary first determines, on the basis of mortality and other tables adopted by the board of trustees, that all obligations of the municipality to the benefit accumulation fund, including obligations proposed under the ordinance, can be funded by the municipality within its maximum contribution rate and within its amortization period.

(e) The governing body shall specify the effective date of an ordinance under this section, which may be the first day of any month after the month in which the actuary makes the determination required by Subsection (d).
(f) The governing body may authorize a member to retire and receive a service retirement benefit if the member has at least 25 years of credited service performed for one or more municipalities that either have authorized eligibility under this subdivision or have a participation date in the retirement system after September 1, 1987.

(g) The governing body may authorize a member to retire and receive a service retirement benefit if the member has at least 20 years of credited service performed for one or more municipalities that have authorized eligibility under this subsection.

(h) Before a governing body may elect to authorize a member to retire pursuant to Subsection (g), the governing body shall:

(1) prepare an actuarial analysis of member retirement annuities at 20 years of service; and

(2) hold a public hearing.

(i) The public hearing required under Subsection (h) shall be held pursuant to the notice provisions of the Texas Open Meetings Act, Chapter 551, Texas Government Code.

(j) A member is eligible to retire and receive a service retirement annuity if the member:

(1) is at least 60 years of age; and

(2) has at least five years of credited service performed for one or more municipalities to which the five-year vesting provision under Section 854.205 applies.

Sec. 854.203. OPTIONAL INCREASE IN RETIREMENT ANNUITIES. (a)
The governing body of a participating municipality by ordinance, from time to time but not more frequently than once in each 12-month period, may authorize and provide for increased annuities to be paid to retirees and beneficiaries of deceased retirees of the municipality. An annuity increased under this section replaces any annuity or increased annuity previously granted to the same person.

(b) The amount of annuity increase under this section is computed as the sum of the prior and current service annuities on the effective date of retirement of the person on whose service the annuities are based, multiplied by:

1. the percentage change in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics of the United States Department of Labor, from December of the year immediately preceding the effective date of the person's retirement to the December that is 13 months before the effective date of the ordinance providing the increase; and

2. 30 percent, 50 percent, or 70 percent, as specified by the governing body in the ordinance, except that if the governing body has specified a different percentage in an ordinance adopted under Section 853.404(c) and in effect on December 31, 1999, the percentage used in computing annuity increases for retirees of that municipality remains in effect until changed or discontinued under Section 853.404.

(c) Except as provided by Subsection (g), the effective date of an ordinance under this section is January 1 of the year that begins after the year in which the governing body adopts and notifies the retirement system of the ordinance.

(d) An increase in an annuity that was reduced because of an option selection is reducible in the same proportion and in the same manner that the original annuity was reduced.

(e) If a computation under Subsection (b) does not result in an increase in the amount of an annuity, the amount of the annuity may not be changed under this section.

(f) The amount by which an increase under this section exceeds all previously granted increases to an annuitant is payable as a prior service annuity, is an obligation of the municipality's account in the benefit accumulation fund, and is subject to reduction under Section 855.308(f).

(g) An ordinance under this section may not take effect until it is approved by the board of trustees as meeting the requirements
of this section. The board may not approve an ordinance unless the actuary first determines that all obligations charged against the municipality's account in the benefit accumulation fund, including the obligations proposed in the ordinance, can be funded by the municipality within its maximum contribution rate and within its amortization period as in effect on the effective date of the increases.

(h) A governing body may not authorize and provide for annuity increases under this section unless it simultaneously provides for updated service credits under Subchapter E of Chapter 853.

Sec. 854.205. FIVE-YEAR VESTING. (a) This section applies to each municipality unless the municipality's governing board files with the board of trustees before December 31, 2001, an election to not provide for five-year vesting. A governing board that elects to not provide five-year vesting may revoke that election by sending notice to the board of trustees to provide for five-year vesting.

(b) After December 31, 2001, a member may terminate covered employment and remain eligible to retire and receive a service retirement annuity at any time after the member attains an applicable age as provided by law if the member has at least five years of credited service performed for one or more municipalities to which the five-year vesting provision under this section applies.

SUBCHAPTER D. DISABILITY RETIREMENT BENEFITS

Sec. 854.301. APPLICATION FOR DISABILITY RETIREMENT ANNUITY.
(a) A member may apply for a disability retirement annuity by:
   (1) filing an application for retirement with the board of trustees; or
   (2) having an application filed with the board by the member's employer or legal representative.

(b) An application for a disability retirement annuity may not be filed later than the date specified by the member for retirement or earlier than the 90th day before that date.

(c) An applicant must submit to medical examination as required by the medical board.

(d) A member may not apply for a disability retirement annuity under this subchapter after the date the member's participating municipality begins participation in the occupational disability benefits program under Subchapter E.

   Acts 2019, 86th Leg., R.S., Ch. 991 (S.B. 1337), Sec. 12, eff. January 1, 2020.

Sec. 854.302. ELIGIBILITY FOR DISABILITY RETIREMENT ANNUITY.
(a) A member who has less than 10 years of credited service in the retirement system is eligible to retire and receive a disability retirement annuity if the member is the subject of a certification issued as provided by Section 854.303(b)(1).

(b) A member who has at least 10 years of credited service in the retirement system is eligible to retire and receive a disability retirement annuity if the member is the subject of a certification issued as provided by Section 854.303(b)(2). A member eligible to retire and receive a disability retirement annuity under this subsection may elect to retire and receive instead a service retirement benefit but may not receive both types of benefits.

Sec. 854.303. CERTIFICATION OF DISABILITY. (a) As soon as practicable after an application for disability retirement is filed, the medical board shall evaluate the medical and other pertinent information concerning the member's application.

(b) The medical board shall issue a certification of disability and send it to the board of trustees if the medical board finds:

(1) in the case of a member who has less than 10 years of credited service in the retirement system, that:
   (A) the member is mentally or physically incapacitated for the further performance of duty;
   (B) the incapacity is the direct result of injuries sustained during membership by external and violent means as a direct and proximate result of the performance of duty;
   (C) the incapacity is likely to be permanent; and
   (D) the member should be retired; or

(2) in the case of a member who has at least 10 years of credited service in the retirement system, that:
   (A) the member is mentally or physically incapacitated for the further performance of duty;
   (B) the incapacity is likely to be permanent; and
   (C) the member should be retired.

Sec. 854.304. STANDARD DISABILITY RETIREMENT ANNUITY. (a) The standard disability retirement annuity payable under this subtitle is the sum of a member's prior service annuity and current service annuity.

(b) A prior service annuity is subject to reduction as provided by Section 855.308(f).

(c) A standard disability retirement annuity is payable throughout the life of a retiree. When a retiree who receives an
annuity under this section dies, an additional benefit may be payable under Section 854.502.

Sec. 854.305. OPTIONAL DISABILITY RETIREMENT ANNUITY. (a) Instead of the standard disability retirement annuity payable under Section 854.304, a member retiring for disability may elect to receive an optional disability retirement annuity under this section.

(b) An optional disability retirement annuity is payable throughout the life of the retiree and is actuarially adjusted from the standard disability retirement annuity to its actuarial equivalent under the option selected under Subsection (c).

(c) An eligible person may select an optional annuity under Section 854.104(c).

(d) An option under Subsection (c) applies to both prior and current service annuities, except that prior service annuities are subject to reduction under Section 855.308(f).

(e) To select an optional disability retirement annuity, a member or retiree must make the selection and designate a beneficiary on a form prescribed by and filed with the board of trustees before the 31st day after the effective date of retirement.

(f) If a disability retirement annuity is discontinued under Section 854.308, any selection of an option that applies to the annuity becomes void.

(g) If a person who retires after August 31, 1997, elects a reduced retirement annuity that is payable until the death of the last to die of the retiree and a person designated under Subsection (e), and if the retiree survives the other person, the monthly payments to the retiree will be increased to the amounts that would have been payable if the retiree had elected to receive an annuity payable only during the retiree's life, and adjustments had been made for any applicable postretirement increases in that benefit. The
increased benefit becomes payable the month after the month in which
the person designated under Subsection (e) dies and continues until
the retiree dies.

Sec. 854.306. MEDICAL EXAMINATION OF DISABILITY RETIREE. (a)
Once each year during the first five years after a person retires for
disability, and once in each three-year period after that, the board
of trustees may require a disability retiree who is less than 60
years old to undergo a medical examination by one or more physicians
designated by the board.

(b) If a disability retiree refuses to submit to a medical
examination as provided by this section, the board of trustees shall
suspend the retiree's annuity payments until the retiree submits to
an examination. If a retiree has not submitted to an examination as
provided by this section before the first anniversary of the date of
first refusal, the board shall revoke all rights of the retiree to an
annuity.

Sec. 854.307. CERTIFICATION OF END OF DISABILITY. (a) If the
medical board finds that a disability retiree is no longer mentally
or physically incapacitated for the performance of duty or is able to
engage in gainful occupation, it shall certify its findings and
submit them to the board of trustees.

(b) If the board of trustees concurs in a certification under
this section, it shall discontinue annuity payments to the retiree.
Sec. 854.308. RETURN OF DISABILITY RETIREE TO ACTIVE SERVICE OR EMPLOYMENT. (a) If a retiree who is less than 60 years old and who is receiving a disability retirement annuity resumes employment with a participating municipality or otherwise becomes gainfully employed, the person automatically resumes membership in the retirement system, and the board of trustees shall terminate the person's annuity payments.

(b) If a person resumes membership under this section, the retirement system shall restore to effect any prior service credit, special prior service credit, antecedent service credit, or updated service credit used in determining the amount of the person's annuity at the time of disability retirement. If the person subsequently retires, the retirement system shall allow the person credit for all current service for which required contributions have been made and not withdrawn.

Sec. 854.309. REFUND AT ANNUITY DISCONTINUANCE. (a) Except as provided by Subsection (b), if a disability retirement annuity is discontinued under Section 854.307 or the right to an annuity revoked under Section 854.306(b), the retiree is entitled to a lump-sum payment in an amount, if any, by which the amount in the retiree's individual account at the time of disability retirement exceeds the amount of current service annuity payments made before the date the annuity was discontinued or the right to an annuity revoked.

(b) The benefit provided by this section is not payable to a retiree who resumes employment with a participating subdivision or
otherwise becomes gainfully employed.

(c) The benefit provided by this section is payable from the benefit accumulation fund.

SUBCHAPTER E. OPTIONAL DISABILITY RETIREMENT BENEFITS

Sec. 854.401. ELIGIBILITY FOR SUPPLEMENTAL DISABILITY RETIREMENT ANNUITY. (a) A member as an employee of a municipal department included, as provided by Section 852.003, in the coverage of the supplemental disability benefits fund is eligible to retire and receive a supplemental disability retirement annuity if the member:

(1) is eligible to receive a disability retirement annuity under Section 854.302;
(2) is the subject of a certification and finding under Section 854.402, as well as a certification under the applicable finding provided by Section 854.303; and
(3) filed an application for the benefits before January 1, 1989.

(b) Any claim for supplemental disability benefits not filed with the board of trustees before January 1, 1989, is barred.

Sec. 854.402. CERTIFICATION AND FINDING OF DISABILITY. (a) The medical board shall issue and send to the board of trustees a certification of disability for a member included in the coverage of
the supplemental disability benefits fund if, after a medical
examination of the member, the medical board finds that the member is
mentally or physically incapacitated and is unable to engage in
gainful occupation.

(b) A member is entitled to a supplemental disability
retirement annuity if the board of trustees, after receiving a
certification of disability for the member under this section, finds
that the member's incapacity:

(1) is the direct result of injuries sustained after the
effective date of coverage of the member in the supplemental
disability benefits fund and before January 1, 1988, as a direct and
proximate result of the performance of the duties of the member's
employment; and

(2) is likely to be permanent.

Sec. 854.403. SUPPLEMENTAL DISABILITY RETIREMENT ANNUITY. (a)
A supplemental disability retirement annuity payable under this
subtitle is an amount that, when added to a member's standard
disability retirement annuity or, if the member is eligible for
service retirement, to the member's standard service retirement
annuity, equals one-half of the member's average monthly compensation
for service as an employee of a participating department of a
municipality:

(1) for the 60 months immediately preceding the month in
which the injury occurred; or

(2) if the member did not perform service in each of the 60
months immediately preceding the month in which the injury occurred,
for the number of months of service within the 60-month period.

(b) In a computation of average monthly compensation under this
section, compensation is excluded that exceeds the maximum amount on
which the member was required to make contributions to the retirement
system.

Sec. 854.404. CONDITIONS FOR BENEFITS. (a) Supplemental disability benefits payable from the supplemental disability benefits fund cease on the death of the disability retiree and are, except as provided by this subchapter, subject to the same terms of issuance as are standard disability retirement benefits. The suspension or discontinuance of a disability retirement annuity automatically suspends or discontinues, as applicable, a supplemental disability retirement annuity based on the same service.

(b) The board of trustees may reduce proportionally all supplemental disability benefits payable from the supplemental benefits fund at any time and for a period that the board finds necessary to prevent payments from the fund in a year from exceeding available assets in the fund in that year.

Sec. 854.405. OPTIONAL OCCUPATIONAL DISABILITY BENEFITS PROGRAM. (a) This section and Sections 854.406, 854.407, 854.408, 854.409, and 854.410, providing for an occupational disability benefits program, apply to municipalities having a participation date in the retirement system after August 31, 1987. The governing body of any municipality having an earlier effective date of participation may by ordinance adopt the provisions of this section and Sections 854.406, 854.407, 854.408, 854.409, and 854.410 in lieu of the disability program provided for under Subchapter D.

(b) A governing body may not adopt an ordinance under this section unless the actuary first determines, on the basis of mortality and other tables adopted by the board of trustees, that all obligations of the municipality to the benefit accumulation fund, including obligations proposed under the ordinance, can be funded by the municipality within its maximum contribution rate and within its amortization period.
Sec. 854.406. APPLICATION FOR OCCUPATIONAL DISABILITY BENEFITS. A member who is employed by a municipality that has adopted or is subject to the occupational disability benefits program may apply for an occupational disability retirement benefit in the same form and manner as that prescribed by Section 854.301.

Sec. 854.407. ELIGIBILITY FOR BENEFITS AND DETERMINATION OF DISABILITY. (a) As soon as practicable after an application for occupational disability benefits has been filed, the medical board shall evaluate the medical and other pertinent information concerning the member's application. The medical board may require the member to be examined by one or more physicians designated by it.

(b) The medical board shall issue a certification of occupational disability and send it to the board of trustees if the medical board finds:

(1) that the member is physically or mentally disabled for further performance of the duties of the member's employment;

(2) that the disability is likely to be permanent; and

(3) that the member should be retired.

(c) A member who is issued a certificate by the medical board as provided by this section is eligible to receive a standard occupational disability retirement annuity on the terms prescribed by Section 854.408.
Sec. 854.408. STANDARD OCCUPATIONAL DISABILITY RETIREMENT ANNUITY.  (a) The standard occupational disability retirement annuity payable under this subchapter is the sum of the member's prior service annuity and current service annuity. A prior service annuity is subject to reduction under Section 855.308(f). A standard occupational disability retirement annuity is payable throughout the life of the retiree except as otherwise provided by this subchapter.  

(b) The occupational disability retirement annuity of a disability retiree may not be suspended under this subchapter after the date the disability retiree attains 60 years of age.

Sec. 854.409. MEDICAL EXAMINATION OF RETIREES.  (a) The retirement system may require, by written request, a disability retiree under this subchapter who is younger than 60 years of age to undergo a medical examination and provide current medical and other relevant information reaffirming the status of the retiree as meeting the requirements for certification of occupational disability under Section 854.407(b). The retirement system or medical board may designate a physician to perform the examination. The retiree shall pay the cost of the examination, unless the director, at the director's discretion, waives that requirement and has the retirement system pay the cost of the examination.  

(b) If a disability retiree refuses to submit to a medical
examination or fails to provide current medical or other information requested under Subsection (a), the retirement system may suspend payments of the disability annuity as provided by this section.

(c) If a disability retiree refuses to submit to a medical examination or fails to provide current medical or other information requested under Subsection (a) by the first anniversary of the date the retirement system requested the medical examination or information, the retirement system may suspend payments of the disability annuity until the earlier of the date the retiree:

(1) attains 60 years of age; or
(2) submits to a medical examination and provides the requested information.

(d) If a disability retiree submits to a medical examination and provides the requested information before the fourth anniversary of the date the retirement system requested the medical examination or information, the retirement system may pay the suspended payments of the disability annuity in a lump sum.

(e) If the medical board finds that a disability retiree under this subchapter has experienced medical improvement to the extent that the disability retiree no longer meets the requirements for certification of occupational disability under Section 854.407(b), the medical board shall certify the medical board's findings and submit the findings to the director. If the director concurs in the medical board's findings under this section, the director may adopt the findings, and the retirement system may suspend payments of the disability annuity and take other action as the retirement system, in the retirement system's discretion, considers equitable and appropriate to address the situation, until the disability retiree attains 60 years of age.

(f) The suspension of a benefit under this section does not suspend payment of a benefit to an alternate payee under a qualified domestic relations order.

Sec. 854.410. OPTIONAL OCCUPATIONAL DISABILITY RETIREMENT ANNUITY. (a) Instead of the standard occupational disability retirement annuity payable under Section 854.408, a member retiring for disability may elect to receive an optional occupational disability retirement annuity under this section.

(b) An optional occupational disability retirement annuity is payable throughout the life of the retiree and is actuarially adjusted from the standard occupational disability retirement annuity to its actuarial equivalent under the option selected under Subsection (c).

(c) An eligible person may select an optional annuity under Section 854.104(c).

(d) An option under Subsection (c) applies to both prior and current service annuities, except that prior service annuities are subject to reduction under Section 855.308(f).

(e) To select an optional occupational disability retirement annuity, a member or retiree must make the selection and designate a beneficiary on a form prescribed by and filed with the retirement system before the 31st day after the effective date of retirement.

(f) Repealed by Acts 2019, 86th Leg., R.S., Ch. 991 (S.B. 1337), Sec. 28, eff. January 1, 2020.

(g) If a person who retires after August 31, 1997, elects a reduced retirement annuity that is payable until the death of the last to die of the retiree and a person designated under Subsection (e), and if the retiree survives the other person, the monthly payments to the retiree will be increased to the amounts that would have been payable if the retiree at the time of retirement had elected to receive an annuity payable only during the retiree's life, and adjustments had been made for any applicable postretirement increases in that benefit. The increased benefit becomes payable the month after the month in which the person designated under Subsection (e) dies and continues until the retiree dies.

Sec. 854.411. RULES FOR OPTIONAL DISABILITY RETIREMENT ANNUITIES. The board of trustees may adopt rules necessary or desirable to implement this subchapter.

Added by Acts 2019, 86th Leg., R.S., Ch. 991 (S.B. 1337), Sec. 16, eff. January 1, 2020.

SUBCHAPTER F. DEATH BENEFITS

Sec. 854.501. RETURN OF CONTRIBUTIONS. (a) Except as provided by Subsection (c), if a member dies before retirement, a lump-sum death benefit is payable from the benefit accumulation fund in the amount of:

(1) the amount credited to the member's individual account; plus

(2) interest computed from the beginning of the year in which death occurs through the end of the month immediately preceding the month in which death occurs at the rate allowed on member contributions during the preceding year.

(b) The benefit provided by this section is payable to the decedent's estate unless the decedent has directed that the benefit be paid otherwise.

(c) A benefit is not payable under this section if an annuity based on the decedent's service is payable under this subtitle.

Acts 2011, 82nd Leg., R.S., Ch. 1208 (S.B. 350), Sec. 19, eff. June 17, 2011.

Sec. 854.502. REFUND OF UNRECOVERED CONTRIBUTIONS. (a) If monthly payments of any standard service retirement annuity under
Section 854.103, optional service retirement annuity under Section 854.104, standard disability retirement annuity under Section 854.304, optional disability retirement annuity under Section 854.305, standard occupational disability retirement annuity under Section 854.408, or optional occupational disability retirement annuity under Section 854.410 cease before the sum of all payments of the annuity equals or exceeds the amount of accumulated contributions credited to the member's individual account at the time of retirement of the member on whose service the annuity was based, a lump-sum benefit equal to the amount by which the amount of the accumulated contributions exceeds the sum of all payments made by reason of the annuity is payable:

1. to the designated beneficiary, if living, or if not living, to the estate of the designated beneficiary, if the designated beneficiary survived the retiree; or
2. to the estate of the retiree, if the designated beneficiary predeceased the retiree.

(b) The benefit provided by this section is payable from the benefit accumulation fund.

Acts 2011, 82nd Leg., R.S., Ch. 1208 (S.B. 350), Sec. 20, eff. June 17, 2011.

Sec. 854.503. TRUST AS BENEFICIARY. (a) Except as provided by Subsection (b), a member or retiree may designate a trust as beneficiary for the payment of benefits from the retirement system. If a trust is designated beneficiary, the beneficiary of the trust is considered the designated beneficiary for the purpose of determining eligibility for and the amount and duration of benefits. The trustee is entitled to exercise any rights to elect benefit options and name subsequent beneficiaries.

(b) A trust having more than one beneficiary may not receive
benefits to which multiple designated beneficiaries are not eligible under this chapter.

Added by Acts 1995, 74th Leg., ch. 514, Sec. 16, eff. Sept. 1, 1995.

Sec. 854.504. PERSON CAUSING DEATH OF MEMBER OR ANNUITANT. (a) A benefit payable on the death of a member or annuitant may not be paid to a person convicted of causing that death but instead is payable to a person who would be entitled to the benefit had the convicted person predeceased the decedent. If no person would be entitled to the benefit, the benefit is payable to the decedent's estate.

(b) The retirement system is not required to pay a benefit under Subsection (a) of this section unless it receives actual notice of the conviction of the person who would have been entitled to the benefits. However, the retirement system may delay payment of a benefit payable on the death of a member or annuitant pending the results of a criminal investigation and of legal proceedings relating to the cause of death.

(c) The retirement system shall convert the remainder of any annuity that would otherwise have been payable throughout the life of the convicted person to an actuarially equivalent annuity payable to the decedent's estate in 60 monthly annuity payments. The time of the actuarial equivalence is the earlier of the time the retirement system receives the notice of the conviction under Subsection (b) or the time the retirement system begins the delay in payment of a benefit according to Subsection (b).

(d) For the purposes of this section, a person has been convicted of causing the death of a member or annuitant if the person:

1. has pleaded guilty or nolo contendere to or has been found guilty by a court of an offense at the trial of which it is established that the person's intentional, knowing, or reckless act or omission resulted in the death of a person who was a member or annuitant, regardless of whether sentence is imposed or probated; and

2. has no appeal of the conviction pending and the time provided for appeal has expired.

Added by Acts 1995, 74th Leg., ch. 514, Sec. 17, eff. Sept. 1, 1995.
Sec. 854.505. SIMULTANEOUS DEATH OF MEMBER AND BENEFICIARY.
When a member or retiree and the spouse or beneficiary of the member or retiree have died within a period of less than 120 hours of each other, the member or retiree is considered to have survived the spouse or beneficiary for the purpose of determining the rights to amounts payable under this subtitle on the death of the member or retiree.

Added by Acts 1995, 74th Leg., ch. 514, Sec. 18, eff. Sept. 1, 1995.

SUBCHAPTER G. OPTIONAL DEATH BENEFITS

Sec. 854.601. COVERAGE IN SUPPLEMENTAL DEATH BENEFIT PROGRAM.
(a) An employee of a participating municipality is included within the coverage of the supplemental death benefit program on the first day of the first month in which:
(1) the employing municipality is participating in the supplemental death benefits fund for coverage of all members it employs;
(2) the employee is a member of the retirement system; and
(3) the employee is required to make a contribution to the retirement system.
(b) Once established, coverage of a person in the supplemental death benefit program continues until the last day of a month in which a requirement of Subsection (a) is not met.

Sec. 854.602. EXTENDED SUPPLEMENTAL DEATH BENEFIT COVERAGE.
(a) A member included in the coverage of the supplemental death benefit program who fails to earn compensation in a month for service to a municipality participating in the supplemental death benefits fund is eligible to receive extended coverage in the program on complying with this section.
(b) A member may apply to the retirement system for extended program coverage and submit evidence of eligibility for extended
(c) The board of trustees shall grant extended coverage in the supplemental death benefit program to an applicant, if the board finds:

(1) that as a result of illness or injury, the member is unable to engage in gainful occupation; and
(2) that the member made a required contribution to the retirement system as an employee of a municipality participating in the supplemental death benefits fund for the month immediately preceding the first full month in which the member was unable to engage in gainful occupation.

(d) Once established, extended coverage of a person in the supplemental death benefit program continues until the last day of the month in which:

(1) the member returns to work as an employee of a participating municipality;
(2) the board of trustees finds that the member is able to engage in gainful occupation;
(3) the person's membership in the retirement system is terminated; or
(4) the member retires under this subtitle.

(e) The board of trustees by rule may require a member to submit to it annual proof of continued inability to engage in gainful occupation. The board may require a member to undergo a medical examination by a physician designated by the board. Failure of a member to undergo a medical examination as required by this subsection is a ground for the board's finding that the member has become able to engage in gainful occupation.

(f) If a member included in the coverage of the supplemental death benefit program becomes eligible to apply for the extended coverage but fails to comply with Subsections (b) and (c) before the member's death, the member will be considered to have had the extended coverage if proof is furnished that the member could have qualified for extended coverage if application for the coverage had been made according to Subsections (b) and (c) and that the death occurred within six months after the date the coverage of the supplemental death benefit program was discontinued under Section 854.601.

Sec. 854.603. MEMBER SUPPLEMENTAL DEATH BENEFIT. (a) If a person included in the coverage or extended coverage of the supplemental death benefit program dies, a lump-sum supplemental death benefit is payable from the supplemental death benefits fund in an amount equal to the current annual salary of the member at the time of death.

(b) Except as provided by Subsection (c), the current annual salary of a member is computed as the amount paid to the member for service on which contributions were made to the retirement system during the 12 months immediately preceding the month of death. If a member did not receive compensation for service in each of the 12 months immediately preceding the month of death, the member's current annual salary is computed by converting to an annual basis the amount paid to the member on which contributions were made to the system during the period of employment within the 12-month period. If a member did not receive compensation for service in any of the 12 months immediately preceding the month of death, the member's current annual salary is computed by converting to an annual basis the rate of compensation payable to the member during the month of death.

(c) The current annual salary of a member included in the extended coverage of the supplemental death benefit program is computed in the manner provided by Subsection (b) but as if the member had died during the first month of extended coverage.

(d) If a member makes contributions to the retirement system during the same month as an employee of more than one municipality participating in the supplemental death benefits fund, a death benefit is payable only on the basis of the member's most recent employment.

(1) the information is disclosed to:

(A) the participant or the participant's attorney, guardian, executor, administrator, conservator, or other person who the director determines is acting in the interest of the participant or the participant's estate;

(2) "Electronic record" means any information that is recorded in a form for computer processing.
(b) The board of trustees may adopt rules and procedures relating to the electronic filing of documents with the retirement system and the delivery of information electronically by the retirement system. A document that is electronically filed in accordance with those rules and procedures is considered to have been properly filed with the retirement system.
(c) The retirement system may provide confidential information electronically to participating municipalities, members, retirees, beneficiaries, annuitants, alternate payees, and other persons authorized to receive the information and may receive information electronically from the individuals or entities, as applicable, including by use of an electronic signature or certification in a form acceptable to the retirement system. An unintentional disclosure to, or unauthorized access by, a third party related to the transmission or receipt of information under this section is not a violation by the retirement system of any law, including a rule...
relating to the protection of confidential information.

(2) preserve the record through electronic document imaging.

(h) If a record is reproduced under Subsection (g), the retirement system may destroy or dispose of the original record if the system first:

(1) places the reproduction or electronic record in a file that is conveniently accessible to retirement system personnel; and

(2) provides for the preservation, examination, and use of the reproduction or stored electronic record.

(i) A photograph, microphotograph, film, electronic record, or electronic document image of a record received by the retirement system or reproduced under Subsection (g) is equivalent to the original record for all purposes, including introduction as evidence in all courts and administrative agency proceedings. A certified or authenticated copy of the photograph, microphotograph, film,

Sec. 855.303. PRUDENCE REGARDING INVESTMENTS. A determination of whether the board of trustees has exercised prudence in an investment decision must be made by considering the investment of all of the assets of the trust over which the board has management and control, rather than by considering the prudence of a single investment. In making investments for the retirement system, the board of trustees shall exercise the judgment and care, under the circumstances, that persons of prudence, discretion, and intelligence exercise in the management of their own affairs, considering the probable income from the securities and probable safety of their capital.

Sec. 855.304. CASH ON HAND. The board of trustees shall determine the amount of cash on hand required to pay benefits and the expenses of the retirement system.
Sec. 855.305. CREDITING SYSTEM ASSETS. (a) The retirement system shall immediately deposit all money received by the system with a depository designated under Section 855.109.

(b) When securities of the retirement system are received, the system shall deposit the securities in trust with a depository designated under Section 855.109. The depository shall provide adequate safe deposit facilities for the preservation of the securities.

(c) All assets of the retirement system shall be credited, according to the purpose for which they are held, to one of the following funds:

(1) benefit accumulation fund;
(2) interest fund;
(3) endowment fund;
(4) expense fund;
(5) supplemental disability benefits fund; or
(6) supplemental death benefits fund.

Sec. 855.306. MEMBER'S INDIVIDUAL ACCOUNT. (a) The retirement system shall establish in the participating municipality's account in the benefit accumulation fund an individual account for each person who is a member of the system through employment in that municipality. The retirement system shall credit to a member's individual account:

(1) the amount of contributions to the retirement system

deducted from the member's compensation;
(2) interest allowed on amounts credited to the account in accordance with this subtitle; and
(3) the portion of a deposit required by Section 853.003 to reinstate credited service previously canceled that represents the amount withdrawn.

(b) On December 31 of each year the retirement system shall credit to each member's individual account interest as allowed by this subtitle on the amount of accumulated contributions credited to the member's account on January 1 of that year. On a person's retirement under this subtitle on a date other than December 31, the retirement system shall credit to that person's individual account interest and supplemental interest, if any, at the rate credited on members' accounts for the preceding year. The interest must be:
(1) on the amount of accumulated contributions credited to the member's account on January 1 of the year in which retirement occurs; and
(2) prorated from January 1 of the year in which retirement occurs to the effective date of retirement.

(c) The retirement system may not pay interest on money in a person's individual account:
(1) for a part of a year except as provided by Subsection (b); or
(2) after the person's membership has been terminated in accordance with Section 852.104 because of absence from service.

(d) If a retiree resumes employment under Section 854.308, the retirement system shall reestablish an individual account for the member in the participating municipality's account in the benefit accumulation fund and credit to that account the portion of the balance of the person's retirement reserve that is attributable to the person's prior accumulated contributions.

Sec. 855.307. BENEFIT ACCUMULATION FUND: CURRENT SERVICE.
(a) The retirement system shall credit or charge to the account of a participating municipality in the benefit accumulation fund:
   (1) all current service contributions made by the municipality to the retirement system;
   (2) net investment income or loss allocated to the fund under Section 855.317; and
   (3) the withdrawal charge for reinstatement of credited service as provided by Section 853.003.
(b) The retirement system shall pay from the account of a participating municipality in the benefit accumulation fund:
   (1) all payments under annuities arising from current service credits; and
   (2) refunds to certain municipalities in accordance with Section 855.319.
(c) If credited service previously canceled is reinstated in accordance with Section 853.003, the retirement system shall charge the municipality's account in the benefit accumulation fund with the necessary reserves to fund the credits based on current service that are restored to the member.
(d) The annuities payable as provided by this section are liabilities and obligations of the participating municipality for which the service was performed on which the annuities are based and are payable from the municipality's account in the benefit accumulation fund.

Sec. 855.308. BENEFIT ACCUMULATION FUND: PRIOR SERVICE. (a) In addition to amounts credited or charged as provided by Section 855.307, the retirement system shall credit to the account of a participating municipality in the benefit accumulation fund all prior service contributions made by the municipality to the retirement system.

(b) In addition to amounts paid as provided by Section 855.307, the retirement system shall pay from the account of a participating municipality in the benefit accumulation fund:

(1) all payments under annuities arising from prior service credits, special prior service credits, antecedent service credits, or updated service credits authorized by a participating municipality; and

(2) optional increased payments authorized by a participating municipality under Section 854.203.

(c) The retirement system shall charge municipal liabilities from updated service credits against the account of the municipality that authorized the credits.

(d) If credited service previously canceled is reinstated in accordance with Section 853.003, the retirement system shall charge the municipality's account in the benefit accumulation fund with the necessary reserves to fund credits based on prior service that are restored to the member.

(e) The retirement system shall charge reserves required to fund optional benefit increases authorized under Section 854.203 against the account of the municipality allowing the increases.

(f) The board of trustees may proportionately reduce all payments under annuities payable under this section, at any time and for a period necessary, to prevent those payments for a year from exceeding the amount available in the participating municipality's account for prior service.

(g) The annuities payable as provided by this section are
liabilities and obligations of the participating municipality for which the service was performed, or granted as the result of reinstated service previously canceled, on which the annuities are based and are payable from the municipality's account in the benefit accumulation fund.

Sec. 855.310. INTEREST FUND. (a) The amount in the interest fund must accurately reflect the determination and allocation of net investment income or loss.

(b) The retirement system shall determine net investment income or loss annually as of December 31 in accordance with generally accepted accounting principles and shall allocate that amount each year in accordance with Section 855.317.

Amended by:
    Acts 2009, 81st Leg., R.S., Ch. 154 (H.B. 360), Sec. 6, eff. May 26, 2009.

Sec. 855.311. ENDOWMENT FUND. (a) The retirement system shall deposit in the endowment fund gifts, awards, funds, and assets delivered to the retirement system that are not specifically required by the system's other funds.

(b) The endowment fund consists of:
(1) the interest reserve account;
(2) the general reserves account;
(3) the distributive benefits account;
(4) the perpetual endowment account; and
(5) other special accounts that the board of trustees by resolution establishes.

(c) The retirement system shall credit or charge to the interest reserve account, general reserves account, and distributive benefits account amounts allocated in accordance with Section 855.317.

(d) The board of trustees shall transfer money from the interest reserve account to the expense fund in accordance with Section 855.312.

(e) If the board of trustees determines that the amount credited to the distributive benefits account on December 31 of any year is sufficient to do so, the board by resolution may:

(1) authorize the distribution and payment of all or part of the money credited to the account to persons who were annuitants on that day in the ratio of the rate of the monthly benefit of each annuitant to the total of all annuity payments made by the system for the final month of the year; or

(2) authorize the distribution of all or part of the amount credited to the account to each member's individual account as supplemental interest in the ratio of the amount of interest paid on the individual's account to the interest paid to all individual accounts for the year.

(f) The retirement system shall deposit and hold in the perpetual endowment account:

(1) funds, gifts, and awards that the grantors designate as perpetual endowments for the retirement system; and

(2) money forfeited to the retirement system as provided by Section 855.603.

(g) Distribution and payment to an annuitant under Subsection (e) must be based on the ratio that the number of months elapsing since the effective date of the person's retirement bears to the number 12 if that person retired under this subtitle during the year for which the distribution and payment is made.

Sec. 855.312. EXPENSE FUND.  (a) The board of trustees shall deposit in the expense fund municipality contributions for expenses of the retirement system paid in accordance with Section 855.404.

(b) The board of trustees by resolution recorded in its minutes shall transfer from the interest reserve account of the endowment fund to the expense fund the amount that exceeds the amount needed to provide adequate reserves as provided by Section 855.317 and that is needed to pay the system's estimated expenses for the fiscal year.

(c) The retirement system shall pay from the expense fund:

(1) administrative and maintenance expenses of the system; and

(2) notes and bonds issued in accordance with Section 855.105.

(d) If the amount of the system's estimated expenses exceeds the amount in the interest reserve account of the endowment fund available for administrative expenses, the board of trustees, by a resolution recorded in its minutes, shall assess an amount equal to the difference against each participating municipality in proportion to the number of its members in the retirement system. The board shall collect the assessments and deposit the amount collected in the expense fund.

Sec. 855.313. SUPPLEMENTAL DISABILITY BENEFITS FUND. (a) The retirement system shall deposit in the supplemental disability benefits fund contributions made to provide supplemental disability benefits in accordance with previous law. The retirement system may not establish separate accounts in the fund for municipalities participating in the fund but shall credit contributions to a single account.

(b) The retirement system shall pay supplemental disability benefits only from money in the supplemental disability benefits fund, and the benefits are not an obligation of other funds of the system.

(c) The beginning date of participation of each municipality participating in the supplemental disability benefits fund is that determined by the board of trustees. Participation terminates January 1, 1988.

(d) When all annuities payable from the supplemental disability benefits fund have been finally paid and discharged, the board of trustees shall direct that the money remaining in the supplemental disability benefits fund shall be transferred and credited to the accounts of the respective participating municipalities in the benefit accumulation fund in proportion to the same ratios of their contributions to the total of all contributions to the supplemental disability benefits fund.

Sec. 855.314. SUPPLEMENTAL DEATH BENEFITS FUND. (a) The retirement system shall deposit in the supplemental death benefits fund contributions paid by municipalities to the retirement system to provide supplemental death benefits in accordance with Section 855.408. The retirement system may not establish separate accounts.
in the fund for municipalities participating in the fund but shall credit contributions to a single account.

(b) The retirement system shall pay supplemental death benefits only from money in the supplemental death benefits fund, and the benefits are not an obligation of other funds of the system.

(c) The supplemental death benefits fund may become operative only after a sufficient number of municipalities elect to participate in the fund so that 4,000 members or more are covered by the fund.

(d) The board of trustees shall determine the operative date of the fund.

(e) The effective participation date of a municipality is:

(1) the operative date of the fund if the municipality elected to participate in the fund on or before the fund's operative date; or

(2) the first day of any calendar month after the month in which the municipality notifies the board of its election to enter the fund.

(f) The board of trustees shall notify each municipality of its effective participation date.

Sec. 855.315. DISBURSEMENTS. (a) Disbursements from the assets of the retirement system may be made only on vouchers signed by the person designated for that purpose in accordance with Section 855.108.

(b) A person designated to sign vouchers may draw checks or warrants only on proper authorization from the board of trustees recorded in the official minutes of the board.

(c) When a voucher is properly signed, a depository with which assets of the system are deposited shall accept and pay the voucher. The depository is released from liability for payment made on the voucher.

(d) The retirement system shall make payments by electronic funds transfer to annuitants whose first annuity payment under this
subtitle occurs after January 1, 2000. The retirement system may use
electronic funds transfers to make other payments.

(e) Notwithstanding any requirement to make a payment by
electronic funds transfer, the retirement system may make payment by
vouchers, checks, or warrants to an annuitant if making the payment
by electronic funds transfer would be impractical for the retirement
system or if the annuitant properly notifies the retirement system that:

(1) receiving the payment by electronic funds transfer
would be impractical to the person;

(2) receiving the payment by electronic funds transfer
would be more costly to the person than receiving the payment by
check or warrant; or

(3) the person is unable to establish a qualifying account
at a financial institution to receive electronic funds transfers.

compounded annually, plus any other amounts the board of trustees is
expressly authorized to provide. Notwithstanding any other provision
in this chapter, the interest credited to a member's individual
account in a calendar year may not be less than five percent.

(b) Effective as of December 31 of each year, the board of

Sec. 855.317. ANNUAL ALLOCATION OF NET INVESTMENT INCOME OR LOSS FROM INTEREST FUND. (a) Effective as of December 31 of each year, the board of trustees shall make the following allocations from the interest fund that in the aggregate equal the net investment income or loss for the year:

(1) to the supplemental disability benefits fund, interest on the mean amount in the supplemental disability benefits fund during that year;

(2) to the supplemental death benefits fund, interest on the mean amount in the supplemental death benefits fund during that year;

(3) to the accounts in the benefit accumulation fund, an amount derived by applying a positive or negative rate, as determined by the board of trustees in its sole discretion to the January 1 balances of that year for each of those accounts; and

(4) to the interest reserve account of the endowment fund, a positive or negative amount as determined by the board of trustees in its sole discretion.

(b) In making allocations under this section, the board of trustees shall, without regard to the amount of net investment income or loss for the calendar year, first allocate interest as specified in Section 855.316(a) to those funds or accounts referenced in Subsections (a)(1) and (2) of this section. The board shall then allocate the remaining net investment income or loss between the funds or accounts referenced in Subsections (a)(3) and (4) of this section in rates or amounts determined by the board in its sole discretion. The board of trustees shall accumulate the amount of assets in the interest reserve account of the endowment fund that the board in its sole discretion determines is necessary:

(1) to provide adequate reserves to:
   (A) mitigate the effects of future investment return volatility and insufficient net investment income; and
   (B) provide reasonable rate stabilization for participating municipalities;

(2) to provide adequate reserves against special and
contingency requirements of other funds of the system; and
(3) to provide the amount required for the administration expenses of the system for the following year.

(c) After the requirements of the interest reserve account of the endowment fund have been satisfied, the board of trustees may transfer any of the amount remaining in the interest fund to the general reserves account of the endowment fund to maintain adequate reserves against special requirements of other funds of the retirement system.

(d) After the requirements of the interest reserve account and the general reserves account of the endowment fund have been satisfied, the board of trustees shall transfer any amount remaining in the interest fund to the distributive benefits account of the endowment fund.

Sec. 855.319. PAYMENT TO FORMERLY PARTICIPATING MUNICIPALITY. If a participating municipality has no employees who are members of the retirement system and has no present or potential liabilities resulting from the participation of former employees, the municipality's participation in the system stops and the system shall repay to the municipality on application any amount in the benefit accumulation fund that is credited to the municipality.

SUBCHAPTER E. COLLECTION OF CONTRIBUTIONS

Sec. 855.401. MEMBER CONTRIBUTIONS. (a) Each municipality that has one or more departments participating in the retirement system by ordinance shall designate the rate of member contributions for employees. The municipality shall elect a rate of five, six, or seven percent of the employees' compensation. All departments of a participating municipality must have the same employee contribution rate, except that any municipality that before September 1, 1991, has elected to have different rates of member contributions in different departments may continue member contributions in accordance with its existing ordinances until the municipality elects to equalize the rates.

(b) A participating municipality by ordinance may increase the rate of member contributions.

(c) A participating municipality may reduce the rate of member contributions if:
   (1) at an election by secret ballot conducted under rules adopted by the board of trustees, the proposal to reduce the rate is passed by an affirmative vote of two-thirds of all members employed by the municipality; and
   (2) the municipality by ordinance provides for the reduction.

(d) A reduction in a member contribution rate may become effective only on the first day of a calendar month. The effective date of the reduction must be after the 90th day after the day on which the election required by Subsection (c) is held or the day on which the ordinance required by Subsection (c) is adopted, whichever is later. The municipality shall give written notice of a reduction in the deposit rate to the director before the 60th day preceding the effective date of the reduction.

Sec. 855.402. COLLECTION OF MEMBER CONTRIBUTIONS.  (a) Each payroll period each participating municipality shall cause the contribution for the period to be deducted from the compensation of each member that it employs.

(b) In determining the amount of a member's compensation for a payroll period, the board of trustees may use the rate of annual compensation payable to a member on the first day of the payroll period as the rate for the entire period and may omit deductions from compensation for less than a full payroll period if the employee was not a member on the first day of the period.

(c) The board of trustees may modify a member's required deduction by an amount that does not exceed one-tenth of one percent of the annual compensation on which the deduction is made.

(d) A participating municipality shall certify to the board of trustees on each payroll, or in another manner prescribed by the board, the amount to be deducted from the compensation of each member that it employs.

(e) The treasurer or disbursing officer of each participating municipality shall:

(1) make deductions from each member's compensation for contributions to the retirement system;

(2) transmit monthly, or at the time designated by the board of trustees, a certified copy of the payroll; and

(3) pay the deductions in cash to the board of trustees at the board's home office before the 16th day of the month following that for which the deductions are required to be made.

(f) To facilitate the collection of member contributions, the city clerk or city secretary of each participating municipality, before January 31 of each year, shall file with the director a certified list that states the name and monthly and annual salaries of each employee of the municipality who is a member of the retirement system. Any addition to or deletion from the list must be certified.

(g) After the deductions for member contributions are paid, the board of trustees shall:
(1) record all receipts; and
(2) deposit the receipts in the benefit accumulation fund and credit the appropriate amounts to the members' individual accounts.

(h) The treasurer or disbursing officer of a participating municipality shall make the deductions required by this section even if the member's compensation is reduced below the amount equal to the minimum compensation provided by law.

(i) By becoming a member of the retirement system, a member consents to the deductions required by this section. The payment of compensation less those deductions is a complete release of all claims, except benefits provided by this subtitle, for services rendered by the member during the payroll period.

Text of subsec. (j) added effective upon I.R.S. determination

(j) Each participating municipality shall pick up the employee contributions required by Section 855.401 and this section for all compensation earned after December 31, 1983, and shall pay these picked-up employee contributions from the same source of funds used in paying earnings to the employee. The participating municipality may pick up these contributions by a reduction in the cash salary of the employee or by an offset against a future salary increase or by a combination of a reduction in salary and offset against a future salary increase; unless it is otherwise determined by the governing body of the participating municipality, the pick-up shall be accomplished by a corresponding reduction in the cash salary of the employee.

(k) Contributions picked up as provided by Subsection (j) shall be treated as employer contributions in determining tax treatment of the amounts under the United States Internal Revenue Code; however, each participating municipality shall continue to withhold federal income taxes based upon these contributions until the Internal Revenue Service determines or the federal courts rule that pursuant to Section 414(h) of the Internal Revenue Code of 1986 (26 U.S.C. Section 414), these picked-up contributions are not included as gross income of the employee until such time as they are distributed or made available. Employee contributions that are picked up as above provided shall be deposited to the individual account of the member and shall be treated for all other purposes of this subtitle in the same manner and with like effect as if the amount had been deducted from the compensation of the employee pursuant to Sections 855.401
and 855.402(a) through (h); and picked-up contributions may not be included in calculating the limitations on municipality contribution rates prescribed by Section 855.407 or other provisions of this subtitle.

Sec. 855.403. COLLECTION OF MUNICIPALITY CONTRIBUTIONS. (a) Before the 16th day of each month, each participating municipality shall pay or cause to be paid to the retirement system at the system's office expense contributions in accordance with Section 855.404, current service contributions in accordance with Section 855.405, and prior service contributions in accordance with Section 855.406.

(b) Unless otherwise provided for and paid by a municipality, a municipality shall pay its contributions to the retirement system from:

(1) the fund from which earnings are paid to members; or
(2) the general fund of the municipality.

Sec. 855.404. MUNICIPALITY EXPENSE CONTRIBUTION. (a) Each participating municipality shall pay to the retirement system an expense contribution prescribed in accordance with this section.

(b) The board of trustees, before January 1 of each year, shall set the rate of the contribution necessary to provide an amount required to pay the difference between:

(1) the estimated administrative expenses for the following year; and
(2) the anticipated revenue, from sources other than municipality contributions, to be used for the expenses of the year as adjusted for a surplus or deficiency existing on January 1 of that year.

(c) The rate set by the board of trustees under Subsection (b) may not exceed 50 cents a month for each member.

(d) The board of trustees shall certify the rate set under Subsection (b) to each participating municipality before January 1 of the year for which the rate is set.

Sec. 855.405. MUNICIPALITY NORMAL CONTRIBUTION. Each participating municipality shall pay to the benefit accumulation fund, as its normal contribution, an amount equal to a percentage of the compensation of members employed by the municipality for that month. The rate of contribution is the normal contribution rate determined annually by the actuary and approved by the board of trustees.

Acts 2011, 82nd Leg., R.S., Ch. 1208 (S.B. 350), Sec. 33, eff. June 17, 2011.

Sec. 855.406. MUNICIPALITY PRIOR SERVICE CONTRIBUTION. (a) Each participating municipality shall pay to the benefit accumulation fund, as its prior service contribution, an amount equal to a percentage of the compensation of members employed by the municipality for that month.

(b) The rate of contribution is the rate determined annually by the actuary and approved by the board of trustees as being the rate required to fund all obligations charged against the municipality's
account in the benefit accumulation fund within the municipality's amortization period without resulting in a probable future depletion of that account.

   Acts 2011, 82nd Leg., R.S., Ch. 1208 (S.B. 350), Sec. 33, eff. June 17, 2011.

Sec. 855.4065. ADDITIONAL EMPLOYER CONTRIBUTIONS. (a) In addition to the contributions a participating municipality is required to make under this subtitle, the board of trustees, after consultation with the actuary, by rule may authorize a participating municipality to make lump-sum or periodic employer contributions to the retirement system to be deposited in the municipality's account in the benefit accumulation fund.
   (b) A contribution made under this section is not subject to the maximum contribution rates under Sections 855.407 and 855.501.

Sec. 855.407. LIMITATION ON MUNICIPALITY CONTRIBUTION RATES. (a) The combined rates of a municipality's normal contributions and prior service contributions may not exceed:
   (1) 9-1/2 percent of the total compensation paid by the municipality to the employees of its participating departments if the rate of member contributions of the employees of its participating departments is 7 percent of their compensation;
   (2) 8-1/2 percent of the total compensation paid by the municipality to the employees of its participating departments if the rate of member contributions of the employees of its participating
departments is 6 percent of their compensation;

(3) 7-1/2 percent of the total compensation paid by the municipality to the employees of its participating departments if the rate of member contributions of the employees of its participating departments is 5 percent of their compensation; or

(4) 5-1/2 percent of the total compensation paid by the municipality to the employees of its participating departments if the rate of member contributions of the employees of its participating departments is 3 percent of their compensation.

(b) The actuary annually shall determine the municipality normal contribution rate and the prior service contribution rate from the most recent data available at the time of the determination. Before January 1 of each year, the board of trustees shall certify the rates to each participating municipality. If a participating municipality has different rates of contribution for employees of different departments, the actuary shall determine the maximum rate for the municipality using the average rate of contribution prescribed for contributions of employees of its participating departments. To compute the average rate the actuary shall consider the number of employees in each participating department of the municipality.

(c) A reduction in the member contribution rate for employees of a participating municipality or in the municipality's matching rate does not reduce the maximum rate of contribution of the municipality.

(d) If the dates of participation of each department of a municipality are not the same, the governing body of the municipality may request that, to determine the municipality normal contribution rate and prior service contribution rate and to determine the period during which the municipality must fund the obligations charged against its account in the benefit accumulation fund, all of its departments have a single composite participation date. The actuary shall determine the composite participation date by computing an average weighted according to the number of members entering the retirement system on the actual dates of participation of the departments involved.

(e) If the combined rates of a municipality's normal contributions and prior service contributions exceed the rate prescribed by Subsection (a), the rate for prior service contributions shall be reduced to the rate that equals the difference
between the maximum rate prescribed by Subsection (a) and under Section 855.501, if applicable, and the normal contribution rate for the municipality.

(f) The governing body of a municipality that is determined by the actuary to be unable to finance all obligations charged against its account in the benefit accumulation fund within the municipality's current amortization period may elect to have the municipality contribute to its account in the benefit accumulation fund at a rate that does not exceed in any year the sum of two percent and the maximum contribution rate specified by Subsection (a) and by Section 855.501, if applicable, and that the actuary annually may determine as necessary to finance the existing levels of benefits before the expiration of the municipality's current amortization period.

(g) A municipality that begins participation in the retirement system on or after December 31, 1999, and any municipality already participating in the retirement system on that date whose governing body elects to have the municipality do so shall contribute to its account in the benefit accumulation fund at the combined rate of total compensation paid to its employees as the actuary determines is necessary to fund all obligations chargeable to its account in the fund within the municipality's amortization period, regardless of other provisions of this subtitle.

in the combined rate to one-half of one percent of the total compensation paid to its employees; or

(B) the maximum number of years, not to exceed 30 years, specified by the board of trustees.

Sec. 855.501. INCREASED CURRENT SERVICE ANNUITIES. (a) A participating municipality may elect to provide for an increased current service annuity reserve on the retirement of each of its employees who are members.

(b) The governing body of a municipality electing to provide for increased reserves by ordinance shall provide that for each month of current service rendered by a participating employee of the municipality after the date of its election the municipality will provide a contribution equal to 150 or 200 percent of the member's accumulated contribution to the retirement system for that month.

(c) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 1208, Sec. 39(3), eff. June 17, 2011.

(d) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 1208, Sec. 39(3), eff. June 17, 2011.

(e) A participating municipality electing to provide an increased current service annuity reserve and electing a contribution rate of 150 percent for a year is liable for total contributions at a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 855.407, plus two percent a year. A
municipality electing a rate of 200 percent a year is liable for contributions at a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 855.407, plus four percent a year.

(f) Except as provided by Subsection (g), an increased rate of contribution authorized under this section may become effective only on January 1 of a calendar year.

(g) A municipality that begins participation in the retirement system after December 31, 1975, may elect to provide for an increased current service annuity reserve beginning on its effective date of participation. That election remains in effect until the municipality elects to pay contributions at another rate.

(h) A municipality electing to provide for an increased current service annuity reserve may reduce its rate of contribution to 150 percent of the member contributions or to a rate equal to the member contributions. The reduction becomes effective on January 1 of the calendar year following the date on which the municipality's governing body adopts an ordinance reducing the rate of contribution.

(i) A participating municipality electing to provide an increased service annuity reserve and electing a contribution rate of 150 percent for a year may, by ordinance, agree to be liable for total contributions at a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 855.407 plus two and one-half percent if the contribution rate for its employees is six percent, or a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 855.407 plus three percent if the contribution rate for its employees is seven percent.

(j) A participating municipality electing to provide an increased service annuity reserve and electing a contribution rate of 200 percent for a year may, by ordinance, agree to be liable for total contributions at a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 855.407 plus five percent if the contribution rate for its employees is six percent, or a rate that does not exceed a rate equal to the maximum rate prescribed for the municipality by Section 855.407 plus six percent if the contribution rate for its employees is seven percent.

Sec. 855.502. SUPPLEMENTAL DEATH BENEFITS PROGRAM. (a) As soon as practical after the supplemental death benefits program is established and at the time of each investigation of members' mortality and service experience required by Section 855.110, the actuary shall investigate the mortality experience of the members and eligible annuitants participating in the supplemental death benefits program. On the basis of the result of that investigation, the actuary shall recommend to the board of trustees rates and tables necessary to determine supplemental death benefits contribution rates. The rates and tables may provide for the anticipated mortality experience of the persons covered under the supplemental death benefits fund and for a contingency reserve.

(b) Before a municipality's participation date in the supplemental death benefits fund and before January 1 of each subsequent year, the actuary shall compute, on the basis of rates and tables adopted by the board of trustees, the supplemental death benefits contribution rate of a municipality participating in the supplemental death benefits contribution fund. The rate must be expressed as a percentage of the compensation of members employed by the municipality. When the rate is approved by the board of trustees, the rate is effective for the calendar year for which it was approved.

(c) If the balance in the supplemental death benefits fund is insufficient to pay the supplemental death benefits due, the board of trustees may direct that, to the extent available, an amount equal to the amount of the deficiency be transferred from the general reserves account of the endowment fund to the supplemental death benefits fund. The board may adjust future contributions to the supplemental death benefits fund to repay to the general reserves account the
transferred amount.

(d) If the total number of members covered by the supplemental death benefits fund becomes fewer than 4,000, the board of trustees may order that the fund be discontinued and all coverage terminated. The termination date must be December 31 of a year designated by the board and may not be before the expiration of six months after the date on which the order of termination was adopted.

(e) To protect against adverse claim experience, the board of trustees may secure reinsurance from one or more stock insurance companies doing business in this state if the board determines that reinsurance is necessary. The retirement system shall pay the premiums for reinsurance from the supplemental death benefits fund.

SUBCHAPTER G. MISCELLANEOUS ADMINISTRATIVE PROCEDURES

Sec. 855.601. STATEMENT OF AMOUNT IN ACCOUNT. (a) As soon as possible after the end of each calendar year, the board of trustees shall send to the governing body of each municipality and to each requesting member an annual statement that contains:

(1) a balance sheet showing the financial and actuarial condition of the retirement system on December 31 of that year;

(2) a statement showing the receipts and disbursements made during the calendar year;

(3) a statement showing changes in the asset, liability, reserve, and surplus accounts during the calendar year; and

(4) additional statistics necessary for proper interpretation of the condition of the retirement system.

(b) The board of trustees shall furnish to a member, on written request, a statement of the amount credited to the member's individual account. During a calendar year, the board is not required to furnish to a member more than one statement requested under this subsection.

Sec. 855.602. INTEREST IN ASSETS. A particular person, group of persons, municipality, or other entity has no right in a specific security, item of cash, or other property of the retirement system other than an undivided interest in the assets of the retirement system.

Sec. 855.603. FORFEITURE OF CONTRIBUTIONS. (a) If an application under Section 852.103 for the accumulated contributions of a person who has ceased to be employed by a participating department for a reason other than death or retirement has not been made before the seventh anniversary of the person's last day of service, the retirement system shall return to the person or the person's estate all accumulated contributions of the person.

(b) If the person or the administrator of the person's estate cannot be found, the person's accumulated contributions are forfeited to the retirement system. The retirement system shall credit the amount forfeited to the perpetual endowment account of the endowment fund.

Sec. 855.604. MERGER. A pension system for municipal employees may merge into the retirement system only on conditions that the board of trustees in its sole discretion determines in an individual case are consistent with the fiduciary responsibilities of the board.

Sec. 855.605. PARTICIPATION OF MEMBERS OF FIRE DEPARTMENT. (a) If the employees of the fire department of a municipality, with the consent of the municipality, elect to become members of the retirement system, the funds of the municipality's firemen's relief and retirement fund, if any, and future payments to the fund may be transferred to the board of trustees on the voluntary application of the municipality.

(b) A participating municipality shall pay to the board of trustees money that could have been paid annually to the firemen's relief and retirement fund if the fire department were not covered by the retirement system or another pension system or if the municipality had taken the proper steps to secure the money. The retirement system shall credit amounts paid under this subsection for the benefit of fire fighters as the board of trustees directs.

Sec. 855.606. APPEAL OF ADMINISTRATIVE DECISION. A decision of the board of trustees denying or limiting membership, service credit, eligibility for or the amount of benefits payable by the retirement system, or regarding to whom benefits should be paid is a decision in a contested case as defined by the administrative procedure law, Chapter 2001, and is subject to judicial review under the substantial evidence rule in accordance with Sections 2001.174-2001.177.

Added by Acts 1997, 75th Leg., ch. 76, Sec. 14, eff. Sept. 1, 1997.

Sec. 855.607. PLAN QUALIFICATION. It is intended that the provisions of this subtitle be construed and administered in a manner that the retirement system's benefit plan will be considered a qualified plan under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401). The board of trustees may adopt rules that modify the plan to the extent the board considers necessary for the retirement system to be considered a qualified plan. Rules adopted by the board of trustees relating to plan qualification
issues are considered a part of the plan.

Added by Acts 1997, 75th Leg., ch. 76, Sec. 14, eff. Sept. 1, 1997.

Sec. 855.608. FULL BENEFIT ARRANGEMENT. (a) A separate fund for the payment of benefits under Section 415(m), Internal Revenue Code of 1986, and its subsequent amendments, is created outside the retirement system trust fund solely for the purpose of providing benefits to participants equal to the amount by which the participant's annual benefit otherwise payable under this subtitle exceeds the limitation on benefits imposed by Section 415, Internal Revenue Code of 1986, and its subsequent amendments.

(b) The board of trustees shall administer this section. Except as otherwise provided by this section, the board of trustees has the same rights, duties, and responsibilities concerning the full benefits arrangement as it has for the trust fund.

(c) Money for the payment of benefits to a participant under this section shall be paid to the separate fund created by this section from the contributions that otherwise would be deposited in the benefit accumulation fund account of the municipality that employed the member. If the benefit is payable as a result of service with more than one participating municipality, there shall be paid from the contributions that otherwise would be deposited in the benefit accumulation fund account of each affected municipality the amount chargeable to that municipality for the member. When feasible, the monthly amount to pay benefits under this section shall be paid not later than the 15th day before the date of a monthly payment to a person receiving annuity benefits under this section.

(d) The full benefits arrangement shall be administered as an unfunded governmental excess benefit arrangement. Benefits under this section are unassignable and are exempt from execution, garnishment, attachment, and state and local taxation to the same extent as provided by Section 851.006. Contributions to this arrangement are not held in trust and may not be commingled with other retirement system assets. The board of trustees may adopt rules for the efficient administration of this section and to maintain compliance with Section 415(m), Internal Revenue Code of 1986, and its subsequent amendments.

(e) The retirement system may transfer amounts among accounts
and funds to balance the accounts and funds affected by the arrangement required by this section.

Sec. 864.001. ELIGIBILITY FOR SERVICE RETIREMENT ANNUITY. (a) The state board by rule shall determine the period of qualified service and, if appropriate, the age required for a member to receive a service retirement annuity with full benefits after the member
terminates service with a participating department. The state board by rule may provide for partial vesting of benefits after a particular period.

(b) The state board may change the benefit formula for any person who is not a retiree of the pension system.

Added by Acts 2005, 79th Leg., Ch. 803 (S.B. 522), Sec. 1, eff. September 1, 2005.
Amended by:
Acts 2019, 86th Leg., R.S., Ch. 1165 (H.B. 3247), Sec. 11, eff. September 1, 2019.

Sec. 864.002. SERVICE RETIREMENT ANNUITY. (a) A service retirement annuity is payable in monthly installments based on:

(1) the average monthly contribution during the member's term of qualified service with all participating departments under this subtitle, not including a contribution to reduce the unfunded accrued actuarial liability of the pension system; and

(2) a formula adopted by the state board by rule that allows the pension system, assuming maximum state contributions are provided under Section 865.015, to be maintained as actuarially sound.

(b) The state board by rule may provide, for each year of qualified service in excess of the period provided under Section 864.001 for full benefits, an additional amount that is a percentage of the person's monthly pension, compounded annually. A person may receive a proportional credit for months of qualified service that make up less than a year.

Added by Acts 2005, 79th Leg., Ch. 803 (S.B. 522), Sec. 1, eff. September 1, 2005.
Amended by:
Acts 2019, 86th Leg., R.S., Ch. 1165 (H.B. 3247), Sec. 12, eff. September 1, 2019.

Sec. 864.004. TEMPORARY DISABILITY RETIREMENT BENEFITS. (a) A member is entitled to disability retirement benefits from the pension system only if a local board determines that the member became disabled during the performance of emergency services or support
services and is unable to return to work at the member's regular occupation or, if the member is a student, is unable to return to the member's scholastic studies. A disabled member must, at the time of disability, elect between a service retirement annuity or disability retirement benefits, if eligible for both.

(b) Subject to Subsection (c), a member described by Subsection (a) who does not elect to receive a service retirement annuity is entitled to a temporary disability retirement benefit of:

(1) $300 per month; or

(2) a greater amount that the state board by rule adopts based on the monthly contributions made for the members by the governing body of the political subdivision.

(c) Except as provided by Section 864.005, a temporary disability retirement benefit under Subsection (b) must cease on the expiration of a period, not to exceed one year, determined to be the likely duration of the disability by a physician in a written statement to the local board. The local board shall select the physician making a determination under this subsection.

Sec. 864.005. CERTIFICATION AND CONTINUANCE OF DISABILITY.
(a) A local board may require a member who is receiving a temporary disability retirement benefit to file a disability rating report every three months from a physician chosen by the local board. If a report indicates a significant improvement in condition, the local board, after notice and a hearing, may adopt an order to terminate temporary disability retirement benefit payments. The local board shall send a copy of each order adopted under this subsection to the executive director.

(b) Temporary disability benefits cease if:

(1) the recipient returns to work at the person's regular occupation, resumes scholastic studies, or performs emergency
services or support services for any participating department or other entity; or

(2) the local board adopts an order under Subsection (d).

(c) Repealed by Acts 2019, 86th Leg., R.S., Ch. 1165 (H.B. 3247), Sec. 38(3), eff. September 1, 2019.

(d) If the local board has reason to believe that a ground for termination of temporary disability retirement benefits exists, the local board may set a date for a hearing on the matter. The local board, after notice and a hearing, may adopt an order terminating temporary disability retirement benefits if the local board determines that a ground for termination exists. The local board may not adopt an order under this subsection on the basis of a physician's previously submitted statement as to the likely duration of the disability if the local board determines, after a hearing, that the disability continues. The local board shall send a copy of each order adopted under this subsection to the executive director.

(e) Repealed by Acts 2019, 86th Leg., R.S., Ch. 1165 (H.B. 3247), Sec. 38(3), eff. September 1, 2019.

(f) Repealed by Acts 2019, 86th Leg., R.S., Ch. 1165 (H.B. 3247), Sec. 38(3), eff. September 1, 2019.

(g) Repealed by Acts 2019, 86th Leg., R.S., Ch. 1165 (H.B. 3247), Sec. 38(3), eff. September 1, 2019.

(h) A local board may require financial information from a person as a condition to the continued receipt of temporary disability retirement benefits, including federal income tax returns and wage earning forms. Failure to timely provide requested information is a ground for terminating benefits.

Amended by:

Acts 2007, 80th Leg., R.S., Ch. 321 (H.B. 2400), Sec. 4, eff. September 1, 2007.

Sec. 864.0051. CONTINUING DISABILITY RETIREMENT BENEFITS. (a) To receive disability retirement benefits in the form of a continuing annuity provided beyond the time prescribed under Section 864.005, a person who has been determined by a local board to be temporarily disabled must:

(1) not later than the first anniversary of the date the person was determined to be temporarily disabled, apply to the state board in the manner and form prescribed by the state board; and

(2) be certified by the medical board designated by the state board under Section 865.020 as permanently disabled for the performance of the duties of any occupation:

(A) for which the person is reasonably suited by education, training, and experience; and

(B) that could reasonably be expected to provide the person with at least 75 percent of the salary the person was earning at the time the disability occurred.

(b) The amount of a continuing disability retirement annuity under this section is determined in the same manner as for a temporary disability retirement benefit under Section 864.004(b).

(c) Except as otherwise provided by this section, a continuing disability retirement annuity terminates on the fifth anniversary of the date that payment of the continuing disability retirement annuity begins following the certification of the continuation of the disability under Subsection (a).

(d) To continue receiving payments of a continuing disability retirement annuity after the fifth anniversary, the retiree must be recertified as permanently disabled by the medical board every five years using the same standard prescribed by Subsection (a)(2).

(e) Payments of a continuing disability retirement annuity to a retiree certified by the medical board as permanently disabled under Subsection (a) or (d) shall cease if the retiree:

(1) returns to work at any occupation that provides the person with at least 75 percent of the salary the person was earning at the time the disability occurred;

(2) performs emergency services or support services for any participating department; or

(3) rejects a suitable offer of employment, as determined by the local board.

(f) If the state board has reason to believe that a ground for termination of a continuing disability retirement annuity exists, the
state board shall set a date for a hearing on the continuation or termination of the annuity. If the state board determines that a ground for termination exists, the state board, after notice and a hearing, shall adopt an order terminating the continuing disability retirement annuity.

(g) The state board may require financial information, including federal income tax returns and wage earning forms, from a retiree as a condition of the continued receipt of continuing disability retirement benefits. Failure to timely provide requested information is a ground for terminating benefits.

Added by Acts 2019, 86th Leg., R.S., Ch. 1165 (H.B. 3247), Sec. 15, eff. September 1, 2019.

Sec. 864.006. MEMBER SERVICE DEATH BENEFITS. (a) The surviving spouse and dependents of a member who dies as a result of performing emergency services or support services are entitled to receive in equal shares a death benefit annuity equal to the service retirement annuity that the decedent would have been entitled to receive if the decedent had been able to retire, vested at 100 percent, on the date of the decedent's death.

(b) The beneficiary of a member who dies as a result of performing emergency services or support services is entitled to a lump-sum benefit of $5,000 or a greater amount that the state board provides by rule.

(b) A rule adopted under this section must include the type of eligible recipient of the benefit, including any service or age requirement, and the method of calculating the amount of the benefit. A rule may include any other terms the state board considers appropriate.

Sec. 864.010. BENEFITS FOR MEMBERS AND RETIREES OF DEPARTMENT THAT WITHDRAWS FROM PARTICIPATION OR CEASES TO EXIST. (a) The executive director shall continue to administer benefits of the pension system for members and retirees who performed emergency services or support services for a formerly participating department that has withdrawn from participation in the pension system or has ceased to exist.

(b) The governing body of a political subdivision shall perform the duties required of a local board for the members and retirees who served for the formerly participating department. The state board may by rule:

  (1) provide a procedure under which the governing body of a department may delegate its duties under this subsection to the executive director; or
  (2) appoint the executive director to perform the duties of
a governing body of a political subdivision if the governing body fails to perform or delegate its duties under this subsection within a prescribed period of time.

The cashing or depositing of the first payment of a service retirement annuity, disability retirement annuity, or death benefit annuity by a person entitled to it, or the receipt by a financial institution for credit to that person's account of a transfer of funds by the pension system through electronic means, is considered acceptance of the amount of the annuity and of the amount of qualified service of the person on whose service the annuity is based.

Sec. 864.012. CERTAIN BENEFICIARIES. (a) If a member names more than one beneficiary for a lump-sum death benefit, the pension system shall divide the benefit equally among the named beneficiaries or, if the member has designated a proportional division, each beneficiary is entitled to the proportion designated. (b) Except as provided by Subsection (a), lump-sum death benefits are subject to the laws of descent and distribution if the decedent has not provided for testamentary disposition.
Sec. 864.013. COST-OF-LIVING INCREASE. The state board by rule may provide a cost-of-living increase for any benefit provided by the pension system. If benefits are increased, the state board shall require an increase in monthly contributions if necessary to maintain an actuarially sound pension system.

Sec. 864.0135. OPTIONAL ANNUITY INCREASE OR SUPPLEMENTAL PAYMENTS. (a) The state board by rule may authorize the governing body of a participating department to:

(1) make one or more supplemental payments to its retirees and beneficiaries of the pension system; or

(2) provide an increase in the amount of annuities paid to retirees and beneficiaries of the pension system.

(b) The governing body of a participating department that elects an option under a rule adopted under this section shall fund all increased benefits that are provided to its retirees and beneficiaries of the pension system under the option.

Sec. 864.014. STATE BOARD AUTHORITY FOR LUMP-SUM PAYMENTS. In lieu of any annuity otherwise payable under this subtitle, the state board by rule may provide for a lump-sum payment if the board determines that a lump-sum payment is cost-efficient or is necessary for the pension system to remain actuarially sound.
Sec. 864.015. BENEFICIARY CAUSING DEATH OF MEMBER OR RETIREE.

(a) A benefit payable on the death of a member or retiree may not be paid to a person convicted of causing that death but instead is payable as if the convicted person had predeceased the decedent.

(b) The pension system is not required to change the recipient of benefits under this section unless it receives actual notice of the conviction of a beneficiary. The system may delay payment of a benefit payable on the death of a member or retiree pending the results of a criminal investigation and of legal proceedings relating to the cause of death.

(c) The pension system is not liable for any benefit paid to a convicted person before the date the system receives actual notice of the conviction, and any payment made before that date is a complete discharge of the system's obligation with regard to that benefit payment. The convicted person holds all payments received in constructive trust for the rightful recipient.

(d) For the purposes of this section, a person has been convicted of causing the death of a member or retiree if the person:

1. pleads guilty or nolo contendere to, or is found guilty by a court of, an offense at the trial of which it is established that the person's intentional, knowing, or reckless act or omission resulted in the death of a person who was a member or retiree, regardless of whether sentence is imposed or probated; and

2. has no appeal of the conviction pending and the time provided for appeal has expired.

Sec. 864.016. CLAIM AND APPEAL PROCEDURE. (a) An application
for disability retirement benefits or a death benefit must be filed with the local board. On receiving an application under this subsection, the local board shall hold a hearing to decide the merits of the application and whether to approve or deny the application. The local board shall send a written copy of its decision to the claimant, the applicant, and the executive director.

(a-1) A claim for a service retirement annuity must be filed with the executive director.

(b) A person aggrieved by a decision of a local board or of the executive director relating to eligibility for or the amount of benefits under this subtitle may appeal the decision to the state board.

(c) An appeal of a local board or executive director decision under this section is begun by delivering a notice of appeal to the presiding officer or secretary of the local board that made the decision or to the executive director, as applicable. The notice must be delivered not later than the 20th day after the date of the decision and contain a brief description of the reasons for the appeal. The aggrieved person must file a copy of the notice with the state board.

(d) An appeal of a local board or executive director decision under this section is held in Austin and is a contested case under Chapter 2001, conducted as a de novo hearing by the State Office of Administrative Hearings.

(e) After a hearing under Subsection (d), the state board shall decide each appeal from a local board or executive director decision, issue a written opinion, and notify the local board or executive director, as applicable, and the claimant if the state board overrules the decision.

(f) A final decision of the state board under this section is subject to judicial review under Chapter 2001. The standard of review is by substantial evidence. Venue of the appeal is only in a district court in Travis County.

EXCHANGED PUBLIC SECURITY. (a) This section applies to a public security only if:

(1) the public security authorization relating to the security provides that the security is fully registrable or is of the type that has one or more coupons and that the security may be exchanged; or

(2) the security has been converted under Section 1203.041.

(b) If the public security was initially approved by the attorney general and registered by the comptroller, on exchange or conversion of the security:

(1) a public security that results from the exchange or conversion is considered to have been approved by the attorney general and registered by the comptroller;

(2) the attorney general is not required to approve the resulting security; and

(3) the comptroller is not required to register the resulting security.

(c) If a public security is exchanged, the registrar shall have an appropriate inscription placed on the public security received in exchange verifying that the security received in exchange is in place of the security presented for exchange. The inscription must be manually signed.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

CHAPTER 1204. INTEREST RATE

Sec. 1204.001. DEFINITIONS. In this chapter:

(1) "Floating rate public security" means a public security or a portion of a public security that bears a rate of interest determined in accordance with a clearly stated formula, computation, or method, under which the net interest cost of the security or portion at any future date cannot be determined on the date of delivery of the security or portion.

(2) "Public agency" means:

(A) this state or a department, board, agency, district, municipal corporation, political subdivision, body politic and corporate, or instrumentality of this state; or

(B) a nonprofit corporation or not-for-profit entity that is an instrumentality of or is acting on behalf of an entity.
described by Paragraph (A).

(3) "Public security" means a bond, note, or other obligation that a public agency is authorized to issue.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

Sec. 1204.002. APPLICABILITY. (a) A provision of this chapter concerning the sale price of a public security or the maximum rate of interest that a public security may bear applies to any public security without regard to a contrary provision in another law or a charter.

(b) A provision of this chapter concerning the sale price of a public security does not apply to a public security whose maximum rate of interest or maximum net effective interest rate is, at the time the public security is issued, specifically set by the constitution of this state.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

Sec. 1204.003. COMPUTATION OF PUBLIC SECURITY YEARS. (a) Public security years are computed for each separate public security that is part of an issue or series of public securities by dividing the principal amount at par value of the public security by 100 and multiplying the resulting quotient by:

(1) the number of years from the date interest begins to accrue on the public security to the date the security is scheduled to mature; or

(2) for a floating rate public security, the number of years from the date net interest cost begins to accrue on the public security to the earlier of:

(A) the date the security is scheduled to mature; or

(B) any date interest on the security is computed.

(b) If any portion of an issue or series of public securities is subject to a mandatory redemption before the scheduled maturity that at the time of delivery of the public securities is scheduled to occur on a specific date or dates, the public security years are computed as if the face amount of public securities required to be redeemed on each earlier date were scheduled to mature on that earlier date.
Sec. 1204.004. COMPUTATION OF NET INTEREST COST. (a) In this section:

(1) "Discount" means an amount equal to the principal amount at par value of an issue or series of public securities plus any accrued interest to the date of delivery minus the total sum of money paid to the public agency.

(2) "Premium" means an amount equal to the total amount of money paid to the public agency for an issue or series of public securities minus:

(A) the principal amount at par value of the issue or series; and

(B) any accrued interest to the date of delivery.

(b) The net interest cost of an issue or series of public securities is the total of all interest to become payable on the issue or series through the final scheduled maturity date of the issue or series, plus any discount or minus any premium included in the price paid for the issue or series.

(c) The net interest cost of an issue or series of floating rate public securities is the total of all interest to accrue from the date of delivery and become payable on the issue or series through any date net interest cost is computed on the issue or series:

(1) plus, in the case of a discount, the figure obtained by multiplying the dollar amount of the discount by a fraction, the numerator of which is the aggregate number of public security years to the date of the net interest cost computation and the denominator of which is the aggregate number of public security years to the scheduled final maturity date of the floating rate public securities; or

(2) minus, in the case of a premium, the figure obtained by multiplying the dollar amount of the premium by a fraction, the numerator of which is the aggregate number of public security years to the date of the net interest cost computation and the denominator of which is the aggregate number of public security years to the scheduled final maturity date of the floating rate public securities.

(d) If any portion of an issue or series of public securities is subject to a mandatory redemption before the scheduled maturity
that at the time of delivery of the public securities is scheduled to occur on a specific date or dates:

(1) the net interest cost is computed as if the face amount of public securities required to be redeemed on each earlier date were scheduled to mature on that earlier date;

(2) the net interest cost includes any redemption premium required to be paid on any mandatory redemption date; and

(3) any other form of compensation, whether due on an optional or mandatory prepayment or redemption, may not be included in the net interest cost.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

Sec. 1204.005. COMPUTATION OF NET EFFECTIVE INTEREST RATE. (a) The net effective interest rate of an issue or series of public securities is computed by dividing the net interest cost of the issue or series by the aggregate total number of public security years of all public securities that comprise the issue or series and expressing the result as a rate of interest in percent per year.

(b) In computing the net effective interest rate of an issue or series of public securities that includes one or more public securities on which interest accruing before the maturity of the public security is compounded, the public security years with reference to each separate compounding public security are increased by an amount obtained by dividing the amount of interest that is periodically compounded by 100 and multiplying the resulting quotient by the number of years from the date on which interest begins to accrue on the amount that is being compounded to:

(1) the scheduled date for payment of the amount that is being compounded; or

(2) with respect to a floating rate public security, the date interest on the public security is next computed, if that date is earlier than the scheduled date for payment of the amount that is being compounded.

(c) For purposes of this chapter, interest compounded under Subsection (b) is considered as principal.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.
Sec. 1204.006. MAXIMUM INTEREST RATE. (a) The maximum rate of interest for any issue or series of public securities, including an issue or series that is issued in exchange for property, labor, services, materials, or equipment under another law, is a net effective interest rate of 15 percent.

(b) Except as provided by Section 1204.007, a public agency may issue and sell any issue or series of its public securities at any price and bearing interest at any rate or rates determined by the agency's governing body that does not exceed the maximum rate under Subsection (a).

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

Sec. 1204.007. MAXIMUM INTEREST RATE FOR CERTAIN PUBLIC SECURITIES. (a) Public securities authorized by an election held before April 15, 1981, may be issued, may be sold, and may bear interest as provided by Section 1204.006, except that public securities authorized by an election required by the constitution of this state may not be issued at an interest rate greater than the rate authorized at that election unless an additional election is held at which the issuance of the public securities at a price and at a rate authorized by Section 1204.006 is approved.

(b) A public agency shall hold and give notice of an additional election under Subsection (a) in the manner provided by law applicable to the election that authorized the public securities.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

(a) Before the entry of final judgment in an action under this chapter, the issuer may file a motion with the court for an order that any opposing party or intervenor, other than the attorney general, be dismissed unless that person posts a bond with sufficient surety, approved by the court, and payable to the issuer for any damage or cost that may occur because of the delay caused by the continued participation of the opposing party or intervenor in the action if the issuer finally prevails and obtains substantially the judgment requested in its petition.

(b) On receipt of a motion under Subsection (a), the court shall issue an order directed to the opposing party or intervenor, with a copy of the motion, to be served on the opposing party, the intervenor, or the party's attorney, personally or by registered mail, requiring the opposing party or intervenor to:

(c) The court may receive evidence at the hearing or during any adjournment relating to the amount of the potential damage or cost.

(d) The court may allocate the amount of the bond among opposing parties and intervenors according to the extent of their participation.

(b) An appellate court may:

(1) modify an order of a lower court; and

(2) enter the modified order as the final order.

(c) If an appeal is not taken or if the appeal is taken and the order of the lower court is affirmed or affirmed as modified, and the required bond is not posted before the 11th day after the date of the
entry of the appropriate order, no court has further jurisdiction over any action to the extent it involves an issue that was or could have been raised in the action under this chapter, other than an issue that may have been raised by an opposing party or intervenor who was not subject to the motion.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

The comptroller shall make a proper record of payment and cancellation of that obligation.

(b) An issuer may withdraw money deposited under this subchapter only if:

(b) An issuer may provide in the proceedings authorizing the issuance of the refunding bonds that the refunding bonds are subordinate to the obligations to be refunded. The subordination may be made only in the manner and to the extent specifically provided by those proceedings.

(c) After firm banking and financial arrangements for the discharge and final payment or redemption of the obligations have been made under Subsection (a), all rights of an issuer to initiate proceedings to call the obligations for redemption or take any other action amending the terms of the obligations are extinguished. The right to call the obligations for redemption is not extinguished if the issuer:

(a) The authority may, either directly or by means of a trust or trusts established by it, issue obligations or other evidences of indebtedness for financing stranded costs of a municipal power agency created by concurrent resolution by its member cities on or before November 1, 1979, pursuant to Chapter 163, Utilities Code, or a predecessor statute to that chapter. The stranded costs of the municipal power agency are set forth as allocated to the member cities in the "Potentially Strandable Investment (ECOM) Report: 1998 Update" issued by the Public Utility Commission of Texas.
(b) At the request of any member city of a municipal power agency, the authority shall issue obligations or other evidences of indebtedness in the amount of the requesting member city's stranded costs, plus the sum of the costs described in Subdivision (1) and the issuance costs, and shall make a grant of the proceeds of the obligations or evidences of indebtedness to the municipal power agency. A member city's request under this subsection must include a statement of the payment terms for recovering stranded costs. A grant of the proceeds of obligations or evidences of indebtedness is subject to the following conditions:

(1) the municipal power agency shall use the grant to reduce the outstanding principal of the agency's debts allocable to stranded costs of the requesting member city for federal income tax purposes, whether by redemption, defeasance, or tender offer, together with any interest expenses, call premium, tender premium, or administrative expenses associated with the principal payment; and

(2) the municipal power agency shall reduce the amount payable by the requesting member city under its power sales contract with the agency to reflect the reduced debt service on the agency's debt as a result of the payments made under Subdivision (1).

(c) Obligations or evidences of indebtedness issued by the authority under this section must be secured by nonbypassable charges imposed by the authority on retail customers receiving transmission and distribution services provided by the requesting member city, which must be consistent with the stranded cost recovery terms stated in the member city's request unless otherwise approved by the member city. Obligations or evidences of indebtedness issued by the authority under this section are not a debt of this state, the municipal power agency, or any member of the municipal power agency.

(d) The Public Utility Commission of Texas shall provide necessary assistance to the authority to ensure the collection and enforcement of the nonbypassable charges, whether directly or by using the assistance and powers of the requesting member city.

This section shall be interpreted broadly in a manner consistent with the most cost-effective financing of stranded costs. To the extent possible, obligations or evidences of indebtedness issued by the authority under this section must be structured so that any interest on the obligations or evidences of
indebtedness is excluded from gross income for federal income tax purposes. Any interest on the obligations or evidences of indebtedness is not subject to taxation by and may not be included as part of the measurement of a tax by this state or a political subdivision of this state.

Sec. 1232.1072. ISSUANCE OF OBLIGATIONS FOR FINANCING CUSTOMER RATE RELIEF PROPERTY. (a) The definitions in Section 104.362, Utilities Code, apply to terms used in this section.

(c) An issuing financing entity created under this section is a duly constituted public authority and instrumentality of the state and is authorized to issue customer rate relief bonds on behalf of the state for the purposes of Section 103, Internal Revenue Code of 1986 (26 U.S.C. Section 103).

(d) The issuing financing entity must be governed by a governing board of three members appointed by the authority. A single organizer selected by the executive director of the authority shall prepare the certificate of formation of the issuing financing entity under Chapters 3 and 22, Business Organizations Code. The certificate of formation must be consistent with the provisions of this section.

(f) The authority shall establish the issuing financing entity to act on behalf of the state as its duly constituted authority and
instrumentality to issue customer rate relief bonds approved under Subchapter I, Chapter 104, Utilities Code.

(g) On a request to the authority from the Railroad Commission of Texas, the authority shall direct an issuing financing entity to issue customer rate relief bonds in accordance with a financing order issued by the railroad commission as provided in Subchapter I, Chapter 104, Utilities Code.

(h) Before the issuance of any customer rate relief bonds, the authority and the Railroad Commission of Texas shall ensure that adequate provision is made in any financing order for the recovery of all issuance costs and all other fees, costs, and expenses of the authority, the issuing financing entity, and any advisors or counsel hired by the authority or the entity for the purposes of this section during the life of the customer rate relief bonds.

(i) Customer rate relief bonds are limited obligations of the issuing financing entity payable solely from customer rate relief property and any other money pledged by the issuing financing entity to the payment of the bonds and are not a debt of this state, the Railroad Commission of Texas, the authority, or a gas utility.

(j) The Railroad Commission of Texas shall ensure that customer rate relief charges are imposed, collected, and enforced in an amount sufficient to pay on a timely basis all bond obligations, financing costs, and bond administrative expenses associated with any issuance of customer rate relief bonds.

(k) The authority and the Railroad Commission of Texas have all the powers necessary to perform the duties and responsibilities described by this section. This section shall be interpreted broadly in a manner consistent with the most cost-effective financing of customer rate relief property, including regulatory assets, extraordinary costs, and related financing costs approved by the Railroad Commission of Texas in accordance with Subchapter I, Chapter 104, Utilities Code.

(l) Any interest on the customer rate relief bonds is not subject to taxation by and may not be included as part of the measurement of a tax by this state or a political subdivision of this state.

(m) The authority shall make periodic reports to the Railroad Commission of Texas and the public regarding each financing made in accordance with Section 104.373(b), Utilities Code, and if required by the applicable financing order.
(n) The issuing financing entity shall issue customer rate relief bonds in accordance with and subject to other provisions of Title 9 applicable to the authority.

(o) The issuing financing entity may exercise the powers granted to the governing body of an issuer with regard to the issuance of obligations and the execution of credit agreements under Chapter 1371. A purpose for which bonds, obligations, or other evidences of indebtedness are issued under this section and Subchapter I, Chapter 104, Utilities Code, constitutes an eligible project for purposes of Chapter 1371 of this code.

(p) Assets of an issuing financing entity may not be considered part of any state fund and must be held outside the state treasury. The liabilities of the issuing financing entity may not be considered to be a debt of the state or a pledge of the state’s credit. An issuing financing entity must be self-funded from customer rate relief property and established in accordance with Subchapter I, Chapter 104, Utilities Code. A state agency may provide money appropriated for the purpose to the issuing financing entity to provide for initial operational expenses of the issuing financing entity.

(1) the Capitol Complex in Travis County; or
(2) the John H. Winters Human Services Complex in Travis County.

(b) The commission may contract as necessary to accomplish the purposes stated in Subsection (a). The estimated cost of the project is $10 million. Before purchasing property under this section, the commission must determine that the purchase would be in the state's best interest.

Text of section effective on Passage of SJR 65.

Sec. 1232.1116. CERTAIN MAINTENANCE, IMPROVEMENT, REPAIR, AND CONSTRUCTION PROJECTS; GENERAL OBLIGATION BONDS. The board shall issue the bonds in a cumulative amount not to exceed $1 billion for:

(1) maintenance, improvement, repair, and construction projects in or outside Travis County that are administered by or on behalf of a state agency listed in Section 50-g, Article III, Texas Constitution, and authorized by the legislature in accordance with Section 1232.108; or

(b) The board shall provide for, issue, and sell the bonds in accordance with Section 50-g, Article III, Texas Constitution, and this chapter. Proceeds from the sale of the bonds shall be invested as provided by this chapter.

(c) Proceeds from the sale of the bonds may be spent on an authorized project or for the purchase of needed equipment only in accordance with the legislative appropriation of the proceeds.
Sec. 1232.112. BOND REVIEW BOARD APPROVAL. (a) The authority may not issue obligations until the Bond Review Board has approved the issuance under Chapter 1231.

(b) The Bond Review Board may not approve a bond issue unless a project analysis is submitted for approval as provided by Section 1232.114.

(c) Refunding obligations of the authority must be approved by the Bond Review Board.

Sec. 1232.113. OBLIGATION ISSUANCE ORIENTATION; INFORMATION TO AND FROM CLIENT AGENCIES. (a) In this section, "client agency" means a state agency on whose behalf the board may issue obligations.

(2) an orientation meeting to be held before the issuance process begins.

(d) As part of the orientation, a client agency shall provide to the authority:

(1) detailed information concerning the project for which obligations are to be issued;

(3) the names of employees of the client agency who are designated to work with the authority in connection with the project.

(e) The authority shall prepare information of interest to the authority's client agencies describing the functions of the authority and the procedures by which complaints are filed with and resolved by the authority. The authority shall make the information available to its client agencies.

Sec. 1232.114. PROJECT ANALYSIS. The project analysis must be in the form required for a project analysis requested from the commission under Sections 2166.151-2166.155.

(b) This section does not apply to a minor renovation, repair, or construction project at a facility operated by the Texas Department of Criminal Justice for the imprisonment of individuals convicted of felonies other than state jail felonies, as defined by the department in cooperation with the commission. Instead of submitting a project analysis, the department may substitute the master plan required to be submitted by Section 1401.121 if the master plan contains information substantially equivalent to the information required to be in a project analysis under Sections 2166.151-2166.155.

(b) The principal amount of obligations issued to finance the purchase of computer equipment that is the subject of a contingent appropriation under Subchapter B, Chapter 317, must be sufficient to cover any payments of principal and interest that must occur during the remainder of the biennium after the obligations are issued.
(c) Because of the expenses specified by Subsection (a) and because the cost estimates for acquisition, construction, repair, or renovation of a project cannot be finally determined at the time the project is authorized for financing, the principal amount of any issuance of obligations may be an amount not to exceed 150 percent of the amount of the estimated cost for the project being financed.

(d) Costs and expenses authorized by this section may not be included in the principal amount unless the board finds that those costs and expenses are necessary and reasonable at the time the obligations are issued.

Sec. 1232.116. MANNER OF REPAYMENT. (a) The board may provide for the payment of the principal of and interest on obligations issued under this chapter:

   (B) selling equipment on an installment basis to a state agency either directly or through the commission; or
   (2) from any other funds lawfully available to the board.

(b) From funds appropriated for paying rental charges or making installment payments on buildings or equipment, the commission or an occupying or using state agency shall pay to the board a rental or make installment payments on the buildings or equipment.

(c) The board shall determine the amount of the rental or installment payments. The amount must be sufficient to:

(1) pay the principal of and interest on the obligations;
(2) maintain any reserve fund required for servicing the obligations; and
(3) reimburse the authority for other costs incurred by it with respect to the obligations.

(d) When the commission or another state agency is required by Subsection (b) to pay a rental to the authority and the commission or other state agency depends on receiving a rental from an occupying or using state agency to pay the authority, the commission or other
state agency shall set the rental in an amount that is sufficient to
pay the rental required by the board.

(e) In addition to other sources of repayment provided by this
section, the legislature by law may direct that money in the Texas
capital trust fund account be used to pay the principal of and
interest on bonds issued under this chapter for the acquisition or
construction of a building.

(f) The legislature may require the deposit into the Texas
capital trust fund account of all or part of the proceeds of a
transaction concerning a building.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

Sec. 1232.117. STATE DEBT NOT CREATED. (a) An obligation
issued under this chapter is not a debt of the state or any state
agency, political corporation, or political subdivision of the state
and is not a pledge of the faith and credit of any of them. A bond
is payable solely from revenue as provided by this chapter.

(b) An obligation issued under this chapter must contain on its

(1) neither the state nor a state agency, political
corporation, or political subdivision of the state is obligated to
pay the principal of or interest on the obligation except as provided

of the interest and sinking fund, the reserve fund, and other funds.

(b) The order or resolution may:

(1) prohibit the issuance of additional obligations payable
from the pledged revenues; or
(2) preserve the right of the board to issue additional obligations that are on a parity with or subordinate to the lien and pledge on the revenue being used to support the obligations being issued pursuant to the order or resolution.

(c) The order or resolution may contain any other provision or covenant determined by the board.

(d) The board may make covenants with respect to the obligations, the pledged revenues, and the operation and maintenance of the buildings or equipment financed under this chapter.

(a) If, before January 2, applications received for reservations for state-voted issues total more than 10 percent of the available state ceiling for that program year, the percentage of state-voted ceiling requested that is more than 10 percent of the state ceiling:

(1) is removed from the state ceiling available to other issuers on January 2; and

(2) is available for those applications for reservations for state-voted issues.

(b) The amount removed under Subsection (a) may not exceed 10
percent of the state ceiling.

(c) The remaining portion of the state ceiling is available in accordance with Section 1372.022(a).

Sec. 1372.025. REALLOCATION OF STATE CEILING ON FAILURE OF BONDS TO QUALIFY AS TAX-EXEMPT OBLIGATIONS. (a) If a type of bond listed in Section 1372.022(a) does not qualify on January 2 of any year for treatment as a tax-exempt obligation under the Internal Revenue Code:

(1) Section 1372.022(a) has no effect for that year for that type of bond; and

(2) by March 1, the portion of the state ceiling that but for Subdivision (1) would have been available exclusively for reservations by issuers of that type of bond shall be reallocated proportionately for reservation by each other category of issuer listed in that section.

(b) Subsection (a) does not apply to qualified mortgage bonds or qualified residential rental project bonds made available exclusively to the Texas Department of Housing and Community Affairs under Section 1372.023 or the Texas State Affordable Housing Corporation under Section 1372.0223(1).

Sec. 1372.026. LIMITATION ON AMOUNT OF STATE CEILING AVAILABLE TO HOUSING FINANCE CORPORATIONS. (a) The maximum amount of the state ceiling that may be reserved before August 15 by a housing finance corporation for the issuance of qualified mortgage bonds may not exceed the amount computed as follows:

(1) if the local population of the housing finance corporation is 300,000 or more, $36 million plus the product of the amount by which the local population exceeds 300,000 multiplied by $40;

(2) if the local population of the housing finance corporation is 200,000 or more but less than 300,000, $32 million plus the product of the amount by which the local population exceeds 200,000 multiplied by $40;

(3) if the local population of the housing finance corporation is 100,000 or more but less than 200,000, $24 million plus the product of the amount by which the local population exceeds 100,000 multiplied by $80; or

(4) if the local population of the housing finance corporation is less than 100,000, the product of the local population multiplied by $240.

(b) A housing finance corporation may not receive an allocation for the issuance of qualified mortgage bonds in an amount that exceeds the greater of:

(1) $50 million; or

(2) 1.70 percent of the state ceiling.

(c) For purposes of this section, the local population of a housing finance corporation is the population of the local government or local governments on whose behalf a housing finance corporation is created. If two local governments that have a population of at least 50,000 each and that have overlapping territory have created housing finance corporations that have the power to issue bonds to provide financing for home mortgages, the population of the housing finance corporation created on behalf of the larger local government is computed by subtracting from the population of the larger local government the population of the part of the smaller local government that is located in the larger local government. The reduction of population provided by this subsection is not required if the smaller local government assigns its authority to issue bonds, based on its population, to the larger local government.
Sec. 1372.0261. FAILURE OF HOUSING FINANCE CORPORATION TO USE AMOUNT OF STATE CEILING ALLOCATED. (a) In this section, "utilization percentage" means that portion of the amount of the state ceiling allocated to a housing finance corporation with respect to which the corporation issues private activity bonds that result in mortgage loans or mortgage credit certificates. A housing finance corporation's utilization percentage for an allocation of the state ceiling is the quotient of:

(1) the amount of the state ceiling:
   (A) with respect to which mortgage loans have been originated, considering only the original principal balance of those loans;
   (B) that is used to purchase mortgages or mortgage-backed securities; or
   (C) that is used to issue mortgage credit certificates;

divided by

(2) the amount of the state ceiling allocated, minus any amounts of the state ceiling required for debt service reserve funds.

(b) If a housing finance corporation's issue of bonds uses a new allocation of the state ceiling in combination with taxable bond proceeds or with bond proceeds recycled from previous allocations of the state ceiling, the first loans or certificates financed are considered in computing the utilization percentage of the new allocation of the state ceiling.

(c) If a housing finance corporation's utilization percentage is less than 80 percent but at least 25 percent, the next time the corporation becomes eligible for a reservation of the state ceiling, the maximum amount of the state ceiling that may be reserved for the corporation is equal to the amount for which the corporation would otherwise be eligible under Section 1372.026 multiplied by the
utilization percentage of the corporation's last bond issue that used an allocation of the state ceiling.

(d) A housing finance corporation may not be penalized under Subsection (c) if:

(1) the corporation fails to use:
   (A) bond proceeds recycled from previous allocations of the state ceiling; or
   (B) taxable bond proceeds;

(2) as the result of an issuance of bonds, the corporation's utilization percentage is 80 percent or greater; or

(3) the application is received after July 14.

(e) If a housing finance corporation's utilization percentage is less than 25 percent, the next time the corporation becomes eligible for a reservation of the state ceiling, the maximum amount of the state ceiling that may be reserved for the corporation is equal to the amount for which the corporation would otherwise be eligible under Section 1372.026 multiplied by 25 percent.

(f) A housing finance corporation may not be penalized under Subsection (c) in a program year if, by December 31 of the preceding program year, an amount equal to or less than 50 percent of the aggregate state ceiling available for reservations by issuers of qualified mortgage bonds under Section 1372.022(a)(1):
   (1) has been used in connection with bond issues that have closed on or before that date; or
   (2) has had carryforward elections filed on or before that date.

(g) An issuer that has carryforward available from the additional state ceiling is not restricted by project limits for the state ceiling. An issuer who uses the carryforward to issue qualified mortgage bonds or mortgage credit certificates is not subject to the utilization percentage calculation in determining the amount of the issuer's reservation request.

Sec. 1372.027. PUBLICATION OF AVAILABLE STATE CEILING. The board shall publish at least weekly on its Internet site:

(1) a statement of the amount of the available state ceiling;

(2) a list of the issues that have received a reservation since the preceding publication, including the amount of each reservation; and

(3) a list of the issues that had previously received a reservation that have closed since the preceding publication.

Sec. 1372.028. APPLICATION FOR RESERVATION; FORM AND CONTENT. (a) In this section, "qualified bond" has the meaning assigned by Section 141(e), Internal Revenue Code (26 U.S.C. Section 141(e)).

(b) An issuer may apply for a reservation for a program year not earlier than October 5 of the preceding year. An issuer may not submit an application for a program year after November 15 of that year.

(c) The application must:
(1) be on a form prescribed by the board;
(2) be signed by a member or officer of the issuer; and
(3) state:
    (A) the maximum amount of the bonds in the issue that require an allocation under Section 146, Internal Revenue Code (26 U.S.C. Section 146);
    (B) the project or, with respect to an eligible facility, a functional description of the project to be financed by the proceeds, including the identification of the user of the proceeds or project;
    (C) whether the bonds are qualified bonds;
    (D) if the bonds are qualified bonds:
       (i) the subparagraph of Section 141(e)(1), Internal Revenue Code (26 U.S.C. Section 141(e)(1))
Revenue Code (26 U.S. C. Section 141(e)(1)), that applies; and

(ii) if Section 141(e)(1)(A) of that code (26 U.S.C. Section 141(e)(1)(A)) applies, the paragraph of Section 142(a) of that code (26 U.S.C. Section 142(a)) that applies;

(E) if the bonds are not qualified bonds:

(i) that Section 141(b)(5), Internal Revenue Code (26 U.S.C. Section 141(b)(5)), applies; or

(ii) for a transition rule project, the paragraph of the Tax Reform Act of 1986 that applies;

(F) that bonds are not being issued for the same stated project for which the issuer has received sufficient carryforward during a previous year or for which there exists unexpended proceeds from, including transferred proceeds representing unexpended proceeds from, one or more prior issues of bonds issued by the same issuer or based on the issuer's population; and

(G) other information that the board may require.

(d) An issuer is not required to provide the statement required by Subsection (c)(3)(F) if the issuer:

(1) is an issuer of a state-voted issue;

(2) is the Texas Department of Housing and Community Affairs or the Texas State Affordable Housing Corporation; or

(3) provides evidence that one or more binding contracts have been entered into, or other evidence acceptable to the board as described by program rule, to spend the unexpended proceeds by the later of:

(A) 12 months after the date the board receives the application; or

(B) December 31 of the program year for which the application is filed.

(e) If an issuer applied the previous year for a reservation for qualified mortgage bonds and has not received the reservation at the time of application for the lottery, the issuer, instead of filing a complete application under Subsection (c), may file a statement explaining whether there are any changes in information from the application information filed the previous year. If there are changes, the statement must specify the current information. An issuer that files a statement under this subsection must pay the same application fee required for a complete application.

(2) were not granted a reservation during that year.

(b) The priority of an issuer under Subsection (a) that is composed of more than one jurisdiction is not affected by the issuer's loss of a sponsoring local government and that government's population if the dollar amount of the application has not increased.

(c) Within the group of issuers given priority and within the group not given priority, the board shall grant reservations in reverse order of the date of the most recent closing of qualified mortgage bonds applicable to the housing finance corporations, with a corporation that has never received a reservation for mortgage revenue bonds being the first to receive a reservation and the corporation that had the most recent closing being the last to
receive a reservation. If closings occurred on the same date, the board shall grant reservations in the order determined by the board by lot.

(d) For purposes of Subsection (c), the most recent closing applicable to a newly created housing finance corporation sponsored by one or more local governments that had previously sponsored another housing finance corporation, whether existing or not, or to a housing finance corporation sponsored by a local government that has participated in the program of another housing finance corporation is the most recent closing of qualified mortgage bonds the proceeds of which were available to the population of the corporation.

(e) A housing finance corporation or its sponsoring local government may not achieve an advantage in the determination of its most recent closing by creating, dissolving, or withdrawing from a housing finance corporation.

Sec. 1471.056. IMPOSITION OF ASSESSMENT. (a) If, at the conclusion of the hearing, the road district by order determines that the property in the district will benefit from refinancing under this subchapter, the district may:

(1) set aside by a court;
(2) found excessive by the district; or
(3) determined invalid by the district.

(b) A district may reassess property if:
(1) at the time the bonds or certificates are issued under this subchapter, the property is exempt from taxation under Subchapter B, Chapter 11, Tax Code, or appraised under Subchapter C, D, or E, Chapter 23, Tax Code; and

(2) is effective from the date the assessment is imposed until the date the total amount of the assessment for the property is paid.

(c) A road district may enforce a lien under Subsection (a) in the same manner as the commissioners court enforces an ad valorem tax lien.

(d) The owner of assessed property is personally liable for the
payment of an assessment under this subchapter and may pay at any
time the entire amount of the assessment and accrued interest on any
lot or parcel. Liability for an assessment passes with the property

by a pledge of the faith or credit of a county in which the district
is located.

(c) A certificate is prima facie evidence of all the matters
shown on the certificate.

(d) A holder of the certificate may enforce the assessment in
the same manner as the district may enforce assessments made under
this subchapter.

(b) At the election, the ballot proposition must include:
(1) the purpose for which the bonds are to be issued; and
(2) the question as to whether a tax shall be imposed on the taxable property in the county to pay the interest on the bonds and to provide a sinking fund for the redemption of the bonds.

(c) If the bonds of the precinct or district have been authorized but not issued and sold or if the bonds have been sold but the proceeds have not been spent, the ballot proposition must state: "The issuance of county bonds for the construction of district roads and the further construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes, or in aid of these purposes, throughout the county."

(d) If the bonds of the precinct or district have been issued and the proceeds have been applied to the construction of roads in the precinct or district, the ballot proposition must state: "The issuance of county bonds for the purchase of district roads and the further construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes, or in aid of these purposes, throughout the county."

Sec. 1471.082. ISSUANCE OF COUNTY BONDS. (a) If the proposition to issue county bonds receives the required favorable vote, the county shall issue the bonds in the amount stated in the
election order, but not in an amount that exceeds a limitation imposed by the constitution or a statute.

(b) After the county issues the bonds, the commissioners court shall set aside the amount necessary to fully compensate the commissioners or justice precinct or road district for the purpose for which the bonds were issued.

(c) If the bonds are approved for the purpose described by Section 1471.081(c) and the precinct or district bonds have not been issued and sold, the commissioners court shall:

(1) apply the proceeds of the county bonds to the construction, maintenance, and operation of the roads in the precinct or district as contemplated by the election approving the precinct or district bonds; and

(2) immediately cancel and destroy the unsold precinct or district bonds.

(d) If the bonds are approved for the purpose described by Section 1471.081(d), the roads of the precinct or district may become a part of the county road system.

(b) An agreement for an exchange under this section must:

(1) be by order of the commissioners court authorizing the exchange; and

(2) contain the signed and acknowledged written consent of the holder of the bonds in the form required by law for written instruments.

(c) A copy of the order authorizing the exchange, the agreement, and the county bonds to be given in exchange shall be submitted to the attorney general for approval. The exchange is not effective until the attorney general issues a certificate approving the exchange.

(d) If the exchange takes effect under this section:

(1) the commissioners court shall cancel and destroy the
bonds of the precinct or district;

(2) the county may not impose the tax approved at the election of the precinct or district authorizing the bonds; and

Sec. 1471.084. DEPOSIT OF COUNTY BONDS AS GUARANTEE. (a) If the commissioners court determines that an exchange cannot be made under Section 1471.083, the court as soon as practicable shall deposit with the county treasurer to the credit of the interest and sinking fund account of the commissioners or justice precinct or road district an amount of county bonds equal to the amount of outstanding bonds of the precinct or district.

(b) Before depositing the county bonds under Subsection (a), the commissioners court shall submit to the attorney general a copy of the order authorizing the deposit and the county bonds to be deposited. The county bonds may be deposited only if the attorney general issues a certificate of approval.

(c) To be deposited under this section, county bonds must:

(1) have the word "nonnegotiable" written across the face of the bond; and

(2) state that the bonds are deposited to the credit of the interest and sinking fund account of the precinct or district named in the bonds as a guarantee of the payment of the outstanding bonds of the precinct or district that have not been exchanged.

(d) Coupons attached to county bonds to be deposited must have the word "nonnegotiable" written on the coupons.

(e) After deposit of the county bonds:

(1) the sinking fund associated with the bonds of the precinct or district shall be transferred to the sinking fund account of the county; and

(2) the commissioners court may not impose the tax approved at the election of the precinct or district authorizing the bonds.

(f) The commissioners court shall pay annually the interest on the county bonds deposited under this section from taxes imposed to pay interest on the county bonds and detach the coupon used for
payment. The payment shall be credited to the interest account of
the precinct or district, and the court shall use that money to pay
the interest on the outstanding bonds of the precinct or district.

(g) From the taxes imposed to provide the sinking fund for the
county bonds, the commissioners court shall set aside annually in the
sinking fund the amount necessary for the retirement of the county
bonds. On maturity of the county bonds, the court shall pay the
bonds in full. The payment shall be credited to the sinking fund of
the precinct or district, and the court shall use that money to pay
in full all outstanding bonds of the precinct or district.

Added by Acts 1999, 76th Leg., ch. 227, Sec. 1, eff. Sept. 1, 1999.

options as the outstanding bonds of the commissioners or justice
precinct or road district; and

district obligations; and

county bonds were authorized.

(b) County bonds issued in excess of the amount required to
exchange, offset, and retire the outstanding precinct or district
bonds must mature within 40 years.

county. The commissioners court may spend the proceeds throughout
the county only:

(1) to construct, maintain, or operate a macadamized,
graveled, or paved road or turnpike; or

Sec. 1502.052. PLEDGE OF REVENUE. (a) The governing body of a municipality may pledge to the payment of any public securities issued or any obligations incurred under Section 1502.051(c) all or any part of the revenue of:
(1) a utility system;
(2) a park; or
(3) a swimming pool.

(b) The governing body of a municipality may grant a lien on the revenue pledged under Subsection (a). The lien has the priority determined by the governing body, subject to the provisions of Section 1502.056.

Sec. 1502.053. GRANT OF FRANCHISE. As additional security for public securities issued or obligations incurred under this chapter, the municipality by the terms of the encumbrance may grant a purchaser under sale or foreclosure a franchise to operate the encumbered utility system, park, or pool for a term not to exceed 20 years from the date of purchase, subject to all laws regulating the operation of the utility system, park, or pool in force at the time of the sale or foreclosure.

(2) may be a charge only on the encumbered utility system, park, or pool; and
(3) may not be included in determining the municipality's power to issue public securities for any purpose authorized by law.

For a municipality with a population of more than one million but less than two million, the first lien against the revenue of a municipally owned utility system that secures the payment of public securities issued or
obligations incurred under this chapter also applies to funding, as a necessary operations expense, for a bill payment assistance program for utility system customers who:

(1) have been determined by the municipality to be low-income customers; or

(2) are military veterans who have significantly decreased abilities to regulate their bodies' core temperatures because of severe burns received in combat.

(2) respond to a physical accident or condition that would otherwise impair the original securities.

(c) A contract between a municipality and an issuer, as defined by Section 1201.002, under which the municipality obtains from the issuer or the issuer provides part or all of the facilities or services of a utility system to the municipality may provide that payments made by the municipality from the revenue of the utility system are an operating expense of the municipality's utility system.

5. identify the data and methodology used in performing the analysis required by this section;

6. provide an explanation of whether the proposed rule specifies a single method of compliance, and, if so, explain why the agency determines that a specified method of compliance is preferable to adopting a flexible regulatory approach, such as a performance-oriented, voluntary, or market-based approach;

7. state that there is an opportunity for public comment on the draft impact analysis under Section 2001.029 and that all comments will be addressed in the publication of the final regulatory analysis; and

8. provide information in such a manner that a reasonable person reading the analysis would be able to identify the impacts of the proposed rule.

(d) After considering public comments submitted under Section 2001.029 and determining that a proposed rule should be adopted, the agency shall prepare a final regulatory analysis that complies with Section 2001.033. Additionally, the agency shall find that, compared to the alternative proposals considered and rejected, the rule will result in the best combination of effectiveness in obtaining the desired results and of economic costs not materially greater than the costs of any alternative regulatory method considered.
(e) In preparing the draft impact analysis before publication for comment and the final regulatory analysis for the agency order adopting the rule, the state agency shall consider that the purpose of this requirement is to identify for the public and the regulated community the information that was considered by the agency, the information that the agency determined to be relevant and reliable, and the assumptions and facts on which the agency made its regulatory decision. In making its final regulatory decision, the agency shall assess:

(1) all information submitted to it, whether quantitative or qualitative, consistent with generally accepted scientific standards;

(2) actual data where possible; and

(3) assumptions that reflect actual impacts that the regulation is likely to impose.

(f) A person who submitted public comment in accordance with Section 2001.029 may challenge the validity of a major environmental rule that is not proposed and adopted in accordance with the procedural requirements of this section by filing an action for declaratory judgment under Section 2001.038 not later than the 30th day after the effective date of the rule. If a court determines that a major environmental rule was not proposed and adopted in accordance with the procedural requirements of this section, the rule is invalid.

(g) In this section:

(1) "Benefit" means a reasonably identifiable, significant, direct or indirect, favorable effect, including a quantifiable or nonquantifiable environmental, health, or economic effect, that is expected to result from implementation of a rule.

(2) "Cost" means a reasonably identifiable, significant, direct or indirect, adverse effect, including a quantifiable or nonquantifiable environmental, health, or economic effect, that is expected to result from implementation of a rule.

(3) "Major environmental rule" means a rule the specific intent of which is to protect the environment or reduce risks to human health from environmental exposure and that may adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, or the public health and safety of the state or a sector of the state.

(h) The requirements of this section do not apply to state
agency rules that are proposed or adopted on an emergency basis to protect the environment or to reduce risks to human health from environmental exposure.

Text of subsection effective on September 1, 2023

(d) For purposes of Subsection (c), a summary is written in plain language if it uses language the general public, including individuals with limited English proficiency, can readily understand because the language is concise and well-organized.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.026. NOTICE TO PERSONS REQUESTING ADVANCE NOTICE OF PROPOSED RULES. A state agency shall mail notice of a proposed rule to each person who has made a timely written request of the agency for advance notice of its rulemaking proceedings. Failure to mail the notice does not invalidate an action taken or rule adopted.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.027. WITHDRAWAL OF PROPOSED RULE. A proposed rule is withdrawn six months after the date of publication of notice of the proposed rule in the Texas Register if a state agency has failed by that time to adopt, adopt as amended, or withdraw the proposed rule.

(1) published as required by Section 2001.023; and
(2) mailed to each law enforcement agency that may be affected by the proposed rule.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993. Amended by:

Sec. 2001.029. PUBLIC COMMENT. (a) Before adopting a rule, a state agency shall give all interested persons a reasonable opportunity to submit data, views, or arguments, orally or in writing.

(b) A state agency shall grant an opportunity for a public hearing before it adopts a substantive rule if a public hearing is requested by:

(1) at least 25 persons;
(2) a governmental subdivision or agency; or
(3) an association having at least 25 members.

(c) A state agency shall consider fully all written and oral submissions about a proposed rule.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.030. STATEMENT OF REASONS FOR OR AGAINST ADOPTION. On adoption of a rule, a state agency, if requested to do so by an interested person either before adoption or not later than the 30th day after the date of adoption, shall issue a concise statement of the principal reasons for and against its adoption. The agency shall include in the statement its reasons for overruling the considerations urged against adoption.
Sec. 2001.031. INFORMAL CONFERENCES AND ADVISORY COMMITTEES.  
(a) A state agency may use an informal conference or consultation to obtain the opinions and advice of interested persons about contemplated rulemaking.  
(b) A state agency may appoint committees of experts or interested persons or representatives of the public to advise the agency about contemplated rulemaking.  
(c) The power of a committee appointed under this section is advisory only.

Sec. 2001.032. LEGISLATIVE REVIEW.  
(a) Each house of the legislature by rule shall establish a process under which the presiding officer of each house refers each proposed state agency rule to the appropriate standing committee for review before the rule is adopted.  
(b) On receiving a written request from the lieutenant governor, a member of the legislature, or a legislative agency, the secretary of state shall provide the requestor with electronic notification of rulemaking filings by a state agency under Section 2001.023.  
(c) On the vote of a majority of its members, a standing committee may send to a state agency a statement supporting or opposing adoption of a proposed rule.

Sec. 2001.033. STATE AGENCY ORDER ADOPTING RULE.  
(a) A state agency order finally adopting a rule must include:  
(1) a reasoned justification for the rule as adopted consisting solely of:  
(A) a summary of comments received from parties
interested in the rule that shows the names of interested groups or associations offering comment on the rule and whether they were for or against its adoption;

(B) a summary of the factual basis for the rule as adopted which demonstrates a rational connection between the factual basis for the rule and the rule as adopted; and

(C) the reasons why the agency disagrees with party submissions and proposals;

(2) a concise restatement of the particular statutory provisions under which the rule is adopted and of how the agency interprets the provisions as authorizing or requiring the rule; and

(3) a certification that the rule, as adopted, has been reviewed by legal counsel and found to be a valid exercise of the agency's legal authority.

(b) Nothing in this section shall be construed to require additional analysis of alternatives not adopted by an agency beyond that required by Subdivision (1)(C) or to require the reasoned justification to be stated separately from the statements required in Subdivision (1).

Sec. 2001.034. EMERGENCY RULEMAKING. (a) A state agency may adopt an emergency rule without prior notice or hearing, or with an abbreviated notice and a hearing that it finds practicable, if the agency:

(1) finds that an imminent peril to the public health, safety, or welfare, or a requirement of state or federal law, requires adoption of a rule on fewer than 30 days' notice; and

(2) states in writing the reasons for its finding under Subdivision (1).

(b) A state agency shall set forth in an emergency rule's preamble the finding required by Subsection (a).

(c) A rule adopted under this section may be effective for not longer than 120 days and may be renewed once for not longer than 60 days. An identical rule may be adopted under Sections 2001.023 and 2001.029.

(d) A state agency shall file an emergency rule adopted under
this section and the agency's written reasons for the adoption in the
office of the secretary of state for publication in the Texas
Register in the manner prescribed by Chapter 2002.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.035. SUBSTANTIAL COMPLIANCE REQUIREMENT; TIME LIMIT
ON PROCEDURAL CHALLENGE. (a) A rule is voidable unless a state
agency adopts it in substantial compliance with Sections 2001.0225
through 2001.034.

(b) A person must initiate a proceeding to contest a rule on
the ground of noncompliance with the procedural requirements of
Sections 2001.0225 through 2001.034 not later than the second
anniversary of the effective date of the rule.

(c) A state agency substantially complies with the requirements
of Section 2001.033 if the agency's reasoned justification
demonstrates in a relatively clear and logical fashion that the rule
is a reasonable means to a legitimate objective.

(d) A mere technical defect that does not result in prejudice
to a person's rights or privileges is not grounds for invalidation of
a rule.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.
Amended by Acts 1999, 76th Leg., ch. 558, Sec. 3, eff. Sept. 1, 1999.

Sec. 2001.036. EFFECTIVE DATE OF RULES; EFFECT OF FILING WITH
SECRETARY OF STATE. (a) A rule takes effect 20 days after the date
on which it is filed in the office of the secretary of state, except
that:

(1) if a later date is required by statute or specified in
the rule, the later date is the effective date;

(2) if a state agency finds that an expedited effective
date is necessary because of imminent peril to the public health,
safety, or welfare, and subject to applicable constitutional or
statutory provisions, a rule is effective immediately on filing with
the secretary of state, or on a stated date less than 20 days after
the filing date; and

(3) if a federal statute or regulation requires that a
state agency implement a rule by a certain date, the rule is
effective on the prescribed date.

(b) A state agency shall file with its rule the finding described by Subsection (a)(2), if applicable, and a brief statement of the reasons for the finding. The agency shall take appropriate measures to make emergency rules known to persons who may be affected by them.

(c) A rule adopted as provided by Subsection (a)(3) shall be filed in the office of the secretary of state and published in the Texas Register.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.037. OFFICIAL TEXT OF RULE. If a conflict exists, the official text of a rule is the text on file with the secretary of state and not the text published in the Texas Register or on file with the issuing state agency.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 1045, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 2001.038. DECLARATORY JUDGMENT. (a) The validity or applicability of a rule, including an emergency rule adopted under Section 2001.034, may be determined in an action for declaratory judgment if it is alleged that the rule or its threatened application interferes with or impairs, or threatens to interfere with or impair, a legal right or privilege of the plaintiff.

(b) The action may be brought only in a Travis County district court.

(c) The state agency must be made a party to the action.

(d) A court may render a declaratory judgment without regard to whether the plaintiff requested the state agency to rule on the validity or applicability of the rule in question.

(e) An action brought under this section may not be used to delay or stay a hearing in which a suspension, revocation, or cancellation of a license by a state agency is at issue before the
agency after notice of the hearing has been given.

(f) A Travis County district court in which an action is brought under this section, on its own motion or the motion of any party, may request transfer of the action to the Court of Appeals for the Third Court of Appeals District if the district court finds that the public interest requires a prompt, authoritative determination of the validity or applicability of the rule in question and the case would ordinarily be appealed. After filing of the district court's request with the court of appeals, transfer of the action may be granted by the court of appeals if it agrees with the findings of the district court concerning the application of the statutory standards to the action. On entry of an order by the court of appeals granting transfer, the action is transferred to the court of appeals for decision, and the validity or applicability of the rule in question is subject to judicial review by the court of appeals. The administrative record and the district court record shall be filed by the district clerk with the clerk of the court of appeals. The court of appeals may direct the district court to conduct any necessary evidentiary hearings in connection with the action.

Sec. 2001.039. AGENCY REVIEW OF EXISTING RULES. (a) A state agency shall review and consider for readoption each of its rules in accordance with this section.

(b) A state agency shall review a rule not later than the fourth anniversary of the date on which the rule takes effect and every four years after that date. The adoption of an amendment to an existing rule does not affect the dates on which the rule must be reviewed except that the effective date of an amendment is considered to be the effective date of the rule if the agency formally conducts a review of the rule in accordance with this section as part of the process of adopting the amendment.

(c) The state agency shall readopt, readopt with amendments, or repeal a rule as the result of reviewing the rule under this section.

(d) The procedures of this subchapter relating to the original adoption of a rule apply to the review of a rule and to the resulting repeal, readoption, or readoption with amendments of the rule, except
as provided by this subsection. Publishing the Texas Administrative Code citation to a rule under review satisfies the requirements of this subchapter relating to publishing the text of the rule unless the agency readopts the rule with amendments as a result of the review.

(e) A state agency's review of a rule must include an assessment of whether the reasons for initially adopting the rule continue to exist.

Added by Acts 1999, 76th Leg., ch. 1499, Sec. 1.11(a), eff. Sept. 1, 1999.

Sec. 2001.040. SCOPE AND EFFECT OF ORDER INVALIDATING AGENCY RULE. If a court finds that an agency has not substantially complied with one or more procedural requirements of Sections 2001.0225 through 2001.034, the court may remand the rule, or a portion of the rule, to the agency and, if it does so remand, shall provide a reasonable time for the agency to either revise or readopt the rule through established procedure. During the remand period, the rule shall remain effective unless the court finds good cause to invalidate the rule or a portion of the rule, effective as of the date of the court's order.

Sec. 2001.041. COMPLIANCE WITH LAW ON DECENTRALIZATION. A state agency rule, order, or guide relating to decentralization of agency services or programs must include a statement of the manner in which the agency complied with Section 391.0091, Local Government Code.

SUBCHAPTER C. CONTESTED CASES: GENERAL RIGHTS AND PROCEDURES
Sec. 2001.051. OPPORTUNITY FOR HEARING AND PARTICIPATION; NOTICE OF HEARING. In a contested case, each party is entitled to an
opportunity:

(1) for hearing after reasonable notice of not less than 10 days; and

(2) to respond and to present evidence and argument on each issue involved in the case.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.052. CONTENTS OF NOTICE. (a) Notice of a hearing in a contested case must include:

(1) a statement of the time, place, and nature of the hearing;

(2) a statement of the legal authority and jurisdiction under which the hearing is to be held;

(3) a reference to the particular sections of the statutes and rules involved; and

(4) either:

(A) a short, plain statement of the factual matters asserted; or

(B) an attachment that incorporates by reference the factual matters asserted in the complaint or petition filed with the state agency.

(b) If a state agency or other party is unable to state factual matters in detail at the time notice under this section is served, an initial notice may be limited to a statement of the issues involved. On timely written application, a more definite and detailed statement of the facts shall be furnished not less than seven days before the date set for the hearing. In a proceeding in which the state agency has the burden of proof, a state agency that intends to rely on a section of a statute or rule not previously referenced in the notice of hearing must amend the notice, or the complaint or petition, if applicable, to refer to the section of the statute or rule not later than the seventh day before the date set for the hearing. This subsection does not prohibit the state agency from filing an amendment during the hearing of a contested case provided the opposing party is granted a continuance of at least seven days to prepare its case on request of the opposing party.

(c) In a suit for judicial review of a final decision or order of a state agency in a contested case, the state agency's failure to
comply with Subsection (a)(3) or (b) shall constitute prejudice to the substantial rights of the appellant under Section 2001.174(2) unless the court finds that the failure did not unfairly surprise and prejudice the appellant or that the appellant waived the appellant's rights.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993. Amended by:
- Acts 2015, 84th Leg., R.S., Ch. 625 (S.B. 1267), Sec. 1, eff. September 1, 2015.
- Acts 2017, 85th Leg., R.S., Ch. 430 (S.B. 1446), Sec. 1, eff. September 1, 2017.

Sec. 2001.053. RIGHT TO COUNSEL. (a) Each party to a contested case is entitled to the assistance of counsel before a state agency.

(b) A party may expressly waive the right to assistance of counsel.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.054. LICENSES. (a) The provisions of this chapter concerning contested cases apply to the grant, denial, or renewal of a license that is required to be preceded by notice and opportunity for hearing.

(b) If a license holder makes timely and sufficient application for the renewal of a license or for a new license for an activity of a continuing nature, the existing license does not expire until the application has been finally determined by the state agency. If the application is denied or the terms of the new license are limited, the existing license does not expire until the last day for seeking review of the agency order or a later date fixed by order of the reviewing court.

(c) A revocation, suspension, annulment, or withdrawal of a license is not effective unless, before institution of state agency proceedings:

(1) the agency gives notice by personal service or by registered or certified mail to the license holder of facts or conduct alleged to warrant the intended action; and
(2) the license holder is given an opportunity to show compliance with all requirements of law for the retention of the license.

(c-1) A state agency that has been granted the power to summarily suspend a license under another statute may determine that an imminent peril to the public health, safety, or welfare requires emergency action and may issue an order to summarily suspend the license holder's license pending proceedings for revocation or other action, provided that the agency incorporates a factual and legal basis establishing that imminent peril in the order. Unless expressly provided otherwise by another statute, the agency shall initiate the proceedings for revocation or other action not later than the 30th day after the date the summary suspension order is signed. The proceedings must be promptly determined, and if the proceedings are not initiated before the 30th day after the date the order is signed, the license holder may appeal the summary suspension order to a Travis County district court. This subsection does not grant any state agency the power to suspend a license without notice and an opportunity for a hearing.

(d) A license described in Subsection (a) remains valid unless it expires without timely application for renewal, is amended, revoked, suspended, annulled, or withdrawn, or the denial of a renewal application becomes final. The term or duration of a license described in Subsection (a) is tolled during the period the license is subjected to judicial review. However, the term or duration of a license is not tolled if, during judicial review, the licensee engages in the activity for which the license was issued.

(e) In a suit for judicial review of a final decision or order of a state agency brought by a license holder, the agency's failure to comply with Subsection (c) shall constitute prejudice to the substantial rights of the license holder under Section 2001.174(2) unless the court determines that the failure did not unfairly surprise and prejudice the license holder or that the license holder waived the opportunity provided in Subsection (c)(2) to show compliance with all requirements of law for the retention of the license.

Sec. 2001.055. INTERPRETERS FOR DEAF OR HEARING IMPAIRED PARTIES AND WITNESSES. (a) In a contested case, a state agency shall provide an interpreter whose qualifications are approved by the Texas Commission for the Deaf and Hard of Hearing to interpret the proceedings for a party or subpoenaed witness who is deaf or hearing impaired.

(b) In this section, "deaf or hearing impaired" means having a hearing impairment, whether or not accompanied by a speech impairment, that inhibits comprehension of the proceedings or communication with others.

Sec. 2001.056. INFORMAL DISPOSITION OF CONTESTED CASE. Unless precluded by law, an informal disposition may be made of a contested case by:

(1) stipulation;
(2) agreed settlement;
(3) consent order; or
(4) default.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.057. CONTINUANCES. (a) A state agency may continue a hearing in a contested case from time to time and from place to place.

(b) The notice of the hearing must indicate the times and places at which the hearing may be continued.

(c) If a hearing is not concluded on the day it begins, a state agency shall, to the extent possible, proceed with the hearing on each subsequent working day until the hearing is concluded.
Sec. 2001.058. HEARING CONDUCTED BY STATE OFFICE OF ADMINISTRATIVE HEARINGS. (a) This section applies only to an administrative law judge employed by the State Office of Administrative Hearings.

(b) An administrative law judge who conducts a contested case hearing shall consider applicable agency rules or policies in conducting the hearing, but the state agency deciding the case may not supervise the administrative law judge.

(c) A state agency shall provide the administrative law judge with a written statement of applicable rules or policies.

(d) A state agency may not attempt to influence the finding of facts or the administrative law judge's application of the law in a contested case except by proper evidence and legal argument.

(d-1) On making a finding that a party to a contested case has defaulted under the rules of the State Office of Administrative Hearings, the administrative law judge may dismiss the case from the docket of the State Office of Administrative Hearings and remand it to the referring agency for informal disposition under Section 2001.056. After the case is dismissed and remanded, the agency may informally dispose of the case by applying its own rules or the procedural rules of the State Office of Administrative Hearings relating to default proceedings. This subsection does not apply to a contested case in which the administrative law judge is authorized to render a final decision.

(e) A state agency may change a finding of fact or conclusion of law made by the administrative law judge, or may vacate or modify an order issued by the administrative judge, only if the agency determines:

(1) that the administrative law judge did not properly apply or interpret applicable law, agency rules, written policies provided under Subsection (c), or prior administrative decisions;

(2) that a prior administrative decision on which the administrative law judge relied is incorrect or should be changed; or

(3) that a technical error in a finding of fact should be changed.

The agency shall state in writing the specific reason and legal
basis for a change made under this subsection.

(e-1) Notwithstanding Subsection (e), a state agency may not vacate or modify an order of an administrative law judge that awards attorney's fees and costs under Section 2001.903.

(f) A state agency by rule may provide that, in a contested case before the agency that concerns licensing in relation to an occupational license and that is not disposed of by stipulation, agreed settlement, or consent order, the administrative law judge shall render the final decision in the contested case. If a state agency adopts such a rule, the following provisions apply to contested cases covered by the rule:

(1) the administrative law judge shall render the decision that may become final under Section 2001.144 not later than the 60th day after the latter of the date on which the hearing is finally closed or the date by which the judge has ordered all briefs, reply briefs, and other posthearing documents to be filed, and the 60-day period may be extended only with the consent of all parties, including the occupational licensing agency;

(2) the administrative law judge shall include in the findings of fact and conclusions of law a determination whether the license at issue is primarily a license to engage in an occupation;

(3) the State Office of Administrative Hearings is the state agency with which a motion for rehearing or a reply to a motion for rehearing is filed under Section 2001.146 and is the state agency that acts on the motion or extends a time period under Section 2001.146;

(4) the State Office of Administrative Hearings is the state agency responsible for sending a copy of the decision that may become final under Section 2001.144 or an order ruling on a motion for rehearing to the parties, including the occupational licensing agency, in accordance with Section 2001.142; and

(5) the occupational licensing agency and any other party to the contested case is entitled to obtain judicial review of the final decision in accordance with this chapter.

Sec. 2001.059. TRANSCRIPT. (a) On the written request of a party to a contested case, proceedings, or any part of the proceedings, shall be transcribed.
(b) A state agency may pay the cost of a transcript or may assess the cost to one or more parties.
(c) This chapter does not limit a state agency to a stenographic record of proceedings.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.060. RECORD. The record in a contested case includes:
(1) each pleading, motion, and intermediate ruling;
(2) evidence received or considered;
(3) a statement of matters officially noticed;
(4) questions and offers of proof, objections, and rulings on them;
(5) proposed findings and exceptions;
(6) each decision, opinion, or report by the officer presiding at the hearing; and

Sec. 2001.146. MOTIONS FOR REHEARING: PROCEDURES. (a) A motion for rehearing in a contested case must be filed by a party not later than the 25th day after the date the decision or order that is the subject of the motion is signed, unless the time for filing the motion for rehearing has been extended under Section 2001.142, by an agreement under Section 2001.147, or by a written state agency order issued under Subsection (e). 4. another suitable means of communication.

(e) A state agency or a person authorized to act for the agency may, on its own initiative or on the motion of any party for cause shown, by written order extend the time for filing a motion or reply or taking agency action under this section, provided that the agency or person extends the time or takes the action not later than the 10th day after the date the period for filing a motion or reply or taking agency action expires. An extension may not extend the period for agency action beyond the 100th day after the date the decision or order that is the subject of the motion is signed.
(f) In the event of an extension, a motion for rehearing is overruled by operation of law on the date fixed by the order or, in the absence of a fixed date, the 100th day after the date the decision or order that is the subject of the motion is signed.

(g) A motion for rehearing must identify with particularity findings of fact or conclusions of law that are the subject of the complaint and any evidentiary or legal ruling claimed to be erroneous. The motion must also state the legal and factual basis for the claimed error.

(h) A subsequent motion for rehearing is not required after a state agency rules on a motion for rehearing unless the order disposing of the original motion for rehearing:

(1) modifies, corrects, or reforms in any respect the decision or order that is the subject of the complaint, other than a typographical, grammatical, or other clerical change identified as such by the agency in the order, including any modification, correction, or reformation that does not change the outcome of the contested case; or

SUBCHAPTER G. CONTESTED CASES: JUDICIAL REVIEW

Sec. 2001.171. JUDICIAL REVIEW. A person who has exhausted all administrative remedies available within a state agency and who is aggrieved by a final decision in a contested case is entitled to judicial review under this chapter.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.172. SCOPE OF JUDICIAL REVIEW. The scope of judicial review of a state agency decision in a contested case is as provided by the law under which review is sought.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.173. TRIAL DE NOVO REVIEW. (a) If the manner of review authorized by law for the decision in a contested case that is the subject of complaint is by trial de novo, the reviewing court shall try each issue of fact and law in the manner that applies to other civil suits in this state as though there had not been an intervening agency action or decision but may not admit in evidence the fact of prior state agency action or the nature of that action except to the limited extent necessary to show compliance with statutory provisions that vest jurisdiction in the court.

(b) On demand, a party to a trial de novo review may have a jury determination of each issue of fact on which a jury determination could be obtained in other civil suits in this state.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.174. REVIEW UNDER SUBSTANTIAL EVIDENCE RULE OR UNDEFINED SCOPE OF REVIEW. If the law authorizes review of a decision in a contested case under the substantial evidence rule or if the law does not define the scope of judicial review, a court may not substitute its judgment for the judgment of the state agency on the weight of the evidence on questions committed to agency discretion but:

(1) may affirm the agency decision in whole or in part; and
(2) shall reverse or remand the case for further proceedings if substantial rights of the appellant have been prejudiced because the administrative findings, inferences, conclusions, or decisions are:

(A) in violation of a constitutional or statutory provision;

(B) in excess of the agency's statutory authority;

(C) made through unlawful procedure;

(D) affected by other error of law;

(E) not reasonably supported by substantial evidence considering the reliable and probative evidence in the record as a whole; or

(F) arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.175. PROCEDURES FOR REVIEW UNDER SUBSTANTIAL EVIDENCE RULE OR UNDEFINED SCOPE OF REVIEW. (a) The procedures of this section apply if the manner of review authorized by law for the decision in a contested case that is the subject of complaint is other than by trial de novo.

(b) After service of the petition on a state agency and within the time permitted for filing an answer or within additional time allowed by the court, the agency shall send to the reviewing court the original or a certified copy of the entire record of the proceeding under review. The record shall be filed with the clerk of the court. The record may be shortened by stipulation of all parties to the review proceedings. The court may assess additional costs against a party who unreasonably refuses to stipulate to limit the record, unless the party is subject to a rule adopted under Section 2001.177 requiring payment of all costs of record preparation. The court may require or permit later corrections or additions to the record.

(c) A party may apply to the court to present additional evidence. If the court is satisfied that the additional evidence is material and that there were good reasons for the failure to present it in the proceeding before the state agency, the court may order that the additional evidence be taken before the agency on conditions...
determined by the court. The agency may change its findings and
decision by reason of the additional evidence and shall file the
additional evidence and any changes, new findings, or decisions with
the reviewing court.

(d) The party seeking judicial review shall offer, and the
reviewing court shall admit, the state agency record into evidence as
an exhibit.

(e) A court shall conduct the review sitting without a jury and
is confined to the agency record, except that the court may receive
evidence of procedural irregularities alleged to have occurred before
the agency that are not reflected in the record.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Subject to veto by the governor, the following section was amended by
the 88th Legislature. Pending publication of the current statutes,
see S.B. 1045, 88th Legislature, Regular Session, for amendments
affecting the following section.

Sec. 2001.176. PETITION INITIATING JUDICIAL REVIEW. (a) A
person initiates judicial review in a contested case by filing a
petition not later than the 30th day after the date the decision or
order that is the subject of complaint is final and appealable. In a
contested case in which a motion for rehearing is a prerequisite for
seeking judicial review, a prematurely filed petition is effective to
initiate judicial review and is considered to be filed:

(1) on the date the last timely motion for rehearing is
overruled; and

(2) after the motion is overruled.

(b) Unless otherwise provided by statute:

(1) the petition must be filed in a Travis County district
court;

(2) a copy of the petition must be served on the state
agency and each party of record in the proceedings before the agency;
and

(3) the filing of the petition vacates a state agency
decision for which trial de novo is the manner of review authorized
by law but does not affect the enforcement of an agency decision for
which another manner of review is authorized.

(c) A Travis County district court in which an action is
brought under this section, on its own motion or on motion of any party, may request transfer of the action to the Court of Appeals for the Third Court of Appeals District if the district court finds that the public interest requires a prompt, authoritative determination of the legal issues in the case and the case would ordinarily be appealed. After filing of the district court's request with the court of appeals, transfer of the action may be granted by the court of appeals if it agrees with the findings of the district court concerning the application of the statutory standards to the action. On entry of an order by the court of appeals granting transfer, the action is transferred to the court of appeals for decision, and the agency decision in the contested case is subject to judicial review by the court of appeals. The administrative record and the district court record shall be filed by the district clerk with the clerk of the court of appeals. The court of appeals may direct the district court to conduct any necessary evidentiary hearings in connection with the action.

(a) A state agency by rule may require a party who appeals a final decision in a contested case to pay all or a part of the cost of preparation of the original or a certified copy of the record of the agency proceeding that is required to be sent to the reviewing court.

(b) A charge imposed under this section is a court cost and may be assessed by the court in accordance with the Texas Rules of Civil Procedure.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2001.1775. MODIFICATION OF AGENCY FINDINGS OR DECISION. Except as provided by Section 2001.175(c), an agency may not modify its findings or decision in a contested case after proceedings for judicial review of the case have been instituted under Section
2001.176 and during the time that the case is under judicial review.

office during any of the three most recent state fiscal years for which complete information about the agency's hourly usage is available and the costs to the office of conducting hearings and alternative dispute resolution procedures for the state agency are not to be paid by appropriations to the office during a state fiscal biennium, the office and the agency shall enter into an interagency contract for the biennium under which the referring agency pays the office either a lump-sum amount at the start of each fiscal year of the biennium or a fixed amount at the start of each fiscal quarter of the biennium for all services provided to the agency during the fiscal year. The office shall report to the Legislative Budget Board any agency that fails to make a timely payment under the contract. The lump-sum or quarterly amount paid to the office under the contract must be based on:

(1) an hourly rate that is set by the office:
   (A) in an amount that sufficiently covers the office's full costs in providing services to the agency, including costs for items listed in Subsection (c)(2); and
   (B) in time for the rate to be reviewed by the legislature, as part of the legislature's review of the office's legislative appropriations request for the biennium, in determining the office's legislative appropriations for the biennium; and

The office shall estimate an agency's anticipated hourly usage by evaluating:

(1) the number of hours spent by the office conducting hearings or alternative dispute resolution procedures for the state agency during the three most recent state fiscal years for which complete information about the agency's hourly usage is available; and

(2) any other relevant information, including information provided to the office by the state agency, that suggests an anticipated increase or decrease in the agency's hourly usage of the
office's services during the state fiscal biennium, as compared to past usage.

(a-2) The office, for a contract entered into as provided by Subsection (a) under which a quarterly amount is paid by the referring agency to the office, shall:

(1) track the agency's actual hourly usage of the office's services during each fiscal quarter; and

(2) forecast, after each fiscal quarter, the agency's anticipated hourly usage for the rest of the fiscal year.

(a-3) If a state agency did not refer matters to the office during any of the three state fiscal years preceding a state fiscal biennium for which complete information about the agency's hourly usage would have been available and did not provide information to the office sufficient for the office to reasonably and timely estimate anticipated usage and enter into a contract with the agency before the start of the state fiscal biennium, and the costs to the office of conducting hearings and alternative dispute resolution procedures for the state agency are not paid by appropriations to the office for the state fiscal biennium, the referring agency shall pay the office the costs of conducting hearings or procedures for the agency based on the hourly rate that is set by the office under Subsection (a) and on the agency's actual usage of the office's services.

(b) If the costs to the office of conducting hearings and alternative dispute resolution procedures for a state agency that refers matters to the office are anticipated to be paid by a lump-sum appropriation to the office for a state fiscal biennium, the office shall timely provide to the legislature the information described by Subsection (c).

(c) Each state fiscal biennium, the office as part of its legislative appropriation request shall file:

(1) information, as estimated under Subsection (a-1), related to the anticipated hourly usage of each state agency that refers matters to the office for which the costs of hearings and alternative dispute resolution procedures are anticipated to be paid by appropriations to the office; and

(2) an estimate of its hourly costs in conducting each type of hearing or dispute resolution procedure based on the average cost per hour during the preceding state fiscal year of:

(A) the salaries of its administrative law judges;
(B) the travel expenses, hearing costs, and telephone charges directly related to the conduct of a hearing or procedure; and

(C) the administrative costs of the office, including docketing costs.

(d) This section does not apply to hearings conducted under the administrative license revocation program.

(10) alternative dispute resolution methods; and
(11) other areas that the office considers to be relevant to the work of an administrative law judge.

(b) The office shall provide continuing legal education and advanced judicial training for other administrative law judges employed by the office to the extent that money is available for this purpose.

(c) Subsection (a) does not apply to a temporary administrative law judge.

Sec. 2003.046. CENTRAL HEARINGS PANEL. (a) A central hearings panel in the office is composed of administrative law judges and senior or master administrative law judges assigned to the panel by the chief administrative law judge.

(b) The chief administrative law judge may create teams or divisions within the central panel, including an administrative license revocation division, according to the subject matter or types of hearings conducted by the central panel.

Sec. 2003.047. HEARINGS FOR TEXAS COMMISSION ON ENVIRONMENTAL QUALITY. (a) The office shall perform contested case hearings for the Texas Commission on Environmental Quality.

(b) The office shall conduct hearings relating to contested cases before the commission, other than a hearing conducted by one or more commissioners. The commission by rule may delegate to the office the responsibility to hear any other matter before the commission if consistent with the responsibilities of the office.

(c) The office may contract with qualified individuals to serve as temporary administrative law judges as necessary.

(d) To be eligible to preside at a hearing on behalf of the commission, an administrative law judge, regardless of temporary or permanent status, must be licensed to practice law in this state and have the expertise necessary to conduct hearings regarding technical or other specialized subjects that may come before the commission.

(e) In referring a matter for hearing, the commission shall provide to the administrative law judge a list of disputed issues. The commission shall specify the date by which the administrative law judge is expected to complete the proceeding and provide a proposal for decision to the commission. The administrative law judge may extend the proceeding if the administrative law judge determines that failure to grant an extension would deprive a party of due process or another constitutional right. The administrative law judge shall establish a docket control order designed to complete the proceeding by the date specified by the commission.

(e-1) This subsection applies only to a matter referred under Section 5.556, Water Code. Each issue referred by the commission
must have been raised by an affected person in a comment submitted by that affected person in response to a permit application in a timely manner. The list of issues submitted under Subsection (e) must:

1. be detailed and complete; and
2. contain either:
   (A) only factual questions; or
   (B) mixed questions of fact and law.

(e-2) For a matter referred under Section 5.556 or 5.557, Water Code, the administrative law judge must complete the proceeding and provide a proposal for decision to the commission not later than the earlier of:

1. the 180th day after the date of the preliminary hearing; or
2. the date specified by the commission.

(e-3) The deadline specified by Subsection (e-2) or (e-6), as applicable, may be extended:

1. by agreement of the parties with the approval of the administrative law judge; or
2. by the administrative law judge if the judge determines that failure to extend the deadline would unduly deprive a party of due process or another constitutional right.

(e-4) For the purposes of Subsection (e-3)(2), a political subdivision has the same constitutional rights as an individual.

(e-5) This subsection applies only to a matter referred under Section 5.557, Water Code. The administrative law judge may not hold a preliminary hearing until after the executive director has issued a response to public comments under Section 5.555, Water Code.

(e-6) For a matter pertaining to an application described by Section 11.122(b-1), Water Code, the administrative law judge must complete the proceeding and provide a proposal for decision to the commission not later than the 270th day after the date the matter was referred to the office.

(f) Except as otherwise provided by this subsection, the scope of the hearing is limited to the issues referred by the commission. On the request of a party, the administrative law judge may consider an issue that was not referred by the commission if the administrative law judge determines that:

1. the issue is material;
2. the issue is supported by evidence; and
3. there are good reasons for the failure to supply
available information regarding the issue during the public comment period.

(g) The scope of permissible discovery is limited to:
   (1) any matter reasonably calculated to lead to the discovery of admissible evidence regarding any issue referred to the administrative law judge by the commission or that the administrative law judge has agreed to consider; and
   (2) the production of documents:
      (A) reviewed or relied on in preparing application materials or selecting the site of the proposed facility; or
      (B) relating to the ownership of the applicant or the owner or operator of the facility or proposed facility.

(h) The commission by rule shall:
   (1) provide for subpoenas and commissions for depositions; and
   (2) require that discovery be conducted in accordance with the Texas Rules of Civil Procedure, except that the commission by rule shall determine the level of discovery under Rule 190, Texas Rules of Civil Procedure, appropriate for each type of case considered by the commission, taking into account the nature and complexity of the case.

(i) The office and the commission jointly shall adopt rules providing for certification to the commission of an issue that involves an ultimate finding of compliance with or satisfaction of a statutory standard the determination of which is committed to the discretion or judgment of the commission by law. The rules must address, at a minimum, the issues that are appropriate for certification and the procedure to be used in certifying the issue. Each agency shall publish the jointly adopted rules.

(i-1) In a contested case regarding a permit application referred under Section 5.556 or 5.557, Water Code, the filing with the office of the application, the draft permit prepared by the executive director of the commission, the preliminary decision issued by the executive director, and other sufficient supporting documentation in the administrative record of the permit application establishes a prima facie demonstration that:
   (1) the draft permit meets all state and federal legal and technical requirements; and
   (2) a permit, if issued consistent with the draft permit, would protect human health and safety, the environment, and physical
property.

(i-2) A party may rebut a demonstration under Subsection (i-1) by presenting evidence that:

(1) relates to a matter referred under Section 5.557, Water Code, or an issue included in a list submitted under Subsection (e) in connection with a matter referred under Section 5.556, Water Code; and

(2) demonstrates that one or more provisions in the draft permit violate a specifically applicable state or federal requirement.

(i-3) If in accordance with Subsection (i-2) a party rebuts a presumption established under Subsection (i-1), the applicant and the executive director may present additional evidence to support the draft permit.

(j) An administrative law judge hearing a case on behalf of the commission, on the judge's own motion or on motion of a party and after notice and an opportunity for a hearing, may impose appropriate sanctions as provided by Subsection (k) against a party or its representative for:

(1) filing a motion or pleading that is groundless and brought:

   (A) in bad faith;
   (B) for the purpose of harassment; or
   (C) for any other improper purpose, such as to cause unnecessary delay or needless increase in the cost of the proceeding;

(2) abuse of the discovery process in seeking, making, or resisting discovery; or

(3) failure to obey an order of the administrative law judge or the commission.

(k) A sanction imposed under Subsection (j) may include, as appropriate and justified, issuance of an order:

(1) disallowing further discovery of any kind or of a particular kind by the offending party;

(2) charging all or any part of the expenses of discovery against the offending party or its representatives;

(3) holding that designated facts be considered admitted for purposes of the proceeding;

(4) refusing to allow the offending party to support or oppose a designated claim or defense or prohibiting the party from introducing designated matters in evidence;
(5) disallowing in whole or in part requests for relief by the offending party and excluding evidence in support of those requests; and

(6) striking pleadings or testimony, or both, in whole or in part.

(1) After hearing evidence and receiving legal argument, an administrative law judge shall make findings of fact, conclusions of law, and any ultimate findings required by statute, all of which shall be separately stated. The administrative law judge shall make a proposal for decision to the commission and shall serve the proposal for decision on all parties. An opportunity shall be given to each party to file exceptions to the proposal for decision and briefs related to the issues addressed in the proposal for decision. The commission shall consider and act on the proposal for decision.

(m) Except as provided in Section 361.0832, Health and Safety Code, the commission shall consider the proposal for decision prepared by the administrative law judge, the exceptions of the parties, and the briefs and argument of the parties. The commission may amend the proposal for decision, including any finding of fact, but any such amendment thereto and order shall be based solely on the record made before the administrative law judge. Any such amendment by the commission shall be accompanied by an explanation of the basis of the amendment. The commission may also refer the matter back to the administrative law judge to reconsider any findings and conclusions set forth in the proposal for decision or take additional evidence or to make additional findings of fact or conclusions of law. The commission shall serve a copy of the commission's order, including its finding of facts and conclusions of law, on each party.

(n) The provisions of Chapter 2001 shall apply to contested case hearings for the commission to the extent not inconsistent with this section.

(o) An administrative law judge hearing a case on behalf of the commission may not, without the agreement of all parties, issue an order referring the case to an alternative dispute resolution procedure if the commission has already conducted an unsuccessful alternative dispute resolution procedure. If the commission has not already conducted an alternative dispute resolution procedure, the administrative law judge shall consider the commission's recommendation in determining whether to issue an order referring the case to the procedure.
Sec. 2003.049. UTILITY HEARINGS. (a) The office shall perform contested case hearings for the Public Utility Commission of Texas as prescribed by the Public Utility Regulatory Act of 1995 and other applicable law.

(b) The office shall conduct hearings relating to contested cases before the commission, other than a hearing conducted by one or more commissioners. The commission by rule may delegate the responsibility to hear any other matter before the commission if consistent with the duties and responsibilities of the office.

(c) The office may contract with qualified individuals to serve as temporary administrative law judges as necessary.

(d) To be eligible to preside at a hearing, an administrative law judge, regardless of temporary or permanent status, must be licensed to practice law in this state and have not less than five years of general experience or three years of experience in utility regulatory law.

(e) At the time the office receives jurisdiction of a proceeding, the commission shall provide to the administrative law judge a list of issues or areas that must be addressed. In addition, the commission may identify and provide to the administrative law judge at any time additional issues or areas that must be addressed.

(f) The office and the commission shall jointly adopt rules providing for certification to the commission of an issue that involves an ultimate finding of compliance with or satisfaction of a
statutory standard the determination of which is committed to the
discretion or judgment of the commission by law. The rules must
address, at a minimum, the issues that are appropriate for
certification and the procedure to be used in certifying the issue.
Each agency shall publish the jointly adopted rules.

(g) Notwithstanding Section 2001.058, the commission may change
a finding of fact or conclusion of law made by the administrative law
judge or vacate or modify an order issued by the administrative law
judge only if the commission:

(1) determines that the administrative law judge:
   (A) did not properly apply or interpret applicable law,
       commission rules or policies, or prior administrative decisions; or
   (B) issued a finding of fact that is not supported by a
       preponderance of the evidence; or

(2) determines that a commission policy or a prior
    administrative decision on which the administrative law judge relied
    is incorrect or should be changed.

(h) The commission shall state in writing the specific reason
    and legal basis for its determination under Subsection (g).

(i) An administrative law judge, on the judge's own motion or
    on motion of a party and after notice and an opportunity for a
    hearing, may impose appropriate sanctions as provided by Subsection
    (j) against a party or its representative for:

(1) filing a motion or pleading that is groundless and
    brought:

   (A) in bad faith;

   (C) for any other improper purpose, such as to cause
       unnecessary delay or needless increase in the cost of the proceeding;

(2) abuse of the discovery process in seeking, making, or
    resisting discovery; or

(3) failure to obey an order of the administrative law
    judge or the commission.

    appropriate and justified, issuance of an order:

(1) disallowing further discovery of any kind or of a
    particular kind by the offending party;

(2) charging all or any part of the expenses of discovery
    against the offending party or its representative;

(3) holding that designated facts be deemed admitted for
purposes of the proceeding;

(4) refusing to allow the offending party to support or oppose a designated claim or defense or prohibiting the party from introducing designated matters in evidence;

(5) disallowing in whole or in part requests for relief by the offending party and excluding evidence in support of such requests;

(6) punishing the offending party or its representative for contempt to the same extent as a district court;

(7) requiring the offending party or its representative to pay, at the time ordered by the administrative law judge, the reasonable expenses, including attorney's fees, incurred by other parties because of the sanctionable behavior; and

(8) striking pleadings or testimony, or both, in whole or in part, or staying further proceedings until the order is obeyed.

The state agency may exercise its advocacy rights in the matter before the office in the same manner as any other party.

(b) Chapter 2001 and the Texas Rules of Evidence do not apply to a hearing under this subchapter. Prehearing discovery is limited to the exchange of documents the parties will rely on during the

(c) Any relevant evidence is admissible, subject to the imposition of reasonable time limits and the parties' compliance with reasonable procedural requirements imposed by the administrative law judge, including a schedule for the prehearing exchange of documents to be relied on.

(b) The determination:
(1) must include a determination of the appraised or market value, as applicable, of the property that is the subject of the appeal;

(2) must contain a brief analysis of the administrative law judge's rationale for and set out the key findings in support of the determination but is not required to contain a detailed discussion of the evidence admitted or the contentions of the parties;

(3) may include any remedy or relief a court may order under Chapter 42, Tax Code, in an appeal relating to the appraised or market value of property, including an award of attorney's fees under Section 42.29, Tax Code; and

(4) shall specify whether the appraisal district or the property owner is required to pay the costs of the hearing and the amount of those costs.

(c) If the administrative law judge determines that the appraised or market value, as applicable, of the property that is the subject of the appeal is nearer to the property owner's opinion of the appraised or market value, as applicable, of the property as stated in the request for the hearing submitted by the property owner than the value determined by the appraisal review board:

(1) the office, on receipt of a copy of the determination, shall refund the property owner's filing fee;

(2) the appraisal district, on receipt of a copy of the determination, shall pay the costs of the appeal as specified in the determination; and

(3) the chief appraiser shall correct the appraised or market value, as applicable, of the property as shown in the appraisal roll to reflect the administrative law judge's determination.

(d) If the administrative law judge determines that the appraised or market value, as applicable, of the property that is the subject of the appeal is not nearer to the property owner's opinion of the appraised or market value, as applicable, of the property as stated in the property owner's request for a hearing than the value determined by the appraisal review board:

(1) the office, on receipt of a copy of the determination, shall retain the property owner's filing fee;

(2) the chief appraiser shall correct the appraised or market value, as applicable, of the property as shown in the appraisal roll to reflect the administrative law judge's
determination if the value as determined by the administrative law judge is less than the value as determined by the appraisal review board; and

(3) the property owner shall pay the difference between the costs of the appeal as specified in the determination and the property owner's filing fee.

(e) Notwithstanding Subsection (a), the office by rule may implement a process under which:

(1) the administrative law judge issues a proposal for determination to the parties;
(2) the parties are given a reasonable period in which to make written objections to the proposal; and

Sec. 2003.913. PAYMENT OF TAXES PENDING APPEAL. (a) The pendency of an appeal to the office does not affect the delinquency date for the taxes on the property subject to the appeal. A property owner who appeals an appraisal review board order to the office shall pay taxes on the property subject to the appeal in an amount equal to the amount of taxes due on the portion of the taxable value of the property that is not in dispute. If the final determination of the appeal decreases the property owner's tax liability to an amount less than the amount of taxes paid, each taxing unit shall refund to the property owner the difference between the amount of taxes paid and the amount of taxes for which the property owner is liable.

(b) A property owner may not appeal to the office if the taxes on the property subject to the appeal are delinquent. An administrative law judge who determines that the taxes on the property subject to an appeal are delinquent shall dismiss the pending appeal with prejudice. If an appeal is dismissed under this subsection, the office shall retain the property owner's filing fee.

between representatives of affected interests in appointing the
negotiated rulemaking committee.

(c) The state agency shall appoint individuals to the committee
to represent the agency and appoint other individuals to the
committee to represent the interests identified by the agency that

committee or to the agency's ability to reimburse expenses of

(1) agrees to define a consensus to mean a general rather than a unanimous consensus; or

(2) agrees to define the term in another manner.

(c) The facilitator shall encourage the members of the
committee to reach a consensus but may not compel or coerce the members to do so.

(d) At the conclusion of the negotiations, the committee shall send a written report to the agency that:

(c) Notwithstanding Section 154.073(e), Civil Practice and Remedies Code:

CHAPTER 2054. INFORMATION RESOURCES
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 2054.001. LEGISLATIVE FINDINGS AND POLICY. (a) The legislature finds that:

(1) information and information resources possessed by agencies of state government are strategic assets belonging to the residents of this state that must be managed as valuable state resources;

(2) technological and theoretical advances in information use are recent in origin, immense in scope and complexity, and growing at a rapid pace;

(3) the nature of these advances presents this state with the opportunity to provide higher quality, more timely, and more cost-effective governmental services;

(4) the danger exists that state agencies could independently acquire uncoordinated and duplicative information resources technologies that are more appropriately acquired as part of a coordinated effort for maximum cost-effectiveness and use;

(5) the sharing of information resources technologies among state agencies is often the most cost-effective method of providing the highest quality and most timely governmental services that otherwise would be cost prohibitive;

(6) both considerations of cost and the need for the transfer of information among the various agencies and branches of state government in the most timely and useful form possible require a uniform policy and coordinated system for the use and acquisition of information resources technologies;

(7) considerations of cost and expertise require that, to the extent possible, the planning and coordinating functions reside in a separate agency from the purchasing function; and

(8) the need of officials in the executive branch of state government to have timely access to all needed information in a form most useful to them in their execution of the laws and the need of members of the legislative branch of state government to have timely access to all needed information in a form most useful to them in their evaluation of the practical effect of the laws and in their identification of areas in which legislation is needed for the future
are equally paramount, requiring the greatest possible continuous and formal coordination and cooperation within and among the branches of state government.

(b) It is the policy of this state to coordinate and direct the use of information resources technologies by state agencies and to provide as soon as possible the most cost-effective and useful retrieval and exchange of information within and among the various agencies and branches of state government and from the agencies and branches of state government to the residents of this state and their elected representatives. The Department of Information Resources exists for these purposes.
