Subsection (c) must include a statement as to the consequences of the
failure by the requestor to timely respond to the request for

request for additional information under Subsection (c) to that
address by certified mail.

information under Subsection (c) by electronic mail to the same
electronic mail address from which the original request was sent or

(3) "Suspension period" means the period of time during which a governmental body may suspend the applicability of the requirements of this chapter to the governmental body under this section.

(b) The requirements of this chapter do not apply to a governmental body during the suspension period determined by the governmental body under Subsections (d) and (e) if the governmental body:

(1) is currently significantly impacted by a catastrophe such that the catastrophe directly causes the inability of a governmental body to comply with the requirements of this chapter; and

The governing body must submit notice of the extension to the office of the attorney general on the form prescribed by the office under Subsection (l).

(A) facsimile transmission; and
(B) electronic submission through the governmental body's Internet website.

(b) For the purpose of Subsection (a)(4), a governmental body is considered to have approved a method described by that subdivision only if the governmental body includes a statement that a request for public information may be made by that method on:

(1) the sign required to be displayed by the governmental body under Section 552.205; or

(2) the governmental body's Internet website.

(c) A governmental body may designate one mailing address and one electronic mail address for receiving written requests for public information. The governmental body shall provide the designated mailing address and electronic mailing address to any person on request.

(d) A governmental body that posts the mailing address and electronic mail address designated by the governmental body under Subsection (c) on the governmental body's Internet website or that prints those addresses on the sign required to be displayed by the governmental body under Section 552.205 is not required to respond to a written request for public information unless the request is received:

(1) at one of those addresses;
(2) by hand delivery; or
(3) by a method described by Subsection (a)(4) that has been approved by the governmental body.

Added by Acts 2019, 86th Leg., R.S., Ch. 1340 (S.B. 944), Sec. 6, eff. September 1, 2019.

Sec. 552.235. PUBLIC INFORMATION REQUEST FORM. (a) The attorney general shall create a public information request form that provides a requestor the option of excluding from a request information that the governmental body determines is:

(1) confidential; or
(2) subject to an exception to disclosure that the governmental body would assert if the information were subject to the request.

(b) A governmental body that allows requestors to use the form described by Subsection (a) and maintains an Internet website shall
post the form on its website.

Added by Acts 2019, 86th Leg., R.S., Ch. 1340 (S.B. 944), Sec. 6, eff. September 1, 2019.

**SUBCHAPTER F. CHARGES FOR PROVIDING COPIES OF PUBLIC INFORMATION**

Sec. 552.261. CHARGE FOR PROVIDING COPIES OF PUBLIC INFORMATION. (a) The charge for providing a copy of public information shall be an amount that reasonably includes all costs related to reproducing the public information, including costs of materials, labor, and overhead. If a request is for 50 or fewer pages of paper records, the charge for providing the copy of the public information may not include costs of materials, labor, or overhead, but shall be limited to the charge for each page of the paper record that is photocopied, unless the pages to be photocopied are located in:

(1) two or more separate buildings that are not physically connected with each other; or

(2) a remote storage facility.

(b) If the charge for providing a copy of public information includes costs of labor, the requestor may require the governmental body's officer for public information or the officer's agent to provide the requestor with a written statement as to the amount of time that was required to produce and provide the copy. The statement must be signed by the officer for public information or the officer's agent and the officer's or the agent's name must be typed or legibly printed below the signature. A charge may not be imposed for providing the written statement to the requestor.

(c) For purposes of Subsection (a), a connection of two buildings by a covered or open sidewalk, an elevated or underground passageway, or a similar facility is insufficient to cause the buildings to be considered separate buildings.

(d) Charges for providing a copy of public information are considered to accrue at the time the governmental body advises the requestor that the copy is available on payment of the applicable charges.

(e) Except as otherwise provided by this subsection, all requests received in one calendar day from an individual may be treated as a single request for purposes of calculating costs under
this chapter. A governmental body may not combine multiple requests under this subsection from separate individuals who submit requests on behalf of an organization.

Acts 2017, 85th Leg., R.S., Ch. 894 (H.B. 3107), Sec. 2, eff. September 1, 2017.

Sec. 552.2615. REQUIRED ITEMIZED ESTIMATE OF CHARGES. (a) If a request for a copy of public information will result in the imposition of a charge under this subchapter that exceeds $40, or a request to inspect a paper record will result in the imposition of a charge under Section 552.271 that exceeds $40, the governmental body shall provide the requestor with a written itemized statement that details all estimated charges that will be imposed, including any allowable charges for labor or personnel costs. If an alternative less costly method of viewing the records is available, the statement must include a notice that the requestor may contact the governmental body regarding the alternative method. The governmental body must inform the requestor of the responsibilities imposed on the requestor by this section and of the rights granted by this entire section and give the requestor the information needed to respond, including:

(1) that the requestor must provide the governmental body with a mailing, facsimile transmission, or electronic mail address to receive the itemized statement and that it is the requestor's choice which type of address to provide;

(2) that the request is considered automatically withdrawn if the requestor does not respond in writing to the itemized statement and any updated itemized statement in the time and manner required by this section; and

(3) that the requestor may respond to the statement by delivering the written response to the governmental body by mail, in person, by facsimile transmission if the governmental body is capable of receiving documents transmitted in that manner, or by electronic
mail if the governmental body has an electronic mail address.

(b) A request described by Subsection (a) is considered to have been withdrawn by the requestor if the requestor does not respond in writing to the itemized statement by informing the governmental body within 10 business days after the date the statement is sent to the requestor that:

(1) the requestor will accept the estimated charges;
(2) the requestor is modifying the request in response to the itemized statement; or
(3) the requestor has sent to the attorney general a complaint alleging that the requestor has been overcharged for being provided with a copy of the public information.

(c) If the governmental body later determines, but before it makes the copy or the paper record available, that the estimated charges will exceed the charges detailed in the written itemized statement by 20 percent or more, the governmental body shall send to the requestor a written updated itemized statement that details all estimated charges that will be imposed, including any allowable charges for labor or personnel costs. If the requestor does not respond in writing to the updated estimate in the time and manner described by Subsection (b), the request is considered to have been withdrawn by the requestor.

(d) If the actual charges that a governmental body imposes for a copy of public information, or for inspecting a paper record under Section 552.271, exceeds $40, the charges may not exceed:

(1) the amount estimated in the updated itemized statement; or
(2) if an updated itemized statement is not sent to the requestor, an amount that exceeds by 20 percent or more the amount estimated in the itemized statement.

(e) An itemized statement or updated itemized statement is considered to have been sent by the governmental body to the requestor on the date that:

(1) the statement is delivered to the requestor in person;
(2) the governmental body deposits the properly addressed statement in the United States mail; or
(3) the governmental body transmits the properly addressed statement by electronic mail or facsimile transmission, if the requestor agrees to receive the statement by electronic mail or facsimile transmission, as applicable.
(f) A requestor is considered to have responded to the itemized statement or the updated itemized statement on the date that:
   (1) the response is delivered to the governmental body in person;
   (2) the requestor deposits the properly addressed response in the United States mail; or
   (3) the requestor transmits the properly addressed response to the governmental body by electronic mail or facsimile transmission.

(g) The time deadlines imposed by this section do not affect the application of a time deadline imposed on a governmental body under Subchapter G.

Sec. 552.262. RULES OF THE ATTORNEY GENERAL. (a) The attorney general shall adopt rules for use by each governmental body in determining charges for providing copies of public information under this subchapter and in determining the charge, deposit, or bond required for making public information that exists in a paper record available for inspection as authorized by Sections 552.271(c) and (d). The rules adopted by the attorney general shall be used by each governmental body in determining charges for providing copies of public information and in determining the charge, deposit, or bond required for making public information that exists in a paper record available for inspection, except to the extent that other law provides for charges for specific kinds of public information. The charges for providing copies of public information may not be excessive and may not exceed the actual cost of producing the information or for making public information that exists in a paper record available for inspection. A governmental body, other than an agency of state government, may determine its own charges for providing copies of public information and its own charge, deposit,
or bond for making public information that exists in a paper record available for inspection but may not charge an amount that is greater than 25 percent more than the amount established by the attorney general unless the governmental body requests an exemption under Subsection (c).

(b) The rules of the attorney general shall prescribe the methods for computing the charges for providing copies of public information in paper, electronic, and other kinds of media and the charge, deposit, or bond required for making public information that exists in a paper record available for inspection. The rules shall establish costs for various components of charges for providing copies of public information that shall be used by each governmental body in providing copies of public information or making public information that exists in a paper record available for inspection.

(c) A governmental body may request that it be exempt from part or all of the rules adopted by the attorney general for determining charges for providing copies of public information or the charge, deposit, or bond required for making public information that exists in a paper record available for inspection. The request must be made in writing to the attorney general and must state the reason for the exemption. If the attorney general determines that good cause exists for exempting a governmental body from a part or all of the rules, the attorney general shall give written notice of the determination to the governmental body within 90 days of the request. On receipt of the determination, the governmental body may amend its charges for providing copies of public information or its charge, deposit, or bond required for making public information that exists in a paper record available for inspection according to the determination of the attorney general.

(d) The attorney general shall publish annually in the Texas Register a list of the governmental bodies that have authorization from the attorney general to adopt any modified rules for determining the cost of providing copies of public information or making public information that exists in a paper record available for inspection.

(e) The rules of the attorney general do not apply to a state governmental body that is not a state agency for purposes of Subtitle D, Title 10.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993. Amended by Acts 1995, 74th Leg., ch. 1035, Sec. 17, eff. Sept. 1,
Sec. 552.263.  BOND FOR PAYMENT OF COSTS OR CASH PREPAYMENT FOR PREPARATION OF COPY OF PUBLIC INFORMATION.  (a) An officer for public information or the officer's agent may require a deposit or bond for payment of anticipated costs for the preparation of a copy of public information if:

(1) the officer for public information or the officer's agent has provided the requestor with the written itemized statement required under Section 552.2615 detailing the estimated charge for providing the copy; and

(2) the charge for providing the copy of the public information specifically requested by the requestor is estimated by the governmental body to exceed:

(A) $100, if the governmental body has more than 15 full-time employees; or

(B) $50, if the governmental body has fewer than 16 full-time employees.

(b) The officer for public information or the officer's agent may not require a deposit or bond be paid under Subsection (a) as a down payment for copies of public information that the requestor may request in the future.

(c) An officer for public information or the officer's agent may require a deposit or bond for payment of unpaid amounts owing to the governmental body in relation to previous requests that the requestor has made under this chapter before preparing a copy of public information in response to a new request if those unpaid amounts exceed $100. The officer for public information or the officer's agent may not seek payment of those unpaid amounts through any other means.

(d) The governmental body must fully document the existence and amount of those unpaid amounts or the amount of any anticipated costs, as applicable, before requiring a deposit or bond under this
section. The documentation is subject to required public disclosure under this chapter.

(e) For purposes of Subchapters F and G, a request for a copy of public information is considered to have been received by a governmental body on the date the governmental body receives the deposit or bond for payment of anticipated costs or unpaid amounts if the governmental body's officer for public information or the officer's agent requires a deposit or bond in accordance with this section.

(e-1) If a requestor modifies the request in response to the requirement of a deposit or bond authorized by this section, the modified request is considered a separate request for the purposes of this chapter and is considered received on the date the governmental body receives the written modified request.

(f) A requestor who fails to make a deposit or post a bond required under Subsection (a) before the 10th business day after the date the deposit or bond is required is considered to have withdrawn the request for the copy of the public information that precipitated the requirement of the deposit or bond.

Added by Acts 2011, 82nd Leg., 1st C.S., Ch. 8 (S.B. 8), Sec. 20, eff. September 28, 2011.

Sec. 552.267. WAIVER OR REDUCTION OF CHARGE FOR PROVIDING COPY
OF PUBLIC INFORMATION. (a) A governmental body shall provide a copy of public information without charge or at a reduced charge if the governmental body determines that waiver or reduction of the charge is in the public interest because providing the copy of the information primarily benefits the general public.

(b) If the cost to a governmental body of processing the collection of a charge for providing a copy of public information will exceed the amount of the charge, the governmental body may waive the charge.

Sec. 552.268. EFFICIENT USE OF PUBLIC RESOURCES. A governmental body shall make reasonably efficient use of supplies and other resources to avoid excessive reproduction costs.

Sec. 552.269. OVERCHARGE OR OVERPAYMENT FOR COPY OF PUBLIC INFORMATION. (a) A person who believes the person has been overcharged for being provided with a copy of public information may complain to the attorney general in writing of the alleged overcharge, setting forth the reasons why the person believes the charges are excessive. The attorney general shall review the complaint and make a determination in writing as to the appropriate charge for providing the copy of the requested information. The governmental body shall respond to the attorney general to any written questions asked of the governmental body by the attorney general regarding the charges for providing the copy of the public information. The response must be made to the attorney general within 10 business days after the date the questions are received by the governmental body. If the attorney general determines that a governmental body has overcharged for providing the copy of requested public information, the governmental body shall promptly adjust its charges in accordance with the determination of the attorney general.
Sec. 552.270. CHARGE FOR GOVERNMENT PUBLICATION. (a) This subchapter does not apply to a publication that is compiled and printed by or for a governmental body for public dissemination. If the cost of the publication is not determined by state law, a governmental body may determine the charge for providing the publication.

(b) This section does not prohibit a governmental body from providing a publication free of charge if state law does not require that a certain charge be made.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 3033, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 552.271. INSPECTION OF PUBLIC INFORMATION IN PAPER RECORD IF COPY NOT REQUESTED. (a) If the requestor does not request a copy of public information, a charge may not be imposed for making available for inspection any public information that exists in a
paper record, except as provided by this section.

(b) If a requested page contains confidential information that must be edited from the record before the information can be made available for inspection, the governmental body may charge for the cost of making a photocopy of the page from which confidential information must be edited. No charge other than the cost of the photocopy may be imposed under this subsection.

(c) Except as provided by Subsection (d), an officer for public information or the officer's agent may require a requestor to pay, or to make a deposit or post a bond for the payment of, anticipated personnel costs for making available for inspection public information that exists in paper records only if:

(1) the public information specifically requested by the requestor:
   (A) is older than five years; or

Sec. 552.272. INSPECTION OF ELECTRONIC RECORD IF COPY NOT REQUESTED. (a) In response to a request to inspect information that exists in an electronic medium and that is not available directly online to the requestor, a charge may not be imposed for access to the information, unless complying with the request will require programming or manipulation of data. If programming or manipulation of data is required, the governmental body shall notify the requestor before assembling the information and provide the requestor with an estimate of charges that will be imposed to make the information available. A charge under this section must be assessed in accordance with this subchapter.

(b) If public information exists in an electronic form on a computer owned or leased by a governmental body and if the public has direct access to that computer through a computer network or other means, the electronic form of the information may be electronically copied from that computer without charge if accessing the information does not require processing, programming, or manipulation on the government-owned or government-leased computer before the information is copied.

(c) If public information exists in an electronic form on a computer owned or leased by a governmental body and if the public has direct access to that computer through a computer network or other means and the information requires processing, programming, or manipulation before it can be electronically copied, a governmental body may impose charges in accordance with this subchapter.

(d) If information is created or kept in an electronic form, a governmental body is encouraged to explore options to separate out confidential information and to make public information available to the public through electronic access through a computer network or by other means.

(e) The provisions of this section that prohibit a governmental entity from imposing a charge for access to information that exists in an electronic medium do not apply to the collection of a fee set by the supreme court after consultation with the Judicial Committee on Information Technology as authorized by Section 77.031 for the use of a computerized electronic judicial information system.

Subject to veto by the governor, the following section was amended by
the 88th Legislature. Pending publication of the current statutes, see H.B. 3033, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 552.275. REQUESTS THAT REQUIRE LARGE AMOUNTS OF EMPLOYEE OR PERSONNEL TIME. (a) A governmental body may establish reasonable monthly and yearly limits on the amount of time that personnel of the governmental body are required to spend producing public information for inspection or duplication by a requestor, or providing copies of public information to a requestor, without recovering its costs attributable to that personnel time.

(a-1) For purposes of this section, all county officials who have designated the same officer for public information may calculate the amount of time that personnel are required to spend collectively for purposes of the monthly or yearly limit.

(b) A yearly time limit established under Subsection (a) may not be less than 36 hours for a requestor during the 12-month period that corresponds to the fiscal year of the governmental body. A monthly time limit established under Subsection (a) may not be less than 15 hours for a requestor for a one-month period.

(c) In determining whether a time limit established under Subsection (a) applies, any time spent complying with a request for public information submitted in the name of a minor, as defined by Section 101.003(a), Family Code, is to be included in the calculation of the cumulative amount of time spent complying with a request for public information by a parent, guardian, or other person who has control of the minor under a court order and with whom the minor resides, unless that parent, guardian, or other person establishes that another person submitted that request in the name of the minor.

(d) If a governmental body establishes a time limit under Subsection (a), each time the governmental body complies with a request for public information, the governmental body shall provide the requestor with a written statement of the amount of personnel time spent complying with that request and the cumulative amount of time spent complying with requests for public information from that requestor during the applicable monthly or yearly period. The amount of time spent preparing the written statement may not be included in the amount of time included in the statement provided to the requestor under this subsection.

(e) Subject to Subsection (e-1), if in connection with a request for public information, the cumulative amount of personnel
time spent complying with requests for public information from the
same requestor equals or exceeds the limit established by the
governmental body under Subsection (a), the governmental body shall
provide the requestor with a written estimate of the total cost,
including materials, personnel time, and overhead expenses, necessary
to comply with the request. The written estimate must be provided to
the requestor on or before the 10th day after the date on which the
public information was requested. The amount of this charge relating
to the cost of locating, compiling, and producing the public
information shall be established by rules prescribed by the attorney
general under Sections 552.262(a) and (b).

(e-1) This subsection applies only to a request made by a
requestor who has made a previous request to a governmental body that
has not been withdrawn, for which the governmental body has located
and compiled documents in response, and for which the governmental
body has issued a statement under Subsection (e) that remains unpaid
on the date the requestor submits the new request. A governmental
body is not required to locate, compile, produce, or provide copies
of documents or prepare a statement under Subsection (e) in response
to a new request described by this subsection until the date the
requestor pays each unpaid statement issued under Subsection (e) in
connection with a previous request or withdraws the previous request
to which the statement applies.

(f) If the governmental body determines that additional time is
required to prepare the written estimate under Subsection (e) and
provides the requestor with a written statement of that
determination, the governmental body must provide the written
statement under that subsection as soon as practicable, but on or
before the 10th day after the date the governmental body provided the
statement under this subsection.

(g) If a governmental body provides a requestor with the
written statement under Subsection (e) and the time limits prescribed
by Subsection (a) regarding the requestor have been exceeded, the
governmental body is not required to produce public information for
inspection or duplication or to provide copies of public information
in response to the requestor's request unless on or before the 10th
day after the date the governmental body provided the written
statement under that subsection, the requestor submits payment of
the amount stated in the written statement provided under Subsection
(e).
(h) If the requestor fails or refuses to submit payment under Subsection (g), the requestor is considered to have withdrawn the requestor's pending request for public information.

(i) This section does not prohibit a governmental body from providing a copy of public information without charge or at a reduced rate under Section 552.267 or from waiving a charge for providing a copy of public information under that section.

(j) This section does not apply if the requestor is an individual who, for a substantial portion of the individual's livelihood or for substantial financial gain, gathers, compiles, prepares, collects, photographs, records, writes, edits, reports, investigates, processes, or publishes news or information for and is seeking the information for:

(1) dissemination by a news medium or communication service provider, including:

(A) an individual who supervises or assists in gathering, preparing, and disseminating the news or information; or

(B) an individual who is or was a journalist, scholar, or researcher employed by an institution of higher education at the time the person made the request for information; or

(2) creation or maintenance of an abstract plant as described by Section 2501.004, Insurance Code.

(k) This section does not apply if the requestor is an elected official of the United States, this state, or a political subdivision of this state.

(l) This section does not apply if the requestor is a representative of a publicly funded legal services organization that is exempt from federal income taxation under Section 501(a), Internal Revenue Code of 1986, as amended, by being listed as an exempt entity under Section 501(c)(3) of that code.

(m) In this section:

(1) "Communication service provider" has the meaning assigned by Section 22.021, Civil Practice and Remedies Code.

(2) "News medium" means a newspaper, magazine or periodical, a book publisher, a news agency, a wire service, an FCC-licensed radio or television station or a network of such stations, a cable, satellite, or other transmission system or carrier or channel, or a channel or programming service for a station, network, system, or carrier, or an audio or audiovisual production company or Internet company or provider, or the parent, subsidiary, division, or
affiliate of that entity, that disseminates news or information to the public by any means, including:
(A) print;
(B) television;
(C) radio;
(D) photographic;
(E) mechanical;
(F) electronic; and
(G) other means, known or unknown, that are accessible to the public.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 573.022. DETERMINATION OF CONSANGUINITY. (a) Two individuals are related to each other by consanguinity if:

(1) one is a descendant of the other; or

(2) they share a common ancestor.

(b) An adopted child is considered to be a child of the adoptive parent for this purpose.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 573.023. COMPUTATION OF DEGREE OF CONSANGUINITY. (a) The degree of relationship by consanguinity between an individual and the individual's descendant is determined by the number of generations that separate them. A parent and child are related in the first degree, a grandparent and grandchild in the second degree, a great-grandparent and great-grandchild in the third degree and so on.

(b) If an individual and the individual's relative are related by consanguinity, but neither is descended from the other, the degree of relationship is determined by adding:

(1) the number of generations between the individual and the nearest common ancestor of the individual and the individual's relative; and

(2) the number of generations between the relative and the nearest common ancestor.

(c) An individual's relatives within the third degree by consanguinity are the individual's:

(1) they are married to each other; or
(2) the spouse of one of the individuals is related by consanguinity to the other individual.

(b) The ending of a marriage by divorce or the death of a spouse ends relationships by affinity created by that marriage unless a child of that marriage is living, in which case the marriage is considered to continue as long as a child of that marriage lives.

(c) Subsection (b) applies to a member of the board of trustees of or an officer of a school district only until the youngest child of the marriage reaches the age of 21 years.

Sec. 573.025. COMPUTATION OF DEGREE OF AFFINITY. (a) A husband and wife are related to each other in the first degree by affinity. For other relationships by affinity, the degree of relationship is the same as the degree of the underlying relationship by consanguinity. For example: if two individuals are related to each other in the second degree by consanguinity, the spouse of one of the individuals is related to the other individual in the second degree by affinity.

(b) An individual's relatives within the third degree by affinity are:
(1) anyone related by consanguinity to the individual's spouse in one of the ways named in Section 573.023(c); and
(2) the spouse of anyone related to the individual by consanguinity in one of the ways named in Section 573.023(c).

Sec. 659.002. DEDUCTIONS. (a) A state agency may not make a deduction from the compensation paid to an officer or employee whose compensation is paid in full or in part from state funds unless the deduction is authorized by law.

(d) A declination filed after an officer has qualified for office may be revoked at any time. A declination filed before a person has qualified for office may not be revoked during the term of office to which the person is appointed or elected.

(e) A person who has irrevocably declined remuneration under this section is not considered to be compensated directly or indirectly for purposes of state law, except that declaration of remuneration under this section does not change the character of an office as an office of emolument or a lucrative office for purposes of a provision of the Texas Constitution.

Sec. 659.012. JUDICIAL SALARIES. (a) Notwithstanding Section 659.011 and subject to Subsections (b) and (b-1):

(1) a judge of a district court is entitled to an annual base salary from the state as set by the General Appropriations Act in an amount equal to at least $140,000, except that the combined base salary of a district judge from all state and county sources, including compensation for any extrajudicial services performed on behalf of the county, may not exceed the amount that is $5,000 less than the maximum combined base salary from all state and county sources for a justice of a court of appeals other than a chief justice as determined under this subsection;

(2) a justice of a court of appeals other than the chief justice is entitled to an annual base salary from the state in the amount equal to 110 percent of the state base salary of a district judge as set by the General Appropriations Act, except that the combined base salary of a justice of the court of appeals other than the chief justice from all state and county sources, including compensation for any extrajudicial services performed on behalf of the county, may not exceed the amount that is $5,000 less than the base salary for a justice of the supreme court as determined under this subsection;

(3) a justice of the supreme court other than the chief justice or a judge of the court of criminal appeals other than the presiding judge is entitled to an annual base salary from the state in the amount equal to 120 percent of the state base salary of a district judge as set by the General Appropriations Act; and

(4) the chief justice or presiding judge of an appellate court is entitled to an annual base salary from the state in the amount equal to $2,500 more than the state base salary provided for the other justices or judges of the court, except that the combined base salary of the chief justice of a court of appeals from all state and county sources may not exceed the amount equal to $2,500 less than the base salary for a justice of the supreme court as determined under this subsection.

(b) A judge or justice for whom the amount of a state base salary is prescribed by Subsection (a) is entitled to an annual salary from the state in the amount equal to:

(1) 110 percent of the state base salary paid in accordance with Subsection (a) for the judge's or justice's position, beginning
with the pay period that begins after the judge or justice accrues four years of:

(A) contributing service credit in the Judicial Retirement System of Texas Plan One or the Judicial Retirement System of Texas Plan Two;

(B) service as a judge of a statutory county court, multicounty statutory county court, or statutory probate court; or

(C) combined contributing service credit and service as provided by Paragraphs (A) and (B); and

(2) 120 percent of the state base salary paid in accordance with Subsection (a) for the judge's or justice's position, beginning with the pay period that begins after the judge or justice accrues eight years of:

(A) contributing service credit in the Judicial Retirement System of Texas Plan One or the Judicial Retirement System of Texas Plan Two;

(B) service as a judge of a statutory county court, multicounty statutory county court, or statutory probate court; or

(C) combined contributing service credit and service as provided by Paragraphs (A) and (B).

(b-1) A limitation on the combined base salary from all state and county sources prescribed by Subsection (a)(1) or (2) applies to a judge or justice to whom Subsection (b) applies, except that the amount by which the annual salary from the state paid to the judge or justice in accordance with Subsection (b) exceeds the amount of the state base salary for the judge's or justice's position set by the General Appropriations Act in accordance with Subsection (a) is not included as part of the judge's or justice's combined base salary from all state and county sources for purposes of determining whether the judge's or justice's salary exceeds the limitation.

(c) To the extent of any conflict, the salary limitations provided by Subsection (a) for the combined base salary of a state judge or justice from state and local sources prevail over any provision of Chapter 31 or 32 that authorizes the payment of additional compensation to a state judge or justice.

(d) Notwithstanding any other provision in this section or other law, in a county with more than five district courts, a district judge who serves as a local administrative district judge under Section 74.091 is entitled to an annual base salary from the state in the amount equal to $5,000 more than the maximum salary from
the state to which the judge is otherwise entitled under Subsection (a) or (b).

(e) For the purpose of salary payments by the state, the comptroller shall determine from sworn statements filed by the justices of the courts of appeals and district judges that the required salary limitations provided by Subsection (a) are maintained. If the state base salary for a judge or justice prescribed by Subsection (a) combined with additional compensation from a county would exceed the limitations provided by Subsection (a), the comptroller shall reduce the salary payment made by the state by the amount of the excess.

(f) For purposes of Subsection (b), "contributing service credit" means service credit established in the:

1. Judicial Retirement System of Texas Plan One under Section 833.101 or 833.106 for each month of service in which the member held a judicial office described by Section 832.001(a), including service credit established under either section that was previously canceled but reestablished under Section 833.102; or

multidistrict litigation involving claims for asbestos-related or silica-related injuries is entitled to receive, in addition to all other compensation, expenses, and perquisites authorized by law, the maximum amount of compensation set by the Texas Judicial Council for a presiding judge under Section 74.051(b). The annual amount must be apportioned over 12 equal monthly payments and be paid to the judge by the comptroller's judiciary section for each month during which the judge retains jurisdiction over the claims.

(b) Notwithstanding any other law, supplemental compensation paid to a district judge under this section is not included as part of the district judge's total annual salary for the purpose of computing another salary that is based on the salary of the district judge.

(c) A retired judge appointed to an MDL pretrial court, as defined by Section 90.001, Civil Practice and Remedies Code, is entitled to receive the same compensation and benefits to which a district judge is entitled from the state. Sec. 659.013. STATUTORY SALARIES SUSPENDED. (a) Except as provided by this section, a law setting the salary of a state officer or employee is suspended to the extent that the law conflicts with this subchapter.

(b) The suspension does not apply to:
   (1) a law specifying or regulating the salary or compensation of an officer or employee for whom the biennial appropriations act does not specify or regulate the salary or compensation; and
   (2) Chapter 654.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 659.014. SUSPENDED LAWS CONTINUED IN EFFECT. Those laws suspended by the operation of Section 659.013 are continued in effect, although suspended, as those laws existed September 1, 1993, including:
   (1) Article 6813, Revised Statutes (setting annual salaries for named officers and employees);
   (2) Chapter 277, Acts of the 40th Legislature, Regular Session, 1927 (Article 6813a, Vernon's Texas Civil Statutes) (setting and regulating the salary of members of the Railroad Commission of Texas); and

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 446 and H.B. 1914, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 659.015. OVERTIME COMPENSATION FOR EMPLOYEES SUBJECT TO FAIR LABOR STANDARDS ACT. (a) This section applies only to a state employee who is subject to the overtime provisions of the federal Fair Labor Standards Act of 1938 (29 U.S.C. Section 201 et seq.) and who is not an employee of the legislature, including an employee of the lieutenant governor, or of a legislative agency.
(b) The employee is entitled to compensation for overtime as provided by federal law and this section. To the extent that this section and federal law prescribe a different rule for the same circumstance, federal law controls without regard to whether this section or federal law prescribes a stricter rule.

(c) An employee who is required to work hours in excess of 40 hours in a workweek is entitled to compensation for the excess hours either by:

(1) the agency allowing or requiring the employee to take compensatory time off at the rate of 1-1/2 hours off for each hour of overtime; or

(2) at the discretion of the employing agency, in cases in which granting compensatory time off is impractical, the employee receiving pay for the overtime at the rate equal to 1-1/2 times the employee's regular rate of pay.

(d) Holidays or other paid leave taken during a workweek are not counted as hours worked in computing the number of overtime hours under Subsection (c) or (e).

(e) An employee may not accumulate more than 240 hours of overtime credit that may be taken as compensatory leave under Subsection (c)(1), except that an employee engaged in a public safety activity, an emergency response activity, or a seasonal activity may accumulate, in accordance with 29 U.S.C. Section 207(o)(3)(A), not more than 480 hours of overtime credit that may be taken as compensatory leave under Subsection (c)(1). An employee must be paid at the rate prescribed by Subsection (c)(2) for the number of overtime hours the employee works that cause the employee to exceed the amount of overtime credit the employee may accumulate. In this subsection, "overtime credit" means the number of hours that is computed by multiplying the number of overtime hours worked by 1-1/2.

(f) When an employee does not work more than 40 hours in a workweek but the number of hours worked plus the number of hours of holiday or other paid leave taken during the workweek exceeds 40 hours, the employee is entitled to compensatory time off at the rate of one hour off for each of the excess hours. When an employee does work 40 or more hours in a workweek and in addition takes holiday or other paid leave during the workweek, and the total number of hours worked still exceeds 40 after subtracting the hours compensable under Subsections (c)-(e), the employee is entitled to compensatory time off at the rate of one hour off for each of the remaining hours in
excess of 40. When an employee does not work more than 40 hours in a workweek and the number of hours worked plus the number of hours of holiday or other paid leave taken during the week does not exceed 40 hours, the employee may not accrue compensatory time for the week under this section.

(g) Except as provided by Subsection (k), compensatory time off to which an employee is entitled under Subsection (f) must be taken during the 12-month period following the end of the workweek in which the compensatory time was accrued or it lapses. An employee may not be paid for that compensatory time, except as provided by this subsection and Subsections (i) and (j). An employee of an institution of higher education as defined by Section 61.003, Education Code, or an employee engaged in a public safety activity, including highway construction and maintenance or an emergency response activity, may be paid at the employee's regular rate of pay for that compensatory time if the employer determines that taking the compensatory time off would disrupt normal teaching, research, or other critical functions.

(h) Exceptions to the workweek overtime computation for public safety, emergency response, or seasonal situations shall be made in accordance with the federal Fair Labor Standards Act of 1938 (29 U.S.C. Section 201 et seq.).

(i) With authorization from the administrative head of the agency for which an employee works, or that person's designee, an employee may be paid for the hours of compensatory time the employee earns for work directly related to a disaster or emergency declared by the appropriate officer of the state or federal government.

(j) With authorization from the administrative head of the agency for which an employee works, or that person's designee, an employee employed by a state mental health or mental retardation facility may be paid for any unused compensatory time if the employing agency determines that taking the compensatory time off would disrupt the normal business functions of the agency.

(k) Compensatory time off to which a correctional officer employed by the Texas Department of Criminal Justice is entitled under Subsection (f) must be taken during the 24-month period following the end of the workweek in which the compensatory time was accrued or it lapses.

Added by Acts 1999, 76th Leg., ch. 279, Sec. 12, eff. Sept. 1, 1999.
Sec. 659.0155. PAYMENT TO EMPLOYEES OF TEXAS DEPARTMENT OF CRIMINAL JUSTICE FOR OVERTIME. The Texas Department of Criminal Justice shall compensate a person employed by the department for any overtime accrued by the employee for which the employee is entitled to compensation under Section 659.015 in the same month the department compensates employees at the regular rate of pay for the period in which the employee accrued the overtime.

Added by Acts 2007, 80th Leg., R.S., Ch. 1308 (S.B. 909), Sec. 43, eff. June 15, 2007.

Sec. 659.016. OVERTIME COMPENSATION FOR EMPLOYEES NOT SUBJECT TO FAIR LABOR STANDARDS ACT; REDUCTIONS IN PAY. (a) This section applies only to a state employee who is not subject to the overtime provisions of the federal Fair Labor Standards Act of 1938 (29 U.S.C. Section 201 et seq.) and who is not an employee of the legislature, including an employee of the lieutenant governor, or of a legislative agency.

(b) When the sum of hours worked plus holiday or other paid leave taken by a full-time employee during a workweek exceeds 40 hours, and not otherwise, the employee may be allowed to accrue compensatory time for the number of hours that exceeds 40 hours. When the sum of hours worked plus holiday or other paid leave taken by a part-time employee during a workweek exceeds the number of hours that the part-time employee is designated to work during the workweek, and not otherwise, the employee may be allowed to accrue compensatory time for the number of hours that exceeds the number of hours that the employee is designated to work during the workweek.
(c) An employee who is exempt as an executive, professional, or administrative employee under 29 U.S.C. Section 213(a)(1) may be allowed compensatory time off during the 12-month period following the end of the workweek in which the time that exceeds 40 hours under Subsection (b) was accrued, at a rate not to exceed one hour of compensatory time off for each hour of time that exceeds 40 hours under Subsection (b) accrued.

(d) In accordance with 29 C.F.R. Section 541.118 and subject to that section's exceptions as described by this section, an employee who is exempt as an executive, professional, or administrative employee under 29 U.S.C. Section 213(a)(1) is entitled to receive full salary for any week in which the employee performs work without regard to the number of days and hours worked. This is also subject to the general rule that an employee need not be paid for any workweek in which the employee performs no work.

(e) A deduction may be made from the salary of an employee who is exempt as an executive, professional, or administrative employee under 29 U.S.C. Section 213(a)(1) if:

(1) the employee is not at work for a full day or longer for personal reasons other than sickness, accident, jury duty, attendance as a witness at a judicial proceeding, or temporary military leave;

(2) the employee is not at work for a full day or longer because of sickness or disability, including sickness or disability covered by workers' compensation benefits, and the employee's paid sick leave or workers' compensation benefits have been exhausted;

(3) the deduction is a penalty imposed for a violation of a significant safety rule relating to prevention of serious danger in the workplace to other persons, including other employees; or

(4) in accordance with the special provisions applicable to executive, professional, or administrative employees of public agencies set forth in 29 C.F.R. Section 541.710, the employee is not at work for less than one day for personal reasons or because of illness or injury and accrued leave is not used by the employee because:

   (A) permission to use accrued leave was not sought or was denied;

   (B) accrued leave has been exhausted; or

   (C) the employee chooses to use leave without pay.

(f) In accordance with 29 C.F.R. Section 541.710, a deduction
from the pay of an executive, professional, or administrative employee because of an absence from work caused by a furlough related to the budget does not affect the employee's status as an employee paid on a salary basis, except for any workweek in which the furlough occurs and for which the employee's pay is accordingly reduced.

(g) If a deduction is made from an employee's salary in violation of United States Department of Labor regulations, the employee is entitled to reimbursement of the amount that should not have been deducted.

(h) An employee who is not subject to the federal Fair Labor Standards Act of 1938 under 29 U.S.C. Section 203(e)(2)(C) because the employee is a staff member, appointee, or immediate adviser of an elected officeholder may be allowed compensatory time off under the terms and conditions determined by the officeholder.

(i) Except as provided by this subsection and Subsection (j), an employee covered by this section may not be paid for any unused compensatory time. With authorization from the administrative head of the agency for which a state employee works, or that person's designee, an employee may be paid for the hours of compensatory time the employee earns for work directly related to a disaster or emergency declared by the appropriate officer of the state or federal government.

(j) With authorization from the administrative head of the agency for which an employee works, or that person's designee, an employee employed by a state mental health or mental retardation facility may be paid for any unused compensatory time if the employing agency determines that taking the compensatory time off would disrupt the normal business functions of the agency.

Sec. 659.017. OVERTIME COMPENSATION FOR LEGISLATIVE EMPLOYEES. Consistent with the requirements of the federal Fair Labor Standards Act of 1938 (29 U.S.C. Section 201 et seq.), overtime pay and
compensatory time off for employees of the legislative branch, including employees of the lieutenant governor, are determined:

(1) for employees of the house of representatives or the senate, by the presiding officer of the appropriate house of the legislature;

(2) for employees of an elected officeholder, by the employing officeholder; and

(3) for employees of a legislative agency, by the administrative head of the agency.

Added by Acts 1999, 76th Leg., ch. 279, Sec. 12, eff. Sept. 1, 1999.

(a) Except under circumstances specified in the General Appropriations Act or as provided by Subsection (b), an employee of a state agency as defined by Section 658.001 may not, for hours worked during any calendar week, accumulate compensatory time off under Section 659.015(f) or 659.016 to the extent that the hours are attributable to work performed at a location other than the employee's regular or temporarily assigned place of employment.

(b) An employee may accumulate compensatory time off for hours worked during any calendar week at the employee's personal residence if the employee obtains the advance approval of the administrative head of the agency for which the employee works or that person's designee.

(a) In computing the salary of a part-time or hourly employee, the rate of pay must be proportional to the rate authorized by the General Appropriations Act for full-time employment in the same classified position, or if the position is not under the state's position classification plan, for full-time employment in the applicable exempt position.

(b) A part-time employee is subject to Subchapter K and to the
leave without pay provisions of Section 659.085.

(c) Employees who are paid above the maximum of their job class' designated salary group on August 1, 1999, will be allowed to maintain their salaries. However, in no case may they be allowed to receive additional salary increases, including across-the-board increases and merit increases, including one-time merit payments, until the salary maximum for their designated salary group encompasses their salary. (b) The maximum amount that may be spent for merit salary increases in and promotions to classified positions shall be computed separately for each year of the state fiscal biennium. Merit salary increases and promotions awarded in the first fiscal year of a biennium do not count against the maximum amount that may be spent for those increases in the second fiscal year of that biennium.

(c) Money spent to pay a salary increase for an employee who is promoted to a classified position title counts against the limitation prescribed by this section only if, as a result of the promotion, the number of agency employees in that position title exceeds the maximum number of agency employees who have been in that position title at any time during the preceding six-month period.

(d) A request to exceed the limitation prescribed by this section must be submitted by the governing body of the agency, or by the head of the agency if the agency is not governed by a multimember governing body, and must include at least:

certain classified employee positions, a state agency may provide to
a state employee, at the time of the employee's hiring for a
classified position, additional compensation in the form of a one-
time recruitment payment not to exceed $5,000. If the employee
discontinues employment with the state agency for any reason less

recruitment payment;

Subdivision (1) by 12 months; and

by the amount of the recruitment payment.

(c) To enhance the retention of employees who are employed in
certain classified positions that are identified by the chief
administrator of a state agency as essential for the state agency's
operations, a state agency may enter into a deferred compensation
contract with a classified employee to provide to the employee a one-
time additional compensation payment not to exceed $5,000 to be added
to the employee's salary payment the month after the conclusion of
the 12-month period of service under the deferred compensation
contract.

(d) To be eligible to enter into a contract for deferred
compensation under Subsection (c), a state employee must have already
completed at least 12 months of service in a classified position.

(e) The chief administrator of a state agency shall determine
whether additional compensation is necessary under this section on a
case-by-case basis, considering:

operations of the state agency;

(2) evidence of high turnover rates among employees filling the position or an extended period during which the position is or has in the past been vacant;

(3) evidence of a shortage of employees qualified to fill the position or a shortage of qualified applicants; and

(4) other relevant factors.

(f) Before an agency provides or enters into a contract to provide additional compensation to an employee under this section, the chief administrator of the state agency must certify to the comptroller in writing the reasons why the additional compensation is necessary.

(g) Additional compensation paid to an employee under this section is specifically exempted from any limitation on salary or salary increases prescribed by this chapter.

Sec. 660.030. EXAMINATION OF VOUCHERS AND EXPENSE REIMBURSEMENT FORMS. (a) In this section, "travel expense" includes tuition and fees for training, seminars, and conferences.

(b) The comptroller periodically shall examine the vouchers and other expense reimbursement forms submitted by a state agency for payment of a travel expense payable under this chapter to determine compliance with Section 660.003(e) and:

(2) whether the state-business-related activities conducted during the travel were necessary to perform the state business;

(3) whether the travel was necessary to perform the state business conducted; and

SUBCHAPTER C. TRANSPORTATION BY PERSONAL MOTOR VEHICLE

Sec. 660.041. REIMBURSEMENT REQUIREMENT. (a) A state employee is entitled to be reimbursed as provided by this subchapter for the employee's use of a personally owned or leased motor vehicle.
(b) A state employee may not be reimbursed under this subchapter for an expense other than mileage, tolls, and parking.
(c) A state employee may not be reimbursed for mileage incurred in traveling between the employee's residence and place of employment in a personally owned or leased motor vehicle unless the travel:
(1) is necessitated by extraordinary circumstances; and
(2) occurs outside the hours the employee is working.

Sec. 660.042. AMOUNT OF REIMBURSEMENT. A mileage reimbursement may not exceed the product of:
(1) the applicable mileage reimbursement rate as established by the legislature in the travel provisions of the General Appropriations Act; and
(2) the number of miles traveled as limited by this subchapter.

Sec. 660.043. DETERMINATION OF REIMBURSABLE MILEAGE. (a) The number of miles traveled that are eligible for reimbursement under this subchapter may not exceed the number of miles of the most cost-effective reasonably safe route between the origin of the state
employee's travel and the final duty point of the state employee. If a state employee conducts official state business at duty points between the origin of the state employee's travel and the final duty point, the most cost-effective reasonably safe route between the origin and the final duty point shall include the intermediate duty points.

Text of subsection as amended by Acts 2009, 81st Leg., R.S., Ch. 317 (H.B. 605), Sec. 1

(b) In determining the most cost-effective reasonably safe route for purposes of Subsection (a), a state agency may consider:

(1) the route that provides the shortest distance between the origin of the state employee's travel and the final duty point;
(2) the route that provides the quickest drive time between the origin of the state employee's travel and the final duty point; and
(3) the route that provides the safest road conditions between the origin of the state employee's travel and the final duty point.

Text of subsection as amended by Acts 2009, 81st Leg., R.S., Ch. 1367 (S.B. 745), Sec. 4

(b) For the purpose of Subsection (a), the shortest route between two points is presumed to be the most cost-effective route. A longer route may be considered the most cost-effective route only if:

(1) the documentation states that the longer route is more cost effective;
(2) the documentation provides a reasonable justification for that statement; and
(3) the statement and justification are made by the chief administrator of the state agency making the reimbursement or by the chief administrator's designee.

(c) The number of miles traveled that are eligible for reimbursement under this subchapter may be determined by an employee's vehicle odometer reading or by a readily available electronic mapping service.

Without reference to the amendment of this subsection, this subsection was repealed by Acts 2009, 81st Leg., R.S., Ch. 317 (H.B. 605), Sec. 3, eff. September 1, 2009.

(d) If the number of miles between points is not shown in the
guide, the mileage incurred while traveling between those points is not reimbursable unless:

(1) the documentation itemizes the mileage on a point-to-point basis; and

(2) the mileage is reasonable.

Amended by:

Sec. 660.044. USE OF SINGLE MOTOR VEHICLE BY MULTIPLE EMPLOYEES. (a) If two, three, or four state employees who are employed by the same state agency travel on the same dates with the same itinerary to conduct the same official state business, only one of the employees may be reimbursed for mileage.

(b) If more than four state employees who are employed by the same state agency travel on the same dates with the same itinerary to conduct the same official state business, a state agency may reimburse for mileage only on the basis of one motor vehicle for each four employees and for any fraction in excess of a multiple of four employees.

(c) Subsections (a) and (b) do not apply to a group of state employees if the chief administrative officer of the state agency that employs the employees determines before travel that it is not feasible for the employees to travel together in the same motor vehicle. This determination may be made only for reasons related to official state business.

SUBCHAPTER D. TRANSPORTATION BY PERSONAL AIRCRAFT

Sec. 660.071. REIMBURSEMENT REQUIREMENT. A state employee, a key official, a member of a board, or a member of the legislature is entitled to be reimbursed as provided by this subchapter for use of an aircraft owned or leased by the employee, official, or member.

(b) In addition to the amount entitled to be reimbursed under Section 660.071, the key official, member of a board, or member of the legislature who owns or leases the aircraft is entitled to an amount equal to the amount that would have been paid or reimbursed to each passenger had the passenger incurred the contract airfare, if the passenger's agency is subject to rules adopted under Section 2171.055, or the average coach airfare, if the passenger's agency is not subject to those rules, instead of traveling on the aircraft. The total reimbursement to the official or member may not exceed the total cost of the trip.

(c) The lessee of the aircraft may require the reimbursement to be paid to the vendor providing the leased aircraft instead of the lessee.

Sec. 660.075. AIRCRAFT LEASED FROM CERTAIN PERSONS. A key official, member of a board, or member of the legislature is entitled to reimbursement under this subchapter for use of an aircraft leased from a proprietorship, partnership, or corporation in which the official or member has an interest.

The state agency shall require the company to submit an invoice to the agency listing the points of origin and destination for each trip and the taxes charged. The agency shall submit those invoices to the comptroller on request and in the manner required by the comptroller.

(d) A state agency may directly pay a commercial transportation company before the travel of a state employee if the payment would result in a lower transportation expense. The comptroller may adopt rules that authorize advance payments in other circumstances.

(e) If a reimbursement to a state employee for a transportation expense would not be authorized, a direct payment to a commercial transportation company for the same expense is prohibited.

(f) A state agency may not pay or reimburse the expense of transporting a state employee by rented or public conveyance if the transportation is provided by a person who is not a commercial transportation company.

(k) An individual who is reemployed by any state agency in a position under which the employee accrues vacation leave within 30 days after the individual's date of separation from state employment is entitled to reinstatement of the unused balance of the employee's previously accrued vacation leave.

The governing body of the public retirement system and the governing body of the associated governmental entity shall jointly formulate a funding soundness restoration plan under Subsection (e) if the system's actuarial valuation shows that the system's expected funding period:

The deadlines must be designed to provide the most complete information practicable in a timely manner.  

(e) The board may prepare an actuarial analysis for a public retirement system that receives a request under Subsection (a) and does not provide the board with an actuarial analysis within the required period under Subsection (c) or (d).

  (c) If the board prepares a requested report or analysis under
      Subsection (b), the state-financed public retirement system may
      reimburse the board's costs incurred in preparing the requested
      report or analysis.

It is contrary to the purpose of this chapter for a person or class of persons to receive, because of service in more than one retirement system to which this chapter applies, proportionately greater benefits from a particular system than a person who has rendered faithful career service under that one system.

Sec. 803.0021. APPLICATION OF CHAPTER. This chapter applies only to:

(1) a retirement system for general municipal employees in a municipality with a population of not less than 750,000 nor more than 850,000;

(2) the Employees Retirement System of Texas, the Teacher Retirement System of Texas, the Judicial Retirement System of Texas Plan One, the Judicial Retirement System of Texas Plan Two, the Texas County and District Retirement System, and the Texas Municipal Retirement System; and

(3) a retirement system that makes an election under Section 803.101(f).

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4559, 88th Legislature, Regular Session, for amendments affecting the following section.
Sec. 803.003. CONSTRUCTION OF CHAPTER. (a) The provisions of this chapter are exceptions to the other laws governing retirement systems to which this chapter applies and prevail over those laws to the extent of explicit conflict, but this chapter must be construed strictly as against those laws.

(b) Notwithstanding any other law, a person who is involuntarily transferred to a position included in the coverage of a retirement system governed by Chapter 101, Acts of the 43rd Legislature, 1st Called Session, 1933 (Article 6243b, Vernon's Texas Civil Statutes), from a position included in a retirement system operated by a municipality that does not participate in a statewide retirement system governed by Chapter 101, Acts of the 43rd Legislature, 1st Called Session, 1933 (Article 6243b, Vernon's Texas Civil Statutes), may make an irrevocable election at the time of the transfer to continue membership in the municipal retirement system. An involuntary transfer is determined by the employment rules that apply to the person immediately before the time of the involuntary transfer.

SUBCHAPTER B. PARTICIPATION AND MEMBERSHIP

Sec. 803.101. PARTICIPATION BY RETIREMENT SYSTEMS. (a) Except as provided by Subsections (b) and (f), each retirement system to which this chapter applies is required to participate in the program of proportionate retirement benefits provided by this chapter.

(b) A subdivision participating in the Texas County and District Retirement System or a municipality participating in the Texas Municipal Retirement System is not required to participate in the proportionate retirement program if the subdivision or
municipality elected not to participate under the authority of former law and has not revoked the election under Subsection (c).

(c) A subdivision or municipality that elected not to participate in the proportionate retirement program may revoke the election and elect to participate. An election to participate may be made by vote of the governing body of the subdivision or municipality in the manner required for official actions of the governing body. The governing body shall send notice of an election to participate to the board of trustees of the retirement system in which the subdivision or municipality participates.

(d) The effective date of participation in the proportionate retirement program by a subdivision or municipality electing to participate under Subsection (c) is the first day of the month after the month in which the appropriate board of trustees receives notice of an election.

(e) Participation in the proportionate retirement program includes all persons who are members of a retirement system to which this chapter applies and, in the case of members of the Texas County and District Retirement System or the Texas Municipal Retirement System, who are also employees or former employees of a subdivision or municipality participating in the proportionate retirement program.

(f) The governing body of a public retirement system in this state for municipal employees that is a qualified plan under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401) may elect to participate in the proportionate retirement program by adopting a resolution to that effect. A resolution may not be adopted under this subsection without the approval of the governing body of the municipality that finances the retirement system. The governing body of the retirement system shall notify all other participating retirement systems of the election. The effective date of participation in the proportionate retirement program by a retirement system for which an election is made under this subsection is the first day of the third month after the month in which notice is given under this subsection. An election under this subsection does not require the approval of the participants in the public retirement system making the election.

(g) The governing body of a municipality described by Section 803.0021(1) that finances a public retirement system for police officers or firefighters may not approve the retirement system's
election under Subsection (f) to participate in the proportionate retirement program unless an actuary acting on behalf of the municipality reviews the initial cost to the municipality of making the election.

(h) If the governing body of a public retirement system under Subsection (g) adopts a resolution to participate in the proportionate retirement program, the governing body of the municipality that finances the retirement system shall appropriate and pay to the retirement system, at the same time the municipality makes the municipality's monthly contribution to the retirement system, the additional amount necessary, as determined by the retirement system's actuary, to fund the additional liabilities incurred by the retirement system as a result of participating in the proportionate retirement program.

Amended by:
Acts 2007, 80th Leg., R.S., Ch. 1427 (S.B. 1626), Sec. 1, eff. June 15, 2007.

Sec. 803.102. RETIREMENT SYSTEM MEMBERSHIP. (a) Membership in a retirement system to which this chapter applies does not terminate because of absence from service covered by that system during a period for which the member earns service credit in another retirement system to which this chapter applies for service performed for an employer other than a subdivision or municipality not participating in the program provided by this chapter.

(b) A person may continue membership in a retirement system to which this chapter applies while absent from service with all retirement systems to which this chapter applies if the person would be eligible, under the laws governing that system, to continue membership if the person's combined service credit had been earned in that system.

(c) In this section, a person's absence from service begins on
the day after the last day of service covered by any retirement system to which this chapter applies.

Sec. 803.103. LIMITATION OF PARTICIPATION BY RETIREMENT SYSTEMS. (a) Participation in the proportionate retirement program by a subdivision participating in the Texas County and District Retirement System or a municipality participating in the Texas Municipal Retirement System does not include:

(1) participation with a retirement system described by Section 803.0021(1) if the subdivision or municipality has elected to so limit its participation and has not revoked the election under Subsection (b); or

(2) participation with a retirement system described by Section 803.0021(3).

(b) A subdivision or municipality that has elected to limit its participation in the proportionate retirement program may revoke the election and remove the limitation on participation. An election under this subsection may be made by vote of the governing body of the subdivision or municipality in the manner required for official actions of the governing body. The governing body shall send notice of an election under this subsection to the board of trustees of the retirement system in which the subdivision or municipality participates.

(c) The effective date of a removal of a limitation on participation in the proportionate retirement program by a subdivision or municipality electing under Subsection (b) is the first day of the month after the month in which the appropriate board of trustees receives notice of the election.

SUBCHAPTER C. CREDITABLE SERVICE
Sec. 803.201. RETIREMENT ELIGIBILITY BASED ON COMBINED SERVICE CREDIT. (a) A person who has membership in two or more retirement systems to which this chapter applies is subject to the laws governing each of those systems for determination of the person's eligibility for service retirement benefits from each system, except that, for the purpose of determining whether a person meets the length-of-service requirements for service retirement of a system, the person's combined service credit must be considered as if it were all credited in each system.

(b) A person's combined service credit is useable only in determining eligibility for service retirement benefits and may not be used in determining:

(1) eligibility for disability retirement benefits, death benefits, or any type of benefit other than service retirement benefits; nor

(2) the amount of any type of benefit.

(c) A person receiving service retirement or lifetime disability retirement benefits from one or more retirement systems to which this chapter applies may use the program provided by this chapter to qualify for subsequent service retirement under another retirement system to which this chapter applies in which the person has service credit, if the person was not eligible to retire under the latter system at the time of previous service retirement, or qualification for lifetime disability retirement benefits from a retirement system to which this chapter applies, or if the person's previous retirement was not based on combined service credit.

(d) Service credit earned with or allowed by more than one retirement system to which this chapter applies for the same service may be counted only once in determining the amount of a person's combined service credit.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes,
see S.B. 1245, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 803.202. SERVICE IN CERTAIN RETIREMENT SYSTEMS. (a) The board of trustees of the Employees Retirement System of Texas by rule may:

(1) consider the classes of service in the Employees Retirement System of Texas as if they were, for purposes of this chapter, classes in separate statewide retirement systems; or

(2) permit a person who is retiring exclusively from retirement systems administered by the board to use the shortest length-of-service requirement provided for retirement in any class in which the person has service credit.

(b) A member of a retirement system administered by the board of trustees of the Employees Retirement System of Texas may reestablish service credit previously canceled in another retirement system administered by the board if the member holds a position included in the system of which the person is a member and has held the position for at least 12 months. The method of reestablishment and the amount to be deposited are as provided by the applicable law providing for reestablishment of service credit generally in the particular retirement system.

(c) A member of the Employees Retirement System of Texas who is subject to Chapter 820 is eligible to participate in the program provided by this chapter.

Amended by:
Acts 2021, 87th Leg., R.S., Ch. 940 (S.B. 321), Sec. 1, eff. September 1, 2021.

Sec. 803.203. REESTABLISHMENT OF SERVICE CREDIT BY FORMER MEMBER. (a) Except as provided by Subsection (g), a person who is a member of a retirement system participating in the program provided by this chapter may reestablish service credit, including prior service credit if applicable, previously canceled in another retirement system that is participating in the program provided by
this chapter if the person:

   (1) is not a current member of the system under which the service was performed;

   (2) in the case of the Texas County and District Retirement System, does not have an open account with the subdivision for which the person performed the service for which the credit is sought; or

   (3) in the case of an employee to whom Section 803.204 applies, does not have an open account with the employing hospital district, charitable organization, or administrative agency, as applicable, for which the person performed the service for which the credit is sought.

(b) A person may apply to reestablish service credit under this section by filing an application with the retirement system in which the service was originally credited and a certification that the applicant is currently a member of the certifying system.

(c) Except as provided by Subsection (f), the retirement system in which the service credit was originally credited shall grant the service credit after receiving an application and a certification required by Subsection (b) and:

   (1) to reestablish service credit other than in the Texas County and District Retirement System, the Texas Municipal Retirement System, or the retirement system in which a hospital district, charitable organization, or administrative agency described by Section 803.204 participates, a contribution in the amount generally required to reestablish service credit in the system, including any applicable interest and membership fees;

   (2) to reestablish service credit in the Texas County and District Retirement System, the Texas Municipal Retirement System, or the retirement system in which a hospital district, charitable organization, or administrative agency described by Section 803.204 participates, a statement that the applicant does not wish to make a contribution for the service credit; or

   (3) at the applicant's option, to reestablish current service credit in the Texas County and District Retirement System, the actuarial present value of the additional standard service benefits that would be attributable to the credit based on rates and tables recommended by the actuary and adopted by the board of trustees of the system.

(d) A subdivision participating in the Texas County and District Retirement System under Subchapter H, Chapter 844, or a
municipality participating in the Texas Municipal Retirement System may make a one-time election to authorize the reestablishment of service credit under this section by payment by an applicant of a contribution in the amount provided by Section 843.003 or 853.003, as applicable, for reestablishment of service credit generally in the particular system. If a subdivision or municipality makes an election under this subsection, the applicant has the choice of reestablishing service credit under Subsection (c)(2), (c)(3), if applicable, or this subsection.

(e) Service credit in the Texas County and District Retirement System, the Texas Municipal Retirement System, or the retirement system in which a hospital district, charitable organization, or administrative agency described by Section 803.204 participates that is reestablished under Subsection (c)(2) may be used only to meet eligibility requirements for benefits. Service credit reestablished in the Texas County and District Retirement System or the Texas Municipal Retirement System under Subsection (c)(3) or (d) has the same value as service credit performed for the particular subdivision or municipality at the time of deposit. The credit is creditable to the member's and employer's accounts in each subdivision or municipality for which the service was performed.

(f) To reestablish service credit in a public retirement system for municipal employees that has elected under Section 803.101(f) to participate in the program provided by this chapter, a person must pay the actuarial present value, as determined by the appropriate system, of the additional standard service retirement benefits that would be attributable to the credit. A person who is a member only of a system that has made an election under Section 803.101(f) must pay the actuarial present value, as determined by the appropriate system, of the additional standard service retirement benefits that would be attributable to the service credit to be reestablished in any other public retirement system participating in the program provided by this chapter.

(g) Service credit may not be reestablished under this section:
   (1) if it is subject to Section 805.002(e); or
   (2) in a subdivision participating in the Texas County and District Retirement System or a municipality participating in the Texas Municipal Retirement System if the person who seeks to reestablish the credit is a member only of a retirement system that the subdivision or municipality excludes from participation in the
proportionate retirement program under Section 803.103.

(h) This section applies to an employee described by Section 803.204 on the date the federal government establishes as the effective date of the transfer of federally qualified health center status from a municipality described by Section 803.0021(1) to a hospital district, charitable organization, or administrative agency described by Section 803.204.

Sec. 803.204. COMBINED SERVICE CREDIT IN CERTAIN SYSTEMS. (a) This section applies only to an employee who:

(1) is a member of a municipal retirement system described by Section 803.0021(1);

(2) is employed by a hospital district, a charitable organization supervised, overseen, and effectively controlled by the hospital district, or an administrative agency created under Section 791.013, either before or after being employed by the employing municipality located in the same county as the hospital district, charitable organization, or administrative agency; and

(3) participates in a public retirement system:

(A) that is determined to be a qualified plan under Section 401(a), Internal Revenue Code of 1986 (26 U.S.C. Section 401(a)), of a hospital district, charitable organization, or administrative agency that is determined to be a governmental unit, or an agency or an instrumentality of a governmental unit; and

(B) that records and reports service credit as defined by Section 803.001.

(b) Any service credit earned by an employee described by Subsection (a) with a retirement system established by the hospital district, charitable organization, or administrative agency will be combined under Section 803.201 to determine whether the employee meets the length-of-service requirements for service retirement under the municipal retirement system.

(c) On retirement, an employee described by Subsection (a) will
receive a benefit from the municipal retirement system as determined by Subchapter D, and if the hospital district or administrative agency has established or participates in a retirement program or the charitable organization has a retirement plan, will receive a benefit from the hospital district, administrative agency, or charitable organization as determined by the terms of the district's, agency's, or organization's retirement plan.

(d) For purposes of this section, a charitable organization supervised, overseen, and effectively controlled by a hospital district or an administrative agency created under Section 791.013 is an agency or instrumentality of a governmental unit.

Added by Acts 2007, 80th Leg., R.S., Ch. 164 (S.B. 1107), Sec. 1, eff. September 1, 2007.
Amended by:
Acts 2009, 81st Leg., R.S., Ch. 217 (S.B. 1063), Sec. 2, eff. May 27, 2009.

**SUBCHAPTER D. BENEFITS**

Sec. 803.301. COMPUTATION OF BENEFITS GENERALLY. The amount of a benefit payable by a retirement system to which this chapter applies is determined according to and in the manner prescribed by laws governing that system and is based solely on a person's service credit in that system.

Sec. 803.302. COMPUTATION OF CERTAIN BENEFITS. (a) If payable to or on behalf of a person who has used combined service credit to qualify for benefits from at least one retirement system to which this chapter applies, each of the following types of benefits must be computed as provided by Subsection (b):

(1) a base retirement annuity that does not vary in amount directly with the amount of a person's service credit;

(2) a fixed lump-sum death benefit payable on the death of a retiree;
(3) any death benefit payable on the death of a retiree who received service retirement benefits; and

(4) a survivor benefit payable to a beneficiary of a deceased retiree of the Teacher Retirement System of Texas.

(b) The amount of a benefit payable under Subsection (a) by a retirement system to which this chapter applies is a percentage, but not more than 100 percent, of the benefit that would be or would have been payable if the person retired or had retired on the basis of only the service that is credited in that system. The percentage applied is equal to the amount of service credit in that system, divided by the amount of service credit that would be or would have been required for the benefit if the person retired or had retired on the basis of only the service that is credited in that system.

SUBCHAPTER E. ADMINISTRATION

Sec. 803.401. ADMINISTRATION OF PROGRAM. (a) The board of trustees of each retirement system to which this chapter applies may adopt rules it finds necessary to implement the proportionate retirement program provided by this chapter.

(b) Each retirement system to which this chapter applies, under this chapter and other laws governing the particular system, is responsible for determining:

(1) the eligibility of its members for benefits, including whether sufficient combined service credit exists to qualify members for proportionate retirement benefits from that system; and

(2) the amount and duration of proportionate retirement benefits payable by that system.

(c) Each retirement system to which this chapter applies shall cooperate with the other retirement systems to which this chapter applies in the implementation of the proportionate retirement program.

Sec. 803.402. RECORDS. Except as provided by other law, records of members and beneficiaries of a retirement system to which this chapter applies that are in the custody of any retirement system to which this chapter applies are confidential and not subject to disclosure and are exempt from the public access provisions of Chapter 552. The records or information in the records may be transferred between retirement systems to which this chapter applies to the extent necessary to administer the proportionate retirement program provided by this chapter.

CHAPTER 804. DOMESTIC RELATIONS ORDERS AND SPOUSAL CONSENT

SUBCHAPTER A. QUALIFIED DOMESTIC RELATIONS ORDERS

Sec. 804.001. DEFINITIONS. In this chapter:

1) "Alternate payee" means a spouse, former spouse, child, or other dependent of a member or retiree who is recognized by a domestic relations order as having a right to receive all or a portion of the benefits payable by a public retirement system with respect to such member or retiree.

2) "Domestic relations order" means any judgment, decree, or order, including approval of a property settlement agreement, which relates to the provision of child support, alimony payments, or marital property rights to a spouse, former spouse, child, or other dependent of a member or retiree, and is made pursuant to a domestic relations law, including a community property law of the State of Texas or of another state.

3) "Public retirement system" means the Employees
Retirement System of Texas, the Judicial Retirement System of Texas Plan One, the Judicial Retirement System of Texas Plan Two, the Teacher Retirement System of Texas, the Texas County and District Retirement System, the Texas Municipal Retirement System, and any other continuing, organized program of service retirement, disability retirement, or death benefits for officers or employees of the state or a political subdivision or of an agency or instrumentality of the state or a political subdivision and includes the optional retirement program governed by Chapter 830. Public retirement system does not include:

(A) a program, other than the optional retirement program, for which benefits are administered by a life insurance company;

(B) a program providing only workers' compensation benefits;

(C) a program administered by the federal government;

(D) an individual retirement account or individual retirement annuity within the meaning of Section 408, or a retirement bond within the meaning of Section 409, of the Internal Revenue Code of 1986;

(E) a plan described by Subsection (d) of Section 401 of the Internal Revenue Code of 1986;

(F) a group or an individual account plan consisting of an annuity contract described by Subsection (b) of Section 403 of the Internal Revenue Code of 1986, other than a 403(b) contract or plan under the optional retirement program;

(G) an eligible state deferred compensation plan described by Subsection (b) of Section 457 of the Internal Revenue Code of 1986; or

(H) the program established by Chapter 615.

(4) "Qualified domestic relations order" means a domestic relations order which creates or recognizes the existence of an alternate payee's right or assigns to an alternate payee the right to receive all or a portion of the benefits payable with respect to a member or retiree under a public retirement system, which directs the public retirement system to disburse benefits to the alternate payee, and which meets the requirements of Section 804.003.

(5) "Statewide retirement system" means the Employees Retirement System of Texas, the Judicial Retirement System of Texas Plan One, the Judicial Retirement System of Texas Plan Two, the
Teacher Retirement System of Texas, the Texas County and District Retirement System, or the Texas Municipal Retirement System.

Sec. 804.002. APPLICATION OF CHAPTERS. This subchapter and Subchapter C apply to each statewide retirement system and to the optional retirement program governed by Chapter 830. This subchapter and Subchapter C also apply to each other public retirement system for which the board of trustees of the system elects to adopt the provisions of this subchapter and Subchapter C. An election under this section must be by order or resolution and need not set out the text of this subchapter or Subchapter C. A board of trustees may not elect to adopt only this subchapter or Subchapter C.

Added by Acts 1991, 72nd Leg., ch. 16, Sec. 11.02(a), eff. Aug. 26, 1991.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 729 and S.B. 1245, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 804.003. QUALIFIED DOMESTIC RELATIONS ORDERS. (a) Sections 811.005, 821.005, 831.004, 836.004, 841.006, and 851.006 and any similar antialienation provisions contained in any other public retirement system shall apply to the creation, assignment, recognition, or enforcement of a right to any benefit payable with respect to a member or retiree of a public retirement system to which the section applies pursuant to a domestic relations order unless the order is determined to be a qualified domestic relations order.

(b) Except as provided in Subsection (d), the administrative head of a public retirement system to which this chapter applies and to which a domestic relations order is submitted or his designee has exclusive authority to determine whether a domestic relations order is a qualified domestic relations order. A determination by the administrative head or his designee under this section may be
appealed only to the board of trustees of the public retirement system. An appeal to the board of trustees of a statewide retirement system is a contested case under Chapter 2001. However, the board of a statewide retirement system by rule may waive the requirement of an appeal to the board. On appeal of a decision made by the board of trustees or by the administrative head if there is no appeal to the board under this section, the standard of review is by substantial evidence.

(c) Except as provided in Subsection (d), a court does not have jurisdiction over a public retirement system to which this chapter applies with respect to a divorce or other domestic relations action in which an alternate payee's right to receive all or a portion of the benefits payable to a member or retiree under the public retirement system is created or established. A party to such an action who attempts to make a public retirement system a party to the action contrary to the provision of this subsection shall be liable to the public retirement system for its costs and attorney's fees.

(d) Under the optional retirement program, applicable carriers shall determine whether a domestic relations order is a qualified domestic relations order. If a dispute arises over the determination of whether a domestic relations order is a qualified domestic relations order which cannot be resolved by the procedure described in Subsection (g), the court which issued the order or which otherwise has jurisdiction over the matter shall resolve the dispute with respect to a divorce or other domestic relations action in which an alternate payee's right to receive all or a portion of the benefits payable to a member or retiree under the optional retirement program is created or established.

(e) For the purposes of this section, benefits payable with respect to a member or retiree under the retirement system include the types of benefits payable by a public retirement system and a withdrawal of contributions from a public retirement system.

(f) A domestic relations order is a qualified domestic relations order only if such order:

(1) clearly specifies the:
   (A) name and last known mailing address of:
       (i) the member or retiree; and
       (ii) each alternate payee covered by the order; and
   (B) social security number, or an express authorization for the parties to use an alternate method acceptable to the public
the social security number, of the member or retiree and each alternate payee covered by the order;

(2) clearly specifies the amount or percentage of the member's or retiree's benefits to be paid by a public retirement system to each such alternate payee or the manner in which such amount or percentage is to be determined;

(3) clearly specifies the number of payments or the period to which such order applies;

(4) clearly specifies that such order applies to a designated public retirement system;

(5) does not require the public retirement system to provide any type or form of benefit or any option not otherwise provided under the plan;

(6) does not require the public retirement system to provide increased benefits determined on the basis of actuarial value;

(7) does not require the payment of benefits to an alternate payee which are required to be paid to another alternate payee under another order previously determined to be a qualified domestic relations order; and

(8) does not require the payment of benefits to an alternate payee before the retirement of a member, the distribution of a withdrawal of contributions to a member, or other distribution to a member required by law.

(g) A public retirement system may reject a domestic relations order as a qualified domestic relations order unless the order:

(1) provides for a proportional reduction of the amount awarded to an alternate payee in the event of the retirement of the member before normal retirement age;

(2) does not purport to require the designation of a particular person as the recipient of benefits in the event of a member's or annuitant's death;

(3) does not purport to require the selection of a particular benefit payment plan or option;

(4) provides clearly for each possible benefit distribution under plan provisions;

(5) does not require any action on the part of the retirement system contrary to its governing statutes or plan provision other than the direct payment of the benefit awarded to an alternate payee;
(6) does not make the award of an interest contingent on any condition other than those conditions resulting in the liability of a retirement system for payments under its plan provisions;

(7) does not purport to award any future benefit increases that are provided or required by the legislature;

(8) provides for a proportional reduction of the amount awarded to an alternate payee in the event that benefits available to the retiree or member are reduced by law; and

(9) if required by the retirement system, conforms to a model order adopted by the retirement system.

(h) The administrative head of a public retirement system to which this chapter applies or his designee (or applicable carrier, if under the optional retirement program), upon receipt of a certified copy of a domestic relations order, shall determine whether such order is a qualified domestic relations order and shall notify the member or retiree and each alternate payee of such determination. If the order is determined to be a qualified domestic relations order, the public retirement system (or applicable carrier, if under the optional retirement program), shall pay benefits in accordance with the order. If the order is determined not to be a qualified domestic relations order, the member or retiree or any alternate payee named in the order may appeal the administrative head's determination in the manner specified in Subsection (b) or the optional retirement program carrier's determination in the manner specified in Subsection (d) and may petition the court which issued the order to amend the order so that it will be qualified. The court which issued the order or which would otherwise have jurisdiction over the matter has jurisdiction to amend the order so that it will be qualified even though all other matters incident to the action or proceeding have been fully and finally adjudicated.

(i) During any period in which the issue of whether a domestic relations order is a qualified domestic relations order is being determined by the agency administrative head, his designee, the board of trustees, a court of competent jurisdiction, optional retirement program carrier, or otherwise, the public retirement system shall separately account for the amounts, in this section referred to as the "segregated amounts," which would have been payable to the alternate payee during such period if the order had been determined to be a qualified domestic relations order.

(j) If a domestic relations order is determined to be a qualified domestic relations order, the public retirement system (or applicable carrier, if under the optional retirement program), shall pay benefits in accordance with the order. If the order is determined not to be a qualified domestic relations order, the member or retiree or any alternate payee named in the order may appeal the administrative head's determination in the manner specified in Subsection (b) or the optional retirement program carrier's determination in the manner specified in Subsection (d) and may petition the court which issued the order to amend the order so that it will be qualified.
qualified domestic relations order, then the public retirement system
(or applicable carrier, if under the optional retirement program)
shall pay the segregated amounts without interest to the person or
persons entitled thereto and shall thereafter pay benefits pursuant
to the order.

(k) If a domestic relations order is determined not to be a
qualified domestic relations order or if within 18 months of the date
a domestic relations order is received by the public retirement
system (or applicable carrier, if under the optional retirement
program) the issue as to whether such order is a qualified domestic
relations order is not resolved, then the public retirement system
(or applicable carrier, if under the optional retirement program)
shall pay the segregated amounts without interest and shall
thereafter pay benefits to the person or persons who would have been
entitled to such amounts if there had been no order. This subsection
shall not be construed to limit or otherwise affect any liability,
responsibility, or duty of a party with respect to any other party to
the action out of which the order arose.

(l) Any determination that an order is a qualified domestic
relations order which is made after the close of the 18-month period
shall be applied prospectively only.

(m) The public retirement system, the board of trustees, and
officers and employees of the public retirement system (or applicable
carrier, if under the optional retirement program) shall not be
liable to any person for making payments of any benefits in
accordance with a domestic relations order in a cause in which a
member or a retiree was a party or for making payments in accordance
with Subsection (k).

(n) The board of trustees of a public retirement system may
promulgate rules it deems necessary to implement the provisions of
this section.

(o) Except as specifically provided in this subtitle or by any
other statute, public employment does not confer special privileges
or immunities on a public employee. An ownership or beneficial
interest in any retirement, pension, or other financial plan not
included in the definition of "public retirement system" as set forth
in Section 804.001 held in whole or in part by an officer or employee
of the state or a political subdivision or of an agency or an
instrumentality of either, whether obtained in connection with that
employment or otherwise, shall be subject to the requirements of the
federal laws governing qualified domestic relations orders.

(p) A public retirement system may assess administrative fees on a party who is subject to a domestic relations order for the review of the order under this subchapter and, as applicable, for the administration of payments under an order that is determined to be qualified. In addition to other methods of collecting fees that a retirement system may establish, the retirement system may deduct fees from payments made under the order.

Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 455 (S.B. 1667), Sec. 5, eff. September 1, 2011.

Sec. 804.004. LIFE ANNUITY OR LUMP-SUM PAYMENT IN LIEU OF BENEFITS AWARDED BY A QUALIFIED DOMESTIC RELATIONS ORDER. (a) The board of trustees of a public retirement system to which this chapter applies may by rule provide that, in lieu of paying an alternate beneficiary the interest awarded by a qualified domestic relations order, the system may pay the alternate beneficiary an amount that is the actuarial equivalent of such interest in the form of:

(1) an annuity payable in equal monthly installments for the life of the alternate payee; or

(2) a lump sum.

(b) The determination of whether to pay an amount authorized by this section in lieu of the interest awarded by the qualified domestic relations order shall be at the sole discretion of the public retirement system.

(c) If a public retirement system elects to pay the alternate payee pursuant to this section, the benefit payable by the system to the member, retiree, or beneficiary shall be reduced by the interest in the benefit awarded to the alternate payee by the qualified domestic relations order.

(d) If the public retirement system pays the alternate payee pursuant to this section, the retirement system shall be entitled to rely on a beneficiary designation or benefit option selection made or changed pursuant to its plan without regard to any domestic relations
Sec. 804.005. PAYMENT IN CERTAIN CIRCUMSTANCES IN LIEU OF BENEFITS AWARDED BY QUALIFIED DOMESTIC RELATIONS ORDER. (a) This section applies only to the Employees Retirement System of Texas and the Teacher Retirement System of Texas.

(b) A public retirement system to which this section applies shall pay an alternate payee of a member of the retirement system who is described by Subsection (c), if the alternate payee so elects and in lieu of the interest awarded by a qualified domestic relations order on or after January 1, 1985, an amount that is the alternate payee's portion of the actuarial equivalent of the accrued retirement benefit of the member of the retirement system, determined as if the member retired on the date of the alternate payee's election. The amount becomes payable at the time the actuarial equivalent is determined, and the amount is payable in the form of an annuity payable in equal monthly installments for the life of the alternate payee.

(c) A member whose benefits are subject to partial payment under this section is one who has not retired from the retirement system, has attained the greater of the age of 62 or normal retirement age and the service requirements for service retirement, and retains credit and contributions in the retirement system attributable to that service.

(d) If an alternate payee elects to be paid under this section, the retirement system shall reduce the benefit payable by the system to the member or the member's beneficiary by the alternate payee's portion of the actuarial equivalent determined under Subsection (b).

(e) In determining under Subsection (b) the actuarial equivalent of an accrued retirement benefit, the system shall consider the member's benefit as a normal age standard service retirement annuity, without regard to any optional annuity chosen or beneficiary designated by the member.

(f) The beginning of monthly payments under this section terminates any interest that the alternate payee who receives the payment might otherwise have in benefits that accrue to the account.
of the member after the date the initial payment to the alternate payee is made.

(g) A public retirement system may adopt rules for administration of this section.

Added by Acts 1993, 73rd Leg., ch. 867, Sec. 1, eff. Sept. 1, 1993.

SUBCHAPTER B. SPOUSAL CONSENT REQUIREMENTS

Sec. 804.051. AUTHORITY TO REQUIRE SPOUSAL CONSENT. A public retirement system may adopt rules to require spousal consent for the selection of a service retirement annuity other than a joint and survivor annuity that pays benefits to the member's spouse on the death of the member or for the selection of a death benefits plan that pays benefits in the form of an annuity to a person other than the member's spouse on the death of the member.

Added by Acts 1991, 72nd Leg., ch. 16, Sec. 11.02(a), eff. Aug. 26, 1991.

SUBCHAPTER C. TERMINATION OF INTEREST IN PUBLIC RETIREMENT SYSTEM

Sec. 804.101. TERMINATION OF INTEREST IN PUBLIC RETIREMENT SYSTEM. The death of an alternate payee as defined in Section 804.001 or the death of a spouse of a member or retiree of a public retirement system to which this chapter applies shall terminate the interest of the alternate payee or spouse in that public retirement system. This section shall not affect an interest in a public retirement system accrued to an individual as a member of the public retirement system.

Added by Acts 1991, 72nd Leg., ch. 16, Sec. 11.02(a), eff. Aug. 26, 1991.

CHAPTER 805. CREDIT TRANSFER BETWEEN EMPLOYEES RETIREMENT SYSTEM OF TEXAS AND TEACHER RETIREMENT SYSTEM OF TEXAS

Sec. 805.001. DEFINITIONS. In this chapter:

(1) "Employees retirement system" means the Employees Retirement System of Texas.

(2) "Member" means a person having membership in the
employees retirement system or the teacher retirement system under statutes and rules governing membership in the respective systems.

(3) "Service credit" has the meaning assigned, as applicable, by Section 811.001 or Section 821.001.

(4) "System" means the employees retirement system or the teacher retirement system.

(5) "Teacher retirement system" means the Teacher Retirement System of Texas.

Added by Acts 1993, 73rd Leg., ch. 791, Sec. 2, eff. June 18, 1993.

Sec. 805.0015. APPLICABILITY. This chapter does not apply to a member of the employees retirement system who is subject to Chapter 820.

Added by Acts 2021, 87th Leg., R.S., Ch. 940 (S.B. 321), Sec. 2, eff. September 1, 2021.

Sec. 805.002. ELIGIBILITY TO TRANSFER SERVICE CREDIT. (a) Except as provided by Subsection (h), a member of both the employees retirement system and the teacher retirement system who applies for service or disability retirement from either system may transfer to that system service credit established in the other system if the member has at least three years of service credit in the system from which the member is retiring. If a person whose membership was transferred from the teacher retirement system to the employees retirement system pursuant to Section 43(a), Chapter 812, Acts of the 73rd Legislature, 1993, ceases to hold any position included in the membership of the employees retirement system before the earlier of the date the person retires or dies, the person's service credit accrued in the teacher retirement system before the date the membership was transferred remains credited in that system, unless the person has withdrawn contributions made for the service.

(b) Except as provided by Subsection (h), a member of both the employees retirement system and the teacher retirement system who has less than three years of service credit in the system in which the person most recently received service credit and at least three years of service credit in the other system may, at the time the person applies for service or disability retirement, transfer service credit
to the other system from the system in which the person most recently received service credit.

(c) Except as provided by Subsections (e) and (f), a member of the employees retirement system or the teacher retirement system who formerly was a member of the other system may reinstate or purchase service credit in the other system for the purpose of making a transfer under Subsection (a) if the member has at least three years of service credit in the system in which the person currently is a member. Except as provided by Subsections (e) and (f), a member of the employees retirement system or the teacher retirement system who formerly was a member of the other system, who before September 1, 1993, transferred at least three years of service credit to the system in which the person currently is a member, and who has at least three years of service credit other than the transferred credit in the system in which the person currently is a member may reinstate or purchase service credit in the other system for the purpose of making a transfer of all service credit to that other system.

(d) Except as provided by Subsections (e) and (f), the designated beneficiary of a member of the employees retirement system or the teacher retirement system who dies while holding a position included in the membership of the system may make a transfer under Subsection (a) and a reinstatement or purchase under Subsection (c) if the deceased member had at least three years of service credit in the system in which the member was performing service at the time of death. The designated beneficiary may make a transfer under Subsection (b) if the deceased member had less than three years of service credit in the system in which the member was performing service at the time of death. If a member is not survived by a designated beneficiary, an alternate beneficiary, or a beneficiary provided by law or has failed to designate a beneficiary after becoming a member or resuming membership, the personal representative of the member's estate has the same right under this subsection as a designated beneficiary. A transfer of service by the beneficiary or personal representative of a deceased member's estate is not permitted unless the transfer will result in the payment of a death benefit annuity.

(f) A person who is receiving retirement benefits based on the person's service credited in one system and who applies for service
or disability retirement from the other system is not eligible to transfer service credit under this chapter. The designated beneficiary, or the personal representative of the estate, of a person who at the time of death was receiving benefits based on the person's service credited in one system and who held a position included in the other system is not eligible to transfer service credit under this chapter.

(g) To be eligible to make a transfer pursuant to Subsection (d), a person must be the same beneficiary under both retirement systems, except that if the only service credited in the system from which service is being transferred is reinstated service and no beneficiary designation was made at or after the time of reinstatement, the beneficiary in the receiving system may make the election.

(h) A member applying for occupational disability retirement from the employees retirement system may transfer service credit from the teacher retirement system only if the member was contributing to the employees retirement system at the time the disabling condition occurred.

Sec. 805.003. PAYMENTS TO REINSTATE OR PURCHASE SERVICE CREDIT. The cost of reinstating or purchasing service credit under Section 805.002 is determined according to the statutes that govern the reinstatement or purchase of the type of service credit in the system in which it is to be reinstated or purchased. All payments for service credit reinstated or purchased under Section 805.002 must be made before retirement or the first payment of a death benefit annuity, as applicable, or before a later date if allowed for members of the retirement system in which the credit is to be reinstated or purchased.

Sec. 805.004. TRANSFER OF SERVICE CREDIT. (a) A person who elects to transfer service credit under Section 805.002 shall notify, in the manner required by the system to which the credit will be transferred, the system of the election. The system shall notify the other system of the election.

(b) The systems by rule or agreement shall determine the manner in which the service credit is transferred.

(c) A transfer of service credit under this chapter cancels service credit and, if applicable, membership in the system from which it is transferred.

Added by Acts 1993, 73rd Leg., ch. 791, Sec. 2, eff. June 18, 1993.

Sec. 805.005. APPLICABILITY OF PROPORTIONATE RETIREMENT PROGRAM. An election to transfer service credit under Section 805.002 is an alternative to participation in the program provided by Chapter 803, except that a person having service credit in the employees retirement system, the teacher retirement system, and another public retirement system participating in that program may transfer service credit under this chapter, if eligible, and use the combined service credit for purposes of the program provided by Chapter 803.

Added by Acts 1993, 73rd Leg., ch. 791, Sec. 2, eff. June 18, 1993.

Sec. 805.006. CREDITING OF TRANSFERRED SERVICE CREDIT; REFUND. (a) Except as provided by Subsections (b) and (c), service credit transferred under this chapter is credited in the system to which it is transferred according to rules of the teacher retirement system determining the amount of service creditable.

(b) Not more than one month of service credit may be granted for service during that month.

(c) A person who transfers service credit under this chapter may not receive service credit for all military service performed in an amount that exceeds the maximum amount creditable in the system to which credit is transferred. A person is eligible for a refund from the system from which credit is transferred under this section of contributions made for military service credit, other than any amount that represents a fee, that exceeds the maximum amount creditable.
Sec. 805.007. EFFECT OF TRANSFER OF SERVICE CREDIT. (a) A person who transfers service credit under this chapter forfeits all rights to benefits payable by the system from which it is transferred and is not an annuitant of that system for any purpose, including the payment of postretirement increases to annuitants of that system. This subsection does not preclude a person from receiving benefits as a beneficiary of an account not related to the transferred service credit.

(b) Service credit transferred under this chapter is considered as if it had been granted for service performed under the system to which it has been transferred and is used in satisfying minimum service requirements for retirement and in determining the amount of benefits that are based on the amount of a person's service credit:

(1) except that a person's average salary for the purpose of computing an annuity may be determined only from service credit that was originally established in one system and that results in the higher average salary;

(2) except as provided by Section 805.006; and

(3) except service credit transferred by a member applying for occupational disability retirement.

Sec. 805.008. RESPONSIBILITY FOR BENEFIT PAYMENTS. (a) Except as provided by Subsection (c), the system from which a person's service credit is transferred under this chapter shall transfer to the other system, at the time the annuity based on the service credit becomes payable, an amount equal to the portion of the actuarial value of the annuity that represents the percentage of the total amount of the person's service credited in both systems that was credited in the system from which the credit is being transferred.

(b) Except as provided by Subsection (c), the systems jointly by rule shall adopt actuarial tables and investment assumptions to be used in computing actuarial values under this section.

(c) As an alternative to Subsections (a) and (b) and except as
provided by Subsection (h), the systems by rule may require the system from which service credit is transferred to pay monthly an amount equal to the portion of the actual value of the monthly payment of the annuity that represents the percentage of the total amount of service credit that is transferred.

(d) For the purpose of computing an amount to be transferred under this section, service credit in either system must be considered as if it were credited under rules of the teacher retirement system determining the amount of service creditable.

(e) An amount transferred under this section is payable from amounts credited to the person's individual account and amounts credited to the account in which the system places state contributions. Except as provided by Subsection (g), an amount received under this section shall be deposited in the account from which the system receiving the amount pays annuities.

(f) The system to which a transfer is made under this section is responsible for paying the annuity for which the transfer was made, including the entire amount of any increase in the annuity granted after the transfer.

(g) At the time of the death of a person whose membership was transferred from the teacher retirement system to the employees retirement system pursuant to Section 43(a), Chapter 812, Acts of the 73rd Legislature, 1993, the teacher retirement system shall transfer to the employees retirement system the person's service credit in the teacher retirement system and, if employment with the transferring agency was continuous from the date of transfer to the date of death:

(1) an amount determined under Subsections (a) and (b) or under Subsection (c), if an annuity is paid under Chapter 814; or

(2) the amount of money in the member savings account plus an amount equal to five percent of the person's account balance for each full year of service credited in the teacher retirement system, if a death benefit other than an annuity is paid under Chapter 814.

(h) If a person elects to receive a partial lump-sum payment under the law governing the system from which the person is retiring, a transfer of an amount equal to the portion of the actual value of a lump-sum payment that represents the percentage of the amount of service credit transferred shall be made at the time the lump-sum payment is made.

Added by Acts 1993, 73rd Leg., ch. 791, Sec. 2, eff. June 18, 1993.
Sec. 805.009. RULES. In addition to the rules specifically required by this chapter, a system may adopt other rules for the administration of this chapter.

Added by Acts 1993, 73rd Leg., ch. 791, Sec. 2, eff. June 18, 1993.

SUBCHAPTER B. DUTIES REGARDING INVESTMENTS

Sec. 808.051. LISTED COMPANIES. (a) The comptroller shall prepare and maintain, and provide to each state governmental entity, a list of all companies that boycott Israel. In maintaining the list, the comptroller may review and rely, as appropriate in the comptroller's judgment, on publicly available information regarding companies, including information provided by the state, nonprofit organizations, research firms, international organizations, and governmental entities.

(b) The comptroller shall update the list annually or more often as the comptroller considers necessary, but not more often than quarterly, based on information from, among other sources, those listed in Subsection (a).

(c) Not later than the 30th day after the date the list of companies that boycott Israel is first provided or updated, the comptroller shall file the list with the presiding officer of each house of the legislature and the attorney general and post the list on a publicly available website.

Added by Acts 2017, 85th Leg., R.S., Ch. 1 (H.B. 89), Sec. 2, eff. September 1, 2017.

Sec. 808.052. IDENTIFICATION OF INVESTMENT IN LISTED COMPANIES. Not later than the 30th day after the date a state governmental
entity receives the list provided under Section 808.051, the state governmental entity shall notify the comptroller of the listed companies in which the state governmental entity owns direct holdings or indirect holdings.

Added by Acts 2017, 85th Leg., R.S., Ch. 1 (H.B. 89), Sec. 2, eff. September 1, 2017.

Sec. 808.053. ACTIONS RELATING TO LISTED COMPANY. (a) For each listed company identified under Section 808.052, the state governmental entity shall send a written notice:

(1) informing the company of its status as a listed company;

(2) warning the company that it may become subject to divestment by state governmental entities after the expiration of the period described by Subsection (b); and

(3) offering the company the opportunity to clarify its Israel-related activities.

(b) Not later than the 90th day after the date the company receives notice under Subsection (a), the company must cease boycotting Israel in order to avoid qualifying for divestment by state governmental entities.

(c) If, during the time provided by Subsection (b), the company ceases boycotting Israel, the comptroller shall remove the company from the list maintained under Section 808.051 and this chapter will no longer apply to the company unless it resumes boycotting Israel.

(d) If, after the time provided by Subsection (b) expires, the company continues to boycott Israel, the state governmental entity shall sell, redeem, divest, or withdraw all publicly traded securities of the company, except securities described by Section 808.055, according to the schedule provided by Section 808.054.

Added by Acts 2017, 85th Leg., R.S., Ch. 1 (H.B. 89), Sec. 2, eff. September 1, 2017.

Sec. 808.054. DIVESTMENT OF ASSETS. (a) A state governmental entity required to sell, redeem, divest, or withdraw all publicly traded securities of a listed company shall comply with the following schedule:

Statute text rendered on: 5/30/2023 - 5328 -
(1) at least 50 percent of those assets must be removed from the state governmental entity's assets under management not later than the 180th day after the date the company receives notice under Section 808.053 or Subsection (b) unless the state governmental entity determines, based on a good faith exercise of its fiduciary discretion and subject to Subdivision (2), that a later date is more prudent; and

(2) 100 percent of those assets must be removed from the state governmental entity's assets under management not later than the 360th day after the date the company receives notice under Section 808.053 or Subsection (b).

(b) If a company that ceased boycotting Israel after receiving notice under Section 808.053 resumes its boycott, the state governmental entity shall send a written notice to the company informing it that the state governmental entity will sell, redeem, divest, or withdraw all publicly traded securities of the company according to the schedule in Subsection (a).

(c) Except as provided by Subsection (a), a state governmental entity may delay the schedule for divestment under that subsection only to the extent that the state governmental entity determines, in the state governmental entity's good faith judgment, and consistent with the entity's fiduciary duty, that divestment from listed companies will likely result in a loss in value or a benchmark deviation described by Section 808.056(a). If a state governmental entity delays the schedule for divestment, the state governmental entity shall submit a report to the presiding officer of each house of the legislature and the attorney general stating the reasons and justification for the state governmental entity's delay in divestment from listed companies. The report must include documentation supporting its determination that the divestment would result in a loss in value or a benchmark deviation described by Section 808.056(a), including objective numerical estimates. The state governmental entity shall update the report every six months.

Added by Acts 2017, 85th Leg., R.S., Ch. 1 (H.B. 89), Sec. 2, eff. September 1, 2017.

Sec. 808.055. INVESTMENTS EXEMPTED FROM DIVESTMENT. A state governmental entity is not required to divest from any indirect
holdings in actively or passively managed investment funds or private equity funds. The state governmental entity shall submit letters to the managers of each investment fund containing listed companies requesting that they remove those companies from the fund or create a similar actively or passively managed fund with indirect holdings devoid of listed companies. If a manager creates a similar fund with substantially the same management fees and same level of investment risk and anticipated return, the state governmental entity may replace all applicable investments with investments in the similar fund in a time frame consistent with prudent fiduciary standards but not later than the 450th day after the date the fund is created.

Added by Acts 2017, 85th Leg., R.S., Ch. 1 (H.B. 89), Sec. 2, eff. September 1, 2017.

Sec. 808.056. AUTHORIZED INVESTMENT IN LISTED COMPANIES. (a) A state governmental entity may cease divesting from one or more listed companies only if clear and convincing evidence shows that:

(1) the state governmental entity has suffered or will suffer a loss in the hypothetical value of all assets under management by the state governmental entity as a result of having to divest from listed companies under this chapter; or

(2) an individual portfolio that uses a benchmark-aware strategy would be subject to an aggregate expected deviation from its benchmark as a result of having to divest from listed companies under this chapter.

(b) A state governmental entity may cease divesting from a listed company as provided by this section only to the extent necessary to ensure that the state governmental entity does not suffer a loss in value or deviate from its benchmark as described by Subsection (a).

(c) Before a state governmental entity may cease divesting from a listed company under this section, the state governmental entity must provide a written report to the comptroller, the presiding officer of each house of the legislature, and the attorney general setting forth the reason and justification, supported by clear and convincing evidence, for deciding to cease divestment or to remain invested in a listed company.

(d) The state governmental entity shall update the report
required by Subsection (c) semiannually, as applicable.

(e) This section does not apply to reinvestment in a company that is no longer a listed company.

Added by Acts 2017, 85th Leg., R.S., Ch. 1 (H.B. 89), Sec. 2, eff. September 1, 2017.

Sec. 808.057. PROHIBITED INVESTMENTS. Except as provided by Section 808.056, a state governmental entity may not acquire securities of a listed company.

Added by Acts 2017, 85th Leg., R.S., Ch. 1 (H.B. 89), Sec. 2, eff. September 1, 2017.

SUBCHAPTER C. REPORT; ENFORCEMENT

Sec. 808.101. REPORT. Not later than January 5 of each year, each state governmental entity shall file a publicly available report with the presiding officer of each house of the legislature and the attorney general that:

(1) identifies all securities sold, redeemed, divested, or withdrawn in compliance with Section 808.054;

(2) identifies all prohibited investments under Section 808.057; and

(3) summarizes any changes made under Section 808.055.

SUBCHAPTER A. GENERAL PROVISIONS
Sec. 809.001. DEFINITIONS. In this chapter:

(1) "Boycott energy company" means, without an ordinary business purpose, refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company:

(1) review and rely, as appropriate in the comptroller's judgment, on publicly available information regarding financial companies, including information provided by the state, nonprofit organizations, research firms, international organizations, and governmental entities; and

(2) request written verification from a financial company that it does not boycott energy companies and rely, as appropriate in the comptroller's judgment and without conducting further investigation, research, or inquiry, on a financial company's written response to the request.

(b) A financial company that fails to provide to the comptroller a written verification under Subsection (a)(2) before the 61st day after receiving the request from the comptroller is presumed to be boycotting energy companies.

(c) The comptroller shall update the list annually or more often as the comptroller considers necessary, but not more often than quarterly, based on information from, among other sources, those listed in Subsection (a).

(d) Not later than the 30th day after the date the list of financial companies that boycott energy companies is first provided or updated, the comptroller shall file the list with the presiding officer of each house of the legislature and the attorney general and post the list on a publicly available Internet website.

(1) informing the financial company of its status as a listed financial company;

(2) warning the financial company that it may become subject to divestment by state governmental entities after the expiration of the period described by Subsection (b); and

(3) offering the financial company the opportunity to clarify its activities related to companies described by Sections 809.001(1)(A) and (B).

(b) Not later than the 90th day after the date the financial company receives notice under Subsection (a), the financial company must cease boycotting energy companies in order to avoid qualifying for divestment by state governmental entities.

(c) If, during the time provided by Subsection (b), the financial company ceases boycotting energy companies, the comptroller shall remove the financial company from the list maintained under Section 809.051 and this chapter will no longer apply to the financial company unless it resumes boycotting energy companies.

(d) If, after the time provided by Subsection (b) expires, the financial company continues to boycott energy companies, the state governmental entity shall sell, redeem, divest, or withdraw all publicly traded securities of the financial company, except securities described by Section 809.055, according to the schedule provided by Section 809.054.

(1) at least 50 percent of those assets must be removed from the state governmental entity's assets under management not later than the 180th day after the date the financial company receives notice under Section 809.053 or Subsection (b) unless the state governmental entity determines, based on a good faith exercise of its fiduciary discretion and subject to Subdivision (2), that a later date is more prudent; and

(2) 100 percent of those assets must be removed from the state governmental entity's assets under management not later than the 360th day after the date the financial company receives notice under Section 809.053 or Subsection (b).

(b) If a financial company that ceased boycotting energy companies after receiving notice under Section 809.053 resumes its boycott, the state governmental entity shall send a written notice to the financial company informing it that the state governmental entity will sell, redeem, divest, or withdraw all publicly traded securities of the financial company according to the schedule in Subsection (a).

(c) Except as provided by Subsection (a), a state governmental entity may delay the schedule for divestment under that subsection only to the extent that the state governmental entity determines, in the state governmental entity's good faith judgment, and consistent with the entity's fiduciary duty, that divestment from listed financial companies will likely result in a loss in value or a benchmark deviation described by Section 809.056(a). If a state governmental entity delays the schedule for divestment, the state governmental entity shall submit a report to the presiding officer of each house of the legislature and the attorney general stating the reasons and justification for the state governmental entity's delay in divestment from listed financial companies. The report must include documentation supporting its determination that the divestment would result in a loss in value or a benchmark deviation described by Section 809.056(a), including objective numerical estimates. The state governmental entity shall update the report every six months.

A state governmental entity is not required to divest from any indirect holdings in actively or passively managed investment funds or private equity funds. The state governmental entity shall submit letters to the managers of each investment fund containing listed financial companies requesting that they remove those financial companies from the fund or create a similar actively or passively managed fund with indirect holdings devoid of listed financial companies. If a manager creates a similar fund with substantially the same management fees and same level of investment risk and anticipated return, the state governmental entity may replace all applicable investments with investments in the similar fund in a time frame consistent with prudent fiduciary standards but not later than the 450th day after the date the fund is created.

Added by Acts 2021, 87th Leg., R.S., Ch. 529 (S.B. 13), Sec. 1, eff. September 1, 2021.

Sec. 809.056. AUTHORIZED INVESTMENT IN LISTED FINANCIAL COMPANIES. (a) A state governmental entity may cease divesting from one or more listed financial companies only if clear and convincing evidence shows that:

(1) the state governmental entity has suffered or will suffer a loss in the hypothetical value of all assets under management by the state governmental entity as a result of having to divest from listed financial companies under this chapter; or

(2) an individual portfolio that uses a benchmark-aware strategy would be subject to an aggregate expected deviation from its benchmark as a result of having to divest from listed financial companies under this chapter.

(b) A state governmental entity may cease divesting from a listed financial company as provided by this section only to the extent necessary to ensure that the state governmental entity does not suffer a loss in value or deviate from its benchmark as described by Subsection (a).

(c) Before a state governmental entity may cease divesting from
a listed financial company under this section, the state governmental entity must provide a written report to the comptroller, the presiding officer of each house of the legislature, and the attorney general setting forth the reason and justification, supported by clear and convincing evidence, for deciding to cease divestment or to remain invested in a listed financial company.

(d) The state governmental entity shall update the report required by Subsection (c) semiannually, as applicable.

(e) This section does not apply to reinvestment in a financial company that is no longer a listed financial company.

The state shall make contributions for service not previously established that is established under Section 813.104 in the amount provided by Section 813.202(c) for membership service or the amount provided by Section 813.302(d) for military service, as applicable. The state contributions will be made at the time the service credit is granted.

SUBCHAPTER C. ESTABLISHMENT OF MEMBERSHIP SERVICE

Sec. 813.201. CURRENT SERVICE. (a) Except as otherwise provided by this section, service is credited in the applicable membership class for each month in which a member holds a position and for which the required contributions are made by the member and the state.

(b) A member may not accrue or establish service credit in the employee class of membership when the total amount of service credit, multiplied by the percentage in effect for computing annuities under Section 814.103, 814.105, or 814.107 would exceed the number 100. When the maximum amount of service credit is accrued or established by a member in the employee or elected class, member and state contributions cease, although the member retains membership subject
(c) Service may not be credited in both membership classes for the same period unless one of the credits is for service established under Section 813.402 of this subtitle.

Sec. 813.202. MEMBERSHIP SERVICE NOT PREVIOUSLY ESTABLISHED.
(a) Except as provided by Section 813.402, any member may establish service credit in the retirement system for membership service not previously established.

(b) A member may establish credit under this section by depositing with the retirement system in a lump sum a contribution computed as provided by Section 813.404 or 813.505, plus interest computed on the basis of the state fiscal year at an annual rate of 10 percent from the date the service was performed to the date of deposit.

(c) The state shall contribute for service established under this section an amount in the same ratio to the member's contribution and interest paid under Subsection (b) for the service as the state's contribution bears to the contribution for current service required of a member of the employee class at the time the service is established under this section. The state's contribution and interest must be paid from the fund or account from which the member receives compensation at the time the service is established or, if the member does not hold a position at the time the service is established, from the fund or account from which the member received compensation when the member most recently held a position.

SUBCHAPTER D. ESTABLISHMENT OF MILITARY SERVICE

Sec. 813.301. CREDITABLE MILITARY SERVICE. (a) Military service creditable in the retirement system is active federal duty as a member of the armed forces of the United States.

(2) has been released from military duty under conditions not dishonorable; and

(c) A member may establish credit under this section by depositing with the retirement system in a lump sum a contribution computed as provided by Section 813.404 or 813.505, plus, if the member does not establish the credit before the first anniversary of
the date of first eligibility, interest computed on the basis of the state fiscal year at an annual rate of 10 percent from the date of first eligibility to the date of deposit.

(d) The state shall contribute for service established under this section an amount in the same ratio to the member's contribution for the service as the state's contribution bears to the contribution for current service required of a member of the employee class at the time the service is established under this section. The state's contribution shall be paid from the fund from which the member receives compensation at the time the service is established or, if the member does not hold a position at the time the service is established, from the fund from which the member received compensation when the member most recently held a position.

(e) The board of trustees may require members applying for credit under this section to submit any information the board finds necessary to enable it to determine eligibility for or amount of service or amounts of required contributions.

(c) The retirement system shall use military service credit in computing service retirement or nonoccupational disability retirement benefits of a member of the elected class:

1. only if the member has, without military service credit, at least six years of service credit in that class, if the military service credit was established before January 1, 1978; or

2. only if the member has enough service credit, exclusive of the military service credit, to be eligible for service retirement benefits at age 60, if the military service credit was established on or after January 1, 1978.

(d) The board of trustees by rule may permit a person who retires with at least 10 years of service credit, excluding military service credit, to receive service retirement benefits as an elected officer for the percentage of the person's military service credit, but not more than 100 percent, that is derived by dividing the number of months served as an elected officer by 96 months.

Sec. 813.305. MILITARY SERVICE CREDIT GOVERNED BY UNIFORMED SERVICES EMPLOYMENT AND REEMPLOYMENT RIGHTS ACT. The retirement system may adopt rules to comply with the Uniformed Services Employment and Reemployment Rights Act (38 U.S.C. Section 4301 et

CHAPTER 814. BENEFITS
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 814.001. TYPES OF BENEFITS. The types of benefits payable by the retirement system are:

(1) service retirement benefits;
(2) occupational disability retirement benefits;
(3) nonoccupational disability retirement benefits; and
(4) death benefits.

Sec. 814.002. BENEFITS FROM BOTH MEMBERSHIP CLASSES. (a) If a
member has service credit in both classes of membership, is eligible to retire from one class, and does not hold a position included in the other class, the member may retire from both classes and receive benefits based on all service credited in the retirement system.

(b) If a member is retiring and uses service credited in a class of membership to meet a length-of-service requirement for retirement, the member must retire from that class.

Sec. 814.003. EFFECTIVE DATE OF RETIREMENT. (a) The effective date of a member's service retirement is the date the member designates at the time the member applies for retirement as provided by Section 814.101, but the date must be the last day of a calendar month.

(b) If a person elects to receive a standard service retirement annuity and dies during the first calendar month that begins after the effective date of the person's retirement, the person is considered to have been a contributing member at the time of death.

(c) The retirement system may allow an applicant for retirement time after the effective date of the person's retirement to make a selection of a retirement annuity. If the applicant dies within the time allowed without having given the retirement system notice of a selection, the person is considered to have been a contributing member at the time of death.

(d) The effective date of a member's disability retirement is the date designated on the application for retirement filed by or for the member as provided by Section 814.201, but the date must be the last day of a calendar month.

(e) If a person elects to receive a standard disability retirement annuity and dies during the first calendar month that begins after the effective date of the person's retirement, the person is considered to have been a contributing member at the time of death.

Sec. 814.004. WHEN BENEFITS ARE PAYABLE. A monthly annuity payable to a retiree or beneficiary is payable to that person through the month in which the person dies. A continuation of an optional annuity or the payment of a death or survivor benefit annuity begins with payment for the month following the month in which the death occurs.

Sec. 814.005. WAIVER OF BENEFITS. (a) A person may, on a form prescribed by and filed with the retirement system, waive all or a portion of any benefits from the retirement system to which the person is entitled. The retirement system also shall give effect as a waiver to a full or partial disclaimer executed in accordance with Chapter 240, Property Code, unless the benefit to be disclaimed is a lifetime annuity. A person may revoke a waiver of benefits in the same manner as the original waiver was made, unless the original waiver by its terms was made irrevocable.

(b) A waiver or a revocation of a waiver applies only to benefits that become payable on or after the date the document is filed.

(c) The retirement system shall transfer to the state accumulation account amounts from the appropriate benefit payment accounts not used to pay benefits because of a waiver executed under this section.

(d) The board of trustees may adopt rules for the administration of waivers under this section.

Sec. 814.006. SIMULTANEOUS DEATH OF MEMBER AND BENEFICIARY. When a member or annuitant and the beneficiary of the member or annuitant have died within a period of less than 120 hours, the member or annuitant is considered to have survived the beneficiary for the purpose of determining the rights to amounts payable under this subtitle on the death of the member or annuitant.

Sec. 814.007. BENEFICIARY CAUSING DEATH OF MEMBER OR ANNUITANT. (a) Any benefits, funds, or account balances payable on the death of a member or annuitant may not be paid to a person convicted of or adjudicated as having caused that death but instead are payable as if the convicted person had predeceased the decedent.

(b) A person who becomes eligible under this section to select death or survivor benefits may select benefits as if the person were the designated beneficiary.

(c) The retirement system shall reduce any annuity computed in part on the age of the convicted or adjudicated person to a lump sum equal to the present value of the remainder of the annuity. The reduced amount is payable to a person entitled as provided by this section to receive the benefit.

(d) The retirement system is not required to change the recipient of any benefits, funds, or account balances under this section unless it receives actual notice of the conviction or adjudication of a beneficiary. However, the retirement system may delay payment of any benefits, funds, or account balances payable on the death of a member or annuitant pending the results of a criminal investigation or civil proceeding and other legal proceedings relating to the cause of death.

(e) For the purposes of this section, a person has been convicted of or adjudicated as having caused the death of a member or annuitant if the person:
(1) pleads guilty or nolo contendere to, or is found guilty by a court or jury in a criminal proceeding of, causing the death of the member or annuitant, regardless of whether sentence is imposed or probated, and no appeal of the conviction is pending and the time provided for appeal has expired; or

(2) is found liable by a court or jury in a civil proceeding for causing the death of the member or annuitant and no appeal of the judgment is pending and the time provided for appeal has expired.

Sec. 814.0095. CHARITABLE DEDUCTION FROM ANNUITY. (a) Except as provided by Section 814.0096(c), a person who receives an annuity
under this subtitle may, on a printed or electronic form filed with the retirement system, authorize the retirement system to deduct from the person's monthly annuity payment the amount of a contribution to the state employee charitable campaign in the manner and for the same purposes for which a state employee may authorize deductions to that campaign under Subchapter I, Chapter 659.

(b) An authorization under this section must direct the board of trustees to deposit the deducted funds with the comptroller for distribution as required by Section 659.132(g) in the same manner in which a state employee's deduction is distributed.

(c) An authorization under this section remains in effect for the period described by Section 659.137 unless the person revokes the authorization by giving notice to the board of trustees.

(d) The board of trustees may adopt rules to administer this section. Any rules adopted must be consistent with the comptroller's rules related to the state employee charitable campaign.

(a) The board of trustees and the state employee charitable campaign policy committee established under Section 659.140 shall coordinate responsibility for the administration of charitable deductions from annuity payments to the state employee charitable campaign under Section 814.0095.

(b) The state employee charitable campaign policy committee is authorized to approve a budget that includes funding for as many of the expenses incurred by the retirement system associated with the implementation and administration of annuitants' participation in the state employee charitable campaign as is practicable, including notification of annuitants.

(c) Except as provided by this subsection, the board of trustees shall charge an administrative fee to cover any costs not
paid under Subsection (b) in the implementation of Section 814.0095 to the charitable organizations participating in the state employee charitable campaign conducted under that section in the same proportion that the contributions to that charitable organization bear to the total of contributions in that campaign. The board of trustees shall determine the most efficient and effective method of collecting the administrative fee and shall adopt rules for the implementation of this subsection.

(d) If necessary, the board of trustees and the state employee charitable campaign policy committee may make the annuity deduction authorization under Section 814.0095(a) available in stages to subgroups of the retirement system's annuity recipients as money becomes available to cover the expenses under Subsection (b) of this section.

Sec. 814.010. ELECTRONIC FILING OF BENEFICIARY DESIGNATION.
(a) In this section, "electronic filing" means the filing of data in the form of digital electronic signals transformed by computer and stored on magnetic tape, optical disks, or any other medium.

(b) A person entitled to designate a beneficiary under any system or program administered by the retirement system may make the designation by electronic filing under procedures adopted by the retirement system.

Added by Acts 2003, 78th Leg., ch. 1111, Sec. 16, eff. Sept. 1, 2003;

Sec. 814.011. LUMP-SUM PAYMENTS IN LIEU OF ANNUITIES. The retirement system may elect to make a lump-sum payment to a retiree
or beneficiary in lieu of annuity payments if the actuarial present value of the annuity at the time of retirement or death does not exceed $20,000. Payment of a lump sum under this section does not affect eligibility for any other program administered by the retirement system.

Sec. 814.012. DISPOSITION OF UNCLAIMED BENEFICIARY BENEFITS. If, as of the fourth anniversary of the death of a member or annuitant, the retirement system has not paid benefits and a claim for benefits is not pending with the retirement system based on the death of the member or annuitant, the accumulated contributions of the deceased member or the balance of the reserve for the deceased annuitant reverts to the benefit of the retirement system. The retirement system shall transfer funds reverted under this section to the state accumulation account.

Added by Acts 2021, 87th Leg., R.S., Ch. 940 (S.B. 321), Sec. 10, eff. September 1, 2021.

Sec. 814.101. APPLICATION FOR SERVICE RETIREMENT BENEFITS. (a) A member may apply for a service retirement annuity by filing an application for retirement with the board of trustees.

(b) An application for a service retirement annuity may not be made:

(1) after the date the member wishes to retire; or

(2) more than 90 days before the date the member wishes to retire.
Sec. 814.102. ELIGIBILITY OF ELECTED MEMBERS FOR SERVICE RETIREMENT. Except as provided by rule adopted under Section 813.304(d) or Section 803.202(a)(2), a member who has service credit in the elected class of membership, is eligible to retire and receive a service retirement annuity if the member:

(1) is at least 60 years old and has 8 years of service credit in that class; or

(2) is at least 50 years old and has 12 years of service credit in that class.

Acts 2011, 82nd Leg., R.S., Ch. 91 (S.B. 1303), Sec. 11.014, eff. September 1, 2011.

Sec. 814.103. SERVICE RETIREMENT BENEFITS FOR ELECTED CLASS SERVICE. (a) Except as provided by Subsection (a-1) or (b), the standard service retirement annuity for service credited in the elected class of membership is an amount equal to the number of years of service credit in that class, times 2.3 percent of the state base salary, excluding longevity pay payable under Section 659.0445 and as adjusted from time to time, being paid to a district judge as set by the General Appropriations Act in accordance with Section 659.012(a).

(a-1) Except as provided by Subsection (b), the standard service retirement annuity for service credited in the elected class of membership for a member of the class under Section 812.002(a)(3) whose effective date of retirement is on or after September 1, 2019, is an amount equal to the number of years of service credit in that class, times 2.3 percent of the state salary, excluding longevity pay...
payable under Section 659.0445 and as adjusted from time to time, being paid in accordance with Section 659.012 to a district judge who has the same number of years of contributing service credit as the member on the member's last day of service as a district or criminal district attorney, as applicable.

(b) The standard service retirement annuity for service credited in the elected class may not exceed at any time 100 percent of the state salary of a district judge on which the annuity is based under Subsection (a) or (a-1), as applicable.

(c) For purposes of this section, "contributing service credit" with respect to:

(1) a member means service credit established in the elected class under Section 813.201 or 813.402 for each month of service in which the member held a position described by Section 812.002(a)(3), including service credit established under either section that was previously canceled but reestablished under Section 813.102; and

(2) a district judge has the meaning assigned by Section 659.012(f).

Acts 2019, 86th Leg., R.S., Ch. 1121 (H.B. 2384), Sec. 20, eff. September 1, 2019.

Sec. 814.104. ELIGIBILITY OF MEMBER FOR SERVICE RETIREMENT. (a) Except as provided by Subsections (d) and (e) of this section, Section 814.102, or by rule adopted under Section 813.304(d) or 803.202(a)(2), a member who has service credit in the retirement system is eligible to retire and receive a service retirement annuity if the member:

(1) is at least 60 years old and has at least 5 years of
service credit in the employee class; or

(2) has at least 5 years of service credit in the employee class and the sum of the member's age and amount of service credit in the employee class, including months of age and credit, equals or exceeds the number 80.

(b) A member who is at least 55 years old and who has at least 10 years of service credit as a commissioned peace officer engaged in criminal law enforcement activities of the Department of Public Safety, the Texas Alcoholic Beverage Commission, the Parks and Wildlife Department, or the office of inspector general at the Texas Juvenile Justice Department, or as a custodial officer, is eligible to retire and receive a service retirement annuity.

(c) For the sole purpose of determining eligibility to receive a service retirement annuity, the retirement system shall consider service performed as a participant in the optional retirement program under Chapter 830 as if it were service for which credit is established in the retirement system.

(d) Except as provided by Subsection (e) of this section, Section 814.102, or by rule adopted under Section 813.304(d) or 803.202(a)(2), a member who was not a member on the date hired, was hired on or after September 1, 2009, and has service credit in the retirement system is eligible to retire and receive a service retirement annuity if the member:

(1) is at least 65 years old and has at least 10 years of service credit in the employee class; or

(2) has at least 10 years of service credit in the employee class and the sum of the member's age and amount of service credit in the employee class, including months of age and credit, equals or exceeds the number 80.

(e) A member who takes the oath of office for a position included in the elected class of membership, other than a district attorney or criminal district attorney, is not eligible to retire and receive a service retirement annuity under this section that is based on service credit transferred to the employee class from the elected class under Section 813.503 until the member no longer holds that position. This provision does not prohibit a member from retiring and receiving a service retirement annuity under this section that is based on service credit earned in a position included in the employee class of membership under Section 812.003.
Sec. 814.105. SERVICE RETIREMENT BENEFITS FOR EMPLOYEE CLASS SERVICE. (a) The standard service retirement annuity for service credited in the employee class of membership is an amount computed as the member's average monthly compensation for service in that class for the 60 highest months of compensation multiplied by 2.3 percent for each year of service credit in that class.

(b) The standard service retirement annuity for service credited in the employee class may not be less than $150 a month nor more than 100 percent of the average monthly compensation computed under Subsection (a).

(c) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 618, Sec. 26(a)(5), eff. September 1, 2013.

(d) The standard service retirement annuity computed under this section is reduced by five percent for each year the member retires before the member reaches age 62.
Sec. 814.107. SERVICE RETIREMENT BENEFITS FOR CERTAIN PEACE OFFICERS. (a) A member who has at least 20 years of service credit as a law enforcement or custodial officer is eligible to retire regardless of age and receive a standard service retirement annuity in an amount and to be funded as provided by this section.

(b) The standard service retirement annuity payable for at least 20 years of service credit as a law enforcement or custodial officer is an amount computed on the basis of the member's average monthly compensation for the 60 highest months of compensation in the employee class, times the sum of the percentage factor used in the computation of a standard service retirement annuity under Section 814.105 plus .5 percent.

(c) The standard combined service retirement annuity that is payable under this section is based on retirement on or after the attainment of the normal retirement age, which for purposes of this section is the earlier of either the age of 57 or the age at which the sum of the member's age and amount of service credit in the employee class equals the number 80. The annuity of a law enforcement or custodial officer who retires before reaching the age of 57 under any eligibility criteria is actuarially reduced by five
percent for each year of difference between the member's age at retirement and 57. The actuarial reduction described by this section is in addition to any other actuarial reduction required by law.

(c-1) A law enforcement or custodial officer who retires before attaining the age of 50 is entitled only to an annuity that is actuarially reduced from the annuity available at the age of 50 to the law enforcement or custodial officer whose service credit annuity amount is based on the sum of the member's age and amount of law enforcement or custodial officer service credit and employee class service credit, and is not entitled to have the annuity recalculated at normal retirement age. The standard or reduced annuity under this section is payable from the trust fund established by Section 815.310 and the law enforcement and custodial officer supplemental retirement fund in a ratio determined by the retirement system.

(d) A member who retires under this section retires simultaneously from the employee class of membership. Optional retirement annuities provided by Section 814.108 are available to a member eligible to receive a service retirement annuity under this section, but the same optional plan and beneficiary must be selected for the portion of the annuity payable from the law enforcement and custodial officer supplemental retirement fund and the portion payable from the trust fund established by Section 815.310.

(e) The amount payable from the law enforcement and custodial officer supplemental retirement fund is reducible by the amount paid from the trust fund established by Section 815.310 for service as a law enforcement or custodial officer. The total combined amount of an annuity under this section may not be less than the authorized benefit under Subsection (b) subtracted by any amount necessary because of selection of an optional annuity, because of retirement before the normal retirement age, or as provided by Subsection (f).

(f) The standard combined service retirement annuity payable for at least 20 years of service credit as a law enforcement or custodial officer may not exceed 100 percent of the average compensation computed under Subsection (b).

(g) For purposes of this section, service as a law enforcement or custodial officer is creditable as provided by rule of the board of trustees or on a month-to-month basis, whichever is greater.

Sec. 814.108. OPTIONAL SERVICE RETIREMENT BENEFITS. (a) Instead of the standard service retirement annuity payable under Section 814.103 or 814.105, the standard combined service retirement annuity payable under Section 814.107, or an annuity actuarially reduced because of age under Section 814.107, a retiring member may elect to receive an optional service retirement annuity under this section.

(b) A person who selects an optional lifetime retirement annuity must designate before the selection becomes effective one person to receive the annuity on the death of the person making the selection. A person who selects an optional retirement annuity payable for a guaranteed period may designate, before or after retirement, one or more persons to receive the annuity on the death of the person making the selection.

(c) An eligible person may select one of the following options, which provides that:

(1) after the retiree's death, the reduced annuity is payable in the same amount throughout the life of the person designated by the retiree before retirement;

(2) after the retiree's death, one-half of the reduced annuity is payable throughout the life of the person designated by the retiree before retirement;
(3) if the retiree dies before 60 monthly annuity payments have been made, the remainder of the 60 payments are payable to one or more beneficiaries or, if one does not exist, to the retiree's estate;

(4) if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to one or more beneficiaries or, if one does not exist, to the retiree's estate; or

(5) after the retiree's death, three-fourths of the reduced annuity is payable throughout the life of the person designated by the retiree before retirement.

(d) If a person who is nominated by a retiree in the written designation under Subsection (b) predeceases the retiree, the reduced annuity of a retiree who has elected an optional lifetime retirement annuity shall be increased to the standard service retirement annuity that the retiree would otherwise be entitled to receive if the retiree had not selected that annuity option. The standard service retirement annuity shall be adjusted as appropriate for:

(1) early retirement as permitted by law; and

(2) postretirement increases in retirement benefits authorized by law after the date of retirement.

(e) The increase in the annuity under Subsection (d) begins with the monthly payment made to the retiree for the month following the month in which the person nominated dies or the September 30, 1991, payment, whichever is later, and is payable to the retiree for the remainder of the retiree's life.

(f) The computation of an optional annuity must be made without regard to the gender of the annuitant or designee involved.

(g) Except as provided by Section 814.008 or 814.1081, a person who selected an optional service retirement annuity approved by the board of trustees or an optional service retirement annuity described by Subsection (c)(1), (c)(2), or (c)(5) may not change or revoke a beneficiary designation after the person's effective date of retirement.

(h) A beneficiary designation that names a former spouse as beneficiary for a guaranteed optional annuity described by Subsection (c)(3) or (c)(4) is invalid unless the designation is made after the date of the divorce.

Sec. 814.1081. CHANGE IN ANNUITY SELECTION. (a) A person who retired and selected an optional service retirement annuity described by Section 814.108(c)(1), (c)(2), or (c)(5) may change the optional annuity selection to the selection of a standard service retirement annuity if:

(1) pursuant to a divorce decree, a court orders the change in the annuity selection to a standard service retirement annuity; or

(2) the retiree files with the retirement system a request to change the annuity selection, if the retiree designated a person as beneficiary who:

(A) was not at the time of designation and is not currently the retiree's spouse or dependent child; or

(B) is not currently the retiree's spouse or dependent child and has executed since the designation a written, notarized instrument that releases the retirement system from any claim to the annuity by the beneficiary and that transfers all of the beneficiary's interest in the annuity to the retiree.

(b) If a retiree files a request as provided by Subsection (a), the retirement system shall recompute the annuity as a standard service retirement annuity. The increase in the annuity under this section begins with the monthly payment made to the retiree for the month following the month in which a request is filed as provided by Subsection (a).

(c) Expired.

Sec. 814.1082.  PARTIAL LUMP-SUM OPTION.  (a)  A member who is eligible for an unreduced service retirement annuity may select a standard retirement annuity or an optional retirement annuity described by Section 814.108 together with a partial lump-sum distribution.

(b)  The amount of the lump-sum distribution under this section may not exceed the sum of 36 months of a standard service retirement annuity computed without regard to this section.

(c)  The service retirement annuity selected by the member shall be actuarially reduced to reflect the lump-sum option selected by the member and shall be actuarially equivalent to a standard or optional service retirement annuity, as applicable, without the partial lump-sum distribution.  The annuity and lump sum shall be computed to result in no actuarial loss to the retirement system.

(d)  Unless otherwise specified in rules adopted by the board of trustees, the lump-sum distribution will be made as a single payment payable at the time that the first monthly annuity payment is paid to the retiree.

(e)  The amount of the lump-sum distribution will be deducted from any amount otherwise payable under Section 814.505.

(f)  The partial lump-sum option under this section may be elected only once by a member and may not be elected by a retiree.  A member retiring under the proportionate retirement program under Chapter 803 is not eligible for the partial lump-sum option.

(g)  Before a retiring member selects a partial lump-sum distribution under this section, the retirement system shall provide a written notice to the member of the amount by which the member's annuity will be reduced because of the selection.  The member shall be asked to sign a copy of or a receipt for the notice, and the retirement system shall maintain the signed copy or receipt.

(h)  The board of trustees may adopt rules for the implementation of this section and may authorize the option to be
used for a death benefit annuity. This section does not apply to a disability retirement annuity.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 1509, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 814.109. ELIGIBILITY OF CERTAIN MEMBERS FOR SERVICE RETIREMENT. Notwithstanding any other law other than Section 815.507:

(1) a member eligible to retire under this subchapter from either class of membership may retire without separating from a position in that class if the member:

   (A) has accrued enough service credit in the class to receive the maximum annuity permitted under this subchapter; and
   (B) is at least 60 years old; and

(2) a member who retires from either class of membership under this section is not entitled to earn any additional retirement benefits under this subtitle.

Added by Acts 2021, 87th Leg., R.S., Ch. 940 (S.B. 321), Sec. 11, eff. September 1, 2021.

SUBCHAPTER C. DISABILITY RETIREMENT BENEFITS

Sec. 814.201. APPLICATION FOR DISABILITY RETIREMENT BENEFITS.

(a) A member may apply for a disability retirement annuity by:

   (1) filing an application for retirement with the board of trustees; or
   (2) having an application filed with the board by the member's spouse, employer, or legal representative.

(b) An application for a disability retirement annuity may not be made:

   (1) after the date the disability retirement is to become effective; or
   (2) more than 90 days before the date the disability retirement is to become effective.
(c) An application for an occupational disability retirement annuity may not be made after the second anniversary of the date the injury or disease that causes the disability occurs unless the executive director permits the application after that date because of a showing of good cause for delay.

(d) An applicant must submit to medical examination and provide other pertinent information as required by the retirement system.

Sec. 814.202. ELIGIBILITY FOR DISABILITY RETIREMENT. (a) A member who was contributing to the retirement system at the time the member became permanently disabled for the further performance of duty is eligible to retire for a nonoccupational disability if the member has at least:

(1) 8 years of membership service credit in the elected class of membership;

(2) 6 years of membership service credit in the elected class plus 2 years of military service credit established before January 1, 1978; or

(3) 10 years of membership service credit in the employee class of membership.

(b) A member who was contributing to the retirement system at the time the member became permanently incapacitated for the further performance of duty, who meets the requirements provided by Section 811.001(12), and who has service credit in either membership class is eligible to retire for an occupational disability regardless of age or amount of service credit.

(c) A member otherwise eligible may not receive a disability retirement annuity unless the member is the subject of a certification issued as provided by Section 814.203.

(d) Repealed by Acts 2005, 79th Leg., Ch. 347, Sec. 36(6), eff. September 1, 2005.

(e) A member otherwise eligible may not apply for or receive a
nonoccupational disability annuity if the member is eligible for a service retirement annuity under Section 814.102 or 814.104(a)(2) or (b).

(f) An application for a nonoccupational disability retirement may not be made after the second anniversary of the date the member ceased making contributions to the retirement system.

(g) A member otherwise eligible to receive a disability retirement annuity may not receive the annuity if the member is:

1. still earning a salary or wage from the employment for which the member is claiming disability; or
2. on leave without pay from the employment for which the member is claiming disability.

Sec. 814.203. CERTIFICATION OF DISABILITY. (a) As soon as practicable after an application for disability retirement is filed, the medical board shall evaluate the medical and other pertinent information regarding the member's application. If the medical board finds that the member is mentally or physically incapacitated for the further performance of duty, as supported by substantial, objective, medical evidence, and that the incapacity is likely to be permanent, the medical board shall issue a certification of disability and submit it to the executive director. A certification under this section is admissible in a contested case under Section 815.511.
without proving the medical board as experts.

(b) For purposes of this subchapter, a member is incapacitated for the further performance of duty if the member has demonstrably sought and been denied workplace accommodation of the disability in accordance with applicable law, and the member is physically or mentally unable to continue to hold the position occupied or to hold any other position offering comparable pay. The employee's education, training, and experience must be considered when making a determination of incapacity under this subchapter.

(c) For the purposes of this section, "comparable pay" means 80 percent or more of the member's final state employment base pay before deductions for taxes or deferred compensation under state and federal law, including any longevity or hazardous duty pay, but excluding the monetary value of any insurance or retirement benefits. Comparable pay may be adjusted by the retirement system to account for adjustments in state pay rates.

Sec. 814.204. INFORMATION ABOUT OCCUPATIONAL DISABILITY. (a) A member who applies for retirement for an occupational disability shall furnish the retirement system all information and other data requested by the retirement system and relating to the disability.

(b) The retirement system may require information and other data relating to an occupational disability retirement application to be furnished by any officer or employee of the agency with which the applicant holds a position.

(c) If a person who is requested to submit information or other data under this section withholds the requested material, the retirement system may elect to treat the application as one for nonoccupational disability retirement benefits.
(d) After receiving information and other data the retirement system considers necessary, the executive director shall determine, subject to review by the board of trustees, whether or not the disability is occupational.

(e) A contributing member who is also a member of the Texas National Guard or the Texas State Guard is eligible for retirement for an occupational disability if the person:
   (1) is injured while on active duty with the national or state guard;
   (2) is discharged from that entity because of the injury; and
   (3) ceases state employment.

Sec. 814.205. DISABILITY RETIREMENT BENEFITS FOR ELECTED CLASS SERVICE. (a) Except as provided by Subsection (b), a disability retirement annuity for service credited in the elected class of membership is an amount computed in the same manner as the standard service retirement annuity, not reduced because of age, for service credited in the elected class.

(b) An occupational disability retirement annuity for service credited in the elected class is computed on the basis of the amount of the member's service credit or eight years, whichever is greater.

(c) A person who retires under this section may select an optional retirement plan instead of the standard retirement annuity.

Sec. 814.2055. AVERAGE MONTHLY COMPENSATION. For purposes of Sections 814.206 and 814.207, "average monthly compensation" means:

(1) a member's average monthly compensation for service in
the employee class for the 36 highest months of compensation; or
(2) a member's average monthly compensation for service in
the employee class if a member retires with less than 36 months of
service.

Sec. 814.206. DISABILITY RETIREMENT BENEFITS FOR EMPLOYEE CLASS
SERVICE.  (a) Except as provided by Subsection (b) and Section
814.207, a standard disability retirement annuity for service
credited in the employee class of membership is an amount computed at
the rate of 2.3 percent for each year of service credit in that
class, times the member's average monthly compensation.
(b) A standard disability retirement annuity under this section
may not be more than 100 percent of the average monthly compensation
or, if occupational, not less than 35 percent of the average monthly
compensation or $150 a month, whichever is greater.
(c) A standard disability retirement annuity computed under
this section is payable throughout the life of the retiree, except as
provided by Section 814.210.
(d) Instead of the standard disability retirement annuity
payable under this section, a retiring member may elect to receive an
optional disability retirement annuity payable throughout the life of
the retiree and actuarially reduced, under tables adopted by the
board of trustees, from the standard disability retirement annuity.
(e) Optional disability retirement annuities available to a
disabled retiring member are those available to members retiring from
regular service under Section 814.108(c).
(f) A standard nonoccupational disability retirement annuity
under this section is reducible, under actuarial tables adopted by
the board of trustees, for a member who retires before reaching an
applicable age provided by Section 814.102 or 814.104.

Sec. 814.207. DISABILITY RETIREMENT BENEFITS FOR CERTAIN PEACE OFFICERS. (a) An annuity payable for an occupational disability resulting from a risk to which law enforcement or custodial officers are exposed because of the nature of law enforcement or custodial duties is payable under the same terms and conditions that apply to other occupational disability retirement annuities under this subtitle, except that the source and amount of the annuity are as provided by this section.

(b) Except as provided by Subsection (c), an occupational disability retirement annuity under this section is an amount, but not more than 100 percent, computed on the basis of the officer's average monthly compensation, times a percentage derived by application of Section 814.107(b).

(c) A disability retirement annuity under this section is not reducible because of age and may not be less than 50 percent of the officer's average monthly compensation regardless of the amount of service credited to the officer in the employee class.

(d) The portions of the annuity under this section payable from the law enforcement and custodial officer supplemental retirement fund are the amount remaining after deduction of any amount payable under Section 814.206, except the portion of an amount that exceeds the minimum payments provided by Section 814.206(b) and that is made for service other than as a law enforcement or custodial officer and any amount by which an annuity is increased under Subsection (e).

(e) If a retiring member or retiree under this section presents evidence satisfactory to the retirement system that the person's occupational disability makes the person incapable of substantial gainful activity solely because of the disability and is considered a total disability under federal social security law, the retirement system shall, notwithstanding Section 811.006, increase the person's occupational disability retirement annuity to a monthly amount computed based on the maximum salary authorized under the position classification salary schedule prescribed by the General Appropriations Act, as adjusted from time to time, applicable to the position from which the person retired.

(f) An annuity increase under Subsection (e) is not payable before the first month following the month in which the satisfactory
evidence is received by the retirement system under Subsection (e).

Sec. 814.208. MEDICAL EXAMINATION OF DISABILITY RETIREE. (a) Once each year during the first five years after a member retires for disability, and once in each three-year period after that, the retirement system may require a disability retiree to undergo a medical examination.

(b) An examination under this section may be held at the retiree's residence or at any place mutually agreed to by the retirement system and the retiree. The retirement system may designate a physician to perform the examination. The retiree shall pay the expense of the examination.

(c) If a disability retiree refuses to submit to a medical examination as provided by this section, the executive director shall discontinue the retiree's annuity payments until the retiree submits to an examination. If a retiree has not submitted to an examination as provided by this section before the first anniversary of the date of first refusal, the executive director shall revoke all rights of the retiree to an annuity.

(d) If the medical board finds that a disability retiree is no longer mentally or physically incapacitated for the performance of duty, it shall certify its findings and submit them to the executive director. If the executive director concurs in this certification, the annuity terminates and membership is restored as provided by Section 814.210.

Sec. 814.210. RESTORATION OF DISABILITY RETIREE TO ACTIVE SERVICE. (a) If a retiree who is receiving a disability retirement annuity returns to state service or if the retiree is found to be no longer incapacitated for the further performance of duty, the person must again become a member of the retirement system or, if the person holds a position included in the elected class of membership, may elect to become a member. If a person becomes a member under this section, the executive director shall terminate the person's annuity payments.

(b) A person who becomes a member under this section is entitled to service credit for all service previously established and not canceled by a withdrawal of contributions.

(c) If a person's disability retirement annuity is discontinued under this section, the person's selection of any optional annuity becomes void.

Sec. 814.211. REFUND AT ANNUITY DISCONTINUANCE. (a) Except as provided by Subsection (b), if a disability retirement annuity is discontinued, the member is entitled to a lump-sum payment from the retirement annuity reserve account in an amount, if any, by which the amount in the member's individual account in the employees saving account at the time of disability retirement exceeds the amount of payments payable before the date the annuity was discontinued.

(b) The benefit provided by this section is not payable to a member who, after discontinuance of a disability retirement annuity, returns to state service or elects a service retirement annuity.

Amended by Acts 1985, 69th Leg., ch. 91, Sec. 5, eff. Sept. 1, 1985.
SUBCHAPTER D. DEATH BENEFIT ANNUITIES

Sec. 814.301. SELECTION OF DEATH BENEFIT PLAN BY MEMBER. (a) A contributing member who has at least 10 years of service credit in the elected or employee class of membership may select a death benefit plan for the payment, if the member dies while the member is eligible to select a plan, of a death benefit annuity to a person designated by the member. Death benefit annuities available for selection by a member described in this subsection are the optional annuities provided by Sections 814.108(c)(1) and (c)(4), payable as if the member had retired at the time of death.

(b) If a member of a retirement system administered by the board of trustees selects death benefit plans under more than one board-administered retirement system, each plan selected may take effect. If a member selects a death benefit plan under only one retirement system administered by the board of trustees, the plan applies to service credit in other board-administered retirement systems.

(c) The computation of a death benefit annuity selected under this section must include the ages of the member and the member's designated beneficiary at the time of the member's death.

(d) A member may select a death benefit plan by filing an application for a plan with the retirement system on a form prescribed by the retirement system. After selection, a death benefit plan takes effect at death unless the member amends the plan, selects a retirement annuity at the time of retirement, has chosen a plan that cannot take effect, or becomes ineligible to select a plan.

(e) A beneficiary designation that names a former spouse as beneficiary is invalid for purposes of this section unless the designation is made after the date of the divorce.

Sec. 814.302. SELECTION OF DEATH BENEFIT PLAN BY SURVIVOR OF MEMBER. (a) If a contributing member eligible to select a death benefit plan under Section 814.301 dies without having made a selection, or if a selection cannot be made effective, the member's designated beneficiary may select a plan in the same manner as if the member had made the selection. If there is no designated beneficiary, the personal representative of the decedent's estate may make the selection for the benefit of the decedent's heirs or devisees. In lieu of selecting a death benefit plan, the designated beneficiary or, if there is none, the personal representative of the decedent's estate, may elect to receive a refund of contributions and any applicable payment under Section 814.401.

(b) If a person dies who, at the time of death, was a contributing member of a retirement program administered by the board of trustees and was eligible, having met the requirements of service credit and attained age, for a service retirement annuity based on service in one or more board-administered programs or was a contributing member of the employee class, had at least three years of service credit in that class, and would have been eligible to retire under the proportionate retirement program under Chapter 803, but was not eligible to select a death benefit plan, the person's surviving spouse may select a plan in the same manner that the decedent could have made the selection if the decedent had retired on the last day of the month in which the person died. If there is no surviving spouse, the guardian of the decedent's surviving minor children may select a plan. If the decedent is not survived by a spouse or minor children, an annuity may not be paid under this subsection.
Sec. 814.304. ANNUITY FOR SURVIVOR OF ELECTED MEMBER. (a) Except as provided by Subsections (b) and (c), if a member who has at least eight years of service credit in the elected class of membership dies, a death benefit annuity is payable in an amount computed at the rate of one-half of the standard service retirement annuity to which the member would have been entitled at the member's age at the time of death or at the age of 60, whichever is later.

(b) The annuity provided by this section is payable only to the member's surviving spouse. If the member is not survived by a spouse, a benefit may not be paid under this section.

(c) An annuity may not be paid under this section if, at the time of death, the member was eligible to select a death benefit annuity under Section 814.301.

Sec. 814.305. ANNUITY FOR SURVIVOR OF LAW ENFORCEMENT OR CUSTODIAL OFFICER. If a member who has at least 20 years of service credit as a law enforcement or custodial officer dies, the amount of the death benefit annuity payable for the member's service as a law enforcement or custodial officer is an amount computed and funded as provided by Section 814.107, including any applicable reduction factors.

SUBCHAPTER E. MEMBER DEATH BENEFITS

Sec. 814.401. MEMBER DEATH BENEFITS GENERALLY. (a) Except as provided by Subsection (d), if a member dies under a circumstance
described in Subsection (c), a lump-sum death benefit is payable from the state accumulation account in an amount computed at the rate of five percent of the amount in the member's individual account in the employees saving account at the time of death, times the number of full years of service credit the member had at the time of death, but not more than 100 percent of the amount in the member's individual account.

(b) The benefit provided by this section is payable to the beneficiary designated by the member under Section 814.403(b). If a member does not designate a beneficiary or if the beneficiary designation cannot be made effective, the benefit is payable to the member's estate.

(c) A benefit is payable under this section only if the member at the time of death was:

(1) actively employed by the state;
(2) receiving workers' compensation benefits for an injury sustained while employed by the state; or
(3) on authorized sick leave.

(d) A death benefit may not be paid under this section if, at the time of death, a death benefit annuity became effective.

(e) A beneficiary designation that names a former spouse as beneficiary is invalid unless the designation is made after the date of the divorce.

Sec. 814.402. MEMBER OCCUPATIONAL DEATH BENEFITS. (a) Except as provided by Subsection (b), if a member dies and the executive director determines that the death was an occupational death, a lump-sum death benefit is payable from the state accumulation account in an amount equal to one year's salary, computed on the basis of the member's rate of compensation at the time of death.

(b) The benefit provided by this section is payable only to the
member's surviving spouse or, if there is no surviving spouse, to the guardian of the member's surviving dependent minor children. If the member is not survived by a spouse or dependent minor children, a benefit may not be paid under this section.

Sec. 814.403. RETURN OF CONTRIBUTIONS. (a) Except as provided by Subsection (d), if a member dies before retirement, the amount in the member's individual account in the employees saving account at the time of death is payable as a lump-sum death benefit.

(b) Except as provided by Subsection (c), the benefit provided by this section is payable to a person designated by the member in a signed and witnessed document filed with the retirement system before the member's death. A designation, change, or revocation of a beneficiary in a will or other document not filed with the retirement system is not effective. If a member does not designate a beneficiary or if the beneficiary designation cannot be made effective, the benefit is payable to the member's estate.

(c) A beneficiary designation that names a former spouse as beneficiary is invalid for purposes of this section unless the designation is made after the date of the divorce.

(d) A death benefit may not be paid under this section if, at the time of death, a death benefit annuity became effective.

Sec. 814.404. ASSIGNMENT OF DEATH BENEFIT FOR FUNERAL SERVICES. (a) A beneficiary to whom a benefit is payable under this subchapter may by assignment provide that part or all of the benefit be paid in consideration for services provided in connection with the death of
the member directly to a funeral director or funeral establishment licensed under:

(1)  Chapter 651, Occupations Code; or
(2)  the comparable law of another state.

(b)  The board of trustees by rule may establish requirements for forms, documentation, and procedures necessary for an effective assignment under this section.

Added by Acts 2019, 86th Leg., R.S., Ch. 1178 (H.B. 3522), Sec. 1, eff. January 1, 2020.

SUBCHAPTER F. RETIREE DEATH BENEFITS

Sec. 814.501. RETIREE DEATH BENEFITS GENERALLY. (a) A lump-sum death benefit in the amount of $5,000 is payable if the board of trustees receives proof satisfactory to it of the death, on or after September 1, 1975, of a person retired under a retirement system administered by the board. The board by rule shall adopt procedures to provide for the payment of this benefit not later than the seventh day after the date the board receives the required proof of death.

(b)  The benefit provided by this section is payable to a person designated by the retiree in a signed and witnessed document filed with the retirement system before the retiree's death. A designation, change, or revocation of a beneficiary in a will or other document not filed with the retirement system is not effective. If a retiree does not designate a beneficiary or if the beneficiary designation cannot be made effective, the benefit is payable to the retiree's estate.

(c)  A beneficiary designation that names a former spouse as beneficiary is invalid for purposes of this section unless the designation is made after the date of the divorce.

Sec. 814.503. OCCUPATIONAL DISABILITY RETIREE DEATH BENEFITS.  
(a) Except as provided by Subsection (b), if a person who receives an occupational disability retirement annuity dies and the executive director determines that the death was an occupational death, a lump-sum death benefit is payable from the state accumulation account in an amount equal to one year's salary, computed on the basis of the retiree's rate of compensation at the time of disability retirement.

(b) The benefit provided by this section is payable only to the retiree's surviving spouse or, if there is no surviving spouse, to the guardian of the retiree's surviving dependent minor children. If the retiree is not survived by a spouse or dependent minor children, a benefit may not be paid under this section.

Sec. 814.504. ASSIGNMENT OF DEATH BENEFIT FOR FUNERAL SERVICES.  
(a) A beneficiary to whom a benefit is payable under this subchapter may by assignment provide that part or all of the benefit be paid in consideration for services provided in connection with the death of the retiree directly to a funeral director or funeral establishment licensed under:

(1) Chapter 651, Occupations Code; or
(2) the comparable law of another state.

(b) The board of trustees by rule may establish requirements for forms, documentation, and procedures necessary for an effective assignment under this section.

Added by Acts 2019, 86th Leg., R.S., Ch. 1178 (H.B. 3522), Sec. 2, eff. January 1, 2020.

Sec. 814.505. RETURN OF EXCESS CONTRIBUTIONS IN OTHER CIRCUMSTANCES.  (a) Except as provided by Subsection (c), when a person who receives a service or disability retirement annuity dies, a lump-sum death benefit is payable from the retirement annuity reserve account in the amount, if any, by which the balance in the retiree's individual account in the employees saving account at the
time of service retirement exceeds the total of annuity payments payable before the retiree's death.

(b) The benefit provided by Subsection (a) is payable to a person designated by the retiree at the time of retirement in a signed and witnessed document filed with the retirement system. If a retiree does not designate a beneficiary or if the beneficiary does not survive the retiree, the benefit is payable to the retiree's estate.

(c) A death benefit may not be paid under Subsections (a) and (b) if the retiree selected an optional service retirement annuity under Section 814.108.

(d) If the person designated as the beneficiary of an optional service retirement annuity, other than one selected under Section 814.108(c)(3) or 814.108(c)(4), predeceases the retiree, a lump-sum death benefit is payable from the retirement annuity reserve account in the amount, if any, by which the balance in the retiree's individual account in the employees saving account at the time of service retirement exceeds the sum of annuity payments payable to the retiree before death.

(e) The benefit provided by Subsection (d) is payable to the deceased retiree's estate.

(f) If a beneficiary dies while receiving an optional service retirement annuity, other than one selected under Section 814.108(c)(3) or 814.108(c)(4), a lump-sum death benefit is payable from the retirement annuity reserve account in the amount, if any, by which the balance in the retiree's individual account in the employees saving account at the time of service retirement exceeds the sum of annuity payments payable to the retiree and the beneficiary before the beneficiary's death.

(g) If a beneficiary dies while receiving an optional service retirement annuity selected under Section 814.302 as described in Section 814.108(c)(1) or Section 814.304(a), a lump-sum death benefit is payable from the retirement annuity reserve account in the amount, if any, by which the balance in the member's individual account in the employees saving account at the time of death exceeds the sum of annuity payments payable to the beneficiary before the beneficiary's death.

(h) The benefits provided by Subsections (f) and (g) are payable to the deceased beneficiary's estate.

(i) A beneficiary designation that names a former spouse as
beneficiary is invalid unless the designation is made after the date of the divorce.

SUBCHAPTER G. INCREASES IN BENEFITS

Sec. 814.601. ANNUITY INCREASE AFTER DEATH OR RETIREMENT. (a) Except as provided by Subsections (b) and (e), on the first day of each fiscal year, the retirement system shall increase the amounts of annuities that are:

(1) computed as provided by Section 814.105 or a predecessor to that section, Section 814.1051, Section 814.206 or a predecessor to that section, or if the standard annuity is derived from Section 814.105 or a predecessor, as provided by Section 814.108 or a predecessor to that section;

(2) based on service that was credited in the retirement system as employee class service; and

(3) payable to a retiree of the retirement system, to the survivor of a retiree of the retirement system, or to the survivor of a deceased member of the retirement system.

(b) The retirement system may not increase under this section the amount of an annuity unless the retirement or death on which the annuity is based occurred before the first day of the preceding fiscal year.

(c) The legislature may appropriate money from the general revenue fund to pay the costs of increasing the amounts of annuities under this section. On the first day of each fiscal year, the state comptroller of public accounts shall transfer to the retirement system any money appropriated for the fiscal year for the purpose of this section.

(d) If the amount of money appropriated for a fiscal year is insufficient to finance the rate of increase in annuities specified in the Act making the appropriation or if the Act fails to specify a rate of increase, the board of trustees shall set the rate as the rate that the amount of money appropriated will finance for the
duration of the annuities payable to those persons entitled to
receive an increase in annuities under this section.

(e) If an appropriation is not made for a fiscal year for the
purpose of this section, the retirement system may not increase under
this section the amount of annuities for that year.

Added by Acts 1981, 67th Leg., 1st C.S., p. 201, ch. 18, Sec. 16,
Sec. 24.601 and amended by Acts 1989, 71st Leg., ch. 179, Sec. 1,
eff. Sept. 1, 1989. Amended by Acts 1993, 73rd Leg., ch. 39, Sec. 3,
eff. April 22, 1993.

Sec. 814.602. ADJUSTMENT TO ANNUITIES. (a) Except as provided
by Subsection (b), the board of trustees may adopt rules that adjust
or modify annuities to the extent necessary to be consistent with
changes in plan design. Any adjustment or modification must be made
applicable to all members and annuitants who are similarly situated.
Any rule adopted under this section supersedes conflicting portions
of existing plan provisions and must be in compliance with Section
401(a) of the Internal Revenue Code of 1986 and Section 811.006.

(b) A rule adopted under this section may not result in a
reduction in any existing annuity.

Sec. 814.603. SUPPLEMENTAL PAYMENTS. (a) The retirement
system may make a supplemental payment as provided by this section to
persons whose annuities are described by Section 814.107, 814.207,
814.305, or 814.601(a) and that are based on service retirements,
disability retirements, or deaths. A supplemental payment made under
this section is in addition to the regular monthly annuity payment.
Supplemental payments under this section must comply with Section
811.006.

(b) The board of trustees shall determine the amount and timing
of a supplemental payment and the manner in which the payment is
made.

(c) The retirement system shall pay any supplemental payment
made under this section from the retirement annuity reserve account
and may transfer to that account from the state accumulation account
any portion of the amount that exceeds the amount in the retirement annuity reserve account available to finance this supplemental payment and that is actuarially determined to be necessary to finance the supplemental payment.

Sec. 814.604. COST-OF-LIVING ADJUSTMENT. (a) The retirement system shall grant a one-time cost-of-living adjustment as provided by Subsections (b) and (c) on a finding by the board of trustees that, as determined by an actuarial valuation:

(1) the amortization period for the unfunded actuarial liabilities of the retirement system does not exceed 30 years by one or more years; and

(2) as a result of paying the adjustment, the time required to amortize the unfunded actuarial liabilities of the retirement system would not be increased to a period that exceeds 30 years by one or more years.

(b) The retirement system shall pay the cost-of-living adjustment under this section to a retiree who has been retired for 20 years or more on the date the board of trustees makes the finding in Subsection (a), or to a beneficiary of the retiree, as an increase to a monthly service retirement benefit, disability retirement benefit, or death benefit, as applicable, paid under this chapter for service credited in the employee class.

(c) A cost-of-living adjustment under this section is limited to the lesser of:

(1) an amount equal to three percent of the monthly benefit subject to the increase; or

(2) $100 a month.

Added by Acts 2013, 83rd Leg., R.S., Ch. 618 (S.B. 1459), Sec. 12, eff. September 1, 2013.

(c) Unless an account is closed before the last day of the fiscal year, interest is computed for the fiscal year and is credited to the member's account as of the last day of the fiscal year.

(d) If a member's account is closed before the last day of the fiscal year, interest is computed for the following period:
(1) if the account is closed because of death, from the first day of the fiscal year through the last day of the month that preceded the month in which the member's death occurred;

A contributing member shall pay the fee with the member's first contribution to the retirement system in each fiscal year in the manner provided by Section 815.402 or 820.101, as applicable, for payment of the member's contribution to the retirement system.

(b) If the membership fee is not paid with the member's first contribution of the year to the retirement system, the board of trustees may deduct the amount of the fee from that contribution or from any benefit to which the member becomes entitled.

(c) If the legislature appropriates, on behalf of each contributing member for any fiscal year, a membership fee to be deposited in the expense account in an amount equal to or greater than the membership fee required by Subsection (a), the members are not required to pay the membership fee for that year. The retirement system may apply the membership fee to the administration of any program administered by the board of trustees.

Sec. 815.402. COLLECTION OF CERTAIN MEMBER CONTRIBUTIONS. (a) Except as provided by Section 813.201, each payroll period, each department or agency of the state shall cause to be deducted from the compensation of each member, other than a cash balance group member, a contribution of:

(1) 9.5 percent of the compensation if the member is not a member of the legislature, for service rendered after August 31, 2015, and before September 1, 2017;

(2) for service by a member who is not a member of the legislature rendered on or after September 1, 2017, the lesser of:
   (A) 9.5 percent of the compensation; or
   (B) a percentage of the compensation equal to 9.5 percent reduced by one-tenth of one percent for each one-tenth of one percent that the state contribution rate for the fiscal year to which the service relates is less than the state contribution rate established for the 2017 fiscal year; or

(3) 9.5 percent of the compensation if the member is a member of the legislature.

(b) To facilitate the making of deductions, the board of trustees may modify a member's required deductions by an amount that does not exceed one-tenth of one percent of the annual compensation on which the deduction is made.

(c) Each department or agency head shall certify to the board of trustees and to the disbursing officer of the department or agency on each payroll, or in another manner prescribed by the board, the amounts to be deducted from each member's compensation.

(3) pay the amount deducted to the retirement system for deposit in the employees saving account.

(e) The retirement system shall record all receipts of member contributions and shall deliver the receipts to the comptroller. The comptroller shall credit the receipts to the employees saving account.

(f) The deductions required by this section shall be made even if the member's compensation is reduced below the amount equal to the minimum compensation provided by law.

(g) By becoming a member of the retirement system, a member consents to the deductions required by this section. The payment of compensation less those deductions is a complete release of all claims, except benefits provided by this subtitle, for services rendered by the member during the payment period.

(h) In addition to the contribution under Subsection (a)(1), each department or agency of the state that employs a law enforcement or custodial officer shall deduct an additional 0.5 percent contribution from that member's compensation, to be deposited in the law enforcement and custodial officer supplemental retirement fund, provided that, if the state contribution to the law enforcement and custodial officer supplemental retirement fund is computed using a percentage less than 0.5 percent, the member's contribution is computed using a percentage equal to the percentage used to compute the state contribution.

The money required for state contributions and membership fees shall be from respective funds appropriated to pay the compensation of the member for whose benefit the contribution or fee is paid. If the total of the estimated required payments is not equal to the total of the actual payments required for a fiscal year, the retirement system shall certify to the state comptroller of public accounts at the end of that year the amount required for necessary adjustments, and the comptroller shall make the required adjustments.

(f) On certification by the retirement system, the comptroller of public accounts shall transfer from the general revenue fund to the state accumulation account of the retirement system the amount then required for the payment of lump-sum death benefits for retirees under Section 814.501.

(a) The state shall pick up the employee contribution required of each of its employees by Section 815.402 or 820.101, as applicable, for all compensation earned. The state shall pay to the retirement system the picked-up contributions from the same source of funds that is used in paying earnings to the employees. Such payments shall be in lieu of contributions by the employees. The state shall pick up these contributions by a corresponding reduction in the cash salary of the employees, by an offset against a future salary increase, or by a combination of a salary reduction and offset against a future salary increase. Employees do not have the option of choosing to receive the contributed amounts directly instead of having them paid by the state to the retirement system.
(b) Contributions picked up as provided by Subsection (a) shall be treated as employer contributions in determining tax treatment of the amounts under the United States Internal Revenue Code; however, the state shall continue to withhold federal income taxes on these picked-up contributions until the Internal Revenue Service determines or the federal courts rule that pursuant to Section 414(h) of the Internal Revenue Code of 1986 (26 U.S.C. The board is not required to furnish more than four of these statements to each member in a fiscal year.

Sec. 815.5021. PAYMENT TO ALTERNATE BENEFICIARY. Added by Acts 1991, 72nd Leg., ch. 850, Sec. 27, eff. Sept. 1, 1991.

Sec. 815.503. RECORDS. (a) Records of members, annuitants, retirees, beneficiaries, and alternate payees under retirement plans administered by the retirement system that are in the custody of the system or of an administering firm, carrier, or other governmental agency acting in cooperation with or on behalf of the retirement system are confidential and not subject to public disclosure, and the retirement system, administering firm, carrier, or governmental agency is not required to accept or comply with a request for a record or information about a record or to seek an opinion from the
attorney general, because the records are exempt from the provisions of Chapter 552, except as otherwise provided by this section.

(b) Records may be released to a member, annuitant, retiree, beneficiary, or alternate payee or to an authorized attorney, family member, or representative acting on behalf of the member, annuitant, retiree, beneficiary, or alternate payee. (c) The records of a member, annuitant, retiree, beneficiary, or alternate payee remain confidential after release to a person as authorized by this section. The records of a member, annuitant, retiree, beneficiary, or alternate payee may become part of the public record of an administrative or judicial proceeding related to a contested case under Subtitle D or E or this subtitle, and the member, annuitant, retiree, beneficiary, or alternate payee waives the confidentiality of the records, including medical records unless the records are closed to public access by a protective order issued under applicable law.

(d) The retirement system may require a person to provide the person's social security number as the system considers necessary to ensure the proper administration of all services, benefits, plans, and programs under the retirement system's administration, oversight, or participation, or as otherwise required by state or federal law.

(e) The retirement system has sole discretion in determining if a record is subject to this section. For purposes of this section, a record includes any identifying information about a person, living or deceased, who is or was a member, annuitant, retiree, beneficiary, or alternate payee, under any retirement plan or program administered by the retirement system.
Sec. 815.504. REPRODUCTION AND PRESERVATION OF RECORDS. (a) The retirement system may photograph, microphotograph, or film any record in its possession or preserve the record through electronic document imaging.

(b) If a record is reproduced under Subsection (a), the retirement system may destroy or dispose of the original record if the system first:

(1) places the reproduction in a conveniently accessible file; and

(2) provides for the preservation, examination, and use of the reproduction.

(c) A photograph, microphotograph, film, or electronic document image of a record reproduced under Subsection (a) is equivalent to the original record for all purposes, including introduction as evidence in all courts and administrative agency proceedings. A certified or authenticated copy of such a record is admissible as evidence equally with the original.

(d) The executive director or an authorized representative may certify the authenticity of a record reproduced under this section and shall charge a fee for the certified copy as provided by law.

(e) Certified records shall be furnished to any person who is authorized by law to receive them.

Sec. 815.507. PLAN QUALIFICATION. (a) It is intended that the provisions of this subtitle be construed and administered in a manner that the retirement system's benefit plan will be considered a qualified plan under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401). The board of trustees may adopt rules that modify the plan by adding, deleting, or changing a plan provision, including rules that modify benefits available under the plan.

(b) A rule reducing a benefit provision may not be adopted unless the modification is necessary for the retirement system to be a qualified plan.

(c) A rule adopted under this section, other than a rule adopted under Subsection (b), must be made applicable to all members and annuitants whose credit or benefits are based on similar service. A rule adopted under this section may include the making or revocation of any election permitted under Section 401(a) or any other provision of the Internal Revenue Code of 1986 (26 U.S.C. Section 401). A rule adopted under this section must comply with Section 811.006 and Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401). Rules adopted by the board of trustees are to be considered a part of the plan and supersede conflicting portions of existing plan provisions.

(d) In determining qualification status under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401), the retirement system's benefit plan shall be considered the primary retirement plan for members of the retirement system.

Sec. 815.5071. TRUSTEE-TO-TRUSTEE TRANSFER. Notwithstanding Section 811.005 and to the extent required as a condition of plan qualification under Section 401(a) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401), the retirement system shall, in accordance with Section 401(a)(31) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401(a)(31)) and related regulations, permit
the distributee of an eligible rollover distribution to elect to have the distribution paid directly to an eligible retirement plan specified by the distributee in the form of a direct trustee-to-trustee transfer. The board of trustees may adopt rules to carry out this section. Terms used in this section have the meanings assigned by the Internal Revenue Code of 1986 (Title 26, United States Code).

Added by Acts 1993, 73rd Leg., ch. 791, Sec. 24, eff. Sept. 1, 1993.

Sec. 815.5072. EXCESS BENEFIT ARRANGEMENT. (a) A separate, nonqualified, unfunded excess benefit arrangement is created outside the trust fund of the retirement system. This excess benefit arrangement shall be administered as a governmental excess benefit arrangement under Section 415(m) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415(m)). The purpose of the excess benefit arrangement is to pay to annuitants of the retirement system benefits otherwise payable by the retirement system that exceed the limitations on benefits imposed by Section 415(b)(1)(A) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415(b)(1)(A)).

(b) The board of trustees is responsible for the administration of this arrangement. Except as otherwise provided by this section, the board has the same rights, duties, and responsibilities concerning the excess benefit arrangement as it has to the trust fund.

(c) Benefits under this section are exempt from execution to the same extent as provided by Section 811.005, except that the benefits are completely unassignable. Contributions to this arrangement are not held in trust and may not be commingled with other funds of the retirement system.

Section 415(b)(1)(A)). The benefit payable by this arrangement is payable at the times and in the form that the benefit payable under the trust fund is paid.

(e) The benefit payable under this section shall be paid from state contributions that otherwise would be made to the trust fund under Section 815.403. In lieu of deposit in the state accumulation fund...
account, an amount determined by the retirement system to be necessary to pay benefits under this section shall be paid monthly to the credit of a dedicated account in the general revenue fund maintained only for the excess benefit arrangement. The account may include amounts needed to pay reasonable and necessary expenses of administering this arrangement. The monthly amount to be paid to the credit of the account shall be transferred to the account at least 15 days before the date of a monthly disbursement under this section.

(f) The board of trustees may adopt rules governing the excess benefit arrangement that are necessary for the efficient administration of the arrangement in compliance with Section 415(m) of the Internal Revenue Code of 1986 (26 U.S.C. Section 415(m)).

(1) all persons who were members of the retirement system on the day before the effective date of this subtitle; and

Acts 2015, 84th Leg., R.S., Ch. 1102 (H.B. 2974), Sec. 2, eff. September 1, 2015.

Sec. 822.0015. OPTIONAL MEMBERSHIP FOR CERTAIN OFFICIALS. (b) Termination of membership under Subsection (a)(4) is effective on the first September 1 that occurs after the non-qualifying years. If a person, regardless of age, has five or more years of service credit, failure to qualify for additional service credit does not terminate membership in the retirement system unless all of the person's contributions are withdrawn.

(c) A person does not terminate membership under Subsection (a)(4) if the person:

(1) is performing military service creditable in the retirement system;
(2) is on leave of absence from employment in a public school;

CHAPTER 823. CREDITABLE SERVICE
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 823.001. TYPES OF CREDITABLE SERVICE. The types of service creditable in the retirement system are:

(1) prior service;
(2) membership service;
(3) military service; and
(4) equivalent membership service.

Sec. 823.002. SERVICE CREDITABLE IN A YEAR. (a) The board of trustees by rule shall determine how much service in any year is equivalent to one year of service credit, but in no case may all of a person's service in one school year be creditable as more than one year of service. Service that has been credited by the retirement system on annual statements for a period of five or more years may not be deleted or corrected because of an error in crediting unless the error concerns three or more years of service credit or was caused by fraud.
(b) A member shall notify the retirement system in writing of membership service that has not been properly credited by the retirement system on an annual statement. The member must provide verification and make deposits as required by the retirement system before the service may be credited. A member must notify the retirement system of the service in writing on or before the last day of the fifth school year after the end of the school year in which the service was rendered for the service to be credited.

Acts 2011, 82nd Leg., R.S., Ch. 455 (S.B. 1667), Sec. 7, eff. September 1, 2011.

Sec. 823.003. BENEFITS BASED ON SERVICE CREDIT. Except as otherwise provided under the optional retirement program, years of service on which the amount of a benefit is based consist of the number of years of service credit to which a member is entitled.

Sec. 823.004. COMPUTATION OF AND PAYMENT FOR CREDIT. (a) All credit for military service, out-of-state service, developmental leave, work experience in a career or technological field, and service transferred to the retirement system under Chapter 805 shall be computed on a September 1 through August 31 school year. Payments for service described by this section must be completed:

(1) not later than two calendar months after the later of the member's retirement date or the last day of the month in which the member submits a retirement application; and

(2) before the later of the due date for the member's first monthly annuity payment or the date on which the retirement system issues the first monthly annuity payment to the member.
(b) The retirement system by rule may establish an irrevocable employer pick-up of member contributions as described by Section 414(h)(2) of the Internal Revenue Code of 1986 (26 U.S.C. Section 414(h)(2)) for the purchase of any service credit authorized by law.

Acts 2017, 85th Leg., R.S., Ch. 931 (S.B. 1664), Sec. 4, eff. September 1, 2017.

Sec. 823.005. ACCEPTANCE OF ROLLOVERS AND TRANSFERS FROM OTHER PLANS. Subject to rules adopted by the board of trustees, the retirement system shall accept an eligible rollover distribution or a direct transfer of funds from another qualified plan in payment of all or a portion of any deposit a member is permitted to make with the system for credit for service. The rules adopted by the board shall condition the acceptance of a rollover or transfer from another plan on the receipt from the other plan of information necessary to enable the retirement system to determine the eligibility of any transferred funds for tax-free rollover treatment or other treatment under federal income tax law.

Sec. 823.006. LIMITS ON ANNUAL CONTRIBUTIONS FOR PURCHASE OF SERVICE CREDIT. Notwithstanding any other provision of this subtitle, the retirement system may limit the purchase of service credit to the extent required by applicable limits on the amount of annual contributions a participant may make to a qualified plan under Sections 401(a) and 415(c), Internal Revenue Code of 1986.

Added by Acts 1999, 76th Leg., ch. 1540, Sec. 2, eff. Sept. 1, 1999. Amended by:

Acts 2005, 79th Leg., Ch. 1359 (S.B. 1691), Sec. 9, eff. September 1, 2005.
SUBCHAPTER C. ESTABLISHMENT OF MEMBERSHIP SERVICE

Sec. 823.201. CURRENT MEMBERSHIP SERVICE. (a) Membership service is credited in the retirement system for each year in which a member is an employee and for which the member renders sufficient service for credit under Section 823.002 and makes and maintains with the retirement system the deposits required by this subtitle or prior law.

(b) The board of trustees may adopt rules for the granting of membership service credit.

Sec. 823.203. MEMBERSHIP SERVICE FOR OPTIONAL RETIREMENT PROGRAM. A member may not establish service credit in the retirement system for any period when the member was participating in the optional retirement program under Chapter 830.

Added by Acts 1999, 76th Leg., ch. 1540, Sec. 3, eff. Sept. 1, 1999.

SUBCHAPTER D. ESTABLISHMENT OF MILITARY SERVICE

Sec. 823.301. CREDITABLE MILITARY SERVICE. (a) Except as provided by Section 823.101(2), military service creditable in the retirement system is active federal duty in the armed forces of the United States, other than as a student at a service academy, that was performed:

(1) as a direct result of being inducted or of first enlisting for duty on a date when the federal government was actively inducting persons into the armed forces under federal draft laws;

(2) as a reservist or member of the national guard who was ordered to duty under the authority of federal law;

(3) during a time when the federal government was actively inducting persons into the armed forces under federal draft laws; or

(4) as a result of voluntarily entering on active duty.

(b) A member may not establish more than five years of service credit in the retirement system under this subchapter for military
service. Service may be established in one-year increments except as otherwise provided by this subchapter.

(c) The board of trustees may adopt rules expanding the military service creditable in the retirement system in order to comply with the requirements of federal law.

(d) Military service that is terminated by sentence of a court-martial is not creditable under this section.

Sec. 823.302. MILITARY SERVICE CREDIT. (a) An eligible member may establish service credit in the retirement system for military service performed that is creditable as provided by Section 823.301.

(b) A member eligible to establish military service credit is one who has at least five years of service credit in the retirement system for actual service in public schools, except that a member meeting this condition does not qualify for insurance coverage under Chapter 1575, Insurance Code, until the member has 10 or more years of membership service credit.

(c) A member may establish credit under this section by depositing with the retirement system for each year of military service claimed a contribution in an amount equal to:

(1) the member's contributions to the retirement system during the most recent full year of membership service that preceded the military service, if the military service was performed while the person was a member of the retirement system; or

(2) the member's contributions to the retirement system during the first full year of membership service, if the military service was performed before the person became a member of the retirement system.

(d) In addition to the contribution required by Subsection (c), a member claiming credit for military service must pay a fee of eight percent, compounded annually, of the required contribution from the
date of first eligibility to the date of deposit.

(e) After a member makes the deposits required by this section, the retirement system shall grant the member one year of military service credit for each year of military service approved.

Sec. 823.303. MILITARY LEAVE CREDIT. A member who performs military service creditable in the retirement system but who does not establish credit for the service by making the deposits required by Section 823.302 is entitled to credit of a year for each year of military service performed, if the member requests the credit in writing before the later of the date of application for retirement or the effective date of retirement. The credit is usable only in determining eligibility for, but not the amount of, benefits under Section 824.406.

Sec. 823.304. USERRA CREDIT. (a) A person eligible to establish USERRA credit is one who qualifies under the Uniformed Services Employment and Reemployment Rights Act of 1994, 38 U.S.C. Section 4301 et seq., for the benefits of reemployment in a position included within the membership of the retirement system and who is entitled under that Act to additional credit and benefits from the retirement system because of the person's active duty in the armed forces of the United States.

(b) A person who receives credit under this section may not
receive military service credit under Sections 823.301 and 823.302 for the same service.

(c) A person may establish credit under this section by depositing with the retirement system for each year of service claimed an amount equal to the member contributions to the retirement system, as determined by the retirement system, that the person would have made had the person continued to be employed in the person's former position covered by the retirement system during the entire period of active duty in the armed forces for which the person is to receive retirement credit.

(d) To the extent required by the Uniformed Services Employment and Reemployment Rights Act of 1994 and permitted by Sections 401(a) and 415 of the Internal Revenue Code of 1986 (26 U.S.C. Sections 401 and 415), the retirement system may:

(1) grant the person service credit for the period of active duty in the armed forces as if the person had been employed in a position eligible for membership and credit with the retirement system if the person establishes credit by making the required deposits, or, if the person has not made the required deposits, consider the period of active duty for the purpose of determining whether the person meets the length-of-service eligibility requirements for retirement or other benefits administered by the retirement system as if the person had established the credit; and

(2) include in relevant benefit computations under this subtitle the annual compensation, as determined by the retirement system, that would have been otherwise received by the person for service covered by the retirement system during any year in which the person had active duty in the armed forces.

(e) The state shall deposit with the retirement system an amount equal to the state contributions, as determined by the retirement system, that the state would have made had the person continued to be employed in the person's former position covered by the retirement system during the entire period of active duty in the armed forces for which the person has received service credit under this section. The state shall deposit the required amount with the retirement system not later than the 30th day after the date the state receives notice from the retirement system of the amount of state contributions required for service credit established by a person under this section.

(f) The board of trustees may adopt rules that modify the terms
of this section for the purpose of compliance with the Uniformed Services Employment and Reemployment Rights Act of 1994 (38 U.S.C. Section 4301 et seq.).

Amended by:
   Acts 2011, 82nd Leg., R.S., Ch. 456 (S.B. 1668), Sec. 1, eff. September 1, 2011.

SUBCHAPTER E. ESTABLISHMENT OF EQUIVALENT MEMBERSHIP SERVICE

Sec. 823.401. OUT-OF-STATE SERVICE. (a) Except as provided by Subsection (b), an eligible member may establish equivalent membership service credit for employment with a public school system maintained wholly or partly by another state or territory of the United States or by the United States for children of its citizens. A school receiving funds under 22 U.S.C. Section 2701 is considered a public school for the purposes of this section.

(b) A member may not establish credit under this section for service performed for a public school while a member of the armed forces, for which service the member was compensated by the United States.

(c) A member eligible to establish credit under this section is one who has at least five years of service credit in the retirement system for actual service in public schools, including at least one year completed after the relevant out-of-state service.

(d) A member may establish credit under this section by depositing with the retirement system for each year of service credit the actuarial present value, at the time of deposit, of the additional standard retirement annuity benefits that would be attributable to the purchase of the service credit under this section, based on rates and tables recommended by the retirement system's actuary and adopted by the board of trustees.

(e) A deposit for at least one year of credit must be made with an initial application for credit, and all payments for service claimed under this section must be made before retirement.
(f) Except as provided by Subsection (f-1), the amount of service credit a member may establish under this section may not exceed the lesser of the number of years of membership service credit the member has in the retirement system for actual service in public schools or 15 years.

(f-1) A member may not purchase more than five years of service credit under this section for service credit considered nonqualified service credit under Section 415(n)(3), Internal Revenue Code of 1986.

(g) After a member makes the deposits required by this section, the retirement system shall grant the member one year of equivalent membership service credit for each year of service approved. The retirement system may not use service credit granted under this section in computing a member's annual average compensation.

(h) Repealed by Acts 2003, 78th Leg., ch. 201, Sec. 61(2) and Acts 2003, 78th Leg., ch. 1231, Sec. 9(2).

(i) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 456, Sec. 7(a), eff. September 1, 2011.

(j) The board of trustees may adopt rules providing for the adoption of a reciprocal agreement with a state or territory of a member's previous employment for the payment for service credit established under this section through the transfer from the state or territory to the retirement system of contributions made on behalf of the member in the form of an eligible rollover distribution as provided by Section 401(a)(31), Internal Revenue Code of 1986, and its subsequent amendments.

Sec. 823.402. DEVELOPMENTAL LEAVE. (a) An eligible member may establish equivalent membership service credit for developmental leave that is creditable in the retirement system.

(b) Developmental leave creditable in the retirement system is absence from membership service for a school year that is approved by the member's employer for study, research, travel, or another purpose designed, as determined by the employer, to improve the member's professional competence.

(c) A member eligible to establish credit under this section is one who:

(1) has at least five years of service credited in the retirement system before the developmental leave occurs;

(2) has, at the time the required deposits for the credit are paid, at least one year of membership service credit in the retirement system following the developmental leave; and

(3) has at least five years of service credited in the retirement system at the time the required deposits for the credit are paid.

(d) On or before the date a member takes developmental leave, the member must file with the retirement system a notice of intent to take developmental leave, and the member's employer must file with the retirement system a certification that the leave meets the requirements of Subsection (b). The notice of intent and the certification must be in the form required by the retirement system. Leave is not creditable in the retirement system if the member does not submit notice of intent and obtain the certification required by this subsection.

(e) A member may establish credit under this section by depositing with the retirement system for each year of developmental leave certified the actuarial present value, at the time of deposit,
of the additional standard retirement annuity benefits that would be attributable to the purchase of the service credit under this section, based on rates and tables recommended by the retirement system's actuary and adopted by the board of trustees.

(f) A member may not establish more than two years of equivalent membership service credit under this section.

(g) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 456, Sec. 7(a), eff. September 1, 2011.

Sec. 823.403. CREDIT FOR ACCUMULATED PERSONAL OR SICK LEAVE.
(a) A member who retires from an employer as defined by Section 821.001(7) based on service or a disability is entitled to membership service credit in the retirement system for the member's state personal or sick leave that has accumulated and is unused on the last day of employment pursuant to the terms of this section. State personal or sick leave is creditable in the retirement system in the amount of one year of service credit for 50 days or more, or 400 hours or more, of accumulated state personal or sick leave. An accumulation of less than 50 days is not creditable. Not more than five days of unused state personal or sick leave may be accumulated per year. Credit established under this section may be used only for the purpose of calculating benefits under Section 824.203.

(b) The employer shall, under rules adopted by the retirement system, certify the amount of a member's accumulated state personal or sick leave on the last day of employment before retirement.

(c) On receipt of a certification under Subsection (b) and
payment under Subsection (d) of this section, the retirement system shall grant any credit to which a retiree who is a subject of the certification is entitled. Unless a member declines to purchase service credit under this section as provided by Subsection (d-1), an annuity payment may not begin until the retirement system is paid the full cost of the service credit.

(d) In order to receive credit, the member shall pay to the retirement system at the time service credit is granted under this section the actuarial present value of the additional standard retirement annuity benefits under the option selected by the member that would be attributable to the conversion of the unused state personal or sick leave into the service credit based on rates and tables recommended by the actuary and adopted by the board of trustees. Except as provided by this subsection, the retirement system must receive the payment for service credit under this section not later than the 90th day after the date the retirement system issues a cost statement for the purchase of service credit under this section. The retirement system may grant a member a one-time extension of not more than 30 days to complete the purchase of the service credit if the purchase is made by:

(1) a rollover distribution from another eligible retirement plan; or

(2) a direct trustee-to-trustee transfer of funds from:
   (A) an eligible deferred compensation plan described by Section 457(b), Internal Revenue Code of 1986, that is maintained by an eligible governmental employer; or
   (B) an annuity contract described by Section 403(b), Internal Revenue Code of 1986, that is purchased under a governmental plan.

(d-1) A member who fails to make the payment described by Subsection (d) within the time prescribed by that subsection may:

(1) decline to purchase service credit under this section and maintain the member's effective date of retirement; or

(2) revoke the member's retirement as provided by Section 824.005(a) and select a later retirement date that provides the member with sufficient time to complete the purchase of the service credit under this section.

(e) In accordance with local policy, the employer from which the retiring member was compensated on the member's last day of employment may reimburse an employee for all or part of the cost of
purchasing service credit under this section.

Sec. 823.404. WORK EXPERIENCE BY CAREER OR TECHNOLOGY TEACHER. (a) An eligible member may establish equivalent membership service credit for one or two years of work experience for which the member is entitled to salary step credit under Section 21.403(b), Education Code.

(b) A member is eligible to establish equivalent membership service credit under this section if the member has at least five years of membership service credit.

(c) A member may establish credit under this section by depositing with the retirement system, for each year of service, the actuarial present value, at the time of deposit, of the additional standard retirement annuity benefits that would be attributable to the conversion of the work experience into service credit based on rates and tables recommended by the actuary and adopted by the board of trustees.

(d) After a member makes the deposits required by this section, the retirement system shall grant the member one year of equivalent membership service credit for each year of service approved.

Added by Acts 1999, 76th Leg., ch. 1122, Sec. 1, eff. Sept. 1, 1999.

Sec. 823.406. CREDIT PURCHASE OPTION FOR CERTAIN SERVICE. (a) A member may establish membership service credit under this section only for service performed during a 90-day waiting period to become a member after beginning employment.

(b) A member may establish service credit under this section by depositing with the retirement system, for each month of service credit, the actuarial present value, at the time of deposit, of the additional standard retirement annuity benefits that would be attributable to the purchase of the service credit under this section, based on rates and tables recommended by the retirement
system's actuary and adopted by the board of trustees.

(c) After a member makes the deposits required by this section, the retirement system shall grant the member one month of equivalent membership service credit for each month of credit approved.

(d) The retirement system shall deposit the amount of the actuarial present value of the service credit purchased in the member's individual account in the employees saving account.

(e) The board of trustees may adopt rules to administer this section.

Added by Acts 2003, 78th Leg., ch. 201, Sec. 45, eff. Sept. 1, 2003.

SUBCHAPTER F. REINSTATEMENT OF SERVICE CREDIT
Sec. 823.501. CREDIT CANCELED BY MEMBERSHIP TERMINATION. (a) An eligible person who has terminated membership in the retirement system by withdrawal of contributions or absence from service may reinstate in the system the service credit canceled by the termination.

(b) A person eligible to reinstate service credit under this section is one who is a member of the retirement system at the time the service is reinstated.

(c) A member may reinstate canceled credit under this section by depositing with the retirement system:

(1) the amount withdrawn or refunded; plus

(2) a reinstatement fee of eight percent, compounded annually, of the amount withdrawn or refunded from the date of withdrawal or refund to the date of redeposit.

(d) The retirement system shall determine in each case the amount of money to be deposited by a member reinstating service credit under this section. The system may not provide benefits based on the service until the determined amount has been fully paid.

(e) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 456, Sec. 7(a), eff. September 1, 2011.

(f) A member may have an account that was terminated by absence from service reactivated by requesting the reactivation in writing. The beneficiary of a decedent who was a member at the time of death may have an account that was terminated by the decedent's absence from service reactivated by requesting the reactivation in writing before the first payment of a death benefit.
CHAPTER 824. BENEFITS

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 824.001. TYPES OF BENEFITS. The types of benefits payable by the retirement system are:

(1) service retirement benefits;

(2) disability retirement benefits; and

(3) death benefits.

Sec. 824.002. EFFECTIVE DATE OF RETIREMENT. (a) The effective date of a member's service retirement is the last day of the later of the following months:

(1) any month in a three-month period in which the third month is the month in which the member applies for retirement as provided by Section 824.201;

(2) the month in which the member satisfies age and service requirements for service retirement as provided by Section 824.202; or

(3) the month in which the member's employment in a position included in the coverage of the retirement system ends.

(b) The effective date of a member's disability retirement is
the last day of the later of the following months:

(1) any month in a three-month period in which the third month is the month in which the member applies for retirement as provided by Section 824.301; or

(2) the month in which the member's employment in a position included in the coverage of the retirement system ends.

(c) For the purposes of this section, a member's employment in a position covered by the retirement system does not end if the member is on leave of absence or has a contract for future employment in a public school, other than a contract for employment that would, if the retiring member and the employer were to comply with all procedural requirements, qualify under Section 824.602 for an exception to the loss of monthly benefits required by Section 824.601.

(d) A person who works not later than June 15 of a year in order to complete all work required for the school year may be considered to have ended employment on May 31 of that year for the purposes of Subsections (a)(3) and (b)(2).

(e) Except as provided by Section 823.403(d), if applicable, not later than two months after the later of a member's retirement date or the last day of the month in which the member's application for retirement is submitted, and before the later of the due date for the first monthly annuity payment or the date on which the retirement system issues the first monthly annuity payment, a member applying for service retirement may, after providing notice to the retirement system, reinstate withdrawn contributions, make deposits for military service and equivalent membership service, and receive service credit as provided by this subtitle.

(f) An effective retirement date may not be changed after it is established except by revocation of retirement under Section 824.005.

Acts 2017, 85th Leg., R.S., Ch. 931 (S.B. 1664), Sec. 6, eff.
Sec. 824.003. WHEN BENEFITS ARE PAYABLE. Except as otherwise provided by this chapter, an annuity provided by this chapter is payable for the month in which the person who receives the annuity dies. Monthly annuity payments are generally due to be paid on the last working day of the month for which the payment accrues.

Sec. 824.004. WAIVER OF BENEFITS. (a) A person may, on a form prescribed by and filed with the retirement system, waive all or a portion of any benefits from the retirement system to which the person is entitled. A person may revoke a waiver of benefits in the same manner as the original waiver was made.

(b) A revocable waiver may be revoked only as to benefits payable after the date the revocation is filed. If a waiver is made irrevocable and is filed with the retirement system before the first benefit payment is made to the person executing the waiver, Section 824.103 applies to determine alternative beneficiaries.

(c) The retirement system shall transfer to the state contribution account from the appropriate benefit reserve accounts amounts not used to pay benefits because of a waiver executed under this section.

(d) The board of trustees may provide rules for administration of waivers under this section.

(e) The retirement system may not require a person filing a waiver of benefits under this section to submit a sworn affidavit in order to receive the accumulated contributions.

Sec. 824.005. REVOCATION OF RETIREMENT. (a) A person who has retired under the retirement system may revoke that retirement by filing with the system a written revocation in a form prescribed by the system. For a revocation to be effective, the retirement system must receive the written revocation before the later of the due date for the first payment of the annuity or the date on which the retirement system makes the first payment. After the later of those dates, a retiree may not revoke the retirement. For purposes of this subtitle, the retirement system makes a payment by depositing a check in the mail or sending payment by electronic fund transfer.

(b) A person who has retired under the retirement system revokes that retirement if the person becomes employed in any position in a public school during the first month following that person's effective date of retirement, or during the first two months following an effective date of retirement established by reliance on Section 824.002(d), and must return any retirement benefits received under the original retirement.

(c) A person who revokes a retirement under this section is restored to membership in the retirement system as if that person had never retired.

Sec. 824.006. PAYMENT OF ANNUITY ON DEATH OF MEMBER OR RETIREE. (a) A monthly annuity payable to a retiree or beneficiary is payable to that person through the month in which the person dies. A continuation of an optional annuity or the payment of a death or survivor benefit annuity begins with payment for the month following the month in which the death occurs.

(b) The effective date of death of a member who dies before
retirement is, for the purpose of a death or survivor benefit annuity, the last day of the month preceding the month in which the member dies. The first payment of the annuity becomes due at the end of the month in which the member's death occurs.

Sec. 824.007. DEDUCTIONS FROM SERVICE OR DISABILITY RETIREMENT ANNUITY. (a) In this section, "program administrator" means the person who administers the uniform program under Section 1601.102, Insurance Code.

(b) An individual eligible to participate in the uniform program under Section 1601.102, Insurance Code, may authorize the retirement system to deduct the amount of the contribution and any other qualified health insurance premium from the individual's regular monthly service or disability retirement annuity payment if the individual is:

(1) eligible to receive a monthly annuity from the retirement system greater than the amount of the authorized deduction; and

(2) eligible under Section 402(l), Internal Revenue Code of 1986, or a similar law, to elect to exclude from annual gross income up to $3,000 of distributions from an eligible retirement plan used for qualified health insurance premiums.

(c) An individual may authorize the deduction described by Subsection (b) on a form provided by the program administrator. The program administrator shall coordinate the implementation of an authorization under Subsection (b) with the retirement system.

(d) After making the deductions, the retirement system shall pay to the program administrator an aggregate amount for all individuals who authorize annuity deductions under Subsection (b).

(e) If an individual no longer receives a monthly annuity greater than the amount of the authorized deduction, the retirement system:

(1) shall inform the program administrator; and

(2) is not required to make any deduction under this section for the individual.

(f) The retirement system is not required to accept an authorization for a deduction under this section if payment of
qualified health insurance premiums by deduction from a retirement
plan annuity is not required for an eligible retiree to elect the
gross income exclusion described by Subsection (b)(2).

Added by Acts 2009, 81st Leg., R.S., Ch. 1171 (H.B. 3347), Sec. 2,
eff. September 1, 2009.

Sec. 824.0071. DEDUCTIONS FROM SERVICE OR DISABILITY RETIREMENT
ANNUITY FOR CERTAIN UNIVERSITY INSURANCE PROGRAM CONTRIBUTIONS. (a)
In this section, "program administrator" means the person who
administers the uniform program under Section 1601.051, Insurance
Code.

(b) A retiree who is participating in the uniform program under
Chapter 1601, Insurance Code, may authorize the retirement system to
deduct the amount of the contribution and any other qualified health
insurance premium from the retiree's regular monthly service or
disability retirement annuity payment if the amount of the monthly
annuity is greater than or equal to the amount of the authorized
deduction.

(c) A retiree may authorize the deduction described by
Subsection (b) on a form provided by the program administrator. The
program administrator shall maintain the record of the authorization
made under this section.

(d) The program administrator shall:
(1) notify the retirement system of the authorization under
Subsection (b); and

(2) in the manner and form prescribed by the retirement
system, provide the retirement system with the names of the retirees
and other relevant information needed by the retirement system to
administer the deduction.

(e) After making the deduction, the retirement system shall pay
to the program administrator an aggregate amount for all retirees who
authorize annuity deductions under Subsection (b).

(f) If a retiree no longer receives a monthly annuity greater
than or equal to the amount of the authorized deduction, the
retirement system:

(1) shall inform the program administrator; and

(2) is not required to make a deduction under this section
for the retiree.
(g) The retirement system shall make the authorized deduction each month until:

(1) the date the annuity is no longer payable by the retirement system;

(2) the retirement system is notified by the program administrator that the retiree has canceled the authorization to make the deduction; or

(3) the amount of the monthly annuity is no longer greater than or equal to the amount of the authorized deduction as described by Subsection (f).

(h) The program administrator shall reimburse the retirement system the cost, as determined by the retirement system, incurred by the retirement system in implementing this section.

(i) This section does not apply to an individual described by Section 824.007(b).

Added by Acts 2017, 85th Leg., R.S., Ch. 1106 (H.B. 4035), Sec. 1, eff. January 1, 2018.

Sec. 824.008. DEDUCTIONS FROM AMOUNTS PAYABLE BY THE RETIREMENT SYSTEM. (a) Notwithstanding Section 821.005, the retirement system may deduct the amount of a person's indebtedness to the retirement system from an amount payable by the retirement system to the person or the person's estate and the distributees of the estate.

(b) If the retirement system makes a payment to a participant who is deceased and the payment is not payable, the retirement system may deduct the amount of the payment from any amount payable by the retirement system to a person who received the payment or to that person's estate and distributees of the estate.

Added by Acts 2011, 82nd Leg., R.S., Ch. 455 (S.B. 1667), Sec. 8, eff. September 1, 2011.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4520, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 824.009. CERTAIN EMPLOYEES AND ANNUITANTS INELIGIBLE FOR GOVERNMENT CODE
RETIREMENT ANNUITY; RESUMPTION OR RESTORATION OF ELIGIBILITY. (a) In this section, "qualifying felony" means an offense that is punishable as a felony under the following sections of the Penal Code:

(1) Section 21.02 (continuous sexual abuse of young child or disabled individual);
(2) Section 21.12 (improper relationship between educator and student); or
(3) Section 22.011 (sexual assault) or Section 22.021 (aggravated sexual assault).

(a-1) In this section, a "qualifying felony" includes any federal offense that contains elements that are substantially similar to the elements of a felony offense described in Subsection (a).

(b) This section applies only to a person who is a member or an annuitant of the retirement system and is or was an employee of the public school system.

(c) Except as provided by Subsection (e), a person is not eligible to receive a service retirement annuity from the retirement system if the person is convicted of a qualifying felony the victim of which is a student.

(d) The retirement system shall suspend payments of an annuity to a person who is not eligible to receive a service retirement annuity under Subsection (c), as determined by the retirement system, on receipt by the retirement system of:

(1) notice of a conviction for a qualifying felony under Subsection (f) or (l);
(2) notice of a conviction for a qualifying felony from a district court or district attorney; or
(3) any other information the retirement system determines by rule is sufficient to establish a conviction for a qualifying felony.

(e) A person whose conviction is overturned on appeal or who meets the requirements for innocence under Section 103.001(a)(2), Civil Practice and Remedies Code:

(1) is entitled to receive an amount equal to the accrued total of payments and interest earned on the payments withheld during the suspension period; and
(2) may resume receipt of annuity payments on payment to the retirement system of an amount equal to the contributions refunded to the person under Subsection (g).
(f) Not later than the 30th day after the date of a person's conviction for a qualifying felony, the school at which the person was employed shall provide written notice of the conviction to the retirement system. The notice must comply with rules adopted by the board of trustees under Subsection (k).

(g) A person who is not eligible to receive a service retirement annuity under Subsection (c) is entitled to a refund of the person's retirement annuity contributions, including interest earned on those contributions.

(h) Benefits payable to an alternate payee under Chapter 804 who is recognized by a domestic relations order established before September 1, 2017, are not affected by a person's ineligibility to receive a retirement annuity under Subsection (c).

(i) On conviction of a person for a qualifying felony, a court may, in the interest of justice and in the same manner as in a divorce proceeding, award any portion or all of the service retirement annuity forfeited by the person as the separate property of an innocent spouse if the annuity is partitioned or exchanged by written agreement of the spouses as provided by Subchapter B, Chapter 4, Family Code. The amount awarded to the innocent spouse may not be converted to community property.

(j) Ineligibility for a retirement annuity under this section does not impair a person's right to any other retirement benefit for which the person is eligible.

(k) The board of trustees of the retirement system shall adopt rules and procedures to implement this section.

(l) A court shall notify the retirement system of the terms of a person's conviction of a qualifying felony.

**SUBCHAPTER B. BENEFICIARIES**

Sec. 824.101. DESIGNATION OF BENEFICIARY. (a) Except as provided by Subsection (c), any member or annuitant may, on a form prescribed by and filed with the retirement system, designate one or
more beneficiaries to receive benefits payable by the retirement system on the death of the member or annuitant.

(b) Except as provided by Subsection (c), a member or annuitant may change or revoke a designation of beneficiary in the same manner as the original designation was made.

(c) Only one person may be designated as beneficiary of an optional retirement annuity under Section 824.204(c)(1), (c)(2), or (c)(5), and a designation of beneficiary under any of those options may not be made, changed, or revoked, except as provided by Sections 824.1011, 824.1012, and 824.1013, after the later of the date on which the retirement system makes the first annuity payment to the retiree or the date the first payment becomes due. For purposes of this section, the term "makes payment" includes the depositing in the mail of a payment warrant or the crediting of an account with payment through electronic funds transfer.

(d) Unless a contrary intention is clearly indicated by a written designation of beneficiary and except as otherwise provided by this section, the most recent designation of beneficiary by a member or annuitant applies to all benefits payable on the death of the member or annuitant.

(e) The retirement system by rule may provide for the designation of alternate beneficiaries and may adopt other rules to administer this section.

(f) A beneficiary designation, change in beneficiary, or revocation of beneficiary is not effective unless it is authorized by this subchapter. Except as provided by Subsection (g), any authorized beneficiary designation, change in beneficiary, or revocation of beneficiary, including any modification ordered by a court or contemplated in a trust or testamentary document, must be executed by the member or annuitant in a form prescribed by the retirement system and must be received by the retirement system before the member's or annuitant's death or, for a beneficiary named to receive continued optional service or disability retirement payments, not later than the deadline established elsewhere in this subtitle.

(g) Receipt by the retirement system of a certified copy of a divorce decree between a member or annuitant and a designated beneficiary revokes any designation of the former spouse as beneficiary of any death benefits payable under Subchapter E or F of this chapter that was effective before the date of divorce, if the
decree is received by the retirement system before the payment of any part of the death benefit to any beneficiary.

Sec. 824.1011. DESIGNATION OF BENEFICIARY AFTER RETIREMENT.
(a) A retiree who is receiving a standard service or disability retirement annuity under Section 824.203 or 824.304(b) and who marries after the date of the person's retirement may replace the annuity by selecting an optional retirement annuity under Section 824.204(c)(1), (c)(2), or (c)(5) or under Section 824.308(c)(1), (c)(2), or (c)(5), as applicable, and designating the person's spouse as beneficiary before the second anniversary of the marriage in the same manner as an annuity selection and designation of beneficiary may be made before retirement.
(b) The selection of an optional annuity and designation of a beneficiary under this section do not take effect until the first payment of the annuity that becomes due two years after the date the selection and designation are filed with the retirement system.
(c) The retirement system shall recompute the annuity of a retiree who selects an optional annuity and designates a beneficiary under this section to reflect that change and shall adjust the annuity as appropriate for early retirement and postretirement increases provided after the date of the retiree's retirement. The retirement system shall by rule provide for the adjustment of the monthly payments of the annuity under the option selected to an amount which is the actuarial equivalent of the annuity being paid immediately before the change in benefit option and beneficiary selection.
(d) If a retiree who selects an optional annuity and designates a beneficiary under this section dies before the change takes effect or if the designated beneficiary dies before the change takes effect, the selection of an optional annuity and designation of beneficiary
have no effect.

Added by Acts 1995, 74th Leg., ch. 555, Sec. 16, eff. Sept. 1, 1995; Amended by Acts 1997, 75th Leg., ch. 1416, Sec. 13, eff. Sept. 1, 1997; Acts 1999, 76th Leg., ch. 1540, Sec. 7, eff. Sept. 1, 1999.

Sec. 824.1012. POST-RETIREMENT CHANGE IN RETIREMENT PAYMENT PLAN FOR CERTAIN RETIREMENT BENEFIT OPTIONS. (a) As an exception to Section 824.101(c), a retiree who selected an optional service retirement annuity under Section 824.204(c)(1), (c)(2), or (c)(5) or an optional disability retirement annuity under Section 824.308(c)(1), (c)(2), or (c)(5) and who has received at least one payment under the plan selected may change the optional annuity selection made by the retiree to a standard service or disability retirement annuity as provided for in this section. If the beneficiary of the optional annuity was the spouse of the retiree when the retiree designated the spouse as beneficiary of the optional annuity, to change from the optional annuity to a standard retirement annuity under this subsection, the spouse or former spouse, as applicable, who was designated the beneficiary of the optional annuity must sign a notarized consent to the change or a court with jurisdiction over the marriage of the retiree and beneficiary must approve or order the change. The change in plan selection takes effect when the retirement system receives the request to change the plan, provided the signed consent form or court order, as applicable, is subsequently received by the retirement system.

(a-1) The executive director or the executive director's designee has exclusive authority to determine whether the language in a court order described by Subsection (a) is sufficient to indicate that the court has approved or ordered the change in plan selection. A determination by the executive director or the executive director's designee under this subsection may be appealed only to the board of trustees, except that the board by rule may waive the requirement that an appeal be to the board. An appeal to the board is a contested case under Chapter 2001. The standard of review of an appeal brought under this subsection is by substantial evidence.

(b) A change described by Subsection (a) cancels the optional annuity selection made by the retiree, effective with the beginning of payments of the annuity as recomputed under this subsection. The
retiree is entitled to receive payments of a standard service or disability retirement annuity, as applicable, reduced for early retirement, if applicable, beginning with the payment for the month after the month in which the retirement system receives the notice of change and ending on the death of the retiree. The change also cancels the designation of beneficiary with respect to the optional annuity benefit but does not cancel a designation with respect to any other benefit payable by the retirement system on the death of the retiree.

(c) The retirement system by rule may establish requirements for forms, documentation, and procedures necessary for the administration of this section.

Added by Acts 1997, 75th Leg., ch. 401, Sec. 1, eff. May 28, 1997. Amended by Acts 1999, 76th Leg., ch. 1540, Sec. 8, eff. Sept. 1, 1999; Acts 2001, 77th Leg., ch. 1229, Sec. 8, eff. Sept. 1, 2001. Amended by:

Sec. 824.1013. CHANGE OF BENEFICIARY AFTER RETIREMENT. (a) A retiree receiving an optional retirement annuity under Section 824.204(c)(1), (c)(2), or (c)(5) or Section 824.308(c)(1), (c)(2), or (c)(5) may change the designated beneficiary as provided by this section for the benefits payable after the retiree's death under those sections.

(b) If the beneficiary designated at the time of the retiree's retirement is the spouse of the retiree at the time of the designation:

(1) the spouse must give written, notarized consent to the change;

(2) if the parties divorce after the designation, the former spouse who was designated beneficiary must give written, notarized consent to the change; or

(3) a court with jurisdiction over the marriage must
approve or order the change.

(c) A beneficiary designated under this section is entitled on the retiree's death to receive monthly payments of the survivor's portion of the retiree's optional retirement annuity for the shorter of:

1. the remainder of the life expectancy of the beneficiary designated as of the effective date of the retiree's retirement; or
2. the remainder of the new beneficiary's life.

(c-1) Notwithstanding Subsection (c), a beneficiary designated under this section is entitled on the retiree's death to receive monthly payments of the survivor's portion of the retiree's optional retirement annuity for the remainder of the beneficiary's life if the beneficiary designated at the time of the retiree's retirement is a trust and the beneficiary designated under this section is:

1. the sole beneficiary of that trust; or
2. an individual who at the time of the retiree's death is the sole beneficiary of that trust.

(c-2) The executive director or the executive director's designee has exclusive authority to determine whether the language in a court order described by Subsection (b) is sufficient to indicate that the court has approved or ordered the change in the designated beneficiary. A determination by the executive director or the executive director's designee under this subsection may be appealed only to the board of trustees, except that the board by rule may waive the requirement that an appeal be to the board. An appeal to the board is a contested case under Chapter 2001. The standard of review of an appeal brought under this subsection is by substantial evidence.

(d) A retiree may not change a beneficiary under this section after retirement if the retiree has previously changed or designated after retirement a beneficiary for optional retirement annuity payments under this subtitle.

Sec. 824.102. TRUST AS BENEFICIARY. (a) Except as provided by Subsection (b), a member or annuitant may designate a trust as beneficiary for the payment of benefits from the retirement system. If a trust is designated beneficiary, the beneficiary of the trust is considered the designated beneficiary for the purposes of determining eligibility for and the amount and duration of benefits. The trustee is entitled to exercise any rights to elect benefit options and name subsequent beneficiaries.

(b) A trust having more than one beneficiary may not receive benefits to which multiple designated beneficiaries are not entitled under this chapter.

Sec. 824.103. ABSENCE OF BENEFICIARY. (a) Benefits payable on the death of a member or annuitant, except an optional retirement annuity under Section 824.204(c)(1), (c)(2), or (c)(5), are payable, and rights to elect survivor benefits, if applicable, are available, to one of the classes of persons described in Subsection (b), if:

(1) the member or annuitant fails to designate a beneficiary before death;

(2) a designated beneficiary does not survive the member or annuitant;

(3) a designated beneficiary, under Section 824.004, waives claims to benefits payable on the death of the member or annuitant;

(4) a beneficiary designation is revoked under Section 824.101(g); or

(5) a person is not eligible to receive a benefit under Section 824.105.

(2) any alternate beneficiaries;
(3) the surviving spouse of the decedent;

Sec. 824.104. FAILURE OF BENEFICIARY TO CLAIM BENEFITS. (a) If, before the first anniversary of the death of a member or annuitant, the retirement system does not receive a claim for payment of benefits from a designated beneficiary or a person entitled to benefits under Section 824.103, the retirement system may pay benefits, except an optional retirement annuity under Section 824.204(c)(1), (c)(2), or (c)(5), under the order of precedence in Section 824.103(b), as if the person failing to claim benefits had predeceased the decedent.

(b) Payment under Subsection (a) bars recovery by any other person of the benefits distributed.

(c) If, before the fourth anniversary of the death of a member or annuitant, payment of benefits based on the death has not been made and no claim for benefits is pending with the retirement system, the accumulated contributions of the deceased member or the balance of the reserve for the deceased annuitant is forfeited to the benefit of the retirement system. The retirement system shall transfer funds forfeited under this subsection to the state contribution account.

Sec. 824.105. BENEFICIARY CAUSING DEATH OF MEMBER OR ANNUITANT.
(a) A benefit payable on the death of a member or annuitant may not be paid to a person who has been convicted of causing that death or who is otherwise ineligible under Subsection (f) but instead is payable to a person who would be entitled to the benefit had the convicted or otherwise ineligible person predeceased the decedent.
(b) A person who becomes eligible under this section to select death or survivor benefits may select benefits as if the person were the designated beneficiary.
(c) The retirement system shall reduce any annuity computed in part on the age of the convicted or otherwise ineligible person to a lump sum equal to the present value of the remainder of the annuity. The reduced amount is payable to a person entitled as provided by this section to receive the benefit.
(d) The retirement system is not required to pay benefits under this section unless it receives actual notice of the conviction or other ground of ineligibility of a beneficiary. However, the retirement system may delay payment of a benefit payable on the death of a member or annuitant pending the results of a criminal investigation and of legal proceedings relating to the cause of death.
(e) For the purposes of this section, a person has been convicted of causing the death of a member or annuitant if the person:
   (1) pleads guilty or nolo contendere to, or is found guilty by a court of, causing the death of the member or annuitant, regardless of whether sentence is imposed or probated; and
   (2) has no appeal of the conviction pending and the time provided for appeal has expired.
(f) A person is ineligible to receive a benefit payable on the death of a member or annuitant if the person is:
   (1) found not guilty by reason of insanity under Chapter 46C, Code of Criminal Procedure, of causing the death of the member or annuitant; or
(2) the subject of an indictment, information, complaint, or other charging instrument alleging that the person caused the death of the member or annuitant and the person is determined to be incompetent to stand trial under Chapter 46B, Code of Criminal Procedure.

Sec. 824.106. SIMULTANEOUS DEATH OF MEMBER AND BENEFICIARY.
When a member or annuitant and the beneficiary of the member or annuitant have died within a period of less than 120 hours, the member or annuitant is considered to have survived the beneficiary for the purpose of determining the rights to amounts payable under this subtitle on the death of the member or annuitant.

(c) Except as specifically provided by this subtitle, a retiree may not revoke a retirement nor make, revoke, or change a selection of an optional service retirement annuity.

If a member subject to this subsection is at least 55 years old and has at least five years of service credit in the retirement system, the member is eligible to retire and receive a service retirement annuity reduced from the standard service retirement annuity available under Subsection (a)(1), to a percentage derived from the following table:

(c) Repealed by Acts 2005, 79th Leg., Ch. 1359, Sec. 55(a)(1), eff. September 1, 2005.

(d) This subsection applies only to a person who is not subject to Subsection (d-1) or (d-2). If a member subject to this subsection has at least 30 years of service credit in the retirement system, the member is eligible to retire regardless of age and receive a service retirement annuity consisting of the standard service retirement annuity available under Subsection (a) decreased by two percent for each year of age under 50 years.

(d-1) This subsection applies only to a person who becomes a member of the retirement system on or after September 1, 2007, and who is not subject to Subsection (d-2). If the sum of the member's age and amount of service credit in the retirement system equals the number 80, with at least five years of service credit, or if the member has at least 30 years of service credit in the retirement system, the member is eligible to retire regardless of age and receive a service retirement annuity consisting of the standard service retirement annuity available under Subsection (a-1)(2) decreased by five percent for each year of age under 60 years.

(d-2) This subsection applies only to a person who does not have at least five years of service credit in the retirement system on or before August 31, 2014, or who becomes a member of the retirement system on or after September 1, 2014. If the sum of the member's age and amount of service credit in the retirement system equals the number 80, with at least five years of service credit, or if the member has at least 30 years of service credit in the retirement system, the member is eligible to retire regardless of age and receive a service retirement annuity consisting of the standard service retirement annuity available under Subsection (a-2)(2) decreased by five percent for each year of age under 62 years.

(e) The board of trustees may adopt tables for reduction of benefits for early retirement by each month of age, but the range of
percentages in the tables within a year must be limited to the range provided between two years of age by this section.

(f) Except as provided by Chapter 803 or 805, a member is not eligible to receive service retirement benefits from the retirement system unless the member has at least five years of service credit in the retirement system for actual service in public schools.

Sec. 824.203. STANDARD SERVICE RETIREMENT BENEFITS.  (a) Except as provided by Subsections (c) and (d), the standard service retirement annuity is an amount computed on the basis of the member's average annual compensation for the five years of service, whether or not consecutive, in which the member received the highest annual compensation, times 2.3 percent for each year of service credit in the retirement system.

(b) In the case of a person who retired before August 27, 1979, ceilings in the definition of "annual compensation" apply to the computation of average annual compensation under Subsection (a). In the case of a person who retires on or after that date, those ceilings do not apply and the computation shall be based on actual
compensation paid or payable for services as an employee to the extent that the computation includes compensation for school years before the 1981-82 school year.

(c) Except as provided by Subsection (d), for benefits payable because of the death or retirement of a member that occurred before September 1, 1982, the standard service retirement annuity is computed in accordance with applicable prior law.

(d) In no case may the standard service retirement annuity be less than $150 a month. The minimum benefits provided by this section are subject to reduction in the same manner as other benefits because of early retirement or selection of an optional retirement annuity.

Acts 2005, 79th Leg., Ch. 1359 (S.B. 1691), Sec. 12, eff. September 1, 2005.

Sec. 824.2031. BENEFIT IMPROVEMENTS. (a) Each regular legislative session, the legislature shall determine whether the performance of the retirement system trust fund makes the fund capable of supporting improvements in the plan of benefits.

(b) A determination under this section shall be founded on the information in the most recent report of an investment practices and performance evaluation conducted under Section 802.109 and the application of that information to:

(1) the present amortization period for liabilities of the retirement system;

Statute text rendered on: 5/30/2023 - 5531 -
(2) the rate of return on retirement system investments over and above the rate of inflation of the investment portfolio as a whole, of the portion of the investment portfolio entrusted to private investment entities, and of the portion of the investment portfolio entrusted to investment officers who are employees of the retirement system;

(3) economic projections of market conditions and future investment rates of return as reflected in the comptroller's most recent economic forecast and revenue estimate;

(4) the costs, including changes in the amortization period for liabilities of the retirement system, of providing cost-of-living or other increases in benefits to current annuitants; and

(5) an evaluation of the diversity of retirement system investments and whether the portfolio provides low-risk, long-term growth.

Acts 2021, 87th Leg., R.S., Ch. 141 (H.B. 1585), Sec. 1, eff. May 26, 2021.

Sec. 824.204. OPTIONAL SERVICE RETIREMENT BENEFITS. (a) Instead of the standard service retirement annuity payable under Section 824.203 or an annuity reduced because of age under Section 824.202, a retiring member may elect to receive an optional service retirement annuity, reduced for early retirement if applicable, under this section. An election to receive an optional service retirement annuity must be filed with the board of trustees not later than the effective date of retirement.

(b) An optional service retirement annuity is an annuity payable throughout the life of the retiree and is actuarially reduced from the annuity otherwise payable under this subtitle to its actuarial equivalent under the option selected under Subsection (c).

(c) An eligible member may select one of the following options, which provide that:

(1) after the retiree's death, the reduced annuity is payable to and throughout the life of the person nominated by the retiree's written designation filed prior to retirement;

(2) after the retiree's death, one-half of the reduced
annuity is payable to and throughout the life of the person nominated by the retiree's written designation filed prior to retirement;

(3) if the retiree dies before 60 monthly annuity payments have been made, the remainder of the 60 payments are payable to the designated beneficiary;

(4) if the retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to the designated beneficiary; or

(5) after the retiree's death, three-fourths of the reduced annuity is payable to and throughout the life of the person nominated by the retiree's written designation filed prior to retirement.

(d) If a person who is nominated by a retiree in the written designation under Section 824.101 predeceases the retiree, the reduced annuity of a retiree who has elected an optional service retirement annuity under Subsection (c)(1), (c)(2), or (c)(5) shall be increased to the standard service retirement annuity that the retiree would otherwise be entitled to receive if the retiree had not selected that annuity option. The standard service retirement annuity shall be adjusted as appropriate for:

(1) early retirement as provided by Section 824.202; and

(2) postretirement increases in retirement benefits authorized by law after the date of retirement.

(e) The increase in the annuity under Subsection (d) begins with the payment due at the end of September, 1995, or the first monthly payment made to the retiree following the date of death of the person nominated, whichever is later, and is payable to the retiree for the remainder of the retiree's life.

(f) The board of trustees shall adopt separate tables to be used to reduce an optional service retirement annuity under Subsection (d) to the actuarial equivalent of the standard service retirement annuity.

Sec. 824.2045. PARTIAL LUMP-SUM OPTION. (a) A member may select a standard service retirement annuity or an optional service retirement annuity described by Section 824.204, reduced for early age as applicable under Section 824.202, together with a partial lump-sum distribution, if:

(1) the member is eligible for a service retirement annuity;

(2) the sum of the member's age and amount of service credit in the retirement system equals the number 90; and

(3) the member is not participating in the deferred retirement option plan under Subchapter I.

(b) The amount of the lump-sum distribution under this section may not exceed the sum of 36 months of a standard service retirement annuity reduced for early age as applicable under Section 824.202 computed without regard to this section.

(c) The service retirement annuity selected by the member shall be actuarially reduced to reflect the lump-sum option selected by the member and shall be actuarially equivalent to a standard or optional service retirement annuity, as applicable, reduced for early age as applicable under Section 824.202, without the partial lump-sum distribution. The annuity and lump sum shall be computed to result in no actuarial loss to the retirement system.

(d) The retiring member may choose a lump sum equal to 12 months of a standard service retirement annuity and payable at the same time that the first monthly payment of the annuity is paid, a lump sum equal to 24 months of a standard annuity and payable in one or two annual payments, or a lump sum equal to 36 months of a standard annuity and payable in one, two, or three annual payments. At the option of the member, a payment under this subsection may be made as provided by Section 825.509. The amount of the lump sum shall be computed based on a standard service retirement annuity reduced for early age as applicable under Section 824.202.

(e) The amount of the lump-sum distribution will be deducted from any amounts otherwise payable under Section 824.503.

(f) The partial lump-sum option under this section may be elected only once by a member and may not be elected by a retiree. A member retiring under the proportionate retirement program under Chapter 803 is not eligible for the partial lump-sum option.
(g) Before a retiring member selects a partial lump-sum distribution under this section, the retirement system shall provide a written notice to the member of the amount by which the member's annuity will be reduced because of the selection. The member shall be asked to sign a copy of or receipt for the notice, and the retirement system shall maintain the signed copy or receipt.

(h) The board of trustees may adopt rules for the implementation of this section.

Sec. 824.205. DEDUCTIONS FROM SERVICE RETIREMENT ANNUITY. (a) A person who receives a service retirement annuity under Section 824.202, 824.203, or 824.204 may, on a form satisfactory to and filed with the retirement system, authorize the retirement system to deduct from the person's monthly annuity payment the amount required as a monthly premium for:

(1) hospital insurance benefits provided to uninsured individuals not otherwise eligible for medical insurance for the aged, as provided by Part A of Title XVIII of the federal Social Security Act (42 U.S.C. Section 1395c et seq.); and

(2) supplementary medical insurance benefits for the aged, as provided by Part B of Title XVIII of the federal Social Security Act (42 U.S.C. Section 1395j et seq.).

(b) After making deductions authorized under Subsection (a), the retirement system shall pay the required premiums to the treasury of the United States, subject to applicable laws relating to the time and manner of payment.

Sec. 824.206. CHANGE OF SERVICE RETIREMENT ANNUITY PAYMENT PLAN. (a) A retiree may change the retiree's choice of service retirement annuity payment plans after the retiree's effective date...
of retirement by filing written notice with the board of trustees before the later of the date on which the retirement system makes the first annuity payment or the date the first payment becomes due. After the first payment has been made by the retirement system or has become due, a retiree may not change the annuity payment plan selected.

(b) For purposes of this section, the term "makes payment" includes the depositing in the mail of a payment warrant or the crediting of an account with payment through electronic funds transfer.

(c) The retirement system may adopt rules to administer this section.

Added by Acts 1993, 73rd Leg., ch. 812, Sec. 7, eff. Sept. 1, 1993.

SUBCHAPTER D. DISABILITY RETIREMENT BENEFITS
Sec. 824.301. APPLICATION FOR DISABILITY RETIREMENT BENEFITS.
(a) A member may apply for a disability retirement annuity by:
(1) filing a written application for retirement with the board of trustees; or
(2) having an application filed with the board by the member's legal representative.
(b) In addition to an application for retirement, a member shall file with the board of trustees the results of a medical examination of the member.
(c) The board of trustees by rule may require the submission to it of additional information about a disability. The retirement system shall prescribe forms for the information required by this section.

Sec. 824.302. ELIGIBILITY FOR DISABILITY RETIREMENT. Subject to Section 824.310, a member is eligible to retire and receive a disability retirement annuity if the member:
(1) is mentally or physically disabled from the further performance of duty; and
(2) has a disability that is probably permanent.

Sec. 824.303. CERTIFICATION OF DISABILITY. (a) After a member applies for disability retirement, the medical board may require the member to submit additional information about the disability.
(b) If the medical board finds that the member is mentally or physically disabled from the further performance of duty and that the disability is probably permanent, the medical board shall certify disability, and the member shall be retired.
(c) The medical board may rule on an application for disability retirement at a regular or special meeting or by mail, telephone, telegraph, or other suitable means of communication.

Sec. 824.304. DISABILITY RETIREMENT BENEFITS. (a) Subject to Section 824.310, if a member has a total of less than 10 years of service credit in the retirement system on the date of disability retirement, the retirement system shall pay the person a disability retirement annuity of $150 a month for the shortest of the following periods:
(1) the duration of the disability;
(2) the number of months of creditable service the person has at retirement; or
(3) the duration of the person's life.
(b) Subject to Section 824.310, if a member has a total of at least 10 years of service credit in the retirement system on the date of disability retirement, the retirement system shall pay the person...
for the duration of the disability a disability retirement annuity in an amount equal to the greater of:

(1) a standard service retirement annuity computed under Section 824.203; or
(2) $150 a month.

(c) Before the 31st day after the date on which the medical board certifies a member's disability, the member may reinstate withdrawn contributions and make deposits for military service and equivalent membership service and receive service credit as provided by this subtitle.

(d) The minimum benefits provided by this section are subject to reduction under rules adopted under Section 824.310 and are also subject to reduction in the same manner as other benefits because of the selection of an optional retirement annuity.

Acts 2007, 80th Leg., R.S., Ch. 1230 (H.B. 2427), Sec. 2, eff. September 1, 2007.

Sec. 824.305. MEDICAL EXAMINATION OF DISABILITY RETIREE. (a) Once each year during the first five years after a member retires for disability, and once in each three-year period after that, the board of trustees may require a disability retiree who is less than 60 years old to undergo a medical examination by one or more physicians the board designates.

(b) If a disability retiree refuses to submit to a medical examination as provided by this section, the board of trustees shall discontinue the retiree's annuity payments until the retiree submits to an examination.

Sec. 824.307. RESTORATION OF DISABILITY RETIREE TO MEMBERSHIP. (a) If the medical board finds that a disability retiree is no longer mentally or physically incapacitated for the performance of duty, it shall certify its findings and submit them to the board of trustees.

(b) If a disability retiree is restored to active service, other than service described by Section 824.602(a)(1), or refuses for more than one year to submit to a required medical examination, or if the board of trustees concurs in a certification issued under Subsection (a), the board shall discontinue the retiree's annuity payments and the retiree must again become a member of the retirement system.

(c) When a person becomes a member under this section, an amount equal to the sum in the person's individual account in the member savings account at the time of retirement, minus the amount of annuity payments made since retirement, shall be transferred from the retired reserve account to the person's individual account in the member savings account. The member is entitled to service credit for all service credit used to compute the member's disability retirement annuity at the time of retirement.

Sec. 824.308. OPTIONAL DISABILITY RETIREMENT BENEFITS. (a) Instead of an annuity payable under Section 824.304(b), a member retiring under that section may elect to receive an optional disability retirement annuity under this section. An election to receive an optional disability retirement annuity must be filed with the board of trustees not later than the later of the effective date of retirement or the date the member applies for retirement.

(b) An optional disability retirement annuity is an annuity payable throughout the disability of the disability retiree and is
actuarially reduced from the annuity otherwise payable under Section 824.304(b), after any reduction under rules adopted under Section 824.310, to its actuarial equivalent under the option selected under Subsection (c).

(c) An eligible member may select one of the following options:

(1) after the disability retiree's death, the reduced annuity is payable throughout the life of a person nominated by the retiree's written designation under Section 824.101 filed before retirement;

(2) after the disability retiree's death, one-half of the reduced annuity is payable throughout the life of the retiree's designated beneficiary;

(3) if the disability retiree dies before 60 monthly annuity payments have been made, the remainder of the 60 payments are payable to the designated beneficiary;

(4) if the disability retiree dies before 120 monthly annuity payments have been made, the remainder of the 120 payments are payable to the designated beneficiary; or

(5) after the disability retiree's death, three-fourths of the reduced annuity is payable throughout the life of the retiree's designated beneficiary.

(d) If the person nominated by the disability retiree's written designation under Section 824.101 filed before or at the time of retirement predeceases the disability retiree, the reduced annuity of a disability retiree who has elected an optional retirement annuity under Subsection (c)(1), (c)(2), or (c)(5) is increased to the standard retirement annuity that the disability retiree would otherwise be entitled to receive if the disability retiree had not selected an annuity option. The standard retirement annuity shall be adjusted as appropriate for postretirement increases in retirement benefits authorized by law after the date of retirement.

(e) The increase in the annuity under Subsection (d) begins with the first monthly payment made to the disability retiree after the date of death of the designated beneficiary and is payable to the disability retiree for the remainder of the disability retiree's disability.

(f) The board of trustees shall adopt separate tables to be used to reduce an optional disability retirement annuity under this section to the actuarial equivalent of the standard retirement annuity.
The continued payment to a disability retiree and the future payment to the retiree's designated beneficiary of any disability benefit, including an optional payment elected under Subsection (c), are conditioned on the continuation of the retiree's disabled status until the date of the retiree's death.

The same requirements and limitations that apply to the designation or changing of beneficiaries for service retirement annuity options, including Section 824.101, apply to the designation of beneficiaries for disability retirement options.

Sec. 824.309. CHANGE OF DISABILITY RETIREMENT PAYMENT PLAN.  
(a) A retiree may change the retiree's choice of disability retirement payment plans after the retiree's effective date of retirement by filing written notice with the board of trustees before the later of the date on which the retirement system makes the first annuity payment or the date the first payment becomes due. After the first payment has been made by the retirement system or has become due, a retiree may not change the annuity payment plan selected.
(b) For purposes of this section, the term "makes payment" includes the depositing in the mail of a payment warrant or the crediting of an account with payment through electronic funds transfer.
(c) The retirement system may adopt rules to administer this section.

Sec. 824.310. PURPOSE OF DISABILITY BENEFIT; LIMIT ON SUPPLEMENTAL INCOME.  (a) The purpose of a disability retirement annuity paid under this subchapter is to lessen the financial hardships faced by a member with a disability.
(b) The board of trustees shall adopt rules under which the disability retirement annuity paid to a disability retiree under this subchapter is reduced on a sliding-scale basis or is suspended for a period in which the compensation earned by the retiree for work performed in a 12-month period during the disability retirement, as determined under the rules of the board of trustees, exceeds the compensation earned by the retiree during the 12-month period in which the retiree earned the highest compensation for actual service as a member of the retirement system.

(c) The rules adopted under Subsection (b) must provide for the partial or full reinstatement of a disability retirement annuity that is reduced or suspended if the compensation earned by the retiree for work performed during the disability retirement is reduced or suspended.

(d) The board of trustees by rule shall require a disability retiree to report to the board the amount of compensation earned by the disability retiree that exceeds the amount established by the board by rule for work performed during the disability.

SUBCHAPTER E. MEMBER DEATH BENEFITS

Sec. 824.401. AVAILABILITY OF ANNUITY. (a) A death benefit annuity under this chapter is payable only if the decedent had, at the time of death, at least the minimum amount of service credit in the retirement system necessary for a service retirement annuity at an attained age.

(b) Multiple beneficiaries are not eligible to receive a death benefit annuity under Section 824.402(a)(4) or an equivalent annuity under Section 824.403.

Sec. 824.402. BENEFITS ON DEATH OF ACTIVE MEMBER. (a) Except as provided by Section 824.401, the designated beneficiary of a member who dies during a school year in which the member has
performed service is eligible to receive at the beneficiary's election the greatest of the following amounts:

1. an amount equal to twice the member's annual compensation for the school year immediately preceding the school year in which the member dies, or $80,000, whichever is less;

2. an amount equal to twice the member's rate of annual compensation for the school year in which the member dies, or $80,000, whichever is less;

3. 60 monthly payments of a standard service retirement annuity, computed as provided by Section 824.203;

4. an optional retirement annuity for the designated beneficiary's life in an amount computed as provided by Section 824.204(c)(1) as if the member had retired on the last day of the month immediately preceding the month in which the member dies; or

5. an amount equal to the amount of accumulated contributions in the member's individual account in the member savings account.

(a-1) In determining under Subsection (a)(4) whether to reduce the optional retirement annuity amount because of early retirement and in determining the amount of that reduction, if applicable, the retirement system shall make the determination as if the member had retired with an additional five years of service credit on the last day of the month preceding the month in which the member dies. The additional five years of service credit used in making a determination under this subsection may not be used to determine the amount of the benefit under Section 824.203 or whether the benefit under this subsection is authorized under Section 824.401.

(b) In addition to the benefits provided under Subsection (a), the designated beneficiary of a member who is an employee of a school district and who dies as the result of a physical assault during the performance of the employee's regular duties is eligible to receive a lump-sum death benefit payment in the amount of $160,000.

(c) The board of trustees by rule may prescribe the manner of payment of benefits under this section.

Sec. 824.403. BENEFITS ON DEATH OF INACTIVE MEMBER. (a) Except as provided by Section 824.401, the designated beneficiary of a member who dies while absent from service is eligible to receive:

(1) the same benefits payable under Section 824.402 or 824.404 if the member's absence from service was:

(A) because of sickness, accident, or other cause the board of trustees determines involuntary;

(B) in furtherance of the objectives or welfare of the public school system; or

(C) during a time when the member was eligible to retire or would become eligible without further service before the fifth anniversary of the member's last day of service as a member; or

(2) an amount equal to the accumulated contributions in the member's individual account in the member savings account, if the member's absence from service does not satisfy a requirement of Subdivision (1).

(b) To the extent required by Section 401(a)(37), Internal Revenue Code of 1986, the designated beneficiary of a member who died on or after January 1, 2007, while the member was performing qualified military service as defined by Section 414(u), Internal Revenue Code of 1986, is eligible to receive additional benefits to the same extent as if the member had resumed employment and been employed at the time of death.

Acts 2009, 81st Leg., R.S., Ch. 1171 (H.B. 3347), Sec. 3, eff. September 1, 2009.

Sec. 824.404. SURVIVOR BENEFITS. (a) The designated
beneficiary of a member who dies may, if entitled to a death benefit other than the accumulated contributions of the member, elect to receive, instead of a benefit payable under Section 824.402 or 824.403, a lump-sum payment of $2,500 plus an applicable monthly benefit described in this section.

(b) If the designated beneficiary is the spouse or a dependent parent of the decedent, the beneficiary may elect to receive for life a monthly benefit of $250, beginning immediately or on the date the beneficiary becomes 65 years old, whichever is later.

(c) If the designated beneficiary is the spouse of the decedent and has one or more children less than 18 years old or has custody of one or more children of the decedent who are less than 18 years old, the designated beneficiary may elect to receive:

(1) a monthly benefit of $350 payable until the youngest child becomes 18 years old; and
(2) when the youngest child has attained the age of 18, a monthly benefit for life of $250, beginning on the date the beneficiary becomes 65 years old.

(d) If the designated beneficiary or beneficiaries are the decedent's dependent children who are less than 18 years old, their guardian may elect to receive for them:

(1) a monthly benefit of $350, payable as long as two or more children are less than 18 years old; and
(2) a monthly benefit of $250, payable as long as only one child is less than 18 years old.

(e) If the designated beneficiary is the spouse or a dependent parent of the decedent, benefits under Subsection (d) are payable, if a dependent child less than 18 years old exists, on the death of the beneficiary.

(f) A person who qualifies to receive survivor benefits from more than one deceased member as a spouse or a spouse with a dependent child is entitled to be paid only benefits based on the death of one of the decedents.

Sec. 824.4041. BENEFITS FOR CERTAIN SURVIVING SPOUSES. (a) A person is eligible to receive benefits under this section if the person:

(1) is the designated beneficiary of a deceased member;
(2) elected before September 1, 1980, to receive for life a monthly benefit of $75 beginning at the age of 65;
(3) became ineligible for the benefits because the person remarried before September 1, 1980; and
(4) reappllies for benefits under this section.

(b) The retirement system shall:

(1) verify whether a person is eligible to receive benefits under this section; and
(2) if the person is eligible, make payments to the person of a monthly benefit in the amount specified in Section 824.404.

(c) The retirement system shall make payment to a person eligible to receive benefits under this section beginning with the month after the month in which the person reappllies for benefits under this section.

Sec. 824.405. TABLES FOR DETERMINATION OF DEATH BENEFIT ANNUITY. For the purpose of computing a death benefit annuity under Section 824.402(a)(4) or Section 824.403, the board of trustees shall extend the tables in Section 824.202 to ages earlier than indicated in the tables by actuarially reducing the benefit available under the applicable table to the actuarial equivalent at the attained age of the member.

(b) A surviving spouse eligible under this section to receive a benefit is one who has not received from the retirement system a benefit based on the member's death, other than a return of the member's accumulated contributions.

(c) A surviving spouse who qualifies under this section for a survivor benefit is not eligible to receive a lump-sum benefit under Section 824.404(a).

(d) A benefit under this section is payable beginning on the last day of the month in which an eligible person applies for the benefit on a form prescribed by and filed with the retirement system.

Sec. 824.407. GUARANTEED RETURN OF AMOUNT EQUAL TO CONTRIBUTIONS. If a beneficiary selects a life annuity death benefit under Section 824.402, the retirement system shall pay a lump-sum death benefit in an amount, if any, by which the amount of the deceased member's accumulated contributions at the time of death exceeds the amount of annuity payments made to the beneficiary before the beneficiary's death. This lump-sum benefit will be paid to the person designated by the beneficiary of the annuity or, if no person is designated, to the estate of the beneficiary.

Sec. 824.501. SURVIVOR BENEFITS. (a) The designated beneficiary of a service or disability retiree who dies while receiving a service or disability retirement benefit may elect to receive:

(1) a lump-sum payment of $2,500, plus an applicable monthly benefit under Section 824.404; or

(2) a lump-sum benefit of $10,000.

(b) An eligible person may receive benefits under this section, Section 824.204, and Section 824.308.

Sec. 824.502. BENEFITS ON DEATH OF DISABILITY RETIREE. Sec. 824.503. RETURN OF EXCESS CONTRIBUTIONS. (a) If a retiree dies while receiving a standard or reduced service retirement annuity as provided by Section 824.202 or an optional service retirement annuity as provided by Section 824.204(c)(1), (c)(2), or (c)(5) and, in the case of a retiree receiving an optional service retirement annuity, if the retiree's designated beneficiary of the annuity has predeceased the retiree, the retirement system shall pay
a lump-sum death benefit in an amount, if any, by which the amount of
the deceased retiree's accumulated contributions at the time of
retirement exceeds the amount of annuity payments made before the

payments made to the retiree and the designated beneficiary before
the beneficiary's death.

(d) A benefit under Subsection (c) is payable to the person or
persons designated as the beneficiary of the beneficiary and, if such
person has not been designated or does not survive, then to the
persons entitled to distribution of the deceased beneficiary's
estate.

(e) An eligible person may receive benefits under both this
section and Section 824.501.

(f) The designated beneficiary of a disability retiree is
eligible to receive the benefits described by this section if the

SUBCHAPTER G. LOSS OF BENEFITS ON RESUMPTION OF SERVICE

Sec. 824.601. LOSS OF MONTHLY BENEFITS. (a) In this section, "third-party entity" means an entity retained by a Texas public educational institution to provide personnel to the institution that perform duties or provide services that employees of the institution
would otherwise perform or provide.

(b) Except as provided by Subsection (b-1) or (b-4), or Section 824.602 and subject to Subsection (b-2) and, if applicable, Subsection (b-3), a retiree is not entitled to service or disability retirement benefit payments, as applicable, for any month in which the retiree is employed in any position by a Texas public educational institution.

(b-1) Subsection (b) does not apply to a retiree under Section 824.202 whose effective date of retirement is on or before January 1, 2021.

(b-2) A retiree is considered to be employed by a Texas public educational institution for purposes of Subsection (b) if the retiree performs duties or provides services for or on behalf of the institution that an employee of the institution would otherwise perform or provide and:

(1) the retiree waives, defers, or forgoes compensation from the institution for the performance of the duties or provision of the services at any time during the 12 consecutive calendar months after the retiree's effective date of retirement, notwithstanding any other law, including Sections 824.602(a)(1), (a)(2), and (a)(4);

(2) the retiree performs the duties or provides the services for or on behalf of the institution as an independent contractor at any time during the 12 consecutive calendar months after the retiree's effective date of retirement; or

(3) the retiree, as a volunteer without compensation, performs the same duties or provides the same services for an institution that the retiree performed or provided immediately before retiring and the retiree has an agreement to perform those duties or provide those services after the 12 consecutive calendar months after the retiree's effective date of retirement.

(b-3) A retiree under Section 824.202 is subject to Subsection (b) only if the retirement system first issues the following notices to the retiree:

(1) with respect to the first occurrence of the retiree's employment that does not qualify for an exception under Section 824.602, the system issued a written warning notifying the retiree of that fact; and

(2) in a month following the month in which the system issued the warning described by Subdivision (1) and with respect to a subsequent occurrence of the retiree's continued employment that does
not qualify for an exception under Section 824.602, the system issued a written notice:

(A) warning the retiree of the fact described by this subdivision; and

(B) requiring the retiree to pay to the system, in a form and manner prescribed by the system, an amount, as elected by the retiree, that equals the total sum the retiree:

(i) earned for all employment by Texas public educational institutions for each month occurring after the issuance of the warning under Subdivision (1) for which the retiree did not qualify for an exception under Section 824.602 and before the month the system issued the written notice described by this subdivision; or

(ii) received in retirement benefit payments for each month occurring after the issuance of the warning under Subdivision (1) for which the retiree did not qualify for an exception under Section 824.602 and before the month the system issued the written notice described by this subdivision.

(b-4) A retiree under Section 824.302 who is employed in any position by a Texas public educational institution for more than 90 days in a school year is not entitled to disability retirement benefit payments for the remaining months of the school year during which the retiree continues to be employed by an institution unless the retiree qualifies for the exception described by Section 824.602(g).

(c) A Texas public educational institution, for the purposes of this subchapter, is any entity included in the definition of "employer" or "public school" in Section 821.001 or any entity in whose employment the retiree has earned credit as a member of the retirement system.

(d) A retiree who is an employee of a third-party entity is considered to be employed by a Texas public educational institution for purposes of this subchapter unless the retiree does not perform duties or provide services on behalf of or for the benefit of the institution.

(e) Loss of benefits under this section does not extend any period of guaranteed benefits elected pursuant to Section 824.204.

(f) Redesignated by Acts 2021, 87th Leg., R.S., Ch. 141 (H.B. 1585), Sec. 3, eff. May 26, 2021.
Sec. 824.602. EXCEPTIONS. (a) Subject to Section 825.506, the retirement system may not, under Section 824.601, withhold a monthly benefit payment if the retiree is employed in a Texas public educational institution:

(1) as a substitute only with pay not more than the daily rate of substitute pay established by the employer and, if the retiree is a disability retiree, the employment has not exceeded a total of 90 days in the school year;

(2) in a position, other than as a substitute, on no more than a one-half time basis for the month;

(3) in one or more positions on as much as a full-time basis, if the retiree has been separated from service with all Texas public educational institutions for at least 12 full consecutive months after the retiree's effective date of retirement;

(4) in a position, other than as a substitute, on no more than a one-half time basis for no more than 90 days in the school year, if the retiree is a disability retiree; or

(5) as a tutor under Section 33.913, Education Code.

(b) Working any portion of a day counts as working a full day for the purposes of Subsection (a)(1) or (a)(4).

(c) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 928, Sec. 5, eff. June 17, 2011.

(d) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 928, Sec. 5,
eff. June 17, 2011.

(e) Except as provided by Subsections (n) and (o), the exception provided by Subsection (a) does not apply to a retiree working as a substitute under Subsection (a)(1) who also works in another position described by Subsection (a) in the same month.

(f) The retirement system shall include any employment during the school year, including any employment that relied on the exemption provided by Subsection (a)(1) or (a)(4), in determining whether and when a disability retiree has exceeded 90 days of employment in the school year.

(g) The exceptions provided by Subsections (a)(2) and (a)(3) do not apply to disability retirees. The retirement system nevertheless may not withhold a monthly benefit payment under Section 824.601 if:

(1) a disability retiree is employed in a Texas public educational institution in a position, other than as a substitute, for a period not to exceed three consecutive months;

(2) the work occurs in a period, designated by the disability retiree, of no more than three consecutive months;

(3) the disability retiree executes on a form and at a time prescribed by the retirement system a written election to have this exception apply on a one-time trial basis in determining whether benefits are to be suspended for the months of employment after retirement and in determining whether a disability retiree is no longer mentally or physically incapacitated for the performance of duty; and

(4) the disability retiree has not previously elected to avoid loss of monthly benefits under this subsection.

(h) A disability retiree is not entitled to service credit for service during a trial period under Subsection (g) if the retiree is restored to active service.

(i) Section 824.005(b), concerning revocation of retirement on certain reemployment, applies to employment described in Subsection (a) or (g).

(j) The board of trustees shall adopt rules governing the employment of a substitute and defining "one-half time basis."

(k) The actuary designated by the board of trustees shall, in investigating the experience of the members of the system, note any significant increase in early age retirements and determine the extent to which any increase has been caused by the exception to loss of benefits for employment after retirement provided by Subsection
(a)(3). If the actuary certifies in writing to the retirement system that sound actuarial funding of the retirement system's benefits is endangered by continuation of this exception, the board of trustees may determine that no further elections of the exception will be accepted from retirees, other than from those who have previously relied on the exception in retiring under this subtitle. A retiree may be considered to have relied on this exception only if retirement occurred on or after May 31, 1985, but before the date the board of trustees acknowledges receipt of such certification and if the retiree has first elected to receive benefits under the exception not later than two years after the retiree's effective date of retirement.

(l) This subchapter does not apply to payments under Section 824.804(b).

(m) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 928, Sec. 5, eff. June 17, 2011.

(n) The exception provided by Subsection (a) applies to a retiree employed in positions under Subsections (a)(1) and (a)(2) in the same month only if the total number of days that the retiree works in those positions in that month do not exceed the number of days per month for work on a one-half-time basis.

(o) The exception provided by Subsection (a) applies to a disability retiree employed in positions under Subsections (a)(1) and (a)(4) in the same month only if the total number of days that the disability retiree works in those positions in that month do not exceed the number of days per month for work on a one-half-time basis.

Sec. 824.6021. TEMPORARY EXCEPTION TO MITIGATE LEARNING LOSS ATTRIBUTABLE TO COVID-19 PANDEMIC. (a) Subject to Section 825.506, the retirement system may not, under Section 824.601, withhold a monthly benefit payment if the retiree is employed in a Texas public educational institution, other than an institution of higher education, in a position performing duties related to the mitigation of student learning loss attributable to the coronavirus disease (COVID-19) pandemic, if the position:

(1) is in addition to the normal staffing level at the Texas public educational institution;

(2) is funded wholly by federal funds provided under federal law enacted for the purpose of providing relief related to the coronavirus disease (COVID-19) pandemic, including the
(3) ends on or before December 31, 2024.

(b) The exception provided by this section:
(1) is in addition to the exceptions otherwise provided by Sections 824.601 and 824.602; and
(2) does not apply to disability retirees.
(c) This section expires February 1, 2025.

Sec. 824.603. EXCLUSION FROM CREDIT. Employment of a retiree described by Section 824.601(b-1) or 824.602(a) does not entitle the retiree to additional service credit, and the retiree so employed is not required to make contributions to the system from compensation for that employment.

Sec. 824.701. APPLICATION OF ANNUITY INCREASES TO CERTAIN ANNUITIES. (a) An increase that is provided by law in the amount of an annuity being paid by the retirement system and that is applicable to retirements occurring before, or not later than, a date specified in the law also applies to an annuity based on the service of a member who, before October 1, 1989:

(1) accepted, under Subchapter C, service retirement that became effective on a date that is within the period specified for eligibility for the increase;

(2) subsequently revoked the person's service retirement as provided by Section 824.005;

(3) subsequently applied for disability retirement under Section 824.301 to be effective at the end of the month in which the revocation of service retirement occurred;

(4) did not receive a disability retirement annuity under Subchapter D;

(5) subsequently accepted service retirement that became effective at the end of the month in which the earlier revocation of service retirement occurred; and

(6) applies to the retirement system in writing for recomputation of the person's annuity.

(b) As soon as practicable after a person applies under this section, the retirement system shall verify whether an applicant meets the requirements of this section and is entitled to any increases in annuities provided by existing law.

(c) The retirement system shall increase the amount of an annuity payable to a retiree who applies and is verified as eligible for an increase in annuities provided by law, by the amount or rate of the increase. The first payment of an annuity as increased by this section is due on the later of:
the end of the month in which the retiree is verified under this section as eligible for the increase; or

(2) a date of first payment specified in the law providing for the increase.

(d) For the sole purpose of determining eligibility for or the amount of increases in annuities provided by law after the date a retiree has been verified as eligible for an increase under this section, the date of retirement of the person on whose service the annuity is based will be considered the date of original service retirement that was subsequently revoked, if the retiree has not terminated the subsequent service retirement as provided by this subtitle.

  (B) the date of death of the member of the retirement system must have been on or before August 31, 2004; or

(3) is an alternate payee under Section 804.005, the annuitant is eligible for the adjustment only if the effective date of the election to receive the annuity payment was on or before August 31, 2004.

(2) is limited to the lesser of:

(f) The board of trustees shall determine the eligibility for and the amount of any adjustment in monthly annuities in accordance with this section.
SUBCHAPTER I. DEFERRED RETIREMENT OPTION PLAN

Sec. 824.801. DEFINITION. In this subchapter, "plan" means the deferred retirement option plan provided by this subchapter.

Added by Acts 1997, 75th Leg., ch. 1416, Sec. 21, eff. Sept. 1, 1997.

Sec. 824.8011. DEADLINE TO ELECT TO PARTICIPATE. A person must make an election to participate in the plan not later than December 31, 2005.

Added by Acts 2005, 79th Leg., Ch. 1359 (S.B. 1691), Sec. 18, eff. September 1, 2005.

Sec. 824.802. PARTICIPATION IN PLAN. (a) A contributing member who is eligible under Section 824.202 to retire and receive a standard service retirement annuity that is not reduced for retirement at an early age and who has at least 25 years of service credit in the retirement system may, if the member remains an employee, elect to participate in the deferred retirement option plan.

(b) An election to participate in the plan must be on a form prescribed by and filed with the retirement system. An election may be made only once and must state the period that the member wishes to participate in the plan. The period must be a minimum of 12 consecutive months and be in 12-month increments. The maximum period a member may participate in the plan is 60 consecutive months. An election under this section is irrevocable after filing. The filing of an election under this section is not considered for any purpose an application for retirement, and a person is not considered a retiree for any purpose because of the filing.

(c) The effective date of a member's participation in the plan is the first day of the month after the month in which an election is received and approved by the retirement system. The retirement system shall approve the election filed by a member who is eligible to make the election.
Sec. 824.803. COMPUTATION OF PARTICIPANT'S SERVICE AND ANNUITY. (a) A person participating in the plan remains a member of the retirement system during the period of participation, unless the member terminates membership under Section 822.003, but the member may not, during participation, accrue additional service credit. The member shall make employee contributions to the retirement system, and the state and the member's employing district, if applicable, shall make contributions for the member's service performed during the member's participation in the plan. Member contributions made during the period of participation in the plan are not eligible for withdrawal by the participant and are deposited in the retired reserve account. The member and the state retain the obligation to contribute under Sections 1575.202 and 1575.203, Insurance Code, during the member's participation in this plan.

(b) For purposes of the plan, the computation of the service retirement annuity of a member participating in the plan is determined as of the effective date of participation. A participating member is not eligible to receive a postretirement increase made applicable to annuitants during the member's participation in the plan.

(c) An election to participate in the plan constitutes a deadline for the purchase of special service credit.

Sec. 824.804. BENEFITS UNDER PLAN. (a) On the effective date of a member's participation in the plan, the retirement system shall make the transfers required by Section 825.309 to the retired reserve account as if the member had retired on that date. The retirement system shall transfer monthly, during the period of the member's participation in the plan, from the retired reserve account to an account for the member in the deferred retirement option account an amount equal to:

(1) 60 percent of the amount the member would have received...
that month under a standard service retirement annuity if the member had retired under the multiplier currently in effect; or

(2) if the member began participation in the plan before September 1, 1999, 79 percent of the amount the member would have received that month under a standard service retirement annuity if the member had retired under the multiplier currently in effect.

(b) When a member who has participated in the plan retires from the retirement system, the person is entitled to the accumulated amount in the member's account in the deferred retirement option account, including creditable interest. The amount is payable in a lump sum, in periodic installments, or as provided by Section 825.509, at the option of the member. The board of trustees by rule shall determine the number and frequency of installment payments.

(c) If a member dies during participation in the plan or after participation but before retirement, the decedent's designated beneficiary is entitled to the accumulated amount in the decedent's account in the deferred retirement option account, including creditable interest. The beneficiary is also entitled to a death benefit based on compensation and years of service on the effective date of participation in the plan and on age on the date of death.

(d) Payment of the benefit provided under the plan is in addition to any annuity otherwise payable under this subtitle. The retiring member may choose a DROP payment in accordance with the provisions of Section 825.509.

Sec. 824.805. TERMINATION OF PARTICIPATION IN PLAN. (a) Except as provided by Subsection (b), a member terminates participation in the plan by:

(1) retirement;
(2) death; or
(3) expiration of the period for which participation was approved.

(b) This subsection applies only to a member participating in the plan on September 1, 2005, or to a member whose period of participation in the plan expired on or before September 1, 2005, but
who has not retired on or before that date. A member described by
this subsection may, before December 31, 2005, revoke the member's
decision to participate in the plan on a form prescribed by and filed
with the retirement system. The retirement system shall make account
transfers and change records for a member who revokes the member's
decision to participate in the plan under this subsection as if the
member had never participated in the plan.

(c) A member or beneficiary described by Subsection (d) may, on
or before December 31, 2015, revoke the member's decision to
participate in the plan on a form prescribed by and received by the
retirement system not later than that date. The retirement system
shall make account transfers and change records for a member whose
decision to participate in the plan is revoked under this subsection,
as if the member had never participated in the plan.

(d) Subsection (c) applies only to:

(1) a member:

(A) whose approved period of participation in the plan

has expired; and

(B) who has not retired on or before December 31, 2015;
or

(2) a beneficiary of a member whose approved period of

participation in the plan has expired and who has not retired before
death if:

(A) the beneficiary is eligible to receive both a
distribution of benefits payable on the death of the member and the
distributions from the plan; and

(B) the member dies on or after September 1, 2015.

Sec. 824.806. BENEFITS FOR SERVICE AFTER PLAN PARTICIPATION.

(a) Any eligible service credit accrued after termination of
participation in the plan and before retirement shall be credited in the retirement system.

(b) At the time a member retires or dies, the retirement system shall compute the value of the additional service credit at the rate provided under Section 824.203, based on the lesser of the three years of service after the member's termination of plan participation, or the member's actual years of service after the termination, in which the member received the highest annual compensation. The retirement system shall add the amount computed under this subsection to the amount determined on the effective date of plan participation, and the sum is payable, subject to actuarial reduction if applicable, as the monthly annuity payment.

Added by Acts 1997, 75th Leg., ch. 1416, Sec. 21, eff. Sept. 1, 1997.

Sec. 824.807. INTEREST. Interest is creditable to a member's account in the deferred retirement option account at an annual, prorated rate equal to two percent during the period of participation in the plan and until all benefits are distributed.

**SUBCHAPTER B. POWERS AND DUTIES OF BOARD OF TRUSTEES**

Sec. 825.101. GENERAL ADMINISTRATION. The board of trustees is responsible for the general administration and operation of the retirement system. Notwithstanding any other law, the board of trustees has exclusive control over all assets held in trust by the retirement system and all operations funded by trust assets and shall administer the retirement system for the sole and exclusive benefit of the members and participants.
Sec. 825.102.  RULEMAKING.  Subject to the limitations of this subtitle, the board of trustees may adopt rules for:

(1) eligibility for membership;
(2) the administration of the funds of the retirement system; and
(3) the transaction of business of the board.

Sec. 825.1025.  NEGOTIATED RULEMAKING; ALTERNATIVE DISPUTE RESOLUTION.  (a) The board of trustees shall develop and implement a policy to encourage the use of:

(1) negotiated rulemaking procedures under Chapter 2008 for the adoption of the retirement system's rules; and
(2) appropriate alternative dispute resolution procedures under Chapter 2009 to assist in the resolution of internal and external disputes under the retirement system's jurisdiction.

(b) Subject to Subsection (d), the retirement system's procedures relating to alternative dispute resolution must conform, to the extent possible, to any model guidelines issued by the State Office of Administrative Hearings for the use of alternative dispute resolution by state agencies.

(c) The board of trustees shall designate a trained person to:

(1) coordinate the implementation of the policy adopted under Subsection (a);

(2) serve as a resource for any training needed to implement the procedures for negotiated rulemaking or alternative dispute resolution; and

(3) collect data concerning the effectiveness of those
procedures, as implemented by the retirement system.

(d) The board of trustees shall ensure that the implementation of this section and the negotiated rulemaking procedures and alternative dispute resolution procedures adopted under this section are consistent with the fiduciary responsibility imposed on the board by law.

Sec. 825.103. ADMINISTERING SYSTEM ASSETS. (a) The board of trustees is the trustee of all assets of the retirement system.

(b) The board may invest and reinvest the retirement system's assets as authorized by Article XVI, Section 67, of the Texas Constitution.

(c) Except as provided herein, Chapter 412, Labor Code, does not apply to the retirement system. The board of trustees may acquire services described by that chapter in any manner or amount the board considers reasonable. The State Office of Risk Management shall provide services for the retirement system as requested by the retirement system, and the retirement system may use the services of the State Office of Risk Management to obtain insurance and perform risk management and workers' compensation claim services. In accordance with terms mutually agreed upon by both parties, the retirement system shall be subject to the relevant requirements of Chapter 412, Labor Code, only for the specific programs or services the board elects to obtain from or through the State Office of Risk Management. The State Office of Risk Management shall pay to the retirement system any amounts collected on behalf of the system through subrogation of claims, regardless of the budget biennium in which the office receives the amounts. The State Office of Risk Management shall pay these amounts directly to the retirement system instead of to the general revenue fund.

(d) Notwithstanding any other law, the retirement system has exclusive authority over the purchase of goods and services using
money other than money appropriated from the general revenue fund, including specifically money from trusts under the administration of the retirement system, and Subtitle D, Title 10, does not apply to the retirement system with respect to that money. The retirement system shall acquire goods or services by procurement methods approved by the board of trustees or the board's designee. For purposes of this subsection, goods and services include all professional and consulting services and utilities as well as supplies, materials, equipment, skilled or unskilled labor, and insurance. The comptroller shall procure goods or services for the retirement system at the request of the retirement system, and the retirement system may use the services of the comptroller in procuring goods or services.

(e) Except as provided by Subsection (e-1), Chapters 2054 and 2055 do not apply to the retirement system. The board of trustees shall control all aspects of information technology and associated resources relating to the retirement system, including computer, data management, and telecommunication operations, procurement of hardware, software, and middleware, and telecommunication equipment and systems, location, operation, and replacement of computers, computer systems, and telecommunication systems, data processing, security, disaster recovery, and storage. The Department of Information Resources shall assist the retirement system at the request of the retirement system, and the retirement system may use any service that is available through that department.

(e-1) The retirement system shall comply with cybersecurity and information security standards established by the Department of Information Resources under Chapter 2054.

(f) Subchapter C, Chapter 2260, does not apply to the retirement system. The acceptance of benefits by the retirement system under a contract does not waive immunity from suit or immunity from liability.

(1) investment transactions or potential investment transactions if, before conducting the closed meeting, a majority of the board of trustees in an open meeting vote that deliberating or conferring in an open meeting would have a detrimental effect on the position of the retirement system in negotiations with third parties or put the retirement system at a competitive disadvantage in the market; or

(2) the purchase, holding, or disposal of restricted securities or a private investment fund's investment in restricted securities if, under Section 552.143, the information discussed would be confidential and excepted from the requirements of Section 552.021 if the information was included in the records of a governmental body.

Sec. 825.403. COLLECTION OF MEMBER'S CONTRIBUTIONS. (a) Each payroll period, each employer shall deduct from the compensation of each member employed by the employer the amount required by Section 825.402.  
(b) Each employer or the employer's designated disbursing officer, at a time and in a form prescribed by the retirement system, shall send to the executive director all deductions and a certification of earnings of each member employed by the employer. An employer shall use electronic fund transfer to send deductions required by this section or shall certify to the retirement system either that the employer is unable to establish a qualifying account at a financial institution or that payment by electronic fund transfer would be impractical or more costly than payment by paper check.  
(c) The executive director shall deposit with the comptroller all deductions received by the executive director.  
(d) After the deductions are deposited with the comptroller, the money shall be used as provided by this subtitle.  
(e) The county superintendent or ex officio county superintendent, in accordance with this section, shall collect
contributions of members employed in common school or other school districts under the superintendent's jurisdiction.

(f) Employers shall make the deductions required by this section even if the member's compensation is reduced below the amount equal to the minimum compensation provided by law.

(g) By becoming a member of the retirement system, a member consents to the deductions required by this section. The payment of compensation less those deductions is a complete release of all claims, except benefits provided by this subtitle, for services rendered by the member during the payment period.

(h) If deductions were previously required but not paid, the retirement system may not provide benefits based on the service or compensation unless the deposits required by this section have been fully paid. The person's employer at the time the unreported service was rendered or compensation was paid must verify the service or compensation as required by Subsection (j) and the person must submit the verification to the retirement system not later than five years after the end of the school year in which the service was rendered or compensation was paid. To establish the service or compensation credit, the person must deposit with the retirement system the actuarial present value, at the time of deposit, of the additional standard retirement annuity benefits that would be attributable to the purchase of service or compensation credit under this section, based on rates and tables recommended by the retirement system's actuary and adopted by the board of trustees. The board of trustees shall:

(1) prescribe terms for payments under this subsection; and

(2) credit the person for prior service to which the person is entitled under this subtitle.

(i) Contributions required by Section 825.402 shall be deducted from the funds regularly appropriated by the state for the current maintenance of any educational institution supported in whole or part by the state and not otherwise covered by this section.

(j) If deductions were previously required but not paid, proof of service satisfactory to the retirement system must be made before service credit is granted or payment for the credit is required. Proof of service is sufficient if the person's employer documents that the employer has records made at or near the time of service that establish the amount of time worked and salary earned. An affidavit based on memory without written records made at or near the
time of service is not sufficient documentation for the establishment of service credit. The retirement system may audit records used for documentation under this subsection. A person who does not obtain proof of service as required by this section may not establish the service or compensation credit.

(k) Reporting entities and the commissioner of education shall inform the retirement system of changes in status of a school district or charter school that affect the reporting responsibilities of the entity.

(1) The commissioner of education shall notify the retirement system in writing:

(1) of the revocation, denial of renewal, or surrender of a charter issued by the State Board of Education, within 10 business days of the date of the event;

(2) that an open-enrollment charter school or other reporting entity no longer is receiving state funds, within 10 business days of the date on which funding ceases; and

(3) when an open-enrollment charter school or other reporting entity resumes receiving state funds, within 10 business days of the date on which funding resumes.

(2) does not apply to an employer that is an institution of higher education.

(b) Except as provided in Subsection (c), for each member an employer reports to the retirement system, the employer shall contribute monthly to the retirement system for each such member:

(1) for the period beginning with the report month of September 2014 and ending with the report month of August 2015, an amount equal to 1.5 percent of the member's compensation;

(2) beginning with the report month for September 2015 and ending with the report month of August 2019, an amount equal to the lesser of:

(A) 1.5 percent of the member's compensation; or
(B) a percentage of the member's compensation equal to 1.5 percent reduced by one-tenth of one percent for each one-tenth of one percent that the state contribution rate for the fiscal year to which the report month relates is less than the state contribution rate established for the 2015 fiscal year; and

(3) beginning with the report month of September 2019 and for each subsequent report month, an amount equal to the lesser of:

(A) a percentage of the member's compensation equal to the rate of contribution provided for the applicable fiscal year under Subsection (e); or
(B) a percentage of the member's compensation equal to the percentage provided by Paragraph (A) reduced by one-tenth of one percent for each one-tenth of one percent that the state contribution rate for the fiscal year to which the report month relates is less than the state contribution rate established for that fiscal year under Section 825.404(a-2).

(c) If a member is entitled to the minimum salary for certain school personnel under Section 21.402, Education Code, or if a member would have been entitled to the minimum salary for certain school personnel under former Section 16.056, Education Code, as that section existed on January 1, 1995, the employer shall, in addition to any contributions required under Section 825.405, contribute monthly to the retirement system for each such member:

(1) for the period beginning with the report month of September 2014 and ending with the report month of August 2015, an
amount equal to 1.5 percent of the statutory minimum salary determined under Section 825.405(b);

(2) beginning with the report month for September 2015 and ending with the report month of August 2019, an amount equal to the lesser of:

(A) 1.5 percent of the statutory minimum salary determined under Section 825.405(b); or

(B) a percentage of the statutory minimum salary determined under Section 825.405(b) equal to 1.5 percent reduced by one-tenth of one percent for each one-tenth of one percent that the state contribution rate for the fiscal year to which the report month relates is less than the state contribution rate established for the 2015 fiscal year; and

(3) beginning with the report month of September 2019 and for each subsequent report month, an amount equal to the lesser of:

(A) a percentage of the statutory minimum salary determined under Section 825.405(b) equal to the rate of contribution provided for the applicable fiscal year under Subsection (e); or

(B) cannot be included as a qualifying employee under Subdivision (1) by application of Subsection (b-1).
