A governmental entity may recover the direct cost of providing the public access only by charging a fee for downloading procurement notices and bid or proposal solicitation packages posted in the business daily. A nongovernmental entity may use information posted in the business daily in providing a service that is more than only the downloading of information from the business daily, including a service by which appropriate bidders or offerors are matched with information that is relevant to those bidders or offerors, and may charge a lawful fee that the entity considers appropriate for the service.

(f) The comptroller and other state agencies may not charge a fee designed to recover the cost of preparing and gathering the information that is published in the business daily. These costs are considered part of a procuring agency's responsibility to publicly inform potential bidders or offerors of its procurement opportunities.

(g) A state agency shall post in the business daily either the entire bid or proposal solicitation package or a notice that includes all information necessary to make a successful bid, proposal, or other applicable expression of interest for the procurement contract, including at a minimum the following information for each procurement that the state agency will make that is estimated to exceed $25,000 in value:

(2) post the entire bid or proposal solicitation package in accordance with Subsection (g) until the latest of 14 calendar days after the date the bid or proposal solicitation package is first posted; the date the state agency will no longer accept bids, proposals, or other applicable expressions of interest for the procurement; or the date the state agency decides not to make the procurement.

(i) A state agency may not award the procurement contract and shall continue to accept bids or proposals or other applicable expressions of interest for the procurement contract for at least 21 calendar days after the date the state agency first posted notice of the procurement in accordance with Subsection (g) or 14 calendar days after the date the state agency first posted the entire bid or proposal solicitation package in accordance with Subsection (g), as applicable. The minimum time for posting required by this subsection and Subsection (h) does not apply in an emergency requiring the state agency to make the procurement more quickly to prevent a hazard to
life, health, safety, welfare, or property or to avoid undue additional cost to the state.

(j) A contract or procurement award made by a state agency that violates the applicable minimum time for posting required by Subsections (h) and (i) is void.

(k) Each state agency that will award a procurement contract estimated to exceed $25,000 in value shall send to the comptroller:

AGENCIES.  (a) This section applies only to the Health and Human
Services Commission, each health and human services agency, and the
Department of Family and Protective Services. For the purposes of
this section, the Department of Family and Protective Services is
considered a health and human services agency.

(b) An agency to which this section applies is delegated the
authority to procure its goods and services, except as provided by
this section.

(b-1) An agency to which this section applies is not delegated
the authority to procure common commodities or services:
(1) including goods and services acquired for direct
consumption or use by the agency in the day-to-day support of the
agency's administrative operations, such as office supplies and
equipment, building maintenance and cleaning services, or temporary
employment services; and

(2) not including consulting services, professional services, health care services, information resources technology, goods or services acquired for the benefit or on behalf of clients of programs operated by the agency, procurements specifically authorized or delegated to the agency by statute, or the contracting out of agency purchasing functions or other administrative or program functions.

(b-2) The Health and Human Services Commission is delegated the authority to procure goods and services related to a contract for:

(1) a project to construct or expand a state hospital operated by a health and human services agency or a state supported living center as defined by Section 531.002, Health and Safety Code; or

(2) a deferred maintenance project for a health facility described by Subdivision (1).

(c) An agency to which this section applies shall acquire goods or services by any procurement method approved by the Health and Human Services Commission that provides the best value to the agency. The agency shall document that it considered all relevant factors under Subsection (d) in making the acquisition.

(d) Subject to Subsection (e), the agency may consider all relevant factors in determining the best value, including:

(1) any installation costs;
(2) the delivery terms;
(3) the quality and reliability of the vendor's goods or services;
(4) the extent to which the goods or services meet the agency's needs;
(5) indicators of probable vendor performance under the contract such as past vendor performance, the vendor's financial resources and ability to perform, the vendor's experience and responsibility, and the vendor's ability to provide reliable maintenance agreements;
(6) the impact on the ability of the agency to comply with laws and rules relating to historically underutilized businesses or relating to the procurement of goods and services from persons with disabilities;
(7) the total long-term cost to the agency of acquiring the vendor's goods or services;
(8) the cost of any employee training associated with the acquisition;

(9) the effect of an acquisition on agency productivity;

(10) the acquisition price; and

(11) any other factor relevant to determining the best value for the agency in the context of a particular acquisition.

(e) Repealed by Acts 2003, 78th Leg., ch. 785, Sec. 75(2).

(f) The state auditor may audit the agency's acquisitions of goods and services before or after a warrant is issued to pay for an acquisition.

(g) The agency may adopt rules and procedures for the acquisition of goods and services under this section.

(h) The Health and Human Services Commission shall adopt rules and procedures for the acquisition of goods and services under this section that apply to all health and human services agencies, including rules adopted with the commission's assistance that allow an agency to make purchases through a group purchasing program except when a better value is available through another procurement method. The rules of the health and human services agencies must be consistent with the rules of the Health and Human Services Commission.

(i) Subject to Section 531.0055(c), the Health and Human Services Commission shall develop a single statewide risk analysis procedure. Each health and human services agency shall comply with the procedure. The procedure must provide for:

(1) assessing the risk of fraud, abuse, or waste in health and human services agencies contractor selection processes, contract provisions, and payment and reimbursement rates and methods for the different types of goods and services for which health and human services agencies contract;

(2) identifying contracts that require enhanced contract monitoring; and

(3) coordinating contract monitoring efforts among health and human services agencies.

(j) Subject to Section 531.0055(c), the Health and Human Services Commission shall publish a contract management handbook that establishes consistent contracting policies and practices to be followed by health and human services agencies. The handbook may include standard contract provisions and formats for health and human services agencies to incorporate as applicable in their contracts.
Subject to Section 531.0055(c), the Health and Human Services Commission, in cooperation with the comptroller, shall establish a central contract management database that identifies each contract made with a health and human services agency. The comptroller may use the database to monitor health and human services agency contracts, and health and human services agencies may use the database in contracting. A state agency shall send to the comptroller in the manner prescribed by the comptroller the information the agency possesses that the comptroller requires for inclusion in the database.

The Health and Human Services Commission shall coordinate the procurement practices of all health and human services agencies and encourage those agencies to use efficient procurement practices such as the use of a group purchasing program, combining maintenance contracts into one contract, and obtaining prompt payment discounts. In implementing this duty, the Health and Human Services Commission may review the procurement and rate-setting procedures of each health and human services agency to ensure that amounts paid to contractors are consistent and represent the best value for the state. The Health and Human Services Commission may disapprove a procurement and rate-setting procedure of a health and human services agency. A health and human services agency may not use a procurement or rate-setting procedure that has been disapproved by the commission. The Health and Human Services Commission may transfer the procurement functions of a health and human services agency to another appropriate state agency if it determines that transferring those functions would be advantageous to the state. Other state agencies and institutions with experience in acquiring goods and services using the procedures allowed under Subsections (c) and (d) shall on request assist the Health and Human Services Commission to perform its functions under this section.

Subject to Section 531.0055(c), the Health and Human Services Commission shall develop and implement a statewide plan to ensure that each entity that contracts with a health and human services agency and any subcontractor of the entity complies with the accessibility requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. Section 12101 et seq.).

To the extent of any conflict, this section prevails over any other state law relating to the procurement of goods and services except a law relating to contracting with historically underutilized
businesses or relating to the procurement of goods and services from persons with disabilities.

(o) If the Health and Human Services Commission does not receive any responsive bids on a competitive solicitation for goods or services for a state hospital operated by a health and human services agency or a state supported living center as defined by Section 531.002, Health and Safety Code, the commission after making a written determination that competition is not available may negotiate with and award the contract to any qualified vendor who meets the requirements of the original solicitation:

(1) at a price consistent with the current market value of the goods or services; and

(2) for a term not to exceed five years.

(p) In this section, "health and human services agency" has the meaning assigned by Section 531.001.

SUBCHAPTER B. COMMODITY ITEMS

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4553, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 2157.068. PURCHASE OF INFORMATION TECHNOLOGY COMMODITY ITEMS. (a) In this section, "commodity items" means commercial software, hardware, or technology services, other than telecommunications services, that are generally available to businesses or the public and for which the department determines that a reasonable demand exists from two or more customers, including state agencies and political subdivisions of this state, entities described by Subsection (j), and governmental entities of another state, that purchase the items through the department. The term includes seat management, through which a customer transfers its
personal computer equipment and service responsibilities to a private vendor to manage the personal computing needs for each desktop of the customer, including all necessary hardware, software, and support services.

(b) The department shall negotiate with vendors to obtain the best value for the state in the purchase of commodity items. When negotiating with a vendor, the department shall use information related to the state's historical spending levels on particular commodity items to secure the best value for the state. The department may consider strategic sourcing and other methodologies to select the vendor offering the best value on commodity items. The terms and conditions of a license agreement between a vendor and the department under this section may not be less favorable to the state than the terms of similar license agreements between the vendor and retail distributors. The department shall, to the greatest extent practicable, negotiate a specific price for commonly purchased commodity items. If the department selects a vendor based on the vendor's offer of a percentage discount from the list price of commodity items, the department shall document in writing how that arrangement obtains the best value for the state.

(c) In contracting for commodity items under this section, the department shall make good faith efforts to provide contracting opportunities for, and to increase contract awards to, historically underutilized businesses and persons with disabilities' products and services available under Chapter 122, Human Resources Code.

(d) The department may charge a reasonable administrative fee to a state agency, political subdivision of this state, or governmental entity of another state that purchases commodity items through the department in an amount that is sufficient to recover costs associated with the administration of this section. Revenue derived from the collection of fees imposed under this subsection may be appropriated to the department for:

(1) developing statewide information resources technology policies and planning under Chapters 2054 and 2059; and

(2) providing shared information resources technology services under Chapter 2054.

(e) The department shall compile and maintain a list of commodity items available for purchase through the department that have a lower price than the prices for commodity items otherwise available to state agencies under this chapter. The department shall
make the list available on the world wide web or on a suitable successor to the world wide web if the technological developments involving the Internet make it advisable to do so.

(e-1) Except as provided by Subsection (e-4), a state agency contracting to purchase a commodity item shall use the list maintained as required by Subsection (e) as follows:

(1) for a contract with a value of $50,000 or less, the agency may directly award the contract to a vendor included on the list without submission of a request for pricing to other vendors on the list;

(2) for a contract with a value of more than $50,000 but not more than $1 million, the agency must submit a request for pricing to at least three vendors included on the list in the category to which the contract relates; and

(3) for a contract with a value of more than $1 million but not more than $10 million, the agency must submit a request for pricing to at least six vendors included on the list in the category to which the contract relates or all vendors on the schedule if the category has fewer than six vendors.

(e-2) A state agency may not enter into a contract to purchase a commodity item if the value of the contract exceeds $10 million.

(e-3) The procedural requirements of Subsection (e-1) and the limitation prescribed by Subsection (e-2) do not apply to a state agency's purchase of commodity items under a department contract for the bulk purchase of commodity items intended for use by more than one customer.

(e-4) For a contract with a value of more than $5 million but not more than $10 million, a state agency may purchase a commodity item using a purchasing method designated by the comptroller under Section 2157.006(a)(2).

(f) The department may adopt rules regulating a purchase by a state agency of a commodity item under this section, including a requirement that, notwithstanding other provisions of this chapter, the agency must make the purchase in accordance with a contract developed by the department unless:

(1) the agency obtains:

(A) an exemption from the department; or
(B) express prior approval from the Legislative Budget Board for the expenditure necessary for the purchase; or

(2) the department certifies in writing that the commodity
item is not available for purchase under an existing contract developed by the department.

(f-1) Subject to Subsection (f-2), a state agency may purchase a commodity item through a contract developed by a local government purchasing cooperative under Chapter 791 if the department certifies in writing that the commodity item is not available for purchase under an existing contract developed by the department.

(f-2) A contract used by a state agency that purchases a commodity item through a contract described by Subsection (f-1) is subject to all provisions required by applicable law to be included in a state agency contract without regard to whether:

(1) the provision appears on the face of the contract; or
(2) the contract includes any provision to the contrary.

(g) The Legislative Budget Board's approval of a biennial operating plan under Section 2054.102 is not an express prior approval for purposes of Subsection (f)(1)(B). A state agency must request an exemption from the department under Subsection (f)(1)(A) before seeking prior approval from the Legislative Budget Board under Subsection (f)(1)(B).

(h) The department shall, in cooperation with state agencies, establish guidelines for the classification of commodity items under this section. The department may determine when a statewide vendor solicitation for a commodity item will reduce purchase prices for a state agency.

(i) Unless the agency has express statutory authority to employ a best value purchasing method other than a purchasing method designated by the comptroller under Section 2157.006(a)(2), a state agency shall use a purchasing method provided by Section 2157.006(a) when purchasing a commodity item if:

(1) the agency has obtained an exemption from the department or approval from the Legislative Budget Board under Subsection (f); or
(2) the agency is otherwise exempt from this section.

(j) The following entities may purchase commodity items through the department, and be charged a reasonable administrative fee, as provided by this section:

(1) the Electric Reliability Council of Texas;
(2) the Lower Colorado River Authority;
(3) a private school, as defined by Section 5.001, Education Code;
(4) a private or independent institution of higher education, as defined by Section 61.003, Education Code;

(5) a volunteer fire department, as defined by Section 152.001, Tax Code;

(6) subject to Section 418.193, a public safety entity, as defined by 47 U.S.C. Section 1401;

(7) subject to Section 418.193, a county hospital, public hospital, or hospital district; or

(8) the Texas Permanent School Fund Corporation, if incorporated under Section 43.052, Education Code.

(k) The department, in cooperation with state agencies, shall, with respect to the purchase of commodity items included in the list maintained under Subsection (e):

(1) periodically assess the risk to this state in the purchase of those commodity items; and

(2) based on that risk assessment and as the department considers necessary to ensure accuracy, monitor and verify the purchase transaction reports of the monthly sales of those commodity items submitted by vendors in accordance with department requirements.

(2) post each statement of work entered into by the agency on the agency's Internet website in the manner required by department rule.

chapter during the two calendar years preceding the calendar year in which the request is submitted. The extent to which a state agency complies with this chapter and rules of the comptroller adopted under this chapter is considered a key performance measure for purposes of the appropriations process.

A state agency, including the comptroller, shall make a good faith effort to increase the contract awards for the purchase of goods or services that the agency expects to make during a fiscal year to historically underutilized businesses based on rules adopted by the comptroller to implement the disparity study described by Section 2161.002(c).

Added by Acts 1995, 74th Leg., ch. 41, Sec. 1, eff. Sept. 1, 1995.
Sec. 2161.182. GOALS FOR CONSTRUCTION CONTRACTS. (a) A state agency that contracts for a construction project, including a project under Section 2166.003, shall make a good faith effort to increase the construction contract awards that the agency expects to make during a fiscal year to historically underutilized businesses based on rules adopted by the comptroller to implement the disparity study described by Section 2161.002(c).

(b) In this section, "project" has the meaning assigned by Section 2166.001.

Sec. 2161.183. ESTIMATE OF EXPECTED CONTRACT AWARDS. (a) Not later than the 60th day of its fiscal year, a state agency, including the comptroller:

(1) shall estimate the total value of contract awards the agency expects to make for that fiscal year that are subject to Section 2161.181; and

(2) shall estimate the total value of contract awards the agency expects to make for that fiscal year under Chapter 2166.

(b) The state agency may revise an estimate as new information requires.
SUBCHAPTER E. PENALTY

Sec. 2161.231. PENALTY. (a) A person commits an offense if the person:

(1) intentionally applies as a historically underutilized business for an award of a purchasing contract or public works contract under this subtitle; and

(2) knows the person is not a historically underutilized business.

(b) An offense under this section is a third degree felony.

Added by Acts 1995, 74th Leg., ch. 41, Sec. 1, eff. Sept. 1, 1995.

SUBCHAPTER F. SUBCONTRACTING

Sec. 2161.251. APPLICABILITY. (a) This subchapter applies to all contracts entered into by a state agency with an expected value of $100,000 or more, including:

(1) contracts for the acquisition of a good or service; and

(2) contracts for or related to the construction of a public building, road, or other public work.

(b) This subchapter applies to the contract without regard to:

(1) whether the contract is otherwise subject to this subtitle; or

(2) the source of funds for the contract, except that to the extent federal funds are used to pay for the contract, this subchapter does not apply if federal law prohibits the application of this subchapter in relation to the expenditure of federal funds.

Added by Acts 1999, 76th Leg., ch. 1499, Sec. 2.10, eff. Sept. 1, 1999.

Sec. 2161.252. AGENCY DETERMINATION REGARDING SUBCONTRACTING OPPORTUNITIES; BUSINESS SUBCONTRACTING PLAN. (a) Each state agency that considers entering into a contract with an expected value of $100,000 or more shall, before the agency solicits bids, proposals, offers, or other applicable expressions of interest for the contract, determine whether there will be subcontracting opportunities under the contract. If the state agency determines that there is that probability, the agency shall require that each bid, proposal, offer,
or other applicable expression of interest for the contract include a historically underutilized business subcontracting plan.

(b) When a state agency requires a historically underutilized business subcontracting plan under Subsection (a), a bid, proposal, offer, or other applicable expression of interest for the contract must contain a plan to be considered responsive.

Added by Acts 1999, 76th Leg., ch. 1499, Sec. 2.10, eff. Sept. 1, 1999.

Sec. 2161.253. GOOD FAITH COMPLIANCE WITH BUSINESS SUBCONTRACTING PLAN. (a) When a state agency requires a historically underutilized business subcontracting plan under Section 2161.252, the awarded contract shall contain, as a provision of the contract that must be fulfilled, the plan that the contractor submitted in its bid, proposal, offer, or other applicable expression of interest for the contract. The contractor shall make good faith efforts to implement the plan. A contractor's participation in a mentor-protege program under Section 2161.065 and submission of a protege as a subcontractor in the contractor's historically underutilized business subcontracting plan constitutes a good faith effort under this section for the particular area of the subcontracting plan involving the protege.

(b) To the extent that subcontracts are not contracted for as originally submitted in the historically underutilized business subcontracting plan, the contractor shall report to the state agency all the circumstances that explain that fact and describe the good faith efforts made to find and subcontract with another historically underutilized business.

(c) The state agency shall audit the contractor's compliance with the historically underutilized business subcontracting plan. In determining whether the contractor made the required good faith effort, the agency may not consider the success or failure of the contractor to subcontract with historically underutilized businesses in any specific quantity. The agency's determination is restricted to considering factors indicating good faith.

(d) If a determination is made that the contractor failed to implement the plan in good faith, the agency, in addition to any other remedies, may bar the contractor from further contracting
opportunities with the agency.
(e) The comptroller shall adopt rules to administer this subchapter.

(b) In reviewing its services, the comptroller shall:
(1) determine whether competitive vendors exist in the private sector;
(2) compare the cost of contracting for the services from other state agency providers of the services or private commercial sources to the comptroller's cost of performing the services; and

(a) If the commission determines under Section 2166.452 or 2166.453 that the purchase of an existing building is more advantageous to the state than constructing a new building or continuing to lease space for a state agency, but a purchase of the building would be subject to existing leases to private tenants that exceed 15 percent of the building's total space, the commission may purchase the building subject to existing leases notwithstanding Section 2165.205.

(b) On expiration of a private tenant's existing lease, the commission may renew the lease subject to this subchapter, including Section 2165.205.

(b-2) In each detailed written evaluation under Subsection (b), the commission or governing body shall determine economic feasibility for each function by comparing the estimated cost of providing energy for all or part of the function using conventional design practices and energy systems or operating under conventional architectural or engineering designs with the estimated cost of providing energy for all or part of the function using alternative energy devices or operating under alternative energy-efficient architectural or engineering designs during the economic life of the building. The comptroller's state energy conservation office, or its successor, must approve any methodology or electronic software used by the commission or governing body, or an entity contracting with the commission or governing body, to make a comparison or determine feasibility under this subsection.

(c) If the use of alternative energy devices or energy-efficient architectural design alternatives for a particular function is determined to be economically feasible under Subsection (b-2), the commission or governing body shall include the use of alternative energy devices or energy-efficient architectural design alternatives for that function in the construction plans.

(c-1) For a project constructed by and for a state institution of higher education, the institution shall, during the planning phase of the proposed construction for the project, verify the economic feasibility of incorporating into the building's design and proposed energy system alternative energy devices for space heating and cooling functions, water heating functions, electrical load functions, and interior lighting functions. The institution shall determine the economic feasibility of each function listed in this subsection by comparing the estimated cost of providing energy for the function, based on the use of conventional design practices and energy systems, with the estimated cost of providing energy for the function, based on the use of alternative energy devices, during the economic life of the building.

(c-2) If the use of alternative energy devices for a specific function is determined to be economically feasible under Subsection (c-1), the governing body shall include the use of alternative energy devices for that function in the construction plans for the project.

(d) In this section:

(1) "Alternative energy" means a renewable energy resource. The term includes solar energy, biomass energy, geothermal energy,
and wind energy.

(2) "Alternative energy collector" means an assembly, structure, or design, including passive elements, used to absorb, concentrate, convert, reflect, or otherwise capture or redirect alternative energy for later use as thermal, mechanical, or electrical energy.

(3) "Alternative energy device" means an alternative energy collector or alternative energy storage mechanism that collects, stores, or distributes alternative energy.

(4) "Alternative energy storage mechanism" means equipment, components, or elements designed and used to store for later use alternative energy captured by an alternative energy collector in the form in which the energy will eventually be used or in an intermediate form. The term includes thermal, electrochemical, chemical, electrical, and mechanical storage mechanisms.

(5) "Biomass energy" means energy that is created in living plants through photosynthesis.

(6) "Solar energy" means energy from the sun that may be collected and converted into useful thermal, mechanical, or electrical energy.

Sec. 2166.404. XERISCAPE ON NEW CONSTRUCTION. (a) The commission, in consultation with the Texas Natural Resource Conservation Commission, the Texas Department of Transportation, and the Industry Advisory Committee, by rule shall adopt guidelines for the required use of xeriscape on state property associated with the construction of a new state building, structure, or facility that begins on or after January 1, 1994, including a project otherwise
exempt from this chapter under Section 2166.003.

(b) The guidelines adopted under this section must:

(1) establish standards for landscape design, installation, and maintenance that result in water conservation, including the use of appropriate plants, soil analysis, compost, efficient irrigation systems, and other water-conserving practices;
(2) identify beneficial plant species;
(3) specify the maximum percentage of turf and the maximum percentage of impervious surface allowed in a xeriscaped area;
(4) establish standards for selection and installation of turf;
(5) establish standards for land clearing;
(6) require preservation of existing native vegetation identified as beneficial; and
(7) establish a monitoring program to ensure implementation of and compliance with this section.

(c) The Industry Advisory Committee is composed of nine members who are Texas residents appointed by the commission. Three members must be nursery-product growers, three members must be turf-growers, and three members must be landscape contractors. The commission shall make appointments from a list of recommendations submitted to the commission by the Texas Association of Nurserymen for the nursery-product-grower positions, the Texas Turf Association for the turf-grower positions, and the Texas Association of Landscape Contractors for the landscape-contractor positions. Appointments are for staggered three-year terms arranged so that one person from each group is appointed each year. The appointments to the committee must reflect this state's gender and ethnic diversity.

(d) In this section, "xeriscape" means a landscaping method that maximizes the conservation of water by using plants that are appropriate to the site and efficient water-use techniques. The term includes:

(1) planning and design;
(2) appropriate choice of plants;
(3) soil analysis;
(4) soil improvement using compost;
(5) efficient and appropriate irrigation;
(6) practical use of turf;
(7) appropriate use of mulches; and
(8) proper maintenance.
Sec. 2166.405. XERISCAPE PHASE-IN. The commission shall develop a five-year program for phasing in the use of xeriscape on state property associated with a state-owned building, structure, or facility on which construction began before January 1, 1994.

Added by Acts 1995, 74th Leg., ch. 41, Sec. 1, eff. Sept. 1, 1995.

Sec. 2166.406. ENERGY SAVINGS PERFORMANCE CONTRACTS. (a) In this section, "energy savings performance contract" has the meaning assigned by Section 302.001, Local Government Code.

(b) Notwithstanding any other provision of this chapter, a state agency, without the consent of the commission, may enter into an energy savings performance contract in accordance with this section.

(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control to be returned to the potable water supply.

(d) A state agency may enter into energy savings performance contracts only with a person who is experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

(e) Before entering into an energy savings performance contract, a state agency shall require the provider of the energy or water conservation measures to file with the agency a payment and performance bond relating to the installation of the measures in accordance with Chapter 2253. The agency may also require a separate bond to cover the value of the guaranteed savings on the contract.

(f) The state agency may enter into an energy savings performance contract for a period of more than one year only if the state agency finds that the amount the state agency would spend on the energy or water conservation measures will not exceed the amount
to be saved in energy, water, wastewater, and operating costs over 20 years from the date of installation.

(f-1) Notwithstanding other law, the state agency may use any available money to pay the provider of the energy or water conservation measures under this section, and the state agency is not required to pay for such costs solely out of the savings realized by the state agency under an energy savings performance contract. The state agency may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

(g) An energy savings performance contract with respect to buildings or facilities may be financed:

(1) under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing, including a lease/purchase contract under the master equipment lease purchase program administered by the Texas Public Finance Authority under Chapter 1232;

(2) with the proceeds of bonds; or

(3) under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

(h) An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the state agency under the contract. If the term of the contract exceeds one year, the agency's contractual obligation, including costs of design, engineering, installation, and anticipated debt service, in any one year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the state agency in this subsection, divided by the number of years in the contract term.

(i) An energy savings performance contract shall be let according to the procedures established for procuring certain professional services by Section 2254.004. Notice of the request for qualifications shall be given in the manner provided by Section
2156.002. The State Energy Conservation Office shall establish guidelines and an approval process for awarding energy savings performance contracts. The guidelines adopted under this subsection must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. An energy savings performance contract may not be entered into unless the contract has been approved by the State Energy Conservation Office. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(j) The legislature shall base an agency's appropriation for energy, water, and wastewater costs during a fiscal year on the sum of:

(1) the agency's estimated energy, water, and wastewater costs for that fiscal year; and

(2) if an energy savings performance contract is in effect, the agency's estimated net savings resulting from the contract during the contract term, divided by the number of years in the contract term.

(k) Chapter 2269 does not apply to this section.

(1) The guidelines adopted under Subsection (i) must require the State Energy Conservation Office to:

(1) review any reports submitted to the office that measure and verify cost savings to a state agency under an energy savings performance contract; and

(2) based on the reports, provide an analysis, on a periodic basis, of the cost savings under the energy savings performance contract to the state agency and the Legislative Budget Board until the state agency determines that the analysis is no longer required to accurately measure cost savings.

Sec. 2166.408. EVALUATION OF ARCHITECTURAL AND ENGINEERING DESIGN ALTERNATIVES. (a) For each project for which a project analysis is prepared under Subchapter D and for which architectural or engineering design choices will affect the energy-efficiency of the building, the commission or the private design professional retained by the commission shall prepare a written evaluation of energy-efficient architectural or engineering design alternatives for the project.

(b) The evaluation must include information about the economic and environmental impact of various energy-efficient architectural or engineering design alternatives, including an evaluation of economic and environmental costs both initially and over the life of the architectural or engineering design.

(c) The evaluation must identify the best architectural and engineering designs for the project considering both economic and environmental costs and benefits.

Added by Acts 2005, 79th Leg., Ch. 856 (S.B. 982), Sec. 6, eff. June 17, 2005.
SUBCHAPTER J. ACQUISITION OF EXISTING BUILDINGS

Sec. 2166.451. ACQUISITION OF HISTORIC STRUCTURES. (a) In acquiring real property, each using agency shall first consider a building that is designated as a historic structure under Section 442.001 or a building that has been designated a landmark by the local governing authority if:

1. the building meets requirements and specifications;

and

2. the cost is not substantially higher than that of other available structures that meet requirements and specifications.

(b) If the using agency rejects acquisition of a historic structure because of the structure's cost, the agency shall forward to the commission for inclusion in the project analysis for the new construction or acquisition a comparison of the cost of the new construction or acquisition with the cost of the purchase and rehabilitation of the historic structure.

(c) In determining the feasibility of acquiring a historic structure, the using agency shall evaluate the possibility of providing the space needed by the agency by combining new construction with acquisition of the historic structure.

(d) On request of the using agency, the commission shall assist the agency in evaluating the feasibility of acquiring a historic structure and in preparing the information required by Subsection (b).

(e) The commission shall comply with Subsections (a)-(c) for a:

1. project for which it is the using agency; or

2. multiagency state office building for which it serves as the coordinating authority.

Sec. 2166.452. ACQUISITION OF EXISTING BUILDING AS ALTERNATIVE TO NEW CONSTRUCTION. (a) If the legislature authorizes the issuance of bonds by the Texas Public Finance Authority to construct one or more buildings and improvements in a county, the commission may solicit and receive proposals, using the same procedures that apply to the purchase of other real property, for the purchase of one or
more existing buildings with bond proceeds. If the commission's evaluation of the proposals demonstrates that purchase of one or more existing buildings is an appropriate and financially advantageous means of meeting all or part of the state's office space needs in that county, the commission shall certify that fact to the authority and request the authority to issue all or part of its bonds previously authorized by the legislature for that purpose.

(b) The commission shall determine financial advantage under Subsection (a) after comparing construction and purchase as fairly as possible. In making its determination, the commission shall impute value and consider factors as it considers appropriate, including consideration of the:

(1) estimated cost of construction and of acquiring land for the construction;
(2) anticipated purchase price of one or more existing buildings;
(3) estimated cost of converting one or more existing buildings to state building specifications, including reconstruction costs only when reconstruction is necessary;
(4) efficiency and suitability of an existing building's space as configured for state use;
(5) estimated occupancy dates for proposed construction compared with estimated occupancy dates for an existing building;
(6) value of an existing building's location, parking, landscaping, and other enhancements;
(7) remaining useful life of mechanical components of an existing building; and
(8) estimated cost of maintenance and operations, including the cost of telecommunications services, for each option considered by the commission.

(c) On a determination under Subsection (a) that a purchase is more advantageous to the state, the commission may abandon construction plans. If additional costs, over available bond proceeds, must be incurred to accomplish the purchase and any necessary renovation of the purchased property, the commission may use available appropriated money and request additional bonds of the Texas Public Finance Authority in an amount of up to five percent of the acquisition cost for that purpose.

(d) A purchase under this section must be approved by the legislature if it is in session or by the Legislative Budget Board if
the legislature is not in session.

(e) A person from whom real property or an existing building or other improvement is purchased under this section shall provide to the commission the name and the last known address of each person who:

(1) owns record legal title to the real property or building or other improvement; or
(2) owns a beneficial interest in the real property or building or other improvement through a trust, nominee, agent, or other legal entity.

Added by Acts 1995, 74th Leg., ch. 41, Sec. 1, eff. Sept. 1, 1995.

Sec. 2166.453. ACQUISITION OF REAL PROPERTY AS ALTERNATIVE TO LEASING SPACE. (a) This section applies only to meeting space needs of one or more state agencies in a county in which the state leases 50,000 square feet or more of space.

(b) The commission may meet space needs of one or more state agencies that are being met through leased space by purchasing or constructing one or more buildings under this section. The purchase or construction of a building may include the purchase of the building's grounds and related improvements. The purchase or construction of a building under this section must be:

(1) financed through bonds issued by the Texas Public Finance Authority; and
(2) approved by the legislature if it is in session or by the Legislative Budget Board if the legislature is not in session.

(c) The commission may purchase or construct a building under this section only if the commission determines that the projected annual total space occupancy costs of the purchased or constructed space will not exceed, over the term of the bonded indebtedness, the projected annual total space occupancy costs of meeting the same space needs through leased space.

(d) If the commission makes the necessary determination under Subsection (c) and the purchase or construction is approved under Subsection (b), the Texas Public Finance Authority shall issue and sell bonds to finance the purchase or construction under Chapter 1232, and the commission may purchase or construct the building under that chapter and other applicable law.
(e) The limitation prescribed by Section 1232.102 relating to the location of a building for which bonds may be issued and sold does not apply to financing the purchase or construction of a building under this section.

(f) A person from whom real property or an existing building or other improvement is purchased under this section shall provide to the commission the name and the last known address of each person who:

(1) owns record legal title to the real property or building or other improvement; or

(2) owns a beneficial interest in the real property or building or other improvement through a trust, nominee, agent, or other legal entity.

(g) If a state agency vacates leased space to move into space in a building purchased or constructed under this section or if the leased space itself is purchased under this section, the money specifically appropriated by the legislature or the money available to and budgeted by the agency for lease payments for the leased space for the remainder of the biennium may be used only for rental or installment payments for the purchased or constructed space under Section 1232.116(b) and for the payment of operating expenses for the purchased or constructed space that are incurred by the commission. The comptroller may adopt rules for the administration of this subsection.

(h) In this section, "total space occupancy costs" include:

(1) for leased space, the direct cost of the lease payments for the space;

(2) for purchased or constructed space, the direct cost of rental or installment payments for the space under Section 1232.116(b);

(3) the cost of necessary renovations;

(4) operating costs, including janitorial and utility costs; and

(5) for purchased or constructed space, the cost of maintaining a cash replacement reserve sufficient to service structural maintenance requirements reflecting the expected performance life of the major capital expense items of the building for the term of the bonded indebtedness.

Added by Acts 1995, 74th Leg., ch. 41, Sec. 1, eff. Sept. 1, 1995.
Sec. 2166.454. PURCHASING OR OBTAINING MORE FAVORABLE LEASE WITH OPTION TO PURCHASE AGREEMENTS WITH REGARD TO CERTAIN LEASED SPACE. (a) This section and Sections 2166.4541 and 2166.4542 apply only in relation to space currently occupied by a state agency under one of seven lease with an option to purchase agreements:

(1) entered into by the state before December 1994, for the benefit of the Texas Commission on Environmental Quality or its predecessor agency, the office of the attorney general, the successor of the Department of Human Services, the Department of Family and Protective Services, or the Texas Department of Transportation; and

(2) under which the state may acquire title to the space by paying the purchase price remaining under the terms of the agreement on September 1 of an odd-numbered year.

(b) If the commission determines that it is advantageous to the state, the commission may:

(1) request the Texas Public Finance Authority to issue revenue bonds to finance the purchase of any or all of the space to which this section applies in accordance with Section 2166.4542 and Chapter 1232, if the commission determines that it is more advantageous to the state to purchase the space than to enter into a more favorable lease with an option to purchase agreement under Section 2166.4541 for that space; or

(2) enter into a more favorable lease with an option to purchase agreement with regard to any or all of the space to which this section applies by taking the actions authorized by Section 2166.4541 under the conditions prescribed by Section 2166.4541, if the commission determines that it is more advantageous to the state to enter into a more favorable lease with an option to purchase agreement for that space than to purchase the space under Section 2166.4542 and Chapter 1232.

(c) This section expires September 2, 2008, except that this section is continued in effect after that date for the limited purpose of applying with regard to any transaction authorized by this section and Section 2166.4541 or 2166.4542 that occurs before that date.
Sec. 2166.4541. ENTERING INTO MORE FAVORABLE LEASE WITH OPTION TO PURCHASE AGREEMENTS. (a) Subject to Section 2166.454(b), the commission may issue sale and lease purchase revenue obligations in accordance with this section and use the proceeds of the revenue obligations to:

(1) pay the commission's expenses in connection with issuing the revenue obligations;
(2) purchase any or all of the space described by Section 2166.454(a) according to the terms of the applicable existing lease with an option to purchase agreement or agreements; and
(3) if it is advisable to make capital improvements to the space, pay for making the capital improvements.

(b) The revenue obligations issued under Subsection (a) must be paid in their entirety immediately after issuance by using the proceeds of the concurrent sale of the space by the commission to a third party who agrees to lease the space back to the state with an option to purchase under the following conditions:

(1) the term of the new lease with an option to purchase agreement does not exceed the remaining term on the applicable existing lease with an option to purchase agreement, as of the date on which the transactions described by this section occur; and
(2) the cost to the state under the new lease with an option to purchase agreement is less than the cost to the state under the existing lease with an option to purchase agreement and the difference in cost justifies any costs incurred by the commission and the state in taking actions under this section with regard to the space.

(c) The commission shall obtain the approval of the Bond Review Board before issuing a sale and lease purchase revenue obligation under this section.

(d) Any sale and lease purchase revenue obligations issued by the commission under this section and any lease with an option to purchase agreement entered into under this section must be submitted to the attorney general for review and approval. If the attorney general determines that the obligation or agreement, as applicable,
entered into under this section complies with this section, the attorney general shall approve the issuance of the obligation or the agreement, as applicable. On approval by the attorney general, the obligation or agreement, as applicable, is incontestable for any cause.

(e) A sale and lease purchase revenue obligation issued under this section is not a debt of the state or any state agency, is not a pledge of the faith and credit or the taxing power of the state, and may be paid only from the proceeds of the concurrent sale of the space to which the sale and lease purchase revenue obligation relates. A sale and lease purchase revenue obligation issued under this section must contain a statement to that effect.

(f) A lease with an option to purchase agreement entered into under this section must contain a statement that the agreement is not a debt of the state or any state agency and is contingent on continued legislative appropriations for making the lease payments.

(g) This section expires September 2, 2008, except that this section is in effect after that date for the limited purpose of applying with regard to any transaction authorized by Section 2166.454 and this section that occurs before that date.

Added by Acts 2005, 79th Leg., Ch. 1310 (H.B. 3147), Sec. 1, eff. June 18, 2005.

For expiration of Section 2166.4542, see Subsection (e).

Sec. 2166.4542. PURCHASING CERTAIN LEASED SPACE. (a) Subject to Section 2166.454(b), the commission may purchase any or all of the space described by Section 2166.454(a) in accordance with this section and Chapter 1232.

(b) The commission shall request the Texas Public Finance Authority to issue revenue obligations to finance the purchase price of any or all of the space described by Section 2166.454(a) that the commission elects to purchase under this section. The authority shall issue the revenue obligations in accordance with and subject to all provisions of Chapter 1232 applicable to revenue obligations, including all provisions relating to ensuring that the revenue obligations are paid, except that Section 1232.108(2) does not apply.

(c) The authority shall issue the revenue obligations in amounts sufficient to:
(1) pay the authority's expenses in connection with issuing the revenue obligations;

(2) pay the purchase price of the space described by Section 2166.454(a) included in the request of the commission according to the terms of the applicable existing lease with an option to purchase agreement or agreements; and

(3) if the commission considers it advisable to make capital improvements to the space, pay for making the capital improvements.

(d) At the time that a building is purchased under this section, money specifically appropriated by the legislature to an agency occupying space in the building for lease payments under the applicable lease with an option to purchase agreement, or the money available to and budgeted by the agency for that purpose, shall be transferred to the commission and used by the commission only to make the required lease or rental payments to the authority during the remainder of the state fiscal biennium during which the building was purchased under this section.

(e) This section expires September 2, 2008, except that this section is continued in effect after that date for the limited purpose of applying with regard to any transaction authorized by Section 2166.454 and this section that occurs before that date.

Added by Acts 2005, 79th Leg., Ch. 1310 (H.B. 3147), Sec. 1, eff. June 18, 2005.

SUBCHAPTER K. MONUMENTS, MEMORIALS, AND HISTORIC SITES

Sec. 2166.501. MONUMENTS AND MEMORIALS. (a) A monument or memorial for Texas heroes of the Confederate States of America or the Texas War for Independence or to commemorate another event or person of historical significance to Texans and this state may be erected on land owned or acquired by the state or, if a suitable contract can be made for permanent preservation of the monument or memorial, on private property or land owned by the federal government or other states.

(b) The graves of Texans described by Subsection (a) may be located and marked.

(c) The commission shall maintain a monument or memorial erected by this state to commemorate the centenary of Texas'
independence.

(d) Before the erection of a new monument or memorial, the commission must obtain the approval of the Texas Historical Commission regarding the form, dimensions, and substance of, and inscriptions or illustrations on, the monument or memorial.

Added by Acts 1995, 74th Leg., ch. 41, Sec. 1, eff. Sept. 1, 1995.

Sec. 2166.5011. REMOVAL, RELOCATION, OR ALTERATION OF A MONUMENT OR MEMORIAL. (a) In this section, "monument or memorial" means a permanent monument, memorial, or other designation, including a statue, portrait, plaque, seal, symbol, building name, or street name, that:

(1) is located on state property; and
(2) honors a citizen of this state for military or war-related service.

(b) Notwithstanding any other provision of this code, a monument or memorial may be removed, relocated, or altered only:

(1) by the legislature;
(2) by the Texas Historical Commission;
(3) by the State Preservation Board; or
(4) as provided by Subsection (c).

(c) A monument or memorial may be removed, relocated, or altered in a manner otherwise provided by this code as necessary to accommodate construction, repair, or improvements to the monument or memorial or to the surrounding state property on which the monument or memorial is located. Any monument or memorial that is permanently removed under this subsection must be relocated to a prominent location.

Sec. 2166.502. CONTRACTS WITH TEXAS HISTORICAL COMMISSION. The commission may negotiate and contract with the Texas Historical Commission to assist and advise the commission with regard to the:

(1) proper monuments and memorials to be erected, repaired, or moved to new locations;
(2) selection of sites for those monuments and memorials; and
Sec. 2166.503. ACQUISITION OF ARCHAEOLOGICAL, PALEONTOLOGICAL, AND HISTORIC SITES. (a) The commission may acquire by gift, devise, purchase, or exercise of its general power of eminent domain land in this state on which is located:

(1) a building, site, or landmark of statewide historical significance associated with historic events or personalities;
(2) a prehistoric ruin;
(3) a burial ground;
(4) an archaeological site;
(5) a vertebrate paleontological site; or
(6) a site containing fossilized footprints, an inscription made by human agency, or another archaeological, paleontological, or historic feature.

(b) For a historic site, building, or structure, the commission may exercise the power of eminent domain under Subsection (a) only on a proper showing that the exercise is necessary to prevent destruction or deterioration of the historic site, building, or structure.

(c) The commission may request from the Texas Historical Commission a certification or authentication of the worthiness of preservation of a feature listed in Subsection (a).

Added by Acts 1995, 74th Leg., ch. 41, Sec. 1, eff. Sept. 1, 1995.

SUBCHAPTER L. SPECIAL USES AND FACILITIES

Sec. 2166.551. CHILD CARE FACILITY IN STATE BUILDING. (a) The commission, in consultation with the Child Care Advisory Committee, shall determine whether a child care facility may be included in a state-owned office building constructed after September 1, 1989, that contains 100,000 square feet or more of net usable space.

(b) Before developing a rehabilitation or renovation plan for a project to rehabilitate or renovate substantially an existing state-owned office building containing 100,000 square feet or more of net usable space, the commission, in consultation with the Child Care Advisory Committee, shall determine whether a child care facility may
be included in the rehabilitation or renovation project.

(c) The commission shall include a child care facility in a construction, rehabilitation, or renovation project if the commission, in consultation with the Child Care Advisory Committee, determines that the child care facility should be included.

Sec. 2166.552. FINE ARTS PROJECTS. (a) A using agency that requests a project analysis by the commission for a building construction project that is estimated to cost more than $250,000 may specify in the general description of the project that up to one percent of the amount of the original project cost estimate be spent for fine arts projects at or near the site of the project. The using agency may consult the Texas Commission on the Arts in preparing the general description of the project.

(b) The using agency, the commission, and the Texas Commission on the Arts may conduct a public hearing to take testimony from interested persons regarding the costs and benefits of using a portion of the cost of the project for fine arts projects.

(c) The commission shall initiate negotiations for and enter into a memorandum of understanding with the Texas Commission on the Arts to establish guidelines for implementing this section. The memorandum of understanding must be adopted by the governing bodies of the commission and the Texas Commission on the Arts. After a memorandum of understanding is adopted, the Texas Commission on the Arts shall publish the memorandum of understanding in the Texas Register.

(d) If the legislature authorizes and appropriates money for a fine arts project, the commission shall cooperate with the Texas Commission on the Arts and consult it for advice in determining how to use the money appropriated for the fine arts project.

(e) In selecting a fine arts project, emphasis should be placed, whenever feasible, on works by living Texas artists. Consideration shall be given to artists of all ethnic origins.

(f) This section does not limit, restrict, or prohibit the commission from including expenditures for fine arts in its original
project cost estimate.

(g) In this section, "fine arts project" includes murals, fountains, mosaics, and other aesthetic improvements.

Sec. 2167.053. LEASING SPACE THROUGH COMPETITIVE BIDDING. (a) When space is leased through competitive bidding, the commission shall determine the bid that provides the best value for the state after considering moving costs, the cost of time lost in moving, the cost of telecommunications services, and other relevant factors.

(b) The commission shall send to the leasing state agency:
   (1) a copy of all bids received; and
   (2) the commission's recommended award.

(c) If, after review of the bids and evaluation of all relevant factors, the leasing state agency's opinion is that the bid selected by the commission is not the bid that provides the best value for the state, it may file with the commission a written recommendation that the award be made to a bidder other than the commission's recommended bidder. The leasing state agency's recommendation must contain the agency's justification for its recommendation and a complete explanation of all factors it considered.

(d) The commission shall fully consider the leasing state agency's recommendation and, if it does not agree, shall notify the agency of its disagreement in writing. The leasing state agency and the commission shall attempt to agree on the award.

The commission may invite a leasing state agency to participate in discussions and negotiations conducted under this section. After receiving a proposal but before making an award, the commission may permit the offeror to revise the proposal to obtain the best final proposal.

(e) The commission may not disclose information derived from proposals submitted from competing offerors in conducting discussions under Subsection (d).

(f) The commission shall provide each offeror whose proposal meets the minimum requirements in the request for proposals a reasonable opportunity to discuss and revise its proposal.

(g) The commission shall make a written award of a lease to the offeror whose proposal provides the best value for the state, considering price and the evaluation factors in the request for proposals. The commission shall state in writing in the contract file the reasons for which an award is made.

(h) The commission shall refuse all proposals if it determines that none of the proposals is acceptable.

A state agency may not acquire telecommunications services unless the department's executive director determines that the agency's requirement for telecommunications services cannot be met at a comparable cost by the consolidated telecommunications system.

(d) A state agency may not enter into or renew a contract with a carrier or other provider of telecommunications services without obtaining a waiver from the department's executive director certifying that the requested telecommunications services cannot be provided at a comparable cost on the consolidated telecommunications system. The executive director shall evaluate requests for waivers based on cost-effectiveness to the state government as a whole. A waiver may be granted only for a specific period and will automatically expire on the stated expiration date unless an extension is approved. A contract for telecommunications services obtained under waiver may not extend beyond the expiration date of the waiver. If the executive director becomes aware of any state agency receiving telecommunications services without a waiver, the executive director shall notify the agency and the comptroller. The state agency shall have 60 days after notification by the executive director in which to submit a waiver request documenting the agency's reasons for bypassing the consolidated telecommunications system and otherwise providing all information required by the waiver application form.

Sec. 2170.053. SHARING OF SERVICES. (a) To avoid waste of state money and personnel, telecommunications services shall be provided on an integrated or shared basis, or both, to the extent feasible and advisable, among entities authorized to use the consolidated telecommunications system under this chapter.

Sec. 2170.056. COSTS TO STATE OF PARALLEL TOLLS. All contracts with telecommunications carriers shall provide that the department or any participating agency may obtain any information relating to the costs to the state of parallel tolls.

Sec. 2170.057. PAYMENT FOR SERVICES. (a) The department shall develop a system of billings and charges for services provided in operating and administering the consolidated telecommunications system that allocates the total state cost to each entity served by
the system based on proportionate usage. The department shall set and charge a fee to each entity that receives services provided under this chapter in an amount sufficient to cover the direct and indirect costs of providing the service. Revenue derived from the collection of fees imposed under this subsection may be appropriated to the department for:

(1) developing statewide information resources technology policies and planning under Chapters 2054 and 2059; and

(2) providing:
   (A) shared information resources technology services under Chapter 2054; and

The legislature may appropriate money for operating the system directly to the department, in which case the revolving fund account shall be used to receive money due from local governmental entities and other agencies to the extent that their money is not subject to legislative appropriation.

(d) The department shall maintain in the revolving fund account sufficient amounts to pay the bills of the consolidated telecommunications system and the centralized capitol complex telephone system.

Sec. 2170.058. USE OF SYSTEM BY CERTAIN STUDENTS. (a) An institution of higher education under Section 61.003, Education Code, that is authorized to use the system of telecommunications services established under this chapter may allow students of the institution who reside in housing for which the institution provides telephone service to use the system of telecommunications services. An institution shall recover from a student who chooses to use the system the full pro rata cost attributable to that student's use, including costs identifiable for interconnection to and use of the local publicly switched network.

(b) The department shall adopt rules that govern student access to the system, including:

(1) times of access to the system; and

(2) the full recovery of actual costs from each student who uses the system.

(c) In consideration of the duties and responsibilities given the department under this chapter, it is the policy of this state that a state agency or unit of state government may not provide telecommunications products or services to the general public in competition with private enterprise unless there is a finding that providing the products or services is in the public interest. This subsection does not prohibit students who reside in housing for which institutions of higher education provide telephone service from using service provided under this section.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 3730, 88th Legislature, Regular Session, for amendments affecting the following section.

the legislature. The department may provide the service to other state agencies that subscribe to it.

(b) Each using entity shall make monthly payments to the department when billed by the department.

(c) Each using entity may arrange for its own terminal telephone equipment, but the equipment must be compatible with the centralized telephone service. The department shall make terminal equipment available for using entities that choose to use that terminal equipment.

Sec. 2175.308. EXCEPTION FOR CERTAIN PROPERTY OF DEPARTMENT OF PUBLIC SAFETY. (a) Notwithstanding any conflicting provision of this chapter, if the commission determines that this state's efforts to secure this state's international border and combat transnational crime will sufficiently benefit from the donation of the surplus motor vehicles and other law enforcement equipment of the Department of Public Safety of the State of Texas to a municipal or county law enforcement agency in an economically disadvantaged area of this state, the commission may transfer the property to the agency at a price or for other consideration agreed to by the commission and the agency.

SUBCHAPTER B. STATE AIRCRAFT

Sec. 2205.031. APPLICABILITY OF CHAPTER TO STATE AIRCRAFT. (a) This chapter applies to all aircraft owned or leased by the state, except as provided by Section 2205.033.
(b) Each state agency shall use state-owned aircraft to the extent feasible.

Sec. 2205.032. CUSTODY, CONTROL, OPERATION, AND MAINTENANCE.
(a) The department shall operate a pool for the custody, control, operation, and maintenance of all aircraft owned or leased by the state.
(b) The department may purchase aircraft with funds appropriated for that purpose.
(c) As part of the strategic plan that the department develops and submits under Chapter 2056, the department shall develop a long-range plan for its pool of aircraft. The department shall include the long-range plan in the department's legislative appropriations request if the department identifies the need for additional appropriations and the additional appropriations are related to the department's duties under this chapter. The long-range plan must include:

1. estimates of future aircraft replacement needs and other fleet management needs, including:
   A. any projected need to increase or decrease the number of aircraft in the pool;
   B. estimates of the remaining useful life for each aircraft in the pool; and
   C. a proposed schedule for replacing aircraft in the pool;

2. a range of alternatives and scenarios for the number and types of aircraft in the pool;

3. an analysis of current usage of aircraft in the pool, including customer base and documented rationale for use;

4. the status of maintenance time and costs and projected future trends regarding maintenance time and costs;

5. any documented high-risk mechanical issues with aircraft in the pool;

6. an analysis of the costs and benefits of different methods for meeting air transportation currently provided by the department under Section 2205.036, including:
   A. the potential use of statewide contracts for private charter aircraft services;
   B. increased reliance on commercial carriers for routine travel;
   C. decreasing the number of aircraft in the pool and increasing the use of contracted flight services; and
   D. any other method the department considers feasible; and

7. an analysis of the impact of including capital recovery costs in the rates the department charges under Section 2205.040 that, at a minimum, includes the impact of those included costs on customer utilization and the department's schedule for replacing aircraft in the pool.
(d) In developing the long-range plan, the department shall consider at a minimum for each aircraft in the pool:

1. how much the aircraft is used and the purposes for which the aircraft is used;
2. the cost of operating the aircraft and the revenue generated by the aircraft; and
3. the demand for the aircraft or for that type of aircraft.

(e) The department shall update the long-range plan annually and make the plan available on the department's Internet website.

Sec. 2205.033. TEXAS A&M UNIVERSITY SYSTEM AIRCRAFT. (a) The board of regents of The Texas A&M University System is primarily responsible for scheduling Texas A&M University System aircraft.

(b) The Texas A&M University System shall base Texas A&M University System aircraft in Brazos County.

(c) A pilot of Texas A&M University System aircraft must be an employee of The Texas A&M University System.

(d) In this section, "Texas A&M University System aircraft" means aircraft owned on August 31, 1991, or acquired after that date by The Texas A&M University System or one of its components.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2205.034. FACILITIES. (a) The department may acquire appropriate facilities for the accommodation of all aircraft owned or leased by the state. The facilities may be purchased or leased as determined by the department to be most economical for the state and as provided by legislative appropriations. The facilities may include adequate hangar space, an indoor passenger waiting area, a flight-planning area, communications facilities, and other related and necessary facilities.
(b) A state agency that operates an aircraft may not use a facility in Austin other than a facility operated by the department for the storage, parking, fueling, or maintenance of the aircraft, whether or not the aircraft is based in Austin. In a situation the department determines to be an emergency, the department may authorize a state agency to use a facility in Austin other than a department facility for the storage, parking, fueling, or maintenance of an aircraft.

Sec. 2205.035. AIRCRAFT LEASES. (a) The department by interagency contract may lease state-owned aircraft to a state agency.

(b) A state agency that is the prior owner or lessee of an aircraft has the first option to lease that aircraft from the department.

(c) The lease may provide for operation or maintenance by the department or the state agency.

(d) A state agency may not expend appropriated funds for the lease of an aircraft unless the department executes the lease or approves the lease.

(e) A state agency may not use money appropriated by the legislature to rent or lease aircraft except from the department or as provided by Subsection (f). For purposes of this subsection and Subsection (f), payments of mileage reimbursements provided for by the General Appropriations Act are not rentals or leases of aircraft.

(f) If the department determines that no state-owned aircraft is available to meet a transportation need that has arisen or that a rental or lease of aircraft would reduce the state's transportation costs, the department shall authorize a state agency to expend funds for the rental or lease of aircraft, which may include a helicopter.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993. Amended by Acts 1999, 76th Leg., ch. 280, Sec. 12, eff. Sept. 1, 1999. Amended by:
Sec. 2205.036. PASSENGER TRANSPORTATION. (a) The department shall provide aircraft transportation, to the extent that its aircraft are available, to:

(2) persons in the care or custody of state officers or employees described by Subdivision (1); and

(3) persons whose transportation furthers official state business.

(b) The department may not provide aircraft transportation to a passenger if the passenger is to be transported to or from a place where the passenger:

(1) will make or has made a speech not related to official state business;

(2) will attend or has attended an event sponsored by a political party;

(3) will perform a service or has performed a service for which the passenger is to receive an honorarium, unless the passenger reimburses the department for the cost of transportation;

(4) will attend or has attended an event at which money is raised for private or political purposes; or

(5) will attend or has attended an event at which an audience was charged an admission fee to see or hear the passenger.

(c) The department may not provide aircraft transportation to a destination unless:

(1) the destination is not served by a commercial carrier;

(2) the aircraft transportation is the most cost-effective travel arrangement in accordance with Section 660.007(a);

(3) the time required to use a commercial carrier interferes with passenger obligations;

(4) a representative of the Department of Public Safety determines that security concerns for a passenger warrant the use of a state aircraft;

(5) the number of passengers traveling makes the use of
state aircraft cost-effective; or

(6) emergency circumstances necessitate the use of a state aircraft.

(d) Before the executive director of the department or the director's designee may authorize a person to use a state-operated aircraft, the person must sign an affidavit stating that the person is traveling on official state business. On filing of the affidavit, the person may be authorized to use state-operated aircraft for official state business for a period of one year. A member of the legislature is not required to receive any other additional authorization to use a state-operated aircraft.

(e) Before the executive director of the department or the director's designee may authorize an employee of a state agency to use a state-operated aircraft, the administrative head of the state agency must certify that the employee's transportation complies with the requirements of this section.

(b) A person who violates this section is civilly liable to the state for the costs incurred by the state because of the violation.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2205.038. AIRCRAFT OPERATIONS MANUAL. (a) The department shall:

(1) prepare a manual that establishes minimum standards for the operation of aircraft by state agencies; and
(2) adopt procedures for the distribution of the manual to state agencies.

(b) The manual must include provisions for:
   (1) pilot certification standards, including medical requirements for pilots;
   (2) recurring training programs for pilots;
   (3) general operating and flight rules;
   (4) coordinated passenger scheduling; and
   (5) other issues the department determines are necessary to ensure the efficient and safe operation of aircraft by a state agency.

(c) The department shall confer with and solicit the written advice of state agencies the department determines are principal users of aircraft operated by the department and, to the extent practicable, incorporate that advice in the development of the manual and subsequent changes to the manual.

(d) The department shall give an officer normally elected by statewide election priority in the scheduling of aircraft. The department by rule may require a 12-hour notice by the officer to obtain the priority in scheduling.

Amended by: Acts 2017, 85th Leg., R.S., Ch. 533 (S.B. 312), Sec. 64, eff. September 1, 2017.

Sec. 2205.039. TRAVEL LOG. (a) The department shall prescribe:
   (1) a travel log form for gathering information about the use of state-operated aircraft;
   (2) procedures to ensure that individuals who travel as passengers on or operate state-operated aircraft provide in a legible manner the information requested of them by the form; and
   (3) procedures for each state agency that operates an aircraft for sending the form to the department.

(b) The travel log form must request the following information about a state-operated aircraft each time the aircraft is flown:
(1) a mission statement, which may appear as a selection to be identified from general categories appearing on the form;
(2) the name, state agency represented, destination, and signature of each person who is a passenger or crew member of the aircraft;
(3) the date of each flight;
(4) a detailed and specific description of the official business purpose of each flight; and
(5) other information determined by the department to be necessary to monitor the proper use of the aircraft.

(c) A state agency other than the department shall send the agency's travel logs to the department on an annual basis. An agency is not required to file a travel log with the department if the agency did not operate an aircraft during the period covered by the travel log.

(a) Subject to Subsection (b), the department shall adopt rates for interagency aircraft services that are sufficient to recover, in the aggregate and to the extent possible, all direct costs for the services provided, including a state agency's pro rata share of major maintenance, overhauls of equipment and facilities, and pilots' salaries.

(b) If the department's most recent long-term plan contains an analysis under Section 2205.032(c)(7) that finds that including capital recovery costs in the rates the department charges under this section is a practicable fleet replacement strategy, the department may adopt rates for interagency aircraft services provided by the
department that are sufficient to recover, in the aggregate and to the extent possible:

(1) all direct costs for services provided, as provided by Subsection (a); and

(2) the capital costs of replacing aircraft in the pool.

(c) The Legislative Budget Board, in cooperation with the department and the state auditor, shall prescribe a billing procedure for passenger travel on state-operated aircraft.

(d) If the department adopts rates under Subsection (b), the portion of the rates collected for the capital costs of replacing aircraft in the pool shall be deposited in a separate account in the state highway fund. Money in the account may be used only for the acquisition of aircraft for the pool operated by the department under Section 2205.032.

Sec. 2205.041. AIRCRAFT USE FORM. (a) The department shall prescribe:

(3) the number of annual hours flown;
(4) the annual operating costs;
(5) the number of flights and the destinations;
(6) the travel logs prepared under Section 2205.039; and

(1) with the state seal on each side of the aircraft's vertical stabilizer; and
(2) with the words "The State of Texas" on each side of the aircraft's fuselage.

(b) The department shall adopt rules, consistent with federal regulations and Section 3101.001, governing the color, size, and location of marks of identification required by this section.

(b) As a condition to the transfer of the aircraft, the institution must certify in writing to the department that the institution will accept full responsibility for maintenance of the
aircraft and that it will be properly maintained while in the custody and control of the institution. The department is entitled to inspect the aircraft without notice for the purpose of ensuring that the aircraft is properly maintained.

(c) The department may immediately reassume custody and control of a transferred aircraft on a finding by the department that:

Acts 2011, 82nd Leg., R.S., Ch. 81 (S.B. 18), Sec. 2, eff. September 1, 2011.

Sec. 2206.052. APPLICABILITY. The procedures in this subchapter apply only to the use of eminent domain under the laws of this state by a governmental entity.

Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 81 (S.B. 18), Sec. 2, eff. September 1, 2011.

Sec. 2206.053. VOTE ON USE OF EMINENT DOMAIN. (a) Before a governmental entity initiates a condemnation proceeding by filing a petition under Section 21.012, Property Code, the governmental entity must:

(1) authorize the initiation of the condemnation proceeding
at a public meeting by a record vote; and

(2) include in the notice for the public meeting as required by Subchapter C, Chapter 551, in addition to other information as required by that subchapter, the consideration of the use of eminent domain to condemn property as an agenda item.

(b) A single ordinance, resolution, or order may be adopted for all units of property to be condemned if:

(1) the motion required by Subsection (e) indicates that the first record vote applies to all units of property to be condemned; and

(2) the minutes of the governmental entity reflect that the first vote applies to all of those units.

(c) If more than one member of the governing body objects to adopting a single ordinance, resolution, or order by a record vote for all units of property for which condemnation proceedings are to be initiated, a separate record vote must be taken for each unit of property.

(d) For the purposes of Subsections (a) and (c), if two or more units of real property are owned by the same person, the governmental entity may treat those units of property as one unit of property.

(e) The motion to adopt an ordinance, resolution, or order authorizing the initiation of condemnation proceedings under Chapter 21, Property Code, must be made in a form substantially similar to the following: "I move that the (name of governmental entity) authorize the use of the power of eminent domain to acquire (describe the property) for (describe the public use)." The description of the property required by this subsection is sufficient if the description of the location of and interest in the property that the governmental entity seeks to acquire is substantially similar to the description that is or could properly be used in a petition to condemn the property under Section 21.012, Property Code.

(f) If a project for a public use described by Section 2206.001(c)(3) will require a governmental entity to acquire multiple tracts or units of property to construct facilities connecting one location to another location, the governing body of the governmental entity may adopt a single ordinance, resolution, or order by a record vote that delegates the authority to initiate condemnation proceedings to the chief administrative official of the governmental entity.

(g) An ordinance, resolution, or order adopted under Subsection
(f) is not required to identify specific properties that the governmental entity will acquire. The ordinance, resolution, or order must identify the general area to be covered by the project or the general route that will be used by the governmental entity for the project in a way that provides property owners in and around the area or along the route reasonable notice that the owners' properties may be subject to condemnation proceedings during the planning or construction of the project.

The amount of the claim may not exceed the reasonable cost, less the fair salvage value, of the specially fabricated material.

(c) A claim for retainage in a notice under this subchapter is not valid for an amount greater than the amount of retainage specified in the public work contract between the payment bond beneficiary and the prime contractor or between the payment bond beneficiary and the subcontractor. A claim for retainage is never valid for an amount greater than 10 percent of the amount of that contract.

Sec. 2254.022. INTERPRETATION OF SUBCHAPTER. (a) This subchapter shall be interpreted to ensure:

(1) the greatest and fairest competition in the selection by state agencies of consultants; and

(2) the giving of notice to all potential consultants of the need for and opportunity to provide consulting services.

(b) This subchapter does not:

(1) discourage state agencies from using consultants if the agencies reasonably foresee that the use of consultants will produce a more efficient and less costly operation or project;

(2) prohibit the making of a sole-source contract for consulting services if a proposal is not received from a competent, knowledgeable, and qualified consultant at a reasonable fee, after compliance with this subchapter; or

(3) require or prohibit the use of competitive bidding procedures to purchase consulting services.

Sec. 2254.023. APPLICABILITY OF SUBCHAPTER. This subchapter applies to consulting services that a state agency acquires with money:

(1) appropriated by the legislature;

(2) derived from the exercise of the statutory duties of a state agency; or

(3) received from the federal government, unless a federal law or regulation conflicts with the application of this subchapter.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2254.024. EXEMPTIONS. (a) This subchapter does not apply to or discourage the use of consulting services provided by:

(1) practitioners of professional services described in
Subchapter A;
    (2) private legal counsel;
    (3) investment counselors;
    (4) actuaries;
    (5) medical or dental services providers; or
    (6) other consultants whose services are determined by the
governing board of a retirement system trust fund to be necessary for
the governing board to perform its constitutional fiduciary duties.

    (b) If the governor and comptroller consider it more
advantageous to the state to procure a particular consulting service
under the procedures of Chapters 2155-2158, instead of under this
subsection, they may make a memorandum of understanding to that
effect and each adopt the memorandum by rule. Procurement of a
consulting service described in a memorandum of understanding under
this subsection is subject only to Chapters 2155-2158.

    (c) The comptroller by rule may define circumstances in which a
state agency may procure, without complying with this subchapter,
certain consulting services that will cost less than a minimum amount
established by the comptroller. The comptroller must determine that
noncompliance in those circumstances is more cost-effective for the
state.

Sec. 2254.025. EMERGENCY WAIVER. (a) The governor, after
receipt of a request complying with this section, may grant a limited
waiver of the provisions of this subchapter for a state agency that
requires consulting services before compliance with this subchapter
can be completed because of an unforeseen emergency.

    (b) A state agency's request for a waiver must include
information required by the governor, including:
        (1) information about the nature of the emergency;
(2) the reason that the state agency did not foresee the emergency;
(3) the name of the consultant with whom the agency intends to contract; and
(4) the amount of the intended contract.

(c) As soon as possible after the governor grants a limited waiver, a state agency shall comply with this subchapter to the extent that the requirements of this subchapter are not superfluous or ineffective because of the waiver. The agency shall include with information filed with the secretary of state for publication in the Texas Register a detailed description of the emergency on which the request for waiver was predicated.

(d) The governor shall adopt rules to administer this section.

(e) In this section, "unforeseen emergency" means a situation that suddenly and unexpectedly causes a state agency to need the services of a consultant. The term includes the issuance of a court order, an actual or imminent natural disaster, and new state or federal legislation. An emergency is not unforeseen if a state agency was negligent in foreseeing the occurrence of the emergency.

(f) This section applies to all consulting services contracts and renewals, amendments, and extensions of consulting services contracts.

Sec. 2254.026. CONTRACT WITH CONSULTANT. A state agency may contract with a consultant only if:

Sec. 2254.027. SELECTION OF CONSULTANT. In selecting a consultant, a state agency shall:

(1) base its choice on demonstrated competence, knowledge, and qualifications and on the reasonableness of the proposed fee for the services; and

(2) if other considerations are equal, give preference to a consultant whose principal place of business is in the state or who will manage the consulting contract wholly from an office in the state.

Sec. 2254.028. NOTICE OF INTENT: MAJOR CONSULTING SERVICES CONTRACT. (a) Before entering into a major consulting services contract, a state agency shall:

(1) notify the Legislative Budget Board and the governor's Budget and Planning Office that the agency intends to contract with a consultant;

(2) give information to the Legislative Budget Board and the governor's Budget and Planning Office to demonstrate that the agency has complied or will comply with Sections 2254.026 and 2254.027; and

(3) obtain a finding of fact from the governor's Budget and Planning Office that the consulting services are necessary.

(b) A major consulting services contract that a state agency enters into without first obtaining the finding required by Subsection (a)(3) is void.

(c) Subsection (a) does not apply to a major consulting services contract to be entered into by an institution of higher education other than a public junior college if the institution includes in the invitation published under Section 2254.029 a finding by the chief executive officer of the institution that the consulting services are necessary and an explanation of that finding.

(2) the name of the individual who should be contacted by a consultant that intends to make an offer;

(3) the closing date for the receipt of offers; and

(4) the procedure by which the state agency will award the contract.

(b) If the consulting services sought by a state agency relate to services previously provided by a consultant, the agency shall disclose that fact in the invitation required by Subsection (a). If the state agency intends to award the contract for the consulting services to a consultant that previously provided the services, unless a better offer is received, the agency shall disclose its intention in the invitation required by Subsection (a).

Internet website the following regarding contracts for services that would require a person to register as a lobbyist under Chapter 305:

(1) the execution dates;
(2) the contract duration terms, including any extension options;
(3) the effective dates;
(4) the final amount of money the political subdivision paid in the previous fiscal year; and

(c) Information required to be displayed on a political subdivision's Internet website under this section is public information subject to disclosure under Chapter 552.

(d) The proposed budget of a political subdivision described by Subsection (a) must include, in a manner allowing for as clear a comparison as practicable between those expenditures in the proposed budget and actual expenditures for the same purpose in the preceding year, a line item indicating expenditures for directly or indirectly influencing or attempting to influence the outcome of legislation or administrative action, as those terms are defined in Section 305.002.

Sec. 2254.103. STATE GOVERNMENTAL ENTITY: CONTRACT APPROVAL; SIGNATURE. (a) A state governmental entity that has authority to enter into a contract for legal services in its own name may enter into a contingent fee contract for legal services only if:

(1) the governing body of the state governmental entity approves the contract and the approved contract is signed by the presiding officer of the governing body; or

(2) for an entity that is not governed by a multimember governing body, the elected or appointed officer who governs the entity approves and signs the contract.

(3) the legal services cannot reasonably be obtained from attorneys in private practice under a contract providing only for the payment of hourly fees, without regard to the outcome of the matter, because of the nature of the matter for which the services will be obtained or because the state governmental entity does not have appropriated funds available to pay the estimated amounts required under a contract providing only for the payment of hourly fees.

(e) Before entering into a contingent fee contract for legal services in which the estimated amount that may be recovered exceeds $100,000, a state governmental entity that proposes to enter into the contract in its own name or in the name of the state must also notify the Legislative Budget Board that the entity proposes to enter into the contract, send the board copies of the proposed contract, and send the board information demonstrating that the conditions required by Subsection (d)(3) exist. (f) A contingent fee contract for legal services that is subject to Subsection (e) and requires a finding by the Legislative Budget Board is void unless the board has made the finding required by Subsection (e).

(b) The contracting attorney or law firm shall permit the governing body or governing officer of the state governmental entity or political subdivision, the attorney general, and the state auditor or the political subdivision's auditor, as applicable, each to inspect or obtain copies of the time and expense records at any time on request.

(c) On conclusion of the matter for which legal services were obtained, the contracting attorney or law firm shall provide the contracting state governmental entity or political subdivision with a complete written statement that describes the outcome of the matter, states the amount of any recovery, shows the contracting attorney's or law firm's computation of the amount of the contingent fee, and contains the final complete time and expense records required by Subsection (a). The complete written statement required by this subsection is public information under Chapter 552 and may not be withheld from a requestor under that chapter under Section 552.103 or any other exception from required disclosure.

(d) This subsection does not apply to the complete written statement required by Subsection (c). Sec. 2254.105. CERTAIN GENERAL CONTRACT REQUIREMENTS. The contract must:

(1) provide for the method by which the contingent fee is computed;

(2) state the differences, if any, in the method by which the contingent fee is computed if the matter is settled, tried, or tried and appealed;

(3) state how litigation and other expenses will be paid and, if reimbursement of any expense is contingent on the outcome of the matter or reimbursable from the amount recovered in the matter, state whether the amount recovered for purposes of the contingent fee computation is considered to be the amount obtained before or after expenses are deducted;

(4) state that any subcontracted legal or support services performed by a person who is not a contracting attorney or a partner, shareholder, or employee of a contracting attorney or law firm is an expense subject to reimbursement only in accordance with this subchapter; and

(5) state that the amount of the contingent fee and reimbursement of expenses under the contract will be paid and limited in accordance with this subchapter.

Added by Acts 1999, 76th Leg., ch. 1499, Sec. 3.03, eff. Sept. 1, 1999.

Sec. 2254.106. CONTRACT REQUIREMENTS: COMPUTATION OF CONTINGENT FEE; REIMBURSEMENT OF EXPENSES. (a) The contract must establish the reasonable hourly rate for work performed by an attorney, law clerk, or paralegal who will perform legal or support services under the contract based on the reasonable and customary rate in the relevant locality for the type of work performed and on the relevant experience, demonstrated ability, and standard hourly billing rate, if any, of the person performing the work. The
contract may establish the reasonable hourly rate for one or more persons by name and may establish a rate schedule for work performed by unnamed persons. The highest hourly rate for a named person or under a rate schedule may not exceed $1,000 an hour. This subsection applies to subcontracted work performed by an attorney, law clerk, or paralegal who is not a contracting attorney or a partner, shareholder, or employee of a contracting attorney or law firm as well as to work performed by a contracting attorney or by a partner, shareholder, or employee of a contracting attorney or law firm.

(b) The contract must establish a base fee to be computed as follows. For each attorney, law clerk, or paralegal who is a contracting attorney or a partner, shareholder, or employee of a contracting attorney or law firm, multiply the number of hours the attorney, law clerk, or paralegal works in providing legal or support services under the contract times the reasonable hourly rate for the work performed by that attorney, law clerk, or paralegal. Add the resulting amounts to obtain the base fee. The computation of the base fee may not include hours or costs attributable to work performed by a person who is not a contracting attorney or a partner, shareholder, or employee of a contracting attorney or law firm.

(c) Subject to Subsection (d), the contingent fee is computed by multiplying the base fee by a multiplier. The contract must establish a reasonable multiplier based on any expected difficulties in performing the contract, the amount of expenses expected to be risked by the contractor, the expected risk of no recovery, and any expected long delay in recovery. The multiplier may not exceed four without prior approval by the legislature.

(d) In addition to establishing the method of computing the fee under Subsections (a), (b), and (c), the contract must limit the amount of the contingent fee to a stated percentage of the amount recovered. The contract may state different percentage limitations for different ranges of possible recoveries and different percentage limitations in the event the matter is settled, tried, or tried and appealed. The percentage limitation may not exceed 35 percent without prior approval by the legislature. The contract must state that the amount of the contingent fee will not exceed the lesser of the stated percentage of the amount recovered or the amount computed under Subsections (a), (b), and (c).

(e) The contract also may:

(1) limit the amount of expenses that may be reimbursed;
and

(2) provide that the amount or payment of only part of the fee is contingent on the outcome of the matter for which the services were obtained, with the amount and payment of the remainder of the fee payable on a regular hourly rate basis without regard to the outcome of the matter.

(f) Except as provided by Section 2254.107, this section does not apply to a contingent fee contract for legal services:

(1) in which the expected amount to be recovered and the actual amount recovered do not exceed $100,000; or

(2) under which a series of recoveries is contemplated and the amount of each individual recovery is not expected to and does not exceed $100,000.

(g) This section applies to a contract described by Subsection (f) for each individual recovery under the contract that actually exceeds $100,000, and the contract must provide for computing the fee in accordance with this section for each individual recovery that actually exceeds $100,000.

Added by Acts 1999, 76th Leg., ch. 1499, Sec. 3.03, eff. Sept. 1, 1999.

Sec. 2254.107. MIXED HOURLY AND CONTINGENT FEE CONTRACTS; REIMBURSEMENT FOR SUBCONTRACTED WORK. (a) This section applies only to a contingent fee contract:

(1) under which the amount or payment of only part of the fee is contingent on the outcome of the matter for which the services were obtained, with the amount and payment of the remainder of the fee payable on a regular hourly rate basis without regard to the outcome of the matter; or

(2) under which reimbursable expenses are incurred for subcontracted legal or support services performed by a person who is not a contracting attorney or a partner, shareholder, or employee of a contracting attorney or law firm.

(b) Sections 2254.106(a) and (e) apply to the contract without regard to the expected or actual amount of recovery under the contract.

(c) The limitations prescribed by Section 2254.106 on the amount of the contingent fee apply to the entire amount of the fee
under the contingent fee contract, including the part of the fee the
amount and payment of which is not contingent on the outcome of the
matter.

(d) The limitations prescribed by Section 2254.108 on payment
of the fee apply only to payment of the contingent portion of the
fee.

Added by Acts 1999, 76th Leg., ch. 1499, Sec. 3.03, eff. Sept. 1,
1999.

Sec. 2254.108. FEE PAYMENT AND EXPENSE REIMBURSEMENT. (a)
Except as provided by Subsection (b), a contingent fee and a
reimbursement of an expense under a contract with a state
governmental entity is payable only from funds the legislature
specifically appropriates to pay the fee or reimburse the expense.
An appropriation to pay the fee or reimburse the expense must
specifically describe the individual contract, or the class of
contracts classified by subject matter, on account of which the fee
is payable or expense is reimbursable. A general reference to
contingent fee contracts for legal services or to contracts subject
to this subchapter or a similar general description is not a
sufficient description for purposes of this subsection.

(b) If the legislature has not specifically appropriated funds
for paying the fee or reimbursing the expense, a state governmental
entity may pay the fee or reimburse the expense from other available
funds only if:

(1) the legislature is not in session; and

(2) the Legislative Budget Board gives its prior approval
for that payment or reimbursement under Section 69, Article XVI,
Texas Constitution, after examining the statement required under
Section 2254.104(c) and determining that the requested payment and
the contract under which payment is requested meet all the
requirements of this subchapter.

(c) A payment or reimbursement under the contract may not be
made until:

(1) final and unappealable arrangements have been made for
depositing all recovered funds to the credit of the appropriate fund
or account in the state treasury; and

(2) the state governmental entity and the state auditor
have received from the contracting attorney or law firm the statement required under Section 2254.104(c).

(d) Litigation and other expenses payable under the contract, including expenses attributable to attorney, paralegal, accountant, expert, or other professional work performed by a person who is not a contracting attorney or a partner, shareholder, or employee of a contracting attorney or law firm, may be reimbursed only if the state governmental entity or political subdivision and, if applicable, the entity's or subdivision's auditor determine that the expenses were reasonable, proper, necessary, actually incurred on behalf of the state governmental entity or political subdivision, and paid for by the contracting attorney or law firm. The contingent fee may not be paid until the entity's or subdivision's auditor or the governing body of a political subdivision without an auditor, as applicable, has reviewed the relevant time and expense records and verified that the hours of work on which the fee computation is based were actually worked in performing reasonable and necessary services for the state governmental entity or political subdivision under the contract.

Sec. 2254.109. EFFECT ON OTHER LAW. (a) This subchapter does not limit the right of a state governmental entity or political subdivision to recover fees and expenses from opposing parties under other law.

(b) Compliance with this subchapter does not relieve a contracting attorney or law firm of an obligation or responsibility under other law, including under the Texas Disciplinary Rules of Professional Conduct.

(c) An officer, employee, or governing body of a state governmental entity or political subdivision, including the attorney general, may not waive the requirements of this subchapter or prejudice the interests of the state governmental entity or political subdivision under this subchapter. This subchapter does not waive the state's sovereign immunity or a political subdivision's
governmental immunity from suit or the state's immunity from suit in federal court under the Eleventh Amendment to the federal constitution.

Sec. 2256.005. INVESTMENT POLICIES; INVESTMENT STRATEGIES; INVESTMENT OFFICER. (a) The governing body of an investing entity shall adopt by rule, order, ordinance, or resolution, as appropriate, a written investment policy regarding the investment of its funds and funds under its control.

(b) The investment policies must:
(1) be written;
(2) primarily emphasize safety of principal and liquidity;
(3) address investment diversification, yield, and maturity and the quality and capability of investment management; and
(4) include:
   (A) a list of the types of authorized investments in which the investing entity's funds may be invested;
   (B) the maximum allowable stated maturity of any individual investment owned by the entity;
(C) for pooled fund groups, the maximum dollar-weighted average maturity allowed based on the stated maturity date for the portfolio;

(D) methods to monitor the market price of investments acquired with public funds;

(E) a requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis; and

(F) procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the provisions of Section 2256.021.

(c) The investment policies may provide that bids for certificates of deposit be solicited:

(1) orally;
(2) in writing;
(3) electronically; or
(4) in any combination of those methods.

(d) As an integral part of an investment policy, the governing body shall adopt a separate written investment strategy for each of the funds or group of funds under its control. Each investment strategy must describe the investment objectives for the particular fund using the following priorities in order of importance:

(1) understanding of the suitability of the investment to the financial requirements of the entity;
(2) preservation and safety of principal;
(3) liquidity;
(4) marketability of the investment if the need arises to liquidate the investment before maturity;
(5) diversification of the investment portfolio; and
(6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool
as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer
who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns $5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of $2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any business organization offering to engage in an investment transaction with an investing entity. For purposes of this subsection and Subsection (l), "business organization" means an investment pool or investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio that has accepted authority granted by the entity under the contract to exercise investment discretion in regard to the investing entity's funds. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity; and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to
preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization:

(A) is dependent on an analysis of the makeup of the entity's entire portfolio;

(B) requires an interpretation of subjective investment standards; or

(C) relates to investment transactions of the entity that are not made through accounts or other contractual arrangements over which the business organization has accepted discretionary investment authority.

(l) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a business organization that has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section 321.020. Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section 321.013, the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.

(o) The audit requirements of Subsection (n) do not apply to
assets of a state agency that are invested by the comptroller under Section 404.024.

Sec. 2256.006. STANDARD OF CARE. (a) Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment of funds shall be governed by the following investment objectives, in order of priority:

1. preservation and safety of principal;
2. liquidity; and
3. yield.

(b) In determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

1. the investment of all funds, or funds under the entity's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and
2. whether the investment decision was consistent with the written investment policy of the entity.

Sec. 2256.007. INVESTMENT TRAINING; STATE AGENCY BOARD MEMBERS AND OFFICERS. (a) Each member of the governing board of a state agency and its investment officer shall attend at least one training session relating to the person's responsibilities under this chapter.
within six months after taking office or assuming duties.

(b) The Texas Higher Education Coordinating Board shall provide the training under this section.

(c) Training under this section must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with this chapter.

(b) An investing entity created under authority of Section 52(b), Article III, or Section 59, Article XVI, Texas Constitution, that has contracted with an investment management firm under Section 2256.003(b) and has fewer than five full-time employees or an investing entity that has contracted with another investing entity to invest the entity's funds may satisfy the training requirement provided by Subsection (a)(2) by having an officer of the governing body attend four hours of appropriate instruction in a two-year period that begins on the first day of that local government's fiscal year and consists of the two consecutive fiscal years after that date. The treasurer or chief financial officer of an investing entity created under authority of Section 52(b), Article III, or Section 59, Article XVI, Texas Constitution, and that has fewer than five full-time employees is not required to attend training required by this section unless the person is also the investment officer of the entity.

diversification of investment portfolio, and compliance with this
chapter.

(d) Not later than December 31 each year, each individual,
association, business, organization, governmental entity, or other

year. An individual's reporting requirements under this subsection

(1) the land commissioner;
(2) the mayor of the municipality within whose corporate boundaries or extraterritorial jurisdiction the real property is located;
(3) the county judge of the county in which the qualifying project is located;
(4) the executive director of the state entity that proposes to develop or operate the qualifying project; and
(5) a member appointed by the governor.

(b) Hearings shall be conducted in accordance with rules adopted by the General Land Office for conducting a special review.

(c) If real property is located in more than one municipality, the hearings on any single tract of real property may be combined.

(d) Any political subdivision in which the tract in question is
located and the appropriate central appraisal district shall receive written notice of board hearings at least 14 days before the date of the hearing.

(e) At least one hearing shall be conducted in the county where the real property is located.

(f) If after the hearings the special board of review determines that local zoning requirements are detrimental to the best interest of the state, the board shall issue an order establishing a development plan to govern the use of the real property as provided in this section.

(g) Development of the real property shall be in accordance with the plan and must comply with all local rules, regulations, orders, or ordinances except as specifically identified in an order of the special board of review issued pursuant to Subsection (f). In the event that substantial progress is not made toward development of the tract within five years of the date of adoption by the special board of review, local development policies and procedures shall become applicable to development of the tract, unless the special board of review promulgates a new plan.

Sec. 2267.0067. BINDING EFFECT OF DEVELOPMENT PLAN. (a) Except as provided by this subsection, a development plan promulgated by the special board of review under this chapter and any plan accepted by a local government shall be final and binding on the state, its lessees, successors in interest and assigns, and affected local governments or political subdivisions unless revised by the special board of review. If the state entity does not receive a bid or auction solicitation for the real property subject to the development plan, the state entity, at the direction of the executive director of the entity, may revise the development plan to conserve and enhance the value and marketability of the real property.

(b) A local government, political subdivision, owner, builder, developer, or any other person may not modify the development plan
without specific approval by the special board of review.

(c) The special board of review must file a copy of the
development plan in the deed records of the county in which the real
property is located. Revisions to the development plan that are
requested after the later of the 10th anniversary of the date on
which the development plan was adopted by the special board of review
or the date on which the state no longer holds a financial or
property interest in the real property subject to the plan are
governed by local development policies and procedures.

Sec. 2267.052. ADOPTION OF GUIDELINES BY RESPONSIBLE GOVERNMENTAL ENTITIES. (a) Before requesting or considering a proposal for a qualifying project, a responsible governmental entity must adopt and make publicly available guidelines that enable the governmental entity to comply with this chapter. The guidelines must be reasonable, encourage competition, and guide the selection of projects under the purview of the responsible governmental entity.

(b) The guidelines for a responsible governmental entity described by Section 2267.001(5)(A) must:

(1) require the responsible governmental entity to:
   (A) make a representative of the entity available to meet with persons who are considering submitting a proposal; and
   (B) provide notice of the representative's availability;

(2) provide reasonable criteria for choosing among competing proposals;

(3) contain suggested timelines for selecting proposals and negotiating an interim or comprehensive agreement;

(4) allow the responsible governmental entity to accelerate the selection, review, and documentation timelines for proposals involving a qualifying project considered a priority by the entity;

(5) include financial review and analysis procedures that at a minimum consist of:
   (A) a cost-benefit analysis;
   (B) an assessment of opportunity cost;
   (C) consideration of the degree to which functionality and services similar to the functionality and services to be provided by the proposed project are already available in the private market; and
   (D) consideration of the results of all studies and analyses related to the proposed qualifying project;

(6) allow the responsible governmental entity to consider the nonfinancial benefits of a proposed qualifying project;

(7) ensure that the governmental entity, for a proposed project to improve real property, evaluates design quality, life-cycle costs, and the proposed project's relationship to any relevant comprehensive planning or zoning requirements;

(8) include criteria for:
   (A) the qualifying project, including the scope, costs, and duration of the project and the involvement or impact of the
project on multiple public entities;

(B) the creation of and the responsibilities of an oversight committee, with members representing the responsible governmental entity, that acts as an advisory committee to review the terms of any proposed interim or comprehensive agreement; and

(C) the center's role in the review, analysis, or evaluation of the qualifying project;

(9) require the responsible governmental entity to analyze the adequacy of the information to be released by the entity when seeking competing proposals and require that the entity provide more detailed information, if the entity determines necessary, to encourage competition, subject to Section 2267.053(g); and

(10) establish criteria, key decision points, and approvals required to ensure that the responsible governmental entity considers the extent of competition before selecting proposals and negotiating an interim or comprehensive agreement.

(c) The guidelines of a responsible governmental entity described by Section 2267.001(5)(B) must include:

(1) the provisions required under Subsection (b); and

(2) a requirement that the governmental entity engage the services of qualified professionals, including an architect, professional engineer, or registered municipal advisor, not otherwise employed by the governmental entity, or the center to provide independent analyses regarding the specifics, advantages, disadvantages, and long-term and short-term costs of a qualifying project unless the governing body of the governmental entity determines that the analysis is to be performed by similarly qualified employees of the governmental entity.

(c-1) For a proposal with an estimated cost of $5 million or more for construction or renovation of a qualifying project, the analysis conducted under Subsection (c)(2) must include review by an architect, a professional engineer, and a registered municipal advisor not otherwise employed by the governmental entity.

(d) A responsible governmental entity described by Section 2267.001(5)(A) shall submit a copy of the guidelines adopted by the entity under this section to the commission for approval by the commission consistent with the requirements of Subsection (b). The commission shall prescribe the procedure for submitting the guidelines for review under this section. The commission must complete its review of the guidelines not later than the 60th day
after the date the commission receives the guidelines and provide
written comments and recommendations to the governmental entity to
ensure timely compliance with Subsection (b). The governmental
entity may not request or consider a proposal for a qualifying
project until the guidelines are approved by the commission.

   (b) A responsible governmental entity may request proposals or
   invite bids from persons for the development or operation of a
   qualifying project.
   (b-1) A responsible governmental entity shall make a best value
determination in evaluating the proposals received and consider the
total project cost as one factor in evaluating the proposals. The
responsible governmental entity is not required to select the
proposal that offers the lowest total project cost and may consider
the following factors:
   (1) the proposed cost of the qualifying project;
   (2) the general reputation, industry experience, and
   financial capacity of the person submitting a proposal;
   (3) the proposed design and overall quality of the
   qualifying project;
   (4) the eligibility of the project for accelerated
   selection, review, and documentation timelines under the responsible
   governmental entity's guidelines;
   (5) comments from local citizens and affected

(7) the person's good faith effort to comply with the goals of a historically underutilized business plan;
(8) the person's plans to employ local contractors and residents;
(9) for a qualifying project that involves a continuing role beyond design and construction, the person's proposed rate of return and opportunities for revenue sharing;
(10) the relationship and conformity of the qualifying project to a state or local community plan impacted by the qualifying project or to the uses of property surrounding the qualifying project;
(11) the historic significance of the property on which the qualifying project is proposed to be located;
(12) the environmental impact of the qualifying project; and
(13) other criteria that the responsible governmental entity considers appropriate.

(b-2) A responsible governmental entity may approve a qualifying project that the governmental entity determines serves a public purpose. The responsible governmental entity must include in the comprehensive agreement for the qualifying project a written declaration of the specific public purpose served by the project.

(c) The responsible governmental entity may approve as a qualifying project the development or operation of a facility needed by the governmental entity, or the design or equipping of a qualifying project, if the responsible governmental entity determines that the project serves the public purpose of this chapter. The responsible governmental entity may determine that the development or operation of the project as a qualifying project serves the public purpose if:

(1) there is a public need for or benefit derived from the project of the type the person proposes as a qualifying project;
(2) the estimated cost of the project is reasonable in relation to similar facilities; and
(3) the person's plans will result in the timely development or operation of the qualifying project.

(d) The responsible governmental entity may charge a reasonable fee to cover the costs of processing, reviewing, and evaluating the proposal, including reasonable legal fees, fees for financial and technical advisors or consultants, and fees for the center's review.
or consultation.

(e) The approval of a responsible governmental entity described by Section 2267.001(5)(A) is subject to the private entity or other person entering into an interim or comprehensive agreement with the responsible governmental entity.

(f) On approval of the qualifying project, the responsible governmental entity shall establish a date by which activities related to the qualifying project must begin. The responsible governmental entity may extend the date.

(g) The responsible governmental entity shall take action appropriate under Section 552.153 to protect confidential and proprietary information provided by a private entity submitting the proposal and by the contracting person under an agreement.

(h) Before completing the negotiation and entering into an interim or comprehensive agreement, each responsible governmental entity described by Section 2267.001(5)(A) must submit copies of detailed proposals, including drafts of any interim agreement and the comprehensive agreement, to the Partnership Advisory Commission in accordance with Chapter 2268.

(i) This chapter and an interim or comprehensive agreement entered into under this chapter do not enlarge, diminish, or affect any authority a responsible governmental entity has to take action that would impact the debt capacity of this state.

Sec. 2267.055. AFFECTED JURISDICTIONS. (a) A private entity whose proposal, other than a proposal for a service contract, is accepted for conceptual stage evaluation under Section 2267.053 shall notify each affected jurisdiction by providing a copy of its proposal to the affected jurisdiction.

(b) Not later than the 60th day after the date an affected jurisdiction receives the notice required by Subsection (a), the affected jurisdiction that is not the responsible governmental entity for the respective qualifying project shall submit in writing to the responsible governmental entity any comments the affected jurisdiction has on the proposed qualifying project and indicate whether the facility or project is compatible with the local comprehensive plan, local infrastructure development plans, the capital improvements budget, or other government spending plan. The responsible governmental entity shall consider the submitted comments before entering into a comprehensive agreement with a contracting person.

Sec. 2267.056. DEDICATION AND CONVEYANCE OF PUBLIC PROPERTY. (a) After obtaining any appraisal of the property interest that is required under other law in connection with the conveyance, a governmental entity may dedicate any property interest, including land, improvements, and tangible personal property, for public use in a qualifying project if the governmental entity finds that the dedication will serve the public purpose of this chapter by minimizing the cost of a qualifying project to the governmental entity or reducing the delivery time of a qualifying project.

(b) In connection with a dedication under Subsection (a), a governmental entity may convey any property interest, including a
license, franchise, easement, or another right or interest the governmental entity considers appropriate, subject to the conditions imposed by general law governing such conveyance and subject to the rights of an existing utility under a license, franchise, easement, or other right under law, to the contracting person for the consideration determined by the governmental entity. The consideration may include the agreement of the contracting person to develop or operate the qualifying project.

Sec. 2267.057. POWERS AND DUTIES OF CONTRACTING PERSON. (a) The contracting person has:

(1) the power granted by:
(A) general law to a person that has the same form of organization as the contracting person; and

(2) the power to:
(A) develop or operate the qualifying project; and
(B) collect lease payments, impose user fees subject to Subsection (b), or enter into service contracts in connection with the use of the project.

(b) The contracting person may not impose a user fee or increase the amount of a user fee until the fee or increase is approved by the responsible governmental entity.

(c) The contracting person may own, lease, or acquire any other right to use or operate the qualifying project.

(d) The contracting person may finance a qualifying project in the amounts and on the terms determined by the contracting person. The contracting person may issue debt, equity, or other securities or obligations, enter into sale and leaseback transactions, and secure any financing with a pledge of, security interest in, or lien on any or all of its property, including all of its property interests in the qualifying project.

(e) In operating the qualifying project, the contracting person may:

(1) establish classifications according to reasonable
categories for assessment of user fees; and

(2) with the consent of the responsible governmental entity, adopt and enforce reasonable rules for the qualifying project to the same extent as the responsible governmental entity.

(f) The contracting person shall:

(1) develop or operate the qualifying project in a manner that is acceptable to the responsible governmental entity and in accordance with any applicable interim or comprehensive agreement;

(2) subject to Subsection (g), keep the qualifying project open for use by the public at all times, or as appropriate based on the use of the project, after its initial opening on payment of the applicable user fees, lease payments, or service payments;

(3) maintain, or provide by contract for the maintenance or upgrade of, the qualifying project, if required by any applicable interim or comprehensive agreement;

(4) cooperate with the responsible governmental entity to establish any interconnection with the qualifying project requested by the responsible governmental entity; and

(5) comply with any applicable interim or comprehensive agreement and any lease or service contract.

(g) The qualifying project may be temporarily closed because of emergencies or, with the consent of the responsible governmental entity, to protect public safety or for reasonable construction or maintenance activities.

(h) This chapter does not prohibit a contracting person of a qualifying project from providing additional services for the qualifying project to the public or persons other than the responsible governmental entity, provided that the provision of additional service does not impair the contracting person's ability to meet the person's commitments to the responsible governmental entity under any applicable interim or comprehensive agreement.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1334 (S.B. 1048), Sec. 1, eff. September 1, 2011.

Sec. 2267.058. COMPREHENSIVE AGREEMENT. (a) Before developing or operating the qualifying project, the contracting person must enter into a comprehensive agreement with a responsible governmental entity. The comprehensive agreement shall provide for:
(1) delivery of letters of credit or other security in connection with the development or operation of the qualifying project, in the forms and amounts satisfactory to the responsible governmental entity, and delivery of performance and payment bonds in compliance with Chapter 2253 for all construction activities;

(2) review of plans and specifications for the qualifying project by the responsible governmental entity and approval by the responsible governmental entity indicating that the plans and specifications conform to standards acceptable to the responsible governmental entity, except that the contracting person may not be required to provide final design documents for a qualifying project before the execution of a comprehensive agreement;

(3) inspection of the qualifying project by the responsible governmental entity to ensure that the contracting person's activities are acceptable to the responsible governmental entity in accordance with the comprehensive agreement;

(4) maintenance of a public liability insurance policy, copies of which must be filed with the responsible governmental entity accompanied by proofs of coverage, or self-insurance, each in the form and amount satisfactory to the responsible governmental entity and reasonably sufficient to ensure coverage of tort liability to the public and project employees and to enable the continued operation of the qualifying project;

(5) monitoring of the practices of the contracting person by the responsible governmental entity to ensure that the qualifying project is properly maintained;

(6) reimbursement to be paid to the responsible governmental entity for services provided by the responsible governmental entity;

(7) filing of appropriate financial statements on a periodic basis; and

(8) policies and procedures governing the rights and responsibilities of the responsible governmental entity and the contracting person if the comprehensive agreement is terminated or there is a material default by the contracting person, including conditions governing:

(A) assumption of the duties and responsibilities of the contracting person by the responsible governmental entity; and

(B) the transfer or purchase of property or other interests of the contracting person to the responsible governmental
entity.

(b) The comprehensive agreement shall provide for any user fee, lease payment, or service payment established by agreement of the parties. In negotiating a user fee under this section, the parties shall establish a payment or fee that is the same for persons using a facility of the qualifying project under like conditions and that will not materially discourage use of the qualifying project. The execution of the comprehensive agreement or an amendment to the agreement is conclusive evidence that the user fee, lease payment, or service payment complies with this chapter. A user fee or lease payment established in the comprehensive agreement as a source of revenue may be in addition to, or in lieu of, a service payment.

(c) A comprehensive agreement may include a provision that authorizes the responsible governmental entity to make grants or loans to the contracting person from money received from the federal, state, or local government or any agency or instrumentality of the government.

(d) The comprehensive agreement must incorporate the duties of the contracting person under this chapter and may contain terms the responsible governmental entity determines serve the public purpose of this chapter. The comprehensive agreement may contain:

1. provisions that require the responsible governmental entity to provide notice of default and cure rights for the benefit of the contracting person and the persons specified in the agreement as providing financing for the qualifying project;
2. other lawful terms to which the contracting person and the responsible governmental entity mutually agree, including provisions regarding unavoidable delays or providing for a loan of public money to the contracting person to develop or operate one or more qualifying projects; and
3. provisions in which the authority and duties of the contracting person under this chapter cease and the qualifying project is dedicated for public use to the responsible governmental entity or, if the qualifying project was initially dedicated by an affected jurisdiction, to the affected jurisdiction.

(e) Any change in the terms of the comprehensive agreement that the parties agree to must be added to the comprehensive agreement by written amendment.

(f) The comprehensive agreement may provide for the development or operation of phases or segments of the qualifying project.
(g) The comprehensive agreement must provide that a security document or other instrument purporting to mortgage, pledge, encumber, or create a lien, charge, or security interest on or against the contracting party's interest may not extend to or affect the fee simple interest of the state in the qualifying project or the state's rights or interests under the comprehensive agreement. Any holder of debt shall acknowledge that the mortgage, pledge, or encumbrance or a lien, charge, or security interest on or against the contracting party's interest is subordinate to the fee simple interest of the state in the qualifying project.

Before or in connection with the negotiation of the comprehensive agreement, the responsible governmental entity may enter into an interim agreement with the contracting person proposing the development or operation of the qualifying project. The interim agreement may:

(1) authorize the contracting person to begin project phases or activities for which the contracting person may be compensated relating to the proposed qualifying project, including project planning and development, design, engineering, environmental analysis and mitigation, surveying, and financial and revenue analysis, including ascertaining the availability of financing for the proposed facility or facilities of the qualifying project;

(2) borrowing or accepting grants from any state infrastructure bank.
(b) The responsible governmental entity may take any action to obtain federal, state, or local assistance for a qualifying project that serves the public purpose of this chapter and may enter into any contracts required to receive the assistance.
(c) If the responsible governmental entity is a state agency, any money received from the state or federal government or any agency or instrumentality of the state or federal government is subject to appropriation by the legislature.
(d) The responsible governmental entity may determine that it serves the public purpose of this chapter for all or part of the costs of a qualifying project to be directly or indirectly paid from the proceeds of a grant or loan made by the local, state, or federal government or any agency or instrumentality of the government.

(b) For purposes of this section, a qualifying project is considered a public work under Chapter 2253 and the responsible governmental entity shall assume the obligations and duties of a governmental entity under that chapter. The obligee under a performance bond under this section may be a public entity, a private person, or an entity consisting of both a public entity and a private person.

Sec. 2267.061. MATERIAL DEFAULT; REMEDIES. (a) If the contracting person commits a material default, the responsible governmental entity may assume the responsibilities and duties of the contracting person of the qualifying project. If the responsible governmental entity assumes the responsibilities and duties of the contracting person, the responsible governmental entity has all the rights, title, and interest in the qualifying project, subject to any liens on revenue previously granted by the contracting person to any person providing financing for the project.

(b) A responsible governmental entity that has the power of eminent domain under state law may exercise that power to acquire the qualifying project in the event of a material default by the contracting person. Any person who has provided financing for the qualifying project, and the contracting person to the extent of its capital investment, may participate in the eminent domain proceedings with the standing of a property owner.

(c) The responsible governmental entity may terminate, with cause, any applicable interim or comprehensive agreement and exercise any other rights and remedies available to the governmental entity at law or in equity.

(d) The responsible governmental entity may make any appropriate claim under the letters of credit or other security or the performance and payment bonds required by Section 2267.058(a)(1).

1. develop or operate the qualifying project;
2. impose user fees;
3. impose and collect lease payments for the use of the project; and
4. comply with any applicable contract to provide services.

(f) The responsible governmental entity shall collect and pay to secured parties any revenue subject to a lien to the extent necessary to satisfy the contracting person's obligations to secured parties, including the maintenance of reserves. The liens shall be correspondingly reduced and, when paid off, released.

(g) Before any payment is made to or for the benefit of a secured party, the responsible governmental entity may use revenue to pay the current operation and maintenance costs of the qualifying project.
project, including compensation to the responsible governmental entity for its services in operating and maintaining the qualifying project. The right to receive any payment is considered just compensation for the qualifying project.

(h) The full faith and credit of the responsible governmental entity may not be pledged to secure any financing of the contracting person that was assumed by the governmental entity when the governmental entity assumed responsibility for the qualifying project.

(b) A construction manager-at-risk may seek to perform portions of the work itself if:

(1) the construction manager-at-risk submits its bid or proposal for those portions of the work in the same manner as all other trade contractors or subcontractors; and

(2) the governmental entity determines that the construction manager-at-risk's bid or proposal provides the best value for the governmental entity.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1129 (H.B. 628), Sec. 2.08, eff. September 1, 2011.

submitted by the firm in response to the request for qualifications,
except that cost-related or price-related evaluation factors are not
permitted.

(b) Each firm must certify to the governmental entity that each
architect or engineer that is a member of the firm was selected based
on demonstrated competence and qualifications, in the manner provided

information submitted by the offerors on the basis of the selection
criteria stated in the request for qualifications and the results of
any interview.

(e) The governmental entity may request additional information
regarding demonstrated competence and qualifications, considerations

(b) The governmental entity shall first attempt to negotiate a contract with the selected firm.

(c) If the governmental entity is unable to negotiate a satisfactory contract with the selected firm, the governmental entity shall, formally and in writing, end all negotiations with that firm and proceed to negotiate with the next firm in the order of the selection ranking until a contract is reached or negotiations with all ranked firms end.

(d) Not later than the seventh day after the date the contract is awarded, the governmental entity shall make the rankings determined under Section 2269.307(f) public.

   A) independently enter into contracts for not more
than two civil works projects in any fiscal year; and
    (B) enter into contracts for additional civil works
projects in any fiscal year, but not more than the number of civil
works projects prescribed by the limit in Subdivision (1) for the
municipality, provided that:
        (i) the additional contracts for the civil works
projects entered into by the utility under this paragraph are
allocated to the number of contracts the municipality that appoints
the utility's governing board may enter under Subdivision (1); and
        (ii) the governing body of the municipality must
approve the contracts; and
    (3) a governmental entity that has a population of 100,000
or more but less than 500,000 or is a board of trustees governed by
Chapter 54, Transportation Code, may enter into contracts under this
subchapter for not more than four projects in any fiscal year.

   (6) other information requested by the governmental entity.

(e) The governmental entity shall first open, evaluate, and score each responsive technical proposal submitted on the basis of the criteria described in the request for proposals and assign points on the basis of the weighting specified in the request for proposals. The governmental entity may reject as nonresponsive any firm that makes a significant change to the composition of its firm as initially submitted. The governmental entity shall subsequently open, evaluate, and score the cost proposals from firms that submitted a responsive technical proposal and assign points on the basis of the weighting specified in the request for proposals. The governmental entity shall select the design-build firm in accordance with the formula provided in the request for proposals.

Sec. 2269.3615. IDENTIFICATION OF PROJECT TEAM. (a) A governmental entity may require a design-build firm responding to a request for detailed proposals to identify companies that will:

(1) fill key project roles, including project management, lead design firm, quality control management, and quality assurance management; and

(b) If a design-build firm required to identify companies under Subsection (a) is selected for a design-build agreement, the firm may not make changes to the identified companies unless an identified company:

(1) is no longer in business, is unable to fulfill its legal, financial, or business obligations, or can no longer meet the terms of the teaming agreement with the design-build firm;
(2) voluntarily removes itself from the team;
(3) fails to provide a sufficient number of qualified personnel to fulfill the duties identified during the proposal stage; or
(4) fails to negotiate in good faith in a timely manner in accordance with provisions established in the teaming agreement proposed for the project.

(c) If the design-build firm makes team changes in violation of Subsection (b), any cost savings resulting from the change accrue to the governmental entity and not to the design-build firm.

(1) all risks and costs associated with:
   (A) scope changes and modifications, as requested by the governmental entity;
   (B) unknown or differing site conditions unless otherwise provided by the governmental entity in the request for proposals and final contract;
   (C) regulatory permitting, if the governmental entity is responsible for those risks and costs by law or contract; and
   (D) natural disasters and other force majeure events unless otherwise provided by the governmental entity in the request for proposals and final contract; and
(2) all costs associated with property acquisition, excluding costs associated with acquiring a temporary easement or work area associated with staging or construction for the project.

Sec. 2269.364. STIPEND AMOUNT FOR UNSUCCESSFUL OFFERORS. (a)
Unless a stipend is paid under Subsection (c), the design-build firm retains all rights to the work product submitted in a proposal. The governmental entity may not release or disclose to any person, including the successful offeror, the work product contained in an unsuccessful proposal. The governmental entity shall return all copies of the proposal and other information submitted to an unsuccessful offeror. The governmental entity or its agents may not make use of any unique or nonordinary design element, technique, method, or process contained in the unsuccessful proposal that was not also contained in the successful proposal at the time of the original submittal, unless the entity acquires a license from the unsuccessful offeror.

(b) A violation of this section voids the contract for the project entered into by the governmental entity. The governmental entity is liable to any unsuccessful offeror, or any member of the design-build team or its assignee, for one-half of the cost savings associated with the unauthorized use of the work product of the unsuccessful offeror. Any interested party may bring an action for an injunction, declaratory relief, or damages for a violation of this section. A party who prevails in an action under this subsection is entitled to reasonable attorney's fees as approved by the court.

(c) The governmental entity may offer an unsuccessful design-build firm that submits a response to the entity's request for additional information under Section 2269.361 a stipend for preliminary engineering costs associated with the development of the proposal. The stipend must be one-half of one percent of the contract amount and must be specified in the initial request for proposals. If the offer is accepted and paid, the governmental entity may make use of any work product contained in the proposal, including the techniques, methods, processes, and information contained in the proposal. The use by the governmental entity of any design element contained in an unsuccessful proposal is at the sole risk and discretion of the entity and does not confer liability on the recipient of the stipend under this subsection.

(d) Notwithstanding other law, including Chapter 552, work product contained in an unsuccessful proposal submitted and rejected under this subchapter is confidential and may not be released unless a stipend offer has been accepted and paid as provided by Subsection (c).
Sec. 2269.365. COMPLETION OF DESIGN. (a) Following selection of a design-build firm under this subchapter, the firm's engineers shall submit all design elements for review and determination of scope compliance to the governmental entity before or concurrently with construction.

(b) An appropriately licensed design professional shall sign and seal construction documents before the documents are released for construction.

Sec. 2269.366. FINAL CONSTRUCTION DOCUMENTS. At the conclusion of construction, the design-build firm shall supply to the governmental entity a record set of construction documents for the project prepared as provided by Chapter 1001, Occupations Code.

Sec. 2269.367. PERFORMANCE OR PAYMENT BOND. (a) A performance or payment bond is not required for the portion of a design-build contract under this section that includes design services only.
(b) If a fixed contract amount or guaranteed maximum price has not been determined at the time a design-build contract is awarded, the penal sums of the performance and payment bonds delivered to the governmental entity must each be in an amount equal to the construction budget, if commercially available and practical, as specified in the design criteria package.

(c) If the governmental entity awards a design-build contract under Section 2269.362, the design-build firm shall deliver the bonds not later than the 10th day after the date the design-build firm executes the contract unless the design-build firm furnishes a bid bond or other financial security acceptable to the governmental entity to ensure that the design-build firm will furnish the required performance and payment bonds before the commencement of construction.

(b) An investing entity may invest in a listed company as provided by this section only to the extent necessary to ensure that the value of the assets managed by the entity does not fall below the value described by Subsection (a).

(f) A nominating body may submit an application for a project or activity that during the application process loses its eligibility

Sec. 2303.4051. ORDINANCE OR ORDER FOR IDENTIFICATION OF LOCAL INCENTIVES. (a) In this section, "local incentive" means each tax incentive, grant, other financial incentive or benefit, or program to be provided by the governing body to qualified businesses participating in the enterprise zone program and any other local incentive listed in Section 2303.511.

(b) Before nominating the project or activity of a qualified business for designation as an enterprise project, the governing body of the municipality or county in which the business is located, by ordinance or order, as appropriate, must identify and summarize briefly any local incentives available.

(c) The ordinance or order must:

(1) state whether the project or activity to be nominated as an enterprise project is located in an area designated as an enterprise zone under this chapter;

(2) summarize briefly the local incentives, including tax incentives, that, at the election of the governing body, are or will be made available to the nominated project or activity of the qualified business; and

(3) nominate a project or activity as an enterprise project.

(d) Repealed by Acts 2007, 80th Leg., R.S., Ch. 1114, Sec.
An ordinance or order adopted under this section is not valid unless the nominating body holds a public hearing before adopting the ordinance or order. Notice of the hearing must be published in a newspaper having general circulation in the municipality not later than the seventh calendar day before the date of the hearing. The notice must contain:

1. the date, time, and location of the hearing;
2. the provisions for any tax or other incentives applicable to the enterprise zone program;
3. the name of the qualified business whose project or activity is being nominated for enterprise project designation; and
4. the location of the qualified business site.

If the nominating body has previously nominated a project or activity for designation as an enterprise project, the nominating body, instead of issuing a new ordinance or order under this section for a nominated project or activity, may by resolution make a reference to a previously issued ordinance or order that met the requirements of this section if:

1. the resolution nominates the project or activity for designation as an enterprise project and states:
   A. whether the nominated project or activity is located in an area designated as an enterprise zone;
   B. the level of enterprise project designation being sought; and
   C. the ending date of the project's designation period;
2. the local incentives described in the previously issued ordinance or order are the same on the date the resolution is issued; and
3. the local incentives to be made available to the nominated project or activity are the same as those made available to the project or activity that are the subject of the previously issued ordinance or order.

This section does not prohibit a municipality or county from extending additional incentives, including tax incentives, for qualified businesses in an enterprise zone by a separate order or ordinance.
Sec. 2303.4052. REQUIRED INFORMATION FROM NOMINATING BODY.

Before nominating the project or activity of a qualified business for designation as an enterprise project, the nominating body must submit to the bank:

(1) a certified copy of the ordinance or order, as appropriate, or reference to an ordinance or order as required by Section 2303.4051;

(2) a certified copy of the minutes of all public hearings conducted with respect to local incentives available to qualified businesses within the jurisdiction of the governmental entity nominating the project or activity, regardless of whether those businesses are located in an enterprise zone;

(3) the name, title, address, telephone number, and electronic mail address of the nominating body's liaison designated under Section 2303.204;

(4) if the business is seeking job retention benefits, documentation showing the number of employment positions at the qualified business site;

(5) any interlocal agreement required under Section 2303.004(c) that states:

(A) which governing body has the administration authority under Section 2303.201; and

(B) that both the county in which the project or activity is located and the municipality in whose jurisdiction the project or activity is located approve the nomination of the project or activity; and

(6) any additional information the bank may require.
Sec. 2303.406. ENTERPRISE PROJECT DESIGNATION. (a) The bank may designate a project or activity of a business as an enterprise project only if the bank receives all of the information required by Section 2303.4052 and determines that:

(1) the business is a qualified business under Section 2303.402 that is located in or has made a substantial commitment to locate in an enterprise zone or at a qualified business site;

(2) the nominating body making the application has demonstrated that a high level of cooperation exists among public, private, and neighborhood entities within the jurisdiction of the governmental entity nominating the project or activity;

(3) the designation will contribute significantly to the achievement of the plans of the nominating body making the application for development and revitalization of the area in which the enterprise project will be located; and

(4) if the business is seeking job retention benefits, the business has clearly demonstrated that:

(A) the permanent employees of the business will be permanently laid off;

(B) the business will close down permanently;

(C) the business will relocate out-of-state;

(D) the business is able to employ individuals in accordance with Section 2303.402; or

(E) the business facility has been legitimately destroyed or substantially impaired because of fire, flood, tornado, hurricane, or any other natural disaster and that at least 60 percent of the capital investment is being spent to repair damages resulting from the disaster.

(b) The bank shall designate qualified businesses as enterprise projects on a competitive basis. The bank shall make its designation decisions using a weighted scale in which:
(1) 40 percent of the evaluation depends on the economic
distress of the block group or distressed county in which a proposed
enterprise project is located;
(2) 25 percent of the evaluation depends on the local
effort to achieve development and revitalization of the block group
or distressed county in which a proposed enterprise project is
located; and
(3) 35 percent of the evaluation depends on the evaluation
criteria as determined by the bank, which must include:
   (A) with respect to a proposed enterprise project
located in a block group, the level of cooperation and support the
project applicant commits to the revitalization goals of all of the
enterprise zone block groups within the jurisdiction of the
nominating governmental entity;
   (B) with respect to a proposed enterprise project
located in a distressed county, the level of cooperation and support
the project applicant commits to the revitalization of the distressed
county; and
   (C) the type and wage level of the jobs to be created
or retained by the business.

(c) The bank may remove an enterprise project designation if it
determines that the business is not complying with a requirement for
its designation.

(d) The maximum number of enterprise projects that the bank may
designate for each nominating body during any biennium is:
   (1) six, if the nominating body is the governing body of a
municipality or county with a population of less than 250,000; or
   (2) nine, if the nominating body is the governing body of a
municipality or county with a population of 250,000 or more.

(d-1) An enterprise project designation may be split into two
half designations. A half designation uses one-half of one of the
enterprise project designations allowed to a nominating body under
Subsection (d) and to the bank under Section 2303.403.

(e) The office may not designate multiple concurrent enterprise
projects to a qualified business located at a qualified business
site.

(f) An approved designation as a double jumbo enterprise
project, as defined by Section 2303.407, counts as two project
designations against both the nominating body for purposes of
Subsection (d) and the number of enterprise project designations
allowed statewide per biennium under Section 2303.403. An approved designation as a triple jumbo enterprise project, as defined by Section 2303.407, counts as three project designations against both the nominating body for purposes of Subsection (d) and the number of enterprise project designations allowed statewide per biennium under Section 2303.403.

(g) The bank may lower the designation level of a proposed project or activity nominated for enterprise project designation:

(1) if there are fewer designations available than applications received; or

(2) to further the economic interests of the state.

(h) A state benefit may not be obtained under this chapter or Chapter 151, Tax Code, for jobs moved from one jurisdiction in this state to another jurisdiction in this state.

(b) A capital investment in a project of:
   (1) $40,000 to $399,999 will result in a refund of up to $2,500 per job with a maximum refund of $25,000 for the creation or retention of 10 jobs;

   (5) $150,000,000 to $249,999,999 will result in a refund of up to $5,000 per new permanent job with a maximum refund of $2,500,000 for the creation of 500 new permanent jobs if the bank designates the project as a double jumbo enterprise project; or
   (6) $250,000,000 or more will result in a refund of up to $7,500 per new permanent job with a maximum refund of $3,750,000 for the creation of at least 500 new permanent jobs if the bank designates the project as a triple jumbo enterprise project.

(c) An enterprise project for which a commitment for a capital investment in the range amount and the creation of the number of new permanent jobs specified by Subsection (b)(5) is made is considered a double jumbo enterprise project if the project is so designated by the bank.

(d) An enterprise project for which a commitment for a capital investment in the range amount and the creation of the number of new permanent jobs specified by Subsection (b)(6) is made is considered a triple jumbo enterprise project if the project is so designated by the bank.

SUBCHAPTER F. HOUSING FINANCE DIVISION: GENERAL PROVISIONS

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4443, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 2306.111. HOUSING FUNDS. (a) The department, through the housing finance division, shall administer all federal housing funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. Section 12704 et seq.) or any other affordable housing program.

(b) The housing finance division shall adopt a goal to apply an aggregate minimum of 25 percent of the division's total housing funds toward housing assistance for individuals and families of extremely
low and very low income.

(c) In administering federal housing funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. Section 12701 et seq.), the department shall expend:

(1) 95 percent of these funds for the benefit of non-participating small cities and rural areas that do not qualify to receive funds under the Cranston-Gonzalez National Affordable Housing Act directly from the United States Department of Housing and Urban Development; and

(2) five percent of these funds for the benefit of persons with disabilities who live in any area of this state.

(c-1) The following entities are eligible to apply for set-aside funds under Subsection (c):

(1) nonprofit providers of affordable housing, including community housing development organizations; and

(2) for-profit providers of affordable housing.

(c-2) In allocating set-aside funds under Subsection (c), the department may not give preference to nonprofit providers of affordable housing, except as required by federal law.

(c-3) In administering funds that are set aside for persons with disabilities under Subsection (c)(2) and allocated through the homebuyer assistance program, the department:

(1) may not require a person to enter into a contract to purchase a home before applying for or reserving funds allocated through the program; and

(2) by rule shall implement a preapproval process under which a person:

(A) before funds allocated through the program are made available, may establish eligibility to receive those funds; and

(B) has an adequate period of at least 90 days in which to locate a home for purchase using funds made available under the program.

(d) The department shall allocate housing funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. Section 12701 et seq.), housing trust funds administered by the department under Sections 2306.201-2306.206, and commitments issued under the federal low income housing tax credit program administered by the department under Subchapter DD to all urban areas and rural areas of each uniform state service region based on a formula developed by the department under Section 2306.1115. If the
department determines under the formula that an insufficient number of eligible applications for assistance out of funds or credits allocable under this subsection are submitted to the department from a particular uniform state service region, the department shall use the unused funds or credits allocated to that region for all urban areas and rural areas in other uniform state service regions based on identified need and financial feasibility.

(d-1) In allocating low income housing tax credit commitments under Subchapter DD, the department shall, before applying the regional allocation formula prescribed by Section 2306.1115, set aside for at-risk developments, as defined by Section 2306.6702, not less than the minimum amount of housing tax credits required under Section 2306.6714. Funds or credits are not required to be allocated according to the regional allocation formula under Subsection (d) if:

(1) the funds or credits are reserved for contract-for-deed conversions or for set-asides mandated by state or federal law and each contract-for-deed allocation or set-aside allocation equals not more than 10 percent of the total allocation of funds or credits for the applicable program;

(2) the funds or credits are allocated by the department primarily to serve persons with disabilities; or

(3) the funds are housing trust funds administered by the department under Sections 2306.201-2306.206 that are not otherwise required to be set aside under state or federal law and do not exceed $3 million for each programmed activity during each application cycle.

(d-2) In allocating low income housing tax credit commitments under Subchapter DD, the department shall allocate five percent of the housing tax credits in each application cycle to developments that receive federal financial assistance through the Texas Rural Development Office of the United States Department of Agriculture. Any funds allocated to developments under this subsection that involve rehabilitation must come from the funds set aside for at-risk developments under Section 2306.6714 and any additional funds set aside for those developments under Subsection (d-1). This subsection does not apply to a development financed wholly or partly under Section 538 of the Housing Act of 1949 (42 U.S.C. Section 1490p-2) unless the development involves the rehabilitation of an existing property that has received and will continue to receive as part of the financing of the development federal financial assistance.
provided under Section 515 of the Housing Act of 1949 (42 U.S.C. Section 1485).

(d-3) In allocating low income tax credit commitments under Subchapter DD, the department shall allocate to developments in rural areas 20 percent or more of the housing tax credits in the state in the application cycle, with $500,000 or more in housing tax credits being reserved for each uniform state service region under this subsection. Any amount of housing tax credits set aside for developments in a rural area in a specific uniform state service region under this subsection that remains after the initial allocation of housing tax credits is available for allocation to developments in any other rural area first, and then is available to developments in urban areas of any uniform state service region.

(d-4) A proposed or existing development that, before September 1, 2013, has been awarded or has received federal financial assistance provided under Section 514, 515, or 516 of the Housing Act of 1949 (42 U.S.C. Section 1484, 1485, or 1486) may apply for low income housing tax credits allocated under Subsection (d-2) or (d-3) for the uniform state service region in which the development is located regardless of whether the development is located in a rural area.

(e) The department shall include in its annual low income housing plan under Section 2306.0721:

(1) the formula developed by the department under Section 2306.1115; and

(2) the allocation targets established under the formula for the urban areas and rural areas of each uniform state service region.

(f) The department shall include in its annual low income housing report under Section 2306.072 the amounts of funds and credits allocated to the urban areas and rural areas of each uniform state service region in the preceding year for each federal and state program affected by the requirements of Subsection (d).

(g) For all urban areas and rural areas of each uniform state service region, the department shall establish funding priorities to ensure that:

(1) funds are awarded to project applicants who are best able to meet recognized needs for affordable housing, as determined by department rule;

(2) when practicable and when authorized under Section 42,
Internal Revenue Code of 1986 (26 U.S.C. Section 42), the least restrictive funding sources are used to serve the lowest income residents; and

(3) funds are awarded based on a project applicant's ability, when consistent with Section 42, Internal Revenue Code of 1986 (26 U.S.C. Section 42), practicable, and economically feasible, to:

(A) provide the greatest number of quality residential units;

(B) serve persons with the lowest percent area median family income;

(C) extend the duration of the project to serve a continuing public need;

(D) use other local funding sources to minimize the amount of state subsidy needed to complete the project; and

(E) provide integrated, affordable housing for individuals and families with different levels of income.

(h) The department by rule shall adopt a policy providing for the reallocation of financial assistance administered by the department, including financial assistance related to bonds issued by the department, if the department's obligation with respect to that assistance is prematurely terminated.

(i) The director shall designate an employee of the department to act as the information officer and as a liaison with the public regarding each application seeking an allocation of housing funds described by this section.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.

Sec. 2306.126. EXEMPTION FROM PROPERTY TAX. (a) The department may, under its terms, conditions, and rules, pay public agencies in lieu of ad valorem taxes on property that the department acquires through foreclosure or sale under a deed of trust.

(b) The department shall make payments under this section instead of paying taxes whenever practicable with money lawfully available for this purpose, subject to the provisions of any bond resolution.
Sec. 2306.127. PRIORITY FOR CERTAIN COMMUNITIES. In a manner consistent with the regional allocation formula described under Section 2306.111(d), the department shall give priority through its housing program scoring criteria to communities that are located wholly or partly in:

1. a federally designated urban enterprise community;
2. an urban enhanced enterprise community; or
3. an economically distressed area or colonia.

Sec. 2306.141. RULES. The board shall have the specific duty and power to adopt rules governing the administration of the housing finance division and its programs.

Sec. 2306.142. AUTHORIZATION OF BONDS. (a) Subject to the requirements of this section, the board shall authorize all bonds issued by the department.

(b) If the issuance is authorized by the board, the department shall issue single-family mortgage revenue bonds to make home mortgage credit available for the purchase of newly constructed or previously owned single-family homes to economic and geographic submarkets of borrowers who are not served or who are substantially underserved by the conventional, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, or Federal Housing Administration home mortgage lending industry or by housing finance corporations organized under Chapter 394, Local Government Code.

(c) The board by rule shall adopt a methodology for determining through a market study the home mortgage credit needs in underserved economic and geographic submarkets in the state. In conducting the
market study required by this subsection, the department or its
designee shall analyze for the underserved economic and geographic
submarkets, at a minimum, the following factors:

(1) home ownership rates;
(2) loan volume;
(3) loan approval ratios;
(4) loan interest rates;
(5) loan terms;
(6) loan availability;
(7) type and number of dwelling units; and
(8) use of subprime mortgage loan products, comparing the
volume amount of subprime loans and interest rates to "A" paper
mortgage loans as defined by Standard and Poor's credit underwriting
criteria.

(d) The department or its designee shall analyze the potential
market demand, loan availability, and private sector home mortgage
lending rates available to extremely low, very low, low, and moderate
income borrowers in the rural counties of the state, in census tracts
in which the median family income is less than 80 percent of the
median family income for the county in which the census tract is
located, and in the region of the state adjacent to the international
border of the state. The department or its designee shall establish
a process for serving those counties, census tracts, and regions
through the single-family mortgage revenue bond program in a manner
proportionate to the credit needs of those areas as determined
through the department's market study.

(e) Using the market study and the analysis required by this
section, the board shall evaluate the feasibility of a single-family
mortgage revenue bond program with loan marketing, eligibility,
underwriting, structuring, collection, and foreclosure criteria and
with loan services practices that are designed to meet the credit
needs of the underserved economic and geographic submarkets of the
state, including those submarkets served disproportionately by
subprime lenders.

(f) In evaluating a proposed bond program under this section,
the board shall consider, consistent with the reasonable financial
operation of the department, specific set-asides or reservations of
mortgage loans for underserved economic and geographic submarkets in
the state, including the reservation of funds to serve borrowers who
have "A-" to "B-" credit according to Standard and Poor's credit
underwriting criteria.

(g) The department may use any source of funds or subsidy available to the department to provide credit enhancement, down payment assistance, pre-homebuyer and post-homebuyer counseling, interest rate reduction, and payment of incentive lender points to accomplish the purposes of this section in a manner considered by the board to be consistent with the reasonable financial operation of the department.

(h) In allocating funds under Subsection (g), the department's highest priority is to provide assistance to borrowers in underserved economic and geographic submarkets in the state. If the board determines that sufficient funds are available after fully meeting the credit needs of borrowers in those submarkets, the department may provide assistance to other borrowers.

(i) The board shall certify that each single-family mortgage revenue bond issued by the department under this section is structured in a manner that serves the credit needs of borrowers in underserved economic and geographic submarkets in the state.

(j) After any board approval and certification of a single-family mortgage revenue bond issuance, the department shall submit the proposed bond issuance to the Bond Review Board for review.

(k) In the state fiscal year beginning on September 1, 2001, the department shall:

1. adopt by rule a market study methodology as required by Subsection (c);
2. conduct the market study;
3. propose for board review a single-family mortgage revenue bond program, including loan feature details, a program for borrower subsidies as provided by Subsections (g) and (h), and origination and servicing infrastructure;
4. identify reasonable capital markets financing;
5. conduct a public hearing on the market study results and the proposed bond program; and
6. submit for review by the Bond Review Board the market study results and, if approved and certified by the board, the proposed bond program.

(l) In the state fiscal year beginning on September 1, 2002, and in each subsequent state fiscal year, the department shall allocate not less than 40 percent of the total single-family mortgage revenue bond loan volume to meet the credit needs of borrowers in
underserved economic and geographic submarkets in the state, subject to the identification of a satisfactory market volume demand through the market study.

(m) On completion of the market study, if the board determines in any year that bonds intended to be issued to achieve the purposes of this section are unfeasible or would damage the financial condition of the department, the board may formally appeal to the Bond Review Board the requirements of Subsection (k) or (l), as applicable. The Bond Review Board has sole authority to modify or waive the required allocation levels.

(n) In addition to any other loan originators selected by the department, the department shall authorize colonia self-help centers and any other community-based, nonprofit institutions considered appropriate by the board to originate loans on behalf of the department. All non-financial institutions acting as loan originators under this subsection must undergo adequate training, as prescribed by the department, to participate in the bond program. The department may require lenders to participate in ongoing training and underwriting compliance audits to maintain good standing to participate in the bond program. The department may require that lenders meet appropriate eligibility standards as prescribed by the department.

(o) The department shall structure all single-family mortgage revenue bond issuances in a manner designed to recover the full costs associated with conducting the activities required by this section.

Sec. 2306.143. ALTERNATIVE TO SUBPRIME LENDER LIST. (a) If the United States Department of Housing and Urban Development ceases to prepare or make public a subprime lender list, the market study required by Section 2306.142 must annually survey the 100 largest refinancing lenders and the 100 largest home purchase loan lenders in the state to identify lenders primarily engaged in subprime lending.

(b) The lenders included in the survey must be identified on the basis of home mortgage loan data reported by lenders under the Home Mortgage Disclosure Act of 1975 (12 U.S.C. Section 2801 et seq.)
and the Community Reinvestment Act of 1977 (12 U.S.C. Section 2901 et seq.).

(2) pay the principal and interest on department bonds; and

       (B) maintained by a first lien lender or bank trustee.
   (b) If the department is the first lien lender with respect to the development, each owner who receives department assistance for a multifamily rental housing development that contains 25 or more rental units shall deposit annually into a reserve account:
       (1) for the year 2004:
(A) not less than $150 per unit per year for units one to five years old; and
(B) not less than $200 per unit per year for units six or more years old; and
(2) for each year following the year 2004, the amounts per unit per year as described by Subdivision (1).
(c) A land use restriction agreement or restrictive covenant between the owner and the department must require the owner to begin making annual deposits to the reserve account on the date that occupancy of the multifamily rental housing development stabilizes or the date that permanent financing for the development is completely in place, whichever occurs later, and shall continue making deposits until the earliest of the following dates:
(1) the date of any involuntary change in ownership of the development;
(2) the date on which the owner suffers a total casualty loss with respect to the development or the date on which the development becomes functionally obsolete, if the development cannot be or is not restored;
(3) the date on which the development is demolished;
(4) the date on which the development ceases to be used as multifamily rental property; or
(5) the end of the affordability period specified by the land use restriction agreement or restrictive covenant.
(d) With respect to multifamily rental developments, if the establishment of a reserve fund for repairs has not been required by the first lien lender, the development owner shall set aside the repair reserve amount as a reserve for capital improvements. The reserve must be established for each unit in the development, regardless of the amount of rent charged for the unit.
(e) Beginning with the 11th year after the awarding of any financial assistance for the development by the department, the owner of a multifamily rental housing development shall contract for a third-party physical needs assessment at appropriate intervals that are consistent with lender requirements with respect to the development. If the first lien lender does not require a third-party physical needs assessment or if the department is the first lien lender, the owner shall contract with a third party to conduct a physical needs assessment at least once during each five-year period beginning with the 11th year after the awarding of any financial

development shall submit to the department copies of the most recent
third-party physical needs assessment conducted on the development,
any response by the owner to the assessment, any repairs made in
response to the assessment, and information on any necessary changes
to the required reserve based on the assessment.

(f) The department may complete necessary repairs if the owner
fails to complete the repairs as required by Subsection (e). Payment
for those repairs must be made directly by the owner of the
development or through a reserve account established for the
development under this section.

(g) If notified of the development owner's failure to comply
with a local health, safety, or building code, the department may
enter on the property and complete any repairs necessary to correct a
violation of that code, as identified in the applicable violation
report, and may pay for those repairs through a reserve account
established for the development under this section.

(h) The duties of the owner of a multifamily rental housing
development under this section cease on the date of a voluntary
change in ownership of the development, but the subsequent owner of
the development is subject to the deposit, inspection, and
notification requirements of Subsections (b), (c), (d), and (e).

(i) The first lien lender shall maintain the reserve account.
In the event there is no longer a first lien lender, then Subsections
(b) and (d) no longer apply.

(j) The department shall adopt rules that:
   (1) establish requirements and standards regarding:
       (A) for first lien lenders and bank trustees:

costs of that maintenance;
           (ii) asset management;
           (iii) transfer of money in reserve accounts to the
department to fund necessary repairs; and
           (iv) oversight of reserve accounts and the
provision of financial data and other information to the department;
       and
       (B) for owners, inspections of the multifamily rental
housing developments and identification of necessary repairs,
including requirements and standards regarding construction,
rehabilitation, and occupancy that may enable quicker identification
of those repairs;

(2) identify circumstances in which money in the reserve accounts may:

   (A) be used for expenses other than necessary repairs, including property taxes or insurance; and
   (B) fall below mandatory deposit levels without resulting in department action;

(3) define the scope of department oversight of reserve accounts and the repair process;

(1) not more than 25 percent of the total annual issuance amount authorized through the memorandum of understanding provided for in Subsection (b) may be used for projects in any one metropolitan area; and

(2) at least 15 percent of the annual issuance amount authorized through the memorandum of understanding provided for in Subsection (b) is reserved for projects in rural areas.

(a-1) For the purposes of Subsection (a), "rural area" and "metropolitan area" shall be defined through the memorandum of understanding provided for in Subsection (b).

(b) A qualified 501(c)(3) bond may not be issued unless approved by the Bond Review Board. In addition, the Bond Review Board shall enter into a memorandum of understanding with the department specifying the amount of bonds to be issued in each fiscal year. The department and the Bond Review Board shall review the memorandum of understanding annually to determine the specific amount of bonds to be issued in each fiscal year.    (A) ensure that the project is well run, well maintained, and financially viable; and

   (B) minimize the risk of the organization's default;

(B) at least 20 percent of the units in a multifamily development are affordable to individuals and families with incomes at or below 50 percent of the median family income, adjusted for family size; and

(3) enter into an agreement with the department in which the 501(c)(3) organization:

(A) agrees during the term of the agreement to reserve at least 60 percent of the housing to be provided under the project for individuals and families of low and very low income;

(B) ensures that the reserved housing will remain affordable to individuals and families of low and very low income during the term of the agreement;

(C) agrees to not discriminate against a tenant applicant solely because the applicant receives public rental assistance payments, except if at least 15 percent of the housing units provided under the project are occupied by tenants who receive public rental assistance payments; and

(D) agrees to restrict the rents charged on those units reserved for individuals and families of low and very low income at 30 percent of the area median income adjusted for family size and utility allowance, unless this requirement is waived or modified on a case-by-case basis by the board, and approved by the Bond Review Board, if both boards determine that the waiver or modification is necessary for an area of the state because the area's median income would prevent the construction of new affordable projects.

(d) Subsection (c)(3)(C) does not prohibit an organization from requiring a tenant applicant who receives public assistance to meet the organization's standard criteria for occupancy, including such criteria as satisfactory creditworthiness and lack of criminal history.

(e) The agreement provided for in Subsection (c)(3) may provide for the lease or sale of the project to a nonprofit corporation approved by the department subject to the conditions specified in
Subsection (c).

(f) Neither the department nor the Texas State Affordable Housing Corporation may use state or federal money to provide for credit enhancement of a bond issued under this section unless the credit enhancement would facilitate the issuance of bonds for the purpose of financing the creation or preservation of affordable housing by 501(c)(3) nonprofit entities.

(g) In lieu of complying with the set-aside requirements specified in Subsection (c)(2), a qualified 501(c)(3) organization may comply with such other set-asides or restrictions as are approved by the Internal Revenue Service as a basis for the determination letter addressed to the qualified 501(c)(3) organization.

(b) The department shall make available on its website details of the scoring system used by the department to score applications.

(c) The department shall underwrite the applications by
determining:

(1) that the general contractor's profit, overhead, and general requirements are within the maximum limit published by the department;

(2) that the developer fee for the proposed project does not exceed the maximum amount allowed by the department; and

(3) if applicable, the amount of tax credits available to the proposed development.

(d) In adopting criteria for underwriting applications under this section, the department shall attach additional weight to criteria that will determine the maximum amount that can be awarded that will:

(1) result in an issuance of private activity bonds for developments serving the lowest income tenants; and

(2) produce the greatest number of high-quality units committed to remaining affordable to qualified tenants for extended periods.

The department shall underwrite an application to determine the financial feasibility of the development and an appropriate level of housing tax credits. In determining an appropriate level of housing tax credits, the department shall evaluate the cost of the development based on acceptable cost parameters as adjusted for inflation and as established by historical final cost certifications of all previous housing tax credit allocations for:

If awarding points under Subsection (b)(1)(B)(iii), the department shall reallocate the points from the scoring category provided by Subsection (b)(1)(J) equally between the political subdivisions described by Subsection (b)(1)(B)(iii). Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4550, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 2306.6711. ALLOCATION OF HOUSING TAX CREDITS. (a) The director shall provide the application scores to the board before the 30th day preceding the date the board begins to issue commitments for housing tax credits in the allocation round.

(b) Not later than the deadline specified in the qualified allocation plan, the board shall issue commitments for available housing tax credits based on the application evaluation process provided by Section 2306.6710. The board may not allocate to an applicant housing tax credits in any unnecessary amount, as determined by the department's underwriting policy and by federal law, and in any event may not allocate to the applicant housing tax credits in an amount greater than $3 million in a single application round or to an individual development more than $2 million in a single application round.

(c) Concurrently with the initial issuance of commitments for housing tax credits under Subsection (b), the board shall establish a
waiting list of additional applications ranked by score in descending order of priority based on set-aside categories and regional allocation goals.

(d) The board shall issue commitments for housing tax credits with respect to applications on the waiting list as additional credits become available.

(e) Not later than the 120th day after the date of the initial issuance of commitments for housing tax credits under Subsection (b), the department shall provide to an applicant who did not receive a commitment under that subsection an opportunity to meet and discuss with the department the application's deficiencies and scoring.

(f) Except as provided by Subsection (f-1), the board may allocate housing tax credits to more than one development in a single community, as defined by department rule, in the same calendar year only if the developments are or will be located more than two linear miles apart. This subsection applies only to communities contained within counties with populations exceeding one million.

(f-1) The board may allocate housing tax credits to more than one development in a single community only if:

(1) the community is located in:
   (A) a municipality with a population of two million or more; and
   (B) an area that is a federally declared disaster area; and

(2) the governing body of the municipality containing the development:
   (A) has by vote specifically authorized the allocation of housing tax credits for the development; and
   (B) is authorized to administer disaster recovery funds as a subgrant recipient.

(g) Except as necessary to comply with the nonprofit set-aside required by Section 42(h)(5), Internal Revenue Code of 1986 (26 U.S.C. Section 42(h)(5)), in an urban subregion of a uniform state service region that contains a county with a population of more than 1.7 million, the board shall allocate housing tax credits to the highest scoring development, if any, that is part of a concerted plan of revitalization and is located in that urban subregion in a municipality with a population of 500,000 or more.

(h) Notwithstanding Section 2306.6710(d), and except as necessary to comply with the nonprofit set-aside required by Section
42(h)(5), Internal Revenue Code of 1986 (26 U.S.C. Section 42(h)(5)), the board may not allocate to developments reserved for elderly persons and located in an urban subregion of a uniform state service region a percentage of the available housing tax credits allocated to developments located in that subregion that is greater than the percentage that results from the following formula, unless there are no other qualified applicants in that region:

\[ MP = \left(\frac{LEH - ERU}{TLH - TEU}\right) \times 100 \]

where:

"MP" is the maximum percentage of the available housing tax credits allocated to developments in the subregion that may be allocated to developments reserved for elderly persons;

"LEH" is the number of low income elderly households in the subregion;

"ERU" is the number of existing units reserved for elderly persons in developments located in the subregion that already receive housing tax credits;

"TLH" is the total number of low income households in the subregion; and

"TEU" is the total number of existing units in developments located in the subregion that already receive housing tax credits.

(i) Subsection (h) applies only to a uniform state service region that contains a county with a population of more than one million.

ALLOCATE BY BOARD. (a) If a proposed modification would materially alter a development approved for an allocation of a housing tax credit, the department shall require the applicant to file a formal, written amendment to the application on a form prescribed by the department.

(b) The director shall require the department staff assigned to underwrite applications to evaluate the amendment and provide an analysis and written recommendation to the board. The appropriate monitor under Section 2306.6719 shall also provide to the board an analysis and written recommendation regarding the amendment.

(c) The board must vote on whether to approve the amendment. The board by vote may reject an amendment and, if appropriate, rescind the allocation of housing tax credits and reallocate the credits to other applicants on the waiting list required by Section 2306.6711 if the board determines that the modification proposed in the amendment:

(1) would materially alter the development in a negative manner; or

(2) would have adversely affected the selection of the application in the application round.

(d) Material alteration of a development includes:

(1) a significant modification of the site plan;

(2) a modification of the number of units or bedroom mix of units;

(3) a substantive modification of the scope of tenant services;

(4) a reduction of three percent or more in the square footage of the units or common areas;

(5) a significant modification of the architectural design of the development;

(6) a modification of the residential density of the development of at least five percent; and

(7) any other modification considered significant by the board.

(e) In evaluating the amendment under this subsection, the department staff shall consider whether the need for the modification proposed in the amendment was:

(1) reasonably foreseeable by the applicant at the time the application was submitted; or

(2) preventable by the applicant.
(f) This section shall be administered in a manner that is consistent with Section 42, Internal Revenue Code of 1986 (26 U.S.C. Section 42).

Sec. 2306.6713. HOUSING TAX CREDIT AND OWNERSHIP TRANSFERS.

(a) An applicant may not transfer an allocation of housing tax credits or ownership of a development supported with an allocation of housing tax credits to any person other than an affiliate unless the applicant obtains the director's prior, written approval of the transfer.

(b) The director may not unreasonably withhold approval of the transfer.

(c) An applicant seeking director approval of a transfer and the proposed transferee must provide to the department a copy of any applicable agreement between the parties to the transfer, including any third-party agreement with the department.

(d) On request, an applicant seeking director approval of a transfer must provide to the department:

(1) a list of the names of transferees and related parties; and

(2) detailed information describing the experience and financial capacity of transferees and related parties.

(e) The development owner shall certify to the director that the tenants in the development have been notified in writing of the transfer before the 30th day preceding the date of submission of the transfer request to the department.

(f) Not later than the fifth working day after the date the department receives all necessary information under this section, the department shall conduct a qualifications review of a transferee to determine:

(1) the transferee's past compliance with all aspects of the low income housing tax credit program, including land use restriction agreements; and

(2) the sufficiency of the transferee's experience with developments supported with housing tax credit allocations.

(g) The transfer of ownership of a development supported with
an allocation of housing tax credits under this section does not subject the development to a right of first refusal under Section 2306.6726 if the transfer is made to a newly formed entity:

(1) that is under common control with the development owner; and

(2) the primary purpose of the formation of which is to facilitate the financing of the rehabilitation of the development using assistance administered through a state financing program.

(a-2) Notwithstanding any other provision of law, an at-risk development described by Section 2306.6702(a)(5)(B) that was previously allocated housing tax credits set aside under Subsection (a) does not lose eligibility for those credits if the portion of units reserved for public housing as a condition of eligibility for the credits under Subsection (a-1)(2) are later converted under the Rental Assistance Demonstration program administered by the United States Department of Housing and Urban Development as specified by the Consolidated and Further Continuing Appropriations Act, 2012 (Pub. L. No. 112-55) and its subsequent amendments.

(2) the scoring of the application; and
(3) a recommendation as to the amount of housing tax credits to be allocated to the application.

(b) An applicant may not appeal a decision made under Section 2306.6710 regarding an application filed by another applicant.

(c) An applicant must file a written appeal authorized by this section with the department not later than the seventh day after the date the department publishes the results of the application evaluation process provided by Section 2306.6710. In the appeal, the applicant must specifically identify the applicant's grounds for appeal, based on the original application and additional documentation filed with the original application.

(d) The director shall respond in writing to the appeal not later than the 14th day after the date of receipt of the appeal. If the applicant is not satisfied with the director's response to the appeal, the applicant may appeal directly in writing to the board, provided that an appeal filed with the board under this subsection must be received by the board before:

(1) the seventh day preceding the date of the board meeting at which the relevant allocation decision is expected to be made; or
(2) the third day preceding the date of the board meeting described by Subdivision (1), if the director does not respond to the appeal before the date described by Subdivision (1).
Board review of an appeal under Subsection (d) is based on the original application and additional documentation filed with the original application. (c) In accordance with the fee schedule, the department shall refund the balance of any fees collected for an application that is withdrawn by the applicant or that is not fully processed by the department. The department must provide the refund to the applicant not later than the 30th day after the date the last official action is taken with respect to the application.

(1) adopt rules essential to the internal functions and duties of the council;

Sec. 2308.104. STRATEGIC PLAN. (a) The council shall develop and recommend to the governor and report to the legislature a single strategic plan that establishes the framework for the budgeting and operation of the workforce development system, including school to careers and welfare to work components, administered by agencies represented on the council. The council shall annually report to the governor and the legislature on the implementation of the strategic plan.

(b) The council shall engage in strategic planning by selecting or developing two types of performance measures as described by Subsections (c) and (d). To the fullest extent possible, all measures must be selected from those already developed and approved before September 1, 2001, by one or more state agencies that administer workforce programs. The council may develop a new measure only if the council:

(1) identifies a gap in accountability; or

(2) determines that at least one state agency administering a workforce program cannot report under the measures developed and approved before September 1, 2001.

(c) The first type of performance measure consists of formal measures identifying outcomes that are essentially consistent across all workforce programs. Job placement rates, job retention rates, and wage rates may be included among those measures. The council may develop or select not more than five formal measures. The council
shall develop or select each formal measure in consultation with the state agencies required to report under this subsection. Once approved by the governor and the Legislative Budget Board, a formal measure becomes part of the state's performance budget and accounting system and applies to each state agency that administers a workforce program.

(d) The second type of performance measure consists of less formal measures to provide information determined by the council to be essential in development of the strategic plan under this section. Employer participation rates, customer satisfaction levels, and educational attainment may be included among those measures. The council shall develop or select each less formal measure with the approval of the governor and in consultation with the state agencies required to report under this subsection. The Legislative Budget Board shall provide technical assistance to the council to ensure that the measures and associated reporting criteria are consistent with the state's performance budget and accounting system. The council may exempt a state agency that administers a workforce program from any requirement to use a less formal measure.

(e) In addition to the other requirements of this chapter, the strategic plan recommended by the council must recognize and address literacy and basic education as activities that are critical to the well-being of individuals and the state without regard to whether the training and education is directed at preparing an individual for employment.

(f) The council shall include in the strategic plan goals, objectives, and performance measures for the workforce development system that involve programs of all state agencies that administer workforce programs.

(g) On approval of the plan by the governor, an agency administering a workforce program shall use the strategic plan to develop the agency's operational plan.

(h) The council shall include in the strategic plan long-range strategies developed by the council under Section 2308.1015 to facilitate the seamless delivery of integrated workforce services in this state.

(3) the subject matter of the complaint;

(4) the name of each person contacted in relation to the complaint;

(5) a summary of the results of the review or investigation of the complaint; and

(6) an explanation of the reason the file was closed, if
the council closed the file without taking action other than to investigate the complaint.

(b) The council shall provide to the person filing the complaint and to each person who is a subject of the complaint a copy of the council's policies and procedures relating to complaint investigation and resolution.

(c) The council, at least quarterly until final disposition of the complaint, shall notify the person filing the complaint and each person who is a subject of the complaint of the status of the investigation unless the notice would jeopardize an undercover investigation.

Sec. 2308.108. POLICY ON TECHNOLOGICAL SOLUTIONS. The members of the council shall develop and implement a policy requiring the executive director and council employees to research and propose appropriate technological solutions to improve the council's ability to perform its functions. (i) interact with the council through the Internet; and

(ii) access any service that can be provided effectively through the Internet;

skilled occupations that:
   (1) provide strong employment and earnings opportunities in this state; and
   (2) require less than a baccalaureate degree.

(b) The council shall:
   (1) validate and recognize nationally established skill standards to guide curriculum development, training, assessment, and certification of workforce skills;
   (2) convene industry groups to develop skill standards and certification procedures for industries and occupations in which standards have not been established or adopted and recognize the skill standards and certification procedures;
   (3) review the standards developed by other states and foreign countries and enter into agreements for mutual recognition of standards and credentials to enhance portability of skills; and
   (4) promote the use of standards and credentials among employers.

Sec. 2308.2515. APPLICATION OF PRIOR LAW. (a) If a change in law made by House Bill 3480, Acts of the 76th Legislature, Regular Session, 1999, would have the effect of invalidating an exemption granted under the Workforce Investment Act of 1998 (Pub. L. No. 105-220), a local workforce development board may not operate under that change in law but, instead, shall operate under the law as it existed before the effective date of this Act.

(b) A change in law described by Subsection (a) of this section does not affect other related provisions or applications of a statute that can be given effect without that change in law, and to this end those other provisions and applications of the statute shall be given effect.

Added by Acts 1999, 76th Leg., ch. 1103, Sec. 1, eff. Sept. 1, 1999.

Sec. 2308.252. DESIGNATION OF WORKFORCE DEVELOPMENT AREAS. (a) The governor shall, after receiving the recommendations of the council, publish a proposed designation of local workforce development areas for the planning and delivery of workforce development.

(d) After considering all comments and requests for changes, the governor shall make the final designation of workforce development areas.

(1) plan and oversee the delivery of workforce training and services; and

(2) evaluate workforce development in the workforce development area.

(b) The authority granted under Subsection (a) does not give a local workforce development board any direct authority or control over workforce funds and programs in its workforce development area, other than programs funded through that board.

(c) Before a local workforce development board may be created, at least three-fourths of the chief elected officials in the workforce development area who represent units of general local government must agree to the creation of the board, including all of the chief elected officials who represent units of general local government that have populations of at least 200,000. The elected
officials who agree to the creation of the board must represent at least 75 percent of the population of the workforce development area.

(d) The chief elected officials shall consider the views of all affected local organizations, including private industry councils and quality workforce planning committees, before making a final decision on the formation of a board.

(e) An agreement on the formation of a board must be in writing and must include:

2. the process to be used to select the chief elected official who will act on behalf of the other chief elected officials;
3. the process to be used to keep the chief elected officials informed regarding local workforce development activities;

6. the process, consistent with applicable federal and state law, for the appointment of the board members; and
7. the terms of office of the board members.

(f) In a state planning area in which there is more than one local workforce development area, the quality workforce planning committee of that state planning area shall continue in existence to provide labor market information for the entire state planning area until local workforce development boards are certified in each workforce development area in that state planning area.

(g) The chief elected officials designated under Subsection (c) shall enter into a partnership agreement with the board to:

1. select the grant recipient and the administrative entity for the local workforce development area; and
2. determine procedures for the development of the local workforce development plan.

Sec. 2308.254. LIMITATION ON EXERCISE OF BOARD POWERS. (a) A power or duty granted a board under this chapter may not be exercised in a workforce development area until:

(2) the board is certified by the governor.

(b) A private industry council in an area in which a board is not created or in which the chief elective officers are unable to agree on the establishment of a board may not exercise any of the powers granted a board by this chapter, except for a power granted under the federal Job Training Partnership Act (29 U.S.C. Section 1501 et seq.).

Sec. 2308.255. APPOINTMENT OF BOARD; LIABILITY OF BOARD MEMBERS. (a) The chief elected officials shall appoint the board.
(b) The appointments must:
(1) be consistent with the local government agreement and applicable federal and state law; and
(2) reflect the ethnic and geographic diversity of the workforce development area.
(c) To provide continuity, the chief elected officials shall consider appointing persons to the local workforce development board who are serving or who have served previously on a private industry council, a quality workforce planning committee, a job service employer committee, and any other entity affected by this chapter.
(d) Board members serve fixed and staggered terms as provided by the local government agreement or applicable federal or state law and may continue to serve until successors are appointed.
(e) A member or former member of a board may not be held personally liable for a claim, damage, loss, or repayment obligation of federal or state funds that arises under this chapter unless the act or omission that causes the claim, damage, loss, or repayment obligation constitutes, on the part of the board member or former board member:

(b) Private sector representatives on the board are selected from individuals nominated by general-purpose business organizations that have consulted with and received recommendations from other business organizations in the workforce development area. The nominations and the individuals selected from the nominations must reasonably represent the industrial and demographic composition of the business community. Not less than one-half of the business and industry representatives must be, if possible, representatives of
small businesses, including minority businesses.

(c) The education representatives on the board are selected from individuals nominated by regional or local educational agencies, vocational education institutions, institutions of higher education, including entities offering adult education, and general organizations of the institutions within the workforce development area.

(d) The labor representatives on the board are selected from individuals recommended by recognized state and local labor federations. If a state or local labor federation does not nominate a number of individuals sufficient to meet the labor representation requirements of Subsection (a)(2), individual workers may be included on the council to complete the labor representation.

(e) The remaining members of the board are selected from individuals recommended by interested organizations.

(f) In this section:
   (1) "General-purpose business organization" means an organization that admits for membership any for-profit business operating within the workforce development area.
   (2) "Small business" means a private, for-profit enterprise that employs not more than 500 employees.

(h) At least one of the members of a board appointed under Subsection (a) must be a veteran who:
   (1) meets the qualifications required for the member under that subsection; and
   (2) serves as a representative on the board for the interests of veterans in the workforce development area.

Sec. 2308.257. RECUSAL. (a) A member of a board shall avoid the appearance of conflict of interest by not voting in, or participating in, any decision by the board regarding the provision of services by such member, or any organization which that member directly represents, or on any matter which would provide direct financial benefit to that member, the member's immediate family, or any organization which that member directly represents.

(b) Subsection (a) shall serve as a minimum standard and shall not be construed as to limit the board's authority for more restrictive governance to prevent real and/or apparent conflict of interest.

Sec. 2308.264. CONTRACTING FOR SERVICE DELIVERY. (a) Except as otherwise provided by this section, a board may not directly provide workforce training or one-stop workforce services.

(b) A board may request from the Texas Workforce Commission a waiver of Subsection (a).
(c) The request for a waiver must include a detailed justification based on the lack of an existing qualified alternative for delivery of workforce training and services in the workforce development area.

(d) If a board receives a waiver to provide workforce training and one-stop workforce services, the evaluation of results and outcomes is provided by the Texas Workforce Commission.

(2) requests and obtains from the Texas Workforce Commission a waiver of the separate staffing requirement and of the requirement under Section 2308.264(a).

I am your Texas flag!
I was born January 25, 1839.
I am one of only two flags of an American state that has also served as the symbol of an independent nation—The Republic of Texas.

While you may honor me in retirement, the spirit I represent will never retire!

I represent the spirit of Texas—Yesterday, Today, and Tomorrow!

I represent the bravery of the Alamo and the Victory at San Jacinto.

My spirit rode with the Texas Rangers over the Forts Trail of the Big Country and herded cattle through the Fort Worth stockyards. I have sailed up Galveston Bay and kept a watchful eye over our El Paso del Norte.

My colors are in the waters of the Red River and in the Bluebonnets of the Texas Hill Country.

You'll find my spirit at the Light House of Palo Duro and in the sands of Padre Island;

I am at the Johnson Space Center in Houston and atop the oil wells of West Texas.

From the expanse of the Big Bend to the Riverwalk of San Antone—all of Texas is my home!

I wave over the cotton and grain fields of the High Plains, and I am deep in the rich soil of the Rio Grande Valley.

I am proudly displayed under the Capitol Dome, and I fly high above the concrete canyons of downtown Dallas.

You'll find my spirit in the East Texas piney woods and along the Grandeur of the Rio Grande.

I represent Texas—every Child, Woman, and Man!

The blue field in me stands for the valor of our
ancestors in the battles for our country.
Let us retire the blue--Salute!
My white field stands for the purity in all our Texas hearts! It represents the honor that each of us should pay to our state each day.
Let us retire the white--Salute!
The red is for all of the men and women who have died in service of our state--whether as members of the armed services or as citizen Samaritans.
Let us retire the red--Salute!
My lone, independent star is recognized worldwide because it represents ALL of Texas and stands for our unity as one for God, State, and Country.
Let us retire the lone star--Salute!
Join in the pledge to the Texas flag:
"Honor the Texas flag; I pledge allegiance to thee, Texas, one state under God, one and indivisible."

the notice and post-effective amendment requirements of this section.

(j) If the federal registration statement becomes effective before all conditions under this section are satisfied and the conditions are not waived, the registration statement becomes effective automatically when all the conditions are satisfied.

(k) If the registrant advises the commissioner of the date the federal registration statement is expected to become effective, the commissioner shall promptly advise the registrant by telephone or telegram, at the registrant's expense, whether all the conditions are satisfied and whether the commissioner then contemplates the issuance of an order denying registration. This advice by the commissioner does not preclude the issuance of the order at any time.

or issuer, regardless of whether the person or company is required to be registered as provided in this title.

(b) The commissioner may request the attorney general to bring an action as provided by this section for the appointment of a receiver for a person or company to which this section applies or the assets of the person or company if it appears to the commissioner, on complaint or otherwise, that:

(B) acted as a dealer, agent, investment adviser, investment adviser representative, or issuer or as an affiliate of a dealer, agent, investment adviser, investment adviser representative, or issuer in connection with the fraudulent practice; and

(2) the appointment of a receiver for the person or company or the assets of the person or company is necessary to conserve and protect the assets for the benefit of customers, security holders, and other claimants and potential claimants of the person or company.

(c) On the commissioner's request under Subsection (b), the attorney general may bring an action against a person or company in the name and on behalf of the state if it appears to the attorney general that the facts described by that subsection exist with respect to the person or company. The facts contained in the petition for the appointment of a receiver must be verified by the commissioner on information and belief.

(d) An action under this section may be brought in a district court of any county in which the fraudulent practice that is the subject of the petition was wholly or partly committed or in a county in which any defendant for whom the appointment of a receiver is sought has the defendant's principal place of business. This subsection is superior to any other provision of law establishing jurisdiction or venue with regard to an action for receivership.

(e) The attorney general may apply for and, on proper showing, is entitled to have a subpoena issued by the court that requires:

(1) the appearance, without delay, of a defendant or any employee, investment adviser representative, or agent of the defendant to testify and give evidence concerning a matter relevant

   (A) the attorney general;
   (B) the commissioner; and
   (C) the defendant against whom the appointment of a receiver is sought, if the court considers it practicable; and
   (2) considering the probable nature and magnitude of the receiver's duties in the particular case.

(i) The commissioner or attorney general may not be required to give a bond for receivership in an action brought under this section. The court shall require a person appointed as a receiver to give a bond that is:

(1) in an amount found by the court to be sufficient after considering the probable nature and magnitude of the receiver's duties in the particular case; and

(2) conditioned on the faithful discharge of the receiver's duties.

(j) The remedy provided by this section is in addition to any other remedy made available to the commissioner or the attorney general by statutory laws or case law of this state, including any provision authorizing receiverships.
Sec. 4007.152. INJUNCTIVE RELIEF. (a) The commissioner may request the attorney general to bring an action as provided by this section against a person or company if it appears to the commissioner, on complaint or otherwise, that the person or company:

1. against:

   A. a person or company described by Subsection (a);

   B. any person who, with intent to deceive or defraud or with reckless disregard for the truth or the law, has materially aided, is materially aiding, or is about to materially aid the person or company; and

   C. any other person concerned with or in any manner participating in or about to participate in the acts or practices described by Subsection (a); and

2. to enjoin the person or company and any other person described by Subdivision (1) from continuing the acts or practices that are the subject of the action for injunctive relief or from doing any act to further the acts or practices.

(c) The facts contained in an application for injunctive relief must be verified by the commissioner on information and belief.

(d) The attorney general may apply for and, on proper showing, is entitled to have a subpoena issued by the court that requires:

1. the appearance, without delay, of a defendant and any
employee or agent of the defendant to testify and give evidence 
concerning the acts, conduct, or other matters complained about in 
the application for injunctive relief; and
