(d) The population requirements imposed by Subsection (b)(1) do not apply to a facility that is under construction or completed before April 14, 1987.

(e) The board shall give priority to entering contracts under this subchapter that will provide the institutional division with secure regionally based correctional facilities designed to successfully reintegrate inmates into society through preparole, prerelease, work release, and prison industries programs.

(5) permit the state to terminate the contract for cause, including as cause the failure of the private vendor or county to meet the conditions required by this subchapter and other conditions required by the contract;

(c) The board, at least quarterly until final disposition of the complaint, shall notify the person filing the complaint and each person who is a subject of the complaint of the status of the investigation, unless the notice would jeopardize an undercover investigation.
Sec. 497.056. PRIVATE SECTOR PRISON INDUSTRIES ACCOUNT.  (a) The department shall forward money collected under Section 497.0581 to the comptroller. The comptroller shall deposit the money in the general revenue fund.

(b) The private sector prison industry account is created as an account in the general revenue fund. Money in the account may be appropriated only to:

(1) recruit corporations to participate as private sector industries programs;

(2) pay costs of the board and department in implementing this subchapter, including the cost to the department in reimbursing board members for expenses; and

(3) pay costs associated with the storage of evidence:
(A) containing biological material and used in the prosecution and conviction of an offense; or

Sec. 497.058. PIECP WAGE. (a) The board by rule shall require that participants at each private sector prison industries program be paid not less than the prison industry enhancement certification program (PIECP) wage as computed by the Texas Workforce Commission, except that:

(1) the board may permit employers to pay a participant the federal minimum wage for the two-month period beginning on the date participation begins; and

(2) the minimum wage for participants committed to the Texas Juvenile Justice Department, because of the age of the participants and the extensive training component of their employment, is the federal minimum wage.

(b) For the purposes of computations required by this section:

(2) in the event that the employer has no employees other than those employed under this subchapter performing work of a similar nature within the location, the prevailing wage for work of a similar nature is determined by reference to openings and wages by occupation data collected by the labor market information department of the Texas Workforce Commission; and

(a) The board by rule shall determine the amount of deductions to be taken from wages received by the participant under this subchapter and the disbursement of those deductions. The board may establish deductions for participants committed to the Texas Juvenile Justice Department that are different than deductions established for other participants in the program. In determining the amount of deductions under this section, the board shall ensure that the deductions do not place the private sector prison industries programs in the department in noncompliance with the federal prison enhancement certification program established under 18 U.S.C. Section 1761.

(b) The private sector prison industry crime victims assistance account is created as an account in the general revenue fund. Money in the account may be appropriated only to the board for the purpose of aiding victims of crime, under rules adopted by the board.

Sec. 497.059. LIMITING IMPACT OF CERTIFICATION ON NON-PRISON INDUSTRY. (a) The board may not grant initial certification to a
private sector prison industries program if the board determines that the operation of the program would result in the loss of existing jobs provided by any employer in this state.

(b) The board shall adopt rules to determine whether a program would cause the loss of existing jobs of a specific type provided by an employer in this state.

(c) For the purposes of this section, a program does not result in the loss of existing jobs if, at the time of initial certification, the jobs are performed by workers in a foreign country.

(a) A governmental entity may not enter into a contract or renew a contract with an employer for a private sector prison industries program under this subchapter if the board determines that the contract has negatively affected or would negatively affect any employer in this state, including through the loss of existing jobs provided by the employer to employees in this state who are not incarcerated or imprisoned.

(b) The board shall adopt rules that establish a procedure to be used in making the determination described by Subsection (a). The procedure must allow an aggrieved employer in this state to submit a sworn statement to the board alleging that the employer has been or would be negatively affected by the contract to be entered into or renewed.

(c) For the purposes of this section, a contract does not negatively affect an employer if the only negative effect alleged in a sworn statement by the employer is the loss of existing jobs that, at the time the sworn statement is submitted to the board, are performed by workers in a foreign country.

The department shall also establish a permanent record for each inmate, defendant, or releasee. The record must describe the types of job training provided to the inmate, defendant, or releasee by the department. On release from imprisonment or supervision, the department shall provide the inmate, defendant, or releasee with a copy of the record. The department shall collect information relating to the employment histories of inmates released from the institutional division on parole and mandatory supervision.

(b) The department and the Texas Workforce Investment Council by rule shall adopt a memorandum of understanding that establishes the respective responsibility of those entities to provide through local workforce development boards job training and employment assistance to persons formerly sentenced to the institutional...

(b) The board may develop by rule and the department may administer an incentive pay scale program for inmates required to work in agricultural, industrial, or other work programs. In developing the program, the board shall set pay levels not to unjustly reward inmates, but rather to instruct inmates on the virtues of diligent participation in the workplace. The department shall deposit an amount earned by an inmate under this subsection into the inmate’s trust fund and may deduct not more than 80 percent of the amount deposited under this subsection for payment of restitution and dependent care owed by the inmate. (c) The institutional division shall provide the board with a copy of the annual review required by this section.

Added by Acts 1989, 71st Leg., ch. 212, Sec. 2.01, eff. Sept. 1, 1989. Renumbered from Sec. 496.112 and amended by Acts 1991, 72nd Leg., ch. 16, Sec. 10.01(a), eff. Aug. 26, 1991.

CHAPTER 498. INMATE CLASSIFICATION AND GOOD TIME

Sec. 498.001. DEFINITIONS. In this chapter:

(1) "Inmate" means a person imprisoned by order of a court, whether the person is actually imprisoned in a facility operated by or under contract with the institutional division or is under the supervision or custody of the pardons and paroles division.

(2) "Term" means:

(A) the term of confinement in the institutional division stated in the sentence of the convicting court, if the inmate is serving a sentence for a single offense;

(B) the term of confinement established by Section 508.150, if the inmate is serving two or more sentences consecutively; or

(C) the longest term of confinement in the institutional division stated in the sentence of the convicting court, if the inmate is serving two or more concurrent sentences.

Sec. 498.002. CLASSIFICATION AND RECLASSIFICATION. The department shall classify each inmate as soon as practicable on the
inmate's arrival at the institutional division and, subject to the requirements of Section 498.005, shall reclassify the inmate as circumstances warrant. Each inmate must be classified according to the inmate's conduct, obedience, and industry. The department shall maintain a record on each inmate showing each classification and reclassification of the inmate with the date and reason for each classification or reclassification. The department may classify each inmate on the inmate's arrival at the institutional division in a time-earning category that does not allow the inmate to earn more than 30 days' good conduct time for each 30 days actually served.

Amended by:
Acts 2021, 87th Leg., R.S., Ch. 126 (H.B. 719), Sec. 2, eff. September 1, 2021.

Sec. 498.003. ACCRUAL OF GOOD CONDUCT TIME. (a) Good conduct time applies only to eligibility for parole or mandatory supervision as provided by Section 508.145 or 508.147 and does not otherwise affect an inmate's term. Good conduct time is a privilege and not a right. Regardless of the classification of an inmate, the department may grant good conduct time to the inmate only if the department finds that the inmate is actively engaged in an agricultural, vocational, or educational endeavor, in an industrial program or other work program, or in a treatment program, unless the department finds that the inmate is not capable of participating in such a program or endeavor.

(b) An inmate accrues good conduct time according to the inmate's classification in amounts as follows:

(1) 20 days for each 30 days actually served while the inmate is classified as a trusty, except that the department may award the inmate not more than 10 extra days for each 30 days actually served;

(2) 20 days for each 30 days actually served while the
inmate is classified as a Class I inmate; and

(3) 10 days for each 30 days actually served while the
inmate is classified as a Class II inmate.

(c) An inmate may not accrue good conduct time during any
period the inmate is classified as a Class III inmate or is on parole
or under mandatory supervision.

(d) An inmate may accrue good conduct time, in an amount
determined by the department that does not exceed 15 days for each 30
days actually served, for diligent participation in an industrial
program or other work program or for participation in an
agricultural, educational, or vocational program provided to inmates
by the department. For the purposes of this subsection, the term
"participation in an educational program" includes the participation
of the inmate as a tutor or a pupil in a literacy program authorized
by Section 501.005. The department may not award good conduct time
under this subsection for participation in a literacy program unless
the department determines that the inmate participated in good faith
and with diligence as a tutor or pupil.

(e) If a person is confined in a county jail, the department
shall award good conduct time to the person up to an amount equal to
the amount earned by an inmate in the entry level time earning class.
The department shall award good conduct time to a defendant for
diligent participation in a voluntary work program operated by a
sheriff under Article 43.101, Code of Criminal Procedure, in the same
manner as if the inmate had diligently participated in an industrial
program or other work program provided to inmates by the department.
The sheriff of each county shall have attached a certification of the
number of days each inmate diligently participated in the volunteer
work program operated by the sheriff under Article 43.101, Code of
Criminal Procedure.

Text of subsection as amended by Acts 1995, 74th Leg., ch. 321, Sec. 1.049

(b) On the revocation of parole or mandatory supervision of an inmate, the inmate forfeits all good conduct time previously accrued. On return to the institutional division the inmate may accrue new good conduct time for subsequent time served in the division. The department may restore good conduct time forfeited on a revocation that does not involve a new criminal conviction after the inmate has served at least three months of good behavior in the institutional division, subject to policies established by the division.

(c) The department shall establish a policy regarding the suspension of good conduct time under Subsection (a). The policy must provide that:

(1) the department will consider the severity of an inmate's offense or violation in determining whether to suspend all or part of the inmate's good conduct time instead of forfeiting the inmate's good conduct time;
(2) during any period of suspension, good conduct time placed in suspension may not be used:
   (A) for purposes of granting privileges to an inmate; or
   (B) to compute an inmate's eligibility for parole under Section 508.145 or to determine an inmate's date of release to mandatory supervision under Section 508.147;
(3) at the conclusion of any period of suspension, the department may forfeit or reinstate the good conduct time placed in suspension based on the inmate's conduct during the period of the suspension; and
(4) in determining whether to forfeit or reinstate good conduct time placed in suspension, the department must consider whether any impact to public safety is likely to result from the inmate's release on parole or to mandatory supervision if the good conduct time is reinstated.

   (1) the victim was younger than 17 years of age at the time of the commission of the offense; and

CHAPTER 499. POPULATION MANAGEMENT; SPECIAL PROGRAMS
SUBCHAPTER A. PRE-PAROLE TRANSFER

Sec. 499.001. DEFINITIONS. In this subchapter:

(1) "Community residential facility" means a facility under
contract with the department under Section 508.119 or another
facility or residence approved by the department.

(2) "Eligible inmate" means an inmate in the actual
physical custody of the institutional division for whom a presumptive
parole date has been established by a parole panel.

(3) "Pre-parolee" means an eligible inmate of whom the
pardons and paroles division has assumed custody.
(4) "Presumptive parole date" means a date specified by a parole panel under Section 508.151 on which an inmate's parole release is to become effective.

Sec. 499.002. TRANSFER TO COMMUNITY RESIDENTIAL FACILITY. (a) The pardons and paroles division may assume custody of an eligible inmate not more than one year before the inmate's presumptive parole date or mandatory supervision release date. The eligible inmate becomes a pre-parolee on the date the pardons and paroles division assumes custody, and the pardons and paroles division immediately shall transfer the pre-parolee to a community residential facility. Except as otherwise provided by this subchapter, the pre-parolee may serve the remainder of the pre-parolee's sentence before release on parole in the facility designated by the pardons and paroles division.

(b) At the time of the transfer of the pre-parolee, the pardons and parole division shall designate a community residential facility as the pre-parolee's assigned unit of confinement.

(c) If a pre-parolee is transferred from pre-parole status to parole status the pre-parolee shall receive any balance of the money to which the pre-parolee is entitled under Section 501.015.

Sec. 499.0021. TRANSFER OF REVOKED DEFENDANTS. (a) An inmate is eligible for transfer under this section if the inmate is confined in the institutional division or a county jail following revocation of community supervision on grounds other than the commission of a subsequent felony offense.

(b) The pardons and paroles division may assume custody of an
inmate who is eligible for transfer under this section not earlier than one year before the inmate's presumptive parole date. The inmate becomes a pre-parolee on the date the pardons and paroles division assumes custody, and the pardons and paroles division immediately shall transfer the pre-parolee to a facility under contract with the department, which may be a community residential facility, a community corrections facility listed in Section 509.001, or a county correctional facility. A pre-parolee transferred under this section is considered to be in the actual physical custody of the pardons and paroles division.

(c) A pre-parolee transferred by the pardons and paroles division to a facility under this section is subject to the provisions of Sections 499.002(c), 499.004, and 499.005 in the same manner as if the person were a pre-parolee who had been transferred to a community residential facility under Section 499.002.

Sec. 499.003. TRANSFER FROM JAIL OR OTHER CORRECTIONAL FACILITY. (a) A person is eligible for transfer under this section from a jail or correctional institution to a secure community residential facility if:

(1) the person has been sentenced to a term of confinement in the institutional division;

(2) the person has not been delivered to the custody of the institutional division, but rather is confined in a jail in this state, a federal correctional institution, or a jail or correctional institution in another state; and

(3) a presumptive parole date or mandatory supervision release date for the person has been established.

(b) The pardons and paroles division may authorize the transfer of an eligible person from a jail in this state, a federal correctional institution, or a jail or correctional institution in another state to a secure community residential facility designated by the pardons and paroles division not more than one year before the
person's presumptive parole date or mandatory supervision release date. A person transferred under this section is considered to be in the actual physical custody of the pardons and paroles division.

(c) A person transferred by the pardons and paroles division to a secure community residential facility is subject to the provisions of Sections 499.002(c), 499.004, and 499.005 in the same manner as if the person is a pre-parolee who had been transferred to a community residential facility under Section 499.002.

(d) The pardons and paroles division may request of a sheriff that the sheriff forward to the pardons and paroles division copies of any records possessed by the sheriff that are relevant to the pardons and paroles division in its determination as to whether to transfer a person from the county jail to a secure community residential facility, and the pardons and paroles division shall request the sheriff to forward to the institutional division and to the pardons and paroles division the information relating to the defendant the sheriff would be required under Section 8, Article 42.09, Code of Criminal Procedure, to deliver to the department had the defendant been transferred to the institutional division. The pardons and paroles division shall determine whether the information forwarded by the sheriff contains a thumbprint taken from the person in the manner provided by Article 38.33, Code of Criminal Procedure, and, if not, the pardons and paroles division shall obtain a thumbprint in the manner provided by that article, and shall forward the thumbprint to the institutional division for inclusion with the information sent by the sheriff. The sheriff shall comply with a request from the pardons and paroles division made under this subsection.

Added by Acts 1991, 72nd Leg., ch. 16, Sec. 10.01(a). Amended by Acts 1993, 73rd Leg., ch. 988, Sec. 4.02, eff. Sept. 1, 1993; Acts 1995, 74th Leg., ch. 321, Sec. 1.054, eff. Sept. 1, 1995.

Sec. 499.004. RULES; SUPERVISION OF PRE-PAROLEES. (a) The department shall establish policies for the conduct of pre-parolees transferred under this subchapter.

(b) On transfer, the pre-parolee is subject to supervision by the pardons and paroles division and shall obey the orders of the Board of Pardons and Paroles and the pardons and paroles division.
(c) A facility director or designee of a facility director shall immediately report to the pardons and paroles division in writing if the director or designee believes that a pre-parolee has violated the terms of the pre-parolee's transfer agreement or the rules of the facility. The pardons and paroles division may require an agent of the pardons and paroles division or the community residential facility to conduct a hearing.

(d) If the pardons and paroles division has an administrative need to deliver the pre-parolee to the custody of the institutional division or if after a disciplinary hearing the pardons and paroles division concurs that a violation has occurred, the pardons and paroles division may deliver the pre-parolee to the actual custody of the institutional division and the institutional division may assign the pre-parolee to a regular unit of the institutional division. If the pardons and paroles division recommends rescission or revision of the pre-parolee's presumptive parole date, a parole panel shall rescind or revise the date unless it determines the action is inappropriate.

(e) Before a pre-parolee is transferred to a community residential facility under this section and before the pre-parolee is released on parole, the department may award good conduct time to the pre-parolee in the same amounts and in the same manner as the department awards good conduct time to inmates in the institutional division under Chapter 498.

Sec. 499.005. TRANSFER TO PAROLE STATUS. (a) If a pre-parolee transferred under this subchapter satisfactorily serves a term in a community residential facility until the pre-parolee's presumptive parole date, the Board of Pardons and Paroles may transfer the pre-parolee from pre-parolee status to parole status and the Board of Pardons and Paroles may issue the pre-parolee an appropriate certificate of release to conditional freedom under Chapter 508.

(b) A pre-parolee transferred from pre-parolee status to parole status is subject to provisions concerning inmates released on parole
provided under Chapter 508.

Sec. 499.007. LEGISLATIVE INTENT. It is the intent of the legislature that this subchapter not create an expectation of release on the part of any individual.

Added by Acts 1991, 72nd Leg., ch. 16, Sec. 10.01(a).

SUBCHAPTER B. POPULATION MANAGEMENT

Sec. 499.021. DEFINITIONS. In this subchapter:

(1) "Capacity" means the greatest density of inmates in relation to space available for inmate housing in the institutional division that is in compliance with standards for prison population established by the board.

(2) "Intensive supervision parole" means a parole supervision program established by the department under Section 508.317.

(3) "Objective parole criteria" means criminal and social history variables that have been shown statistically to be reliable indicators of the probability of favorable outcome on release.

Sec. 499.022. PURPOSE. (a) The purpose of this subchapter is to:

(1) allow the institutional division the flexibility to house inmates in appropriate settings and determine the proper amount of available housing; and

(2) provide the executive branch with alternatives to appropriately balance population, consistent with the intent of this
subchapter, if the population of the division reaches 95 percent of capacity or if a backlog of convicted felons exists in the county jails in this state, as determined by this subchapter.

(b) The flexibility provided by this subchapter shall be exercised in a manner consistent with sound correctional practices, applicable federal law, and state law and policy.

(c) This subchapter does not:

(1) create a right on the part of an inmate confined in the institutional division to serve the inmate's sentence in a department with a population below 95 percent of capacity, as determined by this subchapter;

(2) grant to an inmate the right to be released or to be considered for release if the inmate population of the division reaches 95 percent of capacity as determined under this subchapter;

(3) require a population level below 95 percent of capacity as determined by this subchapter; or

(4) require the board or the Board of Pardons and Paroles to take an action under this subchapter because a backlog of convicted felons exists in the county jails in this state.

Sec. 499.023. INAPPLICABILITY. This subchapter does not apply to emergency overcrowding if the situation is the direct result of the destruction of institutional division facilities by a natural or man-made disaster.

Added by Acts 1989, 71st Leg., ch. 212, Sec. 2.01, eff. Sept. 1, 1989. Renumbered from Sec. 499.023 and amended by Acts 1991, 72nd Leg., ch. 16, Sec. 10.01(a), eff. Aug. 26, 1991.

Sec. 499.024. CALCULATION OF AVAILABLE SPACE. Temporary housing may not be considered for the purpose of computation of space available for inmate housing.

Added by Acts 1989, 71st Leg., ch. 212, Sec. 2.01, eff. Sept. 1,
Sec. 499.025. AWARD OF ADMINISTRATIVE GOOD CONDUCT TIME; ADVANCEMENT OF PAROLE ELIGIBILITY DATE. (a) If the inmate population of the institutional division reaches 99 percent or more of capacity, the director shall immediately notify the executive director and the board in writing of that fact. Until the inmate population is reduced to less than 99 percent of capacity, the director shall make a weekly written report to the executive director and the board stating the extent to which the inmate population is less than, equal to, or in excess of capacity.

(b) If the inmate population of the institutional division reaches 100 percent of capacity or, if the attorney general has authorized an increase in the permissible percentage of capacity under Section 499.109, the inmate population reaches that increased permissible percentage, the director shall immediately notify the executive director, the board, and the attorney general in writing of that fact. The attorney general shall certify to the board in writing as to whether the institutional division has reached 100 percent of capacity or, if applicable, the increased permissible percentage. If the attorney general certifies that 100 percent of capacity has been reached or, if applicable, that the increased permissible percentage has been reached, the board shall immediately certify that an emergency overcrowding situation exists and direct the Board of Pardons and Paroles to proceed in the manner described by Subsection (c). If the Commission on Jail Standards determines that in any county jail in this state there exists an inmate awaiting transfer to the institutional division following conviction of a felony or revocation of probation, parole, or release on mandatory supervision and for whom all paperwork and processing required for transfer have been completed for not less than 45 days, the board may direct the Board of Pardons and Paroles to proceed in the manner described by Subsection (c).

(c) If the Board of Pardons and Paroles receives a directive from the board under Subsection (b), the Board of Pardons and Paroles acting in parole panels, shall immediately begin to review and consider for early release to intensive supervision parole each eligible inmate who would not at the time of review otherwise be
eligible for parole. The board may impose additional criteria for determining which inmates are eligible for release under this subsection. A parole panel may not release an inmate under this subsection if the panel determines that the release of the inmate will increase the likelihood of harm to the public, according to objective parole criteria.

Sec. 499.026. RELEASE PROCEDURE. (a) If a parole panel releases an inmate under this subchapter, the panel shall impose conditions and limitations as appropriate on the parolee and to the extent practicable shall maximize placements in residential treatment centers. The parole panel shall otherwise place a parolee released under this subchapter under intensive supervision parole, whether or not the parolee is of a type who would ordinarily be required to submit to intensive supervision parole.

(b) The authority of the board to take the actions listed in Section 499.025(b) continues until the attorney general, or if appropriate, the Commission on Jail Standards, certifies in writing to the board that the overcrowding crisis that produced the emergency certification under Section 499.025(b) has been resolved. If the board receives this certification from the attorney general or the Commission on Jail Standards under this subsection, the board shall immediately notify the pardons and paroles division that the emergency overcrowding situation no longer exists.

(c) An inmate released to parole under this subchapter is subject to terms and conditions imposed on parolees released under Chapter 508.

(d) Not later than the 10th day before the date on which a parole panel proposes to release an inmate under this subchapter, the department shall give notice of the proposed release to the sheriff, the attorney representing the state, and the district judge of the
county in which the defendant was convicted. If there was a change of venue in the case, the department shall also notify the sheriff, the attorney representing the state, and the district judge of the county in which the prosecution was originated. Any notice required by this subsection must be provided by e-mail or other electronic communication.

Sec. 499.027. ELIGIBLE INMATES. (a) Except as provided by Subsection (b) and subject to the conditions imposed by this subchapter, an inmate is eligible under this subchapter to be considered for release to intensive supervision parole if the inmate is awaiting transfer to the institutional division following conviction of a felony or probation revocation and for whom paperwork and processing required for transfer have been completed or is classified as a state approved Trusty I, II, III, or IV, and:

(1) is serving a sentence of 10 years or less;
(2) does not have a history of or has not shown a pattern of violent or assaultive behavior in the institutional division or county jail or prior to confinement; and
(3) will not increase the likelihood of harm to the public if released, according to objective parole criteria as determined by a parole panel.

(b) An inmate is not eligible under this subchapter to be considered for release to intensive supervision parole if:

(1) the inmate is awaiting transfer to the institutional division, or serving a sentence, for an offense for which the judgment contains an affirmative finding under Article 42A.054(c) or (d), Code of Criminal Procedure;
(2) the inmate is awaiting transfer to the institutional
division, or serving a sentence, for an offense listed in one of the following sections of the Penal Code:

The notice must state the date on which the inmate was released and state that the inmate has been determined by the
department to be a member of a security threat group. The notice must be provided by e-mail or other electronic communication.

The Legislative Budget Board shall provide the staff with the estimates, and the staff shall attach a copy of the estimates to the recommendations.

(c) The staff of the institutional division may not take more than 90 days from the date the process is initiated to make recommendations on an increase in the maximum capacity for a unit under this section.

Sec. 499.103. NOTICE TO INMATES. (a) The director of the institutional division shall prominently display in areas accessible to inmates housed in a unit for which the staff has recommended an increase in capacity copies of the recommendation and findings accompanying the recommendation.

(b) The board shall establish a process by which inmates may comment on the recommendations and ensure that a written summary of inmate comments is available to each individual or entity that makes a determination under this subchapter.

Sec. 499.104. OFFICERS' REVIEW AND RECOMMENDATION. The
executive director of the department, the director of the institutional division, the deputy director for operations, the deputy director for finance, the deputy director for health services, and the assistant director for classification and treatment shall independently review staff recommendations for an increase in the maximum capacity of a unit and the written findings accompanying the recommendation. Not later than the 30th day after the date of accepting the comments of the other officers, if the executive director agrees that the new maximum capacity for the unit is supported by the findings, the executive director shall forward the recommendation and findings to the board.

Sec. 499.105. BOARD REVIEW AND RECOMMENDATION. The board shall review the recommendation and findings forwarded to the board under Section 499.104. Not later than the 60th day after the date the board receives the recommendation and findings, the board shall reject the recommendation or accept or modify the recommendation and forward the modified recommendation and findings to the governor. The board may not modify the recommendation by increasing the maximum capacity specified in the recommendation.

Sec. 499.106. GOVERNOR'S REVIEW AND RECOMMENDATION. The governor shall review the recommendation and findings forwarded to the governor under Section 499.105. The governor shall determine whether population pressures otherwise making an increase in maximum capacity necessary may instead be ameliorated by other measures, including the use of community corrections programs. Sec. 499.107. ATTORNEY GENERAL REVIEW; BOARD DECISION. In conducting the review under this section, the attorney general may request additional information from the institutional division and conduct on-site inspections of the institutional division. Not later than the 30th day after the date the attorney general receives the recommendation and findings, the attorney general shall approve or disapprove the recommendations and findings. If the attorney general approves the recommendations and findings, the attorney general shall notify the board of the approval, and on receiving the approval the board may establish a new maximum capacity for the unit. The attorney general may make the approval conditional and subject to further monitoring by the attorney general. The maximum capacity of a unit may not be increased if the attorney general determines that the increase would violate state or federal law.

(b) The institutional division may request that the board increase or decrease the new maximum capacity of a unit, but the board may not increase the new maximum capacity without following all procedures required by Sections 499.102-499.106 and by Subsection (a), and except as provided by Subsection (c) may not decrease the new maximum capacity without following the procedures required by Sections 499.103-499.106.

(c) The board may decrease a new maximum capacity without following the procedures listed in Subsection (b) only for the purposes of allowing single-celling flexibility or to repair minor structural deficiencies, provided that the decrease does not continue in effect for longer than 60 days.

Sec. 499.108. CAPACITY FOR NEW UNITS. (a) Before construction begins on a unit of the institutional division for which construction was not approved before January 1, 1991, the board shall establish a maximum capacity for the unit.

(b) Maximum capacity for a unit must be established under this
section in the same manner as maximum capacity for a unit is increased under Sections 499.102, 499.104, 499.105, 499.106, and 499.107, except that time limits on official actions imposed by those sections do not apply.

(c) This section does not apply to a 2,250-bed (Michael-type) unit or a 1,012-bed (Daniel-type) unit, approved on or after January 1, 1991, unless the design for the unit is significantly altered or space in the unit is reduced.

(b) The attorney general may authorize the institutional division to increase the inmate population of the division above 100 percent, but only if:

(1) the staff determines through written findings that the population may be increased without limiting the ability of the division to transfer inmates between units as necessary for classification, medical, and security purposes; and

(2) the administration of the department, the board, and the governor approve of the increase, in the same manner as increases in capacity of individual units are approved under Sections 499.104, 499.105, and 499.106.

(c) If the attorney general authorizes the institutional division to increase the inmate population of the division above 100 percent, the institutional division shall distribute the additional admissions permitted by the increase among counties or groups of counties in the same manner as regular admissions are distributed under the allocation formula.

Sec. 501.007. INMATE CLAIMS FOR LOST OR DAMAGED PROPERTY. The department may pay from the miscellaneous funds appropriated to the division claims made by inmates housed in facilities operated by the department for property lost or damaged by the division. The department shall maintain a record of all transactions made under this section. The record must show the amount of each claim paid, the identity of each claimant, and the purpose for which each claim was made. Section 1997e and the department shall obtain and maintain certification under that section. A remedy provided by the grievance
system is the exclusive administrative remedy available to an inmate for a claim for relief against the department that arises while the inmate is housed in a facility operated by the department or under contract with the department, other than a remedy provided by writ of habeas corpus challenging the validity of an action occurring before the delivery of the inmate to the department or to a facility operated under contract with the department.

(b) The grievance system must provide procedures:

(1) for an inmate to identify evidence to substantiate the inmate's claim; and

(2) for an inmate to receive all formal written responses to the inmate's grievance.

(c) A report, investigation, or supporting document prepared by the department in response to an inmate grievance is considered to have been prepared in anticipation of litigation and is confidential, privileged, and not subject to discovery by the inmate in a claim arising out of the same operative facts as are alleged in the grievance.

(d) An inmate may not file a claim in state court regarding operative facts for which the grievance system provides the exclusive administrative remedy until:

(1) the inmate receives a written decision issued by the highest authority provided for in the grievance system; or

(2) if the inmate has not received a written decision described by Subdivision (1), the 180th day after the date the grievance is filed.

(e) The limitations period applicable to a claim arising out of the same operative facts as a claim for which the grievance system provides the exclusive remedy:

(2) remains suspended until the earlier of the following dates:

(A) the 180th day after the date the grievance is filed; or

Sec. 501.0081. DISPUTE RESOLUTION: TIME-SERVED CREDITS. (a) The department shall develop a system that allows resolution of a complaint by an inmate who alleges that time credited on the inmate's sentence is in error and does not accurately reflect the amount of time-served credit to which the inmate is entitled.

(b) Except as provided by Subsection (c), an inmate may not in an application for a writ of habeas corpus under Article 11.07, Code of Criminal Procedure, raise as a claim a time-served credit error until:

(1) the inmate receives a written decision issued by the highest authority provided for in the resolution system; or

(2) if the inmate has not received a written decision described by Subdivision (1), the 180th day after the date on which under the resolution system the inmate first alleges the time-served credit error.

(c) Subsection (b) does not apply to an inmate who, according to the department's computations, is within 180 days of the inmate's presumptive parole date, date of release on mandatory supervision, or date of discharge. An inmate described by this subsection may raise a claim of time-served credit error by filing a complaint under the system described by Subsection (a) or, if an application for a writ of habeas corpus is not otherwise barred, by raising the claim in that application.

that makes appropriate use of facilities and personnel of the
community supervision and corrections departments. In developing the
programs, the state jail division and the community justice

are operated on a 90-day cycle, although the divisions should deviate
from a 90-day schedule as necessary to meet the requirements of a

The department shall make reasonable efforts to provide an inmate the opportunity to complete any classes or programs included in the inmate's individual treatment plan, other than classes or programs that are to be completed immediately before the inmate's release on parole, in a timely manner so that the inmate's release on parole is not delayed due to any uncompleted classes or programs.

(c) The board shall conduct an initial review of an eligible inmate not later than the 180th day after the date of the inmate's admission to the institutional division. The board shall identify any classes or programs that the board intends to require the inmate to complete before releasing the inmate on parole. SUBCHAPTER F. MANDATORY CONDITIONS OF PAROLE OR MANDATORY SUPERVISION

Sec. 508.181. RESIDENCE DURING RELEASE. (a) Except as provided by Subsections (b) and (c), a parole panel shall require as a condition of parole or mandatory supervision that the releasee reside in the county in which:

(1) the releasee resided at the time of committing the offense for which the releasee was sentenced to the institutional division; or

(2) the releasee committed the offense for which the releasee was sentenced to the institutional division, if the releasee was not a resident of this state at the time of committing the offense.

(b) A parole panel may require a releasee to reside in a county
other than the county required under Subsection (a) to:

(1) protect the life or safety of:
   (A) a victim of the releasee's offense;
   (B) the releasee;
   (C) a witness in the case; or
   (D) any other person; or

(2) increase the likelihood of the releasee's successful completion of parole or mandatory supervision, because of:
   (A) written expressions of significant public concern in the county in which the releasee would otherwise be required to reside;
   (B) the presence of family members or friends in the other county who have expressed a willingness to assist the releasee in successfully completing the conditions of the releasee's parole or mandatory supervision;
   (C) the verified existence of a job offer in the other county; or
   (D) the availability of a treatment program, educational program, or other social service program in the other county that is not available in the county in which the releasee is otherwise required to reside under Subsection (a).

(c) At any time after a releasee is released on parole or to mandatory supervision, a parole panel may modify the conditions of parole or mandatory supervision to require the releasee to reside in a county other than the county required by the original conditions. In making a decision under this subsection, a parole panel must consider the factors listed under Subsection (b).

(d) If a parole panel initially requires the releasee to reside in a county other than the county required under Subsection (a), the parole panel shall subsequently require the releasee to reside in the county described under Subsection (a) if the requirement that the releasee reside in the other county was based on:

(1) the verified existence of a job offer under Subsection (b)(2)(C) and the releasee is no longer employed or actively seeking employment; or

(2) the availability of a treatment program, educational program, or other social service program under Subsection (b)(2)(D) and the releasee:
   (A) no longer regularly participates in the program as required by a condition of parole or mandatory supervision; or
has successfully completed the program but has violated another condition of the releasee's parole or mandatory supervision.

(e) If a parole panel requires the releasee to reside in a county other than the county required under Subsection (a), the panel shall:

(1) state in writing the reason for the panel's decision; and

(2) place the statement in the releasee's permanent record.

(f) This section does not apply to a decision by a parole panel to require a releasee to serve the period of parole or mandatory supervision in another state.

(g) The division shall, on the first working day of each month, notify the sheriff of any county in which the total number of sex offenders under the supervision and control of the division residing in the county exceeds 10 percent of the total number of sex offenders in the state under the supervision and control of the division. The notice must be provided by e-mail or other electronic communication. If the total number of sex offenders under the supervision and control of the division residing in a county exceeds 22 percent of the total number of sex offenders in the state under the supervision and control of the division, a parole panel may require a sex offender to reside in that county only as required by Subsection (a) or for the reason stated in Subsection (b)(2)(B). In this subsection, "sex offender" means a person who is released on parole or to mandatory supervision after serving a sentence for an offense described by Section 508.187(a).

(c) Except as provided by Subsection (d), pending a hearing on a charge of parole violation, ineligible release, or violation of a condition of mandatory supervision, a person returned to custody shall remain confined.

SUBCHAPTER I. HEARINGS AND SANCTIONS

Sec. 508.281. HEARING. (a) A releasee, a person released although ineligible for release, or a person granted a conditional pardon is entitled to a hearing before a parole panel or a designated agent of the board under the rules adopted by the board and within a period that permits a parole panel, a designee of the board, or the
department to dispose of the charges within the periods established by Sections 508.282(a) and (b) if the releasee or person:

(1) is accused of a violation of the releasee's parole or mandatory supervision or the person's conditional pardon, on information and complaint by a peace officer or parole officer; or

(2) is arrested after an ineligible release.

(b) If a parole panel or designated agent of the board determines that a releasee or person granted a conditional pardon has been convicted of a felony offense committed while an administrative releasee and has been sentenced to a term of confinement in a penal institution, the determination is considered to be a sufficient hearing to revoke the parole or mandatory supervision or recommend to the governor revocation of a conditional pardon without further hearing, except that the parole panel or designated agent shall conduct a hearing to consider mitigating circumstances if requested by the releasee or person granted a conditional pardon.

Text of subsection as amended by Acts 2015, 84th Leg., R.S., Ch. 472 (S.B. 790), Sec. 2

(c) If a designated agent of the board determines that a releasee who appears in compliance with a summons has violated a condition of release, the agent shall notify the board. After the board or a parole panel makes a final determination regarding the violation, the division may issue a warrant requiring the releasee to be held in a county jail pending the return of the releasee to the institution from which the releasee was released.

Text of subsection as amended by Acts 2015, 84th Leg., R.S., Ch. 693 (H.B. 710), Sec. 2

(c) If a hearing before a designated agent of the board is held under this section for a releasee who appears in compliance with a summons, the sheriff of the county in which the releasee is required to appear shall provide the designated agent with a place at the county jail to hold the hearing. After the board or a parole panel makes a final determination that a releasee has violated a condition of release, a warrant may be issued requiring the releasee to be held in the county jail pending:

(1) transfer to an intermediate sanction facility; or

(2) the return of the releasee to the institution from which the releasee was released.

(d) If a parole panel or designated agent of the board
determines that a releasee has violated a condition of release required under Section 508.192 and confirms the violation with a peace officer or other law enforcement officer of this state who is authorized under federal law to verify a person's immigration status or, in accordance with 8 U.S.C. Section 1373(c), with a federal law enforcement officer, the determination is considered to be a sufficient hearing to revoke the parole or mandatory supervision without further hearing or determination, except that the parole panel or designated agent shall conduct a hearing to consider mitigating circumstances, if requested by the releasee.

(e) A parole panel or designated agent of the board may not revoke the parole or mandatory supervision of a releasee if the parole panel or designated agent finds that the only evidence supporting the alleged violation of a condition of release is the uncorroborated results of a polygraph examination.

(f) Any hearing required to be conducted by a parole panel under this chapter may be conducted by a designated agent of the board. The designated agent may make recommendations to a parole panel that has responsibility for making a final determination.

Sec. 508.2811. PRELIMINARY HEARING. A parole panel or a designee of the board shall provide within a reasonable time to an inmate or person described by Section 508.281(a) a preliminary hearing to determine whether probable cause or reasonable grounds exist to believe that the inmate or person has committed an act that would constitute a violation of a condition of release, unless the inmate or person:

(1) waives the preliminary hearing; or
(2) after release:
   (A) has been charged only with an administrative violation of a condition of release; or
   (B) has been adjudicated guilty of or has pleaded guilty or nolo contendere to an offense committed after release, other than an offense punishable by fine only involving the operation of a motor vehicle, regardless of whether the court has deferred disposition of the case, imposed a sentence in the case, or placed the inmate or person on community supervision.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see S.B. 374, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 508.282. DEADLINES. (a) Except as provided by Subsection (b), a parole panel, a designee of the board, or the department shall dispose of the charges against an inmate or person described by Section 508.281(a):

(1) before the 41st day after the date on which:
   (A) a warrant issued as provided by Section 508.251 is executed, if the inmate or person is arrested only on a charge that the inmate or person has committed an administrative violation of a condition of release, and the inmate or person is not charged before the 41st day with the commission of an offense described by Section 508.2811(2)(B); or
   (B) the sheriff having custody of an inmate or person alleged to have committed an offense after release notifies the department that:
(i) the inmate or person has discharged the sentence for the offense; or

(ii) the prosecution of the alleged offense has been dismissed by the attorney representing the state in the manner provided by Article 32.02, Code of Criminal Procedure; or

(2) within a reasonable time after the date on which the inmate or person is returned to the custody of the department, if:

(A) immediately before the return the inmate or person was in custody in another state or in a federal correctional system; or

(B) the inmate or person is transferred to the custody of the department under Section 508.284.

(b) A parole panel, a designee of the board, or the department is not required to dispose of the charges against an inmate or person within the period required by Subsection (a) if:

(1) the inmate or person is in custody in another state or a federal correctional institution;

(2) the parole panel or a designee of the board is not provided a place by the sheriff to hold the hearing, in which event the department, parole panel, or designee is not required to dispose of the charges against the inmate or person until the 30th day after the date on which the sheriff provides a place to hold the hearing; or

(3) the inmate or person is granted a continuance by a parole panel or a designee of the board in the inmate's or person's hearing under Section 508.281(a), but in no event may a parole panel, a designee of the board, or the department dispose of the charges against the person later than the 15th day after the date on which the parole panel, designee, or department would otherwise be required to dispose of the charges under this section, unless the inmate or person is released from custody and a summons is issued under Section 508.251 requiring the inmate or person to appear for a hearing under Section 508.281.

(c) In Subsections (a), (b), and (f), charges against an inmate or person are disposed of when:

(1) the inmate's or person's conditional pardon, parole, or release to mandatory supervision is:

(A) revoked; or

(B) continued or modified and the inmate or person is released from the county jail;
(2) the warrant for the inmate or person issued under Section 508.251 is withdrawn; or

(3) the inmate or person is transferred to a facility described by Section 508.284 for further proceedings.

(d) A sheriff, not later than the 10th day before the date on which the sheriff intends to release from custody an inmate or person described by Section 508.281(a) or transfer the inmate or person to the custody of an entity other than the department, shall notify the department of the intended release or transfer.

(e) If a warrant for an inmate or person issued under Section 508.251 is withdrawn, a summons may be issued requiring the inmate or person to appear for a hearing under Section 508.281.

(f) A parole panel, a designee of the board, or the department shall dispose of the charges against a releasee for whom a warrant is issued under Section 508.281(c) not later than the 31st day after the date on which the warrant is issued.

Sec. 508.283. SANCTIONS. (a) After a parole panel or designated agent of the board has held a hearing under Section 508.281, in any manner warranted by the evidence:

(1) the board may recommend to the governor to continue, revoke, or modify the conditional pardon; and

(2) a parole panel may continue, revoke, or modify the parole or mandatory supervision.

(b) If the parole, mandatory supervision, or conditional pardon of a person described by Section 508.149(a) is revoked, the person may be required to serve the remaining portion of the sentence on which the person was released. The remaining portion is computed without credit for the time from the date of the person's release to the date of revocation.

(c) If the parole, mandatory supervision, or conditional pardon of a person other than a person described by Section 508.149(a) is revoked, the person may be required to serve the remaining portion of the sentence on which the person was released. For a person who on
the date of issuance of a warrant or summons initiating the revocation process is subject to a sentence the remaining portion of which is greater than the amount of time from the date of the person's release to the date of issuance of the warrant or summons, the remaining portion is to be served without credit for the time from the date of the person's release to the date of revocation. For a person who on the date of issuance of the warrant or summons is subject to a sentence the remaining portion of which is less than the amount of time from the date of the person's release to the date of issuance of the warrant or summons, the remaining portion is to be served without credit for an amount of time equal to the remaining portion of the sentence on the date of issuance of the warrant or citation.

(d) If a warrant is issued charging a violation of a release condition or a summons is issued for a hearing under Section 508.281, the sentence time credit may be suspended until a determination is made in the case. The suspended time credit may be reinstated if the parole, mandatory supervision, or conditional pardon is continued.

(e) If a person's parole or mandatory supervision is modified after it is established that the person violated conditions of release, the board may require the releasee to remain under custodial supervision in a county jail for a period of not less than 60 days or more than 180 days. A sheriff is required to accept an inmate sanctioned under this subsection only if the commissioners court of the county in which the sheriff serves and the Texas Department of Criminal Justice have entered into a contract providing for the housing of persons sanctioned under this subsection.

Sec. 508.284. TRANSFER PENDING REVOCATION HEARING. The department, as provided by Section 508.282(c), may authorize a facility that is otherwise required to detain and house an inmate or person to transfer the inmate or person to a correctional facility operated by the department or under contract with the department if:
(1) the department determines that adequate space is available in the facility to which the inmate or person is to be transferred; and

(2) the facility to which the inmate or person is to be transferred is located not more than 150 miles from the facility from which the inmate or person is to be transferred.

(2) accept only those residents who are physically and mentally capable of participating in any program offered at the facility that requires strenuous physical activity, if participation in the program is required of all residents of the facility.

(d) Standards developed by the division that relate to state jail felony facilities must meet minimum requirements adopted by the board for the operation of state jail felony facilities. The board may adopt rules and procedures for the operation of more than one type of state jail felony facility.

Sec. 509.0071. COMMITMENT REDUCTION PLAN. (a) In addition to submitting a strategic plan to the division under Section 509.007, a department or a regional partnership of departments may submit a commitment reduction plan to the division not later than the 60th day after the date on which the time for gubernatorial action on the state budget has expired under Section 14, Article IV, Texas
Constitution.

(b) A commitment reduction plan submitted under this section may contain a request for additional state funding in the manner described by Subsection (e). A commitment reduction plan must contain:

(1) a target number by which the county or counties served by the department or regional partnership of departments will, relative to the number of individuals committed in the preceding state fiscal year from the county or counties to the Texas Department of Criminal Justice for offenses not listed in or described by Article 42A.054, Code of Criminal Procedure, reduce that number in the fiscal year for which the commitment reduction plan is submitted by reducing the number of:
   (A) direct sentencing commitments;
   (B) community supervision revocations; or
   (C) direct sentencing commitments and community supervision revocations;

(2) a calculation, based on the most recent Criminal Justice Uniform Cost Report published by the Legislative Budget Board, of the savings to the state that will result from the county or counties reaching the target number described by Subdivision (1);

(3) an explanation of the programs and services the department or regional partnership of departments intends to provide using any funding received under Subsection (e)(1), including any programs or services designed to enhance public safety, reduce recidivism, strengthen the investigation and prosecution of criminal offenses, improve programs and services available to victims of crime, and increase the amount of restitution collected from persons supervised by the department or regional partnership of departments;

(4) a pledge by the department or regional partnership of departments to provide accurate data to the division at the time and in the manner required by the division;

(5) a pledge to repay to the state, not later than the 30th day after the last day of the state fiscal year in which the lump-sum award is made, a percentage of the lump sum received under Subsection (e)(1) that is equal to the percentage by which the county or counties fail to reach the target number described by Subdivision (1), if the county or counties do not reach that target number; and

(6) if the commitment reduction plan is submitted by a regional partnership of departments, an agreement and plan for the
receipt, division, and administration of any funding received under Subsection (e).

(c) For purposes of Subsection (b)(5), if the target number contained in the commitment reduction plan is described by Subsection (b)(1)(B), the county or counties fail to reach the target number if the sum of any increase in the number of direct sentencing commitments and any reduction in community supervision revocations is less than the target number contained in the commitment reduction plan.

(d) A pledge described by Subsection (b)(4) or (5) must be signed by:

(1) the director of the department submitting the commitment reduction plan; or

(2) if the commitment reduction plan is submitted by a regional partnership of departments, a director of one of the departments in the regional partnership submitting the commitment reduction plan.

(e) After reviewing a commitment reduction plan, if the division is satisfied that the plan is feasible and would achieve desirable outcomes, the division may award to the department or regional partnership of departments:

(1) a one-time lump sum in an amount equal to 35 percent of the savings to the state described by Subsection (b)(2); and

(2) on a biennial basis, and from the 65 percent of the savings to the state that remains after payment of the lump sum described by Subdivision (1), the following incentive payments for the department's or regional partnership's performance in the two years immediately preceding the payment:

(A) 15 percent, for reducing the percentage of persons supervised by the department or regional partnership of departments who commit a new felony while under supervision;

(B) five percent, for increasing the percentage of persons supervised by the department or regional partnership of departments who are not delinquent in making any restitution payments; and

(C) five percent, for increasing the percentage of persons supervised by the department or regional partnership of departments who are gainfully employed, as determined by the division.

(f) A department or regional partnership of departments may use
funds received under Subsection (e) to provide any program or service that a department is authorized to provide under other law, including implementing, administering, and supporting evidence-based community supervision strategies, electronic monitoring, substance abuse and mental health counseling and treatment, specialized community supervision caseloads, intermediate sanctions, victims' services, restitution collection, short-term incarceration in county jails, specialized courts, pretrial services and intervention programs, and work release and day reporting centers.

(g) Any funds received by a department or regional partnership of departments under Subsection (e):

(1) are in addition to any per capita or formula funding received under Section 509.011; and

(2) may not be deducted from any per capita or formula funding received or to be received by:

(A) another department, if the commitment reduction plan is submitted by a department; or

(B) any department, if the commitment reduction plan is submitted by a regional partnership of departments.

(h) The division shall deduct from future state aid paid to a department, or from any incentive payments under Subsection (e)(2) for which a department is otherwise eligible, an amount equal to the amount of any pledge described by Subsection (b)(5) that remains unpaid on the 31st day after the last day of the state fiscal year in which a lump-sum award is made under Subsection (e)(1). If the lump-sum award was made to a regional partnership of departments, the division shall deduct, in accordance with the agreement and plan described by Subsection (b)(6), the amount of the unpaid pledge from the future state aid to each department that is part of the partnership or from any incentive payments under Subsection (e)(2) for which the regional partnership of departments is otherwise eligible.

Sec. 509.008. OFFICER CERTIFICATION. (a) The division shall establish officer certification programs for department residential officers and department supervision officers. A program must include coursework relating to the proper performance of the officer's duties and an examination prepared by the division administered at the conclusion of the coursework. The examination must test officers on knowledge required for the proper performance of their duties. An officer who satisfactorily completes the coursework and examination shall be certified.

(b) Except as provided by Subsections (d), (e), and (f), a department may not continue to employ an officer unless the officer was exempt from certification requirements on September 1, 1989, or satisfactorily completes the coursework and examination required by this section not later than the first anniversary of the date on which the officer begins employment with the department.

(c) The division shall provide adequate notification of the results of examinations and provide other relevant information regarding examinations as requested by examinees.

(d) The division may extend the period for the coursework and examination requirements for an officer under Subsection (b) or (f) for an additional period not to exceed one year because:

(1) the department has a need to increase hiring to reduce caseloads to a level necessary to receive full state aid; or

(2) an extenuating circumstance, as determined by the division director, prevents the officer from completing the coursework and examination within the required period.

(e) The division may waive certification requirements other than a fee requirement for an applicant with a valid certificate from another state that has certification requirements substantially similar to those of this state.

(f) A department may not continue to employ a residential officer unless the officer successfully completes the coursework and examination requirement under this section before the first anniversary of the date on which the officer begins the officer's assignment to a residential facility.

(g) The division may deny, revoke, or suspend a certification
or may reprimand an officer for a violation of a standard adopted under this chapter.

(h) If the division proposes to deny, revoke, or suspend an officer's certification or to reprimand an officer, the officer is entitled to a hearing before the division or a hearings examiner appointed by the division. The division shall adopt procedures for appeals by officers of decisions made by the division to deny, revoke, or suspend a certification or to reprimand an officer.

Sec. 509.009. TRAINING. The division may provide pre-service, in-service, and educational training and technical assistance to departments to promote compliance with the standards under this chapter and to assist departments in improving the operation of department services.

Added by Acts 1995, 74th Leg., ch. 76, Sec. 7.01, eff. Sept. 1, 1995.

Sec. 509.010. PUBLIC MEETING. (a) The division may not take an action under Sections 509.006(a)(1) through (6) relating to a community corrections facility established after August 31, 1989, unless a public meeting is held about the proposed action before the action is taken.

(b) Before the 30th day before the date of the meeting, the division, the department that the facility is to serve, or a vendor proposing to operate the facility shall:

(1) publish by advertisement that is not less than 3-1/2 inches by 5 inches notice of the date, hour, place, and subject of the hearing required by Subsection (a) in three consecutive issues of a newspaper of, or in newspapers that collectively have, general circulation in the county in which the proposed facility is to be located; and

(2) mail a copy of the notice to each police chief, sheriff, city council member, mayor, county commissioner, county judge, school board member, state representative, and state senator who serves or represents the area in which the proposed facility is
to be located, unless the proposed facility has been previously
authorized to operate at a particular location as part of a community
justice plan submitted by a community justice council under Section
509.007.

(c) If a private vendor, other than a private vendor that
operates as a nonprofit corporation, proposes to operate a facility
that is the subject of a public meeting under this section, the
private vendor is responsible for the costs of providing notice and
holding the public meeting required by this section.

(d) In describing the subject of a hearing for purposes of
publishing notice under this section, the notice must specifically
state the address of the facility on which a proposed action is to be
taken and describe the proposed action.

(e) The division, a department, or a private vendor shall hold
a public meeting required by Subsection (a) at a site as close as
practicable to the location at which the proposed action is to be
taken. The division, department, or vendor may not hold the meeting
on a Saturday, Sunday, or legal holiday and must begin the meeting
after 6 p.m.

(f) A department, a county, a municipality, or a combination
involving more than one of those entities may not take an action
under Section 76.010 unless the entity or entities hold a public
meeting before the action is taken, with notice provided and the
hearing to be held in the same manner as provided by Subsections (a)
through (e).

Sec. 509.011. PAYMENT OF STATE AID. (a) If the division
determines that a department complies with division standards and if
the department has submitted a strategic plan under Section 509.007
and the supporting information required by the division and the
division determines the plan and supporting information are
acceptable, the division shall prepare and submit to the comptroller vouchers for payment to the department as follows:

(1) for per capita funding, a per diem amount for each felony defendant directly supervised by the department pursuant to lawful authority;

(2) for per capita funding, a per diem amount for a period not to exceed 182 days for each defendant supervised by the department pursuant to lawful authority, other than a felony defendant; and

(3) for formula funding, an annual amount as computed by multiplying a percentage determined by the allocation formula established under Subsection (f) times the total amount provided in the General Appropriations Act for payments under this subdivision.

(a-1) Repealed by Acts 2017, 85th Leg., R.S., Ch. 346 (H.B. 1526), Sec. 3, eff. September 1, 2017.

(b) The division may use discretionary grant funds to further the purposes of this chapter by contracting for services with state agencies or nonprofit organizations. The division may also make discretionary grants to departments, municipalities, or counties for the following purposes:

(1) development and operation of pretrial and presentencing services;

(2) electronic monitoring services, surveillance supervision programs, and controlled substances testing services;

(3) research projects to evaluate the effectiveness of community corrections programs, if the research is conducted in cooperation with the Criminal Justice Policy Council;

(4) contract services for felony defendants;

(5) residential services for misdemeanor defendants who exhibit levels of risk or needs indicating a need for confinement and treatment, as described by Section 509.005(b);

(6) establishment or operation of county correctional centers under Subchapter H, Chapter 351, Local Government Code, or community corrections facilities for which the division has established standards under Section 509.006;

(7) development and operation of treatment alternative to incarceration programs under Section 76.017; and

(8) other purposes determined appropriate by the division and approved by the board.

(b-1) The division may award a grant to a department for the
development and operation of a pretrial intervention program for defendants who are:

(1) pregnant at the time of placement into the program; or
(2) the primary caretaker of a child younger than 18 years of age.

(c) Each department, county, or municipality shall deposit all state aid received from the division in a special fund of the county treasury or municipal treasury, as appropriate, to be used solely for the provision of services, programs, and facilities under this chapter or Subchapter H, Chapter 351, Local Government Code.

(d) The division shall provide state aid to each department on a biennial basis, pursuant to the strategic plan for the biennium submitted by the department. A department with prior division approval may transfer funds from one program or function to another program or function.

(e) In establishing per diem payments authorized by Subsections (a)(1) and (a)(2), the division shall consider the amounts appropriated in the General Appropriations Act for basic supervision as sufficient to provide basic supervision in each year of the fiscal biennium.

(f) The division annually shall compute for each department for community corrections program formula funding a percentage determined by assigning equal weights to the percentage of the state's population residing in the counties served by the department and the department's percentage of all felony defendants in the state under direct community supervision. The division shall use the most recent information available in making computations under this subsection. The board by rule may adopt a policy limiting for all departments the percentage of benefit or loss that may be realized as a result of the operation of the formula.

(g) If the Texas Department of Criminal Justice determines that at the end of a biennium a department maintains in reserve an amount greater than six months' basic supervision operating costs for the department, the Texas Department of Criminal Justice in the succeeding biennium may reduce the amount of per capita and formula funding provided under Subsection (a) so that in the succeeding biennium the department's reserves do not exceed six months' basic supervision operating costs. The Texas Department of Criminal Justice may adopt policies and standards permitting a department to maintain reserves in an amount greater than otherwise permitted by
this subsection as necessary to cover emergency costs or implement new programs with the approval of the Texas Department of Criminal Justice. The Texas Department of Criminal Justice may distribute unallocated per capita or formula funds to provide supplemental funds to individual departments to further the purposes of this chapter.

(h) A community supervision and corrections department at any time may transfer to the Texas Department of Criminal Justice any unencumbered state funds held by the department. The Texas Department of Criminal Justice may distribute funds received from a community supervision and corrections department under this subsection to provide supplemental funds to individual departments to further the purposes of this chapter.

Sec. 509.012. REFUSAL OR SUSPENSION OF STATE AID. (a) The division shall take one or more of the following actions against a department that the division determines is not in substantial compliance with division standards or requirements adopted under Sections 509.003 through 509.006:

(1) a reduction, refusal, or suspension of payment of state aid to the department; or

(2) an imposition of budget control over the department.

(b) The board shall provide for notice and a hearing in cases in which the division proposes to take an action authorized by this
section, other than a refusal by the division to provide discretionary grant funding or a reduction by the division of discretionary grant funding during a funding cycle. The division shall define with specificity the conduct that constitutes substantial noncompliance with division standards and shall establish the procedures to be used in imposing or waiving a sanction authorized by this section, subject to approval of the definition and the procedures by adoption by the board.

Sec. 509.014. STUDY REGARDING PERFORMANCE-BASED FUNDING. (a) The division shall:

(1) review the funding formulas specified under Section 509.011 and study the feasibility of adopting performance-based funding formulas, including whether the formulas should take into consideration an offender's risk level or other appropriate factors in allocating funding; and

(2) make recommendations for modifying the current funding formulas.

(b) In conducting the study and making recommendations under Subsection (a), the division shall:

(1) seek input from departments, the judicial advisory council established under Section 493.003(b), and other relevant interest groups; and

ARTICLE I. PURPOSE

(a) The compacting states to this interstate compact recognize that each state is responsible for the supervision of adult offenders in the community who are authorized pursuant to the bylaws and rules of this compact to travel across state lines both to and from each compacting state in such a manner as to track the location of offenders, transfer supervision authority in an orderly and efficient manner and, when necessary, return offenders to the originating jurisdictions. The compacting states also recognize that the United States Congress, by enacting 4 U.S.C. 112, has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.

(b) It is the purpose of this compact and the Interstate Commission created under this compact, through means of joint and cooperative action among the compacting states: To provide the framework for the promotion of public safety and protect the rights of victims through the control and regulation of the interstate movement of offenders in the community; to provide for the effective tracking, supervision and rehabilitation of these offenders by the sending and receiving states; and to equitably distribute the costs, benefits and obligations of the compact among the compacting states.

(c) In addition, this compact is intended to: Create an Interstate Commission that will establish uniform procedures to manage the movement between states of offenders placed under community supervision and released to the community under the jurisdiction of courts, paroling authorities or corrections or other criminal justice agencies that will promulgate rules to achieve the purpose of this compact; ensure an opportunity for input and timely notice to victims and to jurisdictions where offenders are authorized to travel or to relocate across state lines; establish a system of uniform data collection, access to information on active cases by authorized criminal justice officials and regular reporting of compact activities to the heads of State Councils, the state executive, judicial and legislative branches and the criminal justice

If the court finds that the Interstate Commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside. For purposes of this subsection, evidence is substantial if it would be considered substantial evidence under the federal Administrative Procedure Act, 5 U.S.C. 551 et seq., and the Federal Advisory Committee Act, 5 U.S.C. (10) Mediation, arbitration and dispute resolution.

(f) The existing rules governing the operation of the previous compact superseded by this compact shall be null and void 12 months after the first meeting of the Interstate Commission created under this compact.

ARTICLE VIII. OVERSIGHT, ENFORCEMENT AND DISPUTE RESOLUTION BY THE INTERSTATE COMMISSION

(a)(1) The Interstate Commission shall oversee the Interstate movement of adult offenders in the compacting states and shall monitor such activities being administered in noncompacting states that may significantly affect compacting states.

The Interstate Commission shall promulgate a rule binding upon all compacting states that governs said assessment.

(c) The Interstate Commission shall not incur any obligations of any kind prior to securing the funds adequate to meet the same, nor shall the Interstate Commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.

(d) The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

ARTICLE X. COMPACTING STATES, EFFECTIVE DATE AND AMENDMENT

(a) Any state, as defined in Article II of this compact, is
eligible to become a compacting state.

(b) The compact shall become effective and binding upon legislative enactment of the compact into law by no fewer than 35 of the states. The initial effective date shall be the later of July 1, 2001, or upon enactment into law by the 35th jurisdiction. Thereafter, the compact shall become effective and binding, as to any other compacting state, upon enactment of the compact into law by that state. The governors of noncompacting states or their designees may be invited to participate in Interstate Commission activities on a non-voting basis prior to adoption of the compact by all states.

(c) Amendments to the compact may be proposed by the Interstate Commission for enactment by the compacting states. No amendment shall become effective and binding upon the Interstate Commission and the compacting states unless and until it is enacted into law by unanimous consent of the compacting states.

ARTICLE XI. WITHDRAWAL, DEFAULT, TERMINATION AND JUDICIAL ENFORCEMENT

(a)(1) Once effective, the compact shall continue in force and remain binding upon each and every compacting state, provided that a compacting state may withdraw from the compact by specifically repealing the statute that enacted the compact into law.

(2) The effective date of withdrawal is the effective date of the repeal of the statute that enacted the compact into law.

(3) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other compacting states of the withdrawing state's intent to withdraw within 60 days of its receipt thereof.

(4) The withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal, including any obligations, the performance of which extend beyond the effective date of withdrawal.

(5) Reinstatement following withdrawal of any compacting state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

(b)(1) If the Interstate Commission determines that any compacting state has at any time defaulted in the performance of any of its obligations or responsibilities under this compact or the bylaws or rules of the Interstate Commission, the Interstate Commission may impose any or all of the following penalties:
(i) Fines, fees and costs in such amounts as are deemed to be reasonable as fixed by the Interstate Commission;

(ii) Remedial training and technical assistance as directed by the Interstate Commission;

(iii) Suspension and termination of membership in the compact. Suspension shall be imposed only after all other reasonable means of securing compliance under the bylaws and rules have been exhausted. Immediate notice of suspension shall be given by the Interstate Commission to the governor, the chief justice or chief judicial officer of the defaulting state; the majority and minority leaders of the defaulting state's legislature, and the state council.

(2) The grounds for default include, but are not limited to, failure of a compacting state to perform obligations or responsibilities imposed upon it by this compact or the Interstate Commission bylaws or rules. The Interstate Commission shall immediately notify the defaulting state in writing of the penalty imposed by the Interstate Commission on the defaulting state pending a cure of the default. The Interstate Commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the Interstate Commission, in addition to any other penalties imposed, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of suspension. Within 60 days of the effective date of termination of a defaulting state, the Interstate Commission shall notify the governor, the chief justice or chief judicial officer of the defaulting state, the majority and minority leaders of the defaulting state's legislature and the State Council of such termination.

(3) The defaulting state is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including any obligations, the performance of which extend beyond the effective date of termination.

(4) The Interstate Commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon between the Interstate Commission and the defaulting state. Reinstatement following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the Interstate Commission pursuant to the rules.
(c) The Interstate Commission may, by majority vote of the members, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district court where the Interstate Commission has its principal office to enforce compliance with the provisions of the compact, its rules or bylaws against any compacting state in default. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(d)(1) The compact dissolves effective upon the date of the withdrawal or default of the compacting state that reduces membership in the compact to one compacting state.

(2) Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be wound up and any surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XII. SEVERABILITY AND CONSTRUCTION

(a) The provisions of this compact shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

(b) The provisions of this compact shall be liberally construed to effectuate its purposes.

ARTICLE XIII. BINDING EFFECT OF COMPACT AND OTHER LAWS

(a)(1) Nothing in this compact prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact.

(2) All agreements between the Interstate Commission and the compacting states are binding in accordance with their terms.

(3) Upon the request of a party to a conflict over meaning or interpretation of Interstate Commission actions, and upon a majority vote of the compacting states, the Interstate Commission may issue advisory opinions regarding such meaning or interpretation.

(4) In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any compacting state, the obligations, duties, powers or jurisdiction sought to be conferred by such provision upon the Interstate Commission shall be ineffective and such obligations, duties, powers or jurisdiction shall remain in the compacting state and shall be exercised by the agency thereof to which such obligations, duties, powers or
jurisdiction are delegated by law in effect at the time this compact becomes effective.

(B) require the guardian to provide the sheriff with letters of guardianship issued as provided by Section 1106.001, Estates Code, before being allowed to visit the prisoner;

(19) adopt reasonable rules and procedures to ensure the safety of prisoners, including rules and procedures that require a county jail to:

(a) The executive commissioner by rule shall develop and implement a system to reimburse providers of services under Medicaid for services performed using telemedicine medical services, teledentistry dental services, or telehealth services.
(b) Repealed by Acts 2019, 86th Leg., R.S., Ch. 964 (S.B. 670), Sec. 6(1), eff. September 1, 2019.
(c) The commission shall encourage health care providers and health care facilities to provide telemedicine medical services, teledentistry dental services, and telehealth services in the health care delivery system. (c-1) The commission shall explore opportunities to increase STAR Health program providers' use of telemedicine medical services in medically underserved areas of this state.
(d) Subject to Sections 111.004 and 153.004, Occupations Code, the executive commissioner may adopt rules as necessary to implement this section. In the rules adopted under this section, the executive commissioner shall:
(1) refer to the site where the patient is physically located as the patient site; and
(2) refer to the site where the physician, dentist, or health professional providing the telemedicine medical service,
teledentistry dental service, or telehealth service is physically located as the distant site.

(f) Not later than December 1 of each even-numbered year, the commission shall report to the speaker of the house of representatives and the lieutenant governor on the effects of telemedicine medical services, teledentistry dental services, telehealth services, and home telemonitoring services on Medicaid in the state, including the number of physicians, dentists, health professionals, and licensed health care facilities using telemedicine medical services, teledentistry dental services, telehealth services, or home telemonitoring services, the geographic and demographic disposition of the physicians, dentists, and health professionals, the number of patients receiving telemedicine medical services, teledentistry dental services, telehealth services, and home telemonitoring services, the types of services being provided, the cost of utilization, and the cost savings of telemedicine medical services, teledentistry dental services, telehealth services, and home telemonitoring services to Medicaid.

(g) The commission shall ensure that a Medicaid managed care organization:

(1) does not deny reimbursement for a covered health care service or procedure delivered by a health care provider with whom the managed care organization contracts to a Medicaid recipient as a telemedicine medical service, a teledentistry dental service, or a telehealth service solely because the covered service or procedure is not provided through an in-person consultation;

(2) does not limit, deny, or reduce reimbursement for a covered health care service or procedure delivered by a health care provider with whom the managed care organization contracts to a Medicaid recipient as a telemedicine medical service, a teledentistry dental service, or a telehealth service based on the health care provider's choice of platform for providing the health care service or procedure; and

(3) ensures that the use of telemedicine medical services, teledentistry dental services, or telehealth services promotes and supports patient-centered medical homes by allowing a Medicaid recipient to receive a telemedicine medical service, teledentistry dental service, or telehealth service from a provider other than the
recipient's primary care physician or provider, except as provided by Section 531.0217(c-4), only if:

(A) the telemedicine medical service, teledentistry dental service, or telehealth service is provided in accordance with the law and contract requirements applicable to the provision of the same health care service in an in-person setting, including requirements regarding care coordination; and

(B) the provider of the telemedicine medical service, teledentistry dental service, or telehealth service gives notice to the Medicaid recipient's primary care physician or provider regarding the service, including a summary of the service, exam findings, a list of prescribed or administered medications, and patient instructions, for the purpose of sharing medical information, provided that the recipient has a primary care physician or provider and the recipient or, if appropriate, the recipient's parent or legal guardian, consents to the notice.

(h) The commission shall develop, document, and implement a monitoring process to ensure that a Medicaid managed care organization ensures that the use of telemedicine medical services, teledentistry dental services, or telehealth services promotes and supports patient-centered medical homes and care coordination in accordance with Subsection (g)(3). The process must include monitoring of the rate at which a telemedicine medical service, teledentistry dental service, or telehealth service provider gives notice in accordance with Subsection (g)(3)(B).

(i) The executive commissioner by rule shall ensure that a rural health clinic as defined by 42 U.S.C. Section 1396d(l)(1) and a federally-qualified health center as defined by 42 U.S.C. Section 1396d(l)(2)(B) may be reimbursed for the originating site facility fee or the distant site practitioner fee or both, as appropriate, for a covered telemedicine medical service, teledentistry dental service, or telehealth service delivered by a health care provider to a Medicaid recipient. The commission is required to implement this subsection only if the legislature appropriates money specifically for that purpose. If the legislature does not appropriate money specifically for that purpose, the commission may, but is not required to, implement this subsection using other money available to the commission for that purpose.

(j) In complying with state and federal requirements to provide access to medically necessary services under the Medicaid managed
care program, a Medicaid managed care organization determining whether reimbursement for a telemedicine medical service, teledentistry dental service, or telehealth service is appropriate shall continue to consider other factors, including whether reimbursement is cost-effective and whether the provision of the service is clinically effective.

Subject to veto by the governor, the following section was amended by
the 88th Legislature. Pending publication of the current statutes,
see H.B. 4611, 88th Legislature, Regular Session, for amendments
affecting the following section.

(1) "Behavioral health services" has the meaning assigned
by Section 533.00255.

(2) "Case management services" includes service
coordination, service management, and care coordination.

(b) To the extent permitted by federal law and to the extent it
is cost-effective and clinically effective, as determined by the
commission, the commission shall ensure that Medicaid recipients,
child health plan program enrollees, and other individuals receiving
benefits under a public benefits program administered by the
commission or a health and human services agency, regardless of
whether receiving benefits through a managed care delivery model or
another delivery model, have the option to receive services as
telemedicine medical services, telehealth services, or otherwise
using telecommunications or information technology, including the
following services:

(1) preventive health and wellness services;
(2) case management services, including targeted case
management services;
(3) subject to Subsection (c), behavioral health services;
(4) occupational, physical, and speech therapy services;
(5) nutritional counseling services; and

services (CLASS) waiver program;
(B) the deaf-blind with multiple disabilities (DBMD)
waiver program;
(C) the home and community-based services (HCS) waiver
program; and
(D) the Texas home living (TxHmL) waiver program.

(c) To the extent permitted by state and federal law and to the

extent it is cost-effective and clinically effective, as determined by the commission, the executive commissioner by rule shall develop and implement a system that ensures behavioral health services may be provided using an audio-only platform consistent with Section 111.008, Occupations Code, to a Medicaid recipient, a child health plan program enrollee, or another individual receiving those services under another public benefits program administered by the commission or a health and human services agency.

(d) If the executive commissioner determines that providing services other than behavioral health services is appropriate using an audio-only platform under a public benefits program administered by the commission or a health and human services agency, in accordance with applicable federal and state law, the executive commissioner may by rule authorize the provision of those services under the applicable program using the audio-only platform. In determining whether the use of an audio-only platform in a program is appropriate under this subsection, the executive commissioner shall consider whether using the platform would be cost-effective and clinically effective.

(c) The policies required under this section must:

(1) be designed to:
(A) prevent unnecessary travel and encourage efficient use of telemedicine medical services, teledentistry dental services, and telehealth services for children with special health care needs in all suitable circumstances; and

(B) ensure in a cost-effective manner the availability to a child with special health care needs of services appropriately performed using telemedicine medical services, teledentistry dental services, and telehealth services that are comparable to the same types of services available to that child without the use of telemedicine medical services, teledentistry dental services, and telehealth services; and

(2) provide for reimbursement of multiple providers of different services who participate in a single session of telemedicine medical services, teledentistry dental services, telehealth services, or any combination of those services, for a child with special health care needs, if the commission determines that reimbursing each provider for the session is cost-effective in comparison to the costs that would be involved in obtaining the services from providers without the use of telemedicine medical services, teledentistry dental services, and telehealth services, including the costs of transportation and lodging and other direct costs.

(1) provide that home telemonitoring services are available only to persons who:

(A) are diagnosed with one or more of the following conditions:

(3) ensure that the program does not duplicate disease management program services provided under Section 32.057, Human Resources Code.

(c-1) Notwithstanding Subsection (c)(1), the program required under this section must also provide that home telemonitoring services are available to pediatric persons who:
(1) are diagnosed with end-stage solid organ disease;
(2) have received an organ transplant; or

(d) If, after implementation, the commission determines that the program established under this section is not cost-effective, the commission may discontinue the program and stop providing reimbursement under Medicaid for home telemonitoring services, notwithstanding Section 531.0216 or any other law.

(e) The commission shall determine whether the provision of home telemonitoring services to persons who are eligible to receive benefits under both Medicaid and the Medicare program achieves cost savings for the Medicare program.

(f) To comply with state and federal requirements to provide access to medically necessary services under the Medicaid managed care program, a Medicaid managed care organization may reimburse providers for home telemonitoring services provided to persons who have conditions and exhibit risk factors other than those expressly authorized by this section. (b) Subject to the requirements of this subsection, the executive commissioner by rule may require the commission and each health and human services agency that administers a part of Medicaid to provide Medicaid reimbursement for a medical consultation that is provided by a physician or other health care professional using the
Internet as a cost-effective alternative to an in-person consultation. The executive commissioner may require the commission or a health and human services agency to provide the reimbursement described by this subsection only if the Centers for Medicare and Medicaid Services develop an appropriate Current Procedural Terminology code for medical services provided using the Internet.

(c) The executive commissioner may develop and implement a pilot program in one or more sites chosen by the executive commissioner under which Medicaid reimbursements are paid for medical consultations provided by physicians or other health care professionals using the Internet. The pilot program must be designed to test whether an Internet medical consultation is a cost-effective alternative to an in-person consultation under Medicaid. The executive commissioner may modify the pilot program as necessary throughout its implementation to maximize the potential cost-effectiveness of Internet medical consultations. If the executive commissioner determines from the pilot program that Internet medical consultations are cost-effective, the executive commissioner may expand the pilot program to additional sites or may implement Medicaid reimbursements for Internet medical consultations statewide.

(d) The executive commissioner is not required to implement the pilot program authorized under Subsection (c) as a prerequisite to providing Medicaid reimbursement authorized by Subsection (b) on a statewide basis.

Sec. 531.02194. REIMBURSEMENT METHODOLOGY FOR RURAL HOSPITALS.
(a) In this section, "rural hospital" has the meaning assigned by
commission rules for purposes of the reimbursement of hospitals for
providing inpatient or outpatient services under Medicaid.
(b) To the extent allowed by federal law and subject to
limitations on appropriations, the executive commissioner by rule
shall adopt a prospective reimbursement methodology for the payment
of rural hospitals participating in Medicaid that ensures the rural
hospitals are reimbursed on an individual basis for providing
inpatient and general outpatient services to Medicaid recipients by
using the hospitals' most recent cost information concerning the
costs incurred for providing the services. The commission shall
calculate the prospective cost-based reimbursement rates once every
two years.
(c) In adopting rules under Subsection (b), the executive
commissioner may:
(1) adopt a methodology that requires:
   (A) a managed care organization to reimburse rural
       hospitals for services delivered through the Medicaid managed care
       program using a minimum fee schedule or other method for which
       federal matching money is available; or

       to share in the total amount of reimbursement paid to rural
       hospitals; and
(2) require that the amount of reimbursement paid to a

    under the Medicaid managed care program.
(d) Not later than September 1 of each even-numbered year, the
commission shall, for purposes of Subsection (b), determine the
allowable costs incurred by a rural hospital participating in the
Medicaid managed care program based on the rural hospital's cost
reports submitted to the federal Centers for Medicare and Medicaid
Services and other available information that the commission
considers relevant in determining the hospital's allowable costs.
(e) Notwithstanding Subsection (b) and subject to Subsection (f), the executive commissioner shall adopt and the commission shall implement, beginning with the state fiscal year ending August 31, 2022, a true cost-based reimbursement methodology for inpatient and general outpatient services provided to Medicaid recipients at rural hospitals that provides:

(1) prospective payments during a state fiscal year to the hospitals using the reimbursement methodology adopted under Subsection (b); and

(2) to the extent allowed by federal law, in the subsequent state fiscal year a cost settlement to provide additional reimbursement as necessary to reimburse the hospitals for the true costs incurred in providing inpatient and general outpatient services to Medicaid recipients during the previous state fiscal year.

(f) Notwithstanding Subsection (e), if federal law does not permit the use of a true cost-based reimbursement methodology described by that subsection, the commission shall continue to use the prospective cost-based reimbursement methodology adopted under Subsection (b) for the payment of rural hospitals for providing inpatient and general outpatient services to Medicaid recipients.

Sec. 531.02241. PILOT PROGRAM FOR SELF-SUFFICIENCY OF CERTAIN PERSONS RECEIVING FINANCIAL ASSISTANCE OR SUPPLEMENTAL NUTRITION ASSISTANCE BENEFITS. (a) In this section:

(1) "Financial assistance benefits" means money payments under the federal Temporary Assistance for Needy Families program operated under Chapter 31, Human Resources Code, or under the state temporary assistance and support services program operated under Chapter 34, Human Resources Code.

(2) "Self-sufficiency" means being employed in a position that pays a sufficient wage, having financial savings in an amount that is equal to at least $1,000 per member of a family's household, and maintaining a debt-to-income ratio that does not exceed 43 percent.

(3) "Slow reduction scale" means a graduated plan for reducing financial assistance or supplemental nutrition assistance benefits that correlates with a phase of the pilot program's progressive stages toward self-sufficiency.

(4) "Sufficient wage" means an amount of money, determined by a market-based calculation that uses geographically specific expenditure data, that is sufficient to meet a family's minimum necessary spending on basic needs, including food, child care, health insurance, housing, and transportation.

(5) "Supplemental nutrition assistance benefits" means money payments under the supplemental nutrition assistance program operated under Chapter 33, Human Resources Code.

(b) The commission shall develop and implement a pilot program for assisting not more than 500 eligible families to gain permanent self-sufficiency and no longer require financial assistance, supplemental nutrition assistance, or other means-tested public benefits, notwithstanding the limitations and requirements of Section 31.043, Human Resources Code. If the number of families participating in the program during a year reaches capacity for that year as determined by the commission, the number of families that may be served under the program in the following year may be increased by 20 percent.
(c) The pilot program will test extending, for at least 24 months but not more than 60 months, financial assistance and supplemental nutrition assistance benefits by waiving the application of income and asset limit eligibility requirements for those benefits and the time limits under Section 31.0065, Human Resources Code, for financial assistance benefits to allow for continuation of financial assistance and supplemental nutrition assistance benefits and reduction of the benefits using a slow reduction scale. The commission shall freeze a participating family's eligibility status for the benefits beginning on the date the participating family enters the pilot program and ending on the date the family ceases participating in the program. The waiver of the application of any asset limit requirement must allow the family to have assets in an amount that is at least $1,000 per member of the family's household.

(d) The pilot program must be designed to allow social services providers, public benefit offices, and other community partners to refer potential participating families to the program.

(e) A family is eligible to participate in the pilot program established under this section if the family:

(1) includes one or more members who are recipients of financial assistance or supplemental nutrition assistance benefits, at least one of whom is:
   (A) at least 18 but not more than 62 years of age; and
   (B) willing, and physically and legally able, to be employed; and

(2) has a total household income that is less than a sufficient wage based on the family's makeup and geographical area of residence.

(f) The pilot program must be designed to assist eligible participating families in attaining self-sufficiency by:

(1) identifying eligibility requirements for the continuation of financial assistance or supplemental nutrition assistance benefits and time limits for the benefits, the application of which may be waived for a limited period and that, if applied, would impede self-sufficiency;

(2) implementing strategies, including waiving the application of the eligibility requirements and time limits identified in Subdivision (1), to remove barriers to self-sufficiency; and

(3) moving eligible participating families through
progressive stages toward self-sufficiency that include the following phases:

(A) an initial phase in which a family moves out of an emergent crisis by securing housing, medical care, and financial assistance and supplemental nutrition assistance benefits, as necessary;

(B) a second phase in which:
   (i) the family moves toward stability by securing employment and, if necessary, child care and by participating in services that build the financial management skills necessary to meet financial goals; and
   (ii) the family's financial assistance and supplemental nutrition assistance benefits are reduced according to the following scale:
       (a) on reaching 25 percent of the family's sufficient wage, the amount of benefits is reduced by 10 percent;
       (b) on reaching 50 percent of the family's sufficient wage, the amount of benefits is reduced by 25 percent; and
       (c) on reaching 75 percent of the family's sufficient wage, the amount of benefits is reduced by 50 percent;

(C) a third phase in which the family:
   (i) transitions to self-sufficiency by securing employment that pays a sufficient wage, reducing debt, and building savings; and
   (ii) becomes ineligible for financial assistance and supplemental nutrition assistance benefits on reaching 100 percent of the family's sufficient wage; and

(D) a final phase in which the family attains self-sufficiency by retaining employment that pays a sufficient wage, amassing at least $1,000 per member of the family's household, and having manageable debt so that the family will no longer be dependent on financial assistance, supplemental nutrition assistance, or other means-tested public benefits for at least six months following the date the family stops participating in the program.

(g) A person from a family that wishes to participate in the pilot program must attend an in-person intake meeting with a program case manager. During the intake meeting the case manager shall:
   (1) determine whether:
       (A) the person's family meets the eligibility requirements under Subsection (e); and
(B) the application of income or asset limit eligibility requirements for continuation of financial assistance and supplemental nutrition assistance benefits and the time limits under Section 31.0065, Human Resources Code, for financial assistance benefits may be waived under the program;

(2) review the family's demographic information and household financial budget;

(3) assess the family members' current financial and career situations;

(4) collaborate with the person to develop and implement strategies for removing barriers to the family attaining self-sufficiency, including waiving the application of income and asset limit eligibility requirements and time limits described by Subdivision (1)(B) to allow for continuation of financial assistance and supplemental nutrition assistance benefits; and

(5) if the person's family is determined to be eligible for and chooses to participate in the program, schedule a follow-up meeting to further assess the family's crisis, review available referral services, and create a service plan.

(h) A participating family must be assigned a program case manager who shall:

(1) if the family is determined to be eligible, provide the family with a verification of the waived application of asset, income, and time limits described by Subsection (c), allowing the family to continue receiving financial assistance and supplemental nutrition assistance benefits on a slow reduction scale;

(2) assess, at the follow-up meeting scheduled under Subsection (g)(5), the family's crisis, review available referral services, and create a service plan; and

(3) during the initial phase of the program, create medium- and long-term goals consistent with the strategies developed under Subsection (g)(4).

(i) The pilot program must provide each participating family placed in the research group described by Subsection (j)(3)(C) with holistic, wraparound case management services that meet all applicable program requirements under 7 C.F.R. Section 273.7(e) or 45 C.F.R. Section 261.10, as applicable. Case management services provided under this subsection must include the strategic use of financial assistance and supplemental nutrition assistance benefits to ensure that the goals included in the family's service plan are
achieved. The wraparound case management services must be provided through a community-based provider.

(j) The pilot program must operate for at least 24 months. The program shall also include 16 additional months for:

(1) planning and designing the program before the program begins operation;

(2) recruiting eligible families to participate in the program;

(3) randomly placing each participating family in one of at least three research groups, including:
   (A) a control group;
   (B) a group consisting of families for whom the application of income, asset, and time limits described by Subsection (c) is waived; and
   (C) a group consisting of families for whom the application of income, asset, and time limits described by Subsection (c) is waived and who receive wraparound case management services under the program; and

(4) after the program begins operation, collecting and sharing data that allows for:
   (A) obtaining participating families' eligibility and identification data before a family is randomly placed in a research group under Subdivision (3);
   (B) conducting surveys or interviews of participating families to obtain information that is not contained in records related to a family's eligibility for financial assistance, supplemental nutrition assistance, or other means-tested public benefits;
   (C) providing quarterly reports for not more than 60 months after a participating family is enrolled in the pilot program regarding the program's effect on the family's labor market participation and income and need for means-tested public benefits;
   (D) assessing the interaction of the program's components with the desired outcomes of the program using data collected during the program and data obtained from state agencies concerning means-tested public benefits; and
   (E) a third party to conduct a rigorous experimental impact evaluation of the pilot program.

(k) The commission shall develop and implement the pilot program with the assistance of the Texas Workforce Commission, local
workforce development boards, faith-based and other relevant public or private organizations, and any other entity or person the commission determines appropriate.

(1) The commission shall monitor and evaluate the pilot program in a manner that allows for promoting research-informed results of the program.

(m) On the conclusion of the pilot program but not later than 48 months following the date the last participating family is enrolled in the program, the commission shall report to the legislature on the results of the program. The report must include:

(1) an evaluation of the program's effect on participating families in achieving self-sufficiency and no longer requiring means-tested public benefits;

(2) the impact to this state on the costs of the financial assistance and supplemental nutrition assistance programs and of the child-care services program operated by the Texas Workforce Commission;

(3) a cost-benefit analysis of the program; and

(4) recommendations on the feasibility and continuation of the program.

(n) During the operation of the pilot program, the commission shall provide to the legislature additional reports concerning the program that the commission determines to be appropriate.

(o) The executive commissioner and the Texas Workforce Commission may adopt rules to implement this section.

(p) This section expires September 1, 2026.

2. "Nonemergency transportation service" means nonemergency medical transportation services authorized under:

   A. for a Medicaid recipient, the state Medicaid plan; and

   B. for a recipient under another program described by Subdivision (1), that program.

3. "Regional contracted broker" means an entity that contracts with the commission to provide or arrange for the provision of nonemergency transportation services under the medical transportation program.

   Notwithstanding any other law, the commission shall directly supervise the administration and operation of the medical transportation program under this section.

   Notwithstanding any other law, the commission may not
delegate the commission's duty to supervise the medical transportation program to any other person, including through a contract with the Texas Department of Transportation for the department to assume any of the commission's responsibilities relating to the provision of services through that program.

(d) Subject to Section 533.00257, the commission may contract with a public transportation provider, as defined by Section 461.002, Transportation Code, a private transportation provider, or a regional transportation broker for the provision of public transportation services, as defined by Section 461.002, Transportation Code, under the medical transportation program.

(e) The executive commissioner shall adopt rules to ensure the safe and efficient provision of nonemergency transportation services under this section. The rules must include:

(1) minimum standards regarding the physical condition and maintenance of motor vehicles used to provide the services, including standards regarding the accessibility of motor vehicles by persons with disabilities;

(2) a requirement that a regional contracted broker verify that each motor vehicle operator providing the services or seeking to provide the services has a valid driver's license;

(g) The commission shall enter into a memorandum of understanding with the Texas Department of Motor Vehicles and the Department of Public Safety for purposes of obtaining the motor vehicle registration and driver's license information of a provider of medical transportation services, including a regional contracted broker and a subcontractor of the broker, to confirm that the provider complies with applicable requirements adopted under Subsection (e).

(h) The commission shall establish a process by which providers of medical transportation services, including providers under a managed transportation delivery model, that contract with the commission may request and obtain the information described under Subsection (g) for purposes of ensuring that subcontractors providing medical transportation services meet applicable requirements adopted under Subsection (e).

(i) Emergency medical services personnel and emergency medical services vehicles, as those terms are defined by Section 773.003, Health and Safety Code, may not provide nonemergency transportation services under the medical transportation program.

(j) A regional contracted broker may subcontract with a transportation network company to provide services under this section. A rule or other requirement adopted by the executive commissioner under Subsection (e) does not apply to the subcontracted transportation network company or a motor vehicle operator who is part of the company's network. The commission or the regional contracted broker may not require a motor vehicle operator who is part of the subcontracted transportation network company's network to enroll as a Medicaid provider to provide services under this section.

(k) The commission or a regional contracted broker that subcontracts with a transportation network company under Subsection (j) may require the transportation network company or a motor vehicle operator who provides services under this section to be periodically screened against the list of excluded individuals and entities
maintained by the Office of Inspector General of the United States Department of Health and Human Services.

(1) Notwithstanding any other law, a motor vehicle operator who is part of the network of a transportation network company that subcontracts with a regional contracted broker under Subsection (j) and who satisfies the driver requirements in Section 2402.107, Occupations Code, is qualified to provide services under this section. The commission and the regional contracted broker may not impose any additional requirements on a motor vehicle operator who satisfies the driver requirements in Section 2402.107, Occupations Code, to provide services under this section.

Sec. 531.024164. EXTERNAL MEDICAL REVIEW. (a) In this section, "external medical reviewer" and "reviewer" mean a third-party medical review organization that provides objective, unbiased medical necessity determinations conducted by clinical staff with education and practice in the same or similar practice area as the procedure for which an independent determination of medical necessity is sought in accordance with applicable state law and rules.

(b) The commission shall contract with an independent external medical reviewer to conduct external medical reviews and review:

(1) the resolution of a Medicaid recipient appeal related to a reduction in or denial of services on the basis of medical necessity in the Medicaid managed care program; or

(2) a denial by the commission of eligibility for a Medicaid program in which eligibility is based on a Medicaid recipient's medical and functional needs.

(c) A Medicaid managed care organization may not have a financial relationship with or ownership interest in the external medical reviewer with which the commission contracts.

(d) The external medical reviewer with which the commission contracts must:

(1) be overseen by a medical director who is a physician licensed in this state; and

(2) employ or be able to consult with staff with experience in providing private duty nursing services and long-term services and supports.
(e) The commission shall establish a common procedure for reviews. To the greatest extent possible, the procedure must reduce administrative burdens on providers and the submission of duplicative information or documents. Medical necessity under the procedure must be based on publicly available, up-to-date, evidence-based, and peer-reviewed clinical criteria. The reviewer shall conduct the review within a period specified by the commission. The commission shall also establish a procedure and time frame for expedited reviews that allows the reviewer to:

(1) identify an appeal that requires an expedited resolution; and

(2) resolve the review of the appeal within a specified period.

(f) A Medicaid recipient or applicant, or the recipient's or applicant's parent or legally authorized representative, must affirmatively request an external medical review. If requested:

(1) an external medical review described by Subsection (b)(1) occurs after the internal Medicaid managed care organization appeal and before the Medicaid fair hearing and is granted when a Medicaid recipient contests the internal appeal decision of the Medicaid managed care organization; and

(2) an external medical review described by Subsection (b)(2) occurs after the eligibility denial and before the Medicaid fair hearing.

(g) The external medical reviewer's determination of medical necessity establishes the minimum level of services a Medicaid recipient must receive, except that the level of services may not exceed the level identified as medically necessary by the ordering health care provider.

(h) The external medical reviewer shall require a Medicaid managed care organization, in an external medical review relating to a reduction in services, to submit a detailed reason for the reduction and supporting documents.

(i) To the extent money is appropriated for this purpose, the commission shall publish data regarding prior authorizations reviewed by the external medical reviewer, including the rate of prior authorization denials overturned by the external medical reviewer and additional information the commission and the external medical reviewer determine appropriate.
Sec. 531.024165. MEDICAL REVIEW OF MEDICAID SERVICE DENIALS FOR FOSTER CARE YOUTH. (a) Using existing resources, the commission shall coordinate with the Department of Family and Protective Services to develop and implement a process to review a denial of services under the Medicaid managed care program on the basis of medical necessity for foster care youth.

(b) Not later than December 31, 2022, the commission and the Department of Family and Protective Services shall submit a report to the legislature that includes a summary of the process developed and implemented under Subsection (a).

(c) This section expires September 1, 2023.

Sec. 531.02417. MEDICAID NURSING SERVICES ASSESSMENTS. (a) In this section, "acute nursing services" means home health skilled nursing services, home health aide services, and private duty nursing services.

(b) If cost-effective, the commission shall develop an objective assessment process for use in assessing a Medicaid recipient's needs for acute nursing services. If the commission develops an objective assessment process under this section, the commission shall require that:

(1) the assessment be conducted:
(A) by a state employee or contractor who is a registered nurse who is licensed to practice in this state and who is not the person who will deliver any necessary services to the recipient and is not affiliated with the person who will deliver those services; and

(B) in a timely manner so as to protect the health and safety of the recipient by avoiding unnecessary delays in service delivery; and

(2) the process include:

(A) an assessment of specified criteria and documentation of the assessment results on a standard form;

(B) an assessment of whether the recipient should be referred for additional assessments regarding the recipient's needs for therapy services, as defined by Section 531.024171, attendant care services, and durable medical equipment; and

(C) completion by the person conducting the assessment of any documents related to obtaining prior authorization for necessary nursing services.

(c) If the commission develops the objective assessment process under Subsection (b), the commission shall:

(1) implement the process within the Medicaid fee-for-service model and the primary care case management Medicaid managed care model; and

(2) take necessary actions, including modifying contracts with managed care organizations under Chapter 533 to the extent allowed by law, to implement the process within the STAR and STAR + PLUS Medicaid managed care programs.

(d) Unless the commission determines that the assessment is feasible and beneficial, an assessment under Subsection (b)(2)(B) of whether a recipient should be referred for additional therapy services shall be waived if the recipient's need for therapy services has been established by a recommendation from a therapist providing care prior to discharge of the recipient from a licensed hospital or nursing home. The assessment may not be waived if the recommendation is made by a therapist who will deliver any services to the recipient or is affiliated with a person who will deliver those services when the recipient is discharged from the licensed hospital or nursing home.

(e) The executive commissioner shall adopt rules providing for a process by which a provider of acute nursing services who disagrees
with the results of the assessment conducted under Subsection (b) may request and obtain a review of those results.

Added by Acts 2011, 82nd Leg., 1st C.S., Ch. 7 (S.B. 7), Sec. 1.01(a), eff. September 28, 2011.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4611, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 531.024171. THERAPY SERVICES ASSESSMENTS. (a) In this section, "therapy services" includes occupational, physical, and speech therapy services.

(b) After implementing the objective assessment process for acute nursing services in accordance with Section 531.02417, the commission shall consider whether implementing age- and diagnosis-appropriate objective assessment processes for assessing the needs of a Medicaid recipient for therapy services would be feasible and beneficial.

(c) If the commission determines that implementing age- and diagnosis-appropriate processes with respect to one or more types of therapy services is feasible and would be beneficial, the commission may implement the processes within:

(1) the Medicaid fee-for-service model;
(2) the primary care case management Medicaid managed care model; and
(3) the STAR and STAR + PLUS Medicaid managed care programs.

(d) An objective assessment process implemented under this section must include a process that allows a provider of therapy services to request and obtain a review of the results of an assessment conducted as provided by this section that is comparable to the process implemented under rules adopted under Section 531.02417(e).

Added by Acts 2011, 82nd Leg., 1st C.S., Ch. 7 (S.B. 7), Sec. 1.01(a), eff. September 28, 2011.
Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4611, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 531.024172. ELECTRONIC VISIT VERIFICATION SYSTEM. (a) Not later than March 31, 2018, the commission shall conduct a review of the electronic visit verification system in use under this section on August 31, 2017. Notwithstanding any other provision of this section, the commission is required to implement a change in law made to this section by S.B. 894, Acts of the 85th Legislature, Regular Session, 2017, only if the commission determines the implementation is appropriate based on the findings of the review. The commission may combine the review required by this subsection with any similar review required to be conducted by the commission.

(b) Subject to Subsection (g), the commission shall, in accordance with federal law, implement an electronic visit verification system to electronically verify through a telephone, global positioning, or computer-based system that personal care services, attendant care services, or other services identified by the commission that are provided to recipients under Medicaid, including personal care services or attendant care services provided under the Texas Health Care Transformation and Quality Improvement Program waiver issued under Section 1115 of the federal Social Security Act (42 U.S.C. Section 1315) or any other Medicaid waiver program, are provided to recipients in accordance with a prior authorization or plan of care. The electronic visit verification system implemented under this subsection must allow for verification of only the following information relating to the delivery of Medicaid services:

(1) the type of service provided;
(2) the name of the recipient to whom the service is provided;
(3) the date and times the provider began and ended the service delivery visit;
(4) the location, including the address, at which the service was provided;
(5) the name of the individual who provided the service; and
(6) other information the commission determines is necessary to ensure the accurate adjudication of Medicaid claims.
(c) The commission shall inform each Medicaid recipient who receives personal care services, attendant care services, or other services identified by the commission that the health care provider providing the services and the recipient are each required to comply with the electronic visit verification system. A managed care organization that contracts with the commission to provide health care services to Medicaid recipients described by this subsection shall also inform recipients enrolled in a managed care plan offered by the organization of those requirements.

(d) In implementing the electronic visit verification system:
   (1) subject to Subsection (e), the executive commissioner shall adopt compliance standards for health care providers; and
   (2) the commission shall ensure that:
      (A) the information required to be reported by health care providers is standardized across managed care organizations that contract with the commission to provide health care services to Medicaid recipients and across commission programs;
      (B) processes required by managed care organizations to retrospectively correct data are standardized and publicly accessible to health care providers;
      (C) standardized processes are established for addressing the failure of a managed care organization to provide a timely authorization for delivering services necessary to ensure continuity of care; and
      (D) a health care provider is allowed to enter a variable schedule into the electronic visit verification system.

(e) In establishing compliance standards for health care providers under Subsection (d), the executive commissioner shall consider:
   (1) the administrative burdens placed on health care providers required to comply with the standards; and
   (2) the benefits of using emerging technologies for ensuring compliance, including Internet-based, mobile telephone-based, and global positioning-based technologies.

(f) A health care provider that provides personal care services, attendant care services, or other services identified by the commission to Medicaid recipients shall:
   (1) use an electronic visit verification system to document the provision of those services;
   (2) comply with all documentation requirements established
by the commission;

(3) comply with applicable federal and state laws regarding confidentiality of recipients' information;

(4) ensure that the commission or the managed care organization with which a claim for reimbursement for a service is filed may review electronic visit verification system documentation related to the claim or obtain a copy of that documentation at no charge to the commission or the organization; and

(5) at any time, allow the commission or a managed care organization with which a health care provider contracts to provide health care services to recipients enrolled in the organization's managed care plan to have direct, on-site access to the electronic visit verification system in use by the health care provider.

(g) The commission may recognize a health care provider's proprietary electronic visit verification system, whether purchased or developed by the provider, as complying with this section and allow the health care provider to use that system for a period determined by the commission if the commission determines that the system:

(1) complies with all necessary data submission, exchange, and reporting requirements established under this section; and

(2) meets all other standards and requirements established under this section.

(g-1) If feasible, the executive commissioner shall ensure a health care provider that uses the provider's proprietary electronic visit verification system recognized under Subsection (g) is reimbursed for the use of that system.

(g-2) For purposes of facilitating the use of proprietary electronic visit verification systems by health care providers under Subsection (g) and in consultation with industry stakeholders and the work group established under Subsection (h), the commission or the executive commissioner, as appropriate, shall:

(1) develop an open model system that mitigates the administrative burdens identified by providers required to use electronic visit verification;

(2) allow providers to use emerging technologies, including Internet-based, mobile telephone-based, and global positioning-based technologies, in the providers' proprietary electronic visit verification systems; and

(3) adopt rules governing data submission and provider
reimbursement.

(h) The commission shall create a stakeholder work group comprised of representatives of affected health care providers, managed care organizations, and Medicaid recipients and periodically solicit from that work group input regarding the ongoing operation of the electronic visit verification system under this section.

(i) The executive commissioner may adopt rules necessary to implement this section.

(a) The commission shall enter into a memorandum of understanding with the Texas Juvenile Justice Department to ensure that each individual who is committed, placed, or detained under Title 3, Family Code, is assessed by the commission for eligibility for Medicaid and the child health plan program before that individual's release from commitment, placement, or detention. Local juvenile probation departments are subject to the requirements of the memorandum.

(c) The memorandum of understanding entered into as required by this section must specify:

(1) the information that must be provided to the commission;

Sec. 531.0244. ENSURING APPROPRIATE CARE SETTING FOR PERSONS WITH DISABILITIES. (a) The commission and appropriate health and human services agencies shall implement a comprehensive, effectively working plan that provides a system of services and support that fosters independence and productivity and provides meaningful opportunities for a person with a disability to live in the most appropriate care setting, considering:

(1) the person's physical, medical, and behavioral needs;
(2) the least restrictive care setting in which the person can reside;
(3) the person's choice of care settings in which to reside;
(4) the availability of state resources; and
(5) the availability of state programs for which the person qualifies that can assist the person.

(b) The comprehensive, effectively working plan required by Subsection (a) must require appropriate health and human services agencies to:

(1) provide to a person with a disability living in an institution and to any other person as required by Sections 531.042 and 531.02442 information regarding care and support options available to the person with a disability, including community-based services appropriate to the needs of that person;

(4) develop strategies to prevent the unnecessary placement in an institution of a person with a disability who is living in the community but is in imminent risk of requiring placement in an institution because of a lack of community services.

(c) For purposes of developing the strategies required by Subsection (b)(4), a person with a mental illness who is admitted to a facility of the Department of State Health Services for inpatient mental health services three or more times during a 180-day period is presumed to be in imminent risk of requiring placement in an institution. The strategies must be developed in a manner that presumes the person's eligibility for and the appropriateness of intensive community-based services and support.

(c-1) For purposes of determining the appropriateness of transfers under Subsection (b)(3) and developing the strategies required by Subsection (b)(4), a health and human services agency shall presume the eligibility of a child residing in a general residential operation, as defined by Section 42.002, Human Resources Code, for transfer to an appropriate community-based setting.

(d) In implementing the plan required by Subsection (a), a health and human services agency may not deny an eligible person with a disability access to an institution or remove an eligible person with a disability from an institution if the person prefers the type and degree of care provided in the institution and that care is appropriate for the person. A health and human services agency may deny the person access to an institution or remove the person from an institution to protect the person's health or safety.

(e) Each appropriate health and human services agency shall implement the strategies and recommendations under the plan required by Subsection (a) subject to the availability of funds.

(g) Not later than December 1 of each even-numbered year, the executive commissioner shall submit to the governor and the legislature a report on the status of the implementation of the plan required by Subsection (a). (b) The rules must require each health and human services agency to provide information about all long-term care options and long-term support options available to the patient or client, including community-based options and options available through another agency or a private provider. (b) The guiding principles and goals of the plan focusing on the individual and the individual's family must:

(1) recognize that it is the policy of this state that children should grow up in families and that persons with disabilities and elderly persons should live in the setting of their
choice; and

      (3) recognize that maximum independence and autonomy represent major goals, and with those comes a certain degree of risk;
      (4) maximize resources to the greatest extent possible, with the consumer receiving only the services that the consumer prefers and that are indicated by a functional assessment of need; and
      (5) structure the service delivery system to support these goals, ensuring that any necessary complexity of the system is at the administrative level rather than at the client level.
   (d) The commission shall coordinate state services to ensure that:
      (1) the roles and responsibilities of the agencies providing long-term care are clarified; and
      (2) duplication of services and resources is minimized.
   (e) In this section, "long-term care" means the provision of health care, personal care, and assistance related to health and social services over a sustained period to people of all ages and their families, regardless of the setting in which the care is given.

(b) A health and human services agency that purchases substitute care services must include the result-oriented standards as requirements in each substitute care service provider contract.

The executive commissioner shall set the percentage based on comparable recovery rates reported by other states or other appropriate factors identified by the executive commissioner.

Sec. 531.060. FAMILY-BASED ALTERNATIVES FOR CHILDREN. (a) The purpose of the system of family-based alternatives required by this section is to further the state's policy of providing for a child's basic needs for safety, security, and stability through ensuring that a child becomes a part of a successful permanent family as soon as possible.

(b) In achieving the purpose described by Subsection (a), the system is intended to be operated in a manner that recognizes that
parents are a valued and integral part of the process established under the system. The system shall encourage parents to participate in all decisions affecting their children and shall respect the authority of parents, other than parents whose parental rights have been terminated, to make decisions regarding their children.

(c) In this section:

(1) "Child" means a person younger than 22 years of age who has a physical or developmental disability or who is medically fragile.

(2) "Family-based alternative" means a family setting in which the family provider or providers are specially trained to provide support and in-home care for children with disabilities or children who are medically fragile.

(3) "Institution" means any congregate care facility, including:

(A) a nursing facility;

(B) an ICF-IID, as defined by Section 531.002, Health and Safety Code;

(C) a group home operated by the Department of Aging and Disability Services; and

(D) the Deaf Blind with Multiple Disabilities (DBMD) waiver program; and

(E) any other Section 1915(c) waiver program that provides long-term care services for children.

(d) The commission shall contract with a community organization, including a faith-based community organization, or a nonprofit organization for the development and implementation of a system under which a child who cannot reside with the child's birth family may receive necessary services in a family-based alternative instead of an institution. To be eligible for the contract under this subsection, an organization must possess knowledge regarding the
support needs of children with disabilities and their families. For purposes of this subsection, a community organization, including a faith-based community organization, or a nonprofit organization does not include:

(1) any governmental entity; or
(2) any quasi-governmental entity to which a state agency delegates its authority and responsibility for planning, supervising, providing, or ensuring the provision of state services.

(1) community organizations, including faith-based community organizations;
(2) nonprofit organizations;
(3) governmental entities; or
(4) quasi-governmental entities to which state agencies delegate authority and responsibility for planning, supervising, providing, or ensuring the provision of state services.

(f) The commission shall begin implementation of the system in areas of this state with high numbers of children who reside in institutions.

(g) Each affected health and human services agency shall cooperate with the contractor and any subcontractors and take all action necessary to implement the system and comply with the requirements of this section. The commission has final authority to make any decisions and resolve any disputes regarding the system.

(h) The system may be administered in cooperation with public and private entities.

(i) The system must provide for:

(1) recruiting and training alternative families to provide services for children;
(2) comprehensively assessing each child in need of services and each alternative family available to provide services, as necessary to identify the most appropriate alternative family for placement of the child;
(3) providing to a child's parents or guardian information regarding the availability of a family-based alternative;
(4) identifying each child residing in an institution and offering support services, including waiver services, that would enable the child to return to the child's birth family or be placed in a family-based alternative; and
(5) determining through a child's permanency plan other circumstances in which the child must be offered waiver services, including circumstances in which changes in an institution's status affect the child's placement or the quality of services received by the child.

(j) In complying with the requirement imposed by Subsection (i)(3), the commission shall ensure that the procedures for providing information to parents or a guardian permit and encourage the participation of an individual who is not affiliated with the institution in which the child resides or with an institution in which the child could be placed.

(k) In placing a child in a family-based alternative, the system may use a variety of placement options, including an arrangement in which shared parenting occurs between the alternative family and the child's birth family. Regardless of the option used, a family-based alternative placement must be designed to be a long-term arrangement, except in cases in which the child's birth family chooses to return the child to their home. In cases in which the birth family's parental rights have been terminated, adoption of the child by the child's alternative family is an available option.

(l) The commission or the contractor may solicit and accept gifts, grants, and donations to support the system's functions under this section.

(m) In designing the system, the commission shall consider and, when appropriate, incorporate current research and recommendations developed by other public and private entities involved in analyzing public policy relating to children residing in institutions.

(n) As necessary to implement this section, the commission shall:

(1) ensure that an appropriate number of openings for waiver services that become available as a result of funding for the purpose of transferring persons with disabilities into community-based services are made available to both children and adults;

(2) ensure that service definitions applicable to waiver services are modified as necessary to permit the provision of waiver services through family-based alternatives;

(3) ensure that procedures are implemented for making a level of care determination for each child and identifying the most appropriate waiver service for the child, including procedures under which the director of long-term care for the commission, after
considering any preference of the child's birth family or alternative family, resolves disputes among agencies about the most appropriate waiver service; and

(4) require that the health and human services agency responsible for providing a specific waiver service to a child also assume responsibility for identifying any necessary transition activities or services.

(o) Not later than January 1 of each year, the commission shall report to the legislature on the implementation of the system. The report must include a statement of:

(1) the number of children currently receiving care in an institution;

(2) the number of children placed in a family-based alternative under the system during the preceding year;

(3) the number of children who left an institution during the preceding year under an arrangement other than a family-based alternative under the system or for another reason unrelated to the availability of a family-based alternative under the system;

(4) the number of children waiting for an available placement in a family-based alternative under the system; and

(5) the number of alternative families trained and available to accept placement of a child under the system.

   (1) shall designate the individual's status on the interest list as inactive until the individual or the individual's parent or other legally authorized representative notifies the commission that the individual is still interested in receiving services under the waiver program; and

individual was initially placed on the list.

(e) The commission's designation of an individual's status on an interest list as inactive under Subsection (d) may not result in the removal of the individual from that list or any other waiver program interest list.

(f) Not later than September 1 of each year, the commission shall provide to the Intellectual and Developmental Disability System Redesign Advisory Committee established under Section 534.053, or, if that advisory committee is abolished, an appropriate stakeholder advisory committee, as determined by the executive commissioner, the number of individuals, including individuals whose status is designated as inactive by the commission, who are on an interest list to receive services under a waiver program.

The commission shall ensure the provision of the results does not delay the determination of the services to be provided to the recipient or the ability to authorize and initiate services.

(b) The commission shall require the parent's or representative's signature to verify the parent or representative received the results of the initial assessment or reassessment from the care coordinator under Subsection (a). A Medicaid managed care organization may not delay the delivery of care pending the signature.

(c) The commission shall provide a parent or representative who
disagrees with the results of the initial assessment or reassessment an opportunity to request to dispute the results with the Medicaid managed care organization through a peer-to-peer review with the treating physician of choice.

Sec. 531.070. SUPPLEMENTAL REBATES. (a) In this section:

(1) "Labeler" means a person that:
   (A) has a labeler code from the United States Food and Drug Administration under 21 C.F.R. Section 207.20; and
   (B) receives prescription drugs from a manufacturer or wholesaler and repackages those drugs for later retail sale.

(2) "Manufacturer" means a manufacturer of prescription drugs as defined by 42 U.S.C. Section 1396r-8(k)(5) and its subsequent amendments, including a subsidiary or affiliate of a manufacturer.

(3) "Wholesaler" means a person licensed under Subchapter I, Chapter 431, Health and Safety Code.

(b) For purposes of this section, the term "supplemental rebates" means cash rebates paid by a manufacturer to the state on the basis of appropriate quarterly health and human services program utilization data relating to the manufacturer's products, pursuant to
a state supplemental rebate agreement negotiated with the manufacturer and, if necessary, approved by the federal government under Section 1927 of the federal Social Security Act (42 U.S.C. Section 1396r-8).

(c) The commission may enter into a written agreement with a manufacturer to accept certain program benefits in lieu of supplemental rebates, as defined by this section, only if:

(1) the program benefit yields savings that are at least equal to the amount the manufacturer would have provided under a state supplemental rebate agreement during the current biennium as determined by the written agreement;

(2) the manufacturer posts a performance bond guaranteeing savings to the state, and agrees that if the savings are not achieved in accordance with the written agreement, the manufacturer will forfeit the bond to the state less any savings that were achieved; and

(3) the program benefit is in addition to other program benefits currently offered by the manufacturer to recipients of Medicaid or related programs.

(d) For purposes of this section, a program benefit may mean disease management programs authorized under this title, drug product donation programs, drug utilization control programs, prescriber and beneficiary counseling and education, fraud and abuse initiatives, and other services or administrative investments with guaranteed savings to a program operated by a health and human services agency.

(e) Other than as required to satisfy the provisions of this section, the program benefits shall be deemed an alternative to, and not the equivalent of, supplemental rebates and shall be treated in the state's submissions to the federal government (including, as appropriate, waiver requests and quarterly Medicaid claims) so as to maximize the availability of federal matching payments.

(f) Agreements by the commission to accept program benefits as defined by this section:

(1) may not prohibit the commission from entering into similar agreements related to different drug classes with other entities;

(2) shall be limited to a time period expressly determined by the commission; and

(3) may only cover products that have received approval by the Federal Drug Administration at the time of the agreement, and new
products approved after the agreement may be incorporated only under an amendment to the agreement.

(g) For purposes of this section, the commission may consider a monetary contribution or donation to the arrangements described in Subsection (c) for the purpose of offsetting expenditures to other state health care programs, but which funding may not be used to offset expenditures for covered outpatient drugs as defined by 42 U.S.C. Section 1396r-8(k)(2) under the vendor drug program. An arrangement under this subsection may not yield less than the amount the state would have benefited under a supplemental rebate. The commission may consider an arrangement under this section as satisfying the requirements related to Section 531.072(b).

(h) Subject to Subsection (i), the commission shall negotiate with manufacturers and labelers, including generic manufacturers and labelers, to obtain supplemental rebates for prescription drugs provided under:

1. the Medicaid vendor drug program in excess of the Medicaid rebates required by 42 U.S.C. Section 1396r-8 and its subsequent amendments;

2. the child health plan program; and

3. any other state program administered by the commission or a health and human services agency, including community mental health centers and state mental health hospitals.

(n) Prior to or during supplemental rebate agreement negotiations for drugs being considered for the preferred drug list, the commission shall disclose to pharmaceutical manufacturers any clinical edits or clinical protocols that may be imposed on drugs within a particular drug category that are placed on the preferred list during the contract period. (a) Notwithstanding any other state law, information obtained or maintained by the commission regarding prescription drug rebate negotiations or a supplemental Medicaid or other rebate agreement, including trade secrets, rebate amount, rebate percentage, and manufacturer or labeler pricing, is confidential and not subject to disclosure under Chapter 552.

(b) Information that is confidential under Subsection (a) includes information described by Subsection (a) that is obtained or maintained by the commission in connection with the Medicaid vendor drug program, the child health plan program, the kidney health care program, the children with special health care needs program, or another state program administered by the commission or a health and human services agency.

(c) General information about the aggregate costs of different classes of drugs is not confidential under Subsection (a), except that a drug name or information that could reveal a drug name is confidential.

Sec. 531.072. PREFERRED DRUG LISTS. (a) In a manner that complies with applicable state and federal law, the commission shall adopt preferred drug lists for the Medicaid vendor drug program and for prescription drugs purchased through the child health plan program. The commission may adopt preferred drug lists for community mental health centers, state mental health hospitals, and any other state program administered by the commission or a state health and human services agency.

(b) The preferred drug lists may contain only drugs provided by a manufacturer or labeler that reaches an agreement with the commission on supplemental rebates under Section 531.070.

(b-1) Notwithstanding Subsection (b), the preferred drug lists may contain:

(1) a drug provided by a manufacturer or labeler that has not reached a supplemental rebate agreement with the commission if the commission determines that inclusion of the drug on the preferred drug lists will have no negative cost impact to the state; or

(2) a drug provided by a manufacturer or labeler that has reached an agreement with the commission to provide program benefits in lieu of supplemental rebates, as described by Section 531.070.

(b-2) Consideration must be given to including all strengths and dosage forms of a drug on the preferred drug lists.

(c) In making a decision regarding the placement of a drug on each of the preferred drug lists, the commission shall consider:

(1) the recommendations of the Drug Utilization Review Board under Section 531.0736;

(2) the clinical efficacy of the drug;

(3) the price of competing drugs after deducting any
federal and state rebate amounts; and

(4) program benefit offerings solely or in conjunction with rebates and other pricing information.

(c-1) In addition to the considerations listed under Subsection (c), the commission shall consider the inclusion of multiple methods of delivery within each drug class, including liquid, tablet, capsule, and orally disintegrating tablets.

(d) The commission shall provide for the distribution of current copies of the preferred drug lists by posting the list on the Internet. In addition, the commission shall mail copies of the lists to any health care provider on request of that provider.

(e) In this subsection, "labeler" and "manufacturer" have the meanings assigned by Section 531.070. The commission shall ensure that:

(1) a manufacturer or labeler may submit written evidence supporting the inclusion of a drug on the preferred drug lists before a supplemental agreement is reached with the commission; and

(2) any drug that has been approved or has had any of its particular uses approved by the United States Food and Drug Administration under a priority review classification will be reviewed by the Drug Utilization Review Board at the next regularly scheduled meeting of the board. On receiving notice from a manufacturer or labeler of the availability of a new product, the commission, to the extent possible, shall schedule a review for the product at the next regularly scheduled meeting of the board.

(f) A recipient of drug benefits under the Medicaid vendor drug program may appeal a denial of prior authorization under Section 531.073 of a covered drug or covered dosage through the Medicaid fair hearing process.

the 88th Legislature. Pending publication of the current statutes,
see H.B. 4611 and H.B. 3286, 88th Legislature, Regular Session, for
amendments affecting the following section.

Sec. 531.073. PRIOR AUTHORIZATION FOR CERTAIN PRESCRIPTION
DRUGS. (a) The executive commissioner, in the rules and standards
governing the Medicaid vendor drug program and the child health plan
program, shall require prior authorization for the reimbursement of a
drug that is not included in the appropriate preferred drug list
adopted under Section 531.072, except for any drug exempted from
prior authorization requirements by federal law and except as
provided by Subsections (a-3) and (j). The executive commissioner
may require prior authorization for the reimbursement of a drug
provided through any other state program administered by the
commission or a state health and human services agency, including a
community mental health center and a state mental health hospital if
the commission adopts preferred drug lists under Section 531.072 that
apply to those facilities and the drug is not included in the
appropriate list. The executive commissioner shall require that the
prior authorization be obtained by the prescribing physician or
prescribing practitioner.

(a-1) Until the commission has completed a study evaluating the
impact of a requirement of prior authorization on recipients of
certain drugs, the executive commissioner shall delay requiring prior
authorization for drugs that are used to treat patients with
illnesses that:

(1) are life-threatening;
(2) are chronic; and
(3) require complex medical management strategies.

(a-2) Not later than the 30th day before the date on which
prior authorization requirements are implemented, the commission
shall post on the Internet for consumers and providers:

(1) a notification of the implementation date; and
(2) a detailed description of the procedures to be used in
obtaining prior authorization.

(a-3) The executive commissioner, in the rules and standards
governing the vendor drug program, may not require prior
authorization for a nonpreferred antipsychotic drug that is included
on the vendor drug formulary and prescribed to an adult patient if:

(1) during the preceding year, the patient was prescribed
and unsuccessfully treated with a 14-day treatment trial of an antipsychotic drug that is included on the appropriate preferred drug list adopted under Section 531.072 and for which a single claim was paid;

(2) the patient has previously been prescribed and obtained prior authorization for the nonpreferred antipsychotic drug and the prescription is for the purpose of drug dosage titration; or

(3) subject to federal law on maximum dosage limits and commission rules on drug quantity limits, the patient has previously been prescribed and obtained prior authorization for the nonpreferred antipsychotic drug and the prescription modifies the dosage, dosage frequency, or both, of the drug as part of the same treatment for which the drug was previously prescribed.

(a-4) Subsection (a-3) does not affect:

(1) the authority of a pharmacist to dispense the generic equivalent or interchangeable biological product of a prescription drug in accordance with Subchapter A, Chapter 562, Occupations Code;

(2) any drug utilization review requirements prescribed by state or federal law; or

(3) clinical prior authorization edits to preferred and nonpreferred antipsychotic drug prescriptions.

(a-5) The executive commissioner, in the rules and standards governing the vendor drug program and as part of the requirements under a contract between the commission and a Medicaid managed care organization, shall:

(1) require, to the maximum extent possible based on a pharmacy benefit manager's claim system, automation of clinical prior authorization for each drug in the antipsychotic drug class; and

(2) ensure that, at the time a nonpreferred or clinical prior authorization edit is denied, a pharmacist is immediately provided a point-of-sale return message that:

(A) clearly specifies the contact and other information necessary for the pharmacist to submit a prior authorization request for the prescription; and

(B) instructs the pharmacist to dispense, only if clinically appropriate under federal or state law, a 72-hour supply of the prescription.

(b) The commission shall establish procedures for the prior authorization requirement under the Medicaid vendor drug program to ensure that the requirements of 42 U.S.C. Section 1396r-8(d)(5) and
its subsequent amendments are met. Specifically, the procedures must ensure that:

(1) a prior authorization requirement is not imposed for a drug before the drug has been considered at a meeting of the Drug Utilization Review Board under Section 531.0736;

(2) there will be a response to a request for prior authorization by telephone or other telecommunications device within 24 hours after receipt of a request for prior authorization; and

(3) a 72-hour supply of the drug prescribed will be provided in an emergency or if the commission does not provide a response within the time required by Subdivision (2).

(c) The commission shall ensure that a prescription drug prescribed before implementation of a prior authorization requirement for that drug for a recipient under the child health plan program, Medicaid, or another state program administered by the commission or a health and human services agency or for a person who becomes eligible under the child health plan program, Medicaid, or another state program administered by the commission or a health and human services agency is not subject to any requirement for prior authorization under this section unless the recipient has exhausted all the prescription, including any authorized refills, or a period prescribed by the commission has expired, whichever occurs first.

(d) The commission shall implement procedures to ensure that a recipient under the child health plan program, Medicaid, or another state program administered by the commission or a person who becomes eligible under the child health plan program, Medicaid, or another state program administered by the commission or a health and human services agency receives continuity of care in relation to certain prescriptions identified by the commission.

(e) The commission may by contract authorize a private entity to administer the prior authorization requirements imposed by this section on behalf of the commission.

(f) The commission shall ensure that the prior authorization requirements are implemented in a manner that minimizes the cost to the state and any administrative burden placed on providers.

(g) The commission shall ensure that requests for prior authorization may be submitted by telephone, facsimile, or electronic communications through the Internet.

(h) The commission shall provide an automated process that may be used to assess a Medicaid recipient's medical and drug claim
history to determine whether the recipient's medical condition satisfies the applicable criteria for dispensing a drug without an additional prior authorization request.

(i) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1312, Sec. 99(17), eff. September 1, 2013.

(j) The executive commissioner, in the rules and standards governing the Medicaid vendor drug program, may not require a clinical, nonpreferred, or other prior authorization for any antiretroviral drug, or a step therapy or other protocol, that could restrict or delay the dispensing of the drug except to minimize fraud, waste, or abuse. In this subsection, "antiretroviral drug" means a drug that treats human immunodeficiency virus infection or prevents acquired immune deficiency syndrome. The term includes:

(1) protease inhibitors;
(2) non-nucleoside reverse transcriptase inhibitors;
(3) nucleoside reverse transcriptase inhibitors;
(4) integrase inhibitors;
(5) fusion inhibitors;
(6) attachment inhibitors;
(7) CD4 post-attachment inhibitors;
(8) CCR5 receptor antagonists; and
(9) other antiretroviral drugs used to treat human immunodeficiency virus infection or prevent acquired immune deficiency syndrome.

Sec. 531.0735. MEDICAID DRUG UTILIZATION REVIEW PROGRAM: DRUG USE REVIEWS AND ANNUAL REPORT. (a) In this section:

(1) "Medicaid Drug Utilization Review Program" means the program operated by the vendor drug program to improve the quality of pharmaceutical care under Medicaid.

(2) "Prospective drug use review" means the review of a patient's drug therapy and prescription drug order or medication order before dispensing or distributing a drug to the patient.

(3) "Retrospective drug use review" means the review of prescription drug claims data to identify patterns of prescribing.

(b) The commission shall provide for an increase in the number and types of retrospective drug use reviews performed each year under the Medicaid Drug Utilization Review Program, in comparison to the number and types of reviews performed in the state fiscal year ending August 31, 2009.

(c) In determining the number and types of drug use reviews to be performed, the commission shall:

(1) allow for the repeat of retrospective drug use reviews that address ongoing drug therapy problems and that, in previous years, improved client outcomes and reduced Medicaid spending;

(2) consider implementing disease-specific retrospective drug use reviews that address ongoing drug therapy problems in this state and that reduced Medicaid prescription drug use expenditures in other states; and

(3) regularly examine Medicaid prescription drug claims data to identify occurrences of potential drug therapy problems that may be addressed by repeating successful retrospective drug use reviews performed in this state and other states.

(d) In addition to any other information required by federal law, the commission shall include the following information in the annual report regarding the Medicaid Drug Utilization Review Program:

(1) a detailed description of the program's activities; and
(2) estimates of cost savings anticipated to result from
the program's performance of prospective and retrospective drug use
reviews.

(e) The cost-saving estimates for prospective drug use reviews
under Subsection (d) must include savings attributed to drug use
reviews performed through the vendor drug program's electronic claims
processing system and clinical edits screened through the prior
authorization system implemented under Section 531.073.

(f) The commission shall post the annual report regarding the
Medicaid Drug Utilization Review Program on the commission's website.

To the extent money is appropriated to the commission for that
purpose, the commission shall establish a matching grant program for
the purpose of supporting community mental health programs providing
services and treatment to individuals experiencing mental illness.

(b) The commission shall ensure that each grant recipient
obtains or secures contributions to match awarded grants in amounts
of money or other consideration as required by Subsection (h). The
money or other consideration obtained or secured by the recipient, as
determined by the executive commissioner, may include cash or in-kind
contributions from any person but may not include money from state or
federal funds.

(c) Money appropriated to or obtained by the commission for the
matching grant program must be disbursed directly to grant recipients
by the commission, as authorized by the executive commissioner.

(d) A grant awarded under the matching grant program and
matching amounts must be used for the sole purpose of supporting
community programs that provide mental health care services and
treatment to individuals with a mental illness and that coordinate
mental health care services for individuals with a mental illness
with other transition support services.

(e) The commission shall select grant recipients based on the
submission of applications or proposals by nonprofit and governmental
entities. The executive commissioner shall develop criteria for the
evaluation of those applications or proposals and the selection of grant recipients. The selection criteria must:

1. Evaluate and score:
   - (A) fiscal controls for the project;
   - (B) project effectiveness;
   - (C) project cost; and
   - (D) an applicant's previous experience with grants and contracts;

2. Address whether the services proposed in the application or proposal would duplicate services already available in the applicant's service area;

3. Address the possibility of and method for making multiple awards; and

4. Include other factors that the executive commissioner considers relevant.

(f) A nonprofit or governmental entity that applies for a grant under this section must notify each local mental health authority with a local service area that is covered wholly or partly by the entity's proposed community mental health program and must provide in the entity's application a letter of support from each local mental health authority with a local service area that is covered wholly or partly by the entity's proposed community mental health program. The commission shall consider a local mental health authority's written input before awarding a grant under this section and may take any recommendations made by the authority.

(g) The commission shall condition each grant awarded to a recipient under the program on the recipient obtaining or securing matching funds from non-state sources in amounts of money or other consideration as required by Subsection (h).

(h) A community that receives a grant under this section is required to leverage funds in an amount:

1. Equal to 25 percent of the grant amount if the community mental health program is located in a county with a population of less than 100,000;

2. Equal to 50 percent of the grant amount if the community mental health program is located in a county with a population of 100,000 or more but less than 250,000;

3. Equal to 100 percent of the grant amount if the community mental health program is located in a county with a population of at least 250,000; and
equal to the percentage of the grant amount otherwise required by this subsection for the largest county in which a community mental health program is located if the community mental health program is located in more than one county.

(i) Except as provided by Subsection (j), from money appropriated to the commission for each fiscal year to implement this section, the commission shall reserve 50 percent of that total to be awarded only as grants to a community mental health program located in a county with a population not greater than 250,000.

(j) To the extent money appropriated to the commission to implement this section for a fiscal year remains available to the commission after the commission selects grant recipients for the fiscal year, the commission shall make grants available using the money remaining for the fiscal year through a competitive request for proposal process, without regard to the limitation provided by Subsection (i).

(k) Not later than December 1 of each even-numbered year, the executive commissioner shall submit to the governor, the lieutenant governor, and each member of the legislature a report evaluating the success of the matching grant program created by this section.

(l) The executive commissioner shall adopt any rules necessary to implement the matching grant program under this section.

(m) The commission shall implement a process to better coordinate all behavioral health grants administered by the commission in a manner that streamlines the administrative processes at the commission and decreases the administrative burden on applicants applying for multiple grants. This may include the development of a standard application for multiple behavioral health grants.

(n) A reasonable amount not to exceed five percent of the money appropriated by the legislature for the purposes of this section may be used by the commission to pay administrative costs of implementing this section.

this section. The commission must fulfill the commission's requirements under this subsection not later than the 60th day of each fiscal year.

8. the provision of local community hospital, crisis, respite, or residential beds.

(f-1) Beginning on or after September 1, 2018, to the extent money appropriated to the commission for a fiscal year to implement this section remains available to the commission after the commission selects grant recipients for the fiscal year, the commission shall make grants available using the money remaining for the fiscal year through a competitive request for proposal process, without regard to the limitation provided by Subsection (c-2).

(g) Not later than the 90th day after the last day of the state fiscal year for which the commission distributes a grant under this section, each community collaborative that receives a grant shall prepare and submit a report describing the effect of the grant money and matching funds in achieving the standard defined by the outcome measures in the plan submitted under Subsection (d).

(h) The commission may make inspections of the operation and provision of mental health services provided by a community collaborative to ensure state money appropriated for the grant
program is used effectively.

(i) The commission may not award a grant under this section for a fiscal year to a community collaborative that includes a county with a population greater than four million if the legislature appropriates money for a mental health jail diversion program in the county for that fiscal year.

(j) A reasonable amount not to exceed five percent of the money appropriated by the legislature for the purposes of this section may be used by the commission to pay administrative costs of implementing this section.

(a) The commission's office of inspector general is responsible for the prevention, detection, audit, inspection, review, and investigation of fraud, waste, and abuse in the provision and delivery of all health and human services in the state, including services through any state-administered health or human services program that is wholly or partly federally funded or services provided by the Department of Family and Protective Services, and the enforcement of state law relating to the provision of those services. The commission may obtain any information or technology necessary to enable the office to meet its responsibilities under this subchapter or other law.

(a-1) The governor shall appoint an inspector general to serve as director of the office. The inspector general serves a one-year term that expires on February 1.

(a-2) The executive commissioner shall work in consultation with the office whenever the executive commissioner is required by law to adopt a rule or policy necessary to implement a power or duty of the office, including a rule necessary to carry out a
responsibility of the office under Subsection (a).

(a-3) The executive commissioner is responsible for performing all administrative support services functions necessary to operate the office in the same manner that the executive commissioner is responsible for providing administrative support services functions for the health and human services system, including functions of the office related to the following:

(1) procurement processes;
(2) contracting policies;
(3) information technology services;
(4) subject to Subsection (a-8), legal services;
(5) budgeting; and
(6) personnel and employment policies.

(a-4) The commission's internal audit division shall regularly audit the office as part of the commission's internal audit program and shall include the office in the commission's risk assessments.

(a-5) The office shall closely coordinate with the executive commissioner and the relevant staff of health and human services system programs that the office oversees in performing functions relating to the prevention of fraud, waste, and abuse in the delivery of health and human services and the enforcement of state law relating to the provision of those services, including audits, utilization reviews, provider education, and data analysis.

(a-6) The office shall conduct audits, inspections, and investigations independent of the executive commissioner and the commission but shall rely on the coordination required by Subsection (a-5) to ensure that the office has a thorough understanding of the health and human services system for purposes of knowledgeably and effectively performing the office's duties under this section and any other law.

(a-7) The chief counsel for the commission is the final authority for all legal interpretations related to statutes, rules, and commission policy on programs administered by the commission.

(a-8) For purposes of Subsection (a-3), "legal services" includes only legal services related to open records, procurement, contracting, human resources, privacy, litigation support by the attorney general, bankruptcy, and other legal services as detailed in the memorandum of understanding or other written agreement required under Section 531.00553, as added by Chapter 837 (S.B. 200), Acts of the 84th Legislature, Regular Session, 2015.
(b) The commission, in consultation with the inspector general, shall set clear objectives, priorities, and performance standards for the office that emphasize:

(1) coordinating investigative efforts to aggressively recover money;

(2) allocating resources to cases that have the strongest supportive evidence and the greatest potential for recovery of money; and

(3) maximizing opportunities for referral of cases to the office of the attorney general in accordance with Section 531.103.

(c) The commission shall train office staff to enable the staff to pursue priority Medicaid and other health and human services fraud and abuse cases as necessary.

(d) The commission may require employees of health and human services agencies to provide assistance to the office in connection with the office's duties relating to the investigation of fraud and abuse in the provision of health and human services. The office is entitled to access to any information maintained by a health and human services agency, including internal records, relevant to the functions of the office.

(e) The executive commissioner, in consultation with the inspector general, by rule shall set specific claims criteria that, when met, require the office to begin an investigation.

(f) (1) If the commission receives a complaint or allegation of Medicaid fraud or abuse from any source, the office must conduct a preliminary investigation as provided by Section 531.118(c) to determine whether there is a sufficient basis to warrant a full investigation. A preliminary investigation must begin not later than the 30th day, and be completed not later than the 45th day, after the date the commission receives a complaint or allegation or has reason to believe that fraud or abuse has occurred.

(2) If the findings of a preliminary investigation give the office reason to believe that an incident of fraud or abuse involving possible criminal conduct has occurred in Medicaid, the office must take the following action, as appropriate, not later than the 30th day after the completion of the preliminary investigation:

(A) if a provider is suspected of fraud or abuse involving criminal conduct, the office must refer the case to the state's Medicaid fraud control unit, provided that the criminal referral does not preclude the office from continuing its
investigation of the provider, which investigation may lead to the
imposition of appropriate administrative or civil sanctions; or

(B) if there is reason to believe that a recipient has
defrauded Medicaid, the office may conduct a full investigation of
the suspected fraud, subject to Section 531.118(c).

(f-1) The office shall complete a full investigation of a
complaint or allegation of Medicaid fraud or abuse against a provider
not later than the 180th day after the date the full investigation
begins unless the office determines that more time is needed to
complete the investigation. Except as otherwise provided by this
subsection, if the office determines that more time is needed to
complete the investigation, the office shall provide notice to the
provider who is the subject of the investigation stating that the
length of the investigation will exceed 180 days and specifying the
reasons why the office was unable to complete the investigation
within the 180-day period. The office is not required to provide
notice to the provider under this subsection if the office determines
that providing notice would jeopardize the investigation.

(g)(1) Whenever the office learns or has reason to suspect that
a provider's records are being withheld, concealed, destroyed,
fabricated, or in any way falsified, the office shall immediately
refer the case to the state's Medicaid fraud control unit. However,
such criminal referral does not preclude the office from continuing
its investigation of the provider, which investigation may lead to
the imposition of appropriate administrative or civil sanctions.

(2) As authorized under state and federal law, and except
as provided by Subdivisions (8) and (9), the office shall impose
without prior notice a payment hold on claims for reimbursement
submitted by a provider only to compel production of records, when
requested by the state's Medicaid fraud control unit, or on the
determination that a credible allegation of fraud exists, subject to
Subsections (l) and (m), as applicable. The payment hold is a
serious enforcement tool that the office imposes to mitigate ongoing
financial risk to the state. A payment hold imposed under this
subdivision takes effect immediately. The office must notify the
provider of the payment hold in accordance with 42 C.F.R. Section
455.23(b) and, except as provided by that regulation, not later than
the fifth day after the date the office imposes the payment hold. In
addition to the requirements of 42 C.F.R. Section 455.23(b), the
notice of payment hold provided under this subdivision must also
include:

(A) the specific basis for the hold, including identification of the claims supporting the allegation at that point in the investigation, a representative sample of any documents that form the basis for the hold, and a detailed summary of the office's evidence relating to the allegation;

(B) a description of administrative and judicial due process rights and remedies, including the provider's option to seek informal resolution, the provider's right to seek a formal administrative appeal hearing, or that the provider may seek both; and

(C) a detailed timeline for the provider to pursue the rights and remedies described in Paragraph (B).

(3) On timely written request by a provider subject to a payment hold under Subdivision (2), other than a hold requested by the state's Medicaid fraud control unit, the office shall file a request with the State Office of Administrative Hearings for an expedited administrative hearing regarding the hold not later than the third day after the date the office receives the provider's request. The provider must request an expedited administrative hearing under this subdivision not later than the 10th day after the date the provider receives notice from the office under Subdivision (2). The State Office of Administrative Hearings shall hold the expedited administrative hearing not later than the 45th day after the date the State Office of Administrative Hearings receives the request for the hearing. In a hearing held under this subdivision:

(A) the provider and the office are each limited to four hours of testimony, excluding time for responding to questions from the administrative law judge;

(B) the provider and the office are each entitled to two continuances under reasonable circumstances; and

(C) the office is required to show probable cause that the credible allegation of fraud that is the basis of the payment hold has an indicia of reliability and that continuing to pay the provider presents an ongoing significant financial risk to the state and a threat to the integrity of Medicaid.

(4) The office is responsible for the costs of a hearing held under Subdivision (3), but a provider is responsible for the provider's own costs incurred in preparing for the hearing.

(5) In a hearing held under Subdivision (3), the
administrative law judge shall decide if the payment hold should continue but may not adjust the amount or percent of the payment hold. Notwithstanding any other law, including Section 2001.058(e), the decision of the administrative law judge is final and may not be appealed.

(6) The executive commissioner, in consultation with the office, shall adopt rules that allow a provider subject to a payment hold under Subdivision (2), other than a hold requested by the state's Medicaid fraud control unit, to seek an informal resolution of the issues identified by the office in the notice provided under that subdivision. A provider must request an initial informal resolution meeting under this subdivision not later than the deadline prescribed by Subdivision (3) for requesting an expedited administrative hearing. On receipt of a timely request, the office shall decide whether to grant the provider's request for an initial informal resolution meeting, and if the office decides to grant the request, the office shall schedule the initial informal resolution meeting. The office shall give notice to the provider of the time and place of the initial informal resolution meeting. A provider may request a second informal resolution meeting after the date of the initial informal resolution meeting. On receipt of a timely request, the office shall decide whether to grant the provider's request for a second informal resolution meeting, and if the office decides to grant the request, the office shall schedule the second informal resolution meeting. The office shall give notice to the provider of the time and place of the second informal resolution meeting. A provider must have an opportunity to provide additional information before the second informal resolution meeting for consideration by the office. A provider's decision to seek an informal resolution under this subdivision does not extend the time by which the provider must request an expedited administrative hearing under Subdivision (3). The informal resolution process shall run concurrently with the administrative hearing process, and the informal resolution process shall be discontinued once the State Office of Administrative Hearings issues a final determination on the payment hold.

(7) The office shall, in consultation with the state's Medicaid fraud control unit, establish guidelines under which program exclusions:

(A) may permissively be imposed on a provider; or
(B) shall automatically be imposed on a provider.
(7-a) The office shall, in consultation with the state's Medicaid fraud control unit, establish guidelines regarding the imposition of payment holds authorized under Subdivision (2).

(8) In accordance with 42 C.F.R. Sections 455.23(e) and (f), on the determination that a credible allegation of fraud exists, the office may find that good cause exists to not impose a payment hold, to not continue a payment hold, to impose a payment hold only in part, or to convert a payment hold imposed in whole to one imposed only in part, if any of the following are applicable:

(A) law enforcement officials have specifically requested that a payment hold not be imposed because a payment hold would compromise or jeopardize an investigation;

(B) available remedies implemented by the state other than a payment hold would more effectively or quickly protect Medicaid funds;

(C) the office determines, based on the submission of written evidence by the provider who is the subject of the payment hold, that the payment hold should be removed;

(D) Medicaid recipients' access to items or services would be jeopardized by a full or partial payment hold because the provider who is the subject of the payment hold:
   (i) is the sole community physician or the sole source of essential specialized services in a community; or
   (ii) serves a large number of Medicaid recipients within a designated medically underserved area;

(E) the attorney general declines to certify that a matter continues to be under investigation; or

(F) the office determines that a full or partial payment hold is not in the best interests of Medicaid.

(9) The office may not impose a payment hold on claims for reimbursement submitted by a provider for medically necessary services for which the provider has obtained prior authorization from the commission or a contractor of the commission unless the office has evidence that the provider has materially misrepresented documentation relating to those services.

(h) In addition to performing functions and duties otherwise provided by law, the office may:

(I) assess administrative penalties otherwise authorized by law on behalf of the commission or a health and human services agency;
(2) request that the attorney general obtain an injunction to prevent a person from disposing of an asset identified by the office as potentially subject to recovery by the office due to the person's fraud or abuse;

(3) provide for coordination between the office and special investigative units formed by managed care organizations under Section 531.113 or entities with which managed care organizations contract under that section;

(4) audit the use and effectiveness of state or federal funds, including contract and grant funds, administered by a person or state agency receiving the funds from a health and human services agency;

(5) conduct investigations relating to the funds described by Subdivision (4); and

(6) recommend policies promoting economical and efficient administration of the funds described by Subdivision (4) and the prevention and detection of fraud and abuse in administration of those funds.

(i) Notwithstanding any other provision of law, a reference in law or rule to the commission's office of investigations and enforcement means the office of inspector general established under this section.

(j) The office shall prepare a final report on each audit, inspection, or investigation conducted under this section. The final report must include:

(1) a summary of the activities performed by the office in conducting the audit, inspection, or investigation;

(2) a statement regarding whether the audit, inspection, or investigation resulted in a finding of any wrongdoing; and

(3) a description of any findings of wrongdoing.

(k) A final report on an audit, inspection, or investigation is subject to required disclosure under Chapter 552. All information and materials compiled during the audit, inspection, or investigation remain confidential and not subject to required disclosure in accordance with Section 531.1021(g). A confidential draft report on an audit, inspection, or investigation that concerns the death of a child may be shared with the Department of Family and Protective Services. A draft report that is shared with the Department of Family and Protective Services remains confidential and is not subject to disclosure under Chapter 552.
(l) The office shall employ a medical director who is a licensed physician under Subtitle B, Title 3, Occupations Code, and the rules adopted under that subtitle by the Texas Medical Board, and who preferably has significant knowledge of Medicaid. The medical director shall ensure that any investigative findings based on medical necessity or the quality of medical care have been reviewed by a qualified expert as described by the Texas Rules of Evidence before the office imposes a payment hold or seeks recoupment of an overpayment, damages, or penalties.

(m) The office shall employ a dental director who is a licensed dentist under Subtitle D, Title 3, Occupations Code, and the rules adopted under that subtitle by the State Board of Dental Examiners, and who preferably has significant knowledge of Medicaid. The dental director shall ensure that any investigative findings based on the necessity of dental services or the quality of dental care have been reviewed by a qualified expert as described by the Texas Rules of Evidence before the office imposes a payment hold or seeks recoupment of an overpayment, damages, or penalties.

(m-1) If the commission does not receive any responsive bids under Chapter 2155 on a competitive solicitation for the services of a qualified expert to review investigative findings under Subsection (l) or (m) and the number of contracts to be awarded under this subsection is not otherwise limited, the commission may negotiate with and award a contract for the services to a qualified expert on the basis of:

(1) the contractor's agreement to a set fee, either as a range or lump-sum amount; and

(2) the contractor's affirmation and the office's verification that the contractor possesses the necessary occupational licenses and experience.

(m-2) Notwithstanding Sections 2155.083 and 2261.051, a contract awarded under Subsection (m-1) is not subject to competitive advertising and proposal evaluation requirements.

(n) To the extent permitted under federal law, the executive commissioner, on behalf of the office, shall adopt rules establishing the criteria for initiating a full-scale fraud or abuse investigation, conducting the investigation, collecting evidence, accepting and approving a provider's request to post a surety bond to secure potential recoupmements in lieu of a payment hold or other asset or payment guarantee, and establishing minimum training requirements.
for Medicaid provider fraud or abuse investigators.

(o) Nothing in this section limits the authority of any other state agency or governmental entity.

(p) The executive commissioner, in consultation with the office, shall adopt rules establishing criteria:

(1) for opening a case;
(2) for prioritizing cases for the efficient management of the office's workload, including rules that direct the office to prioritize:

(A) provider cases according to the highest potential for recovery or risk to the state as indicated through the provider's volume of billings, the provider's history of noncompliance with the law, and identified fraud trends;
(B) recipient cases according to the highest potential for recovery and federal timeliness requirements; and
(C) internal affairs investigations according to the seriousness of the threat to recipient safety and the risk to program integrity in terms of the amount or scope of fraud, waste, and abuse posed by the allegation that is the subject of the investigation; and

(3) to guide field investigators in closing a case that is not worth pursuing through a full investigation.

(q) The office shall coordinate all audit and oversight activities, including the development of audit plans, risk assessments, and findings, with the commission to minimize the duplication of activities. In coordinating activities under this subsection, the office shall:

(1) on an annual basis, seek input from the commission and consider previous audits and onsite visits made by the commission for purposes of determining whether to audit a managed care organization participating in Medicaid; and
(2) request the results of any informal audit or onsite visit performed by the commission that could inform the office's risk assessment when determining whether to conduct, or the scope of, an audit of a managed care organization participating in Medicaid.

(r) The office shall review the office's investigative process, including the office's use of sampling and extrapolation to audit provider records. The review shall be performed by staff who are not directly involved in investigations conducted by the office.

(s) The office shall arrange for the Association of Inspectors
General or a similar third party to conduct a peer review of the office's sampling and extrapolation techniques. Based on the review and generally accepted practices among other offices of inspectors general, the executive commissioner, in consultation with the office, shall by rule adopt sampling and extrapolation standards to be used by the office in conducting audits.

(t) At each quarterly meeting of any advisory council responsible for advising the executive commissioner on the operation of the commission, the inspector general shall submit a report to the executive commissioner, the governor, and the legislature on:

(1) the office's activities;
(2) the office's performance with respect to performance measures established by the executive commissioner for the office;
(3) fraud trends identified by the office;
(4) any recommendations for changes in policy to prevent or address fraud, waste, and abuse in the delivery of health and human services in this state; and
(5) the amount of money recovered during the preceding quarter as a result of investigations involving peace officers employed and commissioned by the office for each program for which the office has investigative authority.

(u) The office shall publish each report required under Subsection (t) on the office's Internet website.

(v) In accordance with Section 533.015(b), the office shall consult with the executive commissioner regarding the adoption of rules defining the office's role in and jurisdiction over, and the frequency of, audits of managed care organizations participating in Medicaid that are conducted by the office and the commission.

(w) The office shall coordinate all audit and oversight activities relating to providers, including the development of audit plans, risk assessments, and findings, with the commission to minimize the duplication of activities. In coordinating activities under this subsection, the office shall:

(1) on an annual basis, seek input from the commission and consider previous audits and on-site visits made by the commission for purposes of determining whether to audit a managed care organization participating in Medicaid; and
(2) request the results of any informal audit or on-site visit performed by the commission that could inform the office's risk assessment when determining whether to conduct, or the scope of, an
audit of a managed care organization participating in Medicaid.

(x) The executive commissioner, in consultation with the office, shall adopt rules establishing criteria for determining enforcement and punitive actions with regard to a provider who has violated state law, program rules, or the provider's Medicaid provider agreement that include:

(1) direction for categorizing provider violations according to the nature of the violation and for scaling resulting enforcement actions, taking into consideration:
   (A) the seriousness of the violation;
   (B) the prevalence of errors by the provider;
   (C) the financial or other harm to the state or recipients resulting or potentially resulting from those errors; and
   (D) mitigating factors the office determines appropriate; and

(2) a specific list of potential penalties, including the amount of the penalties, for fraud and other Medicaid violations.

Sec. 531.103. INTERAGENCY COORDINATION. (a) The commission, acting through the commission's office of inspector general, and the office of the attorney general shall enter into a memorandum of understanding to develop and implement joint written procedures for processing cases of suspected fraud, waste, or abuse, as those terms are defined by state or federal law, or other violations of state or federal law under Medicaid or another program administered by the commission or a health and human services agency, including the financial assistance program under Chapter 31, Human Resources Code, the supplemental nutrition assistance program under Chapter 33, Human Resources Code, and the child health plan program. The memorandum of understanding shall require:

(1) the office of inspector general and the office of the attorney general to set priorities and guidelines for referring cases to appropriate state agencies for investigation, prosecution, or other disposition to enhance deterrence of fraud, waste, abuse, or
other violations of state or federal law, including a violation of Chapter 102, Occupations Code, in the programs and maximize the imposition of penalties, the recovery of money, and the successful prosecution of cases;

(1-a) the office of inspector general to refer each case of suspected provider fraud, waste, or abuse to the office of the attorney general not later than the 20th business day after the date the office of inspector general determines that the existence of fraud, waste, or abuse is reasonably indicated;

The report may be consolidated with any other report relating to the same subject matter the commission or office of the attorney general is required to submit under other law.

(e) In addition to the provisions required by Subsection (a), the memorandum of understanding required by this section must also ensure that no barriers to direct fraud referrals to the office of the attorney general's Medicaid fraud control unit or unreasonable impediments to communication between Medicaid agency employees and the Medicaid fraud control unit are imposed, and must include procedures to facilitate the referral of cases directly to the office of the attorney general.

(f) A district attorney, county attorney, city attorney, or private collection agency may collect and retain costs associated with a case referred to the attorney or agency in accordance with procedures adopted under this section and 20 percent of the amount of the penalty, restitution, or other reimbursement payment collected.

(a) The office and each licensing authority that requires the submission of fingerprints for the purpose of conducting a criminal history record information check of a health care professional shall enter into a memorandum of understanding to ensure that only persons who are licensed and in good standing as health care professionals participate as providers
in Medicaid. The memorandum under this section may be combined with a memorandum authorized under Section 531.1031(c-1) and must include a process by which:

(1) the office may confirm with a licensing authority that a health care professional is licensed and in good standing for purposes of determining eligibility to participate in Medicaid; and

(2) the licensing authority immediately notifies the office if:

   (A) a provider's license has been revoked or suspended; or

   (B) the licensing authority has taken disciplinary action against a provider.

(b) The office may not, for purposes of determining a health care professional's eligibility to participate in Medicaid as a provider, conduct a criminal history record information check of a health care professional who the office has confirmed under Subsection (a) is licensed and in good standing. The guidelines must outline conduct, by provider type, that may be contained in criminal history record information that will result in exclusion of a person from Medicaid as a provider, taking into consideration:

(1) the extent to which the underlying conduct relates to the services provided under Medicaid;

(2) the degree to which the person would interact with Medicaid recipients as a provider; and

(3) any previous evidence that the person engaged in fraud, waste, or abuse under Medicaid.

(d) The guidelines adopted under Subsection (c) may not impose stricter standards for the eligibility of a person to participate in Medicaid than a licensing authority described by Subsection (a) requires for the person to engage in a health care profession without restriction in this state.

(e) The office and the commission shall use the guidelines adopted under Subsection (c) to determine whether a provider participating in Medicaid continues to be eligible to participate in Medicaid as a provider.

(3) a department employee.

(e) The requirements of this section do not apply to a request for the placement of a child in an institution if the child:

(1) is involved in an emergency situation, as defined by rules adopted by the executive commissioner; or

The initial placement of the child in the institution is temporary and may not exceed six months unless the appropriate chief executive officer or the officer's designee approves an extension of an additional six months after conducting a review of documented permanency planning efforts to unite the child with a family in a permanent living arrangement. After the initial six-month extension of a child's placement in an institution approved under this subsection, the chief executive officer or the officer's designee shall conduct a review of the child's placement in the institution at least semiannually to determine whether a continuation of that placement is warranted. (e) The executive commissioner or the executive commissioner's designee shall conduct a semiannual review of data received from
health and human services agencies regarding all children who reside in institutions in this state. The executive commissioner, the executive commissioner's designee, or a person with whom the commission contracts shall also review the recommendations of the chief executive officers of each appropriate health and human services agency or the officer's designee if the officer or the officer's designee repeatedly recommends that children continue residing in an institution.

(f) The executive commissioner by rule shall develop procedures by which to conduct the reviews required by Subsections (c), (d), and (e). In developing the procedures, the commission may seek input from the work group on children's long-term services, health services, and mental health services established under Section 22.035, Human Resources Code.

Section 1315) to the state Medicaid plan to allow the commission to more efficiently and effectively use federal money paid to this state under various programs to defray costs associated with providing uncompensated health care in this state by using that federal money, appropriated state money to the extent necessary, and any other money described by this section for purposes consistent with this subchapter.

(b) The executive commissioner may include the following
federal money in the waiver:

(1) money provided under the disproportionate share hospitals or upper payment limit supplemental payment program, or both;

(2) money provided by the federal government in lieu of some or all of the payments under one or both of those programs;

(3) any combination of funds authorized to be pooled by Subdivisions (1) and (2); and

(4) any other money available for that purpose, including:
   (A) federal money and money identified under Subsection (c);
   (B) gifts, grants, or donations for that purpose;
   (C) local funds received by this state through intergovernmental transfers; and
   (D) if approved in the waiver, federal money obtained through the use of certified public expenditures.

(c) The commission shall seek to optimize federal funding by:

(1) identifying health care related state and local funds and program expenditures that, before September 1, 2011, are not being matched with federal money; and

(2) exploring the feasibility of:
   (A) certifying or otherwise using those funds and expenditures as state expenditures for which this state may receive federal matching money; and
   (B) depositing federal matching money received as provided by Paragraph (A) with other federal money deposited as provided by Section 531.504, or substituting that federal matching money for federal money that otherwise would be received under the disproportionate share hospitals and upper payment limit supplemental payment programs as a match for local funds received by this state through intergovernmental transfers.

(d) The terms of a waiver approved under this section must:

(1) include safeguards to ensure that the total amount of federal money provided under the disproportionate share hospitals or upper payment limit supplemental payment program that is deposited as provided by Section 531.504 is, for a particular state fiscal year, at least equal to the greater of the annualized amount provided to this state under those supplemental payment programs during state fiscal year 2011, excluding amounts provided during that state fiscal year that are retroactive payments, or the state fiscal years during
which the waiver is in effect; and

(2) allow for the development by this state of a methodology for allocating money in the fund to:

(A) be used to supplement Medicaid hospital reimbursements under a waiver that includes terms that are consistent with, or that produce revenues consistent with, disproportionate share hospital and upper payment limit principles;

(B) reduce the number of persons in this state who do not have health benefits coverage; and

(C) maintain and enhance the community public health infrastructure provided by hospitals.

(e) In a waiver under this section, the executive commissioner shall seek to:

(1) obtain maximum flexibility with respect to using the money in the fund for purposes consistent with this subchapter;

(3) ensure, for the term of the waiver, that the aggregate caps under the upper payment limit supplemental payment program for each of the three classes of hospitals are not less than the aggregate caps that applied during state fiscal year 2007; and

(4) to the extent allowed by federal law, including federal regulations, and federal waiver authority, preserve the federal supplemental payment program payments made to hospitals, the state match with respect to which is funded by intergovernmental transfers or certified public expenditures that are used to optimize Medicaid payments to safety net providers for uncompensated care, and preserve allocation methods for those payments, unless the need for the payments is revised through measures that reduce the Medicaid shortfall or uncompensated care costs.

(f) The executive commissioner shall seek broad-based stakeholder input in the development of the waiver under this section and shall provide information to stakeholders regarding the terms and components of the waiver for which the executive commissioner seeks federal approval.

(g) Repealed by Acts 2011, 82nd Leg., 1st C.S., Ch. 7, Sec. 1.11(d), eff. September 28, 2011.

Sec. 531.551. UNCOMPENSATED HOSPITAL CARE REPORTING AND ANALYSIS. (a) The executive commissioner shall adopt rules providing for:

(1) a standard definition of "uncompensated hospital care";
(2) a methodology to be used by hospitals in this state to compute the cost of that care that incorporates a standard set of adjustments to a hospital's initial computation of the cost of uncompensated hospital care that account for all funding streams that:
   (A) are not patient-specific; and
   (B) are used to offset the hospital's initially computed amount of uncompensated care; and
(3) procedures to be used by those hospitals to report the cost of that care to the commission and to analyze that cost.

(b) The rules adopted by the executive commissioner under Subsection (a)(3) may provide for procedures by which the commission may periodically verify the completeness and accuracy of the information reported by hospitals.

(c) The commission shall notify the attorney general of a hospital's failure to report the cost of uncompensated care on or before the date the report was due in accordance with rules adopted under Subsection (a)(3). On receipt of the notice, the attorney general shall impose an administrative penalty on the hospital in the amount of $1,000 for each day after the date the report was due that the hospital has not submitted the report, not to exceed $10,000.

(d) If the commission determines through the procedures adopted under Subsection (b) that a hospital submitted a report with incomplete or inaccurate information, the commission shall notify the hospital of the specific information the hospital must submit and prescribe a date by which the hospital must provide that information. If the hospital fails to submit the specified information on or before the date prescribed by the commission, the commission shall notify the attorney general of that failure. On receipt of the notice, the attorney general shall impose an administrative penalty on the hospital in an amount not to exceed $10,000. In determining the amount of the penalty to be imposed, the attorney general shall
consider:

(1) the seriousness of the violation;
(2) whether the hospital had previously committed a violation; and
(3) the amount necessary to deter the hospital from committing future violations.

(e) A report by the commission to the attorney general under Subsection (c) or (d) must state the facts on which the commission based its determination that the hospital failed to submit a report or failed to completely and accurately report information, as applicable.

(f) The attorney general shall give written notice of the commission's report to the hospital alleged to have failed to comply with a requirement. The notice must include a brief summary of the alleged violation, a statement of the amount of the administrative penalty to be imposed, and a statement of the hospital's right to a hearing on the alleged violation, the amount of the penalty, or both.

(g) Not later than the 20th day after the date the notice is sent under Subsection (f), the hospital must make a written request for a hearing or remit the amount of the administrative penalty to the attorney general. Failure to timely request a hearing or remit the amount of the administrative penalty results in a waiver of the right to a hearing under this section. If the hospital timely requests a hearing, the attorney general shall conduct the hearing in accordance with Chapter 2001, Government Code. If the hearing results in a finding that a violation has occurred, the attorney general shall:

(1) provide to the hospital written notice of:
   (A) the findings established at the hearing; and
   (B) the amount of the penalty; and
(2) enter an order requiring the hospital to pay the amount of the penalty.

(h) Not later than the 30th day after the date the hospital receives the order entered by the attorney general under Subsection (g), the hospital shall:

(1) pay the amount of the administrative penalty;
(2) remit the amount of the penalty to the attorney general for deposit in an escrow account and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both; or
(3) without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both and file with the court a sworn affidavit stating that the hospital is financially unable to pay the amount of the penalty.

(i) The attorney general's order is subject to judicial review as a contested case under Chapter 2001, Government Code.

(j) If the hospital paid the penalty and on review the court does not sustain the occurrence of the violation or finds that the amount of the administrative penalty should be reduced, the attorney general shall remit the appropriate amount to the hospital not later than the 30th day after the date the court's judgment becomes final.

(k) If the court sustains the occurrence of the violation:

(1) the court:

   (A) shall order the hospital to pay the amount of the administrative penalty; and

   (B) may award to the attorney general the attorney's fees and court costs incurred by the attorney general in defending the action; and

(2) the attorney general shall remit the amount of the penalty to the comptroller for deposit in the general revenue fund.

(1) If the hospital does not pay the amount of the administrative penalty after the attorney general's order becomes final for all purposes, the attorney general may enforce the penalty as provided by law for legal judgments.

(d) If the commission determines that it is not more cost-effective to use a Medicaid managed care model to provide certain types of Medicaid acute care in a certain area or to certain recipients as prescribed by this section, the commission shall provide Medicaid acute care through a traditional fee-for-service arrangement.

(e) The commission shall determine the most cost-effective alignment of managed care service delivery areas. (h) If the commission determines that it is feasible, the commission may, notwithstanding any other law, implement an automatic enrollment process under which applicants determined eligible for Medicaid benefits are automatically enrolled in a Medicaid managed care plan chosen by the applicant. The commission may elect to implement the automatic enrollment process as to certain populations of recipients.

(i) Subject to Section 534.152, the commission shall:

The commission shall ensure that the STAR Kids managed care program provides all of the benefits provided under the medically dependent children (MDCP) waiver program to the extent necessary to implement this subsection.

(e) The commission shall ensure that there is a plan for transitioning the provision of Medicaid benefits to recipients 21 years of age or older from under the STAR Kids program to under the STAR + PLUS Medicaid managed care program that protects continuity of care.    (k) Subsections (f), (g), (h), (i), and (j) and this subsection expire September 1, 2024.

   (l) Using existing resources, the executive commissioner in consultation and collaboration with the advisory committee shall determine the feasibility of providing Medicaid benefits to children enrolled in the STAR Kids managed care program under:

   (1) before issuing an adverse determination on a prior authorization request, the organization provide the physician requesting the prior authorization with a reasonable opportunity to discuss the request with another physician who practices in the same or a similar specialty, but not necessarily the same subspecialty, and has experience in treating the same category of population as the recipient on whose behalf the request is submitted; and

   (2) the organization review and issue determinations on prior authorization requests with respect to a recipient who is not hospitalized at the time of the request according to the following time frames:

       (A) within three business days after receiving the request; or

The process must provide a time frame within which a provider may submit the necessary documentation. The time frame must be longer than the time frame specified by Subsection (b)(2)(A) within which a Medicaid managed care organization must issue a determination on a prior authorization request.

Sec. 533.00283. ANNUAL REVIEW OF PRIOR AUTHORIZATION REQUIREMENTS. (a) Each Medicaid managed care organization, in consultation with the organization's provider advisory group required by contract, shall develop and implement a process to conduct an annual review of the organization's prior authorization requirements, other than a prior authorization requirement prescribed by or implemented under Section 531.073 for the vendor drug program. In conducting a review, the organization must:

(1) solicit, receive, and consider input from providers in the organization's provider network; and

(2) ensure that each prior authorization requirement is based on accurate, up-to-date, evidence-based, and peer-reviewed clinical criteria that distinguish, as appropriate, between categories, including age, of recipients for whom prior authorization requests are submitted.

(b) A Medicaid managed care organization may not impose a prior authorization requirement, other than a prior authorization requirement prescribed by or implemented under Section 531.073 for the vendor drug program, unless the organization has reviewed the requirement during the most recent annual review required under this section.

(c) The commission shall periodically review each Medicaid managed care organization to ensure the organization's compliance with this section.

Sec. 533.00284. RECONSIDERATION FOLLOWING ADVERSE DETERMINATIONS ON CERTAIN PRIOR AUTHORIZATION REQUESTS. (a) In consultation with the state Medicaid managed care advisory committee, the commission shall establish a uniform process and timeline for Medicaid managed care organizations to reconsider an adverse determination on a prior authorization request that resulted solely from the submission of insufficient or inadequate documentation. In addition to the requirements of Section 533.005, a contract between a Medicaid managed care organization and the commission must include a requirement that the organization implement the process and timeline.

(b) The process and timeline must:

(1) allow a provider to submit any documentation that was identified as insufficient or inadequate in the notice provided under Section 531.024162;

(2) allow the provider requesting the prior authorization to discuss the request with another provider who practices in the same or a similar specialty, but not necessarily the same subspecialty, and has experience in treating the same category of population as the recipient on whose behalf the request is submitted; and

(3) require the Medicaid managed care organization to amend the determination on the prior authorization request as necessary, considering the additional documentation.

(c) An adverse determination on a prior authorization request is considered a denial of services in an evaluation of the Medicaid managed care organization only if the determination is not amended under Subsection (b)(3) to approve the request.

(d) The process and timeline for reconsidering an adverse determination on a prior authorization request under this section do not affect:

(1) any related timelines, including the timeline for an internal appeal, a Medicaid fair hearing, or a review conducted by an external medical reviewer; or

(2) any rights of a recipient to appeal a determination on a prior authorization request.

Added by Acts 2019, 86th Leg., R.S., Ch. 623 (S.B. 1207), Sec. 6, eff. September 1, 2019.
Sec. 533.002841. MAXIMUM PERIOD FOR PRIOR AUTHORIZATION DECISION; ACCESS TO CARE. The time frames prescribed by the utilization review and prior authorization procedures described by Section 533.00282 and the timeline for reconsidering an adverse determination on a prior authorization described by Section 533.00284 together may not exceed the time frame for a decision under federally prescribed time frames. It is the intent of the legislature that these provisions allow sufficient time to provide necessary documentation and avoid unnecessary denials without delaying access to care.

Sec. 533.0029. PROMOTION AND PRINCIPLES OF PATIENT-CENTERED MEDICAL HOMES FOR RECIPIENTS. (a) For purposes of this section, a "patient-centered medical home" means a medical relationship:

(1) between a primary care physician and a child or adult patient in which the physician:

(A) provides comprehensive primary care to the patient; and

(B) facilitates partnerships between the physician, the patient, acute care and other care providers, and, when appropriate, the patient's family; and

(2) that encompasses the following primary principles:

(A) the patient has an ongoing relationship with the physician, who is trained to be the first contact for the patient and to provide continuous and comprehensive care to the patient;

(B) the physician leads a team of individuals at the practice level who are collectively responsible for the ongoing care of the patient;

(E) quality and safe care is provided.

(b) The commission shall, to the extent possible, work to ensure that managed care organizations:

(1) promote the development of patient-centered medical homes for recipients; and

(2) provide payment incentives for providers that meet the requirements of a patient-centered medical home.

(2) give extra consideration to organizations that agree to assure continuity of care for at least three months beyond the period of Medicaid eligibility for recipients;

(4) a prompt credentialing process for providers;
(5) uniform efficiency standards and requirements for managed care organizations for the submission and tracking of preauthorization requests for services provided under Medicaid;
(6) establishment of an electronic process, including the use of an Internet portal, through which providers in any managed care organization's provider network may:
    (A) submit electronic claims, prior authorization requests, claims appeals and reconsiderations, clinical data, and other documentation that the managed care organization requests for prior authorization and claims processing; and
    (B) obtain electronic remittance advice, explanation of benefits statements, and other standardized reports;
(7) the measurement of the rates of retention by managed care organizations of significant traditional providers;
(8) the creation of a work group to review and make recommendations to the commission concerning any requirement under this subsection for which immediate implementation is not feasible at the time the plan is otherwise implemented, including the required process for submission and acceptance of attachments for claims processing and prior authorization requests through an electronic process under Subdivision (6) and, for any requirement that is not implemented immediately, recommendations regarding the expected:

(g) If a managed care organization determines on completion of the credentialing process that the applicant provider does not meet the organization's credentialing requirements and that the provider

Sec. 533.007. CONTRACT COMPLIANCE. (a) The commission shall review each managed care organization that contracts with the commission to provide health care services to recipients through a managed care plan issued by the organization to determine whether the organization is prepared to meet its contractual obligations.

(b) Each managed care organization that contracts with the commission to provide health care services to recipients in a health care service region shall submit an implementation plan not later
than the 90th day before the date on which the managed care organization plans to begin to provide health care services to recipients in that region through managed care. The implementation plan must include:

(1) specific staffing patterns by function for all operations, including enrollment, information systems, member services, quality improvement, claims management, case management, and provider and recipient training; and

(2) specific time frames for demonstrating preparedness for implementation before the date on which the managed care organization plans to begin to provide health care services to recipients in that region through managed care.

(c) The commission shall respond to an implementation plan not later than the 10th day after the date a managed care organization submits the plan if the plan does not adequately meet preparedness guidelines.

(d) Each managed care organization that contracts with the commission to provide health care services to recipients in a region shall submit status reports on the implementation plan not later than the 60th day and the 30th day before the date on which the managed care organization plans to begin to provide health care services to recipients in that region through managed care and every 30th day after that date until the 180th day after that date.

(e) The commission shall conduct a compliance and readiness review of each managed care organization that contracts with the commission not later than the 15th day before the date on which the process of enrolling recipients in a managed care plan issued by the managed care organization is to begin in a region and again not later than the 15th day before the date on which the managed care organization plans to begin to provide health care services to recipients in that region through managed care. The review must include an on-site inspection and tests of service authorization and claims payment systems, including the ability of the managed care organization to process claims electronically, complaint processing systems, and any other process or system required by the contract.

(f) The commission may delay enrollment of recipients in a managed care plan issued by a managed care organization if the review reveals that the managed care organization is not prepared to meet its contractual obligations. The commission shall notify a managed care organization of a decision to delay enrollment in a plan issued
by that organization.

(g) To ensure appropriate access to an adequate provider network, each managed care organization that contracts with the commission to provide health care services to recipients in a health care service region shall submit to the commission, in the format and manner prescribed by the commission, a report detailing the number, type, and scope of services provided by out-of-network providers to recipients enrolled in a managed care plan provided by the managed care organization. If, as determined by the commission, a managed care organization exceeds maximum limits established by the commission for out-of-network access to health care services, or if, based on an investigation by the commission of a provider complaint regarding reimbursement, the commission determines that a managed care organization did not reimburse an out-of-network provider based on a reasonable reimbursement methodology, the commission shall initiate a corrective action plan requiring the managed care organization to maintain an adequate provider network, provide reimbursement to support that network, and educate recipients enrolled in managed care plans provided by the managed care organization regarding the proper use of the provider network under the plan.

(h) The corrective action plan required by Subsection (g) must include at least one of the following elements:

(1) a requirement that reimbursements paid by the managed care organization to out-of-network providers for a health care service provided to a recipient enrolled in a managed care plan provided by the managed care organization equal the allowable rate for the service, as determined under Sections 32.028 and 32.0281, Human Resources Code, for all health care services provided during the period:

(A) the managed care organization is not in compliance with the utilization benchmarks determined by the commission; or
(B) the managed care organization is not reimbursing out-of-network providers based on a reasonable methodology, as determined by the commission;

(2) an immediate freeze on the enrollment of additional recipients in a managed care plan provided by the managed care organization, to continue until the commission determines that the provider network under the managed care plan can adequately meet the needs of additional recipients; and
other actions the commission determines are necessary to ensure that recipients enrolled in a managed care plan provided by the managed care organization have access to appropriate health care services and that providers are properly reimbursed for providing medically necessary health care services to those recipients.

(i) Not later than the 60th day after the date a provider files a complaint with the commission regarding reimbursement for or overuse of out-of-network providers by a managed care organization, the commission shall provide to the provider a report regarding the conclusions of the commission's investigation. The report must include:

(1) a description of the corrective action, if any, required of the managed care organization that was the subject of the complaint; and

(2) if applicable, a conclusion regarding the amount of reimbursement owed to an out-of-network provider.

(j) If, after an investigation, the commission determines that additional reimbursement is owed to a provider, the managed care organization shall, not later than the 90th day after the date the provider filed the complaint, pay the additional reimbursement or provide to the provider a reimbursement payment plan under which the managed care organization must pay the entire amount of the additional reimbursement not later than the 120th day after the date the provider filed the complaint. If the managed care organization does not pay the entire amount of the additional reimbursement on or before the 90th day after the date the provider filed the complaint, the commission may require the managed care organization to pay interest on the unpaid amount. If required by the commission, interest accrues at a rate of 18 percent simple interest per year on the unpaid amount from the 90th day after the date the provider filed the complaint until the date the entire amount of the additional reimbursement is paid.

(k) The commission shall pursue any appropriate remedy authorized in the contract between the managed care organization and the commission if the managed care organization fails to comply with a corrective action plan under Subsection (g).

(l) The commission shall establish and implement a process for the direct monitoring of a managed care organization's provider network and providers in the network. The process:

(1) must be used to ensure compliance with contractual
obligations related to:

(A) the number of providers accepting new patients under the Medicaid managed care program; and

(B) the length of time a recipient must wait between scheduling an appointment with a provider and receiving treatment from the provider;

(2) may use reasonable methods to ensure compliance with contractual obligations, including telephone calls made at random times without notice to assess the availability of providers and services to new and existing recipients; and

(3) may be implemented directly by the commission or through a contractor.

Sec. 533.0071. ADMINISTRATION OF CONTRACTS. The commission shall make every effort to improve the administration of contracts with managed care organizations. To improve the administration of these contracts, the commission shall:

(1) ensure that the commission has appropriate expertise and qualified staff to effectively manage contracts with managed care organizations under the Medicaid managed care program;

(2) evaluate options for Medicaid payment recovery from managed care organizations if the enrollee dies or is incarcerated or if an enrollee is enrolled in more than one state program or is covered by another liable third party insurer;

(3) maximize Medicaid payment recovery options by
contracting with private vendors to assist in the recovery of capitation payments, payments from other liable third parties, and other payments made to managed care organizations with respect to enrollees who leave the managed care program;

(4) decrease the administrative burdens of managed care for the state, the managed care organizations, and the providers under managed care networks to the extent that those changes are compatible with state law and existing Medicaid managed care contracts, including decreasing those burdens by:

(A) where possible, decreasing the duplication of administrative reporting and process requirements for the managed care organizations and providers, such as requirements for the submission of encounter data, quality reports, historically underutilized business reports, and claims payment summary reports;

(B) allowing managed care organizations to provide updated address information directly to the commission for correction in the state system;

(C) promoting consistency and uniformity among managed care organization policies, including policies relating to the preauthorization process, lengths of hospital stays, filing deadlines, levels of care, and case management services;

(D) reviewing the appropriateness of primary care case management requirements in the admission and clinical criteria process, such as requirements relating to including a separate cover sheet for all communications, submitting handwritten communications instead of electronic or typed review processes, and admitting patients listed on separate notifications; and

(E) providing a portal through which providers in any managed care organization's provider network may submit acute care services and long-term services and supports claims; and

(5) reserve the right to amend the managed care organization's process for resolving provider appeals of denials based on medical necessity to include an independent review process established by the commission for final determination of these disputes.

3. if a disease management program provided by the organization has low active participation rates, identify the reason for the low rates and develop an approach to increase active participation in disease management programs for high-risk recipients.

(f) If a managed care organization implements a special disease management program to manage chronic kidney disease and its medical complications as provided by Subsection (a) and the managed care organization develops a program to provide screening for and diagnosis and treatment of chronic kidney disease and its medical complications to recipients under the organization's managed care plan, the program for screening, diagnosis, and treatment must use generally recognized clinical practice guidelines and laboratory assessments that identify chronic kidney disease on the basis of impaired kidney function or the presence of kidney damage.

(1) a description of any financial or other business relationship between the organization and any subcontractor providing health care services under the contract;

(2) a copy of each type of contract between the organization and a subcontractor relating to the delivery of or payment for health care services;

(3) a description of the fraud control program used by any subcontractor that delivers health care services; and

(4) a description and breakdown of all funds paid to or by the managed care organization, including a health maintenance organization, primary care case management provider, pharmacy benefit manager, and exclusive provider organization, necessary for the commission to determine the actual cost of administering the managed care plan.

(b) The information submitted under this section must be submitted in the form required by the commission or the office of the attorney general, as applicable, and be updated as required by the commission or the office of the attorney general, as applicable.

Sec. 533.013. PREMIUM PAYMENT RATE DETERMINATION; REVIEW AND COMMENT. (a) In determining premium payment rates paid to a managed care organization under a managed care plan, the commission shall consider:

(1) the regional variation in costs of health care services;

(2) the range and type of health care services to be covered by premium payment rates;

(3) the number of managed care plans in a region;

(4) the current and projected number of recipients in each region, including the current and projected number for each category of recipient;

(5) the ability of the managed care plan to meet costs of operation under the proposed premium payment rates;

(6) the applicable requirements of the federal Balanced Budget Act of 1997 and implementing regulations that require adequacy of premium payments to managed care organizations participating in Medicaid;

(7) the adequacy of the management fee paid for assisting enrollees of Supplemental Security Income (SSI) (42 U.S.C. Section 1381 et seq.) who are voluntarily enrolled in the managed care plan;

(8) the impact of reducing premium payment rates for the category of recipients who are pregnant; and

(9) the ability of the managed care plan to pay under the proposed premium payment rates inpatient and outpatient hospital
provider payment rates that are comparable to the inpatient and outpatient hospital provider payment rates paid by the commission under a primary care case management model or a partially capitated model.

(b) In determining the maximum premium payment rates paid to a managed care organization that is licensed under Chapter 843, Insurance Code, the commission shall consider and adjust for the regional variation in costs of services under the traditional fee-for-service component of Medicaid, utilization patterns, and other factors that influence the potential for cost savings. For a service area with a service area factor of .93 or less, or another appropriate service area factor, as determined by the commission, the commission may not discount premium payment rates in an amount that is more than the amount necessary to meet federal budget neutrality requirements for projected fee-for-service costs unless:

(1) a historical review of managed care financial results among managed care organizations in the service area served by the organization demonstrates that additional savings are warranted;

(2) a review of Medicaid fee-for-service delivery in the service area served by the organization has historically shown a significant overutilization by recipients of certain services covered by the premium payment rates in comparison to utilization patterns throughout the rest of the state; or

(3) a review of Medicaid fee-for-service delivery in the service area served by the organization has historically shown an above-market cost for services for which there is substantial evidence that Medicaid managed care delivery will reduce the cost of those services.

(c) The premium payment rates paid to a managed care organization that is licensed under Chapter 843, Insurance Code, shall be established by a competitive bid process but may not exceed the maximum premium payment rates established by the commission under Subsection (b).

(d) Subsection (b) applies only to a managed care organization with respect to Medicaid managed care pilot programs, Medicaid behavioral health pilot programs, and Medicaid Star + Plus pilot programs implemented in a health care service region after June 1, 1999.

(e) The commission shall pursue and, if appropriate, implement premium rate-setting strategies that encourage provider payment
reform and more efficient service delivery and provider practices. In pursuing premium rate-setting strategies under this section, the commission shall review and consider strategies employed or under consideration by other states. If necessary, the commission may request a waiver or other authorization from a federal agency to implement strategies identified under this subsection.

Sec. 533.0131. USE OF ENCOUNTER DATA IN DETERMINING PREMIUM PAYMENT RATES. (a) In determining premium payment rates and other amounts paid to managed care organizations under a managed care plan, the commission may not base or derive the rates or amounts on or from encounter data, or incorporate in the determination an analysis of encounter data, unless a certifier of encounter data certifies that:

(1) the encounter data for the most recent state fiscal year is complete, accurate, and reliable; and

(2) there is no statistically significant variability in the encounter data attributable to incompleteness, inaccuracy, or another deficiency as compared to equivalent data for similar populations and when evaluated against professionally accepted standards.

(b) For purposes of determining whether data is equivalent data for similar populations under Subsection (a)(2), a certifier of encounter data shall, at a minimum, consider:

(1) the regional variation in utilization patterns of recipients and costs of health care services;
(2) the range and type of health care services to be covered by premium payment rates;
(3) the number of managed care plans in the region; and
(4) the current number of recipients in each region, including the number for each category of recipient.

Sec. 533.01315. REIMBURSEMENT FOR SERVICES PROVIDED OUTSIDE OF REGULAR BUSINESS HOURS. (a) This section applies only to a recipient receiving benefits through any Medicaid managed care model or arrangement.

(b) The commission shall ensure that a federally qualified health center, rural health clinic, or municipal health department's public clinic is reimbursed for health care services provided to a recipient outside of regular business hours, including on a weekend or holiday, at a rate that is equal to the allowable rate for those services as determined under Section 32.028, Human Resources Code, regardless of whether the recipient has a referral from the recipient's primary care provider.

Sec. 533.038.  COORDINATION OF BENEFITS; CONTINUITY OF SPECIALTY CARE FOR CERTAIN RECIPIENTS.  (a)  In this section, "Medicaid wrap-around benefit" means a Medicaid-covered service, including a pharmacy or medical benefit, that is provided to a recipient with both Medicaid and primary health benefit plan coverage when the recipient has exceeded the primary health benefit plan coverage limit or when the service is not covered by the primary health benefit plan issuer.

(b)  The commission, in coordination with Medicaid managed care organizations and in consultation with the STAR Kids Managed Care Advisory Committee described by Section 533.00254, shall develop and adopt a clear policy for a Medicaid managed care organization to ensure the coordination and timely delivery of Medicaid wrap-around benefits for recipients with both primary health benefit plan coverage and Medicaid coverage.  In developing the policy, the commission shall consider requiring a Medicaid managed care organization to allow, notwithstanding Sections 531.073 and 533.005(a)(23) or any other law, a recipient using a prescription drug for which the recipient's primary health benefit plan issuer previously provided coverage to continue receiving the prescription drug without requiring additional prior authorization.

(c)  If the commission determines that a recipient's primary health benefit plan issuer should have been the primary payor of a claim, the Medicaid managed care organization that paid the claim shall work with the commission on the recovery process and make every attempt to reduce health care provider and recipient abrasion.

(d)  The executive commissioner may seek a waiver from the federal government as needed to:

(1) address federal policies related to coordination of benefits and third-party liability; and
(2) maximize federal financial participation for recipients with both primary health benefit plan coverage and Medicaid coverage.

(e) The commission may include in the Medicaid managed care eligibility files an indication of whether a recipient has primary health benefit plan coverage or is enrolled in a group health benefit plan for which the commission provides premium assistance under the health insurance premium payment program. For recipients with that coverage or for whom that premium assistance is provided, the files may include the following up-to-date, accurate information related to primary health benefit plan coverage to the extent the information is available to the commission:

1. the health benefit plan issuer's name and address and the recipient's policy number;

2. the primary health benefit plan coverage start and end dates; and

3. the primary health benefit plan coverage benefits, limits, copayment, and coinsurance information.

(f) To the extent allowed by federal law, the commission shall maintain processes and policies to allow a health care provider who is primarily providing services to a recipient through primary health benefit plan coverage to receive Medicaid reimbursement for services ordered, referred, or prescribed, regardless of whether the provider is enrolled as a Medicaid provider. The commission shall allow a provider who is not enrolled as a Medicaid provider to order, refer, or prescribe services to a recipient based on the provider's national provider identifier number and may not require an additional state provider identifier number to receive reimbursement for the services. The commission may seek a waiver of Medicaid provider enrollment requirements for providers of recipients with primary health benefit plan coverage to implement this subsection.

(g) The commission shall develop a clear and easy process, to be implemented through a contract, that allows a recipient with complex medical needs who has established a relationship with a specialty provider to continue receiving care from that provider, regardless of whether the recipient has primary health benefit plan coverage in addition to Medicaid coverage.

(h) If a recipient who has complex medical needs wants to continue to receive care from a specialty provider that is not in the provider network of the Medicaid managed care organization offering the managed care plan in which the recipient is enrolled, the managed
care organization shall develop a simple, timely, and efficient
process to and shall make a good-faith effort to, negotiate a single-
case agreement with the specialty provider. Until the Medicaid
managed care organization and the specialty provider enter into the
single-case agreement, the specialty provider shall be reimbursed in
accordance with the applicable reimbursement methodology specified in
commission rule, including 1 T.A.C. Section 353.4.

(i) A single-case agreement entered into under this section is
not considered accessing an out-of-network provider for the purposes
of Medicaid managed care organization network adequacy requirements.

commissioner by rule shall establish policies and procedures that
allow a Medicaid managed care organization to conduct assessments and

(5) whether the commission determines using the telecommunications or information technology is appropriate under the circumstances.

(c) If a Medicaid managed care organization conducts an assessment of or provides care coordination services to a recipient using telecommunications or information technology, the managed care organization shall:

Except during circumstances described by Subsection (b)(4), a Medicaid managed care organization shall, for a recipient of home and community-based services for which the commission requires in-person visits, conduct:

(2) additional in-person visits with the recipient if necessary, as determined by the managed care organization.

(f) Notwithstanding the provisions of this section, the commission may, on a case-by-case basis, require a Medicaid managed care organization to discontinue the use of telecommunications or

(1) increase access to long-term services and supports;
(2) improve quality of acute care services and long-term services and supports;
(3) promote:
   (A) informed choice and meaningful outcomes by using person-centered planning, flexible consumer-directed services, individualized budgeting, and self-determination; and
   (B) community inclusion and engagement;
(4) promote integrated service coordination of acute care services and long-term services and supports;
(5) promote efficiency and the best use of funding based on an individual's needs and preferences;
(6) promote through housing supports and navigation services stability in housing that is the most integrated and least restrictive based on the individual's needs and preferences;
(7) promote employment assistance and customized,
integrated, and competitive employment;

(8) provide fair hearing and appeals processes in accordance with applicable federal and state law;

(9) promote sufficient flexibility to achieve the goals listed in this section through the pilot program;

(10) promote the use of innovative technologies and benefits, including telemedicine, telemonitoring, the testing of remote monitoring, transportation services, and other innovations that support community integration;

(11) ensure an adequate provider network that includes comprehensive long-term services and supports providers and ensure that pilot program participants have a choice among those providers;

(12) ensure the timely initiation and consistent provision of long-term services and supports in accordance with an individual's person-centered plan;

(13) ensure that individuals with complex behavioral, medical, and physical needs are assessed and receive appropriate services in the most integrated and least restrictive setting based on the individuals' needs and preferences;

(14) increase access to, expand flexibility of, and promote the use of the consumer direction model; and

(15) promote independence, self-determination, the use of the consumer direction model, and decision making by individuals participating in the pilot program by using alternatives to guardianship, including a supported decision-making agreement as defined by Section 1357.002, Estates Code.

(b) An individual is not required to use an innovative technology described by Subsection (a)(10). If an individual chooses to use an innovative technology described by that subdivision, the commission shall ensure that services associated with the technology are delivered in a manner that:

(1) ensures the individual's privacy, health, and well-being;

(2) provides access to housing in the most integrated and least restrictive environment;

(3) assesses individual needs and preferences to promote autonomy, self-determination, the use of the consumer direction model, and privacy;

(4) increases personal independence;

(5) specifies the extent to which the innovative technology
will be used, including:
(A) the times of day during which the technology will be used;
(B) the place in which the technology may be used;
(C) the types of telemonitoring or remote monitoring that will be used; and
(D) for what purposes the technology will be used;
(6) is consistent with and agreed on during the person-centered planning process;
(7) ensures that staff overseeing the use of an innovative technology:
(A) review the person-centered and implementation plans for each individual before overseeing the use of the innovative technology; and
(B) demonstrate competency regarding the support needs of each individual using the innovative technology;
(8) ensures that an individual using an innovative technology is able to request the removal of equipment relating to the technology and, on receipt of a request for the removal, the equipment is immediately removed; and
(9) ensures that an individual is not required to use telemedicine at any point during the pilot program and, in the event the individual refuses to use telemedicine, the managed care organization providing health care services to the individual under the pilot program arranges for services that do not include telemedicine.

(c) The pilot program must be designed to test innovative payment rates and methodologies for the provision of long-term services and supports to achieve the goals of the pilot program by using payment methodologies that include:
(1) the payment of a bundled amount without downside risk to a comprehensive long-term services and supports provider for some or all services delivered as part of a comprehensive array of long-term services and supports;
(2) enhanced incentive payments to comprehensive long-term services and supports providers based on the completion of predetermined outcomes or quality metrics; and
(3) any other payment models approved by the commission.
(d) An alternative payment rate or methodology described by Subsection (c) may be used for a managed care organization and
comprehensive long-term services and supports provider only if the organization and provider agree in advance and in writing to use the rate or methodology.

(e) In developing an alternative payment rate or methodology described by Subsection (c), the commission, managed care organizations, and comprehensive long-term services and supports providers shall consider:

1. the historical costs of long-term services and supports, including Medicaid fee-for-service rates;

2. reasonable cost estimates for new services under the pilot program; and

3. whether an alternative payment rate or methodology is sufficient to promote quality outcomes and ensure a provider's continued participation in the pilot program.

(f) An alternative payment rate or methodology described by Subsection (c) may not reduce the minimum payment received by a provider for the delivery of long-term services and supports under the pilot program below the fee-for-service reimbursement rate received by the provider for the delivery of those services before participating in the pilot program.

(g) The pilot program must allow a comprehensive long-term services and supports provider for individuals with an intellectual or developmental disability or similar functional needs that contracts with the commission to provide services under Medicaid before the implementation date of the pilot program to voluntarily participate in the pilot program. A provider's choice not to participate in the pilot program does not affect the provider's status as a significant traditional provider.

(h) Under the pilot program, a participating managed care organization shall provide long-term services and supports under Medicaid to persons with an intellectual or developmental disability and persons with similar functional needs to test its managed care strategy based on capitation.

(i) The commission, in consultation and collaboration with the advisory committee and pilot program workgroup, shall analyze information provided by the managed care organizations participating in the pilot program and any information collected by the commission during the operation of the pilot program for purposes of making a recommendation about a system of programs and services for implementation through future state legislation or rules.
(j) The analysis under Subsection (i) must include an assessment of the effect of the managed care strategies implemented in the pilot program on the goals described by this section.

(k) Before implementing the pilot program, the commission, in consultation and collaboration with the advisory committee and pilot program workgroup, shall develop and implement a process to ensure pilot program participants remain eligible for Medicaid benefits for 12 consecutive months during the pilot program.

Sec. 536.003. DEVELOPMENT OF QUALITY-BASED OUTCOME AND PROCESS MEASURES. (a) The commission shall develop quality-based outcome and process measures that promote the provision of efficient, quality health care and that can be used in the child health plan program and Medicaid to implement quality-based payments for acute care services and long-term services and supports across all delivery models and payment systems, including fee-for-service and managed care payment systems. Subject to Subsection (a-1), the commission, in developing outcome and process measures under this section, must include measures that are based on potentially preventable events and that advance quality improvement and innovation. The commission may change measures developed:
(1) to promote continuous system reform, improved quality, and reduced costs; and
(2) to account for managed care organizations added to a service area.

(a-1) The outcome measures based on potentially preventable events must:
(1) allow for rate-based determination of health care provider performance compared to statewide norms; and
(2) be risk-adjusted to account for the severity of the illnesses of patients served by the provider.

(b) To the extent feasible, the commission shall develop outcome and process measures:
(1) consistently across all child health plan program and Medicaid delivery models and payment systems;
(2) in a manner that takes into account appropriate patient risk factors, including the burden of chronic illness on a patient and the severity of a patient's illness;
(3) that will have the greatest effect on improving quality
of care and the efficient use of services, including acute care services and long-term services and supports;

(4) that are similar to outcome and process measures used in the private sector, as appropriate;

(5) that reflect effective coordination of acute care services and long-term services and supports;

(6) that can be tied to expenditures; and

(7) that reduce preventable health care utilization and costs.

(c) The commission shall, to the extent feasible, align outcome and process measures developed under this section with measures required or recommended under reporting guidelines established by the federal Centers for Medicare and Medicaid Services, the Agency for Healthcare Research and Quality, or another federal agency.

(d) The executive commissioner by rule may require managed care organizations and physicians and other health care providers participating in the child health plan program and Medicaid to report to the commission in a format specified by the executive commissioner information necessary to develop outcome and process measures under this section.

(e) If the commission increases physician and other health care provider reimbursement rates under the child health plan program or Medicaid as a result of an increase in the amounts appropriated for the programs for a state fiscal biennium as compared to the preceding state fiscal biennium, the commission shall, to the extent permitted under federal law and to the extent otherwise possible considering other relevant factors, correlate the increased reimbursement rates with the quality-based outcome and process measures developed under this section.

(f) The commission, in coordination with the Department of State Health Services, shall develop and implement a quality-based outcome measure for the child health plan program and Medicaid to annually measure the percentage of child health plan program enrollees or Medicaid recipients with HIV infection, regardless of age, whose most recent viral load test indicates a viral load of less than 200 copies per milliliter of blood.

(g) The commission shall include aggregate, nonidentifying data collected using the quality-based outcome measure described by Subsection (f) in the annual report required by Section 536.008 and may include the data in any other report required by this chapter.
The commission shall determine the appropriateness of including the quality-based outcome measure described by Subsection (f) in the quality-based payments and payment systems developed under Sections 536.004 and 536.051.

(h) In this section, "HIV" has the meaning assigned by Section 81.101, Health and Safety Code.

Sec. 536.004. DEVELOPMENT OF QUALITY-BASED PAYMENT SYSTEMS. (a) Using quality-based outcome and process measures developed under Section 536.003 and subject to this section, the commission, after consulting with appropriate stakeholders with an interest in the provision of acute care and long-term services and supports under the child health plan program and Medicaid, shall develop quality-based payment systems, and require managed care organizations to develop quality-based payment systems, for compensating a physician or other health care provider participating in the child health plan program or Medicaid that:

(1) align payment incentives with high-quality, cost-effective health care;
(2) reward the use of evidence-based best practices;
(3) promote the coordination of health care;
(4) encourage appropriate physician and other health care provider collaboration;
(5) promote effective health care delivery models; and
(6) take into account the specific needs of the child health plan program enrollee and Medicaid recipient populations.

(b) The commission shall develop quality-based payment systems in the manner specified by this chapter. To the extent necessary, the commission shall coordinate the timeline for the development and implementation of a payment system with the implementation of other initiatives such as the Medicaid Information Technology Architecture (MITA) initiative of the Center for Medicaid and State Operations, the ICD-10 code sets initiative, or the ongoing Enterprise Data Warehouse (EDW) planning process in order to maximize the receipt of federal funds or reduce any administrative burden.

(c) In developing quality-based payment systems under this chapter, the commission shall examine and consider implementing:
   (1) an alternative payment system;
   (2) any existing performance-based payment system used under the Medicare program that meets the requirements of this chapter, modified as necessary to account for programmatic differences, if implementing the system would:
      (A) reduce unnecessary administrative burdens; and
      (B) align quality-based payment incentives for physicians and other health care providers with the Medicare program; and
   (3) alternative payment methodologies within the system that are used in the Medicare program, modified as necessary to account for programmatic differences, and that will achieve cost savings and improve quality of care in the child health plan program and Medicaid.

(d) In developing quality-based payment systems under this chapter, the commission shall ensure that a managed care organization or physician or other health care provider will not be rewarded by the system for withholding or delaying the provision of medically necessary care.

(e) The commission may modify a quality-based payment system developed under this chapter to account for programmatic differences between the child health plan program and Medicaid and delivery systems under those programs.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 4611, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 536.005. CONVERSION OF PAYMENT METHODOLOGY. (a) To the extent possible, the commission shall convert hospital reimbursement systems under the child health plan program and Medicaid to a diagnosis-related groups (DRG) methodology that will allow the commission to more accurately classify specific patient populations and account for severity of patient illness and mortality risk.

(b) Subsection (a) does not authorize the commission to direct a managed care organization to compensate physicians and other health care providers providing services under the organization's managed care plan based on a diagnosis-related groups (DRG) methodology.

(c) Notwithstanding Subsection (a) and to the extent possible, the commission shall convert outpatient hospital reimbursement systems under the child health plan program and Medicaid to an appropriate prospective payment system that will allow the commission to:

(1) more accurately classify the full range of outpatient service episodes;
(2) more accurately account for the intensity of services provided; and
(3) motivate outpatient service providers to increase efficiency and effectiveness.

Sec. 536.006. TRANSPARENCY. (a) The commission shall:

(1) ensure transparency in the development and establishment of:

(A) quality-based payment and reimbursement systems under Section 536.004 and Subchapters B, C, and D, including the development of outcome and process measures under Section 536.003; and

(B) quality-based payment initiatives under Subchapter E, including the development of quality of care and cost-efficiency benchmarks under Section 536.204(a) and efficiency performance standards under Section 536.204(b);

(2) develop guidelines establishing procedures for providing notice and information to, and receiving input from, managed care organizations, health care providers, including physicians and experts in the various medical specialty fields, and other stakeholders, as appropriate, for purposes of developing and establishing the quality-based payment and reimbursement systems and initiatives described under Subdivision (1);

(3) in developing and establishing the quality-based payment and reimbursement systems and initiatives described under Subdivision (1), consider that as the performance of a managed care organization or physician or other health care provider improves with respect to an outcome or process measure, quality of care and cost-efficiency benchmark, or efficiency performance standard, as applicable, there will be a diminishing rate of improved performance over time; and

(4) develop web-based capability to provide managed care organizations and health care providers with data on their clinical performance.
and utilization performance, including comparisons to peer organizations and providers located in this state and in the provider's respective region.

(b) The web-based capability required by Subsection (a)(4) must support the requirements of the electronic health information exchange system under Sections 531.907 through 531.909.

A hospital shall distribute the information contained in the report to physicians and other health care providers providing services at the hospital.

Sec. 536.202. PAYMENT INITIATIVES; DETERMINATION OF BENEFIT TO STATE. (a) The commission shall establish payment initiatives to test the effectiveness of quality-based payment systems, alternative payment methodologies, and high-quality, cost-effective health care delivery models that provide incentives to physicians and other health care providers to develop health care interventions for child health plan program enrollees or Medicaid recipients, or both, that will:

(1) improve the quality of health care provided to the enrollees or recipients;
(2) reduce potentially preventable events;
(3) promote prevention and wellness;
(4) increase the use of evidence-based best practices;
(5) increase appropriate physician and other health care provider collaboration;
(6) contain costs; and
(7) improve integration of acute care services and long-term services and supports, including discharge planning from acute care services to community-based long-term services and supports.

(b) The commission shall:

(1) establish a process by which managed care organizations and physicians and other health care providers may submit proposals for payment initiatives described by Subsection (a); and
(2) determine whether it is feasible and cost-effective to implement one or more of the proposed payment initiatives.

Sec. 536.203. PURPOSE AND IMPLEMENTATION OF PAYMENT INITIATIVES. (a) If the commission determines under Section 536.202 that implementation of one or more payment initiatives is feasible and cost-effective for this state, the commission shall establish one or more payment initiatives as provided by this subchapter.

(b) The commission shall administer any payment initiative established under this subchapter. The executive commissioner may adopt rules, plans, and procedures and enter into contracts and other agreements as the executive commissioner considers appropriate and necessary to administer this subchapter.

(c) The commission may limit a payment initiative to:

(1) one or more regions in this state;

(2) one or more organized networks of physicians and other health care providers; or

(b) In addition to the benchmarks and goals under Subsection (a), the executive commissioner may approve efficiency performance standards that may include the sharing of realized cost savings with physicians and other health care providers who provide health care services that exceed the efficiency performance standards. The efficiency performance standards may not create any financial incentive for or involve making a payment to a physician or other health care provider that directly or indirectly induces the limitation of medically necessary services.

A quality-based payment system developed under this section must base payments to providers on quality and efficiency measures that may include measurable wellness and prevention criteria and use of evidence-based best practices, sharing a portion of any realized cost savings achieved by the provider, and ensuring quality of care outcomes, including a reduction in potentially preventable events.

(b) The commission may develop a quality-based payment system for Medicaid long-term services and supports providers under this subchapter only if implementing the system would be feasible and cost-effective.

implementation of quality-based payment systems under Section 536.251, the commission shall evaluate the reliability, validity, and functionality of post-acute and long-term services and supports data sets. The commission's evaluation under this section should assess:

(1) to what degree data sets relied on by the commission meet a standard:
   (A) for integrating care;
   (B) for developing coordinated care plans; and
   (C) that would allow for the meaningful development of risk adjustment techniques;

(2) whether the data sets will provide value for outcome or performance measures and cost containment; and

(3) how classification systems and data sets used for Medicaid long-term services and supports providers can be standardized and, where possible, simplified.

influence a culture of individual responsibility; and

(C) promoting the use of vouchers for consumer-directed services in which consumers manage and pay for health-related services provided to them using program vouchers;

(6) consolidate federal funding streams, including funds from the disproportionate share hospitals and upper payment limit supplemental payment programs and other federal Medicaid funds, to ensure the most effective and efficient use of those funding streams;

(7) allow flexibility in the use of state funds used to obtain federal matching funds, including allowing the use of intergovernmental transfers, certified public expenditures, costs not otherwise matchable, or other funds and funding mechanisms to obtain federal matching funds;

(8) empower individuals who are uninsured to acquire health benefits coverage through the promotion of cost-effective coverage models that provide access to affordable primary, preventive, and other health care on a sliding scale, with fees paid at the point of service; and

CHAPTER 552. PUBLIC INFORMATION
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 552.001. POLICY; CONSTRUCTION. (a) Under the fundamental philosophy of the American constitutional form of representative government that adheres to the principle that government is the servant and not the master of the people, it is the policy of this state that each person is entitled, unless otherwise expressly provided by law, at all times to complete information about the affairs of government and the official acts of public officials and employees. The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may retain control over the instruments they have created. The provisions of this chapter shall be liberally construed to implement this policy.

(b) This chapter shall be liberally construed in favor of granting a request for information.

Sec. 552.0038. PUBLIC RETIREMENT SYSTEMS SUBJECT TO LAW. (a) In this section, "governing body of a public retirement system" and "public retirement system" have the meanings assigned those terms by Section 802.001.

(b) Except as provided by Subsections (c) through (i), the governing body of a public retirement system is subject to this chapter in the same manner as a governmental body.

(c) Records of individual members, annuitants, retirees, beneficiaries, alternate payees, program participants, or persons eligible for benefits from a retirement system under a retirement plan or program administered by the retirement system that are in the custody of the system or in the custody of an administering firm, a carrier, or another governmental agency, including the comptroller, acting in cooperation with or on behalf of the retirement system are confidential and not subject to public disclosure. The retirement system, administering firm, carrier, or governmental agency is not required to accept or comply with a request for a record or information about a record or to seek an opinion from the attorney general because the records are exempt from the provisions of this chapter, except as otherwise provided by this section.

(d) Records may be released to a member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system or to an authorized attorney, family member, or representative acting on behalf of the member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits. The retirement system may release the records to:

(1) an administering firm, carrier, or agent or attorney acting on behalf of the retirement system;

(2) another governmental entity having a legitimate need for the information to perform the purposes of the retirement system; or

(3) a party in response to a subpoena issued under applicable law.
(e) A record released or received by the retirement system under this section may be transmitted electronically, including through the use of an electronic signature or certification in a form acceptable to the retirement system. An unintentional disclosure to, or unauthorized access by, a third party related to the transmission or receipt of information under this section is not a violation by the retirement system of any law, including a law or rule relating to the protection of confidential information.

(f) The records of an individual member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system remain confidential after release to a person as authorized by this section. The records may become part of the public record of an administrative or judicial proceeding related to a contested case, and the member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits waives the confidentiality of the records, including medical records, unless the records are closed to public access by a protective order issued under applicable law.

(g) The retirement system may require a person to provide the person's social security number as the system considers necessary to ensure the proper administration of all services, benefits, plans, and programs under the retirement system's administration, oversight, or participation or as otherwise required by state or federal law.

(h) The retirement system has sole discretion in determining whether a record is subject to this section. For purposes of this section, a record includes any identifying information about a person, living or deceased, who is or was a member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system under any retirement plan or program administered by the retirement system.

(i) To the extent of a conflict between this section and any other law with respect to the confidential information held by a public retirement system or other entity described by Subsection (c) concerning an individual member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system, the prevailing provision is the provision that provides the greater substantive and procedural protection for the privacy of information concerning that individual member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits.
Sec. 552.004. PRESERVATION OF INFORMATION.  (a) A governmental body or, for information of an elective county office, the elected county officer, may determine a time for which information that is not currently in use will be preserved, subject to Subsection (b) and to any applicable rule or law governing the destruction and other disposition of state and local government records or public information.

(b) A current or former officer or employee of a governmental body who maintains public information on a privately owned device shall:

(1) forward or transfer the public information to the governmental body or a governmental body server to be preserved as provided by Subsection (a); or

(2) preserve the public information in its original form in a backup or archive and on the privately owned device for the time described under Subsection (a).

(c) The provisions of Chapter 441 of this code and Title 6, Local Government Code, governing the preservation, destruction, or other disposition of records or public information apply to records and public information held by a temporary custodian.

Sec. 552.005. EFFECT OF CHAPTER ON SCOPE OF CIVIL DISCOVERY.  (a) This chapter does not affect the scope of civil discovery under the Texas Rules of Civil Procedure.

(b) Exceptions from disclosure under this chapter do not create new privileges from discovery.

Added by Acts 1993, 73rd Leg., ch. 268, Sec. 1, eff. Sept. 1, 1993.
Sec. 552.0055. SUBPOENA DUces TECUM OR DISCOVERY REQUEST. A subpoena duces tecum or a request for discovery that is issued in compliance with a statute or a rule of civil or criminal procedure is not considered to be a request for information under this chapter.

Added by Acts 1999, 76th Leg., ch. 1319, Sec. 2, eff. Sept. 1, 1999.

Sec. 552.006. EFFECT OF CHAPTER ON WITHHOLDING PUBLIC INFORMATION. This chapter does not authorize the withholding of public information or limit the availability of public information to the public, except as expressly provided by this chapter.

Sec. 552.007. VOLUNTARY DISCLOSURE OF CERTAIN INFORMATION WHEN DISCLOSURE NOT REQUIRED. (a) This chapter does not prohibit a governmental body or its officer for public information from voluntarily making part or all of its information available to the public, unless the disclosure is expressly prohibited by law or the information is confidential under law.

(b) Public information made available under Subsection (a) must be made available to any person.

Sec. 552.008. INFORMATION FOR LEGISLATIVE PURPOSES. (a) This chapter does not grant authority to withhold information from individual members, agencies, or committees of the legislature to use for legislative purposes.

(b) A governmental body on request by an individual member, agency, or committee of the legislature shall provide public information, including confidential information, to the requesting member, agency, or committee for inspection or duplication in accordance with this chapter if the requesting member, agency, or
committee states that the public information is requested under this chapter for legislative purposes. A governmental body, by providing public information under this section that is confidential or otherwise excepted from required disclosure under law, does not waive or affect the confidentiality of the information for purposes of state or federal law or waive the right to assert exceptions to required disclosure of the information in the future. The governmental body may require the requesting individual member of the legislature, the requesting legislative agency or committee, or the members or employees of the requesting entity who will view or handle information that is received under this section and that is confidential under law to sign a confidentiality agreement that covers the information and requires that:

(1) the information not be disclosed outside the requesting entity, or within the requesting entity for purposes other than the purpose for which it was received;
(2) the information be labeled as confidential;
(3) the information be kept securely; or
(4) the number of copies made of the information or the notes taken from the information that implicate the confidential nature of the information be controlled, with all copies or notes that are not destroyed or returned to the governmental body remaining confidential and subject to the confidentiality agreement.

(b-1) A member, committee, or agency of the legislature required by a governmental body to sign a confidentiality agreement under Subsection (b) may seek a decision as provided by Subsection (b-2) about whether the information covered by the confidentiality agreement is confidential under law. A confidentiality agreement signed under Subsection (b) is void to the extent that the agreement covers information that is finally determined under Subsection (b-2) to not be confidential under law.

(b-2) The member, committee, or agency of the legislature may seek a decision from the attorney general about the matter. The attorney general by rule shall establish procedures and deadlines for receiving information necessary to decide the matter and briefs from the requestor, the governmental body, and any other interested person. The attorney general shall promptly render a decision requested under this subsection, determining whether the information covered by the confidentiality agreement is confidential under law, not later than the 45th business day after the date the attorney
general received the request for a decision under this subsection. The attorney general shall issue a written decision on the matter and provide a copy of the decision to the requestor, the governmental body, and any interested person who submitted necessary information or a brief to the attorney general about the matter. The requestor or the governmental body may appeal a decision of the attorney general under this subsection to a Travis County district court. A person may appeal a decision of the attorney general under this subsection to a Travis County district court if the person claims a proprietary interest in the information affected by the decision or a privacy interest in the information that a confidentiality law or judicial decision is designed to protect.

(c) This section does not affect:

(1) the right of an individual member, agency, or committee of the legislature to obtain information from a governmental body under other law, including under the rules of either house of the legislature;

(2) the procedures under which the information is obtained under other law; or

(3) the use that may be made of the information obtained under other law.

(d) The members of the committee who represent state governmental bodies and the public members of the committee shall periodically study and determine the types of public information for which it would be useful to the public or cost-effective for the government if the type of information were made available by state governmental bodies by means of the Internet or another electronic format. The committee shall report its findings and recommendations to the governor, the presiding officer of each house of the legislature, and the budget committee and state affairs committee of each house of the legislature.

(e) Chapter 2110 does not apply to the size, composition, or duration of the committee. Chapter 2110 applies to the reimbursement of a public member's expenses related to service on the committee. Any reimbursement of the expenses of a member who represents a state or local governmental body may be paid only from funds available to the state or local governmental body the member represents.
Sec. 552.010. STATE GOVERNMENTAL BODIES: FISCAL AND OTHER INFORMATION RELATING TO MAKING INFORMATION ACCESSIBLE. (a) Each state governmental body shall report to the attorney general the information the attorney general requires regarding:

(1) the number and nature of requests for information the state governmental body processes under this chapter in the period covered by the report; and

(2) the cost to the state governmental body in that period in terms of capital expenditures and personnel time of:

(A) responding to requests for information under this chapter; and

(B) making information available to the public by means of the Internet or another electronic format.

(b) The attorney general shall design and phase in the reporting requirements in a way that:

(1) minimizes the reporting burden on state governmental bodies; and

(2) allows the legislature and state governmental bodies to estimate the extent to which it is cost-effective for state government, and if possible the extent to which it is cost-effective or useful for members of the public, to make information available to the public by means of the Internet or another electronic format as a supplement or alternative to publicizing the information only in other ways or making the information available only in response to requests made under this chapter.

(c) The attorney general shall share the information reported under this section with the open records steering committee.
Sec. 552.011. UNIFORMITY. The attorney general shall maintain uniformity in the application, operation, and interpretation of this chapter. To perform this duty, the attorney general may prepare, distribute, and publish any materials, including detailed and comprehensive written decisions and opinions, that relate to or are based on this chapter.

Added by Acts 1999, 76th Leg., ch. 1319, Sec. 4, eff. Sept. 1, 1999.

Subject to veto by the governor, the following section was amended by the 88th Legislature. Pending publication of the current statutes, see H.B. 3033, 88th Legislature, Regular Session, for amendments affecting the following section.

Sec. 552.012. OPEN RECORDS TRAINING. (a) This section applies to an elected or appointed public official who is:

(1) a member of a multimember governmental body;

(2) the governing officer of a governmental body that is headed by a single officer rather than by a multimember governing body; or

(3) the officer for public information of a governmental body, without regard to whether the officer is elected or appointed to a specific term.

(b) Each public official shall complete a course of training of not less than one and not more than two hours regarding the responsibilities of the governmental body with which the official serves and its officers and employees under this chapter not later than the 90th day after the date the public official:

(1) takes the oath of office, if the person is required to take an oath of office to assume the person's duties as a public official; or
(2) otherwise assumes the person's duties as a public official, if the person is not required to take an oath of office to assume the person's duties.

(c) A public official may designate a public information coordinator to satisfy the training requirements of this section for the public official if the public information coordinator is primarily responsible for administering the responsibilities of the public official or governmental body under this chapter. Designation of a public information coordinator under this subsection does not relieve a public official from the duty to comply with any other requirement of this chapter that applies to the public official. The designated public information coordinator shall complete the training course regarding the responsibilities of the governmental body with which the coordinator serves and of its officers and employees under this chapter not later than the 90th day after the date the coordinator assumes the person's duties as coordinator.

(d) The attorney general shall ensure that the training is made available. The office of the attorney general may provide the training and may also approve any acceptable course of training offered by a governmental body or other entity. The attorney general shall ensure that at least one course of training approved or provided by the attorney general is available on videotape or a functionally similar and widely available medium at no cost. (5) penalties and other consequences for failure to comply with this chapter.

(e) The office of the attorney general or other entity providing the training shall provide a certificate of course completion to persons who complete the training required by this section. A governmental body shall maintain and make available for public inspection the record of its public officials' or, if applicable, the public information coordinator's completion of the
training.

(f) Completing the required training as a public official of the governmental body satisfies the requirements of this section with regard to the public official's service on a committee or subcommittee of the governmental body and the public official's ex officio service on any other governmental body.

(g) The training required by this section may be used to satisfy any corresponding training requirements concerning this chapter or open records required by law for a public official or public information coordinator. The attorney general shall attempt to coordinate the training required by this section with training required by other law to the extent practicable.

(h) A certificate of course completion is admissible as evidence in a criminal prosecution under this chapter. However, evidence that a defendant completed a course of training offered under this section is not prima facie evidence that the defendant knowingly violated this chapter.

Added by Acts 2005, 79th Leg., Ch. 105 (S.B. 286), Sec. 2, eff. January 1, 2006.
