**SUBCHAPTER B. FINANCING HOSPITAL PROJECTS**

Sec. 223.011. PROVIDING HOSPITAL PROJECTS. (a) An issuer acting for itself or through a nonprofit organization may provide one or more hospital projects by acquisition, construction, or improvement. An acquisition may occur by purchase, devise, gift, lease, or a combination of those methods.

(b) A hospital project must be located in this state and within or partially within the issuer's boundaries, except that a hospital project of a municipality may be located:

(1) outside the municipality's limits if it is within the municipality's extraterritorial jurisdiction; or

(2) in another municipality if the governing body of the other municipality consents to the former municipality's provision of the project.

(c) An issuer may only acquire a hospital project from a nonprofit organization that has been in existence and has operated the hospital project for at least three years before the date of acquisition by the issuer.

(d) An issuer must affirmatively find that the cost of an acquired hospital project is not more than:

(1) the actual audited cost of the hospital project to the date of acquisition; or

(2) the fair market value of the hospital project at the date of acquisition as determined by an appraisal obtained by the issuer.
Sec. 223.012. TITLE TO PROJECTS. (a) An issuer may vest title to a hospital project provided under this chapter in a nonprofit organization.

(b) If the issuer vests the title in a nonprofit organization, it may retain a mortgage interest in the hospital project. The mortgage interest expires when all bonds of the issuer sold to provide the hospital project are paid or provision has been made for their final payment.

Sec. 223.013. CONTRACTS RELATING TO HOSPITAL PROJECT. (a) An issuer may execute a contract, including a lease, with a nonprofit organization with respect to a hospital project. A contract may authorize the nonprofit organization to use, operate, or acquire the hospital project on the terms, including payment provisions, the issuer's governing body determines to be advisable.

(b) A contract may include the sale of a hospital project to a nonprofit organization, including a nonprofit organization using the hospital project. The terms of the sale may include installment payments. The sale must be fully consummated when all bonds of the issuer issued to provide the hospital project are paid or provision is made for their final payment if, during the time the bonds or interest on the bonds remains unpaid, there is no failure to make any payments owing under any lease or contract at the time and in the manner as the payments come due.

(c) A contract under this chapter may be for the term agreed to by the parties and may provide that the contract continues until the bonds specified in the contract, or refunding or substitution bonds issued in place of those bonds, are fully paid or provision is made for their final payment.

Sec. 223.014. AUTHORITY OF ISSUER. An issuer has full and complete authority relating to its bonds, a lease agreement in which
the issuer is a lessor, or a sale or other contract, subject only to
this chapter.

Sec. 223.015. OBLIGATIONS LIMITED. (a) The issuer may not
incur a financial obligation under this chapter that cannot be paid
from the proceeds of hospital project bonds, revenues derived from
operating a hospital project, or other revenues that may be provided
by a nonprofit organization in accordance with this chapter.

(b) The legislature or an issuer may not make an appropriation
to pay any part of a cost of a hospital project or any operating cost
of a hospital project.

issuer may not acquire by eminent domain a hospital project, or any
part of a hospital project, to be sold or leased under this chapter.

(b) Land previously acquired by eminent domain by an issuer may
be sold or leased under this chapter if the governing body of the
issuer determines that:

(1) the use of the land will not interfere with the purpose
for which the land was originally acquired or that the land is no
longer needed for that purpose;

(2) at least seven years have elapsed since the date the
land was acquired by eminent domain; and

(3) the land was not acquired for park purposes or, if the
land was acquired for park purposes, the sale or lease of parkland

Government Code.

SUBCHAPTER C. HOSPITAL PROJECT BONDS

Sec. 223.021. ISSUANCE OF HOSPITAL PROJECT BONDS. (a) An
issuer may provide for the issuance of negotiable revenue bonds or
other evidences of indebtedness for paying hospital project costs. The bonds may be issued subject only to the requirements of this chapter.

(b) As the governing body of the issuer determines to be in the best interest of the issuer, one or more series of bonds may be issued for each hospital project, or more than one hospital project may be combined in one or more series of bonds, but each hospital project may be considered separately with respect to Subsections (c), (d), and (e), and Sections 223.022-223.024.

(c) Before issuing bonds, the governing body of an issuer must adopt a resolution:

(1) declaring its intention to issue bonds; and

(2) stating the maximum amount of bonds proposed to be issued, the purpose for which the bonds are to be issued, and the tentative date, time, and place at which the governing body proposes to authorize the issuance of the bonds.

(d) Unless the governing body of the issuer orders an election on the issuance of the bonds, a substantial copy of the resolution shall be published three times in a newspaper of general circulation in the territorial limits of the issuer. The first publication must be made not earlier than the 45th day before the tentative date stated in the resolution. The third publication must be made not later than the 11th day before the tentative date.

(e) Before authorizing the issuance of any bonds or ordering an election on any matters authorized by this chapter, the issuer must deposit with the chief administrative officer of the issuer a complete description of any proposed hospital project, including a detailed listing and explanation of projected costs, the reasons for the hospital project, and the name of each owner of the nonprofit organization for whom the hospital project is to be constructed. The required description is public information.

Sec. 223.022. ELECTION ON BONDS. (a) The governing body of an issuer shall order and hold an election on the question of the issuance of hospital project bonds if at least five percent or 20,000 of the voters qualified to vote in an election held by the issuer, whichever is less, file a written protest against the issuance of the
bonds before the close of business on the business day before the tentative date in the resolution for the authorization of the bonds. 

(b) The issuer's governing body may order an election on its own motion without the filing of a protest.

(c) In addition to the contents required by the Election Code, the election order must specify the location of and the presiding judge and alternate judge for each polling place.

(d) Notice of a bond election shall be published three times in a newspaper of general circulation in the territorial limits of the issuer. The first notice must be published not earlier than the 45th day before the date set for the election, and the third notice must be published not later than the 11th day before the date set for the election.

(e) The election shall be conducted in accordance with the general laws pertaining to bond elections in municipalities, except as modified by this chapter.

(f) The ballot shall provide for voting for or against the proposition: "The issuance of revenue bonds or notes or other evidences of indebtedness for the hospital project or hospital projects."

(g) The governing body shall declare whether a majority of the voters voting in the election approve the proposition.

Sec. 223.023. ELECTION RESULTS. (a) If the proposition is approved by a majority of the voters voting in the election, the issuer may authorize the bonds.

(b) If the proposition is not approved, an election on the issuing of revenue bonds for the hospital project that was the subject of the election may not be ordered within six months after that election, and bonds may not be issued for the hospital project until a majority of the voters voting in an election held for that purpose approve the issuance of the bonds.

Sec. 223.024. PROTEST NOT FILED. If a protest requiring an election is not filed under Section 223.022(a) and an election is not
called under Section 223.022(b), the issuer may issue the bonds under the resolution without an election for two years after the tentative date specified in the resolution.

Sec. 223.025. LIMITATIONS ON BONDS. (a) Bonds issued in accordance with this chapter are not general obligations or a pledge of the faith and credit of this state, the issuer, or another political subdivision of this state. The bonds are payable solely from revenues of the hospital project for which they are issued or from other revenues provided by a nonprofit organization. Money of this state or a political subdivision of this state from any source, including tax revenue, but excluding revenue of the hospital project being financed with the bonds, may not be used to pay the principal of, any redemption premium for, or interest on revenue bonds or refunding bonds issued under this chapter.

(b) Each revenue bond must state on its face that:

(1) this state, the issuer, or any political subdivision of this state is not obligated to pay the principal of, any redemption premium for, or interest on the bonds except from the revenues pledged for that purpose; and

(2) the faith, credit, or the taxing power of this state, the issuer, or any political subdivision of this state is not pledged to the payment of the principal of, any redemption premium for, or interest on the bonds.

Sec. 223.026. FORM AND TERM OF BONDS. (a) The issuer shall determine the form of the bonds, the date of the bond issue, the price and interest rate of the bonds, and the maturity for the bonds, which may not be more than 40 years after its date.

(b) The issuer may:

(1) make the bonds redeemable before maturity and determine the prices and conditions for early redemption;

(2) determine:

(A) the interest coupons to be attached to the bonds;

(B) the denominations of the bonds; and
(C) the places of payment of the bonds' principal, any redemption premium, and interest;

(3) issue the bonds in coupon or in registered form, or both;

(4) make the bonds payable to a specific person;

(5) provide for the registration of coupon bonds as to principal or as to principal and interest; and

(6) provide for the conversion of coupon bonds into registered bonds without coupons and for the reconversion into coupon bonds of any registered bonds without coupons.

(c) If the duty of conversion or reconversion of a bond is imposed on a trustee in a trust agreement, the substituted bonds need not be reapproved by the attorney general, and the bonds remain incontestable.

(d) The issuer may provide for execution of the bonds and any coupons using a facsimile signature under Chapter 618, Government Code. If the signature or a facsimile signature of a person who has been an officer appears on a bond or coupon, the signature or facsimile signature is valid and sufficient for all purposes, regardless of whether the person is an officer when the bonds are delivered.

Sec. 223.027. DEDICATED REPAYMENT REVENUE. The principal of, any redemption premium for, and interest on hospital project bonds are payable from and secured, as specified by the resolution of the governing body or in any trust agreement or other instrument securing the bonds, by a pledge of all or part of the revenues of the issuer to be derived from:

(1) the ownership, operation, lease, use, mortgage, or sale of the hospital project for which the bonds have been issued; or

(2) other revenues provided by a nonprofit organization.

Sec. 223.028. SECURITY FOR BONDS. (a) Bonds issued under this chapter may be secured by a trust agreement between the issuer and a
trust company or bank having the powers of a trust company in this state.

(b) A trust agreement may pledge or assign lease income, contract payments, fees, or other charges to be received from a nonprofit organization. The governing body of the issuer may secure the bonds additionally by a mortgage, a deed of trust lien, or other security interest on a designated hospital project vesting in the trustee the power to sell the hospital project for the payment of the indebtedness, the power to operate the hospital project, and any other power for the further security of the bonds.

(c) The trust agreement may:

(1) evidence a pledge of all or any part of the revenue of the issuer from the ownership, operation, lease, use, mortgage, or sale of a hospital project for the payment of principal of, any redemption premium for, and interest on the bonds when due and payable;

(2) provide for the creation and maintenance of reserves;

(3) set forth the rights and remedies of the bondholders and of the trustee;

(4) restrict the individual right of action by bondholders as is customary in trust agreements securing bonds and debentures of corporations;

(5) contain provisions the issuer considers reasonable and proper for the security of the bondholders; and

(6) provide for the issuance of bonds to replace lost, stolen, or mutilated bonds.

(d) A trust agreement or resolution providing for the issuance of bonds may provide for protecting and enforcing the rights and remedies of the bondholders as reasonable and proper, including covenants setting forth the duties of the issuer and the nonprofit organization in relation to:

(1) the acquisition of property and the construction, improvement, maintenance, repair, operation, and insurance of the hospital project in connection with which the bonds are issued; and

(2) the custody, safeguarding, and application of all money.

Sec. 223.029. USE OF PROCEEDS. (a) The proceeds of the bonds may be:

(1) used only for the payment of hospital project costs for which the bonds are issued; and

(2) disbursed in the manner and subject to the restrictions provided in the resolution authorizing the issuance or in the trust agreement securing the bonds.

(b) The issuer shall be paid, from the proceeds of its bonds, money in the amount equal to:

(1) the issuer's actual expenditures for financing, legal, printing, and other expenses incurred in issuing, selling, and delivering the bonds; and

(2) the compensation paid to the issuer's employees for the time the employees spent on activities related to the issuance, sale, and delivery of the bonds.

(c) If the amount of proceeds exceeds the cost of the hospital project for which the bonds are issued, the excess shall be deposited to the credit of the sinking fund for the bonds.

(d) The governing body of the issuer may provide for a bond reserve fund in the resolution authorizing the bonds or an instrument securing the bonds and may set aside amounts from the proceeds for payments into the reserve fund.

(e) Proceeds from the sale of bonds may be invested in:

(1) direct, indirect, or guaranteed obligations of the United States that mature in a manner specified by the resolution authorizing the bonds or another instrument securing the bonds; or

(2) certificates of deposit of a bank or trust company if the deposits are secured by obligations described by Subdivision (1).

(f) The issuer's governing body may designate a trust company or a bank with trust powers to act as depository for proceeds of bonds or revenues from a lease or other contract. The bank or trust company shall furnish indemnifying bonds or pledge securities as required by the issuer to secure the deposits.

Sec. 223.030. TEMPORARY OBLIGATIONS. (a) Before the issuance of definitive bonds, the issuer may issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive
Sec. 223.031. EXAMINATION OF BONDS. (a) After issuance of the bonds is authorized and before delivery of the bonds to their purchasers, the bonds and the proceedings authorizing their issuance and securing the bonds shall be presented to the attorney general for examination.

(b) If the bonds state that they are secured by a pledge of all or part of the revenues of the issuer to be derived from a lease or other contract, the contract shall also be submitted to the attorney general.

(c) If the attorney general finds that the bonds have been authorized in accordance with state law and any contract securing the bonds has been made in accordance with state law, the attorney general shall approve the bonds and contract.

(d) The comptroller shall register the bonds when they are approved. After approval and registration, the bonds and contract submitted with the bonds are valid and binding obligations according to their terms and are incontestable.

Sec. 223.032. REFUNDING BONDS. (a) An issuer by resolution may authorize the issuance of revenue bonds to refund:

(1) outstanding bonds or other evidences of indebtedness that have been issued to provide a hospital project; or

(2) outstanding obligations, mortgages, or advances issued, made, or given by a nonprofit organization for the cost of a hospital project.

(b) The amounts refunded may include the principal of and any redemption premium for the bonds or other evidences of indebtedness, and any interest accruing to the date of redemption.

(c) The bonds or other evidences of indebtedness to be refunded
need not have been issued under this chapter and need not have been
originally issued by the issuer of the refunding bonds.

(d) This subchapter governs the issuance of refunding bonds,
the maturities and other details of the bonds, the rights of the
bondholders, and rights, duties, and obligations of the refunding
bond issuer.

(e) The issuer may issue the refunding bonds in exchange or
substitution for outstanding bonds or other evidences of indebtedness
or may sell the refunding bonds and use the proceeds for paying or
redeeming outstanding bonds or other evidences of indebtedness.

Sec. 223.033. ENFORCEMENT OF AGREEMENTS. (a) An agreement
made under this chapter may provide, in the event of default in the
payment of the principal of, interest on, or any redemption premium
for bonds subject to the agreement or in the performance of an
agreement contained in the proceedings, mortgage, or instruments
relating to the bonds, for enforcement of the payment or performance
by:

(1) mandamus; or
(2) the appointment of a receiver in equity with power to
charge and collect rates, rents, or contract payments and to apply
the revenues from the hospital project in accordance with the
resolution, mortgage, or instruments.

(b) A mortgage to secure hospital project bonds may provide for
foreclosure and the sale of the property secured by the mortgage on
default in the mortgage payment or the violation of an agreement
contained in the mortgage. The foreclosure and sale may occur under
proceedings in equity or in any other manner permitted by law. The
mortgage may provide that a trustee under the mortgage or the holder
of any of the bonds secured by the mortgage may be the purchaser at a
foreclosure sale if the trustee or bondholder is the highest bidder.

Sec. 223.034. MEMBERSHIP OF GOVERNING BODY NOT SUBJECT TO
CHANGE. The resolution authorizing the issuance of hospital project
bonds, the trust agreement securing the bonds, or any other agreement
relating to the bonds may not prescribe the method of selecting or the term of office of any member of the issuer's governing body.

(6) each building of a hospital to be included in the license that is geographically separate from other buildings of the same hospital contains at least one nursing unit for inpatients, unless providing only diagnostic or laboratory services, or a combination of diagnostic or laboratory services, in the building for hospital inpatients; and

(d) All license fees collected shall be deposited in the state treasury to the credit of the department to administer and enforce this chapter.

(e) Notwithstanding Subsection (d), to the extent that money received from the fees collected under this chapter exceeds the costs to the department to conduct the activity for which the fee is imposed, the department may use the money to administer Chapter 324 and similar laws that require the department to provide information related to hospital care to the public. (c) The department by order may waive or modify the requirement of a particular provision of this chapter or minimum standard adopted by department rule under this section to a particular general or special hospital if the department determines that the waiver or modification will facilitate the creation or operation of the hospital and that the waiver or modification is in the best interests of the individuals served or to be served by the hospital.

(d) The executive commissioner shall adopt rules establishing procedures and criteria for the issuance of the waiver or modification order. The criteria must include at a minimum a statement of the appropriateness of the waiver or modification against the best interests of the individuals served by the hospital.

(b) The rules must provide that patient transfers between hospitals be accomplished through hospital policies that result in medically appropriate transfers from physician to physician and from hospital to hospital by providing:

1. for notification to the receiving hospital before the patient is transferred and confirmation by the receiving hospital that the patient meets the receiving hospital's admissions criteria relating to appropriate bed, physician, and other services necessary to treat the patient;

2. for the use of medically appropriate life support measures that a reasonable and prudent physician exercising ordinary care in the same or a similar locality would use to stabilize the patient before the transfer and to sustain the patient during the
transfer;

(3) for the provision of appropriate personnel and equipment that a reasonable and prudent physician exercising ordinary care in the same or a similar locality would use for the transfer;

(4) for the transfer of all necessary records for continuing the care for the patient; and

(5) that the transfer of a patient not be predicated on arbitrary, capricious, or unreasonable discrimination because of race, religion, national origin, age, sex, physical condition, or economic status.

(c) The rules must require that if a patient at a hospital has an emergency medical condition which has not been stabilized, the hospital may not transfer the patient unless:

(1) the patient or a legally responsible person acting on the patient's behalf, after being informed of the hospital's obligations under this section and of the risk of transfer, in writing requests transfer to another medical facility;

(2) a licensed physician has signed a certification, which includes a summary of the risks and benefits, that, based on the information available at the time of transfer, the medical benefits reasonably expected from the provision of appropriate medical treatment at another medical facility outweigh the increased risks to the patient and, in the case of labor, to the unborn child from effecting the transfer; or

(3) if a licensed physician is not physically present in the emergency department at the time a patient is transferred, a qualified medical person has signed a certification described in Subdivision (2) after a licensed physician, in consultation with the person, has made the determination described in such clause and subsequently countersigns the certificate.

(d) The rules also shall provide that a public hospital or hospital district shall accept the transfer of its eligible residents if the public hospital or hospital district has appropriate facilities, services, and staff available for providing care to the patient.

(e) The rules must require that a hospital take all reasonable steps to secure the informed refusal of a patient or of a person acting on the patient's behalf to a transfer or to related examination and treatment.

(f) The rules must recognize any contractual, statutory, or
regulatory obligations that may exist between a patient and a designated or mandated provider as those obligations apply to the transfer of emergency or nonemergency patients.

(c) At a minimum, a transfer agreement must provide that:

(1) transfers be accomplished in a medically appropriate manner and comply with Sections 241.027(b)(2) through (5) and Section 241.027(c);

(2) the transfer or receipt of patients in need of emergency care not be based on the individual's inability to pay for the services rendered by the transferring or receiving hospital;

(3) multiple transfer agreements be entered into by a hospital based on the type or level of medical services available at other hospitals;

(4) the hospitals recognize the right of an individual to request transfer to the care of a physician and hospital of the individual's choice;

(5) the hospitals recognize and comply with the requirements of Chapter 61 (Indigent Health Care and Treatment Act) relating to the transfer of patients to mandated providers; and

(6) consideration be given to availability of appropriate facilities, services, and staff for providing care to the patient.

(d) If a hospital transfers a patient in violation of Subsection (c)(1), (2), (4), (5), or (6), relating to required

A representative of the department may enter the premises of a hospital at any reasonable time to make an inspection, a survey, or an investigation to assure compliance with or prevent a violation of this chapter, the rules adopted under this chapter, an order or special order of the commissioner, a special license provision, a court order granting injunctive relief, or other enforcement
procedures. The department shall maintain the confidentiality of hospital records as applicable under state or federal law.

(b) The department or a representative of the department is entitled to access to all books, records, or other documents maintained by or on behalf of the hospital to the extent necessary to enforce this chapter, the rules adopted under this chapter, an order or special order of the commissioner, a special license provision, a court order granting injunctive relief, or other enforcement procedures.

(c) By applying for or holding a hospital license, the hospital consents to entry and inspection of the hospital by the department or a representative of the department in accordance with this chapter and the rules adopted under this chapter.

(d) All information and materials obtained or compiled by the department in connection with a complaint and investigation concerning a hospital are confidential and not subject to disclosure under Section 552.001 et seq., Government Code, and not subject to disclosure, discovery, subpoena, or other means of legal compulsion for their release to anyone other than the department or its employees or agents involved in the enforcement action except that this information may be disclosed to:

(1) persons involved with the department in the enforcement action against the hospital;

(2) the hospital that is the subject of the enforcement action, or the hospital's authorized representative;

(3) appropriate state or federal agencies that are authorized to inspect, survey, or investigate hospital services;

(4) law enforcement agencies; and

(5) persons engaged in bona fide research, if all individual-identifying and hospital-identifying information has been deleted.

(e) The following information is subject to disclosure in accordance with Section 552.001 et seq., Government Code:

(1) a notice of alleged violation against the hospital, which notice shall include the provisions of law which the hospital is alleged to have violated, and a general statement of the nature of the alleged violation;

(2) the pleadings in the administrative proceeding; and

(3) a final decision or order by the department.
Sec. 241.052. COMPLIANCE WITH RULES AND STANDARDS. (a) A hospital that is in operation when an applicable rule or minimum standard is adopted under this chapter must be given a reasonable period within which to comply with the rule or standard.

(b) The period for compliance may not exceed six months, except that the department may extend the period beyond six months if the hospital sufficiently shows the department that it requires additional time to complete compliance with the rule or standard.

Sec. 241.053. DENIAL OF APPLICATION, SUSPENSION, REVOCATION, PROBATION, OR REISSUANCE OF LICENSE. (a) The department, after providing notice and an opportunity for a hearing to the applicant or license holder, may deny, suspend, or revoke a hospital's license if the department finds that the hospital:

(1) failed to comply with:

(A) a provision of this chapter;
(B) a rule adopted under this chapter;
(C) a special license condition;
(D) an order or emergency order by the commissioner; or
(E) another enforcement procedure permitted under this chapter;

(2) has a history of noncompliance with the rules adopted under this chapter relating to patient health, safety, and rights which reflects more than nominal noncompliance; or

(3) has aided, abetted, or permitted the commission of an illegal act.

(b) A hospital whose license is suspended or revoked may apply to the department for the reissuance of a license. The department may reissue the license if the department determines that the
hospital has corrected the conditions that led to the suspension or revocation of the hospital's license, the initiation of enforcement action against the hospital, the assessment of administrative penalties, or the issuance of a court order enjoining the hospital from violations or assessing civil penalties against the hospital. A hospital whose license is suspended or revoked may not admit new patients until the license is reissued.

(c) A hospital must apply for reissuance in the form and manner required in the rules adopted under this chapter.

(d) Administrative hearings required under this section shall be conducted under the department's formal hearing rules and the contested case provisions of Chapter 2001, Government Code.

(e) Judicial review of a final decision by the department is by trial de novo in the same manner as a case appealed from the justice court to the county court. The substantial evidence rule does not apply.

(f) If the department finds that a hospital is in repeated noncompliance under Subsection (a) but that the noncompliance does not endanger public health and safety, the department may schedule the hospital for probation rather than suspending or revoking the hospital's license. The department shall provide notice to the hospital of the probation and of the items of noncompliance not later than the 10th day before the date the probation period begins. The department shall designate a period of not less than 30 days during which the hospital will remain under probation. During the probation period, the hospital must correct the items that were in noncompliance and report the corrections to the department for approval.

(g) The department may suspend or revoke the license of a hospital that does not correct items that were in noncompliance or that does not comply with the applicable requirements within the applicable probation period.

Sec. 241.0531. COMMISSIONER'S EMERGENCY ORDERS. (a) Following notice to the hospital and opportunity for hearing, the commissioner or a person designated by the commissioner may issue an emergency order, either mandatory or prohibitory in nature, in relation to the operation of a hospital licensed under this chapter if the commissioner or the commissioner's designee determines that the hospital is violating or threatening to violate this chapter, a rule adopted pursuant to this chapter, a special license provision, injunctive relief issued pursuant to Section 241.054, an order of the commissioner or the commissioner's designee, or another enforcement procedure permitted under this chapter and the provision, rule, license provision, injunctive relief, order, or enforcement procedure relates to the health or safety of the hospital's patients.

(b) The department shall send written notice of the hearing and shall include within the notice the time and place of the hearing. The hearing must be held within 10 days after the date of the hospital's receipt of the notice.

(c) The hearing shall not be governed by the contested case provisions of Chapter 2001, Government Code, but shall instead be held in accordance with the department's informal hearing rules.

(d) The order shall be effective on delivery to the hospital or at a later date specified in the order.

Sec. 241.054. VIOLATIONS; INJUNCTIONS. (a) The department shall:

(1) notify a hospital of a finding by the department that the hospital is violating or has violated this chapter or a rule or standard adopted under this chapter; and

(2) provide the hospital an opportunity to correct the
violation.

(b) After the notice and opportunity to comply, the commissioner may request the attorney general or the appropriate district or county attorney to institute and conduct a suit for a violation of this chapter or a rule adopted under this chapter.

(c) The department may petition a district court for a temporary restraining order to restrain a continuing violation if the department finds that the violation creates an immediate threat to the health and safety of the patients of a hospital.

(d) On his own initiative, the attorney general, a district attorney, or a county attorney may maintain an action in the name of the state for a violation of this chapter or a rule adopted under this chapter.

(e) The district court shall assess the civil penalty authorized by Section 241.055, grant injunctive relief, or both, as warranted by the facts. The injunctive relief may include any prohibitory or mandatory injunction warranted by the facts, including a temporary restraining order, temporary injunction, or permanent injunction.

(f) The department and the party bringing the suit may recover reasonable expenses incurred in obtaining injunctive relief, civil penalties, or both, including investigation costs, court costs, reasonable attorney fees, witness fees, and deposition expenses.

(g) Venue may be maintained in Travis County or in the county in which the violation occurred.

(h) Not later than the seventh day before the date on which the attorney general intends to bring suit on his own initiative, the attorney general shall provide to the department notice of the suit. The attorney general is not required to provide notice of a suit if the attorney general determines that waiting to bring suit until the notice is provided will create an immediate threat to the health and safety of a patient. This section does not create a requirement that the attorney general obtain the permission of a referral from the department before filing suit.

(i) The injunctive relief and civil penalty authorized by this section and Section 241.055 are in addition to any other civil, administrative, or criminal penalty provided by law.

Sec. 241.055. CIVIL PENALTY. (a) A hospital shall timely adopt, implement, and enforce a patient transfer policy in accordance with Section 241.027. A hospital may implement patient transfer agreements in accordance with Section 241.028.

(b) A hospital that violates Subsection (a), another provision of this chapter, or a rule adopted or enforced under this chapter is liable for a civil penalty of not more than $1,000 for each day of violation and for each act of violation. A hospital that violates this chapter or a rule or order adopted under this chapter relating to the provision of mental health, chemical dependency, or rehabilitation services is liable for a civil penalty of not more than $25,000 for each day of violation and for each act of violation.

(c) In determining the amount of the penalty, the district court shall consider:

(1) the hospital's previous violations;
(2) the seriousness of the violation, including the nature, circumstances, extent, and gravity of the violation;
(3) whether the health and safety of the public was threatened by the violation;
(4) the demonstrated good faith of the hospital; and
(5) the amount necessary to deter future violations.

(d) A penalty collected under this section by the attorney general shall be deposited to the credit of the general revenue fund. A penalty collected under this section by a district or county attorney shall be deposited to the credit of the general fund of the county in which the suit was heard.

Sec. 241.0555. ADDITIONAL REQUIREMENTS: POTENTIALLY PREVENTABLE ADVERSE EVENTS. (a) If the department finds that a hospital has
committed a violation that resulted in a potentially preventable adverse event reportable under Chapter 98, the department shall require the hospital to develop and implement a plan for approval by the department to address the deficiencies that may have contributed to the preventable adverse event.

(b) The department may require the plan under this section to include:

1. staff training and education;
2. supervision requirements for certain staff;
3. increased staffing requirements;
4. increased reporting to the department; and
5. a review and amendment of hospital policies relating to patient safety.

(c) The department shall carefully and frequently monitor the hospital's adherence to the plan under this section and enforce compliance.

Added by Acts 2015, 84th Leg., R.S., Ch. 183 (S.B. 373), Sec. 2, eff. September 1, 2015.

Sec. 241.056. SUIT BY PERSON HARMED. (a) A person who is harmed by a violation under Section 241.028 or 241.055 may petition a district court for appropriate injunctive relief.

(b) Venue for a suit brought under this section is in the county in which the person resides or, if the person is not a resident of this state, in Travis County.

(c) The person may also pursue remedies for civil damages under common law.

Sec. 241.057. CRIMINAL PENALTY. (a) A person commits an offense if the person establishes, conducts, manages, or operates a hospital without a license.

(b) An offense under this section is a misdemeanor punishable by a fine of not more than $100 for the first offense and not more than $200 for each subsequent offense.
(c) Each day of a continuing violation constitutes a separate offense.

Sec. 241.058. MINOR VIOLATIONS. (a) This chapter does not require the commissioner or a designee of the commissioner to report a minor violation for prosecution or the institution of any other enforcement proceeding authorized under this chapter, if the commissioner or designee determines that prosecution or enforcement is not in the best interests of the persons served or to be served by the hospital.

(b) For the purpose of this section, a "minor violation" means a violation of this chapter, the rules adopted under this chapter, a special license provision, an order or emergency order issued by the commissioner or the commissioner's designee, or another enforcement procedure permitted under this chapter by a hospital that does not constitute a threat to the health, safety, and rights of the hospital's patients or other persons.

Sec. 241.0585. RECOVERY OF COSTS. If the attorney general brings an action to enforce an administrative penalty assessed under Section 241.058 and the court orders the payment of the penalty, the attorney general may recover reasonable expenses incurred in the investigation, initiation, or prosecution of the enforcement suit, including investigative costs, court costs, reasonable attorney fees, witness fees, and deposition expenses.

Added by Acts 1993, 73rd Leg., ch. 705, Sec. 3.041, eff. Sept. 1, 1993.

Sec. 241.059. ADMINISTRATIVE PENALTY. (a) The department may assess an administrative penalty against a hospital that violates
this chapter, a rule adopted pursuant to this chapter, a special license provision, an order or emergency order issued by the commissioner or the commissioner's designee, or another enforcement procedure permitted under this chapter. The department shall assess an administrative penalty against a hospital that violates Section 166.004.

(b) In determining the amount of the penalty, the department shall consider:

1. the hospital's previous violations;
2. the seriousness of the violation;
3. any threat to the health, safety, or rights of the hospital's patients;
4. the demonstrated good faith of the hospital; and
5. such other matters as justice may require.

(c) The penalty may not exceed $1,000 for each violation, except that the penalty for a violation of Section 166.004 shall be $500. Each day of a continuing violation, other than a violation of Section 166.004, may be considered a separate violation.

(d) When it is determined that a violation has occurred, the department shall give written notice of the violation to the person, delivered by certified mail. The notice must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and must inform the person that the person has a right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(f) Within 20 days after the date the person receives the notice, the person in writing may accept the determination and recommended penalty of the department or may make a written request for a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(g) If the person accepts the determination and recommended penalty of the department, the department by order shall impose the recommended penalty.

(h) If the person requests a hearing or fails to respond timely to the notice, the department shall refer the matter to the State Office of Administrative Hearings and an administrative law judge of that office shall hold the hearing. The department shall give notice of the hearing to the person. The administrative law judge
conducting the hearing shall make findings of fact and conclusions of law and promptly issue to the department a written proposal for a decision about the occurrence of the violation and the amount of the penalty. Based on the findings of fact, conclusions of law, and proposal for a decision, the department by order may find that a violation has occurred and impose a penalty or may find that no violation occurred.

(i) The notice of the department's order given to the person under Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the order.

(j) Within 30 days after the date the department's order is final as provided by Subchapter F, Chapter 2001, Government Code, the person shall:

(1) pay the amount of the penalty;
(2) pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
(3) without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(k) Within the 30-day period, a person who acts under Subsection (j)(3) may:

(1) stay enforcement of the penalty by:
   (A) paying the amount of the penalty to the court for placement in an escrow account; or
   (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's order is final; or
(2) request the court to stay enforcement of the penalty by:
   (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
   (B) giving a copy of the affidavit to the department by certified mail.
(1) When the department receives a copy of an affidavit under
Subsection (k)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(m) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount of the penalty.

(n) Judicial review of the order of the department:
(1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and
(2) is under the substantial evidence rule.

(o) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(p) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person within 30 days after the judgment of the court becomes final. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(q) A penalty collected under this section shall be remitted to the comptroller for deposit in the general revenue fund.

(r) All proceedings under this section are subject to Chapter 2001, Government Code.
Sec. 241.060. ADMINISTRATIVE PENALTY FOR MENTAL HEALTH,
CHEMICAL DEPENDENCY, OR REHABILITATION SERVICES. (a) The department
may impose an administrative penalty against a person licensed or
regulated under this chapter who violates this chapter or a rule or
order adopted under this chapter relating to the provision of mental
health, chemical dependency, or rehabilitation services.

(b) The penalty for a violation may be in an amount not to exceed $25,000. Each day a violation continues or occurs is a
separate violation for purposes of imposing a penalty.

(c) The amount of the penalty shall be based on:
   (1) the seriousness of the violation, including the nature,
   circumstances, extent, and gravity of any prohibited acts, and the
   hazard or potential hazard created to the health, safety, or economic
   welfare of the public;
   (2) enforcement costs relating to the violation;
   (3) the history of previous violations;
   (4) the amount necessary to deter future violations;
   (5) efforts to correct the violation; and
   (6) any other matter that justice may require.

(d) If the department determines that a violation has occurred,
the department shall give written notice of the violation to the
person. The notice may be given by certified mail. The notice must
include a brief summary of the alleged violation and a statement of
the amount of the recommended penalty and must inform the person that
the person has a right to a hearing on the occurrence of the
violation, the amount of the penalty, or both the occurrence of the
violation and the amount of the penalty.

(f) Within 20 days after the date the person receives the
notice, the person in writing may accept the determination and
recommended penalty of the department or may make a written request
for a hearing on the occurrence of the violation, the amount of the
penalty, or both the occurrence of the violation and the amount of the penalty.

(g) If the person accepts the determination and recommended penalty of the department, the department by order shall impose the recommended penalty.

(h) If the person requests a hearing or fails to respond timely to the notice, the department shall refer the matter to the State Office of Administrative Hearings and an administrative law judge of that office shall hold the hearing. The department shall give notice of the hearing to the person. The administrative law judge shall make findings of fact and conclusions of law and promptly issue to the department a written proposal for a decision about the occurrence of the violation and the amount of a proposed penalty. Based on the findings of fact, conclusions of law, and proposal for a decision, the department by order may find that a violation has occurred and impose a penalty or may find that no violation occurred.

(i) The notice of the department's order given to the person under Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the order.

(j) Within 30 days after the date the department's order is final as provided by Subchapter F, Chapter 2001, Government Code, the person shall:

1. pay the amount of the penalty;
2. pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
3. without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(k) Within the 30-day period, a person who acts under Subsection (j)(3) may:

1. stay enforcement of the penalty by:
   A. paying the amount of the penalty to the court for placement in an escrow account; or
   B. giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's order is final; or
(2) request the court to stay enforcement of the penalty by:

(A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and

(B) giving a copy of the affidavit to the commissioner by certified mail.

(l) The department on receipt of a copy of an affidavit under Subsection (k)(2) may file with the court within five days after the date the copy is received a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(m) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount of the penalty.

(n) Judicial review of the department's order:

(1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and

(2) is under the substantial evidence rule.

(o) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(p) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond
and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(q) A penalty collected under this section shall be remitted to the comptroller for deposit in the general revenue fund.

(r) All proceedings under this section are subject to Chapter 2001, Government Code.

Amended by: Acts 2015, 84th Leg., R.S., Ch. 1 (S.B. 219), Sec. 3.0582, eff. April 2, 2015.

**SUBCHAPTER E. STAFF, RECORDS, AND PLAN REVIEWS**

Sec. 241.101. HOSPITAL AUTHORITY CONCERNING MEDICAL STAFF. (a) Except as otherwise provided by this section and Section 241.102, this chapter does not change the authority of the governing body of a hospital, as it considers necessary or advisable, to:

(1) make rules, standards, or qualifications for medical staff membership; or

(2) grant or refuse to grant membership on the medical staff.

(b) This chapter does not prevent the governing body of a hospital from adopting reasonable rules and requirements in compliance with this chapter relating to:

(1) qualifications for any category of medical staff appointments;

(2) termination of appointments; or

(3) the delineation or curtailment of clinical privileges of those who are appointed to the medical staff.

(c) The process for considering applications for medical staff membership and privileges or the renewal, modification, or revocation of medical staff membership and privileges must afford each physician, podiatrist, and dentist procedural due process that meets the requirements of 42 U.S.C. Section 11101 et seq., as amended.

(d) If a hospital's credentials committee has failed to take
action on a completed application as required by Subsection (k), or a physician, podiatrist, or dentist is subject to a professional review action that may adversely affect his medical staff membership or privileges, and the physician, podiatrist, or dentist believes that mediation of the dispute is desirable, the physician, podiatrist, or dentist may require the hospital to participate in mediation as provided in Chapter 154, Civil Practice and Remedies Code. The mediation shall be conducted by a person meeting the qualifications required by Section 154.052, Civil Practice and Remedies Code, and within a reasonable period of time.

(e) Subsection (d) does not authorize a cause of action by a physician, podiatrist, or dentist against the hospital other than an action to require a hospital to participate in mediation.

(f) An applicant for medical staff membership or privileges may not be denied membership or privileges on any ground that is otherwise prohibited by law.

(g) A hospital's bylaw requirements for staff privileges may require a physician, podiatrist, or dentist to document the person's current clinical competency and professional training and experience in the medical procedures for which privileges are requested.

(h) In granting or refusing medical staff membership or privileges, a hospital may not differentiate on the basis of the academic medical degree held by a physician.

(i) Graduate medical education may be used as a standard or qualification for medical staff membership or privileges for a physician, provided that equal recognition is given to training programs accredited by the Accreditation Council for Graduate Medical Education and by the American Osteopathic Association.

(j) Board certification may be used as a standard or qualification for medical staff membership or privileges for a physician, provided that equal recognition is given to certification programs approved by the American Board of Medical Specialties and the Bureau of Osteopathic Specialists.

(k) A hospital's credentials committee shall act expeditiously and without unnecessary delay when a licensed physician, podiatrist, or dentist submits a completed application for medical staff membership or privileges. The hospital's credentials committee shall take action on the completed application not later than the 90th day after the date on which the application is received. The governing body of the hospital shall take final action on the application for
medical staff membership or privileges not later than the 60th day after the date on which the recommendation of the credentials committee is received. The hospital must notify the applicant in writing of the hospital's final action, including a reason for denial or restriction of privileges, not later than the 20th day after the date on which final action is taken.

Sec. 241.1015. PHYSICIAN COMMUNICATION AND CONTRACTS. (a) A hospital, whether by contract, by granting or withholding staff privileges, or otherwise, may not restrict a physician's ability to communicate with a patient with respect to:

(1) the patient's coverage under a health care plan;

(2) any subject related to the medical care or health care services to be provided to the patient, including treatment options that are not provided under a health care plan;

(3) the availability or desirability of a health care plan or insurance or similar coverage, other than the patient's health care plan; or

(4) the fact that the physician's staff privileges or contract with a hospital or health care plan have terminated or that the physician will otherwise no longer be providing medical care or health care services at the hospital or under the health care plan.

(b) A hospital, by contract or otherwise, may not refuse or fail to grant or renew staff privileges, or condition staff privileges, based in whole or in part on the fact that the physician or a partner, associate, or employee of the physician is providing medical or health care services at a different hospital or hospital system.

(c) A hospital may not contract to limit a physician's participation or staff privileges or the participation or staff privileges of a partner, associate, or employee of the physician at a
different hospital or hospital system.

(d) This section does not prevent a hospital from entering into contracts with physicians to ensure physician availability and coverage at the hospital or to comply with regulatory requirements or quality of care standards established by the governing body of the hospital.

(e) This section does not prevent the governing body of a hospital from:

1. limiting the number of physicians granted medical staff membership or privileges at the hospital based on a medical staff development plan that is unrelated to a physician's professional or business relationships or associations including those with another physician or group of physicians or to a physician or a partner, associate, or employee of a physician having medical staff membership or privileges at another hospital or hospital system; or

2. limiting the ability of hospital medical directors to contract with or hold medical staff memberships or clinical privileges at different hospitals or hospital systems provided that such limitations do not extend to the medical directors' professional or business relationships or associations including those with another physician, group of physicians, or other health care providers, other than hospitals or hospital systems.

(f) A contract provision that violates this section is void.

Sec. 241.105. HOSPITAL PRIVILEGES FOR ADVANCED PRACTICE NURSES AND PHYSICIAN ASSISTANTS. (a) The governing body of a hospital is authorized to establish policies concerning the granting of clinical privileges to advanced practice nurses and physician assistants, including policies relating to the application process, reasonable qualifications for privileges, and the process for renewal, modification, or revocation of privileges.

(b) If the governing body of a hospital has adopted a policy of granting clinical privileges to advanced practice nurses or physician assistants, an individual advanced practice nurse or physician assistant who qualifies for privileges under that policy shall be entitled to certain procedural rights to provide fairness of process, as determined by the governing body of the hospital, when an application for privileges is submitted to the hospital. At a minimum, any policy adopted shall specify a reasonable period for the processing and consideration of the application and shall provide for written notification to the applicant of any final action on the application by the hospital, including any reason for denial or restriction of the privileges requested.

(c) If an advanced practice nurse or physician assistant has been granted clinical privileges by a hospital, the hospital may not modify or revoke those privileges without providing certain procedural rights to provide fairness of process, as determined by the governing body of the hospital, to the advanced practice nurse or physician assistant. At a minimum, the hospital shall provide the advanced practice nurse or physician assistant written reasons for
the modification or revocation of privileges and a mechanism for
appeal to the appropriate committee or body within the hospital, as
determined by the governing body of the hospital.

(d) If a hospital extends clinical privileges to an advanced
practice nurse or physician assistant conditioned on the advanced
practice nurse or physician assistant having a sponsoring or
collaborating relationship with a physician and that relationship
ceases to exist, the advanced practice nurse or physician assistant
and the physician shall provide written notification to the hospital
that the relationship no longer exists. Once the hospital receives
such notice from an advanced practice nurse or physician assistant
and the physician, the hospital shall be deemed to have met its
obligations under this section by notifying the advanced practice
nurse or physician assistant in writing that the advanced practice
nurse's or physician assistant's clinical privileges no longer exist
at that hospital.

(e) Nothing in this section shall be construed as modifying
Subtitle B, Title 3, Occupations Code, Chapter 204 or 301,
Occupations Code, or any other law relating to the scope of practice
of physicians, advanced practice nurses, or physician assistants.

medical rehabilitation" means the provision of rehabilitation
services that are designed to improve or minimize a person's physical

coordination of services, communication, interaction, and integration
among several professions that share the responsibility to achieve
team treatment goals for the person.

Added by Acts 1993, 73rd Leg., ch. 707, Sec. 1, eff. Sept. 1, 1993.
Sec. 241.122. LICENSE REQUIRED. Unless a person has a license issued under this chapter, a person other than an individual may not provide inpatient comprehensive medical rehabilitation to a patient who requires medical services that are provided under the supervision of a physician and that are more intensive than nursing facility care and minor treatment.

Added by Acts 1993, 73rd Leg., ch. 707, Sec. 1, eff. Sept. 1, 1993.

Sec. 241.123. REHABILITATION SERVICES STANDARDS. (a) The executive commissioner by rule shall adopt standards for the provision of rehabilitation services by a hospital to ensure the health and safety of a patient receiving the services.

(10) certified orthotics; and
(11) certified prosthetics.

(d) A hospital shall prepare for each patient receiving inpatient rehabilitation services a written treatment plan designed for that patient's needs for treatment and care. The executive commissioner by rule shall specify a time after admission of a patient for inpatient rehabilitation services by which a hospital must evaluate the patient for the patient's initial treatment plan and by which a hospital must provide copies of the plan after evaluation.

(e) A hospital shall prepare for each patient receiving inpatient rehabilitation services a written continuing care plan that addresses the patient's needs for care after discharge, including recommendations for treatment and care and information about the availability of resources for treatment or care. The executive commissioner by rule shall specify the time before discharge by which the hospital must provide a copy of the continuing care plan. Department rules may allow a facility to provide the continuing care plan by a specified time after discharge if providing the plan before discharge is impracticable.

(f) A hospital shall provide a copy of a treatment or continuing care plan prepared under this section to the following persons in the person's primary language, if practicable:

(1) the patient;
(2) a person designated by the patient; and
(3) as specified by department rule, family members or other persons with responsibility for or demonstrated participation in the patient's care or treatment.

(g) Rules adopted by the executive commissioner under this subchapter may not conflict with a federal rule, regulation, or standard.

Sec. 242.032. LICENSE OR RENEWAL APPLICATION. (a) An application for a license or renewal of a license is made to the department on a form provided by the department and must be accompanied by the license fee.

(b) The application must contain information that the department requires.

(c) The applicant or license holder must furnish evidence to affirmatively establish the applicant's or license holder's ability to comply with:

(b) The department may issue a license only for:
(1) the premises and persons or governmental unit named in the application; and
(2) the maximum number of beds specified in the application.

(c) A license may not be transferred or assigned.

(d) Except as provided by Subsection (f), a license is renewable every three years after:
(1) an inspection, unless an inspection is not required as provided by Section 242.047;
(2) payment of the license fee; and
(3) department approval of the report filed every three
years by the licensee.

(e) The report required for license renewal under Subsection (d)(3) must comply with department rules that specify the date of submission of the report, the information it must contain, and its form.

(f) The initial license issued to a license holder who has not previously held a license under this subchapter is a probationary license. A probationary license is valid for only one year. At the end of the one-year period, a license under Subsection (a) shall be issued but only after:

Sec. 242.0335. EXPEDITED ISSUANCE OF CHANGE OF OWNERSHIP LICENSE TO CERTAIN CURRENT LICENSE HOLDERS. (a) The department shall maintain, and keep current, a list of license holders that
operate an institution in this state and that have excellent operating records according to the information available to the department. The executive commissioner by rule shall establish specific criteria for the department to designate a license holder as eligible for the list.

(b) The department shall establish a procedure under which a listed license holder may be granted expedited approval in obtaining a change of ownership license to operate another existing institution in this state. The procedure may involve allowing a listed license holder to submit an affidavit demonstrating that the license holder continues to meet the criteria for being listed and continues to meet the requirements described by Subsection (c).

(c) An applicant for a change of ownership license must meet all applicable requirements that an applicant for renewal of a license must meet under this subchapter, including under Section 242.032(d), and under rules adopted under this subchapter. Any requirement relating to inspections or to an accreditation review applies only to institutions operated by the license holder at the time the application is made for the change of ownership license.

(d) Subsection (c) applies only to a license holder designated as eligible for and placed on the list maintained under Subsection (a).

Sec. 242.0336. TEMPORARY CHANGE OF OWNERSHIP LICENSE. (a) For purposes of this section, a temporary change of ownership license is a temporary 90-day license issued to an applicant who proposes to become the new operator of an institution existing on the date the application is filed.

(b) After receiving an application for a temporary change of ownership license, the department shall issue a temporary license to the applicant if, after investigation, the department finds that the applicant and any other person described by Section 242.032(d) meet:
(1) the requirements established under Section 242.032(c); and

(2) the department's standards for background and qualifications under Sections 242.032(d) and (e).

(b-1) Except as provided by Subsection (b-2), the department may not issue a temporary change of ownership license before the 31st day after the date the department has received both:

(1) the application for the license; and

(2) notification, in writing, of the intent of the institution's existing license holder to transfer operation of the institution to the applicant beginning on a date specified by the applicant.

(b-2) Notwithstanding Section 242.0335, the executive commissioner shall establish criteria under which the department may waive the 30-day requirement or the notification requirement of Subsection (b-1). The criteria may include the occurrence of forcible entry and detainer, death, or divorce or other events that affect the ownership of the institution by the existing license holder.

(b-3) After receipt of an application or written notification described by Subsection (b-1), the department may place a hold on payments to the existing license holder in an amount not to exceed the average of the monthly vendor payments paid to the facility, as determined by the department. The department shall release funds to the previous license holder not later than the 120th day after the date on which the final reporting requirements are met and any resulting informal reviews or formal appeals are resolved. The department may reduce the amount of funds released to the previous license holder by the amount owed to the department or the commission under the previous license holder's Medicaid contract or license.

(b-4) The executive commissioner shall adopt rules for the department that define a change of ownership. In adopting the rules, the executive commissioner shall consider:

(1) the proportion of ownership interest that is being transferred to another person;

(2) the addition or removal of a stockholder, partner, owner, or other controlling person;

(3) the reorganization of the license holder into a different type of business entity; and

(4) the death or incapacity of a stockholder, partner, or
owner.

(b-5) The executive commissioner may adopt rules for the department that require a license holder to notify the department of any change, including a change that is not a change of ownership, as that term is defined by rules adopted under Subsection (b-4). Nothing in this section prevents the department from acting under Section 242.061 or any other provision of this chapter.

(c) The department shall issue or deny a temporary change of ownership license not later than the 31st day after the date of receipt of the completed application. The effective date of a temporary change of ownership license issued under this section is the date requested in the application unless:

(1) the department does not receive the application and written notification described by Subsection (b-1) at least 30 days before that date; and

(2) no waiver under Subsection (b-2) applies.

(c-1) If the department does not receive the application and written notification required by Subsection (b-1) at least 30 days before the effective date requested in the application and Subsection (b-2) does not apply, the effective date of the temporary change of ownership license is the 31st day after the date the department receives both the application and the notification.

(d) Except as provided in Subsection (d-1), after the department issues a temporary change of ownership license to the applicant, the department shall conduct an inspection or survey of the nursing facility under Section 242.043 as soon as reasonably possible. During the period between the issuance of the temporary license and the inspection or survey of the nursing facility or desk review under Subsection (d-1), the department may not place a hold on vendor payments to the temporary license holder.

(d-1) The executive commissioner shall establish criteria under which the department may substitute a desk review of the facility's compliance with applicable requirements for the on-site inspection or survey under Subsection (d).

(e) After conducting an inspection or survey under Subsection (d) or a desk review under Subsection (d-1), the department shall issue a license under Section 242.033 to the temporary change of ownership license holder if the nursing facility passes the desk review, inspection, or survey and the applicant meets the requirements of Section 242.033. If the nursing facility fails to
pass the desk review, inspection, or survey or the applicant fails to meet the requirements of Section 242.033, the department may:

(1) place a hold on vendor payments to the temporary change of ownership license holder; and

(2) take any other action authorized under this chapter.

(f) If the applicant meets the requirements of Section 242.033 and the nursing facility passes a desk review, initial inspection, or subsequent inspection before the temporary change of ownership license expires, the license issued under Section 242.033 is considered effective on the date the department determines under Subsection (c) or (c-1).

(g) A temporary change of ownership license issued under Subsection (b) expires on the 90th day after the effective date established under Subsection (c) or (c-1).

(b) The license fee for a probationary license issued under Section 242.033(f) may not exceed $125 plus:

(1) $5 for each unit of capacity or bed space for which the license is sought; and

(2) a background examination fee imposed under Subsection (d).

(c) An additional license fee may be charged as provided by
Section 242.097.

(d) The executive commissioner by rule may establish a background examination fee in an amount necessary to defray the department's expenses in administering its duties under Sections 242.032(d) and (e).

(e) The applicable license fee must be paid with each application for a probationary license, an initial license, a renewal license, or a change of ownership license.

(f) The state is not required to pay the license fee.

(g) An approved increase in bed space is subject to an additional fee.

(h) The license fees established under this chapter are an allowable cost for reimbursement under the medical assistance program administered by the commission under Chapter 32, Human Resources Code. Any fee increases shall be reflected in reimbursement rates prospectively.

(i) An applicant for license renewal who submits an application later than the 45th day before the expiration date of a current license is subject to a late fee in accordance with department rules.

(a) The executive commissioner may adopt and publish and the department may enforce minimum standards relating to the grading of an institution in order to recognize those institutions that provide more than the minimum level of services and personnel as established by the executive commissioner.

(b) An institution that has a superior grade shall prominently display the grade for public view.

(c) As an incentive to attain the superior grade, an institution may advertise its grade, except that it may not advertise a superior grade that has been canceled.

(d) The department may not award a superior grade to an institution that, during the year preceding the grading inspection, violated state or federal law, rules, or regulations relating to:

1. the health, safety, or welfare of its residents;
2. resident funds;
3. the confidentiality of a resident's records;
4. the financial practices of the institution; or
5. the control of medication in the institution.

Sec. 242.037. RULES; MINIMUM STANDARDS. (a) The executive commissioner shall make and the department shall enforce rules and
minimum standards to implement this chapter, including rules and minimum standards relating to quality of life, quality of care, and residents' rights.

(b) The rules and standards adopted under this chapter may be more stringent than the standards imposed by federal law for certification for participation in the state Medicaid program.

(c) The rules and standards adopted by the executive commissioner may not be less stringent than the Medicaid certification standards and regulations imposed under the Omnibus Budget Reconciliation Act of 1987 (OBRA), Pub.L. No. 100-203.

(d) To implement Sections 242.032(d) and (e), the executive commissioner by rule shall adopt minimum standards for the background and qualifications of any person described by Section 242.032(d). The department may not issue or renew a license if a person described by Section 242.032 does not meet the minimum standards adopted under this section.

(e) In addition to standards or rules required by other provisions of this chapter, the executive commissioner shall adopt and publish and the department shall enforce minimum standards relating to:

1. the construction of an institution, including plumbing, heating, lighting, ventilation, and other housing conditions, to ensure the residents' health, safety, comfort, and protection from fire hazard;
2. the regulation of the number and qualification of all personnel, including management and nursing personnel, responsible for any part of the care given to the residents;
3. requirements for in-service education of all employees who have any contact with the residents;
4. training on the care of persons with Alzheimer's disease and related disorders for employees who work with those persons;
5. sanitary and related conditions in an institution and its surroundings, including water supply, sewage disposal, food handling, and general hygiene in order to ensure the residents' health, safety, and comfort;

The executive commissioner shall adopt and publish and the department shall enforce minimum standards requiring appropriate training in geriatric care for each individual who provides services to geriatric residents in an institution and who holds a license or certificate issued by an agency of this state that authorizes the person to provide the services. The minimum standards may require that each licensed or certified individual complete an appropriate program of continuing education or in-service training, as determined by department rule, on a schedule determined by department rule.

To administer the surveys for provider certification provided for by federal law and regulation, the department must identify each area of care that is subject to both state licensing requirements and federal certification requirements. For each area of care that is subject to the same standard under both federal certification and state licensing requirements, an institution that is in compliance with the federal certification standard is considered to be in compliance with the same state licensing requirement.

Section 161.0051 applies to institutions serving residents who are elderly persons, and any rules and standards adopted under that section are considered to be rules and standards adopted under this chapter.

The minimum standards adopted under this section must require that each institution, as part of an existing training program, provide each registered nurse, licensed vocational nurse, nurse aide, and nursing assistant who provides nursing services in the institution at least one hour of training each year in caring for people with dementia.

Sec. 242.0371.  NOTICE OF CERTAIN EMPLOYMENT POLICIES.  (a) An institution licensed under this chapter shall prepare a written statement describing the institution's policy for:

(1) the drug testing of employees who have direct contact with residents; and

(2) the conducting of criminal history record checks of employees and applicants for employment in accordance with Chapter 250.

(b) The institution shall provide the statement to:

(1) each person applying for services from the institution or the person's next of kin or guardian; and

Added by Acts 2005, 79th Leg., Ch. 698 (S.B. 325), Sec. 2, eff. September 1, 2005.

Sec. 242.038.  REASONABLE TIME TO COMPLY.  The executive commissioner by rule shall give an institution that is in operation when a rule or standard is adopted under this chapter a reasonable time to comply with the rule or standard.

Sec. 242.0385. EARLY COMPLIANCE REVIEW. (a) The executive commissioner by rule shall adopt a procedure under which a person proposing to construct or modify an institution may submit building plans to the department for review for compliance with the department's architectural requirements before beginning construction or modification. In adopting the procedure, the executive commissioner shall set reasonable deadlines by which the department must complete review of submitted plans.

(b) The department shall, within 30 days, review plans submitted under this section for compliance with the department's architectural requirements and inform the person in writing of the results of the review. If the plans comply with the department's architectural requirements, the department may not subsequently change the architectural requirements applicable to the project unless:

(1) the change is required by federal law; or
(2) the person fails to complete the project within a reasonable time.

(c) The department may charge a reasonable fee for conducting a review under this section.

(d) A fee collected under this section shall be deposited in the general revenue fund.

(e) The review procedure provided by this section does not include review of building plans for compliance with the Texas Accessibility Standards as administered and enforced.

Sec. 242.039. FIRE SAFETY REQUIREMENTS. (a) The executive commissioner shall adopt rules necessary to specify the edition of the Life Safety Code of the National Fire Protection Association that
will be used to establish the life safety requirements for an institution licensed under this chapter.

(b) The executive commissioner shall adopt the edition of the Life Safety Code of the National Fire Protection Association for fire safety as designated by federal law and regulations for an institution or portion of an institution that is constructed after September 1, 1993, and for an institution or portion of an institution that was operating or approved for construction on or before September 1, 1993.

(c) The executive commissioner may not require more stringent fire safety standards than those required by federal law and regulation. The rules adopted under this section may not prevent an institution licensed under this chapter from voluntarily conforming to fire safety standards that are compatible with, equal to, or more stringent than those adopted by the executive commissioner.

(d) Licensed health care facilities in existence at the time of the effective date of this subsection may have their existing use or occupancy continued if such facilities comply with fire safety standards and ordinances in existence at the time of the effective date of this subsection.

(b) A trustee shall report to the court in the event that the trustee is unable to satisfy the requirements of Subsection (a)(1) or (2).

(c) On the motion of any party or on the court's own motion, the court may replace a trustee who is unable to satisfy the requirements of Subsection (a)(1) or (2).

(1) the provisional license holder is eligible to be licensed under Section 242.306; or

complaint of:
    (1) all persons contacted in relation to the complaint;
    (2) a summary of findings made at each step of the complaint process;
    (3) an explanation of the legal basis and reason for a complaint that is dismissed; and
    (4) other relevant information.

(b) If a written complaint is filed with the department that the department has authority to resolve, the department, at least quarterly and until final disposition of the complaint, shall notify the parties to the complaint of the status of the complaint unless the notice would jeopardize an undercover investigation.

(c) The executive commissioner by rule shall adopt a form to standardize information concerning complaints made to the department. The executive commissioner by rule shall prescribe information to be provided to a person when the person files a complaint with the department.

(d) The department shall provide reasonable assistance to a person who wishes to file a complaint with the department.

(f) The department shall dispose of all complaints in a timely manner. The executive commissioner by rule shall establish a schedule for initiating a complaint investigation that is under the control of the department not later than the 30th day after the date the complaint is received by the department. A change in the schedule must be noted in the complaint information file and all parties to the complaint must be notified not later than the seventh day after the date the change is made.

(g) The commissioner shall notify the executive commissioner at least quarterly of complaints that have extended beyond the time prescribed by the executive commissioner for resolving complaints so that the department may take any necessary corrective actions on the processing of complaints.

(1) report regularly to the department on matters that are the basis of the probation;
(2) limit practice to the areas prescribed by the department; or
(3) continue or review continuing professional education until the license holder attains a degree of skill satisfactory to the department in those areas that are the basis of the probation.

(c) A license holder is entitled to a hearing in accordance with rules adopted by the executive commissioner before a sanction is imposed under this section.

(d) The executive commissioner by rule shall adopt a broad schedule of sanctions for violations under this subchapter. The department shall use the schedule for any sanction imposed in accordance with the rules.

(e) The executive commissioner shall by rule establish criteria to determine whether deficiencies from a facility's survey warrant action against an administrator. The criteria shall include a determination of whether the survey indicates substandard quality of care related to an act or failure to act by the administrator, and whether a deficiency is related to an act or failure to act by the administrator. If a deficiency on which a disciplinary action against an administrator is initiated or completed is not substantiated, the disciplinary action shall be reversed.

(c) The amount of the penalty shall be based on:

(1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of any prohibited acts, and the hazard or potential hazard created to the health, safety, or economic welfare of the public;

(2) the economic harm to property or the environment caused by the violation;

Sec. 242.316. NOTICE AND HEARING. (a) If the department determines that a violation has occurred, the department shall give written notice of the determination to the person alleged to have committed the violation. The notice may be given by certified mail.
The notice must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and must inform the person that the person has a right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Within 20 days after the date the person receives the notice, the person in writing may accept the determination and the penalty recommended by the department or may make a written request for a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(c) If the person accepts the determination and the penalty recommended by the department, or if the person fails to timely respond to the notice, the department shall impose the recommended penalty.

(d) If the person requests a hearing, the department shall give notice of the hearing to the person. The hearing shall be held in accordance with the rules on contested case hearings adopted by the executive commissioner.

(e) The notice of the hearing decision given to the person under Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the decision.

(f) Within 30 days after the date the department's decision is final as provided by Section 2001.144, Government Code, the person shall:

(1) pay the amount of the penalty;
(2) pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
(3) without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(g) Within the 30-day period, a person who acts under Subsection (f)(3) may:

(1) stay enforcement of the penalty by:
   (A) paying the amount of the penalty to the court for placement in an escrow account; or
   (B) giving to the court a supersedeas bond that is
approved by the court for the amount of the penalty and that is
effective until all judicial review of the department's decision is
final; or

(2) request the court to stay enforcement of the penalty by:

(A) filing with the court a sworn affidavit of the
person stating that the person is financially unable to pay the
amount of the penalty and is financially unable to give the
supersedeas bond; and

(B) sending a copy of the affidavit to the department
by certified mail.

(h) If the department receives a copy of an affidavit under
Subsection (g)(2), the department may file with the court, within
five days after the date the copy is received, a contest to the
affidavit. The court shall hold a hearing on the facts alleged in
the affidavit as soon as practicable and shall stay the enforcement
of the penalty on finding that the alleged facts are true. The
person who files an affidavit has the burden of proving that the
person is financially unable to pay the amount of the penalty and to
give a supersedeas bond.

(i) If the person does not pay the amount of the penalty and
the enforcement of the penalty is not stayed, the department may
refer the matter to the attorney general for collection of the amount
of the penalty.

(j) Judicial review of the decision of the department:

(1) is instituted by filing a petition as provided by
Section 2001.176, Government Code; and

(2) is under the substantial evidence rule.

(k) If the court sustains the occurrence of the violation, the
court may uphold or reduce the amount of the penalty and order the
person to pay the full or reduced amount of the penalty. If the
court does not sustain the occurrence of the violation, the court
shall order that no penalty is owed.

(l) When the judgment of the court becomes final, the court
shall proceed under this subsection. If the person paid the amount
of the penalty and if that amount is reduced or is not upheld by the
court, the court shall order that the appropriate amount plus accrued
interest be remitted to the person. The rate of the interest is the
rate charged on loans to depository institutions by the New York
Federal Reserve Bank, and the interest shall be paid for the period
beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(m) A penalty collected under this section shall be remitted to the comptroller for deposit in the general revenue fund.

(n) All proceedings under this section are subject to Chapter 2001, Government Code.

   (d) A person whose license has been expired for one year or more may not renew the license. The person may obtain a new license by complying with the requirements and procedures, including the examination requirements, for obtaining an original license.

   (e) A person who was licensed in this state, moved to another
state, and is currently licensed and has been in practice in the other state for the two years preceding the date of application may obtain a new license without reexamination. The person must pay to the board a fee that is equal to two times the normally required renewal fee for the license.

(3) an explanation of the legal basis and reason for a complaint that is dismissed; and
(4) other relevant information.

(b) If a written complaint is filed with the board that the board has authority to resolve, the board, at least as frequently as
quarterly and until final disposition of the complaint, shall notify the parties to the complaint of the status of the complaint unless the notice would jeopardize an undercover investigation.

(c) The board by rule shall adopt a form to standardize information concerning complaints made to the board. The board by rule shall prescribe information to be provided to a person when the person files a complaint with the board.

(d) The board shall provide reasonable assistance to a person who wishes to file a complaint with the board.

(e) The board shall adopt rules concerning the investigation of complaints filed with the board. The rules adopted under this subsection shall:

1. distinguish between categories of complaints;
2. ensure that complaints are not dismissed without appropriate consideration;
3. require that the board be advised at least quarterly of complaints that have been dismissed and require that a letter be sent to each person who has filed a complaint that is dismissed explaining the action taken on the complaint;
4. ensure that the person who filed the complaint has an opportunity to explain the allegations made in the complaint; and
5. prescribe guidelines concerning the categories of complaints that may require the use of a private investigator and the procedures for the board to obtain the services of a private investigator.

(f) The board shall dispose of all complaints in a timely manner. The board by rule shall establish a schedule for initiating a complaint investigation that is under the control of the board not later than the 30th day after the date the complaint is received by the board. The schedule shall be kept in the information file for the complaint, and all parties shall be notified of the projected time requirements for pursuing the complaint. A change in the schedule must be noted in the complaint information file and all parties to the complaint must be notified not later than the seventh day after the date the change is made.

(g) The department shall notify the board at least quarterly of complaints that have extended beyond the time prescribed by the board for resolving complaints so that the department may take any necessary corrective actions on the processing of complaints.
Sec. 242.318. SANCTIONS. (a) The board may revoke, suspend, or refuse to renew a nursing facility administrator's license, assess an administrative penalty, issue a written reprimand, require participation in continuing education, or place an administrator on probation, after due notice and the opportunity for a hearing, on proof of any of the following grounds:

(1) the license holder has wilfully or repeatedly violated a provision of this subchapter or a rule adopted under this subchapter;

(e) The department shall by rule establish criteria to determine whether deficiencies from a facility's survey warrant action against an administrator. Sec. 242.321. NOTICE AND HEARING. (a) If the department determines that a violation has occurred, the department shall give written notice of the determination to the person alleged to have committed the violation. The notice may be given by certified mail. The notice must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and must inform the person that the person has a right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Within 20 days after the date the person receives the notice, the person in writing may accept the determination and the penalty recommended by the department or may make a written request for a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(c) If the person accepts the determination and the penalty recommended by the department, or if the person fails to timely respond to the notice, the department shall impose the recommended penalty.

(d) If the person requests a hearing, the department shall set a hearing and give notice of the hearing to the person. The hearing shall be held in accordance with the rules on contested case hearings adopted by the executive commissioner.

(e) The notice of the hearing decision given to the person under Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the decision.

final as provided by Section 2001.144, Government Code, the person shall:

(1) pay the amount of the penalty;

(2) pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or

(3) without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(1) stay enforcement of the penalty by:
    (A) paying the amount of the penalty to the court for placement in an escrow account; or

(h) If the department receives a copy of an affidavit under Subsection (g)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(i) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount
of the penalty.

(j) Judicial review of the decision of the department:

(1) is instituted by filing a petition as provided by Section 2001.176, Government Code; and

(2) is under the substantial evidence rule.

(k) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(l) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(c) If the department receives a copy of an affidavit under Subsection (b)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement
of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the penalty or to give a supersedeas bond.

(d) If the person does not pay the penalty and the enforcement of the penalty is not stayed, the penalty may be collected. The attorney general may sue to collect the penalty.

(e) If the court sustains the finding that a violation occurred, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty.

(f) If the court does not sustain the finding that a violation occurred, the court shall order that a penalty is not owed.

(g) If the person paid the penalty and if the amount of the penalty is reduced or the penalty is not upheld by the court, the court shall order, when the court’s judgment becomes final, that the appropriate amount plus accrued interest be remitted to the person within 30 days after the date that the judgment of the court becomes final. The interest accrues at the rate charged on loans to depository institutions by the New York Federal Reserve Bank. The interest shall be paid for the period beginning on the date the penalty is paid and ending on the date the penalty is remitted.

(h) If the person gave a supersedeas bond and the penalty is not upheld by the court, the court shall order, when the court’s judgment becomes final, the release of the bond. If the person gave a supersedeas bond and the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the reduced amount.

Sec. 245.0112. DENIAL, SUSPENSION, PROBATION, OR REVOCATION OF LICENSE. (a) The department may deny, suspend, or revoke a license for a violation of this chapter or a rule adopted under this chapter.

(b) The denial, suspension, or revocation of a license by the department and the appeal from that action are governed by the procedures for a contested case hearing under Chapter 2001, Government Code.

(c) The department may immediately suspend or revoke a license when the health and safety of persons are threatened. If the department issues an order of immediate suspension or revocation, the department shall immediately give the chief executive officer of the abortion facility adequate notice of the action and the procedure
governing appeal of the action. A person whose license is suspended or revoked under this subsection is entitled to a hearing not later than the 14th day after the effective date of the suspension or revocation.

(d) If the department finds that an abortion facility is in repeated noncompliance with this chapter or rules adopted under this chapter but that the noncompliance does not in any way involve the health and safety of the public or an individual, the department may schedule the facility for probation rather than suspending or revoking the facility's license. The department shall provide notice to the facility of the probation and of the items of noncompliance not later than the 10th day before the date the probation period begins. The department shall designate a period of not less than 30 days during which the facility will remain under probation. During the probation period, the facility must correct the items that were in noncompliance and report the corrections to the department for approval.

(e) The department may suspend or revoke the license of an abortion facility that does not correct items that were in noncompliance or that does not comply with this chapter or the rules adopted under this chapter within the applicable probation period.

Sec. 245.013. INJUNCTION. (a) The department may petition a district court for a temporary restraining order to restrain a continuing violation of the standards or licensing requirements provided under this chapter if the department finds that the violation creates an immediate threat to the health and safety of the patients of an abortion facility.

(b) A district court, on petition of the department and on a finding by the court that a person is violating the standards or licensing requirements provided under this chapter, may by injunction:

(1) prohibit a person from continuing a violation of the standards or licensing requirements provided under this chapter;
(2) restrain or prevent the establishment or operation of an abortion facility without a license issued under this chapter; or
(3) grant any other injunctive relief warranted by the facts.

(d) Venue for a suit brought under this section is in the county in which the abortion facility is located or in Travis County.

(b) An offense under this section is a Class A misdemeanor.
(c) Each day of a continuing violation constitutes a separate offense.

Sec. 245.015. CIVIL PENALTY. (a) A person who knowingly violates this chapter or who knowingly fails to comply with a rule adopted under this chapter is liable for a civil penalty of not less than $100 or more than $500 for each violation if the department determines the violation threatens the health and safety of a patient.
(b) Each day of a continuing violation constitutes a separate ground for recovery.

Sec. 245.016. ABORTION IN UNLICENSED ABORTION FACILITY TO PREVENT DEATH OR SERIOUS IMPAIRMENT. This chapter does not remove the responsibility or limit the ability of a physician to perform an abortion in an unlicensed abortion facility if, at the commencement of the abortion, the physician reasonably believes that the abortion is necessary to prevent the death of the patient or to prevent serious impairment of the patient's physical health.
Sec. 245.017. ADMINISTRATIVE PENALTY. (a) The department may assess an administrative penalty against a person who violates this chapter or a rule adopted under this chapter.

(b) The penalty may not exceed $1,000 for each violation. Each day of a continuing violation constitutes a separate violation.

(c) In determining the amount of an administrative penalty assessed under this section, the department shall consider:

(1) the seriousness of the violation;
(2) the history of previous violations;
(3) the amount necessary to deter future violations;
(4) efforts made to correct the violation; and
(5) any other matters that justice may require.

(d) All proceedings for the assessment of an administrative penalty under this chapter are subject to Chapter 2001, Government Code.

Sec. 245.018. REPORT RECOMMENDING ADMINISTRATIVE PENALTY. The notice shall include:

(1) a brief summary of the alleged violation;
(2) a statement of the amount of the proposed penalty, based on the factors listed in Section 245.017(c); and
(3) a statement of the person's right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Not later than the 20th day after the date the notice is received, the person notified may accept the determination of the department made under this section, including the recommended penalty, or make a written request for a hearing on that determination.
(c) If the person notified of the violation accepts the
determination of the department, the department shall order the
person to pay the recommended penalty.

Sec. 245.019. HEARING; ORDER. (a) If the person requests a
hearing, the department shall transfer the case to the State Office
of Administrative Hearings and an administrative law judge of that
office shall hold the hearing.

    (a-1) The department shall give written notice of the hearing
to the person.

    (b) The administrative law judge shall make findings of fact
and conclusions of law and shall promptly issue to the department a
proposal for decision as to the occurrence of the violation and a
recommendation as to the amount of the proposed penalty, if a penalty
is determined to be warranted.

    (c) Based on the findings of fact and conclusions of law and
the recommendations of the administrative law judge, the department
by order may find that a violation has occurred and may assess a
penalty or may find that no violation has occurred.

to have committed the violation. The notice must include:

    (1) separate statements of the findings of fact and
    conclusions of law;

    (2) the amount of any penalty assessed; and

    (3) a statement of the right of the person to judicial
        review of the department's order.
(b) Not later than the 30th day after the date the decision is final as provided by Chapter 2001, Government Code, the person shall:
   (1) pay the penalty in full;
   (2) pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
   (3) without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(c) Within the 30-day period, a person who acts under Subsection (b)(3) may:
   (1) stay enforcement of the penalty by:
       (A) paying the amount of the penalty to the court for placement in an escrow account; or
       (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's order is final; or
   (2) request the court to stay enforcement of the penalty by:
       (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
       (B) giving a copy of the affidavit to the department by certified mail.

(d) If the department receives a copy of an affidavit under Subsection (c)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(e) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount
of the penalty.

(f) Judicial review of the order of the department:
   (1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and
   (2) is under the substantial evidence rule.

(g) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(h) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

Sec. 245.022. RECOVERY OF COSTS. (a) The department may assess reasonable expenses and costs against a person in an administrative hearing if, as a result of the hearing, the person's
license is denied, suspended, or revoked or if administrative penalties are assessed against the person. The person shall pay expenses and costs assessed under this subsection not later than the 30th day after the date a department order requiring the payment of expenses and costs is final. The department may refer the matter to the attorney general for collection of the expenses and costs.

(b) If the attorney general brings an action against a person under Section 245.013 or 245.015 or an action to enforce an administrative penalty assessed under Section 245.017 and an injunction is granted against the person or the person is found liable for a civil or administrative penalty, the attorney general may recover, on behalf of the attorney general and the department, reasonable expenses and costs.

Sec. 246.0736. CONTINUING RELEASE OF ESCROW. (a) After the initial release of an entrance fee by an escrow agent for a specific facility, the commissioner shall authorize an escrow agent to continue to release escrowed entrance fees for that facility to the provider without further proof of satisfying the requirements of Section 246.073 if:

(1) the provider provides a monthly report to the department on marketing activities for living units of the facility; and

(2) the provider immediately informs the department of any problems, issues, or irregularities encountered in its marketing
activities for the facility.

(b) If the provider fails to meet the requirements of Subsection (a), the commissioner may require the provider to satisfy the requirements of Section 246.073 before the commissioner authorizes the escrow agent to continue releasing escrowed entrance fees to the provider.

(c) The commissioner shall adopt rules to implement this section.

Added by Acts 2007, 80th Leg., R.S., Ch. 1228 (H.B. 2392), Sec. 1, eff. June 15, 2007.

Sec. 246.0737. CARE IN RESIDENCE. The commissioner by rule shall establish requirements for escrow release different from those under Section 246.073 for money received as an entrance fee in connection with a continuing care contract in circumstances in which a living unit is not furnished to the resident.

Added by Acts 2015, 84th Leg., R.S., Ch. 1089 (H.B. 2697), Sec. 9, eff. June 19, 2015.

Sec. 246.074. RETURN OF ENTRANCE FEE. The escrow agent shall return an entrance fee to the person who paid it if the fee is not released to the provider or placed in the loan reserve fund escrow required under Section 246.077 within:

(1) 36 months after the date on which any portion of the entrance fee is received by the provider; or

(2) a longer time specified by the provider in the disclosure statement delivered with the continuing care contract under which the fee was paid.

Sec. 246.075. ESCROW OF APPLICATION FEE NOT REQUIRED. This subchapter does not require the escrow of any nonrefundable portion of a deposit or entrance fee that:
(1) does not exceed an amount equal to two percent of the entrance fee; and
(2) is clearly designated as nonrefundable in the continuing care contract or reservation agreement.

Sec. 246.076. INTEREST ACCRUED ON ENTRANCE FEE FUNDS. Unless otherwise provided in a continuing care contract, interest that accrues on funds held in an entrance fee escrow account is the property of the provider.

Sec. 246.077. RESERVE FUND ESCROW. (a) When a facility is first occupied by a resident, the provider shall establish and maintain in an escrow account with a bank or trust company, as escrow agent, that is located in this state a reserve fund equal to the total of all principal and interest payments due during the next 12 months on any first mortgage loan or other long-term financing arrangement for the facility. The requirements of this section may be met in whole or in part by other reserve funds held for the purpose of meeting loan obligations if the total amount equals or exceeds the amount required by this subsection.

(b) At the option of the facility, the loan reserve fund escrow amount may exclude the portion of principal and interest payments applicable to that portion of the facility that is a licensed nursing home.

(c) The provider shall maintain the loan reserve fund escrow in an account that is fully covered by federal deposit insurance and is separate from the provider's business account or in other accounts or investments approved by the commissioner. The funds in the reserve fund escrow account may be invested, with earnings payable to the provider.

Sec. 246.078. RELEASE OF RESERVE FUND ESCROW. (a) The escrow agent may release an amount equal to not more than one-twelfth of the loan reserve fund required by Section 246.077 if the provider requests the release in writing.

(b) The escrow agent must give written notice to the board not later than the 11th day before the date of the release.

(c) The escrow agent may not release funds from the loan reserve fund escrow under this section more than once during a calendar year. A provider at any time may apply to the commissioner for the withdrawal of all or part of the loan reserve escrow funds. The provider may withdraw the funds on the approval of the withdrawal by the commissioner. The application must be made and the approval given as provided by rule.

(d) The provider must repay to the loan reserve fund escrow account the amount released to the provider under Subsection (a) or (c) not later than 18 months after the date the amount is released. The commissioner may place the provider or facility under supervision under Section 246.091 or take any other appropriate action as provided by law if the provider does not repay the loan reserve fund escrow account within the required period.

Sec. 246.079. TRANSITION. (a) A provider who operates a facility that existed on September 1, 1987, must comply with the filing requirements imposed under Section 246.041 and the escrow requirements imposed under Sections 246.077 and 246.078 not later than September 1, 1990.

(b) The commissioner may extend the time for compliance under this section for a reasonable period if the commissioner determines that the provider is unable to comply with this section after making a good faith effort to comply.

Sec. 246.080. APPLICABILITY. Sections 246.071 through 246.076 do not apply to a facility that on September 1, 1987, was completed and occupied by at least one person.

**SUBCHAPTER E. SUPERVISION, REHABILITATION, AND LIQUIDATION**

Sec. 246.091. SUPERVISION BY COMMISSIONER. (a) The commissioner may place a provider or facility under supervision if:

1. the provider draws on the provider's entrance fee escrow in an amount greater than permitted by Section 246.073;
2. the provider draws on the provider's loan reserve fund escrow in an amount greater than permitted or more frequently than permitted by Section 246.078;
3. the commissioner determines, after a complaint and investigation, that the provider is financially unsound or is unable to meet the income or available cash projections previously filed by the provider and that the ability of the provider to fully perform its obligations under continuing care contracts is endangered; or
4. the provider is bankrupt, insolvent, or has filed for protection from creditors under a federal or state reorganization, bankruptcy, or insolvency law.

(b) The commissioner appoints the supervisor.

(c) The commissioner may provide that the provider may not, during the supervision period and without the prior approval of the commissioner or the supervisor:

1. dispose of, convey, or encumber its assets;
2. withdraw its bank accounts;
3. lend its funds;
4. invest its funds;
5. transfer its property;
6. incur a debt, obligation, or liability; or
7. merge or consolidate with another facility.

(d) The commissioner shall terminate the supervision and restore to a provider the authority to manage the affairs of the facility if the commissioner determines that the facility is capable of meeting its financial obligations.

(e) The facility or provider shall pay the costs of a supervisor.
Sec. 246.092. APPLICATION FOR COURT ORDER FOR REHABILITATION OR LIQUIDATION. (a) The commissioner shall request the attorney general to apply to a district court of this state, or to the federal bankruptcy court that has exercised jurisdiction over a provider or facility, for an order directing the appointment of a trustee to rehabilitate or liquidate the facility if the commissioner elects not to place the facility under supervision and:  

(1) the provider draws from the provider's loan reserve fund escrow an amount greater than permitted by Section 246.078;  
(2) the provider does not repay the loan reserve fund escrow as required by Section 246.078;  
(3) the board determines, after a complaint and investigation, that the provider is financially unsound or is unable to meet the income or available cash projections previously filed by the provider and that the ability of the provider to fully perform its obligations under continuing care contracts is endangered; or  
(4) the provider is bankrupt, insolvent, or has filed for protection from creditors under a federal or state reorganization, bankruptcy, or insolvency law.  

(b) In connection with an application for an order to rehabilitate or liquidate a facility, the court shall consider the manner in which the welfare of persons who have previously contracted with the provider for continuing care at the facility may be best served, and may order that the proceeds of a lien imposed under Section 246.111 may be used in full or partial payment of entrance fees to other facilities on behalf of the residents of the facility being liquidated.

Sec. 246.093. ORDER TO REHABILITATE. An order to rehabilitate a facility must direct the trustee to:  

(1) take possession of the provider's property in order to conduct the business, including employing any managers or agents the
trustee considers necessary; and

(2) take action as directed by the court to eliminate the causes and conditions that made rehabilitation necessary.

Sec. 246.094. ORDER TO LIQUIDATE. (a) If the trustee determines that further efforts to rehabilitate the provider would be impractical or useless, the trustee may apply to the court that ordered the rehabilitation for an order of liquidation.

(b) A court that has jurisdiction may issue an order to liquidate a facility on application of the board, regardless of whether an order to rehabilitate the facility exists. If the court issues an order to liquidate, the court shall appoint a trustee to collect and liquidate all of the provider's assets located in this state.

(c) A person may not contract for continuing care at a facility after an order to liquidate that facility has been entered.

Sec. 246.095. BOND. A court may refuse to make or may vacate an order to rehabilitate under this subchapter if the provider posts a bond that is:

(1) in an amount determined by the court to be equal to the reserve funding needed to fulfill the provider's obligations under its continuing care contracts at the facility;

(2) issued by a recognized surety authorized to do business in this state; and

(3) executed in favor of the state on behalf of all persons entitled to refunds of entrance fees from the provider or other damages if the provider is unable to fulfill its continuing care contracts at the facility.

Sec. 246.096. TERMINATION OF REHABILITATION. (a) A court may terminate a rehabilitation and order return of a facility and its
assets and affairs to the management of the provider if the court, on petition of the trustee or the provider or on its own motion, finds that:

(1) the objectives of the order to rehabilitate the facility have been accomplished; and

(2) the facility can be returned to the provider's management without further jeopardy to the residents, creditors, or owners of the facility or the public.

(b) A court may enter an order under this section after:

(1) a full report and accounting of the conduct of the facility's affairs during the rehabilitation; and

(2) a report on the facility's financial condition.

Sec. 246.097. PAYMENT OF TRUSTEE. The reasonable costs, expenses, and fees of the trustee are payable from the assets of the facility.

SUBCHAPTER F. ENFORCEMENT

Sec. 246.111. LIEN. (a) To secure the obligations of the provider under any continuing care contract, a lien attaches on the date a resident first occupies a facility or receives services under a continuing care contract. The lien covers the real and personal property of the provider located at the facility. The provider shall prepare a written notice sworn to by an officer of the provider for each county where the provider has a facility. The notice must contain the name of the provider, the legal description of each facility of the provider, and a statement that the facility is subject to this chapter and the lien provided by this section. The provider shall file for record the notice in the real property records of each county where the provider has a facility on or before the later of January 1, 1994, or the date of the execution of the first continuing care contract relating to the facility.

(b) The commissioner may remove a lien under this section if requested by a provider to obtain secondary financing or refinancing of a facility if:
the facility is financially sound; and
(2) removal of the lien does not adversely affect the residents.

(c) A lien under this section is subordinate to any liens on the property of the facility if the proceeds of the loan secured by the liens were used in whole or in part to:
(1) construct, acquire, replace, or improve the facility; or
(2) refinance an earlier loan used to construct, acquire, replace, or improve the facility.

(d) A lien under this section is effective for 10 years.

(e) A lien under this section may be foreclosed on application of the board if the facility is liquidated or the provider is insolvent or bankrupt. The proceeds from a foreclosed lien shall be used for full or partial satisfaction of the provider's obligations under continuing care contracts in effect on the date of the foreclosure.

Acts 2015, 84th Leg., R.S., Ch. 1089 (H.B. 2697), Sec. 10, eff. June 19, 2015.

Sec. 246.114. ACTUARIAL REVIEW. (a) This section applies only to a facility whose contracts offer future guarantees of long-term nursing care that develop current actuarial liabilities.

(b) A facility subject to this section that initially filed with the commissioner an actuarial review performed on or after September 1, 1982, and before September 1, 1987, shall file with the commissioner subsequent actuarial reviews at five-year intervals from the date of completion of the initial actuarial review.

(c) A facility subject to this section that initially filed with the commissioner an actuarial review performed on or after September 1, 1987, shall file with the commissioner subsequent actuarial reviews at five-year intervals from the date of the filing of the initial actuarial review.

(d) The commissioner may require an actuarial review of a facility before the end of the five-year interval in which the facility would otherwise be required to file an actuarial review if, in the opinion of the commissioner, the facility exhibits conditions of financial instability warranting an earlier review.

Sec. 246.115. CEASE AND DESIST ORDERS; INJUNCTIONS. (a) The board may request that the attorney general bring an action to
prohibit a person from engaging in an act or practice and to order compliance with this chapter if the board determines, after a complaint or by other means, that the act or practice violates this chapter or an order made under this chapter.

(b) The action may be brought in the district court of a county in which:

(1) the defendant resides;
(2) the defendant has done business;

(b) An offense under this section is a Class A misdemeanor.

Sec. 246.117. CIVIL LIABILITY. (a) A provider who makes a continuing care contract without complying with the disclosure statement requirement under Subchapter C, or who makes a continuing care contract with a person who has relied on a disclosure statement that omits a material fact required to be stated in the statement or necessary to make the statement accurate, is liable to the person with whom the continuing care contract is made for:

(1) actual damages;
(2) repayment of all fees paid to the provider minus the reasonable value of care and lodging provided to the person by or on whose behalf the continuing care contract was made before the violation, misstatement, or omission was discovered or reasonably should have been discovered;
(3) interest at the legal rate for judgments;
(4) court costs; and
(5) reasonable attorney's fees.
(b) A provider is liable under this section regardless of whether the provider had actual knowledge of the misstatement or omission.

(c) A person may not file or maintain an action under this section if the person, before filing the action, received a written offer of a refund of all amounts paid to the provider, facility, or person violating this chapter and reasonable interest from the date of payment, minus the reasonable value of care and lodging provided before the receipt of the offer and:

(1) the offer states the provisions of this section; and

(2) the recipient of the offer fails to accept the offer within 30 days after the date the offer is received.

(d) A person must bring suit under this section not later than three years after:

(1) the date on which the continuing care contract was entered into; or

(2) the violation, misstatement, or omission is discovered or reasonably should have been discovered.

(e) Except as expressly provided by this chapter, civil liability does not arise in favor of a private party by implication from or as a result of the violation of this chapter or a rule or order adopted under this chapter.

(f) This chapter does not limit a liability that would exist under any other statute or common law if this chapter were not in effect.

(g) The provisions of this chapter are not exclusive and the remedies provided by this chapter are in addition to any other remedies provided by any other law.

Sec. 247.022. LICENSE APPLICATION. (a) An applicant for an assisted living facility license must submit an application to the department on a form prescribed by the department.

(b) Each application must be accompanied by a nonrefundable license fee in an amount set by the executive commissioner by rule.

(b-1) If the department conducts more than two life safety code inspections at the applicant's facility, the department may collect a fee in addition to the fee under Subsection (b) for the application for the license.

(c) The department may provide technical assistance to an applicant by making brief inspections of the assisted living facility proposed to be licensed and making recommendations concerning actions necessary to meet standards for assisted living facilities.

(d) An assisted living facility license applicant in good standing may request an initial license that does not require an on-
site health inspection. The department may not require the applicant to admit a resident to the facility before the department issues the license. The department shall require the license applicant to submit for approval policies and procedures, verification of employee background checks, and employee credentials.

(e) The department shall conduct a survey of a facility issued an initial license under Subsection (d) not later than the 90th day after the date on which the department issues the license to the facility. Until the department conducts the survey, the facility shall disclose to all residents and prospective residents that the department has not yet conducted the survey required by this subsection.

(f) For purposes of this section, a license applicant is in "good standing" if:

(2) each assisted living facility operated by the license applicant, or operated or controlled by a controlling person of the license applicant if the license applicant is a newly formed business entity:

(A) has not had a violation that resulted in actual harm to a resident or that posed an immediate threat of harm causing, or likely to cause, serious injury, impairment, or death of a resident; and

(B) in the six years preceding the date on which the license applicant submits the application, has not had a sanction imposed by the department against the facility, including:

(i) the imposition of a civil or administrative penalty or an injunction;

(ii) the denial, suspension, or revocation of a license; or

(iii) an emergency closure.

The license expires on the third anniversary of the date of its issuance. The executive commissioner by rule shall adopt a system under which licenses expire on staggered dates during each three-year period. The commission shall prorate the license fee as appropriate if the expiration date of a license changes as a result of this subsection.

(b) To renew a license, the license holder must submit to the commission the license renewal fee.

(c) The commission may require participation in a continuing education program as a condition of renewal of a license. The executive commissioner shall adopt rules to implement this subsection.

(1) on the basis of the number of beds in assisted living facilities required to pay the fee; and

(2) in amounts reasonable and necessary to defray the cost of administering this chapter, but not to exceed $2,250.

(b) The executive commissioner shall establish by rule a base fee schedule and a per bed fee schedule.

(c) All fees or penalties collected under this chapter shall be deposited in the state treasury to the credit of the general revenue fund.

(d) Investigation fees or attorney's fees may not be assessed against or collected from an assisted living facility by or on behalf of the commission or another state agency unless the commission or other state agency assesses and collects a penalty authorized by this chapter from the facility.

(B) provide each prospective resident or prospective
resident's representative, as appropriate, with a consumer disclosure statement in a standard form adopted by the department.

(c-1) The executive commissioner shall require each assisted living facility to include in the facility's consumer disclosure statement whether the facility holds a license classified under Section 247.029 for the provision of personal care services to residents with Alzheimer's disease or related disorders.

(d) The executive commissioner may prescribe different levels of minimum standards for assisted living facilities according to the number of residents, the type of residents, the level of personal care provided, the nutritional needs of residents, and other distinctions the executive commissioner considers relevant. If the executive commissioner does not prescribe minimum standards for facilities serving non-geriatric residents, the executive commissioner must develop procedures for consideration and approval of alternate methods of compliance by such facilities with the department's standards.

(e) Local health and safety standards adopted by the municipality in which an assisted living facility is located do not apply to the facility unless the standards specifically state that they apply to assisted living facilities.

(f) The executive commissioner by rule shall prescribe minimum standards requiring appropriate training in geriatric care for each individual who provides services to geriatric residents as an employee of an assisted living facility and who holds a license or certificate issued by an agency of this state that authorizes the person to provide the services. The minimum standards may require that each licensed or certified individual complete an appropriate program of continuing education or in-service training, as determined by department rule, on a schedule determined by department rule.

(g) Any individual otherwise qualified, who has been employed by a licensed assisted living facility for at least 90 days, shall be eligible to be certified as a medication aide following completion of the required course of study and successful completion of any

In adopting the procedure, the executive commissioner shall set reasonable deadlines by which the department must complete review of submitted plans.

(b) The department shall, within 30 days, review plans
submitted under this section for compliance with the department's architectural requirements and inform the person of the results of the review. If the plans comply with the department's architectural requirements, the department may not subsequently change the architectural requirements applicable to the project unless:

(1) the change is required by federal law; or
(2) the person fails to complete the project within a reasonable time.

(c) The department may charge a reasonable fee for conducting a review under this section.

(b) An assisted living facility that during initial licensing passed an on-site inspection by the Texas Department of Licensing and Regulation relating to the facility's compliance with the accessibility standards may not be cited by the commission for a violation relating to the accessibility standards. If the commission issues a citation relating to compliance with accessibility standards to a facility that has not been inspected by the Texas Department of Licensing and Regulation for compliance with the accessibility standards, the commission shall rescind the citation on the facility's passage of the on-site inspection by the Texas Department of Licensing and Regulation.

(b) At the exit conference, the inspector shall provide a copy of the inspection checklist to the assisted living facility and list each violation discovered during the inspection, with specific reference to the standard violated.

(c) If, after the initial exit conference, additional violations are cited, the inspector shall conduct an additional exit conference regarding the newly identified violations. An additional exit conference must be held in person and may not be held by telephone, e-mail, or facsimile transmission.

(d) The assisted living facility shall submit a plan of correction to the regional director with supervisory authority over the inspector not later than the 10th working day after the date the facility receives the final official statement of violations.

Sec. 247.0272. INSPECTOR TRAINING; REQUIRED EXAMINATION. The training must emphasize the distinction between an assisted living facility and an institution licensed under Chapter 242. (b) In developing and updating the training program required by this section, the department shall consult with operators of assisted living facilities and consumers of personal care services provided by assisted living facilities or legal representatives of those consumers. (c) The department shall examine department employees who inspect or otherwise survey assisted living facilities under this chapter. In developing the examination, the department shall consult with operators of assisted living facilities or their representatives and with consumers of personal care services provided by assisted living facilities or representatives of consumers. (2) committed any act described by Sections 247.0451(a)(2)-(6).

(d) A court having jurisdiction of a judicial review of the matter may not order arbitration, whether on motion of any party or on the court's own motion, to resolve a dispute involving the denial, suspension, or revocation of a license under this section or the conduct with respect to which the denial, suspension, or revocation of the license is sought.

Sec. 247.042. EMERGENCY SUSPENSION OR CLOSING ORDER. (a) If the department finds an assisted living facility operating in violation of the standards prescribed by this chapter and the violations create an immediate threat to the health and safety of a resident in the facility, the department may suspend the license or order immediate closing of all or part of the facility.

(b) The order suspending a license under Subsection (a) is effective immediately on written notice to the license holder or on the date specified in the order.

(c) The order suspending the license and ordering closure of all or part of an assisted living facility is valid for 10 days after its effective date.

(d) The department shall provide for the relocation of residents of an assisted living facility that is closed. The relocation may not be to a facility with a more restrictive environment unless all other reasonable alternatives are exhausted. Relocation procedures shall be adopted as part of the memorandum of understanding adopted under Section 247.061.
(e) The department and the State Office of Administrative Hearings shall expedite any hearing or decision involving an emergency suspension or closing order issued under this section.

Sec. 247.043. INVESTIGATION OF ABUSE, EXPLOITATION, OR NEGLECT.

(a) The department shall conduct an investigation in accordance with Section 260A.007 after receiving a report of abuse, exploitation, or neglect of a resident of an assisted living facility.

(b) If the thorough investigation reveals that abuse, exploitation, or neglect has occurred, the department shall:

1. implement enforcement measures, including closing the facility, revoking the facility's license, relocating residents, and making referrals to law enforcement agencies;
2. notify the Department of Family and Protective Services of the results of the investigation;
3. notify a health and human services agency, as defined by Section 531.001, Government Code, that contracts with the facility for the delivery of personal care services of the results of the investigation; and

(2) the facility is operating without a license.

(b) A district court, on petition of the department and on a finding by the court that a person is violating the standards or licensing requirements provided under this chapter, may by injunction:

fails to comply with a rule adopted under this chapter and whose violation is determined by the department to threaten the health and safety of a resident of an assisted living facility is subject to a civil penalty of not less than $100 nor more than $10,000 for each act of violation. Each day of a continuing violation constitutes a separate ground of recovery.

(b) A person is subject to a civil penalty if the person:
   (1) is in violation of Section 247.021; or

The owner, other controlling person, or affiliate may be found liable in the same suit or in another suit on a showing by the state that the amount to be paid has not been paid or otherwise legally discharged. The executive commissioner by rule may establish a method for satisfying
an obligation imposed under this section from an insurance policy, letter of credit, or other contingency fund.

        (B)  with respect to a matter under investigation by the commission;

(g) The commission shall develop and use a system to record and track the scope and severity of each violation of this chapter or a rule, standard, or order adopted under this chapter for the purpose of assessing an administrative penalty for the violation or taking some other enforcement action against the appropriate assisted living facility to deter future violations. The system:

1. must be comparable to the system used by the Centers for Medicare and Medicaid Services to categorize the scope and severity of violations for nursing homes; and
2. may be modified, as appropriate, to reflect changes in
industry practice or changes made to the system used by the Centers for Medicare and Medicaid Services.

(h) In this section, "actual harm," "immediate threat to the health or safety of a resident," "pattern of violation," and "widespread in scope" have the meanings assigned by Section 247.0452.

(d) Based on the findings of fact and conclusions of law and the recommendation of the administrative law judge, the department by order may:

   (2) find that a violation has not occurred.

(2) the department may refer the matter to the attorney general for collection of the penalty and interest.

(e) Interest under Subsection (d)(1) accrues:

(1) at a rate equal to the rate charged on loans to depository institutions by the New York Federal Reserve Bank; and

(2) for the period beginning on the day after the date on which the penalty becomes due and ending on the date the penalty is paid.

(h) The department shall approve or deny an amelioration plan not later than the 45th day after the date the department receives the plan. On approval of a person's plan, the commission or the State Office of Administrative Hearings, as appropriate, shall deny a pending request for a hearing submitted by the person under Section 247.0453.

(2) terminate a resident's contract for just cause after a written 30-day notice;

Sec. 247.066. APPROPRIATE PLACEMENT DETERMINATION. (a) The
department may not require the removal and relocation of a resident of an assisted living facility if the resident's presence in the facility does not endanger other residents and the resident can receive adequate care at the facility through services:

(1) provided by the facility in accordance with its license; or
(2) obtained by the resident from other providers.

(b) In assessing whether a resident can receive adequate care at a facility, the department shall consider all relevant factors, including the placement preference expressed by the resident with the agreement of the facility operator, the resident's physician, and the resident's family members or other representatives.

(b-1) If a facility identifies a resident who the facility believes is inappropriately placed at the facility, the facility is not required to move the resident if the facility obtains the written statements and waiver prescribed by Subsection (c).

(c) If a resident is inappropriately placed at a facility, the facility is not required to move the resident if, not later than the 10th business day after the date that the facility determines or is informed of the department's determination that a resident is inappropriately placed at the facility, the facility:

(2) obtains a written statement:

(3) states in writing that the facility wishes for the resident to remain in the facility; and
(4) applies for and obtains a waiver from the department of all applicable requirements for evacuation that the facility does not meet with respect to the resident, if the facility does not meet all requirements for the evacuation of residents with respect to the resident.

(d) If the department determines that a resident is inappropriately placed at a facility and the facility either agrees with the determination or does not obtain the written statements and
waiver prescribed by Subsection (c) that would allow the resident to remain in the facility, the facility shall discharge the resident. The resident is allowed 30 days after the date of discharge to move from the facility. A discharge required under this subsection must be made notwithstanding:

(1) any other law, including any law relating to the rights of residents and any obligations imposed under the Property Code; and

(2) the terms of any contract.

(d-1) If a facility is required to discharge the resident because the facility has not obtained the written statements prescribed by Subsection (c) or the department does not approve a waiver based on the written statements submitted, the department may:

(1) assess an administrative penalty against the facility if the facility intentionally or repeatedly disregards department criteria for obtaining a waiver for inappropriate placement of a resident;

(2) seek an emergency suspension or closing order against the facility under Section 247.042 if the department determines there is a significant risk to the residents of the facility and an immediate threat to the health and safety of the residents; or

(3) seek other sanctions against the facility under Subchapter C in lieu of an emergency suspension or closing order if the department determines there is a significant risk to a resident of the facility and an immediate threat to the health and safety of a resident.

(d-2) The executive commissioner by rule shall develop criteria under which the department may determine when a facility has intentionally or repeatedly disregarded the waiver process.

(e) To facilitate obtaining the written statements required under Subsections (b-1) and (c)(1)-(3), the department shall develop standard forms that must be used under Subsections (b-1) or (c)(1)-(3), as appropriate. The executive commissioner by rule shall develop criteria under which the department will determine, based on a resident's specific situation, whether it will grant or deny a request for a waiver under Subsection (b-1) or (c)(4).

(f) The department shall ensure that each facility and resident is aware of the waiver process described by Subsection (c) for aging in place. A facility must include with the facility disclosure statement required under Section 247.026(b)(4)(B) information regarding the policies and procedures for aging in place described by
this section.

(g) The department, in cooperation with assisted living service providers, shall develop cost-effective training regarding aging in place, retaliation, and other issues determined by the department.

(h) The department shall require surveyors, facility supervisors, and other staff, as appropriate, to complete the training described by Subsection (g) annually.

This subsection does not authorize a facility to provide ongoing services comparable to the services available in an institution licensed under Chapter 242. A health care professional providing services under this subsection shall maintain medical records of those services in accordance with the licensing, certification, or other regulatory standards applicable to the health care professional under law.

(c) A department employee may not retaliate against an assisted living facility, an employee of an assisted living facility, or a person in control of an assisted living facility for:

(1) complaining about the conduct of a department employee;

(c) The commission may not issue a citation for a violation of a building code or fire code adopted by a governmental unit to an assisted living facility that presents evidence of the governmental unit's determination that the assisted living facility is compliant with the code. If the commission cites an assisted living facility for a building code or fire code violation and the assisted living facility subsequently provides the evidence described by this subsection, the commission shall rescind the citation.

(d) Subsection (c) does not restrict the authority of the commission to issue a citation to an assisted living facility for a violation of any National Fire Protection Association codes or standards adopted under this chapter.

(b) A district court, on petition of the department, may by injunction:
   (1) prohibit a person from continuing a violation of the standards or licensing requirements prescribed by this chapter;
   (2) restrain or prevent the establishment, conduct, management, or operation of a facility without a license issued under this chapter; or

Sec. 252.064. CIVIL PENALTY. (a) A person who violates this chapter or a rule adopted under this chapter is liable for a civil penalty of not less than $100 or more than $10,000 for each violation if the department determines the violation threatens the health and safety of a resident.

(2) makes a false statement, that the person knows or should know is false, of a material fact:

(8) fails to notify the commission of a change in ownership before the effective date of that change of ownership.

(b) The penalty for a facility with fewer than 60 beds shall be not less than $100 or more than $1,000 for each violation. The penalty for a facility with 60 beds or more shall be not less than $100 or more than $5,000 for each violation. Each day a violation occurs or continues is a separate violation for purposes of imposing a penalty. The total amount of a penalty assessed under this subsection for each day a violation occurs or continues may not exceed:

(1) $5,000 for a facility with fewer than 60 beds; and
(2) $25,000 for a facility with 60 beds or more.

(c) The executive commissioner by rule shall specify each violation for which an administrative penalty may be assessed. In determining which violations warrant penalties, the executive commissioner shall consider:

(1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of the violation and the hazard of the violation to the health or safety of clients; and

(2) whether the affected facility had identified the violation as a part of its internal quality assurance process and had made appropriate progress on correction.

(d) The executive commissioner by rule shall establish a specific and detailed schedule of appropriate and graduated penalties for each violation based on:

(1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of the violation and the hazard of the violation to the health or safety of clients;

(2) the history of previous violations;

(3) whether the affected facility had identified the violation as a part of its internal quality assurance process and had made appropriate progress on correction;

(4) the amount necessary to deter future violations;

(5) efforts made to correct the violation;

(6) the size of the facility; and

(7) any other matters that justice may require.

(e) The executive commissioner by rule shall provide the facility with a reasonable period of time, not less than 45 days,
following the first day of a violation to correct the violation before the commission may assess an administrative penalty if a plan of correction has been implemented. This subsection does not apply to a violation described by Subsections (a)(2)–(8) or to a violation that the commission determines:

(1) represents a pattern of violation that results in actual harm;
(2) is widespread in scope and results in actual harm;
(3) is widespread in scope, constitutes a potential for actual harm, and relates to:
   (A) staff treatment of a resident;
   (B) active treatment;
   (C) client behavior and facility practices;
   (D) health care services;
   (E) drug administration;
   (F) infection control;
   (G) food and nutrition services; or
   (H) emergency preparedness and response;
(4) constitutes an immediate threat to the health or safety of a resident; or

(f) The commission may not assess an administrative penalty for a minor violation if the person corrects the violation not later than the 46th day after the date the person receives notice of the violation.

(g) The executive commissioner shall establish a system to ensure standard and consistent application of penalties regardless of the facility location.

(h) All proceedings for the assessment of an administrative penalty under this chapter are subject to Chapter 2001, Government Code.

(i) The commission may not assess an administrative penalty against a state agency.

(j) Notwithstanding any other provision of this section, an administrative penalty ceases to be incurred on the date a violation is corrected. The administrative penalty ceases to be incurred only if the facility:
   (1) notifies the commission in writing of the correction of the violation and of the date the violation was corrected; and
(2) shows later that the violation was corrected.

(k) Rules adopted under this section shall include specific, appropriate, and objective criteria that describe the scope and severity of a violation that results in a recommendation for each specific penalty.

(1) The commission shall develop and use a system to record and track the scope and severity of each violation of this chapter or a rule, standard, or order adopted under this chapter for the purpose of assessing an administrative penalty for the violation or taking some other enforcement action against the appropriate facility to deter future violations. The system:

(1) must be comparable to the system used by the Centers for Medicare and Medicaid Services to categorize the scope and severity of violations for nursing homes; and

(2) may be modified, as appropriate, to reflect changes in industry practice or changes made to the system used by the Centers for Medicare and Medicaid Services.

(m) In this section:

(1) "Actual harm" means a negative outcome that compromises a resident's physical, mental, or emotional well-being.

(2) "Immediate threat to the health or safety of a resident" means a situation that causes, or is likely to cause, serious injury, harm, or impairment to or the death of a resident.

(3) "Pattern of violation" means repeated, but not pervasive, failures of a facility to comply with this chapter or a rule, standard, or order adopted under this chapter that:

(A) result in a violation; and

(B) are found throughout the services provided by the facility or that affect or involve the same residents or facility employees.

(4) "Widespread in scope" means a violation of this chapter or a rule, standard, or order adopted under this chapter that:

(A) is pervasive throughout the services provided by the facility; or

(B) that affects or has the potential to affect a large portion of or all of the residents of the facility.

Sec. 252.0651. APPLICATION OF OTHER LAW. The department may not assess more than one monetary penalty under this chapter for a violation arising out of the same act or failure to act.

Added by Acts 1999, 76th Leg., ch. 534, Sec. 4, eff. Sept. 1, 1999.

Sec. 252.066. NOTICE; REQUEST FOR HEARING. (a) If, after investigation of a possible violation and the facts surrounding that possible violation, the department determines that a violation has occurred, the department shall give written notice of the violation to the person designated by the facility to receive notice. The notice shall include:

(1) a brief summary of the alleged violation;
(2) a statement of the amount of the proposed penalty based on the factors listed in Section 252.065(d); and
(3) a statement of the person's right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Not later than the 20th day after the date on which the notice is received, the person notified may accept the determination of the department made under this section, including the proposed penalty, or may make a written request for a hearing on that determination.

(c) If the person notified under this section of the violation accepts the determination of the department or if the person fails to respond in a timely manner to the notice, the department shall issue an order approving the determination and ordering that the person pay the proposed penalty.

Added by Acts 1997, 75th Leg., ch. 693, Sec. 1, eff. Sept. 1, 1997.
Sec. 252.067. HEARING; ORDER. (a) If the person notified under Section 252.066 requests a hearing, an administrative law judge shall set a hearing and the department shall give written notice of the hearing to the person.

(b) The administrative law judge shall make findings of fact and conclusions of law and shall promptly issue to the department a proposal for decision as to the occurrence of the violation and a recommendation as to the amount of the proposed penalty if a penalty is determined to be warranted.

(c) Based on the findings of fact and conclusions of law and the recommendations of the administrative law judge, the department by order may find that a violation has occurred and may assess a penalty or may find that no violation has occurred.

Sec. 252.068. NOTICE AND PAYMENT OF ADMINISTRATIVE PENALTY; JUDICIAL REVIEW; REFUND. (a) The department shall give notice of the order under Section 252.067(c) to the person alleged to have committed the violation and the person designated by the facility to receive notice under Section 252.066. The notice must include:

(1) separate statements of the findings of fact and conclusions of law;

(2) the amount of any penalty assessed; and

(3) a statement of the right of the person to judicial review of the order.

(b) Not later than the 30th day after the date on which the decision becomes final as provided by Chapter 2001, Government Code, the person shall:

(1) pay the penalty; or
(2) file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(c) Within the 30-day period, a person who acts under Subsection (b)(2) may:

(1) stay enforcement of the penalty by:
   (A) paying the penalty to the court for placement in an escrow account; or
   (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the order becomes final; or

(2) request the court to stay enforcement of the penalty by:
   (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
   (B) giving a copy of the affidavit to the department by certified mail.

(d) If the department receives a copy of an affidavit under Subsection (c)(2), the department may file with the court, within 10 days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the penalty and to give a supersedeas bond.

(e) If the person does not pay the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the penalty.

(f) Judicial review of the order:

(1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and

(2) is under the substantial evidence rule.

(g) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(h) When the judgment of the court becomes final, the court
shall proceed under this subsection. If the person paid the amount of the penalty under Subsection (c)(1)(A) and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the penalty is not upheld by the court, the court shall order the release of the escrow account or bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(b) For purposes of this section, reasonable expenses and costs include expenses incurred by the department and the attorney general in the investigation, initiation, and prosecution of an action, including reasonable investigative costs, attorney's fees, witness fees, and deposition expenses.

(a) In lieu of demanding payment of an administrative penalty authorized by this subchapter, the department may allow a person subject to the penalty to use, under the supervision of the department, all or part of the amount of the penalty to ameliorate the violation or to improve services, other than administrative services, in the facility affected by the violation.

(b) The department shall offer amelioration to a person for a charged violation if the department determines that the violation does not constitute immediate jeopardy to the health and safety of a facility resident.

(c) The department may not offer amelioration to a person if the department determines that the charged violation constitutes immediate jeopardy to the health and safety of a facility resident.

(d) The department shall offer amelioration to a person under this section not later than the 10th day after the date the person receives from the department a final notification of assessment of administrative penalty that is sent to the person after an informal dispute resolution process but before an administrative hearing under Section 252.067.

(3) establish clear goals to be achieved through the proposed changes;

(4) establish a timeline for implementing the proposed changes; and
(5) identify specific actions necessary to implement the proposed changes.

(g) The department may require that an amelioration plan propose changes that would result in conditions that exceed the requirements of this chapter or the rules adopted under this chapter.

(h) The department shall approve or deny an amelioration plan not later than the 45th day after the date the department receives the plan. On approval of a person's plan, the commission or the State Office of Administrative Hearings, as appropriate, shall deny a pending request for a hearing submitted by the person under Section 252.066(b).

(i) The department may not offer amelioration to a person:

   (2) more than one time in a two-year period for the same or similar violation.

(j) In this section, "immediate jeopardy to health and safety" means a situation in which immediate corrective action is necessary because the facility's noncompliance with one or more requirements has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident receiving care in the facility.

(2) result in a lack of readily available financial resources to meet the basic needs of the residents for food, shelter, medication, and personal services.

(b) The purpose of this subchapter is to provide for:

The interest accrues at the rate charged on loans to depository institutions by the New York Federal Reserve Bank. The interest shall be paid for the period beginning on the date the penalty is paid and ending on the date the penalty is remitted.

(h) If the person gave a supersedeas bond and the penalty is not upheld by the court, the court shall order, when the court's judgment becomes final, the release of the bond. (f) An election conducted pursuant to this section shall be conducted in accordance with the procedures provided in Section 281.102.

(g) If a majority of the votes received at the election favor the proposition submitted at the election, the commissioners court is authorized to issue and execute, on behalf and in the name of the district, combination tax and revenue bonds and other short-term and long-term obligations in the amounts and upon the terms recommended and at the times requested by the board of managers. If requested by the board of managers, the commissioners court may also, by order, extend or confirm the pledge to previously issued bonds and other obligations of the district.

the applicable voter-approval tax rate provisions of Chapter 26, Tax Code.

(k) The procedures authorized by this section are alternative to the provisions of Chapter 284 and the other sections of this chapter and are cumulative of and in addition to any powers granted to any district under those or any other laws.

(c) An election under this section must be held at least 180 days before the date on which the district's tax rate is adopted by the board. At the election, the ballot shall be prepared to permit voting for or against the proposition: "Approving the ad valorem tax rate of $ (insert total proposed tax rate) per $100 valuation in (insert district name) for the (insert current tax year) tax year, a rate that exceeds the district's voter-approval tax rate. The proposed ad valorem tax rate exceeds the ad valorem tax rate most recently adopted by the district by $ (insert difference between proposed and preceding year's tax rates) per $100 valuation."

(d) If a majority of the votes cast in the election favor the proposition, the tax rate for the specified tax year is the rate approved by the voters, and that rate is not subject to Section 26.07, Tax Code. The board shall adopt the tax rate as provided by Chapter 26, Tax Code.

(e) If the proposition is not approved as provided by Subsection (d), the board may not adopt a tax rate for the district for the specified tax year that exceeds the rate that was not approved, and Section 26.07, Tax Code, applies to the adopted rate if that rate exceeds the district's voter-approval tax rate.

of the hospital district under an applicable law that does not require an election.

(e) The expenses of holding the election shall be paid from hospital district funds.

(b) If the district fails to repay any advanced amount when due under an agreement or under this subchapter, an application for a writ of mandamus or other action may be filed in a district court to enforce the agreement and repayment as required by this subchapter.

Sec. 285.007. LIMITATION ON USE OF PROCEEDS; AUDIT. (a) An advance under a revenue anticipation agreement may be used only for the purposes authorized by this subchapter.

(b) It is not a defense to repayment of advanced amounts that the funds are used for a purpose not authorized by this subchapter.

(c) The auditor of the hospital district shall:

(1) audit the use of advanced funds at the time of the district's regular audit; and

(2) certify to the commissioners court whether those funds are used for proper operating and maintenance purposes authorized by

Subsection (e), if the board authorizes a health care provider
participation program under this chapter, the board shall require an
annual mandatory payment to be assessed on the net patient revenue of
each institutional health care provider located in the district. The
board shall provide that the mandatory payment is to be collected at
least annually, but not more often than quarterly. In the first year
in which the mandatory payment is required, the mandatory payment is
assessed on the net patient revenue of an institutional health care
provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. The district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be a uniform percentage of the amount of net patient revenue generated by each paying hospital in the district. The amount of revenue from mandatory payments that may be used for administrative expenses by the district in a year may not exceed $25,000, plus the cost of collateralization of deposits. If the board demonstrates to the paying hospitals that the costs of administering the health care provider participation program under this chapter, excluding those costs associated with the collateralization of deposits, exceed $25,000 in any year, on consent of all of the paying hospitals, the district may use additional revenue from mandatory payments received under this chapter to compensate the district for its administrative expenses. A paying hospital may not unreasonably withhold consent to compensate the district for administrative expenses.

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient or insurer.

To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

Added by Acts 2017, 85th Leg., R.S., Ch. 651 (S.B. 2117), Sec. 1, eff. June 12, 2017.

(B) uniform rate enhancements for nonpublic hospitals in the Medicaid managed care service area in which the district is located;

authorizing payments that are substantially similar to Medicaid payments to nonpublic hospitals described by Subdivision (A) or (B); or

(D) any reimbursement to nonpublic hospitals for which federal matching funds are available;

(2) subject to Section 298A.151(d), pay the administrative expenses of the district in administering the program, including collateralization of deposits;

(3) refund a mandatory payment collected in error from a paying provider;

(4) refund to paying providers a proportionate share of the money that the district:

(A) receives from the Health and Human Services Commission that is not used to fund the nonfederal share of Medicaid supplemental payment program payments; or

(B) determines cannot be used to fund the nonfederal share of Medicaid supplemental payment program payments;

(5) transfer funds to the Health and Human Services Commission if the district is legally required to transfer the funds to address a disallowance of federal matching funds with respect to programs for which the district made intergovernmental transfers described by Subdivision (1); and

(d) Money in the local provider participation fund may not be commingled with other district funds.

(e) Notwithstanding any other provision of this chapter, with respect to an intergovernmental transfer of funds described by Subsection (c)(1) made by the district, any funds received by the state, district, or other entity as a result of that transfer may not be used by the state, district, or any other entity to:

(1) expand Medicaid eligibility under the Patient Protection and Affordable Care Act (Pub. L. No. 111-148) as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152); or

**SUBCHAPTER D. MANDATORY PAYMENTS**

Sec. 298A.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) Except as provided by Subsection (e), if the board authorizes a health care provider participation program under this chapter, the board may require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board may provide for the mandatory payment to be assessed quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) If the board requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue.
revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298A.103(c)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district is $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045.

Added by Acts 2017, 85th Leg., R.S., Ch. 17 (H.B. 4300), Sec. 1, eff. May 18, 2017.

Sec. 298A.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS. (a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2017, 85th Leg., R.S., Ch. 17 (H.B. 4300), Sec. 1, eff. May 18, 2017.

Sec. 298A.153. PURPOSE; CORRECTION OF INVALID PROVISION OR
PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for nonpublic hospitals to support the provision of health care by institutional health care providers to district residents in need of health care.

(b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals and to cover the administrative expenses of the district associated with activities under this chapter.

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 298A.103(c)(1) is available to the district.

Added by Acts 2017, 85th Leg., R.S., Ch. 17 (H.B. 4300), Sec. 1, eff. May 18, 2017.

The board may provide for the mandatory payment to be assessed quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. Sec. 298B.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS.

(a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

Sec. 298B.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for nonpublic hospitals to support the provision of health care by institutional health care providers to district residents in need of health care.

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

Sec. 298B.154. FEDERAL DISALLOWANCE. Notwithstanding any other
provision of this chapter, if the Centers for Medicare and Medicaid Services issues a disallowance of federal matching funds for a purpose for which intergovernmental transfers described by Section 298B.103(c)(1) were made and the Health and Human Services Commission demands repayment from the district of federal funds paid to the district for that purpose, the district may require and collect mandatory payments from each paying provider that received those federal funds in an amount sufficient to satisfy the repayment demand made by the commission. The percentage limitation prescribed by Section 298B.151(c) does not apply to a mandatory payment required under this section.

The district shall update the amount of the mandatory payment on an annual basis and may update the amount on a more frequent basis.

(b) The amount of a mandatory payment authorized under this chapter must be a uniform percentage of the amount of net patient revenue generated by each paying hospital in the district. A mandatory payment authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) The aggregate amount of the mandatory payments required of all paying hospitals in the district may not exceed six percent of the aggregate net patient revenue of all paying hospitals in the district.

(d) Subject to the maximum amount prescribed by Subsection (c) and this subsection, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter, fund an intergovernmental transfer described by Section 298C.103(b)(1), or make other payments authorized under this chapter. The amount of the mandatory payments must be based on reasonable estimates of the amount of revenue necessary to cover the administrative expenses, intergovernmental transfers, and other payments described by this subsection as authorized under this chapter.
chapter. The amount of revenue from mandatory payments that may be used for administrative expenses by the district in a year may not exceed $25,000, plus the cost of collateralization of deposits. If the board demonstrates to the paying hospitals that the costs of administering the program under this chapter, excluding those costs associated with the collateralization of deposits, exceed $25,000 in any year, on consent of all of the paying hospitals, the district may use additional revenue from mandatory payments received under this chapter to compensate the district for its administrative expenses. A paying hospital may not unreasonably withhold consent to compensate the district for administrative expenses.

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient or insurer.

(f) A mandatory payment under this chapter is not a tax for purposes of Section 9, Article IX, Texas Constitution, or Chapter 1053, Special District Local Laws Code.

To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

Sec. 298C.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) Except as provided by Subsection (e), if the board authorizes a health care provider participation program under this chapter, the board may require a mandatory payment to be assessed, either annually or periodically throughout the fiscal year at the discretion of the board, on the net patient revenue of each institutional health care provider located in the district. The board shall provide an institutional health care provider written notice of each assessment under this subsection, and the provider has 30 calendar days following the date of receipt of the notice to pay the assessment. In the first fiscal year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health

Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment assessed under this chapter by the board must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) If the board requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298C.103(c)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district is $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045 of this code.

Added by Acts 2019, 86th Leg., R.S., Ch. 694 (S.B. 2315), Sec. 1, eff. June 10, 2019.
Sec. 298C.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS. (a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 694 (S.B. 2315), Sec. 1, eff. June 10, 2019.

Sec. 298C.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for hospitals to support the provision of health care by institutional health care providers located in the district.

(b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for hospitals and to cover the administrative expenses of the district associated with activities under this chapter.

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the
requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 298C.103(c)(1) is available to at least one institutional health care provider located in the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 694 (S.B. 2315), Sec. 1, eff. June 10, 2019.

**SUBCHAPTER D. MANDATORY PAYMENTS**

Sec. 298F.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) If the board authorizes a health care provider participation program under this chapter, for each year the program is authorized, the board may require a mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board may provide for the mandatory payment to be assessed periodically throughout the year. The board shall provide an institutional health care provider written notice of each assessment under this subsection, and the provider has 30 calendar days following the date of receipt of the notice to pay the assessment. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider, which is the amount of that revenue as reported in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) If the board requires a mandatory payment authorized under
this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298F.103(c)(1). The amount of revenue from mandatory payments that may be used for administrative expenses by the district in a year for activities under this chapter may not exceed $184,000, plus the cost of collateralization of deposits. If the board demonstrates to the paying providers that the costs of administering the health care provider participation program under this chapter, excluding those costs associated with the collateralization of deposits, exceed $184,000 in any year, on consent of all of the paying providers, the district may use additional revenue from mandatory payments received under this chapter to compensate the district for its administrative expenses. A paying provider may not unreasonably withhold consent to compensate the district for administrative expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045 of this code.

Added by Acts 2019, 86th Leg., R.S., Ch. 639 (S.B. 1545), Sec. 1, eff. June 10, 2019.

Sec. 298F.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS.
(a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the
mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 639 (S.B. 1545), Sec. 1, eff. June 10, 2019.

Sec. 298F.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for nonpublic hospitals to support the provision of health care by institutional health care providers to district residents in need of health care.

(b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals and to cover the administrative expenses of the district associated with activities under this chapter and other amounts for which the fund may be used as described by Section 298F.103(c).

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.
(d) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, reimbursement, or other payment described by Section 298F.103(c)(1) is available to nonpublic hospitals in the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 639 (S.B. 1545), Sec. 1, eff. June 10, 2019.

For expiration of this chapter, see Section 298G.004.

The board shall provide an institutional health care provider written notice of each assessment under this subsection, and the provider has 30 calendar days following the date of receipt of the notice to make the assessed mandatory payment. (2) cover the administrative expenses of the district associated with activities under this chapter and other uses of the fund described by Section 298G.103(c).

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. (1) expand Medicaid eligibility under the Patient Protection and Affordable Care Act (Pub. L. No. 111-148) as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152); or

SUBCHAPTER D. MANDATORY PAYMENTS

Sec. 299.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) If the board authorizes a health care provider participation program under this chapter, the board may require a mandatory payment to be assessed, either annually or periodically throughout the year at the discretion of the board, on the net patient revenue of each institutional health care provider located in the district. The board shall provide an institutional health care provider written notice of each assessment under this subsection, and the provider has 30 calendar days following the date of receipt of the notice to pay the assessment. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider, as determined by the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis and may update the amount on a more frequent basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).
(c) If the board requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed four percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 299.103(c)(1). The annual amount of revenue from mandatory payments used for administrative expenses by the district for activities under this chapter is $600,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045.

Added by Acts 2019, 86th Leg., R.S., Ch. 208 (H.B. 3459), Sec. 1, eff. May 24, 2019.

Sec. 299.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS.
(a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees
Sec. 299.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for nonpublic hospitals to support the provision of health care by institutional health care providers to district residents in need of health care.

(b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to:

(1) fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals; and

(2) cover the administrative expenses of the district associated with activities under this chapter and other uses of the fund described by Section 299.103(c).

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 299.103(c)(1) is available to the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 208 (H.B. 3459), Sec. 1, eff. May 24, 2019.

The governing body of the local government shall provide that the mandatory payment is to be assessed at least annually, but not more often than quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider located in the hospital district, county, or municipality, as applicable, as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. The local government shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter for a local government must be uniformly proportionate with the amount of net patient revenue generated by each paying hospital in the hospital district, county, or municipality, as applicable, as permitted under federal law. (c) The governing body of a local government that authorizes a program under this chapter shall set the amount of the mandatory payment. The aggregate amount of the mandatory payments required of all paying hospitals in the hospital district, county, or municipality, as applicable, may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying hospitals in the hospital district, county, or municipality, as applicable.

(d) Subject to Subsection (c), the governing body of a local government shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the local government for activities under this chapter and to fund an intergovernmental transfer described by Section 300.0103(b)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses for activities under this chapter by the local government may not exceed $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient.

(c) The person charged by the local government with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the local government a collection fee in an amount not to exceed the person's usual and customary charges for like services.

Sec. 300.0153. CORRECTION OF INVALID PROVISION OR PROCEDURE.

(a) This chapter does not authorize a local government to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals and to cover the administrative expenses of the local government associated with activities under this chapter and other uses of the fund described by Section 300.0103(b).

(b) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the local government may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the local government or an institutional health care provider in the local hospital district, county, or municipality, as applicable, beyond the provisions of this chapter. This section does not require the governing body of a local government to adopt a rule.

(c) The local government may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 300.0103(b)(1) is available to the local government.

Sec. 300.0154. REPORTING REQUIREMENTS. (a) The governing body
of each local government that authorizes a program under this chapter shall report information to the Health and Human Services Commission regarding the program on a schedule determined by the commission.

(b) The information must include:

(1) the amount of the mandatory payments required and collected in each year the program is authorized;

(2) any expenditure of money attributable to mandatory payments collected under this chapter, including:

   (A) any contract with an entity for the administration or operation of a program authorized by this chapter; or

   (B) a contract with a person for the assessment and collection of a mandatory payment as authorized under Section 300.0152; and

(3) the amount of money attributable to mandatory payments collected under this chapter that is used for any other purpose.

(c) The executive commissioner of the Health and Human Services Commission shall adopt rules to administer this section.

Sec. 300.0155. EXPiration OF AUTHORITY. The authority of a local government to administer and operate a program under this chapter expires on September 1 following the second anniversary of the date the governing body of the local government adopted the order or ordinance authorizing the local government to participate in the program as provided by Section 300.0004.

Sec. 300.0156. AUTHORITY TO REFUSE FOR VIOLATION. The Health and Human Services Commission may refuse to accept money from a local provider participation fund established under this chapter if the commission determines that doing so may violate federal law.

(a) The local provider participation fund established under Section 300A.0102 consists of:

(1) all revenue received by the district attributable to mandatory payments authorized under this chapter;

(2) money received from the Health and Human Services Commission as a refund of an intergovernmental transfer from the district to the state for the purpose of providing the nonfederal share of Medicaid supplemental payment program payments, provided that the intergovernmental transfer does not receive a federal matching payment; and

(b) Money deposited to the local provider participation fund may be used only to:

(1) fund intergovernmental transfers from the district to
the state to provide the nonfederal share of Medicaid payments for:

(B) determines cannot be used to fund the nonfederal share of Medicaid supplemental payment program payments;

(5) transfer funds to the Health and Human Services Commission if the district is required by law to transfer the funds to address a disallowance of federal matching funds with respect to payments, rate enhancements, and reimbursements for which the district made intergovernmental transfers described by Subdivision (1); and

(6) reimburse the district if the district is required by the rules governing the uniform rate enhancement program described by Subdivision (1)(B) to incur an expense or forego Medicaid reimbursements from the state because the balance of the local provider participation fund is not sufficient to fund that rate enhancement program.

(c) Money in the local provider participation fund may not be commingled with other district funds or other funds of a local

government that creates the district.

(d) Notwithstanding any other provision of this chapter, with respect to an intergovernmental transfer of funds described by Subsection (b)(1) made by the district, any funds received by the state, district, or other entity as a result of the transfer may not be used by the state, district, or any other entity to:

SUBCHAPTER E. MANDATORY PAYMENTS

Sec. 300A.0151. MANDATORY PAYMENTS BASED ON PAYING HOSPITAL NET PATIENT REVENUE. (a) Except as provided by Subsection (e), if the board authorizes a health care provider participation program under this chapter, the district shall require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board shall provide that the mandatory payment is to be assessed at least annually, but not more often than quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider located in the district as determined by the data reported
to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. The district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying hospital in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) The board shall set the amount of a mandatory payment authorized under this chapter. The aggregate amount of the mandatory payments required of all paying hospitals in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying hospitals in the district.

(d) Subject to Subsection (c), the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 300A.0103(b)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district for activities under this chapter may not exceed $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient.

(f) For purposes of any hospital district that creates a district under this chapter, a mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of the applicable provision of Article IX, Texas Constitution.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.
Sec. 300A.0152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS. (a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0153. CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to:

(1) fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals; and

(2) cover the administrative expenses of the district associated with activities under this chapter and other uses of the fund described by Section 300A.0103(b).

(b) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.
(c) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 300A.0103(b)(1) is available to the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0154. REPORTING REQUIREMENTS. (a) The board of a district that authorizes a program under this chapter shall report information to the Health and Human Services Commission regarding the program on a schedule determined by the commission.

(b) The information must include:

(1) the amount of the mandatory payments required and collected in each year the program is authorized;

(2) any expenditure of money attributable to mandatory payments collected under this chapter, including:
   (A) any contract with an entity for the administration or operation of a program authorized by this chapter; or
   (B) a contract with a person for the assessment and collection of a mandatory payment as authorized under Section 300A.0152; and

(3) the amount of money attributable to mandatory payments collected under this chapter that is used for any other purpose.

(c) The executive commissioner of the Health and Human Services Commission shall adopt rules to administer this section.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0155. EXPIRATION OF AUTHORITY. The authority of a district to administer and operate a program under this chapter expires on September 1 following the second anniversary of the date the board of the district authorized the district to participate in the program as provided by Section 300A.0051.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.
Sec. 300A.0156. AUTHORITY TO REFUSE FOR VIOLATION. The Health and Human Services Commission may refuse to accept money from a local provider participation fund established under this chapter if the commission determines that doing so may violate federal law.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 311.043. DUTY OF NONPROFIT HOSPITALS TO PROVIDE COMMUNITY BENEFITS. (a) A nonprofit hospital shall provide health care services to the community and shall comply with all federal, state, and local government requirements for tax exemption in order to maintain such exemption. These health care services to the community shall include charity care and government-sponsored indigent health care and may include other components of community benefits as both terms are defined in Sections 311.031 and 311.042.

(b) In order to qualify as a charitable organization under Sections 11.18(d)(1), 151.310(a)(2) and (e), and 171.063(a)(1), Tax Code, and to satisfy the requirements of this subchapter, a nonprofit hospital shall provide community benefits, which include charity care and government-sponsored indigent health care, in an amount that satisfies the requirements of Section 311.045. A determination of the amount of charity care and government-sponsored indigent health care provided by a hospital shall be based on the most recently completed and audited prior fiscal year of the hospital.

(c) Reductions in the amount of community benefits, which
includes charity care and government-sponsored indigent health care, provided by a nonprofit hospital shall be considered reasonable when the financial reserves of the hospital are reduced to such a level that the hospital would be in violation of any applicable bond covenants, when necessary to prevent the hospital from endangering its ability to continue operations, or if the hospital, as a result of a natural or other disaster, is required substantially to curtail its operations.

(d) A hospital's admissions policy must provide for the admission of financially indigent and medically indigent persons pursuant to its charity care requirements as set forth in this subchapter.

Added by Acts 1993, 73rd Leg., ch. 360, Sec. 4, eff. Sept. 1, 1993.

Sec. 311.044. COMMUNITY BENEFITS PLANNING BY NONPROFIT HOSPITALS. (a) A nonprofit hospital shall develop:

(1) an organizational mission statement that identifies the hospital's commitment to serving the health care needs of the community; and

(2) a community benefits plan defined as an operational plan for serving the community's health care needs that sets out goals and objectives for providing community benefits that include charity care and government-sponsored indigent health care, as the terms community benefits, charity care, and government-sponsored indigent health care are defined by Sections 311.031 and 311.042, and that identifies the populations and communities served by the hospital.

(b) When developing the community benefits plan, the hospital shall consider the health care needs of the community as determined by community-wide needs assessments. For purposes of this subsection, "community" means the primary geographic area and patient categories for which the hospital provides health care services; provided, however, that the primary geographic area shall at least encompass the entire county in which the hospital is located.

(c) The hospital shall include at least the following elements in the community benefits plan:

(1) mechanisms to evaluate the plan's effectiveness, including but not limited to a method for soliciting the views of the
communities served by the hospital;
(2) measurable objectives to be achieved within a specified time frame; and
(3) a budget for the plan.
(d) In determining the community-wide needs assessment required by Subsection (b), a nonprofit hospital shall consider consulting with and seeking input from representatives of the following entities or organizations located in the community as defined by Subsection (b):
(1) the local health department;  
(2) the public health region under Chapter 121;  
(3) the public health district;  
(4) health-related organizations, including a health professional association or hospital association;  
(5) health science centers;  
(6) private business;  
(7) consumers;  
(8) local governments; and  
(9) insurance companies and managed care organizations with an active market presence in the community.
(e) Representatives of a nonprofit hospital shall consider meeting with representatives of the entities and organizations listed in Subsection (d) to assess the health care needs of the community and population served by the nonprofit hospital.

Sec. 311.045. COMMUNITY BENEFITS AND CHARITY CARE REQUIREMENTS.
(a) A nonprofit hospital or hospital system shall annually satisfy the requirements of this subchapter and of Sections 11.18(d)(1), 151.310(a)(2) and (e), and 171.063(a)(1), Tax Code, to provide community benefits which include charity care and government-sponsored indigent health care by complying with one or more of the standards set forth in Subsection (b). The hospital or hospital system shall file a statement with the Center for Health Statistics at the department and the chief appraiser of the local appraisal district no later than the 120th day after the hospital's or hospital
system's fiscal year ends, stating which of the standards in Subsection (b) have been satisfied, provided, however, that the first report shall be filed no later than the 120th day after the end of the hospital's or hospital system's fiscal year ending during 1994. For hospitals in a hospital system, the corporate parent may elect to satisfy the charity care requirements of this subchapter for each of the hospitals within the system on a consolidated basis.

(b)(1) A nonprofit hospital or hospital system may elect to provide community benefits, which include charity care and government-sponsored indigent health care, according to any of the following standards:

(A) charity care and government-sponsored indigent health care are provided at a level which is reasonable in relation to the community needs, as determined through the community needs assessment, the available resources of the hospital or hospital system, and the tax-exempt benefits received by the hospital or hospital system;

(B) charity care and government-sponsored indigent health care are provided in an amount equal to at least 100 percent of the hospital's or hospital system's tax-exempt benefits, excluding federal income tax; or

(C) charity care and community benefits are provided in a combined amount equal to at least five percent of the hospital's or hospital system's net patient revenue, provided that charity care and government-sponsored indigent health care are provided in an amount equal to at least four percent of net patient revenue.

(2) For purposes of satisfying Subdivision (1)(C), a hospital or hospital system may not change its existing fiscal year unless the hospital or hospital system changes its ownership or corporate structure as a result of a sale or merger.

(3) A nonprofit hospital that has been designated as a disproportionate share hospital under the state Medicaid program in the current fiscal year or in either of the previous two fiscal years shall be considered to have provided a reasonable amount of charity care and government-sponsored indigent health care and shall be deemed in compliance with the standards in this subsection.

(c) The providing of charity care and government-sponsored indigent health care in accordance with Subsection (b)(1)(A) shall be guided by the prudent business judgment of the hospital which will ultimately determine the appropriate level of charity care and
government-sponsored indigent health care based on the community needs, the available resources of the hospital, the tax-exempt benefits received by the hospital, and other factors that may be unique to the hospital, such as the hospital's volume of Medicare and Medicaid patients. These criteria shall not be determinative factors, but shall be guidelines contributing to the hospital's decision, along with other factors which may be unique to the hospital. The standards set forth in Subsections (b)(1)(B) and (b)(1)(C) shall also not be considered determinative of the amount of charity care and government-sponsored indigent health care that will be considered reasonable under Subsection (b)(1)(A).

(d) For purposes of this section, a hospital that satisfies Subsection (b)(1)(A) or (b)(3) shall be excluded in determining a hospital system's compliance with the standards provided by Subsection (b)(1)(B) or (b)(1)(C).

(e) In any fiscal year that a hospital or hospital system, through unintended miscalculation, fails to meet any of the standards in Subsection (b), the hospital or hospital system shall not lose its tax-exempt status without the opportunity to cure the miscalculation in the fiscal year following the fiscal year the failure is discovered by both meeting one of the standards and providing an additional amount of charity care and government-sponsored indigent health care that is equal to the shortfall from the previous fiscal year. A hospital or hospital system may apply this provision only once every five years.

(f) A nonprofit hospital or hospital system under contract with a local county to provide indigent health care services under Chapter 61 may credit unreimbursed costs from direct care provided to an eligible county resident toward meeting the nonprofit hospital's or system's charity care and government-sponsored indigent health care requirement.

Sec. 311.0455. ANNUAL REPORT BY THE DEPARTMENT. (a) The department shall submit to the attorney general and comptroller not later than July 1 of each year a report listing each nonprofit hospital or hospital system that did not meet the requirements of Section 311.045 during the preceding fiscal year.

(b) The department shall submit to the attorney general and the comptroller not later than November 1 of each year a report containing the following information for each nonprofit hospital or hospital system during the preceding fiscal year:

(5) the dollar amount of the hospital's or hospital system's charity care and community benefits requirements met;
(6) a computation of the percentage by which the amount described by Subdivision (5) is above or below the dollar amount of the hospital's or hospital system's charity care and community benefits requirements;
(7) the amount of tax-exempt benefits, as defined by Section 311.042, provided, if the hospital is required to report tax-exempt benefits under Section 311.045(b)(1)(A) or (b)(1)(B); and

If a report under Section 311.033 is not available for all hospitals in a county in which a nonprofit hospital meeting the requirement of Subsection (c)(1) is requesting certification, the department shall determine the eligibility of the hospital or hospital system using other sources of verified charity care information available at the time of certification. The department shall certify that the hospital or hospital system has met the requirements for certification. The certification issued under this subsection to a nonprofit hospital or hospital system takes effect on December 31 of that year and expires on the anniversary of that date.

(e) For the purposes of Subsection (b), a corporation certified
by the Texas Medical Board as a nonprofit organization under Section 162.001, Occupations Code, whose sole member is a qualifying hospital or hospital system is considered a nonprofit hospital or hospital system.

(f) Notwithstanding any other law, the liability of a nonprofit hospital or hospital system for noneconomic damages as defined by Section 41.001, Civil Practice and Remedies Code, for a cause of action that accrues during the period that the hospital or system is certified under this section is subject to the limitations specified by Section 101.023(b), Civil Practice and Remedies Code, and Subsection (c) of that section does not apply. This subsection establishes the total combined limit of liability of the nonprofit hospital or hospital system and any employee, officer, or director of the hospital or system for noneconomic damages for each person and each single occurrence, as described by Section 101.023(b), Civil Practice and Remedies Code.

Sec. 314.002. REVIEW AND CERTIFICATION OF COOPERATIVE AGREEMENTS. (a) A hospital may negotiate and enter into cooperative agreements with other hospitals in the state if the likely benefits resulting from the agreement outweigh any disadvantages attributable to a reduction in competition that may result from the agreements. Acting through their boards of directors, a group of hospitals may conduct discussions or negotiations concerning cooperative agreements, provided that the discussions or negotiations do not involve price fixing or predatory pricing.

(b) Parties to a cooperative agreement may apply to the department for a certification of public advantage governing the cooperative agreement. The application must include a written copy of the cooperative agreement and describe the nature and scope of the cooperation in the agreement and any consideration passing to any party under the agreement. A copy of the application and copies of all additional related materials must be submitted to the attorney general and to the department at the same time. The department shall charge an application fee in an amount not to exceed $10,000 per application.

(c) The department shall review the application in accordance with the standards set forth in Subsections (e) and (f) and shall, if requested, hold a public hearing in accordance with rules adopted by the executive commissioner. The department shall grant or deny the application within 120 days of the date of filing of the application and that decision must be in writing and set forth the basis for the
decision. The department shall furnish a copy of the decision to the applicants, the attorney general, and any intervenor within 10 days of its issuance.

(d) The department shall issue a certificate of public advantage for a cooperative agreement if it determines that the applicants have demonstrated by clear and convincing evidence that the likely benefits resulting from the agreement outweigh any disadvantages attributable to a reduction in competition that may result from the agreement.

(e) In evaluating the potential benefits of a cooperative agreement, the department shall consider whether one or more of the following benefits may result from the cooperative agreement:

1. enhancement of the quality of hospital and hospital-related care provided to Texas citizens;
2. preservation of hospital facilities in geographical proximity to the communities traditionally served by those facilities;
3. gains in the cost efficiency of services provided by the hospitals involved;
4. improvements in the utilization of hospital resources and equipment; and
5. avoidance of duplication of hospital resources.

(f) The department's evaluation of any disadvantages attributable to any reduction in competition likely to result from the agreement may include, but need not be limited to, the following factors:

1. the extent of any likely adverse impact on the ability of health maintenance organizations, preferred provider organizations, or other health care payors to negotiate optimal payment and service arrangements with hospitals, physicians, allied health care professionals, or other health care providers;
2. the extent of any reduction in competition among physicians, allied health professionals, other health care providers, or other persons furnishing goods or services to, or in competition with, hospitals;
3. the extent of any adverse impact on patients in the quality, availability, and price of health care services; and
4. the availability of arrangements that are less restrictive to competition and achieve similar benefits.

(g) The department shall consult with the attorney general
regarding any potential reduction in competition that may result from a cooperative agreement. The attorney general shall review the application and all supporting documents provided by the applicants, any documents or other information provided by any intervenors, and any documents or testimony provided at a public hearing, if any, on the application and shall advise the department whether the proposed cooperative agreement would have inappropriate impact on competition. If the attorney general advises the department to deny an application, the attorney general shall state the basis and reasons for the recommended denial.

Acts 2015, 84th Leg., R.S., Ch. 1 (S.B. 219), Sec. 3.0852, eff. April 2, 2015.

Sec. 314.003. ATTORNEY GENERAL AUTHORITY. (a) The attorney general, at any time after an application is filed under Section 314.002(b), may require by civil investigative demand the attendance and testimony of witnesses and the production of documents in Travis County or the county in which the applicants are located for the purpose of investigating whether the cooperative agreement satisfies the standards set forth in Section 314.002. All nonpublic documents produced and testimony given to the attorney general are subject to the prohibitions on disclosure and use of Section 15.10(i), Business & Commerce Code. The attorney general may seek an order from the district court compelling compliance with a civil investigative demand issued under this section.

(b) The attorney general may seek to enjoin the operation of a cooperative agreement for which an application for certificate of public advantage has been filed by filing suit against the parties to the cooperative agreement in district court. The attorney general may file an action before or after the department acts on the application for a certificate but, except as provided in Subsection (e), the action must be brought not later than 20 days following the attorney general's receipt of a copy of the final and appealable decision of the department.
(c) Upon the filing of the complaint in an action under Subsection (b), the department's certification, if previously issued, must be stayed and the cooperative agreement is of no further force unless the court orders otherwise or until the action is concluded. The attorney general may apply to the court for any ancillary temporary or preliminary relief necessary to stay the cooperative agreement pending final disposition of the case.

(d) In any action brought under Subsection (b), the applicants for a certificate bear the burden of establishing by clear and convincing evidence that in accordance with Sections 314.002(e) and (f), the likely benefits resulting from the cooperative agreement outweigh any disadvantages attributable to a reduction in competition that may result from the agreement. In assessing disadvantages attributable to a reduction in competition likely to result from the agreement, the court may draw upon the determinations of federal and Texas courts concerning unreasonable restraint of trade under 15 U.S.C. Sections 1 and 2, and Chapter 15, Business & Commerce Code.

(e) If, at any time following the 20-day period specified in Subsection (b), the attorney general determines that as a result of changed circumstances the benefits resulting from a certified agreement no longer outweigh any disadvantages attributable to a reduction in competition resulting from the agreement, the attorney general may file suit in the district court seeking to cancel the certificate of public advantage. The standard for adjudication for an action brought under this subsection is as follows:

(1) except as provided in Subdivision (2), in any action brought under this subsection the attorney general has the burden of establishing by a preponderance of the evidence that as a result of changed circumstances the benefits resulting from the agreement and the unavoidable costs of canceling the agreement are outweighed by disadvantages attributable to a reduction in competition resulting from the agreement;

(2) in any action under this subsection, if the attorney general first establishes by a preponderance of evidence that the department's certification was obtained as a result of material misrepresentation to the department or the attorney general or as the result of coercion, threats, or intimidation toward any party to the cooperative agreement, then the parties to the agreement bear the burden of establishing by clear and convincing evidence that the benefits resulting from the agreement and the unavoidable costs of
canceling the agreement are outweighed by disadvantages attributable to any reduction in competition resulting from the agreement.

Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 91 (S.B. 1303), Sec. 12.003, eff. September 1, 2011.

Sec. 314.004. MONITORING OF APPROVED COOPERATIVE AGREEMENTS. (a) If, at any time following the approval of a cooperative agreement by the department, the department determines that as a result of changed circumstances the benefits resulting from an approved agreement no longer outweigh any disadvantages attributable to a reduction in competition resulting from the agreement, the department may initiate proceedings to terminate the certificate of public advantage.

(b) The department may request documents from the parties to the cooperative agreement regarding the current status of the agreement, including information relative to the continued benefits and any disadvantages of the agreement and shall, if requested, hold a public hearing to solicit additional information concerning the effects of the cooperative agreement.

(c) If the department determines that the likely benefits resulting from an approved cooperative agreement no longer outweigh any disadvantages attributable to any potential reduction in competition resulting from the agreement, the department may terminate the certificate of public advantage.

Sec. 314.005. JUDICIAL REVIEW OF DEPARTMENT ACTION. Any party aggrieved by a decision of the department in granting or denying an application, refusing to act on an application, or terminating a certificate is entitled to judicial review of the decision in accordance with Chapter 2001, Government Code.
Sec. 314.006.  VALIDITY OF CERTIFIED COOPERATIVE AGREEMENTS.
(a) Notwithstanding Section 15.05(a), Business & Commerce Code, or any other provision of law, a cooperative agreement for which a certificate of public advantage has been issued is a lawful agreement. Notwithstanding Section 15.05(a), Business & Commerce Code, or any other provision of law, if the parties to a cooperative agreement file an application for a certificate of public advantage governing the agreement with the department, the conduct of the parties in negotiating and entering into a cooperative agreement is lawful conduct.

(b) If the department, or in any action by the attorney general the district court, determines that the applicants have not established by clear and convincing evidence that the likely benefits resulting from a cooperative agreement outweigh any disadvantages attributable to any potential reduction in competition resulting from the agreement, the agreement is invalid and has no further force or effect.

(c) Nothing in this chapter exempts hospitals from compliance with the requirements of Chapters 241 or 577 of this code.

Sec. 314.007.  MERGERS AND CONSOLIDATIONS INVOLVING HOSPITALS. The provisions of this chapter do not apply to any agreement among hospitals by which ownership or control over substantially all of the stock, assets of activities of one or more previously licensed and operating hospitals is placed under the control of another licensed hospital or hospitals.

Sec. 314.007.  MERGERS AND CONSOLIDATIONS INVOLVING HOSPITALS. The provisions of this chapter do not apply to any agreement among hospitals by which ownership or control over substantially all of the stock, assets of activities of one or more previously licensed and operating hospitals is placed under the control of another licensed hospital or hospitals.

Statute text rendered on: 4/17/2020 - 2166 -
Sec. 314.008. EXCLUSIONS; AUTHORITY TO ADOPT RULES. (a) This chapter specifically excludes ground and/or air ambulance services. (b) The executive commissioner shall have the authority to adopt rules to implement the requirements of this chapter.

Sec. 314A.003. LEGISLATIVE FINDINGS AND PURPOSES; GRANT OF ANTITRUST IMMUNITY. (a) The legislature finds that:

(1) a merger among hospitals may benefit the public by maintaining or improving the quality, efficiency, and accessibility of health care services offered to the public; and

(2) the benefits described by Subdivision (1) resulting from the merger may outweigh any anticompetitive effects of joining together competitors to address unique challenges in providing health care services in rural areas.

(b) The legislature believes it is in the state's best interest to supplant state and federal antitrust laws with a process for regulatory approval and active supervision by the designated agency as provided by this chapter. It is the intent of the legislature that this chapter immunize from all federal and state antitrust laws the execution of merger agreements approved under this chapter and post-merger activities supervised under this chapter.

(1) investigate the hospital's activities; and
(2) require the hospital to perform a certain action or refrain from a certain action or revoke the hospital's certificate of public advantage, if the designated agency determines that:
   (A) the hospital is not complying with this chapter or a term or condition of compliance with the certificate of public advantage governing the hospital's immunized activities;

Sec. 314A.152. JUDICIAL REVIEW OF DESIGNATED AGENCY ACTION.  
(a) A person aggrieved by a decision of the designated agency in granting, denying, or refusing to act on an application for a certificate of public advantage submitted under Subchapter B or revoking a certificate of public advantage issued under this chapter may appeal the final order by filing a petition for judicial review in a district court of Travis County.

(b) The filing of a petition for judicial review of a decision by the designated agency to revoke a certificate of public advantage stays enforcement of the agency's decision.

(c) Not later than the 45th day after the date a person files a petition for judicial review under this section, the designated agency shall submit to the district court the original copy or a certified copy of the entirety of the agency's record regarding the decision under review. By stipulation of all parties, the record may be shortened. The district court may require or permit later corrections or additions to the record. The district court may extend the period prescribed by this subsection for submitting the agency's record to the court.

(d) The district court shall conduct the review sitting without a jury.

(e) The district court may reverse a decision by the designated agency regarding revocation of a certificate of public advantage if the court finds that the decision is:

1. in violation of a constitutional or statutory provision;

3. made through unlawful procedure;
4. arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion; or
5. unsupported by substantial and material evidence in light of the record as a whole.

(f) Under Subsection (e)(5), in determining the substantiality of the evidence, the district court:
(1) shall consider other evidence that detracts from the substantiality; and
(2) may not substitute its judgment for the judgment of the designated agency on the weight of the evidence as to a question of fact.

(g) The district court shall issue a written decision setting forth the court's findings of fact and conclusions of law. The designated agency shall add the court's decision to the agency's record.

of a certificate of public advantage, the attorney general determines that as a result of changed circumstances the benefits resulting from a certified merger agreement as described by Section 314A.056(a)(1)(A) no longer outweigh any disadvantages attributable to a reduction in competition resulting from the merger agreement, the attorney general may bring an action in a district court in Travis County seeking to revoke the certificate of public advantage in accordance with the procedures prescribed by this section.

(b) Except as provided by Subsection (c), in an action brought under this section, the attorney general has the burden of establishing by clear and convincing evidence that as a result of changed circumstances the benefits resulting from the certified merger agreement and the unavoidable costs of revoking the certificate of public advantage are outweighed by disadvantages attributable to a reduction in competition resulting from the merger agreement.

(c) In any action brought under this section, if the attorney general first establishes by clear and convincing evidence that the designated agency's certification was obtained as a result of material misrepresentation to the designated agency or the attorney general or as the result of coercion, threats, or intimidation directed toward any party to the merger agreement, then the parties to the merger agreement bear the burden of establishing by clear and convincing evidence that despite changed circumstances the benefits resulting from the certified merger agreement and the unavoidable costs of revoking the certificate of public advantage are not outweighed by disadvantages attributable to a reduction in competition resulting from the merger agreement.

SUBCHAPTER C. SANITARY STANDARDS OF DRINKING WATER; PROTECTION OF PUBLIC WATER SUPPLIES AND BODIES OF WATER

Sec. 341.031. PUBLIC DRINKING WATER. (a) Public drinking water must be free from deleterious matter and must comply with the standards established by the commission or the United States Environmental Protection Agency. The commission may adopt and enforce rules to implement the federal Safe Drinking Water Act (42 U.S.C. Section 300f et seq.).

(b) In a public place or an establishment catering to the public, a common drinking cup may not be used.

(c) Drinking water may not be served except in sanitary containers or through other sanitary mediums.

(d) In this section, "common drinking cup" means a water or other beverage receptacle used for serving more than one person. The term does not include a water or other beverage receptacle that is properly washed and sterilized after each use.

Sec. 341.0315. PUBLIC DRINKING WATER SUPPLY SYSTEM REQUIREMENTS. (a) To preserve the public health, safety, and welfare, the commission shall ensure that public drinking water supply systems:

(1) supply safe drinking water in adequate quantities;

(2) are financially stable; and

(3) are technically sound.

(b) The commission shall encourage and promote the development and use of regional and areawide drinking water supply systems.

(c) Each public drinking water supply system shall provide an adequate and safe drinking water supply. The supply must meet the requirements of Section 341.031 and commission rules.

(d) The commission shall consider compliance history in
determining issuance of new permits, renewal permits, and permit amendments for a public drinking water system.

(e) The commission shall establish a system to provide automatic reminders to public drinking water supply systems about regular reporting requirements applicable to the systems under the federal Safe Drinking Water Act (42 U.S.C. Section 300f et seq.) and this chapter that relate to commission rules adopted under those laws. An automatic reminder provided under this subsection is a courtesy. A public drinking water supply system is responsible for complying with applicable regular reporting requirements regardless of whether the commission provides automatic reminders.

Sec. 341.0316. DESALINATION OF MARINE SEAWATER FOR DRINKING WATER. (a) This section applies only to a desalination facility that is intended to treat marine seawater for the purpose of producing water for the public drinking water supply. This section does not apply to a desalination facility used to produce nonpotable water.

(b) The commission shall adopt rules to:
(1) allow water treated by a desalination facility to be used as public drinking water; and
(2) ensure that water treated by a desalination facility meets the requirements of Section 341.031 and rules adopted under that section.

(c) A person may not begin construction of a desalination facility that treats marine seawater for the purpose of removing primary or secondary drinking water contaminants unless the commission approves the construction of the facility.

Sec. 341.032. DRINKING WATER PROVIDED BY COMMON CARRIER. (a)
Drinking water provided by a common carrier or the common carrier's agent shall be taken only from supplies certified as meeting the standards established by the commission. The drinking water shall be kept and dispensed in a sanitary manner.

(b) A watering point must meet the standards of sanitation and water-handling practices established for those purposes by the commission. The commission shall certify each watering point that meets those standards.

(c) If a sanitary defect exists at the watering point, the commission shall issue a supplemental certification showing that the watering point is only provisionally approved. If a sanitary defect continues after the expiration of a reasonable time provided to correct the defect, the commission shall notify the common carrier not to receive drinking water at the watering point involved.

(d) In this section:

   (1) "Common carrier" means a licensed firm, corporation, or establishment that solicits and operates public freight or passenger transportation service, including a vehicle employed in that transportation service.

   (2) "Watering point" means a place where drinking water is placed aboard a vehicle operated as a common carrier.

Sec. 341.033. PROTECTION OF PUBLIC WATER SUPPLIES. (a) A person may not furnish drinking water to the public for a charge unless the production, processing, treatment, and distribution are at all times under the supervision of a water supply system operator holding a license issued by the commission under Chapter 37, Water Code.

(a-1) The licensed operator of a water supply system may be a volunteer. The owner or manager of a water supply system that is operated by a volunteer shall maintain a record of each volunteer operator showing the name of the volunteer, contact information for the volunteer, and the time period for which the volunteer is responsible for operating the water supply system.

(b) An owner, agent, manager, operator, or other person in charge of a water supply system that furnishes water for public or
private use may not knowingly furnish contaminated drinking water to a person or allow the appliances of the water supply system to become unsanitary.

(c) The owner or manager of a water supply system furnishing drinking water to at least 25,000 persons shall have the water tested at least once daily to determine its sanitary quality and shall submit monthly reports of the tests to the commission.

(d) The owner or manager of a water supply system furnishing drinking water to less than 25,000 persons shall submit to the commission during each monthly period of the system's operation at least one specimen of water taken from the supply for bacteriological analysis. The population under this subsection shall be determined according to the most recent federal census or other population-determining methods if a federal census is not taken for the area served by the water supply system.

(e) The distribution system of a public drinking water supply and that of any other water supply may not be physically connected unless the other water is of a safe and sanitary quality and the commission approves the connection.

(f) A public drinking water supply may not be connected to a sprinkling, condensing, cooling, plumbing, or other system unless the connection is designed to ensure against a backflow or siphonage of sewage or contaminated water into the drinking water supply.

(g) On discovery of a connection in violation of Subsection (e) or (f), the local health authority shall give written notice to the owner or agent maintaining the condition. The owner or agent shall make the necessary corrections to eliminate the condition.

(h) Subsections (a)-(d) do not apply to the production, distribution, or sale of raw, untreated surface water.

(i) An owner, agent, manager, operator, or other person in charge of a public water supply system that furnishes water for public or private use or a wastewater system that provides wastewater services for public or private use shall maintain internal procedures to notify the commission immediately of the following events, if the event may negatively impact the production or delivery of safe and adequate drinking water:

(1) an unusual or unexplained unauthorized entry at property of the public water supply or wastewater system;

(2) an act of terrorism against the public water supply or wastewater system;
(3) an unauthorized attempt to probe for or gain access to proprietary information that supports the key activities of the public water supply or wastewater system;

(4) a theft of property that supports the key activities of the public water supply or wastewater system; or

(5) a natural disaster, accident, or act that results in damage to the public water supply or wastewater system.

(j) An owner, agent, manager, operator, or other person in charge of a public water supply system that furnishes for public or private use drinking water containing added fluoride may not permanently terminate the fluoridation of the water unless the owner, agent, manager, operator, or person provides written notice to the customers of the system and the commission of the termination at least 60 days before the termination.

Sec. 341.034. LICENSING AND REGISTRATION OF PERSONS WHO PERFORM DUTIES RELATING TO PUBLIC WATER SUPPLIES. (a) A person who operates a public water supply on a contract or volunteer basis must hold a registration issued by the commission under Chapter 37, Water Code.

(b) A person who performs process control duties in production or distribution of drinking water for a public water system must hold a license issued by the commission under Chapter 37, Water Code, unless:

(1) the duties are provided to a transient, noncommunity water system; and

(2) the water system uses groundwater that is not under the influence of surface water.

(c) A person who repairs or tests the installation or operation
of backflow prevention assemblies must hold a license issued by the commission under Chapter 37, Water Code.

(d) A person who inspects homes and businesses to identify potential or actual cross-connections or other contaminant hazards in public water systems must hold a license issued by the commission under Chapter 37, Water Code, unless the person is licensed by the Texas State Board of Plumbing Examiners as a plumbing inspector or water supply protection specialist.

(e) Unless the person is licensed by the Texas State Board of Plumbing Examiners, a person must hold a license issued by the commission under Chapter 37, Water Code, if, under a contract, the person:

(1) installs, exchanges, connects, maintains, or services potable water treatment equipment and appliances in public or private water systems; or

(2) analyzes water to determine how to treat influent or effluent water, alter or purify water, or add or remove a mineral, chemical, or bacterial content or substance as part of the complete installation, exchange, connection, maintenance, or service of potable water treatment equipment and appliances.

Sec. 341.035. APPROVED PLANS REQUIRED FOR PUBLIC WATER SUPPLIES. (a) Except as provided by Subsection (d), a person may not begin construction of a public drinking water supply system unless the executive director of the commission approves:

(1) a business plan for the system; and

(2) the plans and specifications for the system.

(b) The prospective owner or operator of the system must submit to the executive director a business plan that demonstrates that the owner or operator of the proposed system has available the financial, managerial, and technical capability to ensure future operation of
the system in accordance with applicable laws and rules. The executive director:

(1) shall review the business plan; and
(2) may order the prospective owner or operator of the system to provide adequate financial assurance of ability to operate the system in accordance with applicable laws and rules, in the form of a bond or as specified by the commission, unless the executive director finds that the business plan demonstrates adequate financial capability.

(c) The prospective owner or operator of the proposed system shall provide to the commission completed plans and specifications for review and approval in accordance with commission rules.

(d) A person is not required to file a business plan under Subsection (a)(1) or (b) if the person:

(1) is a county;
(2) is a retail public utility as defined by Section 13.002, Water Code, unless that person is a utility as defined by that section;
(3) has executed an agreement with a political subdivision to transfer the ownership and operation of the water supply system to the political subdivision;
(4) is a Class A utility, as defined by Section 13.002, Water Code, that has applied for or been granted an amendment of a certificate of convenience and necessity under Section 13.258, Water Code, for the area in which the construction of the public drinking water supply system will operate; or
(5) is a noncommunity nontransient water system and the person has demonstrated financial assurance under Chapter 361 or 382 of this code or Chapter 26, Water Code.

Sec. 341.0351. NOTIFICATION OF SYSTEM CHANGES. Any person,
including a municipality, supplying a drinking water service to the public that intends to make a material or major change in a water supply system that may affect the sanitary features of that utility must give written notice of that intention to the commission before making the change.

Sec. 341.0352. ADVERTISED QUALITY OF WATER SUPPLY. A water supply system owner, manager, or operator or an agent of a water supply system owner, manager, or operator may not advertise or announce a water supply as being of a quality other than the quality that is disclosed by the commission's latest rating.

Sec. 341.0353. DRINKING WATER SUPPLY COMPARATIVE RATING INFORMATION. The commission shall assemble and tabulate all necessary information relating to public drinking water supplies at least once each year and as often during the year as conditions demand or justify. The information forms the basis of an official comparative rating of public drinking water supply systems.

Sec. 341.0354. HIGHWAY SIGNS FOR APPROVED SYSTEM RATING. A
water supply system that attains an approved rating is entitled to erect signs of a design approved by the commission on highways approaching the municipality in which the water supply system is located. The signs shall be immediately removed on notice from the commission if the water supply system does not continue to meet the specified standards.

Sec. 341.0355. FINANCIAL ASSURANCE FOR CERTAIN SYSTEMS. (a) The commission may require the owner or operator of a public drinking water supply system that was constructed without the approval required by Section 341.035, that has a history of noncompliance with this subchapter or commission rules, or that is subject to a commission enforcement action to:

(1) provide the executive director of the commission with a business plan that demonstrates that the system has available the financial, managerial, and technical resources adequate to ensure future operation of the system in accordance with applicable laws and rules; and

(2) provide adequate financial assurance of the ability to operate the system in accordance with applicable laws and rules in the form of a bond or as specified by the commission.

(b) If the commission relies on rate increases or customer surcharges as the form of financial assurance, such funds shall be deposited in an escrow account and released only with the approval of the commission.

Added by Acts 1997, 75th Leg., ch. 1010, Sec. 6.20, eff. Sept. 1, 1997.

Sec. 341.0356. ORDER TO STOP OPERATIONS. (a) A public water supply system shall stop operations on receipt of a written notification of the executive director of the commission or an order of the commission issued under this section.
(b) The executive director or the commission may order a public water supply system to stop operations if:

   (1) the system was constructed without the approval required by Section 341.035; or
   (2) the executive director determines that the system presents an imminent health hazard.

(c) A notification or order issued under this section may be delivered by facsimile, by personal service, or by mail.

(d) A water supply system subject to notification or an order under this section, on written request, is entitled to an opportunity to be heard by the commissioners at a commission meeting.

(e) The public water supply system may not resume operations until the commission, the executive director, or a court authorizes the resumption.

Sec. 341.0357. IDENTIFICATION REQUIREMENT FOR DEVICE WITH APPEARANCE OF FIRE HYDRANT THAT IS NONFUNCTIONING OR UNAVAILABLE FOR USE IN FIRE EMERGENCY. (a) The owner of any device having the appearance of a fire hydrant that is located in a place that an entity responsible for providing fire suppression services in a fire emergency would expect a fire hydrant to typically be located shall paint the device black if the device is nonfunctioning or otherwise unavailable for use by the entity providing fire suppression services in a fire emergency. The owner may place a black tarp over the device instead of painting the device black as required under this section if the device is temporarily nonfunctioning, or temporarily unavailable for use in a fire emergency, for a period not to exceed seven days.

(b) For purposes of this section, a device is considered to be nonfunctioning if the device pumps less than 250 gallons of water per minute.

(c) This section does not apply within the jurisdiction of a governmental entity that maintains its own system for labeling a device having the appearance of a fire hydrant that is nonfunctioning or otherwise unavailable for use in a fire emergency.

(d) This section does not apply within the jurisdiction of a
Sec. 341.03571. IDENTIFICATION REQUIREMENT FOR CERTAIN FIRE HYDRANTS AND FLUSH VALVES IN CERTAIN MUNICIPALITIES. (a) In this section, "hydrant" means:

(1) a fire hydrant; or

(2) a metal flush valve that:

(A) has the appearance of a fire hydrant; and

(B) is located in a place that an entity responsible for providing fire suppression services in a fire emergency would expect a fire hydrant to typically be located.

(b) This section applies only to a county, or a municipality in a county, that:

(1) borders the United Mexican States or is adjacent to a county that borders the United Mexican States;

(2) has a population of at least 400,000 or has a population of at least 20,000 and is adjacent to a county that has a population of at least 400,000; and

(3) is within 200 miles of the Gulf of Mexico.

(c) Each public water system responsible for any hydrant shall:

(1) paint all or the cap of the hydrant white if the hydrant is available to be used only to fill a water tank on a fire truck used for fire suppression services; and

(2) paint all or the cap of the hydrant black if the hydrant is unavailable for use by the entity providing fire suppression services in a fire emergency.

(d) For purposes of Subsection (c)(2), a hydrant is unavailable for use in a fire emergency if it is unavailable for pumping directly from the hydrant or is unavailable for use in filling a water tank on a fire truck used for fire suppression services.

(e) A public water system may place a black tarp over the hydrant or use another means to conceal the hydrant instead of painting all or the cap of the hydrant black as required under

Subsection (c)(2) if the hydrant is temporarily unavailable for use in a fire emergency for a period not to exceed 45 days. Not later than the 45th day after the date a hydrant is concealed as provided by this subsection, the public water system responsible for the hydrant shall:

(1) if the hydrant is available for the provision of fire suppression services, remove the tarp or other means of concealment; or

(2) if the hydrant continues to be unavailable for use in a fire emergency, paint all or the cap of the hydrant black as required by Subsection (c)(2).

(f) A public water system that paints all or the cap of a hydrant black as required by Subsection (c)(2) may also ensure by any reasonable means that the hydrant is identifiable in low-light conditions, including by installing reflectors.

(g) This section does not apply:

(1) within the jurisdiction of a governmental entity that maintains its own system for labeling or color coding its hydrants; or

(2) to any public water system that has entered into a contract with a municipality or volunteer fire department to provide a water supply for fire suppression services if the contract specifies a different system for labeling or color coding hydrants.

(h) For purposes of Subsection (g), a system for labeling or color coding hydrants may include the assignment of different colors to identify hydrants that are available for direct pumping, hydrants that are available for filling a water tank on a fire truck used for fire suppression services, and hydrants that are unavailable for use by an entity providing fire suppression services in a fire emergency.

(i) The fact that all or the cap of a hydrant for which a public water system is responsible under this section is not painted black as described by Subsection (c)(2) or concealed in the manner described by Subsection (e) does not constitute a guarantee by the public water system that the hydrant will deliver a certain amount of water flow at all times. Notwithstanding any provision of Chapter 101, Civil Practice and Remedies Code, to the contrary, a public water system is not liable for a hydrant's inability to provide adequate water supply in a fire emergency.

   (c) The commission shall assess residential areas in a municipality with a population of 1,000,000 or more to ensure that:
      (1) the regulatory authority for the area has adopted the standards required by this section; and
      (2) all public utilities serving the residential area are complying with the standards required by this section.
   (d) The commission shall require a municipality with a population of 1,000,000 or more and acting as a regulatory authority to make appropriate revisions to standards the commission considers to be inadequate within a reasonable time established by the commission.
   (e) The commission shall require a public utility in violation
of a standard required under this section and established by the commission or by a municipality with a population of 1,000,000 or more and acting as a regulatory authority to comply with the standard within a reasonable time established by the commission.

(f) This section does not limit the authority of a municipality with a population of 1,000,000 or more and acting as a regulatory authority to prohibit a public utility in violation of a standard established by the municipality from recovering through the public utility's rates a penalty or fine incurred for a violation of a standard.

(g) This section also applies to:

Sec. 341.03585. FIRE HYDRANT FLOW AND PRESSURE STANDARDS IN CERTAIN MUNICIPALITIES. (a) In this section:

(1) "Industrial district" has the meaning assigned by Section 42.044, Local Government Code, and includes an area that is designated by the governing body of a municipality as a zoned industrial area.

(2) "Municipal utility" means a retail public utility, as defined by Section 13.002, Water Code, that is owned by a municipality.

(3) "Residential area" has the meaning assigned by Section 341.0358.

(4) "Utility" includes a "public utility" and "water supply or sewer service corporation" as defined by Section 13.002, Water Code.

(b) This section applies only to:

(1) a municipality, including any industrial district within the municipality or its extraterritorial jurisdiction, with a population of more than 7,000 and less than 30,000 located in a county with a population of more than 155,000 and less than 180,000; and

(2) a municipality, including any industrial district within the municipality or its extraterritorial jurisdiction, with a population of more than 11,000 and less than 18,000 located in a county with a population of more than 125,000 and less than 230,000.

(c) The governing body of a municipality by ordinance shall adopt standards requiring a utility to maintain a sufficient water flow and pressure to fire hydrants in a residential area or an industrial district located in the municipality or the municipality's extraterritorial jurisdiction. The standards:

(1) in addition to a utility's maximum daily demand, must provide, for purposes of emergency fire suppression, for:

(A) a sufficient water flow not in excess of 250 gallons per minute for at least two hours; and

(B) a sufficient water pressure not in excess of 20 pounds per square inch;

(2) must require a utility to maintain at least the sufficient water flow and pressure described by Subdivision (1) in fire hydrants in a residential area or an industrial district located within the municipality or the municipality's extraterritorial jurisdiction; and
(3) notwithstanding Subdivisions (1) and (2), if the municipality owns a municipal utility, may not require another utility located in the municipality or the municipality's extraterritorial jurisdiction to provide water flow and pressure in a fire hydrant greater than that provided by the municipal utility.

(d) Except as provided by this subsection, an ordinance under Subsection (c) may not require a utility to build, retrofit, or improve fire hydrants and related infrastructure in existence at the time the ordinance is adopted. An ordinance under Subsection (c) may apply to a utility's fire hydrants and related infrastructure that the utility:

(1) installs after the effective date of the ordinance; or

(2) acquires after the effective date of the ordinance if the hydrants and infrastructure comply with the standards adopted by the ordinance at the time the hydrants and infrastructure are acquired.

(e) After adoption of an ordinance under Subsection (c), the municipality shall encourage any responsible emergency services district, as described by Chapter 775, to enter into a written memorandum of understanding with the utility to provide for:

(1) the necessary testing of fire hydrants; and

(2) other relevant issues pertaining to the use of the water and maintenance of the fire hydrants to ensure compliance with this section.

(f) After adoption of an ordinance under Subsection (c), the utility shall paint all fire hydrants in accordance with the ordinance or a memorandum of understanding under Subsection (e) that are located in a residential area or an industrial district within the municipality or the municipality's extraterritorial jurisdiction.

(g) Notwithstanding any provision of Chapter 101, Civil Practice and Remedies Code, to the contrary, a utility is not liable for a hydrant's or metal flush valve's inability to provide adequate water supply in a fire emergency. This subsection does not waive a municipality's immunity under Subchapter I, Chapter 271, Local Government Code, or any other law and does not create any liability on the part of a municipality or utility under a joint enterprise theory of liability.

(3) "Utility" includes a "public utility" and "water supply or sewer service corporation" as defined by Section 13.002, Water Code.

(b) The governing body of a municipality by ordinance may adopt standards set by the commission under Subsection (c) requiring a utility to maintain a minimum sufficient water flow and pressure to fire hydrants in a residential area located in the municipality or the municipality's extraterritorial jurisdiction.

(c) The commission by rule shall establish standards for adoption by a municipality under Subsection (b). The standards:

(1) in addition to a utility's maximum daily demand, must provide, for purposes of emergency fire suppression, for:

(A) a minimum sufficient water flow of at least 250 gallons per minute for at least two hours; and

(B) a minimum sufficient water pressure of at least 20 pounds per square inch;

(2) must require a utility to maintain at least the minimum sufficient water flow and pressure described by Subdivision (1) in fire hydrants in a residential area located within the municipality or the municipality's extraterritorial jurisdiction;

(3) must be based on the density of connections, service demands, and other relevant factors;

(4) notwithstanding Subdivisions (1) and (2), if the municipality owns a municipal utility, may not require another utility located in the municipality or the municipality's extraterritorial jurisdiction to provide water flow and pressure in a fire hydrant greater than that provided by the municipal utility as determined by the commission; and

(5) if the municipality does not own a municipal utility, may not require a utility located in the municipality or the
municipality's extraterritorial jurisdiction to provide a minimum sufficient water flow and pressure greater than the standard established under Subdivision (1).

(d) An ordinance under Subsection (b) may not require a utility to build, retrofit, or improve infrastructure in existence at the time the ordinance is adopted.

(e) A municipality with a population of less than 1.9 million that adopts standards under Subsection (b) or that seeks to use a utility's water for fire suppression shall enter into a written memorandum of understanding with the utility to provide for:

(1) the necessary testing of fire hydrants; and
(2) other relevant issues pertaining to the use of the water and maintenance of the fire hydrants to ensure compliance with this section.

(f) A municipality may notify the commission of a utility's failure to comply with a standard adopted under Subsection (b).

(g) On receiving the notice described by Subsection (f), the commission shall require a utility in violation of a standard adopted under this section to comply within a reasonable time established by the commission. The commission may approve infrastructure improvements and make corresponding changes to the tariff or rate schedule of a utility that is a public utility as needed to permit compliance with this section.

(h) Notwithstanding any provision of Chapter 101, Civil Practice and Remedies Code, to the contrary, a utility is not liable for a hydrant's or metal flush valve's inability to provide adequate water supply in a fire emergency. This subsection does not waive a municipality's immunity under Subchapter I, Chapter 271, Local Government Code, or any other law and does not create any liability on the part of a municipality under a joint enterprise theory of liability.

Sec. 341.036. SANITARY DEFECTS AT PUBLIC DRINKING WATER SUPPLY SYSTEMS. (a) A sanitary defect at a public drinking water supply system that obtains its water supply from underground sources shall be immediately corrected.
(b) A public drinking water supply system furnishing drinking water from underground sources may not be established in a place subject to possible pollution by floodwaters unless the system is adequately protected against flooding.

(c) Suction wells or suction pipes used in a public drinking water supply system must be constantly protected by practical safeguards against surface and subsurface pollution.

(d) Livestock may not be permitted to enter or remain in the wellhouse enclosure of a public drinking water supply system.

(e) Public drinking water distribution lines must be constructed of impervious materials with tight joints and must be a reasonably safe distance from sewer lines.

(f) Water from a surface public drinking water supply may not be made accessible or delivered to a consumer for drinking purposes unless the water has been treated to make it safe for human consumption. Water treatment plants, including aeration, coagulation, mixing, settling, filtration, and chlorinating units, shall be of a size and type prescribed by good public health engineering practices.

(g) A clear water reservoir shall be covered and be of a type and construction that prevents the entrance of dust, insects, and surface seepage.

Sec. 341.037. PROTECTION OF BODIES OF WATER FROM SEWAGE. The commission shall enforce state laws and take other necessary action to protect a spring, well, pond, lake, reservoir, or other stream in this state from any condition or pollution that results from sewage and that may endanger the public health.

Sec. 341.038. PROTECTION OF IMPOUNDED WATER FROM DISEASE-BEARING MOSQUITOES. A person that impounds water for public use shall cooperate with the commission and local departments of health to control disease-bearing mosquitoes on the impounded area.
Sec. 341.039. STANDARDS FOR GRAYWATER AND ALTERNATIVE ONSITE WATER. (a) The commission by rule shall adopt and implement minimum standards for the indoor and outdoor use and reuse of treated graywater and alternative onsite water for:

(1) irrigation and other agricultural purposes;
(2) domestic use, to the extent consistent with Subsection (c);
(3) commercial purposes; and
(4) industrial purposes.

(a-1) The standards adopted by the commission under Subsection (a)(2) must allow the use of graywater and alternative onsite water for toilet and urinal flushing.

(b) The standards adopted by the commission under Subsection (a) must assure that the use of graywater or alternative onsite water is not a nuisance and does not threaten human health or damage the quality of surface water and groundwater in this state.

(b-1) The commission by rule may adopt and implement rules providing for the inspection and annual testing of a graywater or alternative onsite water system by the commission.

(b-2) The commission shall develop and make available to the public a regulatory guidance manual to explain the rules adopted under this section.

(c) The commission may not require a permit for the domestic use of less than 400 gallons of graywater or alternative onsite water each day if the water:

(1) originates from a private residence;
(2) is used by the occupants of that residence for gardening, composting, landscaping, or indoor use as allowed by rule, including toilet or urinal flushing, at the residence;
(3) is collected using a system that may be diverted into a sewage collection or on-site wastewater treatment and disposal system;
(4) is, if required by rule, stored in surge tanks that:
   (A) are clearly labeled as nonpotable water;
   (B) restrict access, especially to children; and
   (C) eliminate habitat for mosquitoes and other vectors;
(5) uses piping clearly identified as a nonpotable water conduit, including identification through the use of purple pipe, purple tape, or similar markings;
(6) is generated without the formation of ponds or pools of graywater or alternative onsite water;
(7) does not create runoff across the property lines or onto any paved surface; and
(8) is distributed by a surface or subsurface system that does not spray into the air.

(d) Each builder is encouraged to:
(1) install plumbing in new housing in a manner that provides the capacity to collect graywater or alternative onsite water from all allowable sources; and
(2) design and install a subsurface graywater or alternative onsite water system around the foundation of new housing in a way that minimizes foundation movement or cracking.

(e) In this section:
(1) "Alternative onsite water" means rainwater, air-conditioner condensate, foundation drain water, storm water, cooling tower blowdown, swimming pool backwash and drain water, reverse osmosis reject water, or any other source of water considered appropriate by the commission.
(2) "Graywater" means wastewater from clothes-washing machines, showers, bathtubs, hand-washing lavatories, and sinks that are not used for disposal of hazardous or toxic ingredients. The term does not include wastewater:
(A) that has come in contact with toilet waste;
(B) from the washing of material, including diapers, soiled with human excreta; or
(C) from sinks used for food preparation or disposal.

Sec. 341.041. FEES. (a) The commission by rule may charge fees to a person who owns, operates, or maintains a public drinking water supply system. The commission may establish a schedule of fees. The amount of the fees must be sufficient to cover the reasonable costs of administering the programs and services in this subchapter or the federal Safe Drinking Water Act (42 U.S.C. Section 300f et seq.). Among other factors, the commission shall consider equity among persons required to pay the fees as a factor in determining the amount of the fees. The commission may also use the fees to cover any other costs incurred to protect water resources in this state, including assessment of water quality, reasonably related to the activities of any of the persons required to pay a fee under the statutes listed in Section 5.701(q), Water Code.

   (b) The commission by rule may assess penalties and interest for late payment of fees owed by persons who own, operate, or maintain public drinking water supply systems. Penalties and interest established under this section may not exceed the rates established for delinquent taxes under Sections 111.060 and 111.061, Tax Code.

   (c) Revenues collected by the commission under this subchapter shall be deposited to the credit of the water resource management account.

Sec. 341.042. STANDARDS FOR HARVESTED RAINWATER. (a) The
commission shall establish recommended standards relating to the
domestic use of harvested rainwater, including health and safety
standards for treatment and collection methods for harvested
rainwater intended for drinking, cooking, or bathing.

(b) The commission by rule shall provide that if a structure
has a rainwater harvesting system and uses a public water supply for
an auxiliary water source, the structure must have appropriate cross-
connection safeguards.

(b-1) A privately owned rainwater harvesting system with a
capacity of more than 500 gallons that has an auxiliary water supply
shall have a backflow prevention assembly or an air gap installed at
the storage facility for the harvested rainwater to ensure physical
separation between the rainwater harvesting system and the auxiliary
water supply. A rainwater harvesting system that meets the
requirements of this subsection is considered connected to a public
water supply system only for purposes of compliance with minimum
water system capacity requirements as determined by commission rule.

(b-2) A person who installs and maintains rainwater harvesting
systems that are connected to a public water supply system and are
used for potable purposes must be licensed by the Texas State Board
of Plumbing Examiners as a master plumber or journeyman plumber and
hold an endorsement issued by the board as a water supply protection
specialist.

(b-3) A person who intends to use a public water supply system
as an auxiliary water source must give written notice of that
intention to the municipality in which the rainwater harvesting
system is located or the owner or operator of the public water supply
system. The public water supply system used as an auxiliary water
source may be connected only to the water storage tank and may not be
connected to the plumbing of a structure.

(b-4) A municipally owned water or wastewater utility, a
municipality, or the owner or operator of a public water supply
system may not be held liable for any adverse health effects
allegedly caused by the consumption of water collected by a rainwater
harvesting system that is connected to a public water supply system
and is used for potable purposes if the municipally owned water or
wastewater utility, municipality, or public water supply system is in
compliance with the sanitary standards for drinking water applicable
to the municipally owned water or wastewater utility, municipality,
or public water supply system.
(b-5) A municipality or the owner or operator of a public water supply system may not be held liable for any adverse health effects allegedly caused by the consumption of water collected by a rainwater harvesting system that uses a public water supply system or an auxiliary water source and is used for potable purposes if the municipality or the public water supply system is in compliance with the sanitary standards for drinking water adopted by the commission and applicable to the municipality or public water supply system.

(c) Standards and rules adopted by the commission under this chapter governing public drinking water supply systems do not apply to a person:

(1) who harvests rainwater for domestic use; and

(2) whose property is not connected to a public drinking water supply system.

Sec. 341.046. NONAPPLICABILITY OF SUBCHAPTER F. Subchapter F does not apply to this subchapter.
Sec. 341.047. CRIMINAL PENALTY. (a) A person commits an offense if the person:

(1) violates a provision of Section 341.031;
(2) violates a provision of Section 341.032(a) or (b);
(3) violates a provision of Section 341.033(a)-(f);
(4) constructs a drinking water supply system without submitting completed plans and specifications as required by Section 341.035(c);
(5) begins construction of a drinking water supply system without the commission's approval as required by Section 341.035(a);
(6) violates a provision of Section 341.0351 or 341.0352;
