(c) The secretary of state shall deliver a certificate of incorporation, with a copy of the articles of incorporation attached, to the incorporators or their representative and to the sponsoring entity's governing body.

(d) The development corporation's existence begins on issuance of the certificate of incorporation. The certificate of incorporation is conclusive evidence that all conditions precedent required to be performed by the incorporators and by the sponsoring entity have been performed and that the corporation has been incorporated under this chapter.

Sec. 221.015. ORGANIZATIONAL MEETING. (a) After issuance of the certificate of incorporation and at the call of a majority of the incorporators, the board of directors named in the articles of incorporation shall hold an organizational meeting in this state to adopt bylaws and elect officers and for any other purposes.

(b) Not later than the sixth day before the date of the meeting, the incorporators shall mail notice, postage prepaid, to
each director of the time and place of the meeting.

Sec. 221.016. AMENDMENT OF ARTICLES OF INCORPORATION. (a) Articles of incorporation may be amended to contain any provision that is lawful under this chapter if the sponsoring entity's governing body by appropriate resolution determines that the amendment is advisable and authorizes or directs that an amendment be made.

(b) The development corporation's president or vice-president and secretary or assistant secretary, or the presiding officer and the secretary or clerk of the sponsoring entity's governing body, shall execute articles of amendment on behalf of the development corporation. An officer signing the articles of amendment shall verify those articles.

(c) The articles of amendment must include:

1. the name of the development corporation;
2. if the amendment alters a provision of the original or amended articles of incorporation, an identification by reference or description of the altered provision and a statement of its text as amended;
3. if the amendment is an addition to the original or amended articles of incorporation, a statement of that fact and the full text of each added provision;
4. the name and current address of the sponsoring entity;
5. a statement that the amendment was authorized by the governing body of the sponsoring entity; and
6. the date of the meeting at which the governing body adopted or approved the amendment.

Sec. 221.017. CERTIFICATE OF AMENDMENT. (a) The original and two copies of the articles of amendment and a certified copy of the resolution of the sponsoring entity's governing body authorizing the articles shall be delivered to the secretary of state.

(b) If the secretary of state finds that the articles of amendment comply with this chapter and are authorized by the
sponsoring entity's governing body, the secretary of state, on payment of all fees required by this chapter, shall:

(1) write "filed" on the original and each copy of the articles of amendment and the month, day, and year of the filing;

(2) file the original in the office of the secretary of state; and

(3) issue two certificates of amendment with a copy of the articles of amendment attached to each.

(c) The secretary of state shall deliver to the development corporation or its representative and to the sponsoring entity's governing body a certificate of amendment with a copy of the articles of amendment attached.

(d) The amendment to the articles of incorporation takes effect on issuance of the certificate of amendment.

(e) An amendment does not affect an existing cause of action in favor of or against the development corporation, a pending suit to which the corporation is a party, or an existing right of any person. Change of the corporate name by amendment does not abate a suit brought by or against the corporation under its former name.

Sec. 221.018. RESTATED ARTICLES OF INCORPORATION. (a) A development corporation may authorize, execute, and file restated articles of incorporation by following the procedure to amend articles of incorporation, including obtaining authorization from the sponsoring entity's governing body.

(b) The restated articles of incorporation must restate the entire text of the articles of incorporation as amended or supplemented by all previous certificates of amendment. The restated articles of incorporation may also contain further amendments to the articles of incorporation.

(c) Unless the restated articles of incorporation include amendments that were not previously in the articles of incorporation and previous certificates of amendment, the introductory paragraph of the restated articles of amendment must contain a statement that the instrument accurately copies the articles of incorporation and all amendments that are in effect on the date of the filing without further changes, except that the number of directors then
constituting the board of directors and those directors' names and addresses may be inserted in place of the similar information concerning the initial board of directors, and the incorporators' names and addresses may be omitted.

(d) If the restated articles of incorporation contain further amendments not included in the articles of incorporation and previous certificates of amendment, the instrument containing the restated articles of incorporation must:

(1) include for each further amendment a statement that the amendment has been made in conformity with this chapter;

(2) include the statements required by this chapter to be contained in articles of amendment, except that the full text of the amendment need not be included except in the restated articles of incorporation as amended;

(3) contain a statement that the instrument accurately copies the articles of incorporation and all previous amendments in effect on the date of the filing, as further amended by the restated articles of incorporation, and that the instrument does not contain any other change, except that the number of directors then constituting the board of directors and those directors' names and addresses may be inserted in place of the similar information concerning the initial board of directors, and the incorporators' names and addresses may be omitted; and

(4) restate the entire text of the articles of incorporation as amended and supplemented by all previous certificates of amendment and as further amended by the restated articles of incorporation.

Sec. 221.019. RESTATED CERTIFICATE OF INCORPORATION. (a) The original and two copies of the restated articles of incorporation and a certified copy of the resolution of the sponsoring entity's governing body authorizing the articles shall be delivered to the secretary of state.

(b) If the secretary of state finds that the restated articles of incorporation comply with this chapter and have been authorized by the sponsoring entity's governing body, the secretary of state, on payment of all fees required by this chapter, shall:
(1) write "filed" on the original and each copy of the restated articles of incorporation and the month, day, and year of the filing;

(2) file the original in the office of the secretary of state; and

(3) issue two restated certificates of incorporation with a copy of the restated articles of incorporation attached to each.

(c) The secretary of state shall deliver a restated certificate of incorporation, with a copy of the restated articles of incorporation attached, to the development corporation or its representative and to the sponsoring entity's governing body.

(d) On issuance by the secretary of state of the restated certificate of incorporation, the original articles of incorporation and all amendments are superseded and the restated articles of incorporation become the development corporation's articles of incorporation.

Sec. 221.020. REGISTERED OFFICE AND AGENT. (a) A development corporation shall continuously maintain a registered office and registered agent in this state.

(b) The registered office may be, but need not be, the same as the development corporation's principal office. The registered agent may be:

(1) an individual resident of this state whose business office is the same as the registered office; or

(2) a domestic or foreign profit or nonprofit corporation that is authorized to transact business or conduct affairs in this state and that has a principal or business office that is the same as the registered office.

Sec. 221.021. CHANGE OF REGISTERED OFFICE OR AGENT. (a) A development corporation may change its registered office, registered agent, or both, by filing the original and a copy of a statement in the office of the secretary of state. The president or vice-president of the corporation shall execute and verify the statement.
(b) The statement must include:
   (1) the development corporation's name;
   (2) the post office address of the corporation's current registered office;
   (3) if the registered office is to be changed, the post office address of the corporation's new registered office;
   (4) the name of the corporation's registered agent;
   (5) if the registered agent is to be changed, the name of the successor registered agent;
   (6) a statement that, after the change, the post office address of the registered office will be the same as the post office address of the business office of the registered agent; and
   (7) a statement that the change was authorized by the board of directors or by a corporate officer authorized by the board of directors to make the change.

(c) If the secretary of state finds that the statement complies with this chapter, the secretary of state, when all fees have been paid as required by this chapter, shall:
   (1) write "filed" on the original and each copy of the statement and the month, day, and year of the filing;
   (2) file the original statement in the office of the secretary of state; and
   (3) return the copy of the statement to the corporation or its representative.

(d) The change made by the statement takes effect on the filing of the statement.

Sec. 221.022. RESIGNATION OF REGISTERED AGENT. (a) A registered agent of a development corporation may resign by:
   (1) mailing or delivering written notice to the corporation; and
   (2) filing the original and two copies of the notice in the office of the secretary of state not later than the 10th day after the date the notice is mailed or delivered to the corporation.

(b) The notice must include the development corporation's last known address, a statement that written notice was given to the corporation, and the date the written notice was given to the
corporation.

(c) If the secretary of state finds that the notice complies with this chapter, the secretary of state, on payment of all fees required by this chapter, shall:

(1) write "filed" on the original notice and both copies and the month, day, and year of the filing;

(2) file the original notice in the office of the secretary of state;

(3) return one copy of the notice to the resigning registered agent; and

(4) deliver one copy of the notice to the development corporation at the address shown in the notice.

(d) The resignation takes effect on the 31st day after the date the notice is received by the secretary of state.

Sec. 221.023. AGENTS FOR SERVICE. (a) The president, each vice-president, and the registered agent of a development corporation are the corporation's agents on whom may be served a process, notice, or demand required or permitted by law to be served on the corporation.

(b) If a development corporation fails to appoint or maintain a registered agent in this state, or if the registered agent cannot with reasonable diligence be found at the registered office, the secretary of state is an agent of the corporation on whom a process, notice, or demand may be served.

(c) The secretary of state may be served by delivering two copies of the process, notice, or demand to the secretary of state, the deputy secretary of state, or a clerk in charge of the corporation department of the secretary of state's office. The secretary of state shall immediately forward one copy of the process, notice, or demand by registered mail to the development corporation at its registered office.

(d) Service on the secretary of state is returnable not earlier than the 30th day after the date of the service.

(e) The secretary of state shall keep a record of each process, notice, and demand served, including the time of the service and the action of the secretary of state in reference to the process, notice,
or demand.

Amended by:
    Acts 2005, 79th Leg., Ch. 41 (H.B. 297), Sec. 2, eff. September 1, 2005.

Sec. 221.024. BOARD. (a) A development corporation's affairs are governed by a board of directors composed of at least three individuals appointed by the sponsoring entity's governing body. Directors may be divided into classes.
    (b) A director serves for a term of not more than six years. The terms of directors of different classes may be of different lengths.
    (c) A director holds office for the term to which the director is appointed and until a successor is appointed and has qualified.
    (d) The sponsoring entity's governing body may remove a director for cause or at any time without cause.
    (e) A director serves without compensation but is entitled to reimbursement for actual expenses incurred in the performance of duties under this chapter.

Sec. 221.025. OFFICERS. (a) The officers of a development corporation are:
    (1) the president, vice-president, and secretary; and
    (2) other officers, including a treasurer, and assistant officers considered necessary.
    (b) An officer is elected or appointed at the time, in the manner, and for the term provided by the articles of incorporation or bylaws, except that an officer's term may not exceed three years. If the articles of incorporation or bylaws do not contain those requirements, the board of directors shall elect or appoint each officer annually.
    (c) A person may simultaneously hold more than one office, except that the same person may not simultaneously hold the offices of president and secretary.
    (d) An officer may be removed by the persons authorized to
elect or appoint that officer if those persons believe the best interests of the corporation will be served by the removal.

Sec. 221.026. INDEMNIFICATION. (a) Except as provided by Subsection (c), a development corporation may indemnify a director or officer or a former director or officer for expenses and costs, including attorney's fees, actually or necessarily incurred by the person in connection with a claim asserted against the person, by action in court or other forum, because of the person's being or having been a director or officer.

(b) If a development corporation has not fully indemnified a director or officer under Subsection (a), the court in a proceeding in which a claim is asserted against the director or officer, or a court having jurisdiction over an action brought by the director or officer on a claim for indemnity, may assess indemnity against the corporation or its receiver or trustee. The assessment must equal:

(1) the amount that the director or officer paid to satisfy the judgment or compromise the claim, not including any amount paid the corporation; and

(2) to the extent the court considers reasonable and equitable, the expenses and costs, including attorney's fees, actually and necessarily incurred by the director or officer in connection with the claim.

(c) A development corporation may not provide indemnity in a matter if the director or officer is guilty of negligence or misconduct in relation to the matter. A court may not assess indemnity unless it finds that the director or officer was not guilty of negligence or misconduct in relation to the matter in which indemnity is sought.

Sec. 221.027. BYLAWS. (a) The board of directors shall adopt a development corporation's initial bylaws and may amend or repeal the bylaws or adopt new bylaws. The bylaws and each amendment and repeal of the bylaws must be approved by the sponsoring entity's governing body by resolution.
The bylaws may contain any provision for the regulation and management of the development corporation's affairs consistent with law and the articles of incorporation.

Sec. 221.028. COMMITTEES. (a) If permitted by the articles of incorporation or bylaws, the board of directors, by resolution adopted by a majority of directors in office, may designate one or more committees consisting of two or more directors to exercise the board's authority in the management of the development corporation to the extent provided by the resolution, articles of incorporation, or bylaws. The designation of a committee or delegation of authority to a committee does not relieve the board of directors or an individual director of a responsibility imposed by law.

(b) Other committees not exercising the authority of the board of directors in the management of the development corporation may be designated. Those committees may be, but need not be, limited to directors, and shall be designated and appointed by:

(1) the board of directors by resolution of a majority of directors adopted at a meeting at which a quorum is present; or

(2) the president, if authorized by the articles of incorporation, bylaws, or a resolution of a majority of the board of directors adopted at a meeting at which a quorum is present.

Sec. 221.029. MEETINGS; ACTION WITHOUT MEETING. (a) A regular board of directors meeting may be called and held, with or without notice, as provided by the bylaws. A special board of directors meeting may be held on notice as provided by the bylaws. A regular or special meeting may be held at any location in the state.

(b) Notice or waiver of notice of a regular or special board of directors meeting need not specify the business to be transacted or the meeting's purpose, unless required by the bylaws.

(c) A director's attendance at a meeting waives notice to the director of the meeting, unless the attendance is for the express purpose of objecting to the transaction of any business on the ground that the meeting is not lawfully called or convened.
(d) A quorum is the lesser of:

(1) a majority of the number of directors established by the bylaws, or if the bylaws do not establish a number of directors, a majority of the number of directors stated in the articles of incorporation; or

(2) the number of directors, which number may not be smaller than three, established as a quorum by the articles of incorporation or bylaws.

(e) The act of a majority of the directors present at a meeting at which a quorum is present is an act of the board of directors, unless the act of a larger number is required by the articles of incorporation or bylaws. The articles of incorporation control if, with respect to an action to be taken by the board of directors, the articles of incorporation require the vote or concurrence of a greater proportion of directors than required by this chapter with respect to the action.

(f) An action required or permitted to be taken at a board of directors meeting may be taken without a meeting if a consent is signed by all directors. An action permitted to be taken at a committee meeting may be taken without a meeting if a consent is signed by all members of the committee. A consent under this subsection must be in writing and must set forth the action to be taken. The consent has the effect of a unanimous vote and may be stated as a unanimous vote in articles or other documents filed with the secretary of state under this chapter.

Sec. 221.030. CORPORATION'S GENERAL POWERS. (a) Subject to Section 221.035, a development corporation has the rights and powers necessary or convenient to accomplish the corporation's purposes, including the power to:

(1) acquire, by purchase, devise, gift, lease, or a combination of those methods, construct, or improve, or cause a user to acquire, construct, or improve, one or more health facilities located in the state and located:

(A) wholly or partly within the limits of the sponsoring entity; or

(B) outside the limits of the sponsoring entity, with
the consent of each other sponsoring entity in which the health facility is or is to be located;

(2) lease as lessor all or part of a health facility for the rental amount and on the terms and conditions that the corporation considers advisable;

(3) sell for installment payments or other method of payment, option or contract for sale, and convey all or part of a health facility for the price and on the terms and conditions that the corporation considers advisable;

(4) make a contract, incur a liability, borrow money at a rate of interest the corporation determines, and secure bonds or obligations by mortgage or pledge of all or part of the corporation's property, franchises, and income;

(5) make a secured or unsecured loan to provide temporary or permanent financing or refinancing of all or part of the cost of a health facility, including refunding of an outstanding obligation, mortgage, or advance issued, made, or given by a person for the cost of a health facility;

(6) charge and collect interest on a loan for the loan payments and on the terms that the board of directors considers advisable;

(7) lend money for its corporate purposes, invest and reinvest corporate funds, and take and hold property as security for the payment of the money loaned or invested;

(8) purchase, receive, lease, or acquire in another manner, own, hold, improve, or use property or an interest in property, or deal in any other manner in or with that property, regardless of location, as the purposes of the corporation require or, if the property is donated, subject to the terms of the donation;

(9) sell, convey, mortgage, pledge, lease, exchange, transfer, and otherwise dispose of all or part of the corporation's property and assets;

(10) appoint agents of the corporation for the period the corporation determines, and determine their duties;

(11) sue, be sued, complain, and defend in its corporate name; and

(12) have a corporate seal, which the corporation may alter as it considers necessary, and use the seal by having it or a facsimile of it impressed on, affixed to, or reproduced on an instrument required or authorized to be executed by the corporation's
proper officers.

(b) A development corporation may not incur a financial obligation under this chapter unless it is payable solely from:

1. bond proceeds;
2. revenue derived from the lease or sale of a health facility or from a loan made by a corporation to finance or refinance a health facility in whole or part;
3. revenue derived from operating a health facility; or
4. other revenue provided by a user of a health facility.

(c) A sponsoring entity may not delegate to a development corporation the power of taxation or eminent domain, police power, or an equivalent sovereign power of the state or the sponsoring entity.

(d) This section does not authorize a corporate director or officer to exercise a power enumerated by this section in a manner inconsistent with the development corporation's articles of incorporation or bylaws or beyond the scope of the corporation's purposes.

Sec. 221.031. CONVEYANCE OF LAND. (a) A development corporation may convey land by deed if the conveyance is authorized by an appropriate resolution of the board of directors. The deed may be with or without the corporation's seal and must be signed by the corporation's president, vice-president, or attorney.

(b) If the deed is acknowledged by the signing officer or attorney to be the act of the development corporation, or if the deed is proved in the manner prescribed for other conveyances of land, it may be recorded in the same manner and with the same effect as other deeds.

(c) A deed that is signed by the development corporation's president or vice-president and recorded is prima facie evidence that the board of directors adopted the appropriate resolution.

Sec. 221.032. PERFECTION OF SECURITY INTEREST. A security interest granted by a corporation may be perfected in the manner and with the effect provided by Chapter 9, Business & Commerce Code.
Sec. 221.033. TAXATION. (a) A health facility, including a leasehold estate in a health facility, that is owned by a development corporation and that, except for the purposes and nonprofit nature of the corporation, would be taxable to the corporation under Title 1, Tax Code, shall be assessed to the user of the health facility to the same extent and subject to the same exemptions from taxation as if the user owned the health facility. If there is more than one user of the health facility, the health facility shall be assessed to the users in proportion to the value of the rights of each user to occupy, operate, manage, or employ the health facility.

(b) The user of a health facility is considered the owner of the health facility for purposes of the application of:

(1) sales and use taxes in construction, sale, lease, or rental of the health facility; and

(2) other taxes levied or imposed by the state or a political subdivision of the state.

(c) A development corporation is engaged exclusively in performance of charitable functions and is exempt from taxation by the state, a municipality, or other political subdivision of the state. Bonds issued by a corporation under this chapter, a transfer of the bonds, interest on the bonds, and a profit from the sale or exchange of the bonds are exempt from taxation by the state, a municipality, or other political subdivision of the state.

Sec. 221.034. NET EARNINGS. A development corporation is a nonprofit corporation, and no part of its net earnings remaining after payment of its bonds and expenses of accomplishing its public purpose may benefit a person other than the sponsoring entity.

Sec. 221.035. ALTERATION OF DEVELOPMENT CORPORATION OR ACTIVITIES. The sponsoring entity, in its sole discretion, may alter
the development corporation's structure, organization, programs, or activities, subject only to limitations provided by law relating to the impairment of contracts entered into by the corporation.

Sec. 221.036. EXAMINATION OF BOOKS AND RECORDS. A representative of the sponsoring entity may examine all books and records of the development corporation at any time.

Sec. 221.037. WAIVER OF NOTICE. If a notice is required to be given to a director by this chapter, the articles of incorporation, or bylaws, a waiver of the notice signed by the person entitled to the notice, before or after the time that would have been stated in the notice, is equivalent to giving the notice.

SUBCHAPTER C. BONDS

Sec. 221.061. AUTHORITY TO ISSUE; USE OF PROCEEDS. (a) A development corporation may issue bonds to pay all or part of the cost of a health facility or for cash management.

(b) Before preparation and issuance of definitive bonds, the development corporation may issue interim receipts or temporary bonds, with or without coupons, that may be exchanged for definitive bonds after the definitive bonds are executed and available for delivery. The term of the interim receipts or temporary bonds may not exceed three years.

(c) Bond proceeds may be used only for payment of all or part of the cost of a health facility for which the bonds have been issued, for making a loan in the amount of all or part of the cost of that health facility, or for deposit to a reserve fund for the bonds. The proceeds shall be disbursed in the manner and under the restrictions determined by the development corporation.

(d) From the bond proceeds, the development corporation shall be paid an amount equal to:
(1) the corporation's expenses and costs in issuing, selling, and delivering the bonds, including financing, legal, financial advisory, and printing expenses; and
(2) the compensation paid to employees of the corporation for the time the employees spend on activities relating to issuing, selling, and delivering the bonds.

Sec. 221.062. INFORMATION FILED WITH SPONSORING ENTITY. (a) Not later than the 15th day before the date on which bonds are issued, the proceeds of which are to be used to pay all or part of the cost of a health facility, the development corporation shall file with the sponsoring entity's governing body a full and complete description of the health facility, including:
(1) an explanation of the projected costs and of the necessity for the proposed health facility; and
(2) the name of the proposed user of the health facility.
(b) If the bond proceeds are to be used for cash management, the user shall file with the sponsoring entity's governing body a forecast of the user's need for cash based on the user's most recent revenue estimate. The forecast must contain a detailed report of estimated revenues and expenditures for each month for a period of not more than one year.
(c) After issuing the bonds and before using all of the bond proceeds, the development corporation may amend the filing required by this section and use the proceeds as provided by the amended filing if the sponsoring entity's governing body determines that the use according to the amended filing furthers the purposes of this chapter.
(d) Information filed under this section is public information open to public inspection.

Sec. 221.063. TERMS. (a) Bonds issued under this chapter must be dated and bear interest at a fixed or variable rate determined by the development corporation. The bonds must mature at the time determined by the corporation, but may not mature later than 40 years.
after their date of issuance. Bonds issued for cash management may not mature later than 24 months after their date of issuance.

(b) The bonds may be made redeemable before maturity at the price and on the terms determined by the development corporation.

(c) The bonds, including any interest coupons initially attached, must be in the form and denomination, payable at the place, and executed or authenticated in the manner that the development corporation determines.

(d) The bonds may be issued in coupon or registered form or be payable to a specific person, as the development corporation determines. The corporation may provide for the registration of coupon bonds as to principal only, for the conversion of coupon bonds into fully registered bonds without coupons, and for reconversion into coupon bonds of fully registered bonds without coupons. The duty of conversion or reconversion may be imposed on a trustee in a trust agreement.

(e) The signature or facsimile of the signature of an officer that appears on the bonds or coupons remains valid and sufficient for all purposes regardless of whether the person ceases to be an officer before delivery of and payment for the bonds.

Sec. 221.064. SALE. (a) A development corporation shall sell at a public or private sale the bonds at the price it determines.

(b) The net effective interest rate on the bonds, computed according to Chapter 1204, Government Code, may not exceed the maximum annual interest rate established for business loans of $250,000 or more in this state.

Sec. 221.065. REFUNDING BONDS. (a) A development corporation may issue bonds to refund any of its valid outstanding bonds, including any bonds issued for unspecified projects and including any redemption premium on the bonds and interest accrued to the date of redemption, on a finding by the board of directors of the development corporation that there is a public benefit and a public purpose for
the refunding.

(b) The provisions of this chapter generally applicable to bonds apply to the issuance, maturity, terms, and holder's rights in the refunding bonds, and to the development corporation's rights, duties, and obligations in relation to the refunding bonds.

(c) The development corporation may issue the refunding bonds in exchange or substitution for outstanding bonds or may sell the refunding bonds and use the proceeds to pay or redeem outstanding bonds.

Sec. 221.066. SOURCE OF PAYMENT; BONDS NOT GENERAL OBLIGATION.

(a) The principal of, interest on, and any redemption penalty on bonds issued under this chapter are payable solely from, and may be secured by a pledge of all or part of, one or more of the following:

(1) the bond proceeds;
(2) revenue derived from the lease or sale of a health facility or from a loan made by a development corporation to finance or refinance all or part of a health facility;
(3) revenue derived from the operation of a health facility; or
(4) other revenue provided by a user of a health facility.

(b) The bonds are not an obligation or a pledge of the faith and credit of the state, a sponsoring entity, or other political subdivision or agency of the state.

(c) Each bond must contain on its face a statement that:

(1) neither the state nor a political subdivision or agency of the state, including the sponsoring entity, is obligated to pay the bonds or interest on the bonds; and
(2) neither the faith and credit nor the taxing power of the state, the sponsoring entity, or other political subdivision or agency of the state is pledged to the payment of the principal of or interest or any redemption premium on the bonds.

Sec. 221.067. EXEMPT SECURITIES. (a) Bonds issued under this
chapter and any interest coupons are exempt securities under The Securities Act (Title 12, Government Code).

(b) If the bonds are secured by an agreement by a user to pay to the development corporation amounts sufficient to pay the principal of and interest and any redemption premium on the bonds, the agreement, for the purposes of The Securities Act (Title 12, Government Code), is a separate security issued to purchasers of the bonds by the user, and not by the corporation. The agreement is exempt from that Act only if:

(1) that Act exempts the agreement; or
(2) the bonds or the payments to be made under the agreement are guaranteed by any person and the guarantee is an exempt security under that Act.

Amended by:
Acts 2019, 86th Leg., R.S., Ch. 491 (H.B. 4171), Sec. 2.28, eff. January 1, 2022.

Sec. 221.068. LEGAL INVESTMENTS; SECURITY FOR DEPOSITS. (a) Unless made ineligible under other law, rules, or rulings, bonds are legal and authorized investments for:

(1) a bank;
(2) a savings bank;
(3) a trust company;
(4) a savings and loan association;
(5) an insurance company;
(6) a fiduciary, trustee, or guardian; and
(7) a sinking fund of a municipality, county, school district, or other political corporation or subdivision of the state.

(b) The bonds may secure the deposit of public funds of the state or a municipality, county, school district, or other political corporation or subdivision of the state. The bonds are lawful and sufficient security for those deposits at their face value if accompanied by all appurtenant unmatured coupons, if any.

SUBCHAPTER D. DISSOLUTION OF CORPORATION
Sec. 221.081. DISSOLUTION AUTHORIZED. After a development corporation's bonds and other obligations are paid and discharged, or adequate provision is made for their payment and discharge, the sponsoring entity's governing body by written resolution shall authorize and direct the dissolution of the corporation.

Sec. 221.082. ARTICLES OF DISSOLUTION. (a) Articles of dissolution on behalf of the corporation shall be executed by:

(1) the president or vice-president and the secretary or assistant secretary; or

(2) the presiding officer of the sponsoring entity's governing body and the secretary or clerk of that body.

(b) An officer signing the articles of dissolution shall verify them.

(c) The articles of dissolution must include:

(1) the name of the development corporation;
(2) the name and address of the sponsoring entity;
(3) a statement that the dissolution was authorized by the governing body of the sponsoring entity;
(4) the date of the meeting at which the dissolution was authorized;
(5) a statement that all of the corporation's bonds and obligations have been paid and discharged or that adequate provision has been made for their payment and discharge; and
(6) a statement that no suit is pending in a court against the corporation or that adequate provision has been made for the satisfaction of any judgment, order, or decree that may be entered against the corporation in each pending suit.

Sec. 221.083. CERTIFICATE OF DISSOLUTION. (a) The original and two copies of the articles of dissolution shall be delivered to the secretary of state.

(b) If the secretary of state finds that the articles of dissolution comply with this chapter and have been authorized by the sponsoring entity's governing body, the secretary of state, on
payment of all fees required by this chapter, shall:

(1) write "filed" on the original and each copy of the articles of dissolution and the month, day, and year of the filing;

(b) A hospital project must be located in this state and within or partially within the issuer's boundaries, except that a hospital project of a municipality may be located:

(1) outside the municipality's limits if it is within the municipality's extraterritorial jurisdiction; or

(2) in another municipality if the governing body of the other municipality consents to the former municipality's provision of the project.

(c) An issuer may only acquire a hospital project from a nonprofit organization that has been in existence and has operated
the hospital project for at least three years before the date of acquisition by the issuer.

(d) An issuer must affirmatively find that the cost of an acquired hospital project is not more than:

(1) the actual audited cost of the hospital project to the date of acquisition; or

(2) the fair market value of the hospital project at the date of acquisition as determined by an appraisal obtained by the issuer.

Sec. 223.012. TITLE TO PROJECTS. (a) An issuer may vest title to a hospital project provided under this chapter in a nonprofit organization.

(b) If the issuer vests the title in a nonprofit organization, it may retain a mortgage interest in the hospital project. The mortgage interest expires when all bonds of the issuer sold to provide the hospital project are paid or provision has been made for their final payment.

Sec. 223.013. CONTRACTS RELATING TO HOSPITAL PROJECT. (a) An issuer may execute a contract, including a lease, with a nonprofit organization with respect to a hospital project. A contract may authorize the nonprofit organization to use, operate, or acquire the hospital project on the terms, including payment provisions, the issuer's governing body determines to be advisable.

(b) A contract may include the sale of a hospital project to a nonprofit organization, including a nonprofit organization using the hospital project. The terms of the sale may include installment payments. The sale must be fully consummated when all bonds of the issuer issued to provide the hospital project are paid or provision is made for their final payment if, during the time the bonds or interest on the bonds remains unpaid, there is no failure to make any payments owing under any lease or contract at the time and in the manner as the payments come due.

(c) A contract under this chapter may be for the term agreed to
by the parties and may provide that the contract continues until the 
bonds specified in the contract, or refunding or substitution bonds 
issued in place of those bonds, are fully paid or provision is made 
for their final payment.

Sec. 223.014. AUTHORITY OF ISSUER. An issuer has full and 
complete authority relating to its bonds, a lease agreement in which 
the issuer is a lessor, or a sale or other contract, subject only to 
this chapter.

Sec. 223.015. OBLIGATIONS LIMITED. (a) The issuer may not 
incur a financial obligation under this chapter that cannot be paid 
from the proceeds of hospital project bonds, revenues derived from 
operating a hospital project, or other revenues that may be provided 
by a nonprofit organization in accordance with this chapter.

(b) The legislature or an issuer may not make an appropriation 
to pay any part of a cost of a hospital project or any operating cost 
of a hospital project.

Sec. 223.016. EMINENT DOMAIN. (a) Under this chapter, an 
issuer may not acquire by eminent domain a hospital project, or any 
part of a hospital project, to be sold or leased under this chapter.

(b) Land previously acquired by eminent domain by an issuer may 
be sold or leased under this chapter if the governing body of the 
issuer determines that:

for which the land was originally acquired or that the land is no 
longer needed for that purpose;

(2) at least seven years have elapsed since the date the 
land was acquired by eminent domain; and

(3) the land was not acquired for park purposes or, if the 
land was acquired for park purposes, the sale or lease of parkland
has been approved at an election held under Section 1502.055, Government Code.

SUBCHAPTER C. HOSPITAL PROJECT BONDS

Sec. 223.021. ISSUANCE OF HOSPITAL PROJECT BONDS. (a) An issuer may provide for the issuance of negotiable revenue bonds or other evidences of indebtedness for paying hospital project costs. The bonds may be issued subject only to the requirements of this chapter.

(b) As the governing body of the issuer determines to be in the best interest of the issuer, one or more series of bonds may be issued for each hospital project, or more than one hospital project may be combined in one or more series of bonds, but each hospital project may be considered separately with respect to Subsections (c), (d), and (e), and Sections 223.022-223.024.

(c) Before issuing bonds, the governing body of an issuer must adopt a resolution:

(1) declaring its intention to issue bonds; and
(2) stating the maximum amount of bonds proposed to be issued, the purpose for which the bonds are to be issued, and the tentative date, time, and place at which the governing body proposes to authorize the issuance of the bonds.

(d) Unless the governing body of the issuer orders an election on the issuance of the bonds, a substantial copy of the resolution shall be published three times in a newspaper of general circulation in the territorial limits of the issuer. The first publication must be made not earlier than the 45th day before the tentative date stated in the resolution. The third publication must be made not later than the 11th day before the tentative date.

(e) Before authorizing the issuance of any bonds or ordering an election on any matters authorized by this chapter, the issuer must deposit with the chief administrative officer of the issuer a complete description of any proposed hospital project, including a detailed listing and explanation of projected costs, the reasons for the hospital project, and the name of each owner of the nonprofit organization for whom the hospital project is to be constructed. The
required description is public information.

Sec. 223.022. ELECTION ON BONDS. (a) The governing body of an issuer shall order and hold an election on the question of the issuance of hospital project bonds if at least five percent or 20,000 of the voters qualified to vote in an election held by the issuer, whichever is less, file a written protest against the issuance of the bonds before the close of business on the business day before the tentative date in the resolution for the authorization of the bonds.

(b) The issuer's governing body may order an election on its own motion without the filing of a protest.

(c) In addition to the contents required by the Election Code, the election order must specify the location of and the presiding judge and alternate judge for each polling place.

(d) Notice of a bond election shall be published three times in a newspaper of general circulation in the territorial limits of the issuer. The first notice must be published not earlier than the 45th day before the date set for the election, and the third notice must be published not later than the 11th day before the date set for the election.

(e) The election shall be conducted in accordance with the general laws pertaining to bond elections in municipalities, except as modified by this chapter.

(f) The ballot shall provide for voting for or against the proposition: "The issuance of revenue bonds or notes or other evidences of indebtedness for the hospital project or hospital projects."

(g) The governing body shall declare whether a majority of the voters voting in the election approve the proposition.

Sec. 223.023. ELECTION RESULTS. (a) If the proposition is approved by a majority of the voters voting in the election, the issuer may authorize the bonds.

(b) If the proposition is not approved, an election on the issuing of revenue bonds for the hospital project that was the
subject of the election may not be ordered within six months after that election, and bonds may not be issued for the hospital project until a majority of the voters voting in an election held for that purpose approve the issuance of the bonds.

Sec. 223.024. PROTEST NOT FILED. If a protest requiring an election is not filed under Section 223.022(a) and an election is not called under Section 223.022(b), the issuer may issue the bonds under the resolution without an election for two years after the tentative date specified in the resolution.

Sec. 223.025. LIMITATIONS ON BONDS. (a) Bonds issued in accordance with this chapter are not general obligations or a pledge of the faith and credit of this state, the issuer, or another political subdivision of this state. The bonds are payable solely from revenues of the hospital project for which they are issued or from other revenues provided by a nonprofit organization. Money of this state or a political subdivision of this state from any source, including tax revenue, but excluding revenue of the hospital project being financed with the bonds, may not be used to pay the principal of, any redemption premium for, or interest on revenue bonds or refunding bonds issued under this chapter.

(b) Each revenue bond must state on its face that:

(1) this state, the issuer, or any political subdivision of this state is not obligated to pay the principal of, any redemption premium for, or interest on the bonds except from the revenues pledged for that purpose; and

(2) the faith, credit, or the taxing power of this state, the issuer, or any political subdivision of this state is not pledged to the payment of the principal of, any redemption premium for, or interest on the bonds.

Sec. 223.026. FORM AND TERM OF BONDS. (a) The issuer shall determine the form of the bonds, the date of the bond issue, the price and interest rate of the bonds, and the maturity for the bonds, which may not be more than 40 years after its date.

(b) The issuer may:

(1) make the bonds redeemable before maturity and determine the prices and conditions for early redemption;

(2) determine:

(A) the interest coupons to be attached to the bonds;

(B) the denominations of the bonds; and

(C) the places of payment of the bonds' principal, any redemption premium, and interest;

(3) issue the bonds in coupon or in registered form, or both;

(4) make the bonds payable to a specific person;

(5) provide for the registration of coupon bonds as to principal or as to principal and interest; and

(6) provide for the conversion of coupon bonds into registered bonds without coupons and for the reconversion into coupon bonds of any registered bonds without coupons.

(c) If the duty of conversion or reconversion of a bond is imposed on a trustee in a trust agreement, the substituted bonds need not be reapproved by the attorney general, and the bonds remain incontestable.

trustee the power to sell the hospital project for the payment of the
indebtedness, the power to operate the hospital project, and any
other power for the further security of the bonds.

(c) The trust agreement may:

(1) evidence a pledge of all or any part of the revenue of
the issuer from the ownership, operation, lease, use, mortgage, or

(2) the custody, safeguarding, and application of all money.

Sec. 223.029. USE OF PROCEEDS. (a) The proceeds of the bonds may be:

(2) the compensation paid to the issuer's employees for the time the employees spent on activities related to the issuance, sale, and delivery of the bonds.

(c) If the amount of proceeds exceeds the cost of the hospital project for which the bonds are issued, the excess shall be deposited to the credit of the sinking fund for the bonds.

(d) The governing body of the issuer may provide for a bond reserve fund in the resolution authorizing the bonds or an instrument securing the bonds and may set aside amounts from the proceeds for payments into the reserve fund.

(e) Proceeds from the sale of bonds may be invested in:

(1) direct, indirect, or guaranteed obligations of the United States that mature in a manner specified by the resolution authorizing the bonds or another instrument securing the bonds; or

(c) The issuer shall submit the interim receipts or temporary bonds to the attorney general in accordance with Section 223.031.

Sec. 223.031. EXAMINATION OF BONDS. (a) After issuance of the bonds is authorized and before delivery of the bonds to their purchasers, the bonds and the proceedings authorizing their issuance and securing the bonds shall be presented to the attorney general for examination.

(b) If the bonds state that they are secured by a pledge of all or part of the revenues of the issuer to be derived from a lease or other contract, the contract shall also be submitted to the attorney general.

(c) If the attorney general finds that the bonds have been authorized in accordance with state law and any contract securing the bonds has been made in accordance with state law, the attorney general shall approve the bonds and contract.

(d) The comptroller shall register the bonds when they are approved. After approval and registration, the bonds and contract submitted with the bonds are valid and binding obligations according to their terms and are incontestable.

(b) The amounts refunded may include the principal of and any redemption premium for the bonds or other evidences of indebtedness, and any interest accruing to the date of redemption.

(c) The bonds or other evidences of indebtedness to be refunded need not have been issued under this chapter and need not have been originally issued by the issuer of the refunding bonds.

(e) The issuer may issue the refunding bonds in exchange or substitution for outstanding bonds or other evidences of indebtedness or may sell the refunding bonds and use the proceeds for paying or redeeming outstanding bonds or other evidences of indebtedness.

Sec. 223.033. ENFORCEMENT OF AGREEMENTS. (a) An agreement made under this chapter may provide, in the event of default in the payment of the principal of, interest on, or any redemption premium for bonds subject to the agreement or in the performance of an agreement contained in the proceedings, mortgage, or instruments relating to the bonds, for enforcement of the payment or performance by:

(1) mandamus; or

(2) the appointment of a receiver in equity with power to charge and collect rates, rents, or contract payments and to apply the revenues from the hospital project in accordance with the resolution, mortgage, or instruments.

(b) A mortgage to secure hospital project bonds may provide for foreclosure and the sale of the property secured by the mortgage on default in the mortgage payment or the violation of an agreement.
contained in the mortgage. The foreclosure and sale may occur under proceedings in equity or in any other manner permitted by law. The mortgage may provide that a trustee under the mortgage or the holder of any of the bonds secured by the mortgage may be the purchaser at a foreclosure sale if the trustee or bondholder is the highest bidder.

Sec. 223.034. MEMBERSHIP OF GOVERNING BODY NOT SUBJECT TO CHANGE. The resolution authorizing the issuance of hospital project bonds, the trust agreement securing the bonds, or any other agreement relating to the bonds may not prescribe the method of selecting or the term of office of any member of the issuer's governing body.

(c) Notwithstanding Subsection (b), a hospital may during a qualifying period of disaster:

A physician who in good faith takes, or fails to take, an action under this section is not subject to civil or criminal liability or disciplinary action for the physician's action or failure to act under this section.

(f) This section may not be construed as requiring a hospital to:

(1) provide a specific type of personal protective equipment to a visitor to the hospital; or

(h) If a visitor to a hospital is denied in-person visitation with a patient receiving care or treatment at a hospital because of a determination made by an attending physician under Subsection (f)(2), the hospital shall:

other applicable law; and

(i) Notwithstanding any other provision of this section, a hospital may not prohibit in-person visitation by a religious counselor with a patient who is receiving care or treatment at the hospital and who is seriously ill or dying for a reason other than the religious counselor's failure to comply with a requirement described by Subsection (c)(2).

(j) In the event of a conflict between this section and any provision of a qualifying official disaster order, this section prevails.

(k) This section does not create a cause of action against a hospital or physician.

(b) The rules must provide that patient transfers between hospitals be accomplished through hospital policies that result in medically appropriate transfers from physician to physician and from hospital to hospital by providing:

(1) for notification to the receiving hospital before the patient is transferred and confirmation by the receiving hospital that the patient meets the receiving hospital's admissions criteria relating to appropriate bed, physician, and other services necessary to treat the patient;

(2) a licensed physician has signed a certification, which includes a summary of the risks and benefits, that, based on the information available at the time of transfer, the medical benefits reasonably expected from the provision of appropriate medical treatment at another medical facility outweigh the increased risks to the patient and, in the case of labor, to the unborn child from
effecting the transfer; or

(3) if a licensed physician is not physically present in the emergency department at the time a patient is transferred, a qualified medical person has signed a certification described in Subdivision (2) after a licensed physician, in consultation with the person, has made the determination described in such clause and subsequently countersigns the certificate.

(d) The rules also shall provide that a public hospital or hospital district shall accept the transfer of its eligible residents if the public hospital or hospital district has appropriate facilities, services, and staff available for providing care to the patient.

Sec. 241.028. TRANSFER AGREEMENTS. (a) If hospitals execute a transfer agreement that is consistent with the requirements of this section, all patient transfers between the hospitals are governed by the agreement.

(b) The hospitals shall submit the agreement to the department for review for compliance with the requirements of this section. The department shall complete the review of the agreement within 30 days after the date the agreement is submitted by the hospitals.

(c) At a minimum, a transfer agreement must provide that:

(1) transfers be accomplished in a medically appropriate manner and comply with Sections 241.027(b)(2) through (5) and Section

(6) consideration be given to availability of appropriate facilities, services, and staff for providing care to the patient.

Sec. 241.029. POLICIES AND PROCEDURES RELATING TO WORKPLACE SAFETY. (a) The governing body of a hospital shall adopt policies and procedures related to the work environment for nurses to:

A hospital whose license is suspended or revoked may not admit new patients until the license is reissued.

(c) A hospital must apply for reissuance in the form and manner required in the rules adopted under this chapter.

(c) The person may also pursue remedies for civil damages under common law.

Sec. 241.057.  CRIMINAL PENALTY.  (a) A person commits an offense if the person establishes, conducts, manages, or operates a hospital without a license.

(b) An offense under this section is a misdemeanor punishable by a fine of not more than $100 for the first offense and not more than $200 for each subsequent offense.

(c) Each day of a continuing violation constitutes a separate offense.

Sec. 241.058.  MINOR VIOLATIONS.  (a) This chapter does not require the commissioner or a designee of the commissioner to report a minor violation for prosecution or the institution of any other enforcement proceeding authorized under this chapter, if the commissioner or designee determines that prosecution or enforcement is not in the best interests of the persons served or to be served by the hospital.

(b) For the purpose of this section, a "minor violation" means a violation of this chapter, the rules adopted under this chapter, a special license provision, an order or emergency order issued by the commissioner or the commissioner's designee, or another enforcement procedure permitted under this chapter by a hospital that does not constitute a threat to the health, safety, and rights of the hospital's patients or other persons.
Sec. 241.0585. RECOVERY OF COSTS. If the attorney general brings an action to enforce an administrative penalty assessed under Section 241.058 and the court orders the payment of the penalty, the attorney general may recover reasonable expenses incurred in the investigation, initiation, or prosecution of the enforcement suit, including investigative costs, court costs, reasonable attorney fees, witness fees, and deposition expenses.

Added by Acts 1993, 73rd Leg., ch. 705, Sec. 3.041, eff. Sept. 1, 1993.

Sec. 241.059. ADMINISTRATIVE PENALTY. (a) The department may assess an administrative penalty against a hospital that violates this chapter, a rule adopted pursuant to this chapter, a special license provision, an order or emergency order issued by the commissioner or the commissioner's designee, or another enforcement procedure permitted under this chapter. The department shall assess an administrative penalty against a hospital that violates Section 166.004.

(b) In determining the amount of the penalty, the department shall consider:

(1) the hospital's previous violations;
(2) the seriousness of the violation;
(3) any threat to the health, safety, or rights of the hospital's patients;
(4) the demonstrated good faith of the hospital; and
(5) such other matters as justice may require.

(c) The penalty may not exceed $1,000 for each violation, except that the penalty for a violation of Section 166.004 shall be $500. Each day of a continuing violation, other than a violation of Section 166.004, may be considered a separate violation.

(d) When it is determined that a violation has occurred, the department shall give written notice of the violation to the person,
delivered by certified mail. The notice must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and must inform the person that the person has a right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(f) Within 20 days after the date the person receives the notice, the person in writing may accept the determination and recommended penalty of the department or may make a written request for a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(g) If the person accepts the determination and recommended penalty of the department, the department by order shall impose the recommended penalty.

(h) If the person requests a hearing or fails to respond timely to the notice, the department shall refer the matter to the State Office of Administrative Hearings and an administrative law judge of that office shall hold the hearing. The department shall give notice of the hearing to the person. The administrative law judge conducting the hearing shall make findings of fact and conclusions of law and promptly issue to the department a written proposal for a decision about the occurrence of the violation and the amount of the penalty. Based on the findings of fact, conclusions of law, and proposal for a decision, the department by order may find that a violation has occurred and impose a penalty or may find that no violation occurred.

(i) The notice of the department's order given to the person under Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the order.

(j) Within 30 days after the date the department's order is final as provided by Subchapter F, Chapter 2001, Government Code, the person shall:

(1) pay the amount of the penalty;
(2) pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
(3) without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation.
violation, the amount of the penalty, or both the occurrence of the
violation and the amount of the penalty.

(k) Within the 30-day period, a person who acts under
Subsection (j)(3) may:

(1) stay enforcement of the penalty by:

(A) paying the amount of the penalty to the court for
placement in an escrow account; or

(B) giving to the court a supersedeas bond that is
approved by the court for the amount of the penalty and that is
effective until all judicial review of the department's order is
final; or

(2) request the court to stay enforcement of the penalty
by:

(A) filing with the court a sworn affidavit of the
person stating that the person is financially unable to pay the
amount of the penalty and is financially unable to give the
supersedeas bond; and

(B) giving a copy of the affidavit to the department by
certified mail.

(l) When the department receives a copy of an affidavit under
Subsection (k)(2), the department may file with the court, within
five days after the date the copy is received, a contest to the
affidavit. The court shall hold a hearing on the facts alleged in
the affidavit as soon as practicable and shall stay the enforcement
of the penalty on finding that the alleged facts are true. The
person who files an affidavit has the burden of proving that the
person is financially unable to pay the amount of the penalty and to
give a supersedeas bond.

(m) If the person does not pay the amount of the penalty and
the enforcement of the penalty is not stayed, the department may
refer the matter to the attorney general for collection of the amount
of the penalty.

(n) Judicial review of the order of the department:

(1) is instituted by filing a petition as provided by
Subchapter G, Chapter 2001, Government Code; and

(2) is under the substantial evidence rule.

(o) If the court sustains the occurrence of the violation, the
court may uphold or reduce the amount of the penalty and order the
person to pay the full or reduced amount of the penalty. If the
court does not sustain the occurrence of the violation, the court
shall order that no penalty is owed.

(p) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person within 30 days after the judgment of the court becomes final. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(q) A penalty collected under this section shall be remitted to the comptroller for deposit in the general revenue fund.

(r) All proceedings under this section are subject to Chapter 2001, Government Code.

(a) The department may impose an administrative penalty against a person licensed or regulated under this chapter who violates this chapter or a rule or order adopted under this chapter relating to the provision of mental health, chemical dependency, or rehabilitation services.

(b) The penalty for a violation may be in an amount not to exceed $25,000. Each day a violation continues or occurs is a separate violation for purposes of imposing a penalty.

(c) The amount of the penalty shall be based on:

(1) the seriousness of the violation, including the nature,
circumstances, extent, and gravity of any prohibited acts, and the hazard or potential hazard created to the health, safety, or economic welfare of the public;

(2) enforcement costs relating to the violation;
(3) the history of previous violations;
(4) the amount necessary to deter future violations;
(5) efforts to correct the violation; and
(6) any other matter that justice may require.

(d) If the department determines that a violation has occurred, the department shall give written notice of the violation to the person. The notice may be given by certified mail. The notice must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and must inform the person that the person has a right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(f) Within 20 days after the date the person receives the notice, the person in writing may accept the determination and recommended penalty of the department or may make a written request for a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(g) If the person accepts the determination and recommended penalty of the department, the department by order shall impose the recommended penalty.

(h) If the person requests a hearing or fails to respond timely to the notice, the department shall refer the matter to the State Office of Administrative Hearings and an administrative law judge of that office shall hold the hearing. The department shall give notice of the hearing to the person. The administrative law judge shall make findings of fact and conclusions of law and promptly issue to the department a written proposal for a decision about the occurrence of the violation and the amount of a proposed penalty. Based on the findings of fact, conclusions of law, and proposal for a decision, the department by order may find that a violation has occurred and impose a penalty or may find that no violation occurred.

(i) The notice of the department's order given to the person under Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the order.

(j) Within 30 days after the date the department's order is
final as provided by Subchapter F, Chapter 2001, Government Code, the person shall:

(1) pay the amount of the penalty;
(2) pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
(3) without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(k) Within the 30-day period, a person who acts under Subsection (j)(3) may:

(1) stay enforcement of the penalty by:
   (A) paying the amount of the penalty to the court for placement in an escrow account; or
   (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's order is final; or

   (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
   (B) giving a copy of the affidavit to the commissioner by certified mail.

(l) The department on receipt of a copy of an affidavit under Subsection (k)(2) may file with the court within five days after the date the copy is received a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(m) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount of the penalty.
(n) Judicial review of the department's order:
    (1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and
    (2) is under the substantial evidence rule.

(o) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

SUBCHAPTER E. STAFF, RECORDS, AND PLAN REVIEWS

Sec. 241.101. HOSPITAL AUTHORITY CONCERNING MEDICAL STAFF. (a) Except as otherwise provided by this section and Section 241.102,
this chapter does not change the authority of the governing body of a hospital, as it considers necessary or advisable, to:

(1) make rules, standards, or qualifications for medical staff membership; or
(2) grant or refuse to grant membership on the medical staff.

(b) This chapter does not prevent the governing body of a hospital from adopting reasonable rules and requirements in compliance with this chapter relating to:

(1) qualifications for any category of medical staff appointments;
(2) termination of appointments; or
(3) the delineation or curtailment of clinical privileges of those who are appointed to the medical staff.

(c) The process for considering applications for medical staff membership and privileges or the renewal, modification, or revocation of medical staff membership and privileges must afford each physician, podiatrist, and dentist procedural due process that meets the requirements of 42 U.S.C. Section 11101 et seq., as amended.

(d) If a hospital's credentials committee has failed to take action on a completed application as required by Subsection (k), or a physician, podiatrist, or dentist is subject to a professional review action that may adversely affect his medical staff membership or privileges, and the physician, podiatrist, or dentist believes that mediation of the dispute is desirable, the physician, podiatrist, or dentist may require the hospital to participate in mediation as provided in Chapter 154, Civil Practice and Remedies Code. The mediation shall be conducted by a person meeting the qualifications required by Section 154.052, Civil Practice and Remedies Code, and within a reasonable period of time.

(e) Subsection (d) does not authorize a cause of action by a physician, podiatrist, or dentist against the hospital other than an action to require a hospital to participate in mediation.

(f) An applicant for medical staff membership or privileges may not be denied membership or privileges on any ground that is otherwise prohibited by law.

(g) A hospital's bylaw requirements for staff privileges may require a physician, podiatrist, or dentist to document the person's current clinical competency and professional training and experience in the medical procedures for which privileges are requested.
(h) In granting or refusing medical staff membership or privileges, a hospital may not differentiate on the basis of the academic medical degree held by a physician.

(i) Graduate medical education may be used as a standard or qualification for medical staff membership or privileges for a physician, provided that equal recognition is given to training programs accredited by the Accreditation Council for Graduate Medical Education and by the American Osteopathic Association.

(j) Board certification may be used as a standard or qualification for medical staff membership or privileges for a physician, provided that equal recognition is given to certification programs approved by the American Board of Medical Specialties and the Bureau of Osteopathic Specialists.

(k) A hospital's credentials committee shall act expeditiously and without unnecessary delay when a licensed physician, podiatrist, or dentist submits a completed application for medical staff membership or privileges. The hospital's credentials committee shall take action on the completed application not later than the 90th day after the date on which the application is received. The governing body of the hospital shall take final action on the application for medical staff membership or privileges not later than the 60th day after the date on which the recommendation of the credentials committee is received. The hospital must notify the applicant in writing of the hospital's final action, including a reason for denial or restriction of privileges, not later than the 20th day after the date on which final action is taken.

Sec. 241.1015. PHYSICIAN COMMUNICATION AND CONTRACTS. (a) A hospital, whether by contract, by granting or withholding staff privileges, or otherwise, may not restrict a physician's ability to communicate with a patient with respect to:
(1) the patient's coverage under a health care plan;
(2) any subject related to the medical care or health care services to be provided to the patient, including treatment options that are not provided under a health care plan;
(3) the availability or desirability of a health care plan or insurance or similar coverage, other than the patient's health care plan; or
(4) the fact that the physician's staff privileges or contract with a hospital or health care plan have terminated or that the physician will otherwise no longer be providing medical care or health care services at the hospital or under the health care plan.

(b) A hospital, by contract or otherwise, may not refuse or fail to grant or renew staff privileges, or condition staff privileges, based in whole or in part on the fact that the physician or a partner, associate, or employee of the physician is providing medical or health care services at a different hospital or hospital system.

(c) A hospital may not contract to limit a physician's participation or staff privileges or the participation or staff privileges of a partner, associate, or employee of the physician at a different hospital or hospital system.

(d) This section does not prevent a hospital from entering into contracts with physicians to ensure physician availability and coverage at the hospital or to comply with regulatory requirements or quality of care standards established by the governing body of the hospital.

(e) This section does not prevent the governing body of a hospital from:

(1) limiting the number of physicians granted medical staff membership or privileges at the hospital based on a medical staff development plan that is unrelated to a physician's professional or business relationships or associations including those with another physician or group of physicians or to a physician or a partner, associate, or employee of a physician having medical staff membership or privileges at another hospital or hospital system; or

(2) limiting the ability of hospital medical directors to contract with or hold medical staff memberships or clinical privileges at different hospitals or hospital systems provided that such limitations do not extend to the medical directors' professional or business relationships or associations including those with
another physician, group of physicians, or other health care providers, other than hospitals or hospital systems.

(f) A contract provision that violates this section is void.

(g) In this section, "health care plan" has the meaning assigned by Section 843.002, Insurance Code, and "hospital medical directors" means physicians who have been employed by or are under contract with a hospital to manage a clinical department or departments of the hospital.

Sec. 241.102. AUTHORIZATIONS AND RESTRICTIONS IN RELATION TO PHYSICIANS AND PODIATRISTS. (a) This chapter does not authorize a physician or podiatrist to perform medical or podiatric acts that are beyond the scope of the respective license held.

(b) This chapter does not prevent the governing body of a hospital from providing that:

(1) a podiatric patient be coadmitted to the hospital by a podiatrist and a physician;

(2) a physician be responsible for the care of any medical problem or condition of a podiatric patient that may exist at the time of admission or that may arise during hospitalization and that is beyond the scope of the podiatrist's license; or

(3) a physician determine the risk and effect of a proposed podiatric surgical procedure on the total health status of the patient.

(c) An applicant for medical staff membership may not be denied membership solely on the ground that the applicant is a podiatrist rather than a physician.

(d) This chapter does not automatically entitle a physician or a podiatrist to membership or privileges on a medical staff.

(e) The governing body of a hospital may not require a member of the medical staff to involuntarily:

(1) coadmit patients with a podiatrist;

(2) be responsible for the care of any medical problem or condition of a podiatric patient; or

(3) determine the risk and effect of any proposed podiatric
procedure on the total health status of the patient.

Sec. 241.103. PRESERVATION OF RECORDS. (a) A hospital may authorize the disposal of any medical record on or after the 10th anniversary of the date on which the patient who is the subject of the record was last treated in the hospital.

(b) If a patient was younger than 18 years of age when the patient was last treated, the hospital may authorize the disposal of medical records relating to the patient on or after the date of the patient's 20th birthday or on or after the 10th anniversary of the date on which the patient was last treated, whichever date is later.

(c) The hospital may not destroy medical records that relate to any matter that is involved in litigation if the hospital knows the litigation has not been finally resolved.

(d) A hospital shall provide written notice to a patient, or a patient's legally authorized representative as that term is defined by Section 241.151, that the hospital, unless the exception in Subsection (c) applies, may authorize the disposal of medical records relating to the patient on or after the periods specified in this section. The notice shall be provided to the patient or the patient's legally authorized representative not later than the date on which the patient who is or will be the subject of a medical record is treated, except in an emergency treatment situation. In an emergency treatment situation, the notice shall be provided to the patient or the patient's legally authorized representative as soon as is reasonably practicable following the emergency treatment situation.

(b) A hospital may maintain a medical record described by Subsection (a) in the same form in which the hospital maintains other medical records.

Sec. 241.105. HOSPITAL PRIVILEGES FOR ADVANCED PRACTICE NURSES AND PHYSICIAN ASSISTANTS. (a) The governing body of a hospital is authorized to establish policies concerning the granting of clinical privileges to advanced practice nurses and physician assistants, including policies relating to the application process, reasonable qualifications for privileges, and the process for renewal, modification, or revocation of privileges.

(b) If the governing body of a hospital has adopted a policy of granting clinical privileges to advanced practice nurses or physician assistants, an individual advanced practice nurse or physician assistant who qualifies for privileges under that policy shall be entitled to certain procedural rights to provide fairness of process, as determined by the governing body of the hospital, when an application for privileges is submitted to the hospital. At a minimum, any policy adopted shall specify a reasonable period for the processing and consideration of the application and shall provide for written notification to the applicant of any final action on the application by the hospital, including any reason for denial or restriction of the privileges requested.

(c) If an advanced practice nurse or physician assistant has been granted clinical privileges by a hospital, the hospital may not modify or revoke those privileges without providing certain procedural rights to provide fairness of process, as determined by the governing body of the hospital, to the advanced practice nurse or physician assistant. At a minimum, the hospital shall provide the advanced practice nurse or physician assistant written reasons for the modification or revocation of privileges and a mechanism for appeal to the appropriate committee or body within the hospital, as determined by the governing body of the hospital.

(d) If a hospital extends clinical privileges to an advanced practice nurse or physician assistant conditioned on the advanced practice nurse or physician assistant having a sponsoring or collaborating relationship with a physician and that relationship ceases to exist, the advanced practice nurse or physician assistant and the physician shall provide written notification to the hospital that the relationship no longer exists. Once the hospital receives such notice from an advanced practice nurse or physician assistant and the physician, the hospital shall be deemed to have met its obligations under this section by notifying the advanced practice nurse or physician assistant in writing that the advanced practice
nurse's or physician assistant's clinical privileges no longer exist at that hospital.

(e) Nothing in this section shall be construed as modifying Subtitle B, Title 3, Occupations Code, Chapter 204 or 301, Occupations Code, or any other law relating to the scope of practice of physicians, advanced practice nurses, or physician assistants.

(f) This section does not apply to an employer-employee relationship between an advanced practice nurse or physician assistant and a hospital.

SUBCHAPTER F. MEDICAL REHABILITATION SERVICES

Sec. 241.121. DEFINITION. In this subchapter, "comprehensive medical rehabilitation" means the provision of rehabilitation services that are designed to improve or minimize a person's physical or cognitive disabilities, maximize a person's functional ability, or restore a person's lost functional capacity through close coordination of services, communication, interaction, and integration among several professions that share the responsibility to achieve team treatment goals for the person.

Added by Acts 1993, 73rd Leg., ch. 707, Sec. 1, eff. Sept. 1, 1993.

Sec. 241.122. LICENSE REQUIRED. Unless a person has a license issued under this chapter, a person other than an individual may not provide inpatient comprehensive medical rehabilitation to a patient who requires medical services that are provided under the supervision of a physician and that are more intensive than nursing facility care and minor treatment.

Added by Acts 1993, 73rd Leg., ch. 707, Sec. 1, eff. Sept. 1, 1993.

Sec. 241.123. REHABILITATION SERVICES STANDARDS. (a) The executive commissioner by rule shall adopt standards for the provision of rehabilitation services by a hospital to ensure the
health and safety of a patient receiving the services.

(b) The standards at a minimum shall require a hospital that provides comprehensive medical rehabilitation:

(1) to have a director of comprehensive medical rehabilitation who is:
   (A) a licensed physician;
   (B) either board certified or eligible for board certification in a medical specialty related to rehabilitation; and
   (C) qualified by training and experience to serve as medical director;

(2) to have medical supervision by a licensed physician for 24 hours each day; and

(3) to provide appropriate therapy to each patient by an interdisciplinary team consisting of licensed physicians, rehabilitation nurses, and therapists as are appropriate for the patient's needs.

(c) An interdisciplinary team for comprehensive medical rehabilitation shall be directed by a licensed physician. An interdisciplinary team for comprehensive medical rehabilitation shall have available to it, at the hospital at which the services are provided or by contract, members of the following professions as necessary to meet the treatment needs of the patient:

(3) speech-language pathology;
(4) therapeutic recreation;
(5) social services and case management;
(6) dietetics;
(7) psychology;
(8) respiratory therapy;
(9) rehabilitative nursing;
(10) certified orthotics; and
(11) certified prosthetics.

(d) A hospital shall prepare for each patient receiving inpatient rehabilitation services a written treatment plan designed for that patient's needs for treatment and care. The executive commissioner by rule shall specify a time after admission of a patient for inpatient rehabilitation services by which a hospital must evaluate the patient for the patient's initial treatment plan and by which a hospital must provide copies of the plan after
evaluation.

(e) A hospital shall prepare for each patient receiving inpatient rehabilitation services a written continuing care plan that addresses the patient's needs for care after discharge, including recommendations for treatment and care and information about the availability of resources for treatment or care. The executive commissioner by rule shall specify the time before discharge by which the hospital must provide a copy of the continuing care plan. Department rules may allow a facility to provide the continuing care plan by a specified time after discharge if providing the plan before discharge is impracticable.

(f) A hospital shall provide a copy of a treatment or continuing care plan prepared under this section to the following persons in the person's primary language, if practicable:

1. the patient;
2. a person designated by the patient; and
3. as specified by department rule, family members or other persons with responsibility for or demonstrated participation in the patient's care or treatment.

(g) Rules adopted by the executive commissioner under this subchapter may not conflict with a federal rule, regulation, or standard.

department under this chapter must be deposited to the credit of the
general revenue fund and may be appropriated only to the department
to administer and enforce this chapter. Investigation and attorney's

institution under this chapter or the payment of the penalty by an
institution.

(b) This section does not apply in an enforcement action in
which the state or an agency or political subdivision of the state is

(c) Notwithstanding any other provision of this section,
evidence described by Subsection (a) is admissible as evidence in a
civil action only if:

(1) the evidence relates to a material violation of this
chapter or a rule adopted under this chapter or assessment of a
monetary penalty with respect to:

(A) the particular incident and the particular
individual whose personal injury is the basis of the claim being
brought in the civil action; or

(B) a finding by the department that directly involves
substantially similar conduct that occurred at the institution within
a period of one year before the particular incident that is the basis

Sec. 242.020. CIVIL LIABILITY RELATED TO MISAPPROPRIATION OF RESIDENT'S FUNDS. (a) In this section:

(1) "Misappropriate" means the taking, secretion, misapplication, deprivation, transfer, or attempted transfer to any person not entitled to receive any real or personal property or anything of value belonging to or under the legal control of a resident without the effective consent of the resident or other appropriate legal authority.

(b) A nursing facility may file an action against a resident's responsible payor for an amount owed by the resident to the facility if:

(1) before admission of the resident, the facility obtains financial information from the resident or responsible payor demonstrating the amount of financial resources that the resident has available to pay for nursing facility care; and

(2) after the resident begins to reside at the facility, the responsible payor misappropriates the resident's resources to a degree that the resident is unable to afford to pay for the resident's care.

(c) A nursing facility may file an action for injunctive relief against a resident's responsible payor who engages in conduct described by Subsection (b). The court may grant any appropriate injunctive relief to prevent or abate the conduct, including a temporary restraining order, temporary injunction, or permanent injunction.

(d) Subject to Subsection (e), the prevailing party in an action filed under this section may recover attorney's fees.

SUBCHAPTER B. LICENSING, FEES, AND INSPECTIONS

Sec. 242.031. LICENSE REQUIRED. A person or governmental unit, acting severally or jointly with any other person or governmental unit, may not establish, conduct, or maintain an institution in this state without a license issued under this chapter.

Sec. 242.032. LICENSE OR RENEWAL APPLICATION. (a) An application for a license or renewal of a license is made to the department on a form provided by the department and must be accompanied by the license fee.
(b) The application must contain information that the department requires.

(c) The applicant or license holder must furnish evidence to affirmatively establish the applicant's or license holder's ability to comply with:
   (1) minimum standards of medical care, nursing care, and financial condition; and
   (2) any other applicable state or federal standard.

(d) The department shall consider the background and qualifications of:
   (1) the applicant or license holder;
   (2) a partner, officer, director, or managing employee of the applicant or license holder;
   (3) a person who owns or who controls the owner of the physical plant of a facility in which the institution operates or is to operate; and
   (4) a controlling person with respect to the institution for which a license or license renewal is requested.

(e) In making the evaluation required by Subsection (d), the department shall require the applicant or license holder to file a sworn affidavit of a satisfactory compliance history and any other information required by the department to substantiate a satisfactory compliance history relating to each state or other jurisdiction in which the applicant or license holder and any other person described by Subsection (d) operated an institution at any time before the date on which the application is made. The executive commissioner by rule shall determine what constitutes a satisfactory compliance history. The department may consider and evaluate the compliance history of the applicant and any other person described by Subsection (d) for any period during which the applicant or other person operated an institution in this state or in another state or jurisdiction. The department may also require the applicant or license holder to file information relating to the history of the financial condition of the applicant or license holder and any other person described by Subsection (d) with respect to an institution operated in another state or jurisdiction at any time before the date on which the application is made.

(f) Information obtained under this section regarding an applicant's or license holder's financial condition is confidential and may not be disclosed to the public.
Sec. 242.033. ISSUANCE AND RENEWAL OF LICENSE. (a) After receiving an application for a license, the department shall issue the license if, after inspection and investigation, it finds that the applicant or license holder, and any other person described by Section 242.032(d), meet the requirements established under each provision of this chapter and any rule or standard adopted under this chapter.

(b) The department may issue a license only for:

(1) the premises and persons or governmental unit named in the application; and

(2) the maximum number of beds specified in the application.

(c) A license may not be transferred or assigned.

(d) Except as provided by Subsection (f), a license is renewable every three years after:

(1) an inspection, unless an inspection is not required as provided by Section 242.047;

(2) payment of the license fee; and

(3) department approval of the report filed every three years by the licensee.

(e) The report required for license renewal under Subsection (d)(3) must comply with department rules that specify the date of submission of the report, the information it must contain, and its form.

(f) The initial license issued to a license holder who has not previously held a license under this subchapter is a probationary license. A probationary license is valid for only one year. At the
end of the one-year period, a license under Subsection (a) shall be issued but only after:

1. the department finds that the license holder and any other person described by Section 242.032(d) continue to meet the requirements established under each provision of this chapter and any rule or standard adopted under this chapter;

2. an inspection, unless an inspection is not required as provided by Section 242.047;

3. payment of the license fee; and

4. department approval of the report required for license renewal that complies with rules adopted under Subsection (e).

(g) The executive commissioner by rule shall adopt a system under which an appropriate number of licenses issued by the department under this chapter expire on staggered dates occurring in each three-year period. If the expiration date of a license changes as a result of this subsection, the department shall prorate the licensing fee relating to that license as appropriate.

Sec. 242.0335. EXPEDITED ISSUANCE OF CHANGE OF OWNERSHIP LICENSE TO CERTAIN CURRENT LICENSE HOLDERS. (a) The department shall maintain, and keep current, a list of license holders that operate an institution in this state and that have excellent operating records according to the information available to the department. The executive commissioner by rule shall establish specific criteria for the department to designate a license holder as eligible for the list.

(b) The department shall establish a procedure under which a listed license holder may be granted expedited approval in obtaining a change of ownership license to operate another existing institution
in this state. The procedure may involve allowing a listed license holder to submit an affidavit demonstrating that the license holder continues to meet the criteria for being listed and continues to meet the requirements described by Subsection (c).

(c) An applicant for a change of ownership license must meet all applicable requirements that an applicant for renewal of a license must meet under this subchapter, including under Section 242.032(d), and under rules adopted under this subchapter. Any requirement relating to inspections or to an accreditation review applies only to institutions operated by the license holder at the time the application is made for the change of ownership license.

(d) Subsection (c) applies only to a license holder designated as eligible for and placed on the list maintained under Subsection (a).

Sec. 242.0336. TEMPORARY CHANGE OF OWNERSHIP LICENSE. (a) For purposes of this section, a temporary change of ownership license is a temporary 90-day license issued to an applicant who proposes to become the new operator of an institution existing on the date the application is filed.

(b) After receiving an application for a temporary change of ownership license, the department shall issue a temporary license to the applicant if, after investigation, the department finds that the applicant and any other person described by Section 242.032(d) meet:

(1) the requirements established under Section 242.032(c); and

(2) the department's standards for background and qualifications under Sections 242.032(d) and (e).

(b-1) Except as provided by Subsection (b-2), the department may not issue a temporary change of ownership license before the 31st day after the date the department has received both:

(1) the application for the license; and
(2) notification, in writing, of the intent of the institution's existing license holder to transfer operation of the institution to the applicant beginning on a date specified by the applicant.

(b-2) Notwithstanding Section 242.0335, the executive commissioner shall establish criteria under which the department may waive the 30-day requirement or the notification requirement of Subsection (b-1). The criteria may include the occurrence of forcible entry and detainer, death, or divorce or other events that affect the ownership of the institution by the existing license holder.

(b-3) After receipt of an application or written notification described by Subsection (b-1), the department may place a hold on payments to the existing license holder in an amount not to exceed the average of the monthly vendor payments paid to the facility, as determined by the department. The department shall release funds to the previous license holder not later than the 120th day after the date on which the final reporting requirements are met and any resulting informal reviews or formal appeals are resolved. The department may reduce the amount of funds released to the previous license holder by the amount owed to the department or the commission under the previous license holder's Medicaid contract or license.

(b-4) The executive commissioner shall adopt rules for the department that define a change of ownership. In adopting the rules, the executive commissioner shall consider:

(1) the proportion of ownership interest that is being transferred to another person;
(2) the addition or removal of a stockholder, partner, owner, or other controlling person;
(3) the reorganization of the license holder into a different type of business entity; and
(4) the death or incapacity of a stockholder, partner, or owner.

(b-5) The executive commissioner may adopt rules for the department that require a license holder to notify the department of any change, including a change that is not a change of ownership, as that term is defined by rules adopted under Subsection (b-4). Nothing in this section prevents the department from acting under Section 242.061 or any other provision of this chapter.

(c) The department shall issue or deny a temporary change of
ownership license not later than the 31st day after the date of receipt of the completed application. The effective date of a temporary change of ownership license issued under this section is the date requested in the application unless:

(1) the department does not receive the application and written notification described by Subsection (b-1) at least 30 days before that date; and

(2) no waiver under Subsection (b-2) applies.

(c-1) If the department does not receive the application and written notification required by Subsection (b-1) at least 30 days before the effective date requested in the application and Subsection (b-2) does not apply, the effective date of the temporary change of ownership license is the 31st day after the date the department receives both the application and the notification.

(d) Except as provided in Subsection (d-1), after the department issues a temporary change of ownership license to the applicant, the department shall conduct an inspection or survey of the nursing facility under Section 242.043 as soon as reasonably possible. During the period between the issuance of the temporary license and the inspection or survey of the nursing facility or desk review under Subsection (d-1), the department may not place a hold on vendor payments to the temporary license holder.

(d-1) The executive commissioner shall establish criteria under which the department may substitute a desk review of the facility's compliance with applicable requirements for the on-site inspection or survey under Subsection (d).

(e) After conducting an inspection or survey under Subsection (d) or a desk review under Subsection (d-1), the department shall issue a license under Section 242.033 to the temporary change of ownership license holder if the nursing facility passes the desk review, inspection, or survey and the applicant meets the requirements of Section 242.033. If the nursing facility fails to pass the desk review, inspection, or survey or the applicant fails to meet the requirements of Section 242.033, the department may:

(1) place a hold on vendor payments to the temporary change of ownership license holder; and

(2) take any other action authorized under this chapter.

(f) If the applicant meets the requirements of Section 242.033 and the nursing facility passes a desk review, initial inspection, or subsequent inspection before the temporary change of ownership
license expires, the license issued under Section 242.033 is considered effective on the date the department determines under Subsection (c) or (c-1).

(g) A temporary change of ownership license issued under Subsection (b) expires on the 90th day after the effective date established under Subsection (c) or (c-1).

Sec. 242.034. LICENSE FEES. (a) The executive commissioner may establish by rule license fees for institutions licensed by the department under this chapter. The license fee may not exceed $375 plus:

(1) $15 for each unit of capacity or bed space for which a license is sought; and
(2) a background examination fee imposed under Subsection (d).

(b) The license fee for a probationary license issued under Section 242.033(f) may not exceed $125 plus:

(1) $5 for each unit of capacity or bed space for which the license is sought; and
(2) a background examination fee imposed under Subsection (d).

(c) An additional license fee may be charged as provided by Section 242.097.

(d) The executive commissioner by rule may establish a background examination fee in an amount necessary to defray the department's expenses in administering its duties under Sections 242.032(d) and (e).

(e) The applicable license fee must be paid with each application for a probationary license, an initial license, a renewal license, or a change of ownership license.
(f) The state is not required to pay the license fee.

(g) An approved increase in bed space is subject to an additional fee.

(h) The license fees established under this chapter are an allowable cost for reimbursement under the medical assistance program administered by the commission under Chapter 32, Human Resources Code. Any fee increases shall be reflected in reimbursement rates prospectively.

(i) An applicant for license renewal who submits an application later than the 45th day before the expiration date of a current license is subject to a late fee in accordance with department rules.

adopt and publish and the department may enforce minimum standards relating to the grading of an institution in order to recognize those institutions that provide more than the minimum level of services and personnel as established by the executive commissioner.

(b) An institution that has a superior grade shall prominently display the grade for public view.

(c) As an incentive to attain the superior grade, an institution may advertise its grade, except that it may not advertise a superior grade that has been canceled.

(d) The department may not award a superior grade to an institution that, during the year preceding the grading inspection, violated state or federal law, rules, or regulations relating to:

1. the health, safety, or welfare of its residents;
2. resident funds;
3. the confidentiality of a resident's records;
4. the financial practices of the institution; or
5. the control of medication in the institution.

(b) The rules and standards adopted under this chapter may be more stringent than the standards imposed by federal law for certification for participation in the state Medicaid program.

(c) The rules and standards adopted by the executive commissioner may not be less stringent than the Medicaid
certification standards and regulations imposed under the Omnibus Budget Reconciliation Act of 1987 (OBRA), Pub.L. No. 100-203.

(d) To implement Sections 242.032(d) and (e), the executive commissioner by rule shall adopt minimum standards for the background and qualifications of any person described by Section 242.032(d). The department may not issue or renew a license if a person described by Section 242.032 does not meet the minimum standards adopted under this section.

(e) In addition to standards or rules required by other provisions of this chapter, the executive commissioner shall adopt and publish and the department shall enforce minimum standards relating to:

1. the construction of an institution, including plumbing, heating, lighting, ventilation, and other housing conditions, to ensure the residents' health, safety, comfort, and protection from fire hazard;

department shall enforce minimum standards requiring appropriate training in geriatric care for each individual who provides services to geriatric residents in an institution and who holds a license or certificate issued by an agency of this state that authorizes the person to provide the services. The minimum standards may require that each licensed or certified individual complete an appropriate program of continuing education or in-service training, as determined by department rule, on a schedule determined by department rule.

(g) To administer the surveys for provider certification provided for by federal law and regulation, the department must identify each area of care that is subject to both state licensing requirements and federal certification requirements. For each area of care that is subject to the same standard under both federal certification and state licensing requirements, an institution that is in compliance with the federal certification standard is considered to be in compliance with the same state licensing requirement.

(h) Section 161.0051 applies to institutions serving residents who are elderly persons, and any rules and standards adopted under that section are considered to be rules and standards adopted under this chapter.

(a) In this section:

(1) "Abuse" has the meaning assigned by Section 260A.001.

(2) "Immediate threat to health and safety" means a situation in which immediate corrective action is necessary because the facility's noncompliance with one or more requirements has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident.

(3) "Neglect" has the meaning assigned by Section 260A.001.

(a-1) The department, after providing notice and opportunity for a hearing to the applicant or license holder, may deny, suspend, or revoke a license if the department finds that the applicant, the license holder, or any other person described by Section 242.032(d) has:

(2) committed any act described by Sections 242.066(a)(2)-(6); or

(3) failed to comply with Section 242.074.

(a-2) Except as provided by Subsection (a-3) or (e-1), the executive commissioner shall revoke a license under Subsection (a-1) if the department finds that:

(1) the license holder has committed three violations described by Subsection (a-1), within a 24-month period, that constitute an immediate threat to health and safety related to the abuse or neglect of a resident; and

(2) each of the violations described by Subdivision (1) is reported in connection with a separate survey, inspection, or investigation visit that occurred on separate entrance and exit dates.

(a-3) The executive commissioner may not revoke a license under Subsection (a-2) due to a violation described by Subsection (a-2)(1), if:

(1) the violation and the determination of immediate threat to health and safety are not included on the written list of violations left with the facility at the time of the initial exit conference under Section 242.0445(b) for a survey, inspection, or investigation;

(2) the violation is not included on the final statement of
violations described by Section 242.0445; or

(3) the violation has been reviewed under the informal dispute resolution process established by Section 531.058, Government Code, and a determination was made that:

(A) the violation should be removed from the license holder's record; or

(B) the violation is reduced in severity so that the violation is no longer cited as an immediate threat to health and safety related to the abuse or neglect of a resident.

(b) The status of a person as an applicant for a license or a license holder is preserved until final disposition of the contested matter, except as the court having jurisdiction of a judicial review of the matter may order in the public interest for the welfare and safety of the residents.

(c) The department may deny, suspend, or revoke the license of an institution if any person described by Section 242.032(d) has been excluded from holding a license under Section 242.0615.

(e) The executive commissioner may stay a license revocation required by Subsection (a-2) if the executive commissioner determines that the stay would not jeopardize the health and safety of the residents of the facility or place the residents at risk of abuse or neglect. The executive commissioner by rule shall establish criteria under which a license revocation may be stayed under this subsection. The executive commissioner shall follow negotiated rulemaking procedures prescribed by Chapter 2008, Government Code, for the
adoption of rules establishing the criteria. The criteria established must permit the executive commissioner to stay a license revocation of a nursing facility for which the department has deployed a rapid response team under Section 255.004, if the facility has cooperated with the rapid response team and demonstrated improvement in quality of care, as determined by the rapid response team.

(e-1) The executive commissioner may stay a license revocation required by Subsection (a-2) for a veterans home, as defined by Section 164.002, Natural Resources Code, if the Veterans' Land Board contracts with a different entity to operate the veterans home than the entity that operated the home during the period in which the violations described by Subsection (a-2) occurred.

deter future violations. The system:

1. must be comparable to the system used by the Centers for Medicare and Medicaid Services to categorize the scope and severity of violations for nursing homes; and
2. may be modified, as appropriate, to reflect changes in industry practice or changes made to the system used by the Centers for Medicare and Medicaid Services.

(b) A trustee shall report to the court in the event that the trustee is unable to satisfy the requirements of Subsection (a)(1) or (2).

(c) On the motion of any party or on the court's own motion, the court may replace a trustee who is unable to satisfy the requirements of Subsection (a)(1) or (2).

(1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of any prohibited acts, and the hazard or potential hazard created to the health, safety, or economic welfare of the public;

(2) the economic harm to property or the environment caused by the violation;

Sec. 242.316. NOTICE AND HEARING. (a) If the department determines that a violation has occurred, the department shall give written notice of the determination to the person alleged to have committed the violation. The notice may be given by certified mail. The notice must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and must inform the person that the person has a right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Within 20 days after the date the person receives the notice, the person in writing may accept the determination and the penalty recommended by the department or may make a written request for a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(c) If the person accepts the determination and the penalty recommended by the department, or if the person fails to timely respond to the notice, the department shall impose the recommended penalty.

(d) If the person requests a hearing, the department shall give
notice of the hearing to the person. The hearing shall be held in accordance with the rules on contested case hearings adopted by the executive commissioner.

(e) The notice of the hearing decision given to the person under Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the decision.

(f) Within 30 days after the date the department's decision is final as provided by Section 2001.144, Government Code, the person shall:

1. pay the amount of the penalty;
2. pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
3. without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(g) Within the 30-day period, a person who acts under Subsection (f)(3) may:

1. stay enforcement of the penalty by:
   A. paying the amount of the penalty to the court for placement in an escrow account; or
   B. giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's decision is final; or
2. request the court to stay enforcement of the penalty by:
   A. filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
   B. sending a copy of the affidavit to the department by certified mail.

(h) If the department receives a copy of an affidavit under Subsection (g)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement
of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(i) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount of the penalty.

(j) Judicial review of the decision of the department:
   (1) is instituted by filing a petition as provided by Section 2001.176, Government Code; and
   (2) is under the substantial evidence rule.

(k) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(l) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(m) A penalty collected under this section shall be remitted to the comptroller for deposit in the general revenue fund.

(n) All proceedings under this section are subject to Chapter 2001, Government Code.

(b) An offense under this section is a Class B misdemeanor.

(b) An act by a person under Subsection (a) does not constitute a violation of this section if:

(1) the act or omission the administrator refused to commit was not conduct that constitutes a violation of this subchapter or of a rule adopted under this subchapter; or

(2) the act or omission the administrator refused to commit was conduct that constitutes a violation of this subchapter or of a rule adopted under this subchapter, and the person rescinds any disciplinary or discriminatory action taken against the
administrator, compensates the administrator for lost wages, and restores any lost benefits to the administrator.

(c) A violation of this section is an unlawful employment practice, and a civil action may be brought by a licensed nursing facility administrator against a person for the violation. The relief available in a civil action shall be the same as the relief available to complainants in a civil action for violations of Chapter 21, Labor Code. In no event may any action be brought pursuant to this section more than two years after the date of the administrator's refusal to engage in an act or omission that would constitute a violation of this subchapter or of a rule adopted under this subchapter.

(d) In this section, "person" includes an individual, organization, corporation, agency, facility, or other entity.

(e) A person who was licensed in this state, moved to another state, and is currently licensed and has been in practice in the other state for the two years preceding the date of application may obtain a new license without reexamination. The person must pay to the board a fee that is equal to two times the normally required renewal fee for the license.

(f) Not later than the 31st day before the date a person's license is scheduled to expire, the board shall send written notice of the impending expiration to the person at the person's last known address according to the records of the board.

Sec. 242.316. MANDATORY CONTINUING EDUCATION. (a) The board by rule shall establish a minimum number of hours of continuing education required to renew a license under this subchapter. (2) a summary of findings made at each step of the complaint process;
(3) an explanation of the legal basis and reason for a complaint that is dismissed; and
(4) other relevant information.

(b) If a written complaint is filed with the board that the board has authority to resolve, the board, at least as frequently as quarterly and until final disposition of the complaint, shall notify the parties to the complaint of the status of the complaint unless the notice would jeopardize an undercover investigation.

(c) The board by rule shall adopt a form to standardize information concerning complaints made to the board. The board by rule shall prescribe information to be provided to a person when the person files a complaint with the board.

(d) The board shall provide reasonable assistance to a person who wishes to file a complaint with the board.

(e) The board shall adopt rules concerning the investigation of complaints filed with the board. The rules adopted under this subsection shall:

(1) distinguish between categories of complaints;
(2) ensure that complaints are not dismissed without appropriate consideration;
(3) require that the board be advised at least quarterly of complaints that have been dismissed and require that a letter be sent to each person who has filed a complaint that is dismissed explaining
the action taken on the complaint;

(4) ensure that the person who filed the complaint has an opportunity to explain the allegations made in the complaint; and

(5) prescribe guidelines concerning the categories of complaints that may require the use of a private investigator and the procedures for the board to obtain the services of a private investigator.

(f) The board shall dispose of all complaints in a timely manner. The board by rule shall establish a schedule for initiating a complaint investigation that is under the control of the board not later than the 30th day after the date the complaint is received by the board. The schedule shall be kept in the information file for the complaint, and all parties shall be notified of the projected time requirements for pursuing the complaint. A change in the schedule must be noted in the complaint information file and all parties to the complaint must be notified not later than the seventh day after the date the change is made.

(g) The department shall notify the board at least quarterly of complaints that have extended beyond the time prescribed by the board for resolving complaints so that the department may take any necessary corrective actions on the processing of complaints.

Added by Acts 1997, 75th Leg., ch. 1280, Sec. 2.01.

(c) A license holder is entitled to a hearing in accordance with rules promulgated by the board before a sanction is imposed under this section.

(d) The board by rule shall adopt a broad schedule of sanctions for violations under this subchapter. The board shall use the schedule for any sanction imposed in accordance with the rules.

(e) The department shall by rule establish criteria to determine whether deficiencies from a facility's survey warrant action against an administrator. (b) The penalty for a violation may be in an amount not to exceed $1,000. Each day a violation occurs or continues is a separate violation for purposes of imposing a penalty.

(c) The amount of the penalty shall be based on:

(1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of any prohibited acts, and the hazard or potential hazard created to the health, safety, or economic welfare of the public;

Sec. 242.321. NOTICE AND HEARING. (a) If the department determines that a violation has occurred, the department shall give written notice of the determination to the person alleged to have committed the violation. The notice may be given by certified mail. The notice must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and must inform
the person that the person has a right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Within 20 days after the date the person receives the notice, the person in writing may accept the determination and the penalty recommended by the department or may make a written request for a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(c) If the person accepts the determination and the penalty recommended by the department, or if the person fails to timely respond to the notice, the department shall impose the recommended penalty.

(d) If the person requests a hearing, the department shall set a hearing and give notice of the hearing to the person. The hearing shall be held in accordance with the rules on contested case hearings adopted by the executive commissioner.

1. pay the amount of the penalty;
2. pay the amount of the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or
3. without paying the amount of the penalty, file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(g) Within the 30-day period, a person who acts under Subsection (f)(3) may:

1. stay enforcement of the penalty by:
   A. paying the amount of the penalty to the court for placement in an escrow account; or
   B. giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's decision is
final; or

(A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and

(B) giving a copy of the affidavit to the department by certified mail.

(h) If the department receives a copy of an affidavit under Subsection (g)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(i) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount of the penalty.

(j) Judicial review of the decision of the department:

(1) is instituted by filing a petition as provided by Section 2001.176, Government Code; and

(2) is under the substantial evidence rule.

(k) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(l) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if
the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(m) A penalty collected under this section shall be remitted to the comptroller for deposit in the general revenue fund.

The department shall provide notice to the facility of the probation and of the items of noncompliance.
not later than the 10th day before the date the probation period begins. The department shall designate a period of not less than 30 days during which the facility will remain under probation. During the probation period, the facility must correct the items that were in noncompliance and report the corrections to the department for approval.

(e) The department may suspend or revoke the license of an abortion facility that does not correct items that were in noncompliance or that does not comply with this chapter or the rules adopted under this chapter within the applicable probation period.

Sec. 245.013. INJUNCTION.    (b) Each day of a continuing violation constitutes a separate ground for recovery.

Sec. 245.016. ABORTION IN UNLICENSED ABORTION FACILITY TO PREVENT DEATH OR SERIOUS IMPAIRMENT. This chapter does not remove the responsibility or limit the ability of a physician to perform an abortion in an unlicensed abortion facility if, at the commencement of the abortion, the physician reasonably believes that the abortion is necessary to prevent the death of the patient or to prevent serious impairment of the patient's physical health.

Sec. 245.017. ADMINISTRATIVE PENALTY. (a) The department may assess an administrative penalty against a person who violates this chapter or a rule adopted under this chapter.
   (b) The penalty may not exceed $1,000 for each violation. Each day of a continuing violation constitutes a separate violation.

   (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's order is final; or

(2) request the court to stay enforcement of the penalty by:

   (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and

   (B) giving a copy of the affidavit to the department by certified mail.

(d) If the department receives a copy of an affidavit under Subsection (c)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(e) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount of the penalty.

(f) Judicial review of the order of the department:

(1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and

(2) is under the substantial evidence rule.

(g) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(h) When the judgment of the court becomes final, the court
shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

The person shall pay expenses and costs assessed under this subsection not later than the 30th day after the date a department order requiring the payment of expenses and costs is final. The department may refer the matter to the attorney general for collection of the expenses and costs.

(1) does not exceed an amount equal to two percent of the entrance fee; and

(2) is clearly designated as nonrefundable in the continuing care contract or reservation agreement.
Sec. 246.076. INTEREST ACCRUED ON ENTRANCE FEE FUNDS. Unless otherwise provided in a continuing care contract, interest that accrues on funds held in an entrance fee escrow account is the property of the provider.

Sec. 246.077. RESERVE FUND ESCROW. (a) When a facility is first occupied by a resident, the provider shall establish and maintain in an escrow account with a bank or trust company, as escrow agent, that is located in this state a reserve fund equal to the total of all principal and interest payments due during the next 12 months on any first mortgage loan or other long-term financing arrangement for the facility. The requirements of this section may be met in whole or in part by other reserve funds held for the purpose of meeting loan obligations if the total amount equals or exceeds the amount required by this subsection.

(b) At the option of the facility, the loan reserve fund escrow amount may exclude the portion of principal and interest payments applicable to that portion of the facility that is a licensed nursing home.

(c) The provider shall maintain the loan reserve fund escrow in an account that is fully covered by federal deposit insurance and is separate from the provider's business account or in other accounts or investments approved by the commissioner. The funds in the reserve fund escrow account may be invested, with earnings payable to the provider.

Sec. 246.078. RELEASE OF RESERVE FUND ESCROW. (a) The escrow agent may release an amount equal to not more than one-twelfth of the loan reserve fund required by Section 246.077 if the provider
requests the release in writing.

(b) The escrow agent must give written notice to the board not later than the 11th day before the date of the release.

(c) The escrow agent may not release funds from the loan reserve fund escrow under this section more than once during a calendar year. A provider at any time may apply to the commissioner for the withdrawal of all or part of the loan reserve escrow funds. The provider may withdraw the funds on the approval of the withdrawal by the commissioner. The application must be made and the approval given as provided by rule.

(d) The provider must repay to the loan reserve fund escrow account the amount released to the provider under Subsection (a) or (c) not later than 18 months after the date the amount is released. The commissioner may place the provider or facility under supervision under Section 246.091 or take any other appropriate action as provided by law if the provider does not repay the loan reserve fund escrow account within the required period.

Sec. 246.079. TRANSITION. (a) A provider who operates a facility that existed on September 1, 1987, must comply with the filing requirements imposed under Section 246.041 and the escrow requirements imposed under Sections 246.077 and 246.078 not later than September 1, 1990.

(b) The commissioner may extend the time for compliance under this section for a reasonable period if the commissioner determines that the provider is unable to comply with this section after making a good faith effort to comply.

Sec. 246.080. APPLICABILITY. Sections 246.071 through 246.076 do not apply to a facility that on September 1, 1987, was completed and occupied by at least one person.

SUBCHAPTER E. SUPERVISION, REHABILITATION, AND LIQUIDATION

Sec. 246.091. SUPERVISION BY COMMISSIONER. (a) The commissioner may place a provider or facility under supervision if:

(1) the provider draws on the provider's entrance fee escrow in an amount greater than permitted by Section 246.073;

(2) the provider draws on the provider's loan reserve fund escrow in an amount greater than permitted or more frequently than permitted by Section 246.078;

(3) the commissioner determines, after a complaint and investigation, that the provider is financially unsound or is unable to meet the income or available cash projections previously filed by the provider and that the ability of the provider to fully perform its obligations under continuing care contracts is endangered; or

(4) the provider is bankrupt, insolvent, or has filed for protection from creditors under a federal or state reorganization, bankruptcy, or insolvency law.

(b) The commissioner appoints the supervisor.

(c) The commissioner may provide that the provider may not, during the supervision period and without the prior approval of the commissioner or the supervisor:

(1) dispose of, convey, or encumber its assets;

(2) withdraw its bank accounts;

(3) lend its funds;

(4) invest its funds;

(5) transfer its property;

(6) incur a debt, obligation, or liability; or

(7) merge or consolidate with another facility.

(d) The commissioner shall terminate the supervision and restore to a provider the authority to manage the affairs of the facility if the commissioner determines that the facility is capable of meeting its financial obligations.

(e) The facility or provider shall pay the costs of a supervisor.

Sec. 246.092. APPLICATION FOR COURT ORDER FOR REHABILITATION OR LIQUIDATION. (a) The commissioner shall request the attorney general to apply to a district court of this state, or to the federal bankruptcy court that has exercised jurisdiction over a provider or facility, for an order directing the appointment of a trustee to rehabilitate or liquidate the facility if the commissioner elects not to place the facility under supervision and:

(1) the provider draws from the provider's loan reserve fund escrow an amount greater than permitted by Section 246.078;

(2) the provider does not repay the loan reserve fund escrow as required by Section 246.078;

(3) the board determines, after a complaint and investigation, that the provider is financially unsound or is unable to meet the income or available cash projections previously filed by the provider and that the ability of the provider to fully perform its obligations under continuing care contracts is endangered; or

(4) the provider is bankrupt, insolvent, or has filed for protection from creditors under a federal or state reorganization, bankruptcy, or insolvency law.

(b) In connection with an application for an order to rehabilitate or liquidate a facility, the court shall consider the manner in which the welfare of persons who have previously contracted with the provider for continuing care at the facility may be best served, and may order that the proceeds of a lien imposed under Section 246.111 may be used in full or partial payment of entrance fees to other facilities on behalf of the residents of the facility being liquidated.

Sec. 246.093. ORDER TO REHABILITATE. An order to rehabilitate a facility must direct the trustee to:

(1) take possession of the provider's property in order to conduct the business, including employing any managers or agents the trustee considers necessary; and

(2) take action as directed by the court to eliminate the causes and conditions that made rehabilitation necessary.

Sec. 246.094. ORDER TO LIQUIDATE. (a) If the trustee determines that further efforts to rehabilitate the provider would be impractical or useless, the trustee may apply to the court that ordered the rehabilitation for an order of liquidation.

(b) A court that has jurisdiction may issue an order to liquidate a facility on application of the board, regardless of whether an order to rehabilitate the facility exists. If the court issues an order to liquidate, the court shall appoint a trustee to collect and liquidate all of the provider's assets located in this state.

(c) A person may not contract for continuing care at a facility after an order to liquidate that facility has been entered.

Sec. 246.095. BOND. A court may refuse to make or may vacate an order to rehabilitate under this subchapter if the provider posts a bond that is:

(1) in an amount determined by the court to be equal to the reserve funding needed to fulfill the provider's obligations under its continuing care contracts at the facility;

(2) issued by a recognized surety authorized to do business in this state; and

(3) executed in favor of the state on behalf of all persons entitled to refunds of entrance fees from the provider or other damages if the provider is unable to fulfill its continuing care contracts at the facility.

Sec. 246.096. TERMINATION OF REHABILITATION. (a) A court may terminate a rehabilitation and order return of a facility and its assets and affairs to the management of the provider if the court, on petition of the trustee or the provider or on its own motion, finds that:

(1) the objectives of the order to rehabilitate the facility have been accomplished; and
(2) the facility can be returned to the provider's management without further jeopardy to the residents, creditors, or owners of the facility or the public.

(b) A court may enter an order under this section after:

(1) a full report and accounting of the conduct of the facility's affairs during the rehabilitation; and

(2) a report on the facility's financial condition.

Sec. 246.097. PAYMENT OF TRUSTEE. The reasonable costs, expenses, and fees of the trustee are payable from the assets of the facility.

SUBCHAPTER F. ENFORCEMENT

Sec. 246.111. LIEN. (a) To secure the obligations of the provider under any continuing care contract, a lien attaches on the date a resident first occupies a facility or receives services under a continuing care contract. The lien covers the real and personal property of the provider located at the facility. The provider shall prepare a written notice sworn to by an officer of the provider for each county where the provider has a facility. The notice must contain the name of the provider, the legal description of each facility of the provider, and a statement that the facility is subject to this chapter and the lien provided by this section. The provider shall file for record the notice in the real property records of each county where the provider has a facility on or before the later of January 1, 1994, or the date of the execution of the first continuing care contract relating to the facility.

(b) The commissioner may remove a lien under this section if requested by a provider to obtain secondary financing or refinancing of a facility if:

(1) the facility is financially sound; and

(2) removal of the lien does not adversely affect the residents.

(c) A lien under this section is subordinate to any liens on the property of the facility if the proceeds of the loan secured by
the liens were used in whole or in part to:

(1) construct, acquire, replace, or improve the facility;

or

(2) refinance an earlier loan used to construct, acquire, replace, or improve the facility.

(d) A lien under this section is effective for 10 years.

(e) A lien under this section may be foreclosed on application of the board if the facility is liquidated or the provider is insolvent or bankrupt. The proceeds from a foreclosed lien shall be used for full or partial satisfaction of the provider's obligations under continuing care contracts in effect on the date of the foreclosure.

(1) determine whether a person has violated or is about to violate this chapter;

(2) aid in the enforcement of this chapter;

(3) determine the financial solvency of a facility; or

(4) verify a statement contained in a disclosure statement filed or delivered under this chapter.

Sec. 246.113. PRODUCTION OF EVIDENCE. (a) In an investigation or proceeding under this chapter, the board may:

(b) The board may bring suit in district court to enforce a subpoena if the person to whom a subpoena is directed fails to comply.

Sec. 246.114. ACTUARIAL REVIEW. (a) This section applies only to a facility whose contracts offer future guarantees of long-term nursing care that develop current actuarial liabilities.

(b) A facility subject to this section that initially filed with the commissioner an actuarial review performed on or after September 1, 1982, and before September 1, 1987, shall file with the commissioner subsequent actuarial reviews at five-year intervals from the date of completion of the initial actuarial review.

(c) A facility subject to this section that initially filed with the commissioner an actuarial review performed on or after September 1, 1987, shall file with the commissioner subsequent actuarial reviews at five-year intervals from the date of the filing of the initial actuarial review.

(d) The commissioner may require an actuarial review of a facility before the end of the five-year interval in which the facility would otherwise be required to file an actuarial review if, in the opinion of the commissioner, the facility exhibits conditions of financial instability warranting an earlier review.

Sec. 246.115. CEASE AND DESIST ORDERS; INJUNCTIONS. (a) The board may request that the attorney general bring an action to prohibit a person from engaging in an act or practice and to order compliance with this chapter if the board determines, after a complaint or by other means, that the act or practice violates this chapter or an order made under this chapter.

(b) The action may be brought in the district court of a county
in which:
   (1) the defendant resides;
   (2) the defendant has done business;
   (3) the principal place of business of the defendant is
located; or
   (4) the transaction occurred.

(c) The court may grant an injunction or restraining order on a
proper showing. If the court grants an injunction or restraining
order, the court shall issue it without bond.

Sec. 246.116. CRIMINAL PENALTY. (a) A person commits an
offense if the person intentionally violates this chapter.

(b) An offense under this section is a Class A misdemeanor.

Sec. 246.117. CIVIL LIABILITY. (a) A provider who makes a
continuing care contract without complying with the disclosure
statement requirement under Subchapter C, or who makes a continuing
care contract with a person who has relied on a disclosure statement
that omits a material fact required to be stated in the statement or
necessary to make the statement accurate, is liable to the person
with whom the continuing care contract is made for:
   (1) actual damages;
   (2) repayment of all fees paid to the provider minus the
reasonable value of care and lodging provided to the person by or on
whose behalf the continuing care contract was made before the
violation, misstatement, or omission was discovered or reasonably
should have been discovered;
   (3) interest at the legal rate for judgments;
   (4) court costs; and
   (5) reasonable attorney's fees.

(b) A provider is liable under this section regardless of
whether the provider had actual knowledge of the misstatement or
omission.

(c) A person may not file or maintain an action under this
section if the person, before filing the action, received a written
offered of a refund of all amounts paid to the provider, facility, or person violating this chapter and reasonable interest from the date of payment, minus the reasonable value of care and lodging provided before the receipt of the offer and:

(1) the offer states the provisions of this section; and
(2) the recipient of the offer fails to accept the offer within 30 days after the date the offer is received.

(d) A person must bring suit under this section not later than three years after:

(1) the date on which the continuing care contract was entered into; or
(2) the violation, misstatement, or omission is discovered or reasonably should have been discovered.

(e) Except as expressly provided by this chapter, civil liability does not arise in favor of a private party by implication from or as a result of the violation of this chapter or a rule or order adopted under this chapter.

(f) This chapter does not limit a liability that would exist under any other statute or common law if this chapter were not in effect.

(g) The provisions of this chapter are not exclusive and the remedies provided by this chapter are in addition to any other remedies provided by any other law.

Sec. 247.065. PROVIDERS' BILL OF RIGHTS. (a) Each assisted living facility shall post a providers' bill of rights in a prominent place in the facility.
(b) The providers' bill of rights must provide that a provider of personal care services has the right to:
(1) be shown consideration and respect that recognizes the dignity and individuality of the provider and assisted living facility;
(2) terminate a resident's contract for just cause after a written 30-day notice;

Sec. 247.066. APPROPRIATE PLACEMENT DETERMINATION. (a) The department may not require the removal and relocation of a resident of an assisted living facility if the resident's presence in the facility does not endanger other residents and the resident can receive adequate care at the facility through services:

(1) provided by the facility in accordance with its license; or

(2) obtained by the resident from other providers.

(b) In assessing whether a resident can receive adequate care at a facility, the department shall consider all relevant factors, including the placement preference expressed by the resident with the agreement of the facility operator, the resident's physician, and the resident's family members or other representatives.
(b-1) If a facility identifies a resident who the facility believes is inappropriately placed at the facility, the facility is not required to move the resident if the facility obtains the written statements and waiver prescribed by Subsection (c).

(c) If a resident is inappropriately placed at a facility, the facility is not required to move the resident if, not later than the 10th business day after the date that the facility determines or is informed of the department's determination that a resident is inappropriately placed at the facility, the facility:

(1) obtains a written assessment from a physician that the resident is appropriately placed;

(2) obtains a written statement:

(3) states in writing that the facility wishes for the resident to remain in the facility; and

(4) applies for and obtains a waiver from the department of all applicable requirements for evacuation that the facility does not meet with respect to the resident, if the facility does not meet all requirements for the evacuation of residents with respect to the resident.

(d) If the department determines that a resident is inappropriately placed at a facility and the facility either agrees with the determination or does not obtain the written statements and waiver prescribed by Subsection (c) that would allow the resident to remain in the facility, the facility shall discharge the resident. The resident is allowed 30 days after the date of discharge to move from the facility. A discharge required under this subsection must be made notwithstanding:

(1) any other law, including any law relating to the rights of residents and any obligations imposed under the Property Code; and

(2) the terms of any contract.

(d-1) If a facility is required to discharge the resident because the facility has not obtained the written statements prescribed by Subsection (c) or the department does not approve a waiver based on the written statements submitted, the department may:
(1) assess an administrative penalty against the facility if the facility intentionally or repeatedly disregards department criteria for obtaining a waiver for inappropriate placement of a resident;

(2) seek an emergency suspension or closing order against the facility under Section 247.042 if the department determines there is a significant risk to the residents of the facility and an immediate threat to the health and safety of the residents; or

(3) seek other sanctions against the facility under Subchapter C in lieu of an emergency suspension or closing order if the department determines there is a significant risk to a resident of the facility and an immediate threat to the health and safety of a resident.

(d-2) The executive commissioner by rule shall develop criteria under which the department may determine when a facility has intentionally or repeatedly disregarded the waiver process.

(f) The department shall ensure that each facility and resident is aware of the waiver process described by Subsection (c) for aging in place. A facility must include with the facility disclosure statement required under Section 247.026(b)(4)(B) information regarding the policies and procedures for aging in place described by this section.

(g) The department, in cooperation with assisted living service providers, shall develop cost-effective training regarding aging in place, retaliation, and other issues determined by the department.

(h) The department shall require surveyors, facility supervisors, and other staff, as appropriate, to complete the training described by Subsection (g) annually.

This subsection does not authorize a facility to provide ongoing services comparable to the services available in an institution licensed under Chapter 242. A health care professional providing services under this subsection shall maintain medical records of those services in accordance with the licensing, certification, or other regulatory standards applicable to the health care professional under law.

If the commission cites an assisted living facility for a building code or fire code violation and the assisted living facility subsequently provides the evidence described by this subsection, the commission shall rescind the citation.

(d) Subsection (c) does not restrict the authority of the commission to issue a citation to an assisted living facility for a violation of any National Fire Protection Association codes or standards adopted under this chapter.

For purposes of this subsection, a person who commits an offense in another state that is substantially similar to an offense described by Section 250.006 is considered to have committed the offense described by that section.

(b) If an applicant for employment at an assisted living facility states in the application that the applicant resided in

(a) In this section and Section 251.017, "emergency" means an incident likely to threaten the health, welfare, or safety of end stage renal disease facility patients or staff or the public, including a fire, equipment failure, power outage, flood, interruption in utility service, medical emergency, or natural or other disaster.

(b) Each end stage renal disease facility shall adopt a written emergency preparedness and contingency operations plan to address the
provision of care during an emergency. The plan must:

(1) be updated annually and approved by the facility's leadership each time the plan is updated;

(2) include procedures for notifying each of the following entities as soon as practicable regarding the closure or reduction in hours of operation of the facility due to an emergency:

(A) the department;
(B) each hospital with which the facility has a transfer agreement;
(C) the trauma service area regional advisory council that serves the geographic area in which the facility is located; and

(D) each applicable local emergency management agency;

(3) except as provided by Subsection (d), require the facility to execute a contract with another end stage renal disease facility located within a 100-mile radius of the facility stipulating that the other end stage renal disease facility will provide dialysis treatment to facility patients who are unable to receive scheduled dialysis treatment due to the facility's closure or reduction in hours; and

(4) include a documented patient communications plan that includes procedures for notifying a patient when that patient's scheduled dialysis treatment is interrupted.

(c) As part of the emergency preparedness and contingency operations plan adopted under Subsection (b), each end stage renal disease facility shall develop and the facility's leadership must approve a continuity of care plan for the provision of dialysis treatment to facility patients during an emergency. The facility must provide a copy of the plan to each patient before providing or scheduling dialysis treatment. The plan must include:

(1) procedures for distributing written materials to facility patients that specifically describe the facility's emergency preparedness and contingency operations plan adopted under Subsection (b); and

(2) detailed procedures, based on the facility's patient population, on the facility's contingency plans, including transportation options, for patients to access dialysis treatment at each end stage renal disease facility with which the facility has an agreement or made advance preparations to ensure that the facility's patients have the option to receive dialysis treatment.

(d) An end stage renal disease facility is not required to
contract with another end stage renal disease facility under Subsection (b)(3) if:

(1) no other end stage renal disease facility is located within a 100-mile radius of the facility; and

(2) the facility obtains written approval from the department exempting the facility from that requirement.

(e) On request, an end stage renal disease facility shall provide the facility's emergency preparedness and contingency operations plan adopted under Subsection (b) to:

(1) the department;

(2) each hospital with which the facility has a transfer agreement;

(3) the trauma service area regional advisory council that serves the geographic area in which the facility is located; and

(4) each applicable local emergency management agency.

(f) Each end stage renal disease facility shall provide annual training to facility staff on the facility's emergency preparedness and contingency operations plan under this section.

(g) Each end stage renal disease facility shall annually contact a local and state disaster management representative, an emergency operations center, and a trauma service area regional advisory council to:

(1) request comments on whether the emergency preparedness and contingency operations plan adopted by the facility under Subsection (b) should be modified; and

(2) ensure that local agencies, regional agencies, state agencies, and hospitals are aware of the facility, the facility's policy on provision of life-saving treatment, the facility's patient population and potential transportation needs, and the anticipated number of patients affected.

Sec. 251.017. EMERGENCY CONTINGENCY PLAN FOR POWER AND POTABLE WATER. (a) Each end stage renal disease facility shall adopt an emergency contingency plan for the continuity of essential building systems during an emergency. A plan adopted by a facility under this subsection must meet the requirements described by Subsection (b),
(b) Unless the facility adopts a plan described by Subsection (d) or (e), an end stage renal disease facility must adopt an emergency contingency plan as required by Subsection (a) under which the facility is required:

(1) to have an on-site emergency generator that:
   (A) has a type 2 essential electrical distribution system in accordance with the National Fire Protection Association 99, Section 4.5, and the National Fire Protection Association 110;
   (B) is installed, tested, and maintained in accordance with the National Fire Protection Association 99, Section 4.5.4, and the National Fire Protection Association 110; and
   (C) is kept at all times not less than 10 feet from the electrical transformer;

(2) except as provided by Subsection (c), to maintain an on-site fuel source that contains enough fuel capacity to power the on-site generator for not less than 24 hours, as determined by the electrical load demand on the emergency generator for that period;

(3) to maintain a sufficient quantity of potable water on-site to operate the facility's water treatment system for not less than 24 hours; and

(4) to maintain a water valve connection that allows an outside vendor to provide potable water to operate the facility's water treatment system.

(c) An end stage renal disease facility that adopts an emergency contingency plan under Subsection (b) is not required to maintain an on-site fuel source described by Subsection (b)(2) if the facility's on-site emergency generator uses a vapor liquefied petroleum gas system with a dedicated fuel supply.

(d) Unless the facility adopts a plan described by Subsection (b) or (e), an end stage renal disease facility must adopt an emergency contingency plan as required by Subsection (a) under which the facility is required:

(1) to maintain sufficient resources to provide on demand or to execute a contract with an outside supplier or vendor to provide on demand:
   (A) a portable emergency generator that:
      (i) has an electrical transfer switch with a plug-in device to provide emergency power for patient care areas and complies with National Fire Protection Association 99, Section
4.5.2.2.2; and

(ii) has a water valve connection that allows for the use of potable water to operate the facility's water treatment system;

(B) an alternate power source for light, including battery-powered light, that:

(i) is separate and independent from the normal electrical power source;

(ii) is capable of providing light for not less than one and a half hours;

(iii) is capable of providing a sufficient amount of light to allow for the safe evacuation of the building; and

(iv) is maintained and tested not less than four times each year; and

(C) potable water;

(2) to implement the plan when the facility loses electrical power due to a natural or man-made event during which the electrical power may not be restored within 24 hours; and

(3) to contact the outside supplier or vendor with which the facility contracts under Subdivision (1), if applicable, not later than 36 hours after the facility loses electrical power.

(e) Unless the facility adopts a plan described by Subsection (b) or (d), an end stage renal disease facility must adopt an emergency contingency plan as required by Subsection (a) under which the facility is required to execute a contract with another end stage renal disease facility that is located within a 100-mile radius of the facility stipulating that the other end stage renal disease facility will provide emergency contingency care to the facility's patients. The other end stage renal disease facility with which the facility contracts must have an alternate power source for light, including battery-powered light, that:

(1) is separate and independent from the normal electrical power source;

(2) is capable of providing light for not less than one and a half hours;

(3) is capable of providing a sufficient amount of light to allow for the safe evacuation of the building; and

(4) is maintained and tested not less than four times each year.

**SUBCHAPTER E. ENFORCEMENT**

Sec. 251.061. CORRECTIVE ACTION PLAN. (a) The department may use a corrective action plan as an alternative to enforcement action under this subchapter.

(b) Before taking enforcement action under this subchapter, the department shall consider whether the use of a corrective action plan under this section is appropriate. In determining whether to use a corrective action plan, the department shall consider whether:

1. the end stage renal disease facility has violated this chapter or a rule adopted under this chapter and the violation has resulted in an adverse patient result;  
2. the facility has a previous history of lack of compliance with this chapter, rules adopted under this chapter, or a corrective action plan; or  
3. the facility fails to agree to a corrective action plan.

(c) The department may use a level one, level two, or level three corrective action plan, as determined by the department in accordance with this section, after inspection of the end stage renal disease facility.

(d) A level one corrective action plan is appropriate if the department finds that the end stage renal disease facility is not in compliance with this chapter or rules adopted under this chapter, but the circumstances are not serious or life-threatening. Under a level one corrective action plan, the department shall require the facility to develop and implement a corrective action plan approved by the department. The department or a monitor may supervise the implementation of the plan.

(e) A level two corrective action plan is appropriate if the department finds that the end stage renal disease facility is not in compliance with this chapter or rules adopted under this chapter and
the circumstances are potentially serious or life-threatening or if the department finds that the facility failed to implement or comply with a level one corrective action plan. Under a level two corrective action plan, the department shall require the facility to develop and implement a corrective action plan approved by the department. The department or a monitor shall supervise the implementation of the plan. Supervision of the implementation of the plan may include on-site supervision, observation, and direction.

(f) A level three corrective action plan is appropriate if the department finds that the end stage renal disease facility is not in compliance with this chapter or rules adopted under this chapter and the circumstances are serious or life-threatening or if the department finds that the facility failed to comply with a level two corrective action plan or to cooperate with the department in connection with that plan. Under a level three corrective action plan, the department shall require the facility to develop and implement a corrective action plan approved by the department. In connection with requiring a level three corrective action plan, the department may seek the appointment of a temporary manager under Subchapter F.

(g) A corrective action plan is not confidential. Information contained in the plan may be excepted from required disclosure under Chapter 552, Government Code, in accordance with that chapter or other applicable law.

(h) The department shall select the monitor for a corrective action plan. The monitor shall be an individual or team of individuals and may include a professional with end stage renal disease experience or a member of the medical review board. The monitor may not be or include individuals who are current or former employees of the facility that is the subject of the corrective action plan or of an affiliated facility. The purpose of the monitor is to observe, supervise, consult, and educate the facility and the employees of the facility under a corrective action plan. The facility shall pay the cost of the monitor.

issued under this chapter for a violation of this chapter or a rule adopted under this chapter.

(b) The denial, suspension, or revocation of a license by the department and the appeal from that action are governed by the procedures for a contested case hearing under Chapter 2001, Government Code.

(c) If the department finds that an end stage renal disease facility is in repeated noncompliance with this chapter or rules adopted under this chapter but that the noncompliance does not endanger public health and safety, the department may schedule the facility for probation rather than suspending or revoking the facility's license. The department shall provide notice to the facility of the probation and of the items of noncompliance not later than the 10th day before the date the probation period begins. The department shall designate a period of not less than 30 days during which the facility will remain under probation. During the probation period, the facility must correct the items that were in noncompliance and report the corrections to the department for approval.

(d) The department may suspend or revoke the license of an end stage renal disease facility that does not correct items that were in noncompliance or that does not comply with this chapter or the rules adopted under this chapter within the applicable probation period.

Sec. 251.0621. EMERGENCY SUSPENSION. The department may issue an emergency order to suspend a license issued under this chapter if the department has reasonable cause to believe that the conduct of a license holder creates an immediate danger to the public health and safety. An emergency suspension is effective immediately without a hearing on notice to the license holder. On written request of the license holder, the department shall refer the matter to the State Office of Administrative Hearings, and an administrative law judge of that office shall conduct a hearing not earlier than the 10th day or later than the 30th day after the date the hearing request is received to determine if the emergency suspension is to be continued,
modified, or rescinded. The hearing and any appeal are governed by
the department's rules for a contested case hearing and Chapter 2001,
Government Code.

Sec. 251.063. INJUNCTION. (a) The department may petition a
district court for a temporary restraining order to restrain a
continuing violation of this chapter or a rule adopted under this
chapter if the department finds that the violation creates an
immediate threat to the health and safety of patients of an end stage
renal disease facility.

   (b) A district court, on petition of the department and on a
finding that a person is violating this chapter or a rule adopted
under this chapter, may by injunction:
      (1) prohibit a person from continuing the violation;
      (2) restrain or prevent the operation of an end stage renal
disease facility without a license issued under this chapter; or
      (3) grant other injunctive relief warranted by the facts.

   (c) The attorney general may institute and conduct a suit
authorized by this section at the request of the department.

   (d) Venue for a suit brought under this section is in the
county in which the end stage renal disease facility is located or in
Travis County.

Sec. 251.065. CIVIL PENALTY. (a) A person who knowingly violates this chapter or who knowingly fails to comply with a rule adopted under this chapter is liable for a civil penalty of not more than $1,000 for each violation if the department finds that the violation threatens the health and safety of a patient of an end stage renal disease facility.

(b) Each day of a continuing violation constitutes a separate ground for recovery.

Added by Acts 1995, 74th Leg., ch. 608, Sec. 1, eff. Sept. 1, 1996.

Sec. 251.066. ADMINISTRATIVE PENALTY. (a) The department may assess an administrative penalty against a person who violates this chapter or a rule adopted under this chapter.

(b) The penalty may not exceed $1,000 for each violation. Each day of a continuing violation constitutes a separate violation.

(c) In determining the amount of an administrative penalty assessed under this section, the department shall consider:

(1) the seriousness of the violation;
(2) the history of previous violations;
(3) the amount necessary to deter future violations;
(4) efforts made to correct the violation; and
(5) any other matters that justice may require.

(d) All proceedings for the assessment of an administrative penalty under this chapter are subject to Chapter 2001, Government Code.

Added by Acts 1995, 74th Leg., ch. 608, Sec. 1, eff. Sept. 1, 1996.

Sec. 251.067. REPORT RECOMMENDING ADMINISTRATIVE PENALTY. The notice shall include:

(1) a brief summary of the alleged violation;
(2) a statement of the amount of the proposed penalty, based on the factors listed in Section 251.066(c); and

(c) Within the 30-day period, a person who acts under Subsection (b)(3) may:

(1) stay enforcement of the penalty by:
   (A) paying the amount of the penalty to the court for placement in an escrow account; or
   (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the department's order is final; or
(2) request the court to stay enforcement of the penalty by:
   (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
   (B) giving a copy of the affidavit to the department by certified mail.

(d) If the department receives a copy of an affidavit under Subsection (c)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in
the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(e) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the amount of the penalty.

(f) Judicial review of the department's order:
(1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and
(2) is under the substantial evidence rule.

(g) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(h) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the amount of the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

The person shall pay expenses and costs assessed under this subsection not later than the 30th day after the date a department order requiring the payment of expenses and costs is final. (1) the facility is operating without a license;
(2) the department has denied, suspended, or revoked the facility's license but the facility continues to operate;
(3) license denial, suspension, or revocation proceedings against the facility are pending and the department determines that an imminent or reasonably foreseeable threat to the health and safety of a patient of the facility exists;

   (c) The attorney general, on request by the department, shall bring and conduct on behalf of the state a suit authorized by this
section.

(d) A suit for a temporary restraining order or other injunctive relief must be brought in Travis County or the county in which the alleged violation occurs.

Sec. 252.063. LICENSE REQUIREMENTS; CRIMINAL PENALTY. (a) A person commits an offense if the person violates Section 252.031.

(b) An offense under this section is punishable by a fine of not more than $1,000 for the first offense and not more than $500 for each subsequent offense.

(c) Each day of a continuing violation after conviction is a separate offense.

Added by Acts 1997, 75th Leg., ch. 693, Sec. 1, eff. Sept. 1, 1997.

Sec. 252.064. CIVIL PENALTY. (a) A person who violates this chapter or a rule adopted under this chapter is liable for a civil penalty of not less than $100 or more than $10,000 for each violation if the department determines the violation threatens the health and safety of a resident.

(b) Each day of a continuing violation constitutes a separate ground for recovery.

(c) On request of the department, the attorney general may institute an action in a district court to collect a civil penalty under this section. Any amount collected shall be remitted to the comptroller for deposit to the credit of the general revenue fund.

Sec. 252.065. ADMINISTRATIVE PENALTY. (a) The commission may assess an administrative penalty against a person who:

(1) violates this chapter or a rule, standard, or order adopted or license issued under this chapter;

(2) makes a false statement, that the person knows or
should know is false, of a material fact:
   (A) on an application for issuance or renewal of a license or in an attachment to the application; or
   (B) with respect to a matter under investigation by the commission;
(3) refuses to allow a representative of the commission to inspect:

(5) wilfully interferes with a representative of the commission preserving evidence of a violation of this chapter or a rule, standard, or order adopted or license issued under this chapter;
(6) fails to pay a penalty assessed by the commission under this chapter not later than the 10th day after the date the assessment of the penalty becomes final;
(7) fails to submit a plan of correction within 10 days after receiving a statement of licensing violations; or
(8) fails to notify the commission of a change in ownership before the effective date of that change of ownership.
(b) The penalty for a facility with fewer than 60 beds shall be not less than $100 or more than $1,000 for each violation. The penalty for a facility with 60 beds or more shall be not less than $100 or more than $5,000 for each violation. Each day a violation occurs or continues is a separate violation for purposes of imposing a penalty. The total amount of penalties assessed under this subsection for an on-site regulatory visit or complaint investigation, regardless of the duration of any ongoing violations, may not exceed:
   (1) $5,000 for a facility with fewer than 60 beds; and
   (2) $25,000 for a facility with 60 beds or more.
(c) The executive commissioner by rule shall specify each violation for which an administrative penalty may be assessed. In determining which violations warrant penalties, the executive commissioner shall consider:
   (1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of the violation and the hazard of
the violation to the health or safety of clients; and

(2) whether the affected facility had identified the violation as a part of its internal quality assurance process and had made appropriate progress on correction.

(d) The executive commissioner by rule shall establish a specific and detailed schedule of appropriate and graduated penalties for each violation based on:

(1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of the violation and the hazard of the violation to the health or safety of clients;

(2) the history of previous violations;

(3) whether the affected facility had identified the violation as a part of its internal quality assurance process and had made appropriate progress on correction;

(4) the amount necessary to deter future violations;

(5) efforts made to correct the violation;

(6) the size of the facility; and

(7) any other matters that justice may require.

(e) The executive commissioner by rule shall provide the facility with a reasonable period of time, not less than 45 days, following the first day of a violation to correct the violation before the commission may assess an administrative penalty if a plan of correction has been implemented. This subsection does not apply to a violation described by Subsections (a)(2)-(8) or to a violation that the commission determines:

(1) represents a pattern of violation that results in actual harm;

(2) is widespread in scope and results in actual harm;

(3) is widespread in scope, constitutes a potential for actual harm, and relates to:

(A) staff treatment of a resident;

(B) active treatment;

(C) client behavior and facility practices;

(D) health care services;

(E) drug administration;

(F) infection control;

(G) food and nutrition services; or

(H) emergency preparedness and response;

(4) constitutes an immediate threat to the health or safety of a resident; or
(5) substantially limits the facility's capacity to provide care.

(f) The commission may not assess an administrative penalty for a minor violation if the person corrects the violation not later than the 46th day after the date the person receives notice of the violation.

(g) The executive commissioner shall establish a system to ensure standard and consistent application of penalties regardless of the facility location.

(h) All proceedings for the assessment of an administrative penalty under this chapter are subject to Chapter 2001, Government Code.

(i) The commission may not assess an administrative penalty against a state agency.

(j) Notwithstanding any other provision of this section, an administrative penalty ceases to be incurred on the date a violation is corrected. The administrative penalty ceases to be incurred only if the facility:

1. notifies the commission in writing of the correction of the violation and of the date the violation was corrected; and
2. shows later that the violation was corrected.

(k) Rules adopted under this section shall include specific, appropriate, and objective criteria that describe the scope and severity of a violation that results in a recommendation for each specific penalty.

(l) The commission shall develop and use a system to record and track the scope and severity of each violation of this chapter or a rule, standard, or order adopted under this chapter for the purpose of assessing an administrative penalty for the violation or taking some other enforcement action against the appropriate facility to deter future violations. The system:

1. must be comparable to the system used by the Centers for Medicare and Medicaid Services to categorize the scope and severity of violations for nursing homes; and
2. may be modified, as appropriate, to reflect changes in industry practice or changes made to the system used by the Centers for Medicare and Medicaid Services.

(m) In this section:

1. "Actual harm" means a negative outcome that compromises a resident's physical, mental, or emotional well-being.
(2) "Immediate threat to the health or safety of a resident" means a situation that causes, or is likely to cause, serious injury, harm, or impairment to or the death of a resident.

(3) "Pattern of violation" means repeated, but not pervasive, failures of a facility to comply with this chapter or a rule, standard, or order adopted under this chapter that:
   (A) result in a violation; and
   (B) are found throughout the services provided by the facility or that affect or involve the same residents or facility employees.

(4) "Widespread in scope" means a violation of this chapter or a rule, standard, or order adopted under this chapter that:
   (A) is pervasive throughout the services provided by the facility; or

Added by Acts 1999, 76th Leg., ch. 534, Sec. 4, eff. Sept. 1, 1999.

Sec. 252.066. NOTICE; REQUEST FOR HEARING. (a) If, after investigation of a possible violation and the facts surrounding that
possible violation, the department determines that a violation has occurred, the department shall give written notice of the violation to the person designated by the facility to receive notice. The notice shall include:

(1) a brief summary of the alleged violation;
(2) a statement of the amount of the proposed penalty based on the factors listed in Section 252.065(d); and
(3) a statement of the person's right to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Not later than the 20th day after the date on which the notice is received, the person notified may accept the determination of the department made under this section, including the proposed penalty, or may make a written request for a hearing on that determination.

(c) If the person notified under this section of the violation accepts the determination of the department or if the person fails to respond in a timely manner to the notice, the department shall issue an order approving the determination and ordering that the person pay the proposed penalty.

Sec. 252.067. HEARING; ORDER. (a) If the person notified under Section 252.066 requests a hearing, an administrative law judge shall set a hearing and the department shall give written notice of the hearing to the person.

(b) The administrative law judge shall make findings of fact and conclusions of law and shall promptly issue to the department a proposal for decision as to the occurrence of the violation and a recommendation as to the amount of the proposed penalty if a penalty is determined to be warranted.

(c) Based on the findings of fact and conclusions of law and the recommendations of the administrative law judge, the department by order may find that a violation has occurred and may assess a
Sec. 252.068. NOTICE AND PAYMENT OF ADMINISTRATIVE PENALTY; JUDICIAL REVIEW; REFUND. (a) The department shall give notice of the order under Section 252.067(c) to the person alleged to have committed the violation and the person designated by the facility to receive notice under Section 252.066. The notice must include:

(1) separate statements of the findings of fact and conclusions of law;
(2) the amount of any penalty assessed; and
(3) a statement of the right of the person to judicial review of the order.

(b) Not later than the 30th day after the date on which the decision becomes final as provided by Chapter 2001, Government Code, the person shall:

(1) pay the penalty; or
(2) file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(c) Within the 30-day period, a person who acts under Subsection (b)(2) may:

(1) stay enforcement of the penalty by:
   (A) paying the penalty to the court for placement in an escrow account; or
   (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the order becomes final; or

(2) request the court to stay enforcement of the penalty by:
   (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
   (B) giving a copy of the affidavit to the department by

(d) If the department receives a copy of an affidavit under Subsection (c)(2), the department may file with the court, within 10 days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the penalty and to give a supersedeas bond.

(e) If the person does not pay the penalty and the enforcement of the penalty is not stayed, the department may refer the matter to the attorney general for collection of the penalty.

(f) Judicial review of the order:

(1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and

(2) is under the substantial evidence rule.

(g) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court shall order that no penalty is owed.

(h) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the amount of the penalty under Subsection (c)(1)(A) and if that amount is reduced or is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the penalty is not upheld by the court, the court shall order the release of the escrow account or bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

(a) If the attorney general brings an action against a person under Section 252.062 or 252.064 or to enforce an administrative penalty assessed under Section 252.065 and an injunction is granted against the person or the person is found liable for a civil or administrative penalty, the attorney general may recover, on behalf of the attorney general and the department, reasonable expenses and costs.

(b) For purposes of this section, reasonable expenses and costs include expenses incurred by the department and the attorney general in the investigation, initiation, and prosecution of an action, including reasonable investigative costs, attorney's fees, witness fees, and deposition expenses.

Sec. 252.071. AMELIORATION OF VIOLATION. (a) In lieu of demanding payment of an administrative penalty authorized by this subchapter, the department may allow a person subject to the penalty to use, under the supervision of the department, all or part of the amount of the penalty to ameliorate the violation or to improve services, other than administrative services, in the facility affected by the violation.

(b) The department shall offer amelioration to a person for a charged violation if the department determines that the violation does not constitute immediate jeopardy to the health and safety of a facility resident.

(c) The department may not offer amelioration to a person if the department determines that the charged violation constitutes immediate jeopardy to the health and safety of a facility resident.

Statute text rendered on: 5/30/2023 - 1650 -
(d) The department shall offer amelioration to a person under this section not later than the 10th day after the date the person receives from the department a final notification of assessment of administrative penalty that is sent to the person after an informal dispute resolution process but before an administrative hearing under Section 252.067.

(e) A person to whom amelioration has been offered must file a plan for amelioration not later than the 45th day after the date the person receives the offer of amelioration from the department. In submitting the plan, the person must agree to waive the person's right to an administrative hearing under Section 252.067 if the department approves the plan.

(f) At a minimum, a plan for amelioration must:
   (1) propose changes to the management or operation of the facility that will improve services to or quality of care of residents of the facility;
   (2) identify, through measurable outcomes, the ways in which and the extent to which the proposed changes will improve services to or quality of care of residents of the facility;
   (3) establish clear goals to be achieved through the proposed changes;
   (4) establish a timeline for implementing the proposed changes; and
   (5) identify specific actions necessary to implement the proposed changes.

(g) The department may require that an amelioration plan propose changes that would result in conditions that exceed the requirements of this chapter or the rules adopted under this chapter.

(h) The department shall approve or deny an amelioration plan not later than the 45th day after the date the department receives the plan. On approval of a person's plan, the commission or the State Office of Administrative Hearings, as appropriate, shall deny a pending request for a hearing submitted by the person under Section 252.066(b).

(i) The department may not offer amelioration to a person:
   (1) more than three times in a two-year period; or
   (2) more than one time in a two-year period for the same or similar violation.

(j) In this section, "immediate jeopardy to health and safety" means a situation in which immediate corrective action is necessary
because the facility's noncompliance with one or more requirements has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident receiving care in the facility.

SUBCHAPTER D. TRUSTEES FOR FACILITIES

Sec. 252.091. FINDINGS AND PURPOSE. (a) The legislature finds that, under some circumstances, closing a facility for a violation of a law or rule may:

(1) have an adverse effect on the facility's residents and their families; and

(2) result in a lack of readily available financial resources to meet the basic needs of the residents for food, shelter, medication, and personal services.

(b) The purpose of this subchapter is to provide for:

(1) the appointment of a trustee to assume the operations of the facility in a manner that emphasizes resident care and reduces resident trauma; and

(b) After receiving the request, the department may enter into an agreement providing for the appointment of a trustee to take charge of the facility under conditions both parties consider appropriate if the department considers the appointment desirable.

(c) An agreement under this section must:
(1) specify the terms and conditions of the trustee's appointment and authority; and
(2) preserve the rights of the residents as granted by law.
(d) The agreement terminates at the time:
(1) specified by the parties; or
(2) either party notifies the other in writing that the party is terminating the appointment agreement.

Added by Acts 1997, 75th Leg., ch. 693, Sec. 1, eff. Sept. 1, 1997.

Sec. 252.093. INVOLUNTARY APPOINTMENT. (a) The department may request the attorney general to bring an action on behalf of the state for the appointment of a trustee to operate a facility if:

(2) the department has suspended or revoked the facility's license;
(3) license suspension or revocation procedures against the facility are pending and the department determines that an imminent threat to the health and safety of the residents exists;
(4) the department determines that an emergency exists that presents an immediate threat to the health and safety of the residents; or
(5) the facility is closing and arrangements for relocation of the residents to other licensed facilities have not been made before closure.
(b) A trustee appointed under Subsection (a)(5) may only ensure an orderly and safe relocation of the facility's residents as quickly as possible.

(1) for Medicaid or insurance;
(2) by a third party; or

(b) The fee collected under this section shall be in the amount prescribed by Section 242.097(c) and shall be deposited to the credit of the nursing and convalescent home trust fund established under Section 242.096.

(c) The department may disburse money to a trustee for a facility licensed under this chapter to alleviate an immediate threat to the health or safety of the facility's residents. Payments under this section may include payments described by Section 242.096(b).

(d) A court may order the department to disburse emergency assistance money to a trustee for a facility licensed under this chapter if the court makes the findings provided by Section 242.096(c).
Sec. 252.096. REIMBURSEMENT. (a) A facility that receives emergency assistance money under this subchapter shall reimburse the department for the amounts received, including interest.

(b) Interest on unreimbursed amounts begins to accrue on the date on which the money is disbursed to the facility. The rate of interest is the rate determined under Section 304.003, Finance Code, to be applicable to judgments rendered during the month in which the money is disbursed to the facility.

(c) The owner of the facility when the trustee is appointed is responsible for the reimbursement.

(d) The amount that remains unreimbursed on the first anniversary of the date on which the money is received is delinquent and the commission may determine that the facility is ineligible for a Medicaid provider contract.

(e) The department shall deposit the reimbursement and interest received under this section to the credit of the nursing and convalescent home trust fund.

(f) The attorney general shall institute an action to collect money due under this section at the request of the department. An action under this section must be brought in Travis County.

(b) If the department orders a facility to close or the facility's closure is in any other way involuntary, the facility shall make the notification, orally or in writing, immediately on receiving notice of the closing.

(c) If the facility's closure is voluntary, the facility shall
make the notification not later than one week after the date on which the decision to close is made.

(c) On written request of the license holder to the department for a hearing, the department shall refer the matter to the State Office of Administrative Hearings. An administrative law judge of that office shall conduct a hearing not earlier than the 10th day or later than the 30th day after the date the hearing request is received by the department to determine if the emergency suspension is to be continued, modified, or rescinded.

(b) A proceeding to impose the penalty is considered to be a contested case under Chapter 2001, Government Code.

(c) The penalty may not exceed $1,000 for each violation. Each day of a continuing violation may be considered a separate violation for purposes of imposing a penalty.

(k) Based on the findings of fact, conclusions of law, and proposal for decision, the department by order may:
   (1) find that a violation occurred and impose a penalty; or
   (2) find that a violation did not occur.

(l) The notice of the order under Subsection (k) that is sent to the person in accordance with Chapter 2001, Government Code, must include a statement of the right of the person to judicial review of the order.

   (1) pay the penalty; or
   (2) file a petition for judicial review of the department's order contesting the occurrence of the violation, the amount of the penalty, or both.

(b) Within the 30-day period prescribed by Subsection (a), a person who files a petition for judicial review may:
   (1) stay enforcement of the penalty by:
      (A) paying the penalty to the court for placement in an escrow account; or
      (B) giving the court a supersedeas bond approved by the court that:
         (i) is for the amount of the penalty; and
         (ii) is effective until all judicial review of the
department's order is final; or

(2) request the court to stay enforcement of the penalty by:

(A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the penalty and is financially unable to give the supersedeas bond; and

(B) sending a copy of the affidavit to the department by certified mail.

(c) If the department receives a copy of an affidavit under Subsection (b)(2), the department may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the penalty or to give a supersedeas bond.

(d) If the person does not pay the penalty and the enforcement of the penalty is not stayed, the penalty may be collected. The attorney general may sue to collect the penalty.

(e) If the court sustains the finding that a violation occurred, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty.

(f) If the court does not sustain the finding that a violation occurred, the court shall order that a penalty is not owed.

(g) If the person paid the penalty and if the amount of the penalty is reduced or the penalty is not upheld by the court, the court shall order, when the court's judgment becomes final, that the appropriate amount plus accrued interest be remitted to the person within 30 days after the date that the judgment of the court becomes final. The interest accrues at the rate charged on loans to depository institutions by the New York Federal Reserve Bank. The interest shall be paid for the period beginning on the date the penalty is paid and ending on the date the penalty is remitted.

(h) If the person gave a supersedeas bond and the penalty is not upheld by the court, the court shall order, when the court's judgment becomes final, the release of the bond. If the person gave a supersedeas bond and the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the
reduced amount.

(b) Notwithstanding Subsection (a), the executive commissioner by rule shall develop guidelines to assist facilities and program
providers in establishing essential caregiver visitation policies and procedures. The guidelines must require the facilities and program providers to:

A facility or program provider may request an extension from the commission to suspend in-person essential caregiver visitation for more than seven days. year in which the district is created, to be used by the district to operate and maintain those facilities for the remainder of the year.

(c) Funds transferred to the district under this section may be used only for a purpose for which the county or the municipality that transferred the funds could lawfully have used the funds if the funds had remained the property and funds of the county or municipality.

(d) On the creation of the district, the board of managers of the county or municipal hospital system shall continue to manage and control the property and affairs of that system until the board of the district is appointed and organized. At that time, the county or municipal board of managers shall transfer to the district board all county and municipal hospital system records, property, and affairs and shall cease to exist.

(e) A county or municipality transferring property or funds under this section is not required to transfer to the district:

(1) a medical facility used primarily for the treatment of inmates of a jail or any other correctional facilities, including juvenile justice facilities;

(b) On the creation of the district, the county or a municipality in the district that issued bonds for hospital purposes is no longer liable for the payment of the bonds or for providing interest and sinking fund requirements on those bonds.

(c) This section does not limit or affect the rights of a bondholder against the county or municipality if there is a default in payment of the principal or interest on the bonds in accordance with their terms.

(d) If the issuance of bonds by the county or municipality, or both, to provide hospital facilities was approved at a bond election but the bonds have not been sold on the date on which the hospital district is created under this chapter, the bond authority is canceled and the county or municipality, or both, may not sell the bonds.

(B) when added to the rates of other taxes imposed by
the district, does not exceed the maximum tax rate of the district;
and
(2) the bonds are authorized by majority vote of the

order) on each $100 of the taxable value of property taxable by the district."

(c) The ballot for an election held to determine the question of conversion of a district created in accordance with Chapter 281, if bonds issued by the district are outstanding, shall be printed to provide for voting for or against the proposition: "The conversion of the hospital district from a district operated under Chapter 281, Health and Safety Code, to a district operated under the Optional Hospital District Law of 1957, and the levy of a tax not to exceed 75 cents on each $100 of the taxable value of property taxable by the district until presently outstanding bonds issued by the district have been retired, and thereafter the levy of a tax not to exceed (the amount determined by the commissioners court in the election order) on each $100 of the taxable value of property taxable by the district."

**SUBCHAPTER D. MANDATORY PAYMENTS**

Sec. 295A.151. MANDATORY PAYMENTS. (a) Except as provided by
Subsection (e), if the board authorizes a health care provider
participation program under this chapter, the board shall require an
annual mandatory payment to be assessed on the net patient revenue of
each institutional health care provider located in the district. The
board shall provide that the mandatory payment is to be collected at
least annually, but not more often than quarterly. In the first year
in which the mandatory payment is required, the mandatory payment is
assessed on the net patient revenue of an institutional health care
provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. The district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be a uniform percentage of the amount of net patient revenue generated by each paying hospital in the district. A mandatory payment authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) The aggregate amount of the mandatory payments required of all paying hospitals in the district may not exceed six percent of the aggregate net patient revenue of all paying hospitals in the district.

(d) Subject to the maximum amount prescribed by Subsection (c), the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter, fund an intergovernmental transfer described by Section 295A.103(b)(1), or make other payments authorized under this chapter. The amount of revenue from mandatory payments that may be used for administrative expenses by the district in a year may not exceed $25,000, plus the cost of collateralization of deposits. If the board demonstrates to the paying hospitals that the costs of administering the health care provider participation program under this chapter, excluding those costs associated with the collateralization of deposits, exceed $25,000 in any year, on consent of all of the paying hospitals, the district may use additional revenue from mandatory payments received under this chapter to compensate the district for its administrative expenses. A paying hospital may not unreasonably withhold consent to compensate the district for administrative expenses.

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient or insurer.
(f) A mandatory payment under this chapter is not a tax for purposes of Section 5(a), Article IX, Texas Constitution, or Chapter 1001, Special District Local Laws Code.

Added by Acts 2017, 85th Leg., R.S., Ch. 651 (S.B. 2117), Sec. 1, eff. June 12, 2017.

Sec. 295A.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS. The district may collect or contract for the assessment and collection of mandatory payments authorized under this chapter.

Added by Acts 2017, 85th Leg., R.S., Ch. 651 (S.B. 2117), Sec. 1, eff. June 12, 2017.

Sec. 295A.153. CORRECTION OF INVALID PROVISION OR PROCEDURE. To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

Added by Acts 2017, 85th Leg., R.S., Ch. 651 (S.B. 2117), Sec. 1, eff. June 12, 2017.

to be assessed quarterly on the net patient revenue of each institutional health care provider located in the county. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the fiscal year ending in 2013. The county may update the amount of the mandatory payment on an annual basis based on data reported to the Department of State Health Services in a more recent fiscal year.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying hospital in the county. A mandatory payment authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) The commissioners court of a county that collects a mandatory payment authorized under this chapter shall set the amount of the mandatory payment. The amount of the mandatory payment required of each paying hospital may not exceed an amount that, when added to the amount of the mandatory payments required from all other paying hospitals in the county, equals an amount of revenue that exceeds six percent of the aggregate net patient revenue of all paying hospitals in the county.

(d) Subject to the maximum amount prescribed by Subsection (c), the commissioners court of a county that collects a mandatory payment authorized under this chapter shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the county for activities under this chapter, to fund the nonfederal share of a Medicaid supplemental payment program, and to pay for indigent programs, except that the amount of revenue from mandatory payments used for administrative expenses of the county for activities under this chapter in a year may not exceed the lesser of four percent of the total revenue generated from the mandatory payment or $20,000.

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient.

Sec. 297.154. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE. (a) The purpose of this chapter is to generate revenue by collecting from institutional health care providers a mandatory payment to be used to provide the nonfederal share of a Medicaid supplemental payment program.

SUBCHAPTER D. MANDATORY PAYMENTS

Sec. 298A.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) Except as provided by Subsection (e), if the board authorizes a health care provider participation program under this chapter, the board may require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board may provide for the mandatory payment to be assessed quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this
chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) If the board requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298A.103(c)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district is $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045.

Added by Acts 2017, 85th Leg., R.S., Ch. 17 (H.B. 4300), Sec. 1, eff. May 18, 2017.

Sec. 298A.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS.
(a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for
like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2017, 85th Leg., R.S., Ch. 17 (H.B. 4300), Sec. 1, eff. May 18, 2017.

Sec. 298A.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for nonpublic hospitals to support the provision of health care by institutional health care providers to district residents in need of health care.

(b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals and to cover the administrative expenses of the district associated with activities under this chapter.

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section
298A.103(c)(1) is available to the district.

Added by Acts 2017, 85th Leg., R.S., Ch. 17 (H.B. 4300), Sec. 1, eff. May 18, 2017.

       (C) payments available under another waiver program authorizing payments that are substantially similar to Medicaid payments to nonpublic hospitals described by Paragraph (A) or (B); or
       (D) any reimbursement to nonpublic hospitals for which federal matching funds are available;

(2) subject to Section 298B.151(d), pay the administrative expenses of the district in administering the program, including collateralization of deposits;

(3) refund a mandatory payment collected in error from a paying provider;

(4) refund to paying providers a proportionate share of the money that the district:
       (A) receives from the Health and Human Services Commission that is not used to fund the nonfederal share of Medicaid supplemental payment program payments; or
       (B) determines cannot be used to fund the nonfederal share of Medicaid supplemental payment program payments;

(5) transfer funds to the Health and Human Services Commission if the district is legally required to transfer the funds to address a disallowance of federal matching funds with respect to
programs for which the district made intergovernmental transfers described by Subdivision (1); and

(e) Notwithstanding any other provision of this chapter, with respect to an intergovernmental transfer of funds described by Subsection (c)(1) made by the district, any funds received by the state, district, or other entity as a result of that transfer may not be used by the state, district, or any other entity to:

(1) expand Medicaid eligibility under the Patient Protection and Affordable Care Act (Pub. L. No. 111-148) as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152); or

SUBCHAPTER D. MANDATORY PAYMENTS

Sec. 298B.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) Except as provided by Subsection (e), if the board authorizes a health care provider participation program under this chapter, the board may require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board may provide for the mandatory payment to be assessed quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most
recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) If the board requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298B.103(c)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district is $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045.

Added by Acts 2017, 85th Leg., R.S., Ch. 457 (S.B. 1462), Sec. 28, eff. June 12, 2017.
Sec. 298B.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS. (a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter. (b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services. (c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district. Added by Acts 2017, 85th Leg., R.S., Ch. 457 (S.B. 1462), Sec. 28, eff. June 12, 2017.

Sec. 298B.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for nonpublic hospitals to support the provision of health care by institutional health care providers to district residents in need of health care. (b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals and to cover the administrative expenses of the district associated with activities under this chapter. (c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid
Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 298B.103(c)(1) is available to the district.

Added by Acts 2017, 85th Leg., R.S., Ch. 457 (S.B. 1462), Sec. 28, eff. June 12, 2017.

Sec. 298B.154. FEDERAL DISALLOWANCE. Notwithstanding any other provision of this chapter, if the Centers for Medicare and Medicaid Services issues a disallowance of federal matching funds for a purpose for which intergovernmental transfers described by Section 298B.103(c)(1) were made and the Health and Human Services Commission demands repayment from the district of federal funds paid to the district for that purpose, the district may require and collect mandatory payments from each paying provider that received those federal funds in an amount sufficient to satisfy the repayment demand made by the commission. The percentage limitation prescribed by Section 298B.151(c) does not apply to a mandatory payment required under this section.

Added by Acts 2017, 85th Leg., R.S., Ch. 457 (S.B. 1462), Sec. 28, eff. June 12, 2017.

SUBCHAPTER D. MANDATORY PAYMENTS

Sec. 298C.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) Except as provided by Subsection (e), if the board authorizes a health care provider participation program under
this chapter, the board may require a mandatory payment to be assessed, either annually or periodically throughout the fiscal year at the discretion of the board, on the net patient revenue of each institutional health care provider located in the district. The board shall provide an institutional health care provider written notice of each assessment under this subsection, and the provider has 30 calendar days following the date of receipt of the notice to pay the assessment. In the first fiscal year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment assessed under this chapter by the board must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) If the board requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298C.103(c)(1). The
annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district is $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045 of this code.

Added by Acts 2019, 86th Leg., R.S., Ch. 694 (S.B. 2315), Sec. 1, eff. June 10, 2019.

(a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 694 (S.B. 2315), Sec. 1, eff. June 10, 2019.

Sec. 298C.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY.
(a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for hospitals to support the provision of health care by institutional health care providers located in the district.

(b) This chapter does not authorize the district to collect
mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for hospitals and to cover the administrative expenses of the district associated with activities under this chapter.

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 298C.103(c)(1) is available to at least one institutional health care provider located in the district.

SUBCHAPTER D. MANDATORY PAYMENTS
Sec. 298D.151. MANDATORY PAYMENTS. (a) If the board authorizes a program under this chapter, the board shall require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board may provide that the mandatory payment is to be collected at least annually, but not more often than quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most
recent fiscal year for which that data was reported. If the
institutional health care provider did not report any data under
those sections, the provider's net patient revenue is the amount of
that revenue as contained in the provider's Medicare cost report
submitted for the previous fiscal year or for the closest subsequent
fiscal year for which the provider submitted the Medicare cost
report. The district shall update the amount of the mandatory
payment on an annual basis and may update the amount on a more
frequent basis.

(b) The amount of a mandatory payment authorized under this
chapter must be a uniform percentage of the amount of net patient
revenue generated by each paying hospital in the district. A
mandatory payment authorized under this chapter may not hold harmless
any institutional health care provider, as required under 42 U.S.C.
Section 1396b(w).

(c) The aggregate amount of the mandatory payments required of
all paying hospitals in the district may not exceed six percent of
the aggregate net patient revenue of all paying hospitals in the
district.

(d) Subject to the maximum amount prescribed by Subsection (c)
and this subsection, the board shall set the mandatory payments in
amounts that in the aggregate will generate sufficient revenue to
cover the administrative expenses of the district for activities
under this chapter, fund an intergovernmental transfer described by
Section 298D.103(b)(1), or make other payments authorized under this
chapter. The amount of the mandatory payments must be based on
reasonable estimates of the amount of revenue necessary to cover the
administrative expenses, intergovernmental transfers, and other
payments described by this subsection as authorized under this
chapter. The amount of revenue from mandatory payments that may be
used for administrative expenses by the district in a year may not
exceed $25,000, plus the cost of collateralization of deposits. If
the board demonstrates to the paying hospitals that the costs of
administering the program under this chapter, excluding those costs
associated with the collateralization of deposits, exceed $25,000 in
any year, on consent of all of the paying hospitals, the district may
use additional revenue from mandatory payments received under this
chapter to compensate the district for its administrative expenses.
A paying hospital may not unreasonably withhold consent to compensate
the district for administrative expenses.
(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient or insurer.

(f) A mandatory payment under this chapter is not a tax for purposes of Section 9, Article IX, Texas Constitution, or Chapter 1053, Special District Local Laws Code.

Sec. 298D.153. CORRECTION OF INVALID PROVISION OR PROCEDURE. To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(b) A district's local provider participation fund consists of:

   (1) all revenue received by the district attributable to mandatory payments authorized under this chapter;
   (2) money received from the Health and Human Services Commission as a refund of an intergovernmental transfer under the program, provided that the intergovernmental transfer does not receive a federal matching payment; and
   (3) the earnings of the fund.

(c) Money deposited to the local provider participation fund of a district may be used only to:

   (1) fund intergovernmental transfers from the district to the state to provide the nonfederal share of Medicaid payments for:

      (A) uncompensated care payments to hospitals in the Medicaid managed care service area in which the district is located, if those payments are authorized under the Texas Healthcare Transformation and Quality Improvement Program waiver issued under Section 1115 of the federal Social Security Act (42 U.S.C. (e) Notwithstanding any other provision of this chapter, with 
respect to an intergovernmental transfer of funds described by

SUBCHAPTER D. MANDATORY PAYMENTS

Sec. 298E.151. MANDATORY PAYMENTS BASED ON PAYING PROVIDER NET PATIENT REVENUE. (a) Except as provided by Subsection (e), if the board of a district authorizes a health care provider participation program under this chapter, the board may require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board may provide for the mandatory payment to be assessed quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider as reported in the provider's Medicare cost report submitted for the most recent fiscal year for which the provider submitted a Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment assessed under this chapter by the board of a district must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider located in the district, as required under 42 U.S.C. Section 1396b(w).

(c) If the board of a district requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board of a district
requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298E.103(c)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district is $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045 of this code.

Added by Acts 2019, 86th Leg., R.S., Ch. 304 (H.B. 1142), Sec. 2, eff. May 31, 2019.

Sec. 298E.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS.
(a) A district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 304 (H.B. 1142), Sec. 2, eff. May 31, 2019.
Added by Acts 2019, 86th Leg., R.S., Ch. 345 (S.B. 1350), Sec. 1, eff. May 31, 2019.
Sec. 298E.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize a district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for hospitals to support the provision of health care by institutional health care providers located in the district to district residents in need of health care.

(b) This chapter does not authorize a district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for hospitals and to cover the administrative expenses of the district associated with activities under this chapter.

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board of a district may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) A district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 298E.103(c)(1) is available to the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 304 (H.B. 1142), Sec. 2, eff. May 31, 2019.
Added by Acts 2019, 86th Leg., R.S., Ch. 345 (S.B. 1350), Sec. 1, eff. May 31, 2019.

If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) If the board requires a mandatory payment authorized under this chapter, the board shall set the amount of the mandatory
payment, subject to the limitations of this chapter. The aggregate amount of the mandatory payments required of all paying providers in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying providers in the district.

(d) Subject to Subsection (c), if the board requires a mandatory payment authorized under this chapter, the board shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 298F.103(c)(1). The amount of revenue from mandatory payments that may be used for administrative expenses by the district in a year for activities under this chapter may not exceed $184,000, plus the cost of collateralization of deposits. If the board demonstrates to the paying providers that the costs of administering the health care provider participation program under this chapter, excluding those costs associated with the collateralization of deposits, exceed $184,000 in any year, on consent of all of the paying providers, the district may use additional revenue from mandatory payments received under this chapter to compensate the district for its administrative expenses. A paying provider may not unreasonably withhold consent to compensate the district for administrative expenses.

(e) A paying provider may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of Section 4, Article IX, Texas Constitution, or Section 281.045 of this code.

Added by Acts 2019, 86th Leg., R.S., Ch. 639 (S.B. 1545), Sec. 1, eff. June 10, 2019.

Sec. 298F.152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS.
(a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an
amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 639 (S.B. 1545), Sec. 1, eff. June 10, 2019.

Sec. 298F.153. PURPOSE; CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) The purpose of this chapter is to authorize the district to establish a program to enable the district to collect mandatory payments from institutional health care providers to fund the nonfederal share of a Medicaid supplemental payment program or the Medicaid managed care rate enhancements for nonpublic hospitals to support the provision of health care by institutional health care providers to district residents in need of health care.

(b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals and to cover the administrative expenses of the district associated with activities under this chapter and other amounts for which the fund may be used as described by Section 298F.103(c).

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(d) The district may only assess and collect a mandatory
payment authorized under this chapter if a waiver program, uniform rate enhancement, reimbursement, or other payment described by Section 298F.103(c)(1) is available to nonpublic hospitals in the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 639 (S.B. 1545), Sec. 1, eff. June 10, 2019.

For expiration of this chapter, see Section 298G.004.

The board shall provide an institutional health care provider written notice of each assessment under this subsection, and the provider has 30 calendar days following the date of receipt of the notice to make the assessed mandatory payment. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider, as determined by the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. If the mandatory payment is required, the district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying provider in the district as
permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any paying provider, as required under 42 U.S.C. Section 1396b(w).

(b) This chapter does not authorize the district to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to:

(1) fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals; and

(2) cover the administrative expenses of the district associated with activities under this chapter and other uses of the fund described by Section 298G.103(c).

(c) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(a) Each governing body of a local government that collects a mandatory payment authorized under this chapter shall create a local provider participation fund.

Sec. 300.0103. LOCAL PROVIDER PARTICIPATION FUND; AUTHORIZED USES OF MONEY. (a) The local provider participation fund established by a local government under Section 300.0102 consists of:

(1) all revenue received by the local government attributable to mandatory payments authorized under this chapter;

(2) money received from the Health and Human Services Commission as a refund of an intergovernmental transfer from the local government to the state for the purpose of providing the nonfederal share of Medicaid supplemental payment program payments, provided that the intergovernmental transfer does not receive a
federal matching payment; and

(3) the earnings of the fund.

(b) Money deposited to the local provider participation fund of a local government may be used only to:

(1) fund intergovernmental transfers from the local government to the state to provide the nonfederal share of Medicaid payments for:

(A) uncompensated care payments to nonpublic hospitals, if those payments are authorized under the Texas Healthcare Transformation and Quality Improvement Program waiver issued under Section 1115 of the federal Social Security Act (42 U.S.C. Section 1315);

(B) uniform rate enhancements for nonpublic hospitals in the Medicaid managed care service area in which the local government is located;

(C) payments available under another waiver program authorizing payments that are substantially similar to Medicaid payments to nonpublic hospitals described by Paragraph (A) or (B); or

(D) any reimbursement to nonpublic hospitals for which federal matching funds are available;

(2) subject to Section 300.0151(d), pay the administrative expenses of the local government in administering the program, including collateralization of deposits;

(3) refund all or a portion of a mandatory payment collected in error from a paying hospital;

(4) refund to paying hospitals a proportionate share of the money that the local government:

(A) receives from the Health and Human Services Commission that is not used to fund the nonfederal share of Medicaid supplemental payment program payments; or

(B) determines cannot be used to fund the nonfederal share of Medicaid supplemental payment program payments;

(5) transfer funds to the Health and Human Services Commission if the local government is required by law to transfer the funds to address a disallowance of federal matching funds with respect to payments, rate enhancements, and reimbursements for which the local government made intergovernmental transfers described by Subdivision (1); and

(6) reimburse the local government if the local government is required by the rules governing the uniform rate enhancement
program described by Subdivision (1)(B) to incur an expense or forego Medicaid reimbursements from the state because the balance of the local provider participation fund is not sufficient to fund that rate enhancement program.

(d) Notwithstanding any other provision of this chapter, with respect to an intergovernmental transfer of funds described by Subsection (b)(1) made by the local government, any funds received by the state, local government, or other entity as a result of that transfer may not be used by the state, local government, or any other entity to:

(1) expand Medicaid eligibility under the Patient Protection and Affordable Care Act (Pub. L. No. 111-148) as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152); or

**SUBCHAPTER D. MANDATORY PAYMENTS**

Sec. 300.0151. MANDATORY PAYMENTS. (a) Except as provided by Subsection (e), if the governing body of a local government authorizes a health care provider participation program under this chapter, the governing body shall require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the hospital district, county, or municipality, as applicable. The governing body of the local government shall provide that the mandatory payment is to be assessed at least annually, but not more often than quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider located in the hospital district, county, or municipality, as applicable, as determined by the data reported to
the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. The local government shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter for a local government must be uniformly proportionate with the amount of net patient revenue generated by each paying hospital in the hospital district, county, or municipality, as applicable, as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) The governing body of a local government that authorizes a program under this chapter shall set the amount of the mandatory payment. The aggregate amount of the mandatory payments required of all paying hospitals in the hospital district, county, or municipality, as applicable, may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying hospitals in the hospital district, county, or municipality, as applicable.

(d) Subject to Subsection (c), the governing body of a local government shall set the mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the local government for activities under this chapter and to fund an intergovernmental transfer described by Section 300.0103(b)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses for activities under this chapter by the local government may not exceed $150,000, plus the cost of collateralization of deposits, regardless of actual expenses.

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient.

(f) A mandatory payment required by the governing body of a hospital district under this chapter is not a tax for purposes of the applicable provision of Article IX, Texas Constitution.
Sec. 300.0152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS.
(a) A hospital district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.
(b) A county or municipality may collect or, using a competitive bidding process, contract for the assessment and collection of mandatory payments authorized under this chapter.
(c) The person charged by the local government with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the local government a collection fee in an amount not to exceed the person's usual and customary charges for like services.
(d) If the person charged with the assessment and collection of mandatory payments is an official of the local government, any revenue from a collection fee charged under Subsection (c) shall be deposited in the local government general fund and, if appropriate, shall be reported as fees of the local government.

Sec. 300.0153. CORRECTION OF INVALID PROVISION OR PROCEDURE.
(a) This chapter does not authorize a local government to collect mandatory payments for the purpose of raising general revenue or any amount in excess of the amount reasonably necessary to fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals and to cover the administrative expenses of the local government associated with activities under this chapter and other uses of the fund described by Section 300.0103(b).
(b) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the local government may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and
Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the local government or an institutional health care provider in the local hospital district, county, or municipality, as applicable, beyond the provisions of this chapter. This section does not require the governing body of a local government to adopt a rule.

(c) The local government may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 300.0103(b)(1) is available to the local government.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 1, eff. June 10, 2019.

Sec. 300.0154. REPORTING REQUIREMENTS. (a) The governing body of each local government that authorizes a program under this chapter shall report information to the Health and Human Services Commission regarding the program on a schedule determined by the commission.

(b) The information must include:

(1) the amount of the mandatory payments required and collected in each year the program is authorized;

(2) any expenditure of money attributable to mandatory payments collected under this chapter, including:

(A) any contract with an entity for the administration or operation of a program authorized by this chapter; or

(B) a contract with a person for the assessment and collection of a mandatory payment as authorized under Section 300.0152; and

(3) the amount of money attributable to mandatory payments collected under this chapter that is used for any other purpose.

(c) The executive commissioner of the Health and Human Services Commission shall adopt rules to administer this section.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 1, eff. June 10, 2019.

Sec. 300.0155. EXPIRATION OF AUTHORITY. The authority of a local government to administer and operate a program under this
chapter expires on September 1 following the second anniversary of
the date the governing body of the local government adopted the order
or ordinance authorizing the local government to participate in the
program as provided by Section 300.0004.

June 10, 2019.

Sec. 300.0156.  AUTHORITY TO REFUSE FOR VIOLATION.  The Health
and Human Services Commission may refuse to accept money from a local
provider participation fund established under this chapter if the
commission determines that doing so may violate federal law.

(a) Except as provided by Subsection (e), if the board authorizes a health care provider participation program under this chapter, the district shall require an annual mandatory payment to be assessed on the net patient revenue of each institutional health care provider located in the district. The board shall provide that the mandatory payment is to be assessed at least annually, but not more often than quarterly. In the first year in which the mandatory payment is required, the mandatory payment is assessed on the net patient revenue of an institutional health care provider located in the district as determined by the data reported to the Department of State Health Services under Sections 311.032 and 311.033 in the most recent fiscal year for which that data was reported. If the institutional health care provider did not report any data under those sections, the provider's net patient revenue is the amount of that revenue as contained in the provider's Medicare cost report submitted for the previous fiscal year or for the closest subsequent fiscal year for which the provider submitted the Medicare cost report. The district shall update the amount of the mandatory payment on an annual basis.

(b) The amount of a mandatory payment authorized under this chapter must be uniformly proportionate with the amount of net patient revenue generated by each paying hospital in the district as permitted under federal law. A health care provider participation program authorized under this chapter may not hold harmless any institutional health care provider, as required under 42 U.S.C. Section 1396b(w).

(c) The board shall set the amount of a mandatory payment authorized under this chapter. The aggregate amount of the mandatory payments required of all paying hospitals in the district may not exceed six percent of the aggregate net patient revenue from hospital services provided by all paying hospitals in the district.

(d) Subject to Subsection (c), the board shall set the
mandatory payments in amounts that in the aggregate will generate sufficient revenue to cover the administrative expenses of the district for activities under this chapter and to fund an intergovernmental transfer described by Section 300A.0103(b)(1). The annual amount of revenue from mandatory payments that shall be paid for administrative expenses by the district for activities under this chapter may not exceed $150,000, plus the cost of collateralization of deposits, regardless of actual expenses. 

(e) A paying hospital may not add a mandatory payment required under this section as a surcharge to a patient.

(f) For purposes of any hospital district that creates a district under this chapter, a mandatory payment assessed under this chapter is not a tax for hospital purposes for purposes of the applicable provision of Article IX, Texas Constitution.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0152. ASSESSMENT AND COLLECTION OF MANDATORY PAYMENTS. (a) The district may designate an official of the district or contract with another person to assess and collect the mandatory payments authorized under this chapter.

(b) The person charged by the district with the assessment and collection of mandatory payments shall charge and deduct from the mandatory payments collected for the district a collection fee in an amount not to exceed the person's usual and customary charges for like services.

(c) If the person charged with the assessment and collection of mandatory payments is an official of the district, any revenue from a collection fee charged under Subsection (b) shall be deposited in the district general fund and, if appropriate, shall be reported as fees of the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0153. CORRECTION OF INVALID PROVISION OR PROCEDURE; LIMITATION OF AUTHORITY. (a) This chapter does not authorize the district to collect mandatory payments for the purpose of raising
general revenue or any amount in excess of the amount reasonably necessary to:

(1) fund the nonfederal share of a Medicaid supplemental payment program or Medicaid managed care rate enhancements for nonpublic hospitals; and

(2) cover the administrative expenses of the district associated with activities under this chapter and other uses of the fund described by Section 300A.0103(b).

(b) To the extent any provision or procedure under this chapter causes a mandatory payment authorized under this chapter to be ineligible for federal matching funds, the board may provide by rule for an alternative provision or procedure that conforms to the requirements of the federal Centers for Medicare and Medicaid Services. A rule adopted under this section may not create, impose, or materially expand the legal or financial liability or responsibility of the district or an institutional health care provider in the district beyond the provisions of this chapter. This section does not require the board to adopt a rule.

(c) The district may only assess and collect a mandatory payment authorized under this chapter if a waiver program, uniform rate enhancement, or reimbursement described by Section 300A.0103(b)(1) is available to the district.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0154. REPORTING REQUIREMENTS. (a) The board of a district that authorizes a program under this chapter shall report information to the Health and Human Services Commission regarding the program on a schedule determined by the commission.

(b) The information must include:

(1) the amount of the mandatory payments required and collected in each year the program is authorized;

(2) any expenditure of money attributable to mandatory payments collected under this chapter, including:

(A) any contract with an entity for the administration or operation of a program authorized by this chapter; or

(B) a contract with a person for the assessment and collection of a mandatory payment as authorized under Section
(3) the amount of money attributable to mandatory payments collected under this chapter that is used for any other purpose.

(c) The executive commissioner of the Health and Human Services Commission shall adopt rules to administer this section.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0155. EXPIRATION OF AUTHORITY. The authority of a district to administer and operate a program under this chapter expires on September 1 following the second anniversary of the date the board of the district authorized the district to participate in the program as provided by Section 300A.0051.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

Sec. 300A.0156. AUTHORITY TO REFUSE FOR VIOLATION. The Health and Human Services Commission may refuse to accept money from a local provider participation fund established under this chapter if the commission determines that doing so may violate federal law.

Added by Acts 2019, 86th Leg., R.S., Ch. 923 (H.B. 4289), Sec. 2, eff. June 10, 2019.

standards set forth in Subsection (b). The hospital or hospital
system shall file a statement with the Center for Health Statistics
at the department and the chief appraiser of the local appraisal

system's fiscal year ends, stating which of the standards in
Subsection (b) have been satisfied, provided, however, that the first
report shall be filed no later than the 120th day after the end of
the hospital's or hospital system's fiscal year ending during 1994.
For hospitals in a hospital system, the corporate parent may elect to
satisfy the charity care requirements of this subchapter for each of
the hospitals within the system on a consolidated basis.

provide community benefits, which include charity care and

to the community needs, as determined through the community needs
assessment, the available resources of the hospital or hospital
system, and the tax-exempt benefits received by the hospital or

(3) A nonprofit hospital that has been designated as a disproportionate share hospital under the state Medicaid program in the current fiscal year or in either of the previous two fiscal years shall be considered to have provided a reasonable amount of charity care and government-sponsored indigent health care and shall be deemed in compliance with the standards in this subsection.

(c) The providing of charity care and government-sponsored indigent health care in accordance with Subsection (b)(1)(A) shall be guided by the prudent business judgment of the hospital which will ultimately determine the appropriate level of charity care and government-sponsored indigent health care based on the community needs, the available resources of the hospital, the tax-exempt benefits received by the hospital, and other factors that may be unique to the hospital, such as the hospital’s volume of Medicare and Medicaid patients. These criteria shall not be determinative factors, but shall be guidelines contributing to the hospital's decision, along with other factors which may be unique to the hospital. The standards set forth in Subsections (b)(1)(B) and (b)(1)(C) shall also not be considered determinative of the amount of charity care and government-sponsored indigent health care that will be considered reasonable under Subsection (b)(1)(A).

(d) For purposes of this section, a hospital that satisfies Subsection (b)(1)(A) or (b)(3) shall be excluded in determining a hospital system's compliance with the standards provided by Subsection (b)(1)(B) or (b)(1)(C).

(e) In any fiscal year that a hospital or hospital system,
through unintended miscalculation, fails to meet any of the standards in Subsection (b), the hospital or hospital system shall not lose its tax-exempt status without the opportunity to cure the miscalculation in the fiscal year following the fiscal year the failure is discovered by both meeting one of the standards and providing an additional amount of charity care and government-sponsored indigent health care that is equal to the shortfall from the previous fiscal year. A hospital or hospital system may apply this provision only once every five years.

(f) A nonprofit hospital or hospital system under contract with a local county to provide indigent health care services under Chapter 61 may credit unreimbursed costs from direct care provided to an eligible county resident toward meeting the nonprofit hospital's or system's charity care and government-sponsored indigent health care requirement.

Sec. 313.005. PREREQUISITES FOR CONSENT. (a) If an adult patient of a home and community support services agency or in a hospital or nursing home, or an adult inmate of a county or municipal jail, is comatose, incapacitated, or otherwise mentally or physically incapable of communication and, according to reasonable medical
judgment, is in need of medical treatment, the attending physician shall describe the:

(1) patient's comatose state, incapacity, or other mental or physical inability to communicate in the patient's medical record; and

(2) proposed medical treatment in the patient's medical record.

(b) The attending physician shall make a reasonably diligent effort to contact or cause to be contacted the persons eligible to serve as surrogate decision-makers. Efforts to contact those persons shall be recorded in detail in the patient's medical record.

(c) If a surrogate decision-maker consents to medical treatment on behalf of the patient, the attending physician shall record the date and time of the consent and sign the patient's medical record. The surrogate decision-maker shall countersign the patient's medical record or execute an informed consent form.

(d) A surrogate decision-maker's consent to medical treatment that is not made in person shall be reduced to writing in the patient's medical record, signed by the home and community support services agency, hospital, or nursing home staff member receiving the consent, and countersigned in the patient's medical record or on an informed consent form by the surrogate decision-maker as soon as possible.

Sec. 313.007. LIMITATION ON LIABILITY. (a) A surrogate decision-maker is not subject to criminal or civil liability for consenting to medical care under this chapter if the consent is made in good faith.

(b) An attending physician, home and community support services agency, hospital, or nursing home or a person acting as an agent for or under the control of the physician, home and community support services agency, hospital, or nursing home is not subject to criminal or civil liability and has not engaged in unprofessional conduct if the medical treatment consented to under this chapter:

(1) is done in good faith under the consent to medical treatment; and

(2) does not constitute a failure to exercise due care in the provision of the medical treatment.

Sec. 314.002. REVIEW AND CERTIFICATION OF COOPERATIVE AGREEMENTS. (a) A hospital may negotiate and enter into cooperative agreements with other hospitals in the state if the likely benefits resulting from the agreement outweigh any disadvantages attributable to a reduction in competition that may result from the agreements. Acting through their boards of directors, a group of hospitals may conduct discussions or negotiations concerning cooperative agreements, provided that the discussions or negotiations do not involve price fixing or predatory pricing.

(b) Parties to a cooperative agreement may apply to the department for a certification of public advantage governing the cooperative agreement. The application must include a written copy of the cooperative agreement and describe the nature and scope of the cooperation in the agreement and any consideration passing to any party under the agreement. A copy of the application and copies of all additional related materials must be submitted to the attorney general and to the department at the same time. The department shall charge an application fee in an amount not to exceed $10,000 per application.

(c) The department shall review the application in accordance with the standards set forth in Subsections (e) and (f) and shall, if requested, hold a public hearing in accordance with rules adopted by the executive commissioner. The department shall grant or deny the application within 120 days of the date of filing of the application and that decision must be in writing and set forth the basis for the decision. The department shall furnish a copy of the decision to the applicants, the attorney general, and any intervenor within 10 days of its issuance.

(d) The department shall issue a certificate of public advantage for a cooperative agreement if it determines that the applicants have demonstrated by clear and convincing evidence that the likely benefits resulting from the agreement outweigh any disadvantages attributable to a reduction in competition that may result from the agreement.

(e) In evaluating the potential benefits of a cooperative agreement, the department shall consider whether one or more of the
following benefits may result from the cooperative agreement:

(1) enhancement of the quality of hospital and hospital-related care provided to Texas citizens;

(2) preservation of hospital facilities in geographical proximity to the communities traditionally served by those facilities;

(3) gains in the cost efficiency of services provided by the hospitals involved;

(4) improvements in the utilization of hospital resources and equipment; and

(5) avoidance of duplication of hospital resources.

(f) The department's evaluation of any disadvantages attributable to any reduction in competition likely to result from the agreement may include, but need not be limited to, the following factors:

(1) the extent of any likely adverse impact on the ability of health maintenance organizations, preferred provider organizations, or other health care payors to negotiate optimal payment and service arrangements with hospitals, physicians, allied health care professionals, or other health care providers;

(2) the extent of any reduction in competition among physicians, allied health professionals, other health care providers, or other persons furnishing goods or services to, or in competition with, hospitals;

(3) the extent of any adverse impact on patients in the quality, availability, and price of health care services; and

(4) the availability of arrangements that are less restrictive to competition and achieve similar benefits.

(g) The department shall consult with the attorney general regarding any potential reduction in competition that may result from a cooperative agreement. The attorney general shall review the application and all supporting documents provided by the applicants, any documents or other information provided by any intervenors, and any documents or testimony provided at a public hearing, if any, on the application and shall advise the department whether the proposed cooperative agreement would have inappropriate impact on competition. If the attorney general advises the department to deny an application, the attorney general shall state the basis and reasons for the recommended denial.
Sec. 314.003. ATTORNEY GENERAL AUTHORITY. (a) The attorney general, at any time after an application is filed under Section 314.002(b), may require by civil investigative demand the attendance and testimony of witnesses and the production of documents in Travis County or the county in which the applicants are located for the purpose of investigating whether the cooperative agreement satisfies the standards set forth in Section 314.002. All nonpublic documents produced and testimony given to the attorney general are subject to the prohibitions on disclosure and use of Section 15.10(i), Business & Commerce Code. The attorney general may seek an order from the district court compelling compliance with a civil investigative demand issued under this section.

(b) The attorney general may seek to enjoin the operation of a cooperative agreement for which an application for certificate of public advantage has been filed by filing suit against the parties to the cooperative agreement in district court. The attorney general may file an action before or after the department acts on the application for a certificate but, except as provided in Subsection (e), the action must be brought not later than 20 days following the attorney general's receipt of a copy of the final and appealable decision of the department.

(c) Upon the filing of the complaint in an action under Subsection (b), the department's certification, if previously issued, must be stayed and the cooperative agreement is of no further force unless the court orders otherwise or until the action is concluded. The attorney general may apply to the court for any ancillary temporary or preliminary relief necessary to stay the cooperative agreement pending final disposition of the case.

(d) In any action brought under Subsection (b), the applicants for a certificate bear the burden of establishing by clear and convincing evidence that in accordance with Sections 314.002(e) and (f), the likely benefits resulting from the cooperative agreement
outweigh any disadvantages attributable to a reduction in competition that may result from the agreement. In assessing disadvantages attributable to a reduction in competition likely to result from the agreement, the court may draw upon the determinations of federal and Texas courts concerning unreasonable restraint of trade under 15 U.S.C. Sections 1 and 2, and Chapter 15, Business & Commerce Code.

(e) If, at any time following the 20-day period specified in Subsection (b), the attorney general determines that as a result of changed circumstances the benefits resulting from a certified agreement no longer outweigh any disadvantages attributable to a reduction in competition resulting from the agreement, the attorney general may file suit in the district court seeking to cancel the certificate of public advantage. The standard for adjudication for an action brought under this subsection is as follows:

(1) except as provided in Subdivision (2), in any action brought under this subsection the attorney general has the burden of establishing by a preponderance of the evidence that as a result of changed circumstances the benefits resulting from the agreement and the unavoidable costs of canceling the agreement are outweighed by disadvantages attributable to a reduction in competition resulting from the agreement;

(2) in any action under this subsection, if the attorney general first establishes by a preponderance of evidence that the department's certification was obtained as a result of material misrepresentation to the department or the attorney general or as the result of coercion, threats, or intimidation toward any party to the cooperative agreement, then the parties to the agreement bear the burden of establishing by clear and convincing evidence that the benefits resulting from the agreement and the unavoidable costs of canceling the agreement are outweighed by disadvantages attributable to any reduction in competition resulting from the agreement.
