(f) The authority, acting through the board, may carry out any activities and acquire, purchase, construct, own, operate, maintain, repair, improve, or extend and may lease or sell, on terms and conditions, including rentals or sale prices, on which the parties agree, all works, improvements, facilities, plants, buildings, structures, equipment, and appliances, and all real and personal property, or any interest in real or personal property, related to the works, improvements, facilities, plants, buildings, structures, equipment, and appliances, that are incident to or necessary in carrying out or performing any power or function of the authority under this section.

attorney general finds that the bonds have been authorized and the
contract has been made and entered into in accordance with law, the

those provisions, except as specifically provided by this section.
To the extent of any conflict or inconsistency between this section
and any other law, including any charter of a home-rule municipality,

chapter shall be construed as authorizing the authority, and it is
not authorized, to mortgage or otherwise encumber any of its property
of any kind, real, personal, or mixed, or any interest in property,
or to acquire any property or interest subject to a mortgage or
conditional sale; provided, however, that this section shall not be
construed as preventing the pledging of the revenues of the authority
as provided by this chapter.

(b) Nothing in this chapter shall be construed as authorizing
the sale, release, or other disposition of property of any kind, real, personal, or mixed, or any interest in property, by the authority or through any court proceedings or otherwise; provided, however, that the authority may sell for cash any property or interest if the board by affirmative vote of 11 of its members determines that the property or interest is not necessary to the business of the authority and approves the terms of the sale. Except by sale as expressly authorized by this section, authority property or interest may not come into the ownership or control, directly or indirectly, of any person, firm, or corporation other than a public authority created under the laws of the state.

(c) All authority property is exempt from forced sale, and nothing in this chapter authorizes the sale of any of the property of the authority under a judgment rendered in a suit, and a sale of that kind is prohibited.

(d) Notwithstanding any restrictions or provisions in this section or in this chapter, the authority, acting by a majority vote of the board, may construct or purchase, from any person, firm, or corporation (referred to in this subsection as "customer") with which the authority has contracted to sell hydroelectric power, transmission lines and other property used or to be used by the customer for the transmission of or in connection with power purchased or to be purchased from the authority. The authority may lease all or any portion of that property to the customer for all or a portion of the time during the term of the hydroelectric power purchase contract. The lease may contain provisions that are valid and enforceable giving the lessee the right to purchase from the authority all or any portion of the property at or within the time specified in the lease and for a price and on terms and conditions specified in the lease; provided, however, that the price may not be less than the depreciated value, determined in the manner prescribed in the lease, plus one percent of the original cost of the property.

(2) "Captive Property To Be Sold" means those portions of the following tracts of real property owned by the Authority at the Lake that as of May 27, 2009, were surrounded by the Lake and property owned by a single freeholder and located above the 1000' contour line, but does not include any portion of the following tracts that was part of Project Land or property that was leased for single-family residential purposes as of May 27, 2009:

(A) two tracts of land totaling 2019.86 acres, more or less, in Palo Pinto County, Texas, described in Brazos River Authority Records as Tracts 8-1-93 and 9-3-9, as such Tracts are more particularly described in an Award of Commissioners entered June 28, 1940, in the County Court of Palo Pinto County, Texas, in Cause No. 2539, styled Brazos River Conservation and Reclamation District versus Orland R. Seaman, Et Al., as the same appears on file and of record in Volume 5, Pages 414 and 419, et seq., Civil Minutes of the County Court of Palo Pinto County, Texas; and

(B) a 2278.3 acre tract of land, more or less, in Palo Pinto County, Texas, described in Brazos River Authority records as Tract 11-2-46, as such tract is more particularly described in deeds recorded at Book 181, Page 325, Book 182, Page 339, Book 183, Page 12, and Book 183, Page 16, in Palo Pinto County Records, Palo Pinto County, Texas.

(2-a) "Close" or "Closing" means the transfer of the Authority's interest in properties described in the Subsection (d)(1) or (m)(6) survey.

(3) "FERC License" means the order of the Federal Energy Regulatory Commission issuing a license to the Authority for project number 1490-003-Texas on September 8, 1989, as such license has been renewed, extended, or amended and may be further renewed, extended, or amended at any time and from time to time, and including the Amendment to the original FERC license that was issued on May 15, 1980, to the extent incorporated or referenced in the FERC License.

(4) "Lake" means Possum Kingdom Lake located in Young, Palo Pinto, Stephens, and Jack Counties. The boundary of the Lake is defined by the 1000' contour line, as that contour may meander and change over time with natural forces, including erosion and accretion. The "1000' contour line" means the line running along the
periphery of the Lake if the surface of the Lake is at an elevation of 1000 feet above mean sea level, as measured from the top of the spillway crest gates of the Morris Sheppard Dam, as such line may move and shift from time to time due to natural forces.

(5) "Offeree" means any person to whom an offer to sell Captive Property To Be Sold is to be made under this section. To qualify as an Offeree, a person must own in fee simple as of May 27, 2009, the real property adjacent to the Captive Property To Be Sold, and be able to provide an attorney's opinion or other satisfactory legal documentation that such Offeree meets the qualifications of an Offeree under this subdivision.

(6) "Project Land" means that portion of Authority property that is subject to the FERC License, as identified and defined in the FERC License, as may be amended at any time, and from time to time, and which Project Land may move or change over time due to natural forces.

(b) Notwithstanding any other provision of this chapter, the Authority is directed to sell all Captive Property To Be Sold in accordance with the directives of this section, including the following:

(1) Within 90 days of the effective date of the Act enacting this section, the Authority shall publish a list of the parcels at the Lake that qualify as Captive Property To Be Sold and an "Application Of Intent To Purchase" form for use by the Offerees as provided by this section.

(2) Each listed parcel of Captive Property To Be Sold shall be offered for sale at its fair market value to the Offeree who owns any Adjacent Land that is adjacent to that specific parcel of Captive Property To Be Sold, and each Adjacent Land owner has the right (but not the obligation) to purchase the parcel in equal proportion among those wishing to acquire same.

(3) Any Offeree who desires to purchase Captive Property To Be Sold must, within 180 days of the inclusion of that property on the published list of Captive Property To Be Sold under Subdivision (1), submit a completed Application Of Intent To Purchase form to the Authority.

(4) If the Authority does not receive an Application Of Intent To Purchase from an Offeree within the required time, the Offeree shall be deemed to have waived any right to purchase the subject property under this section and the Authority shall have the
right to retain or sell such property as directed by the board.

(5) The Authority shall accept and process all Application Of Intent To Purchase forms in the order in which they are received.

(6) Any sale of property under this section must be handled as if it were a private sale for fair market value under Section 49.226(a), Water Code.

(7) The fair market value of the Captive Property To Be Sold must be determined as follows:

(A) Within forty-five (45) days of the Authority's receipt of the Offeree's completed Application Of Intent To Purchase and an acceptable survey as provided by Subsection (d)(1), the Authority shall provide the Offeree with an appraisal of the fair market value of the Captive Property To Be Sold dated within one year of the date of the Authority's receipt of the Application Of Intent To Purchase (the "First Appraisal"). The Authority's appraiser must be an appraiser certified under Chapter 1103, Occupations Code. Within fifteen (15) days of receipt of the First Appraisal, the Offeree shall notify the Authority in writing as to whether the Offeree agrees with or disputes the fair market value set forth in the First Appraisal. If the Offeree does not dispute the fair market value as determined by the First Appraisal within such 15-day time period, then the First Appraisal shall be final and binding on all parties to establish the fair market value for the Captive Property To Be Sold.

(B) If the Offeree disputes the fair market value determined by the First Appraisal, the Offeree may withdraw its application to purchase the Captive Property To Be Sold or employ a disinterested appraiser certified under Chapter 1103, Occupations Code, to conduct a second appraisal of the fair market value of the Captive Property To Be Sold (the "Second Appraisal"). The Second Appraisal must be completed and sent to the Authority not later than the 45th day after the date the Offeree notifies the Authority that the Offeree disputes the First Appraisal. If the Authority does not receive the Second Appraisal within such 45-day time period, then the Offeree's Application Of Intent To Purchase will be deemed withdrawn.

(C) Within fifteen (15) days of receipt of the Second Appraisal, the Authority shall notify the Prospective Purchaser in writing as to whether the Authority agrees with or disputes the fair market value determined by the Second Appraisal. If the Authority does not dispute the fair market value as determined by the Second
Appraisal within this 15-day time period, then the Second Appraisal shall be final and binding on all parties to establish the purchase price for the Captive Property To Be Sold. If the Authority timely disputes the fair market value determined by the Second Appraisal, the two appraisers (or their designated agents) shall meet and attempt to reach an agreement on the fair market value of the Captive Property To Be Sold, such meeting to occur not later than the 30th day after the date the Authority notifies the Offeree that the Authority disputes the Second Appraisal.

(D) If the two appraisers reach agreement on the fair market value, within 20 days after their meeting they shall issue a report of the agreed fair market value to the Authority and to the Offeree, and this agreed fair market value shall be final and binding on all parties to establish the purchase price. If the two appraisers fail to reach agreement on or before the 20th day after the date of the meeting, then not later than the 30th day after the date of the meeting the two appraisers shall appoint a disinterested third appraiser certified under Chapter 1103, Occupations Code, to reconcile the two previous appraisals (the "Third Appraisal"). The Third Appraisal must be completed on or before the 30th day after the date of the third appraiser's appointment, and the fair market value determined by the Third Appraisal is final and binding on all parties to establish the purchase price; provided, however, the final purchase price may not be more than the fair market value determined by the First Appraisal or less than the fair market value determined by the Second Appraisal.

(E) The appraisal costs must be paid by the person who requests the appraisal, except that the Offeree and the Authority shall each pay one-half of the cost of the Third Appraisal if a Third Appraisal is necessary. If the Offeree fails to pay its share of the Third Appraisal, then the Offeree's Application Of Intent To Purchase will be deemed withdrawn.

(F) The timelines established in the appraisal process set forth in this subdivision may be extended on joint agreement of Authority and Offeree.

(8) Closing must occur not later than the first anniversary of the effective date of the Act of the 83rd Legislature, Regular Session, 2013, amending this subsection.

(c) If the Authority seeks to exempt any Captive Property To Be Sold from sale under this section as necessary for the continued
operation of services at the Lake by the Authority, the Authority must designate as exempt each parcel it seeks to have exempted and provide actual notice of the exemption to any Offeree who otherwise would have been eligible to purchase that property. Any such Offeree shall have the right, but not the obligation, to challenge the exemption designation by the Authority in accordance with Subsection (e).

(d) For each parcel that an Offeree elects to purchase pursuant to this section, the Offeree shall:

(1) provide to the Authority a survey of the property that is:

(A) prepared by a licensed state land surveyor or a registered professional land surveyor;
(B) dated not earlier than the date one year before the effective date of the Act enacting this section; and
(C) acceptable to the Authority and any title company providing title insurance for the Offeree; and
(2) pay all reasonable, normal, customary, and documented closing costs associated with the sale of the property.

(d-1) Not later than 15 business days after the delivery of an Offeree's survey to the Authority required under Subsection (d)(1) or (m)(6), the Authority shall notify the Offeree that the survey is acceptable or submit in writing to the Offeree a list detailing any error in the survey that the Authority believes requires correction. If required, the survey must be corrected at the earliest convenience of the surveyor and a corrected survey delivered to the Authority. The correction process repeats until both surveys are acceptable, at which time the timetable for the appraisal process in Subsection (b)(7)(A) begins for the properties described in the Subsection (d)(1) and (m)(6) surveys. So long as the Subsection (m)(6) survey is timely delivered to the Authority, if the surveys are not both accepted by the Authority within 180 days after the effective date of the Act enacting this subsection, then the closing deadline established by Subsection (b)(8) is extended on a day-for-day basis for each day after the 180th day until both surveys are accepted by the Authority.

(e) A person who disputes the Authority's decision to exempt a specific parcel from sale under this section may file a declaratory judgment action in the district court of Travis County. If a person files such an action:
any claim to governmental immunity is hereby waived for the determination of the dispute;

(2) the court shall determine all issues presented by de novo review; and

(3) the Authority shall bear the burden to establish by a preponderance of the evidence that the parcel it seeks to have exempted from sale is necessary for the specifically authorized operation of services at the Lake.

(f) For any property sold under this section:

(1) the Authority shall provide a Special Warranty Deed that encompasses and includes all interests in the property held by the Authority, subject only to:

(A) those restrictions, covenants, and prohibitions contained in the deed of conveyance under which the Authority originally acquired title to the property, including without limitation any releases of the Authority for the inundation, overflowing, or flooding of the Lake;

(B) all encumbrances and other matters filed of record in the public records of the county in which the property is located; and

(C) any other matters or conditions that are apparent on the ground or that would be reasonably disclosed or discovered by an inspection of the property; and

(2) the Offeree shall release and agree to hold the Authority harmless from, and the Authority may not be held liable for damages, claims, costs, injuries, or any other harm to any Offeree or any other person or the Captive Property To Be Sold or any improvements on the property, caused by or arising from any temporary flooding of any portion of the Captive Property To Be Sold.

(g) Any sale of Captive Property To Be Sold pursuant to this section must allow the Authority the right to enter on the Captive Property To Be Sold and the Lake and other bodies of water, if any, located within the Captive Property To Be Sold and to cross the Adjacent Land on roads with essential equipment for all purposes reasonably necessary for the Authority to fulfill its obligations as a river authority and any obligations set forth in the FERC License, state water rights, or other governmental regulations, or that the Authority considers necessary for public safety, health, and welfare purposes. Any exercise of those rights by the Authority may be conducted only after written notice is given at least 48 hours in
advance of such entry to the Offeree (except in the event of an emergency, in which case advance notice is not required, but the Authority shall provide such written notice as soon as practicable thereafter). The Authority shall use reasonable efforts to avoid interfering with the Offeree's use of the Captive Property To Be Sold and Adjacent Land and shall promptly repair any damage to the Captive Property To Be Sold and Adjacent Land caused by the Authority's entrance. Any claim to governmental immunity on behalf of the Authority is hereby waived for the recovery of any damage caused by the Authority's breach of this subsection.

(h) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1179, Sec. 5, eff. June 14, 2013.

(i) Chapters 232 and 272, Local Government Code, do not apply to a sale of property under this section.

(j) The Authority may use proceeds from the sale of property under this section for any Authority purpose.

(k) The Authority shall reserve its interest in all oil, gas, and other minerals in and under the Captive Property To Be Sold (or any portion thereof) to the extent the Authority owns an interest in those minerals.

(l) To the extent of any conflict with other laws of this state, this section prevails.

(m) Notwithstanding any provision of this section to the contrary, a sale under this section is subject to the following requirements:

(1) If on the date Closing occurs the Project Land or any portion of the Project Land has been removed from the FERC License, the Captive Property To Be Sold must include all Project Land that would have otherwise qualified as Captive Property To Be Sold except for its status as Project Land.

(2) If on the date Closing occurs the Project Land or any portion of the Project Land has not been removed from the FERC License, the Authority shall convey to the Offeree a residual interest in that portion of the Project Land that would have otherwise qualified as Captive Property To Be Sold except for its status as Project Land. The residual interest automatically vests on the date that:

(A) the Federal Energy Regulatory Commission approves an amendment to the FERC License removing the Project Land from the boundaries under the FERC License so that the Project Land is no
longer subject to regulation by the Federal Energy Regulatory
Commission; or

(B) the FERC License expires and is not renewed or
extended, or is otherwise terminated, and thus the Project Land is no
longer subject to regulation by the Federal Energy Regulatory
Commission.

(3) Notwithstanding Subdivision (2), if the residual
interest described by Subdivision (2) has not vested on or before
August 31, 2040, then the residual interest is terminated and of no
further force and effect, and the Authority shall repay to the
Offeree any amount originally paid for that residual interest on or
before December 1, 2040. On satisfaction of a condition described by
Subdivision (2)(A) or (B) before August 31, 2040, the residual
interest conveyed under Subdivision (2) is automatically effective
without necessity of further documentation. As of the date the
conveyance is effective, the applicable portion of the Project Land
is considered to be a part of the Captive Property To Be Sold
conveyed under this section and the Offeree or then-current Owner of
the applicable portion of the Captive Property To Be Sold is the
beneficiary of the residual interest applicable to the portion of the
Project Land adjacent to such Owner's land and considered to be a
part of the Captive Property To Be Sold conveyed under this section.
The residual interest immediately vests in the Offeree or then-
current Owner of the adjacent Captive Property To Be Sold conveyed
under this section without the necessity of any additional written
conveyance.

(4) In the event that a sale under this subsection does not
include any portion of the Project Land, or only includes a residual
interest in a portion or all of the Project Land, then the Authority
shall at Closing, subject to the approval of the Federal Energy
Regulatory Commission, grant the Offeree an easement, subject to the
FERC License, for the use of that portion of the Project Land for
which the Offeree has purchased a residual interest. The Authority
shall retain ownership of that portion of the Project Land and
exercise control over that portion of the Project Land consistent
with the FERC License and this subsection. The easement granted to
the Offeree is limited to uses permitted under the terms of the FERC
License, the Authority's Shoreline Management Plan, and any other
Authority rules and regulations that may be adopted from time to
time.
(5) An appraisal of the fair market value of the Project Land, whether the Project Land has been removed from the FERC License or not, must be determined as if the applicable Project Land is not subject to the FERC License, is not part of the Federal Energy Regulatory Commission project area, is not subject to any lease agreement, is available for immediate possession and use, and may be used for any lawful purpose.

(6) For each parcel of Project Land that an eligible Offeree elects to purchase under Subdivision (1), or for each parcel of Project Land in which the Offeree purchases a residual interest under Subdivision (2), the Offeree shall, not later than the 90th day after the effective date of the Act enacting this subsection, provide to the Authority a survey and calculation of the area of the parcel prepared by a licensed state land surveyor or a registered professional land surveyor in accordance with this subsection. The survey is separate from any survey prepared under Subsection (d) of Captive Property To Be Sold.

(n) On or before Closing, the Authority shall deliver completed and executed documentation necessary to transfer the property conveyed from the Authority to the Offeree, and the Offeree shall deliver the purchase price and closing costs and the countersignatures on all necessary documentation. Promptly after Closing, the Offeree shall record the documents required for transferring the property in the county records where the property is located. The closing documents and funds may be held in escrow at the election of the Authority or the Offeree until all documents have been fully executed and all required funds have been delivered.

Sec. 8502.0133. SALE OF AUTHORITY PROPERTY ON AND ASSOCIATED WITH COSTELLO ISLAND. (a) In this section:

(1) "Boat landing" means a 0.841 acre tract of land, more or less, located above the 1000' contour line as defined in Subdivision (8), described in authority records as Tract Costello Island, situated in the A. J. Smith Survey, Abstract 393, Palo Pinto County, Texas, and being a part of a tract of land purchased by the Brazos River Conservation and Reclamation District from Mrs. Hugh C. Thomas, as recorded in Volume 182, Page 142, Deed Records of Palo Pinto County. The boat landing is located wholly within the FERC Project Area.

(2) "Date of decommissioning" means the effective date of the surrender of the FERC License for the Morris Sheppard Dam Project No. 1490-052 under the Order Accepting the Surrender of the License (issued December 23, 2011), 137 FERC 62,252.

(3) "Costello Island" means a 260 acre tract of land, more or less, located above the 1000' contour line as defined in Subdivision (8), described in authority records as Tract Costello Island, situated in the J.W. Bunton Survey, Abstract 52, Palo Pinto County, Texas, and being a part of that parcel that is located wholly within the boundary of the lake, and being a part of a tract of land acquired by the Brazos River Conservation and Reclamation District from E.P. Costello by Court Judgment dated July 21, 1943. The portions of Costello Island owned by the authority are located wholly within the FERC Project Area.

(4) "Costello Island Property" means Costello Island and the boat landing, but does not include any portion of Costello Island owned in fee simple by a person other than the authority.

(5) "Fair market value" means the price that the Costello Island Property would bring in an arms-length transaction when offered for sale by one who wishes, but is not obliged, to sell and when bought by one who is under no necessity of buying it. This value shall be determined as if the Costello Island Property were not subject to the FERC License, were not located within the FERC Project Area, were not subject to any lease agreement, were available for immediate possession and use, and could be used for any reasonable purpose, subject only to the restrictions in Subsection (e).

(6) "FERC License" means the order of the Federal Energy Regulatory Commission issuing a license to the authority for project number 1490-003-Texas on September 8, 1989, as such license has been
renewed, extended, or amended and may be further renewed, extended, or amended at any time and from time to time, and also including the amendment to the original FERC License, which amendment was issued on May 15, 1980, to the extent incorporated or referenced in the FERC License.

(7) "FERC Project Area" means that portion of authority land that is subject to the FERC License before the date of decommissioning, as the land is identified and defined in the FERC License, as may be amended at any time and from time to time, and which FERC Project Area may move or change over time due to natural forces.

(8) "Lake" means Possum Kingdom Lake located in Young, Palo Pinto, Stephens, and Jack Counties. The boundary of the lake is defined by the 1000' contour line, as that contour may meander and change over time with natural forces, including erosion and accretion. The "1000' contour line" means the line running along the periphery of the lake if the surface of the lake is at an elevation of 1000 feet above mean sea level, as measured from the top of the spillway crest gates of the Morris Sheppard Dam, as such line may move and shift from time to time due to natural forces.

(9) "Offeree" means the individuals or corporation, other than the authority, owning a portion of Costello Island in fee simple.

(b) After the date of decommissioning, the authority shall offer for sale to the offeree the Costello Island Property. The sale shall be:

(1) for not less than the fair market value as determined under Subsection (c); and

(2) contingent upon the termination of any leases encumbering all or any portion of the Costello Island Property at the time of sale.

(c)(1) The fair market value of the Costello Island Property shall be determined as described in this subsection.

(2) Not later than 45 days after the date the authority receives the offeree's completed application of intent to purchase and an acceptable survey as provided by Subsection (d)(1), the authority shall provide the offeree with an appraisal of the fair market value of the Costello Island Property. The authority may use an existing appraisal if it is dated not more than one year before the date the authority receives the application of intent to
purchase. The authority's appraiser must be certified under Chapter 1103, Occupations Code. Not later than the 15th day after the date the offeree receives the first appraisal, the offeree shall notify the authority in writing as to whether the offeree agrees with or disputes the fair market value provided in the first appraisal. If the offeree does not dispute the fair market value as determined by the first appraisal before the expiration of the 15-day period, the first appraisal is final and binding on all parties and establishes the fair market value for the Costello Island Property.

(3) If the offeree disputes the fair market value determined by the first appraisal, the offeree may withdraw its application to purchase the Costello Island Property or may employ a disinterested appraiser certified under Chapter 1103, Occupations Code, to conduct a second appraisal of the fair market value of the Costello Island Property. The second appraisal must be completed and sent to the authority not later than the 45th day after the date the offeree notifies the authority that the offeree disputes the first appraisal. If the authority does not receive the second appraisal before the expiration of the 45-day period, the offeree's application of intent to purchase will be deemed withdrawn.

(4) Not later than the 15th day after the date of receiving the second appraisal, the authority shall notify the offeree in writing as to whether the authority agrees with or disputes the fair market value determined by the second appraisal. If the authority does not dispute the fair market value as determined by the second appraisal before the expiration of the 15-day period, the second appraisal is final and binding on all parties and establishes the purchase price for the Costello Island Property. If the authority timely disputes the fair market value determined by the second appraisal, the two appraisers, or their designated agents, shall meet and attempt to reach an agreement on the fair market value of the Costello Island Property. The meeting shall occur not later than the 30th day after the date the authority notifies the offeree that the authority disputes the second appraisal.

(5) If the two appraisers reach an agreement on the fair market value, they shall issue a report, not later than the 20th day after the date of their meeting, relating the agreed fair market value to the authority and to the offeree, and this agreed fair market value shall be final and binding on all parties and establishes the purchase price. If the two appraisers fail to reach
an agreement on or before the 20th day after the date of the meeting, then, not later than the 30th day after the date of the meeting, the two appraisers shall appoint a disinterested third appraiser certified under Chapter 1103, Occupations Code, to reconcile the two previous appraisals in a third appraisal. The third appraisal must be completed on or before the 30th day after the date of the third appraiser's appointment, and the fair market value determined by the third appraisal is final and binding on all parties and establishes the purchase price; provided, however, that the final purchase price may not be more than the fair market value determined by the first appraisal or less than the fair market value determined by the second appraisal.

(6) The appraisal costs shall be paid by the person who requests the appraisal, except that the offeree and the authority shall each pay one-half of the cost of the third appraisal if a third appraisal is necessary. If the offeree fails to pay its share of the third appraisal, the offeree's application of intent to purchase will be deemed withdrawn.

(7) The timelines for the appraisal process under this subsection may be extended upon joint agreement of the authority and the offeree.

(d) To purchase the Costello Island Property, the offeree must:

(1) provide to the authority a survey of the Costello Island Property that is:

(A) prepared by a licensed state land surveyor or a registered professional land surveyor;

(B) dated not earlier than one year before the effective date of the Act enacting this section; and

(C) acceptable to the authority and any title company providing title insurance for the offeree; and

(2) pay all closing costs associated with the sale of the property.

(e) For any property sold under this section:

(1) the authority shall provide a special warranty deed that encompasses and includes all interests in the Costello Island Property held by the authority, subject only to:

(A) the restrictions, covenants, and prohibitions contained in the deed of conveyance under which the authority originally acquired title to the property, including without limitation any releases of the authority for the inundation,
overflowing, or flooding of the lake;

(B) the restrictions, covenants, and prohibitions described in Section 8502.020(d);

(C) all encumbrances and other matters filed of record in the public records of the county in which the property is located;

(D) any other matters or conditions that are apparent on the ground or that would be reasonably disclosed or discovered by an inspection of the property; and

(E) any other rules, regulations, or policies of the authority in effect as of January 1, 2013, prohibiting or limiting commercial, private, or other on-water facilities for new development, and as such rules, regulations, or policies may be amended, modified, or discontinued from time to time; and

(2) the offeree shall release and agree to hold the authority harmless from, and the authority may not be held liable for, damages, claims, costs, injuries, or any other harm to any offeree or any other person or the Costello Island Property, or to any improvements on the property, caused by or arising from any temporary flooding of any portion of the Costello Island Property.

(f) Any sale of the Costello Island Property under this section must allow the authority the right to enter onto the Costello Island Property and the lake and other bodies of water, if any, located within the Costello Island Property with essential equipment for all purposes reasonably necessary for the authority to fulfill its obligations as a river authority and any obligations set forth in the FERC License, state water rights, or other governmental regulations, or for any purpose that the authority considers necessary for public safety, health, and welfare. Any exercise by the authority of rights described by this subsection may be conducted only after written notice is given to the offeree at least 48 hours in advance of entry onto the property, except in the event of an emergency, in which case advance notice is not required, but the authority shall provide written notice as soon as practicable. The authority shall use reasonable efforts to avoid interfering with the offeree's use of the Costello Island Property and shall promptly repair any damage to the property caused by the authority's entrance. Any claim to governmental immunity on behalf of the authority is waived with respect to the recovery of any damage caused by the authority's breach of this subsection.

(g) Chapters 232 and 272, Local Government Code, Section
49.226, Water Code, and Section 8502.013 of this code do not apply to a sale of property under this section.

(h) The authority may use proceeds from the sale of property under this section for any authority purpose.

(i) The authority shall reserve its interest in all oil, gas, and other minerals in and under the property to be sold, or any portion thereof, to the extent the authority owns an interest in those minerals.

(j) If the conveyance described by this section is not completed before the second anniversary of the effective date of this Act, this section shall no longer be effective and expires on the date of the second anniversary.

(k) To the extent of any conflict with other laws of this state, this section prevails.

Added by Acts 2013, 83rd Leg., R.S., Ch. 1179 (S.B. 918), Sec. 3, eff. June 14, 2013.

Sec. 8502.014. ACQUISITION OF PROPERTY; EMINENT DOMAIN. (a) The authority may acquire by purchase, lease, or gift or in any other manner and may maintain, use, and operate property of any kind, real, personal, or mixed, or any interest in property, within or outside the boundaries of the authority, necessary or convenient to the exercise of the powers, rights, privileges, and functions conferred on the authority by this chapter.

(b) The authority may acquire, by purchase, condemnation, or otherwise, any property the board determines necessary to make effectual and practicable the construction and operation of all works, improvements, and services that are planned ultimately to be provided by the authority to accomplish any of the purposes for which the authority was created. The acquisition or condemnation may be either of the fee simple title or of a lesser title or an easement only, within the discretion of the board; provided, however, that a person may not be deprived of any defense available under the general law of eminent domain; and provided, further, that the authority may not acquire or operate a steam generating plant for the production and sale of electric energy and, except for the purpose of acquiring the necessary area below or above the anticipated high-water line of a reservoir, may not condemn any property of a rural electrification
cooperative or other corporations engaged in the generation or sale of electric energy to the public.

(c) The authority may exercise the power of eminent domain for the purpose of acquiring by condemnation property of any kind, real, personal, or mixed, or any interest in property, within or outside the boundaries of the authority, other than property or an interest in property outside the boundaries of the authority owned by any body politic, that is necessary or convenient to the exercise of the powers, rights, privileges, and functions conferred on the authority by this chapter, in the manner provided by general law with respect to condemnation or, at the option of the authority, in the manner provided by statutes relative to condemnation by districts organized under general law under Section 59, Article XVI, Texas Constitution.

(d) In condemnation proceedings being prosecuted by the authority, the authority is not required to give bond for appeal or bond for cost.

(e) The authority may overflow and inundate any public lands and public property and may require the relocation of roads and highways in the manner and to the extent permitted to districts organized under general law under Section 59, Article XVI, Texas Constitution.

(B) Leaseholder delivers an earnest money deposit, in good funds acceptable to the title company or escrow agent selected by the Authority, in the amount of $1,000 to such title company or escrow agent, which earnest money shall be nonrefundable after the expiration of the feasibility period except in the event closing does not occur due to the fault of the Authority;
(C) any and all rent and other fees or amounts due to the Authority pursuant to such Leaseholder's Ground Lease have been paid and there are no amounts then outstanding which are past due;

(D) Leaseholder has delivered to the Authority a survey that is acceptable to the Authority of the applicable Remaining Leased Tract (and any Remaining Undeveloped Strips being included in such Remaining Leased Tract). To be acceptable to the Authority, the survey must:

   (i) be acceptable to the title company selected by the Authority for purposes of issuing any policy of title insurance on the applicable portion of the Remaining Leased Tract;
   (ii) be prepared by a licensed state land surveyor or a registered professional land surveyor acceptable to the Authority;
   (iii) include the boundary of the Leaseholder's Remaining Leased Tract and any Remaining Undeveloped Strips being conveyed, which boundaries must be consistent with the master survey of the Remaining Leased Tract prepared on behalf of the Authority;
   (iv) include all improvements on the Remaining Leased Tract and indicate any encroachments across the applicable boundary lines, including encroachments onto Authority Land; Leaseholder must provide evidence that any such encroachments across boundary lines have been cured by the Leaseholder (either by removal of such encroachment or by written agreement between the affected parties permitting such encroachment to continue) prior to the survey being deemed acceptable; and
   (v) be reviewed and approved by the Authority; the Authority or its representatives or agents may perform an inspection of the individual Remaining Leased Tract to verify the accuracy of the survey and any encroachments thereon.

(E) Leaseholder has delivered to the Authority a title commitment and, if requested by the Authority, any exception documents referenced therein, prepared by the applicable title company or escrow agent selected by the Authority; and

(F) Leaseholder has delivered to the Authority written evidence from Leaseholder's lender or financial institution that Leaseholder has the financing or funds available, as applicable, to complete the purchase of Leaseholder's Remaining Leased Tract.

(5) Completed applications that are timely delivered will be accepted and processed by the Authority in the order in which they
are received; except that the Authority shall give preference in processing applications to Leaseholders who receive an ad valorem tax exemption under Section 11.13, Tax Code, for a structure on the Leaseholder's Remaining Leased Tract.

(6) An individual Remaining Leased Tract sold under this subsection shall be sold for 90% of the land only assessed value without any exemptions, as determined by the appraisal district, for the year in which the Leaseholder's application of intent to purchase is submitted to the Authority, or for the year 2012, whichever is greater.

(7) The Leaseholder purchasing such Leaseholder's Remaining Leased Tract is responsible for:

(A) timely paying all rent and other fees or amounts due to the Authority pursuant to such Leaseholder's Ground Lease through the date of closing on the Leaseholder's portion of the Remaining Leased Tract;

(B) obtaining and delivering to the Authority a survey of the applicable Remaining Leased Tract in accordance with Subdivision (4)(D) and curing any encroachments shown thereon, all at Leaseholder's expense;

(C) obtaining and delivering to the Authority, at such Leaseholder's expense, a title commitment in accordance with Subdivision (4)(E); the Authority may, but shall have no obligation to, cure any objections that Leaseholder may have to the exceptions, covenants, easements, reservations or any other items reflected on the title commitment; provided, however, that the Authority shall use good faith efforts to address and/or remove those requirements or exceptions shown on Schedule C of the title commitment that are applicable to or created by the Authority, and, notwithstanding the foregoing, the Authority shall have no obligation to cure any exceptions on the attached Schedule C regarding legal right of access to or from the applicable Remaining Leased Tract;

(D) delivering to the applicable title company or escrow agent on or before closing on the Leaseholder's Remaining Leased Tract, in good funds, the purchase price and all reasonable, normal, customary, and documented costs associated with the transfer of the individual Remaining Leased Tract to the Leaseholder including, without limitation, all escrow fees, recording fees, taxes on the land after the date of such closing, document preparation fees, the cost of any Title Policy (including any endorsements
thereon) obtained by Leaseholder, and any costs associated with removing any liens on the applicable Remaining Leased Tract; and

(E) timely delivering to the escrow agent any notices, statements, affidavits, or other documents required by the application, escrow agent, or at law to effectuate the transfer of the applicable Remaining Leased Tract to the Leaseholder.

(8) For those completed applications of intent to purchase timely delivered to the Authority under this subsection, the purchase must be completed no later than the expiration of 30 months after the effective date of this subsection. For any individual Remaining Leased Tract for which closing has not occurred by such date, the application shall be deemed terminated. The Authority shall not accept any applications of intent to purchase after the second anniversary of the effective date of this subsection; and any applications of intent to purchase that are delivered to the Authority prior to such date but that are not "complete" as of such date in accordance with Subdivision (4) shall be rejected by the Authority. Leaseholders submitting an application of intent to purchase their individual Remaining Leased Tracts are responsible for ensuring that such application is deemed "complete" on or before the second anniversary of the effective date of this subsection.

(9) Any Ground Lease that would otherwise expire shall be automatically extended as necessary for one year terms to permit such Leaseholder the full two-year period to deliver such application of intent to purchase such Leaseholder's individual Remaining Leased Tract and to complete such transaction no later than the expiration of 30 months after the effective date of this subsection.

(10) The Owner of a Remaining Leased Tract sold under this subsection shall pay the Authority any reasonable fees set by the Authority for any services the Owner accepts from the Authority. However, the Owner of a Remaining Leased Tract is under no obligation to accept services from the Authority.

(11) Any Remaining Leased Tract subject to the Ranch Agreement shall only be subject to sale under this subsection if the Authority is released from its obligations under the Ranch Agreement relating to such Remaining Leased Tract.

(12) The following laws do not apply to sale of an individual Remaining Leased Tract under this subsection:

(A) Chapter 272, Local Government Code;
(B) Section 49.226, Water Code; and
Section 8502.013 of this code.

(13) A provision that applies to the Leaseholder of an individual Remaining Leased Tract under this section applies to any subsequent Owner of the individual Remaining Leased Tract.

(14) At closing on the individual Remaining Leased Tract, the Leaseholder shall pay any indebtedness secured by a lien on the Leaseholder's leasehold estate (including the applicable portion of the Buffer Zone that is part of the leasehold estate) or deliver the express written consent of the Lienholder on the leasehold estate in the Remaining Leased Tract permitting the Leaseholder to grant a purchase money lien on the fee simple estate in the Remaining Leased Tract.

(15) At the closing of the applicable Remaining Leased Tract, the Authority will deliver a special warranty deed.

(16) For any portion of the Remaining Leased Tract that has not been sold pursuant to this subsection on or before the expiration of 30 months after the effective date of this subsection, the Board shall sell any such remaining portion of the Remaining Leased Tract pursuant to terms and conditions determined by such Board.

(d) Restrictions on Property. The Property is subject to the Restrictions recorded in Palo Pinto, Stephens, Young, and Jack Counties, as amended from time to time. After the Date of Decommissioning and before the date the Remaining Leased Tract is conveyed under Subsection (b) or (c), the Authority, without requiring the consent of any Owner, shall further amend the Restrictions and record the Amendments to the Restrictions in the records of each applicable county, which amendments must (i) add the Remaining Commercial Leased Land as part of the Commercial Leased Land in the Restrictions; (ii) add the Remaining Residential Leased Land as part of the Residential Leased Land in the Restrictions; (iii) add the Remaining Undeveloped Strips as part of the Undeveloped Strips in the Restrictions; (iv) add the Remaining Leased Tract as part of the Leased Tract; and (v) otherwise amend the Restrictions to be substantively in accordance with the following:

(2) Each Owner, Purchaser, and Leaseholder shall agree to not block, restrict, or otherwise prohibit access over, through, or across any Road and further agrees that such Roads or portion thereof shall remain open for use by the Authority, other Owners or Purchasers, lessees of any portion of the Property (including Leaseholders) and the general public. Except for (i) those portions...
of the Property that are accessible by water only as of the effective
date of the Restrictions, and/or (ii) restrictions of access existing
as of the effective date of the Restrictions (e.g., access to and
from public roads that requires traversing real property not owned by
the Authority, Owners, or Purchasers hereunder), and/or (iii) the
covenants and restrictions of the Ranch Declarations (to the extent
applicable to the Roads) or other restrictive covenants existing
prior to the date the Restrictions are recorded of record, no Owner,
Purchaser, or Leaseholder shall be permitted to block, restrict, or
otherwise prohibit access on, over, or across the Roads.

(3) The Driveways are not part of the Roads and shall be
maintained by the Owner, Purchaser, or Leaseholder of the applicable
Driveways. No Owner, Purchaser, or Leaseholder shall obstruct,
prevent, or otherwise restrict access on, over or across any portion
of a common Driveway by any such other Owner, Purchaser, or
Leaseholder, or their guests or invitees, whose portion of the
Property is served by such common Driveway. Owners, Purchasers,
and/or Leaseholders whose portion of the Property is served by a
common Driveway shall at all times have a nonexclusive right of
ingress and egress over and across such common Driveway to access
their portion of the Property.

(4) All grants and dedications of easements, rights-of-way,
restrictions, and related rights affecting the Leased Tract, made
prior to the Leased Tract becoming subject to the Restrictions and
any Amendments to the Restrictions that are of record, or visible or
apparent, shall be incorporated into such Restrictions by reference
and made a part of the Restrictions for all purposes as if fully set
forth therein and shall be construed as being adopted in each and
every contract, deed, or conveyance executed or to be executed by or
on behalf of the Authority conveying any part of the Leased Tract.
The foregoing adoption of such easements includes, without
limitation, any and all written easements or agreements, whether or
not recorded, between the Authority and any other party for the
installation, maintenance, repair, or replacement of utility lines
located on, above, over, under, or beneath the Property.

(5) The Authority shall reserve for itself and its
successors, assigns, and designees the nonexclusive right and
easement, but not the obligation, to enter upon the Property, the
Lake and other bodies of water, if any, located within the Property
(a) to install, keep, maintain, and replace pumps in order to obtain
water for the irrigation of any portion of the Authority Land, (b) to construct, maintain, replace, and repair any wall, dam, or other structure retaining water therein, (c) to access, construct, maintain, replace, and repair any measurement stations, monuments, or other similar improvements, (d) to remove trash and other debris, and (e) to fulfill the Authority's obligations as a river authority and any obligations set forth in state water rights or other governmental regulations. The Authority and its designees shall have an access easement through, over, and across any portion of the Leased Tract to the extent reasonably necessary to exercise the rights and responsibilities under this subdivision; provided, however, that (i) the Authority shall provide written notice at least 48 hours in advance of such entry to the Purchaser or Owner of such portion of the Leased Tract (except in the event of an emergency, in which case advance notice shall not be required, but the Authority shall provide such written notice as soon as practicable thereafter); (ii) the Authority shall promptly repair any damage to the portion of the Leased Tract caused by the Authority's entrance onto such Owner's or Purchaser's portion of the Leased Tract; and (iii) the Authority shall use reasonable efforts to avoid interfering with the Owner's or Purchaser's use of the portion of the Leased Tract.

(6) The Authority shall reserve for itself and its successors, assigns, and designees a perpetual right, power, privilege, and easement to occasionally overflow, flood, and submerge that portion of the Property located at or below the elevation contour of 1015' above mean sea level in connection with the Authority's operation and maintenance of the Lake. The Authority shall have no liability to any Owner, Purchaser, Leaseholder, or any other person for any damages, claims, costs, injuries, or liabilities to any person or the Property or any improvements thereon that are caused by or arise from any act or omission by the Authority in connection with the foregoing right and easement.

(7) Additional land may be included in the Property or Leased Tract at any time by the Authority, as long as the Authority owns any portion of the Property, by recording an amendment to these Restrictions in each of the counties in which the Property is located. Upon such additions, the Restrictions shall apply to the added land and the rights, privileges, duties, and liabilities of the Owners or Purchasers subject to the Restrictions shall be the same with respect to the added land as with respect to the Property
originally covered by the Restrictions. As additional lands are added hereto, the Authority shall, with respect to said land, record amendments that may incorporate the Restrictions therein by reference and that may supplement or modify the Restrictions with such additional covenants, restrictions, and conditions that may be appropriate for those added lands.

(8) The Restrictions may not be modified in any respect whatsoever or terminated, in whole or in part, except with the consent of (i) the Owners or Purchasers of at least sixty percent (60%) of the individual lots that comprise the Residential Leased Land and Commercial Leased Land, and (ii) the Owners or Purchasers of at least sixty percent (60%) of the land area of the Authority Land, and (iii) the Authority, for so long as the Authority has any interest in the Property, whether as an Owner or otherwise. Notwithstanding the foregoing, the Authority, without the joinder of any other party, shall have the absolute right to make minor changes or amendments to the Restrictions to correct or clarify errors, omissions, mistakes, or ambiguities contained therein. No amendment shall be effective until such amendment has been recorded in the Official Public Records of each of the counties in which the Property is located.

(9) No improvements (except as specifically set forth in Subdivision (11)) shall be constructed or located on the Leased Tract within twenty-five feet (25') landward measured horizontally from the 1000' contour line of the Lake, a meander line that changes over time due to natural forces, such as erosion and accretion; provided, however, this restriction shall not include improvements inside this setback that are existing at the time the Restrictions are filed that have been approved in writing by the Authority. In addition, no improvements on the Leased Tract (or any portion thereof) shall be constructed or located within five feet (5') of any other boundary line (i.e., the side and back boundary lines), other than fences; provided, however, this restriction shall not include improvements located within this 5' setback that are existing at the time the Restrictions are filed and that have been approved in writing by the Authority.

(11) Erosion control improvements (such as retaining walls, rip rap, etc.) and landscape planting may not be constructed or located at or below the 1000' contour line without the prior written approval of the Authority. Such improvements shall be subject to the
terms and conditions set forth in the Restrictions and in the Authority's regulations, including without limitation, the Shoreline Management Plan.

(12) No Owner, Purchaser, or Leaseholder shall have the right to place, or permit to be placed, any advertisements, private notices, signs, or billboards on the Residential Leased Land except that temporary signage customarily found on residential property may be placed on the Residential Leased Land at the reasonable discretion of the Owner, Purchaser, and/or Leaseholder of that portion of the Residential Leased Land.

(13) No activities shall be conducted on the Leased Tract and no improvements constructed on the Leased Tract that are or might be unsafe or hazardous to any person or property.

(14) No Owner, Purchaser, Leaseholder, or occupant of any portion of the Leased Tract shall use or permit the use, handling, generation, storage, release, disposal, or transportation of Hazardous Materials on, about, or under the Leased Tract except for such quantities that are routinely utilized in connection with residential use (for all portions of the Leased Tract except the Commercial Leased Land) or for commercial uses that are in compliance with the Restrictions (for the Commercial Leased Land), and that are stored, used, and disposed of in compliance with all Environmental Laws. Each Owner, Purchaser, and Leaseholder shall indemnify, defend, protect, and save the Authority, its successors and assigns, trustees, directors, employees, and officers and each other Owner, Purchaser, and Leaseholder, harmless from and against, and shall reimburse such indemnified parties for, all liabilities, obligations, losses, claims, damages, fines, penalties, costs, charges, judgments, and expenses, including, without limitation, reasonable attorneys' fees and expenses that may be imposed upon or incurred or paid by or asserted against such indemnified parties by reason of or in connection with such Owner's, Purchaser's, or Leaseholder's failure to comply with this subdivision.

(15) No Owner or Purchaser shall conduct, or permit to be conducted, any activity on the Leased Tract that is improper, immoral, noxious, annoying, creates a nuisance, or is otherwise objectionable to other Owners or Purchasers or incompatible with the recreational use of the Lake and the Authority Land.

(16) The Residential Leased Land (and any Undeveloped Strips that are conveyed to an Owner or Purchaser as part of the
Residential Leased Land pursuant to Subsection (b) or (c)) shall be improved and used solely for single-family residential use, inclusive of a garage, fencing, and other such related improvements as are necessary or customarily incident to normal residential use and enjoyment and for no other use. No portion of the Residential Leased Land (and any Undeveloped Strips that are conveyed to an Owner or Purchaser as part of the Residential Leased Land pursuant to Subsection (b) or (c)) shall be used for manufacturing, industrial, business, commercial, institutional, or other nonresidential purpose, save and except as set forth in Subdivision (17). Notwithstanding the foregoing, Owners, Purchasers, and/or Leaseholders shall be permitted to conduct a "garage sale" on their respective portion of the Residential Leased Land (and any Undeveloped Strips that are conveyed to an Owner or Purchaser as part of the Residential Leased Land pursuant to either Subsection (b) or (c)) not more than one time per calendar year.

(17) No professional, business, or commercial activity to which the general public is invited shall be conducted on the Residential Leased Land (and any Undeveloped Strips that are conveyed to an Owner or Purchaser as part of the Residential Leased Land pursuant to Subsection (b) or (c)); except an Owner, Purchaser, Leaseholder, or occupant of a residence may conduct business activities within a residence so long as: (a) the existence or operation of the business activity is not apparent or detectable by sight, sound, or smell from outside the residence; (b) the business activity conforms to all zoning requirements; (c) the business activity does not involve door-to-door solicitation of residents, lessees, Leaseholders, Owners, or Purchasers within the Property; (d) the business does not generate a level of vehicular or pedestrian traffic or a number of vehicles parked within the Property that is noticeably greater than that which is typical of residences in which no business activity is being conducted; and (e) the business activity is consistent with the residential character of the Residential Leased Land and does not constitute a nuisance, or a hazardous or offensive use, or threaten the security or safety of other residents, lessees, Owners, Purchasers, or Leaseholders of the Property. The terms "business" and "trade", as used in this provision, shall be construed to have their ordinary, generally accepted meanings and shall include, without limitation, any occupation, work, or activity undertaken on an ongoing basis that
involves the provision of goods or services to persons other than the provider's family and for which the provider receives a fee, compensation, or other form of consideration, regardless of whether: (x) such activity is engaged in full or part-time; (y) such activity is intended to or does generate a profit; or (z) a license is required. Leasing of a residence shall not be considered a business or trade within the meaning of this subsection. This subdivision shall not apply to any activity conducted by the Authority.

(18) Except as may be otherwise provided in the Restrictions and any Amendments to the Restrictions, Commercial Leased Land (and any Undeveloped Strips that are conveyed to an Owner or Purchaser as part of the Commercial Leased Land pursuant to Subsection (b) or (c)) may be improved and used for any lawful commercial purpose, including without limitation, nonprofit organizations or governmental or quasi-governmental agencies.

(19) No portion of the Leased Tract may be used for the commercial testing or development of wind power, or to produce, lease, store, and/or transmit electrical power generated thereby for commercial or resale purposes.

(20) Each Owner or Purchaser shall keep, or cause to be kept, all improvements located on its respective portion of the Leased Tract maintained in good condition and repair, clean and free of rubbish and other hazards, and otherwise in full accordance with the Restrictions and all governmental rules, regulations, codes, and zoning requirements. Such maintenance shall include, but not be limited to, the following: regular and timely removal of all litter, garbage, trash, and waste; regular lawn mowing; tree, shrub, and plant pruning and trimming; watering of landscaped areas; weed control; pest control; maintaining exterior lighting and mechanical facilities in good working order; keeping walks and driveways clean and in good repair; and the repairing and repainting of the exterior improvements visible to neighboring properties and/or public view.

(21) In the event of any damage to or destruction of any building or improvement on any portion of the Leased Tract from any cause whatsoever, the Owner, Purchaser, or Leaseholder upon whose portion of the Leased Tract the casualty occurred shall, at such Owner's, Purchaser's, or Leaseholder's sole option, either (i) repair, restore, or rebuild and complete the same with reasonable diligence, (ii) clear the affected area of all hazardous or dangerous debris and structures and lawfully dispose of same within one year.
from the date of casualty, or (iii) effectuate any combination of clauses (i) and (ii) of this subdivision as such Owner, Purchaser, or Leaseholder may deem reasonably appropriate. Notwithstanding the foregoing, in the event the Owner, Purchaser, or Leaseholder elects to rebuild buildings or improvements that were located within twenty-five feet (25') landward measured horizontally from the 1000' contour line that were approved in accordance with Subdivision (9), such buildings or improvements shall be rebuilt in accordance with Subdivision (24).

(22) The Texas Commission on Environmental Quality has adopted rules governing on-site sewage facilities (also called septic systems). The Authority is the commission's authorized agent for the septic system licensing program, including the enforcement of the commission's septic system rules and regulations for the Property. The Authority, as the agent for the commission, shall have the authority to access the Property for the purpose of issuing such licenses, inspecting such septic systems, and enforcing any and all rules and regulations related thereto. Each Owner, Purchaser, and Leaseholder agrees to comply with all sanitary regulations and the licensing process adopted by the commission and enforced by the Authority, as its agent, from time to time.

(23) The Owner or Purchaser shall be responsible, at such Owner's or Purchaser's expense, for providing for the collection, removal, and disposal of all solid waste on the Leased Tract; or the Owner or Purchaser of any portion of the Leased Tract shall be responsible for ensuring that the Leaseholders provide for such collection, removal, and disposal of all solid waste on the applicable portion of the Leased Tract. In the event the Ranch fails to provide for the collection, removal, and disposal of all solid waste related to the Ranch, the Owner or Purchaser shall be responsible for providing for the same.

(24) An Owner, Purchaser, or Leaseholder may repair, alter, or rebuild improvements located above the 1000' contour line but within 25' landward measured horizontally from the 1000' contour line, and/or improvements located within the 5' boundary setback, which improvements were previously approved in accordance with Subdivision (9). Such repairs, alterations, or rebuilding may extend such improvements outside the previously existing footprint towards the side boundaries and back boundary of the applicable Leased Tract, but such improvements may not be extended towards the shoreline or
encroach closer to the 1000' contour line of the Lake than the existing or previously existing improvements.

(25) The Authority shall reserve its rights, title, and interest in all oil, gas, and other minerals in and under any and all Property, including the Leased Tract.

(26) No land located at or below the 1000' contour line shall be improved, used, or occupied, except in such manner as shall have been approved by the Authority. No docks, piers, on-water facilities, retaining walls, or any other structures or facilities shall be built, installed, or maintained in, on, or over the waters of the Lake except as authorized by the Authority. All such structures or facilities shall be subject to all rules and regulations applicable to the Lake, as the same may be adopted or amended from time to time. Owner, Purchaser, and/or the Leaseholder shall be responsible for any fees or annual charges assessed by the Authority for such permit or improvements and shall be responsible for ensuring that any such improvements are consistent with the Shoreline Management Plan and all other rules and regulations applicable to the Property. Owner or Purchaser shall not, at any time, permit any liens to encumber the Authority Land.

(27) No use of the Lake or other bodies of water within the Property, if any, shall be made except in accordance with the Shoreline Management Plan, the Authority's regulations, and any other rules and regulations that may be promulgated by the Authority at any time and as amended from time to time. Any such use shall be subject to the Authority's superior use rights. The Authority shall not be responsible for any loss, damage, or injury to any person or property arising out of the authorized or unauthorized use of the Lake or other bodies of water within or adjacent to the Property.

(28) The Authority may use and regulate the Lake or other bodies of water within the Property for the irrigation of the Authority Land, or for any other purpose deemed appropriate by the Authority, subject to the rights and authority of any other governmental entity having jurisdiction of such areas, and subject to the water rights granted (or which may be granted) to the Authority by the State of Texas. The Authority's rights under this subdivision shall be superior to any rights of any Owner, Purchaser, or Leaseholder. This subdivision shall not be construed to limit or restrict the rights and authority of any other governmental entity having jurisdiction of the Property.
Owners or Purchasers must obtain written permission from the Authority in accordance with the Authority's regulations to use or divert water from the Lake on any portion of the Leased Tract for domestic or commercial purposes.

No Owner, Purchaser, or Leaseholder shall be permitted to divert or alter the natural drainage of the terrain or clear vegetation on any portion of the Property in such a manner that would cause unnatural erosion or silting of the Lake.

Owners, Purchasers, and Leaseholders shall take all reasonable precautions to ensure that all use of and activities on the Leased Tract, including without limitation, the construction, operation, and maintenance of any improvements on the Leased Tract occur in a manner that will protect the scenic, recreational, and environmental values of the Lake. The Authority has specific approval authority on any proposed construction that impacts the lakebed, and Owner, Purchaser, and Leaseholder shall comply with the approval process as may be established by the Authority from time to time.

The Owner, Purchaser, and Leaseholder of any portion of the Property shall comply with all of the following rules and regulations, as applicable:

(A) the Authority's "Regulations for Governance for Brazos River Authority Lakes and Associated Lands," as published on the Authority's Internet website and as those regulations may be amended from time to time; and

(B) other rules and regulations adopted by the Authority regarding conduct on and use of the Lake.

By Texas statute, the Authority is empowered to adopt and has adopted certain regulations governing conduct on and use of the Property and Lake. Owners, Purchasers, Leaseholders, and persons using the Leased Tract with such Owners' or Purchasers' consent shall abide by all such rules and regulations adopted from time to time by the Authority and any future revisions and amendments thereto.

Owners, Purchasers, and Leaseholders of that portion of the Leased Tract that is part of the Ranch shall comply with the terms and conditions of the Ranch Agreement and the covenants and restrictions set forth in the Ranch Declarations, to the extent applicable to such portion of the Leased Tract. As to that portion of the Property that is part of the Ranch, the Ranch Declarations shall control in the event of any conflict between the covenants,
restrictions, and conditions set forth in the Ranch Declarations and the Restrictions. Owners, Purchasers, and Leaseholders of a portion of the Leased Tract that is part of any other subdivision shall comply with the terms and conditions of the covenants and restrictions governing the subdivision that apply to the portion of the Leased Tract. Any portion of the Property that is part of the subdivision is governed by the restrictions and covenants governing the subdivision which shall control in the event of a conflict between the covenants, restrictions, and conditions governing the subdivision and the Restrictions and Amendments to the Restrictions.

(36) In order to maintain the quality of the Lake's water, the stability of the shoreline, and of the environment in the Lake's vicinity, each Owner, Purchaser, and Leaseholder of all or any portion of the Leased Tract agrees to:

(A) comply with any local, state, or federal laws related to water quality or the environment, including laws governing toxic wastes and hazardous substances;

(B) if the Owner's or Purchaser's private on-site sewerage facility is not licensed by the Texas Commission on Environmental Quality (or any successor to such Commission) then the Owner, Purchaser, or Leaseholder shall connect to and use, at the Owner's, Purchaser's, or Leaseholder's expense, as applicable, any wastewater treatment system or service that becomes available to the Owner's or Purchaser's portion of the Leased Tract, not later than twelve (12) months after the system or service becomes available to such portion of the Leased Tract and thereafter discontinue use of any private on-site sewerage facility; and if, at any time after a wastewater treatment system or service becomes available to the Owner's or Purchaser's portion of the Leased Tract, the Owner's or Purchaser's private on-site sewerage facility (whether licensed or not) requires either replacement or an alteration or change in the on-site sewerage facility resulting in (i) an increase in the volume of permitted flow, (ii) a change in the nature of permitted influent, (iii) a change from the planning materials approved by the permitting authority, (iv) a change in construction, and/or (v) an increase, lengthening, or expansion of the treatment or disposal system, then such Owner or Purchaser shall promptly connect to and use, at the Owner's, Purchaser's, or Leaseholder's expense, as applicable, such wastewater treatment system or service and thereafter discontinue use of any private on-site sewerage facility. Notwithstanding the
foregoing, in the event a property owners association or municipality requires the Owners or Purchasers of the portion of the Leased Tract that is included in such association or municipality to connect to a wastewater system or service, then such association or municipality rules shall control;

(C) obtain written consent of the Authority prior to diverting or pumping water from the Lake or any body of water within or adjacent to the Property, constructing or erecting any embankment or retaining wall, or commencing any dredging activity; and

(D) pay to the Authority any reasonable fee related thereto (e.g., water usage, recreational user, dredging, or retaining wall fees) as may be adopted from time to time by the Authority.

(37) Each Owner or Purchaser of all or any portion of the Leased Tract agrees and acknowledges that the water level in the Lake varies and that the Authority is not responsible for maintaining the Lake at any certain level or above or below any certain level.

(38) The Authority is not responsible or liable for any personal injury or damage to any Owner, Purchaser, Leaseholder, the Leased Tract, the Property, or any improvements caused by any increase or decrease in the water level (even if such increase or decrease is due to modifications of the Morris Sheppard (Possum Kingdom) Dam or other actions or omissions of the Authority) or caused by natural flooding.

(39) The Authority shall reserve the right of ingress and egress for the Authority and any person authorized by the Authority, including an agent of the Authority or employees, over and across the Leased Tract and any and all on-water facilities whether located within the Leased Tract or Authority Land for all reasonable purposes of the Authority, including, without limitation, the construction, maintenance, repair, and/or replacements of any roads, drainage facilities, and power, water, wastewater, and other utility mains and lines that the Authority considers necessary or beneficial and for public safety, health, and welfare purposes; provided however, that:

(A) the Authority shall provide written notice at least 48 hours in advance of such entry to the Purchaser or Owner of such portion of the Leased Tract (except in the event of an emergency, in which case advance notice shall not be required, but the Authority shall provide such written notice as soon as practicable thereafter), which notice shall state with reasonable specificity the purpose for such entry;
(B) the Authority shall promptly repair any damage to the portion of the Leased Tract caused by the Authority's entrance onto such Owner's or Purchaser's portion of the Leased Tract; and

(C) the Authority shall use reasonable efforts to avoid interfering with the Owner's or Purchaser's use of the portion of the Leased Tract.

(40) Each Owner, Purchaser, and Leaseholder shall comply strictly with the Restrictions, as the same may be amended from time to time. Failure to comply with the Restrictions shall constitute a violation of the Restrictions, and shall give rise to a cause of action to recover sums due for damages or injunctive relief or both, maintainable by the Authority or other Owners or Purchaser; provided however, no Owner, Purchaser, Leaseholder, or other person shall have any right of action against the Authority arising under the Restrictions.

(41) The Authority shall make no warranty or representation as to the present or future validity or enforceability of any such restrictive covenants, terms, or provisions. Any Owner, Purchaser, or Leaseholder acquiring or leasing, as applicable, any portion of the Property in reliance on one or more of the Restrictions shall assume all risks of the validity and enforceability thereof and, by acquiring such portion of the Property, agrees to hold the Authority harmless therefrom.

(42) If the Owner, Purchaser, or Leaseholder of any portion of the Leased Tracts or on-water facilities related thereto (including retaining walls) shall fail to comply with the requirements of the Restrictions, then the Authority shall have the right, but not the obligation, following thirty (30) days prior written notice to such defaulting person to enter such defaulting person's portion of the Leased Tract (but only if such failure to comply results in a public health, safety, or welfare concern) and/or such defaulting person's on-water facility and cure such breach, the cost of which shall be reimbursed by such defaulting person to the Authority upon demand. Any such unpaid amounts, together with interest thereon (at the rate of six percent (6%) per annum) and the costs of collection (if any), shall be charged as a continuing lien against such defaulting person's portion of the Leased Tract, which lien shall be subordinate to the lien of any third-party deed of trust previously recorded against such defaulting person's portion of the Leased Tract.
(43) A person shall be deemed to be in default of the Restrictions only upon the expiration of thirty (30) days (ten (10) days in the event of failure to pay money) from receipt of written notice from the Authority or other Owner or Purchaser specifying the particulars in which such person has failed to perform the obligations of the Restrictions unless such person, prior to the expiration of said thirty (30) days (ten (10) days in the event of failure to pay money), has rectified the particulars specified in said notice of default. However, such person shall not be deemed to be in default if such failure (except a failure to pay money) cannot be rectified within said thirty (30) day period and such person commences the cure of such default within such thirty (30) day period and thereafter is continuously using good faith and its best efforts to rectify the particulars specified in the notice of default.

(44) The Authority shall have the right, but not the obligation, to enforce all of the provisions of the Restrictions. Any Owner or Purchaser shall have the right to enforce all of the provisions of the Restrictions against any other Owner, Purchaser, or Leaseholder, but not against the Authority. Such right of enforcement shall include the right to sue for both damages for, and injunctive relief against, the breach of any such provision. Furthermore, the Authority shall have the right, when appropriate in its sole judgment and discretion, to claim or impose a lien upon any portion of the Leased Tract, or improvement constructed thereon, in order to enforce any right or effect compliance with the Restrictions.

(45) The failure of a person (including the Authority or any Owner or Purchaser) to insist upon strict performance of any of the Restrictions shall not be deemed a waiver of any rights or remedies that said person may have, and shall not be deemed a waiver of any subsequent breach or default in the performance of any of the Restrictions by the same or any other person.

(46) The Authority shall not be liable to any Owner, Purchaser, or Leaseholder, or to any other person for any loss, damage, or injury arising out of or in any way connected with the performance or nonperformance of the Authority's rights, obligations, or privileges under the Restrictions. Without limiting the foregoing, the Authority shall not be liable to any Owner, Purchaser, or Leaseholder due to the construction of any improvements within the Property.
(47) Each of the Restrictions on the Leased Tract shall be a burden on each portion of the Leased Tract, shall be appurtenant to and for the benefit of the other portions of the Property, other portions of the Leased Tract, and each part thereof, and shall run with the land.

(48) The Restrictions shall inure to the benefit of and be binding upon the Owners or Purchasers, their heirs, successors, assigns, and personal representatives, and upon any person acquiring all or any portion of the Leased Tract, or any interest therein, whether by operation of law or otherwise. Notwithstanding the foregoing, if any Owner or Purchaser sells or transfers all or any portion of such Owner's or Purchaser's interest in all or any portion of the Leased Tract, such Owner or Purchaser shall, upon the sale and conveyance of title, be released and discharged from all of its obligations as Owner or Purchaser in connection with the property sold by it arising under the Restrictions after the sale and conveyance of title but shall remain liable for all obligations arising under the Restrictions prior to the sale and conveyance of title. The new Owner or Purchaser of all or any such portion of the Leased Tract, (including, without limitation, any Owner (or Lienholder) who acquires its interest by foreclosure, trustee's sale or otherwise) shall be liable for all obligations arising under the Restrictions with respect to such portion of the Leased Tract on and/or after the date of sale and conveyance of title. The Authority may assign, in whole or in part, any of its privileges, exemptions, rights, and obligations (if any) under the Restrictions to any other person and may permit the participation, in whole or in part, by any other person in any of its privileges, exemptions, rights, and obligations (if any) hereunder.

(49) Except as provided in this subsection, the term of the Restrictions shall be for a period of fifty (50) years from the date such Restrictions are executed by the Authority. Notwithstanding the foregoing, upon the expiration of such period, the term of the Restrictions shall automatically renew for successive periods of five (5) years each unless, at least ninety (90) days prior to the date of expiration of any period then in effect, (i) the Owners or Purchasers of at least sixty percent (60%) of the individual lots that comprise the Residential Leased Land and the Commercial Leased Land, (ii) the Owners or Purchasers of at least sixty percent (60%) of the land area of the Authority Land, and (iii) the Authority, for so long as the
Authority has any interest in the Property, whether as an Owner or otherwise, duly execute, acknowledge and record in the office of the recorder of the counties in which the Property is located a written termination notice, in which event, the Restrictions shall automatically expire at the end of the period then in effect.

(50) Any subdivision by an Owner of the Owner's portion of the Leased Tract is subject to all applicable laws, rules, regulations, codes, and ordinances, including any applicable platting requirements, and any rules and restrictions relating to on-site sewage facilities.

(e) Buffer Zone. Notwithstanding any provision in this subsection to the contrary, a sale under Subsection (b) or (c) shall be subject to the following:

(1) The Remaining Leased Tract being conveyed under Subsection (b) or (c) shall include the applicable portion of the Buffer Zone; provided, however, the Purchaser and/or Owner, as applicable, shall grant the Authority access to the Buffer Zone and Lake to allow the Authority to fulfill its obligations as a River Authority and any obligations set forth in state water rights or other governmental regulations.

(2) At the time of Closing on the Initial Leased Tract under Subsection (b), a portion of the Initial Leased Tract is located within the Buffer Zone and is a part of the FERC Project Area, and therefore the Authority shall provide such Purchaser and/or Owner, as applicable, a residual interest in that portion of the Buffer Zone adjacent to the Initial Leased Tract and covered by the applicable residential Ground Lease, such residual interest to automatically vest upon satisfaction of one of the following conditions:

   (A) the Federal Energy Regulatory Commission approves an amendment to the FERC License removing the Buffer Zone from the boundaries prescribed by the FERC License such that the Buffer Zone is no longer subject to regulation by the Federal Energy Regulatory Commission;

   (B) the FERC License expires (and is not renewed or extended) or is otherwise terminated and thus the Buffer Zone is no longer subject to regulation by the Federal Energy Regulatory Commission; or

   (C) the Date of Decommissioning occurs.

(3) Notwithstanding the foregoing, if such residual
interest has not vested on or before August 31, 2040, then such residual interest shall be terminated and of no further force and effect. Upon satisfaction of one of the foregoing conditions prior to August 31, 2040, this conveyance shall be automatically effective without necessity of further documentation. From and after the date such conveyance becomes effective, the Buffer Zone shall be considered to be a part of the Initial Leased Tract conveyed under Subsection (b) and the Purchaser or then current Owner of the applicable Initial Leased Tract shall be the beneficiary of the residual interest created herein, but only as to the portion of the Buffer Zone located adjacent to the Purchaser's or Owner's property and all right, title, and interest in such adjacent portion of the Buffer Zone as measured by extending the boundary lines on both sides of the applicable portion of the Initial Leased Tract in a straight line across the Buffer Zone to the then current 1000' contour line of the Lake, or, if such portion cannot reasonably be measured as set forth above, then as otherwise determined by the Purchaser and approved by the Authority. Such residual interest shall immediately vest in the Purchaser or then-current Owner of such adjacent portion of the Initial Leased Tract without the necessity of any additional written conveyance.

(4) Until the residual interest in the Buffer Zone vests in the Purchaser or then-current Owner of the adjacent portion of the Initial Leased Tract as set forth in Subdivision (3), such Buffer Zone shall remain subject to the terms and conditions of the residential Ground Lease in effect between the Leaseholder and the Authority at the time Closing occurs under Subsection (b); provided, however, no rent shall be due the Authority under such Ground Lease for the Buffer Zone. At such time as the applicable Ground Lease expires or is otherwise terminated, the Authority may, subject to approval of the Federal Energy Regulatory Commission, grant the Purchaser or the then-current Owner of the adjacent tract (as determined pursuant to the method set forth in Subdivision (2)(B)), an easement for use of such portion of the Buffer Zone, which easement shall be subject to the FERC License. The Authority shall retain ownership of such portion of the Buffer Zone and exercise control over such portion of the Buffer Zone consistent with the FERC License and this subsection. The easement granted to such Owner shall be limited to uses permitted under the terms of the FERC License and the Authority's Shoreline Management Plan, and any other
Authority rules and regulations as may be adopted from time to time.

(f) Purchase Price. For purposes of determining the purchase price and/or lease rate pursuant to the options set forth in Subsection (b)(1) or the purchase price in Subsection (c), in the event the appraisal district does not provide an assessed value for the applicable portion of the Leased Tract for the applicable year, then the land only assessed value without any exemptions for the applicable portion of the Leased Tract shall be calculated based on the assessed value per square foot of comparable lots with similar physical characteristics in the applicable county or adjoining counties, as determined by the Authority.

(g) Roads. Authority or Purchaser, whichever is applicable, shall transfer its interest in the Roads to the applicable county in which the Roads, or any portion thereof, are situated as follows:

1. All Roads located in Stephens County (approximately three miles of Roads) shall be transferred to Stephens County on or before December 31, 2011.

2. All Roads located in Palo Pinto County (approximately forty-six miles of Roads) shall be transferred to Palo Pinto County in twenty percent increments of the total mileage per year for five consecutive years. The first twenty percent increment shall be transferred on or before December 31, 2011, and each remaining twenty percent increment shall be transferred on or before December 31 of each subsequent year, but not before January 1 of such year unless approved by an order or resolution of the Palo Pinto County Commissioners Court, with the final twenty percent increment being transferred on or before December 31, 2015, but not before January 1, 2015, unless approved by an order or resolution of the Palo Pinto County Commissioners Court.

3. Authority or Purchaser, whichever is applicable, in consultation with the Palo Pinto County Commissioner or Commissioners who have jurisdiction over the Leased Tract, shall determine which Roads or portions thereof shall be transferred each year.

4. The transfer of any portion of the Roads located within the FERC Project Area shall be in accordance with the FERC License and may be in the form of a grant of a right-of-way or easement, unless otherwise authorized by the Federal Energy Regulatory Commission.

5. Beginning on the date of transfer, the Authority or Purchaser, whichever is applicable, shall no longer have any
obligations regarding such Roads. The Roads shall be transferred in their "as-is" condition and neither the Authority nor the Purchaser shall have any obligation to ensure that the Roads, or any portion thereof, comply with the standards in effect at the time of transfer in the applicable county for like roads currently maintained by that county.

(6) Concurrently with the transfer in each year of a portion of the Roads, the Authority or Purchaser, as applicable, shall transfer to Palo Pinto County the amount, rounded to the nearest dollar, computed by multiplying $200,000 by a fraction the numerator of which is the number of miles of Roads located in and transferred to Palo Pinto County in that year and the denominator of which is the total number of miles of Roads located in and transferred or to be transferred to Palo Pinto County. For every other county in which a portion of the Roads is located, the Authority or Purchaser, as applicable, shall transfer an amount equal to (A) the per mile road payment (as defined below) multiplied by (B) the number of miles of the Roads located in such county. As used in this subdivision, "per mile road payment" means the amount, rounded to the nearest dollar, computed by dividing $200,000 by the total number of miles of Roads located in and transferred or to be transferred to Palo Pinto County pursuant to this subsection.

(7) Notwithstanding any provision in this subsection to the contrary, the Authority or Purchaser, as applicable, shall retain ownership of any portion of a Road that is inaccessible to the public. For purposes of this subdivision, a portion of the Road is considered inaccessible to the public if, as of the effective date of the Act enacting this section, the public can only access such portion of the Road by crossing property not owned by the Authority or Purchaser, as applicable, and not subject to an easement or other ownership interest that allows the public to cross such property without restriction. If a retained portion of a Road subsequently becomes accessible to the public, the Authority or Purchaser, as applicable, shall transfer such retained portion, including any interest the Authority or Purchaser has in any additional Road constructed or acquired by the Authority or Purchaser in order to make the retained portion of the Road accessible to the public, to the applicable county in accordance with the process set forth in this subsection, or in the event such portion of the Road becomes accessible to the public after December 31, 2015, within one (1) year
of such retained portion of the Road becoming accessible.

(h) Platting. A sale of the Leased Tract under this section shall not be subject to Chapter 232, Local Government Code, or any other platting requirement.

(i) Mineral Interests. The Authority shall reserve its interest in all oil, gas, and other minerals in and under the Leased Tract (or any portion thereof) sold under this section.

(j) Expiration of Requirement to Sell. The requirement that the Authority conduct a sale of the Remaining Leased Tract under Subsection (b) or (c) expires on December 31, 2016, if the FERC License is not terminated by decommissioning or otherwise.

Sec. 8503.005. LIMITATIONS OF AUTHORITY. (a) The authority may not use for irrigation purposes any water under any permit or permits acquired from any other company or person unless the use is expressly authorized and granted to the authority by the commission or its predecessor agency under authority of law. In considering subsequent applications by the authority, the commission shall at all times consider the needs of the people living within and on lands lying within the watershed of the Colorado River and its tributaries above the authority.

(b) Notwithstanding any rights or permits issued by the commission or its predecessor agency that are held or acquired by the authority, the impounding and use of the floodwaters of the Colorado River or its tributaries for the generation of hydroelectric power by the authority or anyone who may succeed to the rights and privileges conferred on the authority by this chapter are subject to the rights of a person, municipal corporation, or body politic that, under legal grant of authority, is impounding and putting to beneficial use the waters if the person, municipal corporation, or body politic:

(2) impounded or permitted to be impounded or used outside
the authority under permits legally granted to any person.

(e) Nothing in this chapter shall be construed as depriving any person or municipality of the right, legally granted, to impound the waters of the Colorado River or its tributaries for authorized beneficial uses or as repealing any law granting those rights to persons and municipalities.

(f) The rights of the authority to impound or use or sell the waters of the Colorado River and its tributaries for the generation of hydroelectric power are subordinate and inferior to the rights of:

(a) The board shall establish and collect rates and other charges for the sale or use of water, water connections, power, electric energy, or other services sold, furnished, or supplied by the authority. The fees and charges must be reasonable and nondiscriminatory and sufficient to produce revenues adequate to:

2. pay the interest on and principal of all bonds issued under this chapter as the interest and principal become due and payable;
3. pay the principal and interest on any legal debt created by the authority;

1. establish a reasonable depreciation and emergency fund;
2. retire, by purchase and cancellation or redemption, bonds issued under this chapter; or
3. apply the excess revenues to any corporate purpose.

(c) The rates and charges of the authority may not be in excess of what is necessary to fulfill the obligations imposed on the authority by this chapter or other law. Nothing in this chapter shall be construed as depriving this state of its power to regulate and control fees or charges to be collected for the use of water, water connections, power, electric energy, or other service; provided, however, that this state pledges to and agrees with the purchasers and successive holders of the bonds and other written evidence of indebtedness issued under this chapter that this state will not limit or alter the power vested in the authority to establish and collect fees and charges that will produce revenues sufficient to pay the items specified in Subsection (a), or in any way impair the rights or remedies of creditors or bondholders, or of
any person on their behalf, until the bonds and other written evidence of indebtedness, together with the interest on the bonds or indebtedness and the interest on unpaid installments of interest and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders and all other obligations of the authority in connection with the bonds are fully met and discharged.

Sec. 8503.012. PAYMENT OF DEBTS. Any indebtedness, liability, or obligation of the authority for the payment of money, however entered into or incurred and whether arising from contract, implied contract, or otherwise, is payable solely:

(1) out of revenues received by the authority with respect to its properties, subject to any prior lien on the revenues conferred by any resolution or resolutions adopted as provided by this chapter authorizing the issuance of bonds; or

(2) if the board so determines, out of the proceeds of sale by the authority of bonds payable solely from those revenues.

Sec. 8503.013. ISSUANCE OF BONDS. (a) The authority may issue bonds from time to time and for any purpose authorized by this chapter or other general law. If bonds of the authority are issued, except as otherwise provided under general law, the bonds:

(1) when sold, shall be sold for cash at public sale to the highest and best bidder, as determined by the board, and the interest cost of the money received for the bonds shall be computed to maturity in accordance with the method prescribed by the board in connection with the sale of the bonds;

(2) may be issued, on terms determined by the board in exchange for property of any kind, real, personal, or mixed, or any interest in property that the board determines necessary or convenient for any corporate purposes, provided that any property
acquired through the exchange of bonds is certified in writing before the exchange as being of a value equal to or in excess of the par value of the bonds by an independent appraisal that is to be kept on file by the authority as a public record, with a copy filed with the state auditor;

(3) may be issued in exchange for like principal amounts of other obligations of the authority, matured or unmatured; or

(4) may be sold to this state or any agency of this state, the United States, or any agency or corporation created or designated by this state or the United States in exchange for cash equal in amount to the principal amount of the bonds sold and the interest cost of the money received for the bonds, computed to maturity in accordance with standard bond tables in general use by banks and insurance companies, as determined by the board.

(b) The proceeds from the sale of the bonds shall be deposited in one or more banks or trust companies and shall be paid out under terms and conditions not in conflict with the provisions of this chapter or other general law that are agreed on between the authority and the purchasers of the bonds.

(c) The proceeds of the bonds and any net operating revenues derived from the sale of electric power or water that may be available after paying the interest on outstanding bonds and the principal amount of the bonds and after setting aside sufficient funds for working capital, including a reasonable amount for contingencies, and setting aside funds for reserves to secure payment of principal of and interest on outstanding bonds, shall be used:

(1) to build and construct dams or other structures within the authority, on the Colorado River and its tributaries, for the impounding and storage of floodwater and surface water;

(2) to purchase and install in the dams on the Colorado River hydroelectric generators and other related facilities for the generation of hydroelectric power;

(3) for the construction of additional lines and the purchase and installation of additional equipment the board considers necessary or expedient to enable the authority to continue to meet the demand for electric power in the areas within the authority directly served by its transmission lines and distribution systems on January 1, 1975, and other areas within the service area served by the authority on January 1, 1975, that cannot receive comparable service from any other power source and to provide electric power to
this state as provided by Section 8503.004; provided, however, that no steam generating capacity shall be installed by the authority, except that the authority may acquire, install, construct, enlarge and make additions to, and operate one or more steam generating plants, the sum of whose aggregate capacity may not be more than 5,000 megawatts, to be located within the boundaries of either one or more of Colorado, Fayette, Bastrop, Travis, Blanco, Burnet, Llano, or San Saba counties and to be utilized for the purpose of serving the area directly served by the authority's transmission lines and distribution systems on January 1, 1975, and to provide electric power to this state as provided by Section 8503.004;

(4) to own or acquire an interest in one or more steam generating plants at any location within or outside the authority, if the plant or plants are owned in conjunction with one or more other utilities, public, private, or municipal, provided that an interest owned or acquired by the authority shall be utilized for the sole purpose of providing electric power and energy only in the areas within the authority directly served by its transmission lines and distribution systems as they existed on January 1, 1975;

(5) for the purpose of building dams, levees, or other flood control structures between the city of Austin and the mouth of the Colorado River that are considered necessary and desirable by the board and for acquiring or installing facilities necessary to supply water for irrigation and other useful purposes within the counties composing the authority; and

(6) in aid of any soil conservation or soil reclamation projects within the authority that the board determines to be in the public interest.

(d) Nothing in this section shall be construed as establishing priorities as to uses of water that are contrary to the general laws of this state with reference to the water uses.

(e) Except as otherwise provided by general law, proceeds of bonds sold by the authority, and any net operating revenues that the board determines are not needed to carry out the projects set out in Subsections (c)(1), (2), and (3), to the extent not required by an outstanding trust indenture to be used to redeem outstanding bonds, shall be placed in a general revenue fund of the authority. Dams built on the Colorado River or on its tributaries shall be used for the purpose of impounding and storing floodwaters and surface waters.

(f) Bonds shall be authorized by resolution of the board
concurred in by at least 12 of the members.

(g) Bonds shall bear the date or dates, mature at the time or times, bear interest at the rates, payable annually or semiannually, be in the denominations, be in the form, either coupon or registered, carry the registration privileges as to principal only or as to both principal and interest and as to exchange of coupon bonds for registered bonds or vice versa and exchange of bonds of one denomination for bonds of other denominations, be executed in the manner, and be payable at the place or places within or outside this state that the resolution may provide.

(h) A resolution authorizing bonds may contain provisions that are part of the contract between the authority and the holder of the bonds from time to time:

(1) reserving the right to redeem the bonds at the time or times, in the amounts, and at the prices, not exceeding 105 percent of the principal amount of the bonds, plus accrued interest, as may be provided;

(2) providing for the setting aside of interest and sinking funds or reserve funds and the regulation and disposition of those funds;

(3) pledging, to secure the payment of the principal of and interest on the bonds and of the sinking fund or reserve fund payments agreed to be made with respect to the bonds, all or any part of the gross or net revenues received by the authority with respect to the property, real, personal, or mixed, acquired or constructed or to be acquired or constructed with the bonds or the proceeds of the bonds, or all or any part of the gross or net revenues previously or thereafter received by the authority from any source;

(4) prescribing the purposes to which the bonds or any bonds issued later are to be applied;

(5) agreeing to set and collect rates and charges sufficient to produce revenues adequate to pay the items specified in Section 8503.011(a) and prescribing the use and disposition of all revenues;

(6) prescribing limitations on the issuance of additional bonds and on the agreements that may be made with the purchasers and successive holders of the bonds;

(7) relating to the construction, extension, improvement, reconstruction, operation, maintenance, and repair of the properties of the authority and the carrying of insurance on all or any part of
the properties covering loss or damage or loss of use and occupancy resulting from specified risks;

(8) setting the procedure, if any, by which, if the authority so desires, the terms of a contract with the bondholders may be amended or abrogated, the amount of bonds whose holders must consent to that amendment or abrogation, and the manner in which the consent may be given;

(9) providing for the execution and delivery by the authority, to a bank or trust company authorized by law to accept trusts, of indentures and agreements for the benefit of the bondholders setting forth all of the agreements authorized by this chapter to be made with or for the benefit of the bondholders and other provisions that are customary in those kinds of indentures or agreements; and

(10) making other provisions, not inconsistent with this chapter or other general law, that the board approves, provided that an agreement, contract, or commitment may not be made that, under any contingency, could or would result in the United States government or any of its agencies or bureaus claiming the right or privilege of controlling or managing the properties and facilities of the authority or the control or disposition of the water of the Colorado River or its tributaries; provided, however, that nothing in this chapter shall be construed as limiting or restricting the rights or powers as set out in Section 8503.014 in the event of a default on the part of the authority; and provided further that nothing in this chapter is intended to prohibit compliance with existing federal regulations, if compliance with those regulations is done on the advice and approval of the attorney general.

Sec. 8503.014. DEFAULT PROCEDURES. (a) A resolution authorizing the issuance of bonds and any indenture or agreement entered into under the resolution may include provisions regarding a
default on:

1. the payment of the interest on the bonds as the interest becomes due and payable;
2. the payment of the principal of the bonds as they become due and payable, whether at maturity, by call for redemption, or otherwise; or
3. the performance of an agreement made with the purchasers or successive holders of any bonds.

(b) If a default described by Subsection (a) has occurred and has continued for a period, if any, prescribed by the resolution authorizing the issuance of the bonds, the trustee under an indenture entered into with respect to the bonds authorized by the resolution, or, if there is no indenture, a trustee appointed in the manner provided in the resolution by the holders of 25 percent in aggregate principal amount of the bonds authorized by the resolution and then outstanding, shall, in the trustee's own name but for the equal and proportionate benefit of all of the bondholders, and with or without having possession of the bonds:

1. by mandamus or other suit, action, or proceeding at law or in equity, enforce all rights of the bondholders, including the requirements of Section 8503.011;
2. bring suit on the bonds or the appurtenant coupons;
3. by action or suit in equity, require the authority to act as if it were the trustee of an express trust for the bondholders;
4. by action or suit in equity, enjoin any acts or things that may be unlawful or in violation of the rights of the bondholders; or
5. after such notice to the authority as the resolution may provide, declare the principal of all of the bonds due and payable, and if all defaults have been made good, then with the written consent of the holders of 25 percent in aggregate principal amount of the bonds then outstanding, annul the declaration and its consequences; provided, however, that the holders of more than a majority in principal amount of the bonds authorized by the resolution and then outstanding shall, by written instrument delivered to the trustee, have the right to direct and control any and all action taken or to be taken by the trustee under this section.

(c) A resolution, indenture, or agreement relating to bonds may
provide that in a suit, action, or proceeding under this section, the trustee, whether or not all of the bonds have been declared due and payable and with or without possession of any of the bonds, is entitled as of right to the appointment of a receiver who may enter and take possession of all or any part of the properties of the authority, operate and maintain the properties, and set, collect, and receive rates and charges sufficient to provide revenues adequate to pay the items set forth in Section 8503.011(a) and the costs and disbursements of the suit, action, or proceeding and apply the revenues in conformity with this chapter and the resolution authorizing the bonds.

(d) In a suit, action, or proceeding by a trustee under this section, the reasonable fees, counsel fees, and expenses of the trustee or the receiver, if any, constitute taxable disbursements, and all costs and disbursements allowed by the court shall be a first charge on any revenues pledged to secure the payment of the bonds.

(e) Subject to the provisions of the constitution, the courts of Travis County have jurisdiction of a suit, action, or proceeding under this section by a trustee on behalf of the bondholders and of all property involved in the suit, action, or proceeding.

(f) In addition to the powers specifically provided by this section, the trustee has all powers necessary or appropriate for the exercise of the powers specifically provided or incident to the general representation of the bondholders in the enforcement of their rights.

Sec. 8503.016. AUTHORITY AS CONSERVATION AND RECLAMATION DISTRICT. (a) The authority shall manage and use its facilities, the water impounded by its dams on the Colorado River or its tributaries, and any available net operating revenues to accomplish, to the extent possible, the purposes included in Section 59(a), Article XVI, Texas Constitution, that are enumerated in the provisions of this chapter or other general law, and the authority shall market electric power that, in the opinion of the board, will not be immediately needed by the authority, under contracts and on conditions that will best enable the authority to pay its operating expenses, meet its outstanding financial obligations as they mature, supply the increasing demand for electric power in the area dependent on its systems for electric service on April 28, 1975, and assure, to the extent possible, an adequate supply of water for irrigation and other useful purposes, as it is needed in the various counties comprising the authority.

(b) When bonds are to be issued to finance in whole or in part water-impounding facilities, before approving the bonds the attorney general shall be furnished a resolution from the commission or its successor agency certifying that the authority possesses the necessary water right authorizing it to impound or otherwise appropriate the waters to be utilized by the project.

Sec. 8503.017. BONDS AS NEGOTIABLE INSTRUMENTS. Bonds issued by the authority under this chapter or other general law are negotiable instruments under the laws of this state.

Sec. 8503.018. ADDITIONAL POWERS RELATING TO CONTRACTS, RULES, AND REGULATIONS. The authority may, but without intending by this provision to limit any powers of the authority as granted to it by this chapter or other general law, enter into and carry out contracts or establish or comply with rules and regulations concerning labor and materials and other related matters in connection with any project or projects as the authority considers desirable or as requested by the United States, this state, or any corporation or agency created, designated, or established by the United States or this state that may assist in the financing of the project or projects.

Sec. 8503.019. PURCHASE OF BONDS. The authority may, out of any funds available for the purpose, purchase bonds issued by it at a price not exceeding the redemption price applicable at the time of the purchase, or if the bonds are not redeemable, at a price not exceeding the principal amount of the bonds plus accrued interest. All bonds purchased in this manner shall be canceled.

Sec. 8503.020. DISPOSITION OF PROPERTY. (a) Nothing in this chapter shall be construed as authorizing the authority, and the authority is not authorized, to mortgage or otherwise encumber any of its property of any kind, real, personal, or mixed, or any interest in such property, or to acquire any property or interest subject to a mortgage or conditional sale, provided that this section may not be construed as preventing the pledging of the revenues of the authority as authorized by this chapter.

(b) Nothing in this chapter shall be construed as authorizing the sale of any property or interest by the authority or by any
receiver of any of its properties or through any court proceeding or otherwise, unless, by the affirmative vote of three-fourths of its statutory membership, the board has determined that the property or interest is not necessary or convenient or of beneficial use to the business of the authority and has approved the terms of the sale. Except by sale as expressly authorized in this section, authority property or interest may not come into the ownership or control, directly or indirectly, of any person, firm, or corporation other than a public authority created under the laws of this state or a nonprofit corporation created by the authority under Chapter 152, Water Code.

(c) The limitations on the sale of property of the authority in this section do not and are not intended to preclude the authority from selling any interest owned or held by the authority in any jointly owned electric power and generating facilities constructed, or to be constructed, under Section 8503.004(t), provided that the sale of an ownership interest in a joint project is provided for and in conformance with any contract with other owners regarding the electric power and energy generating facilities.

(d) All authority property is exempt from forced sale, and nothing in this chapter shall be construed to authorize the sale of any of the property of the authority under a judgment rendered in a suit, and a sale of that kind is prohibited.

Sec. 8503.021. PROPERTY AGREEMENTS WITH CITY OF AUSTIN.
Nothing in this chapter prohibits the authority from owning property in conjunction with, acquiring property from, or selling property to the City of Austin, on terms and conditions to which the authority and the city agree. The authority may acquire property from the City of Austin subject to repurchase agreements, or other terms and conditions as are agreed on between the authority and the city, and may enter into any contractual relations with the city respecting
property that the parties agree on.

Sec. 8503.022. PROPERTY USEFUL IN THE PRODUCTION OR UTILIZATION OF ELECTRIC ENERGY. This chapter does not prohibit or restrict the sale, lease, or other disposition, to an electric cooperative, municipality, nonprofit corporation created by the authority under Chapter 152, Water Code, or other governmental agency or body politic and corporate of this state, of any property acquired or constructed by the authority and incidental to or used or useful in the generation, production, transmission, distribution, or sale of electric energy. The authority may pledge the proceeds of a sale under this section to the same extent and in the same manner in which it is authorized to pledge its revenues.

Sec. 8503.023. PUBLIC ACCESS. (a) The authority may not prevent the public use of its lands for recreational purposes and fishing except at such points where, in the opinion of the board, the use would interfere with the proper conduct of the business of the authority or would interfere with the lawful use of the property. A lease of authority lands, except one expressly permitted by Section 8503.022, is not lawful unless it provides for free public use of the lands for recreational purposes and fishing.

(b) All public rights-of-way traversing the areas flooded or to be flooded by the impounded waters shall remain open as a way of free public passage to and from the lakes created, and a charge may not be made to the public for the right to engage in fishing or boating on or swimming in those lakes.

(c) If any citizen of this state or of the United States...
advises the attorney general that this section has not been complied with, the attorney general may, after investigation of the complaint and notice to the authority, institute the proper legal proceedings, if any are required, to require the authority or its successor to comply with this section.

(d) If any of the authority's land bordering the lakes to be created under this chapter is sold by the authority, the authority shall retain in each tract a strip 20 feet wide abutting the high-water line of the lake for the purpose of passage and use by the public for public sports and amusements; provided, however, that this subsection does not apply to any sales of land by the authority to any state or federal agency to be used for game or fish sanctuaries or preserves or for game or fish propagation purposes.

Sec. 8503.028. AUTHORITY POWERS IN LAMPASAS COUNTY. Notwithstanding any other provision of this chapter, the authority may exercise all powers within Lampasas County that it may otherwise exercise within the 10 counties specified in Section 8503.003, except that the authority may not provide water or wastewater services in the portion of Lampasas County outside the Colorado River watershed without the consent of the Brazos River Authority.

Sec. 8503.029. ADDITIONAL SPECIFIC POWERS. (a) Notwithstanding any other provision of this chapter, the authority:
(1) may purchase, construct, acquire, own, operate, repair, improve, or extend any facility necessary or convenient to provide water services in Williamson County in cooperation with another special district, a municipality, or another governmental entity;
(2) may not provide water services in the watershed of the Brazos River unless the authority obtains in writing the consent of the Brazos River Authority before the services are provided; and
(3) may transfer surface water from the authority to a place in Williamson County that is outside the watershed of the Colorado River only if the transfer is made to:
(A) a municipality that was a water customer of the authority on May 20, 1997, and located in the watersheds of both the Colorado River and the Brazos River; or
(B) a person or entity that pays for the surface water
in an amount sufficient to pay both the authority's applicable water rate and an additional charge to pay the costs of mitigating any adverse effects of the transfer of surface water to Williamson County from the Colorado River watershed, and provided the transfer results in no net loss of water to the Colorado River watershed as determined by the board.

(b) Notwithstanding the amounts of surface water transferred by the authority to municipalities in accordance with Subsection (a)(3)(A), the volume of surface water authorized for transfer by the authority in accordance with Subsection (a)(3)(B) may not exceed 25,000 acre-feet per year, it being the intent of the legislature that the authority not be the sole provider of surface water to Williamson County.

(c) The authority shall determine the amount of the additional charge under Subsection (a)(3)(B). The additional charge may not be less than 10 percent of the authority's applicable rate for surface water to be transferred. The authority shall deposit any money the authority receives from the additional charge, and may deposit any other money as the board determines, into a separate fund designated as the agricultural water conservation fund. The authority may use money from the agricultural water conservation fund only for the development of water resources or other water use strategies to replace or offset the amount of surface water to be transferred to Williamson County, including the development and implementation of methods, programs, and strategies relating to groundwater resources, reuse, conservation, and other opportunities to reduce the reliance on surface water for agricultural irrigation, provided that the methods, programs, and strategies take into consideration the surface water and groundwater needs of the affected Colorado River basin users.

(d) Before its determination of the use of money from the agricultural water conservation fund, the authority shall consult with an advisory committee representing agricultural irrigation interests that is appointed by the county judges of Matagorda, Wharton, and Colorado counties. The board's determination of the additional charge is not subject to review or modification by any regulatory agency or independent reviewing authority. Water resources developed or conserved through the additional charge may be acquired from any source inside or outside the boundaries of the authority and shall be used to benefit the water service areas of the
authority's irrigation operations.

Sec. 8503.030. PROVISION OF WATER TO MUNICIPALITY OUTSIDE COLORADO RIVER BASIN. (a) This section applies notwithstanding any other provision of this chapter or other law.

(b) In this section and Section 8503.031:
   (1) "Municipality" includes a municipally owned utility.
   (2) "Water service area" means the area in which the authority is authorized to use, distribute, and sell water on January 1, 2001.

(c) Subject to the limitations and restrictions in this section, the authority may enter into a written contract with a municipality located outside the water service area to distribute and sell water to the municipality.

(d) In addition to the authority's applicable water rate, the authority shall charge a municipality a surcharge determined by the board according to the terms of the contract to enable the authority to develop and manage water resources sufficient to address the projected needs of the authority's water service area and the needs of the municipality to the extent agreed in the contract. The contract must provide that the surcharge be sufficient to allow the authority to recover all capital construction costs incurred by the authority under this section. The board's determination of the surcharge is not subject to review or modification by any regulatory agency or administrative authority.

(e) The use or reservation of water under a contract authorized by this section may extend for a base period of not more than 50 years. A contract may provide an option to renew for not more than an additional 30 years. An option to renew must require that the municipality progressively reduce the amount of water reserved or used by the municipality during the last 10 years of the renewal term and require that the rate paid by the municipality immediately increase by a factor of five if the municipality does not make the required reduction. A contract must provide that the municipality is not entitled to further reservation, use, or delivery of water from
the authority at the conclusion of the contract.

(f) A contract authorized by this section must require that the then current rate paid by the municipality immediately increase by a factor of five if:

(1) the municipality initiates legal proceedings in a court or regulatory agency to obtain:
   (A) an increase in the amount of surface water taken by the municipality under this section; or
   (B) an extension of either the base or renewal periods under Subsection (e); or

(2) the authority is compelled by any authority to reserve, sell, or make available to the municipality more than 150,000 acre-feet of water per year or to reserve, sell, or make available to the municipality water beyond the base and renewal periods under Subsection (e).

(g) The contract must provide that within the water service area the authority must own any personal property, fixtures, or appurtenances that are used for making available, diverting, or delivering water to a municipality under a contract authorized by this section.

(h) Water to be provided under a contract authorized by this section may not be diverted from the Colorado River at diversion points located on the reservoirs that, on May 16, 2001, are owned and operated by the authority upstream of Mansfield Dam. Water to be provided under a contract authorized by this section may be diverted only from off-channel reservoirs built downstream of Mansfield Dam after May 16, 2001.

(i) The authority may not provide water to a municipality under a contract authorized by this section unless the authority demonstrates, through its water management plan, to the commission that the authority will operate its water supply system in conjunction with the water resources management efforts contemplated by the contract to:

(1) increase the average lake levels of Lake Buchanan and Lake Travis by at least 6 feet and 18 feet, respectively, above the average lake levels of those lakes during times when those lakes would have been operating at less than 90 percent of conservation capacity without those efforts; and

(2) increase the average lake levels of Lake Buchanan and Lake Travis during a repeat of the drought of record at least 10 feet
and 20 feet, respectively, above the average lake levels of those lakes during a repeat of the drought of record without those efforts.

(j) As a requirement of the authority's water management plan, the authority shall submit annually to the commission data and a report demonstrating that the authority has operated its water supply system in accordance with the provisions of this section. The data shall include a tabulation that compares actual recorded lake levels with lake levels that would have occurred without the water resources management efforts contemplated by a contract authorized by this section. The commission shall review the data and report submitted by the authority and shall certify, in writing made available to the public, whether the authority has complied with the provisions of this section.

(k) The authority may sell no more than a total of 150,000 acre-feet of water in any year under contracts authorized by this section.

(l) This section does not authorize:

(1) the authority to pump water to the municipality directly from the Colorado River;

(2) the authority to sell its surface water rights to any person or entity for use outside the water service area; or

(3) a sale or lease of water other than as specifically authorized by this section.

(m) The authority may not sell groundwater to a municipality under this section.

(n) The authority may not contract to distribute or sell water under this section unless the board finds, after providing an opportunity for public input, that the contract:

(1) will protect and benefit the lower Colorado River watershed and the authority’s water service area, including municipal, industrial, agricultural, recreational, and environmental interests;

(2) is consistent with regional water plans filed with the Texas Water Development Board on or before January 5, 2001;

(3) will ensure that the beneficial inflows remaining after any water diversions will be adequate to maintain the ecological health and productivity of the Matagorda Bay system;

(4) will provide for instream flows no less protective than those included in the authority's Water Management Plan for the Lower Colorado River Basin, as approved by the commission;
(5) will ensure that, before any water is delivered under the contract, the municipality has prepared a drought contingency plan and has developed and implemented a water conservation plan that will result in the highest practicable levels of water conservation and efficiency achievable within the jurisdiction of the municipality;

(6) provides for a broad public and scientific review process designed to ensure that all information that can be practically developed is considered in establishing beneficial inflow and instream flow provisions; and

(7) will benefit stored water levels in the authority's existing reservoirs.

(o) A municipality that buys water from the authority under a contract authorized by this section may not resell that water outside the boundaries of the regional water planning area in which the municipality is located, as those boundaries are designated by the Texas Water Development Board as of January 5, 2001.

(p) Nothing in this section shall exempt the authority or any municipality from the permitting requirements of state and federal law.

Sec. 8503.031. AUTHORITY OF MUNICIPALITY TO CONTRACT FOR WATER. Section 8503.030 constitutes full authority for a municipality or municipally owned utility to enter into a contract with the authority under that section. The payments made under a contract authorized by that section are operation and maintenance expenses of the municipality's utility system. A municipality or municipally owned utility that enters into a contract under that section may use proceeds from the sale of its revenue bonds to make any such payments.

(c)  The authority may not provide broadband service to a retail customer.

(d)  Notwithstanding any other law, Subtitle C, Title 2, Utilities Code, does not apply to the authority.

(e)  The authority may provide fiber capacity or facilities only on reasonable and nondiscriminatory terms and conditions.

(f)  The authority may not agree to lease fiber capacity or facilities to a municipality for the purpose of facilitating broadband service connectivity, other than for communications regarding utility operations, unless the authority:

(1)  posts on the authority's Internet website information concerning the proposal to lease the capacity or facilities to the municipality not less than 90 days before entering into the lease agreement with the municipality; and

(2)  for the 90-day period beginning on the date that the authority posts information under Subdivision (1), makes the capacity or facilities available for lease to any commercial broadband provider that provides broadband services in the municipality, on the authority's standard terms and conditions.

SUBCHAPTER D. REGULATORY PROVISIONS
Sec. 8801.151. GROUNDWATER WITHDRAWALS SUBJECT TO BOARD RULE. (a) Groundwater withdrawals governed by this chapter, including withdrawals of injected water, are subject to reasonable board rules and orders, taking into account all factors, including availability of surface water or alternative water supplies, economic impact on persons and the community, degree and effect of subsidence on the surface of land, and differing topographical and geophysical characteristics of land areas in the district. (b) The board may issue permits to drill new wells and may, by rule, provide exemptions from the permit requirements. The district shall grant a permit to drill and operate a new well inside a platted subdivision if water service from a local retail public utility is not available to the lot where the well is to be located. (c) In this section, "retail public utility" has the meaning assigned by Section 13.002, Water Code.

Sec. 8801.152. CERTAIN GROUNDWATER USES EXEMPT. The permit requirements of this chapter do not apply to: (1) a well regulated under Chapter 27, Water Code; (2) a well with a casing diameter of less than five inches that serves only a single-family dwelling; and (3) any other well as provided by board rule.

Sec. 8801.154. WELL REGISTRATION. The board by rule may require the registration of any well in the district.
Sec. 8801.155. PERMIT REQUIRED. (a) A well owner must obtain a permit from the board before:

(1) drilling, equipping, or completing the well;

(2) substantially altering the size of the well or a well pump; or

(3) operating the well.

(b) A well must have a valid permit if it is operational.

(c) A well owner commits a violation if the well owner does not obtain a permit as required by Subsection (a). A violation occurs on the first day the drilling, alteration, or operation begins. Each day that a violation continues is a separate violation.

Sec. 8801.156. APPLICATION FOR PERMIT. (a) A person must submit an application to the board to obtain a permit under this chapter.

(b) The application must state:

(1) the name and address of the person requesting the permit;

(2) the location and wellhead elevation of the well or proposed well;

(3) the amount of water being withdrawn or proposed to be withdrawn; and

(4) any other information necessary for the board to control and prevent subsidence in the district.

(c) The board shall set a reasonable fee for processing an application. The application must be accompanied by the fee.
Sec. 8801.157. NOTICE AND HEARING ON PERMIT. (a) On receiving an application for a permit, the board shall issue notice and set a time for a hearing on the application.

(b) The board must give written notice of the date, time, and location of the hearing to the applicant by regular mail or by certified mail, return receipt requested.

(c) The board may consider as many applications for permits as necessary at a hearing.

Sec. 8801.158. ISSUANCE OF PERMIT. (a) Within a reasonable period after a permit hearing under Section 8801.157, but not later than the 60th day after the date of the hearing, the board shall:

(1) decide whether to issue the permit; and

(2) set the terms of the permit if it decides to issue the permit.

(b) In deciding whether to issue a permit and in setting the terms of the permit, the board shall consider:

(1) the purpose of this chapter;

(2) the district plan;

(3) the quality, quantity, and availability of surface water or alternative water supplies at prices that are competitive with prices charged by suppliers of surface water in the district;

(4) the economic impact on the applicant of a decision to issue or deny the permit, or of the permit terms, in relation to the effect on subsidence that would result;

(5) the applicant's use of water conservation measures;

(6) the applicant's compliance with the requirements of this chapter or any rule, permit, or order of the district; and

(7) all other relevant factors.

(c) The board shall issue a permit to an applicant if, on presentation of adequate proof, the board finds that:

(1) there is no other adequate and available substitute or supplemental source of alternative water supplies at prices competitive with the prices charged by suppliers of alternative water
supplies in the district; and

(2) compliance with any provision of this chapter or any
district rule will result in an arbitrary taking of property or in
the practical closing and elimination of a lawful business,
occupation, or activity without sufficient corresponding benefit or
advantage to the public.

(d) The permit must state the terms prescribed by the board.
The permit must include:

(1) the name and address of the person to whom the permit
is issued;
(2) the location of the well;
(3) the date the permit expires;
(4) conditions and restrictions placed on groundwater
withdrawal; and
(5) other terms necessary to control and prevent
subsidence.

(e) The board may condition issuance of a permit under this
section on the resolution of a prior or continuing violation of this
chapter or any rule, permit, or order of the district. The board may
require an applicant to pay a civil penalty or settlement amount, or
take other necessary action, to resolve a prior or continuing
violation.

Sec. 8801.159. TERM OF PERMIT. (a) A permit issued under this
chapter may be for a term not to exceed five years as set by the
board.

(b) A permit does not become a vested right of the permit
holder. The board may revoke or suspend a permit or amend its terms
after notice and hearing when reasonably necessary to accomplish the
purpose of this chapter.

Acts 2003, 78th Leg., ch. 1277, Sec. 1, eff. April 1, 2005.

Sec. 8801.161.  PERMIT FEES.  (a)  When the board issues or renews a permit, the board shall collect a permit fee from the applicant. The fee shall be determined by a schedule based on the term of the permit and the maximum amount of groundwater that the board authorizes to be withdrawn from the well.

(a-1) In addition to a regular permit fee under Subsection (a), the board may establish a disincentive permit fee to serve as a regulatory tool by creating a disincentive to continued over-reliance on groundwater.

(b) The board shall determine the amount of the permit fees under Subsections (a) and (a-1) after a hearing.

(b-1) The fee under Subsection (a) may not exceed 110 percent of the highest rate that the City of Houston charges for water supplied to its customers in the district.

(c) The amount of a permit fee applicable to a well used for irrigating agricultural crops may not exceed 70 percent of the lowest amount determined under Subsection (b).

(d) The district may establish a fee for administrative acts of the district, including receiving applications for permits or permit amendments.

(e) The board shall use permit fees collected under this section to pay the cost of issuing permits and performing other regulatory functions, including making grants, loans, or contractual payments to achieve, facilitate, or expedite reductions in groundwater pumping or the development or distribution of alternative water supplies.

year, a well owner who is required to hold a permit under this 
chapter shall submit to the board a report stating:
   (1) the well owner's name;
   (2) the total amount of groundwater withdrawn from the well 
during the preceding calendar year;
   (3) the total amount of groundwater withdrawn from the well 
during each month of the preceding calendar year;
   (4) the purpose for which the groundwater was used; and
   (5) any other information the board considers necessary.
(b) For the purposes of this section, a well owner whose well 
is aggregated with other wells permitted and managed by a regional 
water supplier is required to file the report with the regional water 
supplier instead of the district. Regional water suppliers are 
required to annually submit to the board the report required in 
Subsection (a) for all wells owned, managed, or permitted by that

(b) The board may issue an order requiring a person to 
completely or partially discontinue the use of groundwater only if 
the person is able to:
   (1) acquire an alternative water supply needed to replace 
   the water supply covered by the order; or
   (2) participate in a groundwater reduction plan or other 
   agreement approved by the board that complies with the district's 
   regulatory requirements.
(c) A notice of public hearing must inform a person when the 
board will consider an order to convert to an alternative water 
supply.
(d) Repealed by Acts 2005, 79th Leg., Ch. 238, Sec. 51, eff.

Chapter 12, Water Code, and rules adopted under that chapter apply to an appeal under this section.
  (b) The Public Utility Commission of Texas shall hear the appeal not later than the 180th day after the date the appeal is filed.
  (c) The Public Utility Commission of Texas shall issue a final decision on the appeal not later than the 60th day after the date the hearing ends.

the district under this chapter, including a person residing in or owning real property in the district whose residence or real property is subsiding, may appeal the action in a district court in any county in the district only after any administrative appeal to the district is finally resolved. An appeal under this section must be filed not later than the 45th day after the date any administrative appeal is finally resolved.

(b) On a written request from a person residing in or owning real property in the district, the board shall make written findings and conclusions regarding a rule, order, or other official action of the district. The board shall provide certified copies of those findings and conclusions to the person not later than the 35th day after the date the board receives the request.

(c) An appeal under this section is governed by the substantial evidence rule as provided by Subchapter G, Chapter 2001, Government Code. The burden of proof is on the petitioner, and the challenged rule, order, or other official action of the district is considered prima facie valid.

(d) The district court shall set for trial as expeditiously as possible an appeal brought under this section and may not postpone or continue the suit unless the reasons for postponement or continuance are imperative.

subdivision; or

(B) if the person is a political subdivision or an agency of a political subdivision, an amount equal to the greater of:

(i) 120 percent of the sum of the fees assessed against the person and the amount the person would have paid to an alternative water supplier; or

(d) For a permit first issued on or before September 9, 2004, that is renewed without material amendment after September 1, 2007, the board may not charge an annual production fee of more than 17 cents per thousand gallons for the amount of water permitted under the permit as renewed if the water is permitted for any purpose other
than agricultural use.

(e) The board may adopt a differential rate structure for the nonagricultural production fees described by this section to promote alternatives to the exclusive use of groundwater resources.

(f) A material amendment under this section is an amendment to a permit that increases the amount of water permitted by more than 10 percent in one fiscal year or by more than 25 percent in any three-year period. The renewal on or after September 1, 2007, of a permit that was issued on or before September 9, 2004, is considered to be a material amendment for purposes of this section if the permit as renewed increases the amount of water permitted by an amount that exceeds the limits specified by this subsection.

(g) This subsection applies only to a well located in the shared territory described by Section 8802.0035. Notwithstanding Subsection (b), the district may not charge an annual production fee of more than 17 cents per thousand gallons of water authorized to be produced under a permit from a well under this subsection, if the water is permitted for any use other than agricultural use.

(a) Each year the board may assess against the City of Austin a water use fee in an amount not to exceed 60 percent of the total funding the district expects to receive for the next fiscal year from water use fees assessed against Austin and other nonexempt users in that year, subject to the computation under Subsection (b).

(b) For purposes of computing water use fees under this section, the district shall estimate the amount of permitted pumpage for the next fiscal year by considering various factors including historical growth rates, future growth rates, the amount of permitted pumpage, historical permitted pumpage, and any pending applications for permitted pumpage. The district shall use the estimated amount of permitted pumpage and its water use fee rate to compute the water use fee to be assessed against the City of Austin for the district's
next fiscal year. The district shall compute the water use fee assessed against the City of Austin at a rate of 17 cents per thousand gallons for the total amount of water permitted for any nonagricultural purpose, regardless of the rate actually imposed on or remitted by the permittee.

(1) injunctive relief to restrain the person from continuing the violation;
(2) a civil penalty of not less than $50 or more than $1,000 for each violation and for each day of violation; or
(3) both injunctive relief and a civil penalty.
(b) On application for injunctive relief under Subsection (a)(1) and a finding that a person is violating or threatening to violate this chapter or a district permit, rule, or order, the district court shall grant injunctive relief as the facts may warrant.
(c) Any legal action initiated under this section to obtain penalties must be authorized by a resolution of the board or by the district's general manager, if authorized by the board.

The authority is created to serve a public use and benefit. The creation of the authority will serve to promote the health, safety, and general welfare of persons within the authority and the general public. SUBCHAPTER B. BOARD OF DIRECTORS
Sec. 8813.051. DIRECTORS; TERMS. (a) The authority is governed by a board of seven directors.
(b) The directors serve staggered four-year terms that expire May 15 of even-numbered years.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.
Sec. 8813.052. ELIGIBILITY TO SERVE AS DIRECTOR. (a) To be eligible to serve as a director of the authority or to be listed on a ballot as a candidate for director of the authority representing a director precinct, an individual must:
(1) be at least 18 years of age;
(2) be a resident of the authority; and
(3) have served as a director of one or more districts for a total of at least four years.
(b) Notwithstanding Subsection (a), to serve as a director representing, or to be listed on a ballot as a candidate for director representing, a director precinct that includes any part of the City of Fulshear, an individual must:
(1) meet the qualifications provided by Subsections (a)(1) and (2); and
(2) have served as:
(A) the mayor or a member of the city council of the City of Fulshear for any period; or
(B) a director of one or more districts for a total of at least four years.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

Sec. 8813.053. DISQUALIFICATION OF DIRECTORS. The common law doctrine of incompatibility does not disqualify an official or employee of a public entity from serving as a director of the authority. A director who is also an officer or employee of a public entity may not participate in the discussion of or vote on a matter regarding a contract with that public entity.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

Sec. 8813.054. CONFLICTS OF INTEREST. Chapter 171, Local Government Code, governs conflicts of interest of board members.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June
Sec. 8813.055. SINGLE-MEMBER DIRECTOR PRECINCTS. (a) The authority is divided into seven single-member director precincts, as described by Section 3 of the Act creating this chapter.

(b) The board may redraw the single-member director precincts in a manner that is reasonable and equitable:

(1) after any change in the boundaries of the authority; or

(2) by a resolution redrawing the director precincts adopted by a two-thirds majority of the board based on changed circumstances.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

Sec. 8813.056. METHOD OF APPOINTMENT OF DIRECTORS. (a) The governing bodies of the districts and municipalities located within each director precinct jointly shall appoint one director to represent the precinct by a vote conducted as provided by this section.

(b) If a district or municipality is located within two or more director precincts, the district or municipality is considered, for purposes of this section, to be located only within the director precinct in which the greatest amount of territory of the district or municipality is located.

(c) For the appointment of a director for a director precinct, the board shall determine the number of votes each district or municipality may cast. The number of votes for a governing body of a district or municipality within the precinct is equal to the number computed by dividing the total number of units of water, as determined by the board, used within the precinct by the district or municipality during the calendar year preceding the year in which the director is selected by the total number of units of water used within the precinct by all districts and municipalities in the precinct, multiplying that quotient by 100, and rounding that result to the nearest one-tenth. The board shall provide the presiding officer of each governing body of a district or municipality within each director precinct written notice of the number of votes computed
for that governing body to cast.

(d) For purposes of Subsection (c), the board shall determine the amount of water usage of all districts and municipalities within each director precinct.

(e) In the appropriate even-numbered year, the governing body of each district or municipality in a director precinct by resolution may nominate one candidate for the position of director for that director precinct. Each district or municipality shall submit the name of its candidate, if any, to the presiding officer of the authority by February 15 of that year. If by February 15 of that year only one candidate's name is submitted for the position of director for a director precinct, the board may declare the unopposed candidate elected and may cancel the director appointment procedures generally required by this section for that position. If more than one candidate's name is submitted for the position of director for a director precinct, before March 15 of that year the board shall prepare, for the director precinct or precincts from which a director is being appointed, a ballot listing all of the candidates for that director precinct and shall provide a copy of the appropriate ballot to the presiding officer of the governing body of each district or municipality located within the director precinct from which a director is being appointed.

(f) An individual may not be listed as a candidate on the ballot for more than one director position. If a candidate is nominated for more than one director position, the candidate must choose to be on the ballot for only one director position.

(g) The governing body of each district or municipality shall determine its votes for director by resolution and submit them to the presiding officer of the authority before May 1 of the appropriate even-numbered year. In casting its votes for director, the governing body of each district or municipality may vote for only one candidate on the ballot for the director precinct in which the district or municipality is located. For each director precinct from which a director is being appointed, the board shall count the votes, declare elected the candidate who received the greatest number of votes from districts and municipalities located within that director precinct, and submit the results before May 15 of that year to the governing body of each district or municipality within that director precinct.

(h) The board may adopt rules regarding:

(1) the manner and timing of determinations and
calculations required by this section;
   (2) the reporting of water usage to the authority by
districts and municipalities; and
   (3) the conduct and process of the appointment of
directors.

17, 2005.

Sec. 8813.057. VACANCY IN OFFICE OF DIRECTOR. A vacancy in the
office of director shall be filled by appointment by the governing
bodies of the districts and municipalities that are located within
the director precinct for which the vacancy occurred. The
appointment process shall follow the procedures of Section 8813.056.
The board may establish dates different from those specified by
Sections 8813.056(e) and (g), but the date for the board's submission
of the voting results to each district and municipality may not be
later than the 120th day after the date the vacancy occurs.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June
17, 2005.

Sec. 8813.058. MEETINGS AND ACTIONS OF BOARD. (a) The board
may meet as many times each year as the board considers appropriate.
(b) Directors of the authority are public officials and are
entitled to governmental immunity for their actions in their capacity
as directors and officers of the authority.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June
17, 2005.

Sec. 8813.059. GENERAL MANAGER. (a) The board may employ a
general manager of the authority or contract with a person to perform
the duties of a general manager. The board may delegate to the
general manager full authority to manage and operate the affairs of
the authority subject only to orders of the board.
(b) The board may delegate to the general manager the authority
to employ all persons necessary for the proper handling of the
business and operation of the authority and to determine the compensation to be paid to all employees, other than the general manager.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

SUBCHAPTER C. POWERS AND DUTIES

Sec. 8813.101. GENERAL POWERS AND DUTIES. (a) The authority may:

(1) provide for the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and for the reduction of groundwater withdrawals as necessary to develop, implement, or enforce a groundwater reduction plan, in a manner consistent with the purposes of Section 59, Article XVI, Texas Constitution, and facilitate compliance with Fort Bend Subsidence District or Harris-Galveston Subsidence District, as applicable, rules, orders, regulations, or requirements;

(2) acquire or develop surface water and groundwater supplies from sources inside or outside the boundaries of the authority, conserve, store, transport, treat, purify, distribute, sell, and deliver water to or among persons inside and outside the boundaries of the authority, and allocate water among persons participating in the authority's groundwater reduction plan whether they are located inside or outside the authority's boundaries;

(3) enter into contracts with persons inside or outside the authority on terms and conditions the board considers desirable, fair, and advantageous for the performance of its rights, powers, and authority under this chapter;

(4) coordinate water services provided inside, outside, or into the authority;

(5) provide wholesale and retail water services to any users or customers within the authority's boundaries without being required to execute contracts with those users or customers;

(6) adopt policies establishing whether, when, and the manner in which the authority uses requests for proposals in obtaining services, including professional services;

(7) determine whether to adopt administrative policies in addition to those required by Section 49.199, Water Code; and
(8) administer and enforce this chapter.

(b) Sections 49.451-49.455, Water Code, do not apply to the authority.

(c) Notwithstanding Subsection (a)(5), the authority may not provide retail water service to a retail user within the authority's boundaries that is located within the boundaries of a district or municipality on the date the authority awards a contract for the construction or executes a contract for the acquisition of water facilities to serve that retail user, unless:

(1) the district or municipality consents in writing to the authority's provision of retail water service; or

(2) the retail user owns or operates a well.

(d) If a retail user that does not own or operate a well is added to the boundaries of a district or municipality after the date the authority awards a contract for the construction or executes a contract for the acquisition of water facilities to serve that retail user, the authority may provide retail service to that retail user without the written consent of the district or municipality.

(e) The authority is not a special water authority for purposes of Chapter 49, Water Code.

Sec. 8813.102. AUTHORITY RULES. The authority may adopt and enforce rules reasonably required to implement this chapter, including rules governing procedures before the board and rules regarding implementation, enforcement, and any other matters related to the authority's water supply or groundwater reduction plan.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

Sec. 8813.103. FEES, USER FEES, RATES, AND CHARGES. (a) The
authority may establish fees, user fees, rates, and charges and classifications of payers of fees and rates as necessary to enable the authority to fulfill the authority's purposes and regulatory functions provided by this chapter. The authority may impose fees, user fees, rates, and charges on any person within the authority.

(b) The authority may charge the owner of a well located within the authority's boundaries a fee or user fee according to the amount of water pumped from the well. If ownership of a well changes, both the prior and subsequent well owners are liable to the authority, jointly and severally, for all fees and user fees imposed by the authority under this subsection, and any related penalties and interest, for water pumped from that well before the change in well ownership.

(c) The board shall make reasonable efforts to send districts and municipalities written notice of the date, time, and location of the meeting at which the board intends to adopt a proposed charge under Subsection (b) and the amount of the proposed charge. The board's failure to comply with this subsection does not invalidate a charge adopted by the board under Subsection (b).

(d) For wells located in Harris County or Fort Bend County, the board shall exempt from the charge under Subsection (b) classes of wells that are not subject to any groundwater reduction requirement imposed by the Harris-Galveston Subsidence District or the Fort Bend Subsidence District, as applicable. If any of those classes of wells become subject to a groundwater reduction requirement imposed by the applicable subsidence district, the authority may impose the charge under Subsection (b) on those classes. The board by rule may exempt any other classes of wells from the charge under Subsection (b). The board may not apply the charge under Subsection (b) to a well:

1. with a casing diameter of less than five inches that serves only a single-family dwelling; or
2. regulated under Chapter 27, Water Code.

(e) For purposes of Subsection (d), a well is subject to a groundwater reduction requirement if the Harris-Galveston Subsidence District or the Fort Bend Subsidence District, as applicable, has adopted or adopts a requirement or rule that groundwater withdrawals from the well, or from the well and other wells collectively, be reduced, including a groundwater reduction that is not required until a future date.

(e-1) Notwithstanding Subsection (d), the authority may impose
a charge under Subsection (b) on a well or class of wells located in Harris or Fort Bend County that, on or after February 1, 2013:

(1) ceases to be subject to a groundwater reduction requirement imposed by the Harris-Galveston Subsidence District or the Fort Bend Subsidence District, as applicable; or

(2) is no longer subject to the regulatory provisions, permitting requirements, or jurisdiction of the Harris-Galveston Subsidence District or the Fort Bend Subsidence District, as applicable.

(f) The authority may establish fees, user fees, rates, and charges that are sufficient to:

(1) achieve water conservation;
(2) prevent waste of water;
(3) serve as a disincentive to pumping groundwater;
(4) develop, implement, or enforce a groundwater reduction plan;
(5) accomplish the purposes of this chapter, including making available alternative water supplies;
(6) enable the authority to meet operation and maintenance expenses;
(7) pay the principal of and interest on notes, bonds, and other obligations issued in connection with the exercise of the authority's general powers and duties; and
(8) satisfy all rate covenants relating to the issuance of notes, bonds, and other obligations.

(g) The authority may charge rates established by the authority for water purchased from the authority.

(h) The authority may impose fees, user fees, or charges for the importation of water into the authority's boundaries from a source located outside the authority's boundaries.

Sec. 8813.104. PURCHASE OF WATER FROM ANOTHER ENTITY. (a) If the authority purchases water from another entity for resale to local governments, the authority shall use its best efforts in negotiating with the entity to determine the amount of capital costs included in any rates or charges paid by the authority. The authority shall determine the amount of expected capital costs of its own system.

(b) The authority may provide each district or municipality within its boundaries information regarding the share of the capital costs to be paid by the district or municipality, as determined by the authority, and may provide each district or municipality the opportunity, in a manner and by a procedure determined by the authority, to fund its share of the capital costs with proceeds from the sale of bonds or fees and charges collected by the districts or municipalities. A district or municipality may use any lawful source of revenue, including bond funds, to pay any sums due to the authority.

(c) The authority may adopt a procedure by which a district or municipality may receive a credit from the authority. The board may adopt any other procedure necessary to accomplish the goals of this section.

(d) In complying with this section, the authority may use any reasonable basis to calculate from time to time the share of the capital costs of a district or municipality. The authority may calculate the shares of the capital costs based on the amount of water used within the authority by the district or municipality during the calendar year preceding the year in which the calculation is made.

(e) This section or any failure to comply with this section does not limit or impede the authority's ability to issue bonds or notes or invalidate any fees, user fees, charges, rates, or special assessments imposed by the authority.

Sec. 8813.105. ASSESSMENTS. (a) The board may undertake
improvement projects and services that confer a special benefit on all or a definable part of the authority. The board may impose special assessments on property in that area, including property of a local government, based on the benefit conferred by the improvement project or services, to pay all or part of the cost of the project and services. The board may provide improvements and services to an area outside the boundaries of the authority if the board determines that there is a benefit to the authority. The authority may finance with special assessments any improvement project or service authorized by this chapter or any other applicable law.

(b) Services or improvement projects may be financed with special assessments under this chapter only after the board holds a public hearing on the advisability of the improvements and services and the proposed assessments.

(c) The board shall publish notice of the hearing in a newspaper or newspapers with general circulation in Harris and Fort Bend Counties. The publication must be made not later than the 30th day before the date of the hearing.

(d) Notice provided under this section must include:
   (1) the time and place of the hearing;
   (2) the general nature of the proposed improvement project or services;
   (3) the estimated cost of the improvement, including interest during construction and associated financing costs; and
   (4) the proposed method of assessment.

(e) Written notice containing the information required by Subsection (d) shall be mailed by certified mail, return receipt requested, not later than the 30th day before the date of the hearing. The notice shall be mailed to each person within the authority who holds a permit for a well issued by the Harris-Galveston Subsidence District or Fort Bend Subsidence District, as applicable, and whose well is subject to a groundwater reduction requirement imposed by that district. The Harris-Galveston Subsidence District and Fort Bend Subsidence District shall provide to the authority a list of persons who hold such a permit.

(f) The board may establish rules regarding procedures for a hearing. A hearing on the services or improvement project, whether conducted by the board or a hearings examiner, may be adjourned from time to time. At the conclusion of a hearing conducted by the board, the board shall make written findings and conclusions relating to the
advisability of the improvement project or services, the nature of
the improvement project or services, the estimated cost, and the area
benefited. If the board appoints a hearings examiner to conduct the
hearing, after conclusion of the hearing, the hearings examiner shall
file with the board a written report of the examiner's findings and
conclusions.

(g) At a hearing on proposed assessments, on adjournment of the
hearing, or after consideration of the hearings examiner's report,
the board shall hear and rule on all objections to each proposed
assessment. The board may amend proposed assessments for any
property. After the board hears and takes action on those
objections, the board, by order:

(1) shall impose the assessments as special assessments on
the property;

(2) shall specify the method of payment of the assessments; and

(3) may provide that those assessments, including interest,
be paid in periodic installments.

(h) Periodic installments must be in amounts sufficient to meet
annual costs for services and improvements as provided by Subsection
(j) and continue for the number of years required to retire the
indebtedness or pay for the services to be rendered. The board may
provide interest charges or penalties for failure to make timely
payment and may impose an amount to cover delinquencies and expenses
of collection.

(i) If assessments are imposed for more than one service or
improvement project, the board may provide that assessments collected
for one service or improvement project may be borrowed to be used for
another service or improvement project. The board shall establish a
procedure for the distribution or use of any assessments in excess of
those necessary to finance the services or improvement project for
which those assessments were collected.

(j) The board shall apportion the cost of an improvement
project or services to be assessed against the property in the
authority according to the special benefits that accrue to the
property because of the improvement project or services. The board
may assess the cost only according to the number of gallons of
groundwater pumped from wells within the authority that are subject
to a groundwater reduction requirement imposed by the Harris-
Galveston Subsidence District or Fort Bend Subsidence District, as
applicable. The board may not assess the cost according to groundwater pumped from:

(1) a well with a casing diameter of less than five inches that serves only a single-family dwelling; or
(2) a well that is regulated by Chapter 27, Water Code.

(k) The area of the authority to be assessed according to the findings of the board may be the entire authority or any part of the authority and may be less than the area proposed in the notice of the hearing.

(1) The area to be assessed may not include property that is not within the authority boundaries at the time of the hearing unless there is an additional hearing, following the required notice.

(m) Notwithstanding Subsection (l), the owner of land annexed to the authority after the authority has imposed assessments may waive the right to notice and an assessment hearing and may agree to the imposition and payment of assessments at an agreed rate for land annexed to the authority. A district or municipality may waive the right to notice and an assessment hearing for land within its boundaries annexed to the authority and may agree to the imposition and payment of assessments at an agreed rate for the annexed land.

(n) The board shall have prepared an assessment roll showing the assessments against each property and the board's basis for the assessment. The assessment roll shall be:

(1) filed with the secretary of the board or other officer who performs the function of secretary; and
(2) open for public inspection.

(o) After notice and hearing in the manner required for an original assessment, the board may make supplemental assessments to correct omissions or mistakes in the assessment:

(1) relating to the total cost of the improvement project or services; or
(2) covering delinquencies or costs of collection.

Sec. 8813.106. INTEREST AND PENALTIES. The board may require the payment of interest on any late or unpaid fees, user fees, rates, charges, and special assessments due the authority, but the interest rate may not exceed the interest rate permitted by Section 2251.025, Government Code. The board may also impose penalties for the failure to make a complete or timely payment to the authority. In addition, the board may exclude a person, or any territory or well owned or controlled by a person, from the authority's groundwater reduction plan for failure to make a complete or timely payment to the authority.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

Sec. 8813.107. ATTORNEY'S FEES AND COLLECTION EXPENSES. (a) The authority is entitled to reasonable attorney's fees incurred by the authority in enforcing its rules.

(b) The authority is entitled to collection expenses and reasonable attorney's fees incurred by the authority in collecting any delinquent fees, user fees, rates, and charges and any related penalties and interest.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

Sec. 8813.108. LIEN. (a) Fees and user fees imposed by the authority under Section 8813.103(b), any related penalties and interest, and collection expenses and reasonable attorney's fees incurred by the authority:

(1) are a first and prior lien against the well to which the fees or user fees apply;

(2) are superior to any other lien or claim other than a lien or claim for county, school district, or municipal ad valorem taxes; and

(3) are the personal liability of and a charge against the owner of the well.

(b) A lien under this section is effective from the date of the resolution or order of the board imposing the fee or user fee until the fee or user fee is paid.
(c) The board may enforce the lien in the same manner that a municipal utility district operating under Chapter 54, Water Code, may enforce an ad valorem tax lien against real property.

Added by Acts 2005, 79th Leg., Ch. 893 (S.B. 1798), Sec. 1, eff. June 17, 2005.

Sec. 8813.109. ADMINISTRATIVE PENALTY; INJUNCTION. (a) A person who violates a rule or order of the authority is subject to an administrative penalty of not more than $5,000, as determined by the board, for each violation or each day of a continuing violation. The person shall pay the penalty to the authority.

(b) The authority may bring an action to recover the penalty in a district court in the county where the violation occurred.

(c) The authority may bring an action for injunctive relief in a district court in the county where a violation of an authority rule or order occurs or is threatened to occur. The court may grant to the authority, without bond or other undertaking, a prohibitory or mandatory injunction that the facts warrant, including a temporary restraining order, temporary injunction, or permanent injunction.

(d) The authority may bring an action for an administrative penalty and injunctive relief in the same proceeding.

the authority. The authority may require that any groundwater reduction plan that the authority wholly or partly develops, prepares, revises, adopts, implements, enforces, or manages or in which the authority participates be the exclusive groundwater reduction plan that is binding and mandatory on some or all of the territory, persons, or wells located within the authority. A groundwater reduction plan may:

1. specify the measures to be taken to reduce groundwater withdrawals;
2. identify alternative sources of water, including water from the authority, to be provided to those affected;
3. identify the rates, terms, and conditions under which alternative sources of water will be provided, which may be changed from time to time as considered necessary by the authority;
4. specify the dates and extent to which persons or districts within the authority's boundaries shall reduce or cease reliance on groundwater and accept water from alternative sources, including water from the authority;
5. include other terms and measures that are consistent with the powers and duties of the authority;
6. exceed the minimum requirements imposed by the Harris-Galveston Subsidence District or Fort Bend Subsidence District, as applicable, including any applicable groundwater reduction requirements; and
7. be amended from time to time at the discretion of the authority.

(b) Fees, user fees, rates, charges, and special assessments of the authority may be imposed under this chapter for a person's participation in and benefit derived from the authority's groundwater reduction plan or a groundwater reduction plan in which the authority participates.

SYSTEMS. (a) The authority may:

(1) acquire by purchase, gift, lease, contract, or any other legal means a water treatment or supply system, or any other works, plants, improvements, or facilities necessary or convenient to accomplish the purposes of the authority, or any interest of the authority, inside or outside the authority's boundaries;

(2) design, finance, operate, maintain, or construct a water treatment or supply system or any other works, plants, improvements, or facilities necessary or convenient to accomplish the purposes of the authority and provide water services inside or outside the authority's boundaries;

(b) If a member district is excluded from the authority's boundaries under this section, the authority:

(1) is not required to provide water or any other service to the district; and

(2) is not required to include the district in any groundwater reduction plan adopted or implemented by the authority and may remove the district from any groundwater reduction plan adopted by the authority that includes the district.

(c) If a member district excluded from the authority's boundaries under this section petitions the authority to be annexed under Section 8815.006, the authority may annex the district. The authority may require, as a condition of annexation, terms and conditions the board considers appropriate. The authority may require the district to pay the authority the fees, user fees, charges, and special assessments, with interest, that, as determined by the authority, the district would have been charged by the authority if the district had not been excluded from the authority under this section.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.006. ANNEXATION. (a) Except to the extent the authority agrees in writing, a municipality's annexation of territory within the authority does not affect:

(1) the authority's powers inside or outside the annexed territory;

(2) the authority's boundaries or contracts; or

(3) the authority's ability to assess fees, user fees,
rates, charges, or special assessments inside or outside the territory annexed by the municipality.

(b) Territory within the authority annexed by a municipality may be excluded from the authority under a written agreement between the authority and the municipality.

(c) Territory may be annexed to the authority, regardless of whether the territory is contiguous to the authority, as provided by Chapter 49, Water Code.

(d) In addition to the authority granted by Subsection (c), regardless of whether the territory is contiguous to the authority, the authority may annex all of the territory located within a district if the district files with the authority a petition requesting the annexation signed by a majority of the members of the governing body of the district. The petition must include an accurate legal description of the boundaries of the district. If the authority has bonds, notes, or other obligations outstanding, the authority shall require the petitioning district to be obligated to pay its share of the principal of and interest on the outstanding bonds, notes, or other obligations, and related costs. The authority may also require the petitioning district to pay a portion of the expenses incurred by the member districts in connection with the organization, creation, and administration of the authority. The board may grant the petition and order the district annexed to the authority if:

   (1) it is feasible, practicable, and to the advantage of the authority; and

   (2) the authority's system and other improvements are sufficient or will be sufficient to supply surface water and groundwater to the added territory, if required under any groundwater reduction plan adopted and implemented by the authority, without harming the territory already included in the authority.

(e) Any territory that a member district annexes after the effective date of the Act creating this chapter becomes territory of the authority only on the adoption of an order or resolution by the board consenting to the inclusion of the additional territory within the authority. The authority by rule may require all member districts to send to the authority written notice of the effective date of an annexation and require the member districts to send to the authority copies of any necessary documents describing the annexed land and describing the member districts' boundaries and actual and
projected water usage requirements as they exist after inclusion of the annexed land.

(f) The annexation to the authority of territory under this section does not affect the validity of the authority's bonds issued before or after the annexation.

(g) A municipality that annexes territory of the authority for limited purposes under Subchapter F, Chapter 43, Local Government Code, does not have the right to:

1. receive notices from the authority under Section 8815.103(c);
2. participate in the appointment of directors under Subchapter B; or
3. receive information about or have the opportunity to fund its share of capital costs in the manner provided by the authority under Section 8815.104.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.007. APPLICABILITY OF OTHER LAW. (a) Except as otherwise provided by this chapter, Chapter 49, Water Code, applies to the authority.

(b) This chapter does not prevail over or preempt a provision of Chapter 36, Water Code, or Chapter 8801 of this code that is being implemented by the subsidence district.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

SUBCHAPTER B. BOARD OF DIRECTORS

Sec. 8815.051. DIRECTORS; TERMS. (a) The authority is governed by a board of five directors.

(b) The directors serve staggered four-year terms that expire May 15 of even-numbered years.

(c) Each director must qualify to serve as director in the manner provided by Section 49.055, Water Code.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.
Sec. 8815.052. ELIGIBILITY TO SERVE AS DIRECTOR. (a) To be eligible to serve as a director or to be listed on a ballot as a candidate for director, an individual must:

(1) be at least 18 years of age;
(2) be a resident of this state;
(3) own land in or be a qualified voter in the authority; and
(4) have served as a director of one or more districts for a total of at least two years.

(b) To be eligible to serve as a director representing a director precinct or to be listed on a ballot as a candidate for director representing a director precinct under Section 8815.055, in addition to satisfying the requirements under Subsection (a), an individual must own land or be a qualified voter within the director precinct.

(c) A director serves until the director's successor has qualified.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.053. DISQUALIFICATION OF DIRECTORS. The common law doctrine of incompatibility does not disqualify an official or employee of a public entity from serving as a director. Notwithstanding any other law, a director may participate in all votes and decisions pertaining to the business of the authority except that a director who is also an officer or employee of a public entity may not participate in the discussion of or vote on a matter regarding a contract with that public entity.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.054. SINGLE-MEMBER DIRECTOR PRECINCTS. (a) The authority is divided into three single-member director precincts as follows:

(1) Director Precinct No. 1 includes the territory that is
contained in the following member districts: Harris County Municipal Utility District No. 33, Fallbrook Utility District, Rankin Road West Municipal Utility District, and Harris County Municipal Utility District No. 215.

(2) Director Precinct No. 2 includes the territory that is contained in the following member districts: Harris County Municipal Utility District No. 150, Harris County Municipal Utility District No. 217, and Harris County Municipal Utility District No. 304.

(3) Director Precinct No. 3 includes the territory that is contained in the following member districts: Harris County Municipal Utility District No. 200, Harris County Municipal Utility District No. 205, Harris County Municipal Utility District No. 399, and Harris County Utility District No. 16.

(b) The board may redraw the single-member director precincts in a manner that is reasonable and equitable:

(1) after any change in the boundaries of the authority; or
(2) by a resolution redrawing the director precincts adopted by a majority of the board based on changed circumstances.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.055. METHOD OF APPOINTMENT OF DIRECTORS. (a) One director is appointed from each of the three director precincts and two directors are appointed at large. Two directors from director precincts and one director at large shall be appointed in the first even-numbered year after the authority is created, and one director from a director precinct and one director at large shall be appointed in the next even-numbered year after the authority is created. Each subsequent even-numbered year, the appropriate number of directors shall be appointed.

(b) In the appropriate even-numbered year, the governing bodies of the member districts located within a director precinct jointly shall appoint one director to represent the precinct by a vote conducted as provided by this section. Each even-numbered year, the governing bodies of each member district shall appoint one director for an at-large position by a vote conducted as provided by this section.

(c) If a member district is located within two or more director
precincts, the member district is considered, for purposes of this subchapter, to be located only within the director precinct in which the greatest amount of territory of the member district is located.

(d) For the appointment of a director for a director precinct, the board shall determine the number of votes each member district may cast. The number of votes for a governing body of a member district within the precinct is equal to the number computed by dividing the total number of units of water, as determined by the board, used within the member district during the calendar year preceding the year in which the director is selected by the total number of units of water used by all member districts in the precinct, multiplying that quotient by 100, and rounding that result to the nearest one-tenth. The board shall provide the presiding officer of each governing body of a member district within each director precinct written notice of the number of votes computed for that governing body to cast.

(e) For the appointment of a director for an at-large position, the board shall determine the number of votes each member district may cast. The number of votes for a governing body of a member district is equal to the number computed by dividing the total number of units of water, as determined by the board, used within the member district during the calendar year preceding the year in which the director is selected by the total number of units of water used by all member districts in the authority, multiplying that quotient by 100, and rounding that result to the nearest one-tenth. The board shall provide the presiding officer of each governing body of a member district written notice of the number of votes computed for that governing body to cast.

(f) For purposes of Subsections (d) and (e), the board shall determine the amount of water usage of all member districts within each director precinct.

(g) In the appropriate even-numbered year, the governing body of each member district in a director precinct by resolution may nominate one candidate for the position of director for that director precinct. Each member district shall submit the name of its candidate, if any, to the presiding officer of the authority by February 15 of that year. If by February 15 of that year only one candidate's name is submitted for the position of director for a director precinct, the board may declare the unopposed candidate elected and may cancel the director appointment procedures generally
required by this section for that position. If more than one candidate's name is submitted for the position of director for a director precinct, before March 15 of that year, the board shall prepare, for the director precinct or precincts from which a director is being appointed, a ballot listing all of the candidates for that director precinct and shall provide a copy of the appropriate ballot to the presiding officer of the governing body of each member district located within the director precinct or precincts from which a director is being appointed.

(h) The governing body of each member district in the authority by resolution may nominate one candidate for the at-large director position. Each member district shall submit the name of its candidate, if any, to the presiding officer of the authority by February 15 of each even-numbered year. If by February 15 of that year only one candidate's name is submitted for the at-large director position, the board may declare the unopposed candidate elected and may cancel the director appointment procedures generally required by this section for that position. If more than one candidate's name is submitted for the at-large director position, before March 15 of that year, the board shall prepare a ballot listing all of the candidates for the at-large director position and shall provide a copy of the ballot to the presiding officer of the governing body of each member district.

(i) An individual may not be listed as a candidate on the ballot for more than one director position. If a candidate is nominated for more than one director position, the candidate must choose to be on the ballot for only one director position.

(j) The governing body of each member district shall determine its votes for director by resolution and submit them to the presiding officer of the authority before May 1 of each even-numbered year. In casting its votes for director, the governing body of each member district may vote for only one candidate on the ballot for the director precinct in which the member district is located and for one candidate on the at-large position ballot. For each director precinct from which a director is being appointed, the board shall count the votes, declare elected the candidate who received the greatest number of votes from member districts located within that director precinct, and submit the results before May 15 of that year to the governing body of each member district within that director precinct. For the at-large position, the board shall count the
votes, declare elected the candidate who received the greatest number of votes, and submit the results before May 15 of that year to the governing body of each member district.

(k) The board may adopt rules regarding:
(1) the manner and timing of determinations and computations required by this section;
(2) the reporting of water usage to the authority by member districts; and
(3) the conduct and process of the appointment of directors.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.056. VACANCY IN OFFICE OF DIRECTOR. A vacancy in the office of director for a director precinct shall be filled by appointment by the governing bodies of the member districts that are located within the director precinct for which the vacancy occurred. A vacancy in the office of director for an at-large position shall be filled by appointment by the governing bodies of all of the member districts. The appointment process shall follow the procedures of Section 8815.055. The board may establish dates different from those specified by Sections 8815.055(g) and (h), but the date for the board's submission of the voting results to each member district may not be later than the 120th day after the date the vacancy occurs.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.057. MEETINGS AND ACTIONS OF BOARD. (a) The board may meet as many times each year as the board considers appropriate.

(b) Directors are public officials and are entitled to governmental immunity for their actions in their capacity as directors and officers of the authority.

(c) Directors may receive fees of office and reimbursement of expenses as provided by Section 49.060, Water Code.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.
Sec. 8815.058. GENERAL MANAGER. (a) The board may employ a general manager of the authority or contract with a person to perform the duties of a general manager. The board may delegate to the general manager full authority to manage and operate the affairs of the authority subject only to orders of the board.

(b) The board may delegate to the general manager the authority to employ all persons necessary for the proper handling of the business and operation of the authority and to determine the compensation to be paid to all employees, other than the general manager.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

SUBCHAPTER C. POWERS AND DUTIES
Sec. 8815.101. GENERAL POWERS AND DUTIES. (a) The authority may:

(1) provide for the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and for the reduction of groundwater withdrawals as necessary to develop, implement, or enforce a groundwater reduction plan, in a manner consistent with the purposes of Section 59, Article XVI, Texas Constitution, and facilitate compliance with subsidence district rules, orders, regulations, or requirements;

(2) acquire or develop surface water and groundwater supplies from sources inside or outside the boundaries of the authority, conserve, store, transport, treat, purify, distribute, sell, and deliver water to or among persons inside and outside the boundaries of the authority, and allocate water among persons participating in the authority's groundwater reduction plan whether they are located inside or outside the authority's boundaries;

(3) enter into contracts with persons inside or outside the authority on terms and conditions the board considers desirable, fair, and advantageous for the performance of its rights, powers, and authority under this chapter;

(4) coordinate water services provided inside, outside, or into the authority; and
administer and enforce this chapter.

(b) The following laws do not apply to the authority:
   (1) Chapter 36, Water Code;
   (2) Section 49.052, Water Code; and
   (3) Sections 49.451-49.455, Water Code.

(c) The authority has all the rights, powers, privileges, authority, functions, and duties necessary and convenient to accomplish the purposes of this chapter.

(d) The authority's rights, powers, privileges, authority, functions, and duties are subject to the continuing right of supervision of the state, to be exercised by and through the commission.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.
Amended by:
   Acts 2011, 82nd Leg., R.S., Ch. 244 (H.B. 960), Sec. 1, eff. June 17, 2011.

Sec. 8815.102. AUTHORITY RULES. The authority may adopt and enforce rules reasonably required to implement this chapter, including rules governing procedures before the board and rules regarding implementation, enforcement, and any other matters related to the authority's water supply or groundwater reduction plan.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.103. FEES, USER FEES, RATES, AND CHARGES. (a) The authority may establish fees, user fees, rates, and charges and classifications of payers of fees and rates as necessary to enable the authority to fulfill the authority's purposes and regulatory functions provided by this chapter. The authority may impose fees, user fees, rates, and charges on any person within the authority.

(b) The authority may charge the owner of a well located within the authority's boundaries a fee or user fee according to the amount of water pumped from the well.

(c) The board shall make reasonable efforts to send member districts written notice of the date, time, and location of the
meeting at which the board intends to adopt a proposed charge under Subsection (b) and the amount of the proposed charge. The board's failure to comply with this subsection does not invalidate a charge adopted by the board under Subsection (b).

(d) The board shall exempt from the charge under Subsection (b) classes of wells that are not subject to any groundwater reduction requirement imposed by the subsidence district. If any of those classes of wells become subject to a groundwater reduction requirement imposed by the subsidence district, the authority may impose the charge under Subsection (b) on those classes. The board by rule may exempt any other classes of wells from the charge under Subsection (b). The board may not apply the charge under Subsection (b) to a well:

(1) with a casing diameter of less than five inches that serves only a single-family dwelling; or
(2) regulated under Chapter 27, Water Code.

(e) The authority may establish fees, user fees, rates, and charges that are sufficient to:

(1) achieve water conservation;
(2) prevent waste of water;
(3) serve as a disincentive to pumping groundwater;
(4) develop, implement, or enforce a groundwater reduction plan;
(5) accomplish the purposes of this chapter, including making available alternative water supplies;
(6) enable the authority to meet operation and maintenance expenses;
(7) pay the principal of and interest on notes, bonds, and other obligations issued in connection with the exercise of the authority's general powers and duties; and
(8) satisfy all rate covenants relating to the issuance of notes, bonds, and other obligations.

(f) The authority may charge rates established by the authority for water purchased from the authority.

(g) The authority may impose fees, user fees, or charges for the importation of water into the authority's boundaries from a source located outside the authority's boundaries.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.
Sec. 8815.104. PURCHASE OF WATER FROM ANOTHER ENTITY. (a) If the authority purchases water from another entity for resale to local governments, the authority shall use its best efforts in negotiating with the entity to determine the amount of capital costs included in any rates or charges paid by the authority. The authority shall determine the amount of expected capital costs of its own system.

(b) The authority shall provide each member district information regarding the share of the capital costs to be paid by the member district, as determined by the authority, and shall provide each member district the opportunity, in a manner and by a procedure determined by the authority, to fund its share of the capital costs with proceeds from the sale of bonds or fees and charges collected by the member districts. A member district may use any lawful source of revenue, including bond funds, to pay any sums due to the authority.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.105. ASSESSMENTS. (a) The board may undertake improvement projects and services that confer a special benefit on all or a definable part of the authority. The board may impose special assessments on property in that area, including property of a local government, based on the benefit conferred by the improvement project or services, to pay all or part of the cost of the project and services. The board may provide improvements and services to an area outside the boundaries of the authority if the board determines that there is a benefit to the authority. The authority may finance with special assessments any improvement project or service authorized by this chapter or any other applicable law.

(b) Services or improvement projects may be financed with special assessments under this chapter only after the board holds a public hearing on the advisability of the improvements and services and the proposed assessments.

(c) The board shall publish notice of the hearing in a newspaper or newspapers with general circulation in Harris County. The publication must be made not later than the 30th day before the
date of the hearing.

(d) Notice provided under this section must include:
   (1) the time and place of the hearing;
   (2) the general nature of the proposed improvement project
   or services;
   (3) the estimated cost of the improvement, including
   interest during construction and associated financing costs; and
   (4) the proposed method of assessment.

(e) Written notice containing the information required by
   Subsection (d) shall be mailed by certified mail, return receipt
   requested, not later than the 30th day before the date of the
   hearing. The notice shall be mailed to each member district. The
   subsidence district shall provide to the authority a list of the
   member districts that hold a well permit issued by the subsidence
   district.

(f) The board may establish rules regarding procedures for a
   hearing. A hearing on the services or improvement project, whether
   conducted by the board or a hearings examiner, may be adjourned from
   time to time. At the conclusion of a hearing conducted by the board,
   the board shall make written findings and conclusions relating to the
   advisability of the improvement project or services, the nature of
   the improvement project or services, the estimated cost, and the area
   benefited. If the board appoints a hearings examiner to conduct the
   hearing, after conclusion of the hearing, the hearings examiner shall
   file with the board a written report of the examiner's findings and
   conclusions.

(g) At a hearing on proposed assessments, on adjournment of the
   hearing, or after consideration of the hearings examiner's report,
   the board shall hear and rule on all objections to each proposed
   assessment. The board may amend proposed assessments for any
   property. After the board hears and takes action on those
   objections, the board, by order:
      (1) shall impose the assessments as special assessments on
   the property;
      (2) shall specify the method of payment of the assessments;
      and
      (3) may provide that those assessments, including interest,
   be paid in periodic installments.

(h) Periodic installments must be in amounts sufficient to meet
   annual costs for services and improvements as provided by Subsection
(j) and continue for the number of years required to retire the indebtedness or pay for the services to be rendered. The board may provide interest charges or penalties for failure to make timely payment and may impose an amount to cover delinquencies and expenses of collection.

(i) If assessments are imposed for more than one service or improvement project, the board may provide that assessments collected for one service or improvement project may be borrowed to be used for another service or improvement project. The board shall establish a procedure for the distribution or use of any assessments in excess of those necessary to finance the services or improvement project for which those assessments were collected.

(j) The board shall apportion the cost of an improvement project or services to be assessed against the property in the authority according to the special benefits that accrue to the property because of the improvement project or services. The board may assess the cost only according to the number of gallons of groundwater pumped from wells within the authority that are subject to a groundwater reduction requirement imposed by the subsidence district. The board may not assess the cost according to groundwater pumped from:

(1) a well with a casing diameter of less than five inches that serves only a single-family dwelling; or
(2) a well that is regulated by Chapter 27, Water Code.

(k) The area of the authority to be assessed according to the findings of the board may be the entire authority or any part of the authority and may be less than the area proposed in the notice of the hearing.

(l) The area to be assessed may not include property that is not within the authority boundaries at the time of the hearing unless there is an additional hearing, following the required notice.

(m) Notwithstanding Subsection (l), the owner of land annexed to the authority after the authority has imposed assessments may waive the right to notice and an assessment hearing and may agree to the imposition and payment of assessments at an agreed rate for land annexed to the authority. A member district may waive the right to notice and an assessment hearing for land within its boundaries annexed to the authority and may agree to the imposition and payment of assessments at an agreed rate for the annexed land.

(n) The board shall have prepared an assessment roll showing
the assessments against each property and the board's basis for the assessment. The assessment roll shall be:

(1) filed with the secretary of the board or other officer who performs the function of secretary; and

(2) open for public inspection.

(o) After notice and hearing in the manner required for an original assessment, the board may make supplemental assessments to correct omissions or mistakes in the assessment:

(1) relating to the total cost of the improvement project or services; or

(2) covering delinquencies or costs of collection.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.106. INTEREST AND PENALTIES. The board may require the payment of interest on any late or unpaid fees, user fees, rates, charges, and special assessments due the authority, but the interest rate may not exceed the interest rate permitted by Section 2251.025, Government Code. The board may also impose penalties for the failure to make a complete or timely payment to the authority. In addition, the board may exclude a member district or other person, or any territory or well owned or controlled by a member district or other person, from the authority's groundwater reduction plan for failure to make a complete or timely payment to the authority.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.107. ADMINISTRATIVE PENALTY; CIVIL ACTION; INJUNCTION. (a) A person who violates a rule or order of the authority is subject to an administrative penalty of not more than $5,000, as determined by the board, for each violation or each day of a continuing violation. The person shall pay the penalty to the authority.

(b) The authority may bring an action in a district court against a member district or other district, other political subdivision, or other person located in the authority's territory or included in the authority's groundwater reduction plan to:
(1) recover any fees, rates, charges, assessments, collection expenses, attorney's fees, interest, penalties, or administrative penalties due the authority; or

(2) enforce the authority's rules or orders.

(c) The authority may bring an action for injunctive relief in a district court in the county where a violation of an authority rule or order occurs or is threatened to occur. The court may grant to the authority, without bond or other undertaking, a prohibitory or mandatory injunction that the facts warrant, including a temporary restraining order, temporary injunction, or permanent injunction.

(d) The authority may bring an action for an administrative penalty and injunctive relief in the same proceeding.

(e) Governmental immunity from suit or liability of a district or other political subdivision is waived for the purposes of an action described by this section.

Sec. 8815.108. WATER SUPPLY OR DROUGHT CONTINGENCY PLANS. The authority by rule may develop, prepare, revise, adopt, implement, enforce, and manage comprehensive water supply or drought contingency plans for the authority, or any portion of the authority.

Added by Acts 2005, 79th Leg., Ch. 656 (H.B. 3181), Sec. 1, eff. June 17, 2005.

Sec. 8815.109. GROUNDWATER REDUCTION PLAN. (a) Notwithstanding any other law, regardless of whether the authority enters into contracts with local governments located within its boundaries, and regardless of whether the authority holds any well permit issued by the subsidence district under Chapter 8801, the authority by rule may wholly or partly develop, prepare, revise, adopt, implement, enforce, manage, or participate in a groundwater
reduction plan that is applicable only to the authority or a groundwater reduction plan that is applicable to the authority and one or more persons outside the authority. The authority may require that any groundwater reduction plan that the authority wholly or partly develops, prepares, revises, adopts, implements, enforces, or manages or in which the authority participates be the exclusive groundwater reduction plan that is binding and mandatory on some or all of the territory, member districts or other persons, or wells located within the authority. A groundwater reduction plan may:

1. specify the measures to be taken to reduce groundwater withdrawals;
2. identify alternative sources of water to be provided to those affected;
3. identify the rates, terms, and conditions under which alternative sources of water will be provided, which may be changed from time to time as considered necessary by the authority;
4. specify the dates and extent to which member districts or other persons within the authority's boundaries shall reduce or cease reliance on groundwater and accept water from alternative sources;
5. include other terms and measures that are consistent with the powers and duties of the authority;
6. exceed the minimum requirements imposed by the subsidence district, including any applicable groundwater reduction requirements; and
7. be amended from time to time at the discretion of the authority.

Sec. 8830.103. APPLICABILITY OF DISTRICT REGULATIONS. Groundwater regulation under this chapter applies to all persons except as exempted under Section 36.117, Water Code, or this chapter.

Sec. 8830.104. WELL SPACING RULES; EXEMPTIONS. (a) Except as provided by Subsection (b), the district shall exempt from the well spacing requirements adopted by the district any well that is completed on or before the effective date of those requirements.

(b) The district may provide by rule that a well may lose its exemption under this section if the well is modified in a manner that substantially increases the capacity of the well after the effective
date of the well spacing requirements adopted by the district.

(c) Except as provided by this section and notwithstanding Section 8830.103, the district may require any well or class of wells exempt from permitting under Chapter 36, Water Code, to comply with the well spacing requirements adopted by the district. The district shall apply well spacing requirements uniformly to any well or class of wells based on the size or capacity of the well and without regard to the type of use of the groundwater produced by the well.

Sec. 8830.105. REGISTRATION AND REPORTING REQUIREMENTS FOR CERTAIN EXEMPT WELLS. The district may adopt rules that require the owner or operator of a well or class of wells exempt from permitting under Section 36.117, Water Code, to register the well with the district and, except for a well exempt from permitting under Subsection (b)(1) of that section, to report groundwater withdrawals from the well using reasonable and appropriate reporting methods and frequency.

The purpose of a fee authorized under this subsection is to serve as a disincentive to producing groundwater except as authorized by the district.

(b) A fee imposed under Subsection (a) may not exceed an amount equal to 10 times the amount of a fee assessed under Section 8830.152.

The district may use revenues generated by fees it assesses for any lawful purpose.

(b) Notwithstanding any provision of general law to the contrary, a fee authorized by Subsection (a) may not exceed:

(1) $1 per acre-foot annually for groundwater used for agricultural purposes; or

(2) 30 cents per thousand gallons annually for groundwater used for nonagricultural purposes.

A production fee assessed by the district under this subsection must be based on the amount of groundwater actually withdrawn from the well and may not exceed the amount established by the district for permitted uses under Subsection (b)(2).
(d) Notwithstanding Section 36.1071(f), Water Code, the district by rule, resolution, or order before the adoption of its management plan may:

(1) establish, assess, and enforce the collection of production fees under this section; and

(1) to fight fires, manage chemical spills, and otherwise address emergency public safety or welfare concerns; and

(2) for training exercises conducted in preparation for responding to fires, chemical spills, and other emergency public safety or welfare concerns.

(d) The district may adopt rules to implement this section that require each involved entity to report to the district using reasonable and appropriate reporting methods established by the
district:

(1) the total quantity of groundwater produced or used, as applicable, for all purposes by the involved entity during each month of the reporting period;

(2) the quantity of groundwater produced or used, as applicable, for emergency purposes during each month of the reporting period; and

(c) Except as provided by this section and notwithstanding Section 8855.103, the district may require a well or class of wells exempt from permitting under Chapter 36, Water Code, to comply with the well spacing requirements adopted by the district. The district shall apply well spacing requirements uniformly to any well or class of wells based on the size or capacity of the well and without regard to the type of use of the groundwater produced by the well.

Sec. 8878.005. EXCLUSION OF CERTAIN TERRITORY. (a) The governing body of a district or municipality or the owner of a large tract may petition for exclusion of all of the territory of the municipality, district, or large tract from the authority's boundaries if, on the effective date of the Act creating this chapter, all or any part of the municipality, district, or large tract is located in the territory described by Section 2 of the Act creating this chapter. The petition must be signed, as applicable, by a majority of the members of the governing body of the district or municipality or by the landowner of the large tract.

(b) The board shall:

(1) not later than the 180th day after the effective date of the Act creating this chapter, grant the petition and order the territory excluded if the petition:

(A) includes an accurate legal description of the boundaries of the territory to be excluded; and
(B) is filed with the authority not later than the 120th day after the effective date of the Act creating this chapter; and

(2) if the board grants the petition, file for recording in the office of the county clerk for the applicable county or counties a copy of the order and a description of the authority's boundaries as they exist after the exclusion of the territory.

(c) If a district, municipality, or large tract is excluded from the authority's boundaries under this section, the authority is not required to:

(1) provide water or any other service to the district,
municipality, or large tract; or

(2) include the district, municipality, or large tract in any groundwater reduction plan adopted or implemented by the authority.

(d) If, not later than the 120th day after the effective date of this chapter, the governing body of a district or municipality or the owner of a large tract files a petition for exclusion under this section, the authority may not impose fees, user fees, rates, or charges on the district, municipality, or large tract after the petition is filed with the authority unless the district, municipality, or large tract is annexed by the authority under Section 8878.006.

(e) If a district or municipality excluded or the owner of a large tract excluded from the authority's boundaries under this section petitions the authority to be annexed under Section 8878.006, the authority may annex the district, municipality, or large tract. The authority may, as a condition of annexation, require terms and conditions the board considers appropriate. The authority may require the district, municipality, or owner of the large tract to pay the authority the fees, user fees, and charges, with interest, that, as determined by the authority, the district, municipality, or owner of the large tract would have been charged by the authority if the district, municipality, or large tract had not been excluded from the authority under this section.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.006. ANNEXATION. (a) Except to the extent the authority agrees in writing, a municipality's annexation of territory within the authority does not affect:

(1) the authority's powers inside or outside the annexed territory;

(2) the authority's boundaries or contracts; or

(3) the authority's ability to assess fees, user fees, rates, or charges inside or outside the territory annexed by the municipality.

(b) Territory may be annexed to the authority, regardless of whether the territory is contiguous to the authority, as provided by
Chapter 49, Water Code.

(c) In addition to the authority granted by Subsection (b), regardless of whether the territory is contiguous to the authority, the authority may annex some or all of the territory located within a district or municipality if the district or municipality files with the authority a petition requesting the annexation signed by a majority of the members of the governing body of the district or municipality. The petition must include an accurate legal description of the boundaries of the territory to be included. If the authority has bonds, notes, or other obligations outstanding, the authority shall require the petitioning district or municipality to be obligated to pay its share of the principal of and interest on the outstanding bonds, notes, or other obligations, and related costs. The board may grant the petition and order the territory described by the petition annexed to the authority if it is feasible, practicable, and to the advantage of the authority.

(d) Any territory that a district located within the authority annexes becomes territory of the authority on the effective date of the annexation without any action required of the authority. The authority by rule may require all districts located within the authority to send to the authority written notice of the effective date of an annexation and require the districts to send to the authority copies of any necessary documents describing the annexed land and describing the districts' boundaries as they exist after inclusion of the annexed land.

(e) The annexation to the authority of territory under this section does not affect the validity of the authority's bonds issued before or after the annexation.

(f) A municipality that annexes territory of the authority for limited purposes under Subchapter F, Chapter 43, Local Government Code, does not have the right to:

1. receive notices from the authority under Section 8878.103(c);
2. participate in the appointment of directors under Subchapter B; or
3. receive information about or have the opportunity to fund its share of capital costs in the manner provided by the authority under Section 8878.104.

Sec. 8878.007. APPLICABILITY OF OTHER LAW. (a) Except as otherwise provided by this chapter, Chapter 49, Water Code, applies to the authority.

(b) This chapter does not prevail over or preempt a provision of Chapter 36, Water Code, or of Chapter 8801 or 8834 of this code that is being implemented by the Fort Bend Subsidence District or applicable subsidence district.

(c) Chapter 36, Water Code, does not apply to the authority.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.008. FINDING OF BENEFIT. All the land, property, and persons included within the boundaries of the authority will be directly benefited by the works, projects, improvements, and services to be provided by the authority under powers conferred by Section 59, Article XVI, Texas Constitution, and this chapter. The authority is created to serve a public use and benefit. The creation of the authority will serve to promote the health, safety, and general welfare of persons within the authority and the general public. Any fees, user fees, rates, or charges imposed by the authority under this chapter are necessary to pay for the costs of accomplishing the purposes of the authority as set forth in Section 59, Article XVI, Texas Constitution, and this chapter, including:

(1) the reduction of groundwater withdrawals;

(2) the facilitation of compliance with the requirements of the Fort Bend Subsidence District or applicable subsidence district; and

(3) the provision of services, facilities, and systems.

SUBCHAPTER B. BOARD OF DIRECTORS

Sec. 8878.051. DIRECTORS; TERMS. (a) The authority is governed by a board of five directors.
(b) The directors serve staggered four-year terms, with two or three directors' terms expiring May 15 of each even-numbered year.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.052. ELIGIBILITY TO SERVE AS DIRECTOR. To be eligible to serve as a director of the authority or to be listed as provided by Section 8878.056 on a ballot as a candidate for director of the authority representing a director precinct, an individual must:

(1) be at least 18 years of age;
(2) be a resident of the authority; and
(3) have served as a director of one or more districts or as a member of the governing body of a municipality within the authority for a total of at least four years.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.053. DISQUALIFICATION OF DIRECTORS. Subject to Section 8878.061, the common law doctrine of incompatibility does not disqualify an official or an employee of a public entity from serving as a director of the authority. A director who is also an official or an employee of a public entity may not participate in the discussion of or vote on a matter regarding a contract with that public entity.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.054. CONFLICTS OF INTEREST. Chapter 171, Local Government Code, governs conflicts of interest of board members.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.
Sec. 8878.055. SINGLE-MEMBER DIRECTOR PRECINCTS. (a) The authority is divided into five single-member director precincts, the initial territories of which are described by Section 3 of the Act creating this chapter.

(b) The board may redraw the single-member director precincts in a manner that is reasonable and equitable:
   (1) after any change in the boundaries of the authority; or
   (2) by a resolution redrawing the director precincts adopted by a two-thirds majority of the board, based on changed circumstances.

(c) The boundaries and field notes for each precinct contained in Section 3 of the Act creating this chapter form a closure. A mistake made in the field notes or in copying the field notes in the legislative process does not affect the selection of a director under this chapter.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.056. METHOD OF APPOINTMENT OF DIRECTORS. (a) Except as provided by Section 8878.057, the governing bodies of the districts and municipalities located within each director precinct jointly shall appoint one director to represent the precinct by a vote conducted as provided by this section.

(b) If a district or municipality is located within two or more director precincts, the district or municipality is considered, for purposes of this section, to be located only within the director precinct in which the greatest amount of territory of the district or municipality is located.

(c) For the appointment of a director for a director precinct, the board shall determine the number of votes each district or municipality may cast. The number of votes for a governing body of a district or municipality within the precinct is equal to the number computed by dividing the total number of units of water, as determined by the board, used within the precinct by the district or municipality during the calendar year preceding the year in which the director is selected by the total number of units of water used within the precinct by all districts and municipalities in the precinct, multiplying that quotient by 100, and rounding that result
to the nearest one-tenth. The board shall provide the presiding officer of each governing body of a district or municipality within each director precinct written notice of the number of votes computed for that governing body to cast.

(d) For purposes of Subsection (c), the board shall determine the amount of water usage of all districts and municipalities within each director precinct.

(e) In the appropriate even-numbered year, the governing body of each district or municipality in a director precinct by resolution may nominate one candidate for the position of director for that director precinct. Each district or municipality shall submit the name of its candidate, if any, to the presiding officer of the authority by February 15 of that year. If by February 15 of that year only one candidate's name is submitted for the position of director for a director precinct, the board may declare the unopposed candidate elected and may cancel the director appointment procedures generally required by this section for that position. If more than one candidate's name is submitted for the position of director for a director precinct, before March 15 of that year the board shall prepare, for the director precinct or precincts from which a director is being appointed, a ballot listing all of the candidates for that director precinct and shall provide a copy of the appropriate ballot to the presiding officer of the governing body of each district or municipality located within the director precinct from which a director is being appointed.

(f) An individual may not be listed as a candidate on the ballot for more than one director position. If a candidate is nominated for more than one director position, the candidate must choose to be on the ballot for only one director position.

(g) The governing body of each district or municipality shall determine its votes for director by resolution and submit them to the presiding officer of the authority before May 1 of the appropriate even-numbered year. In casting its votes for director, the governing body of each district or municipality may vote for only one candidate on the ballot for the director precinct in which the district or municipality is located. For each director precinct from which a director is being appointed, the board shall count the votes, declare elected the candidate who received the greatest number of votes from districts and municipalities located within that director precinct, and submit the results before May 15 of that year to the governing
body of each district or municipality within that director precinct.

(h) The board may adopt rules regarding:

(1) the manner and timing of determinations and calculations required by this section;

(2) the reporting of water usage to the authority by districts and municipalities; and

(3) the conduct and process of the appointment of directors.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.057. APPOINTMENT OF DIRECTORS IN SPARSELY POPULATED PRECINCTS. (a) For each precinct with a population of less than 25,000, the Commissioners Court of Fort Bend County shall appoint the director for that precinct. When the population within a precinct reaches 25,000, as determined by federal census information or as otherwise determined by the county, that precinct is eligible to nominate and appoint a director in accordance with Section 8878.056, who shall serve upon the expiration of the appointed director's term.

(b) To be eligible for appointment under this section, a person must be a resident of the county. Sections 8878.052(2) and (3) do not apply to the eligibility of a person for appointment under this section.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.058. VACANCY IN OFFICE OF DIRECTOR. (a) A vacancy in the office of director shall be filled by appointment by the governing bodies of the districts and municipalities that are located within the director precinct for which the vacancy occurred. The appointment process shall follow the procedures of Section 8878.056. The board may establish dates different from those specified by Sections 8878.056(e) and (g), but the date for the board's submission of the voting results to each district and municipality may not be later than the 120th day after the date the vacancy occurs.

(b) A vacancy in the office of director appointed by the county under Section 8878.057 shall be filled by appointment by the
Sec. 8878.059. MEETINGS AND ACTIONS OF BOARD. (a) The board may meet as many times each year as the board considers appropriate.  
(b) Directors of the authority are public officials and are entitled to governmental immunity for their actions in their capacity as directors and officers of the authority.

Sec. 8878.060. GENERAL MANAGER. (a) The board may employ a general manager of the authority or contract with a person to perform the duties of a general manager. The board may delegate to the general manager full authority to manage and operate the affairs of the authority subject only to orders of the board.  
(b) The board may delegate to the general manager the authority to employ all persons necessary for the proper handling of the business and operation of the authority and to determine the compensation to be paid to all employees, other than the general manager.

Sec. 8878.061. COMPENSATION; EXPENSES. A director who is also an official of another public entity serves without compensation but may be reimbursed for actual expenses incurred in the performance of official duties. The expenses must be:  
(1) reported in the authority's records; and  
(2) approved by the board.
Sec. 8878.101. GENERAL POWERS AND DUTIES. (a) The authority may:

(1) provide for the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and for the reduction of groundwater withdrawals as necessary to develop, implement, or enforce a groundwater reduction plan, in a manner consistent with the purposes of Section 59, Article XVI, Texas Constitution, and facilitate compliance with Fort Bend Subsidence District or applicable subsidence district rules, orders, regulations, or requirements;

(2) acquire or develop surface water and groundwater supplies from sources inside or outside the boundaries of the authority, conserve, store, transport, treat, purify, distribute, sell, and deliver water to or among persons inside and outside the boundaries of the authority, and allocate water among persons participating in the authority's groundwater reduction plan whether they are located inside or outside the authority's boundaries;

(3) enter into contracts with persons inside or outside the authority on terms and conditions the board considers desirable, fair, and advantageous for the performance of its rights, powers, and authority under this chapter;

(4) coordinate water services provided inside, outside, or into the authority;

(5) provide wholesale and retail water services to any users or customers within the authority's boundaries without being required to execute contracts with those users or customers;

(6) adopt policies establishing whether, when, and the manner in which the authority uses requests for proposals in obtaining services, including professional services;

(7) determine whether to adopt administrative policies in addition to those required by Section 49.199, Water Code; and

(8) administer and enforce this chapter.

(b) Sections 49.451-49.455, Water Code, do not apply to the authority.

(c) Notwithstanding Subsection (a)(5), the authority may not provide retail water service to a retail user within the authority's boundaries that is located within the boundaries of a district or municipality on the date the authority awards a contract for the construction or executes a contract for the acquisition of water.
facilities to serve that retail user, unless:

(1) the district or municipality consents in writing to the authority's provision of retail water service; or

(2) the retail user owns or operates a well.

(d) If a retail user that does not own or operate a well is added to the boundaries of a district or municipality after the date the authority awards a contract for the construction or executes a contract for the acquisition of water facilities to serve that retail user, the authority may provide retail service to that retail user without the written consent of the district or municipality.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.102. AUTHORITY RULES. The authority may adopt and enforce rules reasonably required to implement this chapter, including rules governing procedures before the board and rules regarding implementation, enforcement, and any other matters related to the authority's water supply or groundwater reduction plan.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.103. FEES, USER FEES, RATES, AND CHARGES. (a) The authority may establish fees, user fees, rates, and charges and classifications of payers of fees and rates as necessary to enable the authority to fulfill the authority's purposes and regulatory functions provided by this chapter. The authority may impose fees, user fees, rates, and charges on any person within the authority.

(b) The authority may charge the owner of a well located within the authority's boundaries a fee or user fee according to the amount of water pumped from the well. If ownership of a well changes, both the prior and subsequent well owners are liable to the authority, jointly and severally, for all fees and user fees imposed by the authority under this subsection, and any related penalties and interest, for water pumped from that well before the change in well ownership. Notwithstanding Subsection (d), the authority may impose a charge under this subsection on a well or class of wells located in Fort Bend County that, on or after February 1, 2013:
(1) ceases to be subject to a groundwater reduction requirement imposed by the Fort Bend Subsidence District or applicable subsidence district; or

(2) is no longer subject to the regulatory provisions, permitting requirements, or jurisdiction of the Fort Bend Subsidence District or applicable subsidence district.

(c) The board shall make reasonable efforts to send districts and municipalities written notice of the date, time, and location of the meeting at which the board intends to adopt a proposed charge under Subsection (b) and the amount of the proposed charge. The board's failure to comply with this subsection does not invalidate a charge adopted by the board under Subsection (b).

(d) For wells located in Fort Bend County, the board shall exempt from the charge under Subsection (b) classes of wells that are not subject to any groundwater reduction requirement imposed by the Fort Bend Subsidence District or applicable subsidence district. If any of those classes of wells become subject to a groundwater reduction requirement imposed by the applicable subsidence district, the authority may impose the charge under Subsection (b) on those classes. The board by rule may exempt any other classes of wells from the charge under Subsection (b). The board may not apply the charge under Subsection (b) to a well:

(1) with a casing diameter of less than five inches that serves only a single-family dwelling; or

(2) regulated under Chapter 27, Water Code.

(e) For purposes of Subsection (d), a well is subject to a groundwater reduction requirement if the applicable subsidence district has adopted or adopts a requirement or rule that groundwater withdrawals from the well, or from the well and other wells collectively, be reduced, including a groundwater reduction that is not required until a future date.

(f) The authority may establish fees, user fees, rates, and charges that are sufficient to:

(1) achieve water conservation;

(2) prevent waste of water;

(3) serve as a disincentive to pumping groundwater;

(4) develop, implement, or enforce a groundwater reduction plan;

(5) accomplish the purposes of this chapter, including making available alternative water supplies;
(6) enable the authority to meet operation and maintenance expenses;

(7) pay the principal of and interest on notes, bonds, and other obligations issued in connection with the exercise of the authority's general powers and duties; and

(8) satisfy all rate covenants relating to the issuance of notes, bonds, and other obligations.

(g) The authority may charge rates established by the authority for water purchased from the authority.

(h) The authority may impose fees, user fees, or charges for the importation of water into the authority's boundaries from a source located outside the authority's boundaries.

(i) The authority may impose a reasonable export fee or surcharge for groundwater transferred out of the authority, in an amount not to exceed 150 percent of the surface water fee charged by the North Fort Bend Water Authority.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.104. PURCHASE OF WATER FROM ANOTHER ENTITY. (a) If the authority purchases water from another entity for resale to local governments, the authority shall use its best efforts in negotiating with the entity to determine the amount of capital costs included in any rates or charges paid by the authority. The authority shall determine the amount of expected capital costs of its own system.

(b) The authority shall provide each district or municipality within its boundaries information regarding the share of the capital costs to be paid by the district or municipality, as determined by the authority, and shall provide each district or municipality the opportunity, in a manner and by a procedure determined by the authority, to fund its share of the capital costs with proceeds from the sale of bonds or fees and charges collected by the districts or municipalities. A district or municipality may use any lawful source of revenue, including bond funds, to pay any sums due to the authority.

(c) The authority may adopt a procedure by which a district or municipality may receive a credit from the authority. The board may adopt any other procedure necessary to accomplish the goals of this
section.

(d) In complying with this section, the authority may use any reasonable basis to calculate from time to time the share of the capital costs of a district or municipality. The authority may calculate the shares of the capital costs based on the amount of water used within the authority by the district or municipality during the calendar year preceding the year in which the calculation is made.

(e) This section or any failure to comply with this section does not limit or impede the authority's ability to issue bonds or notes or invalidate any fees, user fees, charges, or rates imposed by the authority.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.105. INTEREST AND PENALTIES. The board may require the payment of interest on any late or unpaid fees, user fees, rates, or charges due the authority, but the interest rate may not exceed the interest rate permitted by Section 2251.025, Government Code. The board may also impose penalties for the failure to make a complete or timely payment to the authority. In addition, the board may exclude a person, or any territory or well owned or controlled by a person, from the authority's groundwater reduction plan for failure to make a complete or timely payment to the authority.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.106. ATTORNEY'S FEES AND COLLECTION EXPENSES. (a) The authority is entitled to reasonable attorney's fees incurred by the authority in enforcing its rules.

(b) The authority is entitled to collection expenses and reasonable attorney's fees incurred by the authority in collecting any delinquent fees, user fees, rates, and charges and any related penalties and interest.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.
Sec. 8878.107. LIEN. (a) Fees and user fees imposed by the authority under Section 8878.103(b), any related penalties and interest, and collection expenses and reasonable attorney's fees incurred by the authority:

(1) are a first and prior lien against the well to which the fees or user fees apply;

(2) are superior to any other lien or claim other than a lien or claim for county, school district, or municipal ad valorem taxes; and

(3) are the personal liability of and a charge against the owner of the well.

(b) A lien under this section is effective from the date of the resolution or order of the board imposing the fee or user fee until the fee or user fee is paid.

(c) The board may enforce the lien in the same manner that a municipal utility district operating under Chapter 54, Water Code, may enforce an ad valorem tax lien against real property.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.108. ADMINISTRATIVE PENALTY; INJUNCTION. (a) A person who violates a rule or order of the authority is subject to an administrative penalty of not more than $5,000, as determined by the board, for each violation or each day of a continuing violation. The person shall pay the penalty to the authority.

(b) The authority may bring an action to recover the penalty in a district court in the county where the violation occurred.

(c) The authority may bring an action for injunctive relief in a district court in the county where a violation of an authority rule or order occurs or is threatened to occur. The court may grant to the authority, without bond or other undertaking, a prohibitory or mandatory injunction that the facts warrant, including a temporary restraining order, temporary injunction, or permanent injunction.

(d) The authority may bring an action for an administrative penalty and injunctive relief in the same proceeding.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff.
Sec. 8878.109. WATER SUPPLY OR DROUGHT CONTINGENCY PLANS. The authority by rule may develop, prepare, revise, adopt, implement, enforce, and manage comprehensive water supply or drought contingency plans for the authority, or any portion of the authority.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.110. GROUNDWATER REDUCTION PLAN. (a) The authority may wholly or partly develop, prepare, revise, adopt, implement, enforce, manage, or participate in a groundwater reduction plan that is applicable only to the authority and one or more persons outside the authority. The authority may require that any groundwater reduction plan that the authority wholly or partly develops, prepares, revises, adopts, implements, enforces, or manages or in which the authority participates be the exclusive groundwater reduction plan that is binding and mandatory on some or all of the territory, persons, or wells located within the authority. A groundwater reduction plan may:

(1) specify the measures to be taken to reduce groundwater withdrawals;
(2) identify alternative sources of water, including water from the authority, to be provided to those affected;
(3) identify the rates, terms, and conditions under which alternative sources of water will be provided, which may be changed from time to time as considered necessary by the authority;
(4) specify the dates and extent to which persons or districts within the authority's boundaries shall reduce or cease reliance on groundwater and accept water from alternative sources, including water from the authority;
(5) include other terms and measures that are consistent with the powers and duties of the authority;
(6) exceed the minimum requirements imposed by the Fort Bend Subsidence District or applicable subsidence district, including any applicable groundwater reduction requirements; and
(7) be amended from time to time at the discretion of the
authority.

(b) Fees, user fees, rates, and charges of the authority may be imposed under this chapter for a person's participation in and benefit derived from the authority's groundwater reduction plan, a groundwater reduction plan in which the authority participates, or the authority's works, projects, improvements, and services to be provided by the authority under powers conferred by Section 59, Article XVI, Texas Constitution, and this chapter.

Added by Acts 2013, 83rd Leg., R.S., Ch. 829 (S.B. 1870), Sec. 1, eff. June 14, 2013.

Sec. 8878.111. ACQUISITION, CONSTRUCTION, AND OPERATION OF SYSTEMS. (a) The authority may:

(1) acquire by purchase, gift, lease, contract, or any other legal means a water treatment or supply system, or any other works, plants, improvements, or facilities necessary or convenient to accomplish the purposes of the authority, or any interest of the authority, inside or outside the authority's boundaries;

(2) design, finance, operate, maintain, or construct a water treatment or supply system or any other works, plants, improvements, or facilities necessary or convenient to accomplish the purposes of the authority and provide water services inside or outside the authority's boundaries;

(3) lease or sell a water treatment or supply system or any other works, plants, improvements, or facilities necessary or convenient to accomplish the purposes of the authority that the authority constructs or acquires inside or outside the authority's boundaries;

(4) contract with any person to operate or maintain a water treatment or supply system the person owns; or

(5) acquire water rights under any law or permit.

(b) The authority may contract, according to terms and conditions the board considers desirable, fair, and advantageous, with a person outside the authority's boundaries:

(1) to allow the person, or the person's well, to be included in a groundwater reduction plan adopted or implemented wholly or partly by the authority or in a groundwater reduction plan in which the authority participates;
(2) to sell water to the person; or
(3) to sell the person available excess capacity or additional capacity of the authority's water treatment or supply system.

(c) The district may not issue bonds payable from ad valorem taxes to finance a road project unless the issuance is approved by a vote of a two-thirds majority of the district voters voting at an
Sec. 11002.202. OPERATION AND MAINTENANCE TAX. (a) If authorized at an election held under Section 11002.201, the district may impose an operation and maintenance tax on taxable property in the district in accordance with Section 49.107, Water Code. (b) The board shall determine the tax rate. The rate may not exceed the rate approved at the election.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1189 (H.B. 3804), Sec. 1, eff. June 17, 2011.

Sec. 11002.203. CONTRACT TAXES. (a) In accordance with Section 49.108, Water Code, the district may impose a tax other than an operation and maintenance tax and use the revenue derived from the tax to make payments under a contract after the provisions of the contract have been approved by a majority of the district voters voting at an election held for that purpose. (e) The district may not impose a sales and use tax at a rate that would cause the rate of the total sales and use taxes collected by all municipalities and other political subdivisions at a location in the district to exceed the maximum rate allowed by law. If a political subdivision’s increase to a sales and use tax rate causes the total sales and use tax rate imposed at a location in the district to exceed the maximum rate allowed by law, the district's sales and use tax rate is automatically reduced to bring the total rate imposed at that location down to a rate allowed by law.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1189 (H.B. 3804), Sec. 1, eff. June 17, 2011.

(2) Subchapter J, Chapter 49, Water Code; or

(b) At any time after final passage of an ordinance or resolution annexing territory to the city, the board may give notice of a hearing on the question of annexing that territory to the district. The notice is sufficient if it:

(1) states the date and place of the hearing; and
(2) describes the area proposed to be annexed or refers to the annexation ordinance or resolution of the city.

(c) At least 10 days before the date set for the hearing, the notice must be published one time in a newspaper of general circulation in the city.

(d) If, as a result of the hearing, the board finds that the territory will benefit from the present or contemplated improvements, works, or facilities of the district, the board shall adopt a resolution annexing the territory to the district.

(e) After the territory is annexed to the district, the board may hold an election in the entire district to determine whether:

(1) the entire district will assume any tax-supported bonds then outstanding and those bonds previously voted but not yet sold; and

(2) an ad valorem tax for the payment of the bonds will be imposed on all taxable property in the district.

(f) An election held under Subsection (e) must be held and notice must be given in the same manner as an election held under Section 11003.254 for the issuance of bonds.

(b) The board may annex territory or a municipality under this section only if a petition requesting annexation is signed by 50 registered voters of the territory or municipality to be annexed, or a majority of the registered voters of that territory or municipality, whichever is fewer, and is filed with the board. The petition must describe the territory to be annexed by metes and bounds, or otherwise, except that if the territory is the same as that contained in the boundaries of a municipality, the petition is sufficient if it states that the territory to be annexed is the territory contained in the municipal boundaries.

(c) If the board determines that the petition complies with Subsection (b), that the annexation would be in the best interest of the territory or municipality and the district, and that the district will be able to supply water to the territory or municipality, the board shall:

(1) adopt a resolution stating the conditions, if any, under which the territory or municipality may be annexed to the district; and

(2) set a time and place to hold a hearing on the question of whether the territory or municipality to be annexed will benefit from:

(A) the improvements, works, or facilities owned or operated or contemplated to be owned or operated by the district; or

(d) At least 10 days before the date of the hearing, notice of the adoption of the resolution stating the time and place of the hearing must be published one time in a newspaper of general circulation in the territory or municipality proposed to be annexed. The notice must describe the territory in the same manner in which Subsection (b) requires the petition to describe the territory.

(e) Any interested person may appear at the hearing and offer evidence for or against the annexation.

(f) The hearing may proceed in the order and under the rules prescribed by the board and may be recessed from time to time.
(g) If, at the conclusion of the hearing, the board finds that the property in the territory or municipality will benefit from the present or contemplated improvements, works, or facilities of the district, the board shall adopt a resolution making a finding of the benefit and calling an election in the territory or municipality to be annexed.

(h) The resolution must state:

(1) the date of the election;
(2) each place where the election will be held; and
(3) the proposition to be voted on.

(i) At least 10 days before the date set for the election, notice of the election must be given by publishing a substantial copy of the resolution calling the election one time in a newspaper of general circulation in the territory proposed to be annexed.

(j) In calling an election on the proposition for annexation of the territory or municipality, the board may include, as part of the same proposition or as a separate proposition, a proposition for:

(1) the territory to assume its part of the tax-supported bonds of the district then outstanding and those bonds previously voted but not yet sold; and
(2) an ad valorem tax to be imposed on taxable property in the territory along with the tax in the rest of the district for the payment of the bonds.

(k) If a majority of the votes cast at the election are in favor of annexation, the board by resolution shall annex the territory to the district.

(l) An annexation under this section is incontestable except in the manner and within the time for contesting elections under the Election Code.

provide for the sale of the refunding bonds and the deposit of the
proceeds in a bank at which the bonds to be refunded are payable. In
that case, the refunding bonds may be issued in an amount sufficient
