Sec. 228.0055. USE OF CONTRACT PAYMENTS AND OTHER REVENUE.

(a) Payments, project savings, refinancing dividends, and any other revenue received by the commission or the department under a comprehensive development agreement shall be used by the commission or the department to finance the construction, maintenance, or operation of transportation projects or air quality projects in the region.

(b) The department shall allocate the distribution of funds to department districts in the region that are located in the boundaries of the metropolitan planning organization in which the project that is the subject of the comprehensive development agreement is located based on the percentage of toll revenue from users from each department district of the project. To assist the department in determining the allocation, each entity responsible for collecting tolls for a project shall calculate on an annual basis the percentage of toll revenue from users of the project from each department district based on the number of recorded electronic toll collections.

(c) The commission or the department may not:

(1) revise the formula as provided in the department's unified transportation program, or its successor document, in a manner that results in a decrease of a department district's allocation because of a payment under Subsection (a); or
(2) take any other action that would reduce funding allocated to a department district because of payments received under a comprehensive development agreement.

(d) A metropolitan planning organization may not take any action that would reduce distribution of funds or other resources to a department district because of the use of a payment or other revenue under Subsection (a).
Sec. 228.006. USE OF SURPLUS REVENUE. (a) The commission shall authorize the use of surplus revenue of a toll project or system to pay the costs of a transportation project, highway project, or air quality project within a region in which any part of the toll project is located.

(a-1) The department shall allocate the distribution of the surplus toll revenue to department districts in the region that are located in the boundaries of the metropolitan planning organization in which the toll project or system producing the surplus revenue is located based on the percentage of toll revenue from users in each department district of the project or system. To assist the department in determining the allocation, each entity responsible for collecting tolls for a project or system shall calculate on an annual basis the percentage of toll revenue from users of the project or system in each department district based on the number of recorded electronic toll collections.

(b) The commission may not revise the formula as provided in the department's unified transportation program, or its successor document, in a manner that results in a decrease of a district's allocation because of a payment under Subsection (a).

(c) The commission may not take an action under this section that violates, impairs, or is inconsistent with a bond order, trust agreement, or indenture governing the use of the surplus revenue.

Sec. 228.007. AATOLL LANES. (a) Subject to Section 228.201, the commission may by order authorize the department to charge a toll for the use of one or more lanes of a state highway, including a high occupancy vehicle lane designated under Section 224.153 or an exclusive lane designated under Section 224.1541.

(b) If the commission authorizes the department to charge a toll under Subsection (a), the department may enter into an agreement with a regional tollway authority described in Chapter 366, a transit authority described in Chapter 451, 452, or 453, a coordinated county transportation authority under Chapter 460, a regional mobility authority under Chapter 370, a county acting under Chapter 284, or a transportation corporation:

(1) to design, construct, operate, or maintain a toll lane under this section; and

(2) to charge a toll for the use of one or more lanes of a state highway facility under this section.

(c) The commission may by order authorize the department or the entity contracted to operate the toll lane to set the amount of toll charges. Any toll charges shall be imposed in a reasonable and nondiscriminatory manner.

(d) Revenue generated from toll charges and collection fees assessed by an entity with whom the department contracts under this section shall be allocated as required by the terms of the agreement.

Transferred from Transportation Code, Section 224.154 by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.36, eff. June 14, 2005.

Sec. 228.008. TOLLS ON EXCLUSIVE LANE. The department may not charge a toll for the use of an exclusive lane unless:

(1) the lanes or multilane facility adjacent to the
exclusive lane is tolled; or

(2) a vehicle that is authorized to use the tolled exclusive lane is authorized to use nontolled adjacent lanes or an adjacent nontolled multilane facility.

Sec. 228.009. AUDIT. Notwithstanding any other law to the contrary, the department shall have an independent certified public accountant audit the department's books and accounts for each toll project or system at least annually. The audit shall be conducted in accordance with the requirements of any trust agreement securing bonds issued under Subchapter C that is in effect at the time of the audit. The cost of the audit may be treated as part of the cost of construction or operation of a toll project or system. This section does not affect the ability of a state agency to audit the department's books and accounts.

Transferred from Transportation Code, Section 361.033 and amended by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.38, eff. June 14, 2005.

Sec. 228.010. ESTABLISHMENT OF TOLL SYSTEMS. (a) If the commission determines that the mobility needs of a region of this state could be most efficiently and economically met by jointly operating two or more toll projects in that region as one operational and financial enterprise, it may create a system composed of those projects. The commission may create more than one system in a region and may combine two or more systems in a region into one system. The department may finance, acquire, construct, and operate additional toll projects in the region as additions to or expansions of a system if the commission determines
that the toll project could most efficiently and economically be acquired or constructed if it were part of the system and that the addition will benefit the system.

(b) The revenue of a system shall be accounted for separately and may not be commingled with the revenue of a toll project that is not part of the system or with the revenue of another system.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.39, eff. June 14, 2005.

Sec. 228.011. TOLL PROJECTS IN CERTAIN COUNTIES.

(a) This section applies only to a county acting under Chapter 284 for:

(1) the widening, expansion, reconstruction, and continued operation of existing toll projects of the county; or

(2) the development, construction, and operation of all or a portion of any of the following toll projects, a component of that project, or the functional equivalent of that project:

(A) Beltway 8 Tollway East, between US 59 North and US 90 East;

(B) Hardy Downtown Connector, consisting of the proposed direct connection from the Hardy Toll Road southern terminus at Loop 610 to downtown Houston;

(C) State Highway 288, between US 59 and Grand Parkway South (State Highway 99);

(D) US 290 Toll Lanes, between IH 610 West and the Grand Parkway Northwest (State Highway 99);

(E) Fairmont Parkway East, between Beltway 8 East and Grand Parkway East (State Highway 99);

(F) South Post Oak Road Extension, between IH 610 South and near the intersection of Beltway 8 and Hillcroft in the vicinity of the Fort Bend Parkway Tollway;

(G) Westpark Toll Road Phase II, between Grand Parkway (State Highway 99) and FM 1463;

(H) Fort Bend Parkway, between State Highway 6 and the Brazos River; and

(I) Montgomery County Parkway, between State
Highway 242 and the Grand Parkway (State Highway 99), and if the Grand Parkway project has not begun construction, a nontolled extension of the Montgomery County Parkway to allow a connection to Interstate Highway 45.

(b) The county is the entity with the primary responsibility for the financing, construction, and operation of a toll project located in the county. A county may develop, construct, and operate a project described in Subsection (a) at any time, regardless of whether it receives a first option notice from the commission or the department under Subsection (e).

(b-1) Consistent with federal law, the department shall assist the county in the financing, construction, and operation of a toll project in the county by allowing the county to use state highway right-of-way owned by the department and to access the state highway system. The commission or the department may not require the county to pay for the use of the right-of-way or access, except to reimburse the department as provided by this subsection. The county shall pay an amount to reimburse the department for the department's actual costs to acquire the right-of-way. If the department cannot determine that amount, the amount shall be determined based on the average historical right-of-way acquisition values for right-of-way located in proximity to the project on the date of original acquisition of the right-of-way. Money received by the department under this subsection shall be deposited in the state highway fund and used in the department district in which the project is located.

(c) The department and the county must enter into an agreement that includes reasonable terms to accommodate the use of the right-of-way by the county and to protect the interests of the commission and the department in the use of the right-of-way for operations of the department, including public safety and congestion mitigation on the right-of-way.

(d) Subsection (b) does not limit the authority of the commission or the department to participate in the cost of acquiring, constructing, maintaining, or operating a project of the county under Chapter 284.

(e) Before the department may enter into a contract for the
financing, construction, or operation of a proposed or existing toll project any part of which is located in the county, the commission or department shall provide the county the first option to finance, construct, or operate, as applicable, the portion of the toll project located in the county:

(1) on terms agreeable to the county; and

(2) in a manner determined by the county to be consistent with the practices and procedures by which the county finances, constructs, or operates a project.

(f) A county's right to exercise the first option under Subsection (e) is effective for six months after the date of the receipt by the county of written notice from the commission or the department meeting the requirements of Subsection (e) and describing in reasonable detail the location of the toll project, a projected cost estimate, sources and uses of funds, and a construction schedule. If a county exercises the first option with respect to a toll project, the county must enter into one or more contracts for the financing, construction, or operation of the toll project within two years after the date on which all environmental requirements necessary for the development of the project are secured and all legal challenges to development are concluded. A contract may include agreements for design of the project, acquisition of right-of-way, and utility relocation. If the county does not enter into a contract during the two-year period, the commission or the department may enter into a contract for the financing, construction, or operation of the toll project with a different entity.

(g) An agreement entered into by the county and the department in connection with a project under Chapter 284 that is financed, constructed, or operated by the county and that is on or directly connected to a highway in the state highway system does not create a joint enterprise for liability purposes.

(h) If the county approves, the commission may remove any right-of-way to be used by a county under this section from the state highway system. If the right-of-way used by a county under this section remains part of the state highway system, the county must comply with department design and construction standards.
(i) Notwithstanding an action of a county taken under this section, the commission or department may take any action that is necessary in its reasonable judgment to comply with any federal requirement to enable this state to receive federal-aid highway funds.

(j) Notwithstanding any other law, the commission and the department are not liable for any damages that result from a county's use of state highway right-of-way or access to the state highway system under this section, regardless of the legal theory, statute, or cause of action under which liability is asserted.

Sec. 228.012. PROJECT SUBACCOUNTS. (a) The department shall create a separate account in the state highway fund to hold payments received by the department under a comprehensive development agreement and the surplus revenue of a toll project or system. The department shall create subaccounts in the account for each project, system, or region. Interest earned on money in a subaccount shall be deposited to the credit of that subaccount.

(b) The department shall hold money in a subaccount in trust for the benefit of the region in which a project or system is located and may assign the responsibility for allocating money in a subaccount to a metropolitan planning organization in which the region is located for projects approved by the department. At the time the project is approved by the department money shall be allocated and distributed to projects authorized by Section 228.0055 or Section 228.006, as applicable.

(c) Not later than January 1 of each odd-numbered year, the department shall submit to the Legislative Budget Board and the Governor's Office of Budget, Planning, and Policy a report on cash balances in the subaccounts created under this section and expenditures made with money in those subaccounts. The report must be in the form prescribed by the Legislative Budget Board.
(d) The commission or the department may not:

(1) revise the formula as provided in the department's unified transportation program or a successor document in a manner that results in a decrease of a department district's allocation because of the deposit of a payment into a project subaccount; or

(2) take any other action that would reduce funding allocated to a department district because of the deposit of a payment into a project subaccount.

Sec. 228.013. DETERMINATION OF FINANCIAL TERMS FOR CERTAIN TOLL PROJECTS. (a) This section applies only to a proposed department toll project in which a private entity has a financial interest in the project's performance and for which:

(1) funds dedicated to or controlled by a region will be used;

(2) right-of-way is provided by a municipality or county; or

(3) revenues dedicated to or controlled by a municipality or county will be used.

(b) The distribution of a project's financial risk, the method of financing for a project, and the tolling structure and methodology must be determined by a committee consisting of the following members:

(1) a representative of the department;

(2) a representative of any local toll project entity, as defined by Section 371.001, for the area in which the project is located;

(3) a representative of the applicable metropolitan
planning organization; and

(4) a representative of each municipality or county that has provided revenue or right-of-way as described by Subsection (a).

SUBCHAPTER B. USE AND OPERATION OF TOLL PROJECTS OR SYSTEMS

(b) A person that enters into an agreement with the department to provide services for a customer to pay an amount on an electronic toll collection customer account at a location other than a department office may collect from the customer a service charge in addition to the amount paid on the account.

(c) The commission by rule shall set the maximum amount a person may collect as a service charge under Subsection (b), which may not exceed $3 for a payment transaction.

Sec. 228.053. REVENUE. (a) The department may:

(1) impose tolls for the use of each toll project or
system and the different segments or parts of each project or system; and

(2) notwithstanding anything in Chapter 202 to the contrary, contract with a person for the use of part of a toll project or system or lease part of a toll project or system for a gas station, garage, store, hotel, restaurant, railroad tracks, utilities, and telecommunications facilities and equipment and set the terms for the use or lease.

(b) The tolls shall be set so that, at a minimum, the aggregate of tolls from the toll project or system:

(1) provides a fund sufficient with other revenue and contributions, if any, to pay:

(A) the cost of maintaining, repairing, and operating the project or system; and

(B) the principal of and interest on the bonds issued under Subchapter C for the project or system as those bonds become due and payable; and

(2) creates reserves for the purposes listed under Subdivision (1).

(c) The tolls are not subject to supervision or regulation by any other state agency.

(d) The tolls and other revenue derived from the toll project or system for which bonds were issued, except the part necessary to pay the cost of maintenance, repair, and operation and to provide reserves for those costs as may be provided in the order authorizing the issuance of the bonds or in the trust agreement securing the bonds, shall be set aside at regular intervals as may be provided in the order or trust agreement in a sinking fund that is pledged to and charged with the payment of:

(1) interest on the bonds as it becomes due;

(2) principal of the bonds as it becomes due;

(3) necessary charges of paying agents for paying principal and interest; and

(4) the redemption price or the purchase price of bonds retired by call or purchase as provided by the bonds.

(e) Use and disposition of money to the credit of the sinking fund are subject to the order authorizing the issuance of
the bonds or to the trust agreement.

(f) The revenue and disbursements for each toll project or system shall be kept separately. The revenue from one project may not be used to pay the cost of another project except as authorized by Sections 228.0055 and 228.006.

(g) Money in the sinking fund, less the reserve provided by the order or trust agreement, if not used within a reasonable time to purchase bonds for cancellation, shall be applied to the redemption of bonds at the applicable redemption price.

The exemption from payment of a toll for an authorized emergency vehicle applies regardless of whether the vehicle is:

(1) responding to an emergency;
(2) displaying a flashing light; or
(3) marked as an emergency vehicle.

(b) The department may use automated enforcement technology authorized under Section 228.058 to identify the registered owner of the vehicle for purposes of billing, collection, and enforcement activities.

(c) The department shall send by first class mail to the registered owner of a vehicle a written invoice containing an assessment for tolls incurred by the vehicle.

Sec. 228.102. ISSUANCE OF BONDS. (a) The commission by
order may authorize the issuance of toll revenue bonds to pay all or
part of the cost of a toll project or system. The proceeds of a
bond issue may be used solely for the payment of the project or
system for which the bonds were issued and may not be divided
between or among two or more projects. Each project is a separate
undertaking, the cost of which shall be determined separately.

(b) As determined in the order authorizing the issuance, the
bonds of each issue shall:

(1) be dated;

(2) bear interest at the rate or rates provided by the
order and beginning on the dates provided by the order and as
authorized by law, or bear no interest;

(3) mature at the time or times provided by the order,
not exceeding 40 years from their date or dates; and

(4) be made redeemable before maturity, at the price
or prices and under the terms provided by the order.

(c) The commission may sell the bonds at public or private
sale in the manner and for the price it determines to be in the best
interest of the department.

(d) The proceeds of each bond issue shall be disbursed in
the manner and under the restrictions, if any, the commission
provides in the order authorizing the issuance of the bonds or in
the trust agreement securing the bonds.

(e) If the proceeds of a bond issue are less than the toll project or system cost, additional bonds may be issued in the same manner to pay the costs of a project or system. Unless otherwise provided in the order authorizing the issuance of the bonds or in the trust agreement securing the bonds, the additional bonds are on a parity with and are payable, without preference or priority, from the same fund as the bonds first issued. In addition, the commission may issue bonds for a project or system secured by a lien on the revenue of the project or system subordinate to the lien on the revenue securing other bonds issued for the project or system.

(f) If the proceeds of a bond issue exceed the cost of the toll project or system for which the bonds were issued, the surplus shall be segregated from the other money of the commission and used only for the purposes specified in the order authorizing the issuance.

(g) In addition to other permitted uses, the proceeds of a bond issue may be used to pay costs incurred before the issuance of the bonds, including costs of environmental review, design, planning, acquisition of property, relocation assistance, construction, and operation.

(h) Bonds issued and delivered under this subchapter and interest coupons on the bonds are a security under Chapter 8, Business & Commerce Code.

(i) Bonds issued under this subchapter and income from the bonds, including any profit made on the sale or transfer of the bonds, are exempt from taxation in this state.

Sec. 228.103. APPLICABILITY OF OTHER LAW; CONFLICTS. All laws affecting the issuance of bonds by governmental entities, including Chapters 1201, 1202, 1204, 1207, and 1371, Government Code, apply to bonds issued under this subchapter. To the extent of a conflict between those laws and this subchapter, the provisions of this subchapter prevail.

(2) the proceeds of bonds issued for the project or system;

(3) the amounts deposited in a debt service reserve fund as required by the trust agreement securing bonds issued for the project or system;

(4) amounts received under a credit agreement relating to the project or system for which the bonds are issued;

(5) surplus revenue of another project or system as authorized by Section 228.006; and

(6) amounts received by the department:

(C) under other agreements with a local governmental entity relating to the project or system for which the bonds are issued; and
under a comprehensive development agreement entered into under Section 223.201.

(b) Bonds issued under this subchapter do not constitute a debt of the state or a pledge of the faith and credit of the state. Each bond must contain on its face a statement to the effect that:

1. the state, the commission, and the department are not obligated to pay the bond or the interest on the bond from a source other than the amount pledged to pay the bond and the interest on the bond; and

2. the faith and credit and the taxing power of the state are not pledged to the payment of the principal of or interest on the bond.

(c) The commission and the department may not incur financial obligations that cannot be paid from tolls or revenue derived from owning or operating toll projects or systems or from money provided by law.

Sec. 228.105. SOURCES OF PAYMENT OF AND SECURITY FOR TOLL REVENUE BONDS. Notwithstanding any other provisions of this subchapter, toll revenue bonds issued by the commission may:

(2) state on their faces any pledge of revenue or taxes and any security for the bonds under the agreement.

Sec. 228.106. INTERIM BONDS. (a) The commission may, before issuing definitive bonds, issue interim bonds, with or without coupons, exchangeable for definitive bonds.

(b) An order authorizing interim bonds may provide that the interim bonds recite that the bonds are issued under this subchapter. The recital is conclusive evidence of the validity and the regularity of the bonds' issuance.

Sec. 228.107. EFFECT OF LIEN. (a) A lien on or a pledge of revenue, a contract payment, or a pledge of money to the payment of bonds issued under this subchapter is valid and effective in accordance with Chapter 1208, Government Code, and:

(1) is enforceable in any court at the time of payment for and delivery of the bond;

subchapter. The record shall include the bond proceedings and any
contract securing or providing revenue for the payment of the
bonds.

(b) If the attorney general determines that the bonds, the

law, the attorney general shall approve the bonds and deliver to the
comptroller:

(1) a copy of the legal opinion of the attorney general
stating the approval; and

authorization of the bonds.
