SUBCHAPTER A. GENERAL PROVISIONS

Sec. 545.001. DEFINITIONS. In this chapter:

(1) "On-track equipment" means any car, rolling stock, equipment, or other device that, alone or coupled to another device, is operated on a railroad track.

(2) "Pass" or "passing" used in reference to a vehicle means to overtake and proceed past another vehicle moving in the same direction as the passing vehicle or to attempt that maneuver.

(3) "School bus" includes a multifunction school activity bus.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

SUBCHAPTER B. DRIVING ON RIGHT SIDE OF ROADWAY AND PASSING

Sec. 545.051. DRIVING ON RIGHT SIDE OF ROADWAY. (a) An operator on a roadway of sufficient width shall drive on the right half of the roadway, unless:

(1) the operator is passing another vehicle;

(2) an obstruction necessitates moving the vehicle left of the center of the roadway and the operator yields the

right-of-way to a vehicle that:

(A) is moving in the proper direction on the unobstructed portion of the roadway; and

(B) is an immediate hazard;

(3) the operator is on a roadway divided into three marked lanes for traffic; or

(4) the operator is on a roadway restricted to one-way traffic.

(b) An operator of a vehicle on a roadway moving more slowly than the normal speed of other vehicles at the time and place under the existing conditions shall drive in the right-hand lane available for vehicles, or as close as practicable to the right-hand curb or edge of the roadway, unless the operator is:

(1) passing another vehicle; or

(2) preparing for a left turn at an intersection or into a private road or driveway.

(c) An operator on a roadway having four or more lanes for moving vehicles and providing for two-way movement of vehicles may not drive left of the center line of the roadway except:

(1) as authorized by an official traffic-control device designating a specified lane to the left side of the center of the roadway for use by a vehicle not otherwise permitted to use the lane;

(2) under the conditions described by Subsection (a)(2); or

(3) in crossing the center line to make a left turn into or out of an alley, private road, or driveway.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.052. DRIVING PAST VEHICLE MOVING IN OPPOSITE DIRECTION. An operator moving in the opposite direction of the movement of another operator shall:

(1) move to or remain to the right; and

(2) on a roadway wide enough for not more than one line of vehicle movement in each direction, give the other operator:

(A) at least one-half of the main traveled portion of the roadway; or

(B) if complying with Paragraph (A) is not possible, as much of the roadway as possible.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.053. PASSING TO THE LEFT; RETURN; BEING PASSED.

(a) An operator passing another vehicle:

(1) shall pass to the left of the other vehicle at a safe distance; and

(2) may not move back to the right side of the roadway until safely clear of the passed vehicle.

(b) An operator being passed by another vehicle:

(1) shall, on audible signal, move or remain to the right in favor of the passing vehicle; and

(2) may not accelerate until completely passed by the passing vehicle.

(c) Subsection (b) does not apply when passing to the right is permitted.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.054. PASSING TO THE LEFT: SAFE DISTANCE. (a) An operator may not drive on the left side of the center of the roadway in passing another vehicle unless:

(1) driving on the left side of the center of the roadway is authorized by this subtitle; and

(2) the left side is clearly visible and free of approaching traffic for a distance sufficient to permit passing without interfering with the operation of the passed vehicle or a vehicle approaching from the opposite direction.

(b) An operator passing another vehicle shall return to an authorized lane of travel:

(1) before coming within 200 feet of an approaching vehicle, if a lane authorized for vehicles approaching from the opposite direction is used in passing; or otherwise

(2) as soon as practicable.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.055. PASSING TO THE LEFT: PASSING ZONES. (a) An

operator shall obey the directions of a sign or marking in Subsection (c) or (d) if the sign or marking is in place and clearly visible to an ordinarily observant person.

(b) An operator may not drive on the left side of the roadway in a no-passing zone or on the left side of any pavement striping designed to mark a no-passing zone. This subsection does not prohibit a driver from crossing pavement striping, or the center line in a no-passing zone marked by signs only, to make a left turn into or out of an alley or private road or driveway.

(c) The Texas Transportation Commission, on a state highway under the jurisdiction of the commission, may:

(1) determine those portions of the highway where passing or driving to the left of the roadway would be especially hazardous; and

(2) show the beginning and end of each no-passing zone by appropriate signs or markings on the roadway.

(d) A local authority, on a highway under the jurisdiction of the local authority, may:

(1) determine those portions of the highway where passing or driving to the left of the roadway would be especially hazardous; and

(2) show the beginning and end of each no-passing zone by appropriate signs or markings on the roadway.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.056. DRIVING TO LEFT OF CENTER OF ROADWAY: LIMITATIONS OTHER THAN PASSING. (a) An operator may not drive to the left side of the roadway if the operator is:

(1) approaching within 100 feet of an intersection or railroad grade crossing in a municipality;

(2) approaching within 100 feet of an intersection or railroad grade crossing outside a municipality and the intersection or crossing is shown by a sign or marking in accordance with Section [545.055](#);

(3) approaching within 100 feet of a bridge, viaduct, or tunnel; or

(4) awaiting access to a ferry operated by the Texas

Transportation Commission.

(b) The limitations in Subsection (a) do not apply:

- (1) on a one-way roadway; or
- (2) to an operator turning left into or from an alley or private road or driveway.

(c) The Texas Transportation Commission shall post signs along the approach to a ferry operated by the commission notifying operators that passing is prohibited if there is a standing line of vehicles awaiting access to the ferry.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.057. PASSING TO THE RIGHT. (a) An operator may pass to the right of another vehicle only if conditions permit safely passing to the right and:

(1) the vehicle being passed is making or about to make a left turn; and

(2) the operator is:

(A) on a highway having unobstructed pavement not occupied by parked vehicles and sufficient width for two or more lines of moving vehicles in each direction; or

(B) on a one-way street or on a roadway having traffic restricted to one direction of movement and the roadway is free from obstructions and wide enough for two or more lines of moving vehicles.

(b) An operator may not pass to the right by leaving the main traveled portion of a roadway except as provided by Section [545.058](#).

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.058. DRIVING ON IMPROVED SHOULDER. (a) An operator may drive on an improved shoulder to the right of the main traveled portion of a roadway if that operation is necessary and may be done safely, but only:

(1) to stop, stand, or park;

(2) to accelerate before entering the main traveled lane of traffic;

(3) to decelerate before making a right turn;

(4) to pass another vehicle that is slowing or stopped on the main traveled portion of the highway, disabled, or preparing to make a left turn;

(5) to allow another vehicle traveling faster to pass;

(6) as permitted or required by an official traffic-control device; or

(7) to avoid a collision.

(b) An operator may drive on an improved shoulder to the left of the main traveled portion of a divided or limited-access or controlled-access highway if that operation may be done safely, but only:

(1) to slow or stop when the vehicle is disabled and traffic or other circumstances prohibit the safe movement of the vehicle to the shoulder to the right of the main traveled portion of the roadway;

(2) as permitted or required by an official traffic-control device; or

(3) to avoid a collision.

(c) A limitation in this section on driving on an improved shoulder does not apply to:

(1) an authorized emergency vehicle responding to a call;

(2) a police patrol;

(3) a bicycle; or

(4) a slow-moving vehicle, as defined by Section [547.001](#).

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Amended by:

Acts 2019, 86th Leg., R.S., Ch. 860 (H.B. [2837](#)), Sec. 2, eff. September 1, 2019.

Sec. 545.059. ONE-WAY ROADWAYS AND ROTARY TRAFFIC ISLANDS.

(a) The Texas Transportation Commission may designate a highway or separate roadway under the jurisdiction of the commission for one-way traffic and shall erect appropriate signs giving notice of the designation.

(b) On a roadway that is designated and on which signs are

erected for one-way traffic, an operator shall drive only in the direction indicated.

(c) An operator moving around a rotary traffic island shall drive only to the right of the island.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.060. DRIVING ON ROADWAY LANED FOR TRAFFIC. (a) An operator on a roadway divided into two or more clearly marked lanes for traffic:

(1) shall drive as nearly as practical entirely within a single lane; and

(2) may not move from the lane unless that movement can be made safely.

(b) If a roadway is divided into three lanes and provides for two-way movement of traffic, an operator on the roadway may not drive in the center lane except:

(1) if passing another vehicle and the center lane is clear of traffic within a safe distance;

(2) in preparing to make a left turn; or

(3) where the center lane is designated by an official traffic-control device for movement in the direction in which the operator is moving.

(c) Without regard to the center of the roadway, an official traffic-control device may be erected directing slow-moving traffic to use a designated lane or designating lanes to be used by traffic moving in a particular direction.

(d) Official traffic-control devices prohibiting the changing of lanes on sections of roadway may be installed.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.061. DRIVING ON MULTIPLE-LANE ROADWAY. On a roadway divided into three or more lanes and providing for one-way movement of traffic, an operator entering a lane of traffic from a lane to the right shall yield the right-of-way to a vehicle entering the same lane of traffic from a lane to the left.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.062. FOLLOWING DISTANCE. (a) An operator shall, if following another vehicle, maintain an assured clear distance between the two vehicles so that, considering the speed of the vehicles, traffic, and the conditions of the highway, the operator can safely stop without colliding with the preceding vehicle or veering into another vehicle, object, or person on or near the highway.

(b) An operator of a truck or of a motor vehicle drawing another vehicle who is on a roadway outside a business or residential district and who is following another truck or motor vehicle drawing another vehicle shall, if conditions permit, leave sufficient space between the vehicles so that a vehicle passing the operator can safely enter and occupy the space. This subsection does not prohibit a truck or a motor vehicle drawing another vehicle from passing another vehicle.

(c) An operator on a roadway outside a business or residential district driving in a caravan of other vehicles or a motorcade shall allow sufficient space between the operator and the vehicle preceding the operator so that another vehicle can safely enter and occupy the space. This subsection does not apply to a funeral procession.

(d) An operator of a vehicle equipped with a connected braking system that is following another vehicle equipped with that system may be assisted by the system to maintain an assured clear distance or sufficient space as required by this section. In this subsection, "connected braking system" means a system by which the braking of one vehicle is electronically coordinated with the braking system of a following vehicle.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.063. DRIVING ON DIVIDED HIGHWAY. (a) On a highway having two or more roadways separated by a space, physical barrier, or clearly indicated dividing section constructed to impede vehicular traffic, an operator shall drive on the right roadway

unless directed or permitted to use another roadway by an official traffic-control device or police officer.

(b) An operator may not drive over, across, or in a dividing space, physical barrier, or section constructed to impede vehicular traffic except:

(1) through an opening in the physical barrier or dividing section or space; or

(2) at a crossover or intersection established by a public authority.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.064. RESTRICTED ACCESS. An operator may not drive on or from a limited-access or controlled-access roadway except at an entrance or exit that is established by a public authority.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.065. STATE AND LOCAL REGULATION OF LIMITED-ACCESS OR CONTROLLED-ACCESS HIGHWAYS. (a) The Texas Transportation Commission by resolution or order recorded in its minutes may prohibit the use of a limited-access or controlled-access highway under the jurisdiction of the commission by a parade, funeral procession, pedestrian, bicycle, electric bicycle, motorcycle equipped with a motor that has an engine piston displacement of 250 cubic centimeters or less, or nonmotorized traffic.

(b) If the commission adopts a rule under Subsection (a), the commission shall erect and maintain official traffic-control devices on the portions of the limited-access or controlled-access highway to which the rule applies.

(c) A local authority by ordinance may prohibit the use of a limited-access or controlled-access roadway under the jurisdiction of the authority by a parade, funeral procession, pedestrian, bicycle, electric bicycle, motorcycle equipped with a motor that has an engine piston displacement of 250 cubic centimeters or less, or nonmotorized traffic.

(d) If a local authority adopts an ordinance under Subsection (c), the authority shall erect and maintain official traffic-control devices on the portions of the limited-access or

controlled-access roadway to which the ordinance applies.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995. Amended by Acts 2001, 77th Leg., ch. 1085, Sec. 7, eff. Sept. 1, 2001.

(1) "Commission" means the Texas Transportation Commission.

(1-a) "Department" means the Texas Department of Transportation.

(2) "Highway" means a public highway that:

(A) is in the designated state highway system;

(B) is designated a controlled access facility;

and

(C) has a minimum of three travel lanes, excluding access or frontage roads, in each direction of traffic that may be part of a single roadway or may be separate roadways that are constructed as an upper and lower deck.

(b) The commission by order may restrict, by class of vehicle, through traffic to two or more designated lanes of a highway. If the lanes to be restricted by the commission are located within a municipality, the commission shall consult with the municipality before adopting an order under this section. A municipality by ordinance may restrict, by class of vehicle, through traffic to two or more designated lanes of a highway in the municipality.

(c) An order or ordinance under Subsection (b) must allow a restricted vehicle to use any lane of the highway to pass another vehicle and to enter and exit the highway.

(d) Before adopting an ordinance, a municipality shall submit to the department a description of the proposed restriction. The municipality may not enforce the restrictions unless the department's executive director or the executive director's designee has approved the restrictions.

(e) Department approval under Subsection (d) must:

(1) be based on a traffic study performed by the department to evaluate the effect of the proposed restriction; and

(2) to the greatest extent practicable, ensure a systems approach to preclude the designation of inconsistent lane restrictions among adjacent municipalities.

(f) The department's executive director or the executive director's designee may suspend or rescind approval of any restrictions approved under Subsection (d) for one or more of the following reasons:

(1) a change in pavement conditions;

(2) a change in traffic conditions;

(3) a geometric change in roadway configuration;

(4) construction or maintenance activity; or

(5) emergency or incident management.

(g) The department shall erect and maintain official traffic control devices necessary to implement and enforce an order adopted or an ordinance adopted and approved under this section. A restriction approved under this section may not be enforced until the appropriate traffic control devices are in place.

and

(C) has a minimum of three travel lanes, excluding access or frontage roads, in each direction of traffic.

(b) A county commissioners court by order may restrict, by class of vehicle, through traffic to two or more designated lanes of a highway located in the county and outside the jurisdiction of a

municipality.

(c) An order under Subsection (b) must allow a restricted vehicle to use any lane of the highway to pass another vehicle and to enter and exit the highway.

(d) Before issuing an order under this section, the commissioners court shall submit to the department a description of the proposed restriction. The commissioners court may not enforce the restrictions unless:

(1) the department's executive director or the executive director's designee has approved the restrictions; and

(2) the appropriate traffic-control devices are in place.

(e) Department approval under Subsection (d) must to the greatest extent practicable ensure a systems approach to preclude the designation of inconsistent lane restrictions among adjacent counties or municipalities.

(f) The department's executive director or the executive director's designee may suspend or rescind approval under this section for one or more of the following reasons:

(1) a change in pavement conditions;

(b) The executive director or the executive director's designee may restrict a commercial motor vehicle to a specific lane of traffic in a construction or maintenance work zone for a highway that is part of the state highway system if the executive director or the executive director's designee determines that, based on a traffic study performed by the department to evaluate the effect of the restriction, the restriction is necessary to improve safety.

(c) The department shall erect and maintain official traffic control devices necessary to implement and enforce a lane restriction imposed under this section. A lane restriction may not be enforced until the appropriate traffic control devices are in place.

(d) The executive director or the executive director's designee may rescind a lane restriction imposed under this section at any time that the executive director or the executive director's designee determines that the restriction is no longer necessary to improve safety.

(e) A lane restriction imposed under this section expires when the lane that is subject to the restriction is no longer in a construction or maintenance work zone.

(f) The department shall remove traffic control devices erected under this section if the lane restriction is rescinded under Subsection (d) or expires under Subsection (e).

Added by Acts 2015, 84th Leg., R.S., Ch. 578 (H.B. [3225](#)), Sec. 1, eff. September 1, 2015.

(1) shall stop before reaching the school bus when the bus is operating a visual signal as required by Section [547.701](#); and

(2) may not proceed until:

(A) the school bus resumes motion;

(B) the operator is signaled by the bus driver to

proceed; or

(C) the visual signal is no longer actuated.

(b) An operator on a highway having separate roadways is not required to stop:

(1) for a school bus that is on a different roadway;

or

(2) if on a controlled-access highway, for a school bus that is stopped:

(A) in a loading zone that is a part of or adjacent to the highway; and

(B) where pedestrians are not permitted to cross the roadway.

(c) An offense under this section is a misdemeanor punishable by a fine of not less than \$500 or more than \$1,250, except that the offense is:

(1) a misdemeanor punishable by a fine of not less than \$1,000 or more than \$2,000 if the person is convicted of a second or subsequent offense under this section committed within five years of the date on which the most recent preceding offense was committed;

(2) a Class A misdemeanor if the person causes serious bodily injury to another; or

(3) a state jail felony if the person has been previously convicted under Subdivision (2).

(d) The court may order that the driver's license of a person convicted of a second or subsequent offense under this section be suspended for not longer than six months beginning on the date of conviction. In this subsection, "driver's license" has the meaning assigned by Chapter [521](#).

(e) If a person does not pay the previously assessed fine or costs on a conviction under this section, or is determined by the court to have insufficient resources or income to pay a fine or costs on a conviction under this section, the court may order the person to perform community service. The court shall set the number of hours of service under this subsection.

(f) For the purposes of this section:

(1) a highway is considered to have separate roadways

only if the highway has roadways separated by an intervening space on which operation of vehicles is not permitted, a physical barrier, or a clearly indicated dividing section constructed to impede vehicular traffic; and

(2) a highway is not considered to have separate roadways if the highway has roadways separated only by a left turn lane.

Sec. 545.101. TURNING AT INTERSECTION. (a) To make a right turn at an intersection, an operator shall make both the approach and the turn as closely as practicable to the right-hand curb or edge of the roadway.

(b) To make a left turn at an intersection, an operator shall:

(1) approach the intersection in the extreme left-hand lane lawfully available to a vehicle moving in the direction of the vehicle; and

(2) after entering the intersection, turn left, leaving the intersection so as to arrive in a lane lawfully available to traffic moving in the direction of the vehicle on the roadway being entered.

(c) On a street or roadway designated for two-way traffic, the operator turning left shall, to the extent practicable, turn in the portion of the intersection to the left of the center of the intersection.

(d) To turn left, an operator who is approaching an intersection having a roadway designated for one-way traffic and for which signs are posted from a roadway designated for one-way traffic and for which signs are posted shall make the turn as

closely as practicable to the left-hand curb or edge of the roadway.

(e) The Texas Transportation Commission or a local authority, with respect to a highway in its jurisdiction, may:

(1) authorize the placement of an official traffic-control device in or adjacent to an intersection; and

(2) require a course different from that specified in this section for movement by vehicles turning at an intersection.

(b) An operator intending to turn a vehicle right or left shall signal continuously for not less than the last 100 feet of movement of the vehicle before the turn.

(c) An operator may not light the signals on only one side of the vehicle on a parked or disabled vehicle or use the signals as a courtesy or "do pass" signal to the operator of another vehicle approaching from the rear.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.105. SIGNALING STOPS. An operator may not stop or suddenly decrease the speed of the vehicle without first giving a

stop signal as provided by this subchapter to the operator of a vehicle immediately to the rear when there is an opportunity to give the signal.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.106. SIGNALS BY HAND AND ARM OR BY SIGNAL LAMP.

- (1) using the hand and arm; or
- (2) lighting signal lamps approved by the department.

(b) A motor vehicle in use on a highway shall be equipped with signal lamps, and the required signal shall be given by lighting the lamps, if:

(1) the distance from the center of the top of the steering post to the left outside limit of the body, cab, or load of the motor vehicle is more than two feet; or

(2) the distance from the center of the top of the steering post to the rear limit of the body or load, including the body or load of a combination of vehicles, is more than 14 feet.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.107. METHOD OF GIVING HAND AND ARM SIGNALS. An operator who is permitted to give a hand and arm signal shall give the signal from the left side of the vehicle as follows:

(1) to make a left turn signal, extend hand and arm horizontally;

(2) to make a right turn signal, extend hand and arm upward, except that a bicycle operator may signal from the right side of the vehicle with the hand and arm extended horizontally; and

(3) to stop or decrease speed, extend hand and arm downward.

(B) if a traffic-control signal is present but does not display an indication in any of the signal heads; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with traffic using a different street or roadway.

(b) An operator on a single-lane or two-lane street or roadway who approaches an intersection that is not controlled by an official traffic-control device and that is located on a divided highway or on a street or roadway divided into three or more marked traffic lanes:

(1) shall stop, yield, and grant immediate use of the intersection to a vehicle on the other street or roadway that is within the intersection or approaching the intersection in such proximity as to be a hazard; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with traffic using a different street or roadway.

(c) An operator on an unpaved street or roadway approaching an intersection of a paved street or roadway:

(1) shall stop, yield, and grant immediate use of the intersection to a vehicle on the paved street or roadway that is within the intersection or approaching the intersection in such proximity as to be a hazard; and

(d) Except as provided in Subsection (e), an operator approaching an intersection of a street or roadway that is not controlled by an official traffic-control device:

(1) shall stop, yield, and grant immediate use of the intersection to a vehicle that has entered the intersection from the operator's right or is approaching the intersection from the

operator's right in a proximity that is a hazard; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with traffic using a different street or roadway.

(e) An operator approaching an intersection of a street or roadway from a street or roadway that terminates at the intersection and that is not controlled by an official traffic-control device or controlled as provided by Subsection (b) or (c):

(1) shall stop, yield, and grant immediate use of the intersection to another vehicle that has entered the intersection from the other street or roadway or is approaching the intersection on the other street or roadway in a proximity that is a hazard; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with the traffic using the other street or roadway.

(f) An operator who is required by this section to stop and yield the right-of-way at an intersection to another vehicle and who is involved in a collision or interferes with other traffic at the intersection to whom right-of-way is to be given is presumed not to have yielded the right-of-way.

(c) An operator approaching an intersection on a roadway controlled by a yield sign shall:

(1) slow to a speed that is reasonable under the existing conditions; and

(2) yield the right-of-way to a vehicle in the intersection or approaching on another highway so closely as to be an immediate hazard to the operator's movement in or across the intersection.

(d) If an operator is required by Subsection (c) to yield and is involved in a collision with a vehicle in an intersection after the operator drove past a yield sign without stopping, the collision is prima facie evidence that the operator failed to yield the right-of-way.

(4) an approaching railroad train or other on-track equipment is plainly visible to the operator and is in hazardous proximity to the crossing; or

(5) the operator is required to stop by:

(A) other law;

(B) a rule adopted under a statute;

(7) on a bridge or other elevated structure on a highway or in a highway tunnel;

(8) on a railroad track; or

(b) An operator may not, except momentarily to pick up or discharge a passenger, stand or park an occupied or unoccupied vehicle:

(e) A municipality may adopt an ordinance exempting a private vehicle operated by an elevator constructor responding to an elevator emergency from Subsections (a)(1), (a)(5), (a)(6), (a)(9), (b), and (c).

(f) Subsections (a), (b), and (c) do not apply if the avoidance of conflict with other traffic is necessary or if the operator is complying with the law or the directions of a police officer or official traffic-control device.

(g) If the governing body of a municipality determines that it is necessary to improve the economic development of the municipality's central business district and that it will not adversely affect public safety, the governing body may adopt an ordinance regulating the standing, stopping, or parking of a vehicle at a place described by Subsection (a)(1), other than a road or highway in the state highway system, in the central business district of the municipality as defined in the ordinance. To the extent of any conflict between the ordinance and Subsection (a)(1), the ordinance controls.

This subsection does not apply where a local ordinance otherwise regulates stopping or parking on the one-way roadway.

(c) A local authority by ordinance may permit angle parking on a roadway. This subsection does not apply to a federal-aid or state highway unless the director of the Texas Department of Transportation determines that the roadway is wide enough to permit angle parking without interfering with the free movement of traffic.

(d) The Texas Department of Transportation, on a highway under the jurisdiction of that department, may place signs prohibiting or restricting the stopping, standing, or parking of a vehicle on the highway where the director of the Texas Department of Transportation determines that stopping, standing, or parking is dangerous to, or would unduly interfere with, the free movement of traffic on the highway.

(e) To the extent of any conflict between Subsection (a) or (b) and a municipal ordinance adopted under Section 545.302(g), the ordinance controls.

(B) a road tractor, truck tractor, pole trailer, or semitrailer, as those terms are defined by Section 541.201.

(2) "Residential subdivision" means a subdivision in a county with a population greater than 220,000:

(A) for which a plat is recorded in the county real property records; and

(B) in which the majority of lots are subject to deed restrictions limiting the lots to residential use.

(b) Except as provided by Subsection (b-1), after 10 p.m. and before 6 a.m., a person may not park a commercial motor vehicle or leave the vehicle parked on a street that is maintained by a county or municipality and for which signs are posted as provided by Subsection (c) if the street:

(1) is located within a residential subdivision; or

(2) is adjacent to a residential subdivision and within 1,000 feet of the property line of a residence, school, place of worship, or park.

(b-1) A person may park a commercial motor vehicle or leave the vehicle parked on a street for which signs are posted as provided by Subsection (c) if the commercial motor vehicle:

(1) is transporting persons or property to or from the residential subdivision or performing work in the subdivision; and

(2) remains parked in or adjacent to the subdivision only for the period necessary to complete the transportation or work.

(c) The residents of a residential subdivision may petition a county or municipality in which the subdivision is located for the posting of signs prohibiting the overnight parking of a commercial motor vehicle in the subdivision or on a street adjacent to the subdivision and within 1,000 feet of the property line of a residence, school, place of worship, or park. The petition must be signed by at least 25 percent of the owners or tenants of residences in the subdivision. subdivisions that are developed by the same entity or a successor to that entity and that are given the same public name or a variation of the same public name are considered one subdivision. Separation of one of the subdivisions from another by a road, stream, greenbelt, or similar barrier does not make the subdivisions noncontiguous.

(h) This section does not apply to:

(1) a vehicle owned by a utility that an employee of the utility who is on call 24 hours a day parks at the employee's residence; or

(2) a vehicle owned by a commercial establishment that is parked on the street adjacent to where the establishment is located.

subsection must be signed and in writing.

(d) A county receiving a request under Subsection (c) may post one or more signs as requested or as the county determines to be necessary.

(e) A sign posted under Subsection (d) must:

(1) be posted in the public right-of-way:

(A) not more than 10 feet from the property line of the apartment complex; and

(B) facing the roadway; and

(2) include:

(A) a statement, in letters at least two inches in height, that parking of a commercial motor vehicle is prohibited from 10 p.m. to 6 a.m. in the public right-of-way or portion of the public right-of-way; and

under the circumstances then existing.

(b) An operator:

(1) may not drive a vehicle at a speed greater than is reasonable and prudent under the conditions and having regard for actual and potential hazards then existing; and

(2) shall control the speed of the vehicle as necessary to avoid colliding with another person or vehicle that is on or entering the highway in compliance with law and the duty of each person to use due care.

(c) An operator shall, consistent with Subsections (a) and (b), drive at an appropriate reduced speed if:

(1) the operator is approaching and crossing an intersection or railroad grade crossing;

(2) the operator is approaching and going around a curve;

Sec. 545.352. PRIMA FACIE SPEED LIMITS. (a) A speed in excess of the limits established by Subsection (b) or under another provision of this subchapter is prima facie evidence that the speed is not reasonable and prudent and that the speed is unlawful.

(b) Unless a special hazard exists that requires a slower speed for compliance with Section [545.351\(b\)](#), the following speeds are lawful:

(1) 30 miles per hour in an urban district on a street other than an alley and 15 miles per hour in an alley;

(2) except as provided by Subdivision (4), 70 miles per hour on a highway numbered by this state or the United States outside an urban district, including a farm-to-market or ranch-to-market road;

(3) except as provided by Subdivision (4), 60 miles

per hour on a highway that is outside an urban district and not a highway numbered by this state or the United States;

(4) outside an urban district:

(A) 60 miles per hour if the vehicle is a school bus that has passed a commercial motor vehicle inspection under Section 548.201 and is on a highway numbered by the United States or this state, including a farm-to-market road; or

(B) 50 miles per hour if the vehicle is a school bus that:

(i) has not passed a commercial motor vehicle inspection under Section 548.201; or

(ii) is traveling on a highway not numbered by the United States or this state;

(5) on a beach, 15 miles per hour; or

(6) on a county road adjacent to a public beach, 15 miles per hour, if declared by the commissioners court of the county.

(c) The speed limits for a bus or other vehicle engaged in the business of transporting passengers for compensation or hire, for a commercial vehicle used as a highway post office vehicle for highway post office service in the transportation of United States mail, for a light truck, and for a school activity bus are the same as required for a passenger car at the same time and location.

(d) In this section:

(A) located in this state;

(B) officially designated by the Texas Transportation Commission; and

(3) "Urban district" means the territory adjacent to and including a highway, if the territory is improved with structures that are used for business, industry, or dwelling houses and are located at intervals of less than 100 feet for a distance of

at least one-quarter mile on either side of the highway.

(e) An entity that establishes or alters a speed limit under this subchapter shall establish the same speed limit for daytime and nighttime.

Sec. 545.353. AUTHORITY OF TEXAS TRANSPORTATION COMMISSION TO ALTER SPEED LIMITS. (a) If the Texas Transportation Commission determines from the results of an engineering and traffic investigation that a prima facie speed limit in this subchapter is unreasonable or unsafe on a part of the highway system, the commission, by order recorded in its minutes, and except as provided in Subsection (d), may determine and declare:

(1) a reasonable and safe prima facie speed limit; and
(2) another reasonable and safe speed because of wet or inclement weather.

(b) In determining whether a prima facie speed limit on a part of the highway system is reasonable and safe, the commission shall consider the width and condition of the pavement, the usual traffic at the affected area, and other circumstances.

(c) A prima facie speed limit that is declared by the commission under this section is effective when the commission erects signs giving notice of the new limit. A new limit that is enacted for a highway under this section is effective at all times or at other times as determined.

(d) Except as provided by Subsection (h-1), the commission may not:

(1) modify the rules established by Section 545.351(b);

(2) establish a speed limit of more than 75 miles per hour; or

(3) increase the speed limit for a vehicle described by Section 545.352(b)(4).

(e) The commission, in conducting the engineering and traffic investigation specified by Subsection (a), shall follow the "Procedure for Establishing Speed Zones" as adopted by the commission. The commission may revise the procedure to accommodate technological advancement in traffic operation, the design and construction of highways and motor vehicles, and the safety of the motoring public.

(f) The commission's authority to alter speed limits applies:

(1) to any part of a highway officially designated or marked by the commission as part of the state highway system; and

(2) both inside and outside the limits of a municipality, including a home-rule municipality, for a limited-access or controlled-access highway.

(g) For purposes of this section, "wet or inclement weather" means a condition of the roadway that makes driving on the roadway unsafe and hazardous and that is caused by precipitation, including water, ice, and snow.

(h) Notwithstanding Section 545.352(b), the commission may establish a speed limit of 75 miles per hour on a part of the highway system if the commission determines that 75 miles per hour is a reasonable and safe speed for that part of the highway system.

(h-1) Notwithstanding Section 545.352(b), the commission may establish a speed limit of 80 miles per hour on a part of Interstate Highway 10 or Interstate Highway 20 in Crockett, Culberson, Hudspeth, Jeff Davis, Kerr, Kimble, Pecos, Reeves, Sutton, or Ward County if the commission determines that 80 miles per hour is a reasonable and safe speed for that part of the highway.

(h-2) Notwithstanding Section 545.352(b), the commission may establish a speed limit not to exceed 85 miles per hour on a part

of the state highway system if:

(1) that part of the highway system is designed to accommodate travel at that established speed or a higher speed; and

(2) the commission determines, after an engineering and traffic investigation, that the established speed limit is reasonable and safe for that part of the highway system.

(i) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 265, Sec. 9, eff. September 1, 2011.

(j) The commission may not determine or declare, or agree to determine or declare, a prima facie speed limit for environmental purposes on a part of the highway system.

Sec. 545.3531. AUTHORITY OF DISTRICT ENGINEER TO TEMPORARILY LOWER SPEED LIMIT AT HIGHWAY MAINTENANCE ACTIVITY SITE.

(a) A district engineer of the Texas Department of Transportation may temporarily lower a prima facie speed limit for a highway or part of a highway in a district if the district engineer determines that the prima facie speed limit for the highway or part of highway is unreasonable or unsafe because of highway maintenance activities at the site.

(b) A district engineer may temporarily lower a prima facie speed limit under this section without the approval of or

permission from the Texas Transportation Commission.

(c) A temporary speed limit established under this section:

(1) is a prima facie prudent and reasonable speed limit enforceable in the same manner as other prima facie speed limits established under other provisions of this subchapter; and

(2) supersedes any other established speed limit that would permit a person to operate a motor vehicle at a higher rate of speed.

(d) After a district engineer temporarily lowers a speed limit under this section, the Texas Department of Transportation shall:

(1) place and maintain at the maintenance activity site temporary speed limit signs that conform to the manual and specifications adopted under Section [544.001](#);

(2) temporarily conceal all other signs on the highway or part of a highway affected by the maintenance activity that give notice of a speed limit that would permit a person to operate a motor vehicle at a higher rate of speed; and

(3) remove all temporary speed limit signs placed under Subdivision (1) and concealments of other signs placed under Subdivision (2) when the temporary speed limit expires under Subsection (f).

(e) A temporary speed limit established under this section is effective when the Texas Department of Transportation, as required under Subsection (d), places temporary speed limit signs and conceals other signs that would permit a person to operate a motor vehicle at a higher rate of speed.

(f) A temporary speed limit established under this section:

(1) is effective until the earlier of:

(A) the 45th day after the date the limit becomes effective; or

(B) the date on which the district engineer determines that the maintenance activity has been completed and all equipment has been removed from the maintenance activity site; and

(2) may not be extended unless established by the Texas Transportation Commission under Section [545.353](#).

Sec. 545.3535. AUTHORITY OF TEXAS TRANSPORTATION COMMISSION TO ALTER SPEED LIMITS ON CERTAIN ROADS. (a) The commissioners court of a county by resolution may request the Texas Transportation Commission to determine and declare a reasonable and safe prima facie speed limit that is lower than a speed limit established by Section [545.352](#) on any part of a farm-to-market or a ranch-to-market road of the highway system that is located in that county and is without improved shoulders.

(b) The commission shall give consideration to local public opinion and may determine and declare a lower speed limit on any part of the road without an engineering and traffic investigation, but the commission must use sound and generally accepted traffic engineering practices in determining and declaring the lower speed limit.

(c) The commission by rule shall establish standards for determining lower speed limits within a set range.

Sec. 545.354. AUTHORITY OF REGIONAL TOLLWAY AUTHORITIES TO ALTER SPEED LIMITS ON TURNPIKE PROJECTS. (a) (1) In this section, "authority" means a regional tollway authority governed by Chapter [366](#).

(2) If an authority determines from the results of an engineering and traffic investigation that a prima facie speed limit described in this subchapter is unreasonable or unsafe on a part of a turnpike constructed and maintained by the authority, the authority by order recorded in its minutes shall determine and declare a reasonable and safe prima facie speed limit for vehicles or classes of vehicles on the turnpike.

(b) In determining whether a prima facie speed limit on a part of a turnpike constructed and maintained by the authority is reasonable or safe, the authority shall consider the width and condition of the pavement, the usual traffic on the turnpike, and

other circumstances.

(c) A prima facie speed limit that is declared by the authority in accordance with this section is effective when the authority erects signs giving notice of the new limit. A new limit that is adopted for a turnpike project constructed and maintained by the authority in accordance with this section is effective at all times or at other times as determined.

(d) The authority's power to alter prima facie speed limits is effective and exclusive on any part of a turnpike project constructed and maintained by the authority inside and outside the limits of a municipality, including a home-rule municipality.

(e) The authority may not:

(1) alter the general rule established by Section [545.351\(a\)](#); or

(2) establish a speed limit of more than 75 miles per hour.

(f) The authority, in conducting the engineering and traffic investigation specified by Subsection (a), shall follow the procedure for establishing speed zones adopted by the Texas Department of Transportation.

(a) The commissioners court of a county, for a county road or highway outside the limits of the right-of-way of an officially designated or marked highway or road of the state highway system and outside a municipality, has the same authority to increase prima facie speed limits from the results of an engineering and traffic investigation as the Texas Transportation Commission on an officially designated or marked highway of the

state highway system.

(b) The commissioners court of a county may declare a lower speed limit of not less than:

(1) 30 miles per hour on a county road or highway to which this section applies, if the commissioners court determines that the prima facie speed limit on the road or highway is unreasonable or unsafe; or

(2) 20 miles per hour:

(A) in a residence district, unless the roadway has been designated as a major thoroughfare by a city planning commission; or

(B) on a county road or highway to which this section applies that is located within 500 feet of an elementary, secondary, or open-enrollment charter school or an institution of higher education, if approved under Section [545.357](#).

(c) The commissioners court may not modify the rule established by Section [545.351](#)(a) or establish a speed limit of more than 70 miles per hour.

(d) The commissioners court may modify a prima facie speed limit in accordance with this section only by an order entered on its records.

(e) The commissioners court of a county with a population of more than 2.8 million may establish from the results of an engineering and traffic investigation a speed limit of not more than 75 miles per hour on any part of a highway of that county that is a limited-access or controlled-access highway, regardless of the location of the part of the highway.

Sec. 545.356. AUTHORITY OF MUNICIPALITY TO ALTER SPEED LIMITS. (a) The governing body of a municipality, for a highway or part of a highway in the municipality, including a highway of the state highway system, has the same authority to alter by ordinance prima facie speed limits from the results of an engineering and traffic investigation as the Texas Transportation Commission on an officially designated or marked highway of the state highway system. The governing body of a municipality may not modify the rule established by Section 545.351(a) or establish a speed limit of more than 75 miles per hour.

(b) The governing body of a municipality, for a highway or part of a highway in the municipality, including a highway of the state highway system, has the same authority to alter prima facie speed limits from the results of an engineering and traffic investigation as the commission for an officially designated or marked highway of the state highway system, when the highway or part of the highway is under repair, construction, or maintenance. A municipality may not modify the rule established by Section 545.351(a) or establish a speed limit of more than 75 miles per hour.

(b-1) Except as provided by Subsection (b-3), the governing body of a municipality, for a highway or a part of a highway in the municipality that is not an officially designated or marked highway or road of the state highway system, may declare a lower speed limit of not less than 25 miles per hour, if the governing body determines that the prima facie speed limit on the highway is unreasonable or unsafe.

(b-2) Subsection (b-1) applies only to a two-lane, undivided highway or part of a highway.

(b-3) The governing body of a municipality with a population of 2,000 or less, for a highway or a part of a highway in the municipality that is a one-lane highway used for two-way access and that is not an officially designated or marked highway or road of the state highway system, may declare a lower speed limit of not less than 10 miles per hour, if the governing body determines that

the prima facie speed limit on the highway is unreasonable or unsafe.

(c) A prima facie speed limit that is altered by the governing body of a municipality under Subsection (b), (b-1), or (b-3) is effective when the governing body erects signs giving notice of the new limit and at all times or at other times as determined.

(d) The governing body of a municipality that declares a lower speed limit on a highway or part of a highway under Subsection (b-1) or (b-3), not later than February 1 of each year, shall publish on its Internet website and submit to the department a report that compares for each of the two previous calendar years:

(1) the number of traffic citations issued by peace officers of the municipality and the alleged speed of the vehicles, for speed limit violations on the highway or part of the highway;

(2) the number of warning citations issued by peace officers of the municipality on the highway or part of the highway; and

(3) the number of vehicular accidents that resulted in injury or death and were attributable to speed limit violations on the highway or part of the highway.

Sec. 545.3561. AUTHORITY OF MUNICIPALITY OR COUNTY TO TEMPORARILY LOWER SPEED LIMIT AT VEHICULAR ACCIDENT RECONSTRUCTION SITE. (a) The governing body of a municipality by ordinance may give a designated official with transportation engineering experience establishing speed limits discretion to temporarily

lower a prima facie speed limit for a highway or part of a highway in the municipality, including a highway of the state highway system, at the site of an investigation using vehicular accident reconstruction.

(b) A county commissioners court by order may give a designated official with transportation engineering experience establishing speed limits discretion to temporarily lower prima facie speed limits for a county road or highway outside the boundaries of a municipality at the site of an investigation using vehicular accident reconstruction. The authority granted under this subsection does not include a road or highway in the state highway system.

(c) The Texas Department of Transportation shall develop safety guidelines for the use of vehicular accident reconstruction in investigations. A municipality, county, or designated official shall comply with the guidelines.

(d) A designated official may temporarily lower prima facie speed limits without the approval of or permission from the Texas Department of Transportation. A designated official who intends to temporarily lower a prima facie speed limit at the site of an investigation using vehicular accident reconstruction shall, at least 48 hours before temporary speed limit signs are posted for the vehicular accident reconstruction site, provide to the Texas Department of Transportation notice that includes:

- (1) the date and time of the accident reconstruction;
- (2) the location of the accident reconstruction site;
- (3) the entities involved at the site;
- (4) the general size of the area affected by the site;

and

(5) an estimate of how long the site will be used for the accident reconstruction.

(e) A temporary speed limit established under this section:

(1) is a prima facie prudent and reasonable speed limit enforceable in the same manner as other prima facie speed limits established under other provisions of this subchapter; and

(2) supersedes any other established speed limit that would permit a person to operate a motor vehicle at a higher rate of

speed.

(f) A designated official who temporarily lowers a speed limit shall:

(1) place and maintain at the vehicular accident reconstruction site temporary speed limit signs that conform to the manual and specifications adopted under Section 544.001;

(2) temporarily conceal all other signs on the highway segment affected by the vehicular accident reconstruction site that give notice of a speed limit that would permit a person to operate a motor vehicle at a higher rate of speed; and

(3) remove all temporary speed limit signs placed under Subdivision (1) and concealments of other signs placed under Subdivision (2) when the official finds that the vehicular accident reconstruction is complete and all equipment is removed from the vehicular accident reconstruction site.

(g) A temporary speed limit established under this section is effective when a designated official places temporary speed limit signs and conceals other signs that would permit a person to operate a motor vehicle at a higher rate of speed as required under Subsection (f).

(h) A temporary speed limit established under this section is effective until the designated official under Subsection (a) or (b):

(1) finds that the vehicular accident reconstruction is complete; and

(2) removes all temporary signs, concealments, and equipment used at the vehicular accident reconstruction site.

(i) If a designated official does not comply with the requirements of Subsection (f)(3) for a vehicular accident reconstruction on a state highway associated with the reconstruction, the Texas Department of Transportation may remove signs and concealments.

Sec. 545.357. CONSIDERATION OF SPEED LIMITS WHERE CERTAIN SCHOOLS ARE LOCATED. (a) The governing body of a municipality in

which a public or private elementary or secondary school, an open-enrollment charter school, or an institution of higher education is located shall, on request of the governing body of a school or institution of higher education, hold a public hearing at least once each calendar year to consider prima facie speed limits on a highway in the municipality, including a highway of the state highway system, near the school or institution of higher education.

(b) If a county road outside the state highway system is located within 500 feet of a public or private elementary or secondary school, an open-enrollment charter school, or an institution of higher education that is not in a municipality, the commissioners court of the county, on request of the governing body of a school or institution of higher education, shall hold a public hearing at least once each calendar year to consider the prima facie speed limit on the road near the school or institution of higher education.

(c) A municipal governing body or commissioners court, on request of the governing body of a school or institution of higher education, may hold one public hearing for all public and private elementary and secondary schools, open-enrollment charter schools, and institutions of higher education in its jurisdiction.

(d) The Texas Transportation Commission, on request of the governing body of a school or institution of higher education, shall hold a public hearing at least once each calendar year to consider prima facie speed limits on highways in the state highway system that are near public or private elementary or secondary schools, open-enrollment charter schools, or institutions of higher education.

(e) On request of the governing body of a school or institution of higher education following a public hearing held under this section, the commissioners court, municipal governing body, or Texas Transportation Commission, as applicable, shall conduct an engineering and traffic investigation for the highway or road that is the subject of the request. On review of the results of the investigation, the commissioners court, municipal governing body, or Texas Transportation Commission has the same authority and discretion to alter prima facie speed limits as provided by Section

545.353, 545.355, or 545.356, as applicable. Following each public hearing held under this section, the governing body of a school or institution of higher education may make only one request under this subsection for an engineering and traffic investigation.

(f) In this section:

(1) "Governing body of a school or institution of higher education" means:

(A) the board of trustees of the school district in which a public elementary or secondary school is located;

(B) the governing body of a private elementary or secondary school;

(C) the governing body of an open-enrollment charter school; or

(D) the governing board of an institution of higher education.

(2) "Institution of higher education" means an institution of higher education or a private or independent institution of higher education, as those terms are defined by Section 61.003, Education Code.

(3) "Open-enrollment charter school" has the meaning assigned by Section 5.001, Education Code.

The commanding officer of a United States military reservation, for a highway or part of a highway in the military reservation, including a highway of the state highway system, has the same authority by order to alter prima facie speed limits from the results of an engineering and traffic investigation as the Texas Transportation Commission for an officially designated or marked highway of the state highway system. A commanding officer may not modify the rule established by Section 545.351(a) or establish a speed limit of more than 75

miles per hour.

An order of the Texas Transportation Commission declaring a speed limit on a part of a designated or marked route of the state highway system made under Section 545.353 or 545.362 supersedes any conflicting designated speed established under Sections 545.356 and 545.358.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.361. SPECIAL SPEED LIMITATIONS. (a) An operator of a moped or a motorcycle equipped with a motor that has an engine piston displacement of 250 cubic centimeters or less may not drive at a speed of more than 35 miles per hour during the time specified by Section 547.302(a) unless the motorcycle or moped is equipped with a headlamp or lamps that reveal a person or vehicle 300 feet ahead.

(b) An operator of a vehicle equipped with solid rubber or cushion tires may not drive at a speed of more than 10 miles per hour.

(c) An operator driving over a bridge or other elevated structure that is a part of a highway may not drive at a speed of more than the maximum speed that can be maintained with safety to the bridge or structure, when signs are posted as provided by this

section.

(d) An operator of self-propelled machinery designed or adapted for applying plant food materials or agricultural chemicals and not designed or adapted for the sole purpose of transporting the materials or chemicals may not drive at a speed of more than 30 miles per hour unless the machinery is registered under Chapter [502](#).

(e) The Texas Transportation Commission, for a state highway, the Texas Turnpike Authority, for any part of a turnpike constructed and maintained by the authority, and a local authority for a highway under the jurisdiction of the local authority, may investigate a bridge or other elevated structure that is a part of a highway. If after conducting the investigation the commission, turnpike authority, or local authority finds that the structure cannot safely withstand vehicles traveling at a speed otherwise permissible under this subtitle, the commission, turnpike authority, or local authority shall:

(1) determine and declare the maximum speed of vehicles that the structure can safely withstand; and

(2) post and maintain signs before each end of the structure stating the maximum speed.

Sec. 545.362. TEMPORARY SPEED LIMITS. (a) Subject to Subsection (c), the Texas Transportation Commission may enter an order establishing prima facie speed limits of not more than 75 miles per hour applicable to all highways, including a turnpike under the authority of the Texas Turnpike Authority or a highway under the control of a municipality or county. An order entered under this section does not have the effect of increasing a speed limit on any highway.

(b) The limits established under this section:

(1) are prima facie prudent and reasonable speed limits enforceable in the same manner as prima facie limits

established under other provisions of this subchapter; and

(2) supersede any other established speed limit that would permit a person to operate a motor vehicle at a higher rate of speed.

(c) An order may be issued under Subsection (a) only if the commission finds and states in the order that:

(1) a severe shortage of motor fuel or other petroleum product exists, the shortage was caused by war, national emergency, or other circumstances, and a reduction of speed limits will foster conservation and safety; or

(2) the failure to alter state speed limits will prevent the state from receiving money from the United States for highway purposes.

(d) Unless a specific speed limit is required by federal law or directive under threat of loss of highway money of the United States, the commission may not set prima facie speed limits under this section of all vehicles at less than 60 miles per hour, except on a divided highway of at least four lanes, for which the commission may not set prima facie speed limits of all vehicles at less than 65 miles per hour.

(e) Before the commission may enter an order establishing a prima facie speed limit, it must hold a public hearing preceded by the publication in at least three newspapers of general circulation in the state of a notice of the date, time, and place of the hearing and of the action proposed to be taken. The notice must be published at least 12 days before the date of the hearing. At the hearing, all interested persons may present oral or written testimony regarding the proposed order.

(f) If the commission enters an order under this section, it shall file the order in the office of the governor. The governor shall then make an independent finding of fact and determine the existence of the facts in Subsection (c). Before the 13th day after the date the order is filed in the governor's office, the governor shall conclude the finding of fact, issue a proclamation stating whether the necessary facts exist to support the issuance of the commission's order, and file copies of the order and the proclamation in the office of the secretary of state.

(g) If the governor's proclamation states that the facts necessary to support the issuance of the commission's order exist, the order takes effect according to Subsection (h). Otherwise, the order has no effect.

(h) In an order issued under this section, the commission may specify the date the order takes effect, but that date may not be sooner than the eighth day after the date the order is filed with the governor. If the order does not have an effective date, it takes effect on the 21st day after the date it is filed with the governor. Unless the order by its own terms expires earlier, it remains in effect until a subsequent order adopted by the procedure prescribed by this section amends or repeals it, except that an order adopted under this section expires when this section expires. The procedure for repealing an order is the same as for adopting an order, except that the commission and the governor must find that the facts required to support the issuance of an order under Subsection (c) no longer exist.

(i) If an order is adopted in accordance with this section, the commission and all governmental authorities responsible for the maintenance of highway speed limit signs shall take appropriate action to conceal or remove all signs that give notice of a speed limit of more than the one contained in the order and to erect appropriate signs. All governmental entities responsible for administering traffic safety programs and enforcing traffic laws shall use all available resources to notify the public of the effect of the order. To accomplish this purpose, the governmental entities shall request the cooperation of all news media in the state.

(j) A change in speed limits under this section is effective until the commission makes a finding that the conditions in Subsection (c) require or authorize an additional change in those speed limits or in the highway or sections of highway to which those speed limits apply.

(k) This section expires when the national maximum speed limits are repealed.

(a) If a person violates a maximum prima facie speed limit imposed under Section 545.362, as that law existed immediately before December 8, 1995, and the person was not traveling at a speed, as alleged in the citation, if not contested by the person, or, if contested by the person, as alleged in the complaint and found by the court, that is greater than the maximum prima facie speed limit for the location that has been established under this chapter, other than under Section 545.362, information in the custody of the department concerning the violation is confidential.

(b) The department may not release the information to any person or to another state governmental entity.

Sec. 545.363. MINIMUM SPEED REGULATIONS. (a) An operator may not drive so slowly as to impede the normal and reasonable movement of traffic, except when reduced speed is necessary for safe operation or in compliance with law.

(b) When the Texas Transportation Commission, the Texas Turnpike Authority, the commissioners court of a county, or the governing body of a municipality, within the jurisdiction of each, as applicable, as specified in Sections 545.353 to 545.357, determines from the results of an engineering and traffic investigation that slow speeds on a part of a highway consistently impede the normal and reasonable movement of traffic, the commission, authority, county commissioners court, or governing body may determine and declare a minimum speed limit on the highway.

(c) If appropriate signs are erected giving notice of a minimum speed limit adopted under this section, an operator may not drive a vehicle more slowly than that limit except as necessary for safe operation or in compliance with law.
