Sec. 121.003. AGRICULTURAL SERVICE EXCLUDED. (a) The act or acts of transporting, delivering, selling, or otherwise making available natural gas for fuel, either directly or indirectly, to an owner of an irrigation well, or the sale, transportation, or delivery of natural gas for any other direct use in an agricultural activity, does not make a person a gas utility or make the person subject to the jurisdiction, control, and regulation of the railroad commission as a gas utility.

(b) In order for a person furnishing natural gas to qualify for the exemption under Subsection (a), the person to whom the gas was furnished under Subsection (a) shall use the gas exclusively to pump water for farm and other agricultural purposes.

(3) to another person in, or in the vicinity of, the field or fields where the gas is produced for transportation or sale in intrastate commerce.

(b) A person is not a gas utility because the person delivers or sells gas:

(1) for lease use, compressor fuel, processing plant fuel, or a similar use;

(2) under a lease or right-of-way agreement;

(3) in, or in the vicinity of, the field where the gas is produced; or

(4) at a processing plant outlet.

(c) Subsection (b) does not exclude as a gas utility a pipeline that:

(1) transmits or distributes to end users of gas, other than:

(A) those described by Subsection (b); or

(B) a person who qualifies for the exemption provided by Section [121.003](#); or

(2) makes city-gate deliveries for local distribution.

(d) The railroad commission may review a certification made by a person under Subsection (a). The railroad commission shall invite a person whose certification is being reviewed to an informal meeting to resolve the person's status under this subsection. If the person's status remains unresolved after the informal meeting and there is sufficient reason to move forward, the railroad commission shall provide notice and an opportunity for

- (1) sells natural gas for use as vehicle fuel;
- (2) sells natural gas to a person who later sells the natural gas for use as vehicle fuel; or
- (3) owns or operates equipment or facilities to sell or transport the natural gas for ultimate use as vehicle fuel.

(c) The attorney general shall enforce this section by injunction or other remedy.

Acts 1997, 75th Leg., ch. 166, Sec. 1, eff. Sept. 1, 1997.

SUBCHAPTER C. DUTIES OF GAS UTILITIES AND PIPELINES

Sec. 121.101. MAINTENANCE OF OFFICE AND RECORDS IN THIS STATE. (a) A gas utility shall maintain an office in this state in a county in which some part of the gas utility's property is located. The gas utility shall keep in this office all books, accounts, papers, records, vouchers, and receipts that the railroad commission requires.

(b) A book, account, paper, record, receipt, voucher, or other item of information required by the railroad commission to be kept in this state may not be removed from this state except as prescribed by the railroad commission.

Sec. 121.103. DUTY TO SERVE CERTAIN USERS EXTINGUISHED.

(a) A gas utility that provides gas to a customer does not have an obligation to serve the customer or to maintain the gas supply or physical capacity to serve the customer if the customer:

- (1) is a transportation, industrial, commercial, or other similar large-volume contract customer;
- (2) is an end-use customer of the gas utility;
- (3) reduces or ceases the purchase of natural gas or natural gas service from the gas utility; and
- (4) purchases natural gas or natural gas service from another supplier or purchases an alternate form of energy.

(b) Subsection (a) does not apply to the extent that:

- (1) the customer continues to purchase natural gas or natural gas service of any class from the gas utility; or
- (2) the gas utility has a written contract to provide natural gas or natural gas service of any class to the customer.

(c) This section does not prevent the railroad commission from requiring a gas utility to comply with an order of the railroad commission in apportioning gas under a curtailment plan and order.

(d) Notwithstanding Subsection (a), a gas utility that has provided gas to a commercial customer is obligated to serve that customer if the gas utility has a sufficient gas supply and physical capacity to do so without reducing service to its other customers.

(2) directly or indirectly charge, demand, collect, or receive from anyone a greater or lesser compensation for a service provided than the compensation charged, demanded, or received from another for a similar and contemporaneous service.

(b) This section does not limit the right of the railroad commission to prescribe:

(1) different rates and rules for the use of natural gas for manufacturing and similar purposes; or

(2) rates and rules for service from or to other or different places.

Acts 1997, 75th Leg., ch. 166, Sec. 1, eff. Sept. 1, 1997.

SUBCHAPTER D. REGULATION BY RAILROAD COMMISSION

Sec. 121.151. RAILROAD COMMISSION REGULATION OF GAS PIPELINES. The railroad commission shall:

(1) establish and enforce the adequate and reasonable price of gas and fair and reasonable rates of charges and rules for transporting, producing, distributing, buying, selling, and delivering gas by pipelines subject to this chapter in this state;

(2) establish fair and equitable rules for the full control and supervision of the pipelines subject to this chapter and all their holdings pertaining to the gas business in all their relations to the public, as the railroad commission determines to be proper;

(3) establish a fair and equitable division of the proceeds of the sale of gas between the companies transporting or producing the gas and the companies distributing or selling it;

(4) prescribe and enforce rules for the government and control of pipelines subject to this chapter in respect to their pipelines and producing, receiving, transporting, and distributing facilities;

(5) regulate and apportion the supply of gas between municipalities and between municipalities and corporations; and

(6) prescribe fair and reasonable rules requiring pipelines subject to this chapter to augment their supply of gas, when:

(A) the supply of gas controlled by any gas pipeline is inadequate; and

(B) the railroad commission determines that augmentation is practicable.

Acts 1997, 75th Leg., ch. 166, Sec. 1, eff. Sept. 1, 1997.

Sec. 121.152. INITIATION OF REGULATORY PROCEEDING. The railroad commission shall exercise power under Section [121.151](#):

Sec. 121.153. RAILROAD COMMISSION REVIEW OF GAS PIPELINE ORDERS AND AGREEMENTS. The railroad commission, after notice to a person or corporation owning, controlling, or operating a pipeline subject to this chapter and after a hearing, may review, revise, and regulate an order or agreement that is made by the person or corporation and establishes a price, rate, rule, regulation, or condition of service.

Acts 1997, 75th Leg., ch. 166, Sec. 1, eff. Sept. 1, 1997.

Sec. 121.154. REFUND OF EXCESS CHARGES. (a) On a complaint against a person or corporation owning or operating a pipeline business subject to this chapter filed by any person authorized by Section [121.152](#) to file a petition and complaint and sustained in whole or in part by the railroad commission, each customer of the

pipeline is entitled to reparation for or reimbursement of a rate or charge made or adopted by the pipeline for a purpose relating to the operation of that business, including a rate or charge for gas, service, or meter rental, or in the event of an inadequate supply of gas or inadequate service in any respect.

(b) The amount recoverable under Subsection (a) is the amount paid after the filing of the complaint in excess of the proper rate or charge of the pipeline as finally determined by the railroad commission.

Sec. 121.155. RATE REDUCTION OR DETERMINATION BY MUNICIPALITY AND APPEAL. A gas utility the rates of which have been reduced by a municipality may appeal the municipal order, decision, regulation, or ordinance to the railroad commission. The appeal is initiated by filing with the railroad commission in the manner and on the conditions that the railroad commission may direct a petition for review and a bond. The appeal is de novo. The railroad commission shall set a hearing and may make any order or decision in relation to the matter appealed that the commission considers just and reasonable. To change a rate, rental, or charge, a gas utility that is a local distributing company or concern and the rates of which have been established by a municipality must submit an application to the municipality in which the utility is located. The municipality shall make a determination on an application not later than the 60th day after the date the application is filed. If the municipality rejects the application or fails or refuses to act on the application on or before the deadline prescribed by this section, the gas utility may appeal to the railroad commission as provided by this section. The railroad commission shall make a determination on the appeal not later than the 60th day after the date the appeal is filed unless the gas utility agrees in writing to a longer period. The rates established by the municipality remain in effect until changed by the railroad commission.

(2) community liaison for responding to an emergency relating to a gas pipeline facility; and

(3) measures a gas pipeline facility operator must implement to prepare the gas pipeline facility to maintain service quality and reliability during extreme weather conditions if the gas pipeline facility:

(A) directly serves a natural gas electric generation facility operating solely to provide power to the electric grid for the ERCOT power region or for the ERCOT power region and an adjacent power region; and

(B) is included on the electricity supply chain map created under Section 38.203.

(a-1) In adopting rules under Subsection (a)(3), the railroad commission shall take into consideration weather predictions produced by the office of the state climatologist.

(1) assess a reasonable annual charge for the placement, construction, maintenance, repair, replacement, operation, use, relocation, or removal by an owner or operator of a gas pipeline facility on, along, or across the public roads, highways, streets, alleys, streams, canals, or other public ways located within the municipality and maintained by the municipality; and

(2) recover the reasonable cost of repairing damage to a public road, highway, street, alley, stream, canal, or other public way located within the municipality and maintained by the municipality that is caused by the placement, construction, maintenance, repair, replacement, operation, use, relocation, or removal of a gas pipeline facility if the owner or operator of the facility does not repair the damage in accordance with generally applicable paving standards or other applicable standards in the municipality.

(c) A charge authorized by Subsection (b)(1) may not exceed the cost to the municipality of administering, supervising, inspecting, and otherwise regulating the location of the gas pipeline facility, including maintaining records and maps of the location of the pipeline facility.

(d) The owner or operator of a gas pipeline facility may appeal the assessment of a charge under Subsection (b)(1) to the railroad commission. The railroad commission shall hear the appeal de novo. Unless the municipality that assessed the charge establishes that the charge is authorized by this section, the railroad commission shall declare the charge invalid or reduce the charge to an amount authorized by this section. The railroad commission has exclusive jurisdiction to determine whether a charge under Subsection (b)(1) is authorized by this section. The owner or operator of the gas pipeline facility and the municipality shall

share equally the costs incurred by the railroad commission in connection with the appeal.

(e) A municipality must file suit to collect a charge authorized by Subsection (b)(1) not later than the fourth anniversary of the date the charge becomes due. The running of the limitations period under this subsection is tolled on the filing of an appeal of the charge under Subsection (d) and begins running again on the date the appeal is determined.

(f) This section may not be construed to prevent a municipality from:

(1) recovering the reasonable cost of repairing damage to a municipal facility, other than a public way, caused by acts of the owner or operator of a gas pipeline facility; or

(2) requiring the owner or operator of a gas pipeline facility to relocate the pipeline facility, at the owner's or operator's expense, to permit the construction, maintenance, modification, or alteration of a municipal facility.

(g) Notwithstanding Subsection (f)(2), the municipality shall pay the cost of relocating a gas pipeline facility if the pipeline facility is authorized by a property right that has priority over the municipality's right to use the public way for the municipal facility.

(b) An applicant for a permit to construct a sour gas pipeline facility must:

(1) publish notice of the application in a form determined by the railroad commission in a newspaper of general circulation in each county that contains part of the proposed route of the sour gas pipeline facility; and

(2) provide a copy of the application to the county clerk of each county that contains part of the proposed route.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 18.13(a), eff. Sept. 1, 1999.

Sec. 121.454. RAILROAD COMMISSION APPROVAL OR DENIAL. (a) The railroad commission by order may approve an application for a permit to construct a sour gas pipeline facility if the railroad

commission finds that the materials to be used in and method of construction and operation of the facility comply with the rules and safety standards adopted by the railroad commission.

(b) The railroad commission may issue an order under this section without holding a hearing unless an affected party files a written protest with the railroad commission not later than the 30th day after the date notice is published under Section 121.453. If an affected party files a written protest, the railroad commission shall:

(1) hold a hearing not later than the 60th day after the date the protest is filed; and

(2) issue an order:

(A) approving the permit application; or

(B) denying the application and stating the reasons for the denial.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 18.13(a), eff. Sept. 1, 1999.

SUBCHAPTER J. TESTING OF NATURAL GAS PIPING SYSTEMS IN SCHOOL FACILITIES

Sec. 121.5005. APPLICABILITY. This subchapter applies to a facility of a public elementary or secondary school, including a charter school, or a private elementary or secondary school, but does not apply to a home school.

Added by Acts 2001, 77th Leg., ch. 1233, Sec. 73, eff. Sept. 1, 2001.

Sec. 121.501. DEFINITION. In this subchapter, "supplier" means an individual or company that sells and delivers natural gas to a school facility. If more than one individual or company sells and delivers natural gas to a school facility, each individual or company is a supplier for purposes of this subchapter.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 18.14(a), eff. Sept. 1, 1999. Amended by Acts 2001, 77th Leg., ch. 1233, Sec. 74, eff. Sept. 1, 2001.

Sec. 121.502. DUTY TO PRESSURE TEST. (a) A person responsible for a school facility shall perform biennial pressure tests on the natural gas piping system in the school facility. The tests must be performed before the beginning of the school year.

(b) A person responsible for more than one school facility may perform the tests on a two-year cycle under which the person pressure tests the natural gas piping system in approximately one-half of the facilities each year.

(c) If the person responsible for one or more school facilities operates the facilities on a year-round calendar, the pressure test in each of those facilities must be conducted and reported not later than July 1 of the year in which the pressure test is performed.

(d) A natural gas piping pressure test performed under a municipal code satisfies the pressure testing requirements prescribed by this section.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 18.14(a), eff. Sept. 1, 1999. Amended by Acts 2001, 77th Leg., ch. 1233, Sec. 74, eff. Sept. 1, 2001.

Sec. 121.503. REQUIREMENTS OF TEST. (a) The person responsible for a school facility shall perform the pressure test to determine whether the natural gas piping downstream of the school facility's meter holds at least normal operating pressure over a specified period determined by the railroad commission.

(b) During the pressure test, each system supply inlet and outlet in the school facility must be closed.

(c) At the request of a person responsible for a school facility, the railroad commission shall assist the person in developing a procedure for conducting the test.
