(1) "Civil works project" means:

(A) roads, streets, bridges, utilities, water supply projects, water plants, wastewater plants, water distribution and wastewater conveyance facilities, desalination projects, wharves, docks, airport runways and taxiways, storm drainage and flood control projects, or transit projects;

(B) types of projects or facilities related to those described by Paragraph (A) and associated with civil engineering construction; and

(C) buildings or structures that are incidental to projects or facilities that are described by Paragraphs (A) and (B) and that are primarily civil engineering construction projects.

(2) "Design-build firm" means a partnership, corporation, or other legal entity or team that includes an engineer and a construction contractor qualified to engage in civil works construction in Texas.

(3) "Design criteria package" means a set of documents that:

(A) provides sufficient information to convey the intent, goals, criteria, and objectives of the civil works project; and

(B) permits a design-build firm to:

(i) assess the scope of work and the risk involved; and

(ii) submit a proposal on the project.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1129 (H.B. 628), Sec. 2.08, eff. September 1, 2011.

Sec. 2269.353. CONTRACTS FOR CIVIL WORKS PROJECTS: DESIGN-BUILD. (a) A governmental entity may use the design-build method for the construction, rehabilitation, alteration, or repair of a civil works project. In using this method and in entering into a contract for the services of a design-build firm, the contracting governmental entity and the design-build firm shall follow the procedures provided by this subchapter.

(b) A contract for a project under this subchapter may cover only a single integrated project. A governmental entity may not enter into a contract for aggregated projects at multiple locations. For purposes of this subsection:

(1) if a metropolitan transit authority created under Chapter 451, Transportation Code, enters into a contract for a project involving a linear transit project with multiple stops along the project route for boarding passengers, created under Chapter 451, Transportation Code, the linear transit project is a

single integrated project; and

(2) a water treatment plant, including a desalination plant, that includes treatment facilities, well fields, and pipelines is a single integrated project.

(c) A governmental entity shall use the following criteria as a minimum basis for determining the circumstances under which the design-build method is appropriate for a project:

(1) the extent to which the entity can adequately define the project requirements;

(2) the time constraints for the delivery of the project;

(3) the ability to ensure that a competitive procurement can be held; and

(4) the capability of the entity to manage and oversee the project, including the availability of experienced personnel or outside consultants who are familiar with the design-build method of project delivery.

After August 31, 2013:

(1) a governmental entity with a population of 500,000 or more within the entity's geographic boundary or service area may, under this subchapter, enter into contracts for not more than

six projects in any fiscal year;

(2) a municipally owned water utility with a separate governing board appointed by the governing body of a municipality with a population of 500,000 or more may:

(A) independently enter into contracts for not more than two civil works projects in any fiscal year; and

(B) enter into contracts for additional civil works projects in any fiscal year, but not more than the number of civil works projects prescribed by the limit in Subdivision (1) for the municipality, provided that:

(i) the additional contracts for the civil works projects entered into by the utility under this paragraph are allocated to the number of contracts the municipality that appoints the utility's governing board may enter under Subdivision (1); and

(ii) the governing body of the municipality must approve the contracts; and

(3) a governmental entity that has a population of 100,000 or more but less than 500,000 or is a board of trustees governed by Chapter 54, Transportation Code, may enter into contracts under this subchapter for not more than four projects in any fiscal year.

(b) For purposes of determining the number of eligible projects under this section, a municipally owned water utility with a separate governing board appointed by the governing body of the municipality is considered part of the municipality.

Sec. 2269.361. PROCEDURES FOR COMBINATION OF TECHNICAL AND COST PROPOSALS. (a) A governmental entity shall request proposals from design-build firms identified under Section 2269.359(c). A response to a request for detailed proposals must be submitted on or before the earlier of the time for submission requested by the governmental entity or the 180th day after the date the governmental entity makes a public request for the proposals from the selected firms. The request for proposals must include:

- (1) a design criteria package;
- (2) if the project site is identified, a geotechnical baseline report or other information that provides the design-build firm minimum geotechnical design parameters to submit a proposal;
- (3) detailed instructions for preparing the technical proposal and the items to be included, including a description of the form and level of completeness of drawings expected; and
- (4) the relative weighting of the technical and price proposals and the formula by which the proposals will be evaluated and ranked.

(b) The technical proposal is a component of the proposal under this section.

(c) Each proposal must include a sealed technical proposal and a separate sealed cost proposal.

- (d) The technical proposal must address:
- (1) project approach;
 - (2) anticipated problems;
 - (3) proposed solutions to anticipated problems;
 - (4) ability to meet schedules;
 - (5) conceptual engineering design; and
 - (6) other information requested by the governmental entity.

(e) The governmental entity shall first open, evaluate, and score each responsive technical proposal submitted on the basis of the criteria described in the request for proposals and assign points on the basis of the weighting specified in the request for proposals. The governmental entity may reject as nonresponsive

any firm that makes a significant change to the composition of its firm as initially submitted. The governmental entity shall subsequently open, evaluate, and score the cost proposals from firms that submitted a responsive technical proposal and assign points on the basis of the weighting specified in the request for proposals. The governmental entity shall select the design-build firm in accordance with the formula provided in the request for proposals.

Sec. 2269.3615. IDENTIFICATION OF PROJECT TEAM. (a) A governmental entity may require a design-build firm responding to a request for detailed proposals to identify companies that will:

(1) fill key project roles, including project management, lead design firm, quality control management, and quality assurance management; and

(2) serve as key task leaders for geotechnical, hydraulics and hydrology, structural, environmental, utility, and right-of-way issues.

(b) If a design-build firm required to identify companies under Subsection (a) is selected for a design-build agreement, the firm may not make changes to the identified companies unless an identified company:

(1) is no longer in business, is unable to fulfill its legal, financial, or business obligations, or can no longer meet the terms of the teaming agreement with the design-build firm;

(2) voluntarily removes itself from the team;

(3) fails to provide a sufficient number of qualified

personnel to fulfill the duties identified during the proposal stage; or

(4) fails to negotiate in good faith in a timely manner in accordance with provisions established in the teaming agreement proposed for the project.

(c) If the design-build firm makes team changes in violation of Subsection (b), any cost savings resulting from the change accrue to the governmental entity and not to the design-build firm. Added by Acts 2013, 83rd Leg., R.S., Ch. 1127 (H.B. 1050), Sec. 5(b), eff. September 1, 2013.

Sec. 2269.362. NEGOTIATION. After selecting the highest-ranked design-build firm under Section 2269.361, the governmental entity shall first attempt to negotiate a contract with the selected firm. If the governmental entity is unable to negotiate a satisfactory contract with the selected firm, the entity shall, formally and in writing, end all negotiations with that firm and proceed to negotiate with the next firm in the order of the selection ranking until a contract is reached or negotiations with all ranked firms end.

Sec. 2269.363. ASSUMPTION OF RISKS. The governmental entity shall assume:

(1) all risks and costs associated with:

(A) scope changes and modifications, as requested by the governmental entity;

(B) unknown or differing site conditions unless otherwise provided by the governmental entity in the request for proposals and final contract;

(C) regulatory permitting, if the governmental entity is responsible for those risks and costs by law or contract; and

(D) natural disasters and other force majeure events unless otherwise provided by the governmental entity in the request for proposals and final contract; and

(2) all costs associated with property acquisition, excluding costs associated with acquiring a temporary easement or work area associated with staging or construction for the project. Added by Acts 2011, 82nd Leg., R.S., Ch. 1129 (H.B. 628), Sec. 2.08, eff. September 1, 2011.

Sec. 2269.364. STIPEND AMOUNT FOR UNSUCCESSFUL OFFERORS.

(a) Unless a stipend is paid under Subsection (c), the design-build firm retains all rights to the work product submitted in a proposal. The governmental entity may not release or disclose to any person, including the successful offeror, the work product contained in an unsuccessful proposal. The governmental entity shall return all copies of the proposal and other information submitted to an unsuccessful offeror. The governmental entity or its agents may not make use of any unique or nonordinary design element, technique, method, or process contained in the unsuccessful proposal that was not also contained in the successful proposal at the time of the original submittal, unless the entity acquires a license from the unsuccessful offeror.

(b) A violation of this section voids the contract for the project entered into by the governmental entity. The governmental entity is liable to any unsuccessful offeror, or any member of the design-build team or its assignee, for one-half of the cost savings associated with the unauthorized use of the work product of the unsuccessful offeror. Any interested party may bring an action for an injunction, declaratory relief, or damages for a violation of this section. A party who prevails in an action under this subsection is entitled to reasonable attorney's fees as approved by

the court.

(c) The governmental entity may offer an unsuccessful design-build firm that submits a response to the entity's request for additional information under Section 2269.361 a stipend for preliminary engineering costs associated with the development of the proposal. The stipend must be one-half of one percent of the contract amount and must be specified in the initial request for proposals. If the offer is accepted and paid, the governmental entity may make use of any work product contained in the proposal, including the techniques, methods, processes, and information contained in the proposal. The use by the governmental entity of any design element contained in an unsuccessful proposal is at the sole risk and discretion of the entity and does not confer liability on the recipient of the stipend under this subsection.

(d) Notwithstanding other law, including Chapter 552, work product contained in an unsuccessful proposal submitted and rejected under this subchapter is confidential and may not be released unless a stipend offer has been accepted and paid as provided by Subsection (c).

Sec. 2269.365. COMPLETION OF DESIGN. (a) Following selection of a design-build firm under this subchapter, the firm's engineers shall submit all design elements for review and determination of scope compliance to the governmental entity before or concurrently with construction.

(b) An appropriately licensed design professional shall sign and seal construction documents before the documents are released for construction.

Sec. 2269.367. PERFORMANCE OR PAYMENT BOND. (a) A performance or payment bond is not required for the portion of a design-build contract under this section that includes design services only.

(b) If a fixed contract amount or guaranteed maximum price has not been determined at the time a design-build contract is awarded, the penal sums of the performance and payment bonds delivered to the governmental entity must each be in an amount equal to the construction budget, if commercially available and practical, as specified in the design criteria package.

(c) If the governmental entity awards a design-build contract under Section 2269.362, the design-build firm shall deliver the bonds not later than the 10th day after the date the design-build firm executes the contract unless the design-build firm furnishes a bid bond or other financial security acceptable to the governmental entity to ensure that the design-build firm will furnish the required performance and payment bonds before the commencement of construction.
