#### **SUBCHAPTER D. EXTRACURRICULAR ACTIVITIES**

Sec. 33.081. EXTRACURRICULAR ACTIVITIES. (a) The State Board of Education by rule shall limit participation in and practice for extracurricular activities during the school day and the school week. The rules must, to the extent possible, preserve the school day for academic activities without interruption for extracurricular activities. In scheduling those activities and practices, a school district must comply with the rules of the board.

(b) A student enrolled in a school district in this state or who participates in an extracurricular activity or a University Interscholastic League competition is subject to school district policy and University Interscholastic League rules regarding participation only when the student is under the direct supervision of an employee of the school or district in which the student is enrolled or at any other time specified by resolution of the board of trustees of the district.

(c) A student who is enrolled in a school district in this state or who participates in a University Interscholastic League competition shall be suspended from participation in any extracurricular activity sponsored or sanctioned by the school district or the University Interscholastic League after a grade evaluation period in which the student received a grade lower than the equivalent of 70 on a scale of 100 in any academic class other than a course described by Subsection (d-1). A suspension continues for at least three school weeks and is not removed during the school year until the conditions of Subsection (d) are met. A suspension does not last beyond the end of a school year. For purposes of this subsection, "grade evaluation period" means:

- (1) the six-week grade reporting period; or
- (2) the first six weeks of a semester and each grade reporting period thereafter, in the case of a district with a grade reporting period longer than six weeks.

(d) Until the suspension is removed under this subsection or the school year ends, a school district shall review the grades of a

student suspended under Subsection (c) at the end of each three-week period following the date on which the suspension began. At the time of a review, the suspension is removed if the student's grade in each class, other than a course described by Subsection (d-1), is equal to or greater than the equivalent of 70 on a scale of 100. The principal and each of the student's teachers shall make the determination concerning the student's grades.

(d-1) Subsections (c) and (d) do not apply to an advanced placement or international baccalaureate course, or to an honors or dual credit course in the subject areas of English language arts, mathematics, science, social studies, economics, or a language other than English. The agency shall review on a biennial basis courses described by this subsection to determine if other courses should be excluded from the requirement that a student be suspended from participation in an extracurricular activity under Subsection (c). Not later than January 1 of each odd-numbered year, the agency shall report the findings under this subsection to the legislature.

(e) Suspension of a student with a disability that significantly interferes with the student's ability to meet regular academic standards must be based on the student's failure to meet the requirements of the student's individualized education program. The determination of whether a disability significantly interferes with a student's ability to meet regular academic standards must be made by the student's admission, review, and dismissal committee. For purposes of this subsection, "student with a disability" means a student who is eligible for a district's special education program under Section 29.003(b).

(e-1) A student who is enrolled in a school district in this state or who participates in a University Interscholastic League competition shall be prohibited from participation in any future extracurricular activity sponsored or sanctioned by the school district or the University Interscholastic League if the state executive committee of the league determines that the student intentionally, knowingly, or recklessly causes bodily injury to a person serving as referee, judge, or other official of an extracurricular activity in retaliation for or as a result of the person's actions taken in performing the duties of a referee, judge, or other official of the extracurricular activity.

(e-2) A student prohibited from participation in an extracurricular activity under Subsection (e-1) may submit to the

University Interscholastic League a request that the student be permitted to participate in future extracurricular activities sponsored or sanctioned by the University Interscholastic League if:

(1) the request is submitted at least:

(A) one year after the date the student engaged in the conduct that resulted in the prohibition under Subsection (e-1) if the student was enrolled in eighth grade or below at the time of the conduct; or

(B) two years after the date the student engaged in the conduct that resulted in the prohibition under Subsection (e-1) if the student was enrolled in ninth grade or above at the time of the conduct;

(2) the student:

(A) completed a course in anger management since engaging in the conduct that resulted in the prohibition under Subsection (e-1);

(B) completed any other course, activity, or action required by the school district in which the student is enrolled as a result of the conduct that resulted in the prohibition under Subsection (e-1); and

(C) demonstrates, to the satisfaction of the school district and the University Interscholastic League, that the student has been rehabilitated and is unlikely to again engage in the conduct described by Subsection (e-1); and

(3) a previous request submitted by the student under this section has not been denied during the school year in which the request is submitted.

(e-3) When determining whether to grant a request under Subsection (e-2), the University Interscholastic League:

(1) shall take into account the severity of the conduct that resulted in the prohibition under Subsection (e-1); and

(2) may set conditions for the student's future participation in extracurricular activities.

(e-4) The University Interscholastic League may prohibit a student from participating in any future extracurricular activity sponsored or sanctioned by the University Interscholastic League if the student violates a condition set by the University Interscholastic League under Subsection (e-3)(2).

(f) Except for a student prohibited from participation under Subsection (e-1), a student suspended under this section may practice

or rehearse with other students for an extracurricular activity but may not participate in a competition or other public performance.

(f-1) A school district shall prohibit a spectator of an extracurricular athletic activity or competition, including a parent or guardian of a student participant, from attending any future extracurricular athletic activity or competition sponsored or sanctioned by the school district or the University Interscholastic League if the spectator engages in conduct that intentionally, knowingly, or recklessly causes bodily injury to a person serving as referee, judge, or other official of an extracurricular athletic activity or competition in retaliation for or as a result of the person's actions taken in performing the duties of a referee, judge, or other official of the extracurricular athletic activity or competition.

(f-2) A school district may establish an appeals process by which:

(1) a person may appeal to the district a prohibition imposed under Subsection (f-1); and

(2) the district may determine the facts associated with the conduct for which the school district imposed a prohibition under Subsection (f-1).

(f-3) A prohibition imposed under Subsection (f-1) must be for not less than one year after the date on which the prohibition is imposed but may not exceed five years from the date on which the prohibition is imposed.

(g) An appeal to the commissioner is not a contested case under Chapter 2001, Government Code, if the issues presented relate to a person's eligibility to participate in or attend an extracurricular activity, including issues related to a student's grades, the school district's grading policy as applied to a student's eligibility, a student's eligibility based on conduct described by Subsection (e-1), or a spectator's eligibility to attend an extracurricular athletic activity or competition under Subsection (f-1). The commissioner may delegate the matter for decision to a person the commissioner designates. The decision of the commissioner or the commissioner's designee in a matter governed by this subsection may not be appealed except on the grounds that the decision is arbitrary or capricious. Evidence may not be introduced on appeal other than the record of the evidence before the commissioner.

(h) A request made under Subsection (e-2) is not a contested

case subject to Chapter 2001, Government Code.

(a) Notwithstanding Section 33.081(a), the board of trustees of a school district may adopt a policy establishing the number of times a student who is otherwise eligible to participate in an extracurricular activity under Section 33.081 may be absent from class to participate in an extracurricular activity sponsored or sanctioned by the district or the University Interscholastic League or by an organization sanctioned by resolution of the board of trustees of the district.

(b) A policy adopted by the board of trustees of a district under this section:

(1) prevails over a conflicting policy adopted under Section 33.081(a); and

(2) must permit a student to be absent from class at least 10 times during the school year.

(2) if the primary administration of the assessment

instruments is completed before Thursday of the school week, beginning on Monday and ending on the last school day on which the assessment instruments are administered.

(b) The commissioner shall determine the school week during the school year in which the primary administration of assessment instruments occurs for purposes of Subsection (a).

(c) The commissioner shall adopt rules to provide the University Interscholastic League with a periodic calendar of dates reserved for testing for planning purposes under this section. The periodic calendar must be provided at least every three years on or before May 1 of the year preceding the three-year cycle of reserved testing dates.

(d) In adopting rules under this section, the commissioner shall:

(1) include a procedure for changing, in exceptional circumstances, testing dates reserved under the periodic calendar;

(2) define circumstances that constitute exceptional circumstances under Subdivision (1) as unforeseen events, including a natural disaster, severe weather, fire, explosion, or similar circumstances beyond the control of school districts or the agency; and

(3) establish criteria for determining whether a University Interscholastic League area, regional, or state competition must be canceled if that event conflicts with a changed testing date.

(e) This section does not apply to testing dates on which assessment instruments are administered only to students retaking assessment instruments.

Added by Acts 2005, 79th Leg., Ch. 812 (S.B. [658](#)), Sec. 1, eff. June 17, 2005.

(a) An extracurricular activity sponsored or sanctioned by a school district, including an athletic event or an athletic team practice, may not take place at an athletic club located in the United States that denies any person full and equal enjoyment of equipment or facilities provided by the athletic club because of the race, color, religion, creed, national origin, or sex of the person.

(b) In this section, "athletic club" means an entity that provides sports or exercise equipment or facilities to its customers or members or to the guests of its customers or members.

The funds belonging to the University Interscholastic League shall be deposited with The University of Texas at Austin for the benefit of the league and shall be subject to audits by The University of Texas at Austin, The University of Texas System, and the state auditor. Copies of annual audits shall be furnished, on request, to members of the legislature.

(c) The State Board of Education may seek an injunction to enforce this section.

(d) The University Interscholastic League shall file annually with the governor and the presiding officer of each house of the legislature a complete and detailed written report accounting for all funds received and disbursed by the University Interscholastic League during the preceding fiscal year. Sec. 33.0831. UNIVERSITY INTERSCHOLASTIC LEAGUE RULES: FISCAL IMPACT STATEMENT. (a) The legislative council of the University Interscholastic League may not take final action on a new or amended

rule that would result in additional costs for a member school unless a fiscal impact statement regarding the rule has been completed in accordance with this section.

(b) For purposes of Subsection (a), final action by the legislative council means:

(1) submitting a rule to school superintendents, if the submission is required under the legislative council's procedures; or

(2) submitting a rule approved by the council to the commissioner for the commissioner's approval under Section 33.083(b), if the rule does not require submission to school superintendents under the legislative council's procedures.

(c) A fiscal impact statement regarding a rule must include:

(1) a projection of the costs to member schools of complying with the rule during the five-year period following the effective date of the rule; and

(2) an explanation of the methodology used to analyze the fiscal impact of the rule and determine the costs projection required by Subdivision (1).

(d) If a fiscal impact statement is prepared for a rule, a copy of the statement must be attached to the rule when it is submitted for approval to school superintendents, if applicable, and when it is submitted to the commissioner for approval.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see S.B. [401](#), 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 33.0832. EQUAL OPPORTUNITY FOR CERTAIN STUDENTS TO PARTICIPATE IN UNIVERSITY INTERSCHOLASTIC LEAGUE ACTIVITIES. (a) In this section:

(1) "League" means the University Interscholastic League.

(2) "Non-enrolled student" means a student who receives instruction as described by Section 29.916(a)(1) from a nonpublic school.

(b) Nothing in this section may be construed to affect the holding in *Texas Educ. Agency v. Leeper*, 893 S.W.2d 432 (Tex. 1994), classifying home schools as private schools. The legislature finds

that a home school is a private school for purposes of this section.

(c) Except as provided by Subsection (i), a public school that participates in an activity sponsored by the league may provide a non-enrolled student, who otherwise meets league eligibility standards to represent that school in a league activity, with the opportunity to participate in the activity on behalf of the school in the same manner that the school provides the opportunity to participate to students enrolled in the school.

(c-1) When assigning league classification to a public school based on student enrollment, the league must use the same student enrollment calculation formula for a school that allows a non-enrolled student to participate in a league activity as provided by Subsection (c) as the formula used to determine the student enrollment of a school that does not allow a non-enrolled student to participate in the league activity.

(d) A non-enrolled student who seeks to participate or participates in a league activity on behalf of a school is subject to the following relevant policies that apply to students enrolled in the school:

- (1) registration for league activities;
- (2) age eligibility;
- (3) fees;
- (4) insurance;
- (5) transportation;
- (6) physical condition;
- (7) qualifications;
- (8) responsibilities;
- (9) event schedules;
- (10) standards of behavior; and
- (11) performance.

(e) A non-enrolled student may only participate in a league activity for the school in the school district that the student would be eligible to attend based on the student's residential address. A non-enrolled student who seeks to participate in a league activity on behalf of a school shall be required to establish minimum proof of residency acceptable to the district in the same manner as an applicant to attend a school in the district under Section 25.001.

(f) The parent or person standing in parental relation to a non-enrolled student is responsible for oversight of academic standards relating to the student's participation in a league

activity. As a condition of eligibility to participate in a league activity during the first six weeks of a school year, a non-enrolled student must demonstrate grade-level academic proficiency on any nationally recognized, norm-referenced assessment instrument, such as the Iowa Test of Basic Skills, Stanford Achievement Test, California Achievement Test, or Comprehensive Test of Basic Skills. A non-enrolled student demonstrates the required academic proficiency by achieving a composite, core, or survey score that is within the average or higher than average range of scores, as established by the applicable testing service. For purposes of this subsection, a school district shall accept assessment results administered or reported by a third party.

(g) A non-enrolled student's demonstration of academic proficiency under Subsection (f) is sufficient for purposes of that subsection for the school year in which the student achieves the required score and the subsequent school year.

(h) After the first six weeks of a school year, the parent or person standing in parental relation to a non-enrolled student participating in a league activity on behalf of a public school must periodically, in accordance with the school's grading calendar, provide written verification to the school indicating that the student is receiving a passing grade in each course or subject being taught.

(i) A non-enrolled student is not authorized by this section to participate in a league activity during the remainder of any school year during which the student was previously enrolled in a public school.

(j) The league may not prohibit a non-enrolled student from participating in league activities in the manner authorized by this section.

(k) With respect to a non-enrolled student's education program, nothing in this section shall be construed to permit an agency of this state, a public school district, or any other governmental body to exercise control, regulatory authority, or supervision over a non-enrolled student or a parent or person standing in parental relation to a non-enrolled student beyond the control, regulatory authority, or supervision required to participate in a league activity.

(l) Subject only to eligibility requirements under this section for a non-enrolled student to participate in a league activity:

(1) the curriculum or assessment requirements, performance

standards, practices, or creed of the education program provided to a non-enrolled student may not be required to be changed in order for the non-enrolled student to participate in a league activity; and

(2) for a non-enrolled student participating in an education program on January 1, 2021, the education program provided to that student may not be required to comply with any state law or agency rule relating to that education program unless the law or rule was in effect on January 1, 2021.

(m) Notwithstanding any other law, a non-enrolled student who participates in a league activity under this section is subject to the immunization requirements and exceptions of Section 38.001 in the same manner as a public school student.

Sec. 33.0833. PARTICIPATION IN UNIVERSITY INTERSCHOLASTIC LEAGUE ACTIVITIES BY STUDENTS RECEIVING OUTPATIENT MENTAL HEALTH SERVICES. (a) This section applies to a student who:

(1) receives outpatient mental health services from a mental health facility, as defined by Section 571.003, Health and Safety Code; and

(2) is enrolled in a school district or open-enrollment charter school or otherwise receives public education services from a district or school.

(b) The University Interscholastic League shall ensure that league rules do not exclude from eligibility for participation in a league activity a student to whom this section applies based solely on the criteria described in Subsection (a)(1).

(c) A school district or open-enrollment charter school may not adopt or enforce policies that restrict participation in University Interscholastic League activities by a student to whom this section applies based solely on:

(1) the criteria described in Subsection (a)(1); or

(2) the student's absence during instructional time while receiving outpatient mental health services as described by

Subsection (a)(1).

(d) This section does not exempt a student to whom this section applies from any eligibility requirement for participation in University Interscholastic League activities other than an eligibility requirement based solely on the criteria described in Subsection (a)(1).

Sec. 33.0834. INTERSCHOLASTIC ATHLETIC COMPETITION BASED ON BIOLOGICAL SEX. (a) Except as provided by Subsection (b), an interscholastic athletic team sponsored or authorized by a school district or open-enrollment charter school may not allow a student to compete in an interscholastic athletic competition sponsored or authorized by the district or school that is designated for the biological sex opposite to the student's biological sex as correctly stated on:

(1) the student's official birth certificate, as described by Subsection (c); or

(2) if the student's official birth certificate described by Subdivision (1) is unobtainable, another government record.

(b) An interscholastic athletic team described by Subsection (a) may allow a female student to compete in an interscholastic athletic competition that is designated for male students if a corresponding interscholastic athletic competition designated for female students is not offered or available.

(c) For purposes of this section, a statement of a student's biological sex on the student's official birth certificate is considered to have correctly stated the student's biological sex only if the statement was:

(1) entered at or near the time of the student's birth; or

(2) modified to correct any type of scrivener or clerical error in the student's biological sex.

(d) The University Interscholastic League shall adopt rules to implement this section, provided that the rules must be approved by

the commissioner in accordance with Section 33.083(b). The rules must ensure compliance with state and federal law regarding the confidentiality of student medical information, including Chapter 181, Health and Safety Code, and the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. Section 1320d et seq.).

Added by Acts 2021, 87th Leg., 3rd C.S., Ch. 2 (H.B. 25), Sec. 3, eff. January 18, 2022.

(5) two public school board members appointed by the commissioner; and

(6) three members of the public appointed by the commissioner.

(b) A member of the advisory council serves at the will of the member's appointing authority.

(c) In appointing public members to the advisory council, the commissioner shall give special consideration to students, parents of students, and teachers.

(d) The advisory council shall select a chair from among its members and shall meet at the call of the chair.

(e) The advisory council shall review the rules of the University Interscholastic League and shall make recommendations relating to the rules to the governor, the legislature, the legislative council of the University Interscholastic League, and the State Board of Education.

(f) A member of the advisory council may not receive compensation but is entitled to reimbursement from the University Interscholastic League for transportation expenses and the per diem

allowance for state employees in accordance with the General Appropriations Act.

(g) The advisory council shall study:

- (1) University Interscholastic League policy with respect to the eligibility of students to participate in programs;
- (2) geographic distribution of University Interscholastic League resources and programs; and
- (3) gender equity.

(h) An action of the University Interscholastic League relating to the provision of additional programs of school districts may not be taken pending submission of a final report by the advisory council.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 33.085. AUTHORITY OF UNIVERSITY INTERSCHOLASTIC LEAGUE REGARDING ACTIVITIES INVOLVING SPORTS OFFICIALS. (a) In this section:

(1) "League" means the University Interscholastic League.

(2) "Sports official" means a person who officiates, judges, or in any manner enforces contest rules in any official capacity with respect to and during the course of an interscholastic athletic team competition and who is a member of a league-recognized local chapter or association of sports officials. The term includes a referee, umpire, linesman, judge, or any other person similarly involved in supervising competitive play. The term does not include a league board member or a league official who is acting in an official capacity to supervise, administer, or enforce the league constitution or league contest rules.

(b) The league may require a sports official, as a condition of eligibility to officiate a contest sponsored by the league, to:

- (1) be registered with the league and comply with the registration requirements of Subsections (c) and (c-1);
- (2) have completed initial and continuing education programs regarding league rules;
- (3) be a member in good standing of a local chapter or association of sports officials recognized by the league for that purpose; and
- (4) agree to abide by league rules, including fee schedules

and travel reimbursement guidelines for payment by school districts or open-enrollment charter schools to a sports official.

(c) In registering with the league, a sports official must be required to provide directory information required by the league and undergo an initial criminal background check.

(c-1) To maintain registration with the league, a sports official must:

(1) maintain compliance with conditions of eligibility required by the league under Subsection (b); and

(2) undergo a subsequent criminal background check once every three years following the date of the initial criminal background check under Subsection (c).

(d) The league may not charge a sports official who completes a program under Subsection (b)(2) a fee for more than one program described by Subsection (b)(2).

(e) The league may charge and collect a registration fee only to defray the cost of registering sports officials and shall post the amount of the fee on the league's Internet website and make the information available at other places the league determines appropriate. The amount of the fee may not exceed the amount reasonably determined by the league to be necessary to cover the cost of administering registration.

(f) The league may revoke or suspend the league registration of a sports official determined by the league to have violated the provisions of the league constitution or contest rules governing sports officials or other league policy applicable to sports officials. Before the league may take action to revoke or suspend a sports official's registration, the league shall notify and consult with the local chapter or association of sports officials of which the sports official is a member. The local chapter or association may, on or before the 15th day after the date notice is received from the league, take action to adjudicate the alleged violation. If after the 15th day after the date notice is received from the league the local chapter or association has failed to take action against the sports official or takes action that the league finds to be insufficient, the league may take action against the sports official. The league shall adopt rules to provide a sports official with the opportunity for an appeals process before the league revokes or suspends the sports official's registration. In adopting rules under this subsection, the league shall make a determination of the actions

and subsequent sanctions that would be considered sufficient under this subsection.

(g) The league may not sponsor or organize or attempt to sponsor or organize any association of sports officials in which the majority of the membership is composed of sports officials who officiate team sports.

(h) The league may set rates or fee schedules payable by a school district or open-enrollment charter school to a sports official.

(i) Before the league may take any action that amends rules related to the activities of sports officials, other than an action against an individual sports official under Subsection (f), the league must submit the proposed action for public review and comment, including:

(1) notifying registered sports officials of the proposed action by e-mail not later than the 30th day before the date set for action on the proposal; and

(2) posting the proposal on the league's Internet website for at least 30 consecutive days before the date set for action on the proposal.

(2) "Parent" includes a guardian or other person standing in parental relation.

(3) "Steroid" means an anabolic steroid as described by Section 481.104, Health and Safety Code.

(b) The league shall adopt rules prohibiting a student from participating in an athletic competition sponsored or sanctioned by the league unless:

(1) the student agrees not to use steroids and, if the student is enrolled in high school, the student submits to random testing for the presence of illegal steroids in the student's body, in accordance with the program established under Subsection (d); and

(2) the league obtains from the student's parent a statement signed by the parent and acknowledging that:

(A) the parent's child, if enrolled in high school, may

be subject to random steroid testing;

(B) state law prohibits possessing, dispensing, delivering, or administering a steroid in a manner not allowed by state law;

(C) state law provides that bodybuilding, muscle enhancement, or the increase of muscle bulk or strength through the use of a steroid by a person who is in good health is not a valid medical purpose;

(D) only a licensed practitioner with prescriptive authority may prescribe a steroid for a person; and

(E) a violation of state law concerning steroids is a criminal offense punishable by confinement in jail or imprisonment in the Texas Department of Criminal Justice.

(c) The league shall:

(1) develop an educational program for students engaged in extracurricular athletic activities sponsored or sanctioned by the league, parents of those students, and coaches of those activities regarding the health effects of steroid use; and

(2) make the program available to school districts.

(c-1) A school district shall require that each district employee who serves as an athletic coach at or above the seventh grade level for an extracurricular athletic activity sponsored or sanctioned by the league complete:

(1) the educational program developed by the league under Subsection (c); or

(2) a comparable program developed by the district or a private entity with relevant expertise.

(d) The league shall adopt rules for the annual administration of a steroid testing program under which high school students participating in an athletic competition sponsored or sanctioned by the league are tested at multiple times throughout the year for the presence of steroids in the students' bodies. The testing program must:

(1) require the random testing of a statistically significant number of high school students in this state who participate in athletic competitions sponsored or sanctioned by the league;

(2) provide for the selection of specific students described by Subdivision (1) for testing through a process that randomly selects students from a single pool consisting of all

students who participate in any activity for which the league sponsors or sanctions athletic competitions;

(3) be administered at approximately 30 percent of the high schools in this state that participate in athletic competitions sponsored or sanctioned by the league;

(4) provide for a process for confirming any initial positive test result through a subsequent test conducted as soon as practicable after the initial test, using a sample that was obtained at the same time as the sample used for the initial test;

(5) require the testing to be performed only by an anabolic steroid testing laboratory with a current certification from the Substance Abuse and Mental Health Services Administration of the United States Department of Health and Human Services, the World Anti-Doping Agency, or another appropriate national or international certifying organization; and

(6) provide for a period of ineligibility from participation in an athletic competition sponsored or sanctioned by the league for any student with a confirmed positive test result or any student who refuses to submit to random testing.

(e) Results of a steroid test conducted under Subsection (d) are confidential and, unless required by court order, may be disclosed only to the student and the student's parent and the activity directors, principal, and assistant principals of the school attended by the student.

(f) From funds already appropriated, the agency shall pay the costs of the steroid testing program established under Subsection (d).

(g) The league may increase the membership fees required of school districts that participate in athletic competitions sponsored or sanctioned by the league in an amount necessary to offset the cost of league activities under this section.

(h) Subsection (b)(1) does not apply to the use by a student of a steroid that is dispensed, prescribed, delivered, and administered by a medical practitioner for a valid medical purpose and in the course of professional practice, and a student is not subject to a period of ineligibility under Subsection (d)(6) on the basis of that steroid use.

the agency or other appropriate governmental agency approved by the commissioner may audit a program to ensure compliance with this subsection. A school district shall use state funds awarded under this section to benefit educationally disadvantaged children before using those funds for the care of other children.

The agency shall determine whether those minimum requirements fulfill the aims and policies of this section and shall suspend the payment of funds to any district whose minimum requirements fail to fulfill the aims and policies of this section. Following the request for proposals procurement process, the district may enter into a contract with a child-care facility or implement a before-school or after-school program operated by the district. If the district enters into a contract with a child-care facility, the contract must comply with the requirements of Section 44.031 and may not exceed a term of three years.

(a) As an alternative to purchasing a school bus, a board of county school trustees or school district board of trustees may contract with any person for use, acquisition, or lease with option to purchase of a school bus if the county or school district board determines the contract to be economically advantageous to the county or district. If the contract has been made in accordance with the constitution and laws of the state, the attorney general shall approve the contract, and the comptroller shall register the contract. After the contract has been approved by the attorney general and registered by the comptroller, the validity of the contract is incontestable for any cause. The legal obligations of the lessor, vendor, or supplier of the property to the board are not diminished in any respect by the approval and registration of a contract.

(h) The decision of a board of county school trustees or school district board of trustees to use an alternative form of use, acquisition, or purchase of a school bus does not affect a district's eligibility for participation in the transportation funding provisions of the Foundation School Program or any other state funding program.

## **CHAPTER 35. REGULATION OF CERTAIN LIBRARY MATERIAL**

Sec. 35.001. DEFINITIONS. In this chapter:

- (1) "Library material vendor" includes any entity that sells library material to a public primary or secondary school in this state.
- (2) "Sexually explicit material" has the meaning assigned by Section 33.021.
- (3) "Sexually relevant material" means any communication, language, or material, including a written description, illustration, photographic image, video image, or audio file, other than library material directly related to the curriculum required under Section 28.002(a), that describes, depicts, or portrays sexual conduct, as defined by Section 43.25, Penal Code.

Added by Acts 2023, 88th Leg., R.S., Ch. 808 (H.B. 900), Sec. 3, eff. September 1, 2023.

Sec. 35.002. RATINGS REQUIRED. (a) A library material vendor may not sell library materials to a school district or open-

enrollment charter school unless the vendor has issued appropriate ratings regarding sexually explicit material and sexually relevant material previously sold to a district or school.

(b) A library material vendor may not sell library material rated sexually explicit material and shall issue a recall for all copies of library material sold to a district or school that is:

- (1) rated sexually explicit material; and
- (2) in active use by the district or school.

(c) Not later than April 1, 2024, each library material vendor shall develop and submit to the agency a list of library material rated as sexually explicit material or sexually relevant material sold by the vendor to a school district or open-enrollment charter school before that date and still in active use by the district or school.

(d) Not later than September 1 of each year, each library material vendor shall submit to the agency an updated list of library material rated as sexually explicit material or sexually relevant material sold by the vendor to a school district or open-enrollment charter school during the preceding year and still in active use by the district or school.

(e) The agency shall post each list submitted under Subsection (c) or (d) in a conspicuous place on the agency's Internet website as soon as practicable.

Added by Acts 2023, 88th Leg., R.S., Ch. 808 (H.B. [900](#)), Sec. 3, eff. September 1, 2023.

Sec. 35.0021. RATING GUIDELINES. (a) For purposes of determining whether a library material is sexually explicit as required by Section 35.002, a library material vendor must perform a contextual analysis of the material to determine whether the material describes, depicts, or portrays sexual conduct in a way that is patently offensive.

(b) In performing the contextual analysis of a library material, a library material vendor must consider the following three principal factors with respect to the material:

- (1) the explicitness or graphic nature of a description or depiction of sexual conduct contained in the material;
- (2) whether the material consists predominantly of or

contains multiple repetitions of depictions of sexual or excretory organs or activities; and

(3) whether a reasonable person would find that the material intentionally panders to, titillates, or shocks the reader.

(c) In examining the three factors listed under Subsection (b), a vendor must weigh and balance each factor and conclude whether the library material is patently offensive, recognizing that because each instance of a description, depiction, or portrayal of sexual conduct contained in a material may present a unique mix of factors.

(d) To determine whether a description, depiction, or portrayal of sexual conduct contained in a material is patently offensive, a library material vendor must consider the full context in which the description, depiction, or portrayal of sexual conduct appears, to the extent possible, recognizing that contextual determinations are necessarily highly fact-specific and require the consideration of contextual characteristics that may exacerbate or mitigate the offensiveness of the material.

Added by Acts 2023, 88th Leg., R.S., Ch. 808 (H.B. [900](#)), Sec. 3, eff. September 1, 2023.

Sec. 35.003. AGENCY REVIEW. (a) The agency may review library material sold by a library material vendor that is not rated or incorrectly rated by the vendor as sexually explicit material, sexually relevant material, or no rating in accordance with Section 35.002(a). If the agency determines that the library material is required to be rated as sexually explicit material or sexually relevant material or to receive no rating at all under that subsection, the agency shall provide written notice to the vendor. The notice must include information regarding the vendor's duty under this section and provide the corrected rating required for the library material.

(b) Not later than the 60th day after the date on which a library material vendor receives notice regarding library material under Subsection (a), the vendor shall:

(1) rate the library material according to the agency's corrected rating; and

(2) notify the agency of the action taken under Subdivision (1).

(c) The agency shall post and maintain in a conspicuous place on the agency's Internet website a list of library material vendors who fail to comply with Subsection (b).

(d) A school district or open-enrollment charter school may not purchase library material from a library material vendor on the list described by Subsection (c).

(e) A library material vendor placed on the list described by Subsection (c) may petition the agency for removal from the list. The agency may remove a vendor from the list only if the agency is satisfied that the vendor has taken appropriate action under Subsection (b).

Added by Acts 2023, 88th Leg., R.S., Ch. 808 (H.B. 900), Sec. 3, eff. September 1, 2023.

Sec. 35.004. LIABILITY. A school district or open-enrollment charter school or a teacher, librarian, or other staff member employed by a district or school is not liable for any claim or damage resulting from a library material vendor's violation of this chapter.

Added by Acts 2023, 88th Leg., R.S., Ch. 808 (H.B. 900), Sec. 3, eff. September 1, 2023.

Sec. 35.005. PARENTAL CONSENT REQUIRED FOR USE OF CERTAIN LIBRARY MATERIALS. A school district or open-enrollment charter school may not allow a student enrolled in the district or school to reserve, check out, or otherwise use outside the school library library material the library material vendor has rated as sexually relevant material under Section 35.002(a) unless the district or school first obtains written consent from the student's parent or person standing in parental relation.

Added by Acts 2023, 88th Leg., R.S., Ch. 808 (H.B. 900), Sec. 3, eff. September 1, 2023.

Sec. 35.006. REVIEW AND REPORTING OF CERTAIN LIBRARY MATERIALS.  
(a) Not later than January 1 of every odd-numbered year, each school

district and open-enrollment charter school shall:

(1) review the content of each library material in the catalog of a district or school library that is rated as sexually relevant material under Section 35.002(a) by the library material vendor;

Sec. 37.0012. DESIGNATION OF CAMPUS BEHAVIOR COORDINATOR. (a) A person at each campus must be designated to serve as the campus behavior coordinator. The person designated may be the principal of the campus or any other campus administrator selected by the principal.

(b) The campus behavior coordinator is primarily responsible

for maintaining student discipline and the implementation of this subchapter.

(c) Except as provided by this chapter, the specific duties of the campus behavior coordinator may be established by campus or district policy. Unless otherwise provided by campus or district policy:

(2) a power granted to a campus principal or other campus administrator under this subchapter may be exercised by the campus behavior coordinator.

(d) The campus behavior coordinator shall promptly notify a student's parent or guardian as provided by this subsection if under this subchapter the student is placed into in-school or out-of-school suspension, placed in a disciplinary alternative education program, expelled, or placed in a juvenile justice alternative education program or is taken into custody by a law enforcement officer. A campus behavior coordinator must comply with this subsection by:

The program must:

- (1) be age-appropriate and research-based;
- (2) provide models for positive behavior;
- (3) promote a positive school environment;
- (4) provide alternative disciplinary courses of action that do not rely on the use of in-school suspension, out-of-school suspension, or placement in a disciplinary alternative education program to manage student behavior; and
- (5) provide behavior management strategies, including:
  - (A) positive behavioral intervention and support;
  - (B) trauma-informed practices;
  - (C) social and emotional learning;
  - (D) a referral for services, as necessary; and

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. 2 and H.B. 6, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 37.002. REMOVAL BY TEACHER. (a) A teacher may send a student to the campus behavior coordinator's office to maintain effective discipline in the classroom. The campus behavior coordinator shall respond by employing appropriate discipline management techniques consistent with the student code of conduct adopted under Section 37.001 that can reasonably be expected to improve the student's behavior before returning the student to the classroom. If the student's behavior does not improve, the campus behavior coordinator shall employ alternative discipline management

techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct.

(b) A teacher may remove from class a student:

(1) who has been documented by the teacher to repeatedly interfere with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn; or

(2) whose behavior the teacher determines is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn.

(b-1) A teacher may document any conduct by a student that does not conform to the student code of conduct adopted under Section 37.001 and may submit that documentation to the principal. A school district may not discipline a teacher on the basis of documentation submitted under this subsection.

(c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.

(d) A teacher shall remove from class and send to the principal for placement in a disciplinary alternative education program or for expulsion, as appropriate, a student who engages in conduct described under Section 37.006 or 37.007. The student may not be returned to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. If the teacher removed the student from class because the student has engaged in the elements of any offense listed in Section 37.006(a)(2)(B) or Section 37.007(a)(2)(A) or (b)(2)(C) against the teacher, the student may not be returned to the teacher's class without the teacher's consent. The teacher may not be coerced to consent.

(e) A student who is sent to the campus behavior coordinator's

or other administrator's office under Subsection (a) or removed from class under Subsection (b) is not considered to have been removed from the classroom for the purposes of reporting data through the Public Education Information Management System (PEIMS) or other similar reports required by state or federal law.

(a) It is the policy of this state to treat with dignity and respect all students, including students with disabilities who receive special education services under Subchapter A, Chapter 29. A student with a disability who receives special education services under Subchapter A, Chapter 29, may not be confined in a locked box, locked closet, or other specially designed locked space as either a discipline management practice or a behavior management technique.

control, the student is separated from other students for a limited period in a setting:

(A) that is not locked; and

(B) from which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.

(4) "Law enforcement duties" means activities of a peace officer relating to the investigation and enforcement of state criminal laws and other duties authorized by the Code of Criminal Procedure.

(5) "Taser" means a device manufactured, sold, or distributed by Taser International, Incorporated, that is intended, designed, made, or adapted to incapacitate a person by inflicting an electrical charge through the emission of a projectile or conductive stream. The term, for purposes of this section, includes a similar device manufactured, sold, or distributed by another person.

(c) A school district employee or volunteer or an independent contractor of a district may not place a student in seclusion. This subsection does not apply to the use of seclusion in a court-ordered placement, other than a placement in an educational program of a school district, or in a placement or facility to which the following law, rules, or regulations apply:

(1) the Children's Health Act of 2000, Pub. L. No. 106-310, any subsequent amendments to that Act, any regulations adopted under that Act, or any subsequent amendments to those regulations;

(2) 40 T.A.C. Sections 720.1001-720.1013; or

(3) 25 T.A.C. Section 412.308(e).

(d) Subject to Subsection (j), the commissioner by rule shall adopt procedures for the use of restraint and time-out by a school district employee or volunteer or an independent contractor of a district in the case of a student with a disability receiving special education services under Subchapter A, Chapter 29. A procedure adopted under this subsection must:

(1) be consistent with:

(A) professionally accepted practices and standards of student discipline and techniques for behavior management; and

(B) relevant health and safety standards;

(2) identify any discipline management practice or behavior management technique that requires a district employee or volunteer or an independent contractor of a district to be trained before using

that practice or technique; and

(A) provide written notification to the student's parent or person standing in parental relation to the student for each use of restraint that includes:

(i) the name of the student;  
(ii) the name of the district employee or volunteer or independent contractor of the district who administered the restraint;

(iii) the date of the restraint;  
(iv) the time that the restraint started and ended;

(viii) the behavior of the student that prompted the restraint;

(ix) any efforts made to de-escalate the situation and any alternatives to restraint that were attempted;

(x) if the student has a behavior improvement plan or a behavioral intervention plan, whether the plan may need to be revised as a result of the behavior that led to the restraint; and

(xi) if the student does not have a behavior improvement plan or a behavioral intervention plan, information on the procedure for the student's parent or person standing in parental relation to the student to request an admission, review, and dismissal committee meeting to discuss the possibility of conducting a functional behavioral assessment of the student and developing a plan for the student;

(B) include in a student's special education eligibility school records:

(i) a copy of the written notification provided to the student's parent or person standing in parental relation to the student under Paragraph (A);

(ii) information on the method by which the written notification was sent to the parent or person; and

(iii) the contact information for the parent or person to whom the district sent the notification; and

(C) if the student has a behavior improvement plan or behavioral intervention plan, document each use of time-out prompted

by a behavior of the student specified in the student's plan, including a description of the behavior that prompted the time-out.

(e) In the case of a conflict between a rule adopted under Subsection (d) and a rule adopted under Subchapter A, Chapter 29, the rule adopted under Subsection (d) controls.

(f) For purposes of this subsection, "weapon" includes any weapon described under Section 37.007(a)(1). This section does not prevent a student's locked, unattended confinement in an emergency situation while awaiting the arrival of law enforcement personnel if:

- (1) the student possesses a weapon; and
- (2) the confinement is necessary to prevent the student from causing bodily harm to the student or another person.

(g) This section and any rules or procedures adopted under this section do not apply to:

- (1) a peace officer performing law enforcement duties, except as provided by Subsection (i);
- (2) juvenile probation, detention, or corrections personnel; or
- (3) an educational services provider with whom a student is placed by a judicial authority, unless the services are provided in an educational program of a school district.

- (1) is employed or commissioned by a school district; or
- (2) provides, as a school resource officer, a regular police presence on a school district campus under a memorandum of understanding between the district and a local law enforcement agency.

(i) A school district shall report electronically to the agency, in accordance with standards provided by commissioner rule, information relating to the use of restraint by a peace officer performing law enforcement duties on school property or during a school-sponsored or school-related activity. A report submitted under this subsection must be consistent with the requirements adopted by commissioner rule for reporting the use of restraint involving students with disabilities.

(j) A peace officer performing law enforcement duties or school security personnel performing security-related duties on school property or at a school-sponsored or school-related activity may not restrain or use a chemical irritant spray or Taser on a student

enrolled in fifth grade or below unless the student poses a serious risk of harm to the student or another person.

(7) impairs the student's breathing, including any procedure that involves:

(A) applying pressure to the student's torso or neck;  
or

(B) obstructing the student's airway, including placing an object in, on, or over the student's mouth or nose or placing a bag, cover, or mask over the student's face;

(10) inhibits, reduces, or hinders the student's ability to communicate;

(11) involves the use of a chemical restraint;

(12) constitutes a use of timeout that precludes the student from being able to be involved in and progress appropriately in the required curriculum and, if applicable, toward the annual goals included in the student's individualized education program, including isolating the student by the use of physical barriers; or

(13) except as provided by Subsection (c), deprives the student of the use of one or more of the student's senses.

(b) A school district or school district employee or volunteer or an independent contractor of a school district may not apply an

aversive technique, or by authorization, order, or consent, cause an aversive technique to be applied, to a student.

Sec. 37.008. DISCIPLINARY ALTERNATIVE EDUCATION PROGRAMS. (a) Each school district shall provide a disciplinary alternative education program that:

- (1) is provided in a setting other than a student's regular classroom;
- (2) is located on or off of a regular school campus;
- (3) provides for the students who are assigned to the disciplinary alternative education program to be separated from students who are not assigned to the program;
- (4) focuses on English language arts, mathematics, science, history, and self-discipline;
- (5) provides for students' educational and behavioral needs;
- (6) provides supervision and counseling; and
- (7) employs only teachers who meet all certification requirements established under Subchapter B, Chapter 21.

(a-1) The agency shall adopt minimum standards for the operation of disciplinary alternative education programs, including standards relating to:

- (1) student/teacher ratios;
- (2) student health and safety;

(3) reporting of abuse, neglect, or exploitation of students;

(4) training for teachers in behavior management and safety procedures; and

(5) planning for a student's transition from a disciplinary alternative education program to a regular campus.

(b) A disciplinary alternative education program may provide for a student's transfer to:

(1) a different campus;

(2) a school-community guidance center; or

(3) a community-based alternative school.

(c) An off-campus disciplinary alternative education program is not subject to a requirement imposed by this title, other than a limitation on liability, a reporting requirement, or a requirement imposed by this chapter or by Chapter 39 or 39A.

(d) A school district may provide a disciplinary alternative education program jointly with one or more other districts.

(e) Each school district shall cooperate with government agencies and community organizations that provide services in the district to students placed in a disciplinary alternative education program.

(f) A student removed to a disciplinary alternative education program is counted in computing the average daily attendance of students in the district for the student's time in actual attendance in the program.

(g) A school district shall allocate to a disciplinary alternative education program the same expenditure per student attending the disciplinary alternative education program, including federal, state, and local funds, that would be allocated to the student's school if the student were attending the student's regularly assigned education program, including a special education program.

(h) A school district may not place a student, other than a student suspended as provided under Section 37.005 or expelled as provided under Section 37.007, in an unsupervised setting as a result of conduct for which a student may be placed in a disciplinary alternative education program.

(i) On request of a school district, a regional education service center may provide to the district information on developing a disciplinary alternative education program that takes into

consideration the district's size, wealth, and existing facilities in determining the program best suited to the district.

(j) If a student placed in a disciplinary alternative education program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls shall inform each educator who will have responsibility for, or will be under the direction and supervision of an educator who will have responsibility for, the instruction of the student of the contents of the placement order. Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The district in which the student enrolls may continue the disciplinary alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement. A district may take any action permitted by this subsection if:

(1) the student was placed in a disciplinary alternative education program by an open-enrollment charter school under Section 12.131 and the charter school provides to the district a copy of the placement order; or

(2) the student was placed in a disciplinary alternative education program by a school district in another state and:

(A) the out-of-state district provides to the district a copy of the placement order; and

(B) the grounds for the placement by the out-of-state district are grounds for placement in the district in which the student is enrolling.

(j-1) If a student was placed in a disciplinary alternative education program by a school district in another state for a period that exceeds one year and a school district in this state in which the student enrolls continues the placement under Subsection (j), the district shall reduce the period of the placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students

or to district employees; or

(2) extended placement is in the best interest of the student.

(k) A program of educational and support services may be provided to a student and the student's parents when the offense involves drugs, e-cigarettes, or alcohol as specified under Section 37.006 or 37.007. A disciplinary alternative education program that provides chemical dependency treatment services must be licensed under Chapter 464, Health and Safety Code.

(l) A school district is required to provide in the district's disciplinary alternative education program a course necessary to fulfill a student's high school graduation requirements only as provided by this subsection. A school district shall offer a student removed to a disciplinary alternative education program an opportunity to complete coursework before the beginning of the next school year. The school district may provide the student an opportunity to complete coursework through any method available, including a correspondence course, distance learning, or summer school. The district may not charge the student for a course provided under this subsection.

(l-1) A school district shall provide the parents of a student removed to a disciplinary alternative education program with written notice of the district's obligation under Subsection (l) to provide the student with an opportunity to complete coursework required for graduation. The notice must:

(1) include information regarding all methods available for completing the coursework; and

(2) state that the methods are available at no cost to the student.

(m) The commissioner shall adopt rules necessary to evaluate annually the performance of each district's disciplinary alternative education program established under this subchapter. The evaluation required by this section shall be based on indicators defined by the commissioner, but must include student performance on assessment instruments required under Sections 39.023(a) and (c). Academically, the mission of disciplinary alternative education programs shall be to enable students to perform at grade level.

(m-1) The commissioner shall develop a process for evaluating a school district disciplinary alternative education program electronically. The commissioner shall also develop a system and

standards for review of the evaluation or use systems already available at the agency. The system must be designed to identify districts that are at high risk of having inaccurate disciplinary alternative education program data or of failing to comply with disciplinary alternative education program requirements. The commissioner shall notify the board of trustees of a district of any objection the commissioner has to the district's disciplinary alternative education program data or of a violation of a law or rule revealed by the data, including any violation of disciplinary alternative education program requirements, or of any recommendation by the commissioner concerning the data. If the data reflect that a penal law has been violated, the commissioner shall notify the county attorney, district attorney, or criminal district attorney, as appropriate, and the attorney general. The commissioner is entitled to access to all district records the commissioner considers necessary or appropriate for the review, analysis, or approval of disciplinary alternative education program data.

Sec. 37.0081. EXPULSION AND PLACEMENT OF CERTAIN STUDENTS IN

ALTERNATIVE SETTINGS. (a) Subject to Subsection (h), but notwithstanding any other provision of this subchapter, the board of trustees of a school district, or the board's designee, after an opportunity for a hearing may expel a student and elect to place the student in an alternative setting as provided by Subsection (a-1) if:

(1) the student:

(A) has received deferred prosecution under Section 53.03, Family Code, for conduct defined as:

(i) a felony offense in Title 5, Penal Code; or  
(ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

(B) has been found by a court or jury to have engaged in delinquent conduct under Section 54.03, Family Code, for conduct defined as:

(i) a felony offense in Title 5, Penal Code; or  
(ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

(C) is charged with engaging in conduct defined as:

(i) a felony offense in Title 5, Penal Code; or  
(ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

(D) has been referred to a juvenile court for allegedly engaging in delinquent conduct under Section 54.03, Family Code, for conduct defined as:

(i) a felony offense in Title 5, Penal Code; or  
(ii) the felony offense of aggravated robbery under Section 29.03, Penal Code;

(E) has received probation or deferred adjudication for a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code;

(F) has been convicted of a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; or

(G) has been arrested for or charged with a felony offense under Title 5, Penal Code, or the felony offense of aggravated robbery under Section 29.03, Penal Code; and

(2) the board or the board's designee determines that the student's presence in the regular classroom:

(A) threatens the safety of other students or teachers;

(B) will be detrimental to the educational process; or

(C) is not in the best interests of the district's students.

(a-1) The student must be placed in:

(1) a juvenile justice alternative education program, if the school district is located in a county that operates a juvenile justice alternative education program or the school district contracts with the juvenile board of another county for the provision of a juvenile justice alternative education program; or

(2) a disciplinary alternative education program.

(b) Any decision of the board of trustees or the board's designee under this section is final and may not be appealed.

(c) The board of trustees or the board's designee may expel the student and order placement in accordance with this section regardless of:

(1) the date on which the student's conduct occurred;

(2) the location at which the conduct occurred;

(3) whether the conduct occurred while the student was enrolled in the district; or

(4) whether the student has successfully completed any court disposition requirements imposed in connection with the conduct.

(d) Notwithstanding Section 37.009(c) or (d) or any other provision of this subchapter, a student expelled and ordered placed in an alternative setting by the board of trustees or the board's designee is subject to that placement until:

(1) the student graduates from high school;

(2) the charges described by Subsection (a)(1) are dismissed or reduced to a misdemeanor offense; or

(3) the student completes the term of the placement or is assigned to another program.

(e) A student placed in an alternative setting in accordance with this section is entitled to the periodic review prescribed by Section 37.009(e).

(f) Subsection (d) continues to apply to the student if the student transfers to another school district in the state.

(g) The board of trustees shall reimburse a juvenile justice alternative education program in which a student is placed under this section for the actual cost incurred each day for the student while the student is enrolled in the program. For purposes of this subsection:

(1) the actual cost incurred each day for the student is determined by the juvenile board of the county operating the program; and

(2) the juvenile board shall determine the actual cost each day of the program based on the board's annual audit.

(h) To the extent of a conflict between this section and Section 37.007, Section 37.007 prevails.

Sec. 37.0082. ASSESSMENT OF ACADEMIC GROWTH OF STUDENTS IN DISCIPLINARY ALTERNATIVE EDUCATION PROGRAMS. (a) To assess a student's academic growth during placement in a disciplinary alternative education program, a school district shall administer to a student placed in a program for a period of 90 school days or longer an assessment instrument approved by the commissioner for that purpose. The instrument shall be administered:

(1) initially on placement of the student in the program; and

(2) subsequently on the date of the student's departure from the program, or as near that date as possible.

(b) The assessment instrument required by this section:

(1) must be designed to assess at least a student's basic skills in reading and mathematics;

(2) may be:

(A) comparable to any assessment instrument generally administered to students placed in juvenile justice alternative education programs for a similar purpose; or

(B) based on an appropriate alternative assessment instrument developed by the agency to measure student academic growth; and

(3) is in addition to the assessment instruments required to be administered under Chapter 39.

(c) The commissioner shall adopt rules necessary to implement

this section.

Added by Acts 2007, 80th Leg., R.S., Ch. 1240 (H.B. [2532](#)), Sec. 2, eff. June 15, 2007.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. [6](#), 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 37.009. CONFERENCE; HEARING; REVIEW. (a) Not later than the third class day after the day on which a student is removed from class by the teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under Section 37.001(a)(2) or 37.006, the campus behavior coordinator or other appropriate administrator shall schedule a conference among the campus behavior coordinator or other appropriate administrator, a parent or guardian of the student, the teacher removing the student from class, if any, and the student. At the conference, the student is entitled to written or oral notice of the reasons for the removal, an explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal. The student may not be returned to the regular classroom pending the conference. Following the conference, and whether or not each requested person is in attendance after valid attempts to require the person's attendance, the campus behavior coordinator, after consideration of the factors under Section 37.001(a)(4), shall order the placement of the student for a period consistent with the student code of conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education program, or placement in a juvenile justice alternative education program of a student, the behavior coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or discretionary action. If school district policy allows a student to appeal to the board of trustees or the board's designee a decision of the campus behavior coordinator or other appropriate administrator, other than an expulsion under Section 37.007, the

decision of the board or the board's designee is final and may not be appealed. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that the student is a threat to the safety of other students or to district employees.

(a-1) If a disciplinary alternative education program is at capacity at the time a campus behavior coordinator is deciding placement under Subsection (a) for a student who engaged in conduct described under Section 37.006(a)(2)(C-1), (C-2), (D), or (E), the student shall be:

- (1) placed in in-school suspension; and
- (2) if a position becomes available in the program before the expiration of the period of the placement, transferred to the program for the remainder of the period.

(a-2) If a disciplinary alternative education program is at capacity at the time a campus behavior coordinator is deciding placement under Subsection (a) for a student who engaged in conduct described under Section 37.007 that constitutes violent conduct, as defined by commissioner rule, a student who has been placed in the program for conduct described under Section 37.006(a)(2)(C-1), (C-2), (D), or (E):

- (1) may be removed from the program and placed in in-school suspension to make a position in the program available for the student who engaged in violent conduct; and
- (2) if removed from the program under Subdivision (1) and a position in the program becomes available before the expiration of the period of the placement, shall be returned to the program for the remainder of the period.

(b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the school district or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.

(c) Before it may place a student in a disciplinary alternative education program for a period that extends beyond the end of the

school year, the board or the board's designee must determine that:

(1) the student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or

(2) the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.

(d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(1). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not

an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

(g) The board or the board's designee shall deliver to the student and the student's parent or guardian a copy of the order placing the student in a disciplinary alternative education program under Section 37.001, 37.002, or 37.006 or expelling the student under Section 37.007.

(h) If the period of an expulsion is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of an expulsion may not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student. After a school district notifies the parents or guardians of a student that the student has been expelled, the parent or guardian shall provide adequate supervision of the student during the period of expulsion.

(i) If a student withdraws from the district before an order for placement in a disciplinary alternative education program or expulsion is entered under this section, the principal or board, as appropriate, may complete the proceedings and enter an order. If the student subsequently enrolls in the district during the same or subsequent school year, the district may enforce the order at that

time except for any period of the placement or expulsion that has been served by the student on enrollment in another district that honored the order. If the principal or board fails to enter an order after the student withdraws, the next district in which the student enrolls may complete the proceedings and enter an order.

(j) If, during the term of a placement or expulsion ordered under this section, a student engages in additional conduct for which placement in a disciplinary alternative education program or expulsion is required or permitted, additional proceedings may be conducted under this section regarding that conduct and the principal or board, as appropriate, may enter an additional order as a result of those proceedings.

Sec. 37.0091. NOTICE TO NONCUSTODIAL PARENT. (a) A noncustodial parent may request in writing that a school district or school, for the remainder of the school year in which the request is received, provide that parent with a copy of any written notification relating to student misconduct under Section 37.006 or 37.007 that is generally provided by the district or school to a student's parent or guardian.

(b) A school district or school may not unreasonably deny a request authorized by Subsection (a).

(c) Notwithstanding any other provision of this section, a school district or school shall comply with any applicable court order of which the district or school has knowledge.

Added by Acts 2003, 78th Leg., ch. 1055, Sec. 14, eff. June 20, 2003.

Sec. 37.010. COURT INVOLVEMENT. (a) Not later than the second business day after the date a hearing is held under Section 37.009,

the board of trustees of a school district or the board's designee shall deliver a copy of the order placing a student in a disciplinary alternative education program under Section 37.006 or expelling a student under Section 37.007 and any information required under Section 52.04, Family Code, to the authorized officer of the juvenile court in the county in which the student resides. In a county that operates a program under Section 37.011, an expelled student shall to the extent provided by law or by the memorandum of understanding immediately attend the educational program from the date of expulsion, except that in a county with a population greater than 125,000, every expelled student who is not detained or receiving treatment under an order of the juvenile court must be enrolled in an educational program.

(b) If a student is expelled under Section 37.007(c), the board or its designee shall refer the student to the authorized officer of the juvenile court for appropriate proceedings under Title 3, Family Code.

(c) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding with the district's board of trustees concerning the juvenile probation department's role in supervising and providing other support services for students in disciplinary alternative education programs, a court may not order a student expelled under Section 37.007 to attend a regular classroom, a regular campus, or a school district disciplinary alternative education program as a condition of probation.

(d) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding as described by Subsection (c), if a court orders a student to attend a disciplinary alternative education program as a condition of probation once during a school year and the student is referred to juvenile court again during that school year, the juvenile court may not order the student to attend a disciplinary alternative education program in a district without the district's consent until the student has successfully completed any sentencing requirements the court imposes.

(e) Any placement in a disciplinary alternative education program by a court under this section must prohibit the student from attending or participating in school-sponsored or school-related activities.

(f) If a student is expelled under Section 37.007, on the recommendation of the committee established under Section 37.003 or on its own initiative, a district may readmit the student while the student is completing any court disposition requirements the court imposes. After the student has successfully completed any court disposition requirements the court imposes, including conditions of a deferred prosecution ordered by the court, or such conditions required by the prosecutor or probation department, if the student meets the requirements for admission into the public schools established by this title, a district may not refuse to admit the student, but the district may place the student in the disciplinary alternative education program. Notwithstanding Section 37.002(d), the student may not be returned to the classroom of the teacher under whose supervision the offense occurred without that teacher's consent. The teacher may not be coerced to consent.

(g) If an expelled student enrolls in another school district, the board of trustees of the district that expelled the student shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the expulsion order and the referral to the authorized officer of the juvenile court. The district in which the student enrolls may continue the expulsion under the terms of the order, may place the student in a disciplinary alternative education program for the period specified by the expulsion order, or may allow the student to attend regular classes without completing the period of expulsion. A district may take any action permitted by this subsection if the student was expelled by a school district in another state if:

(1) the out-of-state district provides to the district a copy of the expulsion order; and

(2) the grounds for the expulsion are also grounds for expulsion in the district in which the student is enrolling.

(g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(h) A person is not liable in civil damages for a referral to juvenile court as required by this section.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. 6, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 37.011. JUVENILE JUSTICE ALTERNATIVE EDUCATION PROGRAM.

(a) The juvenile board of a county with a population greater than 125,000 shall develop a juvenile justice alternative education program, subject to the approval of the Texas Juvenile Justice Department. The juvenile board of a county with a population of 125,000 or less may develop a juvenile justice alternative education program. For the purposes of this subchapter, only a disciplinary alternative education program operated under the authority of a juvenile board of a county is considered a juvenile justice alternative education program. A juvenile justice alternative education program in a county with a population of 125,000 or less:

- (1) is not required to be approved by the department; and
- (2) is not subject to Subsection (c), (d), (f), or (g).

(a-1) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if:

- (1) the county had a population of 125,000 or less according to the 2000 federal census; and
- (2) the juvenile board of the county enters into, with the approval of the Texas Juvenile Justice Department, a memorandum of understanding with each school district within the county that:
  - (A) outlines the responsibilities of the board and school districts in minimizing the number of students expelled without receiving alternative educational services; and
  - (B) includes the coordination procedures required by Section 37.013.

(a-2) For purposes of this section and Section 37.010(a), a

county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if the county:

- (1) has a population of 195,000 or less;
- (2) is adjacent to two counties, each of which has a population of more than 1.7 million; and
- (3) has seven or more school districts located wholly within the county's boundaries.

(a-3) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if the county:

- (1) has a population of more than 200,000 and less than 233,500;
- (2) has five or more school districts located wholly within the county's boundaries; and
- (3) has located in the county a juvenile justice alternative education program that, on May 1, 2011, served fewer than 15 students.

(a-4) A school district located in a county considered to be a county with a population of 125,000 or less under Subsection (a-3) shall provide educational services to a student who is expelled from school under this chapter. The district is entitled to count the student in the district's average daily attendance for purposes of receipt of state funds under the Foundation School Program. An educational placement under this section may include:

- (1) the district's disciplinary alternative education program; or
- (2) a contracted placement with:
  - (A) another school district;
  - (B) an open-enrollment charter school;
  - (C) an institution of higher education;
  - (D) an adult literacy council; or
  - (E) a community organization that can provide an educational program that allows the student to complete the credits required for high school graduation.

(a-5) For purposes of Subsection (a-4), an educational placement other than a school district's disciplinary alternative education program is subject to the educational and certification requirements applicable to an open-enrollment charter school under Subchapter D, Chapter 12.

- (b) If a student admitted into the public schools of a school

district under Section 25.001(b) is expelled from school for conduct for which expulsion is required under Section 37.007(a), (d), or (e), or for conduct that contains the elements of the offense of terroristic threat as described by Section 22.07(c-1), (d), or (e), Penal Code, the juvenile court, the juvenile board, or the juvenile board's designee, as appropriate, shall:

(1) if the student is placed on probation under Section 54.04, Family Code, order the student to attend the juvenile justice alternative education program in the county in which the student resides from the date of disposition as a condition of probation, unless the child is placed in a post-adjudication treatment facility;

(2) if the student is placed on deferred prosecution under Section 53.03, Family Code, by the court, prosecutor, or probation department, require the student to immediately attend the juvenile justice alternative education program in the county in which the student resides for a period not to exceed six months as a condition of the deferred prosecution;

(3) in determining the conditions of the deferred prosecution or court-ordered probation, consider the length of the school district's expulsion order for the student; and

(4) provide timely educational services to the student in the juvenile justice alternative education program in the county in which the student resides, regardless of the student's age or whether the juvenile court has jurisdiction over the student.

(b-1) Subsection (b)(4) does not require that educational services be provided to a student who is not entitled to admission into the public schools of a school district under Section 25.001(b).

(c) A juvenile justice alternative education program shall adopt a student code of conduct in accordance with Section 37.001.

(d) A juvenile justice alternative education program must focus on English language arts, mathematics, science, social studies, and self-discipline. Each school district shall consider course credit earned by a student while in a juvenile justice alternative education program as credit earned in a district school. Each program shall administer assessment instruments under Subchapter B, Chapter 39, and shall offer a high school equivalency program. The juvenile board or the board's designee, with the parent or guardian of each student, shall regularly review the student's academic progress. In the case of a high school student, the board or the board's designee, with the student's parent or guardian, shall review the student's progress

towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The program is not required to provide a course necessary to fulfill a student's high school graduation requirements other than a course specified by this subsection.

(e) A juvenile justice alternative education program may be provided in a facility owned by a school district. A school district may provide personnel and services for a juvenile justice alternative education program under a contract with the juvenile board.

(f) A juvenile justice alternative education program must operate at least seven hours per day and 180 days per year, except that a program may apply to the Texas Juvenile Justice Department for a waiver of the 180-day requirement. The department may not grant a waiver to a program under this subsection for a number of days that exceeds the highest number of instructional days waived by the commissioner during the same school year for a school district served by the program.

(g) A juvenile justice alternative education program shall be subject to a written operating policy developed by the local juvenile justice board and submitted to the Texas Juvenile Justice Department for review and comment. A juvenile justice alternative education program is not subject to a requirement imposed by this title, other than a reporting requirement or a requirement imposed by this chapter or by Chapter 39 or 39A.

(h) Academically, the mission of juvenile justice alternative education programs shall be to enable students to perform at grade level. For purposes of accountability under Chapters 39 and 39A, a student enrolled in a juvenile justice alternative education program is reported as if the student were enrolled at the student's assigned campus in the student's regularly assigned education program, including a special education program. Annually the Texas Juvenile Justice Department, with the agreement of the commissioner, shall develop and implement a system of accountability consistent with Chapters 39 and 39A, where appropriate, to assure that students make progress toward grade level while attending a juvenile justice alternative education program. The department shall adopt rules for the distribution of funds appropriated under this section to juvenile boards in counties required to establish juvenile justice alternative education programs. Except as determined by the commissioner, a student served by a juvenile justice alternative education program on

the basis of an expulsion required under Section 37.007(a), (d), or (e) is not eligible for Foundation School Program funding under Chapter 31 or 48 if the juvenile justice alternative education program receives funding from the department under this subchapter.

(i) A student transferred to a juvenile justice alternative education program must participate in the program for the full period ordered by the juvenile court unless the student's school district agrees to accept the student before the date ordered by the juvenile court. The juvenile court may not order a period of transfer under this section that exceeds the term of any probation ordered by the juvenile court.

(j) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's professional employees and volunteers are immune from liability to the same extent as a school district's professional employees and volunteers.

(k) Each school district in a county with a population greater than 125,000 and the county juvenile board shall annually enter into a joint memorandum of understanding that:

(1) outlines the responsibilities of the juvenile board concerning the establishment and operation of a juvenile justice alternative education program under this section;

(2) defines the amount and conditions on payments from the school district to the juvenile board for students of the school district served in the juvenile justice alternative education program whose placement was not made on the basis of an expulsion required under Section 37.007(a), (d), or (e);

(3) establishes that a student may be placed in the juvenile justice alternative education program if the student engages in serious misbehavior, as defined by Section 37.007(c);

(4) identifies and requires a timely placement and specifies a term of placement for expelled students for whom the school district has received a notice under Section 52.041(d), Family Code;

(5) establishes services for the transitioning of expelled students to the school district prior to the completion of the student's placement in the juvenile justice alternative education program;

(6) establishes a plan that provides transportation services for students placed in the juvenile justice alternative education program;

(7) establishes the circumstances and conditions under which a juvenile may be allowed to remain in the juvenile justice alternative education program setting once the juvenile is no longer under juvenile court jurisdiction; and

(8) establishes a plan to address special education services required by law.

(1) The school district shall be responsible for providing an immediate educational program to students who engage in behavior resulting in expulsion under Section 37.007(b) and (f) but who are not eligible for admission into the juvenile justice alternative education program in accordance with the memorandum of understanding required under this section. The school district may provide the program or the school district may contract with a county juvenile board, a private provider, or one or more other school districts to provide the program. The memorandum of understanding shall address the circumstances under which such students who continue to engage in serious misbehavior, as defined by Section 37.007(c), shall be admitted into the juvenile justice alternative education program.

(m) Each school district in a county with a population greater than 125,000 and the county juvenile board shall adopt a joint memorandum of understanding as required by this section not later than September 1 of each school year.

(n) If a student who is ordered to attend a juvenile justice alternative education program moves from one county to another, the juvenile court may request the juvenile justice alternative education program in the county to which the student moves to provide educational services to the student in accordance with the local memorandum of understanding between the school district and juvenile board in the receiving county.

(o) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's employees and volunteers are immune from liability to the same extent as a school district's employees and volunteers.

(p) If a district elects to contract with the juvenile board for placement in the juvenile justice alternative education program

of students expelled under Section 37.007(b), (c), and (f) and the juvenile board and district are unable to reach an agreement in the memorandum of understanding, either party may request that the issues of dispute be referred to a binding arbitration process that uses a qualified alternative dispute resolution arbitrator in which each party will pay its pro rata share of the arbitration costs. Each party must submit its final proposal to the arbitrator. If the parties cannot agree on an arbitrator, the juvenile board shall select an arbitrator, the school districts shall select an arbitrator, and those two arbitrators shall select an arbitrator who will decide the issues in dispute. An arbitration decision issued under this subsection is enforceable in a court in the county in which the juvenile justice alternative education program is located. Any decision by an arbitrator concerning the amount of the funding for a student who is expelled and attending a juvenile justice alternative education program must provide an amount sufficient based on operation of the juvenile justice alternative education program in accordance with this chapter. In determining the amount to be paid by a school district for an expelled student enrolled in a juvenile justice alternative education program, the arbitrator shall consider the relevant factors, including evidence of:

(1) the actual average total per student expenditure in the district's alternative education setting;

(2) the expected per student cost in the juvenile justice alternative education program as described and agreed on in the memorandum of understanding and in compliance with this chapter; and

(3) the costs necessary to achieve the accountability goals under this chapter.

(q) In accordance with rules adopted by the board of trustees for the Teacher Retirement System of Texas, a certified educator employed by a juvenile board in a juvenile justice alternative education program shall be eligible for membership and participation in the system to the same extent that an employee of a public school district is eligible. The juvenile board shall make any contribution that otherwise would be the responsibility of the school district if the person were employed by the school district, and the state shall make any contribution to the same extent as if the person were employed by a school district.

(6) the implementation of a safety and security audit as required by Subsection (b); and

(7) any other requirements established by the Texas School Safety Center in consultation with the agency and relevant local law enforcement agencies.

(b) At least once every three years, each school district or public junior college district shall conduct a safety and security audit of the district's facilities. A district, or a person included in the registry established by the Texas School Safety Center under Section 37.2091 who is engaged by the district to conduct a safety and security audit, shall follow safety and security audit procedures developed by the Texas School Safety Center in coordination with the commissioner of education or commissioner of higher education, as applicable.

In developing the policy under this subsection, the board of trustees may consult with the local law enforcement agency with jurisdiction over the school district property selected as a polling place regarding reasonable security accommodations that may be made to the property. This subsection may not be interpreted to require the board of trustees to obtain or contract for the presence of law enforcement or security personnel for the purpose of securing a polling place located on school district property. (4) assist students in returning to school following treatment of a mental health concern or suicide attempt.

(f) In developing the list of best practice-based programs and research-based practices, the agency and the Health and Human Services Commission shall consider:

(1) any existing suicide prevention method developed by a school district; and

(2) any Internet or online course or program developed in this state or another state that is based on best practices recognized by the Substance Abuse and Mental Health Services Administration or the Suicide Prevention Resource Center.

(g) Except as otherwise provided by this subsection, each school district shall provide training described in the components set forth under Subsection (e) for teachers, school counselors, principals, and all other appropriate personnel. A school district is required to provide the training at an elementary school campus only to the extent that sufficient funding and programs are available. A school district may implement a program on the list to satisfy the requirements of this subsection.

(j) The practices and procedures developed under Subsection (i) or (i-1):

(1) may address multiple areas listed in Subsection (c) together; and

(2) must prohibit the use without the prior consent of a student's parent or guardian of a medical screening of the student as part of the process of identifying whether the student is possibly in need of early mental health or substance abuse intervention or suicide prevention.

(k) The practices and procedures developed under Subsection (i) or (i-1) must be included in:

(1) may accept donations for purposes of this section from sources without a conflict of interest; and

(2) may not accept donations for purposes of this section from an anonymous source.

(n) Nothing in this section is intended to interfere with the rights of parents or guardians and the decision-making regarding the best interest of the child. Practices and procedures developed in accordance with this section are intended to notify a parent or guardian of a need for mental health or substance abuse intervention so that a parent or guardian may take appropriate action. Nothing in this section shall be construed as giving school districts the authority to prescribe medications. Any and all medical decisions are to be made by a parent or guardian of a student.

(b) After hearing any oral argument presented under Subsection (a), the commissioner shall issue a written decision to the school district that contains:

- (1) findings of fact;
- (2) conclusions of law; and

(e) The commissioner may not reject or amend a finding of fact issued by the hearing examiner or the person who conducted the hearing under Section 39.005, unless the commissioner, after reviewing the record, determines that a finding of fact is not supported by substantial, admissible evidence.

(f) The commissioner shall provide in writing the legal basis and reason for any amendment or rejection of a finding of fact or conclusion of law made by the hearing examiner or the person who conducted the hearing under Section 39.005.

(d) The filing of an appeal under this section does not affect or stay the enforcement of the commissioner's written decision issued under Section 39.006(b).

(e) A court hearing an appeal under this section shall review the decision issued by the commissioner under Section 39.006(b) under the substantial evidence rule as provided by Subchapter G, Chapter 2001, Government Code, after examining:

Sec. 39.022. ASSESSMENT PROGRAM. (a) The State Board of Education by rule shall create and implement a statewide assessment program that is knowledge- and skills-based to ensure school accountability for student achievement that achieves the goals provided under Section 4.002. After adopting rules under this section, the State Board of Education shall consider the importance of maintaining stability in the statewide assessment program when adopting any subsequent modification of the rules.

(b) It is the policy of this state that the statewide assessment program be designed to:

(1) provide assessment instruments that are as short as practicable; and

(2) minimize the disruption to the educational program.

Sec. 39.023. ADOPTION AND ADMINISTRATION OF INSTRUMENTS. (a) The agency shall adopt or develop appropriate criterion-referenced assessment instruments designed to assess essential knowledge and skills in reading, mathematics, social studies, and science. Except as provided by Subsection (a-2), all students, other than students assessed under Subsection (b) or (1) or exempted under Section 39.027, shall be assessed in:

- (1) mathematics, annually in grades three through eight;
- (2) reading, annually in grades three through eight;
- (3) social studies, in grade eight;
- (4) science, in grades five and eight; and
- (5) any other subject and grade required by federal law.

(a-1) The agency shall develop assessment instruments required under Subsection (a) in a manner that allows, to the extent practicable:

- (1) the score a student receives to provide reliable information relating to a student's satisfactory performance for each performance standard under Section 39.0241; and
- (2) an appropriate range of performances to serve as a valid indication of growth in student achievement.

(a-2) Except as required by federal law, a student is not required to be assessed in a subject otherwise assessed at the student's grade level under Subsection (a) if the student:

- (1) is enrolled in a course in the subject intended for students above the student's grade level and will be administered an assessment instrument adopted or developed under Subsection (a) that aligns with the curriculum for the course in which the student is enrolled; or
- (2) is enrolled in a course in the subject for which the student will receive high school academic credit and will be administered an end-of-course assessment instrument adopted under Subsection (c) for the course.

(a-3) The agency may not adopt or develop a criterion-referenced assessment instrument under this section based on common core state standards as defined by Section 28.002(b-1). This subsection does not prohibit the use of college advanced placement tests or international baccalaureate examinations as those terms are defined by Section 28.051.

(a-4) For purposes of Subsection (a)(1), the State Board of Education by rule may designate sections of a mathematics assessment instrument for a grade level that:

- (1) may be completed with the aid of technology; and
- (2) must be completed without the aid of technology.

(a-5)-(a-10) Expired.

(a-11) Before an assessment instrument adopted or developed under Subsection (a) may be administered under that subsection, the assessment instrument must, on the basis of empirical evidence, be determined to be valid and reliable by an entity that is independent of the agency and of any other entity that developed the assessment instrument.

(a-12) An assessment instrument adopted or developed under Subsection (a) may not have more than three parts. A part of an assessment instrument must be designed so that:

(1) if administered to students in grades three and four, 85 percent of students will be able to complete that part within 60 minutes; and

(2) if administered to students in grades five through eight, 85 percent of students will be able to complete that part within 75 minutes.

(a-13) The amount of time allowed for administration of an assessment instrument adopted or developed under Subsection (a) may not exceed eight hours, and the administration may occur in multiple parts over more than one day.

(a-14) Subsections (a-12) and (a-13) do not apply to the administration of assessment instruments for a grade level if, as a result of the time restriction imposed, the assessment instrument no longer:

(1) complies with federal law; or

(2) is valid and reliable, based on findings and recommendations made by the advisory committees established under Section 39.02302.

(a-15) Subsections (a-12) and (a-13) do not apply to a classroom portfolio method used to assess writing performance.

(a-16) An assessment instrument under this section may not be administered to a kindergarten student except for the purpose of determining whether the student is entitled to the benefit of the Foundation School Program as provided under this code.

(b) The agency shall develop or adopt appropriate criterion-

referenced alternative assessment instruments to be administered to each student in a special education program under Subchapter A, Chapter 29, for whom an assessment instrument adopted under Subsection (a), even with allowable accommodations, would not provide an appropriate measure of student achievement, as determined by the student's admission, review, and dismissal committee, including assessment instruments approved by the commissioner that measure growth. The assessment instruments developed or adopted under this subsection, including the assessment instruments approved by the commissioner, must, to the extent allowed under federal law, provide a district with options for the assessment of students under this subsection. The agency may not adopt a performance standard that indicates that a student's performance on the alternate assessment does not meet standards if the lowest level of the assessment accurately represents the student's developmental level as determined by the student's admission, review, and dismissal committee.

(b-1) The agency, in conjunction with appropriate interested persons, shall redevelop assessment instruments adopted or developed under Subsection (b) for administration to significantly cognitively disabled students in a manner consistent with federal law. An assessment instrument under this subsection may not require a teacher to prepare tasks or materials for a student who will be administered such an assessment instrument. A classroom portfolio method used to assess writing performance may require a teacher to prepare tasks and materials.

(c) The agency shall also adopt end-of-course assessment instruments for secondary-level courses in Algebra I, biology, English I, English II, and United States history. The Algebra I end-of-course assessment instrument must be administered with the aid of technology, but may include one or more parts that prohibit the use of technology. The English I and English II end-of-course assessment instruments must each assess essential knowledge and skills in both reading and writing and must provide a single score. A school district shall comply with State Board of Education rules regarding administration of the assessment instruments listed in this subsection. If a student is in a special education program under Subchapter A, Chapter 29, the student's admission, review, and dismissal committee shall determine whether any allowable modification is necessary in administering to the student an assessment instrument required under this subsection. The State

Board of Education shall administer the assessment instruments. An end-of-course assessment instrument may be administered in multiple parts over more than one day. The State Board of Education shall adopt a schedule for the administration of end-of-course assessment instruments that complies with the requirements of Subsection (c-3).

(c-1) The agency shall develop any assessment instrument required under this section in a manner that allows for the measurement of annual improvement in student achievement as required by Sections 39.034(c) and (d).

(c-2) The agency may adopt end-of-course assessment instruments for courses not listed in Subsection (c). A student's performance on an end-of-course assessment instrument adopted under this subsection is not subject to the performance requirements established under Subsection (c) or Section 39.025.

(c-3) Except as provided by Subsection (c-7) or (c-10) or as otherwise provided by this subsection, in adopting a schedule for the administration of assessment instruments under this section, the State Board of Education shall ensure that assessment instruments administered under Subsection (a) or (c) are not administered on the first instructional day of a week. On request by a school district or open-enrollment charter school, the commissioner may allow the district or school to administer an assessment instrument required under Subsection (a) or (c) on the first instructional day of a week if administering the assessment instrument on another instructional day would result in a significant administrative burden due to specific local conditions.

(c-4) To the extent practicable and subject to Section 39.024, the agency shall ensure that each end-of-course assessment instrument adopted under Subsection (c) is:

(1) developed in a manner that measures a student's performance under the college readiness standards established under Section 28.008; and

(2) validated by national postsecondary education experts for college readiness content and performance standards.

(c-5) A student's performance on an end-of-course assessment instrument required under Subsection (c) must be included in the student's academic achievement record.

(c-6) In adopting an end-of-course assessment instrument under this section, the agency shall consider the use of an existing assessment instrument that is currently available. The agency may

use an existing assessment instrument that is currently available only if the assessment instrument:

(1) is aligned with the essential knowledge and skills of the subject being assessed; and

(2) allows for the measurement of annual improvement in student achievement as provided by Subsection (c-1).

(c-7) Subsection (c-3) does not apply to a classroom portfolio method used to assess writing performance if student performance under that method is less than 50 percent of a student's overall assessed performance in writing.

(c-8) Beginning with the 2022-2023 school year, not more than 75 percent of the available points on an assessment instrument developed under Subsection (a) or (c) may be attributable to questions presented in a multiple choice format.

(c-9) The United States history end-of-course assessment instrument adopted under Subsection (c) must include 10 questions randomly selected by the agency from the civics test administered by the United States Citizenship and Immigration Services as part of the naturalization process under the federal Immigration and Nationality Act (8 U.S.C. Section 1101 et seq.). The agency shall:

(1) ensure that the questions included in the assessment instrument align with the essential knowledge and skills adopted for the United States history course for which the instrument is administered; and

(2) annually issue a report:

(A) providing the questions included in the assessment instrument under this subsection and the answers to those questions; and

(B) detailing student performance on the questions included in the assessment instrument under this subsection, both statewide and disaggregated by school district and campus.

(c-10) An entity that operates a dropout recovery education program under Section 29.081(e) may administer an assessment instrument under this section on any date selected by the entity that falls within a testing window established, in accordance with Subsection (c-3), for the administration of the assessment instrument.

(d) The commissioner may participate in multistate efforts to develop voluntary standardized end-of-course assessment instruments. The commissioner by rule may require a school district to administer

an end-of-course assessment instrument developed through the multistate efforts. The admission, review, and dismissal committee of a student in a special education program under Subchapter A, Chapter 29, shall determine whether any allowable modification is necessary in administering to the student an end-of-course assessment instrument.

(e) Under rules adopted by the State Board of Education, every third year, the agency shall release the questions and answer keys to each assessment instrument administered under Subsection (a), (b), (c), (d), or (l), excluding any assessment instrument administered to a student for the purpose of retaking the assessment instrument, after the last time the instrument is administered for that school year. To ensure a valid bank of questions for use each year, the agency is not required to release a question that is being field-tested and was not used to compute the student's score on the instrument. The agency shall also release, under board rule, each question that is no longer being field-tested and that was not used to compute a student's score. During the 2014-2015 and 2015-2016 school years, the agency shall release the questions and answer keys to assessment instruments as described by this subsection each year.

(e-1) The agency may defer releasing assessment instrument questions and answer keys as required by Subsection (e) to the extent necessary to develop additional assessment instruments.

(f) The assessment instruments shall be designed to include assessment of a student's problem-solving ability and complex-thinking skills using a method of assessing those abilities and skills that is demonstrated to be highly reliable.

(g) The State Board of Education may adopt one appropriate, nationally recognized, norm-referenced assessment instrument in reading and mathematics to be administered to a selected sample of students in the spring. If adopted, a norm-referenced assessment instrument must be a secured test. The state may pay the costs of purchasing and scoring the adopted assessment instrument and of distributing the results of the adopted instrument to the school districts. A district that administers the norm-referenced test adopted under this subsection shall report the results to the agency in a manner prescribed by the commissioner.

(h) The agency shall notify school districts and campuses of the results of assessment instruments administered under this section not later than the 21st day after the date the assessment instrument

is administered. The school district shall disclose to each district teacher the results of assessment instruments administered to students taught by the teacher in the subject for the school year in which the assessment instrument is administered.

(i) The provisions of this section, except Subsection (d), are subject to modification by rules adopted under Section 39.022. Each assessment instrument adopted under those rules and each assessment instrument required under Subsection (d) must be reliable and valid and must meet any applicable federal requirements for measurement of student progress.

(j) Repealed by Acts 2007, 80th Leg., R.S., Ch. 1312, Sec. 18, eff. September 1, 2007.

(l) The State Board of Education shall adopt rules for the administration of the assessment instruments adopted under Subsection (a) in Spanish to emergent bilingual students in grades three through five, as defined by Section 29.052, whose primary language is Spanish, and who are not otherwise exempt from the administration of an assessment instrument under Section 39.027(a)(1) or (2). Each emergent bilingual student whose primary language is Spanish, other than a student to whom Subsection (b) applies, may be assessed using assessment instruments in Spanish under this subsection for up to three years or assessment instruments in English under Subsection (a). The language proficiency assessment committee established under Section 29.063 shall determine which students are administered assessment instruments in Spanish under this subsection.

(m) The commissioner by rule shall develop procedures under which the language proficiency assessment committee established under Section 29.063 shall determine which students are exempt from the administration of the assessment instruments under Section 39.027(a)(1) or (2). The rules adopted under this subsection shall ensure that the language proficiency assessment committee provides that the exempted students are administered the assessment instruments under Subsections (a) and (c) at the earliest practical date.

(n) This subsection applies only to a student who is determined to have dyslexia or a related disorder and who is an individual with a disability under 29 U.S.C. Section 705(20) and its subsequent amendments. The agency shall adopt or develop appropriate criterion-referenced assessment instruments designed to assess the ability of and to be administered to each student to whom this subsection

applies for whom the assessment instruments adopted under Subsection (a), even with allowable modifications, would not provide an appropriate measure of student achievement, as determined by the committee established by the board of trustees of the district to determine the placement of students with dyslexia or related disorders. The committee shall determine whether any allowable modification is necessary in administering to a student an assessment instrument required under this subsection. The assessment instruments required under this subsection shall be administered on the same schedule as the assessment instruments administered under Subsection (a).

(o) The agency shall adopt or develop optional interim assessment instruments for each subject or course for each grade level subject to assessment under this section. A school district or open-enrollment charter school may not be required to administer interim assessment instruments adopted or developed under this subsection. An interim assessment instrument:

(1) must be:

(A) when possible, predictive of the assessment instrument for the applicable subject or course for that grade level required under this section; and

(B) administered electronically; and

(2) may not be used for accountability purposes.

(p) On or before September 1 of each year, the commissioner shall make the following information available on the agency's Internet website for each assessment instrument administered under Subsection (a), (c), or (l):

(1) the number of questions on the assessment instrument;

(2) the number of questions that must be answered correctly to achieve satisfactory performance as determined by the commissioner under Section 39.0241(a);

(3) the number of questions that must be answered correctly to achieve satisfactory performance under the college readiness performance standard as provided by Section 39.0241; and

(4) the corresponding scale scores.

Sec. 39.02302. ADVISORY COMMITTEES FOR ASSESSMENT INSTRUMENTS.

(a) The commissioner shall appoint a technical advisory committee to advise the commissioner and the agency regarding the development of valid and reliable assessment instruments for purposes of this chapter. The members of the committee must be experts on educational assessments and psychometrics.

(b) The commissioner shall appoint an educator advisory committee to advise the commissioner and the agency regarding the development of academically appropriate assessment instruments for purposes of this chapter. The members of the committee must include experts in curriculum and instruction.

(c) The agency may compensate a member of the technical or educator advisory committee or reimburse the member for expenses incurred in the performance of duties related to the member's service on the committee.

(d) The selection of or payment to a member of the technical or educator advisory committee is not subject to Chapter 2110 or 2254, Government Code.

Sec. 39.02315. REPORTING RESULTS OF ASSESSMENT INSTRUMENTS FOR OUT-OF-STATE TRANSFER STUDENTS. (a) For assessment instruments required to be administered under Section 39.023, the agency shall adopt procedures to ensure that the results of the assessment instruments administered to students who transfer from a school district in another state to a school district in this state are reported to each school district separately from the results of assessment instruments administered to other students.

(b) The commissioner by rule shall:

(1) ensure that the results of assessment instruments administered to students who transfer from a school district in another state to a school district in this state reported under Subsection (a) are properly identified in agency systems that report and track academic performance of students; and

(2) adopt procedures for reporting and tracking data relating to students who transfer from a school district in another state to a school district in this state.

Sec. 39.0232. USE OF END-OF-COURSE ASSESSMENT INSTRUMENT AS PLACEMENT INSTRUMENT; CERTAIN USES PROHIBITED. (a) To the extent practicable, the agency shall ensure that any high school end-of-course assessment instrument developed by the agency is developed in such a manner that the assessment instrument may be used to determine the appropriate placement of a student in a course of the same subject matter at an institution of higher education.

(b) A student's performance on an end-of-course assessment instrument may not be used:

(1) in determining the student's class ranking for any purpose, including entitlement to automatic college admission under Section 51.803 or 51.804; or

(2) as a sole criterion in the determination of whether to admit the student to a general academic teaching institution in this state.

(c) Subsection (b)(2) does not prohibit a general academic teaching institution from implementing an admission policy that takes into consideration a student's performance on an end-of-course assessment instrument in addition to other criteria.

(d) In this section, "general academic teaching institution" has the meaning assigned by Section 61.003.

Sec. 39.0233. SPECIAL-PURPOSE QUESTIONS INCLUDED IN END-OF-COURSE ASSESSMENT INSTRUMENTS. (a) The agency, in coordination with the Texas Higher Education Coordinating Board, shall adopt a series of questions to be included in an end-of-course assessment instrument administered under Section 39.023(c) to be used for purposes of Subchapter F-1, Chapter 51. The questions adopted under this subsection must be developed in a manner consistent with any college readiness standards adopted under Subchapter F-1, Chapter 51.

(b) In addition to the questions adopted under Subsection (a), the agency shall adopt a series of questions to be included in an end-of-course assessment instrument administered under Section 39.023(c) to be used for purposes of identifying students who are likely to succeed in an advanced high school course. A school district shall notify a student who performs at a high level on the questions adopted under this subsection and the student's parent or guardian of the student's performance and potential to succeed in an advanced high school course. A school district may not require a student to perform at a particular level on the questions adopted under this subsection in order to be eligible to enroll in an advanced high school course.

(c) Repealed by Acts 2015, 84th Leg., R.S., Ch. 934 , Sec. 5(2), eff. June 18, 2015.

(d) The questions adopted under this section may not be administered in a separate section of the end-of-course assessment instrument.

Sec. 39.0234. ELECTRONIC ADMINISTRATION OF ASSESSMENT INSTRUMENTS. (a) Each assessment instrument required under Section 39.023(a), (c), or (1) must be administered electronically, unless otherwise provided by commissioner rule.

(b) The agency may recommend, but may not require, that a school district make external keyboards available for student use with tablet devices for the electronic administration of an assessment instrument, including any portion of an assessment instrument that contains constructed response or essay items.

Sec. 39.02342. PAPER ADMINISTRATION OF ASSESSMENT INSTRUMENTS ON REQUEST. (a) Subject to Subsection (c), a school district may administer an assessment instrument required under Section 39.023(a), (c), or (1) in paper format to any student whose parent, guardian, or teacher in the applicable subject area requests the assessment instrument be administered to the student in paper format.

(b) A request for the administration of an assessment instrument in paper format to a student under this section must be submitted to the school district:

(1) for a fall administration of an assessment instrument, not later than September 15 of the school year in which the assessment instrument will be administered; and

(2) for a spring administration of an assessment instrument, not later than December 1 of the school year in which the

assessment instrument will be administered.

(c) The number of students enrolled at a school district who are administered an assessment instrument in paper format for any single administration under this section may not exceed three percent of the number of students enrolled in the district. On receipt of more requests for administration of an assessment instrument than the maximum number permitted under this subsection, the district shall accept the requests in the order received until the maximum number is reached. The limitation described by this subsection does not apply to a student whose admission, review, and dismissal committee determines that the administration of an assessment instrument in paper format is a necessary modification for the student.

Sec. 39.0235. TECHNOLOGY LITERACY ASSESSMENT PILOT PROGRAM.

(a) In this section, "pilot program" means the technology literacy assessment pilot program.

(b) The commissioner by rule shall establish a pilot program in which a participating school district assesses student technology proficiency.

(c) A school district may apply to the commissioner to participate in the pilot program. The commissioner shall select for participation school districts from both rural and urban areas of the state.

(d) The agency shall adopt an assessment instrument designed to assess an individual student's mastery of the essential knowledge and skills in technology to be administered by a school district participating in the pilot program. The assessment instrument adopted under this subsection must be an existing product that is currently available.

(e) Each school year, the assessment instrument adopted under Subsection (d) shall be administered in a participating school district to each student in either fifth, sixth, seventh, eighth, or ninth grade, with the grade level and time to be determined by the district.

(f) The assessment instrument adopted under Subsection (d) must:

- (1) be administered online;
  - (2) be aligned with the essential knowledge and skills requirements for technology applications; and
  - (3) incorporate performance-based measures, including a requirement that students perform certain technological tasks and respond to questions based on the completion of those tasks.
- (g) An assessment instrument administered by a participating school district must be designed in a manner to provide the district with an automatic report of the technology literacy proficiency of a district student in a format that is compatible with the school district and state data information systems.
- (h) A participating school district shall report student performance on the assessment instrument to the agency.

Sec. 39.0236. INTEGRATED FORMATIVE ASSESSMENT PILOT PROGRAM.

- (a) The agency shall establish a pilot program in which participating school districts administer to students integrated formative assessment instruments for subjects or courses for a grade level subject to assessment under Section 28.006 or 39.023.
- (b) A school district may elect to participate in the pilot program.
- (c) A school district's participation in the pilot program does not affect the district's obligations regarding the administration of assessment instruments required under Section 39.023.
- (d) Not later than December 1 of each even-numbered year, the agency shall submit to the governor, the lieutenant governor, and the members of the legislature a report on the pilot program that includes:
- (1) an analysis of whether the administration of integrated formative assessment instruments under the pilot program provided any improvement in instructional support during the preceding two school years; and
  - (2) a determination of the feasibility of replacing the assessment instruments required under Section 39.023 with integrated formative assessment instruments.

Sec. 39.0238. CONSIDERATION OF RELIGIOUS HOLY DAYS IN SCHEDULING ASSESSMENT INSTRUMENTS. (a) In this section, "religious holy day or period of observance" means a holy day or a period of holy days observed by a religion whose places of worship would be exempt from property taxation under Section 11.20, Tax Code.

(b) The board of trustees of a school district or the governing body of an open-enrollment charter school may consider the dates of religious holy days or periods of observance likely to be observed by the students enrolled in the district or school during the period set by the State Board of Education for the administration of assessment instruments required under Section 39.023 in establishing:

(1) the district's or school's calendar for that school year; and

(2) the instructional days within that period on which district or school students are administered the required assessment instruments, provided that the board of trustees or governing body may not exclude more than two instructional days from that period based solely on the occurrence of a single religious holy day or period of observance.

(c) In establishing a school calendar as described in Subsection (b), the board of trustees of a school district or the governing body of an open-enrollment charter school shall provide for alternative dates for the administration of assessment instruments required under Section 39.023 to a student who is absent from school to observe a religious holy day or period of observance on the date an assessment instrument is administered.

(d) The agency may adopt rules as necessary to ensure a student may be administered an assessment instrument on an alternative date

as necessary to comply with this section.

Added by Acts 2023, 88th Leg., R.S., Ch. 988 (H.B. 1883), Sec. 1, eff. June 18, 2023.

(a) In this section, "college readiness" means the level of preparation a student must attain in English language arts and mathematics courses to enroll and succeed, without remediation, in an entry-level general education course for credit in that same content area for a baccalaureate degree or associate degree program at:

(1) a general academic teaching institution, as defined by Section 61.003, other than a research institution, as categorized under the Texas Higher Education Coordinating Board's accountability system; or

(2) a postsecondary educational institution that primarily offers associate degrees or certificates or credentials other than baccalaureate or advanced degrees.

(d) Using funds appropriated for purposes of this subsection, the agency shall develop and make available teacher training materials and other teacher training resources to assist teachers in enabling emergent bilingual students to meet state performance

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see S.B. 1418, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 39.025. SECONDARY-LEVEL PERFORMANCE REQUIRED. (a) The commissioner shall adopt rules requiring a student in the foundation high school program under Section 28.025 to be administered an end-of-course assessment instrument listed in Section 39.023(c) only for a course in which the student is enrolled and for which an end-of-course assessment instrument is administered. A student is required to achieve a scale score that indicates satisfactory performance, as determined by the commissioner under Section 39.0241(a), on each end-of-course assessment instrument administered to the student. For each scale score required under this subsection that is not based on a 100-point scale scoring system, the commissioner shall provide for conversion, in accordance with commissioner rule, of the scale score to an equivalent score based on a 100-point scale scoring system. A student may not receive a high school diploma until the student has performed satisfactorily on end-of-course assessment instruments in the manner provided under this subsection. This subsection does not require a student to demonstrate readiness to enroll in an institution of higher education.

(a-1) A student enrolled in a college preparatory mathematics or English language arts course under Section 28.014 who satisfies the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board under Section 51.334 on an assessment instrument designated by the

coordinating board under that section administered at the end of the college preparatory mathematics or English language arts course satisfies the requirements concerning and is exempt from the administration of the Algebra I or the English I and English II end-of-course assessment instruments, as applicable, as prescribed by Section 39.023(c), even if the student did not perform satisfactorily on a previous administration of the applicable end-of-course assessment instrument. A student who fails to perform satisfactorily on the assessment instrument designated by the coordinating board under Section 51.334 administered as provided by this subsection may retake that assessment instrument for purposes of this subsection or may take the appropriate end-of-course assessment instrument.

(a-2) The commissioner shall determine a method by which a student's satisfactory performance on an advanced placement test, an international baccalaureate examination, an SAT Subject Test, the SAT, the ACT, or any nationally recognized norm-referenced assessment instrument used by institutions of higher education to award course credit based on satisfactory performance on the assessment instrument shall be used to satisfy the requirements concerning an end-of-course assessment instrument in an equivalent course as prescribed by Subsection (a). The commissioner shall determine a method by which a student's satisfactory performance on the PSAT or the ACT-Plan shall be used to satisfy the requirements concerning an end-of-course assessment instrument in an equivalent course as prescribed by Subsection (a). A student who fails to perform satisfactorily on a test or other assessment instrument authorized under this subsection, other than the PSAT or the ACT-Plan, may retake that test or other assessment instrument for purposes of this subsection or may take the appropriate end-of-course assessment instrument. A student who fails to perform satisfactorily on the PSAT or the ACT-Plan must take the appropriate end-of-course assessment instrument. The commissioner shall adopt rules as necessary for the administration of this subsection.

(a-3) A student who, after retaking an end-of-course assessment instrument for Algebra I or English II, has failed to perform satisfactorily as required by Subsection (a), but who receives a score of proficient on the Texas Success Initiative (TSI) diagnostic assessment for the corresponding subject for which the student failed to perform satisfactorily on the end-of-course assessment instrument satisfies the requirement concerning the Algebra I or English II end-

of-course assessment, as applicable.

(a-4) The admission, review, and dismissal committee of a student in a special education program under Subchapter A, Chapter 29, shall determine whether, to receive a high school diploma, the student is required to achieve satisfactory performance on end-of-course assessment instruments.

(a-5) Notwithstanding Subsection (a), a student who has failed to perform satisfactorily on end-of-course assessment instruments in the manner provided under this section may receive a high school diploma if the student has qualified for graduation under Section 28.0258.

(b) Each time an end-of-course assessment instrument adopted under Section 39.023(c) is administered, a student who failed to achieve a score requirement under Subsection (a) may retake the assessment instrument. A student is not required to retake a course as a condition of retaking an end-of-course assessment instrument.

(b-1) A school district shall provide each student who fails to perform satisfactorily as determined by the commissioner under Section 39.0241(a) on an end-of-course assessment instrument with accelerated instruction under Section 28.0211 in the subject assessed by the assessment instrument.

(b-2) Repealed by Acts 2015, 84th Leg., R.S., Ch. 934 , Sec. 5(3), eff. June 18, 2015.

(c) A student who has been denied a high school diploma under this section and who subsequently performs at the level necessary to comply with the requirements of this section shall be issued a high school diploma.

(c-1) A school district may not administer an assessment instrument required for graduation administered under this section as this section existed:

(1) before September 1, 1999; or

(2) before amendment by Chapter 1312 (S.B. 1031), Acts of the 80th Legislature, Regular Session, 2007.

(c-2) A school district may administer to a student who failed to perform satisfactorily on an assessment instrument described by Subsection (c-1) an alternate assessment instrument designated by the commissioner. The commissioner shall determine the level of performance considered to be satisfactory on an alternate assessment instrument. The district may not administer to the student an assessment instrument or a part of an assessment instrument that

assesses a subject that was not assessed in an assessment instrument applicable to the student described by Subsection (c-1). The commissioner shall make available to districts information necessary to administer the alternate assessment instrument authorized by this subsection. The commissioner's determination regarding designation of an appropriate alternate assessment instrument under this subsection and the performance required on the assessment instrument is final and may not be appealed.

(d) Notwithstanding Subsection (a), the commissioner by rule shall adopt one or more alternative nationally recognized norm referenced assessment instruments under this section to administer to a student to qualify for a high school diploma if the student enrolls after January 1 of the school year in which the student is otherwise eligible to graduate:

- (1) for the first time in a public school in this state; or
- (2) after an absence of at least four years from any public school in this state.

(e) The commissioner shall establish a required performance level for an assessment instrument adopted under Subsection (d) that is at least as rigorous as the performance level required to be met under Subsection (a).

(e-1) Nothing in this section has the effect of prohibiting the administration of an end-of-course assessment instrument listed in Section 39.023(c) to a student enrolled below the high school level who is enrolled in the course for which the assessment instrument is adopted. The commissioner shall adopt rules necessary to ensure that the student's performance on the assessment instrument is considered in the same manner for purposes of this section as the performance of a student enrolled at the high school level.

(f) The commissioner shall by rule adopt a transition plan to implement the amendments made by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007, replacing general subject assessment instruments administered at the high school level with end-of-course assessment instruments. The rules must provide for the end-of-course assessment instruments adopted under Section 39.023(c) to be administered beginning with students enrolled in the ninth grade for the first time during the 2011-2012 school year. During the period under which the transition to end-of-course assessment instruments is made:

- (1) for students entering a grade above the ninth grade

during the 2011-2012 school year or students repeating ninth grade during the 2011-2012 school year, the commissioner shall retain, administer, and use for purposes of accreditation and other campus and district accountability measures under this chapter the assessment instruments required by Section 39.023(a) or (c), as that section existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007; and

(2) a student subject to Subdivision (1) may not receive a high school diploma unless the student has performed satisfactorily on the SAT, the ACT, the Texas Success Initiative (TSI) diagnostic assessment, or the current assessment instrument or instruments administered for graduation purposes as provided by Subsection (f-1) or on each required assessment instrument administered under Section 39.023(c), as that section existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007.

(f-1) The commissioner shall establish satisfactory performance levels for the SAT, the ACT, the Texas Success Initiative (TSI) diagnostic assessment, and the current assessment instrument or instruments administered for graduation purposes that are equivalent in rigor to the performance level required to be met under Subsection (a), as that subsection existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007, that qualify a student subject to Subsection (f)(1) to receive a high school diploma. Notwithstanding Subsection (f), the commissioner is not required after September 1, 2017, to maintain and administer assessment instruments administered under Section 39.023(c), as that section existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007.

(f-2) A school district shall determine which assessment or assessments described by Subsection (f-1) qualify a student subject to Subsection (f)(1) to receive a high school diploma from the district.

(g) Rules adopted under Subsection (f) must require that each student who will be subject to the requirements of Subsection (a) is entitled to notice of the specific requirements applicable to the student. Notice under this subsection must be provided not later than the date the student enters the eighth grade.

Sec. 39.026. LOCAL OPTION. In addition to the assessment instruments adopted by the agency and administered by the State Board of Education, a school district may adopt and administer criterion-referenced or norm-referenced assessment instruments, or both, at any grade level. A norm-referenced assessment instrument adopted under this section must be economical, nationally recognized, and state-approved.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. 2 and H.B. 120, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 39.0261. COLLEGE PREPARATION ASSESSMENTS. (a) In addition to the assessment instruments otherwise authorized or required by this subchapter:

(1) each school year and at state cost, a school district may administer to students in the spring of the eighth grade an established, valid, reliable, and nationally norm-referenced preliminary college preparation assessment instrument for the purpose of diagnosing the academic strengths and deficiencies of students before entrance into high school;

(2) each school year and at state cost, a school district may administer to students in the 10th grade an established, valid, reliable, and nationally norm-referenced preliminary college preparation assessment instrument for the purpose of measuring a student's progress toward readiness for college and the workplace; and

(3) high school students in the spring of the 11th grade or during the 12th grade may select and take once, at state cost:

(A) one of the valid, reliable, and nationally norm-

referenced assessment instruments used by colleges and universities as part of their undergraduate admissions processes; or

(B) the assessment instrument designated by the Texas Higher Education Coordinating Board under Section 51.334.

(a-1) Notwithstanding Subsection (a)(3), the commissioner by rule may allow a student to take at state cost an assessment instrument described by that subdivision if circumstances existed that prevented the student from taking the assessment instrument before the student graduated from high school.

(b) The agency shall:

(1) select and approve vendors of the specific assessment instruments administered under this section and negotiate with each approved vendor a price for each assessment instrument; and

(2) provide reimbursement to a school district in the amount negotiated under Subdivision (1) for the administration of the assessment instrument from funds appropriated for that purpose.

(c) The agency shall ensure that a school district is not reimbursed under Subsection (b) for the administration of an assessment instrument to a student to whom the assessment instrument is not actually administered. The agency may comply with this subsection by any reasonable means, including by creating a refund system under which a school district returns any payment made for a student who registered for the administration of an assessment instrument but did not appear for the administration.

(d) A vendor that administers an assessment instrument for a district under this section shall report the results of the assessment instrument to the agency. The agency shall:

(1) include a student's results on the assessment instrument in the electronic student records system established under Section 7.010; and

(2) ensure that a student and the student's parent receive a report of the student's results on the assessment instrument.

(e) Subsection (a)(3) does not prohibit a high school student from selecting and taking, at the student's own expense, an assessment instrument described by that subdivision.

(f) The provisions of this section regarding assessment instruments administered under Subsection (a)(1) or (2) apply only if the legislature appropriates funds for those purposes.

(a) In a subject area for which assessment instruments are administered under Section 39.023, a school district may not administer locally required assessment instruments designed to prepare students for state-administered assessment instruments to any student on more than 10 percent of the instructional days in any school year. A campus-level planning and decision-making committee established under Section 11.251 may limit the administration of locally required assessment instruments under this subsection to 10 percent or a lower percentage of the instructional days in any school year.

Sec. 39.0263. ADMINISTRATION OF DISTRICT-REQUIRED BENCHMARK

ASSESSMENT INSTRUMENTS TO PREPARE STUDENTS FOR STATE-ADMINISTERED ASSESSMENT INSTRUMENTS. (a) In this section, "benchmark assessment instrument" means a district-required assessment instrument designed to prepare students for a corresponding state-administered assessment instrument.

(b) Except as provided by Subsection (c), a school district may not administer to any student more than two benchmark assessment instruments to prepare the student for a corresponding state-administered assessment instrument.

(c) The prohibition prescribed by this section does not apply to the administration of a college preparation assessment instrument, including the PSAT, the ACT-Plan, the SAT, or the ACT, an advanced placement test, an international baccalaureate examination, or an independent classroom examination designed or adopted and administered by a classroom teacher.

(b) In determining the accreditation status of a school district, the commissioner:

(1) shall evaluate and consider:

(A) performance on achievement indicators described by Section 39.053; and

(B) performance under the financial accountability rating system developed under Subchapter D; and

(2) may evaluate and consider:

(A) the district's compliance with statutory requirements and requirements imposed by rule of the commissioner or State Board of Education under specific statutory authority that relate to:

(i) reporting data through the Public Education Information Management System (PEIMS) or other reports required by state or federal law or court order;

(ii) the high school graduation requirements under Section 28.025; or

(iii) an item listed under Sections 7.056(e)(3)(C)-(I) that applies to the district;

(B) the effectiveness of the district's programs for special populations; and

(C) the effectiveness of the district's career and technology program.

(c) Based on a school district's performance under Subsection

(b), the commissioner shall:

(1) assign each district an accreditation status; or

(2) revoke the accreditation of the district and order closure of the district.

(d) A school district's accreditation status may be raised or lowered based on the district's performance or may be lowered based on the performance of one or more campuses in the district that is below a standard required under this subchapter.

(e) The commissioner shall notify a school district that receives an accreditation status of accredited-warned or accredited-probation or a campus that performs below a standard required under this subchapter that the performance of the district or campus is below a standard required under this subchapter. The commissioner shall require the district to notify the parents of students enrolled in the district and property owners in the district of the district's accreditation status and the implications of that accreditation status.

(f) A school district that is not accredited may not receive funds from the agency or hold itself out as operating a public school of this state.

(g) This chapter may not be construed to invalidate a diploma awarded, course credit earned, or grade promotion granted by a school district before the commissioner revoked the district's accreditation.

Sec. 39.053. PERFORMANCE INDICATORS: ACHIEVEMENT. (a) The commissioner shall adopt a set of indicators of the quality of learning and achievement, including the indicators under Subsection (c). The commissioner periodically shall review the indicators for the consideration of appropriate revisions.

(a-1) The indicators adopted by the commissioner under Subsection (a) must measure and evaluate school districts and campuses with respect to:

- (1) improving student preparedness for success in:
  - (A) subsequent grade levels; and
  - (B) entering the workforce, the military, or postsecondary education;
- (2) reducing, with the goal of eliminating, student academic achievement differentials among students from different racial and ethnic groups and socioeconomic backgrounds; and
- (3) informing parents and the community regarding campus and district performance.

(b) Performance on the achievement indicators adopted under Subsection (c) shall be compared to state-established standards. The indicators must be based on information that is disaggregated by race, ethnicity, and socioeconomic status.

(c) School districts and campuses must be evaluated based on three domains of indicators of achievement adopted under this section that include:

- (1) in the student achievement domain, indicators of student achievement that must include:
  - (A) for evaluating the performance of districts and campuses generally:
    - (i) an indicator that accounts for the results of assessment instruments required under Sections 39.023(a), (c), and (1), as applicable for the district and campus, including the results of assessment instruments required for graduation retaken by a student, aggregated across grade levels by subject area, including:
      - (a) for the performance standard determined by the commissioner under Section 39.0241(a), the percentage of students who performed satisfactorily on the assessment instruments, aggregated across grade levels by subject area; and
      - (b) for the college readiness performance standard as determined under Section 39.0241, the percentage of students who performed satisfactorily on the assessment instruments,

aggregated across grade levels by subject area; and

(ii) an indicator that accounts for the results of assessment instruments required under Section 39.023(b), as applicable for the district and campus, including the percentage of students who performed satisfactorily on the assessment instruments, as determined by the performance standard adopted by the agency, aggregated across grade levels by subject area; and

(B) for evaluating the performance of high school campuses and districts that include high school campuses, indicators that account for:

(i) students who satisfy the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board under Section 51.334 on an assessment instrument in reading or mathematics designated by the coordinating board under that section;

(ii) students who satisfy relevant performance standards on advanced placement tests or similar assessments;

(iii) students who earn dual course credits in the dual credit courses;

(iv) students who enlist in the armed forces of the United States or the Texas National Guard;

(v) students who earn industry certifications;

(vi) students admitted into postsecondary industry certification programs that require as a prerequisite for entrance successful performance at the secondary level;

(vii) students whose successful completion of a course or courses under Section 28.014 indicates the student's preparation to enroll and succeed, without remediation, in an entry-level general education course for a baccalaureate degree or associate degree;

(viii) students who successfully met standards on a composite of indicators that through research indicates the student's preparation to enroll and succeed, without remediation, in an entry-level general education course for a baccalaureate degree or associate degree;

(ix) high school graduation rates, computed in accordance with standards and definitions adopted in compliance with the Every Student Succeeds Act (20 U.S.C. Section 6301 et seq.) subject to the exclusions provided by Subsections (g), (g-1), (g-2), (g-3), and (g-4);

(x) students who successfully completed an OnRamps dual enrollment course;

(xi) students who successfully completed a practicum or internship approved by the State Board of Education;

(xii) students who are awarded an associate degree; and

(xiii) students who successfully completed a program of study in career and technical education;

(2) in the school progress domain, indicators for effectiveness in promoting student learning, which must include:

(A) for assessment instruments, including assessment instruments under Subdivisions (1)(A)(i) and (ii), the percentage of students who met the standard for improvement, as determined by the commissioner; and

(B) for evaluating relative performance, the performance of districts and campuses compared to similar districts or campuses; and

(3) in the closing the gaps domain, the use of disaggregated data to demonstrate the differentials among students from different racial and ethnic groups, socioeconomic backgrounds, and other factors, including:

(A) students formerly receiving special education services;

(B) students continuously enrolled; and

(C) students who are mobile.

(c-1) An indicator adopted under Subsection (c) that would measure improvements in student achievement cannot negatively affect the commissioner's review of a school district or campus if that district or campus is already achieving at the highest level for that indicator.

(c-2) The commissioner by rule shall determine a method by which a student's performance may be included in determining the performance rating of a school district or campus under Section 39.054 if, before the student graduates, the student:

(1) satisfies the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board under Section 51.334 on an assessment instrument designated by the coordinating board under that section; or

(2) performs satisfactorily on an assessment instrument under Section 39.023(c), notwithstanding Subsection (d) of this

section.

(c-3) Any standard for improvement determined by the commissioner as described by Subsection (c)(2)(A) must allow for appropriately crediting a student for growth if the student performs at the highest achievement standard in the previous and current school year.

(d) For purposes of Subsection (c), the commissioner by rule shall determine the period within which a student must retake an assessment instrument for that assessment instrument to be considered in determining the performance rating of the district under Section 39.054.

(d-1) In aggregating results of assessment instruments across grade levels by subject in accordance with Subsection (c)(1)(A)(i), the performance of a student enrolled below the high school level on an assessment instrument required under Section 39.023(c) is included with results relating to other students enrolled at the same grade level.

(e) For purposes of Subsection (c)(3)(A), a student formerly receiving special education services means a student whose enrollment information:

(1) for the preceding school year, as reported through the Public Education Information Management System (PEIMS), indicates the student was enrolled at the campus and was participating in a special education program; and

(2) for the current school year, as reported through the Public Education Information Management System (PEIMS) and as reported on assessment instruments administered to the student under Section 39.023, indicates the student is enrolled at the campus and is not participating in a special education program.

(f) Annually, the commissioner shall define the state standard for the current school year for each achievement indicator adopted under this section. In consultation with educators, parents, and business and industry representatives, as necessary, the commissioner shall establish and modify standards to continuously improve student performance to achieve the goals of eliminating achievement gaps based on race, ethnicity, and socioeconomic status and to ensure this state is a national leader in preparing students for postsecondary success.

(g) In computing dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the

commissioner may not consider as a dropout a student whose failure to attend school results from:

- (1) the student's expulsion under Section 37.007; and
- (2) as applicable:

- (A) adjudication as having engaged in delinquent conduct or conduct indicating a need for supervision, as defined by Section 51.03, Family Code; or

- (B) conviction of and sentencing for an offense under the Penal Code.

(g-1) In computing dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the commissioner shall exclude:

- (1) students who are ordered by a court to attend a high school equivalency certificate program but who have not yet earned a high school equivalency certificate;

- (2) students who were previously reported to the state as dropouts, including a student who is reported as a dropout, reenrolls, and drops out again, regardless of the number of times of reenrollment and dropping out;

- (3) students in attendance who are not in membership for purposes of average daily attendance;

- (4) students whose initial enrollment in a school in the United States in grades 7 through 12 was as an unschooled asylee or refugee as defined by Section 39.027(a-1);

- (5) students who are detained at a county pre-adjudication or post-adjudication juvenile detention facility and:

- (A) in the district exclusively as a function of having been detained at the facility but are otherwise not students of the district in which the facility is located; or

- (B) provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility;

- (6) students who are incarcerated in state jails and federal penitentiaries as adults and as persons certified to stand trial as adults; and

- (7) students who have suffered a condition, injury, or illness that requires substantial medical care and leaves the student:

- (A) unable to attend school; and

- (B) assigned to a medical or residential treatment

facility.

(g-2) In computing completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the commissioner shall exclude students who:

(1) are at least 18 years of age as of September 1 of the school year as reported for the fall semester Public Education Information Management System (PEIMS) submission and have satisfied the credit requirements for high school graduation;

(2) have not completed their individualized education program under 19 T.A.C. Section 89.1070(b)(2) and the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.); and

(3) are enrolled and receiving individualized education program services.

(g-3) In the computation of dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), a student who is released from a juvenile pre-adjudication secure detention facility or juvenile post-adjudication secure correctional facility and fails to enroll in school or a student who leaves a residential treatment center after receiving treatment for fewer than 85 days and fails to enroll in school may not be considered to have dropped out from the school district or campus serving the facility or center unless that district or campus is the one to which the student is regularly assigned. The agency may not limit an appeal relating to dropout computations under this subsection.

(g-4) For purposes of the computation of dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the commissioner shall exclude a student who was reported as having dropped out of school under Section 48.009(b-4), and the student may not be considered to have dropped out from the school district or campus in which the student was last enrolled.

(h) Each school district shall cooperate with the agency in determining whether a student is a dropout for purposes of accreditation and evaluating performance by school districts and campuses under this chapter.

(i) Each school district shall submit the data required for the indicators adopted under this section to the commissioner.

Sec. 39.054. METHODS AND STANDARDS FOR EVALUATING PERFORMANCE.

(a) Except as provided by Subsection (a-4), the commissioner shall adopt rules to evaluate school district and campus performance and assign each district and campus an overall performance rating of A, B, C, D, or F. In addition to the overall performance rating, the commissioner shall assign each district and campus a separate domain performance rating of A, B, C, D, or F for each domain under Section 39.053(c). An overall or domain performance rating of A reflects exemplary performance. An overall or domain performance rating of B reflects recognized performance. An overall or domain performance rating of C reflects acceptable performance. An overall or domain performance rating of D reflects performance that needs improvement. An overall or domain performance rating of F reflects unacceptable performance. A district may not receive an overall or domain performance rating of A if the district includes any campus with a corresponding overall or domain performance rating of D or F. If a school district has been approved under Section 39.0544 to assign campus performance ratings and the commissioner has not assigned a campus an overall performance rating of D or F, the commissioner shall assign the campus an overall performance rating based on the school district assigned performance rating under Section 39.0544.

(a-1) For purposes of assigning an overall performance rating for a district or campus under Subsection (a), the commissioner shall:

(1) consider either the district's or campus's performance rating under the student achievement domain under Section 39.053(c)(1) or the school progress domain under Section 39.053(c)(2), whichever performance rating is higher, unless the district or campus received a performance rating of F in either

domain, in which case the district or campus may not be assigned a performance rating higher than a B for the composite for the two domains; and

(2) attribute not less than 30 percent of the performance rating to the closing the gaps domain under Section 39.053(c)(3).

(a-2) The commissioner by rule may adopt procedures to ensure that a repeated performance rating of D or F or unacceptable in one domain, particularly performance that is not significantly improving, is reflected in the overall performance rating of a district or campus under this section or a campus under Section 39.0544 and is not compensated for by a performance rating of A, B, or C in another domain.

(a-3) Not later than August 15 of each year, the following information shall be made publicly available as provided by rules adopted under this section:

(1) the performance ratings for each school district and campus; and

(2) if applicable, the number of consecutive school years of unacceptable performance ratings for each district and campus.

(a-4) Notwithstanding any other law, the commissioner may assign a school district or campus an overall performance rating of "Not Rated" if the commissioner determines that the assignment of a performance rating of A, B, C, D, or F would be inappropriate because:

(1) the district or campus is located in an area that is subject to a declaration of a state of disaster under Chapter 418, Government Code, and due to the disaster, performance indicators for the district or campus are difficult to measure or evaluate and would not accurately reflect quality of learning and achievement for the district or campus;

(2) the district or campus has experienced breaches or other failures in data integrity to the extent that accurate analysis of data regarding performance indicators is not possible;

(3) the number of students enrolled in the district or campus is insufficient to accurately evaluate the performance of the district or campus; or

(4) for other reasons outside the control of the district or campus, the performance indicators would not accurately reflect quality of learning and achievement for the district or campus.

(a-5) Notwithstanding any other law, an overall performance

rating of "Not Rated" is not included in calculating consecutive school years of unacceptable performance ratings and is not considered a break in consecutive school years of unacceptable performance ratings for purposes of any provision of this code.

(b) For purposes of assigning school districts and campuses an overall and a domain performance rating under Subsection (a), the commissioner shall ensure that the method used to evaluate performance is implemented in a manner that provides the mathematical possibility that all districts and campuses receive an A rating.

(b-1) Consideration of the effectiveness of district programs under Section 39.052(b)(2)(B) or (C):

(1) must:

(A) be based on data collected through the Public Education Information Management System (PEIMS) for purposes of accountability under this chapter; and

(B) include the results of assessments required under Section 39.023; and

(2) may be based on the results of a special investigation conducted under Section 39.003.

(c) Repealed by Acts 2017, 85th Leg., R.S., Ch. 807 (H.B. 22), Sec. 19(1), eff. September 1, 2017.

(d) Repealed by Acts 2015, 84th Leg., R.S., Ch. 1094 , Sec. 22, eff. June 19, 2015.

(d-1) Repealed by Acts 2015, 84th Leg., R.S., Ch. 1094 , Sec. 22, eff. June 19, 2015.

(e) Each annual performance review under this section shall include an analysis of the achievement indicators adopted under Section 39.053, including Subsection (c) of that section, to determine school district and campus performance in relation to standards established for each indicator.

Sec. 39.0542. EXPLANATORY MATERIALS FOR ACCOUNTABILITY RATING SYSTEM. (a) Each school year, the commissioner shall provide each school district a document in a simple, accessible format that explains the accountability performance measures, methods, and procedures that will be applied for that school year in assigning each school district and campus a performance rating under Section 39.054.

(b) The document provided under Subsection (a) must be provided in a format that a school district is able to easily distribute to parents of students enrolled in the district and other interested members of the public.

(c) The commissioner, in collaboration with interested stakeholders, shall develop standardized language for each domain that does not exceed 250 words and that clearly describes the annual status of a district and campus relating to district and campus performance on the indicators used for that domain to determine the

letter performance rating assigned to a district and campus.

prior to the 2018-2019 school year shall not be considered.

(b-3) Subsections (b-1) and (b-2) and this subsection expire September 1, 2027.

Sec. 39.0544. LOCAL ACCOUNTABILITY SYSTEM. (a) The commissioner shall adopt rules regarding the assignment of campus performance ratings by school districts and open-enrollment charter schools. The rules:

(1) must require a district or school, in assigning an overall performance rating for a campus, to incorporate:

(A) domain performance ratings assigned by the commissioner under Section 39.054; and

(B) performance ratings based on locally developed domains or sets of accountability measures;

(2) may permit a district or school to assign weights to each domain or set of accountability measures described in Subdivision (1), as determined by the district or school, provided that the domains specified in Subdivision (1)(A) must in the aggregate account for at least 50 percent of the overall performance rating;

(3) must require that each locally developed domain or set of accountability measures:

(A) contains levels of performance that allow for differentiation, with assigned standards for achieving the differentiated levels;

(B) provides for the assignment of a letter grade of A, B, C, D, or F; and

(C) meets standards for reliability and validity;

(4) must require that calculations for overall performance ratings and each locally developed domain or set of accountability measures be capable of being audited by a third party;

(5) must require that a district or school produce a campus score card that may be displayed on the agency's website; and

(6) must require that a district or school develop and make available to the public an explanation of the methodology used to assign performance ratings under this section.

(b) The commissioner shall develop a process to approve a request by a school district or open-enrollment charter school to assign campus performance ratings in accordance with this section. Under that process, a district or school must obtain approval of a local accountability plan submitted by the district or school to the agency. A plan may be approved only if:

(1) after review, the agency determines the plan meets the minimum requirements under this section and agency rule;

(2) at the commissioner's discretion, an audit conducted by the agency verifies the calculations included in the plan; and

(3) subject to Subsection (d), a review panel appointed under Subsection (c) approves the plan.

(c) The commissioner shall appoint a review panel for purposes of Subsection (b)(3) that includes a majority of members who are superintendents or members of the board of trustees or governing body of school districts or open-enrollment charter schools with approved local accountability plans.

(d) The requirement under Subsection (b)(3) applies only after performance ratings are issued in August 2019 and only if at least 10 school districts or open-enrollment charter schools have obtained approval of locally developed accountability plans.

(e) A school district or open-enrollment charter school authorized under this section to assign campus performance ratings shall evaluate the performance of each campus as provided by this section and assign each campus a performance rating of A, B, C, D, or F for overall performance and for each locally developed domain or set of accountability measures. Not later than a date established by the commissioner, the district or school shall:

For expiration of this section, see Subsection (g).

Sec. 39.0545. ALTERNATIVE METHODS AND STANDARDS FOR EVALUATING PERFORMANCE FOR 2020-2021 SCHOOL YEAR. (a) This section applies to a campus:

(1) that meets the participation requirements for all students in all subject areas for the annual measurement of achievement under Section 1111, Every Student Succeeds Act (20 U.S.C. Section 6311(c)(4)(E)); and

(2) to which the most recent performance rating assigned, other than a "Not Rated" rating, is a D, F, or performance that needs improvement.

(b) Notwithstanding any other law, the commissioner shall adopt rules to develop and implement alternative methods and standards for evaluating the performance for the 2020-2021 school year of a campus to which this section applies. The rules adopted under this section must evaluate a campus under the domains of indicators of achievement listed in Sections 39.053(c)(1) and (2).

(c) The commissioner shall review a campus to which this section applies under the alternative methods and standards adopted under Subsection (b) on the request of the school district in which the campus is located made by the deadline established by commissioner rule.

(d) An acceptable performance rating assigned under the alternative methods and standards adopted by the commissioner under Subsection (b) is considered a break in consecutive school years of unacceptable performance ratings under this code.

(e) If the commissioner determines that the campus would not be assigned an acceptable performance rating, the commissioner shall instead assign the campus a rating of "Not Rated."

(f) This section does not apply to an intervention ordered on the basis of consecutive school years of unacceptable performance ratings accrued before the effective date of this section.

(g) This section expires September 1, 2027.

Added by Acts 2021, 87th Leg., R.S., Ch. 1046 (S.B. [1365](#)), Sec. 2.08, eff. September 1, 2021.

For expiration of this section, see Subsection (d).

Sec. 39.0546. COVID-19 RECOVERY ACCOUNTABILITY FOR 2021-2022 SCHOOL YEAR. (a) Notwithstanding any other law, the commissioner shall assign to a school district or campus a rating of "Not Rated" for the 2021-2022 school year, unless, after reviewing the district or campus under the methods and standards adopted under Section 39.054, the commissioner determines the district or campus should be assigned an overall performance rating of C or higher.

(b) Regardless of the rating assigned under this section, if the commissioner would have otherwise assigned a campus an unacceptable performance rating, the campus is considered to be a campus assigned an unacceptable performance rating for purposes of determining a student's eligibility for a public education grant under Section 29.202.

(c) Notwithstanding any other law, the commissioner shall take an action described by Section 39A.111(1) or (2) if a campus:

(1) is not assigned an overall performance rating of C or higher for the 2021-2022 school year; and

(2) has been assigned an unacceptable performance rating for five or more school years prior to the 2021-2022 school year.

(d) This section expires September 1, 2028.

Sec. 39.0548. EVALUATING DROPOUT RECOVERY SCHOOLS. (a) For purposes of evaluating performance under Section 39.053(c), the commissioner shall designate as a dropout recovery school a school district or an open-enrollment charter school or a campus of a district or of an open-enrollment charter school:

(1) that:

(A) serves students in grades 9 through 12 and has an enrollment of which at least 60 percent of the students are 16 years of age or older as of September 1 of the school year as reported for the fall semester Public Education Information Management System (PEIMS) submission; or

(B) applies for and receives designation as a dropout

recovery school in accordance with commissioner rule; and

(2) that meets the eligibility requirements for and is registered under alternative education accountability procedures adopted by the commissioner.

(b) Notwithstanding Section 39.053(c)(1)(B)(ix), the commissioner shall use the alternative completion rate under this subsection to determine the graduation rate indicator under Section 39.053(c)(1)(B)(ix) for a dropout recovery school. The alternative completion rate shall be the ratio of the total number of students who graduate, continue attending school into the next academic year, or receive a high school equivalency certificate to the total number of students in the longitudinal cohort of students.

(c) Notwithstanding Section 39.053(c)(1)(B)(ix), in determining the performance rating under Section 39.054 of a dropout recovery school, the commissioner shall include any student described by Section 39.053(g-1) who graduates or receives a high school equivalency certificate.

(d) Notwithstanding Section 39.053(c), for purposes of evaluating a dropout recovery school under the accountability procedures adopted by the commissioner to determine the performance rating of the school under Section 39.054, only the best result from the primary administration or any retake of an assessment instrument administered to a student in the school year evaluated may be considered.

Sec. 39.082. DEVELOPMENT AND IMPLEMENTATION. (a) The commissioner shall, in consultation with the comptroller, develop and implement separate financial accountability rating systems for school districts and open-enrollment charter schools in this state that:

- (1) distinguish among school districts and distinguish among open-enrollment charter schools, as applicable, based on levels of financial performance;
- (2) include procedures to:
  - (A) provide additional transparency to public education finance; and
  - (B) enable the commissioner and school district and open-enrollment charter school administrators to provide meaningful financial oversight and improvement; and
- (3) include processes for anticipating the future financial solvency of each school district and open-enrollment charter school,

including analysis of district and school revenues and expenditures for preceding school years.

(b) The system must include uniform indicators adopted by commissioner rule by which to measure the financial management performance and future financial solvency of a district or open-enrollment charter school. In adopting indicators under this subsection, the commissioner shall assign a point value to each indicator to be used in a scoring matrix developed by the commissioner. Any reference to a teacher in an indicator adopted by the commissioner under this subsection means a classroom teacher.

(c) The system may not include an indicator under Subsection (b) or any other performance measure that:

(1) requires a school district to spend at least 65 percent or any other specified percentage of district operating funds for instructional purposes; or

(2) lowers the financial management performance rating of a school district for failure to spend at least 65 percent or any other specified percentage of district operating funds for instructional purposes.

(c-1) The system may not include an indicator under Subsection (b) or any other performance measure that penalizes a school district for failure to collect the amount of taxes equal to the total amount of tax refunds provided under Section 26.1115(c), Tax Code.

(d) The commissioner shall evaluate indicators adopted under Subsection (b) at least once every three years.

(e) Under the financial accountability rating system developed under this section, each school district or open-enrollment charter school, as applicable, shall be assigned a financial accountability rating. In adopting rules under this section, the commissioner, in consultation with the comptroller, shall determine the criteria for each designated performance rating.

(e-1) The financial performance of a charter school operated by a public institution of higher education under Subchapter D or E, Chapter 12, shall be evaluated using only the indicators adopted under this section determined by the commissioner by rule as appropriate to accurately measure the financial performance of such charter schools.

(f) A district or open-enrollment charter school shall receive the lowest rating under the system if the district or school fails to achieve a satisfactory rating on:

(1) an indicator adopted under Subsection (b) relating to financial management or solvency that the commissioner determines to be critical; or

(2) a category of indicators that suggest trends leading to financial distress as determined by the commissioner.

(g) Before assigning a final rating under the system, the commissioner shall assign each district or open-enrollment charter school a preliminary rating. A district or school may submit additional information to the commissioner relating to any indicator on which performance was considered unsatisfactory. The commissioner shall consider any additional information submitted by a district or school before assigning a final rating. If the commissioner determines that the additional information negates the concern raised by the indicator on which performance was considered unsatisfactory, the commissioner may not penalize the district or school on the basis of the indicator.

(h) The commissioner shall adopt rules for the implementation of this section.

(i) Not later than August 8 of each year, the financial accountability rating of each school district and open-enrollment charter school under the financial accountability rating system developed under this section shall be made publicly available as provided by rules adopted under this section.

In identifying districts and campuses under this section, the

comptroller shall:

(1) evaluate existing academic accountability and financial data by integrating the data;

(2) rank the results of the evaluation under Subdivision (1) to identify the relative performance of districts and campuses; and

(3) identify potential areas for district and campus improvement.

Sec. 43.007. PURCHASE AND SALE OR EXCHANGE OF SECURITIES. (a) The State Board of Education may authorize the purchase of all of the types of securities in which it is authorized by law to invest the permanent school fund in either registered or negotiable form. The board may authorize the reissue of those securities held at any time for the account of the permanent school fund in either registered or

negotiable form. The State Board of Education may authorize the sale of any of the securities held for the account of the permanent school fund and reinvest the proceeds of sale for the fund and may authorize the exchange of any of the securities held for the account of the permanent school fund.

(b) In making purchases, sales, exchanges, and reissues, the State Board of Education shall exercise the judgment and care under the circumstances then prevailing that persons of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital.

(c) When any securities are sold, reissued, or exchanged as provided by Subsection (a), the custodian of the securities shall deliver the securities sold, reissued, or exchanged in accordance with the directions of the State Board of Education.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 43.009. PREPAYMENT OF CERTAIN BONDS HELD BY THE PERMANENT SCHOOL FUND. (a) The State Board of Education may authorize the governing body of any political subdivision in this state to pay off and discharge, at any interest paying date whether the bonds are matured or not, all or any part of any outstanding bond indebtedness owned by the permanent school fund.

(b) The governing body of a political subdivision desiring to pay off and discharge any bonded indebtedness owned by the fund shall apply in writing to the State Board of Education, not later than the 30th day before any interest paying date on the bonds, describing the bonds or part of the bonds it desires to pay off and discharge. The application must be accompanied by an affidavit stating that only tax money collected from a tax levy made for the specific purpose of providing a sinking fund and paying interest on the particular bonds to be redeemed will be spent in redeeming, taking up, or paying off the bonds.

(c) The State Board of Education, on receiving the application and affidavit, shall take action on them in the manner it considers best and shall notify the applicant whether the application is refused or granted in whole or in part.

(d) A person who has a duty under this section may not give or receive any commission, premium, or compensation for the performance of that duty.

(e) Only tax money collected from tax levies made for the specific purpose of providing a sinking fund and paying interest on the particular bonds to be redeemed may be spent in redeeming, taking up, or paying off of bonds as provided by this section, unless the bonds are being redeemed for the purpose of being refunded.

Sec. 43.010. DEFAULT OF SCHOOL DISTRICT SECURITIES HELD BY THE PERMANENT SCHOOL FUND. (a) If interest or principal has not been paid for two years or more on any bonds issued by any school district and held by the permanent school fund, the State Board of Education may:

(1) compel the district to levy a tax sufficient to meet the interest and principal payments then or later due; or

(2) if the district furnishes to the State Board of Education satisfactory proof that the district's taxing ability is insufficient, require the district to:

(A) exhaust all legal remedies in collecting delinquent taxes; and

(B) levy a tax at the maximum lawful rate on the bona fide valuation of taxable property located in the district.

(b) Revenue collected by either method specified by Subsection (a) shall be distributed proportionately to all owners of the defaulted securities in compliance with the following:

(1) the proportionate share for each owner is based on the interest and principal requirements of the original security before authorized refunding; and

(2) prior acceptance of refunding securities does not reduce an owner's proportionate share.

(c) As long as any school district is delinquent in its payments of principal or interest on any of its bonds owned by the permanent school fund, the State Board of Education may specify the method of crediting payments to the state made by the district as to principal and interest.

(d) The comptroller may not issue any warrant from the

foundation school fund to or for the benefit of any district that has been for as long as two years in default in the payment of principal or interest on any security owned by the permanent school fund until the State Board of Education certifies that the district has satisfactorily complied with the appropriate provisions of this section, in which event the comptroller shall resume making payments to or for the benefit of the district, including the making of pretermitted payments.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 43.011. AUTHORIZED REFUNDING OF DEFAULTED SCHOOL BONDS.

(a) In compliance with this section, the State Board of Education may revise, readjust, modify, refinance, or refund defaulted bonds issued by any school district in this state and owned by either the permanent school fund or the available school fund.

(b) Application must be made to the State Board of Education by the district that issued the bonds and must show that:

(1) delinquent interest totals at least 50 percent of the principal amount of the bonds; and

(2) taxable valuation has decreased to such an extent that a full application of the proceeds of the voted authorized tax authorized to be levied on the \$100 taxable property valuation will not meet interest and principal annually maturing on the bonds.

(c) The State Board of Education may effect a refunding of the debt due and to become due only if the board finds that:

(1) the district is unable to pay the sums already matured and the sums contracted to be paid as they mature by paying annually to the State Board of Education the full proceeds of a 50-cent tax levy on the \$100 of all taxable valuation of property in the district;

(2) the taxable valuation of property in the district has decreased at least 75 percent since the bonds were issued and that the decrease was not caused by the district or any of its officials;

(3) the district for a period of at least five years before applying to the State Board of Education for refunding has levied a tax of 50 cents on the \$100 of taxable valuation of property in the district, and that despite such levies, the aggregate amount due the State Board of Education exceeds the aggregate amount due at the

beginning of the period;

(4) the district has not authorized and sold additional bonds during the five-year period immediately preceding the application; and

(5) the district has in good faith endeavored to pay its debt in accordance with the contract evidenced by the bonds held for the account of the permanent school fund or the available school fund.

(d) If the conditions specified by Subsection (c) are found to exist, the district is, for purposes of this section, insolvent, and the State Board of Education may exchange the bonds, interest coupons, and other evidences of indebtedness for new refunding bonds of the district issued in compliance with the following:

(1) the principal amount of the refunding bonds may not be less than the total amount of the bonds, matured interest coupons, accrued interest, and interest on delinquent interest then actually due to the permanent school fund or the available school fund; and

(2) the rate of interest to be borne by the refunding bonds may be lower than that borne by the bonds to be refunded if in consideration of the interest reduction the district agrees to levy a tax each year for a period of 40 years at a rate sufficient to produce annually a sum equal to 90 percent of the amount that can be calculated by the levy of a tax at the rate of 50 cents on the \$100 of taxable valuation of property as determined by the latest approved tax roll of the district, and in determining the rate of interest to be borne by the refunding bonds, the State Board of Education shall be governed by the following:

(A) the State Board of Education may require the rate to be a percent per annum as in its judgment will represent the maximum rate that can be paid by the district and still permit an orderly and certain retirement of the refunding bonds within 40 years from their date;

(B) the interest rate of refunding bonds to be received in exchange for bonds owned by the permanent school fund may not be less than the minimum rate at which bonds may then be purchased as investments for the permanent school fund; and

(C) the rate of interest of refunding bonds to be received in exchange for bonds owned by the available school fund may be set by the State Board of Education at any rate the board considers feasible, and the refunding bonds may, at the discretion of

the State Board of Education, be made non-interest bearing to a date fixed by the board.

(e) The State Board of Education may not make a revision, readjustment, modification, refinancing, or refunding that will release or extinguish any debt or obligation then due and payable to the permanent school fund or to the available school fund.

(f) Except as otherwise provided or permitted by this section, the refunding of the bonds of school districts authorized by this section must be in compliance with the general provisions with regard to the refunding of school district bonds.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 43.012. REFUNDING OTHER DEFAULTED OBLIGATIONS. (a) Defaulted obligations, other than bonds of school districts as provided by Section 43.011, due the available school fund may be refinanced or refunded with the approval of the State Board of Education in compliance with this section.

(b) In this section, "defaulted obligations" includes delinquent interest whether represented by coupons or not, interest on delinquent interest, and any other form of obligation due the available school fund.

(c) The obligor must apply to the State Board of Education and show:

(1) that the obligations due the available school fund have been in default in whole or in part for a continuous period of at least 15 years; and

(2) that the obligor is not in default in the payment of the principal of any bonds owned by the permanent school fund.

(d) If the State Board of Education finds that the requirements provided by Subsection (c) have been met, it may approve a refinancing or the issuance of refunding bonds on the conditions:

(1) that the refunding bonds must mature serially in not exceeding 40 years from the date of issuance;

(2) that the principal amount of the refunding bonds may be not less than the total amount of the obligations then in default and due the available school fund; and

(3) that the refunding bonds must bear interest at a rate or rates determined by the State Board of Education to be for the

best interest of the available school fund.

(e) The State Board of Education may accept refunding bonds in lieu of either matured or unmatured bonds held for the benefit of the permanent school fund if the rate of interest on the new refunding bonds is at least the same rate as that of the bonds being refunded.

(f) Refunding bonds issued with the approval or pursuant to a refunding agreement with the State Board of Education in compliance with either this section or Section 43.011 shall, on the order of the State Board of Education, be exchanged by the comptroller for the defaulted obligations they have been issued to refund.

The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited." The statement of the purpose of the meeting must be in bold type. In reduced type, the notice must state: "The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and comparisons set out below and holds another public meeting to discuss the revised notice." In addition, in reduced type, the notice must state: "Visit [Texas.gov/PropertyTaxes](https://www.texas.gov/PropertyTaxes) to find a link to your local property tax database on which you can easily access information regarding your property taxes, including information about proposed tax rates and scheduled public hearings of each entity that taxes your property.";

- (A) maintenance and operations;
- (B) debt service; and
- (C) total expenditures;

(3) contain a section entitled "Total Appraised Value and Total Taxable Value," which must show the total appraised value and the total taxable value of all property and the total appraised value and the total taxable value of new property taxable by the district in the preceding tax year and the current tax year as calculated under Section 26.04, Tax Code;

(b) in the case of "Interest & Sinking Fund," is the tax rate that, when applied to the current taxable value for the district, as certified by the chief appraiser under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, and when multiplied by the district's anticipated collection rate, would impose taxes in an amount that, when added to state funds to be distributed to the district under Chapter 46 and any excess taxes collected to service

the district's debt during the preceding tax year but not used for that purpose during that year, would provide the amount required to service the district's debt; and

(iii) the "Proposed Rate";

(B) contain fourth and fifth columns aligned with the columns required by Paragraph (A) that show, for each row required by Paragraph (A):

(i) the "Local Revenue per Student," which is computed by multiplying the district's total taxable value of property, as certified by the chief appraiser for the applicable school year under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, by the total tax rate, and dividing the product by the number of students in average daily attendance in the district for the applicable school year; and

(ii) the "State Revenue per Student," which is computed by determining the amount of state aid received or to be received by the district under Chapters 43, 46, and 48 and dividing that amount by the number of students in average daily attendance in the district for the applicable school year; and

(C) contain an asterisk after each calculation for "Interest & Sinking Fund" and a footnote to the section that, in reduced type, states "The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, were approved by the voters of this district.";

(6) contain a section entitled "Comparison of Proposed Levy with Last Year's Levy on Average Residence," which must:

(i) "Average Market Value of Residences," determined using the same group of residences for each year;

(ii) "Average Taxable Value of Residences," determined after taking into account the limitation on the appraised value of residences under Section 23.23, Tax Code, and after subtracting all homestead exemptions applicable in each year, other than exemptions available only to disabled persons or persons 65 years of age or older or their surviving spouses, and using the same group of residences for each year;

(iii) "Last Year's Rate Versus Proposed Rate per \$100 Value"; and

(iv) "Taxes Due on Average Residence," determined using the same group of residences for each year; and

(B) contain the following information: "Increase (Decrease) in Taxes" expressed in dollars and cents, which is computed by subtracting the "Taxes Due on Average Residence" for the preceding tax year from the "Taxes Due on Average Residence" for the current tax year;

(7) contain the following statement in bold print: "Under state law, the dollar amount of school taxes imposed on the residence of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.";

(8) contain the following statement in bold print: "Notice of Voter-Approval Rate: The highest tax rate the district can adopt before requiring voter approval at an election is (the school district voter-approval rate determined under Section 26.08, Tax Code). This election will be automatically held if the district adopts a rate in excess of the voter-approval rate of (the school district voter-approval rate)."; and

(9) contain a section entitled "Fund Balances," which must include the estimated amount of interest and sinking fund balances and the estimated amount of maintenance and operation or general fund balances remaining at the end of the current fiscal year that are not encumbered with or by corresponding debt obligation, less estimated funds necessary for the operation of the district before the receipt of the first payment under Chapter 48 in the succeeding school year.

(c-1) The notice described by Subsection (c) must state in a distinct row or on a separate or individual line for each of the following taxes:

(1) the proposed rate of the school district's maintenance tax described by Section 45.003, under the heading "Maintenance Tax"; and

(c-2) The notice described by Subsection (c) must include a statement that a school district may not increase the district's maintenance and operations tax rate to create a surplus in maintenance and operations tax revenue for the purpose of paying the district's debt service.

(d) The comptroller shall prescribe the language and format to be used in the part of the notice required by Subsection (c). A notice under Subsection (c) is not valid if it does not substantially conform to the language and format prescribed by the comptroller under this subsection.

(e) A person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by the district if the district has not complied with the requirements of Subsections (b), (c), (c-1), (c-2), and (d), and, if applicable, Subsection (i), and the failure to comply was not in good faith. An action to enjoin the collection of taxes must be filed before the date the district delivers substantially all of its tax bills.

(f) The board of trustees, at the meeting called for that purpose, shall adopt a budget to cover all expenditures for the school district for the next succeeding fiscal year. Any taxpayer of the district may be present and participate in the meeting.

(g) The budget must be adopted before the adoption of the tax rate for the tax year in which the fiscal year covered by the budget begins.

(g-1) If the rate calculated under Subsection (c)(5)(A)(ii)(b) decreases after the publication of the notice required by this section, the president is not required to publish another notice or call another meeting to discuss and adopt the budget and the proposed lower tax rate.

(h) Notwithstanding any other provision of this section, a school district with a fiscal year beginning July 1 may use the certified estimate of the taxable value of district property required by Section 26.01(e), Tax Code, in preparing the notice required by this section if the district does not receive on or before June 7 the certified appraisal roll for the district required by Section 26.01(a), Tax Code.

(i) A school district that uses a certified estimate, as authorized by Subsection (h), may adopt a budget at the public meeting designated in the notice prepared using the estimate, but the district may not adopt a tax rate before the district receives the

certified appraisal roll for the district required by Section 26.01(a), Tax Code. After receipt of the certified appraisal roll, the district must publish a revised notice and hold another public meeting before the district may adopt a tax rate that exceeds:

(1) the rate proposed in the notice prepared using the estimate; or

(2) the district's voter-approval rate determined under Section 26.08, Tax Code, using the certified appraisal roll.

(j) Notwithstanding Subsections (g), (h), and (i), a school district may adopt a budget after the district adopts a tax rate for the tax year in which the fiscal year covered by the budget begins if the district elects to adopt a tax rate before receiving the certified appraisal roll for the district as provided by Section 26.05(g), Tax Code. If a school district elects to adopt a tax rate before adopting a budget, the district must publish notice and hold a meeting for the purpose of discussing the proposed tax rate as provided by this section. Following adoption of the tax rate, the district must publish notice and hold another public meeting before the district may adopt a budget. The comptroller shall prescribe the language and format to be used in the notices. The school district may use the certified estimate of taxable value in preparing a notice under this subsection.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see S.B. 1173, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 44.031. PURCHASING CONTRACTS. (a) Except as provided by this subchapter, all school district contracts for the purchase of goods and services, except contracts for the purchase of produce or vehicle fuel, valued at \$50,000 or more in the aggregate for each 12-month period shall be made by the method, of the following methods, that provides the best value for the district:

(1) competitive bidding for services other than construction services;

(2) competitive sealed proposals for services other than construction services;

(3) a request for proposals, for services other than construction services;

(4) an interlocal contract;

(5) a method provided by Chapter 2269, Government Code, for construction services;

- (4) the extent to which the goods or services meet the district's needs;
- (5) the vendor's past relationship with the district;
- (6) the impact on the ability of the district to comply with laws and rules relating to historically underutilized businesses;
- (7) the total long-term cost to the district to acquire the vendor's goods or services;

(b-1) In awarding a contract by competitive sealed bid under this section, a school district that has its central administrative office located in a municipality with a population of less than 250,000 may consider a bidder's principal place of business in the manner provided by Section 271.9051, Local Government Code. This subsection does not apply to the purchase of telecommunications services or information services, as those terms are defined by 47 U.S.C. Section 153.

(c) The state auditor may audit purchases of goods or services by the district.

(d) The board of trustees of the district may adopt rules and procedures for the acquisition of goods or services.

A school district may, at its option, contract for professional services rendered by a financial consultant or a technology consultant in the manner provided by Section 2254.003, Government Code, in lieu of the methods provided by this section.

In a two-step procurement process, the time and place where the second-step bids, proposals, or responses will be received are not required to be published separately.

1

(h) If school equipment, a school facility, or a portion of a school facility is destroyed, severely damaged, or experiences a major unforeseen operational or structural failure, and the board of trustees determines that the delay posed by the contract methods required by this section would prevent or substantially impair the conduct of classes or other essential school activities, then contracts for the replacement or repair of the equipment, school facility, or portion of the school facility may be made by a method other than the methods required by this section.

Text of subsec. (h) as amended by Acts 1999, 76th Leg., ch. 1225,

school activities, then contracts for the replacement or repair of the equipment or the part of the school facility may be made by methods other than those required by this section.

(i) A school district may acquire computers and computer-related equipment, including computer software, through the Department of Information Resources under contracts entered into in accordance with Chapter 2054 or 2157, Government Code. (3) "State's share" means an amount equal to the district's net proceeds from the recovery multiplied by a percentage determined by dividing the amount of state assistance under Subchapter A, Chapter 46, used to pay the principal of and interest on bonds issued in connection with the instructional facility that is the subject of the action by the total amount of principal and interest paid on the bonds as of the date of the judgment or settlement.

(b) A school district that brings an action for recovery of damages for the defective design, construction, renovation, or improvement of a district facility financed by bonds shall provide the commissioner with written notice of the action by registered or certified mail, return receipt requested, not later than the 30th day

(b) Repealed by Acts 2009, 81st Leg., R.S., Ch. 1347, Sec. 5, eff. June 19, 2009.

(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

(d) The board may enter into energy savings performance contracts only with persons who are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

(e) Before entering into an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond relating to the installation of the measures in accordance with Chapter 2253, Government Code. The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

(f) An energy savings performance contract may be financed:

(1) under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing;

(2) with the proceeds of bonds; or

(3) under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

(f-1) Notwithstanding other law, the board may use any available money to pay the provider of the energy or water conservation measures under this section, and the board is not required to pay for such costs solely out of the savings realized by the school district under an energy savings performance contract.

The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

(g) An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the school district under the contract. If the term of an energy savings performance contract exceeds one year, the school district's contractual obligations in any one year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the school district in this subsection, divided by the number of years in the contract term.

(h) An energy savings performance contract shall be let according to the procedures established for procuring certain professional services by Section 2254.004, Government Code. Notice of the request for qualifications shall be published in the manner provided for competitive bidding.

(i) Before entering into an energy savings performance contract, the board must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(b) The plan required under Subsection (a) must include:

(1) strategies for achieving energy efficiency that:

(A) result in net savings for the district; or

(B) can be achieved without financial cost to the district; and

(2) for each strategy identified under Subdivision (1), the initial, short-term capital costs and lifetime costs and savings that may result from implementation of the strategy.

(b-1) For purposes of Subsection (b), a strategy for achieving energy efficiency includes facility design and construction.

(c) In determining under Subsection (b) whether a strategy may result in financial cost to the district, the board of trustees shall consider the total net costs and savings that may occur over the seven-year period following implementation of the strategy.

(d) The board of trustees may submit the plan required under Subsection (a) to the State Energy Conservation Office for the purposes of determining whether funds available through loan programs administered by the office or tax incentives administered by the state or federal government are available to the district. (1) verify the availability and liquidity of the investment funds of a private investor;

(2) evaluate the credentials and effectiveness of an education service provider; and

(3) evaluate the credentials and independence of a third-party evaluator.

(d) Notwithstanding any other law, a school district or open-

enrollment charter school that uses a pay for success program approved by the commissioner is not subject to state procurement requirements that would otherwise apply to the activity funded through the program.

(e) The commissioner, the agency, and agency employees are immune from liability for actions associated with the structuring, approval, or implementation of a pay for success program.

(f) The commissioner may adopt rules as necessary to implement this section.

(a) This section applies only to an independent school district that, at the time of the issuance of obligations and execution of credit agreements under this section, has:

(1) at least 2,000 students in average daily attendance;

or

(2) a combined aggregate principal amount of at least \$50

million of outstanding bonds and voted but unissued bonds.

(b) A district to which this section applies may, in the issuance of bonds as provided by Sections 45.001 and 45.003(b)(1), exercise the powers granted to the governing body of an issuer with regard to the issuance of obligations and execution of credit agreements under Chapter 1371, Government Code.

(c) A proposition to issue bonds to which this section applies must, in addition to meeting the requirements of Section 45.003(b)(1), include the question of whether the governing board or commissioners court may levy, pledge, assess, and collect annual ad valorem taxes, on all taxable property in the district, sufficient, without limit as to rate or amount, to pay the principal of and interest on the bonds and the costs of any credit agreements executed in connection with the bonds.

(d) A district may not issue bonds to which this section applies in an amount greater than the greater of:

(1) 25 percent of the sum of:

(A) the aggregate principal amount of all district debt payable from ad valorem taxes that is outstanding at the time the bonds are issued; and

(B) the aggregate principal amount of all bonds payable from ad valorem taxes that have been authorized but not issued;

The governing board of an independent school district, including the city council or commission that has jurisdiction over a municipally controlled independent school district, the governing board of a rural high school district, and the commissioners court of a county, on behalf of each common school district under its jurisdiction, may levy, assess, and collect annual ad valorem taxes for the further maintenance of public schools in the district, subject to Section 45.003.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.0021. RESTRICTION ON MAINTENANCE TAX LEVY. (a) A school district may not levy the district's maintenance taxes described by Section 45.002 at a rate intended to create a surplus in maintenance tax revenue for the purpose of paying the district's debt service.

(b) A person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by the district if the district adopts a maintenance tax rate in violation of Subsection (a). An action to enjoin the collection of taxes must be filed before the date the district delivers substantially all of the district's tax bills.

(c) The agency shall:

(1) develop a method to identify school districts that may have adopted a maintenance tax rate in violation of Subsection (a), which must include a review of data over multiple years;

(2) for each school district identified under the method developed under Subdivision (1), investigate as necessary to determine whether the district has adopted a maintenance tax rate in violation of Subsection (a);

(3) if the agency determines that a school district has adopted a maintenance tax rate in violation of Subsection (a):

(A) order the district to comply with Subsection (a) not later than three years after the date of the order; and

(B) assist the district in developing a corrective action plan that, to the extent feasible, does not result in a net increase in the district's total tax rate; and

(4) post on the agency's Internet website a list of each school district the agency has determined to have adopted a

maintenance tax rate in violation of Subsection (a).

(d) The implementation of a corrective action plan under Subsection (c)(3)(B) does not prohibit a school district from increasing the district's total tax rate as necessary to achieve other legal purposes.

(e) If a school district fails to take action under a corrective action plan developed under Subsection (c)(3)(B), the commissioner may reduce the district's entitlement under Chapter 48 by an amount equal to the difference between:

(1) the amount of state and local funding the district received as a result of adopting a maintenance tax rate in violation of Subsection (a); and

(2) the amount of state and local funding the district would have received if the district had not adopted a maintenance tax rate in violation of Subsection (a).

(f) This section does not prohibit a school district from:

(1) using a surplus in maintenance tax revenue to pay the district's debt service if:

(A) the district's interest and sinking fund tax revenue is insufficient to pay the district's debt service due to circumstances beyond the district's control; and

(B) the use of the surplus maintenance tax revenue to pay the district's debt service is necessary to prevent a default on the district's debt;

(2) paying a portion of the district's maintenance tax revenue into the tax increment fund for a reinvestment zone under Chapter 311, Tax Code; or

(3) using money disbursed from the tax increment fund for a reinvestment zone under Chapter 311, Tax Code, in accordance with the agreement entered into by the district with the governing body of the municipality or county that designated the zone under Section 311.013(f) of that code.

Sec. 45.003. BOND AND TAX ELECTIONS. (a) Bonds described by Section 45.001 may not be issued and taxes described by Section 45.001 or 45.002 may not be levied unless authorized by a majority of the qualified voters of the district, voting at an election held for that purpose, at the expense of the district, in accordance with the Election Code, except as provided by this section. Each election must be called by resolution or order of the governing board or commissioners court. The resolution or order must state the date of the election, the proposition or propositions to be submitted and voted on, the polling place or places, and any other matters considered necessary or advisable by the governing board or commissioners court.

(b) A proposition submitted to authorize the issuance of bonds must include the question of whether the governing board or commissioners court may levy, pledge, assess, and collect annual ad valorem taxes, on all taxable property in the district, either:

(1) sufficient, without limit as to rate or amount, to pay the principal of and interest on the bonds; or

(2) sufficient to pay the principal of and interest on the bonds, provided that the annual aggregate bond taxes in the district may never be more than the rate stated in the proposition.

(b-1) The ballot proposition under Subsection (b) must include the following statement: "THIS IS A PROPERTY TAX INCREASE."

(c) If bonds are ever voted in a district pursuant to Subsection (b)(1), then all bonds thereafter proposed must be submitted pursuant to that subsection, and Subsection (b)(2) does not apply to the district.

(d) A proposition submitted to authorize the levy of maintenance taxes must include the question of whether the governing board or commissioners court may levy, assess, and collect annual ad valorem taxes for the further maintenance of public schools, at a rate not to exceed the rate stated in the proposition. For any year, the maintenance tax rate per \$100 of taxable value adopted by the district may not exceed the rate equal to the sum of \$0.17 and the district's maximum compressed rate, as determined under Section 48.2551.

(e) A rate that exceeds the maximum rate specified by Subsection (d) for the year in which the tax is to be imposed is void. A school district with a tax rate that is void under this subsection may, subject to requirements imposed by other law, adopt a

rate for that year that does not exceed the maximum rate specified by Subsection (d) for that year.

(f) Notwithstanding any other law, a district that levied a maintenance tax for the 2005 tax year at a rate greater than \$1.50 per \$100 of taxable value in the district as permitted by special law may not levy a maintenance tax at a rate that exceeds the rate per \$100 of taxable value that is equal to the sum of:

(1) \$0.17; and

(2) the product of 66.67 percent multiplied by the rate of the maintenance tax levied by the district for the 2005 tax year, minus the amount by which \$1.00 exceeds the product of the state compression percentage, as determined under Section 48.255, multiplied by \$1.00.

(g) Notwithstanding Section 1251.052, Government Code, the question of whether to approve the issuance of bonds for the construction, acquisition, and equipment of school buildings in the district, the purchase of new school buses, and the purchase of necessary sites for school buildings may be submitted to the voters in a single ballot proposition, except that bonds for each of the following purposes must be stated in a separate proposition:

(1) the construction, acquisition, or equipment of a stadium with seating capacity for more than 1,000 spectators;

(2) the construction, acquisition, or equipment of a natatorium;

(3) the construction, acquisition, or equipment of another recreational facility other than a gymnasium, playground, or play area;

(4) the construction, acquisition, or equipment of a performing arts facility;

(5) the construction, acquisition, or equipment of housing for teachers as determined by the district to be necessary to have a sufficient number of teachers for the district; and

(6) an acquisition or update of technology equipment, other than equipment used for school security purposes or technology infrastructure integral to the construction of a facility.

(h) The question of whether to approve the issuance of bonds for a building described by Subsection (g)(1), (2), (3), (4), or (5) must be printed on the ballot as a separate ballot proposition regardless of whether that building is proposed as part of the same complex or building that contains traditional classroom facilities.

Each separate ballot proposition required by this subsection must state the principal amount of the bonds to be issued that constitutes the cost for construction of that portion of the building or complex attributable to the building described by Subsection (g)(1), (2), (3), (4), or (5) or to the traditional classroom facilities, as applicable.

Sec. 45.0031. LIMITATION ON ISSUANCE OF TAX-SUPPORTED BONDS.

(a) Before issuing bonds described by Section 45.001, a school district must demonstrate to the attorney general under Subsection (b) or (c) that, with respect to the proposed issuance, the district has a projected ability to pay the principal of and interest on the proposed bonds and all previously issued bonds other than bonds authorized to be issued at an election held on or before April 1, 1991, and issued before September 1, 1992, from a tax at a rate not to exceed \$0.50 per \$100 of valuation.

(b) A district may demonstrate the ability to comply with Subsection (a) by using the most recent taxable value of property in the district, combined with state assistance to which the district is entitled under Chapter 46 or 48 that may be lawfully used for the payment of bonds.

(c) A district may demonstrate the ability to comply with Subsection (a) by using a projected future taxable value of property in the district anticipated for the earlier of the tax year five years after the current tax year or the tax year in which the final payment is due for the bonds submitted to the attorney general,

combined with state assistance to which the district is entitled under Chapter 46 or 48 that may be lawfully used for the payment of bonds. The district must submit to the attorney general a certification of the district's projected taxable value of property that is prepared by a registered professional appraiser certified under Chapter 1151, Occupations Code, who has demonstrated professional experience in projecting taxable values of property or who can by contract obtain any necessary assistance from a person who has that experience. To demonstrate the professional experience required by this subsection, a registered professional appraiser must provide to the district written documentation relating to two previous projects for which the appraiser projected taxable values of property. Until the bonds submitted to the attorney general are approved or disapproved, the district must maintain the documentation and on request provide the documentation to the attorney general or comptroller. The certification of the district's projected taxable value of property must be signed by the district's superintendent. The attorney general must base a determination of whether the district has complied with Subsection (a) on a taxable value of property that is equal to 90 percent of the value certified under this subsection.

(d) A district that demonstrates to the attorney general that the district's ability to comply with Subsection (a) is contingent on receiving state assistance may not adopt a tax rate for a year for purposes of paying the principal of and interest on the bonds unless the district credits to the account of the interest and sinking fund of the bonds the amount of state assistance equal to the amount needed to demonstrate compliance and received or to be received in that year.

(e) If a district demonstrates to the attorney general the district's ability to comply with Subsection (a) using a projected future taxable value of property under Subsection (c) and subsequently imposes a tax to pay the principal of and interest on bonds to which Subsection (a) applies at a rate that exceeds the limit imposed by Subsection (a), the attorney general may not approve a subsequent issuance of bonds unless the attorney general finds that the district has a projected ability to pay the principal of and interest on the proposed bonds and all previously issued bonds to which Subsection (a) applies from a tax at a rate not to exceed \$0.45 per \$100 of valuation.

Sec. 45.0032. COMPONENTS OF MAINTENANCE AND OPERATIONS TAX.

(a) A school district's tier one maintenance and operations tax rate is the number of cents levied by the district for maintenance and operations that does not exceed the maximum compressed rate, as determined under Section 48.2551.

(b) A district's enrichment tax rate consists of:

(1) any cents of additional maintenance and operations tax effort, not to exceed eight cents over the maximum tax rate described by Subsection (a); and

(2) any cents of additional maintenance and operations tax effort that exceeds the sum of the maximum tax rate described by Subsection (a) and the maximum number of cents permitted under Subdivision (1).

(c) For a district to which Section 45.003(f) applies, any cents of maintenance and operations tax effort that exceeds the maximum rate permitted under Section 45.003(d) are not included in the district's tier one maintenance and operations tax rate under Subsection (a) or the district's enrichment tax rate under Subsection (b), and the district is not entitled to the guaranteed yield amount of state funds under Section 48.202 for those cents of tax effort.

(d) For a district to which Section 26.042(e), Tax Code, applies, the amount by which the district's maintenance tax rate exceeds the district's voter-approval tax rate, excluding the district's current debt rate under Section 26.08(n)(3), Tax Code, for the preceding year is not considered in determining a district's tier one maintenance and operations tax rate under Subsection (a) or the district's enrichment tax rate under Subsection (b) for the current tax year.

Sec. 45.004. REFUNDING BONDS. (a) In this section:

(1) "Bond" includes a note or other evidence of indebtedness.

(2) "Total debt service" means the amount of principal and unpaid interest on a bond to final maturity.

(b) Each governing board or commissioners court described by Section 45.001 may refund or refinance all or any part of any of the district's outstanding bonds and matured or unmatured but unpaid interest on those bonds payable from ad valorem taxes by issuing refunding bonds payable from ad valorem taxes.

(c) A series or issue of refunding bonds may not be issued unless:

(1) the total debt service on the refunding bonds will amount to less than the total debt service on the bonds being refunded;

(2) if a maximum interest rate was voted for the bonds being refunded, the refunding bonds do not bear interest at a rate higher than that maximum rate; and

(3) the refunding bonds are payable from taxes of the same nature as those pledged to the payment of the obligations being refunded.

(d) Refunding bonds may be made redeemable before maturity.

(e) The refunding bonds may be:

(1) issued and delivered in lieu of, and on surrender to the comptroller and cancellation of, the obligations being refunded, and the comptroller shall register the refunding bonds and deliver them in accordance with the resolution or order authorizing the refunding bonds; or

(2) sold for cash in any principal amounts necessary to provide all or any part of the money required to:

(A) pay the principal of any bonds being refunded and the interest to accrue on the bonds to maturity; or

(B) redeem any bonds being refunded before maturity, including principal, any required redemption premium, and the interest to accrue on the bonds to the redemption date.

(f) The refunding may be accomplished in one or in several installment deliveries. Refunding bonds also may be issued and delivered in accordance with any other applicable law.

(g) To refund bonds or to pay or redeem bonds in whole or in part without issuing refunding bonds, the governing board or commissioners court may deposit directly with the paying agent the proceeds from the sale of refunding bonds or any other available funds or resources. The deposit must be in an amount sufficient, after taking into account both the principal and interest to accrue on the assets of any escrow account created under Subsection (h), to provide for the payment or redemption of the bonds and assumed obligations that are to be refunded or to be paid or redeemed. The deposit constitutes the making of firm banking and financial arrangements for the discharge and final payment or redemption of the bonds being refunded.

(h) The governing board or commissioners court may enter into an escrow or a similar agreement with the paying agent with respect to the safekeeping, investment, reinvestment, administration, or disposition of the deposits, but the deposits may be invested and reinvested only in direct obligations of the United States, including obligations the principal of and interest on which are unconditionally guaranteed by the United States and that mature or bear interest payable at times and in amounts sufficient to provide for the scheduled payment or redemption of the bonds. The governing board or commissioners court shall enter into an appropriate escrow or a similar agreement if any of the bonds are scheduled to be paid or redeemed on a date later than the next succeeding scheduled interest payment date.

(i) If the governing body or commissioners court has entered into an escrow or a similar agreement under Subsection (h), the refunded bonds are considered to be defeased and may not be included in or considered to be an indebtedness of the district for the purpose of a limitation on outstanding indebtedness or taxation or for any other purpose.

(j) Refunding bonds may be issued under this section to refund any bonds that are scheduled to mature or that are subject to redemption before maturity, not more than 20 years from the date of

the refunding bonds. The refunding bonds may be sold at public or private sale under the procedures, at the price, and on the terms determined by the governing board or commissioners court. In addition, the bonds may be sold bearing interest at the rate determined by the governing board or commissioners court, but not to exceed the maximum rate prescribed by Chapter 1204, Government Code. The governing board or commissioners court may pledge to the payment of any refunding bonds any surplus income to be available from the investment or reinvestment of any deposit made as authorized by this section or any other available revenues, income, or resources.

(k) The refunding bonds may be issued in an additional amount sufficient to pay the costs and expenses of issuing the bonds and sufficient to fund any debt service reserve, contingency, or other similar fund considered necessary or advisable by the governing board or commissioners court.

Sec. 45.006. MAINTENANCE TAX REQUIRED FOR JUDGMENT ORDERING AD VALOREM TAX REFUND; BONDS. (a) This section applies only to a school district that:

(1) has an average daily attendance of less than 10,000;  
and

(2) is located in whole or part in a municipality with a population of less than 25,000 that is located in a county with a population of 200,000 or more bordering another county with a population of 2.8 million or more.

(b) Notwithstanding Section 45.003, a school district may levy, assess, and collect maintenance taxes at a rate that exceeds \$1.50 per \$100 valuation of taxable property if:

(1) additional ad valorem taxes are necessary to pay a debt of the district that:

(A) resulted from the rendition of a judgment against the district before May 1, 1995;

(B) is greater than \$5 million;

(C) decreases a property owner's ad valorem tax liability;

(D) requires the district to refund to the property owner the difference between the amount of taxes paid by the property owner and the amount of taxes for which the property owner is liable; and

(E) is payable according to the judgment in more than one of the district's fiscal years; and

(2) the additional taxes are approved by the voters of the district at an election held for that purpose.

(c) Except as provided by Subsection (e), any additional maintenance taxes that the district collects under this section may be used only to pay the district's debt under Subsection (b)(1).

(d) Except as provided by Subsection (e), the authority of a school district to levy the additional ad valorem taxes under this section expires when the judgment against the district is paid.

(e) The governing body of a school district shall pay the district's debt under Subsection (b)(1) in a lump sum. To satisfy the district's debt under Subsection (b)(1), the governing body may levy and collect additional maintenance taxes as provided by Subsection (b) and may issue bonds. If bonds are issued:

(1) the district may use any additional maintenance taxes collected by the district under this section to pay debt service on the bonds; and

(2) the authority of the district to levy the additional ad valorem taxes expires when the bonds are paid in full or the judgment is paid, whichever occurs later.

(f) The governing body of a school district that adopts a tax rate that exceeds \$1.50 per \$100 valuation of taxable property may set the amount of the exemption from taxation authorized by Section 11.13(n), Tax Code, at any time before the date the governing body adopts the district's tax rate for the tax year in which the election approving the additional taxes is held.

(g) The authority to issue bonds granted by this section expires June 1, 1996.

#### **SUBCHAPTER B. REVENUE BONDS**

Sec. 45.031. GYMNASIA, STADIA, AND OTHER RECREATIONAL FACILITIES. The governing board of an independent school district, including the city council or commission that has jurisdiction over a municipally controlled independent school district, the governing board of a rural high school district, and the commissioners court of a county, on behalf of each common school district under its jurisdiction, may acquire, construct, improve, equip, operate, and maintain gymnasias, stadia, or other recreational facilities for and on behalf of its district. The facilities may be located inside or outside of the district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.032. REVENUE BONDS. To provide funds to acquire, construct, improve, or equip gymnasias, stadia, or other recreational facilities, the board, city council or commission, or commissioners court may issue revenue bonds payable from and secured by liens on and pledges of all or any part of any of the revenues from any rentals, rates, charges, or other revenues from any or all of the facilities, in the manner provided by this subchapter. The bonds may be additionally secured by mortgages and deeds of trust on any real property on which any of the facilities are or will be located, or any real or personal property incident or appurtenant to the facilities, and the board, city council or commission, or commissioners court may authorize the execution and delivery of trust indentures, mortgages, deeds of trust, or other forms of encumbrances to evidence those liens. The bonds may be issued to mature serially or otherwise not to exceed 50 years from their date. In the authorization of any of those bonds, the board, city council or commission, or commissioners court may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other types of bonds, under the terms set forth in the resolution or order authorizing the issuance of the bonds, all within the discretion of the board, city council or commission, or commissioners court. The bonds may be made redeemable before maturity. The bonds

may be sold in the manner, at the price, and under the terms provided by the board, city council or commission, or commissioners court in the resolution or order authorizing the issuance of the bonds. If permitted by the bond resolution or order, any required part of the proceeds from the sale of the bonds may be:

(1) used for paying interest on the bonds during the period of the construction of any facilities to be provided through the issuance of the bonds;

(2) used for paying the operation and maintenance expenses of facilities to the extent and for the period specified in the bond resolution;

(3) used for creating reserves for the payment of the principal of and interest on the bonds; or

(4) invested, until needed, to the extent and in the manner provided in the bond resolution or order.

Sec. 45.033. RENTALS, RATES, AND CHARGES. The board, city council or commission, or commissioners court may set and collect rentals, rates, and charges from students and others for the occupancy or use of any of the facilities, in the amounts and manner determined by the board, city council or commission, or commissioners court.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.034. PLEDGE OF REVENUES. The board, city council or commission, or commissioners court may pledge all or any part of any of its revenues from the facilities to the payment of any bonds issued under this subchapter, including the payment of principal, interest, and any other amounts required or permitted in connection with the bonds. If revenues from the facilities are pledged to the payment of bonds, the rentals, rates and charges for the occupancy or use of the facilities must be fixed and collected in amounts at least sufficient to provide for all payments of principal, interest, and any other amounts required in connection with the bonds, and, to the extent required by the resolution or order authorizing the issuance of the bonds, to provide for the payment of operation, maintenance,

and other expenses.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.035. REFUNDING BONDS. Revenue bonds issued by a board, city council or commission, or commissioners court under this subchapter and revenue bonds issued by a board, city council or commission, or commissioners court under other law and payable from revenues from facilities described by Section 45.031 may be refunded or otherwise refinanced by the board, city council or commission, or commissioners court, and in that case all appropriate provisions of this subchapter apply to the refunding bonds. In refunding or otherwise refinancing any such bonds, the board, city council or commission, or commissioners court may, in the same authorizing proceedings, refund or refinance bonds issued pursuant to this code and bonds issued pursuant to any other law, may combine all refunding bonds and any other additional new bonds to be issued under this chapter into one or more issues or series of bonds, and may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other type of bonds. All refunding bonds must be issued and delivered under the terms set forth in the authorizing proceedings.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

(1-a) "Charter district" means an open-enrollment charter school designated as a charter district under Section 12.135.

(2) "Paying agent" means the financial institution that is

designated by a school district or charter district as its agent for the payment of the principal of and interest on guaranteed bonds.

Sec. 45.052. GUARANTEE. (a) On approval by the commissioner, bonds issued under Subchapter A by a school district or Chapter 53 for a charter district, including refunding and refinanced bonds, are guaranteed by the corpus and income of the permanent school fund.

(b) Notwithstanding any amendment of this subchapter or other law, the guarantee under this subchapter of school district or charter district bonds remains in effect until the date those bonds mature or are defeased in accordance with state law.

Sec. 45.053. LIMITATION; VALUE ESTIMATES. (a) Except as provided by Subsection (d), the commissioner may not approve bonds for guarantee under this subchapter if the approval would result in the total amount of outstanding guaranteed bonds under this subchapter exceeding an amount equal to 2-1/2 times the cost value of the permanent school fund, as estimated by the board and certified by the state auditor.

(b) Each year, the state auditor shall analyze the status of guaranteed bonds under this subchapter as compared to the cost value of the permanent school fund. Based on that analysis, the state auditor shall certify whether the amount of bonds guaranteed under this subchapter is within the limit prescribed by this section.

(c) The commissioner shall prepare and the board shall adopt an

annual report on the status of the guaranteed bond program under this subchapter.

(d) The board by rule may increase the limit prescribed by Subsection (a) to an amount not to exceed five times the cost value of the permanent school fund, provided that the increased limit is consistent with federal law and regulations and does not prevent the bonds to be guaranteed from receiving the highest available credit rating, as determined by the board. The board shall at least annually consider whether to change any limit in accordance with this subsection. This subsection may not be construed in a manner that impairs, limits, or removes the guarantee of bonds that have been approved by the commissioner.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Amended by Acts 2003, 78th Leg., ch. 89, Sec. 1, eff. May 20, 2003.

Sec. 45.0531. ADDITIONAL LIMITATION: RESERVATION OF PERCENTAGE OF PERMANENT SCHOOL FUND VALUE. (a) In addition to the limitation on the approval of bonds for guarantee under Section 45.053, the board by rule may establish a percentage of the cost value of the permanent school fund to be reserved from use in guaranteeing bonds under this subchapter.

(b) If the board has reserved a portion of the permanent school fund under Subsection (a), each year, the state auditor shall analyze the status of the reserved portion compared to the cost value of the permanent school fund. Based on that analysis, the state auditor shall certify whether the portion of the permanent school fund reserved from use in guaranteeing bonds under this subchapter satisfies the reserve percentage established.

(c) If the board has reserved a portion of the permanent school fund under Subsection (a), the board shall at least annually consider whether to change the reserve percentage established to ensure that the reserve percentage allows compliance with federal law and regulations and serves to enable bonds guaranteed under this

subchapter to receive the highest available credit rating, as determined by the board.

(d) This section may not be construed in a manner that impairs, limits, or removes the guarantee of bonds that have been approved by the commissioner.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. [3646](#)), Sec. 69, eff. September 1, 2009.

Sec. 45.0532. LIMITATION ON GUARANTEE OF CHARTER DISTRICT BONDS. (a) In addition to the general limitation under Section 45.053, the commissioner may not approve charter district bonds for guarantee under this subchapter in a total amount that exceeds the charter capacity of the guaranteed bond program.

(a-1) The commissioner may not approve charter district refunding or refinanced bonds for guarantee under this subchapter in a total amount that exceeds one-half of the charter capacity.

(b) For purposes of this section, the charter capacity of the guaranteed bond program is the percentage of the total capacity of the guaranteed bond program established by the board under Sections 45.053(d) and 45.0531 that is equal to the percentage of the number of students enrolled in open-enrollment charter schools in this state compared to the total number of students enrolled in all public schools in this state, as determined by the commissioner. Each time the board increases the limit under Section 45.053(d), the total amount of charter district bonds that may be guaranteed increases accordingly under Subsection (a).

(c) Notwithstanding Subsections (a) and (b), the commissioner may not approve charter district bonds for guarantee under this subchapter if the guarantee will result in lower bond ratings for school district bonds for which a guarantee is requested under this subchapter.

(d) The commissioner may request that the comptroller place the portion of the permanent school fund committed to the guarantee of charter district bonds in a segregated account if the commissioner determines that a separate account is needed to avoid any negative impact on the bond ratings of school district bonds for which a guarantee is requested under this subchapter.

(e) A guarantee of charter district bonds must be made in

accordance with this chapter and any applicable federal law.

(b) An application under Subsection (a) must include:

- (1) the name of the school district or charter district and the principal amount of the bonds to be issued;
- (2) the name and address of the district's paying agent for those bonds; and
- (3) the maturity schedule, estimated interest rate, and date of the bonds.

district in regard to:

- (1) the status of the district's accreditation; and
- (2) the total amount of outstanding guaranteed bonds.

(a-1) For purposes of this subsection, "bond security documents" include the resolution, trust agreement, indenture, ordinance, loan agreement, deed of trust, bond, note, and any additional document executed in connection with the issuance of a charter district bond for which a guarantee is requested under this subchapter. The commissioner's investigation of an application submitted by a charter district may include evaluation of whether the charter district bond security documents provide a security interest in real property pledged as collateral for the bond and the repayment obligation under the proposed guarantee. The commissioner may decline to approve the application if the commissioner determines that sufficient security is not provided.

(b) If following the investigation the commissioner is satisfied that the school district's bonds should be guaranteed under this subchapter or provided credit enhancement under Subchapter I, as applicable, or the charter district's bonds should be guaranteed under this subchapter, the commissioner shall endorse the bonds.

- (1) the commissioner's signature or a facsimile of the commissioner's signature; and

(1) money due from a charter district as provided by Subsection (b); and

(2) interest earned on balances in the fund.

(a-1) Notwithstanding Chapter 404, Government Code, the charter district bond guarantee reserve fund is managed by the board in the same manner that the permanent school fund is managed by the board. The board may invest money in the charter district bond guarantee reserve fund in accordance with the investment standard described by Section 404.024(j), Government Code, and the board's investment is not subject to any other limitation or requirement provided by Section 404.024, Government Code.

(a-2) The board shall adjust the investment portfolio of charter district bond guarantee reserve fund money periodically to ensure that the balance of the fund is sufficient to meet the cash flow requirements of the fund.

(b) Subject to Subsection (c), a charter district that has a bond guaranteed as provided by this subchapter must remit to the commissioner, for deposit in the charter district bond guarantee reserve fund, an amount equal to 20 percent of the savings to the charter district that is a result of the lower interest rate on the bond due to the guarantee by the permanent school fund. The amount due under this section shall be paid on receipt by the charter district of the bond proceeds. The commissioner shall adopt rules to determine the amount due under this section.

(c) Subsection (b) does not apply if, at the time the charter district receives the proceeds of the bond guaranteed as provided by this subchapter, the balance of the charter district bond guarantee reserve fund is at least equal to three percent of the total amount of outstanding guaranteed bonds issued by charter districts.

(d) Each year, the commissioner shall:

(1) review the condition of the bond guarantee program and

the amount that must be deposited in the charter district bond guarantee reserve fund from charter districts; and

(2) determine if charter districts should be required to submit a greater percentage of the savings resulting from the guarantee.

(e) The commissioner shall make recommendations to the legislature based on the review under Subsection (d).

(b) Immediately following receipt of the funds for payment of the principal or interest, the paying agent shall pay the amount due and forward the canceled bond or coupon to the comptroller. The comptroller shall hold the canceled bond or coupon on behalf of the permanent school fund.

(c) Following full reimbursement to the permanent school fund

with interest, the comptroller shall further cancel the bond or coupon and forward it to the school district for which payment was made.

(a) Immediately following receipt of notice under Section 45.058 that a charter district will be or is unable to pay maturing or matured principal or interest on a guaranteed bond, the commissioner shall instruct the comptroller to transfer from the charter district bond guarantee reserve fund created under Section 45.0571 to the district's paying agent the amount necessary to pay the maturing or matured principal or interest.

(b) If money in the charter district bond guarantee reserve fund is insufficient to pay the amount due on a bond under Subsection (a), the commissioner shall instruct the comptroller to transfer from the appropriate account in the permanent school fund to the district's paying agent the amount necessary to pay the balance of the unpaid maturing or matured principal or interest.

(c) Immediately following receipt of the funds for payment of the principal or interest, the paying agent shall pay the amount due and forward the canceled bond or coupon to the comptroller. The comptroller shall hold the canceled bond or coupon on behalf of the fund or funds from which payment was made.

(d) Following full reimbursement to the charter district bond guarantee reserve fund and the permanent school fund, if applicable, with interest, the comptroller shall further cancel the bond or coupon and forward it to the charter district for which payment was made.

(a) If the commissioner orders payment from the permanent school fund or the charter district bond guarantee reserve fund on behalf of a school district or charter district, the commissioner shall direct the comptroller to withhold the amount paid, plus interest, from the first state money payable to the school district or charter district. Except as provided by Subsection (a-1), the amount withheld shall be deposited to the credit of the permanent school fund.

(a-1) After the permanent school fund has been reimbursed for all money paid from the fund as the result of a default of a charter district bond guaranteed under this subchapter, any remaining amounts withheld under Subsection (a) shall be deposited to the credit of the charter district bond guarantee reserve fund.

(b) In accordance with the rules of the board, the commissioner may authorize reimbursement to the permanent school fund or charter district bond guarantee reserve fund with interest in a manner other than that provided by this section.

(c) The commissioner may order a school district to set an ad valorem tax rate capable of producing an amount of revenue sufficient to enable the district to:

- (1) provide reimbursement under this section; and
- (2) pay the principal of and interest on district bonds as the principal and interest become due.

(d) If a school district fails to comply with the commissioner's order under Subsection (c), the commissioner may impose any sanction on the district authorized to be imposed on a

district under Subchapter G, Chapter 39, including appointment of a board of managers or annexation to another district, regardless of the district's accreditation status or the duration of a particular accreditation status.

(a) If a total of two or more payments are made under this subchapter or Subchapter I on the bonds of a school district and the commissioner determines that the school district is acting in bad faith under the guarantee program under this subchapter or the credit enhancement program under Subchapter I, the commissioner may request the attorney general to institute appropriate legal action to compel the school district and its officers, agents, and employees to comply with the duties required of them by law in regard to the bonds.

**SUBCHAPTER D. SALE OF SURPLUS REAL PROPERTY; REVENUE BONDS**

Sec. 45.081. DEFINITIONS. In this subchapter:

- (a) "District" means an independent school district.
- (b) "Board" means the governing body of a district.
- (c) "Real property" means any interest in land, buildings, or fixtures permanently attached to buildings or land.
- (d) "Bonds" includes notes, contracts, and any other evidences of an obligation to pay a sum of money.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.082. SALE OF PROPERTY; REVENUE BONDS. (a) The board of a district may sell real property owned by the district and issue revenue bonds payable from the proceeds of the sale subject to this section.

(b) The board must determine by order that the real property is not required for the current needs of the district for educational purposes, and the proceeds from the sale are required and will be used for:

- (1) constructing or equipping school buildings in the district or purchasing necessary sites for school buildings; or
- (2) paying the principal of and interest and premium on any bonds issued pursuant to this subchapter.

(c) The board is not required to comply with this section if the sale is:

- (1) to a corporation established by the district under Chapter 303, Local Government Code; and
- (2) subject to a lease-purchase agreement under which the district will acquire the real property.

(d) The real property may be sold for the price and on the terms determined by order of the board to be most advantageous to the district. The sale may be made pursuant to an installment sale agreement or contract or any other method. The sale must be for cash and all payments for the real property must be scheduled to be paid

not more than 10 years after the date of execution of the agreement or contract of sale. Real property may not be sold for less than an aggregate price equal to its fair market value as determined by an appraisal obtained by the district not more than 180 days before the publication of the notice required by Subsection (e)(3). The appraisal is conclusive of the fair market value of the property for purposes of this subchapter.

(e) Before selling or executing any agreement or contract for the sale of the real property, the board shall:

(1) determine which real estate is proposed to be sold;

(2) determine the scope of the terms on which it will consider selling the real property, and, if the sale price is to be paid in installments, require the purchasers of the real property to secure the payment of the sale price by escrowing collateral acceptable to the board such as a letter of credit, United States government bonds, or any other generally recognized form of guarantee or security;

(3) publish a notice to prospective purchasers at least two weeks before the date set for receiving proposals in a real estate journal and in at least two newspapers of general circulation in the district, requesting sealed written proposals from prospective purchasers to purchase the real property and including the scope of the terms of sale that will be considered, and the time, date, and place where the proposals will be received; and

(4) determine by order of the board which sealed written proposal is most advantageous to the district, and accept that proposal, or reject all proposals if considered advisable.

(f) Except as provided by this subsection, the sale must have been previously approved by a majority of the qualified voters of the district voting at an election held in the district at which a proposition to ascertain approval is submitted. An election is not required if the board determines by order that the proceeds from the sale of the real property are required and will be used for constructing or equipping or for paying the principal of, and interest and premium, if any, on bonds issued pursuant to this subchapter for the purpose of constructing or equipping a school building that is to be constructed pursuant to an order or judgment entered by a United States District Judge in any action or cause in which the district is a party.

Amended by Acts 2001, 77th Leg., ch. 1420, Sec. 8.210, eff. Sept. 1, 2001.

Sec. 45.083. OTHER LAWS NOT APPLICABLE. Section 272.001, Local Government Code, Chapter 26, Parks and Wildlife Code, and all other general laws pertaining to the sale of public property do not apply to sales of real property pursuant to this subchapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.084. CONTRACTS. The district may execute contracts for constructing or equipping school buildings in the district or for purchasing any necessary sites for school buildings in the manner provided by law. If any contract recites that payments under the contract are to be made either from the proceeds from the sale of real property under an installment sale agreement or any similar method pursuant to this subchapter or from proceeds from the sale of bonds issued pursuant to this subchapter, then the contract may be made payable in installments to correspond with the receipt by the district either of proceeds under the sale agreement or proceeds from the sale of any bonds to be issued and delivered in more than one issue, series, or installment, and the contract is not a prohibited debt or indebtedness of the district if the payments under the contract are required to be made solely from the proceeds from the sale of real property or the bonds.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.085. BOND REQUIREMENTS. (a) In addition to the powers granted by this subchapter, any board, for and on behalf of its district, may issue, sell, and deliver revenue bonds of its district from time to time and in one or more issues, series, or installments, with the principal of and interest and premium, if any, on the bonds to be payable from and secured by liens on and pledges of all or any part of any of the revenue, income, payments, or receipts derived by the district from the sale of real property pursuant to this subchapter, and those amounts may be pledged by the district to the

payment of the principal of and interest and premium, if any, on such bonds, subject to this section.

(b) Bonds must be issued by an order of the board.

(c) The bonds must be issued for the purpose of constructing or equipping school buildings in the district or purchasing necessary sites for school buildings.

(d) The bonds shall mature, come due, or be payable serially, in installments, or otherwise, within not to exceed 90 days after the last date on which the final payment is due to the district from the sale of the real property. The bond order may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, under any terms set forth in the bond order.

(e) The bonds may be executed, made redeemable before maturity or due date, and be issued in the form, denominations, and manner and under the terms provided in the bond order. The bonds may be sold in the manner, at the price, and under the terms and may bear interest at the rates provided in the bond order.

(f) If so provided in any bond order, the proceeds from the sale of the bonds may be used for paying interest on the bonds during the period of constructing or equipping any school buildings to be provided through the issuance of the bonds or for creating a reserve fund for the payment of principal and interest on the bonds. The proceeds may be placed on time deposit, in certificates of deposit, or invested, until needed, to the extent and in the manner provided in any bond order. The proceeds also may be used for paying the costs and expenses of issuing the bonds and selling the real property.

(g) The bonds may be payable only from the revenues described by Subsection (a) and may not be payable or paid from any taxes levied and collected in the district.

(h) Chapter 1201, Chapter 1204, and Subchapters A-C, Chapter 1207, Government Code, apply to bonds issued pursuant to this subchapter.

(i) If bonds are issued pursuant to this subchapter, the bonds, along with the appropriate proceedings authorizing their issuance, and the sale agreement the proceeds from which they are payable shall be submitted to the attorney general for examination. If after the initial issuance of any bonds under this subchapter payable from the proceeds of a particular sale agreement, one or more subsequent issues, series, or installments of bonds are issued as additional

parity bonds, on a parity with the initial bonds and payable from the proceeds of that sale agreement, then, at the option of the board, the subsequent issues, series, or installments of bonds need not be submitted to the attorney general or approved by the attorney general or registered by the comptroller, and the subsequent bonds are, on delivery of and payment for the bonds, valid and incontestable in the same manner and with the same effect as if they had been approved by the attorney general and registered by the comptroller as were the initial bonds.

Amended by Acts 2001, 77th Leg., ch. 1420, Sec. 8.211, eff. Sept. 1, 2001.

Sec. 45.086. LIBERAL CONSTRUCTION. This subchapter shall be construed liberally to accomplish the legislative intent and the purposes of the subchapter, and all powers granted by this subchapter shall be broadly interpreted to accomplish that intent and those purposes and not as a limitation of powers.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.087. OTHER POWERS UNRESTRICTED. This subchapter does not restrict the power of a school district to sell property or issue bonds as provided by other law.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

#### **SUBCHAPTER E. MISCELLANEOUS PROVISIONS**

Sec. 45.101. USE OF BOND PROCEEDS FOR UTILITY CONNECTIONS. The proceeds of bonds issued by school districts for the construction and equipment of school buildings in the district and the purchase of the necessary sites for school buildings may be used, among other things, to pay the cost of acquiring, laying, and installing pipes or lines to connect with the water, sewer, or gas lines of a municipality or private utility company, whether or not the water, sewer, or gas lines adjoin the school, so that the school district may provide its public school buildings the water, sewer, or gas services.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.1011. USE OF BOND PROCEEDS FOR SCHOOL SAFETY COMPLIANCE. (a) The proceeds of bonds issued by a school district for the construction and equipment of school buildings in the district and the purchase of the necessary sites for school buildings may be used to pay the costs associated with complying with school safety and security requirements for school facilities in accordance with Section 37.351.

(b) This subsection applies to a school district that has been determined by the agency, through the agency's monitoring of safety and security requirements under Section 37.1083, to not be in compliance with those requirements. Notwithstanding any other law, a school district to which this subsection applies must use the proceeds of bonds described by Subsection (a) to achieve compliance with applicable safety and security requirements in accordance with Section 37.351 before the district may use those proceeds for any other authorized purpose.

Added by Acts 2023, 88th Leg., R.S., Ch. 896 (H.B. 3), Sec. 22, eff. September 1, 2023.

Sec. 45.102. INVESTMENT OF BOND PROCEEDS IN OBLIGATIONS OF UNITED STATES OR INTEREST-BEARING SECURED TIME BANK DEPOSITS. (a) A school district that has on hand proceeds received from the issuance and sale of bonds or certificates of indebtedness of the district that are not immediately needed for the purposes for which the bonds or certificates of indebtedness were issued and sold, may, on order of the board of trustees:

(1) place the proceeds on interest-bearing time deposit, secured in the manner provided by Section 45.208, with a state or national banking corporation in this state the deposits of which are insured by the Federal Deposit Insurance Corporation; or

(2) invest the proceeds in bonds or other obligations of the United States.

(b) Interest-bearing secured time deposits or bonds or other obligations of the United States in which proceeds of bonds or certificates of indebtedness are placed or invested must be of a type

that cannot be cashed, sold, or redeemed for an amount less than the sum deposited or invested by the school district.

(c) When the sums placed or invested by a school district are needed for the purposes for which the bonds or certificates of indebtedness of the school district were originally authorized, issued, and sold:

(1) the time deposits or bonds or other obligations of the United States in which the sums have been placed or invested shall be cashed, sold, or redeemed; and

(2) the proceeds shall be used for the purposes for which the bonds or certificates of indebtedness of the school district were originally authorized, issued, and sold.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.103. INTEREST-BEARING TIME WARRANTS. (a) Any school district in need of funds to construct, repair, or renovate school buildings, purchase school buildings and school equipment, or equip school properties with necessary heating, water, sanitation, lunchroom, or electric facilities or in need of funds with which to employ a person who has special skill and experience to compile taxation data and that is financially unable out of available funds to construct, repair, renovate, or purchase school buildings, purchase school equipment, or equip school properties with necessary heating, water, sanitation, lunchroom, or electric facilities or is unable to pay the person for compiling taxation data, may, subject to this section, issue interest-bearing time warrants, in amounts sufficient to construct, purchase, equip, or improve school buildings and facilities or to pay all or part of the compensation of the person to compile taxation data, any law to the contrary notwithstanding. The warrants shall mature in serial installments of not more than 15 years from their date of issue. The warrants on maturity may be payable out of any available funds of the school district in the order of their maturity dates. Any interest-bearing time warrants may be issued and sold by the district for not less than their face value, and the proceeds used to provide funds required for the purpose for which they are issued. The warrants shall be entitled to first payment out of any available funds of the district as they become due. Included in the purposes for which

interest-bearing time warrants may be issued is the payment of any amounts owed by the school district that was incurred in carrying out any of those purposes.

(a-1) A school district may also issue interest-bearing time warrants to refund warrants previously issued under this section if the refunding warrants are coterminous with the refunded obligations.

(b) Interest-bearing time warrants may not be issued or sold by a common school district or rural high school district until they are approved by the county board of school trustees. The board shall, on application of the school district, inquire into the financial conditions and needs of the district, and may not approve the issuance of interest-bearing time warrants unless in its opinion the district:

(1) is in need of constructing, purchasing, repairing, or renovating a school building, obtaining the school equipment, or equipping school properties with necessary heating, water, sanitation, lunchroom, or electric facilities; and

(2) will be able with the resources in prospect to liquidate the warrants at their maturity.

(c) A school district may not issue interest-bearing time warrants in excess of five percent of the assessed valuation of the district for the year in which the warrants are issued. The payment of interest-bearing time warrants in any one year may not exceed the anticipated surplus income of the district for the year in which the warrants are issued, based on the budget of the district for that year. The anticipated income computed under this section is exclusive of all bond taxes. A school district may not have outstanding at any one time warrants totaling in excess of \$1 million under this section.

(d) If interest-bearing time warrants issued under this section are outstanding, the officer in charge of the collection of delinquent taxes shall pay those collections to the legal depository of the district, to be deposited and held in a special fund for the payment of the interest-bearing time warrants, and except as otherwise provided by this section, collections of delinquent taxes may not be applied or used for any other purpose.

(e) Interest and penalties on delinquent taxes are considered a part of those taxes for purposes of this section. If any delinquent taxes, including interest and penalties, are canceled, waived, released, or reduced either by the school district or in any other

way, with or without its consent, the amount of the loss sustained shall be paid by the district to the special fund provided for by Subsection (d) out of funds not otherwise pledged to that special fund.

(f) All school districts issuing interest-bearing time warrants may encumber and mortgage any property purchased with the proceeds of the warrants or any property, including teachers' residences, owned by the district to secure the payment of legally incurred obligations, except that a lien may not be placed on any school building in which actual classroom instruction of students is conducted.

(g) In this section, "interest-bearing time warrant" includes a promissory note or other evidence of indebtedness issued under this section.

(h) Taxes levied to pay principal and interest of bonds that are delinquent are not included in the term "delinquent taxes" as used in this section.

#### Sec. 45.104. PLEDGE OF DELINQUENT TAXES AS SECURITY FOR LOAN.

(a) The board of trustees of any school district may pledge its delinquent taxes levied for maintenance purposes for specific past, current, and future school years as security for a loan, and may evidence any such loan with negotiable notes, and the delinquent taxes pledged shall be applied against the principal and interest of the loan. Negotiable notes issued under this subsection must mature not more than 20 years from their date.

(b) A school district may not pledge delinquent taxes levied for school bonds as security for a loan.

(c) Funds secured through loans secured by delinquent taxes may be employed for any legal maintenance expenditure or purpose of the school district, including all costs incurred in connection with:

- (1) environmental cleanup and asbestos removal programs

implemented by school districts; or

(2) maintenance, repair, rehabilitation, or replacement of heating, air conditioning, water, sanitation, roofing, flooring, electric, or other building systems of existing school properties.

(d) A loan secured by delinquent taxes may bear interest at a rate not to exceed the maximum rate provided by Section 1204.006, Government Code.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. 2 and H.B. 120, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 45.105. AUTHORIZED EXPENDITURES. (a) The public school funds may not be spent except as provided by this section.

(b) The state and county available funds may be used only for the payment of teachers' and superintendents' salaries and interest on money borrowed on short time to pay those salaries that become due before the school funds for the current year become available. Loans for the purpose of payment of teachers may not be paid out of funds other than those for the current year.

(c) Local school funds from district taxes, tuition fees of students not entitled to a free education, other local sources, and state funds not designated for a specific purpose may be used for the purposes listed for state and county available funds and for purchasing appliances and supplies, paying insurance premiums, paying janitors and other employees, buying school sites, buying, building, repairing, and renting school buildings, including acquiring school buildings and sites by leasing through annual payments with an ultimate option to purchase, and, except as provided by Subsection (c-1), for other purposes necessary in the conduct of the public schools determined by the board of trustees. The accounts and vouchers for county districts must be approved by the county superintendent. If the state available school fund in any municipality or district is sufficient to maintain the schools in any

year for at least eight months and leave a surplus, the surplus may be spent for the purposes listed in this subsection.

(c-1) Funds described by Subsection (c) may not be used to initiate or maintain any action or proceeding against the state or an agency or officer of the state arising out of a decision, order, or determination that is final and unappealable under a provision of this code, except that funds may be used for an action or proceeding that is specifically authorized by a provision of this code or a rule adopted under this code and that results in a final and unappealable decision, order, or determination.

(d) An independent school district that has in its limits a municipality with a population of 150,000 or more or that contains at least 170 square miles, has \$850 million or more assessed value of taxable property on the most recent approved tax roll and has a growth in average daily attendance of 11 percent or more for each of the preceding five years as determined by the agency may, in buying school sites or additions to school sites and in building school buildings, issue and deliver negotiable or nonnegotiable notes representing all or part of the cost to the school district of the land or building. The district may secure the notes by a vendor's lien or deed of trust lien against the land or building. By resolution or order of the governing body made at or before the delivery of the notes, the district may set aside and appropriate as a trust fund, and the sole and only fund, for the payment of the principal of and interest on the notes that part of the local school funds, levied and collected by the school district in that year or subsequent years, as the governing body determines. The aggregate amount of local school funds set aside in or for any subsequent year for the retirement of the notes may not exceed, in any one subsequent year, 10 percent of the local school funds collected during that year. The district may issue the notes only if approved by majority vote of the qualified voters voting in an election conducted in the manner provided by Section 45.003 for approval of bonds.

(e) The governing body of an independent school district that governs a junior college district under Subchapter B, Chapter 130, in a county with a population of more than 2.5 million may dedicate a specific percentage of the local tax levy to the use of the junior college district for facilities and equipment or for the maintenance and operating expenses of the junior college district. To be effective, the dedication must be made by the governing body on or

before the date on which the governing body adopts its tax rate for a year. The amount of local tax funds derived from the percentage of the local tax levy dedicated to a junior college district from a tax levy may not exceed the amount that would be levied by five percent of the no-new-revenue tax rate for the tax year calculated as provided by Section 26.04, Tax Code, on all property taxable by the school district. All real property purchased with these funds is the property of the school district, but is subject to the exclusive control of the governing body of the junior college district for as long as the junior college district uses the property for educational purposes.

(f) Funds from a junior college district branch campus maintenance tax levied by a school district board of trustees under Section 130.253 may be used as provided by that section.

Sec. 45.106. USE OF COUNTY AVAILABLE FUND APPORTIONMENT FOR AREA SCHOOLS CAREER AND TECHNOLOGY EDUCATION. (a) A school district or accumulation of districts that operates a school designated as an area school for career and technology education purposes or that participates in a designated area career and technology education program shall use its annual county available school fund apportionment, if any, in the operation of the area school or program or in financing facilities for the school, notwithstanding any laws to the contrary.

(b) A school district complying with Subsection (a) may not be held accountable for or charged with county available school funds in determining the district's eligibility for minimum foundation school program funds.

Sec. 45.107. INVESTMENT OF GIFTS, DEVISES, AND BEQUESTS. A gift, devise, or bequest made to a school district to provide college scholarships for graduates of the district may be invested by the board of trustees of the district as provided by Section 117.004, Property Code, unless otherwise specifically provided by the terms of the gift, devise, or bequest.

Sec. 45.108. BORROWING MONEY FOR CURRENT MAINTENANCE EXPENSES.

(a) Independent or consolidated school districts may borrow money for the purpose of paying maintenance expenses and may evidence those loans with negotiable or nonnegotiable notes, except that the loans may not at any time exceed 75 percent of the previous year's income. The notes may be payable from and secured by a lien on and pledge of any available funds of the district, including proceeds of a maintenance tax. The term "maintenance expenses" or "maintenance expenditures" as used in this section means any lawful expenditure of the school district other than payment of principal of and interest on bonds. The term includes expenditures relating to notes issued to refund notes previously issued under this section if the refunding notes are coterminous with the refunded obligation. The term also includes all costs incurred in connection with environmental cleanup and asbestos cleanup and removal programs implemented by school districts or in connection with the maintenance, repair, rehabilitation, or replacement of heating, air conditioning, water, sanitation, roofing, flooring, electric, or other building systems of existing school properties. Notes issued pursuant to this section may be issued to mature in not more than 20 years from their date. Notes issued for a term longer than one year must be treated as "debt" as defined in Section 26.012(7), Tax Code.

(b) Notes may be issued under this section only after a budget has been adopted for the current school year.

(c) Notes issued under this section must be authorized by resolution adopted by a majority vote of the board of trustees, signed by the president or vice president and attested by the secretary of the board.

(d) A note issued under this section may contain a certification that it is issued pursuant to and in compliance with this section and pursuant to a resolution adopted by the board of trustees. The certification is sufficient evidence that the note is a valid obligation of the district.

Sec. 45.109. CONTRACTS FOR ATHLETIC FACILITIES. (a) Any independent school district, acting by and through its board of trustees, may contract with any corporation, municipality, or institution of higher education, as defined by Section 61.003, located wholly or partially in its boundaries, for the use of any stadium and other athletic facilities owned by or under the control of the other entity. The contract may be for any period not exceeding 75 years and may contain terms agreed on by the parties.

(a-1) An independent school district and an institution of higher education, as defined by Section 61.003, located wholly or partially in the boundaries of the county in which the district is located may contract for the district to contribute district resources to pay a portion of the costs of the design or construction of an instructional facility or a stadium or other athletic facilities owned by or under the control of the institution of higher education. A district may contribute district resources under this subsection only if the district and the institution of higher education enter into a written agreement authorizing the district to use that facility.

(a-2) One or more independent school districts and an

institution of higher education, as defined by Section 61.003, may contract for the district to contribute district resources to pay a portion of the costs of the design, improvement, or construction of an instructional facility owned by or under the control of the institution of higher education. A district may contribute district resources under this subsection only if the district and the institution of higher education enter into a written agreement authorizing the district to use that facility, including authorizing the enrollment of district students in courses offered at that facility.

(a-3) An independent school district and a municipality, located wholly or partially in the boundaries of a county in which the district is located, may contract for the district to contribute district resources to pay a portion of the costs of the design, improvement, or construction of an instructional facility, stadium, or other athletic facility owned by, on the property of, or under the control of the municipality. A district may contribute district resources under this subsection only if the district and municipality enter into a written agreement authorizing the district to use that facility.

(b) The district may enter into a contract for the use of athletic facilities for any purpose related to sports activities and other physical education programs for the students at the public schools of the district.

(c) The consideration for a contract under this section may be paid from any source available to the independent school district. If voted as provided by this section, the district may pledge to the payment of the contract an annual maintenance tax in an amount sufficient, without limitation, to provide all of the consideration. If voted and pledged, the maintenance tax shall be assessed, levied, and collected annually in the same manner as provided by general law applicable to independent school districts for other maintenance taxes.

(d) A maintenance tax may not be pledged to the payment of any contract under this section or assessed, levied, or collected unless an election is held in the district and the maintenance tax is favorably voted by a majority of the qualified voters of the district voting at the election. The election order for an election under this subsection must include the polling place or places and any other matters considered advisable by the board of trustees.

(e) An agreement entered into before the construction of an instructional facility, stadium, or other athletic facility, as provided by Subsection (a-1), (a-2), or (a-3) does not violate Section 11.169.

Sec. 45.110. AUTHORIZED BUT UNISSUED BONDS. (a) This section applies to any independent school district that has previously voted or authorized school bonds for a specific purpose or purposes and the purpose or purposes have been accomplished by other means or have been abandoned and all or a portion of the bonds authorized remain unissued.

(b) The board of trustees of the district may, on its own motion, order an election to submit to the qualified voters of the district the proposition of whether or not the authorized but unissued bonds may be issued, sold, and delivered for other and different purposes specified in the election order and the election notice. The election shall be ordered, held, and conducted in the same form and manner as that at which the bonds were originally authorized.

(c) If a majority of those voting at the election vote in favor of the sale and delivery of the unissued bonds and the use of the proceeds of the bonds for the purpose or purposes specified in the election order and the election notice, the board of trustees may issue, sell, and deliver the bonds and use the proceeds of the bonds for the purpose or purposes authorized at the election.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Sec. 45.1105. USE OF UNSPENT GENERAL OBLIGATION BOND PROCEEDS. (a) A school district may use the unspent proceeds of issued general obligation bonds only:

(1) for the specific purposes for which the bonds were

authorized;

(2) to retire the bonds; or

(3) for a purpose other than the specific purposes for which the bonds were authorized if:

(A) the specific purposes are accomplished or abandoned; and

(B) the board of trustees at a public meeting held only for the purpose of considering the use of the unspent bond proceeds approves in separate votes the use of the proceeds for:

(i) a purpose other than to retire the bonds; and

(ii) the purpose specified at the time the vote is taken.

(b) In addition to other requirements of law, notice of a public meeting held under this section must include a statement that the board of trustees will consider the use of unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized.

(c) A public meeting held under this section must provide the public an opportunity to address the board of trustees on the question of using the unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized.

Added by Acts 2019, 86th Leg., R.S., Ch. 726 (H.B. 440), Sec. 1, eff. September 1, 2019.

Sec. 45.111. CERTIFICATES OF INDEBTEDNESS; ISSUANCE BY CERTAIN SCHOOL AND JUNIOR COLLEGE DISTRICTS. (a) Any school district, including a junior college district, situated in a county with a population of 200,000 or more may issue interest-bearing certificates of indebtedness to provide funds for erecting or equipping school buildings in the boundaries of the district or refinancing outstanding certificates as provided by this section. The term "certificates," as used in this section, includes all obligations authorized to be issued under this section and the interest on those obligations.

(b) The governing body of the district shall provide for the payment of the certificates issued under this section by appropriating and pledging local school funds derived from maintenance taxes levied and assessed under Sections 45.002 and

130.122; Chapter 273, Acts of the 53rd Legislature, Regular Session, 1953 (Article 2784g, Vernon's Texas Civil Statutes); or other similar law that limits the amount of tax that may be levied for maintenance purposes, as distinguished from bond requirements. The appropriation and pledge may be in the nature of a continuing irrevocable pledge to apply the first moneys collected annually from the tax levy to the payment of the obligations or by the irrevocable present levy and appropriation of the amount of the maintenance tax required to meet the annual debt service requirements of the obligations, in which event the governing body shall covenant to annually set aside the amount in the annual tax levy, showing the same is a portion of the maintenance tax. The governing body shall annually budget the amount required to pay the principal and interest of the obligations that may be scheduled to become due in any fiscal year. This section may not be construed as permitting the levy of a maintenance tax in excess of the amount approved by the qualified voters of the district.

(c) A district may not at any one time have certificates outstanding and unpaid in principal amount in excess of \$250,000, unless the excessive amount becomes the obligation of the district by assumption under Subsection (k) or the new certificates are being issued to refund or refinance outstanding obligations under Subsection (i).

(d) The principal amount of certificates that may be authorized at any one time and the scheduling of their principal maturity are further restricted as follows:

(1) if the assessed valuation is more than \$1 million and less than \$15 million, the limiting factor is 25 cents;

(2) if the assessed valuation is \$15 million or more but less than \$35 million, the limiting factor is 15 cents; and

(3) if the assessed valuation is \$35 million or more, the limiting factor is 5 cents.

(e) Assessed valuation means the valuation for school district purposes on the tax rolls of the district most recently approved before the authorization of the certificates. The limiting factor for a particular district, as prescribed by Subsection (d), is multiplied by the assessed valuation of the district, and the product is the maximum amount of debt service requirements on the certificates that may be scheduled to become due in any fiscal year on a cumulative basis. A district that has an assessed valuation

less than \$1 million may not issue certificates under this section.

(f) Certificates authorized to be issued under this section shall be payable at the times and be in such form and denomination or denominations either in coupon form or registered as to principal, interest, or both. The certificates may contain options for redemption before the scheduled maturity and may be payable at the place and may contain other provisions as the governing body of the district determines. A certificate may not mature over a period in excess of 25 years from the date of the certificate or bear interest at a rate in excess of seven percent per annum.

(g) Except if issued in exchange for certificates outstanding as provided by Subsection (i), the certificates shall be sold for cash at not less than the face or par value plus accrued interest. The proceeds shall be applied for the purpose for which the certificates were issued, except that all accrued interest and premium received, if any, shall be deposited in the interest and sinking fund established for the payment of the obligations. The cost of issuing the obligations, including attorneys', printing, and fiscal fees, may be paid from the proceeds, except if certificates are sold under Subsection (i).

(h) The certificates, including interest whether issued in coupon or registered form, are securities within the meaning of Chapter 8, Business & Commerce Code, and that chapter applies to the certificates after their approval by the attorney general and registration by the comptroller.

(i) Each governing body may refund or refinance outstanding certificates by issuing new interest-bearing certificates within the limitations and conditions provided in this section. The new certificates shall be issued and delivered in lieu of and on surrender to the comptroller and the cancellation of the obligations being refunded, and the comptroller shall register the new certificates and deliver them in accordance with the order authorizing their issuance. The new certificates may be issued in accordance with Subchapter A, Chapter 1207, Government Code, and delivered in accordance with Subchapter B or C of that chapter.

(j) A certified copy of all proceedings relating to the authorization of the certificates shall be submitted to the attorney general.

(k) Certificates issued under this section are an indebtedness of the school district issuing them, but the holder of a certificate

does not have the right to demand payment out of any fund other than those pledged to its payment. If the boundary lines of any issuing district are changed while the certificates remain outstanding, the indebtedness shall be adjusted or assumed as provided under general law for the adjustment of bond indebtedness payable from taxation.

(1) For purposes of this section, the governing body of a common school district is the commissioners court of the county having administrative jurisdiction. The governing body of an independent school district, a rural high school district, or a junior college district is its board of trustees, and the governing body of a municipally controlled school district is the city or town council or commission. Certificates shall be authorized by order of the governing body of the district.

Amended by Acts 2001, 77th Leg., ch. 1420, Sec. 8.213, eff. Sept. 1, 2001.

Sec. 45.112. CONTRACTS FOR INVESTMENT OF DEBT SERVICE FUNDS.

(a) A school district, including a junior college district or community college district, may enter into a contract with a term not to exceed seven years to purchase investments with the proceeds of taxes levied or to be levied by the district for the purpose of paying debt service on bonds issued by the district.

(b) A contract under this section may provide for the purchase of investments at a stated yield or yields.

(c) Before entering a contract under this section, a school district must solicit and receive bids from at least three separate providers. The district must accept the qualifying bid that provides for the highest yield investments over the term of the contract.

(d) A contract under this section may provide only for the purchase of an obligation described by Section 2256.009(a)(1), Government Code, other than an obligation described by Section 2256.009(b) of that code.

Added by Acts 1999, 76th Leg., ch. 1535, Sec. 1, eff. June 19, 1999.

Sec. 45.113. TRUST FOR COUNTY PERMANENT SCHOOL FUND. (a)

Notwithstanding former Subchapter E, Chapter 17, as that subchapter

existed on May 1, 1995, the commissioners court of a county may:

(1) sell or otherwise dispose of county school lands in the manner determined by the court;

(2) establish an irrevocable trust for the proceeds of a sale or other disposition under Subdivision (1); and

(3) invest the principal of a trust created under Subdivision (2) in any investment permitted for other county funds under Chapter 2256, Government Code.

(b) The members of the commissioners court and their successors in office must be the sole trustees of a trust established under Subsection (a)(2). The trustees may not delegate the authority to manage or invest the trust but may contract with qualified persons for investment advice.

(c) The principal of a trust established under Subsection (a)(2) constitutes a portion of the county permanent school fund and must be held in perpetuity for the benefit of the public schools in the county. The income of a trust established under Subsection (a)(2) constitutes a portion of the county available school fund and may be distributed as permitted by law.

(a-1) If a school district chooses under Subsection (a) to use competitive bidding, the district shall, not later than the 30th day before the date the current depository contract expires, mail to each bank located in the district and, if desired, to other banks, a notice stating the time and place in which bid applications will be received for selecting a depository or depositories. The notice must include a uniform bid blank in the form prescribed by State Board of Education rule.

(a-2) If a school district chooses under Subsection (a) to use requests for proposals, the district shall, not later than the 30th day before the date the current depository contract expires, mail to each bank located in the district and, if desired, to other banks, a notice stating the time and place in which proposals will be received for selecting a depository or depositories. (b) The school district may add to the uniform bid or proposal blank other terms that do not unfairly restrict competition between banks in or near the territory of the district.

(c) Interest rates may be stated in the bid or proposal either as a fixed rate, as a percentage of a stated base rate, in relation to a stated prevailing rate varying from time to time, or in any other manner, but in every case in a uniform manner, that will permit comparison with other bids or proposals received.

(d) If the school district chooses under Subsection (a) to use requests for proposals, the district shall state the selection criteria, including the factors specified under Section 45.207(c), in the request for proposals and shall select the proposal that offers the best value to the district based on the evaluation and ranking of each submitted proposal in relation to the stated selection criteria. (1) the district:

(A) receives tying bids for the contract; or

(B) after evaluating the proposals for the contract, ranks two or more proposals equally;

(2) each bank submitting a tying bid or proposal has bid or proposed to pay the district the maximum interest rates allowed by law by the Board of Governors of the Federal Reserve System and the Board of Directors of the Federal Deposit Insurance Corporation; and

(3) the tying bids or proposals are otherwise equal in the judgment and discretion of the board of trustees of the district.

(a-1) In the case of tying bids or proposals, the board of trustees may award the depository contract by:

(1) determining by lot which of the banks submitting the tying bids or proposals will receive the contract; or

(2) awarding a contract to each of the banks submitting the tying bids or proposals.

(b) The board of trustees may, during the period of the contract, determine the amount of funds to be deposited in each depository bank and determine the account services offered in the bid or proposal form that are to be provided by each bank in its capacity as school district depository. All funds received by the district from or through the agency shall be deposited, at the district's option, in one depository bank or invested in a public funds investment pool created under Chapter 791, Government Code, to be designated by the district.

(c) The board of trustees of the school district shall at a regular or special meeting consider in accordance with this subsection each bid or proposal received. In determining the highest and best bid or the highest-ranked proposal, or in case of tying bids or proposals the highest and best tying bids or proposals, the board of trustees shall consider:

(1) the interest rate bid or proposed on time deposits;

(2) charges for keeping district accounts, records, and reports and furnishing checks;

(3) the ability of the bank submitting the bid or proposal

to provide the necessary services and perform the duties as school district depository; and

(a) The bank or banks selected as the depository or depositories and the school district shall enter into a depository contract or contracts, bond or bonds, or other necessary instruments setting forth the duties and agreements pertaining to the depository, in a form and with the content prescribed by the State Board of Education. The parties shall attach to the contract and incorporate by reference the bid or proposal of the depository.

(b) The depository bank shall attach to the contract and file with the school district a bond in an initial amount equal to the estimated highest daily balance, determined by the board of trustees of the district, of all deposits that the school district will have in the depository during the term of the contract, less any applicable Federal Deposit Insurance Corporation insurance. The bond must be payable to the school district and must be signed by the depository bank and by some surety company authorized to do business in this state. The depository bank shall increase the amount of the bond if the board of trustees determines it to be necessary to adequately protect the funds of the school district deposited with the depository bank.

(c) The bond shall be conditioned on:

(1) the faithful performance of all duties and obligations devolving by law on the depository;

(2) the payment on presentation of all checks or drafts on order of the board of trustees of the school district, in accordance with its orders entered by the board of trustees according to law;

(3) the payment on demand of any demand deposit in the

depository;

(4) the payment, after the expiration of the period of notice required, of any time deposit in the depository;

(5) the faithful keeping of school funds by the depository and the accounting for the funds according to law; and

(6) the faithful paying over to the successor depository all balances remaining in the accounts.

(d) The bond and the surety on the bond must be approved by the board of trustees of the school district. A premium on the depository bond may not be paid out of school district funds.

(e) Repealed by Acts 2019, 86th Leg., R.S., Ch. 439 (S.B. [1376](#)), Sec. 4.01(a)(8), eff. June 4, 2019.

(f) In lieu of the bond required under Subsection (b), the depository bank may deposit or pledge, with the school district or with a trustee designated by the school district, approved securities in an amount sufficient to adequately protect the funds of the school district deposited with depository bank. A depository bank may give a bond and deposit or pledge approved securities in an aggregate amount sufficient to adequately protect the funds of the school district deposited with the depository bank. The school district shall designate from time to time the amount of approved securities or the aggregate amount of the bond and approved securities to adequately protect the district. The district may not designate an amount less than the balance of school district funds on deposit with the depository bank from day to day, less any applicable Federal Deposit Insurance Corporation insurance. The depository bank may substitute approved securities on obtaining the approval of the school district. For purposes of this subsection, the approved securities are valued at their market value.

Sec. 45.209. INVESTMENT OF DISTRICT FUNDS. The school district may provide in its bid or proposal blank for the right to place on

time deposits with savings and loan institutions located in this state only funds that are fully insured by the Federal Deposit Insurance Corporation. A district may not place on deposit with any savings and loan institution any bond or certificate of indebtedness proceeds as provided by Section 45.102. A depository bank may not be compelled without its consent to accept on time deposit any bond proceeds under Section 45.102, but a depository bank may offer a bid or proposal of interest equaling the highest bid or proposal of interest for the time deposit of the bond proceeds tendered by another bank. If the depository bank equals the bid or proposal, it is entitled to receive the bond proceeds on time deposit.

- (1) as required under the Texas Constitution; or
- (2) for assistance in paying debt service.

(b) The same school district bonds may not benefit under both Subchapter C and this subchapter.

(c) Notwithstanding any amendment of this subchapter or other law, the credit enhancement provided under this subchapter for school district bonds remains in effect until the date those bonds mature or are defeased in accordance with state law.

(b) The commissioner may not endorse particular bonds for credit enhancement under this subchapter until the commissioner has:

(1) a total amount of outstanding bonds guaranteed by the permanent school fund exceeding the amount authorized under:

(A) Section 45.053; or

(B) federal law or regulations; or

(2) the use of a portion of the cost value of the permanent school fund reserved under Section 45.0531, as determined by the board.

(b) If Foundation School Program appropriations are not sufficient in any year to pay principal or interest that becomes due on bonds for which credit enhancement is provided under this subchapter, the payment shall be made from the following year's Foundation School Program appropriations that may be used for the purpose under this subchapter before those appropriations are used for any other Foundation School Program purpose.

The commissioner may adopt a single form on which a district seeking guarantee or credit enhancement of eligible bonds may apply simultaneously first for a guarantee under Subchapter C and then, if that guarantee is rejected,

for credit enhancement under this subchapter.

(b) An application under Subsection (a) must:

(1) include the information required by Section 45.055(b);

and

(2) be accompanied by a fee set by board rule in an amount designed to cover the costs of administering the programs to provide the guarantee or credit enhancement of eligible bonds.

(b) Immediately following receipt of the funds for payment of the principal or interest, the paying agent shall pay the amount due.

(c) The procedures prescribed by Subsections (a) and (b) apply to each payment of principal or interest on bonds as the payment becomes due until the bonds mature or are defeased in accordance with state law.

(d) If money appropriated for the Foundation School Program is used for purposes of this subchapter and as a result there is insufficient money to fully fund the Foundation School Program, the commissioner shall, to the extent necessary, reduce each school district's foundation school fund allocations, other than any portion appropriated from the available school fund, in the same manner provided by Section 48.266(f) for a case in which school district entitlements exceed the amount appropriated. The following fiscal year, a district's entitlement under Section 48.266 is increased by an amount equal to the reduction under this subsection.

(e) A payment made under this section by the state on behalf of a school district of funds the district owes on bonds for which credit enhancement is provided under this subchapter creates a repayment obligation of the district to the state regardless of the maturity date of, or any payment of interest on, the bonds.

(f) This section does not create a debt of the state under the Texas Constitution or, except to the extent provided by this subchapter, create a payment obligation.

(1) current debt rate for purposes of computing a voter-approval tax rate under Section 26.08, Tax Code; and

Sec. 45.303. LIMITATION ON PARTICIPATION; MINIMUM REQUIREMENTS FOR DEBT SERVICE RESERVE. In adopting rules under Section 45.302, the commissioner may:

(1) limit participation in the program to charter holders who hold charters for open-enrollment charter schools that meet standards established by the commissioner, including standards for financial stability, compliance with applicable state and federal program requirements, and student academic performance; and

(2) impose minimum requirements for a debt service reserve to secure repayment of obligations for which credit enhancement is provided under this subchapter.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. [3646](#)), Sec. 75, eff. September 1, 2009.

Sec. 45.304. ALLOCATION OF PORTION OF FOUNDATION SCHOOL PROGRAM FUNDS FOR CREDIT ENHANCEMENT. (a) The commissioner may allocate not more than one percent of the amount appropriated for the Foundation School Program for purposes of the program under this subchapter.

(b) The funds allocated under this section may not be considered available for purposes of any other credit enhancement program.

(c) Only those Foundation School Program funds allocated under this section may be committed to the program under this subchapter.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. [3646](#)), Sec. 75, eff. September 1, 2009.

(b) The commissioner may use state funds allocated under Section 45.304 to pay any amount due for credit enhancement under the program and, subject to the terms of the applicable private credit obligation agreement, provide for payment of private funds to the Foundation School Program in an amount equal to at least one-half of the amount of the state funds paid. The commissioner may also use any other state funds available for the purpose to make payments under this subchapter or to reimburse the Foundation School Program for payments made under this subchapter from Foundation School Program funds.

Sec. 45.306. REPAYMENT; LIEN. (a) If a charter holder on behalf of which the state makes a payment under the program does not immediately repay the Foundation School Program the amount of the payment, the commissioner shall withhold any funds due from the state to the charter holder as necessary to recover the total amount of state and private funds paid on behalf of the charter holder under the program.

(b) If a charter holder is for any reason, including revocation or surrender of a charter or bankruptcy, unable to repay any amount due under this subchapter, any loss of funds shall be shared equally between the Foundation School Program and the person providing the private funds obligated for credit enhancement under this subchapter.

(c) A charter holder for which credit enhancement is provided under this subchapter to purchase, repair, or renovate real property for open-enrollment charter school facilities must agree to execute a lien on that real property in a form prescribed by the commissioner and approved by the attorney general to secure repayment of all amounts due to the state from the charter holder, including reimbursement of any private funds paid on behalf of an open-enrollment charter school under this subchapter.

(d) A lien under this section must be filed in the real property records of each county in which the real property is

located. A lien under this section has priority over any other claim against the real property except a lien granted to the holders of obligations issued to finance the acquisition of the real property and any security interest or lien existing before credit enhancement is provided under this subchapter.

(e) The commissioner shall notify a charter holder of any amount determined to be due to the state, including federal funds. If the full amount due to the state has not been repaid or recovered by the commissioner from other funds due to the charter holder within the current and subsequent school year, the commissioner may request the attorney general to file an action to foreclose on a lien under this section. Funds recovered from foreclosure of a lien under this section shall be credited first to any security interest or lien with priority over the lien under this section, then to the charter holder's obligation under this section, and then to any other program to which the funds are due.

Sec. 46.002. RULES. (a) The commissioner may adopt rules for the administration of this subchapter.

(b) The commissioner's rules may limit the amount of an

allotment under this subchapter that is to be used to construct, acquire, renovate, or improve an instructional facility that may also be used for noninstructional or extracurricular activities.

Added by Acts 1997, 75th Leg., ch. 592, Sec. 1.04, eff. Sept. 1, 1997. Amended by Acts 1999, 76th Leg., ch. 396, Sec. 1.23, eff. Sept. 1, 1999.

Sec. 46.003. SCHOOL FACILITIES ALLOTMENT. (a) For each year, except as provided by Sections 46.005 and 46.006, a school district is guaranteed a specified amount per student in state and local funds for each cent of tax effort, up to the maximum rate under Subsection (b), to pay the principal of and interest on eligible bonds issued to construct, acquire, renovate, or improve an instructional facility. The amount of state support is determined by the formula:

$$\text{FYA} = (\text{FYL} \times \text{ADA} \times \text{BTR} \times 100) - (\text{BTR} \times (\text{DPV}/100))$$

where:

"FYA" is the guaranteed facilities yield amount of state funds allocated to the district for the year;

"FYL" is the dollar amount guaranteed level of state and local funds per student per cent of tax effort, which is \$35 or a greater amount for any year provided by appropriation;

"ADA" is the greater of the number of students in average daily attendance, as determined under Section 48.005, in the district or 400;

"BTR" is the district's bond tax rate for the current year, which is determined by dividing the amount budgeted by the district for payment of eligible bonds by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, Section 48.258, divided by 100; and

"DPV" is the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, Section 48.258.

(b) The bond tax rate under Subsection (a) may not exceed the rate that would be necessary for the current year, using state funds under Subsection (a), to make payments of principal and interest on the bonds for which the tax is pledged.

(c) To enable the district to collect local funds sufficient to

pay the district's share of the debt service, a district may levy a bond tax at a rate higher than the maximum rate for which it may receive state assistance.

(d) The amount budgeted by a district for payment of eligible bonds may include:

(1) bond taxes collected in the current school year;

(2) bond taxes collected in a preceding school year in excess of the amount necessary to pay the district's share of actual debt service on bonds in that year, provided that the taxes were not used to generate other state financial assistance for the district; or

(3) maintenance and operations taxes collected in the current school year or a preceding school year in excess of the amount eligible to be used to generate other state financial assistance for the district.

(e) Bonds are eligible to be paid with state and local funds under this section if:

(1) taxes to pay the principal of and interest on the bonds were first levied in the 1997-1998 school year or a later school year; and

(2) the bonds do not have a weighted average maturity of less than eight years.

(f) A district may use state funds received under this section only to pay the principal of and interest on the bonds for which the district received the funds.

(g) The board of trustees and voters of a school district shall determine district needs concerning construction, acquisition, renovation, or improvement of instructional facilities.

(h) To receive state assistance under this subchapter, a school district must apply to the commissioner in accordance with rules adopted by the commissioner before issuing bonds that will be paid with state assistance. Until the bonds are fully paid or the instructional facility is sold:

(1) a school district is entitled to continue receiving state assistance without reapplying to the commissioner; and

(2) the guaranteed level of state and local funds per student per cent of tax effort applicable to the bonds may not be reduced below the level provided for the year in which the bonds were issued.

Sec. 46.004. LEASE-PURCHASE AGREEMENTS. (a) A district may receive state assistance in connection with a lease-purchase agreement concerning an instructional facility. For purposes of this subchapter:

(1) taxes levied for purposes of maintenance and operations that are necessary to pay a district's share of the payments under a lease-purchase agreement for which the district receives state assistance under this subchapter are considered to be bond taxes; and

(2) payments under a lease-purchase agreement are considered to be payments of principal of and interest on bonds.

(b) Section 46.003(b) applies to taxes levied to pay a district's share of the payments under a lease-purchase agreement for which the district receives state assistance under this subchapter.

(c) A lease-purchase agreement must be for a term of at least eight years to be eligible to be paid with state and local funds under this subchapter.

Added by Acts 1997, 75th Leg., ch. 592, Sec. 1.04, eff. Sept. 1, 1997. Amended by Acts 1999, 76th Leg., ch. 396, Sec. 1.25, eff. Sept. 1, 1999.

Sec. 46.005. LIMITATION ON GUARANTEED AMOUNT. The guaranteed amount of state and local funds for a new project that a district may be awarded in any state fiscal biennium under Section 46.003 for a school district may not exceed the lesser of:

(1) the amount the actual debt service payments the district makes in the biennium in which the bonds are issued; or

(2) the greater of:

(A) \$100,000; or

(B) the product of the number of students in average daily attendance in the district multiplied by \$250.

Added by Acts 1997, 75th Leg., ch. 592, Sec. 1.04, eff. Sept. 1, 1997.

Sec. 46.006. SHORTAGE OR EXCESS OF FUNDS APPROPRIATED FOR NEW PROJECTS. (a) If the total amount appropriated for a year for new projects is less than the amount of money to which school districts applying for state assistance are entitled for that year, the commissioner shall rank each school district applying by wealth per student. For purposes of this section, a district's wealth per student is reduced by 10 percent for each state fiscal biennium in which the district did not receive assistance under this subchapter.

(b) A district's wealth per student is reduced for purposes of this section if a district has had substantial student enrollment growth in the preceding five-year period. The reduction is in addition to any reduction under Subsection (a) and is computed before the district's wealth per student is reduced under that subsection, if applicable. A district's wealth per student is reduced:

(1) by five percent, if the district has an enrollment growth rate in that period that is 10 percent or more but less than 15 percent;

(2) by 10 percent, if the district has an enrollment growth rate in that period that is 15 percent or more but less than 30 percent; or

(3) by 15 percent, if the district has an enrollment growth rate in that period that is 30 percent or more.

(c) A district's wealth per student is reduced by 10 percent for purposes of this section if the district does not have any outstanding debt at the time the district applies for assistance under this subchapter. The reduction is in addition to any reduction under Subsection (a) or (b) and is computed before the district's wealth per student is reduced under those subsections, if applicable.

(d) The commissioner shall adjust the rankings after making the reductions in wealth per student required by Subsections (a), (b), and (c).

(e) Beginning with the district with the lowest adjusted wealth per student that has applied for state assistance for the year, the commissioner shall award state assistance to districts that have applied for state assistance in ascending order of adjusted wealth per student. The commissioner shall award the full amount of state assistance to which a district is entitled under this subchapter, except that the commissioner may award less than the full amount to the last district for which any funds are available.

(f) Any amount appropriated for the first year of a fiscal biennium that is not awarded to a school district may be used to provide assistance in the following fiscal year.

(g) In this section, "wealth per student" means a school district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, Section 48.258, divided by the district's average daily attendance as determined under Section 48.005.

- (1) are issued to refund bonds eligible under Section 46.003;
- (2) do not have a final maturity date later than the final maturity date of the bonds being refunded;
- (3) may not be called for redemption earlier than the earliest call date of the bonds being refunded; and
- (4) result in a present value savings, which is determined by computing the net present value of the difference between each

scheduled payment on the original bonds and each scheduled payment on the refunding bonds. The present value savings shall be computed at the true interest cost of the refunding bonds.

(b) If the amount appropriated for purposes of this subchapter for a year is less than the total amount determined under Subsection (a) for that year, the commissioner shall:

(1) transfer from the Foundation School Program to the instructional facilities program the amount by which the total amount determined under Subsection (a) exceeds the amount appropriated; and

(2) reduce each district's foundation school fund allocations in the manner provided by Section 48.266(f).

(c) Warrants for payments under this subchapter shall be approved and transmitted to school district treasurers or depositories in the same manner as warrants for payments under Chapter 48.

(d) As soon as practicable after September 1 of each year, the commissioner shall distribute to each school district the amount of state assistance under this subchapter to which the commissioner has determined the district is entitled for the school year. The district shall deposit the money in the interest and sinking fund for the bonds for which the assistance is received and shall adopt a tax rate for purposes of debt service that takes into account the balance of the interest and sinking fund.

(e) Section 48.272 applies to payments under this subchapter.

(f) If a school district would have received a greater amount under this subchapter for the applicable school year using the adjusted value determined under Section 48.271, the commissioner shall add the difference between the adjusted value and the amount the district received under this subchapter to subsequent distributions to the district under this subchapter.

(b) In this section, "net proceeds" means the difference between the total amount received from the sale less:

(1) the amount necessary to fully pay the outstanding principal of and interest on the bonds; and

Sec. 46.031. RULES. The commissioner may adopt rules for the administration of this subchapter.

Added by Acts 1999, 76th Leg., ch. 396, Sec. 1.29, eff. Sept. 1, 1999.

Sec. 46.032. ALLOTMENT. (a) Each school district is guaranteed a specified amount per student in state and local funds for each cent of tax effort to pay the principal of and interest on eligible bonds. The amount of state support, subject only to the maximum amount under Section 46.034, is determined by the formula:

$$EDA = (EDGL \times ADA \times EDTR \times 100) - (EDTR \times (DPV/100))$$

where:

"EDA" is the amount of state funds to be allocated to the district for assistance with existing debt;

"EDGL" is the dollar amount guaranteed level of state and local funds per student per cent of tax effort, which is the lesser of:

(1) \$40 or a greater amount for any year provided by appropriation; or

(2) the amount that would result in a total additional amount of state funds under this subchapter for the current year equal to \$60 million in excess of the state funds to which school districts would have been entitled under this section if the guaranteed level amount were \$35;

"ADA" is the number of students in average daily attendance, as determined under Section 48.005, in the district;

"EDTR" is the existing debt tax rate of the district, which is

determined by dividing the amount budgeted by the district for payment of eligible bonds by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258, divided by 100; and

"DPV" is the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258.

(b) The existing debt tax rate of the district under Subsection (a) may not exceed the rate that would be necessary for the current year, using state funds under Subsection (a), to make payments of principal and interest on the bonds for which the tax is pledged.

(c) The amount budgeted by a district for payment of eligible bonds may include:

(1) bond taxes collected in the current school year;

(2) bond taxes collected in a preceding school year in excess of the amount necessary to pay the district's share of actual debt service on bonds in that year, provided that the taxes were not used to generate other state financial assistance for the district; or

(3) maintenance and operations taxes collected in the current school year or a preceding school year in excess of the amount eligible to be used to generate other state financial assistance for the district.

Sec. 46.033. ELIGIBLE BONDS. Bonds, including bonds issued under Section 45.006, are eligible to be paid with state and local funds under this subchapter if:

(1) the district made payments on the bonds during the final school year of the preceding state fiscal biennium or taxes levied to pay the principal of and interest on the bonds were included in the district's audited debt service collections for that school year; and

(2) the district does not receive state assistance under Subchapter A for payment of the principal and interest on the bonds.

(b) The amount of state assistance to which a district is entitled under this subchapter may not exceed the amount to which the district would be entitled at the district's tax rate for the payment of eligible bonds for the final year of the preceding state fiscal biennium.

(b-1) Notwithstanding Subsection (b), a school district is entitled to state assistance under this subchapter based on the district's tax rate for the current school year if the district demonstrates to the commissioner's satisfaction that the district meets the criteria under Section 46.006(c-2).

(c) If the amount required to pay the principal of and interest on eligible bonds in a school year is less than the amount of payments made by the district on the bonds during the final school year of the preceding state fiscal biennium or the district's audited debt service collections for that school year, the district may not receive aid in excess of the amount that, when added to the

district's local revenue for the school year, equals the amount required to pay the principal of and interest on the bonds.

#### **SUBCHAPTER D. STATE AID FOR HOMESTEAD EXEMPTION AND LIMITATION ON TAX INCREASES**

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see S.B. 4 and S.B. 23, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 46.071. ADDITIONAL STATE AID FOR HOMESTEAD EXEMPTION AND LIMITATION ON TAX INCREASES. (a) Beginning with the 2015-2016 school year and continuing through the 2021-2022 school year, a school district is entitled to additional state aid under this subchapter to the extent that state and local revenue used to service debt eligible under this chapter is less than the state and local revenue that would have been available to the district under this chapter as it existed on September 1, 2015, if the increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, and the additional limitation on tax increases under Section 1-b(d) of that article as proposed by S.J.R. 1, 84th Legislature, Regular Session, 2015, had not occurred.

(a-1) For the 2022-2023 school year, a school district is entitled to additional state aid under this subchapter to the extent that state and local revenue used to service debt eligible under this

chapter is less than the state and local revenue that would have been available to the district under this chapter as it existed on September 1, 2021, if any increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, as proposed by the 87th Legislature, 3rd Called Session, 2021, had not occurred.

(a-2) Beginning with the 2023-2024 school year, a school district is entitled to additional state aid under this subchapter to the extent that state and local revenue used to service debt eligible under this chapter is less than the state and local revenue that would have been available to the district under this chapter as it existed on September 1, 2022, if any increase in a residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, and any additional limitation on tax increases under Section 1-b(d) of that article as proposed by the 88th Legislature, 2nd Called Session, 2023, had not occurred.

(b) Subject to Subsections (c), (d), and (e), additional state aid under this section through the 2021-2022 school year is equal to the amount by which the loss of local interest and sinking revenue for debt service attributable to the increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, and the additional limitation on tax increases under Section 1-b(d) of that article as proposed by S.J.R. 1, 84th Legislature, Regular Session, 2015, is not offset by a gain in state aid under this chapter.

(b-1) Subject to Subsections (c-1), (d), and (e), additional state aid under this section for the 2022-2023 school year is equal to the amount by which the loss of local interest and sinking revenue for debt service attributable to any increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, as proposed by the 87th Legislature, 3rd Called Session, 2021, is not offset by a gain in state aid under this chapter.

(b-2) Subject to Subsections (c-2), (d), and (e), additional state aid under this section beginning with the 2023-2024 school year is equal to the amount by which the loss of local interest and sinking revenue for debt service attributable to any increase in a residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, and any additional limitation on tax increases under Section 1-b(d) of that article as proposed by the 88th

Legislature, 2nd Called Session, 2023, is not offset by a gain in state aid under this chapter.

(c) For the purpose of determining state aid under Subsections (a) and (b), local interest and sinking revenue for debt service is limited to revenue required to service debt eligible under this chapter as of September 1, 2015, including refunding of that debt, subject to Section 46.061. The limitation imposed by Section 46.034(a) does not apply for the purpose of determining state aid under this section.

(c-1) For the purpose of determining state aid under Subsections (a-1) and (b-1), local interest and sinking revenue for debt service is limited to revenue required to service debt eligible under this chapter as of September 1, 2021, including refunding of that debt, subject to Section 46.061. The limitation imposed by Section 46.034(a) does not apply for the purpose of determining state aid under this section.

(c-2) For the purpose of determining state aid under Subsections (a-2) and (b-2), local interest and sinking revenue for debt service is limited to revenue required to service debt eligible under this chapter as of September 1, 2023, or authorized by the voters but not yet issued as of September 1, 2023, that later becomes eligible under this chapter, including refunding of that debt, subject to Section 46.061. The limitation imposed by Section 46.034(a) does not apply for the purpose of determining state aid under this section.

(d) If the amount required to pay debt service eligible under this section is less than the sum of state and local assistance provided under this chapter, including the amount of additional aid provided under this section, the district may not receive aid under this section in excess of the amount that, when added to the district's local interest and sinking revenue for debt service for the school year, as defined by this section, and state aid under Subchapters A and B, equals the amount required to pay the eligible debt service.

(e) The commissioner, using information provided by the comptroller and other information as necessary, shall compute the amount of additional state aid to which a district is entitled under this section. A determination by the commissioner under this section is final and may not be appealed.

(2) for a district that operates under a flexible year program under Section 29.0821, the quotient of the sum of attendance for each actual day of instruction as permitted by Section 29.0821(b)(1) divided by the number of actual days of instruction as permitted by Section 29.0821(b)(1);

(3) for a district that operates under a flexible school day program under Section 29.0822, the average daily attendance as calculated by the commissioner in accordance with Sections 29.0822(d) and (d-1); or

(b) A school district that experiences a decline of two percent or more in average daily attendance shall be funded on the basis of:

(1) the actual average daily attendance of the preceding school year, if the decline is the result of the closing or reduction in personnel of a military base; or

(2) subject to Subsection (e), an average daily attendance not to exceed 98 percent of the actual average daily attendance of the preceding school year, if the decline is not the result of the closing or reduction in personnel of a military base.

The commissioner may divide the adjustment between two consecutive school years.

(e) For each school year, the commissioner shall adjust the average daily attendance of school districts that are entitled to funding on the basis of an adjusted average daily attendance under Subsection (b)(2) so that:

(1) all districts are funded on the basis of the same percentage of the preceding year's actual average daily attendance; and

(2) the total cost to the state does not exceed the amount specifically appropriated for that year for purposes of Subsection (b)(2).

(f) An open-enrollment charter school is not entitled to funding based on an adjustment under Subsection (b)(2).

(g) If a student may receive course credit toward the student's high school academic requirements and toward the student's higher education academic requirements for a single course, including a course provided under Section 28.009 by a public institution of higher education, the time during which the student attends the course shall be counted as part of the minimum number of instructional hours required for a student to be considered a full-time student in average daily attendance for purposes of this section.

(g-1) The commissioner shall adopt rules to calculate average daily attendance for students participating in a blended learning program in which classroom instruction is supplemented with applied workforce learning opportunities, including participation of students in internships, externships, and apprenticeships.

(h) Subject to rules adopted by the commissioner under Section 48.007(b), time that a student participates in an off-campus

instructional program approved under Section 48.007(a) shall be counted as part of the minimum number of instructional hours required for a student to be considered a full-time student in average daily attendance for purposes of this section.

(i) A district or a charter school operating under Chapter 12 that operates a prekindergarten program is eligible to receive one-half of average daily attendance under Subsection (a) if the district's or charter school's prekindergarten program provides at least 32,400 minutes of instructional time to students.

(j) A district or charter school is eligible to earn full average daily attendance under Subsection (a) if the district or school provides at least 43,200 minutes of instructional time to students enrolled in:

(1) a dropout recovery school or program operating under Section 12.1141(c) or Section 39.0548;

(2) an alternative education program operating under Section 37.008;

(3) a school program located at a day treatment facility, residential treatment facility, psychiatric hospital, or medical hospital;

(4) a school program offered at a correctional facility; or

(5) a school operating under Subchapter G, Chapter 12.

(k) A charter school operating under a charter granted under Chapter 12 before January 1, 2015, is eligible to earn full average daily attendance under Subsection (a), as that subsection existed immediately before January 1, 2015, for:

(l) A school district campus or charter school described by Subsection (j) may operate more than one program and be eligible for full average daily attendance for each program if the programs operated by the district campus or charter school satisfy all applicable state and federal requirements.

(m) The commissioner shall adopt rules necessary to implement this section, including rules that:

(1) establish the minimum amount of instructional time per

day that allows a school district or charter school to be eligible for full average daily attendance, which may differ based on the instructional program offered by the district or charter school;

(2) establish the requirements necessary for a school district or charter school to be eligible for one-half of average daily attendance, which may differ based on the instructional program offered by the district or charter school;

(3) proportionally reduce the average daily attendance for a school district if any campus or instructional program in the district provides fewer than the required minimum minutes of instruction to students; and

(4) allow a grade or course repeated under Section 28.02124 to qualify for average daily attendance even if the student previously passed or earned credit for the grade or course, if the grade or course would otherwise be eligible.

Sec. 48.0051. INCENTIVE FOR ADDITIONAL INSTRUCTIONAL DAYS. (a) Subject to Subsection (a-1), the commissioner shall adjust the average daily attendance of a school district or open-enrollment charter school under Section 48.005 in the manner provided by Subsection (b) if the district or school:

(1) provides the minimum number of minutes of operational and instructional time required under Section 25.081 and commissioner rules adopted under that section over at least 180 days of instruction; and

(2) offers an additional 30 days of half-day instruction for students enrolled in prekindergarten through fifth grade.

(a-1) Repealed by Acts 2021, 87th Leg., R.S., Ch. 806 (H.B. 1525), Sec. 48(a)(4), eff. September 1, 2021.

(b) For a school district or open-enrollment charter school described by Subsection (a), the commissioner shall increase the average daily attendance of the district or school under Section 48.005 by the amount that results from the quotient of the sum of attendance by students described by Subsection (a)(2) for each of the

30 additional instructional days of half-day instruction that are provided divided by 180.

(c) The commissioner may provide the incentive under this section to a school district or open-enrollment charter school that intended, but due to circumstances beyond the district's or school's control, including the occurrence of a natural disaster affecting the district or school, was unable to meet the requirement for instruction under Section 25.081 plus an additional 30 days of half-day instruction. The commissioner may proportionately reduce the incentive provided to a district or school described by this subsection.

(e) The agency shall assist school districts and open-enrollment charter schools in qualifying for the incentive under this section.

(f) A school district or open-enrollment charter school may use funding attributable to the incentive provided under this section to pay costs associated with providing academic instruction in a voluntary summer program for students enrolled in the district or school.

(g) The commissioner shall adopt rules necessary for the implementation of this section.

(a) The commissioner may adjust the average daily attendance of a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, if the district experiences a decline in average daily attendance that is reasonably attributable to the impact of the

disaster.

(b) The adjustment must be sufficient to ensure that the district receives funding comparable to the funding that the district would have received if the decline in average daily attendance reasonably attributable to the impact of the disaster had not occurred.

(c) The commissioner may make the adjustment under this section for the two-year period following the date of the governor's initial proclamation or executive order declaring the state of disaster.

(d) Section 48.005(b)(2) does not apply to a district that receives an adjustment under this section.

(e) A district that receives an adjustment under this section may not receive any additional adjustment under Section 48.005(d) for the decline in average daily attendance on which the adjustment under this section is based.

(f) For purposes of this title, a district's adjusted average daily attendance under this section is considered to be the district's average daily attendance as determined under Section 48.005.

(3) does not contain any information related to instructional methods, except as provided by Section 29.066 or required by federal law.

(d) The commissioner's rules must ensure that the Public Education Information Management System links student performance data to other related information for purposes of efficient and effective allocation of scarce school resources, to the extent practicable using existing agency resources and appropriations.

Sec. 48.051. BASIC ALLOTMENT. (a) For each student in average daily attendance, not including the time students spend each day in special education programs in an instructional arrangement other than mainstream or career and technology education programs, for which an additional allotment is made under Subchapter C, a district is entitled to an allotment equal to the lesser of \$6,160 or the amount that results from the following formula:

$$A = \$6,160 \times TR/MCR$$

where:

"A" is the allotment to which a district is entitled;

"TR" is the district's tier one maintenance and operations tax rate, as provided by Section 45.0032; and

"MCR" is the district's maximum compressed tax rate, as determined under Section 48.2551.

(b) A greater amount for any school year may be provided by appropriation.

(c) During any school year for which the maximum amount of the basic allotment provided under Subsection (a) or (b) is greater than the maximum amount provided for the preceding school year, a school district must use at least 30 percent of the amount, if the amount is greater than zero, that equals the product of the average daily attendance of the district multiplied by the amount of the difference between the district's funding under this chapter per student in average daily attendance for the current school year and the preceding school year to provide compensation increases to full-time district employees other than administrators as follows:

(1) 75 percent must be used to increase the compensation paid to classroom teachers, full-time librarians, full-time school

counselors certified under Subchapter B, Chapter 21, and full-time school nurses, prioritizing differentiated compensation for classroom teachers with more than five years of experience; and

(2) 25 percent may be used as determined by the district to increase compensation paid to full-time district employees.

(c-1) A school district employee who received a salary increase under Subsection (c) from a school district for the 2019-2020 school year is, as long as the employee remains employed by the same district and the district is receiving at least the same amount of funding as the amount of funding the district received for the 2019-2020 school year, entitled to salary that is at least equal to the salary the employee received for the 2019-2020 school year. This subsection does not apply if the board of trustees of the school district at which the employee is employed:

(1) complies with Sections 21.4021, 21.4022, and 21.4032 in reducing the employee's salary; and

(2) has adopted a resolution declaring a financial exigency for the district under Section 44.011.

(c-2) A reduction in the salary of a school district employee described by Subsection (c-1) is subject to the rights granted to the employee under this code.

(d) In this section, "compensation" includes benefits such as insurance premiums.

Sec. 48.052. SPARSITY ADJUSTMENT. (a) Notwithstanding Section 48.051, a school district that has fewer than 130 students in average daily attendance shall be provided a basic allotment on the basis of 130 students in average daily attendance if it offers a kindergarten through grade 12 program and has preceding or current year's average daily attendance of at least 90 students or is 30 miles or more by bus route from the nearest high school district. A district offering a kindergarten through grade 8 program whose preceding or current year's average daily attendance was at least 50 students or which is

30 miles or more by bus route from the nearest high school district shall be provided a basic allotment on the basis of 75 students in average daily attendance. An average daily attendance of 60 students shall be the basis of providing the basic allotment if a district offers a kindergarten through grade 6 program and has preceding or current year's average daily attendance of at least 40 students or is 30 miles or more by bus route from the nearest high school district.

(b) Subsection (c) applies only to a school district that:

(1) does not offer each grade level from kindergarten through grade 12 and whose prospective or former students generally attend school in a state that borders this state for the grade levels the district does not offer;

(2) serves both students residing in this state and students residing in a state that borders this state who are subsequently eligible for in-state tuition rates at institutions of higher education in either state regardless of the state in which the students reside; and

(3) shares students with an out-of-state district that does not offer competing instructional services.

(c) Notwithstanding Subsection (a) or Section 48.051, a school district to which this subsection applies, as provided by Subsection (b), that has fewer than 130 students in average daily attendance shall be provided a basic allotment on the basis of 130 students in average daily attendance if it offers a kindergarten through grade four program and has preceding or current year's average daily attendance of at least 75 students or is 30 miles or more by bus route from the nearest high school district.

(1) who resides in this state; or

(2) who:

(A) is a dependent of a member of the United States military;

(B) was previously enrolled in school in this state; and

(C) does not reside in this state due to a military deployment or transfer.

(c) A school district to which this section applies may decline to receive funding under Subsection (b).

(2) "ADA" is the number of students in average daily attendance for which the district is entitled to an allotment under Section 48.051; and

(3) "BA" is the basic allotment determined under Section 48.051.

(b) A school district that has fewer than 1,600 students in average daily attendance is entitled to an annual allotment for each student in average daily attendance based on the following formula:

$$AA = ((1,600 - ADA) \times .0004) \times BA$$

(c) A school district that offers a kindergarten through grade 12 program and has less than 5,000 students in average daily attendance is entitled to an annual allotment for each student in average daily attendance based on the formula, of the following formulas, that results in the greatest annual allotment:

Sec. 48.102. SPECIAL EDUCATION. (a) For each student in average daily attendance in a special education program under Subchapter A, Chapter 29, in a mainstream instructional arrangement,

a school district is entitled to an annual allotment equal to the basic allotment, or, if applicable, the sum of the basic allotment and the allotment under Section 48.101 to which the district is entitled, multiplied by 1.15. For each full-time equivalent student in average daily attendance in a special education program under Subchapter A, Chapter 29, in an instructional arrangement other than a mainstream instructional arrangement, a district is entitled to an annual allotment equal to the basic allotment, or, if applicable, the sum of the basic allotment and the allotment under Section 48.101 to which the district is entitled, multiplied by a weight determined according to instructional arrangement as follows:

Homebound	5.0
Hospital class	3.0
Speech therapy	5.0
Resource room	3.0
Self-contained, mild and moderate, regular campus	3.0
Self-contained, severe, regular campus	3.0
Off home campus	2.7
Nonpublic day school	1.7
Vocational adjustment class	2.3

(b) A special instructional arrangement for students with disabilities residing in care and treatment facilities, other than state schools, whose parents or guardians do not reside in the district providing education services shall be established by commissioner rule. The funding weight for this arrangement shall be 4.0 for those students who receive their education service on a local school district campus. A special instructional arrangement for students with disabilities residing in state schools shall be established by commissioner rule with a funding weight of 2.8.

(c) For funding purposes, the number of contact hours credited per day for each student in the off home campus instructional arrangement may not exceed the contact hours credited per day for the multidistrict class instructional arrangement in the 1992-1993 school year.

(d) For funding purposes the contact hours credited per day for each student in the resource room; self-contained, mild and moderate; and self-contained, severe, instructional arrangements may not exceed the average of the statewide total contact hours credited per day for those three instructional arrangements in the 1992-1993

school year.

(e) The commissioner by rule shall prescribe the qualifications an instructional arrangement must meet in order to be funded as a particular instructional arrangement under this section. In prescribing the qualifications that a mainstream instructional arrangement must meet, the commissioner shall establish requirements that students with disabilities and their teachers receive the direct, indirect, and support services that are necessary to enrich the regular classroom and enable student success.

(f) In this section, "full-time equivalent student" means 30 hours of contact a week between a special education student and special education program personnel.

(g) The commissioner shall adopt rules and procedures governing contracts for residential placement of special education students. The legislature shall provide by appropriation for the state's share of the costs of those placements.

(h) At least 55 percent of the funds allocated under this section must be used in the special education program under Subchapter A, Chapter 29.

(i) The agency shall encourage the placement of students in special education programs, including students in residential instructional arrangements, in the least restrictive environment appropriate for their educational needs.

(j) A school district that provides an extended year program required by federal law for special education students who may regress is entitled to receive funds in an amount equal to 75 percent, or a lesser percentage determined by the commissioner, of the basic allotment, or, if applicable, the sum of the basic allotment and the allotment under Section 48.101 to which the district is entitled for each full-time equivalent student in average daily attendance, multiplied by the amount designated for the student's instructional arrangement under this section, for each day the program is provided divided by the number of days in the minimum school year. The total amount of state funding for extended year services under this section may not exceed \$10 million per year. A school district may use funds received under this section only in providing an extended year program.

(k) From the total amount of funds appropriated for special education under this section, the commissioner shall withhold an amount specified in the General Appropriations Act, and distribute

that amount to school districts for programs under Section 29.014. The program established under that section is required only in school districts in which the program is financed by funds distributed under this subsection and any other funds available for the program. After deducting the amount withheld under this subsection from the total amount appropriated for special education, the commissioner shall reduce each district's allotment proportionately and shall allocate funds to each district accordingly.

(a) Subject to Subsection (b), for each student that a school district serves who has been identified as having dyslexia or a related disorder, the district is entitled to an annual allotment equal to the basic allotment multiplied by 0.1 or a greater amount provided by appropriation.

(b) A school district is entitled to an allotment under Subsection (a) only for a student who:

(1) is receiving services for dyslexia or a related disorder in accordance with:

(A) an individualized education program developed for the student under Section 29.005; or

(B) a plan developed for the student under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794);

(B) is provided by a person with specific training in providing that instruction; or

(3) is permitted, on the basis of having dyslexia or a related disorder, to use modifications in the classroom or accommodations in the administration of assessment instruments under Section 39.023.

Sec. 48.104. COMPENSATORY EDUCATION ALLOTMENT. (a) For each student who does not have a disability and resides in a residential placement facility in a district in which the student's parent or legal guardian does not reside, a district is entitled to an annual allotment equal to the basic allotment multiplied by 0.2 or, if the student is educationally disadvantaged, 0.275. For each full-time equivalent student who is in a remedial and support program under Section 29.081 because the student is pregnant, a district is entitled to an annual allotment equal to the basic allotment multiplied by 2.41.

(b) For each student who is educationally disadvantaged and resides in an economically disadvantaged census block group as determined by the commissioner under Subsection (c), a district is entitled to an annual allotment equal to the basic allotment multiplied by the weight assigned to the student's census block group

under Subsection (d).

(c) For purposes of the allotment under Subsection (b), the commissioner shall establish an index for economically disadvantaged census block groups in the state that provides criteria for determining which census block groups are economically disadvantaged and categorizes economically disadvantaged census block groups in five tiers according to relative severity of economic disadvantage. In determining the severity of economic disadvantage in a census block group, the commissioner shall consider:

- (1) the median household income;
- (2) the average educational attainment of the population;
- (3) the percentage of single-parent households;
- (4) the rate of homeownership; and
- (5) other economic criteria the commissioner determines

likely to disadvantage a student's preparedness and ability to learn.

(d) The weights assigned to the five tiers of the index established under Subsection (c) are, from least to most severe economic disadvantage, 0.225, 0.2375, 0.25, 0.2625, and 0.275.

(e) If insufficient data is available for any school year to evaluate the level of economic disadvantage in a census block group, a school district is entitled to an annual allotment equal to the basic allotment multiplied by 0.225 for each student who is educationally disadvantaged and resides in that census block group.

(e-1) For each student who is a homeless child or youth as defined by 42 U.S.C. Section 11434a, a school district is entitled to an annual allotment equal to the basic allotment multiplied by the highest weight provided under Subsection (d).

(f) A student receiving a full-time virtual education through the state virtual school network may be included in determining the number of students who are educationally disadvantaged and reside in an economically disadvantaged census block group under Subsection (b) or (e), as applicable, if the school district submits to the commissioner a plan detailing the enhanced services that will be provided to the student and the commissioner approves the plan.

(g) Not later than March 1 of each year, the commissioner shall:

(1) review and, if necessary, update the index established under Subsection (c) to be used for the following school year, based on the most recent estimates published by the United States Census Bureau; and

(2) notify each school district of any changes to the index.

(h) The state demographer, the Department of Agriculture, and any other state agency with relevant information shall assist the commissioner in performing the commissioner's duties under this section.

(i) On a schedule determined by the commissioner, each school district shall report to the agency the census block group in which each student enrolled in the district who is educationally disadvantaged resides. The agency shall provide to school districts a resource for use in determining the census block group in which a student resides.

(j) The commissioner shall adopt rules for the method of determining the number of students who qualify for an allotment under this section at a campus that participates in the Community Eligibility Provision administered by the United States Department of Agriculture, as provided by the Healthy, Hunger-Free Kids Act of 2010 (Pub. L. No. 111-296).

(j-1) In addition to other purposes for which funds allocated under this section may be used, those funds may also be used to:

(1) provide child-care services or assistance with child-care expenses for students at risk of dropping out of school, as described by Section 29.081(d)(5);

(2) pay the costs associated with services provided through a life skills program in accordance with Sections 29.085(b)(1) and (3)-(7);

(3) pay costs for services provided by an instructional coach to raise student achievement at a campus in which educationally disadvantaged students are enrolled; or

(4) pay expenses related to reducing the dropout rate and increasing the rate of high school completion, including expenses related to:

(A) duties performed by attendance officers to support educationally disadvantaged students; and

(B) programs that build skills related to managing emotions, establishing and maintaining positive relationships, and making responsible decisions.

(k) At least 55 percent of the funds allocated under this section must be used to:

(1) fund supplemental programs and services, including

services provided by an instructional coach, designed to eliminate any disparity in performance on assessment instruments administered under Subchapter B, Chapter 39, or disparity in the rates of high school completion between:

(A) students who are educationally disadvantaged and students who are not educationally disadvantaged; and

(B) students at risk of dropping out of school, as defined by Section 29.081, and all other students; or

(2) support a program eligible under Title I of the Elementary and Secondary Education Act of 1965, as provided by Pub. L. No. 103-382 and its subsequent amendments, and by federal regulations implementing that Act.

(1) The commissioner shall adopt rules regarding the use of funds described by Subsection (k). The rules:

(1) must:

(A) permit a school district to use those funds for programs and services that reflect the needs of students at each campus in the district; and

(B) provide for streamlined reporting on the use of those funds; and

(2) may not prohibit the use of those funds for any purpose for which the use of those funds was authorized under former Section 42.152 as that section existed on September 1, 2018.

(m) The State Board of Education shall adopt rules requiring a report on the use of funds under Subsection (k) as part of the annual audit under Section 44.008 and shall develop minimum requirements for that report.

(n) The commissioner annually shall review each report required under Subsection (m) for the preceding school year and:

(1) identify each school district that was not in compliance with Subsection (k) during that school year; and

(2) provide each district identified under Subdivision (1) a reasonable opportunity to comply with Subsection (k).

(o) The commissioner, in the year following a determination under Subsection (n) that a school district was not in compliance with Subsection (k) for the 2021-2022 school year or a subsequent school year, shall withhold from the district's foundation school fund payment an amount equal to the amount of compensatory education funds the commissioner determines were not used in compliance with Subsection (k). The commissioner shall release to a district funds

withheld under this subsection when the district provides to the commissioner a detailed plan to spend those funds in compliance with Subsection (k). In determining whether a school district is subject to the withholding of funding required under this subsection, the commissioner may consider the district's average use of funds for the three preceding school years.

(e) If the total amount of funds allotted under this section before a date set by rule of the State Board of Education is less than the total amount appropriated for a school year, the commissioner shall transfer the remainder to any program for which an allotment under Section 48.104 may be used.

(f) After each district has received allotted funds for this program, the State Board of Education may use up to \$500,000 of the funds allocated under this section for programs such as MATHCOUNTS, Future Problem Solving, Odyssey of the Mind, and Academic Decathlon, as long as these funds are used to train personnel and provide program services. To be eligible for funding under this subsection, a program must be determined by the State Board of Education to provide services that are effective and consistent with the state plan for gifted and talented education.

Sec. 48.110. COLLEGE, CAREER, OR MILITARY READINESS OUTCOMES BONUS. (a) The purpose of this section is to further the goal set under the state's master plan for higher education developed under Section 61.051 for at least 60 percent of all adults aged 25 to 34 in

this state to achieve a postsecondary degree or workforce credential by 2030.

(b) For purposes of the outcomes bonus under this section, the commissioner shall determine the threshold percentage as provided by Subsection (g) for college, career, or military readiness as described by Subsection (f) for each of the following cohorts:

(1) annual graduates who are educationally disadvantaged;  
 (2) annual graduates who are not educationally disadvantaged; and

(3) annual graduates who are enrolled in a special education program under Subchapter A, Chapter 29, regardless of whether the annual graduates are educationally disadvantaged.

(c) Each year, the commissioner shall determine for each school district the minimum number of annual graduates in each cohort described by Subsection (b) who would have to demonstrate college, career, or military readiness as described by Subsection (f) in order for the district to achieve a percentage of college, career, or military readiness for that cohort equal to the threshold percentage established for that cohort under Subsection (b).

(d) For each annual graduate in a cohort described by Subsection (b) who demonstrates college, career, or military readiness as described by Subsection (f) in excess of the minimum number of students determined for the applicable district cohort under Subsection (c), a school district is entitled to an annual outcomes bonus of:

(1) if the annual graduate is educationally disadvantaged, \$5,000;

(2) if the annual graduate is not educationally disadvantaged, \$3,000; and

(3) if the annual graduate is enrolled in a special education program under Subchapter A, Chapter 29, \$2,000, regardless of whether the annual graduate is educationally disadvantaged.

(e) A school district is entitled to an outcomes bonus under each subdivision of Subsection (d) for which an annual graduate qualifies.

(f) For purposes of this section, an annual graduate demonstrates:

(1) college readiness if the annual graduate:

(A) both:

(i) achieves college readiness standards used for

accountability purposes under Chapter 39 on the ACT, the SAT, or an assessment instrument designated by the Texas Higher Education Coordinating Board under Section 51.334; and

(ii) during a time period established by commissioner rule, enrolls at a postsecondary educational institution; or

(B) earns an associate degree from a postsecondary educational institution approved by the Texas Higher Education Coordinating Board while attending high school or during a time period established by commissioner rule;

(2) career readiness if the annual graduate:

(A) achieves college readiness standards used for accountability purposes under Chapter 39 on the ACT, the SAT, or an assessment instrument designated by the Texas Higher Education Coordinating Board under Section 51.334; and

(B) during a time period established by commissioner rule, earns an industry-accepted certificate; and

(3) military readiness if the annual graduate:

(A) achieves a passing score set by the applicable military branch on the Armed Services Vocational Aptitude Battery; and

(B) during a time period established by commissioner rule, enlists in the armed forces of the United States or the Texas National Guard.

(g) The commissioner shall establish the threshold percentages under Subsection (b) using the 25th percentile of statewide college, career, or military readiness as described by Subsection (f) for the applicable cohort of annual graduates during the 2016-2017 school year.

(h) On application by a school district, the commissioner may allow annual graduates from the district to satisfy the requirement for demonstrating career readiness under Subsection (f)(2)(B) by successfully completing a coherent sequence of courses required to obtain an industry-accepted certificate. The district must demonstrate in the application that the district is unable to provide sufficient courses or programs to enable students enrolled at the district to earn an industry-accepted certificate within the time period established by the commissioner under Subsection (f)(2)(B). The commissioner by rule shall provide the criteria required for an application under this subsection.

(i) At least 55 percent of the funds allocated under this section must be used in grades 8 through 12 to improve college, career, and military readiness outcomes as described by Subsection (f).

For expiration of Subsections (c-1) and (c-2), see Subsection (c-2).

Sec. 48.111. FAST GROWTH ALLOTMENT. (a) Except as provided by Subsection (c), a school district is entitled to an annual allotment equal to the basic allotment multiplied by the applicable weight under Subsection (a-1) for each enrolled student equal to the difference, if the difference is greater than zero, that results from subtracting 250 from the difference between the number of students enrolled in the district during the school year immediately preceding the current school year and the number of students enrolled in the district during the school year six years preceding the current school year.

(a-1) For purposes of Subsection (a), the agency shall assign the following weights:

(1) 0.48 for each student enrolled at a district in the top 40 percent of districts, as determined based on the number of students calculated under Subsection (a);

(2) 0.33 for each student enrolled at a district in the middle 30 percent of districts, as determined based on the number of students calculated under Subsection (a); and

(3) 0.18 for each student enrolled at a district in the bottom 30 percent of districts, as determined based on the number of students calculated under Subsection (a).

(b) For purposes of Subsection (a), in determining the number

of students enrolled in a school district, the commissioner shall exclude students enrolled in the district who receive full-time instruction through the state virtual school network under Chapter 30A.

(c) Notwithstanding Subsection (a), the total amount that may be used to provide allotments under Subsection (a) may not exceed \$320 million. If the total amount of allotments to which districts are entitled under Subsection (a) for a school year exceeds the amount permitted under this subsection, the commissioner shall proportionately reduce each district's allotment under this section.

(c-1) Notwithstanding Subsection (c), the total amount that may be used to provide allotments under Subsection (a) may not exceed:

- (1) for the 2021-2022 school year, \$270 million;
- (2) for the 2022-2023 school year, \$310 million; and
- (3) for the 2023-2024 school year, \$315 million.

(c-2) Subsection (c-1) and this subsection expire September 1, 2025.

Sec. 48.112. TEACHER INCENTIVE ALLOTMENT. (a) In this section, "rural campus" means a school campus that is:

- (1) located in:

(A) an area that is not designated as an urbanized area or an urban cluster by the United States Census Bureau; and

(B) a school district with fewer than 5,000 enrolled students; or

(2) designated as a rural campus under rules adopted by the commissioner.

(b) To ensure classroom teachers in this state have access to a six-figure salary, the allotment provided to a school district under this section offers resources to the district to increase teacher

compensation and prioritize funding for high needs and rural district campuses.

(c) For each classroom teacher with a teacher designation under Section 21.3521 employed by a school district, the school district is entitled to an allotment equal to the following applicable base amount increased by the high needs and rural factor as determined under Subsection (d):

- (1) \$12,000, or an increased amount not to exceed \$32,000 as determined under Subsection (d), for each master teacher;
- (2) \$6,000, or an increased amount not to exceed \$18,000 as determined under Subsection (d), for each exemplary teacher; and
- (3) \$3,000, or an increased amount not to exceed \$9,000 as determined under Subsection (d), for each recognized teacher.

(d) The high needs and rural factor is determined by multiplying the following applicable amounts by the average of the point value assigned to each student at a district campus under Subsection (e):

- (1) \$5,000 for each master teacher;
- (2) \$3,000 for each exemplary teacher; and
- (3) \$1,500 for each recognized teacher.

(e) Except as provided by Subsection (f), a point value for each student at a district campus shall be assigned as follows:

- (1) 0, for a student for whom the district does not receive a compensatory education allotment under Section 48.104(b) or (e); or
- (2) 0.5, 1.0, 2.0, 3.0, or 4.0, respectively, from least to most severe economic disadvantage according to the census block group in which the student resides, for a student for whom the district receives a compensatory education allotment under Section 48.104(b) or (e).

(f) If the campus at which a student is enrolled is classified as a rural campus, a student is assigned the point value two tiers higher than the student's point value determined under Subsection (e)(1) or (2).

(g) A district is entitled to receive an increased allotment under this section in the amount necessary for reimbursement for any fees paid under Section 21.3521.

(h) The commissioner shall annually make available to the public a list of campuses with the projected allotment amounts per teacher designation at each campus.

(i) A district shall annually certify that:

(1) funds received under this section were used as follows:

(A) at least 90 percent of each allotment received under Subsection (c) was used for the compensation of teachers employed at the campus at which the teacher for whom the district received the allotment is employed; and

(B) any other funds received under this section were used for costs associated with implementing Section 21.3521, including efforts to support teachers in obtaining designations; and

(2) the district prioritized high needs campuses in the district in using funds received under this section.

(j) The Texas School for the Deaf and the Texas School for the Blind and Visually Impaired are entitled to an allotment under this section. If the commissioner determines that assigning point values under Subsections (e) and (f) to students enrolled in the Texas School for the Deaf or the Texas School for the Blind and Visually Impaired is impractical, the commissioner may use the average point value assigned for those students' home districts for purposes of calculating the high needs and rural factor.

(a) A school district that has implemented a mentoring program for classroom teachers who have less than two years of teaching experience under Section 21.458 is entitled to an allotment as determined under Subsection (b) to fund the mentoring program and to provide stipends for mentor teachers.

(b) The commissioner shall adopt a formula to determine the amount to which each district described by Subsection (a) is entitled.

(c) Funding provided to districts under this section may be used only for providing:

- (1) \$10 for each student in average daily attendance, plus \$1 for each student in average daily attendance per every \$50 by which the district's maximum basic allotment under Section 48.051 exceeds \$6,160, prorated as necessary; and
- (2) \$15,000 per campus.

(a-1) A school district campus that provides only virtual instruction or utilizes only facilities not subject to the district's control is not included for purposes of determining a school district's allotment under Subsection (a).

(b) Funds allocated under this section must be used to improve school safety and security, including costs associated with:

- (1) securing school facilities in accordance with the requirements of Section 37.351, including:
  - (A) improvements to school infrastructure;
  - (B) the use or installation of perimeter security fencing conducive to a public school learning environment or physical barriers, which may not include razor wire;

    - (i) security cameras and, if the district has

already installed security cameras, other security equipment, including video surveillance as provided by Section 29.022; and

(ii) technology, including communications systems or devices, such as silent panic alert devices, two-way radios, or wireless Internet booster equipment, that facilitates communication and information sharing between students, school personnel, and first responders in an emergency;

(2) providing security for the district, including:

(4) providing programs related to suicide prevention, intervention, and postvention, including programs provided by chaplains; and

(5) employing a school safety director and other personnel to manage and monitor school safety initiatives and the implementation of school safety requirements for the district.

(b-1) The agency may designate certain technologies that a school district, in using funds allocated under this section, may

purchase only from a vendor approved by the agency.

(b-2) If the agency, in coordination with the Texas School Safety Center, determines that entering into a statewide contract with a vendor for the provision of a technology designated under Subsection (b-1) would result in cost savings to school districts, the agency may, after receiving approval from the Legislative Budget Board and office of the governor, enter into a contract with a vendor to provide the technology to each district that uses funds allocated under this section to purchase that technology.

(c) A school district may use funds allocated under this section for equipment or software that is used for a school safety and security purpose and an instructional purpose, provided that the instructional use does not compromise the safety and security purpose of the equipment or software.

(c-1) The agency, or if designated by the agency, the Texas School Safety Center, shall establish and publish a directory of approved vendors of school safety technology and equipment a school district may select from when using funds allocated under this section. Sec. 48.118. RURAL PATHWAY EXCELLENCE PARTNERSHIP (R-PEP) ALLOTMENT AND OUTCOMES BONUS. (a) For each full-time equivalent student in average daily attendance in grades 9 through 12 in a college or career pathway offered through a partnership under the Rural Pathway Excellence Partnership (R-PEP) program under Section 29.912, a school district is entitled to an allotment equal to the basic allotment, or, if applicable, the sum of the basic allotment and the allotment under Section 48.101 to which the district is entitled, multiplied by:

- (1) 1.15 if the student is educationally disadvantaged; or
- (2) 1.11 if the student is not educationally disadvantaged.

(b) Each year, the commissioner shall determine for each school district the minimum number of annual graduates of a college or career pathway described by Subsection (a) in each cohort described by Section 48.110(b) who would have to obtain not later than five years after high school graduation a postsecondary credential of value, as determined by the Texas Higher Education Coordinating Board based on analyses of wages and costs associated with the credential, including a degree, certificate, or other credential from credit and noncredit programs that equip students for continued learning and greater earnings in the state economy, in order for the district to qualify for an outcomes bonus under Subsection (c).

(c) In addition to the allotment under Subsection (a), for each annual graduate in a cohort described by Subsection (b) who obtains a postsecondary credential of value in excess of the minimum number of students determined for the applicable district cohort under Subsection (b), a school district is entitled to an annual outcomes bonus of:

- (1) if the annual graduate is educationally disadvantaged, \$1,500;
- (2) if the annual graduate is not educationally disadvantaged, \$750; and

#### **SUBCHAPTER D. ADDITIONAL FUNDING**

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. [2](#) and S.B. [568](#), 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 48.151. TRANSPORTATION ALLOTMENT. (a) Each district or county operating a transportation system is entitled to allotments for transportation costs as provided by this section.

(b) As used in this section:

(1) "Regular eligible student" means a student who:

(A) resides two or more miles from the student's campus of regular attendance, measured along the shortest route that may be traveled on public roads, and who is not classified as a student eligible for special education services; or

(B) is a homeless child or youth, as defined by 42 U.S.C. Section 11434a.

(2) "Eligible special education student" means a student who is eligible for special education services under Section 29.003 and who would be unable to attend classes without special transportation services.

(c) Each district or county operating a regular transportation system is entitled to an allotment based on a rate per mile per regular eligible student set by the legislature in the General Appropriations Act.

(d) A district or county may apply for and on approval of the commissioner receive an additional amount of up to 10 percent of its regular transportation allotment to be used for the transportation of children living within two miles of the school they attend who would be subject to hazardous traffic conditions or a high risk of violence if they walked to school.

(d-1) For purposes of Subsection (d), each board of trustees shall provide to the commissioner an explanation of the hazardous traffic conditions or areas presenting a high risk of violence applicable to that district and shall identify the specific hazardous or high-risk areas for which the allocation is requested. A hazardous traffic condition exists where no walkway is provided and children must walk along or cross a freeway or expressway, an underpass, an overpass or a bridge, an uncontrolled major traffic artery, an industrial or commercial area, or another comparable condition. An area presents a high risk of violence if law enforcement records indicate a high incidence of violent crimes in the area. Each board of trustees requesting funds for an area presenting a high risk of violence must, in addition to the explanation required by this subsection, provide the commissioner with consolidated law enforcement records that document violent

crimes identified by reporting agencies within the relevant jurisdiction.

(d-2) A district or county may use all or part of any funds received under Subsection (d) to support community walking transportation programs, including walking school bus programs, provided that the district or county requires each supported program to submit a financial report to the district or county each semester that covers services provided by the program for the benefit of the district or county. The commissioner shall adopt rules governing the transportation allotment as necessary to permit a district or county to receive funds under Subsection (d) that may be used to support innovative school safety projects, including community walking transportation programs as provided by this subsection and any other appropriate safety project, including rules defining an approved walking route mile that may be used as necessary in implementing this subsection.

(e) The commissioner may grant an amount set by appropriation for private or commercial transportation for eligible students from isolated areas. The need for this type of transportation grant shall be determined on an individual basis and the amount granted shall not exceed the actual cost. The grants may be made only in extreme hardship cases. A grant may not be made if the students live within two miles of an approved school bus route.

(f) The cost of transporting career and technology education students from one campus to another inside a district, from a sending district to another secondary public school for a career and technology program or an area career and technology school or to an approved post-secondary institution under a contract for instruction approved by the agency, or from a district campus to a location at which students are provided work-based learning under the district's career and technology program shall be reimbursed based on the number of actual miles traveled times the district's official extracurricular travel per mile rate as set by the board of trustees and approved by the agency.

(g) A school district or county that provides special transportation services for eligible special education students is entitled to a state allocation paid on a previous year's cost-per-mile basis. The rate per mile allowable shall be set by appropriation based on data gathered from the first year of each preceding biennium. Districts may use a portion of their support

allocation to pay transportation costs, if necessary. The commissioner may grant an amount set by appropriation for private transportation to reimburse parents or their agents for transporting eligible special education students. The mileage allowed shall be computed along the shortest public road from the student's home to school and back, morning and afternoon. The need for this type transportation shall be determined on an individual basis and shall be approved only in extreme hardship cases.

(h) Funds allotted under this section must be used in providing transportation services. Transporting a meal or instructional materials as provided by Subsection (n) is included in transportation services under this subsection.

(i) In the case of a district belonging to a county transportation system, the district's transportation allotment for purposes of determining a district's foundation school program allocations is determined on the basis of the number of approved daily route miles in the district.

(j) The Texas School for the Deaf is entitled to an allotment under this section. The commissioner shall determine the appropriate allotment.

(k) Notwithstanding any other provision of this section, the commissioner may not reduce the allotment to which a district or county is entitled under this section because the district or county provides transportation for an eligible student to and from a child-care facility, as defined by Section 42.002, Human Resources Code, or a grandparent's residence instead of the student's residence, as authorized by Section 34.007 of this code.

(l) A school district may, with the funds allotted under this section, provide a bus pass or card for another transportation system to each student who is eligible to use the regular transportation system of the district but for whom the regular transportation system of the district is not a feasible method of providing transportation. The commissioner by rule shall provide procedures for a school district to provide bus passes or cards to students under this subsection.

(m) A school district shall be reimbursed on a per-mile basis for the cost of transporting a dual credit student to another campus in the district, a campus in another district, or a postsecondary educational institution for purposes of attending the course, if the course is not available at the student's campus.

(n) For the duration of a declared disaster, a school district located in an area that is wholly or partly the subject of a disaster declaration by the governor under Chapter 418, Government Code, or by the president of the United States may be reimbursed on a per-mile basis for the cost of transporting a meal or instructional materials to a student's residence or to another location, designated by the district, for pick up by the student.

Sec. 48.152. NEW INSTRUCTIONAL FACILITY ALLOTMENT. (a) In this section:

(1) "Instructional facility" has the meaning assigned by Section 46.001.

(2) "New instructional facility" includes:

(A) a newly constructed instructional facility;  
(B) a repurposed instructional facility; and  
(C) a leased facility operating for the first time as an instructional facility with a minimum lease term of not less than 10 years.

(b) A school district is entitled to an additional allotment as

provided by this section for operational expenses associated with opening a new instructional facility.

(c) A school district entitled to an allotment under this section may use funds from the district's allotment to renovate an existing instructional facility to serve as a dedicated cybersecurity computer laboratory.

(d) For the first school year in which students attend a new instructional facility, a school district is entitled to an allotment of \$1,000 for each student in average daily attendance at the facility. #### **SUBCHAPTER E. TIER TWO ENTITLEMENT**

Sec. 48.201. PURPOSE. The purpose of the tier two component of the Foundation School Program is to provide each school district with the opportunity to provide the basic program and to supplement that program at a level of its own choice. An allotment under this subchapter may be used for any legal purpose other than:

- (1) capital outlay or debt service; or
- (2) a purpose prohibited by Section 45.105(c-1) or another provision of this code.

Sec. 48.202. TIER TWO ALLOTMENT. (a) Each school district is guaranteed a specified amount per weighted student in state and local funds for each cent of tax effort over that required for the district's local fund assignment up to the maximum level specified in this subchapter. The amount of state support, subject only to the maximum amount under Section 48.203, is determined by the formula:

$$\text{GYA} = (\text{GL} \times \text{WADA} \times \text{DTR} \times 100) - \text{LR}$$

where:

"GYA" is the guaranteed yield amount of state funds to be allocated to the district;

"GL" is the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort, which is an amount described by Subsection (a-1) or a greater amount for any year provided by appropriation;

"WADA" is the number of students in weighted average daily attendance, which is calculated by dividing the sum of the school district's allotments under Subchapters B and C by the basic allotment for the applicable year;

"DTR" is the district enrichment tax rate of the school district, which is determined by subtracting the amounts specified by Subsection (b) from the total amount of maintenance and operations taxes collected by the school district for the applicable school year and dividing the difference by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258 or by the quotient of the value of "DPV" as determined under Section 48.256(d) if that subsection applies to the district, divided by 100; and

"LR" is the local revenue, which is determined by multiplying "DTR" by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258 or by the quotient of the value of "DPV" as determined under Section 48.256(d) if that subsection applies to the district, divided by 100.

(a-1) For purposes of Subsection (a), the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort ("GL") for a school district is:

(1) the greater of the amount of district tax revenue per weighted student per cent of tax effort available to a school district at the 96th percentile of wealth per weighted student or the amount that results from multiplying 6,160, or the greater amount

provided under Section 48.051(b), if applicable, by 0.016, for the first eight cents by which the district's maintenance and operations tax rate exceeds the district's tier one tax rate; and

(2) subject to Subsection (f), the amount that results from multiplying \$6,160, or the greater amount provided under Section 48.051(b), if applicable, by 0.008, for the district's maintenance and operations tax effort that exceeds the amount of tax effort described by Subdivision (1).

(a-2) The limitation on district enrichment tax rate ("DTR") under Section 48.203 does not apply to the district's maintenance and operations tax effort described by Subsection (a-1)(1).

(b) In computing the district enrichment tax rate of a school district, the total amount of maintenance and operations taxes collected by the school district does not include the amount of:

(1) the district's local fund assignment under Section 48.256; or

(2) taxes paid into a tax increment fund under Chapter 311, Tax Code.

(c) For purposes of this section, school district taxes for which credit is granted under Section 31.035, 31.036, or 31.037, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(d) For purposes of this section, the total amount of maintenance and operations taxes collected for an applicable school year by a school district with alternate tax dates, as authorized by Section 26.135, Tax Code, is the amount of taxes collected on or after January 1 of the year in which the school year begins and not later than December 31 of the same year.

(e) For purposes of this section, school district taxes for which credit is granted under former Subchapter D, Chapter 313, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(e-1) For purposes of this section, the total amount of maintenance and operations taxes collected by a school district includes the amount of taxes refunded under Section 26.1115(c), Tax Code.

(f) For a school year in which the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort ("GL") under Subsection (a-1)(2) exceeds the dollar amount guaranteed level of state and local funds per weighted student per

cent of tax effort ("GL") under Subsection (a-1)(2) for the preceding school year, a school district shall reduce the district's tax rate under Section 45.0032(b)(2) for the tax year that corresponds to that school year to a rate that results in the amount of state and local funds per weighted student per cent of tax effort available to the district at the dollar amount guaranteed level for the preceding school year. A school district is not entitled to the amount equal to the increase of revenue described by this subsection for the school year for which the district must reduce the district's tax rate. Unless Section 26.042(e), Tax Code, applies to the district, for a tax year in which a district must reduce the district's tax rate under this subsection, the district may not increase the district's maintenance and operations tax rate to a rate that exceeds the maximum maintenance and operations tax rate permitted under Section 45.003(d) or (f), as applicable, minus the reduction of tax effort required under this subsection. This subsection does not apply if the amount of state funds appropriated for a school year specifically excludes the amount necessary to provide the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort under Subsection (a-1)(2).

(3) "MCR" is the district's maximum compressed rate, which is the tax rate for the current tax year per \$100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment to which the district is entitled under this chapter;

(4) "PYDPV" is the district's value of "DPV" for the preceding tax year; and

(5) "PYMCR" is the district's value of "MCR" for the preceding tax year.

(b) Except as provided by Subsection (c), a district's maximum compressed rate ("MCR") is the lesser of:

(1) the rate determined by the following applicable formula:

(A) if "DPV" exceeds "PYDPV" by an amount equal to or greater than 2.5 percent:

$$\text{MCR} = (1.025((\text{PYDPV} + \text{E}) \times \text{PYMCR})) / \text{DPV}; \text{ or}$$

(B) if Paragraph (A) does not apply:

$$\text{MCR} = \text{PYMCR}; \text{ or}$$

(2) the product of the state compression percentage, as determined under Section 48.255, for the current tax year, multiplied by \$1.00.

(c) Notwithstanding Subsection (b), for a district to which Section 48.2552(b) applies, the district's maximum compressed rate is the value calculated in accordance with Section 48.2552(b).

(d) The agency shall:

(1) calculate and make available school districts' maximum compressed rates, as determined under this section; and

(2) post the information described by Section 48.2556 on the agency's Internet website as required by that section.

(d-1) Local appraisal districts, school districts, and the comptroller shall provide any information necessary to the agency to implement this section.

(d-2) A school district may appeal to the commissioner the district's taxable property value as determined by the agency under this section. A decision by the commissioner is final and may not be appealed.

(e) It is the intent of the legislature that the state continue to fund public schools at the same or similar level as the state would have if this section had not taken effect.

Sec. 48.2552. LIMITATION ON MAXIMUM COMPRESSED RATE. (a) Each year, the agency shall evaluate the difference between school districts' maximum compressed rates, as determined under Section 48.2551.

(b) If a school district's maximum compressed rate as calculated under Section 48.2551(b) would be less than 90 percent of another school district's maximum compressed rate, the district's maximum compressed rate is the value at which the district's maximum compressed rate would be equal to 90 percent of the other district's maximum compressed rate.

(c) The amount of revenue available to the state as a result of the differences in the amount of state aid and reduction in local revenue between calculating a district's maximum compressed rate in accordance with Subsection (b) and calculating the district's maximum compressed rate under Section 48.2551 shall be used to lower the state compression percentage under Section 48.255. The agency shall provide estimates to the legislature of the reduction of the state compression percentage based on this subsection.

Sec. 48.2553. PERMITTED TAX RATE FOR MAINTENANCE OF 2020-2021 SCHOOL YEAR BASIC ALLOTMENT. (a) Notwithstanding any other provision of this title or Chapter 26, Tax Code, if the maximum amount of the basic allotment provided under Section 48.051(a) or (b) for a school year is less than the maximum amount provided for the 2020-2021 school year, subject to Subsection (b), a school district may adopt a maintenance and operations tax rate that exceeds the maximum compressed tax rate permitted under Section 48.2551, provided that:

(1) the rate adopted by the district was previously approved by voters for a tax year subsequent to the 2005 tax year; and

(2) the rate may not exceed the lesser of:

(A) \$1.17; or

(B) the district's maximum compressed tax rate and the additional tax rate necessary to generate the amount of revenue equal to the difference in per student funding.

(b) Before adopting a maintenance and operations tax rate under Subsection (a), a school district must receive approval from the agency. To receive approval from the agency under this subsection the district must submit the following information:

(1) a statement detailing the loss of funding to the district that resulted from the decline in the maximum amount of the basic allotment provided under Section 48.051(a) or (b);

(2) the proposed additional tax effort and the amount of funding the proposed additional tax effort will generate;

(3) evidence that the proposed additional tax effort described by Subdivision (2) had been previously authorized by voters subsequent to the 2005 tax year; and

(4) any other information required by the commissioner.

(c) The agency's approval of a district's tax rate under Subsection (b) expires at the end of each tax year.

(d) Any additional tax effort by a school district authorized under this section is not:

(1) eligible for funding under Subchapter B, C, or D;

(2) eligible for the guaranteed yield amount of state funds under Section 48.202; or

(3) subject to the limit on local revenue under Section 48.257.

(e) The commissioner shall reduce state aid or adjust the limit on local revenue under Section 48.257 in an amount equal to the amount of revenue generated by a school district's tax effort that is not in compliance with this section or Section 48.2551.

(f) This section does not apply to a school district to which Section 45.003(f) applies.

Added by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1A.007, eff. September 1, 2020.

For expiration of this section, see Subsection (f).

Sec. 48.2555. MAXIMUM COMPRESSED TAX RATE FOR 2023-2024 SCHOOL YEAR. (a) Notwithstanding any other provision of this title or Chapter 26, Tax Code, for the 2023-2024 school year, the commissioner

shall calculate the value of a school district's maximum compressed tax rate by determining the district's maximum compressed rate under Section 48.2551 or 48.2552(b), if applicable, and reducing the tax rate determined under the applicable section by \$0.107.

(b) If a school district's maximum compressed tax rate as calculated under Subsection (a) would be less than 90 percent of another school district's maximum compressed tax rate under Subsection (a), the district's maximum compressed tax rate is the value at which the district's maximum compressed tax rate would be equal to 90 percent of the other district's maximum compressed tax rate.

(c) Notwithstanding any other provision of this title or Chapter 26, Tax Code, for purposes of determining funding for school districts for the 2023-2024 school year, a reference in any of the following provisions of law to a school district's maximum compressed tax rate or maximum compressed rate as determined under Section 48.2551 means the maximum compressed tax rate determined for the district under this section:

- (1) Section 13.054(f);
- (2) Section 45.003(d);
- (3) Section 45.0032(a);
- (4) Section 48.051(a);
- (5) Sections 48.2553(a) and (e);
- (6) Section 48.2556; and
- (7) Section 26.08(n), Tax Code.

(d) For purposes of Section 30.003(f-1), a reference in that section to Section 48.2551 includes this section.

(e) Notwithstanding any other provision of this title, for purposes of determining a school district's maximum compressed tax rate under Section 48.2551 for the 2024-2025 school year, the value of the district's "PYMCR" is the maximum compressed tax rate determined for the district under this section for the preceding school year.

(f) This section expires September 1, 2025.

Sec. 48.2556. POSTING ON AGENCY WEBSITE OF INFORMATION RELATED

TO REDUCTION OF LIMITATION OF TAX ON HOMESTEADS OF ELDERLY OR DISABLED. (a) For purposes of allowing the chief appraiser of each appraisal district and the assessor for each school district to make the calculations required by Section 11.26(a-10), Tax Code, the agency shall post on the agency's Internet website each school district's maximum compressed rate, as determined under Section 48.2551, for the current tax year and the preceding tax year.

(b) The agency shall post each school district's maximum compressed rate for the current tax year, as determined under Section 48.2551, promptly after calculating the rate. If, for the 2023 or a subsequent tax year, the agency calculates a preliminary rate before calculating a final rate, the agency shall post the preliminary rate, and the chief appraiser of each appraisal district and the assessor for each school district shall use the preliminary rate to make the calculations described by Subsection (a).

(c) The agency shall notify the chief appraiser of each appraisal district and the assessor for each school district when the agency has complied with Subsection (b). The notice must include the location on the agency's Internet website at which the information required by this section to be posted may be found.

Sec. 48.256. LOCAL SHARE OF PROGRAM COST (TIER ONE). (a) Each school district's share of the Foundation School Program is determined by the following formula:

$$\text{LFA} = \text{TR} \times \text{DPV}$$

where:

"LFA" is the school district's local share;

"TR" is the school district's adopted tier one maintenance and operations tax rate, as described by Section 45.0032(a) for each hundred dollars of valuation; and

"DPV" is the taxable value of property in the school district

for the current tax year determined under Subchapter M, Chapter 403, Government Code.

(b) The commissioner shall adjust the values reported by the comptroller to reflect reductions in taxable value of property resulting from natural or economic disaster in the year in which the valuations are determined. The decision of the commissioner is final. An adjustment does not affect the local fund assignment of any other school district.

(c) Appeals of district values shall be held pursuant to Section 403.303, Government Code.

(d) This subsection applies to a school district in which the board of trustees entered into a written agreement with a property owner for the implementation of a limitation on taxable value under Subchapter T, Chapter 403, Government Code. For purposes of determining "DPV" under Subsection (a) for a school district to which this subsection applies, the commissioner shall exclude a portion of the market value of property not otherwise fully taxable by the district under Subchapter T, Chapter 403, Government Code. The comptroller shall provide information to the agency necessary for this subsection.

(d-1) Subsection (d) applies to an agreement for the implementation of a limitation on appraised value under former Subchapter B or C, Chapter 313, Tax Code, that was in effect on January 1, 2023, in the same manner as that subsection applies to an agreement described by that subsection. If the agreement for the limitation on appraised value requires a revenue protection payment to the school district, the payment shall be based on the district's taxable value of property for the preceding tax year.

(e) Subsection (d-1) does not apply to property that was the subject of an application under former Subchapter B or C, Chapter 313, Tax Code, made after May 1, 2009, that the comptroller recommended should be disapproved.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. 2, 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 48.257. LOCAL REVENUE LEVEL IN EXCESS OF ENTITLEMENT. (a) Subject to Subsection (b), if a school district's tier one local share under Section 48.256 exceeds the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund, the district must reduce the district's tier one revenue level in accordance with Chapter 49 to a level not to exceed the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund.

(b) This subsection applies only to a school district to which Subsection (a) applies. If a district's maintenance and operations tax collections from the tax rate described by Section 45.0032(a) for the current tax year minus the required reduction in a district's tier one revenue level under Subsection (a) results in an amount that is less than the amount of the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund, the agency shall adjust the amount of the reduction required in the district's tier one revenue level under Subsection (a) up to the amount of local funds necessary for the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund.

(c) For purposes of Subsection (a), state aid to which a district is entitled under this chapter that is not described by Section 48.266(a)(3) may offset the amount by which a district must reduce the district's revenue level under this section. Any amount of state aid used as an offset under this subsection shall reduce the

amount of state aid to which the district is entitled.

(d) Except as provided by Subsection (e), a school district is entitled to retain the total amount of the district's tier two local share described by Section 48.266(a)(5)(A).

(e) In any school year for which the amount of state funds appropriated specifically excludes the amount necessary to provide the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort under Section 48.202(a-1)(1), a district may only retain the amount of the district's tier two local share described by Section 48.266(a)(5)(A) equal to the amount of revenue that would be generated based on the amount appropriated for the dollar amount guaranteed level of state and local funds.

(f) If the amount of a school district's tier two local share described by Section 48.266(a)(5)(B) to which a district is entitled exceeds the amount described by Section 48.202(a-1)(2), the district must reduce the district's revenue in accordance with Chapter 49 to a level not to exceed the amount described by Section 48.202 (a-1)(2).

(g) For a district to which Section 45.003(f) applies, revenue generated from any cents of maintenance and operations tax effort that exceeds the maximum rate permitted under Section 45.003(d) is subject to the revenue limit established under Subsection (f).

Sec. 48.258. ADJUSTMENT FOR RAPID DECLINE IN TAXABLE VALUE OF PROPERTY. (a) For purposes of Chapters 46 and 49 and this chapter, and to the extent money specifically authorized to be used under this section is available, the commissioner shall adjust the taxable value of property in a school district that, due to factors beyond the control of the board of trustees, experiences a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(b) To the extent that a sufficient amount of money is not available to fund all adjustments under this section, the commissioner shall reduce adjustments in the manner provided by

Section 48.266(f) so that the total amount of adjustments equals the amount of money available to fund the adjustments.

(c) A decision of the commissioner under this section is final and may not be appealed.

Added by Acts 1999, 76th Leg., ch. 396, Sec. 1.18, eff. Sept. 1, 1999.

Transferred, redesignated and amended from Education Code, Section 42.2521 by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1.042, eff. September 1, 2019.

Sec. 48.259. ADJUSTMENT FOR OPTIONAL HOMESTEAD EXEMPTION. (a) In any school year, the commissioner may not provide funding under this chapter or Chapter 46 based on a school district's taxable value of property computed in accordance with Section 403.302(d)(2), Government Code, unless:

(1) funds are specifically appropriated for purposes of this section; or

(2) the commissioner determines that the total amount of state funds appropriated for purposes of the Foundation School Program for the school year exceeds the amount of state funds distributed to school districts in accordance with Section 48.266 based on the taxable values of property in school districts computed in accordance with Section 403.302(d), Government Code, without any deduction for residence homestead exemptions granted under Section 11.13(n), Tax Code.

(b) In making a determination under Subsection (a)(2), the commissioner shall:

(1) notwithstanding Section 48.266(b), reduce the entitlement under this chapter of a school district whose final taxable value of property is higher than the estimate under Section 48.269 and make payments to school districts accordingly; and

(2) give priority to school districts that, due to factors beyond the control of the board of trustees, experience a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(c) In the first year of a state fiscal biennium, before providing funding as provided by Subsection (a)(2), the commissioner shall ensure that sufficient appropriated funds for purposes of the

Foundation School Program are available for the second year of the biennium, including funds to be used for purposes of Section 48.258.

(d) If the commissioner determines that the amount of funds available under Subsection (a)(1) or (2) does not at least equal the total amount of state funding to which districts would be entitled if state funding under this chapter were based on the taxable values of property in school districts computed in accordance with Section 403.302(d)(2), Government Code, the commissioner may, to the extent necessary, provide state funding based on a uniform lesser fraction of the deduction under Section 403.302(d)(2), Government Code.

(e) The commissioner shall notify school districts as soon as practicable as to the availability of funds under this section. For purposes of computing a voter-approval tax rate under Section 26.08, Tax Code, a district shall adjust the district's tax rate limit to reflect assistance received under this section.

Sec. 48.260. ADJUSTMENT FOR PROPERTY VALUE AFFECTED BY STATE OF DISASTER. (a) For purposes of Chapters 46 and 49 and this chapter, the commissioner shall adjust the taxable value of property of a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, as necessary to ensure that the district receives funding based as soon as possible on property values as affected by the disaster.

(b) The commissioner may fund adjustments under this section using funds specifically appropriated for the purpose or other funds available to the commissioner for that purpose.

(c) A decision of the commissioner under this section is final and may not be appealed.

Sec. 48.261. REIMBURSEMENT FOR DISASTER REMEDIATION COSTS. (a) This section applies only to a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, and that incurs disaster remediation costs as a result of the disaster.

(b) During the two-year period following the date of the governor's initial proclamation or executive order declaring a state of disaster, a district may apply to the commissioner for reimbursement of disaster remediation costs that the district pays during that period and does not anticipate recovering through insurance proceeds, federal disaster relief payments, or another similar source of reimbursement.

(c) The commissioner may provide reimbursement under this section only if funds are available for that purpose from:

(1) amounts appropriated for that purpose, including amounts appropriated for school districts for that purpose to the disaster contingency fund established under Section 418.073, Government Code; or

(2) Foundation School Program funds available for that purpose, based on a determination by the commissioner that the amount appropriated for the Foundation School Program, including the facilities component as provided by Chapter 46, exceeds the amount to which districts are entitled under this chapter and Chapter 46.

(d) A district seeking reimbursement under this section must provide the commissioner with adequate documentation of the costs for which the district seeks reimbursement.

(e) The commissioner shall adopt rules necessary to implement this section, including rules:

(1) defining "disaster remediation costs" for purposes of this section, which must include the cost to repair or replace vehicles or computers damaged in the disaster; and

(2) specifying the type of documentation required under Subsection (d).

(f) Notwithstanding any other provision of this section, the

commissioner may permit a district to use amounts provided to a district under this section to pay the costs of replacing a facility instead of repairing the facility. The commissioner shall ensure that a district that elects to replace a facility does not receive an amount under this section that exceeds the lesser of:

(1) the amount that would be provided to the district if the facility were repaired; or

(2) the amount necessary to replace the facility.

(g) This section does not require the commissioner to provide any requested reimbursement. A decision of the commissioner regarding reimbursement is final and may not be appealed.

Sec. 48.262. ADJUSTMENTS FOR CERTAIN DISTRICTS RECEIVING FEDERAL IMPACT AID. The commissioner is granted the authority to ensure that school districts receiving federal impact aid due to the presence of a military installation or significant concentrations of military students do not receive more than an eight percent reduction should the federal government reduce appropriations to those schools.

Sec. 48.2642. ADJUSTMENTS FOR TEXAS FIRST EARLY HIGH SCHOOL COMPLETION PROGRAM GRADUATES. (a) Notwithstanding any other provision of this chapter, the commissioner shall count toward a school district's or open-enrollment charter school's average daily attendance under Section 48.005 each student who graduates early from

high school in the district or school under the Texas First Early High School Completion Program established under Section 28.0253 for the period in which the student is enrolled at an eligible institution using state credit awarded under the Texas First Scholarship Program established under Subchapter K-1, Chapter 56, based on a 100 percent attendance rate.

(b) As soon as practicable after receipt of the report under Section 56.226, the commissioner shall reduce the amount of a school district's or open-enrollment charter school's entitlement under this chapter for the school year by an amount equal to the total amount of state credit issued during the preceding school year to the district's or school's high school graduates under the Texas First Scholarship Program established under Subchapter K-1, Chapter 56.

(a) Notwithstanding any other provision of law, if the commissioner determines that the amount appropriated for the purposes of the Foundation School Program exceeds the amount to which school districts are entitled under this chapter, the commissioner by rule shall establish a grant program through which excess funds are awarded as grants for the purchase of video equipment, or for the reimbursement of costs for previously purchased video equipment, used for monitoring special education classrooms or other special education settings required under Section 29.022.

(b) In awarding grants under this section, the commissioner shall give highest priority to districts with maintenance and operations tax rates at the greatest rates permitted by law. The commissioner shall also give priority to:

(1) districts with maintenance and operations tax rates at least equal to the state maximum compressed tax rate, as defined by Section 48.051(a), and lowest amounts of maintenance and operations tax revenue per weighted student; and

(2) districts with debt service tax rates near or equal to the greatest rates permitted by law.

(2) the amount of money to which a school district is entitled under Subchapter E;

(3) the amount of money allocated to the district from the available school fund;

(5) the amount of each district's tier two local share under Section 48.202 for:

(A) the district's maintenance and operations tax effort described by Section 48.202(a-1)(1); and

(B) the district's maintenance and operations tax effort described by Section 48.202(a-1)(2).

(b) Except as provided by this subsection, the commissioner shall base the determinations under Subsection (a) on the estimates provided to the legislature under Section 48.269, or, if the General Appropriations Act provides estimates for that purpose, on the estimates provided under that Act, for each school district for each school year. The commissioner shall reduce the entitlement of each district that has a final taxable value of property for the second year of a state fiscal biennium that is higher than the estimate under Section 48.269 or the General Appropriations Act, as

applicable. A reduction under this subsection may not reduce the district's entitlement below the amount to which it is entitled at its actual taxable value of property.

(c) Each school district is entitled to an amount equal to the difference for that district between the sum of Subsections (a)(1) and (a)(2) and the sum of Subsections (a)(3), (a)(4), and (a)(5).

(d) The commissioner shall approve warrants to each school district equaling the amount of its entitlement except as provided by this section. Warrants for all money expended according to this chapter shall be approved and transmitted to treasurers or depositories of school districts in the same manner that warrants for state payments are transmitted. The total amount of the warrants issued under this section may not exceed the total amount appropriated for Foundation School Program purposes for that fiscal year.

(e) If a school district demonstrates to the satisfaction of the commissioner that the estimate of the district's tax rate, student enrollment, or taxable value of property used in determining the amount of state funds to which the district is entitled are so inaccurate as to result in undue financial hardship to the district, the commissioner may adjust funding to that district in that school year to the extent that funds are available for that year.

(f) If the amount appropriated for the Foundation School Program for the second year of a state fiscal biennium is less than the amount to which school districts and open-enrollment charter schools are entitled for that year, the commissioner shall certify the amount of the difference to the Legislative Budget Board not later than January 1 of the second year of the state fiscal biennium. The Legislative Budget Board shall propose to the legislature that the certified amount be transferred to the foundation school fund from the economic stabilization fund and appropriated for the purpose of increases in allocations under this subsection. If the legislature fails during the regular session to enact the proposed transfer and appropriation and there are not funds available under Subsection (h), the commissioner shall adjust the total amounts due to each school district and open-enrollment charter school under this chapter and the total amounts necessary for each school district to comply with the requirements of Chapter 49 by an amount determined by applying to each district and school the same percentage adjustment to the total amount of state and local revenue due to the district or

school under this chapter and Chapter 49 so that the total amount of the adjustment to all districts and schools results in an amount equal to the total adjustment necessary. The following fiscal year:

(1) a district's or school's entitlement under this section is increased by an amount equal to the adjustment made under this subsection; and

(2) the amount necessary for a district to comply with the requirements of Chapter 49 is reduced by an amount necessary to ensure a district's full recovery of the adjustment made under this subsection.

(g) Not later than March 1 each year, the commissioner shall determine the actual amount of state funds to which each school district is entitled under the allocation formulas in this chapter for the current school year and shall compare that amount with the amount of the warrants issued to each district for that year. If the amount of the warrants differs from the amount to which a district is entitled because of variations in the district's tax rate, student enrollment, or taxable value of property, the commissioner shall adjust the district's entitlement for the next fiscal year accordingly.

(h) The legislature may appropriate funds necessary for increases under Subsection (g) from funds that the comptroller, at any time during the fiscal year, finds are available.

(i) The commissioner shall compute for each school district the total amount by which the district's allocation of state funds is increased or reduced under Subsection (g) and shall certify that amount to the district.

Sec. 48.267. ADJUSTMENT BY COMMISSIONER. (a) The commissioner may make adjustments to amounts due to a school district under this chapter or Chapter 46, or to amounts necessary for a district to comply with the requirements of Chapter 49, as provided by this section.

(b) A school district that has a major taxpayer, as determined by the commissioner, that because of a protest of the valuation of the taxpayer's property fails to pay all or a portion of the ad valorem taxes due to the district may apply to the commissioner to have the district's taxable value of property or ad valorem tax collections adjusted for purposes of this chapter or Chapter 46 or 49. The commissioner may make the adjustment only to the extent the commissioner determines that making the adjustment will not:

(1) in the fiscal year in which the adjustment is made, cause the amount to which school districts are entitled under this chapter to exceed the amount appropriated for purposes of the Foundation School Program for that year; and

(2) if the adjustment is made in the first year of a state fiscal biennium, cause the amount to which school districts are entitled under this chapter for the second year of the biennium to exceed the amount appropriated for purposes of the Foundation School Program for that year.

(c) The commissioner shall recover the benefit of any adjustment made under this section by making offsetting adjustments in the school district's taxable value of property or ad valorem tax collections for purposes of this chapter or Chapter 46 or 49 on a final determination of the taxable value of property that was the basis of the original adjustment, or in the second school year following the year in which the adjustment is made, whichever is

earlier.

(d) This section does not require the commissioner to make any requested adjustment. A determination by the commissioner under this section is final and may not be appealed.

Sec. 48.268. ADJUSTMENT FOR RESOLUTION OF DISPUTE OR ERROR RESULTING IN TAXATION OF SAME PROPERTY BY MULTIPLE SCHOOL DISTRICTS. The commissioner shall adjust the amounts due to a school district under this chapter and Chapter 46 as necessary to account for the resolution of a dispute or error involving the district and another district by an agreement between the districts entered into under Section 31.112(c), Tax Code, or by a final order of the supreme court entered under Section 72.010, Local Government Code.

Sec. 48.269. ESTIMATES REQUIRED. (a) Not later than October 1 of each even-numbered year:

(1) the agency shall submit to the legislature an estimate of the tax rate and student enrollment of each school district for the following biennium; and

(2) the comptroller shall submit to the legislature an estimate of the total taxable value of all property in the state as determined under Subchapter M, Chapter 403, Government Code, for the following biennium.

(b) The agency and the comptroller shall update the information provided to the legislature under Subsection (a) not later than March 1 of each odd-numbered year.

Sec. 48.270. FALSIFICATION OF RECORDS; REPORT. When, in the opinion of the agency's director of school audits, audits or reviews of accounting, enrollment, or other records of a school district reveal deliberate falsification of the records, or violation of the provisions of this chapter, through which the district's share of state funds allocated under the authority of this chapter would be, or has been, illegally increased, the director shall promptly and fully report the fact to the State Board of Education, the state auditor, and the appropriate county attorney, district attorney, or criminal district attorney.

Sec. 48.271. EFFECT OF APPRAISAL APPEAL. (a) If the final determination of an appeal under Chapter 42, Tax Code, results in a reduction in the taxable value of property that exceeds five percent of the total taxable value of property in the school district for the same tax year determined under Subchapter M, Chapter 403, Government Code, the commissioner shall request the comptroller to adjust its taxable property value findings for that year consistent with the final determination of the appraisal appeal.

(b) If the district would have received a greater amount from the foundation school fund for the applicable school year using the adjusted value, the commissioner shall add the difference to subsequent distributions to the district from the foundation school fund. An adjustment does not affect the local fund assignment of any other district.

Sec. 48.272. RECOVERY OF OVERALLOCATED FUNDS. (a) If a school district has received an overallocation of state funds, the agency shall, by withholding from subsequent allocations of state funds for the current or subsequent school year or by requesting and obtaining a refund, recover from the district an amount equal to the overallocation.

(b) Notwithstanding Subsection (a), the agency may recover an overallocation of state funds over a period not to exceed the subsequent five school years if the commissioner determines that the overallocation was the result of exceptional circumstances reasonably caused by statutory changes to Chapter 46 or 49 or this chapter and related reporting requirements.

(c) If a district fails to comply with a request for a refund under Subsection (a), the agency shall certify to the comptroller that the amount constitutes a debt for purposes of Section 403.055, Government Code. The agency shall provide to the comptroller the amount of the overallocation and any other information required by the comptroller. The comptroller may certify the amount of the debt to the attorney general for collection.

(d) Any amounts recovered under this section shall be deposited in the foundation school fund.

(e) Subject to Subsection (f), the agency may review a school district as necessary to determine if the district qualifies for each allotment received by the district under this chapter. If the agency determines that a school district received an allotment to which the district was not entitled, the agency may establish a corrective action plan or withhold the applicable amount of funding from the district.

(f) The agency may not review school district expenditures that occurred seven or more years before the review.

(3) "Category 3 school district" means a school district having a wealth per student of more than the statewide average wealth per student.

(b) Payments from the foundation school fund to each category 1 school district shall be made as follows:

(1) 15 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of September of a fiscal year;

(2) 80 percent of the yearly entitlement of the district shall be paid in eight equal installments to be made on or before the 25th day of October, November, December, January, March, May, June, and July; and

(e) The amount of any installment required by this section may be modified to provide a school district with the proper amount to

which the district may be entitled by law and to correct errors in the allocation or distribution of funds. If an installment under this section is required to be equal to other installments, the amount of other installments may be adjusted to provide for that equality. #### Sec. 48.274. FOUNDATION SCHOOL FUND TRANSFERS TO CERTAIN

CHARTER SCHOOLS. (a) On the request of an open-enrollment charter school, the commissioner shall compare the student enrollment of the open-enrollment charter school for the current school year to the student enrollment of the school during the preceding school year. If the number of students enrolled at the open-enrollment charter school for the current school year has increased by 10 percent or more from the number of students enrolled during the preceding school year, the open-enrollment charter school may request that payments from the foundation school fund to the school for the following school year and each subsequent school year, subject to Subsection (b), be made according to the schedule provided under Subsection (c).

(b) An open-enrollment charter school that qualifies to receive funding as provided by this section is entitled to receive funding in that manner for three school years. On the expiration of that period, the commissioner shall determine the eligibility of the open-enrollment charter school to continue receiving payments from the foundation school fund under this section for an additional three school years. Subsequently, the open-enrollment charter school must reestablish eligibility in the manner provided by this subsection every three school years.

(c) Payments from the foundation school fund to an open-enrollment charter school under this section shall be made as follows:

(1) 22 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of September of a fiscal year;

(2) 18 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of October;

(3) 9.5 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of November;

(4) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of December;

(5) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of January;

(6) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day

of February;

(7) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of March;

(8) 7.5 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of April;

(9) five percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of May;

(10) seven percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of June;

(11) seven percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of July; and

(12) eight percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of August.

(d) The amount of any installment required by this section may be modified to provide an open-enrollment charter school with the proper amount to which the school may be entitled by law and to correct errors in the allocation or distribution of funds.

(e) Previously unpaid additional funds from prior fiscal years owed to an open-enrollment charter school shall be paid to the school together with the September payment of the current fiscal year entitlement.

Sec. 48.275. USE OF CERTAIN FUNDS. (a) In this section, "participating charter school" means an open-enrollment charter school that participates in the uniform group coverage program established under Chapter 1579, Insurance Code.

(b) The amount of additional funds to which each school

district or participating charter school is entitled due to the increases in formula funding made by H.B. No. 3343, Acts of the 77th Legislature, Regular Session, 2001, and any subsequent legislation amending the provisions amended by that Act that increase formula funding under Chapter 49 and this chapter to school districts and charter schools is available for purposes of Subsection (c).

(c) Notwithstanding any other provision of this code, a school district or participating charter school may use the sum of the following amounts of funds only to pay contributions under a group health coverage plan for district or school employees:

(1) the amount determined by multiplying the amount of \$900 or the amount specified in the General Appropriations Act for that year for purposes of the state contribution under Section 1579.251, Insurance Code, by the number of district or school employees who participate in a group health coverage plan provided by or through the district or school; and

(2) the difference between the amount necessary for the district or school to comply with Section 1581.052, Insurance Code, for the school year and the amount the district or school is required to use to provide health coverage under Section 1581.051, Insurance Code, for that year.

(d) A determination by the commissioner under this section is final and may not be appealed.

Sec. 48.277. FORMULA TRANSITION GRANT. (a) A school district

or open-enrollment charter school is entitled to receive an annual allotment for each student in average daily attendance in the amount equal to the difference, if the difference is greater than zero, that results from subtracting the total maintenance and operations revenue per student in average daily attendance for the current school year from the lesser of:

(1) 103 percent of the district's or school's total maintenance and operations revenue per student in average daily attendance for the 2019-2020 school year that the district or school would have received under former Chapters 41 and 42, as those chapters existed on January 1, 2019; or

(2) 128 percent of the statewide average amount of maintenance and operations revenue per student in average daily attendance that would have been provided for the 2019-2020 school year under former Chapters 41 and 42, as those chapters existed on January 1, 2019.

(b) For purposes of calculating maintenance and operations revenue under Subsection (a), the commissioner shall:

(1) for purposes of Subsections (a)(1) and (2), use the following applicable school year:

(A) in a school year ending in an even-numbered year, the 2019-2020 school year; and

(B) in a school year ending in an odd-numbered year, the 2019-2020 or 2020-2021 school year, whichever is greater;

(2) include all state and local funding, except for any funding resulting from:

(A) reimbursement for disaster remediation costs under former Sections 41.0931 and 42.2524;

(B) an adjustment for rapid decline in taxable value of property under former Section 42.2521;

(C) an adjustment for property value affected by a state of disaster under former Section 42.2523; and

(D) additional state aid under Section 48.307 or 48.308;

(3) adjust the calculation to reflect a reduction in tax effort by a school district; and

(4) if a school district or open-enrollment charter school receives a waiver relating to eligibility requirements for the national free or reduced-price lunch program under 42 U.S.C. Section 1751 et seq., use the numbers of educationally disadvantaged students

on which the district's or school's entitlement to compensatory education funds was based for the school year before the school year in which the district or school received the waiver, adjusted for estimated enrollment growth.

(c) A decision by the commissioner under this section is final and may not be appealed.

(c-1) Notwithstanding any other provision of this chapter, beginning with the 2021-2022 school year, if the total amount of allotments to which school districts and open-enrollment charter schools are entitled under this section for a school year exceeds \$400 million, the commissioner shall proportionately reduce each district's or school's allotment under this section. The reduction in the amount to which a district or school is entitled under this section may not result in an amount that is less than zero.

(d) A school district or open-enrollment charter school is not entitled to an allotment under Subsection (a) beginning with the 2024-2025 school year.

(e) This section expires September 1, 2025.

(c) If the commissioner determines that the total amount of funding for special education for a school year that ends during the second state fiscal year of a state fiscal biennium is less than the amount required to comply with requirements regarding maintenance of state financial support under 20 U.S.C. Section 1412(a)(18), the commissioner shall submit to the legislature an estimate of the amount of funding needed to comply with that provision for that state fiscal year.

Section 1412(a)(18), the commissioner shall use for that school year an amount of funds described by Subsection (a) equal to the amount of withheld funds in the same manner and for the same purposes as the withheld funds would have been provided.

(e) After the commissioner has replaced any withheld federal funds as provided by Subsection (d), the commissioner shall distribute the remaining amount, if any, of funds described by Subsection (a) to proportionately increase funding for the special education allotment under Section 48.102.

(b) Before making an increase under Subsection (a), the commissioner shall notify the Legislative Budget Board and the governor of the proposed increase. The increase is considered to be approved unless the Legislative Budget Board or the governor issues a written disapproval of the increase not later than the 30th day after the date on which the commissioner provides notice under this subsection.

(c) If the total amount of money available to the commissioner for purposes of making increases under this section for a state fiscal year is insufficient to make an increase the commissioner determines necessary under Subsection (a), the commissioner shall submit to the legislature an estimate of the amount of funding needed to make the increase for that state fiscal year.

(b) If a final order of a court of competent jurisdiction should hold each of the options provided by Section 49.002 invalid, the commissioner shall act under Subchapter G or H to reduce the local revenue level in excess of entitlement only after notice and hearing is afforded to each school district affected by the order. The commissioner shall adopt a plan that least disrupts the affected school districts. If because the exigency to adopt a plan prevents

the commissioner from giving a reasonable time for notice and hearing, the commissioner shall timely give notice to and hold a hearing for the affected school districts, but in no event less than 30 days from time of notice to the date of hearing.

(c) If a final order of a court of competent jurisdiction should hold an option provided by Section 49.002 invalid and order a refund to a district of any amounts paid by a district choosing that option, the amount shall be refunded but held in reserve and not expended by the district until released by order of the commissioner. The commissioner shall order the release immediately on the commissioner's determination that, through one of the means provided by law, the district has reduced the district's local revenue level in excess of entitlement to the level established under Section 48.257. The amount released shall be deducted from any state aid payable to the district according to a schedule adopted by the commissioner.

Sec. 49.013. PROCEDURE. (a) Except as provided by Subchapter G, a decision of the commissioner under this chapter is appealable under Section 7.057.

#### **SUBCHAPTER E. EDUCATION OF NONRESIDENT STUDENTS**

Sec. 49.201. AGREEMENT. The board of trustees of a district with a local revenue level in excess of entitlement may execute an agreement to educate the students of another district in a number that, when the weighted average daily attendance of the students served is added to the weighted average daily attendance of the contracting district, is sufficient, in combination with any other actions taken under this chapter, to reduce the district's local revenue level to a level that is equal to or less than the level established under Section 48.257. The agreement is not effective

unless the commissioner certifies that the transfer of weighted average daily attendance will not result in any of the contracting districts' local revenue level being greater than the level established under Section 48.257 and that the agreement requires an expenditure per student in weighted average daily attendance that is at least equal to the amount per student in weighted average daily attendance required under Section 49.153.

Sec. 49.202. VOTER APPROVAL. (a) After first executing an agreement under this subchapter other than an agreement under Section 49.205, the board of trustees of the district that will be educating nonresident students shall order and conduct an election, in the manner provided by Sections 13.003(d)-(g), to obtain voter approval of the agreement.

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of \_\_\_\_\_ School District to educate students of other school districts with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. If the proposition is approved, the agreement executed by the board is ratified, and the board has continuing authority to execute agreements under this subchapter on behalf of the district without further voter approval.

Sec. 49.204. TRANSFERS. (a) The board of trustees of a school district with a local revenue level in excess of entitlement may reduce the district's local revenue level by serving nonresident students who transfer to the district and are educated by the district but who are not charged tuition. A district that exercises the option under this subsection is not required to execute an agreement with the school district in which a transferring student resides and must certify to the commissioner that the district has not charged or received tuition for the transferring students.

(b) A school district that receives tuition for a student from a school district with a local revenue level in excess of entitlement may not claim attendance for that student for purposes of Chapters 46 and 48 and the instructional materials and technology allotment under Section 31.0211.

Reenacted, transferred, redesignated and amended by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1.056, eff. September 1, 2019.

(b) The agreement is not effective unless the commissioner certifies that:

(1) implementation of the agreement will not result in any of the affected districts' local revenue level being greater than the level established under Section 48.257; and

(2) the agreement requires the district with a local revenue level in excess of entitlement to make expenditures benefiting students from other districts in an amount at least equal to the amount that would be required for the district to purchase attendance credit under Subchapter D necessary, in combination with any other actions taken under this chapter other than an action under this section, to reduce the district's local revenue level to a level that is equal to or less than the level established under Section 48.257.

Sec. 49.259. TAXES OF COMPONENT DISTRICTS. (a) The governing board of a component school district of a consolidated taxing district that has consolidated for maintenance and operation purposes only may issue bonds and levy, pledge, and collect ad valorem taxes within that component district sufficient to pay the principal of and interest on those bonds as provided by Chapter 45.

(b) A component district levying an ad valorem tax under this section or Section 49.260(b)(1) is entitled to the guaranteed yield provided by Subchapter E, Chapter 48, for that portion of its tax rate that, when added to the maintenance tax levied by the consolidated taxing unit, does not exceed the limitation provided by Section 48.203.

Sec. 49.260. OPTIONAL TOTAL TAX BASE CONSOLIDATION. (a) An agreement executed under Section 49.251 may provide for total tax base consolidation instead of consolidation for maintenance and operation purposes only.

(b) Under an agreement providing for total tax base consolidation:

(1) the component districts may not levy maintenance or bond taxes, except to the extent necessary to retire bonds and other obligations issued before the effective date of the consolidation;

(2) the joint board may issue bonds and levy, pledge, and collect ad valorem taxes sufficient to pay the principal of and

interest on those bonds, and issue refunding bonds, as provided by Chapter 45 for independent school districts; and

(3) to the end of the ballot proposition required under Section 49.253(a) shall be added ", and further to create a consolidated tax base for the repayment of all bonded indebtedness issued by the joint board of the taxing district after the effective date of the consolidation and to authorize the joint board to levy, pledge, and collect ad valorem taxes at a rate sufficient to pay the principal of and interest on those bonds."

(c) Under an agreement providing for total tax base consolidation:

(1) the component districts may provide for the consolidated taxing district to assume all of the indebtedness of all component districts; and

(2) to the end of the ballot proposition required by Section 49.253(a) shall be added ", and further to create a consolidated tax base for the repayment of all bonded indebtedness issued by the joint board of the taxing district or previously issued by the component school districts and to authorize the joint board to levy, pledge, and collect ad valorem taxes at a rate sufficient to pay the principal of and interest on those bonds."

#### **SUBCHAPTER G. DETACHMENT AND ANNEXATION BY COMMISSIONER**

Sec. 49.301. DEFINITION. In this subchapter, "mineral property" means a real property mineral interest that has been severed from the surface estate by a mineral lease creating a determinable fee or by a conveyance that creates an interest taxable separately from the surface estate. A mineral property includes each royalty interest, working interest, or other undivided interest in the mineral property.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Transferred, redesignated and amended from Education Code, Subchapter G, Chapter 41 by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1.059, eff. September 1, 2019.

Sec. 49.302. DETERMINATION OF TAXABLE VALUE. (a) For purposes of this subchapter, the taxable value of an individual parcel or other item of property and the total taxable value of property in a school district resulting from the detachment of property from or annexation of property to that district is determined by applying the appraisal ratio for the appropriate category of property determined under Subchapter M, Chapter 403, Government Code, for the preceding tax year to the taxable value of the detached or annexed property determined under Title 1, Tax Code, for the preceding tax year.

(b) For purposes of this subchapter, the taxable value of all or a portion of a parcel or item of real property includes the taxable value of personal property having taxable situs at the same location as the real property.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.  
Transferred, redesignated and amended from Education Code, Subchapter G, Chapter 41 by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1.059, eff. September 1, 2019.

Sec. 49.303. PROPERTY SUBJECT TO DETACHMENT AND ANNEXATION.

(a) Only the following property may be detached and annexed under this subchapter:

- (1) a mineral property;
- (2) real property used in the operation of a public utility, including a pipeline, pipeline gathering system, or railroad or other rail system; and
- (3) real property used primarily for industrial or other commercial purposes, other than property used primarily for agriculture or for residential purposes.

(b) If a final judgment of a court determines that a mineral interest may not be annexed and detached as provided by this subchapter without an attendant annexation and detachment of the surface estate or any other interest in the same land, the detachment and annexation of a mineral interest under this subchapter includes the surface estate and each other interest in the land covered by the mineral interest.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Transferred, redesignated and amended from Education Code, Subchapter G, Chapter 41 by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1.059, eff. September 1, 2019.

Sec. 49.304. TAXATION OF PERSONAL PROPERTY. Personal property having a taxable situs at the same location as real property detached and annexed under this subchapter is taxable by the school district to which the real property is annexed.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.  
Transferred, redesignated and amended from Education Code, Subchapter G, Chapter 41 by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1.059, eff. September 1, 2019.

Sec. 49.305. DETACHMENT OF PROPERTY. (a) The commissioner shall detach property under this section from each school district from which the commissioner is required under Section 49.004 to detach property under this subchapter.

(b) The commissioner shall detach from each school district covered by Subsection (a) one or more whole parcels or items of property in descending order of the taxable value of each parcel or item, beginning with the parcel or item having the greatest taxable value, until the school district's local revenue level is equal to or less than the level established under Section 48.257, except as otherwise provided by Subsection (c).

(c) If the detachment of whole parcels or items of property as provided by Subsection (a) would result in a district's local revenue level that is less than the level established under Section 48.257 by more than the product of \$10,000 multiplied by weighted average daily attendance, the commissioner may not detach the last parcel or item of property and shall detach the next one or more parcels or items of property in descending order of taxable value that would result in the school district having a local revenue level that is equal to or less than the level established under Section 48.257 by not more than the product of \$10,000 multiplied by weighted average daily attendance.

(d) Notwithstanding Subsections (a), (b), and (c), the commissioner may detach only a portion of a parcel or item of

property if:

(1) it is not possible under this subchapter to reduce the district's local revenue level to a level that is equal to or less than the level established under Section 48.257 unless some or all of the parcel or item of property is detached and the detachment of the whole parcel or item would result in the district from which it is detached having a local revenue level that is less than the level established under Section 48.257 by more than the product of \$10,000 multiplied by weighted average daily attendance; or

(2) the commissioner determines that a partial detachment of that parcel or item of property is preferable to the detachment of one or more other parcels or items having a lower taxable value in order to minimize the number of parcels or items of property to be detached consistent with the purposes of this chapter.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Transferred, redesignated and amended from Education Code, Subchapter G, Chapter 41 by Acts 2019, 86th Leg., R.S., Ch. 943 (H.B. 3), Sec. 1.059, eff. September 1, 2019.

Sec. 49.306. ANNEXATION OF PROPERTY. (a) The commissioner shall annex property detached under Section 49.305 to school districts eligible for annexation in accordance with this section. A school district is eligible for annexation of property to it under this subchapter only if, before any detachments or annexations are made in a year, the district's taxable value of property does not exceed the value necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2).

(b) Property may be annexed to a school district without regard to whether the property is contiguous to other property in that district.

(c) The commissioner shall annex property detached from school districts beginning with the property detached from the school district with the greatest local revenue level in excess of entitlement before detachment, and continuing with the property detached from each other school district in descending order of the district's local revenue level in excess of entitlement before detachment.

(d) The commissioner shall annex the parcels or items of property detached from a school district to other school districts that are eligible for annexation of property in descending order of the taxable value of each parcel or item according to the following priorities:

(1) first, to the eligible school districts assigned to the same county as the school district from which the property is detached whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.15 the total tax rate adopted for that year by the school district from which the property is detached;

(2) second, to the eligible school districts served by the same regional education service center as the district from which the property is detached whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.10 the total tax rate adopted for that year by the school district from which the property is detached; and

(3) third, to other eligible school districts whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.05 the total tax rate adopted for that year by the school district from which the property is detached.

(e) If the districts identified by Subsection (d) for a school district are insufficient to annex all the property detached from the school district, the commissioner shall increase, for purposes of this section, all the maximum difference in tax rates allowed under Subsection (d) in increments of \$0.01 until the districts are identified that are sufficient to annex all the property detached from the district.

(f) If only one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall annex property to that district until it reaches the taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), by annexing whole parcels or items of property. Any remaining detached property shall be annexed to eligible school districts in the next priority group as provided by this section.

(g) If more than one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall first annex property to the district within the priority group to which

could be annexed the most taxable value of property without increasing the district's taxable value of property to an amount that exceeds the amount necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), until that district reaches a taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), by annexing whole parcels or items of property. Then any additional detached property shall be annexed in the same manner to other eligible school districts in the same priority group in descending order of capacity to receive taxable value of annexed property without increasing the district's taxable value of property to an amount that exceeds the amount necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2). If every school district in a priority group reaches a taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), as nearly as possible, the remaining detached property shall be annexed to school districts in the next priority group in the manner provided by this section.

(h) For purposes of this section, a portion of a parcel or item of property detached in that subdivided form from a school district is treated as a whole parcel or item of property.

(i) The commissioner may order the annexation of a portion of a parcel or item of property, including a portion of property treated as a whole parcel or item under Subsection (h), if:

(1) the annexation of the whole parcel or item would result in the district eligible to receive it in the appropriate priority order provided by this section having a local revenue level greater than the amount by which the product of \$10,000 multiplied by weighted average daily attendance exceeds the taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2); or

(2) the commissioner determines that annexation of portions of the parcel or item would reduce disparities in district taxable values of property necessary to generate maintenance and operations tax revenue in the amount equal to a district's entitlement under Section 48.202(a-1)(2) more efficiently than would be possible if the

parcel or item were annexed as a whole.

(j) The commissioner may modify the priorities established by this section as the commissioner considers reasonable to minimize or reduce the number of school districts to which the property detached from a school district is annexed, to minimize or reduce the geographic dispersal of property in a school district, to minimize or reduce disparities in school district taxable values of property necessary to generate maintenance and operations tax revenue in the amount equal to a district's entitlement under Section 48.202(a-1)(2) that would otherwise result, or to minimize or reduce any administrative burden or expense.

(k) For purposes of this section, a school district is assigned to a county if the school district is assigned to that county in the 1992-1993 Texas School Directory published by the Central Education Agency.

Sec. 49.307. LIMITATIONS ON DETACHMENT AND ANNEXATION. The commissioner may detach and annex property under this subchapter only if:

(1) the property is not exempt from ad valorem taxation under Section 11.20 or 11.21, Tax Code; and

(2) the property does not contain a building or structure owned by the United States, this state, or a political subdivision of this state that is exempt from ad valorem taxation under law.

section.

Sec. 49.308. ORDERS AND NOTICE. (a) The commissioner shall order any detachments and annexations of property under this subchapter not later than November 8 of each year.

(b) As soon as practicable after issuing the order under Subsection (a), the commissioner shall notify each affected school district and the appraisal district in which the affected property is located of the determination.

Sec. 49.309. TREATMENT OF SUBDIVIDED PROPERTY. (a) If the commissioner orders the detachment or annexation of a portion of a parcel or item of property under this subchapter, the order shall specify the portion of the taxable value of the property to be detached or annexed and may, but need not, describe the specific area of the parcel or item to be detached or annexed.

(b) If an order for the detachment or annexation of a portion of a parcel or item of property does not describe the specific area of the parcel or item to be detached or annexed, the commissioner, as soon as practicable after issuing the order, shall determine the specific area to be detached or annexed and shall certify that determination to the appraisal district for the county in which the property is located.

(c) If portions of a parcel or item of property are located in two or more school districts as the result of a detachment or annexation, the parcel or item shall be appraised for taxation as a unit, and the commissioner shall determine the portion of the taxable value of the property that is located in each of those school districts based on the square footage of the property, or any other

reasonable method adopted by the commissioner.

Sec. 49.310. DUTIES OF CHIEF APPRAISER. (a) The chief appraiser of each appraisal district shall cooperate with the commissioner in administering this subchapter. The commissioner may require the chief appraiser to submit any reports or provide any information available to the chief appraiser in the form and at the times required by the commissioner.

(b) As soon as practicable after the detachment and annexation of property, the chief appraiser of the appraisal district in which the property is located shall send a written notice of the detachment and annexation to the owner of any property taxable in a different school district as a result of the detachment and annexation. The notice must include the name of the school district by which the property is taxable after the detachment and annexation.

(c) The commissioner may reimburse an appraisal district for any costs incurred in administering this subchapter and may condition the reimbursement or the amount of the reimbursement on the timely submission of reports or information required by the commissioner or the satisfactory performance of any other action required or requested by the commissioner.

Sec. 49.311. STUDENT ATTENDANCE. A student who is a resident of real property detached from a school district may choose to attend school in that district or in the district to which the property is annexed. For purposes of determining average daily attendance under

Section 48.005, the student shall be counted in the district to which the property is annexed. If the student chooses to attend school in the district from which the property is detached, the state shall withhold any foundation school funds from the district to which the property is annexed and shall allocate to the district in which the student is attending school those funds and the amount of funds equal to the difference between the state funds the district is receiving for the student and the district's cost in educating the student.

Sec. 49.312. BOND TAXES. Property detached from a school district is released from the obligation for any tax to pay principal and interest on bonds authorized by the district before detachment. #### **SUBCHAPTER H. CONSOLIDATION BY COMMISSIONER**

Sec. 49.351. COMMISSIONER ORDER. If the commissioner is required under Section 49.004 to order the consolidation of

districts, the consolidation is governed by this subchapter. The commissioner's order shall be effective on a date determined by the commissioner, but not later than the earliest practicable date after November 8.

Sec. 49.352. SELECTION CRITERIA. (a) In selecting the districts to be consolidated with a district that has taxable values of property in an amount that exceeds the local revenue level established under Section 48.257, the commissioner shall select one or more districts that, when consolidated, will result in a consolidated district with a local revenue level equal to or less than the level established under Section 48.257. In achieving that result, the commissioner shall give priority to school districts in the following order:

(1) first, to the contiguous district that has the lowest local revenue level and is located in the same county;

(2) second, to the district that has the lowest local revenue level and is located in the same county;

(3) third, to a contiguous district with a local revenue level below the level established under Section 48.257 that has requested the commissioner that it be considered in a consolidation plan;

(4) fourth, to include as few districts as possible that have the lowest local revenue levels below the level established under Section 48.257 within the consolidation order that have not requested the commissioner to be included;

(5) fifth, to the district that has the lowest local revenue level and is located in the same regional education service center area; and

(6) sixth, to a district that has a tax rate similar to that of the district that has a local revenue level greater than the level established under Section 48.257.

(b) The commissioner may not select a district that has been created as a result of consolidation by agreement under Subchapter B

to be consolidated under this subchapter with a district that has a local revenue level greater than the level established under Section 48.257.

(c) In applying the selection criteria specified by Subsection (a), if more than two districts are to be consolidated, the commissioner shall select the third and each subsequent district to be consolidated by treating the district that has a local revenue level greater than the level established under Section 48.257 and the district or districts previously selected for consolidation as one district.

Sec. 49.353. GOVERNANCE. (a) Until the initial trustees elected as provided by Subsection (b) have qualified and taken office, a district consolidated under this subchapter is governed by a transitional board of trustees consisting of the board of trustees of the district having the greatest student membership on the last day of the school year preceding the consolidation plus one member of the board of trustees of each other consolidating district selected by that board.

(b) The transitional board of trustees shall divide the consolidated district into nine single-member trustee districts in accordance with the procedures provided by Section 11.052. The transitional board shall order an election for the initial board of trustees to be held on the first May uniform election date after the effective date of a consolidation order.

(c) Members of the board of trustees of a consolidated district serve staggered terms of office for four years.

(d) Section 13.156 applies to districts consolidated under this subchapter.

Sec. 49.354. DISSOLUTION OF CONSOLIDATED DISTRICT. (a) If the legislature abolishes ad valorem taxes for public school maintenance and operations and adopts another method of funding public education, the board of trustees of a consolidated district created under this subchapter may dissolve the consolidated district, provided that the dissolution is approved by a majority of those voters residing within the district participating in an election called for the purpose of approving the dissolution of the consolidated school district.

(b) If a consolidated district is dissolved, each of the former districts is restored as a separate district and is classified as an independent district.

(c) Title to real property of the consolidated district is allocated to the restored district in which the property is located. Title to proportionate shares of the fund balances and personal property of the consolidated district, as determined by Subsection (e), are allocated to each restored district.

(d) Each of the restored districts assumes and is liable for:

(1) indebtedness of the consolidated district that relates to real property allocated to the district; and

(2) a proportionate share, as determined by Subsection (e), of indebtedness of the consolidated district that does not relate to real property.

(e) A restored district's proportionate share of fund balances, personal property, or indebtedness is equal to the proportion that the number of students in average daily attendance in the restored district bears to the number of students in average daily attendance in the consolidated district.

Sec. 51.003. DEPOSITORIES. (a) The governing board of each institution may select one or more depositories as places of deposit for the funds enumerated in Section 51.002 of this code. Depositories shall be selected on the basis of competitive bids. If bids are taken orally, the bids shall be tabulated by the person taking the bids and made a part of the permanent records of the institution.

(b) The funds shall either be deposited in the depository bank or banks or invested as authorized by Chapter 2256, Government Code (Public Funds Investment Act). Funds that are to be deposited in the depository bank or banks must be deposited within seven days from the

(c) The governing board shall require adequate surety bonds or securities to be posted to secure the deposits and may require additional security at any time it deems the deposits inadequately secured. The depository banks selected may pledge their securities to protect the funds.

(d) A depository shall pay interest on the deposits at a rate agreed on by the depository and the governing board.

(e) Any surety bond furnished under the provisions of this section shall be payable to the governor and his successors in office. Venue for a suit to recover an amount claimed by the state to be due on a surety bond is in Travis County.

(f) Notwithstanding any other provision of this section, the governing board of each institution may maintain unsecured deposits in a foreign bank as necessary to support the institution's academic and research operations in the foreign country in which the bank is located, provided that no appropriated or tuition funds other than those collected from students enrolled in the affected programs are deposited. The foreign bank must:

- (1) be licensed and supervised by a central bank;
- (2) be audited annually by an accounting firm that follows international financial reporting standards; and
- (3) maintain a capital to total assets ratio that is not less than the greater of four percent or the minimum tier 1 capital to total assets ratio required for depository institutions insured by the Federal Deposit Insurance Corporation.

(d) As used in this section, "prudent person standard" is the standard of care described in Article VII, Section 11b, of the Texas Constitution, and means that standard of judgment and care that prudent investors, exercising reasonable care, skill, and caution, would acquire or retain in light of the purposes, terms, distribution requirements, and other circumstances of the fund then prevailing, taking into consideration the investment of all the assets of the fund rather than a single investment.

(b) All trust funds, including gifts, grants, and bequests received, establishing or adding to endowment funds, loan and scholarship funds, and funds for other current restricted purposes, shall be credited to separate accounts and shall not be commingled with other local or institutional funds.

(c) If the governing board so elects, deposits of all funds not specifically required to be deposited to special accounts may be deposited in a single bank account if the records of the institution

clearly reflect the balances attributable to general funds and various categories of trust funds.

(d) Interest received from depository banks for funds on deposit may be credited to an appropriate account in either general funds or trust funds in relation to the sources of temporary investments in time deposits, if the disposition of the earnings was not specified by the grantor. Interest received from the trust funds time deposits shall be available for loans, scholarships, fellowships, institutional research, faculty aid, and other lawful purposes.

(3) consists of 11 or more dwellings that are located in close proximity to each other in an area that may be described as a community or neighborhood.

Sec. 51.006. FUNDS NOT TO BE USED TO INCREASE SALARIES. No part of any of the funds listed in Section 51.002 of this code shall ever be used to increase any salary beyond the sum fixed by the legislature in the general appropriations act; provided, however, that the use of such funds by an institution for this purpose may be specifically authorized by the legislature in general law or the general appropriations act.

An institution of higher education that has adopted a pay-for-performance program that is in effect when an across-the-board salary increase for state employees made by an appropriation act of the legislature takes effect is entitled to receive any appropriation made for purposes of the across-the-board salary increase, and may use the amount appropriated for an across-the-board salary increase or for increases in compensation under the institution's pay-for-performance program.

Sec. 51.007. PENALTY. Any state officer, agent, employee, or member of a governing board of any of the above named institutions, or any other person who violates any provision of this subchapter shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than \$50 nor more than \$500, and in addition may be sentenced to not less than 15 days nor more than three months in the county jail. Failure to print and furnish to the officers above named, the reports above specified, shall subject all of the members of the governing board of the institutions above mentioned to the

penalties provided for in this section. Every day in excess of the number of days hereinabove provided for that any sum of money belonging to any of the funds enumerated in this subchapter, whether depositable in special depositories or whether those that should be deposited in the state treasury, shall be withheld from deposit at its proper place of deposit, shall constitute a separate offense and each day of such withholding shall subject the officer, agent, employee, or person so withholding said sum to the penalties herein provided for.

Acts 1971, 62nd Leg., p. 3072, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 51.008. CERTAIN RECEIPTS TO BE DEPOSITED IN STATE TREASURY. (a) The governing board of every state institution of higher education is directed to designate special depository banks, subject to the approval of the comptroller, for the purpose of receiving and keeping certain receipts of the institution separate and apart from funds now deposited in the state treasury. The receipts here referred to are described in Subsection (b) of this section. The comptroller is directed to deposit the receipts, or funds representing such receipts, enumerated herein, in the special depository bank or banks nearest the institution credited with the receipts, so far as is practicable, and is authorized to withdraw such funds on drafts or checks prescribed by the comptroller. The comptroller is authorized to promulgate rules and regulations to require collateral security for the protection of such funds pursuant to the provisions of Chapter 404, Government Code. For the purpose of facilitating the clearance and collection of the receipts herein enumerated, the comptroller is hereby authorized to deposit such receipts in any state depository bank and transfer funds representing such receipts enumerated herein to the respective special depository banks. Banks so designated as special depository banks are hereby authorized to pledge their securities to protect such funds.

(b) The governing board of every state institution of higher education shall deposit in the state treasury all cash receipts accruing to any college or university under its control that may be derived from all sources except auxiliary enterprises, noninstructional services, agency, designated, and restricted funds,

endowment and other gift funds, student loan funds, funds retained under Chapter 145 of this code, and Constitutional College Building Amendment funds. The comptroller is directed to credit such receipts deposited by each such institution to a separate fund account for the institution depositing the receipts, but he shall not be required to keep separate accounts of types of funds deposited by each institution. For the purpose of facilitating the transferring of such institutional receipts to the state treasury, each institution shall open in a local depository bank a clearing account to which it shall deposit daily all such receipts, and shall, not less often than every seven days, make remittances therefrom to the comptroller of all except \$500 of the total balance in said clearing account, such remittances to be in the form of checks drawn on the clearing account by the duly authorized officers of the institution, and no disbursements other than remittances to the state treasury shall be made from such clearing account. All money so deposited in the state treasury shall be paid out on warrants drawn by the comptroller as provided by law.

(c) The legislature is authorized to create revolving funds for the handling of funds of institutions of higher education, as enumerated herein, by making provision in each biennial appropriation bill enacted by the legislature.

(d) Nothing in this section affects the provisions of Title 47, Revised Civil Statutes of Texas, 1925, usually referred to as the State Depository Law. However, the limitation of deposits contained in Article 2532, Revised Civil Statutes of Texas, 1925, as amended, shall not apply insofar as the specific funds enumerated in this section are concerned.

(e) This section prevails over Sections 51.001-51.007 of this code to the extent of any conflict.

(f) Interest earned on the receipts deposited under this section to an institution's separate fund account in the state treasury shall be credited to that separate fund account.

(g) Revenues collected at institutions of higher education and deposited in the state treasury pursuant to this section and Section 34.017, Natural Resources Code, and the interest earned thereon, are dedicated to the institution which collected and deposited the funds irrespective of the year the funds were collected, deposited, or earned. These funds may be only used for the support, maintenance, and operation of the institution as provided for by law. Section

403.094(h), Government Code, does not apply to funds described in this section.

(h) Tuition revenues and revenue collected under Section 34.017, Natural Resources Code, that are deposited in the treasury pursuant to this section, and the interest earned on those revenues, shall be treated as designated funds in the general revenue fund. Notwithstanding a pledge of those revenues made or to be made in the proceedings approved by the governing board of an institution of higher education authorizing the issuance or incurrence of bonds, the deposit of those revenues in the treasury to the credit of an account in the general revenue fund does not:

(1) affect in any manner the pledge of the revenues or the governing board's ability to pledge the revenues to secure and pay bonds issued or incurred by the governing board in accordance with law;

(2) cause the bonds to constitute a debt of the state or be payable from the full faith and credit of the state;

(3) change the character of the revenues as separate revenue of the institution collecting the revenue; or

(4) cause the revenue to be considered general revenue for purposes of Sections 17 and 18, Article VII, Texas Constitution.

Sept. 1, 1997; Acts 2001, 77th Leg., ch. 1432, Sec. 1, eff. Sept. 1, 2001.

Sec. 51.009. DEFINING AND ACCOUNTING FOR CERTAIN INCOME. (a) "Local funds" are the items to be accounted for as "educational and general funds" as described in Subsection (c) of this section, but do not include general revenue funds. These funds shall be accounted for in a manner recommended by the National Association of College and University Business Officers and approved by the comptroller of public accounts and the Texas Higher Education Coordinating Board.

(b) "Institutional funds" means all funds collected at the institution that are not "educational and general funds" as described in Subsection (c) of this section. These funds shall be accounted

for in a manner recommended by the National Association of College and University Business Officers and approved by the comptroller of public accounts and the Texas Higher Education Coordinating Board.

(c) Each of the following shall be accounted for as educational and general funds:

(1) net tuition, special course fees charged under Sections 54.051(e) and (1), lab fees, student teaching fees, organized activity fees, and proceeds from the sale of educational and general equipment; and

(2) hospital and clinic fees received by a state-owned clinical care facility that is operated using general revenue fund appropriations for patient care.

Sec. 51.010. COLLECTION OF DELINQUENT OBLIGATIONS. If under the rules adopted by the attorney general under Chapter 2107, Government Code, an institution of higher education is not required to refer a delinquent obligation for collection to the attorney general, the institution is not required to expend resources for further collection efforts if, considering the amount, security, likelihood of collection, expense, and available resources, the institution determines that further collection should not be actively pursued.

Sec. 51.011. DISPOSITION OF SMALL CREDIT BALANCES. (a) This section applies to a credit balance of less than \$25 held by an institution of higher education that is presumed abandoned under Chapter 72, Property Code.

(b) An institution of higher education may maintain an

unclaimed money fund and transfer to that fund a credit balance to which this section applies. A deposit to the unclaimed money fund does not affect the ownership of the amount deposited. The institution shall:

(1) adopt procedures for owners to make and receive payments of claims against the fund; and

(2) maintain a database that permits members of the public to search for ownership of unclaimed funds.

(c) The institution of higher education shall use the fund to pay the claims of persons establishing ownership of amounts transferred to the fund and shall hold and account for the unclaimed money fund as educational and general funds of the institution. If the fund balance is insufficient to pay a valid claim, the institution shall pay the claim from the institution's other educational and general funds.

(d) Each fiscal year, after deducting funds sufficient to pay anticipated expenses of and claims against the unclaimed money fund, the institution shall use the balance of the fund as other educational and general funds of the institution.

(e) In consultation with institutions of higher education, the comptroller by rule may establish minimum requirements for notice to owners of unclaimed money deposited in the unclaimed money fund and for charges for that notice. The rules may not provide stricter requirements than the comptroller applies for amounts of less than \$25 in the custody of the comptroller under Chapter 74, Property Code.

(f) If an institution of higher education maintains an unclaimed money fund under this section, Chapter 74, Property Code, does not apply to a credit balance to which this section applies.

Sec. 51.012. PAYMENTS BY ELECTRONIC FUNDS TRANSFER OR ELECTRONIC PAY CARD. An institution of higher education may make any payment through electronic funds transfer or by electronic pay card.

**SUBCHAPTER C. FACULTY DEVELOPMENT LEAVES OF ABSENCE**

Sec. 51.101. DEFINITIONS. In this subchapter:

(1) "Institution of higher education" has the meaning assigned to it in Section 61.003 of this code, except that Texas State Technical College System is included and the Rodent and Predatory Animal Control Service is excluded for the purposes of this subchapter.

(2) "Governing board" means the body charged with policy direction of an institution of higher education.

(3) "Faculty member" means a person who is employed by an institution of higher education on a full-time basis as a member of the faculty or staff and whose duties include teaching, research, administration, including professional librarians, or the performance of professional services. However, the term does not include a person employed in a position which is in the institution's classified personnel system or a person employed in a similar type of position if the institution does not have a classified personnel system.

Acts 1971, 62nd Leg., p. 3072, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971. Amended by Acts 1991, 72nd Leg., ch. 287, Sec. 25, eff. Sept. 1, 1991.

Sec. 51.102. LEGISLATIVE FINDINGS AND PURPOSE. The legislature finds that higher education is vitally important to the welfare, if not the survival, of Texas and the United States at this stage in history and that the quality of higher education is dependent upon the quality of college and university faculties. The legislature finds, therefore, that money spent on recognized means for producing an excellent system of public higher education is money spent to serve a public purpose of great importance. The legislature finds further that a sound program of faculty development leaves of absence designed to enable the faculty member to engage in study, research, writing, and similar projects for the purpose of adding to the knowledge available to himself, his students, his institution, and society generally is a well-recognized means for improving a state's program of public higher education. The legislature's purpose in establishing the faculty development leave program provided for by this subchapter is to improve further the higher education available

to the youth at the state-supported colleges and universities and to establish this program of faculty development leaves as part of the plan of compensation for the faculty of these colleges and universities.

Acts 1971, 62nd Leg., p. 3072, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 51.103. GRANTING LEAVES OF ABSENCE; PROCEDURES. (a) On the application of a faculty member, the governing board of an institution of higher education may grant a faculty development leave of absence for study, research, writing, field observations, or other suitable purpose, to a faculty member if it finds that he is eligible by reason of service, that the purpose for which he seeks a faculty development leave is one for which a faculty development leave may be granted, and that granting leave to him will not place on faculty development leave a greater number of faculty members than that authorized.

(1) state law on the campuses of private institutions of higher education; and

(2) state and local law, including applicable municipal ordinances, at other locations, as permitted by Subsection (b) or Section 51.2125.

(b) Any officer commissioned under the provisions of this section is vested with all the powers, privileges, and immunities of peace officers if the officer:

(1) is on the property under the control and jurisdiction of the respective private institution of higher education or is otherwise performing duties assigned to the officer by the institution, regardless of whether the officer is on property under the control and jurisdiction of the institution, but provided these duties are being performed within a county in which the institution has land; or

(2) to the extent authorized by Section 51.2125, is:

(A) requested by another law enforcement agency to

provide assistance in enforcing state or local law, including a municipal ordinance, and is acting in response to that request; or

(B) otherwise assisting another law enforcement agency in enforcing a law described by Paragraph (A).

(c) Any officer assigned to duty and commissioned shall take and file the oath required of peace officers, and shall execute and file a good and sufficient bond in the sum of \$1,000, payable to the governor, with two or more good and sufficient sureties, conditioned that the officer will fairly, impartially, and faithfully perform the duties as may be required of the officer by law. The bond may be sued on from time to time in the name of the person injured until the whole amount is recovered.

(d) The governing boards of private institutions of higher education are authorized to hire and pay on a regular basis peace officers commissioned by an incorporated city. The officers shall be under the supervision of the hiring institution, but shall be subject to dismissal and disciplinary action by the city. An incorporated city is authorized to contract with a private institution of higher education for the use and employment of its commissioned officers in any manner agreed to, provided that there is no expense incurred by the city.

Sec. 51.2125. PRIVATE INSTITUTIONS: AUTHORITY TO ENTER INTO

MUTUAL ASSISTANCE AGREEMENT. (a) This section applies only to a private institution of higher education that has under its control and jurisdiction property that is contiguous to, or located in any part within the boundaries of, a home-rule municipality that has a population of 1.18 million or more and is located predominantly in a county that has a total area of less than 1,000 square miles. For purposes of this section, a private institution of higher education is a private or independent institution of higher education as defined by Section 61.003.

(b) In addition to exercising the authority provided under Section 51.212(d), the governing board of a private institution of higher education to which this section applies and the governing body of each municipality, regardless of the municipality's population, that is contiguous to, or the boundaries of which contain any part of, property under the control and jurisdiction of the private institution of higher education may enter into a written mutual assistance agreement in which peace officers commissioned by the institution or the applicable municipality serve the public interest by assisting, without any form of additional compensation or other financial benefit, the peace officers of the other party to the agreement in enforcing state or local law, including applicable municipal ordinances. The agreement must be reviewed at least annually by the institution and the municipality and may be modified at that time by a written agreement signed by each party. The agreement may be terminated at any time by a party to the agreement on the provision of reasonable notice to the other party to the agreement.

(c) A mutual assistance agreement authorized by this section may designate the geographic area in which the campus peace officers are authorized to provide assistance to the peace officers of the municipality, except that if the agreement is entered into with a municipality described by Subsection (a) that elects all or part of the municipality's governing body from election districts, the designated geographic area consists of each of the election districts of the municipality's governing body that contains any part of the campus of the institution and each of the election districts of the governing body that is contiguous to another municipality that contains any part of the campus of the institution.

(d) This section does not affect a municipality's duty to provide law enforcement services to any location within the

boundaries of the municipality.

(e) A peace officer providing assistance under a mutual assistance agreement authorized by this section may make arrests and exercise all other authority given to peace officers under other state law. The municipal law enforcement agency has exclusive authority to supervise any campus peace officer operating under the agreement to assist the peace officers of the municipality. A municipal peace officer operating under the agreement to assist the campus peace officers remains under the supervision of the municipal law enforcement agency.

(f) In the same manner and to the same extent as a municipality is liable for an act or omission of a peace officer employed by the municipality, a private institution of higher education is liable for an act or omission of a campus peace officer operating under a mutual assistance agreement authorized by this section at a location other than property under the control and jurisdiction of the institution.

(g) This section does not limit the authority of a campus peace officer to make a warrantless arrest outside the officer's jurisdiction as described by Article 14.03(d), Code of Criminal Procedure.

Sec. 51.2126. APPEAL BY CAMPUS PEACE OFFICER OF DISCIPLINARY ACTION OR PROMOTIONAL BYPASS RELATED TO PROVISION OF ASSISTANCE UNDER MUTUAL ASSISTANCE AGREEMENT. (a) A campus peace officer acting under a mutual assistance agreement authorized by Section 51.2125 who is demoted, suspended, or terminated by the applicable private institution of higher education or who experiences a promotional bypass by the institution may elect to appeal the institution's action to an independent third party hearing examiner under this section.

(b) To elect to appeal to an independent third party hearing examiner under this section, the campus peace officer must submit to the head of the institution's law enforcement agency not later than

the 30th day after the date of the action being appealed a written request stating the officer's decision to appeal to such a hearing examiner.

(c) The hearing examiner's decision is final and binding on all parties. If a campus peace officer elects to appeal the institution's action to an independent third party hearing examiner under this section, the officer or institution may appeal the examiner's decision to a district court only as provided by Subsection (j).

(d) If a campus peace officer elects to appeal to a hearing examiner, the officer and the head of the institution's law enforcement agency or their designees shall attempt to agree on the selection of an impartial hearing examiner. If the parties do not agree on the selection of a hearing examiner before the 10th day after the date the appeal is filed, the parties immediately shall request a list of seven qualified neutral arbitrators from the American Arbitration Association or the Federal Mediation and Conciliation Service, or their successors in function. The officer and the agency head or their designees may agree on one of the seven neutral arbitrators on the list. If the parties do not agree before the fifth business day after the date the parties receive the list, the parties or their designees shall alternate striking a name from the list, and the single name remaining after all other names have been struck is selected as the hearing examiner. The parties or their designees shall agree on a date for the hearing.

(e) The appeal hearing must begin as soon as an appearance by the hearing examiner can be scheduled. If the hearing examiner cannot begin the hearing before the 45th day after the date of selection, the campus peace officer may, within 48 hours after learning of that fact, call for the selection of a new hearing examiner using the procedure prescribed by Subsection (d).

(f) In a hearing conducted under this section, the hearing examiner has the same duties and powers that a civil service commission has in conducting a hearing or hearing an appeal under Chapter 143, Local Government Code, including the right to issue subpoenas. The hearing examiner may:

(1) order that the campus peace officer be reinstated to the same position or status in which the officer was employed immediately before the demotion, suspension, or termination or, in the case of a promotional bypass, to the position or status with

respect to which the officer experienced the bypass; and

(2) award the officer lost wages and any other compensation lost as a result of the disciplinary action or promotional bypass, as applicable.

(g) In a hearing conducted under this section, the parties may agree to an expedited hearing procedure. Unless otherwise agreed by the parties, in an expedited procedure the hearing examiner shall issue a decision on the appeal not later than the 10th day after the date the hearing is completed.

(h) In an appeal that does not involve an expedited hearing procedure, the hearing examiner shall make a reasonable effort to issue a decision on the appeal not later than the 30th day after the later of the date the hearing is completed or the briefs are filed. The hearing examiner's inability to meet the time requirements imposed by this section does not affect the hearing examiner's jurisdiction, the validity of the disciplinary action or promotional bypass, or the hearing examiner's final decision.

(i) The hearing examiner's fees and expenses shall be paid in equal amounts by the parties. The costs of a witness shall be paid by the party who calls the witness.

(j) A district court may hear an appeal of a hearing examiner's decision only on the grounds that the hearing examiner was without jurisdiction or exceeded the examiner's jurisdiction or that the decision was procured by fraud, collusion, or other unlawful means. An appeal must be brought in the district court having jurisdiction in the municipality in which the institution is located.

(a) The governing board of each state institution of higher education, including public junior colleges, is authorized to promulgate rules and regulations providing for the disposition of abandoned and unclaimed personal property coming into the possession of the campus security personnel where the personal property is not being held as evidence to be used in any pending criminal case.

(b) The authority granted to governing boards under Subsection (a) may also be exercised by governing boards of private institutions

of higher education, including private junior colleges.

(c) In this section, "private institution of higher education" has the meaning assigned by Section 61.003(15).

Sec. 51.214. SECURITY OFFICERS FOR MEDICAL CORPORATIONS IN CERTAIN MUNICIPALITIES. (a) In any municipality with a population of 1.18 million or more located primarily in a county with a population of 2.5 million or more, the governing board of a private, nonprofit medical corporation, or of the parent corporation of such medical corporation, that provides police or security services for an institution of higher education or a private postsecondary educational institution located within one of the medical corporation's or parent corporation's medical complexes, or that provides police or security services for another medical complex legally affiliated with or owned, leased, managed, or controlled by the medical corporation or parent corporation, may employ and commission police or security personnel to enforce the law of this state within the jurisdiction designated by Subsection (c).

(b) An officer commissioned under this section may make arrests and has all the powers, privileges, and immunities of a peace officer while performing the officer's assigned duties within the jurisdiction designated by Subsection (c). An officer assigned to duty and commissioned shall take and file the oath required of peace officers and shall execute and file a good and sufficient bond in the sum of \$1,000, payable to the governor, with two or more good and sufficient sureties, conditioned that the officer will fairly, impartially, and faithfully perform the duties required of the officer by law. The bond may be sued on from time to time in the name of the person injured until the whole amount is recovered.

(c) The jurisdiction of an officer commissioned under this section is limited to:

(1) property under the control and jurisdiction of the private, nonprofit medical corporation or its parent corporation or any entity legally affiliated with or owned, leased, managed, or controlled by the medical corporation or its parent corporation;

(2) a street or alley that abuts the property or an easement in or a right-of-way over or through the property described by Subdivision (1); and

(3) any other location in which the officer is performing duties assigned to the officer by the private, nonprofit medical corporation or its parent corporation, regardless of whether the officer is on property under the control and jurisdiction of the medical corporation or its parent corporation, provided that the assigned duties are consistent with the mission of the medical corporation or its parent corporation and are being performed within a county in which the medical corporation or its parent corporation owns real property.

(d) An officer commissioned under this section is not entitled to compensation or benefits provided by this state or a political subdivision of this state.

(e) The state or a political subdivision of this state is not liable for an act or omission of an officer commissioned under this section during the performance of the officer's assigned duties.

(f) A person may not be commissioned under this section unless the person obtains a peace officer license issued by the Texas Commission on Law Enforcement. The employing medical corporation or parent corporation shall pay to the Texas Commission on Law Enforcement on behalf of an employee any fees that are necessary to obtain a required license.

(g) A person's commission and any authority to act as an officer under this section are automatically revoked if the person's employment is terminated for any reason.

Sec. 51.336. DEVELOPMENTAL EDUCATION. (a) An institution of higher education may refer a student to developmental coursework, including basic academic skills education, as considered necessary by the institution to address a student's deficiencies in the student's readiness to perform freshman-level academic coursework, except that the institution may not require enrollment in developmental coursework with respect to a student previously determined under Section 51.338(d) or by any institution of higher education to have met college-readiness standards.

(b) An institution of higher education that requires a student to enroll in developmental coursework must offer a range of developmental coursework, including online coursework, or instructional support that includes the integration of technology to efficiently address the particular developmental needs of the student.

(c) Each institution of higher education shall develop and implement for developmental coursework, other than adult basic education or basic academic skills education, developmental education using a corequisite model under which a student concurrently enrolls in a developmental education course and a freshman-level course in the same subject area for each subject area for which the student is referred to developmental coursework. Each institution shall ensure that at least 75 percent of the institution's students enrolled in developmental coursework other than adult basic education or basic academic skills education are enrolled in developmental coursework described by this subsection.

(d) If a student fails to satisfactorily complete a freshman-level course described by Subsection (c), the institution of higher education shall:

(1) review the plan developed for the student under Section 51.335(a) and, if necessary, work with the student to revise the plan; and

(2) offer to the student a range of competency-based education programs to assist the student in becoming ready to perform freshman-level academic coursework in the applicable subject area.

(e) An institution of higher education must base developmental coursework on research-based best practices that include the following components:

- (1) assessment;
  - (2) differentiated placement and instruction;
  - (3) faculty development;
  - (4) support services;
  - (5) program evaluation;
  - (6) integration of technology with an emphasis on instructional support programs;
  - (7) non-course-based developmental education interventions;
- and
- (8) subject to the requirements of Subsection (c), course pairing of developmental education courses with credit-bearing courses.

(f) To allow a student to complete any necessary developmental coursework in the most efficient and cost-effective manner, the board shall encourage institutions of higher education to offer various types of developmental coursework that address various levels of deficiency in readiness to perform college coursework for which course credit may be earned, as determined on the basis of assessments as described by Section 51.334. The types of developmental coursework may include:

- (1) course-based programs;
- (2) non-course-based programs, such as advising programs;
- (3) module format programs;
- (4) competency-based education programs;
- (5) basic academic skills education, if applicable to the student; and
- (6) subject to the requirements of Subsection (c), programs under which the student is pairing or taking concurrently a developmental education course and another course in the same subject area for which course credit may be earned.

Sec. 51.337. REEVALUATION OF COLLEGE READINESS. (a) A student may retake an assessment instrument designated by the board for use under this subchapter at any time to determine readiness to perform freshman-level academic coursework.

(b) An institution of higher education shall determine when a student is ready to perform freshman-level academic coursework. The institution must make its determination using learning outcomes for developmental education courses developed by the board based on established college and career readiness standards and student performance on one or more appropriate assessments.

Sec. 51.338. EXEMPTIONS. (a) An institution of higher education may exempt a non-degree-seeking or non-certificate-seeking student from the requirements of this subchapter.

(b) A student who has achieved a score set by the board on the SAT or ACT is exempt from the requirements of this subchapter. An exemption under this subsection is effective for the five-year period following the date a student takes the test and achieves the standard set by the board.

(c) A student who has achieved scores set by the board on the questions developed for end-of-course assessment instruments under Section 39.0233(a) is exempt from the requirements of this subchapter. The exemption is effective for the three-year period following the date a student takes the last assessment instrument for purposes of this subchapter and achieves the standard set by the board. This subsection does not apply during any period for which the board designates the questions developed for end-of-course assessment instruments under Section 39.0233(a) as the primary

assessment instrument under this subchapter, except that the three-year period described by this subsection remains in effect for students who qualify for an exemption under this subsection before that period.

(d) A student who has demonstrated the performance standard for college readiness as provided by Section 28.008 on the postsecondary readiness assessment instruments adopted under Section 39.0238 for Algebra II and English III, as that section existed before repeal by H.B. 4545, Acts of the 87th Legislature, Regular Session, 2021, is exempt from the requirements of this subchapter with respect to those content areas. The commissioner of higher education by rule shall establish the period for which an exemption under this subsection is valid.

(e) A student who successfully completes a college preparatory course under Section 28.014 is exempt from the requirements of this subchapter with respect to the content area of the course, provided that the student satisfies the requirements of Subsection (f) of this section. The exemption is effective for the two-year period following the date the student graduates from high school. The exemption applies only at the institution of higher education that partners with the school district in which the student is enrolled to provide the course, except that the commissioner of higher education by rule may determine the manner in which the exemption may be applied to institutions of higher education other than the partnering institution.

(f) A student receiving an exemption under Subsection (e) must enroll in a college-level course in the exempted content area during the student's first year of enrollment at an institution of higher education occurring after the student qualifies for the exemption. If the student earns a grade below a "C" for the course, the institution shall advise the student of non-course-based options for attaining college readiness, such as tutoring or accelerated learning.

(g) The board shall:

(1) collect and analyze data regarding the effectiveness of college preparatory courses provided under Section 28.014 in assisting students to become ready to perform freshman-level academic coursework, as measured by the rate at which students receiving an exemption under Subsection (e) successfully complete the course described by Subsection (f); and

(2) in November of each even-numbered year, submit a report

of the board's findings to the governor, the lieutenant governor, the speaker of the house of representatives, the standing legislative committees with primary jurisdiction over higher education, and each institution of higher education and school district that offers a college preparatory course under Section 28.014.

(h) A student who has achieved a score set by the board on a high school equivalency examination administered under Section 7.111 is exempt from the requirements of this subchapter. The commissioner of higher education by rule shall establish the period for which an exemption under this subsection is valid.

Sec. 51.340. FUNDING. (a) The legislature shall appropriate money for approved non-degree-credit developmental courses, including basic academic skills education, except that legislative appropriations may not be used for developmental coursework taken by a student in excess of:

- (1) for a general academic teaching institution:
  - (A) 9 semester credit hours; or
  - (B) 18 semester credit hours, if the developmental coursework is English for speakers of other languages; and
- (2) for a public junior college, public technical institute, or public state college:
  - (A) 18 semester credit hours; or
  - (B) 27 semester credit hours, if the developmental coursework is English for speakers of other languages.

(b) The board may develop formulas to supplement the funding of developmental academic programs by institutions of higher education, including formulas for supplementing the funding of non-course-based programs. The board may develop a performance funding formula by which institutions of higher education may receive additional funding for each student who completes the success initiative established under this subchapter and then successfully completes college coursework. The legislature may appropriate the money required to

provide the additional funding under those formulas.

#### **SUBCHAPTER P. FUND FOR THE NATIONAL CENTER FOR MANUFACTURING SCIENCES**

Sec. 51.701. LEGISLATIVE FINDINGS. The legislature finds that:

(1) strength in the manufacturing sector is critical to the United States' and Texas' international competitive position, as well as to the national security. Manufacturing has the highest economic multiplier of any industrial sector, contributing to economic growth and personal wealth. High technology manufacturing has the highest economic multiplier among manufacturing sectors;

(2) the health of the manufacturing sector is critical for economic growth in Texas. Texas, as a primary producer of raw materials, finds itself positioned to benefit tremendously from improvement and development of its manufacturing capabilities, even while the Texas economy suffers the consequences of having depended too heavily on production of raw materials alone; and

(3) manufacturing industry sales growth and productivity increases have been shown to move in direct relation to the performance of research and development by the industry.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.702. PURPOSE. It is the intent of the legislature that Texas accept the challenge of becoming the nation's centerpoint for advanced manufacturing technology development by aggressively pursuing the siting in Texas of the National Center for Manufacturing Sciences, proposed by the National Academy of Sciences and the Manufacturing Science Board, and initiated by the National Machine Tool Industry. With this centerpiece for advanced research and technology transfer in the area of manufacturing sciences, Texas could become a primary producer of high value-added products, with enormous benefits for the entire economy.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.703. DEFINITION. In this subchapter, "fund" means the fund for the National Center for Manufacturing Sciences.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.704. FUND. (a) The fund for the National Center for Manufacturing Sciences is created as a special fund in the state treasury.

(b) The fund consists of:

- (1) appropriations; and
- (2) grants from industry and other sources.

(c) For each biennium the legislature may appropriate to the fund an amount equal to the amount of donations received from private sources for the biennium, not to exceed \$2 million per biennium.

(d) The comptroller shall administer the fund until the center is located in Texas.

(e) The comptroller may accept grants for the purpose of the fund.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.  
Amended by Acts 1997, 75th Leg., ch. 1423, Sec. 5.09, eff. Sept. 1, 1997.

Sec. 51.705. USE OF FUND. (a) When the National Center for Manufacturing Sciences is announced for location in Texas, the existing funds (and all subsequent funds) will be made available for use by the center in accordance with its charter.

(b) Should the center not be located in Texas, the industry grants will be returned to their source and the state's matching appropriation will be held for reappropriation by the legislature.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

(c) The board may designate an engineer or architect independent of the design-build firm to act as its representative for the duration of the work on the facility. If the board's engineer or architect is not a full-time employee of the institution, any engineer or architect designated shall be selected on the basis of demonstrated competence and qualifications in accordance with Section 2254.004, Government Code.

(d) The institution shall prepare a request for qualifications that includes general information on the project site, project scope, budget, special systems, selection criteria, and other information that may assist potential design-build firms in submitting proposals for the project. The institution shall also prepare the design criteria package that includes more detailed information on the project. If the preparation of the design criteria package requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, those services shall be provided in accordance with the applicable law.

(e) The board or its representative shall publish the request for qualifications in a manner prescribed by the board.

(f) The board or its representative shall evaluate statements of qualifications and select a design-build firm in two phases:

(1) In phase one, the board or its representative shall prepare a request for qualifications and evaluate each offeror's experience, technical competence, and capability to perform, the past performance of the offeror's team and members of the team, and other appropriate factors submitted by the team or firm in response to the request for qualifications, except that cost-related or price-related evaluation factors are not permitted. Each offeror must certify to the board that each engineer or architect that is a member of its team was selected based on demonstrated competence and qualifications in the manner provided by Section 2254.004, Government Code. The board or its representative shall qualify a maximum of five offerors to submit additional information and, if the board or its

representative chooses, to interview for final selection.

(2) In phase two, the board or its representative shall evaluate the information submitted by the offerors on the basis of the selection criteria stated in the request for qualifications and the results of any interview. The board or its representative may request additional information regarding demonstrated competence and qualifications, considerations of the safety and long-term durability of the project, the feasibility of implementing the project as proposed, the ability of the offeror to meet schedules, costing methodology, or other factors as appropriate. The board or its representative may not require offerors to submit detailed engineering or architectural designs as part of the proposal. The board or its representative shall rank each proposal submitted on the basis of the criteria specified in the request for qualifications. The board or its representative shall select the design-build firm that submits the proposal offering the best value for the institution on the basis of the published selection criteria and on its ranking evaluations. The board or its representative shall first attempt to negotiate with the selected offeror a contract. If the board or its representative is unable to negotiate a satisfactory contract with the selected offeror, the institution shall, formally and in writing, end all negotiations with that offeror and proceed to negotiate with the next offeror in the order of the selection ranking until a contract is reached or negotiations with all ranked offerors end.

(g) Following selection of a design-build firm under Subsection (f), that firm's engineers or architects shall complete the design, submitting all design elements for review and determination of scope compliance by the institution's engineer or architect before or concurrently with construction.

(h) An engineer shall have responsibility for compliance with the engineering design requirements and all other applicable requirements of Chapter 1001, Occupations Code. An architect shall have responsibility for compliance with the requirements of Chapter 1051, Occupations Code.

(i) The institution shall provide or contract for, independently of the design-build firm, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The institution shall select those services for which it contracts in accordance with Section 2254.004, Government Code.

(j) The design-build firm shall supply a signed and sealed set of construction documents for the project to the institution at the conclusion of construction.

(k) A payment or performance bond is not required for, and may not provide coverage for, the portion of a design-build contract under this section that includes design services only. If a fixed contract amount or guaranteed maximum price has not been determined at the time a design-build contract is awarded, the penal sums of the performance and payment bonds delivered to the institution shall each be in an amount equal to the project budget, as specified in the design criteria package. The design-build firm shall deliver the bonds not later than the 10th day after the date the design-build firm executes the contract unless the design-build firm furnishes a bid bond or other financial security acceptable to the institution to ensure that the design-build firm will furnish the required performance and payment bonds when a guaranteed maximum price is established.

Sec. 51.781. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-AGENT. (a) An institution may use the construction manager-agent method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a construction manager-agent, a board shall follow the procedures prescribed by this section.

(b) A construction manager-agent is a sole proprietorship, partnership, corporation, or other legal entity that provides consultation to the institution regarding construction, rehabilitation, alteration, or repair of the facility. An institution using the construction manager-agent method may, under the contract between the institution and the construction manager-agent, require the construction manager-agent to provide administrative personnel, equipment necessary to perform duties under this section, and on-site management and other services specified in the contract. A construction manager-agent represents the

institution in a fiduciary capacity.

(c) Before or concurrently with selecting a construction manager-agent, the board shall select or designate an engineer or architect who shall prepare the construction documents for the project and who has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code. The institution's engineer or architect may not serve, alone or in combination with another person, as the construction manager-agent unless the engineer or architect is hired to serve as the construction manager-agent under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) A board shall select a construction manager-agent on the basis of demonstrated competence and qualifications in the same manner as provided for the selection of engineers or architects under Section 2254.004, Government Code.

(e) A board using the construction manager-agent method shall procure, in accordance with applicable law and in any manner authorized by this chapter, a general contractor, trade contractors, or subcontractors who will serve as the prime contractor for their specific portion of the work.

(f) The board or the construction manager-agent shall procure in accordance with Section 2254.004, Government Code, all of the testing of construction materials engineering, the inspection services, and the verification testing services necessary for acceptance of the facility by the institution.

Added by Acts 1997, 75th Leg., ch. 1179, Sec. 3, eff. Sept. 1, 1997. Amended by Acts 1999, 76th Leg., ch. 1225, Sec. 15, eff. Sept. 1, 1999; Acts 2003, 78th Leg., ch. 1276, Sec. 14A.765, eff. Sept. 1, 2003.

Sec. 51.782. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-

AT-RISK. (a) An institution may use the construction manager-at-risk method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a construction manager-at-risk, a board shall follow the procedures prescribed by this section.

(b) A construction manager-at-risk is a sole proprietorship, partnership, corporation, or other legal entity that assumes the risk for construction, rehabilitation, alteration, or repair of a facility at the contracted price as a general contractor and provides consultation to the institution regarding construction during and after the design of the facility.

(c) Before or concurrently with selecting a construction manager-at-risk, the board shall select or designate an engineer or architect who shall prepare the construction documents for the project and who has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code. The institution's engineer, architect, or construction manager-agent for a project may not serve, alone or in combination with another, as the construction manager-at-risk unless the engineer or architect is hired to serve as the construction manager-at-risk under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) The board shall provide or contract for, independently of the construction manager-at-risk, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services for which it contracts in accordance with Section 2254.004, Government Code.

(e) The board shall select the construction manager-at-risk in either a one-step or two-step process. The board shall prepare a request for proposals, in the case of a one-step process, or a request for qualifications, in the case of a two-step process, that includes general information on the project site, project scope,

schedule, selection criteria, estimated budget, and the time and place for receipt of proposals or qualifications, as applicable, a statement as to whether the selection process is a one-step or two-step process, and other information that may assist the board in its selection of a construction manager-at-risk. The board shall state the selection criteria in the request for proposals or qualifications, as applicable. The selection criteria may include the offeror's experience, past performance, safety record, proposed personnel and methodology, and other appropriate factors that demonstrate the capability of the construction manager-at-risk. If a one-step process is used, the board may request, as part of the offeror's proposal, proposed fees and prices for fulfilling the general conditions. If a two-step process is used, the board may not request fees or prices in step one. In step two, the board may request that five or fewer offerors, selected solely on the basis of qualifications, provide additional information, including the construction manager-at-risk's proposed fee and its price for fulfilling the general conditions.

(f) The board shall publish the request for qualifications in a manner prescribed by the board.

(g) At each step, the board shall receive, publicly open, and read aloud the names of the offerors. At the appropriate step, the board shall also read aloud the fees and prices, if any, stated in each proposal as the proposal is opened. Within 45 days after the date of opening the proposals, the board or its representative shall evaluate and rank each proposal submitted in relation to the criteria set forth in the request for proposals.

(h) The board or its representative shall select the offeror that submits the proposal that offers the best value for the institution based on the published selection criteria and on its ranking evaluation. The board or its representative shall first attempt to negotiate with the selected offeror a contract. If the board or its representative is unable to negotiate a satisfactory contract with the selected offeror, the board or its representative shall, formally and in writing, end negotiations with that offeror and proceed to negotiate with the next offeror in the order of the selection ranking until a contract is reached or negotiations with all ranked offerors end.

(i) A construction manager-at-risk shall publicly advertise, in the manner prescribed by the institution, and receive bids or

proposals from trade contractors or subcontractors for the performance of all major elements of the work other than general conditions work. A construction manager-at-risk may seek to perform major elements of the work itself if the construction manager-at-risk submits its bid or proposal for that work in the same manner as all other trade contractors or subcontractors and if the board determines that the construction manager-at-risk's bid or proposal provides the best value for the institution. If no satisfactory bid or proposal for a major element of the work is received in the time allowed, the board may negotiate directly with the construction manager-at-risk for performance of that work. The board may negotiate directly with the manager-at-risk for the performance of minor elements of the work that are not included in major work packages.

(j) The construction manager-at-risk and the board or its representative shall review all trade contractor or subcontractor bids or proposals in a manner that does not disclose the contents of the bid or proposal during the selection process to a person not employed by the construction manager-at-risk, engineer, architect, or institution. All bids or proposals shall be made public after the award of the contract or within seven days after the date of final selection of bids and proposals, whichever is later.

(k) If the construction manager-at-risk reviews, evaluates, and recommends to the board a bid or proposal from a trade contractor or subcontractor but the board requires another bid or proposal to be accepted, the institution shall compensate the construction manager-at-risk by a change in price, time, or guaranteed maximum cost for any additional cost and risk that the construction manager-at-risk may incur because of the board's requirement that another bid or proposal be accepted.

(l) If a selected trade contractor or subcontractor defaults in the performance of its work or fails to execute a subcontract after being selected in accordance with this section, the construction manager-at-risk may, without advertising, itself fulfill the contract requirements or select a replacement trade contractor or subcontractor to fulfill the contract requirements.

(m) If a fixed contract amount or guaranteed maximum price has not been determined at the time the contract is awarded, the penal sums of the performance and payment bonds delivered to the institution must each be in an amount equal to the project budget, as set forth in the request for qualifications. The construction

manager shall deliver the bonds not later than the 10th day after the date the construction manager executes the contract unless the construction manager furnishes a bid bond or other financial security acceptable to the institution to ensure that the construction manager will furnish the required performance and payment bonds when a guaranteed maximum price is established.

Sec. 51.783. SELECTING CONTRACTOR FOR CONSTRUCTION SERVICES THROUGH COMPETITIVE SEALED PROPOSALS. (a) In selecting a contractor for construction, rehabilitation, alteration, or repair services for a facility through competitive sealed proposals, a board shall follow the procedures prescribed by this section.

(b) The board shall select or designate an engineer or architect to prepare construction documents for the project. The selected or designated engineer or architect has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code.

(c) The board shall provide or contract for, independently of the contractor, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services for which it contracts in accordance with Section 2254.004, Government Code, and shall identify them in the request for proposals.

(d) The board shall prepare a request for competitive sealed proposals that includes construction documents, selection criteria, estimated budget, project scope, schedule, and other information that contractors may require to respond to the request. The board shall state in the request for proposals the selection criteria that will be used in selecting the successful offeror.

(e) The board shall publish notice of the request for proposals in a manner prescribed by the board.

(f) The board shall receive, publicly open, and read aloud the names of the offerors and, if any are required to be stated, all prices stated in each proposal. Within 45 days after the date of opening the proposals the board shall evaluate and rank each proposal submitted in relation to the published selection criteria.

(g) The board shall select the offeror that offers the best value for the institution based on the published selection criteria and on its ranking evaluation. The board shall first attempt to negotiate with the selected offeror a contract. The board and its engineer or architect may discuss with the selected offeror options for a scope or time modification and any price change associated with the modification. If the board is unable to reach a contract with the selected offeror, the board shall, formally and in writing, end negotiations with that offeror and proceed to the next offeror in the order of the selection ranking until a contract is reached or all proposals are rejected.

(h) In determining best value for the institution, the board is not restricted to considering price alone but may consider any other factor stated in the selection criteria.

Amended by Acts 1999, 76th Leg., ch. 1225, Sec. 16, eff. Sept. 1, 1999; Acts 2003, 78th Leg., ch. 1276, Sec. 14A.767, eff. Sept. 1, 2003.

Sec. 51.784. JOB ORDER CONTRACTS FOR FACILITIES CONSTRUCTION OR REPAIR. (a) An institution may award job order contracts for the minor construction, repair, rehabilitation, or alteration of a facility if the work is of a recurring nature but the delivery times are indefinite and indefinite quantities and orders are awarded substantially on the basis of predescribed and prepriced tasks.

(b) The institution may establish contractual unit prices for a job order contract by:

(1) specifying one or more published construction unit price books and the applicable divisions or line items; or

(2) providing a list of work items and requiring the offerors to bid or propose one or more coefficients or multipliers to

be applied to the price book or work items as the price proposal.

(c) The board shall advertise for, receive, and publicly open sealed proposals for job order contracts.

(d) The board may require offerors to submit additional information besides rates, including experience, past performance, and proposed personnel and methodology.

(e) The board may award job order contracts to one or more job order contractors in connection with each solicitation of bids or proposals.

(f) An order for a job or project under the job order contract must be signed by the board's representative and the contractor. The order may be a fixed price, lump-sum contract based substantially on contractual unit pricing applied to estimated quantities or may be a unit price order based on the quantities and line items delivered.

(g) The contractor shall provide payment and performance bonds, if required by law, based on the amount or estimated amount of any order.

(h) The base term of a job order contract is for the period and with any renewal options that the institution sets forth in the request for proposals. If the institution fails to advertise that term, the base term may not exceed two years and is not renewable without further advertisement and solicitation of proposals.

(i) If a job order contract or an order issued under the contract requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, the board shall select or designate an architect or engineer to prepare the construction documents for the facility. If the architect or engineer is not a full-time employee of the institution, the board shall select the architect or engineer on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code.

Sec. 51.785. CERTAIN CONTRACTS PROHIBITED. The board of an institution may not enter into a contract with a person relating to a permanent improvement project at the institution under which the institution makes contractual payments to the person that are not reflected on the institution's financial statement unless the board:

(1) is specifically authorized to enter into the contract by other law; or

(2) receives prior approval by the Texas Higher Education Coordinating Board.

#### **SUBCHAPTER U. UNIFORM ADMISSION POLICY**

Sec. 51.801. DEFINITIONS. In this subchapter, "general academic teaching institution," "governing board," "medical and dental unit," and "university system" have the meanings assigned by Section 61.003.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.802. UNIFORM ADMISSION SYSTEM. A general academic teaching institution shall admit first-time freshman students for each semester under the provisions of this subchapter.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see S.B. [1241](#) and H.B. [3041](#), 89th Legislature, Regular Session, for amendments affecting the following section.

Sec. 51.803. AUTOMATIC ADMISSION: ALL INSTITUTIONS. (a) Subject to Subsection (a-1), each general academic teaching institution shall admit an applicant for admission to the institution as an undergraduate student if the applicant graduated with a grade point average in the top 10 percent of the student's high school

graduating class in one of the two school years preceding the academic year for which the applicant is applying for admission and:

(1) the applicant:

(A) graduated from a public or private high school in this state accredited by a generally recognized accrediting organization or from a high school operated by the United States Department of Defense; or

(B) completed a nontraditional secondary education as defined by Section 51.9241;

(2) the applicant:

(A) successfully completed:

(i) at a public high school, the curriculum requirements established under Section 28.025 for the distinguished level of achievement under the foundation high school program; or

(ii) at a high school to which Section 28.025 does not apply, a curriculum that is equivalent in content and rigor to the distinguished level of achievement under the foundation high school program; or

(B) satisfied ACT's College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1,500 out of 2,400 or the equivalent; and

(3) if the applicant graduated from a high school operated by the United States Department of Defense, the applicant is a Texas resident under Section 54.052 or is entitled to pay tuition fees at the rate provided for Texas residents under Section 54.241(d) for the term or semester to which admitted.

(a-1) Beginning with admissions for the 2011-2012 academic year, The University of Texas at Austin is not required to offer admission to applicants who qualify for automatic admission under Subsection (a) in excess of the number required to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students in an academic year. If the number of applicants who qualify for automatic admission to The University of Texas at Austin under Subsection (a) for an academic year exceeds 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students for that academic year, the university may elect to offer admission to those applicants as provided by this subsection and not as otherwise required by Subsection (a). If the university elects to offer admission under

this subsection, the university shall offer admission to those applicants by percentile rank according to high school graduating class standing based on grade point average, beginning with the top percentile rank, until the applicants qualified under Subsection (a) have been offered admission in the number estimated in good faith by the university as sufficient to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students, except that the university must offer admission to all applicants with the same percentile rank. After the applicants qualified for automatic admission under Subsection (a) have been offered admission under this subsection in the number estimated in good faith as sufficient to fill 75 percent of the designated enrollment capacity described by this subsection, the university shall consider any remaining applicants qualified for automatic admission under Subsection (a) in the same manner as other applicants for admission as first-time undergraduate students in accordance with Section 51.805.

(a-2) If the number of applicants who apply to a general academic teaching institution during the current academic year for admission in the next academic year and who qualify for automatic admission to a general academic teaching institution under Subsection (a) exceeds 75 percent of the institution's enrollment capacity designated for first-time resident undergraduate students for that next academic year and the institution plans to offer admission under Subsection (a-1) during the next school year, the institution shall, in the manner prescribed by the Texas Education Agency and not later than September 15, provide to each school district, for dissemination of the information to high school junior-level students and their parents, notice of which percentile ranks of high school senior-level students who qualify for automatic admission under Subsection (a) are anticipated by the institution to be offered admission under Subsection (a-1) during the next school year.

(a-3) Repealed by Acts 2015, 84th Leg., R.S., Ch. 776 , Sec. 1, eff. June 17, 2015.

(a-4) If The University of Texas at Austin elects to offer admission to first-time resident undergraduate students under Subsection (a-1) for an academic year, the university must continue its practice of not considering an applicant's legacy status as a factor in the university's decisions relating to admissions for that academic year.

(a-5) A general academic teaching institution that offers admission to first-time resident undergraduate students under Subsection (a-1) shall require that a student admitted under that subsection complete a designated portion of not less than six semester credit hours of the student's coursework during evening hours or other low-demand hours as necessary to ensure the efficient use of the institution's available classrooms.

(a-6) Not later than December 31 of each academic year in which The University of Texas at Austin offers admission under Subsection (a-1), the university shall deliver a written report to the governor, the lieutenant governor, and speaker of the house of representatives regarding the university's progress in each of the following matters:

- (1) increasing geographic diversity of the entering freshman class;
- (2) counseling and outreach efforts aimed at students qualified for automatic admission under this section;
- (3) recruiting Texas residents who graduate from other institutions of higher education to the university's graduate and professional degree programs;
- (4) recruiting students who are members of underrepresented demographic segments of the state's population; and
- (5) assessing and improving the university's regional recruitment centers.

(b) An applicant who does not satisfy the curriculum requirements prescribed by Subsection (a)(2)(A)(i) or (ii) is considered to have satisfied those requirements if the student completed the portion of the distinguished level of achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student but was unable to complete the remainder of the curriculum solely because courses necessary to complete the remainder were unavailable to the student at the appropriate times in the student's high school career as a result of course scheduling, lack of enrollment capacity, or another cause not within the student's control.

(c) To qualify for admission under this section, an applicant must:

- (1) submit an application before the expiration of any application filing deadline established by the institution; and
- (2) provide a high school transcript or diploma that

satisfies the requirements of Subsection (d).

(d) For purposes of Subsection (c)(2), a student's official transcript or diploma must, not later than the end of the student's junior year, indicate:

(1) whether the student has satisfied or is on schedule to satisfy the requirements of Subsection (a)(2)(A)(i) or (ii), as applicable; or

(2) if Subsection (b) applies to the student, whether the student has completed the portion of the distinguished level of achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student.

(d-1) In addition to admissions required under Subsection (a), each general academic teaching institution shall admit an applicant for admission to the institution as an undergraduate student if the applicant graduated as the valedictorian of the student's high school graduating class in one of the two school years preceding the academic year for which the student is applying for admission and satisfies the requirements of Subsections (a)(1) through (3). Subsection (b) applies to an applicant for admission under this subsection. An applicant admitted under this subsection is considered automatically admitted for purposes of Subsection (a), (a-1), or (a-2), as applicable.

(e) Each institution of higher education shall admit an applicant for admission to the institution as an undergraduate student if the applicant:

(1) is the child of a public servant listed in Section 615.003, Government Code, who was killed or sustained a fatal injury in the line of duty; and

(2) meets the minimum requirements, if any, established for purposes of this subsection by the governing board of the institution for high school or prior college-level grade point average and performance on standardized tests.

(f) After admitting an applicant under this section, the institution shall review the applicant's record and any other factor the institution considers appropriate to determine whether the applicant may require additional preparation for college-level work or would benefit from inclusion in a retention program. The institution may require a student so identified to enroll during the summer immediately after the student is admitted under this section

to participate in appropriate enrichment courses and orientation programs. This section does not prohibit a student who is not determined to need additional preparation for college-level work from enrolling, if the student chooses, during the summer immediately after the student is admitted under this section.

(g) The Texas Higher Education Coordinating Board by rule shall develop and implement a program to increase and enhance the efforts of general academic teaching institutions in conducting outreach to academically high-performing high school seniors in this state who are likely to be eligible for automatic admission under Subsection (a) to provide to those students information and counseling regarding the operation of this section and other opportunities, including financial assistance, available to those students for success at public institutions of higher education in this state. Under the program, the coordinating board, after gathering information and recommendations from available sources and examining current outreach practices by institutions in this state and in other states, shall prescribe best practices guidelines and standards to be used by general academic teaching institutions in conducting the student outreach described by this subsection.

(h) An institution that admits under this section an applicant qualified for automatic admission under Subsection (a) or (d-1) may admit the applicant for either the fall semester of the academic year for which the applicant applies or for the summer session preceding that fall semester, as determined by the institution.

(i) If a general academic teaching institution denies admission to an applicant for an academic year, in any letter or other communication the institution provides to the applicant notifying the applicant of that denial, the institution may not reference the provisions of this section, including using a description of a provision of this section such as the top 10 percent automatic admissions law, as a reason the institution is unable to offer admission to the applicant unless the number of applicants for admission to the institution for that academic year who qualify for automatic admission under Subsection (a) is sufficient to fill 100 percent of the institution's enrollment capacity designated for first-time resident undergraduate students.

(j) A general academic teaching institution that elects to offer admission under Subsection (a-1) for an academic year may not offer admission to first-time undergraduate students who are not

residents of this state for that academic year in excess of the number required to fill 10 percent of the institution's enrollment capacity designated for first-time undergraduate students for that academic year.

- (2) the socioeconomic background of the applicant while the applicant attended elementary and secondary school and was an undergraduate student, including any change in that background;

This subsection does not apply to a standardized test used to measure the English language proficiency of a student who is a graduate of a foreign institution of higher education.

(c) A general academic teaching institution or medical and dental unit may not assign a specific weight to any one factor being considered in the admissions or competitive scholarship process for a graduate or professional program.

of the factors to be considered by the institution or unit in making those admissions and competitive scholarship decisions and shall make the information available to the public.

Each company or organization that sponsors a college admissions testing program shall annually report to the Central Education Agency the performance in the testing program of students in this state and the program's state and national average standard score results. The company or organization shall report the performance of students by school district on the request of the Central Education Agency. In its determination of the admission of a student, an institution of higher education may not use the student's results on an assessment instrument administered by an organization that fails to comply with this section.

Sec. 51.9241. ADMISSION OF STUDENT WITH NONTRADITIONAL SECONDARY EDUCATION. (a) In this section:

(1) "Institution of higher education" has the meaning assigned by Section 61.003.

(2) "Nontraditional secondary education" means a course of study at the secondary school level in a nonaccredited private school setting, including a home school.

(b) Because the State of Texas considers successful completion of a nontraditional secondary education to be equivalent to graduation from a public high school, an institution of higher education must treat an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education according to the same general standards, including specific standardized testing score requirements, as other applicants for undergraduate admission who have graduated from a public high school.

(c) An institution of higher education may not require an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education to:

(1) obtain or submit evidence that the person has obtained a general education development certificate, certificate of high school equivalency, or other credentials equivalent to a public high school degree; or

(2) take an examination or comply with any other application or admission requirement not generally applicable to other applicants for undergraduate admission to the institution.

(d) If an institution of higher education in its undergraduate admission review process sorts applicants by high school graduating class rank, the institution shall place any applicant who presents evidence that the applicant has successfully completed a nontraditional secondary education that does not include a high school graduating class ranking at the average high school graduating class rank of undergraduate applicants to the institution who have equivalent standardized testing scores as the applicant.

Acts 2015, 84th Leg., R.S., Ch. 1210 (S.B. [1543](#)), Sec. 1, eff. September 1, 2015.

Sec. 51.9242. READMISSION OF STUDENT WHO WITHDRAWS TO PERFORM ACTIVE MILITARY SERVICE. (a) This section applies only to a student who withdraws from an institution of higher education to perform active military service as a member of the United States armed forces or the Texas National Guard, except that this section does not apply to a student who withdraws from an institution solely to perform one or more training exercises as a member of the Texas National Guard.

(b) For any academic term that begins after the date a student described by Subsection (a) is released from active military service but not later than the first anniversary of that date, the institution of higher education from which the student withdrew shall readmit the student, without requiring reapplication or charging a fee for readmission, if the student is otherwise eligible to register for classes at the institution. On readmission of the student under this subsection, the institution shall:

(1) provide to the student any financial assistance previously provided by the institution to the student before the student's withdrawal if the student meets current eligibility requirements for the assistance, other than any requirement directly affected by the student's service, such as continuous enrollment or another similar timing requirement; and

(2) allow the student the same academic status that the student had before the student's withdrawal, including any course credit awarded to the student by the institution.

(c) An institution of higher education may adopt rules requiring reasonable proof from a student of the fact and duration of the student's active military service.

Sec. 51.9245. ADMISSION OF PERSON RECEIVING ATHLETIC SCHOLARSHIP. (a) In this section, "general academic teaching institution" has the meaning assigned by Section 61.003.

(b) A general academic teaching institution may not admit an applicant who has been promised or granted an athletic scholarship, grant, or similar financial assistance conditioned on the student's participation in a sport, game, or other competition involving substantial physical ability or physical skill for or on a team organized or sponsored by the general academic teaching institution that is funded by state funds unless:

(1) if the general academic teaching institution requires a minimum high school grade point average as an admissions criterion for any entering freshman, that minimum applies to all freshmen being admitted; or

(2) for an applicant other than an entering freshman, the applicant's cumulative college-level grade point average is equal to or greater than the minimum cumulative college-level grade point average required for an undergraduate student to remain enrolled at the institution in the preceding academic year.

The following section was amended by the 89th Legislature. Pending publication of the current statutes, see H.B. 126, 89th Legislature, Regular Session, for amendments affecting the following section.

(c-1) An athletic association, an athletic conference, or any other group or organization with authority over an intercollegiate athletic program at an institution to which this section applies may not enforce a contract term, a rule, a regulation, a standard, or any other requirement that prohibits the institution from participating in intercollegiate athletics or otherwise penalizes the institution or the institution's intercollegiate athletic program for performing, participating in, or allowing an activity required or authorized by this section.

(d) A scholarship, grant, or similar financial assistance

awarded to a student athlete by an institution to which this section applies that covers the student athlete's cost of attendance at the institution is not compensation for purposes of this section.

(e) A student athlete participating in an intercollegiate athletic program at an institution to which this section applies may not be disqualified from eligibility for a scholarship, grant, or similar financial assistance awarded by the institution because the student athlete:

(1) earns compensation from the use of the student athlete's name, image, or likeness when the student athlete is not engaged in official team activities; or

(2) may not enter into a contract for the use of the student athlete's name, image, or likeness if:

(C) the duration of the contract extends beyond the student athlete's participation in the intercollegiate athletic program;

(3) is not considered an employee of the institution based on the student athlete's participation in the intercollegiate athletic program;

(4) may earn compensation from selling the student athlete's autograph in a manner that does not otherwise conflict with a provision of this section; and

(5) may not use an institution's facility, uniform, registered trademark, copyright-protected product, or official logo, mark, or other indicia in connection with a contract for the use of the student athlete's name, image, or likeness unless the student athlete obtains the institution's express permission.

(g-1) The following activities do not constitute compensation provided by an institution to which this section applies under Subsection (g)(2)(B)(ii):

(1) an activity authorized under Subsection (m); or

(2) recognition by an institution to which this section applies of a third-party entity that compensates a student athlete for the use of the student athlete's name, image, or likeness, or the entity's donors, including the institution's provision of priority status or other items of de minimis value equivalent to status or items the institution provides to the institution's donors.

(g-2) An institution may not authorize a use described by Subsection (g)(5) unless the institution requires that:

(1) the student athlete and the person contracting for the use of the student athlete's name, image, or likeness comply with any requirements the institution establishes, including requirements related to licensing; and

(2) the institution is compensated for the use in an amount consistent with market rates.

(h) An institution to which this section applies that identifies a provision in a contract disclosed to the institution by a student athlete under Subsection (g)(1) that conflicts with a

provision in the student athlete's team contract, a provision of an institutional contract of the institution, a policy of the athletic department of the institution, or a provision of the honor code of the institution shall promptly disclose the conflict to the student athlete or the student athlete's representative, if applicable. The student athlete or the student athlete's representative is responsible for resolving the conflict not later than the 10th day after the date of the disclosure.

(i) An institution to which this section applies shall require a student athlete participating in an intercollegiate athletic program at the institution to attend a financial literacy and life skills course during the student's first academic year at the institution. The course must be at least five hours in duration and include information on financial aid, debt management, time management, budgeting, and academic resources available to the student athlete. The institution may not during the course allow any provider of financial products or services to:

(1) market, advertise, or refer the provider's services to a student athlete; or

(2) solicit a student athlete to use the provider's services.

(j) No individual, corporate entity, or other organization may:

(1) enter into any arrangement with a prospective student athlete relating to the prospective student athlete's name, image, or likeness prior to their enrollment in an institution of higher education; or

(2) use inducements of future name, image, and likeness compensation arrangement to recruit a prospective student athlete to any institution of higher education.

(k) Nothing in this section may be construed as permitting an athlete agent to take any action prohibited under Section 2051.351, Occupations Code.

(l) Information written, produced, collected, assembled, or maintained by an institution to which this section applies that includes or reveals any term of a contract or proposed contract for the use of the student athlete's name, image, or likeness is confidential and excepted from required public disclosure in accordance with Chapter 552, Government Code. An institution to which this section applies may withhold information described by this subsection without requesting a decision from the attorney general

under Subchapter G, Chapter 552, Government Code.

(m) An institution to which this section applies or third-party entity acting on the institution's behalf, or employee of the institution or third-party entity:

(1) may identify, create, facilitate, or otherwise assist with opportunities for a currently enrolled student athlete to earn compensation from a third party for the use of the student athlete's name, image, or likeness; and

(o) An activity of a third-party entity that compensates a student athlete for the use of the student athlete's name, image, or likeness may not be construed as an act on behalf of an institution to which this section applies, provided that:

(1) the entity is a separate legal entity from the institution; and

(2) the institution does not own or control the entity.

(p) This section may not be construed as creating a cause of action against an institution or an institution's officers or employees relating to a student athlete's name, image, or likeness.

(a) An institution of higher education may not discriminate against or penalize in any way a member of the faculty of the institution who is absent from work for the observance of a religious holy day and gives proper notice of that absence if the customary and generally applicable educational practices of the institution permit general personal absence by members of the faculty. If personal absence is customarily penalized, the penalty for absence due to observance of a religious holy day under this section shall be forfeiture of one day's pay equivalent for each day of absence.

(b) In this section, "institution of higher education" has the meaning assigned by Section 61.003 of this code, except that the term includes the Southwest College for the Deaf and Texas State Technical College System.

(c) In this section, "proper notice" means that the faculty member shall provide a listing of religious holy days to be observed during the semester to the chairman of the department and shall provide notice of such days in advance to all students whose class would be canceled due to the faculty member's absence. Notice herein shall be in writing and shall be personally delivered to the chairman of the department, receipt therefor being acknowledged and dated by the chairman, or by certified mail, return receipt requested, addressed to the chairman.

(d) In this section, "religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code.

Sec. 51.927. ENERGY SAVINGS PERFORMANCE CONTRACTS. (a) In this section, "energy savings performance contract" has the meaning assigned by Section 302.001, Local Government Code.

(b) The governing board of an institution of higher education may enter into an energy savings performance contract in accordance with this section.

(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

(d) The board may enter into energy savings performance contracts only with entities that are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

(e) Before entering into an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and

performance bond in accordance with Chapter 2253, Government Code. The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

(f) The board may enter into an energy savings performance contract for a period of more than one year only if the board finds that the amount the institution would spend on the energy or water conservation measures will not exceed the amount to be saved in energy, water, wastewater, and operating costs over 20 years from the date of installation. If the term of the contract exceeds one year, the institution's contractual obligation in any year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the board in this subsection, divided by the number of years in the contract term beginning after the final date of installation. The board shall consider all costs of the energy or water conservation measures, including costs of design, engineering, installation, maintenance, repairs, and debt service.

(g) An energy savings performance contract may be financed:

(1) under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing, including a lease/purchase contract under the master equipment lease purchase program administered by the Texas Public Finance Authority under Chapter 1232, Government Code;

(2) with the proceeds of bonds; or

(3) under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

(g-1) Notwithstanding other law, the board may use any available money to pay the provider of the energy or water conservation measures under this section, and the board is not required to pay for such costs solely out of the savings realized by the institution of higher education under an energy savings performance contract. The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

(h) An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the institution of higher education under the contract.

(i) An energy savings performance contract shall be let according to the procedures established for procuring certain professional services by Section 2254.004, Government Code. Notice of the request for qualifications shall be given in the manner provided by Section 2156.002, Government Code. The Texas Higher Education Coordinating Board, in consultation with the State Energy Conservation Office with regard to energy and water conservation measures, shall establish guidelines and an approval process for awarding energy savings performance contracts. The guidelines must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. A contract is not required to be reviewed or approved by the State Energy Conservation Office. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(j) The legislature shall base an institution's appropriation for energy, water, and wastewater costs during a fiscal year on the sum of:

(1) the institution's estimated energy, water, and wastewater costs for that fiscal year; and

(2) if an energy savings performance contract is in effect, the institution's estimated net savings resulting from the contract during the contract term, divided by the number of years in the contract term.

(k) Chapter 2269, Government Code, does not apply to this section.

(l) The guidelines established under Subsection (i) must require the Texas Higher Education Coordinating Board to:

(1) review any reports submitted to the board that measure and verify cost savings to an institution of higher education under an energy savings performance contract; and

(2) based on the reports, provide an analysis, on a periodic basis, of the cost savings under the energy savings performance contract to the governing board of the institution of higher education and the Legislative Budget Board until the governing board of the institution of higher education determines that the analysis is no longer required to accurately measure cost savings.

- (1) is compatible with the light fixture;
- (2) uses the fewest watts for the necessary luminous flux or light output; and
- (3) is the most cost-effective, considering the factors described by Subdivisions (1) and (2).

(a) Except as provided by Subsection (b) of this section, a retail store that is owned or operated by an institution of higher education may not enter into a transaction for the sale or lease of goods or services in which the institution extends the credit of the state to the obligor.

(b) This section does not apply to an extension of credit to a student for the purchase of books or other educational supplies if the credit may be offset against undistributed grant or loan funds that are held by the institution for the student or that the institution is entitled to receive on behalf of the student. The institution may not withhold grant or loan funds to require the student to purchase books or educational supplies from a store that

it owns or operates.
