(B) fosters students' knowledge of real-world mathematics and science issues and applications and teaches students to apply critical thinking and problem-solving skills to those

issues;

(C) includes the study of English, foreign languages, social studies, mathematics, science, and technology; and

(D) offers students learning opportunities related to mathematics and science through in-depth research and field-based studies;

(B) workshops;

(C) collaboration with postsecondary and university students, including opportunities for summer studies; and

(D) internships in foreign countries; and

(3) to provide students with social development activities that enrich the academic curriculum and student life, including, as determined appropriate by the academy, University Interscholastic League activities and other extracurricular activities.

(b) The academy is a coeducational program for selected Texas high school students with an interest in and the potential to excel in mathematics and science studies. The academy shall admit only high school juniors and seniors, except that the academy may admit a student with exceptional abilities who is not yet a high school junior. (1) establish an internal management system for the academy and appoint an academy principal, who serves at the will of the board and reports to the vice president for academic affairs;

(2) provide for one or more academy counselors;

(3) establish for the academy a site-based decision-making

process similar to the process required by Subchapter F, Chapter 11, that provides for the participation of academy faculty, parents of academy students, and other members of the community; and

(4) establish an admissions process for the academy.

(d) The student-teacher ratio in all regular academic classes at the academy may not exceed 30 students for each classroom teacher, except that the student-teacher ratio may exceed that limit:

(1) in a program provided for the purposes prescribed by Subsection (a)(2) or another special enrichment course or in a physical education course;

(2) if the board determines that a class with a higher student-teacher ratio would contribute to the educational development of the students in the class; or

(3) if an academy class is combined with a university class with more than 30 students.

(e) The academy shall provide the university-level curriculum in a manner that is appropriate for the social, psychological, emotional, and physical development of high school juniors and seniors. The administrative and counseling personnel of the academy shall provide continuous support to and supervision of students.

(f) For each student enrolled in the academy, the academy is entitled to allotments from the foundation school fund under Chapter 48 as if the academy were a school district without a tier one local share for purposes of Section 48.266. If in any academic year the amount of the allotments under this subsection exceeds the amount of state funds paid to the academy in the first fiscal year of the academy's operation, the commissioner of education shall set aside from the total amount of funds to which school districts are entitled under Section 48.266(c) an amount equal to the excess amount and shall distribute that amount to the academy. After deducting the amount set aside and paid to the academy by the commissioner of education under this subsection, the commissioner of education shall reduce the amount to which each district is entitled under Section 48.266(c) in the manner described by Section 48.266(f). A determination of the commissioner of education under this subsection is final and may not be appealed.

(g) The board may use any available money, enter into contracts, and accept grants, including matching grants, federal grants, and grants from a corporation or other private contributor, in establishing and operating the academy. Money spent by the

academy must further the purposes of the academy under Subsection (a).

(h) The liability of this state under Chapters 101 and 104, Civil Practice and Remedies Code, is limited for the academy and employees assigned to the academy and acting on behalf of the academy to the same extent that the liability of a school district and an employee of the school district is limited under Sections 22.0511, 22.0512, and 22.052 of this code and Section 101.051, Civil Practice and Remedies Code. An employee assigned to the academy is entitled to representation by the attorney general in a civil suit based on an action or omission of the employee in the course of the employee's employment, to limits on liability, and to indemnity under Chapters 104 and 108, Civil Practice and Remedies Code.

(i) Except as otherwise provided by this section, the academy is not subject to the provisions of this code or to the rules of the Texas Education Agency regulating public schools.

No bids shall be accepted which offer less than the fair market price per ton for the mineral ore or a royalty of less than one-eighth of the gross production of oil, gas, sulphur, and other minerals in the land bid upon, and this minimum royalty may be increased at the discretion of the board. Every bid shall carry the obligation to pay an amount not less than \$1 per acre for delay in drilling or development. The amount shall be fixed by the board in advance of the advertisement and shall be paid every year for five years unless in the meantime production in paying quantities is had upon the land or the land is re-leased by the lessee.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.56. SUBSEQUENT PROCEDURE IF NO BIDS ACCEPTED. If no bid is accepted by the board at the public auction, any subsequent procedure for the sale of oil, gas, sulphur, mineral ore, and other

mineral leases shall be in the manner prescribed by this subchapter.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.57. WITHDRAWAL OF LAND ADVERTISED. The board may withdraw any lands advertised for lease or for the sale of mineral ore in place.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.58. ACCEPTANCE OF BIDS; AWARD OF LEASE. (a) If in the opinion of the board any one of the bidders has offered a reasonable and proper price for any tract and not less than the price fixed by the board, the lands advertised may be leased for oil, gas, sulphur, mineral ore, and other mineral purposes under the provisions of this subchapter and any regulations the board may prescribe which are not inconsistent with the provisions of this subchapter.

(b) On acceptance of a bid, the board shall prepare a lease contract. The bid and a copy of the lease contract shall be filed in the general land office.

Sec. 85.59. EXPLORATORY TERM; EXTENSION; OTHER PROVISIONS OF LEASE. (a) The exploratory term of the lease as determined by the board prior to the promulgation of the advertisement shall in no case exceed five years, and each lease shall provide that the lease will terminate at the expiration of its exploratory term unless by unanimous vote of members of the board the lease may be extended for a period of three years. The lease may be extended if the board finds that there is likelihood of oil, gas, sulphur, mineral ore, and other minerals being discovered by lessees, and that the lessees have proceeded with diligence to protect the interest of the state. However, if oil, gas, sulphur, mineral ore, and other minerals are being produced in paying quantities from the premises, the lease

shall continue in force and effect as long as the oil, gas, sulphur, mineral ore, and other minerals are being so produced. No extension under this subsection may be made by the board until the last 30 days of the original term of the lease.

(b) When, in the discretion of the board, it is deemed for the best interest of the state to extend a lease issued by the board, the board by unanimous vote may extend the lease for a period not to exceed three years, on the condition that the lessee shall continue to pay yearly rental as provided in the lease and any additional terms the board may see fit and proper to demand. The board may extend the lease and execute an extension agreement.

(c) The lease shall include any additional provisions and regulations the board may prescribe to preserve the interest of the state, not inconsistent with the provisions of this subchapter.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.60. DISCONTINUANCE OF YEARLY PAYMENTS; TERMINATION FOR NONPRODUCTION. When the royalties amount to as much as the yearly payments as fixed by the board, the yearly payments may be discontinued. If before the expiration of five years oil, gas, sulphur, mineral ore, and other minerals have not been produced in paying quantities, the lease shall terminate unless extended as provided by this subchapter.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.61. OPERATIONS UNDER LEASE: EFFECT ON RENTAL PAYMENTS, TERM OF LEASE. If, during the term of any lease issued under the provisions of this subchapter, the lessee is engaged in actual drilling and mining operations for the discovery of oil, gas, sulphur, mineral ore, and other minerals on land covered by any such lease, no rentals shall be payable as to the tract on which the operations are being conducted as long as the operations are proceeding in good faith; and if oil, gas, sulphur, mineral ore, and other minerals are discovered in paying quantities on any tract of land covered by any lease, then the lease as to that tract shall

remain in force as long as oil, gas, sulphur, mineral ore, and other minerals are produced in paying quantities from the tract.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.62. PRORATION OR REDUCTION OF PRODUCTION. When, in the discretion of the board, it is for the best interest of the state to prorate or reduce production of any land, the board may execute the necessary contract to carry out that purpose.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.63. INTERFERENCE WITH SURFACE USES. No lease for oil, gas, sulphur, mineral ore, and other minerals shall be made by the board which will permit the drilling or mining for oil, gas, sulphur, mineral ore, and other minerals within 300 feet of any building on the land without the consent of the board. A lease on any experimental station or farm shall provide that the operations for oil, gas, sulphur, mineral ore, and other minerals shall not in any way interfere with use of the land as an experimental station and shall not cause the abandonment of the property or its use for experimental farm purposes; and the lessee shall drill, mine, and carry on his operations in such a way as not to cause the abandonment of the property for experimental farm purposes, and any such leased property shall be subject to the use by the State of Texas for all experimental purposes and the board shall continue to operate the experimental station.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.64. PROTECTION FROM DRAINAGE. In every case where the area in which oil, gas, sulphur, mineral ore, and other minerals sold shall be contiguous or adjacent to lands which are not lands belonging to and held by the university system, the acceptance of the bid and the sale made thereby shall constitute an obligation on the

owner to adequately protect the land leased from drainage from the adjacent lands to the extent that a reasonably prudent operator would do under the same and similar circumstances. In cases where the area in which the oil, gas, sulphur, mineral ore, and other minerals are sold is contiguous to other lands belonging to and held by the university system which have been leased or sold at a lesser royalty, the owner shall likewise protect the land from drainage from the lands so leased or sold for a lesser royalty. On failure to protect the land from drainage as herein provided, the sale and all rights thereunder may be forfeited by the board in the manner provided in this subchapter for forfeitures.

Acts 1971, 62nd Leg., p. 3199, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.65. RIGHTS OF PURCHASER; ASSIGNMENT; RELINQUISHMENT.

(a) Title to all rights purchased may be held by the owners as long as the area produces oil, gas, sulphur, mineral ore, and other minerals in paying quantities.

(b) All rights purchased may be assigned. All assignments shall be filed in the general land office as prescribed by rule, accompanied by 10 cents per acre for each acre assigned and the filing fee as prescribed by rule. An assignment shall not be effective unless filed as required by rule. An assignment shall not relieve the assignor of any liabilities or obligations incurred prior to the assignment.

(c) All rights to all or any part of a leased tract may be released to the state at any time by recording a release instrument in the county or counties in which the tract is located. Releases must also be filed with the chairman of the board and the general land office, accompanied by the filing fee prescribed by rule. A release shall not relieve the owner of any obligations or liabilities incurred prior to the release.

(d) The board shall authorize the laying of pipeline, telephone line, and the opening of roads as deemed reasonably necessary for and incident to the purpose of this subchapter.

Sec. 85.66. ROYALTY PAYMENTS; INSPECTION OF RECORDS; REPORT OF LAND COMMISSIONER. (a) If oil or other minerals are developed on any of the lands leased by the board, the royalty or money as stipulated in the sale shall be paid to the general land office at Austin on or before the last day of each month for the preceding month during the life of the rights purchased, and shall be set aside as specified in Section 85.70. The royalty or money paid to the general land office shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil, gas, sulphur, mineral ore, and other minerals produced and saved since the last report, the amount of oil, gas, sulphur, mineral ore, and other minerals produced and sold off the premises, and the market value of the oil, gas, sulphur, mineral ore, and other minerals, together with a copy of all daily gauges, or vats, tanks, gas meter readings, pipeline receipts, gas line receipts and other checks and memoranda of the amounts produced and put into pipelines, tanks, vats, or pool and gas lines, gas storage, other places of storage, and other means of transportation.

(b) The books and accounts, receipts and discharges of all wells, tanks, vats, pools, meters, pipelines, and all contracts and other records pertaining to the production, transportation, sale, and marketing of oil, gas, sulphur, mineral ore, and other minerals shall at all times be subject to inspection and examination of any member of the board or any duly authorized representative of the board.

(c) The commissioner of the general land office shall tender to the board on or before the 10th day of each month a report of all receipts that are collected from the lease or sale of oil, gas, sulphur, mineral ore, and other minerals and that are deposited as provided by Section 85.70 during the preceding month.

(d) Each lease shall contain a provision enabling the Board, at its discretion, to require that payment of royalty, as stipulated in the lease, be in kind. The Board shall have all powers necessary to negotiate and execute sales contracts or any other instruments necessary for the disposition of any royalty taken in kind. Such other reasonable provisions, not inconsistent with this subchapter, that will facilitate the efficient and equitable payment of royalty in kind may be included in the lease by the Board.

(a) If the owner of the rights acquired under this subchapter fails or refuses to make the payment of any sum due thereon, either as rental, royalty on production, or other payment, within 30 days after same becomes due, or if the owner or his authorized agent makes any false return or false report concerning production, royalty, drilling, or mining, or if the owner fails or refuses to drill any offset well or wells in good faith, as required by his lease, or if the owner or his agent refuses the proper authority access to the records and other data pertaining to the operations under this subchapter, or if the owner or his authorized agent fails or refuses to give correct information to the proper authorities, or fails or refuses to furnish the log of any well within 30 days after production is found in paying quantities, or if any of the material terms of the lease are violated, the lease is subject to forfeiture by the board by an order entered upon the minutes of the board reciting the facts constituting the default and declaring the forfeiture.

(b) The board may have suit instituted for forfeiture through the attorney general.

(c) On proper showing by the forfeiting owner, within 30 days after the declaration of forfeiture, the lease may, at the discretion of the board and on such terms as it may prescribe, be reinstated.

(d) In case of violation by the owner of the lease contract, the remedy of the state by forfeiture is not the exclusive remedy, but suit for damages or specific performance, or both, may be instituted.

(e) The state shall have a first lien upon all oil, gas, sulphur, mineral ore, and other minerals produced upon the leased area and upon all rigs, tanks, vats, pipeline, telephone lines, and machinery and appliances used in the production and handling of oil, gas, sulphur, mineral ore, and other minerals produced thereon, to

secure any amount due from the owner of the lease.

(1) to provide academically gifted and highly motivated junior and senior high school students with a challenging university-level curriculum that:

(A) allows students to complete high school graduation requirements for the foundation high school program and the distinguished level of achievement under the foundation high school program and earn appropriate endorsements as provided by Section 28.025, while attending for academic credit a public institution of higher education;

(B) fosters students' knowledge of real-world international issues and problems and teaches students to apply critical thinking and problem-solving skills to those issues and problems;

(C) includes the study of English, foreign languages, social studies, anthropology, and sociology;

(D) is presented through an interdisciplinary approach that introduces and develops issues, especially issues related to international concerns, throughout the curriculum; and

(E) offers students learning opportunities related to international issues through in-depth research and field-based studies;

(2) to provide students with an awareness of international career and professional development opportunities through seminars,

workshops, collaboration with postsecondary students from other countries, summer academic international studies internships in foreign countries, and similar methods; and

(3) to provide students with social development activities that enrich the academic curriculum and student life, including, as determined appropriate by the academy, University Interscholastic League activities and other extracurricular activities generally offered by public high schools.

(c) The academy is a residential, coeducational institution for selected Texas high school students with an interest and the potential to excel in international studies. The academy shall admit only high school juniors and seniors, except that the academy may admit a student with exceptional abilities who is not yet a high school junior. The board shall set aside adequate space on the university campus in Laredo to operate the academy and implement the purposes of this section. The academy must operate on the same fall and spring semester basis as the university. Full-time students of the academy must enroll for both the fall and spring semesters. Faculty members of the university shall teach all academic classes at the academy. A student of the academy may attend a college course offered by the university and receive college credit for that course.

(d) Except as otherwise provided by this subsection, the university administration has the same powers and duties with respect to the academy that the administration has with respect to the university. The board shall consult with the dean of the College of Education and other members of the administration as the board considers necessary concerning the academy's administrative design and support, personnel and student issues, and faculty development. The board shall consult with the dean of the College of Arts and Sciences and other members of the administration as the board considers necessary concerning the academy's curriculum development, program design, and general faculty issues. The board, in consultation with university administration, shall:

(1) establish an internal management system for the academy and appoint an academy principal who serves at the will of the board and reports to the university provost;

(2) provide for one or more academy counselors;

(3) establish for the academy a site-based decision-making process similar to the process required by Subchapter F, Chapter 11, that provides for the participation of academy faculty, parents of

academy students, and other members of the community; and

(4) establish an admissions process for the academy.

(e) The student-teacher ratio in all regular academic classes at the academy may not exceed 30 students for each classroom teacher, except that the student-teacher ratio may exceed that limit:

(1) in a program provided for the purposes prescribed by Subsection (b)(2) or another special enrichment course or in a physical education course; or

(2) if the board determines that a class with a higher student-teacher ratio would contribute to the educational development of the students in the class.

(f) The academy shall provide the university-level curriculum in a manner that is appropriate for the social, psychological, emotional, and physical development of high school juniors and seniors. The administrative and counseling personnel of the academy shall provide continuous support to and supervision of students.

(g) For each student enrolled in the academy, the academy is entitled to allotments from the foundation school fund under Chapter 48 as if the academy were a school district without a tier one local share for purposes of Section 48.266. If in any academic year the amount of the allotments under this subsection exceeds the amount of state funds paid to the academy in the first fiscal year of the academy's operation, the commissioner of education shall set aside from the total amount of funds to which school districts are entitled under Section 48.266(c) an amount equal to the excess amount and shall distribute that amount to the academy. After deducting the amount set aside and paid to the academy by the commissioner of education under this subsection, the commissioner of education shall reduce the amount to which each district is entitled under Section 48.266(c) in the manner described by Section 48.266(f). A determination of the commissioner of education under this subsection is final and may not be appealed.

(h) The board may use any available money, enter into contracts, and accept grants, including matching grants, federal grants, and grants from a corporation or other private contributor, in establishing and operating the academy. Money spent by the academy must further the purposes of the academy prescribed by Subsection (b).

(i) The liability of the state under Chapters 101 and 104, Civil Practice and Remedies Code, is limited for the academy and

employees assigned to the academy and acting on behalf of the academy to the same extent that the liability of a school district and an employee of the school district is limited under Sections 22.0511, 22.0512, and 22.052 of this code and Section 101.051, Civil Practice and Remedies Code. An employee assigned to the academy is entitled to representation by the attorney general in a civil suit based on an action or omission of the employee in the course of the employee's employment, limits on liability, and indemnity under Chapters 104 and 108, Civil Practice and Remedies Code.

(j) Except as otherwise provided by this section, the academy is not subject to the provisions of this code, or to the rules of the Texas Education Agency, regulating public schools.

Sec. 88.116. TEXT OF COMPACT. The South Central Interstate Forest Fire Protection Compact reads as follows:

SOUTH CENTRAL INTERSTATE FOREST FIRE PROTECTION COMPACT

ARTICLE I.

The purpose of this compact is to promote effective prevention and control of forest fires in the South Central region of the United States by the development of integrated forest fire plans, by the maintenance of adequate forest fire fighting services by the member States, by providing for mutual aid in fighting forest fires among the compacting States of the region and with States which are party to other Regional Forest Fire Protection compacts or agreements, and for more adequate forest development.

ARTICLE II.

This compact shall become operative immediately as to those States ratifying it whenever any two or more of the States of Arkansas, Louisiana, Mississippi, Oklahoma, and Texas which are contiguous have ratified it and Congress has given consent thereto. Any State not mentioned in this article which is contiguous with any member State may become a party to this compact, subject to approval by the legislature of each of the member States.

ARTICLE III.

In each State, the State Forester or officer holding the equivalent position who is responsible for forest fire control shall act as compact administrator for that State and shall consult with like officials of the other member States and shall implement cooperation between such States in forest fire prevention and control.

The compact administrators of the member States shall organize to coordinate the services of the member States and provide administrative integration in carrying out the purposes of this compact.

There shall be established an advisory committee of legislators, representatives of the Board of Directors of the Texas Agricultural

and Mechanical College System, and forestry or forest products industries representatives, which shall meet from time to time with the compact administrators. Each member State shall name one member of the Senate and one member of the House of Representatives, and the Governor of each member State shall appoint one representative who shall be associated with forestry or forest products industries, and a member of the Board of Directors of the Texas Agricultural and Mechanical College System, to comprise the membership of the advisory committee. Action shall be taken by a majority of the compacting States, and each State shall be entitled to one vote.

The compact administrators shall formulate and, in accordance with need, from time to time, revise a regional forest fire plan for the member States.

It shall be the duty of each member State to formulate and put in effect a forest fire plan for that State and take such measures as may be necessary to integrate such forest fire plan with the regional forest fire plan formulated by the compact administrators.

#### ARTICLE IV.

Whenever the State forest fire control agency of a member State requests aid from the State forest fire control agency of any other member State in combating, controlling or preventing forest fires, it shall be the duty of the State forest fire control agency of that State to render all possible aid to the requesting agency which is consonant with the maintenance of protection at home.

#### ARTICLE V.

Whenever the forces of any member State are rendering outside aid pursuant to the request of another member State under this compact, the employees of such State shall, under the direction of the officers of the State to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the State to which they are rendering aid.

No member State or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith; provided, that nothing herein shall be construed as relieving any person from liability for his own negligent act or omission, or as imposing liability for such negligent act or omission upon any State.

All liability, except as otherwise provided herein, that may arise either under the laws of the requesting State or under the laws of the aiding State or under the laws of a third State on account of or in connection with a request for aid, shall be assumed and borne by the requesting State.

Any member State rendering outside aid pursuant to this compact shall be reimbursed by the member State receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries and maintenance of employees and equipment incurred in connection with such request; provided, that nothing herein contained shall prevent any assisting member State from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such service to the receiving member State without charge or cost.

Each member State shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such State.

For the purposes of this compact the term "employee" shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding State under the laws thereof.

The compact administrators shall formulate procedures for claims and reimbursement under the provisions of this article, in accordance with the laws of the member States.

#### ARTICLE VI.

Ratification of this compact shall not be construed to affect any existing statute so as to authorize or permit curtailment or diminution of the forest fire fighting forces, equipment, services or facilities of any member State.

Nothing in this compact shall be construed to limit or restrict the powers of any State ratifying the same to provide for the prevention, control and extinguishment of forest fires, or to prohibit the enactment or enforcement of State laws, rules or regulations intended to aid in such prevention, control and extinguishment in such State.

Nothing in this compact shall be construed to affect any existing or future cooperative relationship or arrangement between

the United States Forest Service and a member State or States.

#### ARTICLE VII.

The compact administrators may request the United States Forest Service to act as the primary research and coordinating agency of the South Central Interstate Forest Fire Protection Compact in cooperation with the appropriate agencies in each State, and the United States Forest Service may accept the initial responsibility in preparing and presenting to the compact administrators its recommendations with respect to the regional fire plan. Representatives of the United States Forest Service may attend meetings of the compact administrators.

#### ARTICLE VIII.

The provisions of Articles IV and V of this compact which relate to mutual aid in combating, controlling or preventing forest fires shall be operative as between any State party to this compact and any other State which is party to a regional forest fire protection compact in another region; provided, that the Legislature of such other State shall have given its assent to such mutual aid provisions of this compact.

#### ARTICLE IX.

This compact shall continue in force and remain binding on each State ratifying it until the legislature or the Governor of such State takes action to withdraw therefrom. Such action shall not be effective until six months after notice thereof has been sent by the chief executive of the State desiring to withdraw to the chief executives of all States then parties to the compact.

(4) for a public junior college established on or after September 1, 1986, levies and collects ad valorem taxes as provided by law for the operation and maintenance of the college; and

(5) has complied with all laws and coordinating board rules for the establishment and operation of a public junior college.

(c) All funds allocated under the provisions of this code, with the exception of those necessary for paying the costs of audits as provided, shall be used exclusively for the purpose of paying salaries of the instructional and administrative forces of the several institutions and the purchase of supplies and materials for instructional purposes.

(a) In consultation with the advisory committee established under Section 130.001(b)(5), the Texas Higher Education Coordinating Board by rule shall adopt a payment schedule by which money appropriated to junior college districts under this chapter and Chapter 130A is distributed to those districts.

(b) The Texas Higher Education Coordinating Board may modify the amount of any installment required under the payment schedule adopted under Subsection (a) to, in accordance with this chapter, Chapter 130A, the General Appropriations Act, or coordinating board rule:

(1) provide the junior college district with the proper amount to which the junior college district may be entitled by law; and

(2) correct errors in the allocation or distribution of funds.

(c) If the amount of an installment under the payment schedule adopted under Subsection (a) is required to be equal to the amount of another installment, the amount of the other installment may be adjusted to provide for that equality. A payment under this section is not invalid because it is not equal to other installments.

Sec. 130.00311. METHODS OF INCLUSION OR PARTICIPATION IN JUNIOR COLLEGE DISTRICT. (a) The following are methods that may be used to be included in or to participate in a junior college district:

(1) the registered voters of territory that is not located in a junior college district may petition to join an existing junior college district or to establish a new junior college district under the other provisions of this chapter; or

(2) a junior college district may enter into an agreement with an entity or community under Section 130.0081 to provide services to the entity or community.

(b) If a political subdivision or part of a political subdivision is not located in a junior college district or has not entered into an agreement under Section 130.0081, a person who resides in that territory and who is a student of a junior college district shall be charged tuition and fees at the rate established under Section 130.0032(d).

Sec. 130.0032. TUITION FOR STUDENTS RESIDING OUTSIDE OF DISTRICT. (a) The governing board of a public junior college district may allow a person who resides outside the district and who owns property subject to ad valorem taxation by the district, or a dependent of the person, to pay tuition at the rate applicable to a student who resides in the district.

(b) The governing board of a public junior college district may allow a person who resides outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district.

(b-1) The governing board of a public junior college district that includes at least six campuses shall allow a person who resides

outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district for enrollment at a campus located within an area in which the person resides that, as of January 1, 2013, is designated as a super neighborhood by a municipality with a population greater than two million.

(c) The governing board of a public junior college district may allow a person who resides outside the district to pay tuition and fees at a rate less than the rate applicable to other persons residing outside the district, but not less than the rate applicable to a student who resides in the district, if the person:

- (1) resides within the service area of the district;
- (2) does not reside in an independent school district that meets the criteria of the coordinating board for the establishment of a junior college district under Section 130.013; and
- (3) demonstrates financial need in accordance with rules adopted by the Texas Higher Education Coordinating Board.

(d) The governing board of a junior college district shall establish the rate of tuition and fees charged to a student who resides outside the district by considering factors such as:

- (1) the sufficiency of the rate to promote taxpayer equity by encouraging areas benefiting from the educational services of the district to participate in financing the education of students from that area;
- (2) the extent to which the rate will ensure that the cost to the district of providing educational services to a student who resides outside the district is not financed disproportionately by the taxpayers residing within the district; and
- (3) the rate that would generate tuition and fees equal to the total amount of tuition and fees charged to a similarly situated student who resides in the district plus an amount per credit hour determined by dividing the total amount of ad valorem taxes imposed by the district in the tax year preceding the year in which the academic year begins by the total number of credit hours for which the students who were residents of the district enrolled in the district in the preceding academic year.

Sec. 130.0033. PILOT PROJECT: REDUCED TUITION FOR CERTAIN COURSES. (a) The Texas Higher Education Coordinating Board shall establish a pilot project to measure the impact of reducing tuition for junior college courses offered at times of low enrollment demand in order to promote greater access to higher education and more efficient use of junior college facilities and resources. The coordinating board shall select a reasonable number of public junior colleges to participate in the pilot project.

(b) The governing board of a public junior college selected to participate in the pilot project may charge tuition for a course or courses at a rate established by the governing board that is less than the rate otherwise required by Section 54.051 or other law if the governing board finds that the reduced tuition rate is reasonably necessary to enable the junior college to make efficient use of its facilities or faculty. The finding must be stated in the order or resolution establishing the reduced tuition rate.

(c) Charging tuition at a reduced rate under this section does not affect the right of the public junior college to an allocation of state appropriations under this chapter and Chapter 130A for the contact hours attributable to students paying tuition at the reduced rate.

Sec. 130.0034. TUITION FOR REPEATED COURSES. (a) The

governing board of a junior college district may charge a student a higher rate of tuition than the tuition that would otherwise be charged for a course in which the student enrolls if:

(1) the student has previously enrolled in the same course or a course of substantially the same content and level two or more times; and

(2) the student's enrollment in the course is not included in the contact hours used to determine the junior college's allocation of state appropriations under this chapter and Chapter 130A.

(b) This section does not apply to a non-degree-credit developmental course.

(c) The total amount of tuition charged to the student under this section for the repeated course may not exceed the full cost of instruction for the course with respect to the student.

Sec. 130.0035. PERFORMANCE REPORTS. (a) As soon as practicable after the end of each academic year, a junior college district shall prepare an annual performance report for that academic year. The report shall be prepared in a form that would enable any interested person, including a prospective student, to understand the information in the report and to compare the information to similar information for other junior college districts. A junior college district shall make the report available to any person on request.

(b) The report must include the following information for the junior college district for the academic year covered by the report:

(1) the rate at which students completed courses attempted;  
 (2) the number and types of degrees and certificates awarded;

(3) the percentage of graduates who passed licensing exams related to the degree or certificate awarded, to the extent the information can be determined;

(4) the number of students or graduates who transfer to or

(5) the passing rates for students required to be tested under Section 51.306;

(6) the percentage of students enrolled who are academically disadvantaged;

(7) the percentage of students enrolled who are economically disadvantaged;

(8) the racial and ethnic composition of the district's student body; and

(9) the percentage of student contact hours taught by full-time faculty.

(c) The Legislative Budget Board shall be responsible for recommending standards for reports under this section, in consultation with junior college districts, the Texas Higher Education Coordinating Board, and the governor's office of budget and planning.

(6) students enrolled in developmental education courses by course level; and

(7) enrollment in other categories as specified by the coordinating board.

(b) In administering this section, the coordinating board shall attempt to avoid duplicating other reporting requirements applicable to junior college districts. The coordinating board shall consult with the governing boards of the state's junior college districts in determining the form, manner, and times of reports under this section.

districts, are hereby validated in all respects as though they had been duly and legally established in the first instance. Without in any way limiting the generalization of the provisions above,

(1) all additions of territory to or detachments of territory from such junior college districts are hereby in all things validated, whether the same were accomplished or attempted to be accomplished by action of the county school boards, or by action of the county judge, or by action of the commissioners court, or by action of state educational officers or agencies, or by vote of the people residing in such territory, or by a combination of any two or more of the same;

(e) The establishment of any new public junior college campus within an existing junior college district or the establishment of any new junior college district shall be approved by the Legislative Budget Board if the establishment occurs during a time when the legislature is not in session. The legislature shall approve the establishment of any new public junior college campus within an

existing junior college district or the establishment of any new junior college district if proposed during or within three months prior to a legislative session.

(b) The board of trustees of any junior college district may by resolution duly adopted change the name of such district by substituting the word "community" for the word "junior" in such name. A copy of such resolution duly certified by the secretary of the board of trustees shall be filed with the Coordinating Board, Texas College and University System. Such change in name shall become effective upon the filing of such resolution with the said coordinating board. (a) The board of trustees of a junior college district by resolution may change the name of the district or a college within the district, unless the change would cause the district or college to have the same or substantially the same name as an existing district, college, or other public or private institution of higher education in this state.

(b) The board of trustees shall file with the Texas Higher Education Coordinating Board a copy of a resolution adopted under

Subsection (a) that is certified by the secretary of the board of trustees. The name change is effective on the date the resolution is filed with the coordinating board. (b) The contract must be approved by resolution of the governing boards of the community college district and the school district.

(c) For purposes of state funding, a course held in the school district facilities is considered to be a course held in the community college district if the course:

(1) has been approved by a regional higher education council recognized by rule of the coordinating board and in which the district has been designated a member by the coordinating board; and

(2) is approved by the coordinating board as an out-of-district course for the community college district.

(d) Any statutory or regulatory requirement of local support of a community college program is satisfied by the school district providing its facilities without charge to the community college if the total community college enrollment in the school district does not exceed 1,000 full-time students, or the equivalent.

(e) Either party may terminate a contract under this section by giving the other party at least one year's written notice.

(a) Under an agreement with a school district or, in the case of a private high school, with the organization or other person that operates the high school, a public junior college may offer a course in which a student attending a high school operated in this state by the school district, organization, or other person may enroll and for which the student may simultaneously receive both:

(1) course credit toward the student's high school academic requirements; and

(2) course credit as a student of the junior college, if the student has been admitted to the junior college or becomes eligible to enroll in and is subsequently admitted to the junior college.

(a-3) The Texas Higher Education Coordinating Board, in coordination with the Texas Education Agency, shall adopt rules to implement Subsections (a-1) and (a-2). In adopting those rules, the coordinating board shall use the negotiated rulemaking procedures under Chapter 2008, Government Code, and consult with relevant stakeholders.

(b) The junior college may waive all or part of the tuition and fees for a high school student enrolled in a course for which the student may receive joint credit under this section.

(c) The contact hours attributable to the enrollment of a high school student in a course offered for joint high school and junior college credit under this section, excluding a course for which the student attending high school may receive course credit toward the physical education curriculum requirement under Section 28.002(a)(2)(C), shall be included in the contact hours used to determine the junior college's allocation of the state money appropriated and distributed to public junior colleges under this chapter and Chapter 130A, even if the junior college waives all or part of the tuition or fees for the student under Subsection (b).

(d) A public junior college may enter into an agreement with a school district, organization, or other person that operates a high school to offer a course as provided by this section regardless of whether the high school is located within the service area of the junior college district.

(a) On a petition signed by 10 percent of the qualified electors of the independent school district or city school district, the board of trustees within 30 days shall call an election after the petition has been duly presented on the proposition of whether the school board of trustees shall be divested of its authority as governing board of such junior college district.

(b) At the election called under Subsection (a) of this section, the board of trustees shall also include a separate proposition on whether the junior college district may levy ad valorem taxes.

(c) The board of trustees shall, within 30 days after the official canvass of the election, appoint for the junior college district a separate board of trustees as provided by this code to serve as the governing board of the junior college district if the majority of the votes in the election under this section are cast in favor of both propositions. If a majority of the votes in the election are cast against either proposition, the board may not divest its authority as the governing board of the junior college district unless both propositions are approved at a subsequent election. A subsequent election on the propositions may not be held before the first anniversary of the election date.

(d) The separate governing board of the junior college district may levy and collect taxes in accordance with Subchapter G of this chapter at the approved rate without an additional election.

Sec. 130.036. ORDER TO ESTABLISH. It shall be the duty of the coordinating board, with the advice of the commissioner of higher education to determine whether or not the conditions set forth in the preceding sections of this chapter have been complied with, and also whether, considering the geographic location of colleges already established, it is feasible and desirable to establish a junior college district. In the exercise of this authority the board shall develop and publish criteria to be used as a basis for determining the need for a public junior college in the proposed district. The board shall determine whether programs in a proposed institution would create unnecessary duplication or seriously harm programs in existing community college districts. It shall be the duty of the coordinating board in making its decision to consider the needs and the welfare of the state as a whole, as well as the welfare of the

community involved. The decision of the coordinating board shall be transmitted through the commissioner of higher education to the county school board or boards or the commissioners court or courts, as the case may be, along with the order of the coordinating board authorizing further procedure in the establishment of the junior college district.

The order shall contain a description of the metes and bounds of the junior college district to be formed and fix the date of the election.

A majority of the electors voting in such election shall determine such questions submitted in the order. In the case of a joint-county junior college district, or a union junior college district, the election shall, by mutual agreement of the court or courts, be held on the same day throughout the proposed district.

(g) The board of trustees of a district with a population greater than one million may require that an application filed under Subsection (d) be accompanied by a filing fee not to exceed \$200 as determined by the board or, instead of the filing fee, a petition signed by a number of registered voters of the district not to exceed 200 as determined by the board.

(1) the junior college district was created with the same boundary lines as an independent school district;

(2) the boundaries of the independent school district are extended by consolidation, attachment of territory, or otherwise; and

(3) the board of trustees of the independent school district is also the governing board of the junior college.

Sec. 130.062. ENLARGED DISTRICT: CREATION; RESOLUTION; ORDER. (a) If the creation of the junior college district and the extension of the boundaries of the independent school district both occurred prior to March 17, 1950, the added territory of the independent school district may be brought into the junior college district in the manner prescribed by this section.

(b) A petition requesting that such territory be added to the junior college district signed by a majority of the registered voters of the territory may be presented to the governing board of the junior college district.

(c) The board shall determine whether the petition is signed by the required majority and if such determination is affirmative and if the board shall also determine that the facilities of the junior college district may be extended to cover adequately the scholastics

of the added territory, the board shall pass an order admitting such territory. The order shall describe by metes and bounds the junior college district as extended; and a copy of the order shall be filed with the county superintendent. or

(2) is located in the service area of the annexing district established under Subchapter J.

(b) Territory may be annexed to a junior college district as provided by this section only if the territory is located wholly within a single school district, county, or municipality. (c) A junior college district may not annex territory under this section that is included in the boundaries of another junior college district.

(d) Except as provided by Subsection (e), a junior college district may not annex territory under this section if a campus of the Texas State Technical College System is located:

The petition shall contain a legally sufficient description of the territory proposed for annexation. The governing board of the junior college district, if it deems the annexation to be in the best interest of the district, may effect the annexation by:

(1) entering its order authorizing the annexation of the territory by contract; and

(2) then entering into a written agreement duly executed and acknowledged by all persons, corporations, and entities owning property within the territory.

Acts 1969, 61st Leg., p. 3002, ch. 889, Sec. 1. Renumbered from Education Code Sec. 51.064 by Acts 1971, 62nd Leg., p. 3290, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 130.065. ANNEXATION BY ELECTION. (a) On presentation to the governing board of a junior college district of a petition proposing the annexation of territory to the district, the governing board may call an election on the question of annexing the territory. The petition must:

(1) contain an accurate description of the territory proposed for annexation; and

(2) be signed by a number of registered voters in the territory proposed to be annexed equal to at least five percent of

the registered voters in that territory as of the most recent general election for state and county officers.

(b) Before the governing board of the junior college district may order an annexation election, the board must hold a public hearing within the territory proposed for annexation. The hearing must be held not earlier than the 45th day and not later than the 30th day before the date the board issues the order for the election.

(c) Not later than the 30th day before the date of a public hearing held under Subsection (b), the board shall complete and publish a service plan for the territory proposed for annexation. The service plan is informational only and must include:

- (1) the maximum property tax rate that the board may adopt;
  - (2) the most recent property tax rate adopted by the board and any tax rate increase proposed or anticipated to occur after the annexation;
  - (3) the tuition rate that would apply after annexation for a student who resides in the district;
  - (4) the tuition and fees that would apply under Section 130.0032(d) for a student who resides outside the district;
  - (5) plans for providing educational services in the territory, including proposed or contemplated campus and facility expansion in the territory;
  - (6) plans for cooperation with local workforce agencies;
- and
- (7) any other elements consistent with this subchapter prescribed by rule of the Texas Higher Education Coordinating Board.

(d) The governing board shall issue an order for an election to be held in the territory proposed for annexation on a uniform election date that is not less than 45 days after the date of the order and that affords enough time to hold the election in the manner provided by law. The board shall give notice of the election in the manner provided by law for notice by the county judge of a general election.

(e) The governing board shall conduct the election in accordance with the Election Code.

(f) The election shall be held only in the territory proposed for annexation, and only those registered voters residing in that territory are permitted to vote.

(g) The ballot shall be printed to provide for voting for or against the proposition: "Approving the annexation by the \_\_\_\_\_"

(name of junior college district) of the following territory:  
 \_\_\_\_\_ (with the blank filled in with a description of the territory proposed for annexation), and authorizing the imposition of an ad valorem tax for junior college purposes, which is currently set at a rate of \_\_\_\_\_ (with the blank filled in with the ad valorem tax rate of the district for the current year or, if that rate has not been adopted, the tax rate for the preceding year) per \$100 valuation of taxable property."

(h) The measure is adopted if the measure receives a favorable vote of a majority of those voters voting on the measure.

(i) If the measure is adopted, the governing board of the district shall enter an order declaring the result of the election and that the territory is annexed to the junior college district on the date specified in the order.

(j) If the proposition is adopted and the governing board is elected from single-member districts, the governing board in the annexation order entered under Subsection (i) shall assign the new territory to one or more of the current single-member districts.

(k) The annexation of territory and any resulting change in the single-member districts from which members of the governing board are elected does not affect the term of a member of the governing board serving on the date the annexation or redistricting takes effect. The governing board shall provide that each member of the governing board representing a single-member district who is holding office on the date the annexation takes effect serve the remainder of the member's term and represent a single-member district in the expanded junior college district for that term regardless of whether the member resides in that single-member district.

(l) If the measure is not adopted at the election, another election to annex all or part of the same territory may not be held earlier than one year after the date of the election at which the measure is not adopted.

(d) On presentation of a petition, signed by a number of registered voters residing in the part of a county-line school district requesting annexation equal to at least a majority of the registered voters residing in that territory as of the most recent general election for state and county officers to the county judge of the county in which the territory requested to be annexed is located, together with a certified copy of an order by the governing board of the junior college district approving the proposed annexation to the junior college district for junior college purposes only, the county judge shall certify the filing of the petition and order to the commissioners court. The court at its next meeting shall pass an order declaring the territory annexed to the junior college district.

(a) The governing board of a junior college district may order an election on the question of establishing expanded boundaries for the junior college district to encompass all of the territory located within the district's service area established by Subchapter J, other than territory located in the service area of another junior college district, if more than 35 percent of the total number of students who enrolled in the junior college district in the most recent academic year resided outside of the existing junior college district.

(b) The governing board of a junior college district may order an election on the question of establishing expanded boundaries for the junior college district to encompass part of the territory

located within the district's service area established by Subchapter J, other than territory located in the service area of another junior college district, if more than 15 percent of the high school graduates for each of the preceding five academic years in the territory proposed to be added to the district have enrolled in the junior college district.

Sec. 130.070. DISANNEXATION OF TERRITORY COMPRISING AN

INDEPENDENT SCHOOL DISTRICT. (a) The territory of an independent school district which is the only school district that has been annexed to a countywide independent school district junior college district in an adjoining county may be disannexed from such countywide independent school district junior college district and constituted as a separate independent school district junior college district in accordance with the provisions of this section, provided that the countywide independent school district junior college district has no outstanding bonded indebtedness which was incurred after the annexation of such independent school district.

(b) The proposed disannexation and creation of a separate junior college district shall be initiated by a petition signed by not less than five percent (5%) of the registered voters of the independent school district seeking disannexation. The petition shall be presented to the board of trustees of the independent school district seeking to be disannexed, which shall pass upon the legality and genuineness of the petition and forward the petition, if approved, to the coordinating board.

(c) If the petition is found to be in order and all statutory provisions have been complied with, the coordinating board shall approve the petition and notify the board of trustees of the independent school district seeking to be disannexed, of such approval. The board of trustees of the independent school district seeking disannexation shall then order an election to be held in the school district within a time not less than twenty (20) days nor more than thirty (30) days after the order is issued. At the election the ballots shall be printed to provide for voting for or against the proposition: "Disannexation of the \_\_\_\_\_ Independent School from the \_\_\_\_\_ Junior College District, and creation of the \_\_\_\_\_ Junior College District with boundaries coterminous with the boundaries of the \_\_\_\_\_ Independent School District" (the blanks to be filled in as appropriate). All expenses incurred in holding the election shall be paid by the independent school district ordering such election.

(d) The board of trustees shall make a canvass of the returns and declare the result of the election within ten (10) days after holding the election and shall enter an order on the minutes of the board as to the result of the election. If a majority of the votes cast are in favor of disannexation and creation of a separate junior college district, such independent school district shall be deemed

disannexed and constituted as a separate junior college district.

(e) If the creation of the separate junior college district is approved, it shall be governed by the provisions of this code relating to independent school district junior colleges. The offices of the representatives of the disannexed independent school district on the governing body of the countywide independent school district junior college district shall be terminated, and the remaining members of that governing body shall continue to serve for the terms for which they were elected.

(f) Any petition for disannexation and creation of a separate junior college district may also incorporate a request for the proper authorities, in the event an election is ordered for the creation of a new district, to submit at the same election, either as a part of the disannexation issue or as a separate issue, the questions of issuing bonds and levying bond taxes and levying maintenance taxes, in the event the district is created, not to exceed the limits provided in Section 130.122 of this code.

Sec. 130.081. GOVERNING BOARD OF JUNIOR COLLEGE OF INDEPENDENT SCHOOL DISTRICT. In each junior college district which is controlled and managed by, and under the jurisdiction of, the governing board of an independent school district or a city school district, such governing board shall be constituted and chosen in accordance with the laws of this state applicable to the governing board of such independent school district or city school district.

Acts 1969, 61st Leg., p. 3004, ch. 889, Sec. 1. Renumbered from Education Code Sec. 51.071 by Acts 1971, 62nd Leg., p. 3293, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 130.082. GOVERNING BOARD OF JUNIOR COLLEGE OF OTHER THAN INDEPENDENT SCHOOL DISTRICT. (a) Except as provided by Section 130.081 or another section of this subchapter, the governing boards of all junior college districts shall be constituted and chosen as

described in the provisions of this section.

(b) The official name of the governing board of the junior college district shall be the board of trustees.

(c) The official name of a junior college district shall be the "\_\_\_\_\_ Junior College District" unless the board of trustees of the district elects to call the district a community college district, in which event the official name of the junior college district shall be the "\_\_\_\_\_ Community College District." The board shall designate an appropriate and locally pertinent descriptive word or words to be filled in the appropriate blank (and may change such designation when deemed advisable) by resolution or order; provided that no two districts shall have the same or substantially similar names. A district may change its name under Section 130.005 or 130.0051. All resolutions or orders designating or changing names shall be filed immediately with the Texas Higher Education Coordinating Board and the first name filed shall have priority, and the district shall be advised of any previous filing of any identical or substantially similar name. The name of any junior college district existing on September 1, 1997, shall remain the same until and unless it is changed under this chapter, and any change in the name of a junior college district made before that date is validated and is deemed to have been properly made. Another district may not use the name of any district whose name change is validated under this subsection.

(d) The number of members or trustees of the governing board shall be either seven or nine, in accordance with the laws applicable to the junior college district on the effective date of this code or on the date of the creation of a new district or a new board. Any seven-member board may be increased to nine, and the two additional members shall be appointed by resolution or order of the board for terms of office as prescribed in Subsection (e) of this section. Any vacancy occurring on the board through death, resignation, or otherwise, shall be filled by a special election ordered by the board or by appointment by resolution or order of the board. A person appointed to fill a vacancy in a trustee district must be a resident of that trustee district. A person appointed to fill a vacancy in the representation of the district at large must be a resident of the district at large. A special election to fill a board vacancy is conducted in the same manner as the district's general election except as provided by the applicable provisions of the Election Code.

The person appointed to fill the unexpired term shall serve until the next regular election of members to the board, at which time the position shall be filled by election for a term appropriately shortened to conform with what regularly would have been the length of the term for that position. Each member of the board shall be a resident, qualified voter of the district and shall take the proper oath of office before taking up the duties thereof. Members of a board shall not receive any remuneration or emolument of office, but they shall be entitled to reimbursement for their actual expenses incurred in performing their duties, to the extent authorized and permitted by the board. The board shall elect one of its members as president of the board, and the president shall preside at meetings of said board and perform such other duties and functions as are prescribed by the board. The president of the board shall have a vote the same as the other members. The board shall elect a secretary of the board who may or may not be a member of the board, and who shall be the official custodian of the minutes, books, records, and seal of said board, and who shall perform such other duties and functions as are prescribed by the board. The board shall be authorized to elect any other officers as deemed necessary or advisable. Officers of the board shall be elected at the first regular meeting of the board following the regular election of members of the board in even-numbered years, or at any time thereafter in order to fill a vacancy. Said board shall be authorized to appoint or employ such agents, employees, and officials as deemed necessary or advisable to carry out any power, duty, or function of said board; and to employ a president, dean, or other administrative officer, and upon the president's recommendation to employ faculty and other employees of the junior college. Said board shall act and proceed by and through resolutions or orders adopted or passed by the board and the affirmative vote of a majority of all members of the board shall be required to adopt or pass a resolution or order, and the board shall adopt such rules, regulations, and bylaws as it deems advisable, not inconsistent with this section.

(e) The basic term of office of a member of the board shall be six years, and one-third of the members of the board shall be elected at large in the district at regular elections to be held on the first Saturday in April in each even-numbered year; provided that with a seven-member board two members shall be elected in two consecutive even-numbered years and three members shall be elected in the

following even-numbered year. The members of each board in office at the effective date of this act, and all subsequent members of the board, shall remain in office until the expiration of the terms for which they were elected or appointed, and until their successors shall have been elected and qualified; provided that where any existing board has held its regular elections for members of the board in odd-numbered years prior to the effective date of this act, the board shall nevertheless hold its next regular election on the first Saturday in April of the next even-numbered year following the effective date of this act, and the term of office of each incumbent member of the board shall, in effect, be lengthened by one year so as to comply with the foregoing provisions of this act. Upon the creation of a new board, or in any other situation where necessary, the members of the board shall choose by lot the terms for which they shall serve, so as to comply with the foregoing provisions. If a board is increased from seven to nine members, one of the members shall be appointed to serve until the first election at which two members otherwise would have been elected, and the other shall be appointed to serve until the second election at which two members otherwise would have been elected, and three members shall be elected for six-year terms at each election.

(f) Members of a board shall be elected at large from each junior college district at regular elections to be called and held by the board for such purpose, at the expense of the district, on the first Saturday in April in each even-numbered year. Said elections shall be held in accordance with the Texas Election Code except as hereinafter provided, and all resident, qualified electors of the district shall be permitted to vote. Each such election shall be called by resolution or order of the board, and notice of each such election shall be given by publishing an appropriate notice, in a newspaper of general circulation in the district, at least 10 days prior to the date of the election, setting forth the date of the election, the polling place or places, the numbers of the positions to be filled, the candidates for each position and any other matters deemed necessary or advisable.

(g) The board shall designate a number for the position held by each member of the board, from one upward in consecutive numerical order in such manner that the lowest numbers shall be assigned to the members whose terms of office expire in the shortest length of time, provided that any such position number designations on existing

boards under existing law at the effective date of this act shall remain in effect. At each election candidates shall be voted upon and be elected separately for each position on the board, and the name of each candidate shall be placed on the official ballot according to the number of the position for which he or she is running. A candidate receiving a majority of the votes cast for all candidates for a position shall be declared elected. If no candidate receives such a majority, then the two candidates receiving the highest number of votes shall run against each other for the position. The run-off election for all positions shall be held on a date that complies with law and shall be ordered, notice thereof given, and held, as provided herein for regular elections. Any resident, qualified elector of the district may have his or her name placed as a candidate on the official ballot for any position to be filled at each regular election by filing with the secretary of the board a written application therefor signed by the applicant, not later than 5 p.m. of the 45th day before the date of the election. An application may not be filed earlier than the 30th day before the date of the filing deadline. Such application must state the number of the position for which he or she is a candidate, or the name of the incumbent member of the board holding the position for which he or she desires to run. The location on the ballot of the names of candidates for each position shall be chosen by lot by the board. A candidate shall be eligible to run for only one position at each election.

(h) Notwithstanding anything in this code to the contrary, the provisions of all or any part of the laws of this state in effect immediately prior to the effective date of this act and relating to the name of any junior college district or the name of its governing board, or to the number of members of its governing board, or the procedures and times of electing or choosing said members, shall remain in effect under the following conditions. If, at any time before the effective date of this act (but not thereafter), the governing board of any junior college district shall specify by resolution or order the particular provisions of the aforesaid laws applicable to it which it desires to remain in effect, then such particular provisions shall continue to apply to said board and its district; provided that at any time thereafter the governing board may make this section in its entirety applicable to it and its district by appropriate resolution or order, and thereby permanently

cancel the effect of the aforesaid particular provisions of other laws. All resolutions and orders permitted by this section shall be filed immediately with the Coordinating Board, Texas College and University System.

(i) The election of trustees of a countywide junior or community college district that contains a city with a population of more than 1.18 million located primarily in a county with a population of 2.5 million or more shall be held on the first Saturday in April of each even-numbered year. When a runoff election is necessary, the board may order the election for a date to coincide with the date of the runoff election for city officials, if the city is holding a runoff election; otherwise, the board shall set the date of the runoff election for not later than three weeks following the regular election.

(j) Notwithstanding the election dates prescribed by this section, an election held under this section shall be held on a uniform election date as provided by law.

Sec. 130.0821. GOVERNING BOARD OF CERTAIN COUNTYWIDE COMMUNITY COLLEGE DISTRICTS. (a) The members of the governing board of a countywide community college district that contains a city with a

population of more than 384,500 residents shall be elected from single-member trustee districts.

(b) The board of trustees shall divide the district into the appropriate number of compact trustee districts which contain as nearly as practicable an equal number of inhabitants according to the last preceding federal census. Residents of each trustee district shall be entitled to elect one member of the board, and each candidate seeking to represent a trustee district must reside in the trustee district he seeks to represent. Trustees shall, during their term of office, reside within the trustee district from which they were elected.

(c) Members of the board of trustees of the district shall serve for staggered terms of six years with the terms of one-third of the members, as nearly as may be, expiring in each even-numbered year.

(d) Repealed by Acts 1991, 72nd Leg., ch. 365, Sec. 2, eff. Sept. 1, 1991.

(e) Not later than the 90th day after the earliest date on which the board of trustees may recognize and act on the publication of the federal decennial census under Section 2058.001, Government Code, the board of trustees shall redivide the district into the appropriate number of trustee districts if the census data indicates that the population of the most populous trustee district exceeds the population of the least populous district by more than 10 percent. Within 90 days following the effective date of an order or resolution of the board of trustees to increase the number of board members, the board of trustees shall redivide the district into the appropriate number of trustee districts as increased. At the next district election following the redistricting of the district under this subsection, each trustee district shall elect a member of the board unless the board of trustees determines that trustees shall be elected from the new trustee districts as provided by Section 130.0826, and the members elected shall draw lots for the appropriate number of two-year, four-year, and six-year terms as needed to establish staggered terms as required by Subsection (c).

(f) Any election held pursuant to the terms of this section shall be conducted in accordance with the provisions of Subsection (i), Section 130.082 of this code.

(g) Trustees elected under the provisions of this section take office on the first Tuesday in May.

(h) A district described by Subsection (a) of this section that has previously adopted or been required to implement single-member district representation in connection with a judicial proceeding may continue to operate under that plan.

Sec. 130.0822. ELECTION FROM SINGLE-MEMBER TRUSTEE DISTRICTS.

(a) The board of trustees of a junior college district may order that all or a majority of the trustees of the district be elected from single-member trustee districts.

(b) An order of the board adopted under Subsection (a) of this section must be entered not later than the 120th day before the day of the first election of trustees from single-member trustee districts.

(c) The appointment and election of trustees of the junior college district are subject to Section 130.082 of this code, except as otherwise provided by this section.

(d) If the board orders that trustees shall be elected from single-member trustee districts, the board shall divide the junior college district into the appropriate number of trustee districts, based on the number of members of the board that are to be elected from single-member districts, and shall number each trustee district.

(e) The trustee districts must be compact and contiguous, and must be as nearly as practicable of equal population according to the last preceding federal census.

(f) Trustee districts must be drawn not later than the 90th day before the day of the first election of trustees from single-member districts.

(g) The board may provide for trustees holding office on the date of the initial election of trustees from single-member districts to serve the remainder of their terms and to represent a trustee district for that term without having residency in that trustee district.

(h) Except in the case of residents of a trustee district who are represented by a trustee serving in accordance with Subsection

(g) of this section, residents of each trustee district are entitled to elect one trustee to the board. A candidate for trustee must be a resident of the trustee district the candidate seeks to represent. A trustee other than a trustee serving in accordance with Subsection (g) of this section vacates the office if he or she ceases to reside in the trustee district he or she represents.

(i) Any vacancy on the board shall be filled by appointment made by the remaining members of the board. The appointed person serves for the unexpired term.

(j) After each redistricting, all positions on the board shall be filled unless the board of trustees determines that trustees shall be elected from the new trustee districts as provided by Section 130.0826. The trustees then elected shall draw lots for staggered terms as provided by Section 130.082.

(k) Not later than the 90th day before the day of the first regular junior college district trustee election at which trustees may officially recognize and act on the last preceding federal census, the board shall redivide the district into the appropriate number of trustee districts if the census data indicates that the population of the most populous district exceeds the population of the least populous district by more than 10 percent. Redivision of the district shall be in the manner provided for the initial division of the district.

(l) This section does not apply to a junior college district to which Section 130.081, 130.083, 130.0821, or 130.088 of this code applies, or to a junior college district required by other law to elect trustees from single-member districts. This section does not apply to the election of trustees in any district in which the election of trustees is governed by a court order so long as that order remains in effect. This section does apply to an independent school district junior college district governed by a separate board of trustees.

Sec. 130.0825. WRITE-IN VOTING IN ELECTION FOR MEMBERS OF GOVERNING BODY. (a) In a general or special election for members of the governing body of a junior college district, a write-in vote may not be counted for a person unless the person has filed a declaration of write-in candidacy with the secretary of the board of trustees in the manner provided for write-in candidates in the general election for state and county officers.

(b) A declaration of write-in candidacy must be filed not later than the deadline prescribed by Section 146.054, Election Code, for a write-in candidate in a city election.

(b) If the board of trustees provides for the trustees in office to serve for the remainder of their terms in accordance with this section, the trustee districts established by the redistricting plan shall be filled as the staggered terms of trustees in office expire. When the board of trustees adopts a redistricting plan, the board shall determine from which new trustee district the position of each trustee in office will be filled as it becomes vacant.

(c) This section does not authorize a trustee of a junior college district to continue in office after a redistricting plan takes effect if the member no longer resides in the district from which the trustee was elected.

(b) Members of the board of trustees appointed under this section serve two-year terms and may be appointed to serve successive terms. The commissioners court shall appoint initial members to serve a term beginning December 1, 2017.

(d) A member of the board of trustees appointed under this section:

(1) may not participate in the decision-making of the board in matters related to:

(B) an issue that only affects a campus located in the junior college district;

(2) is not counted for purposes of determining whether a quorum of the board is present for the purpose of Subdivision (1); and

Sec. 130.083. GOVERNING BOARD IN ENLARGED JUNIOR COLLEGE DISTRICT. (a) From and after May 22, 1969, those junior college districts which were on May 22, 1969, operating under Chapter 15, Acts of the 58th Legislature, 1963 (Article 2815o-1b, Vernon's Texas Civil Statutes), and to which one, or more, school districts has been annexed for junior college purposes only, may, by a majority vote of the board of regents of the junior college district, choose to operate and be governed by a board of regents.

(b) Each school district which has been annexed to the junior college district for junior colleges purposes only shall be represented by at least one member of the board of regents. If the assessed tax rolls exceed \$67,500,000, the school district shall be represented by one member of the board of regents for each \$67,500,000 of assessed value, or a major fraction thereof, on the junior college tax roll, located within the school district. The original junior college district shall be represented on the board of regents by a number of regents arrived at according to the same formula.

(c) The total number of members of the board of regents of the junior college district shall never exceed 14. When the valuation of the enlarged district increases to the point that the number of regents exceeds 14 under the formula described in Subsection (b) of this section then the board of regents of the junior college district shall set a formula, based on proportional tax values, of representation, which will produce a total of 14 members of the board of regents.

(d) The terms of office of the regents authorized by this act shall be six years. Those regents serving as regents on May 22, 1969, shall continue in office for the remainder of their respective terms and then until such time as their successors shall have been elected and qualified, and thereafter in each even-numbered year three regents shall be elected from the area originally forming the junior college district to succeed those regents whose terms are expiring, but if the number of regents becomes more or less than nine, the formula set out in Subsection (e) of this section shall be followed. All new regents added to the board of regents under the provisions of this section shall be appointed by the board of regents which orders the enlargement of the membership of such board, and shall serve until election specified in Subsection (e) of this section. All vacancies on the board of regents shall be filled at

once for the unexpired term only by appointments made by the remaining members of such board.

(e) Where additional regent positions are provided under the terms of this section, the board of regents at the time of such authorization shall designate by resolution duly recorded in the minutes of such board the term to be served by each such additional regent, provided that the first regent authorized and appointed shall serve only until the next regular regent election, the second such regent shall serve until the regent election two years after the next regular regent election, and the third regent shall serve until the regent election four years after the next regular regent election, with additional regents which may be authorized to follow the same rotation of terms until all terms of additional regents provided under the terms of this section have been fixed to expire at the next regular regent election, or at the regent election two years after the next regular regent election, or at the regent election four years after the next regular election. Additional regents appointed to such terms and until such times as their successors shall have been elected and qualified, and thereafter the terms of such regents shall be for six years.

(f) Regent elections in all parts of the districts affected by the provisions of this section shall be held at the times and in the manner now provided for public junior colleges by general law. The qualified voters residing in the school district represented shall be entitled to vote in such elections. Each regent to be elected shall be a resident of the school district he is to represent and each regent to represent the original college district shall be a resident of the original college district.

(g) The provisions of this section shall be cumulative of existing laws governing elections of regents in public junior college districts.

Added by Acts 1971, 62nd Leg., p. 3296, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 130.084. POWERS AND DUTIES. (a) The governing board of a junior college district shall be governed in the establishment, management, and control of a public junior college in the district by the general law governing the establishment, management, and control

of independent school districts insofar as the general law is applicable.

(b) The governing board of a junior college district may set and collect with respect to a public junior college in the district any amount of tuition, rentals, rates, charges, or fees the board considers necessary for the efficient operation of the college, except that a tuition rate set under this subsection must satisfy the requirements of Section 54.051(n). The governing board may set a different tuition rate for each program, course, or course level offered by the college, including a program, course, or course level to which a provision of Section 54.051 applies, as the governing board considers appropriate to reflect course costs or to promote efficiency or another rational purpose.

Sec. 130.0845. REMOVAL OF TRUSTEE FOR NONATTENDANCE OF BOARD MEETINGS. (a) It is a ground for removal of a member of the board of trustees of a junior college district that the member is absent from more than half of the regularly scheduled board meetings that the member is eligible to attend during a calendar year, not counting an absence for which the member is excused by a majority vote of the board.

(b) The validity of an action of the board of trustees is not affected by the fact that the action is taken when a ground for removal of a member of the board exists.

(c) A member of a board of trustees may be removed for a ground provided by this section, using the procedures provided by Subchapter B, Chapter 87, Local Government Code, for removing a county official.

Added by Acts 2005, 79th Leg., Ch. 673 (S.B. 114), Sec. 1, eff. September 1, 2005.

Sec. 130.085. TUITION EXEMPTION. (a) The board of trustees of

any public junior college may exempt from payment of tuition all students who are residents of the junior college district and who are enrolled for 12 or more semester credit hours, provided that this action will allow the college to participate in and benefit from funds available as provided by Sections 1-7, Title I, 64 Stat. 1100, as amended, 20 U.S.C. Secs. 236-241-1.

(b) This action by the board of trustees does not affect their authority under Section 130.123, nor does this section in any way supersede that section. This action of the board does not affect the right of the college to an allocation of state appropriations under this chapter and Chapter 130A.

Sec. 130.0851. TUITION EXEMPTION FOR DISTRICT EMPLOYEES. The governing board of a junior college district may exempt a district employee who enrolls in courses offered by the district from the payment of all or part of the tuition or fees charged to a student at a junior college by the district.

Added by Acts 2009, 81st Leg., R.S., Ch. 382 (H.B. 1568), Sec. 1, eff. June 19, 2009.

Sec. 130.088. BOARD OF TRUSTEES OF CERTAIN JUNIOR COLLEGE DISTRICTS. (a) If an independent school district board that has control and management of a junior college district that contains all or part of a city with a population of more than 1,500,000 divests itself of control and management under Section 130.016 or 130.017 of this code, the appointment and election of trustees of the junior college district are subject to Sections 130.018 and 130.082 of this code, except as otherwise provided by this section.

(b) The board of trustees consists of nine members elected from trustee districts.

(c) If the board of trustees of the independent school district that divests itself of management and control of the junior college

district is elected from nine single-member districts, the trustees appointed for the junior college district shall have the same initial single-member district boundaries. For the initial board members of the junior college district appointed by the independent school district board of trustees, three members shall serve terms of two years, three members shall serve terms of four years, and three members shall serve terms of six years. The trustees shall draw lots to determine the length of their terms. The terms of the initial board members shall expire on the last day of December of the odd-numbered year that does not exceed their terms.

(d) Each trustee district must be compact and contiguous and of a population to the extent practicable equal to other trustee districts.

(e) The general election for trustees shall be held every two years on the first Tuesday after the first Monday in November of the odd-numbered year or on the uniform election date chosen by the prior board under prior law.

(f) The board of trustees of the independent school district shall designate a number for each trustee district. At each election candidates are voted on and elected separately for each trustee district, and a candidate's name is placed on the official ballot according to the number of the district for which the candidate is running.

(g) The voters of each trustee district elect one trustee.

(h) If a trustee changes residence to a location outside the district from which the trustee is elected, the trustee vacates the office. Except as provided by Subsection (i) of this section, a district boundary change that results in the trustee who represents the district no longer being a resident of the district does not affect the trustee's term. That trustee serves for the remainder of the term to which elected. If the trustee changes residence to a location that is neither in the district as it existed on the date the trustee was elected to the current term nor in the new district, the trustee's seat on the board is vacated.

(i) If a change in district boundaries occurs as a result of redistricting and places the residence of a trustee whose office is not next up for election outside the numbered district for which the trustee was elected and the trustee fails to move his residence within the new boundaries of that numbered district before the 75th day preceding the date of the first election for which the boundary

changes are effective, the office is vacated and shall be filled at that election.

(j) If new territory is added to the district, the board shall temporarily assign the territory to one or more trustee districts as appropriate. Not later than the 180th day after the publication of a federal census, the board shall revise district boundaries to take account of district population changes.

(k) To be entitled to a place on the ballot, a candidate for trustee must file an application for a place on the ballot with the board secretary not later than 5 p.m. of the 45th day before election day. An application may not be filed earlier than the 30th day before the date of the filing deadline.

(l) To be elected, a trustee candidate must receive a majority of the total number of votes received by all the candidates for the position. If no candidate receives the vote required for election to a position, the board shall order a runoff election to be held in accordance with the applicable provisions of the Election Code.

(m) Trustees serve for six-year staggered terms. The terms of three members expire on the last day of December of each odd-numbered year.

(n) The board shall fill by appointment a board vacancy. The remaining members of the board, not later than the 30th day after the date on which the vacancy occurs, shall select a suitable person who resides in the applicable district to fill the board vacancy until the next regular trustee election. If the board for any reason fails or refuses to appoint a person to fill the board vacancy, the board shall order an election for the purpose of filling the vacancy for the remainder of the unexpired term. The election shall be held on the next uniform election date provided by the Election Code as long as that date does not occur before the 90th day after the date on which the vacancy occurs.

Added by Acts 1987, 70th Leg., ch. 556, Sec. 1, eff. Sept. 1, 1987.

Sec. 130.089. PROHIBITED EMPLOYMENT OF OR CONTRACTING WITH FORMER TRUSTEE. A public junior college may not employ or contract with an individual who was a member of the board of trustees of the junior college before the first anniversary of the date the individual ceased to be a member of the board of trustees.

Added by Acts 1993, 73rd Leg., ch. 56, Sec. 1, eff. Sept. 1, 1993.

Sec. 130.090. REMEDIAL PROGRAMS FOR SECONDARY SCHOOL STUDENTS.

(a) The governing board of a junior college district may contract with the governing board of an independent school district in the junior college district's service area for the junior college to provide remedial programs for students enrolled in secondary schools in the independent school district in preparation for graduation from secondary school and entrance into college.

(a-1) The governing board of a junior college district located wholly or partly in a county with a population of more than three million may contract to provide remedial programs under Subsection (a) with the governing board of any independent school district located wholly or partly in a county with a population of more than three million.

(b) The governing board of a junior college district may exempt from tuition a student enrolled in a remedial program provided under Subsection (a).

(c) The grant of an exemption from tuition under Subsection (b) does not affect the right of a junior college to an allocation of state appropriations under this chapter and Chapter 130A attributable to the contact hours of the junior college with the student receiving the exemption.

(d) For instances when state funding is provided to both a school district and a public junior college for a student enrolled in courses offered by a junior college under Subsection (a), the commissioner of education and the commissioner of higher education shall jointly develop a mechanism to identify and eliminate duplication of state funding.

Sec. 130.123. REVENUE BONDS. (a) The governing board (hereinafter called the "board") of each junior college district and each regional college district shall be authorized and have the power to acquire, purchase, construct, improve, enlarge, equip, operate, and/or maintain any property, buildings, structures, activities, operations, or facilities, of any nature, for and on behalf of its institution or institutions.

(b) For the purpose of carrying out any one or more of the aforesaid powers each board shall be authorized to issue its revenue bonds to be payable from and secured by liens on and pledges of all or any part of any of the revenues from any rentals, rates, charges, fees, or other resources of such board, in the manner hereinafter provided. Said bonds may be issued to mature serially or otherwise not more than 50 years from their date. In the authorization of any such bonds, each board may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other types of bonds, under such terms or conditions as may be set forth in the resolution or order authorizing the issuance of said bonds, all within the discretion of the board. Said bonds, and any interest coupons appertaining thereto, shall be negotiable instruments (provided that such bonds may be issued registrable as to principal alone or as to both principal and interest), and shall be executed, and may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and may be sold in such manner, at such price, and under such terms, and said bonds shall bear interest at such rate or rates, as shall be determined and provided by the board in the resolution or order, authorizing the issuance of said bonds. If so permitted in the bond resolution, and required part of the proceeds from the sale of the bonds may be used for paying interest thereon during the period of the construction of any facilities to be provided through the issuance of said bonds, and for the payment of operation and maintenance expenses of said facilities to the extent, and for the period of time, specified in said bond resolution, and also for the creation of reserves for the payment of the principal of and interest on the bonds; and such moneys be invested, until needed, to the extent, and in the manner provided, in said bond

resolution or order.

(c) Each board shall be authorized to fix and collect rentals, rates, charges, and/or fees, including student union fees, from students and others for the occupancy, use and/or availability of all or any of its property, buildings, structures, activities, operations, or facilities, of any nature, in such amounts and in such manner as may be determined by such board.

(d) Each board shall be authorized to pledge all or any part of any of its revenues from any of the aforesaid rentals, rates, charges, and/or fees to the payment of any bonds issued hereunder, including the payment of principal, interest, and any other amounts required or permitted in connection with said bonds. When any of the revenues from any such rentals, rates, charges, and/or fees are pledged to the payment of bonds, they shall be fixed and collected in such amounts as will be at least sufficient, together with any other pledged resources, to provide for all payments of principal, interest, and any other amounts required in connection with said bonds, and, to the extent required by the resolution or order authorizing the issuance of said bonds, to provide for the payment of operation, maintenance, and other expenses. Each board shall be authorized to establish and enforce such parietal rules for students and others, and to enter into such agreements regarding occupancy, use, and availability, and the amounts and collection of pledged revenues, fees, or other resources as will assure making all said required payments. Fees for the use or availability of all or any property, buildings, structures, activities, operations, or facilities, of any nature, may be pledged to the payment of said bonds, and shall be fixed and collected from all or any designated part of the students enrolled in the institution or institutions, in such amounts and in such manner as shall be determined and provided by the board in the resolution or order authorizing the issuance of the bonds, and said fees may be collected in the full amounts required or permitted herein, without regard to actual use or availability, commencing at any time designated by the board. Said fees may be fixed and collected for the use or availability of any specifically described property, buildings, structures, activities, operations, or facilities, of any nature; or said fees may be fixed and collected as general fees for the general use or availability of the institution or institutions. Such specific and/or general fees may be fixed and collected and pledged to the payment of any issue or

series of bonds issued hereunder, in the full amounts required or permitted herein, in addition to, and regardless of the existence of, any other specific or general fees at the institution or institutions; provided that each board may restrict its power to pledge such additional specific or general fees in any manner that may be provided in the resolution or order authorizing the issuance of any bonds issued hereunder, and provided that no such additional specific fees shall be pledged if prohibited by any resolution or order which authorized the issuance of any then outstanding bonds issued pursuant to any Texas statute.

(e) In addition to the revenues, fees, and other resources authorized to be pledged to the payment of bonds issued hereunder, each board further shall be authorized to pledge irrevocably to such payment, out of the tuition charges required or permitted by law to be imposed at its institution or institutions, an amount not exceeding 25 percent of the tuition charges collected from each enrolled student for each semester or term, and each board also shall be authorized to pledge to such payment all or any part of any grant, donation, or income received or to be received from the United States government or any other public or private source, whether pursuant to an agreement or otherwise.

(f) Any revenue bonds issued by any such board under this act, and any revenue bonds or notes issued by any such board under any other Texas statute and payable from tuition fees and charges and/or any part of the use fees from or revenues of any property, buildings, structures, activities, operations, or facilities at the institution or institutions, may be refunded or otherwise refinanced by such governing board, and in such case all pertinent and appropriate provisions of this section shall be fully applicable to such refunding bonds. In refunding or otherwise refinancing any such bonds or notes the governing board may, in the same authorizing proceedings, refund or refinance bonds issued pursuant to this section and bonds or notes issued pursuant to any other such Texas statute and combine all said refunding bonds and any other additional new bonds to be issued pursuant to this section into one or more issues or series of bonds, and may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other type of bonds. All refunding bonds shall be issued and delivered under such terms and conditions as may be set forth in the authorizing proceedings.

(g) All bonds permitted to be issued under this section, and the appropriate proceedings authorizing their issuance, shall be submitted to the Attorney General of the State of Texas for examination. If he finds that such bonds have been authorized in accordance with law he shall approve them, and thereupon they shall be registered by the Comptroller of Public Accounts of the State of Texas; and after such approval and registration such bonds shall be incontestable in any court, or other forum, for any reason, and shall be valid and binding obligations in accordance with their terms for all purposes.

(h) All bonds issued under this section shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, small business investment corporations, insurance companies of all kinds and types, fiduciaries, trustees, and guardians, and for all interest and sinking funds and other public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic. Said bonds also shall be eligible and lawful security for all deposits of public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of said bonds, when accompanied by any unmatured interest coupons appurtenant thereto.

(i) All revenue bonds heretofore approved by the Attorney General of the State of Texas and registered by the Comptroller of Public Accounts of the State of Texas which were issued, sold, and delivered by any board, and which are payable from or secured by a pledge of any revenues, use fees, tuition, or other resources of such board, are hereby validated in all respects, together with all proceedings authorizing the issuance thereof, and said bonds and proceedings shall be valid as though they had been duly and legally issued and authorized originally.

Sec. 130.125. REVENUE OBLIGATIONS. (a) As used in this section:

(1) "Credit agreement" means a loan agreement, revolving credit agreement, agreement establishing a line of credit, letter of credit, reimbursement agreement, insurance contract, commitment to purchase obligations, purchase or sale agreement, or commitment or other contract or agreement authorized and approved by the governing body of the issuer in connection with the authorization, issuance, security, exchange, payment, purchase, or redemption of obligations or interest thereon.

(2) "Eligible project" means any project or purpose for which an issuer is authorized to issue revenue bonds pursuant to Section 130.123 of this code or any other provision of law.

(3) "Governing body" means the governing board of an issuer.

(4) "Issuer" means a junior college district or a regional college district.

(5) "Obligations" means notes, warrants, or other special obligations authorized to be issued by an issuer under the provisions of this section and all "public securities" as defined by Section 1201.002, Government Code, which prior to the delivery thereof, have been rated by a nationally recognized rating agency for municipal securities in either one of the three highest ranking categories for short-term obligations or one of the four highest ranking categories for long-term obligations. It is provided, however, that the term

"obligations" does not mean or include any obligations payable from ad valorem taxes.

(6) "Project costs" means all costs and expenses incurred in relation to an eligible project, including without limitation design, planning, engineering, and legal costs, acquisition costs of land, interest in land, rights-of-way, and easements, construction costs, costs of machinery, equipment, and other capital assets incident and related to the operation, maintenance, and administration of an eligible project, and financing costs, including interest during construction and thereafter, underwriter's discount and fees for legal, financial, and other professional services. Project costs attributable to an eligible project and incurred prior to the issuance of any obligations issued to finance an eligible project may be reimbursed from the proceeds of sale of obligations.

(b) The governing body of an issuer is hereby authorized and empowered to issue, sell, and deliver obligations and execute credit agreements in order to finance project costs of an eligible project or to refund obligations issued in connection with an eligible project, subject to the limitations contained herein. Obligations shall be secured solely by: (1) the proceeds of sale of other obligations; (2) any revenues which the issuer is authorized by any statute or constitutional provision to pledge to the payment of any obligations; or (3) any one or more of such sources, including credit agreements, all as the governing body of the issuer shall provide in the resolution or order authorizing the issuance of the obligations. Obligations shall be repaid from the source or sources securing the payment thereof, funds received from a credit agreement, or from any other revenues otherwise legally available for the payment thereof, except funds derived from ad valorem taxation.

(c) The issuance of obligations shall be authorized by resolution or order of the governing body of an issuer, which resolution or order shall fix the maximum amount of obligations to be issued or, if applicable, the maximum principal amount which may be outstanding at any time, the maximum term obligations issued and delivered pursuant to such authorization shall be outstanding, the maximum interest rate to be borne by the obligations (within the limitations of Chapter 1204, Government Code), the manner of sale (which may be by either public or private sale), price, form, terms, conditions, and covenants thereof. The resolution or order authorizing the issuance of obligations may provide for the

designation of a paying agent and registrar for the obligations and may authorize one or more designated officers or employers of the issuer to act on behalf of the issuer from time to time in the selling and delivering of obligations authorized and fixing the dates, price, interest rates, interest payment periods, and other procedures as may be specified in the resolution or order.

Obligations may be issued in such form or such denomination, payable at such time or times, in such amount or amounts or installments, at such place or places, in such form, under such terms, conditions, and details, in such manner, redeemable prior to maturity at any time or times, bearing no interest, or bearing interest at any rate or rates (either fixed, variable, floating, adjustable, or otherwise, all as determined in accordance with the resolution or order providing for the issuance of the obligations, which resolution or order may provide a formula, index, contract, or any other arrangement for the periodic determination of interest rates), not to exceed the maximum net effective interest rate allowed by law and may be signed or otherwise executed in such manner, with manual or facsimile signatures, and with or without a seal, all as shall be specified by the governing body of the issuer in the resolution or order authorizing the issuance of the obligations. The proceeds received from the sale of obligations may be deposited or invested in any manner and in such obligations as may be specified in the resolution or order or other proceedings authorizing the obligations. In the event any officer or officers whose signatures are on any obligations cease to be such officer or officers before the delivery thereof to the purchaser, such signature or signatures shall nevertheless be valid and sufficient for all purposes and the successor or successors in office of any such officers shall be fully authorized to complete the execution, authentication, or delivery of said obligations to the purchaser or purchasers thereof.

(d) The governing body of an issuer may enter into credit agreements in conjunction with the issuance, payment, sale, resale, or exchange of obligations to enhance the security for or provide for the payment, redemption, or remarketing of the obligations and interest on the obligations or to reduce the interest payable on the obligations. A credit agreement is an agreement for professional services and shall contain the terms and conditions and be for the period that the governing body of the issuer approves. The cost to the issuer of the credit agreement may be paid from the proceeds of

the sale of the obligations to which the credit agreement relates or from any other source, including revenues of the issuer that are available for the purpose of paying the obligations and the interest on the obligations or that may otherwise be legally available to make those payments.

(e) Obligations, including accrued interest, may from time to time be refinanced, renewed, or refunded by the issuance of other obligations. Credit agreements entered into by an issuer, whether pursuant to the provisions of this section or not, may be refinanced, renewed, refunded, or otherwise terminated and a new credit agreement substituted therefor by amendment to the proceedings which authorized such credit agreements and, if required to accomplish the substitution of credit agreements, outstanding bonds may be refunded with obligations.

(f) Preliminary to the issuance and delivery of obligations, the resolution or order authorizing the issuance thereof, together with any credit agreements and any contracts providing revenues and security to pay the obligations, shall be submitted to the attorney general for his review. If the attorney general shall find that such credit agreement or agreements, if any, contracts, if any, and other authorizing proceedings conform to the requirements of the Texas Constitution and this section, the attorney general shall approve them. Thereafter, the authorized obligations may be executed and delivered, exchanged, or refinanced from time to time in accordance with the authorizing proceedings. Upon such approval by the attorney general and initial delivery of any obligations so authorized, any such credit agreements, any such contracts providing revenues or security, such initial obligations, and all other obligations thereafter issued pursuant to the authorizing proceedings shall be incontestable for any cause in any court or other forum and shall be valid and binding obligations enforceable in accordance with their respective terms and provisions.

(f-1) The governing body of an "eligible issuer" may enter into credit agreements as described in Subsection (d). As used in this subsection, "eligible issuer" means an issuer that prior to the effective date of this subsection (i) issued bonds which, prior to or simultaneously with the delivery thereof, were rated by a nationally recognized rating agency for municipal securities in one of the four highest ranking categories for long-term obligations, and (ii) reserved in the resolution or order authorizing issuance of the bonds

the right, in the event of a change in state law, to substitute a credit agreement in lieu of cash and investments in a reserve fund established pursuant to the resolution or order.

(g) All obligations issued by an issuer shall constitute negotiable instruments and are investment securities governed by Chapter 8, Business & Commerce Code, notwithstanding any provisions of law or court decision to the contrary and are legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, and trustees and for the sinking funds of cities, towns, villages, school districts, and other political subdivisions or public agencies of the State of Texas. Said obligations also are eligible to secure deposits of any public funds of the state or any political subdivision or public agency of the state and are lawful and sufficient security for the deposits to the extent of their market value.

(h) This section shall be construed liberally to effectuate the legislative intent and purposes of this section and all powers herein granted shall be broadly interpreted to effectuate such intent and purposes and not as a limitation of powers.

(i) In case any one or more of the provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any situation or circumstance shall for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect any other provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any other situation or circumstance, and it is intended that this section shall be severable and shall be construed and applied as if any such invalid or unconstitutional provision, clause, or word had not been included herein.

(j) This section shall be cumulative of all other laws on the subject, but this section shall be wholly sufficient authority within itself for the issuance of obligations and the performance of the other acts and procedures authorized hereby, or under any agreement, without reference to any other laws or any restrictions or limitations contained herein. To the extent of any conflict or inconsistency between any provisions of this section and any provisions of any other law, the provisions of this section shall prevail and control; provided, however, that any issuer shall have the right to use the provisions of any other laws not in conflict

with the provisions hereof to the extent convenient or necessary to carry out any power or authority, express or implied, granted by this section.

(k) When the governing body of any issuer provides in the resolution or order or other proceedings authorizing the issuance of any bond, any credit agreement, or any other agreement for a pledge or lien on revenues, income, or other resources of the issuer, or the assets of the issuer, or any fund maintained by the issuer to secure payment of the obligations or to secure payments required by a credit agreement or any other agreement, such pledge or lien shall be valid and binding in accordance with its terms without further action on the part of the issuer and without any filing or recording with respect thereto except in the records of the issuer. All such liens and pledges shall be perfected from the time of payment for and delivery of the obligations and the credit agreement or other agreement until the obligations or other payments, including those under the credit agreement, have been paid or payment of the obligations has been provided for or the terms of the credit agreement or other agreement have been satisfied in accordance with their respective terms and such lien shall be fully perfected as to items then on hand and thereafter received until the satisfaction of such obligations, and said items shall be subject to such liens or pledges without any physical delivery thereof or further act. Nothing contained in this section shall relieve any issuer of any obligation to file or record any lien on realty or submit any issue of obligations for approval by the attorney general and registration by the comptroller of public accounts.

date when such district shall be dissolved and such transfer shall be made, which date shall be within two years from the date of the election, and on or prior to said date.

(b) When any union junior college district has been dissolved and its properties transferred as provided in Subsection (a) of this section, or in any other lawful manner, having at the time of such dissolution outstanding bonds or other indebtedness enforceable either at law or in equity, then the county commissioners court, for the purpose of paying such bonds, or other indebtedness, shall have power and be authorized to annually levy and collect ad valorem taxes sufficient only to pay the interest and create a sinking fund to retire the bonded indebtedness of such district, and the expense of collecting such taxes and paying such bonded indebtedness, and for no other purpose; provided such tax shall not exceed the rate voted by such district for junior college purposes; said county commissioners court shall have power to bring and defend litigation in the name of said union junior college district.

(d) Before any course may be offered by a public junior college within the service area of another operating public junior college, it must be established that the second public junior college is not capable of or is unable to offer the course. After the need is established and the course is not locally available, then the first public junior college may offer the course when approval is granted by the Texas Higher Education Coordinating Board.

(d-1) Subsection (d) does not apply to a course offered by a public junior college with a service area located wholly or partly in a county with a population of more than three million for high school students enrolled in a school district located wholly or partly in a county with a population of more than three million.

If a branch campus, center, or extension facility operated by a junior college district outside its taxing district becomes located within the taxing district of another junior college district when the other district is established or annexes the territory that includes the campus, center, or facility, the junior college district operating the campus, center, or facility must discontinue the campus, center, or facility within a reasonable period, not to exceed one academic year. The junior college district in which the campus, center, or facility is located must fairly compensate the junior college district that discontinues the campus, center, or facility for any capital improvements that the discontinuing district acquired or constructed for the campus, center, or facility, to the extent the discontinuing district is otherwise unable to recover the current

value of its investment in that capital improvement, as determined by the Texas Higher Education Coordinating Board.

(g) Subsections (a) and (c) do not apply to a branch campus, center, or extension facility that is established before September 1, 1999.

(b) On presentation of a petition for an election to authorize a junior college district branch campus maintenance tax signed by not fewer than five percent of the qualified voters of the jurisdiction in which the proposed tax is to be levied, the governing body of the school district or county, as applicable, shall determine the legality and the genuineness of the petition and, if it is determined to be legal and genuine, forward the petition to the Texas Higher Education Coordinating Board. The governing body of a county with a population of 150,000 or less, on completion of a needs assessment analysis showing adequate need and on approval by the coordinating board, on its own motion and without the presentation of a petition, may propose an election to authorize a branch campus maintenance tax.

(c) The Texas Higher Education Coordinating Board shall determine whether the requirements provided by Subsections (a) and (b) have been satisfied and whether the proposed tax is feasible and desirable under the coordinating board's rules for junior colleges. In making its decision on the feasibility and desirability of the tax, the coordinating board shall consider the needs of the junior college, the needs of the community or communities served by the branch campus, and the welfare of the state as a whole. The commissioner of higher education shall deliver to the governing body of the school district or county, as applicable, the order of the coordinating board authorizing or denying further action in the levying of a junior college district branch campus maintenance tax.

(d) If the coordinating board approves the establishment of the junior college district branch campus maintenance tax, the governing body of the school district or county, as applicable, shall enter an order for an election to be held in the territory under its jurisdiction not less than 20 days nor more than 60 days after the date on which the order is entered to determine whether the junior college district branch campus maintenance tax may be levied. In the case of joint school district or joint county elections, by mutual agreement of the governing bodies, the elections shall be held on the same date throughout the jurisdictions.

(e) The president of the board of trustees of the school district or the county judge, as applicable, shall give notice of the election in the manner provided by law for notice by the county judge

of general elections.

(f) The governing body of the school district or county, as applicable, shall procure the election supplies necessary to conduct the election and shall determine the quantity of the various types of supplies to be provided for use at each precinct polling place and early voting polling place.

(g) Any qualified voter residing within the boundaries of the jurisdiction in which the tax may be levied is entitled to vote at the election.

(h) The ballot shall be printed to provide for voting for or against the proposition: "The levy of a junior college district branch campus maintenance tax in an amount not to exceed (insert a number not higher than five) cents on each \$100 valuation of all taxable property in \_\_\_\_\_. " (insert name of school district or name of county, as applicable).

(i) To be adopted, the measure must receive a favorable vote of a majority of those voting on the measure.

(j) Not later than the 10th day after the date of the election, the governing body shall canvass the returns of the election and shall enter an order declaring the result of the election.

(k) The proceeds of the junior college district branch campus maintenance tax may be used only as follows:

(1) to operate and maintain a junior college district branch campus and support its programs and services in the area of the political subdivision that levied the tax; and

(2) under an agreement by the applicable junior college district and the political subdivision levying the tax, to make lease payments to the political subdivision for facilities used exclusively by the branch campus that are owned by the political subdivision.

(l) The governing body of the school district or county approving the junior college district branch campus maintenance tax shall set the tax levy.

(m) The junior college district shall maintain and furnish any records and reports required by the Texas Higher Education Coordinating Board. The reports shall be made available routinely to the governing body of the jurisdiction in which the tax is levied, and to members of the general public on request.

(A) that at least three articulation agreements have been established with general academic teaching institutions or medical and dental units, or the reasons why no articulation agreements have been established; and

(B) that, with the agreement of the applicable general academic teaching institution or medical and dental unit, established articulation agreements are at capacity.

The commission may reexamine a career school or college two or more times during each year in which a notice relating to the school or college has been issued or conditions have been imposed on the school or college under this subsection.

Sec. 132.061. REFUND POLICY. (a) Except as provided by Subsection (g), as a condition for granting certification each career school or college must maintain a cancellation and settlement policy that must provide a full refund of all monies paid by a student if:

(1) the student cancels the enrollment agreement or contract within 72 hours (until midnight of the third day excluding Saturdays, Sundays, and legal holidays) after the enrollment contract is signed by the prospective student; or

(2) the enrollment of the student was procured as the result of any misrepresentation in advertising, promotional materials of the school or college, or representations by the owner or representatives of the school or college.

(b) Except as provided by Subsection (g), as a condition for granting certification each career school or college must maintain a policy for the refund of the unused portion of tuition, fees, and other charges in the event the student, after expiration of the 72-hour cancellation privilege, fails to enter a program in which the student is enrolled or withdraws or is discontinued from the program at any time prior to completion, and such policy must provide:

(1) refunds for resident programs and synchronous distance education courses or programs will be based on the period of enrollment computed on the basis of course or program time;

(2) the effective date of termination for refund purposes in residence programs and synchronous distance education courses or programs will be the earliest of the following:

(A) the last date of attendance, if the student is

terminated by the school or college;

(B) the date of receipt of written notice of withdrawal from the student; or

(C) 10 school days following the last date of attendance;

(3) if tuition and fees are collected in advance of entrance, and if, after expiration of the 72-hour cancellation privilege, the student does not enter the residence career school or college, not more than \$100 shall be retained by the school or college;

(4) for the student who enters a residence program or a synchronous distance education course and who withdraws or is otherwise terminated, the school or college may retain not more than \$100 of any administrative fees charged and the minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination;

(5) refunds of items of extra expense to the student, such as instructional supplies, books, student activities, laboratory fees, service charges, rentals, deposits, and all other such ancillary miscellaneous charges, where these items are separately stated and shown in the data furnished the student before enrollment, will be made in a reasonable manner acceptable to the commission;

(6) refunds based on enrollment in residence and synchronous distance education courses or programs will be totally consummated within 60 days after the effective date of termination;

(7) refunds for asynchronous distance education courses or programs will be computed on the basis of the number of lessons in the course or program;

(8) the effective date of termination for refund purposes in asynchronous distance education courses or programs will be the earliest of the following:

(A) the date of notification to the student if the student is terminated;

(B) the date of receipt of written notice of withdrawal from the student; or

(C) the end of the third calendar month following the month in which the student's last lesson assignment was received unless notification has been received from the student that the student wishes to remain enrolled;

(9) if tuition and fees are collected before any courses for a program have been completed, and if, after expiration of the 72-hour cancellation privilege, the student fails to begin the program, not more than \$50 shall be retained by the school or college;

(10) in cases of termination or withdrawal after the student has begun the asynchronous distance education course or program, the school or college may retain \$50 of tuition and fees, and the minimum refund policy must provide that the student will be refunded the pro rata portion of the remaining tuition, fees, and other charges that the number of courses completed and serviced by the school or college bears to the total number of courses in the program; and

(11) refunds based on enrollment in asynchronous distance education schools or colleges will be totally consummated within 60 days after the effective date of termination.

(c) In lieu of the refund policy herein set forth, for programs of instruction not regularly offered to the public, the commission may, for good cause shown, amend, modify, or substitute the terms of a career school's or college's policy due to the specialized nature and objective of the school's or college's program of instruction.

(d) If a program of instruction is discontinued by the career school or college and this prevents the student from completing the program, all tuition and fees paid are then due and refundable.

(e) If a refund is not made within the period required by this section, the career school or college shall pay a penalty. If the refund is made to a lending institution, the penalty shall also be paid to that institution and applied against the student's loan. The commission annually shall establish the level of the penalty at a level sufficient to provide a deterrent to the retention of student funds. The commission may exempt a school or college from the payment of the penalty if the school or college makes a good faith effort to refund the tuition, fees, and other charges but is unable to locate the student. The school or college shall provide to the

commission on request documentation of the effort to locate the student.

(f) A career school or college shall record a grade of "incomplete" for a student who withdraws during the portion of a course or program for which the student is not eligible to collect a refund under Subsection (b)(4) if the student requests the grade at the time the student withdraws and the student withdraws for an appropriate reason unrelated to the student's academic status. A student who receives a grade of incomplete may re-enroll in the course or program during the 12-month period following the date the student withdraws and complete those incomplete subjects without payment of additional tuition for that portion of the course or program.

(g) A program that is 40 hours or less of course time, or a seminar or workshop, is exempt from the 72-hour rule provided by Subsection (a). The career school or college shall maintain a policy for the refund of the unused portion of tuition, fees, and other charges in the event the student fails to enter the program or withdraws or is discontinued from the program at any time before completion of the program as provided by this section. The policy must provide that:

(1) refunds are based on the period of enrollment computed on the basis of course or program time;

(2) the effective date of termination for refund purposes is the earlier of:

(A) the last date of attendance; or

(B) the date the school or college receives written notice from the student that the student is withdrawing from the class; and

(3) the student will be refunded the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the program for which the student has been charged.

(h) A closing career school or college shall, subject to Section 132.242, make a full refund to each student of the school or college who is owed a refund under this section.

(i) Each owner of a closing career school or college to which a certificate of approval has not been issued under this chapter is

personally liable for the amount of any refund owed to a student under Subsection (h).

(j) The commission may adopt rules governing records necessary to make refunds authorized by this chapter.

(f) The commission's order is subject to judicial review in the same manner as an appeal of a decision to deny a certificate of approval under Section 132.102.

(g) If on review the court does not sustain the occurrence of the violation or finds that the amount of the penalty should be reduced, the commission shall remit the appropriate amount to the person charged with the violation not later than the 30th day after the date the court's judgment becomes final.

(h) If the court sustains the occurrence of the violation:

several years, conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional, technological, scientific, literary and other fields, so as to provide greater educational advantages and facilities for the citizens of the several States who reside within such region; and

WHEREAS, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College; which proposal, because of the present financial condition of the institution has been approved by the said States who are parties hereto; and

WHEREAS, The said States desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities; now,

THEREFORE, In consideration of the mutual agreements, covenants and obligations assumed by the respective States who are parties hereto (hereinafter referred to as "States"), the said several States do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting States, which, for the purpose of this Compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent States and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions, for the benefit of citizens of the respective States residing within the region so established, as may be determined from time to time in accordance with the terms and provisions of this Compact.

The States do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the "Board"), the members of which Board shall consist of the Governor of each State, ex officio, and four additional citizens of each State to be appointed by the Governor thereof, at least one of whom shall be selected from the field of education and at least one of whom shall be a member of the Legislature of that State. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State but

the members of the Board appointed by the Governor shall hold office for a period of four (4) years except that in the original appointments one Board member so appointed by the Governor shall be designated at the time of his appointment to serve an initial term of two (2) years, one Board member to serve an initial term of three (3) years, and the remaining Board member to serve the full term of four (4) years, but thereafter the successor of each appointed Board member shall serve the full term of four (4) years. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the Governor for the unexpired portion of the term. The officers of the Board shall be a Chairman, a Vice-Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this Compact to govern its own actions in the performance of the duties delegated to it, including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory State; and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

It shall be the duty of the Board to submit plans and recommendations to the States from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the States, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the States, and to all properties and facilities used in connection therewith, shall be vested in said Board as the agency of and for the use and benefit of the said States and citizens thereof; and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or

limitations which may be contained in the legislative Acts of the State authorizing the creation, establishment and operation of such educational institutions.

In addition to the power and authority heretofore granted, the Board shall have the power to enter into such agreements or arrangements with any of the States and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective States residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the said States.

Any two (2) or more States who are parties of this Compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such States and to be controlled exclusively by the members of the Board representing such States, provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

Each State agrees that, when authorized by the Legislature, it will from time to time make available and pay over to said Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the States under the terms of this Compact, the contribution of each State at all times to be in the proportion that its population bears to the total combined population of the States who are parties hereto as shown from time to time by the most recent official published report of the Bureau of the Census of the United States of America; or upon such other basis as may be agreed upon.

This Compact shall not take effect or be binding upon any State unless and until it shall be approved by proper legislative action of as many as six (6) or more of the States whose Governors have subscribed hereto within a period of eighteen (18) months from the date hereof. When and if six (6) or more States shall have given legislative approval to this Compact within said eighteen (18) months period, it shall be and become binding upon such six (6) or more States sixty (60) days after the date of legislative approval by the

sixth State, and the Governors of such six (6) or more States shall forthwith name the members of the Board from their States as hereinabove set out, and the Board shall then meet on call of the Governor of any State approving this Compact, at which time the Board shall elect officers, adopt by-laws, appoint committees and otherwise fully organize. Other States whose names are subscribed hereto shall thereafter become parties hereto upon approval of this Compact by legislative action within two (2) years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however, that with respect to any State whose constitution may require amendment in order to permit legislative approval of the Compact, such State or States shall become parties hereto upon approval of this Compact by legislative action within seven (7) years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this Compact shall thereafter continue without limitation of time; provided, however, that it may be terminated at any time by unanimous action of the States; and provided further that any State may withdraw from this Compact if such withdrawal is approved by its Legislature, such withdrawal to become effective two (2) years after written notice thereof to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing State from its obligations hereunder accruing up to the effective date of such withdrawal. Any State so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or of any of the funds of the Board held under the terms of this Compact.

If any State shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said State as authorized by and in compliance with the terms and provisions of this Compact, all rights, privileges and benefits of such defaulting State, its members on the Board and its citizens, shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this Compact may be terminated with respect to such defaulting State by an affirmative vote of three-fourths ( $3/4$ ) of the members of the Board (exclusive of the members representing the State in default), from and after which time

such State shall cease to be a party to this Compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under the terms of this Compact, but such termination shall in no manner release such defaulting State from any accrued obligation or otherwise affect this Compact or the rights, duties, privileges or obligations of the remaining States thereunder.

IN WITNESS WHEREOF this Compact has been approved and signed by Governors of the several States, subject to the approval of their respective Legislatures in the manner hereinabove set out, as of the 8th day of February, 1948.

#### **CHAPTER 161. COMPACT FOR EDUCATION**

Sec. 161.01. COMPACT ENTERED INTO: TEXT. The Compact for Education is hereby entered into and enacted into law in the form substantially as follows:

##### **COMPACT FOR EDUCATION**

##### **Article I. Purpose and Policy**

Section A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the State and local levels.
2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.
3. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the Nation, so that the executive and legislative branches of State Government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.
4. Facilitate the improvement of State and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

Section B. It is the policy of this compact to encourage and promote local and State initiative in the development, maintenance,

improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and States.

Section C. The party States recognize that each of them has an interest in the quality and quantity of education furnished in each of the other States, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the Nation, and because the products and services contributing to the health, welfare and economic advancement of each State are supplied in significant part by persons educated in other States.

#### Article II. State Defined

As used in this Compact, "State" means a State, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

#### Article III. The Commission

Section A. The Education Commission of the States, hereinafter called "the Commission," is hereby established. The Commission shall consist of seven members representing each party State. One of such members shall be the Governor or his designated representative, and six shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. In addition to any other principles or requirements which a State may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party State shall be that the members representing such State shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the State Government, higher education, the State education system, local education, lay and professional, public and non-public educational leadership. Of those appointees, one may be the head of a State agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the Commission representing the party States, there may be not to exceed ten non-voting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

Section B. The members of the Commission shall be entitled to

one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

Section C. The Commission shall have a seal.

Section D. The Commission shall elect annually, from among its members, a chairman, who shall be a Governor, a vice chairman and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

Section E. Irrespective of the civil service, personnel or other merit system laws of any of the party States, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for their personnel policies and programs of the Commission.

Section F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

Section G. The Commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any State, the United States, or any other governmental agency or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of

the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this Article shall be reported in the annual report of the Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

Section H. The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

Section I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party States.

Section J. The Commission annually shall make to the Governor and legislature of each party State a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

#### Article IV. Powers

In addition to authority conferred on the Commission by other provisions of the compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.
2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.
3. Develop proposals for adequate financing of education as a whole and at each of its many levels.
4. Conduct or participate in research of the types referred to in this Article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.
5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

#### Article V. Cooperation With Federal Government

Section A. If the laws of the United States specifically so provided, or if administrative provision is made therefor within the Federal Government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to Federal law, and may be drawn from any one or more branches of the Federal Government, but no such representative shall have a vote on the Commission.

Section B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the Federal Government concerning the common educational policies of the States, and may advise with any such agencies or officers concerning any matter of mutual interest.

#### Article VI. Committees

Section A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a steering committee of thirty members which, subject to the provisions of this compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One-third of the voting membership of the steering committee shall consist of Governors, and the remainder shall consist of other members of the Commission. A Federal representative on the Commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the Commission shall be elected as follows: fifteen for one year and fifteen for two years. The chairman, vice chairman, and treasurer of the Commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a

partial term of one year or less shall not be counted toward the two-term limitation.

Section B. The Commission may establish advisory and technical committees composed of State, local, and Federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the States concerned, be established to consider any matter of special concern to two or more of the party States.

Section C. The Commission may establish such additional committees as its bylaws may provide.

#### Article VII. Finance

Section A. The Commission shall advise the Governor or designated officer or officers of each party State of its budget and estimated expenditures for such period as may be required by the laws of that party State. Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party States.

Section B. The total amount of appropriation requests under any budget shall be apportioned among the party States. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party States.

Section C. The Commission shall not pledge the credit of any party States. The Commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to Article III(g) thereof, the Commission shall not incur any obligation prior to the allotment of funds by the party States adequate to meet the same.

Section D. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

Section E. The accounts of the Commission shall be open at any

reasonable time for inspection by duly constituted officers of the party States and by any persons authorized by the Commission.

Section F. Nothing contained herein shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

#### Article VIII. Eligible Parties; Entry into and Withdrawal

Section A. This compact shall have as eligible parties all States, Territories, and Possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term "Governor," as used in this compact, shall mean the closest equivalent official of such jurisdiction.

Section B. Any State or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

Section C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the Governor; provided that in the absence of enactment, adherence by the Governor shall be sufficient to make his State a party only until December 31, 1967. During any period when a State is participating in this compact through gubernatorial action, the Governor shall appoint those persons who, in addition to himself, shall serve as the members of the Commission from his State, and shall provide to the Commission an equitable share of the financial support of the Commission from any source available to him.

Section D. Except for a withdrawal effective on December 31, 1967, in accordance with paragraph C of this Article, any party State may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States. No withdrawal shall affect any liability already incurred by or chargeable to a party State prior to the time of such withdrawal.

#### Article IX. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this

compact is declared to be contrary to the constitution of any State or of the United States, or the application thereof to any Government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any Government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any State participating therein, the compact shall remain in full force and effect as to the State affected as to all severable matters.

3. veterans of the uniformed services, except as provided in Section A; and

4. other U.S. Department of Defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

#### ARTICLE IV. EDUCATIONAL RECORDS AND ENROLLMENT

A. Unofficial or "hand-carried" education records--In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial education records containing uniform information as determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

B. Official education records/transcripts--Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within ten (10) days or within such time as is reasonably determined under the rules promulgated by the Interstate Commission.

C. Immunizations--Compacting states shall give thirty (30) days from the date of enrollment or within such time that does not exceed thirty (30) days as is reasonably determined under the rules promulgated by the Interstate Commission, for students to obtain any immunization(s) required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within thirty (30) days or within such time that does not exceed thirty (30) days as is reasonably determined under the rules promulgated by the Interstate Commission. The collection and exchange of information pertaining to immunizations shall be subject to confidentiality provisions prescribed by federal law.

D. Kindergarten and first grade entrance age--Students shall be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level (including kindergarten) from a local education agency in the sending state at the time of transition, regardless of age. A student that has satisfactorily completed the prerequisite grade level in the local education agency in the sending state shall be eligible for enrollment in the next

highest grade level in the receiving state, regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on their validated level from an accredited school in the sending state.

ARTICLE V. PLACEMENT AND ATTENDANCE

A. Course placement--When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational assessments conducted at the school in the sending state if the courses are offered. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

B. Educational program placement--The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state. Such programs include, but are not limited to: (1) gifted and talented programs; and (2) English as a second language (ESL). This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services--(1) In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Section 1400 et seq.), the receiving state shall initially provide comparable services to a student with disabilities based on his/her current Individualized Education Program (IEP); and (2) In compliance with the requirements of Section 504 of the Rehabilitation Act (29 U.S.C.A. Section 794), and with Title II of the Americans with Disabilities Act (42 U.S.C.A. Sections 12131-12165), the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This

does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility--Local education agency administrative officials shall have flexibility in waiving course/program prerequisites, or other preconditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities--A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

#### ARTICLE VI. ELIGIBILITY

##### A. Eligibility for enrollment

1. Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

3. A transitioning military child, placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he/she was enrolled while residing with the custodial parent.

B. Eligibility for extracurricular participation--State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

#### ARTICLE VII. GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall

incorporate the following procedures:

A. Waiver requirements--Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams--States shall accept: (1) exit or end-of-course exams required for graduation from the sending state; or (2) national norm-referenced achievement tests; or (3) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her senior year, then the provisions of Article VII, Section C, shall apply.

C. Transfers during senior year--Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this article.

The Texas commissioner of education shall adopt a passing standard on one or more national norm-referenced achievement tests for purposes of permitting a student to whom this compact applies to meet that standard as a substitute for completing a specific course or achieving a score on an assessment instrument otherwise required by this state for graduation. Each passing standard must be at least as rigorous as the applicable requirement otherwise imposed by this state for graduation, and be consistent with college readiness standards adopted under Section 28.008, Texas Education Code. Before adopting or revising a passing standard, the commissioner of education must consider any comments submitted by the Texas Higher Education Coordinating Board or the State Board of Education.

A passing standard adopted by the commissioner of education is available only for a student who enrolls in a public school in this state for the first time after completing the ninth grade or who reenrolls in a public school in this state at or above the 10th grade level after an absence of at least two years from the public schools of this state. Each passing standard in effect when a student first enrolls in a public high school in this state remains applicable to the student for the duration of the student's high school enrollment, regardless of any subsequent revision of the standard.

The commissioner of education may adopt rules as necessary to implement the commissioner's duties and authority under this article of the compact.

The Texas Higher Education Coordinating Board shall monitor the postsecondary educational performance in this state of students permitted to graduate in accordance with passing standards adopted by the commissioner of education for purposes of this compact. Based on the educational performance of those students in private and public institutions, the coordinating board shall make recommendations to the commissioner of education regarding appropriate revisions of the passing standards.

#### ARTICLE VIII. STATE COORDINATION

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member state may determine the membership of its own State Council, its membership must include at least: the state superintendent of education, superintendent of a school district with a high concentration of military children, representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the State Council.

B. The State Council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this

compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the governor or as otherwise determined by each member state.

D. The compact commissioner and the military family education liaison designated herein shall be ex-officio members of the State Council, unless either is already a full voting member of the State Council.

#### ARTICLE IX. INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the "Interstate Commission on Educational Opportunity for Military Children." The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

A. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

B. Consist of one Interstate Commission voting representative from each member state who shall be that state's compact commissioner.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or State Council may delegate voting authority to another person from their state for a specified meeting.

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex-officio, non-voting representatives who are members of interested organizations. Such ex-officio members, as defined in the bylaws, may include but not be limited to, members of the representative organizations of military family advocates, local

education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

D. Meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

E. Establish an executive committee, whose members shall include the officers of the Interstate Commission and such other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve a one year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. Department of Defense shall serve as an ex-officio, non-voting member of the executive committee.

F. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

G. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

1. Relate solely to the Interstate Commission's internal personnel practices and procedures;
2. Disclose matters specifically exempted from disclosure by federal and state statute;
3. Disclose trade secrets or commercial or financial information which is privileged or confidential;

4. Involve accusing a person of a crime, or formally censuring a person;

5. Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

6. Disclose investigative records compiled for law enforcement purposes; or

7. Specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

H. Shall cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, which is closed pursuant to this provision. The Interstate Commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. Shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange, and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. Shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission or any member state.

#### ARTICLE X. POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission shall have the following powers:

A. To provide for dispute resolution among member states.

B. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of statutory law and shall be binding in the compact states to the extent and in the manner provided in this compact.

C. To issue, upon request of a member state, advisory opinions concerning the meaning or interpretation of the interstate compact, its bylaws, rules, and actions.

J. To accept any and all donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of it.

K. To lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve or use any property, real, personal, or mixed.

L. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal or mixed.

M. To establish a budget and make expenditures.

N. To adopt a seal and bylaws governing the management and operation of the Interstate Commission.

O. To report annually to the legislatures, governors,

judiciary, and state councils of the member states concerning the activities of the Interstate Commission during the preceding year. Such reports shall also include any recommendations that may have been adopted by the Interstate Commission.

P. To coordinate education, training, and public awareness regarding the compact, its implementation and operation for officials and parents involved in such activity.

Q. To establish uniform standards for the reporting, collecting, and exchanging of data.

R. To maintain corporate books and records in accordance with the bylaws.

S. To perform such functions as may be necessary or appropriate to achieve the purposes of this compact.

T. To provide for the uniform collection and sharing of information between and among member states, schools, and military families under this compact.

#### ARTICLE XI. ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

1. Establishing the fiscal year of the Interstate Commission;

2. Establishing an executive committee, and such other committees as may be necessary;

3. Providing for the establishment of committees and for governing any general or specific delegation of authority or function of the Interstate Commission;

4. Providing reasonable procedures for calling and conducting meetings of the Interstate Commission, and ensuring reasonable notice of each such meeting;

5. Establishing the titles and responsibilities of the officers and staff of the Interstate Commission;

6. Providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations;

7. Providing "start-up" rules for initial administration of the compact.

B. The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice-chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson, shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

C. Executive Committee, Officers, and Personnel

1. The executive committee shall have such authority and duties as may be set forth in the bylaws, including but not limited to:

a. Managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

b. Overseeing an organizational structure within, and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

c. Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

2. The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis

for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

1. The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

2. The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, the member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton

misconduct on the part of such persons.

ARTICLE XII. RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. Rulemaking Authority--The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this Act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

B. Rulemaking Procedure--Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act," of 1981 Act, Uniform Laws Annotated, Volume 15, page 1 (2000), as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

ARTICLE XIII. OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

A. Oversight

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the Interstate Commission.

3. The Interstate Commission shall be entitled to receive

all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

B. Default, Technical Assistance, Suspension, and Termination-- If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the Interstate Commission shall:

1. Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default.

2. Provide remedial training and specific technical assistance regarding the default.

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

5. The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination.

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

C. Dispute Resolution

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states and between member and non-member states.

2. The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement

1. The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. The Interstate Commission may, by majority vote of the members, initiate legal action in the U.S. District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the compact, its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

ARTICLE XIV. FINANCING OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's

annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

#### ARTICLE XV. MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

A. Any state is eligible to become a member state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than ten (10) of the states. The effective date shall be no earlier than December 1, 2007. Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of non-member states or their designees shall be invited to participate in the activities of the Interstate Commission on a non-voting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

#### ARTICLE XVI. WITHDRAWAL AND DISSOLUTION

A. Withdrawal

1. Once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one

(1) year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member jurisdiction.
